Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Early Modern Studies director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Courses applied to the minor that are offered on both the A/F and S/N grade basis must be taken A/F, with a minimum grade of B earned for each.

The minimum cumulative GPA for minor field coursework is 3.0.

Required Courses (4 to 6 credits)
Take the following courses in consultation with the EMS director of graduate studies. Masters students take 1 credit, and doctoral students take 3 credits of EMS 8100. Doctoral students may register for EMS 8100 in any credit combination.
EMS 8250 - Seminar in Early Modern Studies (3.0 cr)
EMS 8100 - Workshop in Early Modern Studies (1.0 - 3.0 cr)

Electives (3 to 6 credits)
Masters students select 3 elective credits, and doctoral students select 6 elective credits from the following to complete minimum credit requirements. Other courses can be applied to this requirement with approval of the EMS director of graduate studies.
ARCH 5423 - Gothic Architecture (3.0 cr)
ARCH 5424 - Renaissance Architecture (3.0 cr)
ARCH 5425 - Baroque Architecture (3.0 cr)
ARTH 5335 - Baroque Rome: Art and Politics in the Papal Capital (3.0 cr)
ARTH 5777 - The Diversity of Traditions: Indian Art 1200 to Present (3.0 cr)
ARTH 5781 - Age of Empire: The Mughals, Safavids, and Ottomans (3.0 cr)
ARTH 5785 - Art of Islamic Iran (3.0 cr)
ARTH 8320 - Seminar: Issues in Early Modern Visual Culture (3.0 cr)
ARTH 8340 - Seminar: Baroque Art (3.0 cr)
CSCL 5281 - European Intellectual History: The Early Modern Period, Antiquity to 1750 (3.0 cr)
EMS 5500 - Topics in Early Modern Studies (3.0 cr)
EMS 8500 - Topics in Early Modern Studies (3.0 cr)
EMS 8993 - Directed Study (1.0 - 6.0 cr)
ENGL 5121 - Readings in Early Modern Literature and Culture (3.0 cr)
ENGL 5140 - Readings in 18th Century Literature and Culture (3.0 cr)
ENGL 8120 - Seminar in Early Modern Literature and Culture (3.0 cr)
ENGL 8150 - Seminar in Shakespeare (3.0 cr)
FREN 8271 - The Rule of Reason, The Reign of Madness: Readings in Early Modern France (3.0 cr)
GER 5712 - History of the German Language II (3.0 cr)
GER 8210 - Seminar in Early Modern German Literature and Culture (3.0 cr)
GER 8220 - Seminar in 18th-Century German Literature and Culture (3.0 cr)
HIST 5281 - European Intellectual History: The Early Modern Period, Antiquity to 1750 (3.0 cr)
HIST 5286 - Galileo and the Beginnings of Modern Science (3.0 cr)
HIST 5379 - Problems in Early American History (3.0 cr)
HIST 5469 - Historiographies of China, 1000-1700 (3.0 cr)
HIST 5547 - Empire and Nations in the Middle East (3.0 cr)
HIST 5612 - New Directions in the Middle Ages, ca. 1100-1500 (3.0 cr)
HIST 5633 - Socio-Economic History of China (3.0 cr)
HIST 5715 - Readings in European Women's History: 1450-1750 (3.0 cr)
HIST 5801 - Seminar in Early American History (3.0 cr)
HIST 5901 - Latin America Proseminar: Colonial (3.0 cr)
HIST 5962 - Bell Library Research Seminar in Comparative World History, ca. 1000-1800 CE (3.0 cr)
HIST 5964 - Comparative Economic History (3.0 cr)
HIST 8715 - Research on European Women's History, 1450-1750 (3.0 cr)
HIST 8801 - Seminar in Early American History (3.0 cr)
HIST 8858 - Research in Early American History (3.0 cr)
HMED 8001 - Foundations in the History of Early Medicine (3.0 cr)
HSCI 8125 - Foundations for Research in the Scientific Revolution (3.0 cr)
HSCI 8900 - Seminar: History of Early Physical Science (3.0 cr)
LAT 5200 - Advanced Reading in Later Latin (3.0 cr)
MUS 5624 - Music of J. S. Bach (3.0 cr)
MUS 8632 - Seminar: Music in Early Modern Europe (3.0 cr)
PHIL 4055 - Kant (3.0 cr)
PHIL 8010 - Workshop in History of Philosophy (1.0 cr)
PHIL 8085 - Seminar: History of Philosophy--Modern Philosophers (3.0 cr)
PHIL 8090 - Seminar: History of Modern Philosophy (3.0 cr)
POL 8252 - Early Modern Political Thought (3.0 cr)
PORT 8520 - Portuguese Literary and Cultural Studies (3.0 cr)
PORT 5530 - Brazilian Literary and Cultural Studies (3.0 cr)
RELS 5612 - Baroque Rome: Art and Politics in the Papal Capital (3.0 cr)
RELS 5721 - North Africa since 1500: Islam, Colonialism, and Independence (3.0 cr)
SPAN 5170 - The Literature of the Spanish Empire and Its Decline (3.0 cr)
SPAN 5180 - Don Quixote (3.0 cr)
SPAN 5190 - The Crisis of the Old Regime: Spanish Literature of the Enlightenment and Romanticism (3.0 cr)
SPAN 5316 - Spanish Picaresque Narratives (3.0 cr)
SPAN 8212 - Spanish Theater of the 16th Century: Drama up to Lope (3.0 cr)
SPAN 8223 - The Poetry of the Spanish Golden Age (3.0 cr)
SPAN 8312 - Two Spanish Masterpieces: [Libro de Buen Amor] and [La Celestina] (3.0 cr)
SPPT 8400 - Topics in Modern Hispanic and Lusophone Culture (3.0 cr)
TH 8112 - History and Theory of Western Theatre: Medieval Through Renaissance (3.0 cr)
TH 8113 - History and Theory of Western Theatre: National Theatres to the French Revolution (3.0 cr)
Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Twin Cities Campus
Economics M.A.
Economics
College of Liberal Arts

Website: https://cla.umn.edu/economics/graduate

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Arts

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Note: Students are admitted only for the PhD in economics; the MA is an optional part of the PhD program.

The economics graduate program offers degree work in both theoretical and applied fields of economics with an emphasis on quantitative economic analysis. The strong quantitative component in this degree emphasizes multivariate calculus, linear algebra, and econometrics (statistical methods of economic data). Economics coursework consists of microeconomic theory, macroeconomic theory, economic growth, price theory, cost-benefit analysis, econometrics, economic modeling and forecasting, industrial organization, economic development, game theory, optimization theory, and financial, computational, international, mathematical, monetary, public, and labor economics. Fields of specialization and written preliminary examinations include microeconomic theory, macroeconomic theory, econometrics, economic growth and development, financial economics, game theory, computational economics, industrial organization, labor economics, international economics, mathematical economics, monetary economics, and public economics.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Note: The Economics graduate program does not accept applications directly to the MA; rather, the MA is an additional or alternative credential for students admitted to the Economics PhD program.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Plan B: Plan B requires 24 major credits and 6 credits outside the major. The final exam is written. A capstone project is required.
Capstone Project: Two Plan B projects consisting of research papers or literature reviews are required; the PhD written preliminary exams required in two fields outside of economic theory ("field exams") may be used to satisfy either or both of the Plan B projects.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

Coursework offered on both the A/F and S/N grade basis must be taken A/F, with a minimum grade of C+ earned for each.

Required Core Courses (16 Credits)
Take the following courses for 16 credits:

**ECON 8101 - Microeconomic Theory (2.0 cr)**
**ECON 8102 - Microeconomic Theory (2.0 cr)**
**ECON 8103 - Microeconomic Theory (2.0 cr)**
**ECON 8104 - Microeconomic Theory (2.0 cr)**
**ECON 8105 - Macroeconomic Theory (2.0 cr)**
**ECON 8106 - Macroeconomic Theory (2.0 cr)**
**ECON 8107 - Macroeconomic Theory (2.0 cr)**
**ECON 8108 - Macroeconomic Theory (2.0 cr)**

**Economics Electives (8 Credits)**
Select at least 8 credits of electives in consultation with the director of graduate studies.

**ECON 8117 - Noncooperative Game Theory (2.0 cr)**
**ECON 8118 - Noncooperative Game Theory (2.0 cr)**
**ECON 8181 - Advanced Topics in Microeconomics (2.0 cr)**
**ECON 8182 - Advanced Topics in Microeconomics (2.0 cr)**
**ECON 8185 - Advanced Topics in Macroeconomics (2.0 cr)**
**ECON 8186 - Advanced Topics in Macroeconomics (2.0 cr)**
**ECON 8205 - Applied Econometrics (2.0 cr)**
**ECON 8206 - Applied Econometrics (2.0 cr)**
**ECON 8207 - Applied Econometrics (2.0 cr)**
**ECON 8208 - Applied Econometrics (2.0 cr)**
**ECON 8311 - Economic Growth and Development (2.0 cr)**
**ECON 8312 - Economic Growth and Development (2.0 cr)**
**ECON 8401 - International Trade and Payments Theory (2.0 cr)**
**ECON 8402 - International Trade and Payments Theory (2.0 cr)**
**ECON 8403 - International Trade and Payments Theory (2.0 cr)**
**ECON 8501 - Wages and Employment (2.0 cr)**
**ECON 8502 - Wages and Employment (2.0 cr)**
**ECON 8503 - Wages and Employment (2.0 cr)**
**ECON 8581 - Advanced Topics in Labor Economics (2.0 cr)**
**ECON 8582 - Advanced Topics in Labor Economics (2.0 cr)**
**ECON 8601 - Industrial Organization and Government Regulation (2.0 cr)**
**ECON 8602 - Industrial Organization and Government Regulation (2.0 cr)**
**ECON 8603 - Industrial Organization and Government Regulation (2.0 cr)**
**ECON 8701 - Monetary Economics (2.0 cr)**
**ECON 8702 - Monetary Economics (2.0 cr)**
**ECON 8703 - Monetary Economics (2.0 cr)**
**ECON 8704 - Financial Economics (2.0 cr)**
**ECON 8705 - Financial Economics (2.0 cr)**
**ECON 8801 - Public Economics (2.0 cr)**
**ECON 8802 - Public Economics (2.0 cr)**
**ECON 8803 - Public Economics (2.0 cr)**

**Outside Coursework (6 Credits)**
Take at least 6 credits outside the major. Courses are selected in consultation with the director of graduate studies.

**CSCI 5302 - Analysis of Numerical Algorithms (3.0 cr)**
**CSCI 5512 - Artificial Intelligence II (3.0 cr)**
**CSCI 5521 - Introduction to Machine Learning (3.0 cr)**
**CSCI 5523 - Introduction to Data Mining (3.0 cr)**
**CSCI 5525 - Machine Learning (3.0 cr)**
**CSCI 5715 - From GPS and Virtual Globes to Spatial Computing (3.0 cr)**
**CSCI 5801 - Software Engineering I (3.0 cr)**
**CSCI 8115 - Human-Computer Interaction and User Interface Technology (3.0 cr)**
**FINA 8802 - Theory of Capital Markets I: Discrete Time (2.0 cr)**
**FINA 8803 - Theory of Capital Markets II: Continuous Time (2.0 cr)**
**FINA 8810 - Topics in Asset Pricing (2.0 cr)**
**FINA 8812 - Corporate Finance I (2.0 cr)**
**FINA 8820 - Topics in Corporate Finance (2.0 cr)**
**IE 8534 - Advanced Topics in Operations Research (4.0 cr)**
**MATH 5485 - Introduction to Numerical Methods I (4.0 cr)**
**MATH 5486 - Introduction To Numerical Methods II (4.0 cr)**
**MATH 5615H - Honors: Introduction to Analysis I (4.0 cr)**
**MATH 5616H - Honors: Introduction to Analysis II (4.0 cr)**
**MATH 5651 - Basic Theory of Probability and Statistics (4.0 cr)**

• Program Type: Graduate minor related to major
• Requirements for this program are current for Fall 2020
• Length of program in credits (Masters): 6
• Length of program in credits (Doctorate): 12
• This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The economics graduate program offers degree work in both theoretical and applied fields of economics with an emphasis on quantitative economic analysis. The strong quantitative component in this degree emphasizes multivariate calculus, linear algebra, and econometrics (statistical methods of economic data). Economics coursework consists of microeconomic theory, macroeconomic theory, economic growth, price theory, cost-benefit analysis, econometrics, economic modelling and forecasting, industrial organization, economic development, game theory, optimization theory, and financial, computational, international, mathematical, monetary, public, and labor economics. Fields of specialization and written preliminary examinations include microeconomic theory, macroeconomic theory, econometrics, economic growth and development, financial economics, game theory, computational economics, industrial organization, labor economics, international economics, mathematical economics, monetary economics, and public economics.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the Economics minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Economics director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

All courses must be taken A/F and completed with grades of B or better (one 8xxx-level course may carry a grade of C).

The minimum cumulative GPA for minor field coursework is 3.0.

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters
All coursework must be pre-approved by the Economics director of graduate studies. Students without previous coursework equivalent to the 4-level economic theory courses must take at least 4 credits of 4-level micro analysis, 4-level macro theory, 8-level micro theory, or 8-level macro theory coursework.
**Coursework (6 credits)**
Select 6 credits from the following in consultation with the Economics director of graduate studies:

- **ECON 4161** - Microeconomic Analysis I (2.0 cr)
- **ECON 4162** - Microeconomic Analysis II (2.0 cr)
- **ECON 4163** - Microeconomic Analysis III (2.0 cr)
- **ECON 4164** - Microeconomic Analysis IV (2.0 cr)
- **ECON 4165** - Macroeconomic Theory (2.0 cr)
- **ECON 4166** - Macroeconomic Theory (2.0 cr)
- **ECON 4167** - Macroeconomic Theory (2.0 cr)
- **ECON 4168** - Macroeconomic Theory (2.0 cr)
- **ECON 8101** - Microeconomic Theory (2.0 cr)
- **ECON 8102** - Microeconomic Theory (2.0 cr)
- **ECON 8103** - Microeconomic Theory (2.0 cr)
- **ECON 8104** - Microeconomic Theory (2.0 cr)
- **ECON 8105** - Macroeconomic Theory (2.0 cr)
- **ECON 8106** - Macroeconomic Theory (2.0 cr)
- **ECON 8107** - Macroeconomic Theory (2.0 cr)
- **ECON 8108** - Macroeconomic Theory (2.0 cr)

**Doctoral**
All courses must be selected in consultation with the Economics director of graduate studies.

**Sequence Requirement (8 credits)**
Select 8 credits from the following in consultation with the Economics director of graduate studies:

- **Microeconomic Theory Sequence**
  - **ECON 8101** - Microeconomic Theory (2.0 cr)
  - **ECON 8102** - Microeconomic Theory (2.0 cr)
  - **ECON 8103** - Microeconomic Theory (2.0 cr)
  - **ECON 8104** - Microeconomic Theory (2.0 cr)
- **Macroeconomic Theory Sequence**
  - **ECON 8105** - Macroeconomic Theory (2.0 cr)
  - **ECON 8106** - Macroeconomic Theory (2.0 cr)
  - **ECON 8107** - Macroeconomic Theory (2.0 cr)
  - **ECON 8108** - Macroeconomic Theory (2.0 cr)

**Electives (4 credits)**
Select 4 credits from the following course sequences in consultation with the Economics director of graduate studies. Selected coursework must be taken in the order in which its sequence is offered.

- **ECON 8117** - Noncooperative Game Theory (2.0 cr)
- **ECON 8118** - Noncooperative Game Theory (2.0 cr)
- **ECON 8205** - Applied Econometrics (2.0 cr)
- **ECON 8206** - Applied Econometrics (2.0 cr)
- **ECON 8207** - Applied Econometrics (2.0 cr)
- **ECON 8208** - Applied Econometrics (2.0 cr)
- **ECON 8311** - Economic Growth and Development (2.0 cr)
- **ECON 8312** - Economic Growth and Development (2.0 cr)
- **ECON 8401** - International Trade and Payments Theory (2.0 cr)
- **ECON 8402** - International Trade and Payments Theory (2.0 cr)
- **ECON 8403** - International Trade and Payments Theory (2.0 cr)
- **ECON 8501** - Wages and Employment (2.0 cr)
- **ECON 8502** - Wages and Employment (2.0 cr)
- **ECON 8503** - Wages and Employment (2.0 cr)
- **ECON 8601** - Industrial Organization and Government Regulation (2.0 cr)
- **ECON 8602** - Industrial Organization and Government Regulation (2.0 cr)
- **ECON 8603** - Industrial Organization and Government Regulation (2.0 cr)
- **ECON 8701** - Monetary Economics (2.0 cr)
- **ECON 8702** - Monetary Economics (2.0 cr)
- **ECON 8703** - Monetary Economics (2.0 cr)
- **ECON 8704** - Financial Economics (2.0 cr)
- **ECON 8705** - Financial Economics (2.0 cr)
- **ECON 8801** - Public Economics (2.0 cr)
- **ECON 8802** - Public Economics (2.0 cr)
- **ECON 8803** - Public Economics (2.0 cr)

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.50.

Special Application Requirements:
Coursework in linear algebra and multivariate calculus is required.

Applicants must submit their test score(s) from the following:
- GRE
  - General Test - Quantitative Reasoning: 162

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Internet Based - Speaking Score: 23
- IELTS
  - Total Score: 7.5

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (GRE, TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements
24 credits are required in the major.
12 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.20 is required for students to remain in good standing.

At least 3 semesters must be completed before filing a Degree Program Form.

Coursework offered on both the A/F and S/N grade basis must be taken A/F, with a minimum grade of C earned.

The number of courses taken to prepare for the preliminary examinations is determined through consultation with the advisor.

Students may begin doctoral thesis credit registration, with advisor approval starting Year 2 of the program.

Required Core Courses (16 credits)
Take the following courses for 16 credits:
- ECON 8101 - Microeconomic Theory (2.0 cr)
- ECON 8102 - Microeconomic Theory (2.0 cr)
- ECON 8103 - Microeconomic Theory (2.0 cr)
- ECON 8104 - Microeconomic Theory (2.0 cr)
- ECON 8105 - Macroeconomic Theory (2.0 cr)
- ECON 8106 - Macroeconomic Theory (2.0 cr)
- ECON 8107 - Macroeconomic Theory (2.0 cr)
- ECON 8108 - Macroeconomic Theory (2.0 cr)

Electives (8 credits)
Select at least 8 credits from the following in consultation with the advisor:
- ECON 8117 - Noncooperative Game Theory (2.0 cr)
- ECON 8118 - Noncooperative Game Theory (2.0 cr)
- ECON 8181 - Advanced Topics in Microeconomics (2.0 cr)
- ECON 8182 - Advanced Topics in Microeconomics (2.0 cr)
- ECON 8185 - Advanced Topics in Macroeconomics (2.0 cr)
- ECON 8186 - Advanced Topics in Macroeconomics (2.0 cr)
- ECON 8205 - Applied Econometrics (2.0 cr)
- ECON 8206 - Applied Econometrics (2.0 cr)
- ECON 8207 - Applied Econometrics (2.0 cr)
- ECON 8208 - Applied Econometrics (2.0 cr)
- ECON 8311 - Economic Growth and Development (2.0 cr)
- ECON 8312 - Economic Growth and Development (2.0 cr)
- ECON 8401 - International Trade and Payments Theory (2.0 cr)
- ECON 8402 - International Trade and Payments Theory (2.0 cr)
- ECON 8403 - International Trade and Payments Theory (2.0 cr)
- ECON 8501 - Wages and Employment (2.0 cr)

- **Program Type:** Master's
- **Requirements for this program are current for Fall 2020**
- **Length of program in credits:** 30
- **This program does not require summer semesters for timely completion.**
- **Degree:** Master of Arts

Along with the program-specific requirements listed below, please read the [General Information](#) section of the catalog website for requirements that apply to all major fields.

Over the past 20 years, the field of English studies has changed dramatically from a discipline concerned with studying the literary works produced by English speakers in Britain and the United States to encompass writings in English from around the globe. The concerns of literary scholars have broadened to include not only textual analyses but also cultural, social, political, and economic contexts. The field of literature itself now encompasses not only the traditional genres of poetry, prose (fiction and belles-lettres), and drama, but also extra-literary discourses: popular culture, film, television, legal documents, conduct books, and manifestos. The Department of English has been in the forefront of interdisciplinary projects, thanks to the efforts of a faculty committed to research in American studies, medieval studies, feminist studies, film studies, and cultural studies. At the same time, the department maintains the core concerns of the discipline—the traditional study of the literatures and languages in English—as well as develops writers for the present and future through the master of fine arts in creative writing degree. The department is engaged in two simultaneous projects: to preserve the core curriculum and to re-imagine its future shape.

The department offers a master of arts in English language and literature. The MA offers training in the areas of literary history, literary theory and interpretation, language, linguistics, rhetoric, and composition. Students in the MA can develop specific concentrations through consultation with the director of graduate studies.

Course requirements for the MA program are broadly defined, allowing the student to shape a personal program of study. The English program encourages and supports interdisciplinary work.

**Program Delivery**
This program is available:
- via classroom (the majority of instruction is face-to-face)

**Prerequisites for Admission**
The preferred undergraduate GPA for admittance to the program is 3.50.

Other requirements to be completed before admission:
A minimum of four courses in English, three of which must be at the upper-division level, is required for degree program admission. The courses should be widely distributed.

**Special Application Requirements:**
Required admission materials include three letters of recommendation; a short essay explaining scholarly, professional, and personal goals and reason(s) for choosing the University of Minnesota; and a writing sample, such as a course paper. Candidates for all degrees are admitted fall semester only; all materials must be received by December 1st.

International applicants must submit score(s) from one of the following tests:
- **TOEFL**
  - Internet Based - Total Score: 105
- **IELTS**
  - Total Score: 7.5

Information current as of September 04, 2020
Program Requirements

Plan B: Plan B requires 24 major credits and 6 credits outside the major. The final exam is oral. A capstone project is required.

Capstone Project: The Plan B project is made up of three Plan B papers. Each is a tightly argued essay of about 5,000 words, usually a reworking of a paper done originally for a course.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Language Requirement: A reading knowledge of one language.

A minimum GPA of 3.00 is required for students to remain in good standing.

Required Course (3 credits)

Take the following course:

ENGL 5001 - Ph.D. Colloquium: Introduction to Literary Theory and Literary Studies in the Modern University (3.0 cr)

Major Electives (21 credits)

Select two emphases. One emphasis must comprise at least 12 credits and the other at least 9 credits, chosen in consultation with the advisor and director of graduate studies.

ENGL 5020 - Studies in Narrative (3.0 cr)
ENGL 5040 - Theories of Film (3.0 cr)
ENGL 5090 - Readings in Special Subjects (1.0 - 4.0 cr)
ENGL 5110 - Medieval Literatures and Cultures: Intro to Medieval Studies (3.0 cr)
ENGL 5121 - Readings in Early Modern Literature and Culture (3.0 cr)
ENGL 5140 - Readings in 18th Century Literature and Culture (3.0 cr)
ENGL 5150 - Readings in 19th-Century Literature and Culture (3.0 cr)
ENGL 5170 - Readings in 20th-Century Literature and Culture (3.0 cr)
ENGL 5300 - Readings in American Minority Literature (3.0 cr)
ENGL 5501 - Origins of Cultural Studies (3.0 cr)
ENGL 5510 - Readings in Criticism and Theory (3.0 cr)
ENGL 5593 - The African-American Novel (3.0 cr)
ENGL 5597 - Seminar: Harlem Renaissance (3.0 cr)
ENGL 5701 - Great River Review (4.0 cr)
ENGL 5743 - History of Rhetoric and Writing (3.0 cr)
ENGL 5790 - Topics in Rhetoric, Composition, and Language (3.0 cr)
ENGL 5805 - Writing for Publication (3.0 cr)
ENGL 5992 - Directed Readings, Study, or Research (1.0 - 3.0 cr)
ENGL 8090 - Seminar in Special Subjects (3.0 cr)
ENGL 8110 - Seminar: Medieval Literature and Culture (3.0 cr)
ENGL 8120 - Seminar in Early Modern Literature and Culture (3.0 cr)
ENGL 8140 - Seminar in 18th Century Literature and Culture (3.0 cr)
ENGL 8150 - Seminar in Shakespeare (3.0 cr)
ENGL 8170 - Seminar in 19th-Century British Literature and Culture (3.0 cr)
ENGL 8180 - Seminar in 20th-Century British Literature and Culture (3.0 cr)
ENGL 8190 - Seminar in 20th-Century Anglophone Literatures and Cultures (3.0 cr)
ENGL 8200 - Seminar in American Literature (3.0 cr)
ENGL 8290 - Topics, Figures, and Themes in American Literature (3.0 cr)
ENGL 8300 - Seminar in American Minority Literature (3.0 cr)
ENGL 8400 - Seminar in Post-Colonial Literature, Culture, and Theory (3.0 cr)
ENGL 8510 - Studies in Criticism and Theory (3.0 cr)
ENGL 8520 - Seminar: Cultural Theory and Practice (3.0 cr)
ENGL 8530 - Seminar in Feminist Criticism (3.0 cr)
ENGL 8600 - Seminar in Language, Rhetoric, Literacy, and Composition (3.0 cr)
ENGL 8610 - Seminar in Language and Discourse Studies (3.0 cr)
ENGL 8992 - Directed Reading in Language, Literature, Culture, Rhetoric, Composition, or Creative Writing (1.0 - 9.0 cr)

Outside Coursework (6 credits)
Select 6 credits outside the major from the following, in consultation with the director of graduate studies:
AFRO 5866 - The Civil Rights and Black Power Movement, 1954-1984 (3.0 cr)
AMIN 5402 - American Indians and the Cinema [AH, DSJ] (3.0 cr)
CI 5404 - Multicultural Literature for Children and Adolescents (3.0 cr)
CI 8400 - Special Topics in Children’s and Young Adult Literature (1.0 - 6.0 cr)
GER 5xxx
GWSS 8260 - Seminar: Race, Representation and Resistance (3.0 cr)
GWSS 8270 - Seminar: Theories of Body (3.0 cr)

The Department of English has been in the forefront of interdisciplinary projects, thanks to the efforts of a faculty committed to research in American studies, medieval studies, feminist studies, film studies, and cultural studies. At the same time, the department maintains the core concerns of the disciplinethe traditional study of the literatures and languages in Englishas well as develops writers for the present and future through the master of fine arts in creative writing degree. The department is engaged in two simultaneous projects: to preserve the core curriculum and to reimagine its future shape.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission

Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the English director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

The minimum cumulative GPA for minor field coursework is 3.00.

Coursework (6 to 12 credits)
Master's students select 9 credits, and doctoral students select 12 credits from the following in consultation with the English director of graduate studies.
ENGL 5020 - Studies in Narrative (3.0 cr)
ENGL 5040 - Theories of Film (3.0 cr)
ENGL 5090 - Readings in Special Subjects (1.0 - 4.0 cr)
ENGL 5110 - Medieval Literatures and Cultures: Intro to Medieval Studies (3.0 cr)
ENGL 5121 - Readings in Early Modern Literature and Culture (3.0 cr)
ENGL 5140 - Readings in 18th Century Literature and Culture (3.0 cr)

Information current as of September 04, 2020
Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
27 to 33 credits are required in the major.
6 to 12 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Language Requirement: Rdg knowledge of 2 languages, or proficiency in 1

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 4 semesters must be completed before filing a Degree Program Form.

Required Courses (6 Credits)
Take the following courses. Take ENGL 5800 for 3 credits.

<table>
<thead>
<tr>

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2020
- Length of program in credits (Doctorate): 15
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The graduate minor program in Feminist and Critical Sexuality Studies is located in the Department of Gender, Women, and Sexuality Studies (GWSS). The minor is designed for students with widely flexible interests and academic aims looking for advanced graduate academic training in feminist and critical sexuality studies. The program is also designed to provide an interdisciplinary graduate program in GLBTQ studies.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Feminist and Critical Sexuality Studies director of graduate studies regarding feasibility and requirements.

Students must submit a letter of application to the Director of Graduate Studies in the Department of Gender, Women and Sexuality Studies articulating a clear relationship between their doctoral research and the goals, curriculum, and scholarly resources of the minor. A focus or strong interest in interdisciplinary work is preferred.

A prerequisite undergraduate major or minor in gender, women and/or GLBTQ/sexuality studies is preferred. General knowledge of relevant scholarship in some combination of previous coursework, research and writing, and/or organizational activity/experience is expected.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

All coursework applied to the minor must be taken on the A/F grade basis.

The minimum cumulative GPA for minor field coursework is 3.75.

Required Courses (3 credits)
Select one of the following courses in consultation with the Feminist and Critical Sexuality director of graduate studies:
GWSS 8108 - Genealogies of Feminist Theory (3.0 cr)
GWSS 8109 - Feminist Knowledge Production (3.0 cr)

**Electives (12 credits)**
Select courses from the following in consultation with the Feminist and Critical Sexuality director of graduate studies. Other courses may be applied with director of graduate studies approval.

- GWSS 5104 - Transnational Feminist Theory (3.0 cr)
- GWSS 5190 - Topics: Theory, Knowledge, and Power (3.0 cr)
- GWSS 5290 - Topics: Biology, Health, and Environmental Studies (3.0 cr)
- GWSS 5406 - Black Feminist Thought in the American and African Diasporas (3.0 cr)
- GWSS 8103 - Feminist Theories of Knowledge (3.0 cr)
- GWSS 8210 - Seminar: Feminist Theory & Praxis (3.0 cr)
- GWSS 8220 - Seminar: Science, Technology & Environmental Justice (3.0 cr)
- GWSS 8230 - Seminar: Cultural Criticism and Media Studies (3.0 cr)
- GWSS 8250 - Seminar: Nation, State, and Citizenship (1.0 - 3.0 cr)
- GWSS 8260 - Seminar: Race, Representation and Resistance (3.0 cr)
- GWSS 8270 - Seminar: Theories of Body (3.0 cr)
- GWSS 8490 - Seminar: Transnational, Postcolonial, Diaspora (3.0 cr)

**Program Sub-plans**
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

**Doctoral**
**Twin Cities Campus**

**Feminist Studies M.A.**
*Gender, Women and Sexuality*

**College of Liberal Arts**

Link to a list of faculty for this program.

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 40
- This program does not require summer semesters for timely completion.
- Degree: Master of Arts

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Note: The Feminist Studies graduate program does not accept applications directly to the MA; rather, the MA is an additional or alternative credential for students admitted to the Feminist PhD program.

**Program Delivery**
This program is available:
- via classroom (the majority of instruction is face-to-face)

**Prerequisites for Admission**

**Special Application Requirements:**
Note: The Feminist Studies graduate program does not accept applications directly to the MA; rather, the MA is an additional or alternative credential for students admitted to the Feminist PhD program.

International applicants must submit score(s) from one of the following tests:
- **TOEFL**
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Paper Based - Total Score: 550
- **IELTS**
  - Total Score: 6.5
- **MELAB**
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

**Program Requirements**

**Plan B:** Plan B requires 28 major credits and 12 credits outside the major. The final exam is written and oral.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.50 is required for students to remain in good standing.
At least 4 semesters must be completed before filing a Degree Program Form.

**Required Core and Colloquia (16 credits)**

**Required Core (12 credits)**

Take the following courses:

- GWSS 8107 - Feminist Pedagogies (3.0 cr)
- GWSS 8108 - Genealogies of Feminist Theory (3.0 cr)
- GWSS 8109 - Feminist Knowledge Production (3.0 cr)

Take one of the following courses. Students completing GWSS 8997 must take it for 3 credits.

- AMST 8801 - Dissertation Seminar (3.0 cr)
- or DSSC 8211 - Doctoral Research Workshop in Development Studies and Social Change (3.0 cr)
- or GWSS 8997 - Dissertation Seminar (1.0 - 3.0 cr)

**Required Colloquia (4 credits)**

Take GWSS 8996 for 1 credit 4 times for a total of 4 credits.

- GWSS 8996 - Feminist Studies Colloquium (1.0 cr)

**GWSS Seminars (6 credits)**

Select 6 credits from the following:

- GWSS 5104 - Transnational Feminist Theory (3.0 cr)
- GWSS 5406 - Black Feminist Thought in the American and African Diasporas (3.0 cr)
- GWSS 8103 - Feminist Theories of Knowledge (3.0 cr)
- GWSS 8210 - Seminar: Feminist Theory & Praxis (3.0 cr)
- GWSS 8220 - Seminar: Science, Technology & Environmental Justice (3.0 cr)
- GWSS 8230 - Seminar: Cultural Criticism and Media Studies (3.0 cr)
- GWSS 8250 - Seminar: Nation, State, and Citizenship (1.0 - 3.0 cr)
- GWSS 8260 - Seminar: Race, Representation and Resistance (3.0 cr)
- GWSS 8270 - Seminar: Theories of Body (3.0 cr)
- GWSS 8490 - Seminar: Transnational, Postcolonial, Diaspora (3.0 cr)
- GWSS 8993 - Directed Study (1.0 - 6.0 cr)

**Research Methods & Tools (6 credits)**

Take at least 6 credits from the following list. Substitute courses can be applied to this requirement with the approval of the director of graduate studies.

- AMST 8201 - Historical Foundations of American Studies (3.0 cr)
- AMST 8202 - Theoretical Foundations and Current Practice in American Studies (3.0 cr)
- ANTH 8002 - Ethnography: Contemporary Theory and Practice (3.0 cr)
- ANTH 8203 - Research Methods in Social and Cultural Anthropology (3.0 cr)
- GEOG 8290 - Seminar in GIS and Cartography (3.0 cr)
- GWSS 8201 - Feminist Theory and Methods in the Social Sciences (3.0 cr)
- HSPH 8002 - Core Practices in Heritage Studies and Public History (3.0 cr)
- HSPH 8006 - Digital Methods for Heritage Studies & Public History (3.0 cr)
- SOC 8801 - Sociological Research Methods (4.0 cr)

**Outside Coursework (12 credits)**

Take at least 12 credits outside the major in consultation with the advisor.

- AFRO 5101 - Seminar: Introduction to Africa and the African Diaspora (3.0 cr)
- AFRO 5866 - The Civil Rights and Black Power Movement, 1954-1984 (3.0 cr)
- AFRO 8202 - Seminar: Intellectual History of Race (3.0 cr)
- AFRO 8590 - Contemporary Literary and Cultural Studies (3.0 cr)
- AFRO 8910 - Topics in Studies of Africa and the African Diaspora (3.0 cr)
- AMES 5866 - Gender and Sexuality in Modern Arabic Literature (3.0 cr)
- AMES 8001 - Critical Approaches to Asian and Middle Eastern Studies (3.0 cr)
- AMIN 8301 - Critical Indigenous Theory (3.0 cr)
- AMIN 8910 - Topics in American Indian and Indigenous Studies (1.0 - 3.0 cr)
- AMST 8920 - Topics in American Studies (3.0 cr)
- ANTH 8002 - Ethnography: Contemporary Theory and Practice (3.0 cr)
- ANTH 8203 - Research Methods in Social and Cultural Anthropology (3.0 cr)
- ANTH 8810 - Topics in Sociocultural Anthropology (3.0 cr)
- BTHX 8510 - Gender and the Politics of Health (3.0 cr)
- COMM 5211 - Critical Media Studies: Theory and Methods (3.0 cr)
- COMM 8210 - Seminar: Selected Topics in U.S. Electronic Media (3.0 cr)
- COMM 8910 - Advanced Topics in Communication Studies (3.0 cr)
- CSCL 8910 - Advanced Topics in Comparative Literature (3.0 cr)
- DSSC 8112 - Scholarship and Public Responsibility (1.0 cr)
- DSSC 8211 - Doctoral Research Workshop in Development Studies and Social Change (3.0 cr)
DSSC 8310 - Topics in Development Studies and Social Change (1.0 - 3.0 cr)
ENGL 8400 - Seminar in Post-Colonial Literature, Culture, and Theory (3.0 cr)
GEOG 8230 - Theoretical Geography (3.0 cr)
GEOG 8980 - Topics: Geography (1.0 - 3.0 cr)
HSPH 8001 - Who Owns the Past? Common Concerns and Big Questions in Heritage and Public History (3.0 cr)
HSPH 8003 - Race and Indigeneity in Heritage Representation (3.0 cr)
PHIL 8710 - Seminar: Feminist Philosophy (3.0 cr)
POL 8253 - Late Modern Political Thought (3.0 cr)
POL 8260 - Topics in Political Theory (3.0 cr)
SOC 8211 - The Sociology of Race & Racialization (3.0 cr)

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 64
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Ph.D in Feminist Studies is designed to help students develop a high level of competence in feminist theories, research methods, interdisciplinarity, and pedagogies. Our graduates demonstrate a high level of competence in interdisciplinary feminist theories, research methods, and pedagogies. Our graduate program provides a rigorous interdisciplinary education designed to develop well-prepared scholars in the field of feminist studies and gender, women, and sexuality studies. Feminist studies PhD students pursue general and specialized courses in feminist studies while conducting scholarly research and analysis that truly drives change. Our graduate students are scholars, teachers, and activists, bringing to their work remarkable intelligence and a commitment to analyzing how power operates in and across societies, economies, and cultures. To guarantee a high level of interdisciplinary exchange, the program is designed to bring feminist studies doctoral students together with graduate minor students who are pursuing a disciplinary specialty in their own home department. Along with feminist studies, the contribution of queer and trans* studies in regard to gender, sexuality, and biological bodies is also a central component of our graduate program. We offer a wide variety of courses, with emphases in:

- Critical race and transnational feminisms
- Social movements
- Critical gender and sexualities, trans*, and queer studies
- Feminist ethnography and geography
- Feminist health, medicine, and science studies
- Intersections of race, ethnicity, and nationalism

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.50.

Other requirements to be completed before admission:
Preferred but not required:
- Academic training/undergraduate degree in gender, women, and/or sexuality studies, or related field
- Masters degree in gender, women, and sexuality studies or a related field
- Activist or political advocacy in these areas is considered but not required

Special Application Requirements:
Applicants must submit three letters of recommendation, a writing sample, a current curriculum vitae, and a clearly written statement of career interests, goals, and objectives. The application deadline is December 1; all applications are evaluated once each year in December. Graduate study in the program begins in the fall semester following admission.

International applicants must submit score(s) from one of the following tests:

- **TOEFL**
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Paper Based - Total Score: 550
- **IELTS**
  - Total Score: 6.5
- **MELAB**
  - Final score: 80

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

**Program Requirements**

28 credits are required in the major.
12 credits are required outside the major.
24 thesis credits are required.

This program may not be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.50 is required for students to remain in good standing.

At least 4 semesters must be completed before filing a Degree Program Form.

Students may take up to two courses S/N, in consultation with the director of graduate studies

**Interdisciplinary Core and Required Courses (16 credits)**

**Required Core (9 credits)**

Take the following courses:

- GWSS 8107 - Feminist Pedagogies (3.0 cr)
- GWSS 8108 - Genealogies of Feminist Theory (3.0 cr)
- GWSS 8109 - Feminist Knowledge Production (3.0 cr)

**Dissertation Workshop Requirement (3 credits)**

Select one of the following in consultation with the advisor. GWSS 8997, if selected, must be taken for 3 credits.

- GWSS 8997 - Dissertation Seminar (1.0 - 3.0 cr)
- or DSSC 8211 - Doctoral Research Workshop in Development Studies and Social Change (3.0 cr)

**Colloquia Credits (4 credits)**

Take 1 credit of GWSS 8996 for 4 semesters for a total of 4 credits. When registered for GWSS 8996, participation in all colloquium presentations and discussions, and written reflections on the presentations, is required. This course does not count towards the overall S/N limit.

- GWSS 8996 - Feminist Studies Colloquium (1.0 cr)

**GWSS Seminars (6 credits)**

Take 6 credits from the following in consultation with the advisor:

- GWSS 5104 - Transnational Feminist Theory (3.0 cr)
- GWSS 5406 - Black Feminist Thought in the American and African Diasporas (3.0 cr)
- GWSS 8103 - Feminist Theories of Knowledge (3.0 cr)
- GWSS 8210 - Seminar: Feminist Theory & Praxis (3.0 cr)
GWSS 8220 - Seminar: Science, Technology & Environmental Justice (3.0 cr)
GWSS 8230 - Seminar: Cultural Criticism and Media Studies (3.0 cr)
GWSS 8250 - Seminar: Nation, State, and Citizenship (1.0 - 3.0 cr)
GWSS 8260 - Seminar: Race, Representation and Resistance (3.0 cr)
GWSS 8270 - Seminar: Theories of Body (3.0 cr)
GWSS 8490 - Seminar: Transnational, Postcolonial, Diaspora (3.0 cr)
GWSS 8993 - Directed Study (1.0 - 6.0 cr)

Research Methods and Tools (6 credits)
Select at least 6 credits from the list below, or in consultation with the director of graduate studies. Up to 6 of these credits can be applied to the 12-credit requirement for outside coursework.
AMST 8201 - Historical Foundations of American Studies (3.0 cr)
ANTH 8002 - Ethnography: Contemporary Theory and Practice (3.0 cr)
ANTH 8203 - Research Methods in Social and Cultural Anthropology (3.0 cr)
COMM 5211 - Critical Media Studies: Theory and Methods (3.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 30 to 34
- This program does not require summer semesters for timely completion.
- Degree: Master of Arts

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The French program, which offers MA and PhD degrees, covers all areas of French literature and culture from the Middle Ages to the present. Traditional areas of study and scholarship are inflected by the faculty's interests, expertise, and research in areas that are shaping the discipline of French studies. The program, which fosters interdisciplinary research, has particular strengths in literary and cultural studies, critical theory, feminist studies, medieval studies, cinema studies, and francophone studies.

**Program Delivery**
This program is available:
- via classroom (the majority of instruction is face-to-face)

**Prerequisites for Admission**
Other requirements to be completed before admission:
Applicants must submit three letters of recommendation from persons familiar with their scholarship and research potential, a complete set of official transcripts, a sample of their academic writing, evidence of spoken French proficiency (audio sample or phone interview), and a written statement of research interests and goals.

**Special Application Requirements:**
A BA in French (or equivalent), with a literary emphasis, is required for the MA programs. Applicants have generally completed at least 18 credits in French literature and culture. Prospective students whose undergraduate degree is in another field, but who have taken substantial coursework in French and are strongly motivated to pursue literary studies, are invited to contact the director of graduate studies in French.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Paper Based - Total Score: 550
- IELTS
  - Total Score: 6.5
- MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements

Plan A: Plan A requires 18 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is written and oral.

Plan B: Plan B requires 24 major credits and 6 credits outside the major. The final exam is written and oral.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.8 is required for students to remain in good standing.

Courses offered on both the A/F and S/N grade basis must be taken A/F.

Pro-seminar (2 credits)
Take the following course:
FREN 5265 - Graduate Proseminar in French Studies (2.0 cr)

Seminars (12 to 18 credits)
Plan A students select 4 seminars, including at least 1 seminar from 3 of the 4 periods for a total of 12 credits. Plan B students select 6 seminars, including at least 1 seminar from each of the following 4 periods, for a total of 18 credits. Other courses may be substituted with advisor approval.

1500 to 1800
FREN 8200 - Topics in Early Modern French & Francophone Literatures and Cultures (3.0 cr)
FREN 8271 - The Novel of the Ancien Regime (3.0 cr)
FRIT 5240 - Topics in French & Italian Literatures & Cultures (3.0 cr)

1800 to Present
FREN 8210 - Narrative, History, and Memory: Topics (3.0 cr)

FREN 8280 - Ethics and Aesthetics in French and Francophone Writing (3.0 cr)
FREN 8410 - Topics in Quebecois Literature (3.0 cr)
FREN 8420 - Critical Issues: Francophone Literature (3.0 cr)

Other French Culture
FREN 5350 - Topics in Literature and Culture (3.0 cr)

Pedagogy Seminar (3 credits)
Take the following course:
FRIT 5999 - Teaching of French and Italian: Theory and Practice (3.0 cr)

Practicum (1 credits)
Take the following course:
FREN 5995 - Directed Teaching (1.0 cr)

Outside Coursework (6 credits)
Select 6 credits outside the major in consultation with the advisor.

Plan Options

Plan A
Plan A students take 10 master's thesis credits.
FREN 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)
Twin Cities Campus
French Minor
French & Italian
College of Liberal Arts

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 9
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The French program covers all areas of French literature and culture from the Middle Ages to the present. Traditional areas of study and scholarship are inflected by the faculty’s interests, expertise, and research in areas that are shaping the discipline of French studies. The program, which fosters interdisciplinary research, has particular strengths in literary and cultural studies, critical theory, feminist studies, medieval studies, and francophone studies.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the French director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Coursework applied to the minor must be taken on the A/F grade basis, with a minimum grade of B- earned for each course.

Coursework (9 to 12 credits)
Masters students select 9 credits, and doctoral students select 12 credits from the following in consultation with the French director of graduate studies.
FREN 5470 - Post/Colonial Francophone Literatures (3.0 cr)
FREN 8200 - Topics in Early Modern French & Francophone Literatures and Cultures (3.0 cr)
FREN 8210 - Narrative, History, and Memory: Topics (3.0 cr)
FREN 8220 - Staging the Common (3.0 cr)
FREN 8230 - Critical Issues: Criticism and Thought (3.0 - 9.0 cr)
FREN 8240 - Critical Issues: French and Francophone Cinema (3.0 - 9.0 cr)
FREN 8271 - The Novel of the Ancien Regime (3.0 cr)
FREN 8280 - Ethics and Aesthetics in French and Francophone Writing (3.0 cr)
FREN 8291 - Jean Genet's Writings and French Institutions (3.0 cr)
FREN 8371 - The Rule of Reason, The Reign of Madness: Readings in Early Modern France (3.0 cr)
FREN 8410 - Topics in Quebecois Literature (3.0 cr)
FREN 8420 - Critical Issues: Francophone Literature (3.0 cr)
FRIT 5240 - Topics in French & Italian Literatures & Cultures (3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Twin Cities Campus
French Ph.D.
French & Italian
College of Liberal Arts

Link to a list of faculty for this program.

Contact Information:
Department of French and Italian, 314 Folwell Hall, 9 Pleasant Street SE, Minneapolis, MN 55455 (612-626-0418; fax: 612-624-6021).

Website: http://www.frit.umn.edu

• Program Type: Doctorate
• Requirements for this program are current for Fall 2020
• Length of program in credits: 78
• This program does not require summer semesters for timely completion.
• Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The French PhD program covers all areas of French literature and culture from the renaissance to the present. Traditional areas of study and scholarship are inflected by the faculty's interests, expertise, and research in areas that are shaping the discipline of French studies. The program, which fosters interdisciplinary research, has particular strengths in literary and cultural studies, critical theory, feminist studies, early modern studies, cinema studies, disability studies, and francophone studies.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
An MA in French (or equivalent) is required.

Other requirements to be completed before admission:
Applicants have generally completed at least 18 credits in French literature and culture. Prospective students whose undergraduate degree is in another field, but who have taken substantial coursework in French and are strongly motivated to pursue literary studies, are invited to contact the director of graduate studies in French.

Special Application Requirements:
Applicants must submit three letters of recommendation from persons familiar with their scholarship and research potential, a complete set of official transcripts, a sample of their academic writing, and a written statement of research interests and goals. Students may be contacted for evidence of spoken French proficiency (via a phone interview or other). International student applicants should also submit scores for the TOEFL or equivalent English proficiency testing program. The program offers funding packages; see https://cla.umn.edu/french-italian/graduate/funding for information.
Submission of all application materials submission by January 10 ensures consideration for fellowships and graduate instructorships for the next academic year. New teaching assistants and fellowship recipients are only admitted for fall semester; others may be admitted in mid-year.

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Paper Based - Total Score: 550
• IELTS
  - Total Score: 6.5
• MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).
For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

**Program Requirements**

45 credits are required in the major.
9 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Language Requirement: Proficiency in foreign language other than French

A minimum GPA of 2.8 is required for students to remain in good standing.

Courses offered on both the A/F and S/N grade basis must be taken A/F, with a minimum grade of B- earned for each course.

**Required Courses (6 credits)**

Take the following courses:
- FRIT 5999 - Teaching of French and Italian: Theory and Practice (3.0 cr)
- FREN 5995 - Directed Teaching (1.0 cr)
- FREN 5265 - Graduate Proseminar in French Studies (2.0 cr)

**Major Electives (39 credits)**

Select seminars, which must include at least 1 seminar from 3 of the 4 periods, in consultation with the advisor. Other courses may be substituted with advisor approval.

- **1500 to 1800**
  - FREN 8200 - Topics in Early Modern French & Francophone Literatures and Cultures (3.0 cr)
  - FREN 8271 - The Novel of the Ancien Regime (3.0 cr)
  - FRIT 5240 - Topics in French & Italian Literatures & Cultures (3.0 cr)

- **1800 to Present**
  - FREN 8210 - Narrative, History, and Memory: Topics (3.0 cr)
  - FREN 8220 - Staging the Common (3.0 cr)
  - FREN 8291 - Jean Genet’s Writings and French Institutions (3.0 cr)
  - FREN 8371 - The Rule of Reason, The Reign of Madness: Readings in Early Modern France (3.0 cr)

- **Francophone/Global French**
  - FREN 5470 - Post/Colonial Francophone Literatures (3.0 cr)
  - FREN 8230 - Critical Issues: Criticism and Thought (3.0 - 9.0 cr)
  - FREN 8240 - Critical Issues: French and Francophone Cinema (3.0 - 9.0 cr)
  - FREN 8280 - Ethics and Aesthetics in French and Francophone Writing (3.0 cr)
  - FREN 8410 - Topics in Quebecois Literature (3.0 cr)
  - FREN 8420 - Critical Issues: Francophone Literature (3.0 cr)

- **Other French Culture**
  - FREN 5350 - Topics in Literature and Culture (3.0 cr)

**Outside Coursework (9 credits)**

Select 9 credits outside the major in consultation with the advisor. Foreign language credits cannot be applied to this requirement.

**Thesis Credits**

Take 24 doctoral thesis credits.
- FREN 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)
Twin Cities Campus
Geographic Information Science M.G.I.S.

Contact Information:
Department of Geography, 414 Social Sciences Building, 267 19th Avenue South, Minneapolis, MN 55455 (612-624-1498; fax: 612-624-1044)
Email: mgis@umn.edu
Website: http://cla.umn.edu/mgis

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 35
- This program does not require summer semesters for timely completion.
- Degree: Master of Geographic Information Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The professional master of geographic information science (MGIS), administered by the Department of Geography, provides graduate-level work in the theory, applications, and technology of geographic information science (GIS). Courses for the program are divided into three broad categories. Core courses provide the conceptual and theoretical underpinnings for a comprehensive, well-rounded knowledge of GIS; a set of technology courses focuses on specific software and techniques of GIS; and elective courses provide additional breadth to the program by allowing students to take courses related to their area of interest.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Other requirements to be completed before admission:
Completion of a college-level course in statistics and computer programming, either through previous coursework or online (subject to approval by the GIS director of graduate studies), prior to or during the first year of the MGIS program.

Special Application Requirements:
Applicants must submit an application form; transcripts; a clearly written personal statement of career interests and goals; and three letters of recommendation from persons familiar with their academic and/or employment background. The GRE is not required. All materials must be submitted by January 30 for fall semester entrance and by September 1 for spring semester entrance.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Internet Based - Writing Score: 24
  - Internet Based - Reading Score: 22
- IELTS
  - Total Score: 7.5
- MELAB
  - Final score: 84

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements

Plan C: Plan C requires 29 major credits and 6 credits outside the major. There is no final exam.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

Students must complete a professional portfolio, and a set of concluding experiences including a public presentation, an exit survey, and a final meeting with an advisor.

**Required Courses (13 credits)**

Take the following courses in consultation with the advisor. Courses must be taken A/F, with a minimum grade of B- earned for each.

- **FNRM 5131** - Geographical Information Systems (GIS) for Natural Resources (4.0 cr)
- **GIS 5571** - ArcGIS I (3.0 cr)
- **GIS 5572** - ArcGIS II (3.0 cr)
- **GIS 5574** - GIS Project Management and Professional Development (3.0 cr)
- **GIS 5577** - Basic Spatial Analysis (3.0 cr)

**Advanced GIS Focus Courses (6 credits)**

Select at least 3 credits of 5-level coursework and at least 3 credits of 8-level coursework from the following in consultation with the advisor. If FNRM 8205 is selected, it must be taken for 3 credits. If GIS 8990 is selected, it must be taken for 3 credits. Courses must be taken A/F with a minimum grade of B- earned for each.

- **CSCI 5715** - From GPS and Virtual Globes to Spatial Computing (3.0 cr)
- **ESPM 5295** - GIS in Environmental Science and Management (4.0 cr)
- **FNRM 5462** - Advanced Remote Sensing and Geospatial Analysis (3.0 cr)
- **GEOG 5543** - Advanced Geocomputing (3.0 cr)
- **GEOG 5562** - GIS Development Practicum (3.0 cr)
- **GEOG 5563** - Advanced Geographic Information Science (3.0 cr)
- **GEOG 5564** - Urban Geographic Information Science and Analysis (3.0 cr)
- **GEOG 5588** - Advanced Geovisualization (3.0 cr)
- **GEOG 5574** - Web GIS and Services (3.0 cr)
- **GEOG 5577** - Spatial Database Design and Administration (3.0 cr)
- **GEOG 5578** - GIS Programming (3.0 cr)
- **GEOG 6715** - Spatial Data Science Research (3.0 cr)
- **FNRM 8205** - Research Problems: Spatial Data Analysis (1.0 - 5.0 cr)
- **GEOG 8290** - Seminar in GIS and Cartography (3.0 cr)
- **GEOG 8291** - Seminar in GIS, Technology, and Society (3.0 cr)
- **GEOG 8292** - Seminar in GIS: Spatial Analysis and Modeling (3.0 cr)
- **GEOG 8293** - CyberGIS (3.0 cr)
- **GEOG 8294** - Spatiotemporal Modeling and Simulation (3.0 cr)
- **GIS 8990** - Research Problems in GIS (1.0 - 6.0 cr)

**Electives (10 credits)**

Select at least 10 elective credits from the following in consultation with the advisor. Other courses can be applied to this requirement with advisor approval.

- **GEOG 5511** - Principles of Cartography (4.0 cr)
- **GEOG 5531** - Numerical Spatial Analysis (4.0 cr)
- **GEOG 5541** - Principles of Geocomputing (3.0 cr)
- **GEOG 5543** - Advanced Geocomputing (3.0 cr)
- **GEOG 5562** - GIS Development Practicum (3.0 cr)
- **GEOG 5563** - Advanced Geographic Information Science (3.0 cr)
- **GEOG 5564** - Urban Geographic Information Science and Analysis (3.0 cr)
- **GEOG 5588** - Advanced Geovisualization (3.0 cr)
- **GEOG 5551** - Principles of Cartography (4.0 cr)
- **GEOG 5553** - Numerical Spatial Analysis (4.0 cr)
- **GEOG 5554** - Principles of Geocomputing (3.0 cr)
- **GEOG 5556** - Advanced Geovisualization (3.0 cr)
- **GEOG 5557** - Web GIS and Services (3.0 cr)
- **GEOG 5558** - GIS Programming (3.0 cr)
- **GEOG 5562** - GIS Development Practicum (3.0 cr)
- **GEOG 5563** - Advanced Geographic Information Science (3.0 cr)
- **GEOG 5564** - Urban Geographic Information Science and Analysis (3.0 cr)
- **GEOG 5588** - Advanced Geovisualization (3.0 cr)
- **GEOG 5590** - GIS Internship (1.0 - 3.0 cr)
- **GEOG 5591** - GIS Technology and Society (3.0 cr)
- **GEOG 5592** - GIS and Cartography (3.0 cr)
- **GEOG 5593** - Spatial Data Science Research (3.0 cr)
- **GEOG 5594** - Spatiotemporal Modeling and Simulation (3.0 cr)
- **GEOG 5595** - Basic Spatial Analysis (3.0 cr)
GIS 5573 - Introduction to Digital Mapping: ArcGIS Basics (2.0 cr)
GIS 5574 - Web GIS and Services (3.0 cr)
GIS 5576 - Spatial Digital Humanities (3.0 cr)
GIS 5577 - Spatial Database Design and Administration (3.0 cr)
GIS 5578 - GIS Programming (3.0 cr)
GIS 5590 - Special Topics in GIS (3.0 cr)
GIS 8990 - Research Problems in GIS (1.0 - 6.0 cr)

Outside Coursework (6 credits)
Select at least 6 credits from the following in consultation with the advisor. Digital Archaeology must be taken if Anth 5980 is chosen.

ANTH 5980 - Topics in Anthropology (3.0 cr)
CSCI 4041 - Algorithms and Data Structures (4.0 cr)
CSCI 4131 - Internet Programming (3.0 cr)
CSCI 4707 - Practice of Database Systems (3.0 cr)
CSCI 5521 - Introduction to Machine Learning (3.0 cr)
CSCI 5523 - Introduction to Data Mining (3.0 cr)
CSCI 5561 - Computer Vision (3.0 cr)
CSCI 5715 - From GPS and Virtual Globes to Spatial Computing (3.0 cr)
CSCI 8715 - Spatial Data Science Research (3.0 cr)
ESPM 5031 - Applied Global Positioning Systems for Geographic Information Systems (3.0 cr)
ESPM 5295 - GIS in Environmental Science and Management (4.0 cr)
FNRM 5114 - Hydrology and Watershed Management (3.0 cr)
FNRM 5216 - Geodesy, Coordinate, and Surveying Calculations for GIS Professionals (1.0 cr)
FNRM 5228 - Advanced Topics in Assessment and Modeling of Forests (3.0 cr)
FNRM 5262 - Remote Sensing and Geospatial Analysis of Natural Resources and Environment (3.0 cr)
FNRM 5362 - Drones: Data, Analysis, and Operations (3.0 cr)
FNRM 5462 - Advanced Remote Sensing and Geospatial Analysis (3.0 cr)
FNRM 6205 - Research Problems: Spatial Data Analysis (1.0 - 5.0 cr)
GDES 5341 - Interaction Design (3.0 cr)
GDES 5342 - Advanced Web Design (3.0 cr)
GDES 5371 - Data Visualization Studio (3.0 cr)
IDSC 4431 - Advanced Database Design (2.0 cr)
IDSC 6040 - Information Technology Management (2.0 cr)
IDSC 6423 - Enterprise Systems (2.0 cr)
INET 4061 - Data Science I: Fundamentals (4.0 cr)
INET 4707 - Introduction to Databases (4.0 cr)
INET 4710 - Data Science II: Big Data Analytics (4.0 cr)
MOT 5001 - Technological Business Fundamentals (2.0 cr)
MOT 5002 - Creating Technological Innovation (2.0 cr)
MSBA 6310 - Programming for Data Science (3.0 cr)
MSBA 6320 - Data Management, Databases, and Data Warehousing (3.0 cr)
MSBA 6330 - Big Data Analytics (3.0 cr)
MSBA 6410 - Exploratory Data Analytics and Visualization (3.0 cr)
PA 5231 - Transit Planning and Management (3.0 cr)
PA 5271 - Geographic Information Systems: Applications in Planning and Policy Analysis (3.0 cr)
PA 5928 - Data Management and Visualization with R (1.0 cr)
PA 5929 - Data Visualization: Telling Stories with Numbers (2.0 cr)
VMED 5181 - Spatial Analysis in Infectious Disease Epidemiology (3.0 cr)
Twin Cities Campus

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 9
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The professional master of geographic information science (MGIS), administered by the Department of Geography, offers a master's and doctoral minor.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
The Geographic Information Science (GIS) minor is available to University masters and doctoral students.
Students interested in the minor are strongly encouraged to confer first with their major field advisor and director of graduate studies, and the GIS director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

The minor is developed in consultation with the Geographic Information Science director of graduate studies.

Coursework that is offered on both the A/F and S/N grade basis must be taken A/F, with a minimum grade of B- earned. The minimum cumulative GPA for the minor field coursework is 3.00.

Required Course (3-4 credits)
Select 1 of the following introductory courses. Students who have completed an introductory GIS course may substitute a 3-credit course with approval of the GIS director of graduate studies.
GEOG 5561 - Principles of Geographic Information Science (4.0 cr)
or FNRM 5131 - Geographical Information Systems (GIS) for Natural Resources (4.0 cr)

Electives
Select credits in consultation with the GIS director of graduate studies to meet the 9-credit minimum for the masters minor or 12-credit minimum for the doctoral minor. Digital Archaeology is required if ANTH 5980 is chosen.
ANTH 5980 - Topics in Anthropology (3.0 cr)
CSCI 5715 - From GPS and Virtual Globes to Spatial Computing (3.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Arts

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The geography graduate program at the University of Minnesota reflects the intellectual breadth of the discipline by maintaining strengths in the broad areas of human geography, physical geography, nature-society relationships, and geographic information science. Faculty and students are engaged in teaching and research both within and across these broad areas as evidenced by prominent research themes within the program: culture, place, and flow; environmental change; geographies of the information society; geovisualization; globalization and uneven development; governance, citizenship, and justice; metropolis and world; and nature and society. To support students in gaining both depth and breadth within the discipline, the program is highly individualized with a limited number of requirements. Students work with their advisers to design individual programs suited to their educational and professional goals.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.50.

Undergraduate degrees need not be from a program in geography. However, students whose previous work is not in geography may be asked to complete specific courses that do not provide graduate credit.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Internet Based - Writing Score: 24
  - Internet Based - Reading Score: 22
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7
- MELAB
  - Final score: 84

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements

Plan A: Plan A requires 14 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is written and oral.

Plan B: Plan B requires 24 major credits and 6 credits outside the major. The final exam is oral. A capstone project is required.

Capstone Project: Three Plan B papers are required. These papers have the quality but not the scope of a master's thesis, and usually are enhanced versions of research papers done in connection with coursework and seminars.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.80 is required for students to remain in good standing.

Required Courses (4 credits)
Take the following courses:
- GEOG 8001 - Problems in Geographic Thought (3.0 cr)
- GEOG 8405 - Seminar: Graduate Student Professional Development (1.0 cr)

Methods Course (4 credits)
Take at least 4 credits of methods coursework, chosen in consultation with the advisor.

Major Electives (6 to 16 credits)
All students select 6 8xxx-level credits, and Plan B students select at least 10 additional credits from the following in consultation with the advisor:
- GEOG 8001 - Problems in Geographic Thought (3.0 cr)
- GEOG 8002 - Research Methods in Geography (3.0 cr)
- GEOG 8005 - Proseminar: Population Geography (3.0 cr)
- GEOG 8006 - Proseminar: Research Methods in Geography (3.0 cr)
- GEOG 8007 - Proseminar: Theories of Development and Change (3.0 cr)
- GEOG 8020 - Research Seminar: Economic Geography (3.0 cr)
- GEOG 8101 - Proseminar: Nature and Society (3.0 cr)
- GEOG 8102 - Proseminar: The State, the Economy, and Spatial Development (3.0 cr)
- GEOG 8103 - Proseminar: Physical Geography (3.0 cr)
- GEOG 8105 - Proseminar: Historical Geography (3.0 cr)
- GEOG 8106 - Seminar: Social and Cultural Geography (3.0 cr)
- GEOG 8107 - Geographic Writing (3.0 cr)
- GEOG 8200 - Seminar: Urban Geography (2.0 - 3.0 cr)
- GEOG 8201 - Explorations in the Geography of Minnesota (3.0 cr)
- GEOG 8211 - Federal Policy Research (3.0 cr)
- GEOG 8212 - Africa (3.0 cr)
- GEOG 8213 - East Asia and China (3.0 cr)
- GEOG 8214 - South Asia (3.0 cr)
- GEOG 8220 - Agrarian Change and Rural Development (3.0 cr)
- GEOG 8230 - Theoretical Geography (3.0 cr)
- GEOG 8240 - Medical Geography (3.0 cr)
- GEOG 8260 - Seminar: Physical Geography (2.0 cr)
- GEOG 8270 - Seminar: Climatology (3.0 cr)
- GEOG 8280 - Biogeography (3.0 cr)
- GEOG 8290 - Seminar in GIS and Cartography (3.0 cr)
- GEOG 8291 - Seminar in GIS, Technology, and Society (3.0 cr)
- GEOG 8292 - Seminar in GIS: Spatial Analysis and Modeling (3.0 cr)
- GEOG 8293 - CyberGIS (3.0 cr)
- GEOG 8294 - Spatiotemporal Modeling and Simulation (3.0 cr)
- GEOG 8301 - Advanced Qualitative Methods (3.0 cr)
- GEOG 8302 - Research Development (3.0 cr)
- GEOG 8336 - Development Theory and the State (3.0 cr)
- GEOG 8350 - Seminar: World Population (3.0 cr)
- GEOG 8420 - Teaching Practicum (1.0 cr)
- GEOG 8800 - Seminar: Development of Geographic Thought (3.0 cr)
- GEOG 8970 - Directed Readings (1.0 - 5.0 cr)
- GEOG 8980 - Topics: Geography (1.0 - 3.0 cr)

Outside Coursework (6 credits)
Select 6 credits from the following in consultation with the advisor. Other courses may be applied to this requirement with advisor's approval.
Plan Options

Plan A

Thesis Credits
Take 10 master's thesis credits.

GEOG 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

• Program Type: Graduate minor related to major
• Requirements for this program are current for Fall 2020
• Length of program in credits (Masters): 9
• Length of program in credits (Doctorate): 12
• This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The geography graduate program at Minnesota reflects the intellectual breadth of the discipline by maintaining strengths in the broad areas of human geography, physical geography, nature-society relationships, and geographic information science.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Geography director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

The minor must be developed in consultation with a faculty advisor, who is selected in consultation with the Geography director of graduate studies.

The minimum cumulative GPA is 3.0 for minor field coursework applied to the PhD-level minor.

Coursework (9 to 12 credits)
Master's students select 9 credits, and doctoral students select 12 credits from the following in consultation with the Geography director of graduate studies:
GEOG 5361 - Geography and Real Estate (4.0 cr)
GEOG 5374 - The City in Film (4.0 cr)
GEOG 5385 - Globalization and Development: Political Economy (4.0 cr)
GEOG 5393 - Rural Landscapes and Environments (4.0 cr)
GEOG 5401 - Geography of Environmental Systems and Global Change (3.0 cr)
GEOG 5426 - Climatic Variations (3.0 cr)
GEOG 5431 - Plant and Animal Geography (3.0 cr)
GEOG 5511 - Principles of Cartography (4.0 cr)
GEOG 5530 - Cartography Internship (2.0 - 7.0 cr)
GEOG 5531 - Numerical Spatial Analysis (4.0 cr)
GEOG 5541 - Principles of Geocomputing (3.0 cr)
GEOG 5543 - Advanced Geocomputing (3.0 cr)
GEOG 5561 - Principles of Geographic Information Science (4.0 cr)
GEOG 5562 - GIS Development Practicum (3.0 cr)
GEOG 5564 - Urban Geographic Information Science and Analysis (3.0 cr)
GEOG 5568 - Advanced Geovisualization (3.0 cr)
GEOG 5839 - Introduction to Dendrochronology (3.0 cr)
GEOG 5900 - Topics in Geography (3.0 cr)
GEOG 8001 - Problems in Geographic Thought (3.0 cr)
GEOG 8002 - Research Methods in Geography (3.0 cr)
GEOG 8005 - Proseminar: Population Geography (3.0 cr)
GEOG 8006 - Proseminar: Research Methods in Geography (3.0 cr)
GEOG 8007 - Proseminar: Theories of Development and Change (3.0 cr)
GEOG 8020 - Research Seminar: Economic Geography (3.0 cr)
GEOG 8101 - Proseminar: Nature and Society (3.0 cr)
GEOG 8102 - Proseminar: The State, the Economy, and Spatial Development (3.0 cr)
GEOG 8103 - Proseminar: Physical Geography (3.0 cr)
GEOG 8105 - Proseminar: Historical Geography (3.0 cr)
GEOG 8106 - Seminar: Social and Cultural Geography (3.0 cr)
GEOG 8107 - Geographic Writing (3.0 cr)
GEOG 8200 - Seminar: Urban Geography (2.0 - 3.0 cr)
GEOG 8201 - Explorations in the Geography of Minnesota (3.0 cr)
GEOG 8211 - Federal Policy Research (3.0 cr)
GEOG 8212 - Africa (3.0 cr)
GEOG 8214 - South Asia (3.0 cr)
GEOG 8220 - Agrarian Change and Rural Development (3.0 cr)
GEOG 8230 - Theoretical Geography (3.0 cr)
GEOG 8240 - Medical Geography (3.0 cr)
GEOG 8260 - Seminar: Physical Geography (2.0 cr)
GEOG 8270 - Seminar: Climatology (3.0 cr)
GEOG 8280 - Biogeography (3.0 cr)
GEOG 8290 - Seminar in GIS and Cartography (3.0 cr)
GEOG 8291 - Seminar in GIS, Technology, and Society (3.0 cr)
GEOG 8292 - Seminar in GIS: Spatial Analysis and Modeling (3.0 cr)
GEOG 8293 - CyberGIS (3.0 cr)
GEOG 8294 - Spatiotemporal Modeling and Simulation (3.0 cr)
GEOG 8301 - Advanced Qualitative Methods (3.0 cr)
GEOG 8302 - Research Development (3.0 cr)
GEOG 8336 - Development Theory and the State (3.0 cr)
GEOG 8350 - Seminar: World Population (3.0 cr)
GEOG 8405 - Seminar: Graduate Student Professional Development (1.0 cr)
GEOG 8420 - Teaching Practicum (1.0 cr)
GEOG 8800 - Seminar: Development of Geographic Thought (3.0 cr)
GEOG 8970 - Directed Readings (1.0 - 5.0 cr)
GEOG 8980 - Topics: Geography (1.0 - 3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Twin Cities Campus
Geography Ph.D.
Geography, Environment, Society
College of Liberal Arts

Link to a list of faculty for this program.

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 52
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The geography graduate program at Minnesota reflects the intellectual breadth of the discipline by maintaining strengths in the broad areas of human geography, physical geography, nature-society relationships, and geographic information science. Faculty and students are engaged in teaching and research both within and across these broad areas as evidenced by prominent research themes within the program: culture, place, and flow; environmental change; geographies of the information society; geovisualization; globalization and uneven development; governance, citizenship, and justice; metropolis and world; and nature and society. To support students in gaining both depth and breadth within the discipline, the program is highly individualized with a limited number of requirements. Students work with their advisers to design individual programs suited to their educational and professional goals.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.50.

Undergraduate degrees need not be from a program in geography. However, students whose previous work is not in geography may be asked to complete specific courses that do not provide graduate credit.

Graduate degrees need not be from a program in geography. However, students whose previous work is not in geography may be asked to complete specific courses that do not provide graduate credit.

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 100
  - Internet Based - Writing Score: 24
  - Internet Based - Reading Score: 22
  - Paper Based - Total Score: 600
• IELTS
  - Total Score: 7
• MELAB
  - Final score: 84

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements
16 credits are required in the major.
12 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

Required Courses (4 credits)
Take the following courses, preferably during the first year of study:
GEOG 8001 - Problems in Geographic Thought (3.0 cr)
GEOG 8405 - Seminar: Graduate Student Professional Development (1.0 cr)

Methods Course (3 credits)
Select 3 credits of methods coursework in consultation with the advisor and subject to director of graduate studies approval.

Proposal-writing Course (3 credits)
Take the following course. Other coursework may be applied to this requirement with director of graduate studies approval.
GEOG 8302 - Research Development (3.0 cr)

Major Electives (6 credits)
Select 6 credits from the following, at least 3 credits of which must be from a GEOG 82xx course. Other coursework may be applied to this requirement with advisor approval.
GEOG 8101 - Proseminar: Nature and Society (3.0 cr)
GEOG 8102 - Proseminar: The State, the Economy, and Spatial Development (3.0 cr)
GEOG 8103 - Proseminar: Physical Geography (3.0 cr)
GEOG 8105 - Proseminar: Historical Geography (3.0 cr)
GEOG 8106 - Seminar: Social and Cultural Geography (3.0 cr)
GEOG 8107 - Geographic Writing (3.0 cr)
GEOG 8200 - Seminar: Urban Geography (2.0 - 3.0 cr)
GEOG 8201 - Explorations in the Geography of Minnesota (3.0 cr)
GEOG 8211 - Federal Policy Research (3.0 cr)
GEOG 8212 - Africa (3.0 cr)
GEOG 8213 - East Asia and China (3.0 cr)
GEOG 8214 - South Asia (3.0 cr)
GEOG 8220 - Agrarian Change and Rural Development (3.0 cr)
GEOG 8230 - Theoretical Geography (3.0 cr)
GEOG 8240 - Medical Geography (3.0 cr)
GEOG 8260 - Seminar: Physical Geography (2.0 cr)
GEOG 8270 - Seminar: Climatology (3.0 cr)
GEOG 8280 - Biogeography (3.0 cr)
GEOG 8290 - Seminar in GIS and Cartography (3.0 cr)
GEOG 8291 - Seminar in GIS, Technology, and Society (3.0 cr)
GEOG 8292 - Seminar in GIS: Spatial Analysis and Modeling (3.0 cr)
GEOG 8293 - CyberGIS (3.0 cr)
GEOG 8294 - Spatiotemporal Modeling and Simulation (3.0 cr)
GEOG 8301 - Advanced Qualitative Methods (3.0 cr)
GEOG 8302 - Research Development (3.0 cr)
GEOG 8336 - Development Theory and the State (3.0 cr)
GEOG 8350 - Seminar: World Population (3.0 cr)
GEOG 8405 - Seminar: Graduate Student Professional Development (1.0 cr)
GEOG 8420 - Teaching Practicum (1.0 cr)
GEOG 8800 - Seminar: Development of Geographic Thought (3.0 cr)
GEOG 8970 - Directed Readings (1.0 - 5.0 cr)
GEOG 8980 - Topics: Geography (1.0 - 3.0 cr)

Outside Coursework (12 credits)
Select 12 credits in consultation with the advisor.
AMST 8920 - Topics in American Studies (3.0 cr)
ANTH 8203 - Research Methods in Social and Cultural Anthropology (3.0 cr)
ANTH 8810 - Topics in Sociocultural Anthropology (3.0 cr)
DSSC 8111 - Approaches to Knowledge and Truth: Ways of Knowing in Development Studies and Social Change (3.0 cr)
DSSC 8112 - Scholarship and Public Responsibility (1.0 cr)
DSSC 8211 - Doctoral Research Workshop in Development Studies and Social Change (3.0 cr)
DSSC 8310 - Topics in Development Studies and Social Change (1.0 - 3.0 cr)
ESCI 5980 - Seminar: Current Topics in Earth Sciences (1.0 - 4.0 cr)
GIS 5513 - Geographical Information Systems (GIS) for Natural Resources (4.0 cr)
GIS 5555 - Basic Spatial Analysis (3.0 cr)
GIS 5571 - ArcGIS I (3.0 cr)
GIS 5572 - ArcGIS II (3.0 cr)
GIS 5574 - Web GIS and Services (3.0 cr)
GIS 5577 - Spatial Database Design and Administration (3.0 cr)
GIS 5590 - Special Topics in GIS (3.0 cr)
GLOS 5900 - Topics in Global Studies (1.0 - 4.0 cr)
GRAD 5105 - Practicum in University Teaching for Nonnative English Speakers (1.0 - 2.0 cr)
GRAD 8101 - Teaching in Higher Education (3.0 cr)
GRAD 8200 - Teaching and Learning Topics in Higher Education (1.0 cr)
GRAD 8401 - Dissertation Proposal Development Seminar (3.0 cr)
GWSS 8108 - Genealogies of Feminist Theory (3.0 cr)
GWSS 8210 - Seminar: Feminist Theory & Praxis (3.0 cr)
GWSS 8220 - Seminar: Science, Technology & Environmental Justice (3.0 cr)
GWSS 8260 - Seminar: Race, Representation and Resistance (3.0 cr)
GWSS 8270 - Seminar: Theories of Body (3.0 cr)
GWSS 8490 - Seminar: Transnational, Postcolonial, Diaspora (3.0 cr)
HIST 5910 - Topics in U.S. History (1.0 - 4.0 cr)
HIST 5960 - Topics in History (1.0 - 4.0 cr)
HIST 5993 - Directed Study (1.0 - 16.0 cr)
HIST 8920 - Topics in African History (1.0 - 4.0 cr)
HIST 8960 - Topics in History (1.0 - 4.0 cr)
HIST 8970 - Advanced Research in Quantitative History (3.0 cr)
HIST 8993 - Directed Study (1.0 - 16.0 cr)
HSCI 5211 - Biology and Culture in the 19th and 20th Centuries [CIV] (3.0 cr)
PA 5790 - Topics in Science, Technology, and Environmental Policy (1.0 - 3.0 cr)
POL 8990 - Directed Readings and Research in Political Science (1.0 - 7.0 cr)
SOC 8090 - Topics in Sociology (1.5 - 3.0 cr)
SOC 8890 - Advanced Topics in Research Methods (2.0 - 3.0 cr)
STAT 5021 - Statistical Analysis (4.0 cr)

**Thesis Credits**

Take 24 doctoral thesis credits.

GEOG 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)
Twin Cities Campus

Germanic Studies M.A.
German, Nordic, Slavic & Dutch
College of Liberal Arts

Link to a list of faculty for this program.

Contact Information:
Department of German, Nordic, Slavic & Dutch, 320 Folwell Hall, 9 Pleasant Street SE, Minneapolis, MN 55455 (612-625-2080; fax: 612-624-8297)
Email: gradgsd@umn.edu
Website: http://www.cla.umn.edu/gnsd

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Arts

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Germanic Studies program in the Department of German, Nordic, Slavic & Dutch (GNSD) is distinguished for its interdisciplinary approach to the study of literature and culture. The program equips students to be creative scholars and skillful teachers through research and teaching programs covering the literature and culture of German-speaking and Nordic countries. Students work closely with faculty dedicated to scholarly innovation, teaching excellence, and interdisciplinary collaboration.

The Germanic Studies program offers both MA and PhD degrees which are tailored to students individual needs and interdisciplinary interests. Students have the option to pursue a track in German (MA, PhD), Germanic Medieval Studies (MA, PhD) or Scandinavian Studies (MA) by completing a specified number of courses in one of those areas.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.50.

Other requirements to be completed before admission:
BA or equivalent in German, Scandinavian, or related field. Students are usually admitted to the PhD program, but the MA must be completed first. Applicants must have fluency in German or a Scandinavian language.

Special Application Requirements:
In addition to the University's application requirements, the department requires the following: a copy of one or more papers representative of the applicant's level of scholarly development (not to exceed 25 total pages); three letters of recommendation; the General (Aptitude) Test of the GRE (required for master's program applicants except those whose native language is not English). Students are admitted for fall semester only. All application materials may be uploaded into the online application and must be submitted by December 15.

For the online application or for more information about graduate education admissions, see the General Information section of this website.

Applicants must submit their test score(s) from the following:
- GRE

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Internet Based - Speaking Score: 27
- Paper Based - Total Score: 550
  • IELTS
    - Total Score: 6.5
  • MELAB
    - Final score: 80

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan B: Plan B requires 24 major credits and 6 credits outside the major. The final exam is oral. A capstone project is required.

Capstone Project: The Plan B paper is usually a seminar paper from a specific course, improved and reworked in consultation with the advisor. For students completing the MA with a track, the Plan B must be focused on that selected track.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

Courses offered on both the A/F and S/N grade basis must be taken A/F, with a minimum grade of C earned.

Students must demonstrate oral and written proficiency in German or one Scandinavian language.

Required Core (6 credits)

Take the following courses:

GSD 5103 - Teaching of Germanic Languages (3.0 cr)
GSD 8001 - Approaches to Textual Analysis (3.0 cr)

Outside Coursework (6 credits)

Select 6 credits outside the major in consultation with the advisor and the director of graduate studies. Directed Study, Directed Research, and Directed Readings courses may be applied to this requirement with advisor and director of graduate studies approval.

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 60
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Germanic studies program in the Department of German, Nordic, Slavic & Dutch (GNSD) is distinguished for its interdisciplinary approach to the study of literature and culture. The program equips students to be creative scholars and skillful teachers through research and teaching programs covering the literature and culture of German-speaking and Nordic countries. Students work closely with faculty dedicated to scholarly innovation, teaching excellence, and interdisciplinary collaboration.

The Germanic studies program offers both MA and PhD degrees and allows students to tailor their programs to their individual needs and interdisciplinary interests. Students have the option to pursue a track in German (MA, PhD), Germanic Medieval studies (MA, PhD), or Scandinavian studies (MA) by completing a specified number of courses in one of those areas.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.50.

MA or equivalent from another institution in German or a related field.

Other requirements to be completed before admission:
Students with a BA only are usually admitted to the PhD program, but the MA must be completed first.

Applicants must have fluency in German.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Internet Based - Speaking Score: 27
  - Paper Based - Total Score: 550
- IELTS
  - Total Score: 6.5
- MELAB
  - Final score: 80

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (TOEFL, IELTS, MELAB).
For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
24 credits are required in the major.
12 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Language Requirement: See requirements listed below.

A minimum GPA of 3.00 is required for students to remain in good standing.

All courses graded on both the A/F and S/N grade basis must be taken A/F, with a minimum grade of C for each.

Reading competence in two languages or a high degree of proficiency in one language other than English or German.

Two semesters of teaching experience are required.

Required Core (9 credits)
Take the following courses:
GSD 5103 - Teaching of Germanic Languages (3.0 cr)
GSD 8001 - Approaches to Textual Analysis (3.0 cr)
GSD 8801 - Dissertation Seminar (3.0 cr)

Outside Coursework (12 credits)
Select 12 credits outside the major in consultation with the advisor and director of graduate studies. Directed Study, Directed Research, and Directed Readings courses may be applied to this requirement with advisor and director of graduate studies approval.

Up to 2 courses from the MA may be applied to this requirement.

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 30
- This program requires summer semesters for timely completion.
- Degree: Master of Arts

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Hubbard School of Journalism & Mass Communication's (HSJMC) MA health communication (integrated BA/MA track) program prepares students for healthcare careers that rely on the strategic use of health information to communicate with patient and nonpatient publics, care providers, administrators and other public health stakeholders. The program is designed around a curriculum of academic and professional skills courses from strategic communication, public health and other relevant disciplines.

The curriculum includes a summer practicum experience in a health media or health care organization. The program's balance of conceptual prowess and practical skills prepares its graduates to be expert health communication professionals in a variety of health care positions. Students who complete this program will have a combination of specific message strategy/content development skills and the subject knowledge demanded by the healthcare workplace. Every workplace now requires professionals who can communicate clearly and strategically about their subject matter with multiple audiences and using a variety of communication channels. This is especially true in the arena of health care.

This program provides an Integrated BA/MA option for eligible University of Minnesota journalism/strategic communication track BA students also interested in completing the school's health communication MA degree. The integrated BA journalism/MA health communication sub-plan enables students to complete both degrees in five years.

The combination of skills and context courses at the undergraduate level, and the sophisticated academic and practice-based courses at the graduate level will ensure that graduates of this program are fully prepared to contribute to their workplaces from day one.

Students who complete this program will have a combination of specific message strategy/content development skills and the subject knowledge demanded by the healthcare workplace. This is especially true in the arena of health care. The combination of skills and context courses at the undergraduate level, and the sophisticated academic and practice-based courses at the graduate level will ensure that graduates of this program are fully prepared to contribute to their workplaces from day one.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.50.

Other requirements to be completed before admission:
Students must be enrolled in the BA in journalism/strategic communication track to apply for Integrated BA journalism/MA health communication sub-plan admission. Admission is considered for summer term only; the application deadline is February 15.
Special Application Requirements:
Applicants must submit a department application; a statement of objectives articulating interest and readiness for the program; a complete set of transcripts; an academic and professional work sample; a resume or curriculum vita; and scores from the General Test of the GRE.

Applicants must submit their test score(s) from the following:
- **GRE**
  - General Test - Verbal Reasoning: 155
  - General Test - Analytical Writing: 4.5

Key to test abbreviations (GRE).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
**Plan B:** Plan B requires 30 major credits and up to null credits outside the major. The final exam is written. A capstone project is required.

**Capstone Project:** JOUR 8193, Health Communication Capstone, allows you to focus on different aspects of health communication relevant to your interests. Students will prepare a final project: a publishable article, a multimedia projection, an original research paper or other options aimed at a particular audience. This project is completed during the second semester of the MA program.

This program may not be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.0 is required for students to remain in good standing.

At least 0 semesters must be completed before filing a Degree Program Form.

**Core Courses**
- JOUR 5541 - Mass Communication and Public Health (3.0 cr)
- JOUR 5542 - Theory-based Health Message Design (3.0 cr)
- JOUR 5543 - Public Health Campaign Evaluation (3.0 cr)
- PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)

**Electives**
- Take 12 or more credits from the following:
  - JOUR 5501 - Communication, Public Opinion, and Social Media (3.0 cr)
  - JOUR 8650 - Seminar: Psychology of Media Effects (3.0 cr)
  - JOUR 8720 - Seminar: Mass Media and Health (3.0 cr)
  - PUBH 6025 [Inactive] (2.0 cr)
  - PUBH 6055 - Social Inequalities in Health (2.0 cr)
  - PUBH 6085 [Inactive] (2.0 cr)
  - PUBH 7214 - Principles of Risk Communication (1.0 cr)
  - PUBH 7226 - Media Relations Practicum (1.0 cr)
  - PSY 5205 - Applied Social Psychology (3.0 cr)
  - WRIT 4501 - Usability and Human Factors in Technical Communication (3.0 cr)
  - WRIT 5112 - Information Design: Theory and Practice (3.0 cr)
  - WRIT 8520 - Seminar in Scientific and Technical Communication (3.0 cr)
  - WRIT 8550 - Seminar in Technology, Culture, and Communication (3.0 cr)
  - WRIT 5561 - Editing and Style for Technical Communicators (3.0 cr)

**Capstone**
- JOUR 8193 - Health Communication Capstone (3.0 cr)

**Practicum**
- JOUR 8194 - Health Communciation Practicum (3.0 cr)
Program Sub-plans
A sub-plan is not required for this program.
Students may not complete the program with more than one sub-plan.

Integrated BA Journalism/ MA Health Communication
This sub-plan is limited to students completing the program under Plan B.

The SJMC offers an early-admission opportunity for eligible University of Minnesota journalism/strategic communication BA students also interested in completing the health communication MA degree. The integrated BA journalism/MA health communication sub-plan enables journalism/strategic communication majors to take 9 credits during their senior (fourth) year, and to complete the MA after a fifth year of full-time graduate study plus one summer. Interested journalism/strategic communication undergraduates should contact the SJMC advisor for more information. The integrated BA journalism/MA health communication sub-plan application deadline is February 15 of the student's junior year, and admission to the sub-plan is contingent on a formal admissions process. Students admitted to the sub-plan must maintain timely degree progress to ensure all undergraduate degree requirements are completed by the end of their fourth year. The sub-plan is open to journalism/strategic communication track undergraduates only. Double majors may apply, but only if they choose to complete the senior project requirement in journalism.

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 36
- This program does not require summer semesters for timely completion.
- Degree: Master of Arts

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Note: Students are admitted only to the PhD program.

The Hispanic and Lusophone Literatures, Cultures, and Linguistics MA program provides students with a focused and rigorous formation in the literatures, languages, and cultures of Spain, Latin America, and the Portuguese speaking world. Students choose one of three areas of emphasis: Hispanic Literatures & Cultures, Lusophone Literatures & Cultures, or Hispanic Linguistics.

The Hispanic Literatures and Cultures track provides solid intellectual and professional preparation in Iberian and Latin American literatures and cultures. Works and intellectual movements are studied in their historical, social, and cultural contexts, combining the approaches of literary and cultural criticism with those of intellectual history, sociology, gender and sexuality studies, among others.

The Linguistics track is centered on the relation between language and its context of use, encompassing social, pragmatic, and discourse factors. It provides students with a strong background in the following areas of Hispanic linguistics: phonetics, phonology, syntax, pragmatics and discourse, historical linguistics, language variation, and second language acquisition.

The Lusophone Literatures & Cultures track prepares students in Portuguese studies, understood as an interdisciplinary critical formation through which the cultures and literatures of Portugal, Brazil, and Lusophone Africa are approached. Students are trained in the main historical periods, cultural movements, and social issues pertaining to the Portuguese-speaking world, both nationally and transnationally, within relevant comparative frameworks.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Required: Fluency in Spanish or Portuguese
Preferred: Undergraduate degree or substantial coursework in the fields of Hispanic literatures and cultures, Lusophone literatures and cultures, or Hispanic linguistics

Special Application Requirements:
The application deadline is December 15 for the following fall semester. Application materials include:
- the departmental application;
- personal statement;
- writing sample representing level of scholarly development
- three letters of recommendation;
- a 5-minute voice sample;
a curriculum vitae; TOEFL, MELAB, or IELTS scores; and transcripts. For more information, refer to http://spanport.umn.edu/grad/applying.html.

International applicants must submit score(s) from one of the following tests:

- **TOEFL**
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Paper Based - Total Score: 550

- **IELTS**
  - Total Score: 6.5

- **MELAB**
  - Part 1 (Composition) score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

**Program Requirements**

**Plan B:** Plan B requires 30 major credits and 6 credits outside the major. The final exam is written and oral.

This program may not be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.50 is required for students to remain in good standing.

Students must have reading knowledge of a foreign language outside of their principal area of study. With advisor approval, students may take one 5xxx-level course outside the department S/N; one course within the department outside the area of study S/N; and language courses S/N.

**Required Courses (6 Credits)**

Take the following courses:
- **SPPT 5995** - Directed Teaching (1.0 cr)
- **SPPT 5999** - The Teaching of College-Level Spanish: Theory and Practice (3.0 cr)
- **SPPT 8920** - Introduction to Hispanic and Lusophone Literatures, Cultures, and Languages (2.0 cr)

**Outside Coursework (6 Credits)**

Select at least 6 credits of outside coursework in consultation with the adviser. Directed study, directed readings, and topics courses must be approved by the adviser.

- **ADDS 5081** - Multicultural Foundations of Behavioral Health (3.0 cr)
- **AFRO 5101** - Seminar: Introduction to Africa and the African Diaspora (3.0 cr)
- **AFRO 5910** - Topics in African American and African Studies (3.0 cr)
- **AFRO 5993** - Directed Study (1.0 - 3.0 cr)
- **AFRO 8202** - Seminar: Intellectual History of Race (3.0 cr)
- **AFRO 8910** - Topics in Studies of Africa and the African Diaspora (3.0 cr)
- **AMES 5920** - Topics in Asian Culture (3.0 cr)
- **AMES 8001** - Critical Approaches to Asian and Middle Eastern Studies (3.0 cr)
- **ANTH 5041** - Ecological Anthropology (3.0 cr)
- **ANTH 8005** - Linguistic Anthropology (3.0 cr)
- **ARAB 5040** - Readings in Arabic Texts (3.0 cr)
- **ARAB 5992** - Directed Readings (1.0 - 3.0 cr)
- **CHIC 5920** - Topics in Chicana(o) Studies (3.0 cr)
- **CI 5608** - CARLA Summer Institute Seminar (1.0 - 4.0 cr)
- **CI 5628** - Analyzing Learner Language in Second Language Acquisition (3.0 cr)
- **CI 5656** - Teaching Literacy in Second Language Classrooms (3.0 cr)
- **CI 5670** - Foundations of Dual Language and Immersion Education (3.0 cr)
CI 8416 - Speculative Fiction, Radical Imagination, and Social Change (3.0 cr)
CI 8671 - Sociolinguistic Research Approaches to Education (3.0 cr)
CI 8689 - Language and Education Policy (3.0 cr)
CI 8695 - Problems: Second Languages and Cultures Education (1.0 - 6.0 cr)
CNES 5071 - Greek and Hellenistic Religions (3.0 cr)
CNES 8513 - Scripture and Interpretation (3.0 cr)
COMM 5211 - Critical Media Studies: Theory and Methods (3.0 cr)
CSCL 5833 - Marx, Freud, Nietzsche: Intellectual Foundations (3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Hispanic Literatures and Cultures
This sub-plan is limited to students completing the program under Plan B.

Spanish Peninsular and/or Spanish American Literatures and Cultures (24 Credits)
Select at least 24 credits from the following in consultation with the advisor:

- SPAN 5150 - Contemporary Spanish Literature (3.0 cr)
- SPAN 5160 - Medieval Iberian Literatures and Cultures (3.0 cr)
- SPAN 5170 - The Literature of the Spanish Empire and Its Decline (3.0 cr)
- SPAN 5180 - Don Quixote (3.0 cr)
- SPAN 5190 - The Crisis of the Old Regime: Spanish Literature of the Enlightenment and Romanticism (3.0 cr)
- SPAN 5550 - Caribbean Literature: An Integral Approach (3.0 cr)
- SPAN 5560 - Global Colonial Studies in the Hispanic World (3.0 cr)
- SPAN 5570 - Nineteenth Century Latin America: Enlightened Thought, Nation Building, Literacy, Cultural Discourse (3.0 cr)
- SPAN 5580 - Latin American Cultural Integration in the Neocolonial Order (3.0 cr)
- SPAN 5590 - The Impact of Globalization in Latin American Discourses (3.0 cr)

Hispanic Linguistics
This sub-plan is limited to students completing the program under Plan B.

Required Courses (24 Credits)

- Phonology (6 credits)
Select at least 6 credits from the following in consultation with the advisor:

- LING 5302 - Phonological Theory I (3.0 cr)
- SPAN 5711 - The Structure of Modern Spanish: Phonology (3.0 cr)
- SPAN 5721 - Spanish Laboratory Phonology (3.0 cr)

- Syntax/Pragmatics (6 credits)
Select at least 6 credits from the following in consultation with the advisor:

- LING 5201 - Syntactic Theory I (3.0 cr)
- LING 5206 - Linguistic Pragmatics (3.0 cr)
- SPAN 5714 - Theoretical Foundations of Spanish Syntax (3.0 cr)
- SPAN 5716 - Structure of Modern Spanish: Pragmatics (3.0 cr)

- Electives (12 Credits)
Select at least 12 credits from the following in consultation with the advisor:

- SPAN 5701 - History of Ibero-Romance (3.0 cr)
- SPAN 5717 - Spanish Sociolinguistics (3.0 cr)
- SPAN 5718 - Spanish Language Contact (3.0 cr)
- SPAN 5930 - Topics in Ibero-Romance Linguistics (3.0 cr)
- SPAN 5985 - Sociolinguistic Perspectives on Spanish in the United States (3.0 cr)
- SPAN 5991 - The Acquisition of Spanish as a First and Second Language (3.0 cr)

Lusophone Literatures and Cultures
This sub-plan is limited to students completing the program under Plan B.

Required Courses (24 Credits)

- Lusophone Literatures and Culture (12 credits)
Select at least 12 credits from the following in consultation with the advisor:
PORT 5520 - Portuguese Literary and Cultural Studies (3.0 cr)
PORT 5530 - Brazilian Literary and Cultural Studies (3.0 cr)
PORT 5540 - Literatures and Cultures of Lusophone Africa (3.0 cr)
PORT 5910 - Topics in Lusophone Cultures and Literatures (3.0 cr)
or PORT 5930 - Topics in Brazilian Literature (3.0 cr)

**Spanish Peninsular or Spanish-American Literatures & Cultures (12 credits)**
Select at least 12 credits from the following in consultation with the advisor:
SPAN 5150 - Contemporary Spanish Literature (3.0 cr)
SPAN 5160 - Medieval Iberian Literatures and Cultures (3.0 cr)
SPAN 5170 - The Literature of the Spanish Empire and Its Decline (3.0 cr)
SPAN 5180 - Don Quixote (3.0 cr)
SPAN 5190 - The Crisis of the Old Regime: Spanish Literature of the Enlightenment and Romanticism (3.0 cr)
SPAN 5550 - Caribbean Literature: An Integral Approach (3.0 cr)
SPAN 5560 - Global Colonial Studies in the Hispanic World (3.0 cr)
SPAN 5570 - Nineteenth Century Latin America: Enlightened Thought, Nation Building, Literacy, Cultural Discourse (3.0 cr)
SPAN 5580 - Latin American Cultural Integration in the Neocolonial Order (3.0 cr)
SPAN 5590 - The Impact of Globalization in Latin American Discourses (3.0 cr)

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 18
- Length of program in credits (Doctorate): 18
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Hispanic and Lusophone Literatures, Cultures, and Linguistics minor allows students in related fields to pursue research with graduate faculty in the department. Faculty have specialties in a variety of fields such as cultural studies, linguistics, political science, law, and textual analysis, and research contacts and visibility in Latin America and Europe.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Hispanic and Lusophone Literatures, Cultures, and Linguistics director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Minor field coursework is determined in consultation with the Hispanic and Lusophone Literatures, Cultures, and Linguistics director of Graduate Studies.

Minor field coursework that is offered on both the A/F and S/N grade basis must be taken A/F, with a minimum grade of B earned for each course.

The minimum cumulative GPA for minor field coursework is 3.5.

Coursework (18 credits)

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 79 to 82
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Hispanic and Lusophone Literatures, Cultures, and Linguistics PhD program provides students with a focused and rigorous formation in the literatures, languages, and cultures of Spain, Latin America, and the Portuguese speaking world. Students choose one of three areas of emphasis: Hispanic Literatures & Cultures, Lusophone Literatures & Cultures, or Hispanic Linguistics. In addition to establishing a specialization in one or more areas of Hispanic or Lusophone studies, the program allows and encourages students to pursue comparative or interdisciplinary work. Students complement their work in the department with coursework in other disciplines such as: Gender, Women, and Sexuality Studies; Medieval Studies; Linguistics; Curriculum and Instruction; History; Cultural Studies and Comparative Literature; African-American and African Studies; Human Rights Program; Geography; Sociology; and Moving Image Studies.

The department's faculty is committed to preparing students and giving them the tools to become scholars and teachers of the highest quality. The department has a strong tradition of fostering socio-historical perspectives on literatures, languages, and cultures. The graduate Literature & Cultures faculty is committed to comparative and interdisciplinary research and engages a variety of contemporary theoretical approaches, with strengths in postcolonial theory, social justice and human rights, memory studies, critical race theory, diasporic studies, and gender and sexuality studies. Members of the Hispanic Linguistics faculty are specialists in the fields of sociolinguistics, second language acquisition, syntax, pragmatics, and phonology.

The department offers students in the program faculty mentoring, a seminar, and workshops on professional development, including publishing, teaching, and interviewing. In addition, graduate student workshops in both literatures and cultures and in linguistics foster student-faculty relations and allow graduate students to ready themselves for conference participation. Travel funds are available through the department to allow students to present their papers at conferences in the United States or abroad.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Applicants must first apply to, or hold, a master of arts degree (or its equivalent) before applying to the PhD program. A graduate GPA of 3.50 is preferred.

Other requirements to be completed before admission:
Prospective students generally have completed an undergraduate degree or substantial coursework in the fields of Hispanic literatures and cultures, Lusophone literatures and cultures, or Hispanic linguistics, although individuals with other backgrounds may be admitted.

The Graduate Studies Committee may require students admitted without sufficient preparation to take additional coursework beyond the PhD credit requirements.

Special Application Requirements:
Students admitted to the program are required to be fluent in Spanish or Portuguese.
The application deadline is December 15 for the following fall semester. Application materials include:

University of Minnesota Application & Fee
Department Application
Transcripts
TOEFL Test Scores
Personal Statement
Diversity Statement (if applicant wishes to be considered for DOVE fellowship)
Resume/CV
Writing Sample
Letters of Recommendation x3
Five Minute Voice Sample (in Spanish or Portuguese for non-native speakers, in English for native Spanish or Portuguese speakers)

For more information, refer to "How to Apply" at https://cla.umn.edu/spanish-portuguese/graduate/how-apply-0.

International applicants must submit score(s) from one of the following tests:

- **TOEFL**
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- **IELTS**
  - Total Score: 6.5
- **MELAB**
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

**Program Requirements**

43 to 46 credits are required in the major.
12 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Language Requirement: Fluency in Spanish and/or Portuguese

A minimum GPA of 3.50 is required for students to remain in good standing.

Students entering the program with an MA from other institutions must take a minimum of 7 graduate courses (21 credits) in this department.

Students are expected to enroll for at least 9 credits each semester from the term of matriculation through degree completion.

A limited number of courses can be repeated to meet degree requirements. Pre-approval by the advisor and director of graduate studies is required.

**Required Coursework (7 credits)**

Take the following courses:
- SPPT 5999 - The Teaching of College-Level Spanish: Theory and Practice (3.0 cr)
- SPPT 5995 - Directed Teaching (1.0 cr)
- SPPT 8920 - Introduction to Hispanic and Lusophone Literatures, Cultures, and Languages (2.0 cr)
- SPPT 8930 - Dissertation & Professionalization Workshop (1.0 cr)

**Outside Coursework (12 credits)**

Take 12 credits, selected in consultation with the advisor, from outside the major.
- ADDS 5081 - Multicultural Foundations of Behavioral Health (3.0 cr)

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Areas of concentration in the history minor include Africa; ancient history; East and South Asia; late antiquity and the middle ages; medieval, early modern, and modern Europe; the early modern world; Middle East; Latin America; and the United States and its colonial background. Scholarly resources include Center for Austrian Studies, Center for German and European Studies, Center for Medieval Studies, Immigration History Research Center, Minnesota Population Center, Modern Greek Studies, Center for Early Modern History, Institute for Advanced Study, and Consortium for the Study of the Premodern World.

Program Requirements
Coursework (6 to 12 credits)
Masters students select 6 credits from the following list. Doctoral students must take HIST 8015 and 9 additional credits from the list. Courses are selected in consultation with the History director of graduate studies.

- HIST 5053 - Doing Roman History: Sources, Methods, and Trends (3.0 cr)
- HIST 5264 - Imperial Russia: Formation and Expansion of the Russian Empire in the 18th and 19th Centuries (3.0 cr)
- HIST 5478 - Tigers and Dragons: The Rise of the East Asian Economies, 1930-Present (3.0 cr)
- HIST 5479 - History of Chinese Cities and Urban Life (3.0 cr)
- HIST 5513 - North Africa since 1500: Islam, Colonialism, and Independence (3.0 cr)
- HIST 5540 - Topics in Mediterranean Studies (1.0 - 4.0 cr)
- HIST 5547 - Empire and Nations in the Middle East (3.0 cr)
- HIST 5614 - The Medieval Church (3.0 cr)
- HIST 5720 - Society/Politics: Modern Europe (3.0 cr)
- HIST 5801 - Seminar in Early American History (3.0 cr)
- HIST 5802 - Readings in American History, 1848-Present (3.0 cr)
HIST 5831 - Cultural Fallout: The Cold War and Its Legacy: Readings (3.0 cr)
HIST 5890 - Readings in American Indian and Indigenous History (3.0 cr)
HIST 5900 - Topics in European/Medieval History (1.0 - 4.0 cr)
HIST 5901 - Latin America Proseminar: Colonial (3.0 cr)
HIST 5902 - Latin America Proseminar: Modern (3.0 cr)
HIST 5910 - Topics in U.S. History (1.0 - 4.0 cr)
HIST 5920 - Topics in African History (3.0 cr)
HIST 5932 - The Production of Knowledge, Negotiating the Past, and the Writing of African Histories (3.0 cr)

• Program Type: Doctorate
• Requirements for this program are current for Fall 2020
• Length of program in credits: 63
• This program does not require summer semesters for timely completion.
• Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The History graduate program offers the following areas of concentration: Africa; ancient history; East and South Asia; late antiquity and the middle ages; medieval, early modern, and modern Europe; the early modern world; Middle East; Latin America; and the United States and its colonial background. Scholarly resources include Center for Austrian Studies, Center for German and European Studies, Center for Jewish Studies, Center for Medieval Studies, Immigration History Research Center, Minnesota Population Center, Modern Greek Studies, Center for Early Modern History, Institute for Advanced Study, and Consortium for the Study of the Premodern World.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Completion of a Bachelor of Arts degree or equivalent.

Other requirements to be completed before admission:
Alternative English language tests, for applicants for whom English is not the first language, include the PTE Academic (Score: 59) and the Cambridge C1 Advanced (Score: 180). Contact the History Department for more information.

Special Application Requirements:
The preferred undergraduate GPA is 3.50 (on a 4.00 scale), with grades of A/A- for history coursework expected.

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
• IELTS
  - Total Score: 6.5
• MELAB
  - Final score: 80

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements

27 credits are required in the major.
12 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

Language Requirement: At least one language other than English

A minimum GPA of 3.50 is required for students to remain in good standing.

At least one language requirement must be satisfied prior to the preliminary oral examination.

History Courses (6 credits)
Take HIST 8015 the first year of study, and HIST 8021 the second or third year of study.
HIST 8015 - Scope and Methods of Historical Studies (3.0 cr)
HIST 8021 - History Research Seminar (3.0 cr)

Electives (21 credits)
Select 21 credits from the following in consultation with the advisor:

HIST 5053 - Doing Roman History: Sources, Methods, and Trends (3.0 cr)
HIST 5264 - Imperial Russia: Formation and Expansion of the Russian Empire in the 18th and 19th Centuries (3.0 cr)
HIST 5478 - Tigers and Dragons: The Rise of the East Asian Economies, 1930-Present (3.0 cr)

**Thesis Credits**

Take 24 doctoral thesis credits.

**HIST 8888** - Thesis Credit: Doctoral (1.0 - 24.0 cr)
Twin Cities Campus
Human Rights Minor
Global Studies Department
College of Liberal Arts

Link to a list of faculty for this program.

Contact Information:
Institute for Global Studies, 232 Social Sciences Building, 267 19th Ave S, Minneapolis, MN 55455 (612-626-1879; fax: 612-626-2242)
Email: hrminor@umn.edu
Website: https://cla.umn.edu/human-rights

- Program Type: Graduate free-standing minor
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 9
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The human rights minor provides an interdisciplinary foundation in human rights studies and practical experience in human rights work.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Human Rights director of graduate studies regarding feasibility and requirements.

A letter that includes information regarding the applicants background and motivation for pursuing the minor must be submitted to the Human Rights director of graduate studies.

A minimum GPA of 3.0 is required for admission to the minor.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

All students pursuing the Human Rights minor must complete a non-credit, 6-week, professional internship in the field of human rights under the supervision of Human Rights director of graduate studies. The Human Rights director of graduate studies must approve internship placement. The 200 internship hours can be completed at any time during the course of study.

A maximum of 3 credits applied to the minor can be taken on the S/N grade basis. A minimum grade of B must be earned for each A/F course applied to the minor.

The minimum cumulative GPA for minor field coursework is 3.0.

Core Coursework (6 credits)
Select 6 credits from the following in consultation with the Human Rights director of graduate studies.

GLOS 5403 - Human Rights Advocacy (3.0 cr)
HIST 8245 - Human Rights: A Global History (3.0 cr)
LAW 6886 - International Human Rights Law (3.0 cr)
PA 5885 - Human Rights Policy: Issues and Actors (3.0 cr)
SOC 8171 - Cross-Disciplinary Perspectives in Human Rights (3.0 cr)

**Electives (3 to 6 credits)**
Master’s students select at least 3 credits, and doctoral students select at least 6 credits from the following in consultation with the Human Rights director of graduate studies:

- AFRO 5866 - The Civil Rights and Black Power Movement, 1954-1984 (3.0 cr)
- AFRO 8554 - Seminar: Gender, Race, Nation, and Policy--Perspectives from Within the African Diaspora (3.0 cr)
- AMIN 5890 - Readings in American Indian and Indigenous History (3.0 cr)
- ANTH 8810 - Topics in Sociocultural Anthropology (3.0 cr)
- BTHX 5100 - Introduction to Clinical Ethics (3.0 cr)
- BTHX 5220 - Standards for Research with Human Participants: A Lecture Series for Researchers (1.0 cr)
- CHIC 5374 - Migrant Farmworkers in the United States: Families, Work, and Advocacy [CIV] (4.0 cr)
- CSPH 5111 - Ways of Thinking about Health (2.0 cr)
- EPSY 5135 - Human Relations Workshop (4.0 cr)
- ESPM 5251 - Natural Resources in Sustainable International Development (3.0 cr)
- GLOS 5403 - Human Rights Advocacy (3.0 cr)
- HRIR 5252 - Employment and Labor Law for the HRIR Professional (2.0 cr)
- KIN 5371 - Sport and Society (3.0 cr)
- LAW 6030 - Contemporary Problems in Freedom of Speech and Press (3.0 cr)
- LAW 6046 - Human Trafficking (2.0 cr)
- LAW 6058 - Human Rights Advocacy (3.0 cr)
- LAW 6621 - Rights in Conflict: Citizenship and Human Rights (2.0 cr)
- LAW 6827 - Women's International Human Rights (2.0 cr)
- LAW 6889 - Laws of War (3.0 cr)
- LAW 7400 - CL: Human Rights Litigation and International Legal Advocacy (3.0 - 4.0 cr)
- LAW 7842 - CL: Immigration and Human Rights (3.0 - 4.0 cr)
- OLDP 5104 - Strategies for International Development of Education Systems (3.0 cr)
- PA 5151 - Organizational Perspectives on Global Development & Humanitarian Assistance (3.0 cr)
- PA 5401 - Poverty, Inequality, and Public Policy (3.0 cr)
- PA 5414 - Child Human Rights: Work and Education (3.0 cr)
- PA 5421 - Racial Inequality and Public Policy (3.0 cr)
- PA 5452 - Immigration and Public Policy (3.0 cr)
- PA 5490 - Topics in Social Policy (1.0 - 4.0 cr)
- PA 5601 - Global Survey of Gender and Public Policy (3.0 cr)
- PA 5690 - Topics in Women, Gender and Public Policy (0.5 - 3.0 cr)
- PA 5801 - Global Public Policy (3.0 cr)
- PA 5823 - Managing Humanitarian and Refugee Crises: Challenges for Policymakers & Practitioners (1.0 cr)
- PA 5885 - Human Rights Policy: Issues and Actors (3.0 cr)
- PA 5890 - Topics in Foreign Policy and International Affairs (1.0 - 5.0 cr)
- POL 8260 - Topics in Political Theory (3.0 cr)
- POL 8403 - International Norms and Institutions (3.0 cr)
- POL 8460 - Topics in International Relations (3.0 cr)
- PSY 8210 - Law, Race, and Social Psychology (3.0 cr)
- PUBH 6055 - Social Inequalities in Health (2.0 cr)
- PUBH 6066 - Building Communities, Increasing Health: Preparing for Community Health Work (2.0 cr)
- PUBH 6115 - Worker Protection Law (1.0 cr)
- PUBH 6131 - Working in Global Health (2.0 cr)
- PUBH 6634 - Children and Families: Public Health Policy and Advocacy (2.0 cr)
- PUBH 6801 - Health and Human Rights (3.0 cr)
- SOC 8190 - Topics in Law, Crime, and Deviance (3.0 cr)

**Program Sub-plans**

Students are required to complete one of the following sub-plans.

**Master’s**

**Doctoral**
Twin Cities Campus
Italian Studies Minor
French & Italian
College of Liberal Arts

Link to a list of faculty for this program.

Contact Information:
Department of French and Italian, 260 Folwell Hall, 9 Pleasant Street SE, Minneapolis, MN 55455 (612-624-4308; fax: 612-624-6021)
Website: http://frit.umn.edu/grad/italianminor.php

- Program Type: Graduate free-standing minor
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Italian Studies minor, available for students in areas such as art history, architecture, French, comparative literature, history, English, and music, is shaped through consultation with the Italian Studies graduate faculty to support students individual academic and professional objectives.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 2.80.

Other requirements to be completed before admission:
Students interested in the Italian Studies minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Italian Studies director of graduate studies regarding feasibility and requirements.

Proficiency in the Italian language is expected. Students proficiency to pursue the minor successfully will be determined by the Italian Studies director of graduate studies.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Up to one 4-level course can be applied to the minor with the approval of the Italian Studies director of graduate studies.

FRIT 5999 cannot be applied toward the minor field requirement.

Coursework from the major field may not be applied to satisfy minor field requirements.

The minimum GPA for minor field coursework is 3.0.

Required Coursework
Master's students complete at least 6 credits and doctoral students complete at least 12 credits from the following in consultation with the Italian Studies director of graduate studies:
ITAL 5xxx
ITAL 8xxx
FRIT 5xxx
FRIT 8xxx

Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Masters

Doctoral

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 32 to 36
- This program does not require summer semesters for timely completion.
- Degree: Master of Arts

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Linguistics MA program trains students in the scientific study of the human mental capacity for language. Successful study in this area investigates the syntactic, phonological, and semantic/pragmatic properties of the language systems that humans naturally acquire, and asks what kinds of underlying mental capacity is implicated by these properties.

The program emphasizes the place of this field of study among the cognitive sciences, and provides coursework and individual advising to prepare students to engage with and produce research in the field.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Applicants must submit the following application materials by December 15 of the preceding academic year:
University of Minnesota Application form, which includes:
- a CV or resume;
- a statement of purpose;
- a writing sample;
- three letters of recommendation; and
- transcripts from each college or university attended.

Entry is for fall semester only.

International applicants must submit score(s) from one of the following tests:
- TOEFL
- IELTS
- MELAB

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Plan A: Plan A requires 20 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is oral.

Plan B: Plan B requires 26 major credits and 6 credits outside the major. The final exam is oral. A capstone project is required.
Capstone Project: The Plan B project is an original paper that may develop out of a course project or independent research.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Language Requirement: See other requirements (below)

A minimum GPA of 2.80 is required for students to remain in good standing.

Students must demonstrate competence (the equivalent of two or more years of study) in one language other than English.

Application of 4xxx-level coursework requires approval of the advisor and director of graduate studies.

Required Coursework (20 credits)
Take the following courses:
- LING 5001 - Introduction to Linguistics (4.0 cr)
- LING 5201 - Syntactic Theory I (3.0 cr)
- LING 5202 - Syntactic Theory II (3.0 cr)
- LING 5205 - Semantics (3.0 cr)
- LING 5302 - Phonological Theory I (3.0 cr)
- LING 8105 - Field Methods in Linguistics I (4.0 cr)

Outside Coursework (6 credits)
Select 6 non-LING credits in consultation with the advisor.

Plan Options

Plan A
Thesis Credits
Take 10 master's thesis credits.
- LING 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

-OR-

Plan B
Research Paper (3 credits)
Take the following course:
- LING 8005 - Research Paper Workshop (3.0 cr)

Linguistics Electives (3 credits)
Select 3 credits from the following in consultation with the advisor. Other courses may be selected with advisor approval.
- LING 5206 - Linguistic Pragmatics (3.0 cr)
- LING 5303 - Phonological Theory II (3.0 cr)
- LING 5461 - Conversation Analysis (3.0 cr)
- LING 5462 - Field Research in Spoken Language (3.0 cr)
- LING 5601 - Historical Linguistics (3.0 cr)
- LING 5801 - Introduction to Computational Linguistics (3.0 cr)
- LING 5993 - Directed Study (1.0 - 3.0 cr)
- LING 8106 - Field Methods in Linguistics II (4.0 cr)
- LING 8200 - Topics in Syntax and Semantics (3.0 cr)
- LING 8210 - Seminar in Syntax (3.0 cr)
- LING 8300 - Topics in Phonetics and Phonology (3.0 cr)
- LING 8500 - Topics in Second Language Acquisition (3.0 cr)
- LING 8900 - Seminar: Topics in Linguistics (3.0 cr)
- LING 8921 - Seminar in Language and Cognition (3.0 cr)
- LING 8991 - Independent Study (1.0 - 4.0 cr)

• Program Type: Graduate minor related to major
• Requirements for this program are current for Fall 2020
• Length of program in credits (Masters): 10
• Length of program in credits (Doctorate): 16
• This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Linguistics is the scientific study of human language. Investigation in phonology, syntax, and semantics/pragmatics seeks to determine general principles governing the structure and use of human language and the parameters that determine degree and manner of variation across languages. These core areas constitute the foundation for other subfields of linguistics, including psycholinguistics, sociolinguistics, historical linguistics, computational linguistics, and neurolinguistics.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters
Required Courses
LING 5001 - Introduction to Linguistics (4.0 cr)
LING 5201 - Syntactic Theory I (3.0 cr)
or LING 5302 - Phonological Theory I (3.0 cr)
One additional LING course (3.0 or more credits) approved by the director of graduate studies.
Take 3 or more credit(s) from the following:
• LING 5xxx
• LING 8xxx

Doctoral
Required Courses
LING 5001 - Introduction to Linguistics (4.0 cr)
LING 5201 - Syntactic Theory I (3.0 cr)
LING 5302 - Phonological Theory I (3.0 cr)
Two additional LING courses (6.0 or more credits) approved by the director of graduate studies.
Take 6 or more credit(s) from the following:
• LING 5xxx
• LING 8xxx
Twin Cities Campus
Linguistics Ph.D.
Linguistics, Institute of
College of Liberal Arts

Link to a list of faculty for this program.

Contact Information:

• Program Type: Doctorate
• Requirements for this program are current for Fall 2020
• Length of program in credits: 78
• This program does not require summer semesters for timely completion.
• Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Our program's goal is to trains students in the scientific study of the human mental capacity for language. Successful study in this area investigates the syntactic, phonological and semantic/pragmatic properties of language systems that humans naturally acquire, and asks what kind of underlying mental capacity is implicated by these properties.

Our program emphasizes the place of this field of study among the cognitive sciences, and provides coursework and individual advising to prepare students to engage with and produce research in the field.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Other requirements to be completed before admission:
There are no specific prerequisites for admission.

Special Application Requirements:
Applicants must submit the following application materials by December 15 of the preceding academic year:

(i) University of Minnesota Application form;
(ii) a statement of purpose;
(iii) a writing sample;
(iv) three letters of recommendation;
(v) a supplementary questionnaire;
(vi) transcripts from each college or university attended;
(vii) GRE scores;
(viii) English Language Proficiency Scores (TOEFL, MELAB or IELTS) are required of international applicants.

Entry is for fall semester.

International applicants must submit score(s) from one of the following tests:
• TOEFL

Key to test abbreviations (TOEFL).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements
42 credits are required in the major.
12 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Language Requirement: See below.

A minimum GPA of 3.00 is required for students to remain in good standing.

Students must demonstrate competence (the equivalent of two or more years of study) in two languages other than their native language before the PhD can be awarded.

Upon completion of required coursework, students must pass a preliminary written exam. To pass the preliminary written exam, a student must complete (1) a paper judged to be of near publishable quality by the student's committee in the student's primary area of specialization; (2) a paper judged to be of near publishable quality by the student's committee in the student's chosen secondary area of specialization.

Students are required to pass the preliminary oral exam. The preliminary oral exam is a presentation and defense of a research-paper-length dissertation prospectus, which introduces and motivates the student's dissertation topic and provides a detailed plan for completion of the dissertation.

Students are required to complete a dissertation and pass the Final Oral Exam, which is a defense of the completed dissertation.

Required Courses
LING 5001 - Introduction to Linguistics (4.0 cr)
LING 5201 - Syntactic Theory I (3.0 cr)
LING 5202 - Syntactic Theory II (3.0 cr)
LING 5205 - Semantics (3.0 cr)
LING 5302 - Phonological Theory I (3.0 cr)
LING 5303 - Phonological Theory II (3.0 cr)
LING 8005 - Research Paper Workshop (3.0 cr)
LING 8105 - Field Methods in Linguistics I (4.0 cr)
LING 8106 - Field Methods in Linguistics II (4.0 cr)
LING 8210 - Seminar in Syntax (3.0 cr)

Linguistics Seminar Courses
Take 9 or more credit(s) from the following:
• LING 8200 - Topics in Syntax and Semantics (3.0 cr)
• LING 8210 - Seminar in Syntax (3.0 cr)
• LING 8300 - Topics in Phonetics and Phonology (3.0 cr)
• LING 8500 - Topics in Second Language Acquisition (3.0 cr)
• LING 8900 - Seminar: Topics in Linguistics (3.0 cr)
• LING 8921 - Seminar in Language and Cognition (3.0 cr)
• LING 8991 - Independent Study (1.0 - 4.0 cr)

Supporting Program Courses
The required 12 credits of coursework from outside the major can be in the same field or in different fields. 6 credits of outside coursework from the MA may be used towards the PhD supporting program requirement.

Thesis Credits
Take 24 or more credit(s) from the following:
• LING 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)
• LING 8888W - Thesis Credit Dissertation Seminar (1.0 - 3.0 cr)
Twin Cities Campus
Literacy and Rhetorical Studies Minor
Writing Studies Department
College of Liberal Arts

Website: http://writing.umn.edu

- Program Type: Graduate free-standing minor
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 9
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The goal of the literacy and rhetorical studies (LRS) minor is to encourage students to contribute to interdisciplinary activity and to create a forum for them and several dozen faculty members at the University whose research and teaching emphasize various facets of writing and communication. By crafting an individualized program of study with the LRS director of graduate studies, including theory, pedagogy, and research, often in a historical context, students can complement their disciplinary degree, and thereby open up new perspectives for their scholarship and teaching.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:

Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the LRS director of graduate studies regarding feasibility and requirements.

For specific information about applying for the LRS minor, see: http://writing.umn.edu/lrs/admission.html

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

All courses are chosen in consultation with the LRS director of graduate studies as part of the application process, using the planning form available at http://writing.umn.edu/lrs/about.html

Masters minor:
• No more than 1 of the 3 courses applied to the minor may be from the home department.
• A substantial paper emerging from one of the three completed courses is required.

Doctoral minor:
• No more than 2 of the 4 courses applied to the minor may be from the home department.
• A capstone writing project emerging from the studies in literacy and/or rhetoric, such as a seminar paper or a completed dissertation chapter, is required.

Coursework (9 credits)
Literacy Theory or Practice Course (3 credits)
Select at least 3 credits in consultation with the LRS director of graduate studies.

Research Methods and Practices Course (3 credits)
Select at least 3 credits in consultation with the LRS director of graduate studies.

Historical Topic Course (3 credits)
Select at least 3 credits in consultation with the LRS director of graduate studies.

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Doctoral

Additional Coursework (3 credits)
Select 3 credits, in consultation with the LRS director of graduate studies, to complete the 12-credit doctoral minor.

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 35
- This program does not require summer semesters for timely completion.
- Degree: Master of Arts

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The master's degree in mass communication emphasizes the theoretical study of mass communication and analysis of media systems and effects. The degree is intended for those who wish to pursue PhD degrees or teaching and research careers, as well as those who seek communication-related professional careers. The general master's program is not designed to provide professional skills training in journalism. Individuals with a bachelor's degree in journalism and mass communication or with strong social science or liberal arts backgrounds in areas such as political science, psychology, sociology, history, and English are encouraged to apply. Individuals with extensive professional experience in mass communication are also welcome. The program is suffused with the study of new communication technologies.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Other requirements to be completed before admission:
Students for whom English is a second language must meet the minimum acceptable level of spoken-English proficiency either by submitting TOEFL speaking test score of 18 or higher or SETTA test ELP rating of 4 or higher.

Admission is considered for fall semester only; the priority application deadline is January 15, with a rolling deadline of March 1.

Applicants interested in the MA in Mass Communication/JD degree must submit applications to Mass Communication and the Law School, which are reviewed separately. Applicants are asked to identify their intention to pursue the joint degree in their MA statement of intent. For more information, contact sjmcgrad@umn.edu.

Special Application Requirements:
Applicants must submit a department application; a clearly written statement of career interests, goals, and objectives; three letters of recommendation from persons familiar with their scholarship and research potential; a complete set of transcripts; academic work samples in English; a resume or curriculum vita; and scores from the General Test of the GRE.

Applicants must submit their test score(s) from the following:
- GRE

International applicants must submit score(s) from one of the following tests:
- TOEFL
- IELTS
- MELAB

Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).
For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan A: Plan A requires 19 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is oral.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.0 is required for students to remain in good standing.

At least 1 semester must be completed before filing a Degree Program Form.

All coursework offered on both the A/F and S/N grade basis must be taken A/F.

Mass Communication Theory Core Requirements (4 credits)

Take the following courses:
- JOUR 8001 - Studies and Theories of Mass Communication (3.0 cr)
- JOUR 8009 - Pro-seminar in Mass Communication (1.0 cr)

Second Theory Requirement (3 credits)

Select 3 credits from the following in consultation with the advisor. Other courses can be applied to this requirement with adviser approval.
- JOUR 8002 - Studies in Mass Communication II (3.0 cr)
- JOUR 8003 - Digital Media Issues and Theories (3.0 cr)
- JOUR 8514 - Seminar: Advanced Mass Communication Theories (3.0 cr)
- JOUR 8602 - Seminar: History of Mass Communication (3.0 cr)
- JOUR 8620 - Seminar: Advertising Theory and Research (3.0 cr)
- JOUR 8621 - Seminar: Public Relations Theory and Research (3.0 cr)
- JOUR 8650 - Seminar: Psychology of Media Effects (3.0 cr)
- JOUR 8651 - Seminar: Mass Communication, Audiences, and Society (3.0 cr)
- JOUR 8661 - Seminar: Mediated Political Communication in the Digital Age (3.0 cr)
- JOUR 8675 - Seminar: Issues in Information Access and Communication (3.0 cr)
- JOUR 8678 - Seminar: Constitutional Law--Theories of Freedom of Expression (3.0 cr)
- JOUR 8681 - Seminar: International Media Perspectives (3.0 cr)
- JOUR 8720 - Seminar: Mass Media and Health (3.0 cr)

Methodology Core Requirements (6 credits)

Take the following courses:
- JOUR 8501 - Seminar: The Process of Quantitative Mass Communication Research (3.0 cr)
- JOUR 8503 - Seminar: Qualitative Methods in Mass Communication Research (3.0 cr)

Electives (6 credits)

Select 6 credits from the following in consultation with the advisor. Other courses can be applied to this requirement with advisor approval.
- JOUR 5501 - Communication, Public Opinion, and Social Media (3.0 cr)
- JOUR 5541 - Mass Communication and Public Health (3.0 cr)
- JOUR 5552 - Law of Internet Communication (3.0 cr)
- JOUR 5601W - History of Journalism [WI] (3.0 cr)
- JOUR 5725 - Management of Media Organizations (3.0 cr)
- JOUR 5777 - Contemporary Problems in Freedom of Speech and Press (3.0 cr)
- JOUR 8002 - Studies in Mass Communication II (3.0 cr)
- JOUR 8003 - Digital Media Issues and Theories (3.0 cr)
- JOUR 8502 - Seminar: Multi-method research in Mass Communication (3.0 cr)
- JOUR 8504 - Seminar: Analyzing Media Content (3.0 cr)
- JOUR 8513 - Seminar: Ethnographic Methods in Mass Communication Research (3.0 cr)
- JOUR 8514 - Seminar: Advanced Mass Communication Theories (3.0 cr)
- JOUR 8601 - Seminar: Methods in Mass Communication History Research (3.0 cr)
- JOUR 8602 - Seminar: History of Mass Communication (3.0 cr)
- JOUR 8603 - Seminar: Theories and Models in Mass Communication History Research (3.0 cr)
JOUR 8620 - Seminar: Advertising Theory and Research (3.0 cr)
JOUR 8621 - Seminar: Public Relations Theory and Research (3.0 cr)
JOUR 8650 - Seminar: Psychology of Media Effects (3.0 cr)
JOUR 8651 - Seminar: Mass Communication, Audiences, and Society (3.0 cr)
JOUR 8661 - Seminar: Mediated Political Communication in the Digital Age (3.0 cr)
JOUR 8673 - Seminar: Media Management (3.0 cr)
JOUR 8675 - Seminar: Issues in Information Access and Communication (3.0 cr)
JOUR 8678 - Seminar: Constitutional Law--Theories of Freedom of Expression (3.0 cr)
JOUR 8679 - Seminar: Research Methods in Media Ethics and Law (3.0 cr)
JOUR 8681 - Seminar: International Media Perspectives (3.0 cr)
JOUR 8720 - Seminar: Mass Media and Health (3.0 cr)
JOUR 8721 - Seminar: Communication Agencies as Social Institutions (3.0 cr)
JOUR 8801 - Seminar: Comparative Research in Mass Communication, a Cross-National Approach (3.0 cr)
JOUR 8990 - Special Problems in Mass Communications (3.0 - 4.0 cr)
JOUR 8993 - Directed Study (1.0 - 6.0 cr)

Outside Coursework (6 credits)
Select 6 credits of outside coursework, in consultation with the advisor, from the following. Other courses can be applied to this requirement with advisor approval.

ANTH 8001 - Ethnography, Theory, History (3.0 cr)
ANTH 8002 - Ethnography: Contemporary Theory and Practice (3.0 cr)
ANTH 8203 - Research Methods in Social and Cultural Anthropology (3.0 cr)
COMM 8211 - Critical Communication Studies: History, Theory, Method (3.0 cr)
COMM 8611 - Seminar: Rhetoric (3.0 cr)
EPSY 5244 - Survey Design, Sampling, and Implementation (3.0 cr)
EPSY 5245 - Advanced Survey Data Analysis for Categorical and Rating Scale Data (1.0 cr)
EPSY 5247 - Qualitative Methods in Educational Psychology (3.0 cr)
EPSY 5261 - Introductory Statistical Methods (3.0 cr)
EPSY 5262 - Intermediate Statistical Methods (3.0 cr)
EPSY 8113 - The Psychology of Scientific Reasoning (3.0 cr)
EPSY 8114 - Seminar: Cognition and Learning (3.0 cr)
EPSY 8118 - Advanced Cognitive Psychology (3.0 cr)
EPSY 8251 - Statistical Methods in Education I (3.0 cr)
EPSY 8252 - Statistical Methods in Education II (3.0 cr)
EPSY 8264 - Advanced Multiple Regression Analysis (3.0 cr)
EPSY 8265 - Factor Analysis (3.0 cr)
EPSY 8266 - Statistical Analysis Using Structural Equation Methods (3.0 cr)
EPSY 8267 - Applied Multivariate Analysis (3.0 cr)

- **Program Type:** Graduate minor related to major
- **Requirements for this program are current for Fall 2020**
- **Length of program in credits (Masters):** 9
- **Length of program in credits (Doctorate):** 14
- **This program does not require summer semesters for timely completion.**

Along with the program-specific requirements listed below, please read the [General Information](#) section of the catalog website for requirements that apply to all major fields.

The mass communication program emphasizes the theoretical study of mass communication and analysis of media systems and effects. The program is not designed to provide professional skills training in journalism.

Areas of specialization include media processes, influences, and effects (including journalism, health communication, advertising, public relations, and political communication); media law, ethics, history; and media management. All programs are suffused with the study of new communication technologies.

**Program Delivery**
This program is available:
- via classroom (the majority of instruction is face-to-face)

**Prerequisites for Admission**

**Special Application Requirements:**
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Mass Communication director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the [General Information](#) section of the catalog website.

**Program Requirements**
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Minor field coursework must be selected in consultation with the Mass Communication director of graduate studies.

**Coursework (9 to 14 credits)**
Masters students select 9 credits, and doctoral students select 14 credits in consultation with the Mass Communication director of graduate studies. At least 6 of the 14 credits applied to the doctoral minor must be from 8-level courses.

- **JOUR 5501** - Communication, Public Opinion, and Social Media (3.0 cr)

Program Requirements
34 credits are required in the major.
12 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.5 is required for students to remain in good standing.

All coursework offered on the A/F and S/N grade basis must be taken A/F.

Mass Communication Theory Core Requirements (4 credits)
Take the following courses:
JOUR 8001 - Studies and Theories of Mass Communication (3.0 cr)
JOUR 8009 - Pre-seminar in Mass Communication (1.0 cr)

Second Theory Requirement (3 credits)
Select 3 credits from the following in consultation with the advisor. Other courses can be applied to this requirement with advisor approval.
JOUR 8002 - Studies in Mass Communication II (3.0 cr)
JOUR 8003 - Digital Media Issues and Theories (3.0 cr)
JOUR 8514 - Seminar: Advanced Mass Communication Theories (3.0 cr)
JOUR 8602 - Seminar: History of Mass Communication (3.0 cr)
JOUR 8620 - Seminar: Advertising Theory and Research (3.0 cr)
JOUR 8621 - Seminar: Public Relations Theory and Research (3.0 cr)
JOUR 8650 - Seminar: Psychology of Media Effects (3.0 cr)
JOUR 8651 - Seminar: Mass Communication, Audiences, and Society (3.0 cr)
JOUR 8661 - Seminar: Mediated Political Communication in the Digital Age (3.0 cr)
JOUR 8675 - Seminar: Issues in Information Access and Communication (3.0 cr)
JOUR 8678 - Seminar: Constitutional Law--Theories of Freedom of Expression (3.0 cr)
JOUR 8681 - Seminar: International Media Perspectives (3.0 cr)
JOUR 8720 - Seminar: Mass Media and Health (3.0 cr)

Methodology Core Requirements (6 credits)
Take the following courses:
JOUR 8501 - Seminar: The Process of Quantitative Mass Communication Research (3.0 cr)
JOUR 8503 - Seminar: Qualitative Methods in Mass Communication Research (3.0 cr)

Additional Method Requirement (3 credits)
Select 3 credits from the following in consultation with the advisor. Other courses can be applied to this requirement with advisor approval.
EPSY 5244 - Survey Design, Sampling, and Implementation (3.0 cr)
EPSY 5247 - Qualitative Methods in Educational Psychology (3.0 cr)
EPSY 5261 - Introductory Statistical Methods (3.0 cr)

**Electives (18 credits)**

Select 18 credits in consultation with the advisor from the following. Other courses can be applied to this requirement with advisor approval.

**JOUR Courses**

- JOUR 5501 - Communication, Public Opinion, and Social Media (3.0 cr)
- JOUR 5541 - Mass Communication and Public Health (3.0 cr)
- JOUR 5552 - Law of Internet Communication (3.0 cr)
- JOUR 5601W - History of Journalism [WI] (3.0 cr)
- JOUR 5725 - Management of Media Organizations (3.0 cr)
- JOUR 5777 - Contemporary Problems in Freedom of Speech and Press (3.0 cr)
- JOUR 8002 - Studies in Mass Communication II (3.0 cr)
- JOUR 8003 - Digital Media Issues and Theories (3.0 cr)
- JOUR 8502 - Seminar: Multi-method research in Mass Communication (3.0 cr)
- JOUR 8504 - Seminar: Analyzing Media Content (3.0 cr)
- JOUR 8513 - Seminar: Ethnographic Methods in Mass Communication Research (3.0 cr)
- JOUR 8514 - Seminar: Advanced Mass Communication Theories (3.0 cr)
- JOUR 8601 - Seminar: Methods in Mass Communication History Research (3.0 cr)
- JOUR 8602 - Seminar: History of Mass Communication (3.0 cr)
- JOUR 8603 - Seminar: Theories and Models in Mass Communication History Research (3.0 cr)
- JOUR 8620 - Seminar: Advertising Theory and Research (3.0 cr)
- JOUR 8621 - Seminar: Public Relations Theory and Research (3.0 cr)
- JOUR 8650 - Seminar: Psychology of Media Effects (3.0 cr)
- JOUR 8651 - Seminar: Mass Communication, Audiences, and Society (3.0 cr)
- JOUR 8661 - Seminar: Mediated Political Communication in the Digital Age (3.0 cr)
- JOUR 8673 - Seminar: Media Management (3.0 cr)
- JOUR 8675 - Seminar: Issues in Information Access and Communication (3.0 cr)
- JOUR 8678 - Seminar: Constitutional Law--Theories of Freedom of Expression (3.0 cr)
- JOUR 8679 - Seminar: Research Methods in Media Ethics and Law (3.0 cr)
- JOUR 8681 - Seminar: International Media Perspectives (3.0 cr)
- JOUR 8720 - Seminar: Mass Media and Health (3.0 cr)
- JOUR 8777 - Seminar: Communication Agencies as Social Institutions (3.0 cr)
- JOUR 8801 - Seminar: Comparative Research in Mass Communication, a Cross-National Approach (3.0 cr)
- JOUR 8890 - Special Problems in Mass Communications (3.0 - 4.0 cr)
- JOUR 8993 - Directed Study (1.0 - 6.0 cr)

**Outside Coursework (12 credits)**

Select 12 credits of outside coursework, in consultation with the advisor, from the following. Other courses can be applied to this requirement with advisor approval.

**ANTH Courses**

- ANTH 8001 - Ethnography, Theory, History (3.0 cr)
- ANTH 8002 - Ethnography: Contemporary Theory and Practice (3.0 cr)
- ANTH 8203 - Research Methods in Social and Cultural Anthropology (3.0 cr)

**COMM Courses**

- COMM 8211 - Critical Communication Studies: History, Theory, Method (3.0 cr)
- COMM 8611 - Seminar: Rhetoric (3.0 cr)

**EPSY Courses**

- EPSY 5244 - Survey Design, Sampling, and Implementation (3.0 cr)
- EPSY 5245 - Advanced Survey Data Analysis for Categorical and Rating Scale Data (1.0 cr)
- EPSY 5247 - Qualitative Methods in Educational Psychology (3.0 cr)
- EPSY 5261 - Introductory Statistical Methods (3.0 cr)
- EPSY 5262 - Intermediate Statistical Methods (3.0 cr)
- EPSY 8113 - The Psychology of Scientific Reasoning (3.0 cr)
- EPSY 8114 - Seminar: Cognition and Learning (3.0 cr)
- EPSY 8118 - Advanced Cognitive Psychology (3.0 cr)
- EPSY 8251 - Statistical Methods in Education I (3.0 cr)
- EPSY 8252 - Statistical Methods in Education II (3.0 cr)
- EPSY 8264 - Advanced Multiple Regression Analysis (3.0 cr)

LAW 5908 - Independent Research and Writing (1.0 - 2.0 cr)
or LAW 7606 - Independent Research and Writing (1.0 - 2.0 cr)
or LAW 7608 - Independent Research and Writing (1.0 - 2.0 cr)

Thesis Credits
Take 24 doctoral thesis credits.
JOUR 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)

Joint- or Dual-degree Coursework: JD/ Mass Communications PhD
Twin Cities Campus

Medieval Studies Minor
Medieval Studies, Center for
College of Liberal Arts

Link to a list of faculty for this program.

Contact Information:
Department of Center for Medieval Studies, 1110 Heller Hall, 271 19th Avenue South, Minneapolis, MN 55455 (612-626-0805).
Email: cmedst@umn.edu
Website: http://cmedst.umn.edu

- Program Type: Graduate free-standing minor
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The graduate minor in Medieval Studies enables graduates to demonstrate their course preparation in the field to schools and employers. Furthermore, it identifies graduates as medievalists who are comfortable in a number of disciplines and who are interested in the broader questions of medieval studies. Students may declare the minor at either the masters or the doctoral level. Graduate students who declare the minor are placed in contact with professors in many different departments on campus who may serve on their committees. In fulfillment of the requirements, students take course work with professors from other departments at the U, as well as interact with distinguished visiting scholars, brought in regularly by the Center for events such as the distinguished speakers series, workshops, and conferences.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Medieval Studies director of graduate studies regarding feasibility and requirements.

Students must complete an application for the minor (available on the CMS website or in the office) and return it to the Medieval Studies director of graduate studies.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Use of 4xxx courses toward the minor is permitted only with the permission of the Medieval Studies director of graduate studies.

The minimum cumulative GPA for minor field coursework is 3.00.

Latin/Medieval Vernacular Coursework (3 to 6 credits)
Master's and doctoral students select 3 credits that demonstrate a command of Latin. LAT 5100 is recommended; however, another course can be substituted. Doctoral students select an additional 3 credits to meet this requirement.

All courses selected must be outside the students major field and must be approved by the Medieval Studies director of graduate
studies.

- Program Type: Graduate free-standing minor
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 9
- Length of program in credits (Doctorate): 15
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The moving image increasingly permeates the fabric of contemporary culture and society. From cinema theaters and home televisions to installation art, portable electronic devices, medical technologies, and science laboratories, and in public spaces from airport terminals to building façades, the moving image is nearly ubiquitous.

The graduate minor in moving image studies trains students from a variety of disciplinary fields in the critical analysis of the moving image in its disparate yet interrelated forms. Drawing from the faculty's extensive research interests and expertise, the curriculum brings together discourses ranging from film theory to media studies, from the philosophy of the image to the history of technology, and beyond.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Admission to the minor is by request, with the approval of the student's adviser and the director of Graduate Studies of the minor.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

The PhD minor (minimum 15 credits) requires two core courses (6 credits): MIMS 8001 - Theories of the Moving Image (3 credits), and MIMS 8003 - Historiography of the Moving Image (3 credits). The PhD minor also requires three electives (minimum 9 credits): one 8xxx Topics Course (3 credits) chosen from a list of courses offered in a given year by film/media faculty in various departments, and two additional 5xxx or 8xxx courses (6 credits) chosen from a list of courses offered in a given year by film/media faculty in various departments, including, as a recommended option, a production-based course. The master's minor (minimum 9 credits) requires two core courses (6 credits): MIMS 8001 - Theories of the Moving Image (3 credits), and MIMS 8003 - Historiography of the Moving Image (3 credits). The master's minor also requires one additional 5xxx or 8xxx course (3 credits) chosen from a list of courses offered by film/media faculty in various departments.

Students are advised to check the program website indicated above for updated information.

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Master's

Required Courses
- MIMS 8001 - Theories of the Moving Image (3.0 cr)
- MIMS 8003 - Historiography of the Moving Image (3.0 cr)

Electives
- Take 3 or more credit(s) from the following:
  - 5xxx or 8xxx courses (3.0 cr) chosen from a list of courses offered in a given year by film/media faculty in various departments.

Doctoral

Required
- MIMS 8001 - Theories of the Moving Image (3.0 cr)
- MIMS 8003 - Historiography of the Moving Image (3.0 cr)

Electives
- Take 9 or more credit(s) from the following:
  - 8xxx - Topics Course (3.0 cr) chosen from a list of courses offered in a given year by film/media faculty in various departments.
  - 5xxx or 8xxx courses (6.0 cr) chosen from a list of courses offered in a given year by film/media faculty in various departments, including, as a recommended option, a production-based course.

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 85 to 97
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Musical Arts

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Doctor of Musical Arts (DMA) offers emphases in instrumental performance, piano, organ, voice, guitar, collaborative piano, and conducting.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Bachelor's degree or its equivalent with a major emphasis in one of the following areas of music: musicology/ethnomusicology, theory and/or composition, performance, or music education/therapy.

Master's degree in an appropriate field of study

Special Application Requirements:
Some emphases require additional application materials such as a preliminary DVD, audition, and/or interview. For more information, please refer to https://cla.umn.edu/music/graduate/apply.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Paper Based - Total Score: 550
- IELTS
  - Total Score: 6.5
- MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements
81 to 93 credits are required in the major.
4 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

All DMA students must complete at least one emphasis area.

With the exception of courses outside of the School of Music, all coursework offered on both the A/F and S/N grade basis must be taken A/F.

Research Requirement (3 credits)
All students take the following course:
MUS 5611 - Resources for Music Research (3.0 cr)

Music Theory/Musicology Coursework (12 credits)
All students select 12 credits from the following in consultation with the advisor. If MUS 5950 is selected, it must be taken for 3 credits.
MUS 5534 - Musical Minimalisms (3.0 cr)
MUS 5541* (3.0 cr)
MUS 5550 - Class Composition for Performers (3.0 cr)
MUS 5561 - Orchestration I (3.0 cr)
MUS 5571 - Schenkerian Analysis for Performers (3.0 cr)
MUS 5572 - Chromatic Harmony (3.0 cr)
MUS 5574* (3.0 cr)
MUS 5590 - Introduction to Music Information Technology (3.0 cr)
MUS 5592 - Music Informatics Seminar (3.0 cr)
MUS 5597 - Music and Text (3.0 cr)
MUS 5620 - Topics in Opera History (3.0 cr)
MUS 5624 - Music of J. S. Bach (3.0 cr)
MUS 5630 - Performance Practice: 1700 to the Present (3.0 cr)
MUS 5631 - Beethoven Sonatas for Solo Piano, Violin, & Cello (3.0 cr)
MUS 5647 - 20th-Century European/American Music (3.0 cr)
MUS 5731 - Jazz and Modernism (3.0 cr)
MUS 5805 - Worlds of Improvisation (3.0 cr)
MUS 5950 - Topics in Music (1.0 - 4.0 cr)
MUS 8501 - Music Theory Pedagogy (3.0 cr)
MUS 8550 - Composition (3.0 cr)
MUS 8560 - Theory and Analysis of Popular Music (3.0 cr)
MUS 8570 - Seminar in Composition (2.0 cr)
MUS 8571 - Composers' Laboratory (3.0 cr)
MUS 8580 - Topics in Tonal Analysis (3.0 cr)
MUS 8581 - Schenkerian Theory and Analysis I (3.0 cr)
MUS 8582 - Schenkerian Theory and Analysis II (3.0 cr)
MUS 8584 - Current Issues in the Analysis of 19th-Century Music (3.0 cr)
MUS 8585 - Chromatic Harmony Seminar (3.0 cr)
MUS 8590 - Topics in 20th-Century Analysis (3.0 cr)
MUS 8631 - Seminar: Music in Medieval Europe (3.0 cr)
MUS 8632 - Seminar: Music in Early Modern Europe (3.0 cr)
MUS 8640 - Seminar in Musicology (3.0 cr)
MUS 8644 - Seminar: Advanced Research in Historical Musicology (3.0 cr)
MUS 8847 - Seminar: The Critical Editing of Early Music--Method and Practice (3.0 cr)
MUS 8851 - Sonata Theory (3.0 cr)
MUS 8864 - Current Issues in Ethnomusicology (3.0 cr)

Electives (6 credits)
All students select at least 6 elective credits in consultation with the advisor. MUS and MUED courses applied to other DMA credit requirements are subject to approval.
requirements cannot also apply as an elective.
MUS 5xxx
MUS 8xxx
MUED 5xxx
MUED 8xxx
ACL 5221 - Creative Entrepreneurship and Resource Development (3.0 cr)

GRAD 8101 - Teaching in Higher Education (3.0 cr)
GRAD 8200 - Teaching and Learning Topics in Higher Education (1.0 cr)
WRIT 5051 - Graduate Research Writing for International Students (3.0 cr)
WRIT 5052 - Graduate Research Presentations and Conference Writing for Non-Native Speakers of English (3.0 cr)

Recital Credits (12 to 20 credits)
Students who choose to complete a secondary area take 12 recital credits; students who do not pursue a secondary area take 20 recital credits. Recital credits are taken in consultation with the advisor.
MUS 8999 - Recital Credits: Doctoral (4.0 cr)

Thesis Credits
All DMA students take 4 doctoral thesis credits.
MUS 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)

Emphases

Instrumental Performance (40 credits)
The Instrumental Performance emphasis offers the following options: bassoon, cello, clarinet, double bass, flute, French horn, harp, oboe, percussion, saxophone, trombone, trumpet, tuba, viola, and violin.

Applied Lessons (32 credits)
Take 32 credits in consultation with the advisor.
MUSA 8301 - Piano: Music Major (graduate) (2.0 - 4.0 cr)
MUSA 8304 - Voice: Music Major (graduate) (2.0 - 4.0 cr)
MUSA 8305 - Violin: Music Major (graduate) (2.0 - 4.0 cr)
MUSA 8306 - Viola: Music Major (graduate) (2.0 - 4.0 cr)
MUSA 8307 - Cello: Music Major (graduate) (2.0 - 4.0 cr)
MUSA 8308 - Double Bass: Music Major (graduate) (2.0 - 4.0 cr)
MUSA 8309 - Flute: Music Major (graduate) (2.0 - 4.0 cr)
MUSA 8311 - Oboe: Music Major (graduate) (2.0 - 4.0 cr)
MUSA 8312 - Clarinet: Music Major (graduate) (2.0 - 4.0 cr)
MUSA 8313 - Saxophone: Music Major (graduate) (2.0 - 4.0 cr)
MUSA 8314 - Bassoon: Music Major (graduate) (2.0 - 4.0 cr)
MUSA 8315 - French Horn: Music Major (graduate) (2.0 - 4.0 cr)
MUSA 8316 - Trumpet: Music Major (graduate) (2.0 - 4.0 cr)
MUSA 8317 - Trombone: Music Major (graduate) (2.0 - 4.0 cr)
MUSA 8318 - Euphonium: Music Major (graduate) (2.0 - 4.0 cr)
MUSA 8319 - Tuba: Music Major (graduate) (2.0 - 4.0 cr)
MUSA 8321 - Percussion: Music Major (graduate) (2.0 - 4.0 cr)
MUSA 8322 - Harp: Music Major (graduate) (2.0 - 4.0 cr)
MUSA 8324 - Accompanying/Coaching: Music Major (graduate) (2.0 - 4.0 cr)

Emphasis Coursework (8 credits)
Select 8 credits from the following in consultation with the advisor:
MUED 5750 - Topics in Music Education (1.0 - 4.0 cr)
MUED 5991 - Independent Study (1.0 - 4.0 cr)
MUED 8284 - Seminar: Research and Scholarly Issues (3.0 cr)
MUED 8994 - Directed Research (1.0 - 8.0 cr)
MUS 5331 - Jazz Improvisation I (2.0 cr)
MUS 5340 - Jazz Ensemble (1.0 cr)
MUS 5410 - University Wind Bands (1.0 cr)
MUS 5420 - Orchestra (1.0 cr)
MUS 5427 - Violin Pedagogy I (2.0 cr)
MUS 5440 - Chamber Ensemble (1.0 cr)
MUS 5450 - Orchestral Repertoire (1.0 - 3.0 cr)
MUS 5460 - World Music Ensemble (1.0 - 2.0 cr)
MUS 5464 - Cello Pedagogy (2.0 cr)
MUS 5485 - Transcription for Winds (2.0 cr)
MUS 5490 - Percussion Ensemble (1.0 cr)
MUS 5491 - Percussion Literature I (2.0 cr)
MUS 5494 - West African Music Ensemble (1.0 cr)
MUS 5561 - Orchestration I (3.0 cr)
MUS 5993 - Directed Studies (1.0 - 4.0 cr)
MUS 8994 - Directed Research (1.0 - 3.0 cr)

-OR-

Organ (43 credits)
Applied Lessons (32 credits)
  Take 32 credits of the following in consultation with the advisor:
  MUSA 8303 - Organ: Music Major (graduate) (2.0 - 4.0 cr)
Emphasis Coursework (11 credits)
  Take the following courses:
    MUS 5151 [Inactive](3.0 cr)
    MUS 5152 [Inactive](3.0 cr)
    MUS 8131 - Advanced Keyboard Skills (2.0 cr)
    MUS 8133 - Seminar in Basso Continuo (3.0 cr)

-OR-

Piano (44 credits)
Applied Lessons (32 credits)
  MUSA 8301 - Piano: Music Major (graduate) (2.0 - 4.0 cr)
Required Coursework (6 credits)
  Take the following courses:
    MUS 5181 - Advanced Piano Literature I (2.0 cr)
    MUS 5182 - Advanced Piano Literature II (2.0 cr)
    MUS 8131 - Advanced Keyboard Skills (2.0 cr)
Emphasis Electives (6 credits)
  Select 6 credits from the following in consultation with the advisor:
    MUS 5101 - Piano Pedagogy I (2.0 cr)
    MUS 5331 - Jazz Improvisation I (2.0 cr)
    MUS 5340 - Jazz Ensemble (1.0 cr)
    MUS 5410 - University Wind Bands (1.0 cr)
    MUS 5420 - Orchestra (1.0 cr)
    MUS 5440 - Chamber Ensemble (1.0 cr)
    MUS 5450 - Orchestral Repertoire (1.0 - 3.0 cr)
    MUS 5460 - World Music Ensemble (1.0 - 2.0 cr)
    MUS 5485 - Transcription for Winds (2.0 cr)
    MUS 5494 - West African Music Ensemble (1.0 cr)
    MUS 5561 - Orchestration I (3.0 cr)
    MUS 5993 - Directed Studies (1.0 - 4.0 cr)
    MUS 8994 - Directed Research (1.0 - 3.0 cr)

-OR-

Guitar (40 credits)
Applied Lessons (32 credits)
  MUSA 8323 - Guitar: Music Major (graduate) (2.0 - 4.0 cr)
Emphasis Coursework (8 credits)
  Take the following courses and 4 additional credits in consultation with the advisor:
    MUS 5461 - Guitar Literature (2.0 cr)
    MUS 5466 - Guitar Pedagogy (2.0 cr)

-OR-

Voice (44 credits)
Applied Lessons (32 credits)
Take 32 credits of the following in consultation with the advisor:
MUSA 8304 - Voice: Music Major (graduate) (2.0 - 4.0 cr)

Emphasis Coursework (12 credits)
Select 12 credits from the following in consultation with the advisor:
MUS 5271 - Diction for Singers I (2.0 cr)
MUS 5272 - Diction for Singers II (2.0 cr)
MUS 5275 - Vocal Pedagogy I (3.0 cr)
MUS 5276 - Vocal Pedagogy II (3.0 cr)
MUS 5241 - Vocal Literature I (3.0 cr)
MUS 8182 - Opera History in Context: Monteverdi and Mozart (3.0 cr)
MUS 8183 - Opera History in Context: Verdi and Britten (3.0 cr)

-OR-

Collaborative Piano (45 credits)

Applied Lessons (32 credits)
Take 32 credits of the following in consultation with the advisor:
MUSA 8324 - Accompanying/Coaching: Music Major (graduate) (2.0 - 4.0 cr)

Emphasis Coursework (13 credits)
Take the following courses:
MUS 8110 - Sonata Seminar (2.0 cr)
MUS 8112 - Instrumental Repertoire: Reduction and Realization (2.0 cr)
MUS 8131 - Advanced Keyboard Skills (2.0 cr)
MUS 8133 - Seminar in Basso Continuo (3.0 cr)
MUS 8170 - Advanced Vocal Accompanying Skills and Repertoire (2.0 cr)
MUS 8181 - Operatic Accompaniment Skills and Repertoire (2.0 cr)

-OR-

Conducting (44 credits)

Required Coursework (32 credits)
Take 32 credits of the following, in consultation with the advisor, as follows: 20 credits in the primary area; 8 credits in a secondary area; and 4 credits in a tertiary area.
MUS 8450 - Graduate Seminar in Conducting (3.0 - 4.0 cr)

Electives (12 credits)
Select 12 electives credits in consultation with the advisor.
MUS 5xxx

-OR-

Secondary Area - Musicology/Ethnomusicology (0 to 15 credits)
Division approval to participate in a secondary area is required.

Required Course (3 credits)
Take the following course:
MUS 8644 - Seminar: Advanced Research in Historical Musicology (3.0 cr)

Musicology/Ethnomusicology Electives (12 credits)
Select 12 credits of MUS 56xx- or 86xx-level courses in consultation with the advisor. At least 6 credits must be at the 8000-level. Other courses may be approved in consultation with your advisor.

-OR-

Secondary Area - Music Theory (0 to 15 credits)
Division approval to participate in a secondary area is required.

Schenkerian Theory Course (3 credits)
Select one of the following courses in consultation with the advisor:
MUS 5571 - Schenkerian Analysis for Performers (3.0 cr)
MUS 8581 - Schenkerian Theory and Analysis I (3.0 cr)

Music Theory Coursework (12 credits)
Select 12 credits of MUS 55xx- or 85xx-level courses in consultation with the advisor. At least 6 credits must be at the 8000-level. Other courses may be approved in consultation with your advisor.

-OR-

Secondary Area - Music Composition (0 to 15 credits)
Division approval to participate in a secondary area is required.

Composition Courses (6 credits)
Take the following twice for a total of 6 credits:
MUS 8550 - Composition (3.0 cr)
Emphasis Electives (9 credits)
Select 9 credits from the following in consultation with the advisor:
MUS 5591 - Introduction to Music Information Technology (3.0 cr)
MUS 5950 - Topics in Music (1.0 - 4.0 cr)
MUS 5993 - Directed Studies (1.0 - 4.0 cr)
MUS 8994 - Directed Research (1.0 - 3.0 cr)
-OR-

Secondary Area - Choral Conducting (0 to 15 credits)
Division approval to participate in a secondary area is required. In addition to the following courses, Choral Conducting requires a conducting recital, lecture presentation, and concert program with detailed program notes.

Required Coursework (15 credits)
Take the following courses. Take MUS 8450 for 3 credits twice for a total of 6 credits.
MUS 8237 - Score Study: Choral (3.0 cr)
MUS 8255 - Choral Literature: Baroque Era to the Present (3.0 cr)
MUS 8299 - Performance in Choral Conducting (3.0 cr)
MUS 8450 - Graduate Seminar in Conducting (3.0 - 4.0 cr)
-OR-

Secondary Area - Education/Pedagogy (0 to 15 credits)
Division approval to participate in a secondary area is required. No courses applied to the Education/Pedagogy secondary area may also be used to complete the DMAs 6-credit elective requirement.

Required Courses (6 credits)
Take the following courses:
MUED 8280 - Seminar: Current Trends in Music Education (3.0 cr)
MUED 8284 - Seminar: Research and Scholarly Issues (3.0 cr)

Education/Pedagogy Course (3 credits)
Select 3 credits from the following in consultation with the advisor:
MUED 5xxx
MUED 8xxx

Elective Courses (6 credits)
Select 6 credits from the following in consultation with the advisor:
MUS 5101 - Piano Pedagogy I (2.0 cr)
MUS 5275 - Vocal Pedagogy I (3.0 cr)
MUS 5427 - Violin Pedagogy I (2.0 cr)
MUS 5464 - Cello Pedagogy (2.0 cr)
MUS 5466 - Guitar Pedagogy (2.0 cr)
MUS 5481 - Trumpet Pedagogy (2.0 cr)
MUS 8501 - Music Theory Pedagogy (3.0 cr)

- Program Type: Post-baccalaureate credit certificate/licensure/endorsement
- Requirements for this program are current for Fall 2020
- Length of program in credits: 43 to 47
- This program does not require summer semesters for timely completion.
- Degree: Music Education Postbaccalaureate Certificate

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

This post-baccalaureate certificate has two emphases that align with state teacher education requirements: K-12 Instrumental/General Music and K-12 Vocal/General Music. The certificate enables students with previous performance degrees to complete the required curriculum for licensure to teach music in K-12 settings in the state of Minnesota.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Eligibility requirements include a completed music degree from an accredited college or university with the following minima:
- Music Theory and Aural Skills sequence—normally at least 4 semesters
- Music History—a full sequence of at least 2 semesters of Western Art Music History from Renaissance to the present AND at least one semester of music history that focuses on genres beyond Western Art Music
- Applied Music—7 semesters of intensive applied study on an instrument
- Ensembles—at least 7 semesters of ensemble experience, at least 4 of which should be large ensembles appropriate to the major:
  - Wind Ensemble, Orchestra, or Symphonic band
  - Basic Conducting, One semester of basic conducting
  - Chorus or University Singers
- Individual courses that are used to meet the above requirements must be passed with a grade of C- or better
- Overall GPA must be at least 3.0

Special Application Requirements:
- 2 letters of recommendation
- 30 hours of field experience in a K-12 setting
- Performance DVD on primary instrument
- Successful completion of the Proficiency Exam for Music Education
  - Written Skills
  - Oral Skills
  - Accompanying Skills
  - Song-Leading Skills
  - Error-Detection Skills

For an online application or for more information about graduate education admissions, see the General Information section of the
Program Requirements

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Prerequisite courses:

All students must complete the following prerequisite course, or its equivalent as determined by the certificate program:
MUED 1201 Intro to Music Ed 2 credits

Students pursuing the Instrumental Emphasis must complete the following prerequisite course, or its equivalent as determined by the certificate program:
MUS 1260 Voice Class 2 credits
OR
MUSA 1404 Voice: Music Major Secondary 2-4 credits

Students pursuing the Vocal (Piano or Voice) Emphasis must complete the following prerequisite course, or its equivalent as determined by the certificate program:
MUSA 1404 Voice: Music Major Secondary 2-4 credits
OR
MUSA 1401 Piano: Music Major Secondary 2-4 credits

Professional Education Requirements

Take the following courses for a total of 11 credits. CI 5452 must be taken for 2 credits.
CI 4602 - English Learners and Academic Language (1.0 cr)
CI 5163 - Child and Adolescent Development for Teaching and Learning I (1.0 cr)
CI 5164 - Child and Adolescent Development for Teaching and Learning II (2.0 cr)
CI 5452 - Reading in the Content Areas for Initial Licensure Candidates (1.0 - 2.0 cr)
EPSY 4001 - Teaching Students with Special Needs in Inclusive Settings (1.0 cr)
OLPD 5005 - School and Society (2.0 cr)
OLPD 5009 - Human Relations: Applied Skills for School and Society (1.0 cr)
PUBH 6003 (Inactive)

Music Education Core Requirements

Take the following courses for a total of 15 credits. MUED 5350 is taken for 5 credits.
MUED 5101 - Improvisation and Creativity in the Music Classroom (2.0 cr)
MUED 5301 - General Music I (3.0 cr)
MUED 5302 - General Music II (3.0 cr)
MUED 5350 - Student Teaching in Classroom Music (4.0 - 8.0 cr)
MUED 5650 - Student Teaching Seminar (2.0 cr)

Emphasis Options

Instrumental Emphasis

Take the following courses for a total of 21 credits. MUED 5550 is taken for 5 credits.
MUED 4502 - String Techniques and Teaching (2.0 cr)
MUED 4503 - Woodwind Techniques and Teaching (2.0 cr)
MUED 4504 - Brass Techniques and Teaching (2.0 cr)
MUED 4505 - Percussion Techniques and Teaching (2.0 cr)
MUED 5516 - Instrumental Methods and Materials I (3.0 cr)
MUED 5517 - Instrumental Methods and Materials II (3.0 cr)
MUED 5550 - Student Teaching in Instrumental Music (4.0 - 8.0 cr)
MUED 5519 - Advanced Conducting and Repertoire (Instrumental) (2.0 cr)

-OR-

Vocal Emphasis (Piano or Voice)

Take the following courses for a total of 17 credits. MUED 5450 is taken for 5 credits.
MUED 4417 - Style, Pedagogy, and Diction in the Choral Music Classroom I (2.0 cr)
MUED 4418 - Style, Pedagogy, and Diction in the Choral Music Classroom II (2.0 cr)
MUED 5415 - Choral/Vocal Methods and Materials I (3.0 cr)
MUED 5416 - Choral/Vocal Methods and Materials II (3.0 cr)
MUED 5419 - Advanced Conducting and Repertoire (Choral) (2.0 cr)
MUED 5450 - Student Teaching in Vocal Music (4.0 - 8.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 30 to 34
- This program does not require summer semesters for timely completion.
- Degree: Master of Arts

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The School of Music offers a Music MA degree with emphases in composition, music therapy, musicology/ethnomusicology, and theory.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Other requirements to be completed before admission:
Applicants must hold a bachelor's degree or its equivalent with a major emphasis in one of the following areas of music: composition, music therapy, musicology/ethnomusicology, performance, or theory.

Special Application Requirements:
Composition emphasis: submission of original scores and recordings (2-4 scores of varying genres)

Music Therapy emphasis: documentation of at least 3,500 hours of clinical experience, and completion of prerequisite coursework.
Applicants without the following prerequisites must complete all of the following upon admission. Prerequisite coursework does not count toward the 30 credits required for the MA degree.
MUED 3802 - Guitar I for Music Education and Music Therapy Majors: Developing Group Songleading Skills (2.0 cr)
MUED 3803 - Guitar II for Music Education and Music Therapy Majors: Developing Group Songleading Skills (2.0 cr)
MUED 5803 - Therapeutic Management in Music Settings (4.0 cr)
MUED 5804 - Music Therapy Methods and Procedures I (4.0 cr)
MUED 5805 - Music Therapy Methods and Procedures II (4.0 cr)
MUED 5806 - Career Preparation (4.0 cr)
MUED 5855 - Music Therapy Internship (1.0-13.0 cr)

Musicology/ethnomusicology emphasis: submission of one or more original papers, at least one of which demonstrates ability in musical analysis

Theory emphasis: submission of one original paper on tonal analysis, and one original paper on post-tonal analysis

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Paper Based - Total Score: 550
- IELTS
  - Total Score: 6.5
• MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

**Plan A:** Plan A requires 18 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is written and oral.

**Plan B:** Plan B requires 24 to 29 major credits and 3 to 6 credits outside the major. The final exam is written and oral.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Language Requirement: Varies according to emphasis

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

Language requirements: A reading knowledge of French, German, or Italian is required for all MA degree emphases except therapy. For the emphasis in composition, reading knowledge of a foreign language or, with approval, an equivalent research tool.

All coursework offered on both the A/F and S/N grade basis must be taken A/F.

Concentrations

**Composition (32 credits)**

Students pursuing the Composition emphasis complete the Plan B option.

**Required Course (3 credits)**

Take the following course:

MUS 5591 - Introduction to Music Information Technology (3.0 cr)

**Composition Coursework (12 credits)**

Take MUS 8550 4 times for a total of 12 credits.

MUS 8550 - Composition (3.0 cr)

**Theory and/or Analysis Coursework (3 credits)**

Select 3 credits from the following in consultation with the advisor:

MUS 85xx

**Musicology/Ethnomusicology Coursework (3 credits)**

Select 3 credits from the following in consultation with the advisor:

MUS 56xx

**Ensemble (2 credits)**

Select 2 credits from the following in consultation with the advisor:

MUS 5240 - University Singers (1.0 cr)

MUS 5280 - Opera Theatre (2.0 cr)

MUS 5340 - Jazz Ensemble (1.0 cr)

MUS 5410 - University Wind Bands (1.0 cr)

MUS 5420 - Orchestra (1.0 cr)

MUS 5440 - Chamber Ensemble (1.0 cr)

MUS 5460 - World Music Ensemble (1.0 - 2.0 cr)

MUS 5490 - Percussion Ensemble (1.0 cr)

MUS 5493 - Javanese Gamelan Music Ensemble (1.0 cr)

MUS 5494 - West African Music Ensemble (1.0 cr)

**Creative Studies and Media (6 credits)**

Select 6 credits from the following in consultation with the advisor:
MUS 5xxx
MUS 8xxx

**Outside Coursework (3 credits)**
Select 3 credits outside the major in consultation with the advisor. MUED and Music Therapy courses can be included with advisor approval.
MUE 5xxx
MUED 8xxx

-OR-

**Music Therapy (30 credits)**
Students pursuing the Music Therapy emphasis complete the Plan B option.

**Music Therapy Coursework (7 credits)**
Take the following courses in consultation with the advisor. At least one of the courses must be taken for 4 credits.
MUED 5807 - Psychiatric Music Therapy (3.0 - 4.0 cr)
MUED 5808 - Medical Music Therapy (3.0 - 4.0 cr)

**Research Core Coursework (6 credits)**
Select 6 credits from the following in consultation with the advisor:
MUED 8112 - Introduction to Research Methods and Design in Arts Education (3.0 cr)
MUED 8115 - Assessment in Arts Education (3.0 cr)
MUED 8118 - Qualitative Research in Arts Education (3.0 cr)

**Electives (6 credits)**
Select 6 credits from the following in consultation with the advisor:
MUS 55xx
MUS 56xx
MUS 57xx
MUS 58xx
MUS 85xx
MUED 86xx
MUS 87xx
MUS 88xx

**Research Project (5 credits)**
Take 5 credits of the following in consultation with the advisor:
MUED 8880 - Master's Research Project (3.0 - 6.0 cr)

**Outside Coursework (6 credits)**
Take 6 credits outside the School of Music in consultation with the advisor. Up to 3 MUED credits may be applied to this requirement with advisor approval.

Contact Information:
Department of School of Music, 100 Ferguson Hall, 2106 4th Street South, Minneapolis, MN 55455 (612-624-5093; fax: 612-624-8001)
Email: mnmusic@umn.edu
Website: http://www.music.umn.edu

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 30 to 33
- This program does not require summer semesters for timely completion.
- Degree: Master of Music

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The master of music degree offers emphases in piano, organ, voice, violin, viola, cello, double bass, flute, oboe, clarinet, saxophone, bassoon, French horn, trumpet, trombone, euphonium, tuba, percussion, harp, guitar, collaborative piano/coaching, orchestral conducting, wind ensemble/band conducting, and choral conducting.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Special Application Requirements:
Some emphases require additional application materials such as a preliminary DVD, audition, and/or interview. For more information, please refer to https://cla.umn.edu/music/graduate/apply.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Paper Based - Total Score: 550
- IELTS
  - Total Score: 6.5
- MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Plan C: Plan C requires 30 to 33 major credits and up to null credits outside the major. The final exam is oral.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.
A minimum GPA of 3.00 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

With the exception of coursework taken outside the School of Music, all courses offered on both the A/F and S/N grade basis must be taken A/F.

**Emphases**

**Instrumental Performance (30 credits)**

**Applied Lessons (12 credits)**

Take 12 credits in consultation with the advisor.

- MUSA 8301 - Piano: Music Major (graduate) (2.0 - 4.0 cr)
- MUSA 8304 - Voice: Music Major (graduate) (2.0 - 4.0 cr)
- MUSA 8305 - Violin: Music Major (graduate) (2.0 - 4.0 cr)
- MUSA 8306 - Viola: Music Major (graduate) (2.0 - 4.0 cr)
- MUSA 8307 - Cello: Music Major (graduate) (2.0 - 4.0 cr)
- MUSA 8308 - Double Bass: Music Major (graduate) (2.0 - 4.0 cr)
- MUSA 8309 - Flute: Music Major (graduate) (2.0 - 4.0 cr)
- MUSA 8311 - Oboe: Music Major (graduate) (2.0 - 4.0 cr)
- MUSA 8312 - Clarinet: Music Major (graduate) (2.0 - 4.0 cr)
- MUSA 8313 - Saxophone: Music Major (graduate) (2.0 - 4.0 cr)
- MUSA 8314 - Bassoon: Music Major (graduate) (2.0 - 4.0 cr)
- MUSA 8315 - French Horn: Music Major (graduate) (2.0 - 4.0 cr)
- MUSA 8316 - Trumpet: Music Major (graduate) (2.0 - 4.0 cr)
- MUSA 8317 - Trombone: Music Major (graduate) (2.0 - 4.0 cr)

- MUSA 8319 - Tuba: Music Major (graduate) (2.0 - 4.0 cr)
- MUSA 8321 - Percussion: Music Major (graduate) (2.0 - 4.0 cr)
- MUSA 8322 - Harp: Music Major (graduate) (2.0 - 4.0 cr)
- MUSA 8324 - Accompanying/Coaching: Music Major (graduate) (2.0 - 4.0 cr)

**Emphasis Coursework (4 credits)**

Select 4 credits from the following in consultation with the advisor and director of graduate studies:

- MUED 5750 - Topics in Music Education (1.0 - 4.0 cr)
- MUED 5991 - Independent Study (1.0 - 4.0 cr)
- MUED 8284 - Seminar: Research and Scholarly Issues (3.0 cr)
- MUED 8994 - Directed Research (1.0 - 8.0 cr)
- MUS 5331 - Jazz Improvisation I (2.0 cr)
- MUS 5340 - Jazz Ensemble (1.0 cr)
- MUS 5427 - Violin Pedagogy I (2.0 cr)
- MUS 5440 - Chamber Ensemble (1.0 cr)
- MUS 5450 - Orchestral Repertoire (1.0 - 3.0 cr)
- MUS 5460 - World Music Ensemble (1.0 - 2.0 cr)
- MUS 5464 - Cello Pedagogy (2.0 cr)
- MUS 5485 - Transcription for Winds (2.0 cr)
- MUS 5490 - Percussion Ensemble (1.0 cr)
- MUS 5491 - Percussion Literature I (2.0 cr)
- MUS 5494 - West African Music Ensemble (1.0 cr)
- MUS 5561 - Orchestration I (3.0 cr)
- MUS 5593 - Directed Studies (1.0 - 4.0 cr)
- MUS 8994 - Directed Research (1.0 - 3.0 cr)

**Ensemble (3 credits)**

Take 3 credits from the following in consultation with the advisor:

- MUS 5410 - University Wind Bands (1.0 cr)
- MUS 5420 - Orchestra (1.0 cr)

**Music Theory/Musicology Coursework (9 credits)**

Select 9 credits from the following in consultation with the advisor. If MUS 5950 is selected, it must be taken for 3 credits.

- MUS 5354 - Musical Minimalisms (3.0 cr)
- MUS 5550 - Class Composition for Performers (3.0 cr)
- MUS 5571 - Schenkerian Analysis for Performers (3.0 cr)
- MUS 5572 - Chromatic Harmony (3.0 cr)
- MUS 5591 - Introduction to Music Information Technology (3.0 cr)
- MUS 5592 - Music Informatics Seminar (3.0 cr)
- MUS 5597 - Music and Text (3.0 cr)
- MUS 5620 - Topics in Opera History (3.0 cr)
MUS 5624 - Music of J. S. Bach (3.0 cr)
MUS 5630 - Performance Practice: 1700 to the Present (3.0 cr)
MUS 5631 - Beethoven Sonatas for Solo Piano, Violin, & Cello (3.0 cr)
MUS 5647 - 20th-Century European/American Music (3.0 cr)
MUS 5731 - Jazz and Modernism (3.0 cr)
MUS 5805 - Worlds of Improvisation (3.0 cr)
MUS 5950 - Topics in Music (1.0 - 4.0 cr)
MUS 8501 - Music Theory Pedagogy (3.0 cr)
MUS 8550 - Composition (3.0 cr)
MUS 8560 - Theory and Analysis of Popular Music (3.0 cr)
MUS 8570 - Seminar in Composition (2.0 cr)
MUS 8571 - Composers' Laboratory (3.0 cr)
MUS 8580 - Topics in Tonal Analysis (3.0 cr)
MUS 8581 - Schenkerian Theory and Analysis I (3.0 cr)
MUS 8582 - Schenkerian Theory and Analysis II (3.0 cr)
MUS 8584 - Current Issues in the Analysis of 19th-Century Music (3.0 cr)
MUS 8585 - Chromatic Harmony Seminar (3.0 cr)
MUS 8590 - Topics in 20th-Century Analysis (3.0 cr)
MUS 8631 - Seminar: Music in Medieval Europe (3.0 cr)
MUS 8632 - Seminar: Music in Early Modern Europe (3.0 cr)
MUS 8640 - Seminar in Musicology (3.0 cr)
MUS 8644 - Seminar: Advanced Research in Historical Musicology (3.0 cr)
MUS 8647 - Seminar: The Critical Editing of Early Music--Method and Practice (3.0 cr)
MUS 8651 - Sonata Theory (3.0 cr)
MUS 8864 - Current Issues in Ethnomusicology (3.0 cr)

Electives (2 credits)
Select 2 credits from the following in consultation with the advisor. Other courses may be applied to this requirement with approval of the advisor and director of graduate studies.

ACL 5211 - Trends and Impacts in Arts and Cultural Leadership and Management (3.0 cr)
ACL 5221 - Creative Entrepreneurship and Resource Development (3.0 cr)
CSPH 5101 - Introduction to Integrative Healing Practices (3.0 cr)
CSPH 5102 - Art of Healing: Self as Healer (1.0 cr)
CSPH 5225 - Meditation: Integrating Body and Mind (2.0 cr)
CSPH 5343 - Ayurveda Medicine: The Science of Self-healing (2.0 cr)
CSPH 5503 - Aromatherapy Fundamentals (1.0 cr)
CSPH 5535 - Reiki Healing (1.0 cr)
CSPH 5605 - Movement and Music for Well-being and Healing (2.0 cr)
CSPH 5708 - Mind-Body Science and the Art of Transformation (1.0 cr)
EPSY 5101 - Intelligence and Creativity (3.0 cr)
ESL 5302 - Academic Writing (4.0 cr)
GRAD 5102 - Preparation for University Teaching for Nonnative English Speakers (2.0 cr)

-OR-

Collaborative Piano (31 credits)

Applied Lessons (16 credits)
Take 16 credits of the following in consultation with the advisor:
MUSA 8324 - Accompanying/Coaching: Music Major (graduate) (2.0 - 4.0 cr)

Emphasis Coursework (6 credits)
Take the following courses:
MUS 8110 - Sonata Seminar (2.0 cr)
MUS 8131 - Advanced Keyboard Skills (2.0 cr)
MUS 8170 - Advanced Vocal Accompaniment Skills and Repertoire (2.0 cr)

Music Theory/Musicology Coursework (9 credits)
Select 9 credits from the following in consultation with the advisor. If MUS 5950 is selected, it must be taken for 3 credits.

- MUS 5534 - Musical Minimalisms (3.0 cr)
- MUS 5550 - Class Composition for Performers (3.0 cr)
- MUS 5561 - Orchestration I (3.0 cr)
- MUS 5571 - Schenkerian Analysis for Performers (3.0 cr)
- MUS 5572 - Chromatic Harmony (3.0 cr)
- MUS 5591 - Introduction to Music Information Technology (3.0 cr)
- MUS 5592 - Music Informatics Seminar (3.0 cr)
- MUS 5597 - Music and Text (3.0 cr)
- MUS 5620 - Topics in Opera History (3.0 cr)
- MUS 5624 - Music of J. S. Bach (3.0 cr)
- MUS 5630 - Performance Practice: 1700 to the Present (3.0 cr)
- MUS 5631 - Beethoven Sonatas for Solo Piano, Violin, & Cello (3.0 cr)
- MUS 5647 - 20th-Century European/American Music (3.0 cr)
- MUS 5731 - Jazz and Modernism (3.0 cr)

-OR-

**Choral Conducting (30 credits)**

**Required Coursework (15 credits)**

Take the following courses. Take 6 credits of MUS 8450 in consultation with the advisor.

- MUS 8237 - Score Study: Choral (3.0 cr)
- MUS 8255 - Choral Literature: Baroque Era to the Present (3.0 cr)
- MUS 8299 - Performance in Choral Conducting (3.0 cr)
- MUS 8450 - Graduate Seminar in Conducting (3.0 - 4.0 cr)

**Music Theory/Musicology Coursework (9 credits)**

Select 9 credits from the following in consultation with the advisor. If MUS 5950 is selected, it must be taken for 3 credits.

- MUS 5534 - Musical Minimalisms (3.0 cr)
- MUS 5550 - Class Composition for Performers (3.0 cr)
- MUS 5561 - Orchestration I (3.0 cr)
- MUS 5571 - Schenkerian Analysis for Performers (3.0 cr)
- MUS 5572 - Chromatic Harmony (3.0 cr)
- MUS 5591 - Introduction to Music Information Technology (3.0 cr)
- MUS 5592 - Music Informatics Seminar (3.0 cr)
- MUS 5597 - Music and Text (3.0 cr)
- MUS 5620 - Topics in Opera History (3.0 cr)
- MUS 5624 - Music of J. S. Bach (3.0 cr)
- MUS 5630 - Performance Practice: 1700 to the Present (3.0 cr)
- MUS 5631 - Beethoven Sonatas for Solo Piano, Violin, & Cello (3.0 cr)
- MUS 5647 - 20th-Century European/American Music (3.0 cr)
- MUS 5731 - Jazz and Modernism (3.0 cr)
- MUS 5805 - Worlds of Improvisation (3.0 cr)
- MUS 5950 - Topics in Music (1.0 - 4.0 cr)
- MUS 8501 - Music Theory Pedagogy (3.0 cr)
- MUS 8550 - Composition (3.0 cr)
- MUS 8560 - Theory and Analysis of Popular Music (3.0 cr)
- MUS 8570 - Seminar in Composition (2.0 cr)
- MUS 8571 - Composers’ Laboratory (3.0 cr)
- MUS 8580 - Topics in Tonal Analysis (3.0 cr)
- MUS 8581 - Schenkerian Theory and Analysis I (3.0 cr)
- MUS 8582 - Schenkerian Theory and Analysis II (3.0 cr)
- MUS 8584 - Current Issues in the Analysis of 19th-Century Music (3.0 cr)
- MUS 8585 - Chromatic Harmony Seminar (3.0 cr)
- MUS 8590 - Topics in 20th-Century Analysis (3.0 cr)
- MUS 8631 - Seminar: Music in Medieval Europe (3.0 cr)
- MUS 8632 - Seminar: Music in Early Modern Europe (3.0 cr)
- MUS 8640 - Seminar in Musicology (3.0 cr)
- MUS 8644 - Seminar: Advanced Research in Historical Musicology (3.0 cr)
- MUS 8647 - Seminar: The Critical Editing of Early Music–Method and Practice (3.0 cr)
- MUS 8651 - Sonata Theory (3.0 cr)
- MUS 8864 - Current Issues in Ethnomusicology (3.0 cr)

**Electives (6 credits)**
Select 6 credits from the following in consultation with the advisor. Other courses may be applied to this requirement with approval of the advisor and director of graduate studies.

- **ACL 5211** - Trends and Impacts in Arts and Cultural Leadership and Management (3.0 cr)
- **ACL 5221** - Creative Entrepreneurship and Resource Development (3.0 cr)
- **CSPH 5101** - Introduction to Integrative Healing Practices (3.0 cr)
- **CSPH 5102** - Art of Healing: Self as Healer (1.0 cr)
- **CSPH 5225** - Meditation: Integrating Body and Mind (2.0 cr)
- **CSPH 5343** - Ayurveda Medicine: The Science of Self-healing (2.0 cr)
- **CSPH 5503** - Aromatherapy Fundamentals (1.0 cr)
- **CSPH 5535** - Reiki Healing (1.0 cr)

MUS 8651 - Sonata Theory (3.0 cr)
MUS 8864 - Current Issues in Ethnomusicology (3.0 cr)

Electives (12 credits)
Select 12 elective credits in consultation with the advisor.
MUSA 5xxx
MUSA 8xxx

-OR-

Music Education - Pedagogical Track (33 credits)
Foundations Coursework (9 credits)
Take the following courses. Select 3 MUED 5xxx- or 8xxx-level credits in consultation with the advisor.
MUED 8115 - Assessment in Arts Education (3.0 cr)
MUED 8211 - Foundations of Music Education (3.0 cr)
MUED 5xxx
MUED 8xxx

Pedagogical Concentration (12 credits)
Take the following courses, plus 6 MUED credits selected in consultation with the advisor, for a total of 12 credits.
MUED 8210 - Advanced Music Teaching Seminar (3.0 cr)
MUED 8212 - Curriculum Design in Music Education (3.0 cr)
MUED 5xxx
MUED 8xxx

**Supportive Studies in Music (9 credits)**
Select 9 credits from the following in consultation with the advisor. Up to 4 credits can be MUSA 5xxx-level coursework.
- MUS 5xxx
- MUS 8xxx
- MUSA 5xxx

**Research Project (3 credits)**
Take 3 credits of the following in consultation with the advisor:
- MUED 8880 - Master's Research Project (3.0 - 6.0 cr)

-OR-

**Music Education - Research Track (33 credits)**

**Foundations Coursework (12 credits)**
Take the following courses:
- MUED 8112 - Introduction to Research Methods and Design in Arts Education (3.0 cr)
- MUED 8115 - Assessment in Arts Education (3.0 cr)
- MUED 8118 - Qualitative Research in Arts Education (3.0 cr)
- MUED 8211 - Foundations of Music Education (3.0 cr)

**Pedagogical Concentration (6 credits)**
Take the following course and 3 MUED credits selected in consultation with the advisor.
- MUED 8212 - Curriculum Design in Music Education (3.0 cr)
- MUED 5xxx
- MUED 8xxx

**Supportive Studies in Music (9 credits)**
Select 9 credits from the following in consultation with the advisor:
- MUS 5xxx
- MUS 8xxx
- Up to 4 credits from the following can be applied to this 9-credit requirement with advisor approval:
  - MUSA 5xxx

**Research Project (6 credits)**
Take 6 credits from the following in consultation with the advisor:
- MUED 8880 - Master's Research Project (3.0 - 6.0 cr)
Twin Cities Campus

Music Minor
School of Music
College of Liberal Arts

Link to a list of faculty for this program.

Contact Information:
Department of School of Music, 100 Ferguson Hall, 2106 4th St S, Minneapolis, MN 55455 (612-624-5093; fax: 612-624-8001)
Email: mnmusic@umn.edu
Website: http://www.music.umn.edu

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2020
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Doctoral students interested in the theory and history of music are invited to pursue the Music minor.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Music director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Coursework (12 credits)
Select 12 credits from the following in consultation with the Music director of graduate studies. One 5xxx-level MUS course or one MUSA 83xx course may be applied to this requirement with prior approval of the director of graduate studies.

- MUS 8501 - Music Theory Pedagogy (3.0 cr)
- MUS 8550 - Composition (3.0 cr)
- MUS 8560 - Theory and Analysis of Popular Music (3.0 cr)
- MUS 8570 - Seminar in Composition (2.0 cr)
- MUS 8571 - Composers' Laboratory (3.0 cr)
- MUS 8580 - Topics in Tonal Analysis (3.0 cr)
- MUS 8581 - Schenkerian Theory and Analysis I (3.0 cr)
- MUS 8582 - Schenkerian Theory and Analysis II (3.0 cr)
- MUS 8584 - Current Issues in the Analysis of 19th-Century Music (3.0 cr)
- MUS 8585 - Chromatic Harmony Seminar (3.0 cr)
- MUS 8590 - Topics in 20th-Century Analysis (3.0 cr)
- MUS 8631 - Seminar: Music in Medieval Europe (3.0 cr)
- MUS 8632 - Seminar: Music in Early Modern Europe (3.0 cr)
- MUS 8640 - Seminar in Musicology (3.0 cr)
- MUS 8644 - Seminar: Advanced Research in Historical Musicology (3.0 cr)
- MUS 8647 - Seminar: The Critical Editing of Early Music--Method and Practice (3.0 cr)
- MUS 8651 - Sonata Theory (3.0 cr)
- MUS 8864 - Current Issues in Ethnomusicology (3.0 cr)
Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Doctoral
Twin Cities Campus
Music Ph.D.
School of Music
College of Liberal Arts

Link to a list of faculty for this program.

Contact Information:
Department of School of Music, 100 Ferguson Hall, 2106 4th Street South, Minneapolis, MN 55455 (612-624-5093; fax: 612-624-8001)
Email: mnmusic@umn.edu
Website: http://www.music.umn.edu

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 69 to 90
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Music PhD offers emphases in music theory, musicology/ethnomusicology, composition, and music education.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Applicants must hold a masters degree in an appropriate field of study.

Special Application Requirements:
Music Theory: Two original papers (one tonal and one post-tonal analysis)
Musicology/Ethnomusicology: Original papers
Composition: Original scores and recordings (2-4 scores of varying genres)
Music Education: One research or professional papers to demonstrate scholarly writing; documentation of at least 3 years of teaching experience or at least 3,500 hours of clinical experience; and an interview

International applicants must submit score(s) from one of the following tests:

• TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Paper Based - Total Score: 550
• IELTS
  - Total Score: 6.5
• MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements
33 to 58 credits are required in the major.
6 to 15 credits are required outside the major.
24 thesis credits are required.

This program may not be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

Language Requirement: See Other Requirements below

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

Coursework offered on both the A/F and S/N grade basis must be taken A/F.

Language requirements

Music Theory: German and either French or Italian. The French or Italian requirement can be satisfied by a collateral field of knowledge or special research technique. When a different language is needed for the thesis, a substitution may be requested. Substitutions require advisor and director of graduate studies approval.

Musicology/Ethnomusicology: Two languages chosen from French, German, and Italian. When a different language is needed for the thesis, a substitution may be requested. Substitution requires advisor and director of graduate studies approval.

Composition: Reading knowledge of two foreign languages. An equivalent research tool may be substituted for a foreign language. Substitution requires advisor and director of graduate studies approval.

Music Education: No language requirement.

Thesis Credits
Take 24 doctoral thesis credits.
MUS 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)

Emphases

Music Theory (51 credits)

Music Theory/Analysis Coursework (30 credits)
Select 30 credits from the following in consultation with the advisor:
MUS 8501 - Music Theory Pedagogy (3.0 cr)
MUS 8560 - Theory and Analysis of Popular Music (3.0 cr)
MUS 8580 - Topics in Tonal Analysis (3.0 cr)
MUS 8581 - Schenkerian Theory and Analysis I (3.0 cr)
MUS 8582 - Schenkerian Theory and Analysis II (3.0 cr)
MUS 8584 - Current Issues in the Analysis of 19th-Century Music (3.0 cr)
MUS 8585 - Chromatic Harmony Seminar (3.0 cr)
MUS 8590 - Topics in 20th-Century Analysis (3.0 cr)
MUS 8994 - Directed Research (1.0 - 3.0 cr)

Musicology/Ethnomusicology Coursework (6 credits)
Select 6 credits from the following in consultation with the advisor. Topics courses, if selected, must be taught by a musicology faculty member and approved by the advisor.
MUS 5620 - Topics in Opera History (3.0 cr)
MUS 5624 - Music of J. S. Bach (3.0 cr)
MUS 5630 - Performance Practice: 1700 to the Present (3.0 cr)
MUS 5631 - Beethoven Sonatas for Solo Piano, Violin, & Cello (3.0 cr)
MUS 5647 - 20th-Century European/American Music (3.0 cr)
MUS 5990 - Topics in Music (1.0 - 4.0 cr)
MUS 8631 - Seminar: Music in Medieval Europe (3.0 cr)
MUS 8632 - Seminar: Music in Early Modern Europe (3.0 cr)
MUS 8640 - Seminar in Musicology (3.0 cr)
MUS 8644 - Seminar: Advanced Research in Historical Musicology (3.0 cr)
MUS 8647 - Seminar: The Critical Editing of Early Music—Method and Practice (3.0 cr)

Electives (3 credits)
Select 3 credits from the following list. Advisor approval is required.
MUS 5xxx
MUS 8xxx
MUSA 5xxx
MUSA 8xxx
MUED 5xxx
MUED 8xxx

Outside Coursework (12 credits)
Select 12 credits from the following in consultation with the advisor. MUED and Music Therapy courses can be applied to this requirement with advisor approval.
ACL 5221 - Creative Entrepreneurship and Resource Development (3.0 cr)
CSHP 5101 - Introduction to Integrative Healing Practices (3.0 cr)
CSHP 5102 - Art of Healing: Self as Healer (1.0 cr)
CSHP 5225 - Meditation: Integrating Body and Mind (2.0 cr)
CSHP 5343 - Ayurveda Medicine: The Science of Self-healing (2.0 cr)
CSHP 5503 - Aromatherapy Fundamentals (1.0 cr)
CSHP 5535 - Reiki Healing (1.0 cr)
CSHP 5605 - Movement and Music for Well-being and Healing (2.0 cr)
CSHP 5708 - Mind-Body Science and the Art of Transformation (1.0 cr)
EPSY 5101 - Intelligence and Creativity (3.0 cr)
ESL 5302 - Academic Writing (4.0 cr)
GRAD 5102 - Preparation for University Teaching for Nonnative English Speakers (2.0 cr)
GRAD 8101 - Teaching in Higher Education (3.0 cr)
GRAD 8200 - Teaching and Learning Topics in Higher Education (1.0 cr)
WRIT 5051 - Graduate Research Writing for International Students (3.0 cr)
WRIT 5052 - Graduate Research Presentations and Conference Writing for Non-Native Speakers of English (3.0 cr)

-OR-

Musicology/Ethnomusicology (45 credits)
Required Courses (9 credits)
Take the following courses. Select MUS 85xx seminar topics in consultation with the advisor.
MUS 8644 - Seminar: Advanced Research in Historical Musicology (3.0 cr)
MUS 8864 - Current Issues in Ethnomusicology (3.0 cr)
MUS 85xx - Seminar in Music Theory (3.0 cr)

Electives (24 credits)
Select 24 credits from the following in consultation with the advisor.
MUS 56xx
MUS 58xx
MUS 85xx
MUS 86xx
MUS 88xx

Outside Coursework (12 credits)
Select 12 credits outside the major in consultation with the advisor. MUED and Music Therapy courses can be included with advisor approval.
MUED 5xxx
MUED 8xxx

-OR-

Composition (64 credits)
Required Coursework (6 credits)
Take the following courses:
MUS 5591 - Introduction to Music Information Technology (3.0 cr)
MUS 5592 - Music Informatics Seminar (3.0 cr)

Composition Coursework (24 credits)
Take MUS 8550 8 times for a total of 24 credits.

Theory/Analysis Coursework (6 credits)
Select 6 credits from the following in consultation with the advisor:
MUS 86xx

 Ensemble (4 credits)
Select 4 credits from the following in consultation with the advisor:
MUS 5240 - University Singers (1.0 cr)
MUS 5280 - Opera Theatre (2.0 cr)
MUS 5340 - Jazz Ensemble (1.0 cr)
MUS 5410 - University Wind Bands (1.0 cr)
MUS 5420 - Orchestra (1.0 cr)
MUS 5440 - Chamber Ensemble (1.0 cr)
MUS 5460 - World Music Ensemble (1.0 - 2.0 cr)
MUS 5490 - Percussion Ensemble (1.0 cr)
MUS 5493 - Javanese Gamelan Music Ensemble (1.0 cr)
MUS 5494 - West African Music Ensemble (1.0 cr)

**Musicology/Ethnomusicology Coursework (6 credits)**
Select 6 credits from the following in consultation with the advisor:
MUS 56xx
MUS 86xx
MUS 58xx
MUS 88xx

**Creative Studies and Media Coursework (12 credits)**
Select 12 credits from the following in consultation with the advisor:
MUS 5xxx
MUS 8xxx

**Outside Coursework (6 credits)**
Select 6 credits from the following in consultation with the advisor. MUED and Music Therapy courses can be included with advisor approval.
MUED 5xxx
MUED 8xxx

-OR-

**Music Education (66 credits)**

**Required Course (3 credits)**
Take the following course:
MUED 8284 - Seminar: Research and Scholarly Issues (3.0 cr)

**Trends in Music Education Seminar (9 credits)**
Take the following course 3 times for a total of 9 credits.
MUED 8280 - Seminar: Current Trends in Music Education (3.0 cr)

**Research Core (9 credits)**
All students take MUED 8119 and select 6 additional credits from the following in consultation with the advisor.
MUED 8119 - Advanced Applications of Research Methods (3.0 cr)
MUED 8112 - Introduction to Research Methods and Design in Arts Education (3.0 cr)
MUED 8115 - Assessment in Arts Education (3.0 cr)
MUED 8118 - Qualitative Research in Arts Education (3.0 cr)

**Musicology/Ethnomusicology, Theory, and Creative Studies and Media Coursework (18 credits)**
Select 18 credits from the following in consultation with the advisor. A minimum of 2 courses from 2 of the 3 disciplines of Musicology/Ethnomusicology, Theory, and Creative Studies and Media is required.
MUS 55xx
MUS 56xx
MUS 85xx
MUS 86xx

**Electives (12 credits)**
Select 12 credits from the following in consultation with the advisor:
MUED 5xxx
MUED 8xxx

**Outside Coursework (15 credits)**
Select 15 credits outside the major in consultation with the advisor.

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Arts

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Note: The Philosophy graduate program rarely accepts applications directly to the MA; rather, the MA is an additional or alternative credential for students admitted to the Philosophy PhD program. In rare instances, MA applications are considered for individuals with professional goals in other fields.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Preferred: Broad undergraduate background that includes some philosophy coursework.

Special Application Requirements:
Note: The Philosophy graduate program rarely accepts applications directly to the MA; rather, the MA is an additional or alternative credential for students admitted to the Philosophy PhD program.

In rare instances, MA applications are considered for individuals with professional goals in other fields. Please refer to the Department of Philosophy website at www.philosophy.umn.edu for information.

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Paper Based - Total Score: 550
• IELTS
  - Total Score: 6.5
• MELAB

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Plan A: Plan A requires 14 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is written and oral.
Plan B: Plan B requires 24 major credits and 6 credits outside the major. The final exam is written and oral. A capstone project is required.

Capstone Project: The project comprises 3 Plan B papers completed in consultation with the advisor.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

The application of 4-level coursework to meet degree requirements is permitted only under specific conditions; e.g., in conjunction with an 8-level seminar. Advisor approval is required. See the Department of Philosophy website at www.philosophy.umn.edu for more information.

Coursework offered on both the A/F and S/N grading basis must be taken A/F.

Major Coursework (14 to 24 credits)
Plan A students select 14 credits, and Plan B students select 24 credits from the following, in consultation with the advisor and director of graduate studies. Coursework should include one course in ancient and one course in modern philosophy. Non-PHIL courses may be applied to this requirement with advisor and director of graduate studies approval.

PHIL 5xxx
PHIL 8xxx

Outside Coursework (6 credits)
Select 6 credits outside the major in consultation with the advisor and director of graduate studies.

Plan Options

Plan A
Thesis Credits
Take 10 masters thesis credits.
PHIL 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

-OR-

Plan B
Twin Cities Campus
Philosophy Minor

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Students pursuing the Philosophy minor have the opportunity to expand their knowledge, in consultation with the Philosophy director of graduate studies, in any of the following areas: history of philosophy, logic, ELMS (epistemology, philosophy of language, metaphysics or mathematics, philosophy of science), moral and political philosophy, and value theory.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Philosophy director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Coursework offered on both the A/F and S/N grading basis must be taken A/F, with a minimum grade of B earned for each course, to be applied to minor field requirements.

The minimum cumulative GPA for minor field coursework is 3.00.

Application of 4xxx-level toward the minor requires approval of the Philosophy director of graduate studies, and is permitted only when taken in conjunction with an appropriate 8xxx-level workshop. Workshop selection is based on the area of philosophy: 8010 (history of phil); 8100 (epistemology and metaphysics); 8200 (logic and philosophy of math, language); 8300 (moral and political) 8600 (philosophy of science).

Coursework (6 to 12 credits)
Masters students select 6 credits, and doctoral students select 12 credits from the following in consultation with the Philosophy director of graduate studies:
PHIL 5xxx
PHIL 8xxx
Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Twin Cities Campus
Philosophy Ph.D.

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 62
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Philosophy PhD is noteworthy for its emphasis on the individual student's research interests. With the help of an advisor, students design their own program of study, which consists of the philosophy major and either a supporting program or a minor that complements the student's research focus. Students gain a broad base of knowledge in history of philosophy, logic, ELMS (epistemology, philosophy of language, metaphysics or mathematics, philosophy of science), moral and political philosophy, and value theory, which provides a firm foundation for research and teaching beyond the PhD program.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Broad undergraduate background that includes substantial philosophy coursework.

Special Application Requirements:
Individuals apply to the University and the Department of Philosophy via the University's online admissions system. Application materials include the application form; personal statement; diversity statement; transcripts; three academic letters of recommendation; and a philosophical writing sample not to exceed 25 pages. For more information regarding application requirements and funding opportunities, refer to the Department of Philosophy website at www.philosophy.umn.edu.

Applications must be received by December 31 for the following fall semester.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Paper Based - Total Score: 550
- IELTS
  - Total Score: 6.5
- MELAB

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements
26 credits are required in the major.
12 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 3 semesters must be completed before filing a Degree Program Form.

Coursework offered on both the A/F and S/N grading basis must be taken A/F.

Application of 4xxx-level coursework toward degree requirements requires advisor approval, and is permitted only when taken in conjunction with an appropriate 8xxx-level workshop. Workshop selection is based on the area of philosophy: 8010 (history of phil); 8100 (epistemology and metaphysics); 8200 (logic and philosophy of math, language); 8300 (moral and political) 8600 (philosophy of science). See the Department of Philosophy website at www.philosophy.umn.edu for more information.

Major Coursework (26 credits)
Select 26 credits from the following, in consultation with the advisor and director of graduate studies. Non-PHIL courses may be applied to this requirement with advisor and director of graduate studies approval.
- PHIL 5xxx
- PHIL 8xxx

Outside Coursework (12 credits)
Select 12 credits outside the major in consultation with the advisor and director of graduate studies.

Thesis Credits
Take a total of 24 doctoral thesis credits beginning the second semester of Year 1.
- PHIL 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)

Email: eastm004@umn.edu  
Website: [https://cla.umn.edu/political-psychology/academics/grad-minor-political-psychology](https://cla.umn.edu/political-psychology/academics/grad-minor-political-psychology)

- Program Type: Graduate free-standing minor  
- Requirements for this program are current for Fall 2020  
- Length of program in credits (Doctorate): 13  
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Note: This minor is available to doctoral students only.

Political psychology is a rapidly advancing field of scientific inquiry concerned with psychological aspects of political behavior. It encompasses a variety of interdisciplinary research perspectives, drawing on the theories and methods of core disciplines such as psychology, political science, law, and sociology, as well as interdisciplinary fields such as mass communication and decision sciences. The minor's structured curriculum provides a foundation in basic areas of political psychology: social attitudes and cognition, judgment and decision making, group relations, personality and leadership, mass communication, public opinion, mass political behavior, and political socialization. In addition to providing a background in political psychology, the program trains students in the theory and methods useful to this field, such as content analysis, survey analysis, and experimental design. The faculty is drawn from across the University.

**Program Delivery**  
This program is available:  
- via classroom (the majority of instruction is face-to-face)

**Prerequisites for Admission**  
For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

**Program Requirements**  
Use of 4xxx courses towards program requirements is not permitted.

**Program Sub-plans**  
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

**Doctoral**  
**Core Courses**  
With the approval of the minor DGS, students may substitute an alternative course of at least 3 credits for one of the three core courses listed below. This option may only be utilized if the student takes all three core courses listed below but wishes to count one of the three core courses towards their PhD major rather than their PhD minor.  
- POL 8311 - Political Psychology and Socialization (3.0 cr)  
- PSY 8201 - Social Cognition (3.0 cr)  
- JOUR 8661 - Seminar: Mediated Political Communication in the Digital Age (3.0 cr)

**Political Psychology Proseminar**  
Take at least two semesters of the proseminar.
POL 8307 - Proseminar in Political Psychology I (2.0 cr)
POL 8308 - Proseminar in Political Psychology II (2.0 cr)
or PSY 8211 - Proseminar in Political Psychology I (2.0 cr)
PSY 8212 - Proseminar in Political Psychology II (2.0 cr)

Methodology Requirement

Students are advised to do a sequence of methods courses appropriate for their own research plans in political psychology. Generally, this is the standard quantitative method sequence within their major field (e.g. PSY 8814/8815; POL 8107/8108), but may include other courses depending on the students research goals. Students should consult with the minor DGS, especially if they do not plan to complete the standard quantitative method sequence in their major field.

Emphases

**Political Theory**

**Required Course (3 Credits)**

Students selecting the Political Theory emphasis must take the following course:

POL 8201 - Understanding Political Theory (3.0 cr)

**Electives (9 credits)**

Select 9 credits from the following, in consultation with the advisor, to complete the Political Theory emphasis.

- POL 8235 - Democratic Theory (3.0 cr)
- POL 8251 - Ancient and Medieval Political Thought (3.0 cr)
- POL 8252 - Early Modern Political Thought (3.0 cr)
- POL 8253 - Late Modern Political Thought (3.0 cr)
- POL 8260 - Topics in Political Theory (3.0 cr)

**OR**

**American Politics**

**Required Course (3 credits)**

Students selecting the American Politics emphasis must take the following course:

POL 8301 - American Politics (3.0 cr)
Electives (9 credits)
Select 9 credits from the following, in consultation with the advisor, to complete the American Politics emphasis.

- POL 8302 - Public Opinion and Political Behavior (3.0 cr)
- POL 8311 - Political Psychology and Socialization (3.0 cr)
- POL 8312 - Legislative Process (3.0 cr)
- POL 8337 - Welfare State Theories and American Social Policy (3.0 cr)
- POL 8360 - Topics in American Politics (3.0 cr)

-OR-

International Relations
Required Course (3 credits)
Students selecting the International Relations emphasis must take the following course:

- POL 8401 - International Relations (3.0 cr)

Electives (9 credits)
Select 9 credits from the following, in consultation with the advisor, to complete the International Relations emphasis.

- POL 8402 - International Security (3.0 cr)
- POL 8403 - International Norms and Institutions (3.0 cr)
- POL 8405 - International Political Economy (3.0 cr)
- POL 8460 - Topics in International Relations (3.0 cr)

-OR-

Comparative Politics
Required Course (3 credits)
Students selecting the Comparative Politics emphasis must take the following course:

- POL 8601 - Introduction to Comparative Politics (3.0 cr)

Electives (9 credits)
Select 9 credits from the following, in consultation with the advisor, to complete the Competitive Politics emphasis.

- POL 8637 - Comparative Political Economy (3.0 cr)
- POL 8660 - Topics in Comparative Politics (3.0 cr)

-OR-

Formal Models and Methodology
Required Course (3 credits)
Students selecting the Political Models and Methodology emphasis must take the following course:

- POL 8120 - Core Course in Political Methodology: Modeling Political Processes (3.0 cr)

Electives (9 credits)
Select 9 credits from the following, in consultation with the advisor, to complete the Formal Models and Methodology emphasis.

- POL 8107 - Quantitative Political Science II (3.0 cr)
- POL 8108 - Maximum Likelihood Estimation (3.0 cr)
- POL 8124 - Game Theory (3.0 cr)
- POL 8125 - Dynamic Analysis (3.0 cr)
- POL 8126 - Qualitative Methods (3.0 cr)
- POL 8160 - Topics in Models and Methods (3.0 cr)
Twin Cities Campus
Political Science Ph.D.
Political Science Department
College of Liberal Arts

Contact Information:
Department of Political Science, 1414 Social Sciences, 267 19th Avenue South, Minneapolis, MN 55455 (612-624-4144; fax: 612-626-7599)
Email: polisci@umn.edu
Website: http://cla.umn.edu/polisci/graduate

Program Type: Doctorate
Requirements for this program are current for Fall 2020
Length of program in credits: 60
This program does not require summer semesters for timely completion.
Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The political science curriculum is divided into five subfields: formal models and methodology, political theory, American politics, international relations, and comparative politics.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
All students are admitted directly into the Ph.D. program. To apply, submit the following through the University's graduate online application: Unofficial transcripts, research and diversity statements, GRE scores, three letters of recommendation, curriculum vitae or resume, writing sample, TOEFL or IELTS for non-native English speakers.

The application deadline is December 15. For more information, see the Political Science Admissions website.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
30 credits are required in the major.
6 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.30 is required for students to remain in good standing.

Students must select and complete the requirements for 2 emphases.

Professional Development Coursework (3 credits)
Take POL 8104 spring semester the first year of study, and POL 8105 fall semester the third year of study.

Additional Elective (3 credits)
Select 3 elective credits in consultation with the advisor.

POL 8xxx

**Outside Coursework (6 credits)**
Sellct 6 credits outside the major in consultation with the advisor.

- **AFRO 8910 - Topics in Studies of Africa and the African Diaspora (3.0 cr)**
- **AMIN 8910 - Topics in American Indian and Indigenous Studies (1.0 - 3.0 cr)**

• Length of program in credits (Masters): 6
• Length of program in credits (Doctorate): 12
• This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Population studies is a multidisciplinary research area at the intersection of the mathematical sciences, the health and social sciences, and public policy. The curriculum provides a solid grounding in the theories and methods of demography, with additional specialized training across five interdisciplinary subject areas: historical demography, population geography, economic demography, public health demography, and family and life course demography.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

All courses should be from the same subject area and may not be in the student's major field. Courses must be taken A-F.

Required Courses
PA 5301 - Population Methods & Issues for the United States & Global South (3.0 cr)

Electives
Master's students complete 3 credits and doctoral students complete 9 credits.
FW 5051 - Analysis of Populations (4.0 cr)
GERO 5103 - Aging and Society (2.0 cr)
HIST 5797 - Methods of Population History (3.0 cr)
HIST 5970 - Advanced Research in Quantitative History (4.0 cr)
HIST 8970 - Advanced Research in Quantitative History (3.0 cr)
PA 5022 - Applications of Economics for Policy Analysis (1.5 - 3.0 cr)
PA 5024 - Urban Spatial and Social Dynamics (3.0 cr)
PA 5281 - Immigrants, Urban Planning and Policymaking in the U.S. (3.0 cr)
PA 5401 - Poverty, Inequality, and Public Policy (3.0 cr)

- Requirements for this program are current for Fall 2020
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Psychology minor provides doctoral students with the opportunity to select coursework from the wide range of Psychology courses offered to meet their unique academic and professional goals.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Doctoral students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Psychology director of graduate studies, regarding feasibility and requirements. Approval of the Psychology director of graduate studies to complete the minor is required.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Application of 4xxx-level, minor coursework requires pre-approval of the Psychology director of graduate studies. The minimum cumulative GPA for coursework applied to the minor is 3.00.

Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Doctoral
Required Coursework (12 credits)
Select credits from the following to complete the minor field requirement. Approval of the Psychology director of graduate studies is required.
PSY 5xxx
PSY 8xxx
Contact Information:
Department of Psychology, S246 Elliott Hall, 75 East River Road, Minneapolis, MN 55455 (612-626-3483)

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 53 to 112
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Students are admitted only for the Ph.D. degree. The doctoral program offers tracks in clinical science and psychopathology research; cognitive and brain sciences; counseling psychology; industrial/organizational psychology; personality, individual differences, and behavioral genetics; quantitative/psychometric methods; and social psychology.

Accreditation
This program is accredited by Counseling accredited by APA. CSPR accredited by APA and PCSAS.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Other requirements to be completed before admission:
Recommended academic preparation includes a minimum of 12 credits (three to four courses) of psychology coursework beyond introductory psychology, including one course in statistics or psychological measurement.

An undergraduate major in psychology is preferred, but not required.

Special Application Requirements:
Applications are accepted for fall admission only; the deadline is December 1.

Applicants identify their proposed track at the time of application.

A department application; a statement of career interests, goals, and objectives; three letters of recommendation from persons familiar with the applicant's scholarship and research potential; and scores from the GRE General Test are required. The GRE Subject Test in psychology is not required, but highly recommended. Applicants whose native language is not English must submit the results of the TOEFL iBT. Applications are submitted electronically through the online application system.

Clinical Science and Psychopathology track: Applicants must have completed a course in abnormal psychology. An earned master's in Psychology is preferred but not required. Students without the master's upon matriculation must complete the University's Psychology MA degree (thesis option).

Personality, Individual Differences and Behavior Genetics track: An earned master's in Psychology is preferred but not required. Students without the master's upon matriculation must complete the University's Psychology MA degree (thesis option).

For more information about the application procedures, see the psychology graduate website.

International applicants must submit score(s) from one of the following tests:
TOEFL
- Internet Based - Total Score: 79
- Internet Based - Writing Score: 21
- Internet Based - Reading Score: 19
- Internet Based - Speaking Score: 23

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (TOEFL).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
29 to 76 credits are required in the major.
0 to 12 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.0 is required for students to remain in good standing.

At least 3 semesters must be completed before filing a Degree Program Form.

Approval of the director of graduate studies, in addition to that of the advisor, is required for use of 4xxx-level coursework.

Outside Coursework (0 to 12 credits)
Students pursuing either the Cognitive and Brain Sciences track or the Industrial/Organizational track must select at least 12 outside credits in consultation with the advisor. Students pursuing the other tracks may take outside courses in addition to required coursework.

Thesis Credits
Take 24 doctoral thesis credits.

PSY 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Clinical Science and Psychopathology Research
Students without the master's upon matriculation must complete the University's Psychology MA degree (thesis option).

Core Clinical Coursework (36 credits)

Required Courses (32 credits)
Take the following courses:

- PSY 8111 - Biological, Cognitive, Affective, Social, Developmental and Historical Aspects of Psychopathology (4.0 cr)
- PSY 8542 - Professional Standards and Ethics in Clinical Psychology (3.0 cr)
- PSY 8611 - Intellectual and Neuropsychological Assessment: Measurement, Methodology, and Development (5.0 cr)
- PSY 8612 - Assessment of Personality and Psychopathology: Interviewing, Diagnosis, and Cultural Diversity (5.0 cr)
- PSY 8613 - Clinical Seminar Series: Contemprary Directions In Clinical Psychology Research (1.0 cr)
- PSY 8621 - Foundations in Therapeutic Intervention Applying Theory to Clinical Practice (3.0 cr)
- PSY 8622 - Theories and Methods of Effective Intervention (3.0 cr)
- PSY 8814 - Analysis of Psychological Data (4.0 cr)
- PSY 8815 - Analysis of Psychological Data (4.0 cr)

Clinical Psychology Practicum (4 credits)
Take 1 credit of the following at least 4 times in consultation with the advisor:

- PSY 8620 - Clinical Practicum: Consultation, Supervision, Professional Standards, and Lifelong Learning (1.0 - 6.0 cr)

Research Courses (12 credits)
Select at least 12 credits from the following in consultation with the advisor:
PSY 5993 - Research Laboratory in Psychology (3.0 cr)
PSY 8993 - Directed Studies: Special Areas of Psychology and Related Sciences (1.0 - 6.0 cr)

**Elective Breadth Courses (9 credits)**
Select credits from at least 2 of the following areas, in consultation with the advisor, for a minimum of 9 credits. Other courses can be applied to the requirement with advisor approval.

**Brain Science (0 to 6 credits)**
PSY 5062 - Cognitive Neuropsychology (3.0 cr)
PSY 5063 - Introduction to Functional MRI (3.0 cr)
PSY 5064 - Brain and Emotion (3.0 cr)
PSY 5065 - Functional Imaging: Hands-on Training (3.0 cr)
NSC 5561 - Systems Neuroscience (4.0 cr)
NSC 5661W - Behavioral Neuroscience [WI] (4.0 cr)

**Cognitive Science (0 to 6 credits)**
PSY 5014 - Psychology of Human Learning and Memory (3.0 cr)
PSY 5015 - Cognition, Computation, and Brain (3.0 cr)
PSY 5038W - Introduction to Neural Networks [WI] (3.0 cr)
PSY 5054 - Psychology of Language (3.0 cr)
PSY 8042 - Proseminar in Cognition, Brain, and Behavior (3.0 cr)

**Developmental (0 to 6 credits)**
CPSY 8301 - Developmental Psychology: Cognitive Processes (4.0 cr)
CPSY 8302 - Developmental Psychology: Social and Emotional Processes (4.0 cr)

**Differential/Behavior Genetics (0 to 6 credits)**
PSY 5135 - Psychology of Individual Differences (3.0 cr)

**Industrial/Organizational (0 to 6 credits)**
PSY 5701 - Employee Selection and Staffing (3.0 cr)
PSY 5703 - Psychology of Organizational Training and Development (3.0 cr)
PSY 5708 - Organizational Psychology (3.0 cr)

**Measurement (0 to 6 credits)**
PS 5862 is required to satisfy the Measurement area. The additional courses below may be taken after 5862 is completed as a secondary Measurement fulfillment.
PSY 5862 - Psychological Measurement: Theory and Methods (3.0 cr)
PSY 5865 - Advanced Psychological and Educational Measurement (4.0 cr)
EPSY 8222 - Advanced Measurement: Theory and Application (4.0 cr)

**Personality (0 to 6 credits)**
PSY 5101 - Personality: Current Theory and Research (3.0 cr)
PSY 8664 - Personality Assessment (3.0 cr)

**Sensation and Perception (0 to 6 credits)**
PSY 5031W - Perception [WI] (3.0 cr)
PSY 5036W - Computational Vision [WI] (3.0 cr)
PSY 5037 - Psychology of Hearing (3.0 cr)
PSY 8041 - Proseminar in Perception (3.0 cr)

**Social (0 to 6 credits)**
PSY 5202 - Attitudes and Social Behavior (3.0 cr)
PSY 5204 - Psychology of Interpersonal Relationships (3.0 cr)
PSY 5205 - Applied Social Psychology (3.0 cr)
PSY 5206 - Social Psychology and Health Behavior (3.0 cr)
PSY 8201 - Social Cognition (3.0 cr)
PSY 8202 - Close Relationships (3.0 cr)
PSY 8203 - Impression Management (3.0 cr)
PSY 8204 - Social Psychology of Prejudice and Intergroup Relations (3.0 cr)
PSY 8205 - Principles of Social Psychology (3.0 cr)
PSY 8208 - Social Psychology: The Self (3.0 cr)
PSY 8209 - Research Methods in Social Psychology (3.0 cr)

**Statistics (0 to 6 credits)**
PSY 8960 - Graduate Seminar in Psychology (1.0 - 4.0 cr)

---

Cognitive and Brain Sciences

**Core Areas (12 credits)**
Select credits from each of the 3 following areas, plus an additional credits 3, for a minimum of 12 credits. Courses are selected in consultation with the advisor.

**Brain Science (3 to 6 credits)**
NSC 5561 - Systems Neuroscience (4.0 cr)
NSC 5661W - Behavioral Neuroscience [WI] (4.0 cr)
PSY 5062 - Cognitive Neuropsychology (3.0 cr)
PSY 5063 - Introduction to Functional MRI (3.0 cr)
PSY 5064 - Brain and Emotion (3.0 cr)
PSY 5065 - Functional Imaging: Hands-on Training (3.0 cr)

Cognitive Science (3 to 6 Credits)
PSY 5014 - Psychology of Human Learning and Memory (3.0 cr)
PSY 5015 - Cognition, Computation, and Brain (3.0 cr)
PSY 5018H - Mathematical Models of Human Behavior (3.0 cr)
PSY 5038W - Introduction to Neural Networks [WI] (3.0 cr)
PSY 5054 - Psychology of Language (3.0 cr)
PSY 8042 - Proseminar in Cognition, Brain, and Behavior (3.0 cr)

Sensation and Perception (3 to 6 credits)
PSY 5031W - Perception [WI] (3.0 cr)
PSY 5036W - Computational Vision [WI] (3.0 cr)
PSY 5037 - Psychology of Hearing (3.0 cr)
PSY 8041 - Proseminar in Perception (3.0 cr)

Research Courses (3 credits)
Select at least 3 credits from the following in consultation with the advisor.
PSY 5993 - Research Laboratory in Psychology (3.0 cr)
PSY 8993 - Directed Studies: Special Areas of Psychology and Related Sciences (1.0 - 6.0 cr)

Quantitative Methods or Research Methodology (6 credits)
Select at least 6 credits from the following in consultation with the advisor.
CSCI 5521 - Introduction to Machine Learning (3.0 cr)
CSCI 5525 - Machine Learning (3.0 cr)
NSC 8111 - Quantitative Neuroscience (3.0 cr)
PSY 5018H - Mathematical Models of Human Behavior (3.0 cr)
PSY 5862 - Psychological Measurement: Theory and Methods (3.0 cr)
PSY 8814 - Analysis of Psychological Data (4.0 cr)
PSY 8815 - Analysis of Psychological Data (4.0 cr)
PSY 8882 - Seminar: Quantitative and Psychometric Methods (3.0 cr)
STAT 5021 - Statistical Analysis (4.0 cr)
STAT 5102 - Introduction to Statistical Learning (4.0 cr)
STAT 5303 - Designing Experiments (4.0 cr)
STAT 5401 - Applied Multivariate Methods (3.0 cr)
STAT 5601 - Nonparametric Methods (3.0 cr)

General Psychology/Neuroscience Courses (3 credits)
Select 3 credits from the following in consultation with the advisor. PSY 50xx and PSY 80xx courses cannot be applied to this requirement.
NSC 5xxx
NSC 8xxx
PSY 5xxx
PSY 8xxx

Outside Coursework (12 credits)
Select at least 12 credits of outside coursework in consultation with the advisor.

Counseling Psychology

Counseling Psychology
Required Courses (47 credits)
Take the following courses. Take 4 credits of PSY 8514 and 4 credits of PSY 8515.
PSY 5501 - Vocational and Occupational Health Psychology (3.0 cr)
PSY 5862 - Psychological Measurement: Theory and Methods (3.0 cr)
PSY 5960 - Topics in Psychology (1.0 - 4.0 cr)
PSY 8111 - Biological, Cognitive, Affective, Social, Developmental and Historical Aspects of Psychopathology (4.0 cr)
PSY 8501 - Counseling Psychology: History and Theories (3.0 cr)
PSY 8502 - Assessment in Counseling Psychology (3.0 cr)
PSY 8503 - Interviewing and Intervention (3.0 cr)
PSY 8514 - University Counseling Practicum I (4.0 - 6.0 cr)
PSY 8515 - University Counseling Practicum II (4.0 - 6.0 cr)
PSY 8541 - Multicultural Psychology (3.0 cr)
PSY 8542 - Professional Standards and Ethics in Clinical Psychology (3.0 cr)
PSY 8545 - Counseling Psychology Process and Outcome Research (3.0 cr)
PSY 8814 - Analysis of Psychological Data (4.0 cr)
PSY 8815 - Analysis of Psychological Data (4.0 cr)

Advanced Practicum (8 credits)
Take at least 1 credit of PSY 8560 the fall semester of years 3, 4, and 5 for a minimum total of 3 credits. Take 1 credit of PSY 8561 the spring semester of years 3, 4, and 5 for a minimum total of 3 credits. Take 1 credit of PSY 8565 (offered in the fall) and 1 credit of
PSY 8566 (offered in the spring) year 3 or year 4 for a total of 2 credits.

PSY 8560 - Counseling Psychology Advanced Practicum I: General (1.0 - 3.0 cr)
PSY 8561 - Counseling Psychology Advanced Practicum II: General (1.0 - 3.0 cr)
PSY 8565 - Counseling Psychology Advanced Practicum I: Career Counseling and Assessment Clinic (1.0 - 6.0 cr)
PSY 8566 - Counseling Psychology Advanced Practicum II: Career Counseling and Assessment Clinic (1.0 - 6.0 cr)

General Psychology Electives (21 credits)

Affective and Biological Aspects of Behavior (9 credits)
Select courses from the following. Advisor approval is required.
PSY 5062 - Cognitive Neuropsychology (3.0 cr)
PSY 5064 - Brain and Emotion (3.0 cr)
PSY 5135 - Psychology of Individual Differences (3.0 cr)
PSY 5137 - Introduction to Behavioral Genetics (3.0 cr)

Cognitive Aspects of Behavior (3 credits)
Take the following course. Other 5-level courses on learning, memory, thought process, and decision-making can be applied to this requirement with advisor approval.
PSY 5014 - Psychology of Human Learning and Memory (3.0 cr)

Social Aspects of Behavior (3 credits)
Take the following course. Another course can be applied to this requirement only with advisor and director of graduate studies approval.
PSY 5207 - Personality and Social Behavior (3.0 cr)

Developmental Aspects of Behavior (3 credits)
Select 3 credits from the following in consultation with the advisor:
CPSY 5301 - Advanced Developmental Psychology (3.0 cr)
CPSY 5302 - Cognitive and Biological Development (3.0 cr)
CPSY 5303 - Social and Emotional Development (3.0 cr)
CPSY 8301 - Developmental Psychology: Cognitive Processes (4.0 cr)
CPSY 8302 - Developmental Psychology: Social and Emotional Processes (4.0 cr)

Statistics (3 credits)
Select 3 credits from the following in consultation with the advisor. Another 5- or 8-level advanced statistics course can be applied to this requirement with advisor approval.
EPSY 8266 - Statistical Analysis Using Structural Equation Methods (3.0 cr)
EPSY 8267 - Applied Multivariate Analysis (3.0 cr)
EPSY 8268 - Hierarchical Linear Modeling in Educational Research (3.0 cr)
EPSY 8282 - Statistical Analysis of Longitudinal Data (3.0 cr)
PSY 8960 - Graduate Seminar in Psychology (1.0 - 4.0 cr)

Industrial/Organizational Psychology

Course Requirements

Foundational Statistics and Measurement (11 Credits)
Take the following courses:
PSY 5862 - Psychological Measurement: Theory and Methods (3.0 cr)
PSY 8814 - Analysis of Psychological Data (4.0 cr)
PSY 8815 - Analysis of Psychological Data (4.0 cr)

Industrial-Organizational Psychology (16 Credits)
Select at least 16 credits from the following in consultation with the advisor. Other courses may be applied to this requirement with advisor approval.
PSY 5701 - Employee Selection and Staffing (3.0 cr)
PSY 5703 - Psychology of Organizational Training and Development (3.0 cr)
PSY 5708 - Organizational Psychology (3.0 cr)
PSY 8701 - Seminar in Industrial and Organizational Psychology I (3.0 cr)
PSY 8702 - Seminar in Industrial and Organizational Psychology II (3.0 cr)
PSY 8703 - Seminar in Industrial and Organizational Psychology III (3.0 cr)

Foundational Psychological Science (3 credits)
Select at least 3 credits, in consultation with the advisor, from one of the following 9 areas. Other courses can be applied to this requirement with advisor approval.

Brain Science (0 to 3)
PSY 5062 - Cognitive Neuropsychology (3.0 cr)
PSY 5063 - Introduction to Functional MRI (3.0 cr)
PSY 5064 - Brain and Emotion (3.0 cr)
PSY 5065 - Functional Imaging: Hands-on Training (3.0 cr)
NSC 5561 - Systems Neuroscience (4.0 cr)
NSC 5561W - Behavioral Neuroscience [WI] (4.0 cr)

Cognitive Science (0 to 3)
PSY 5014 - Psychology of Human Learning and Memory (3.0 cr)
PSY 5015 - Cognition, Computation, and Brain (3.0 cr)

</table>
Outside Coursework (12 credits)

Quantitative Methods (9 credits)
Take each of the following required PSY 8960 topics courses for 3 credits. Other courses may be substituted with advisor approval.

- PSY 8960: Research Methods in I-O Psychology
- PSY 8960: Data Science
- PSY 8960: Multivariate

Additional Coursework (3 credits)
Select 3 credits from the following in consultation with the advisor. Other courses can be substituted with advisor approval.

- EPSY 8222 - Advanced Measurement: Theory and Application (4.0 cr)
- EPSY 8264 - Advanced Multiple Regression Analysis (3.0 cr)
- EPSY 8265 - Factor Analysis (3.0 cr)
- EPSY 8266 - Statistical Analysis Using Structural Equation Methods (3.0 cr)
- EPSY 8268 - Hierarchical Linear Modeling in Educational Research (3.0 cr)
- EPSY 8282 - Statistical Analysis of Longitudinal Data (3.0 cr)
- PSY 5018H - Mathematical Models of Human Behavior (3.0 cr)
- PSY 5865 - Advanced Psychological and Educational Measurement (4.0 cr)
- PSY 8882 - Seminar: Quantitative and Psychometric Methods (3.0 cr)
- PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
- PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
- PUBH 8442 - Bayesian Decision Theory and Data Analysis (3.0 cr)
- PUBH 8452 - Advanced Longitudinal Data Analysis (3.0 cr)
- STAT 5302 - Applied Regression Analysis (4.0 cr)
- STAT 5303 - Designing Experiments (4.0 cr)
- STAT 5401 - Applied Multivariate Methods (3.0 cr)

Personality, Individual Differences and Behavior Genetics
Students without the master's upon matriculation must complete the University's Psychology MA degree (thesis option) or equivalent master's degree with advisor and director of graduate studies approval.

Required Courses (14 credits)
Take the following courses:

- PSY 5862 - Psychological Measurement: Theory and Methods (3.0 cr)
- PSY 5960 - Topics in Psychology (1.0 - 4.0 cr)
- PSY 8814 - Analysis of Psychological Data (4.0 cr)
- PSY 8815 - Analysis of Psychological Data (4.0 cr)

Core Electives (6 credits)
Select 6 credits from the following in consultation with the advisor:

- PSY 5101 - Personality: Current Theory and Research (3.0 cr)
- PSY 5135 - Psychology of Individual Differences (3.0 cr)
- PSY 5137 - Introduction to Behavioral Genetics (3.0 cr)
- PSY 8664 - Personality Assessment (3.0 cr)

Statistics Electives (3 credits)
Select 3 credits from the following in consultation with the advisor:

- PSY 5865 - Advanced Psychological and Educational Measurement (4.0 cr)
- PSY 8881 - Seminar: Quantitative and Psychometric Methods (3.0 cr)
- PSY 8882 - Seminar: Quantitative and Psychometric Methods (3.0 cr)

Electives (6 credits)
Select 6 credits from the following in consultation with the advisor. Other courses can be applied to this requirement with advisor approval.

- PSY 5136 - Human Abilities (3.0 cr)
- PSY 5207 - Personality and Social Behavior (3.0 cr)
- PSY 8937 - Seminar in Human Behavioral Genetics (3.0 cr)

Quantitative/Psychometric Methods

Required Courses (31 credits)
Take the following courses. Take 21 total credits of PSY 8881 and 8882, in consultation with the advisor. Take 3 credits of PSY 8960 Seminar: Multivariate Statistics for Social Scientists.

- PSY 5862 - Psychological Measurement: Theory and Methods (3.0 cr)
PSY 5865 - Advanced Psychological and Educational Measurement (4.0 cr)
PSY 8881 - Seminar: Quantitative and Psychometric Methods (3.0 cr)
PSY 8882 - Seminar: Quantitative and Psychometric Methods (3.0 cr)
PSY 8960 - Graduate Seminar in Psychology (1.0 - 4.0 cr)

Statistics Courses (6 credits)
Select one of the following course sequences in consultation with the advisor:
- PSY 8814 - Analysis of Psychological Data (4.0 cr)
- PSY 8815 - Analysis of Psychological Data (4.0 cr)
- or STAT 8101 - Theory of Statistics 1 (3.0 cr)
- STAT 8102 - Theory of Statistics 2 (3.0 cr)

General Psychology Courses (3 credits)
Select at least 3 credits from the following in consultation with the advisor:
- CPSY 5xxx
- CPSY 8xxx
- PSY 5xxx
- PSY 8xxx

Electives (6 credits)
Select 6 credits from the following in consultation with the advisor. Application of PSY 8960 credits to this requirement is strongly encouraged.
- PSY 8960: Computerized Adaptive Testing (3.0 cr)
- PSY 8960: Item Response Theory (3.0 cr)
- PSY 8960: Multilevel Modeling (3.0 cr)
- EPSY 8264 - Advanced Multiple Regression Analysis (3.0 cr)
- EPSY 8265 - Factor Analysis (3.0 cr)
- EPSY 8266 - Statistical Analysis Using Structural Equation Methods (3.0 cr)
- EPSY 8267 - Applied Multivariate Analysis (3.0 cr)
- EPSY 8268 - Hierarchical Linear Modeling in Educational Research (3.0 cr)
- EPSY 8282 - Statistical Analysis of Longitudinal Data (3.0 cr)
- MATH 5447 - Theoretical Neuroscience (4.0 cr)
- PUBH 7407 - Analysis of Categorical Data (3.0 cr)
- PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
- PUBH 7460 - Advanced Statistical Computing (3.0 cr)
- PUBH 8442 - Bayesian Decision Theory and Data Analysis (3.0 cr)
- PUBH 8452 - Advanced Longitudinal Data Analysis (3.0 cr)
- PUBH 8475 - Statistical Learning and Data Mining (3.0 cr)
- STAT 5201 - Sampling Methodology in Finite Populations (3.0 cr)
- STAT 5401 - Applied Multivariate Methods (3.0 cr)
- STAT 5421 - Analysis of Categorical Data (3.0 cr)
- STAT 5601 - Nonparametric Methods (3.0 cr)
- STAT 5701 - Statistical Computing (3.0 cr)
- STAT 8051 - Advanced Regression Techniques: linear, nonlinear and nonparametric methods (3.0 cr)
- STAT 8052 - Applied Statistical Methods 2: Design of Experiments and Mixed-Effects Modeling (3.0 cr)
- STAT 8053 - Applied Statistical Methods 3: Multivariate Analysis and Advanced Regression (3.0 cr)
- STAT 8054 - Statistical Methods 4: Advanced Statistical Computing (3.0 cr)

Social Psychology

Required Courses (17 credits)
Take the following courses. Take Psy 8205 twice for a total of 6 credits. Take Psy 8206 at least 3 times for a total of 3 credits.
- PSY 8205 - Principles of Social Psychology (3.0 cr)
- PSY 8206 - Proseminar in Social Psychology (1.0 cr)
- PSY 8814 - Analysis of Psychological Data (4.0 cr)
- PSY 8815 - Analysis of Psychological Data (4.0 cr)

Advanced Statistics Courses (3 credits)
Select at least 3 credits from the following in consultation with the advisor.
- EPSY 8264 - Advanced Multiple Regression Analysis (3.0 cr)
- EPSY 8265 - Factor Analysis (3.0 cr)
- EPSY 8266 - Statistical Analysis Using Structural Equation Methods (3.0 cr)
- EPSY 8267 - Applied Multivariate Analysis (3.0 cr)
- EPSY 8268 - Hierarchical Linear Modeling in Educational Research (3.0 cr)
- EPSY 8282 - Statistical Analysis of Longitudinal Data (3.0 cr)
- PSY 5862 - Psychological Measurement: Theory and Methods (3.0 cr)
- PSY 5865 - Advanced Psychological and Educational Measurement (4.0 cr)
- PSY 8882 - Seminar: Quantitative and Psychometric Methods (3.0 cr)
PUBH 7407 - Analysis of Categorical Data (3.0 cr)
PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
PUBH 8422 - Modern Nonparametrics (3.0 cr)
PUBH 8442 - Bayesian Decision Theory and Data Analysis (3.0 cr)
PUBH 8452 - Advanced Longitudinal Data Analysis (3.0 cr)
STAT 5302 - Applied Regression Analysis (4.0 cr)
STAT 5303 - Designing Experiments (4.0 cr)
STAT 5401 - Applied Multivariate Methods (3.0 cr)
STAT 5601 - Nonparametric Methods (3.0 cr)

Electives (12 credits)
Select at least 12 credits, at least 6 of which must be from 8-level courses, from the following in consultation with the advisor:
PSY 5202 - Attitudes and Social Behavior (3.0 cr)
PSY 5204 - Psychology of Interpersonal Relationships (3.0 cr)
PSY 5205 - Applied Social Psychology (3.0 cr)
PSY 5206 - Social Psychology and Health Behavior (3.0 cr)
PSY 5207 - Personality and Social Behavior (3.0 cr)
PSY 8201 - Social Cognition (3.0 cr)
PSY 8203 - Impression Management (3.0 cr)
PSY 8204 - Social Psychology of Prejudice and Intergroup Relations (3.0 cr)
PSY 8208 - Social Psychology: The Self (3.0 cr)
PSY 8209 - Research Methods in Social Psychology (3.0 cr)

Additional Psychology Course (3 credits)
Select at least 3 credits from the following in consultation with the advisor. PSY 52xx and PSY 82xx coursework cannot be applied to this requirement.

• Program Type: Graduate free-standing minor
• Requirements for this program are current for Fall 2020
• Length of program in credits (Doctorate): 12
• This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The RIGS graduate minor is the critical and comparative study of race, ethnicity, and indigeneity, as well as the interrogation of significant social categories of power and inequality, namely race, ethnicity, indigeneity, gender, sexuality, class, sovereignty, and diaspora. This interdisciplinary minor foregrounds a transnational and comparative framework to analyze multiple forms of social difference and their interactions in relation to one another. While the focus is on the United States, given the minors attention to the making of social categories and borders, the analytical lens and purview of the minor will be transnational in scale and scope.

Grounded by a strong commitment to the analyses and understanding of power relations, structural inequality, and social justice through a relational and multidisciplinary approach, the RIGS graduate minor focuses on the various interlinked processes that constitute the categories and groups in the first place, instead of taking for granted the a priori existence of separate groups, communities, experiences, and identities. This approach is at the vanguard of comparative race, ethnicity, and indigeneity, which is moving away from juxtaposing discrete groups and toward theorizing mutual constitution. Accordingly, this graduate minor privileges intersectionality, interdisciplinary, transnationalism, comparison, and relationality. What distinguishes this graduate minor is its conceptual and theoretical approach, which not only makes this program complementary to existing graduate courses of study at UMN, but also propels us to the cutting-edge of comparable programs at other institutions.

Students receive foundational training in one core required proseminar on critical and comparative race, ethnicity, and indigeneity; an interdisciplinary methodology course, and two electives in a range of disciplines that engage with race, ethnicity, and indigeneity. The RIGS graduate minor strengthens student work in their major field of study as minors will learn how to best integrate critical and comparative race, ethnicity, and indigeneity into their existing work as well as how to complement their research to include multiple indigenous and critical race methodologies.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Required Coursework (6 credits)
Take at least one proseminar and one interdisciplinary methodologies course, selected in consultation with the RIGS director of graduate studies, for a minimum of six credits.
Proseminar (3 credits)
Included are courses on the histories, intellectual traditions, and epistemologies of comparative race, ethnicity, and indigeneity. Additional RIGS Proseminar will be offered some semesters (Variable credit courses must be taken for three credits)
Take 1 or more course(s) from the following:
• AFRO 8202 - Seminar: Intellectual History of Race (3.0 cr)
• HIST 8910 - Topics in U.S. History (1.0 - 4.0 cr)
• SOC 8211 - The Sociology of Race & Racialization (3.0 cr)

Interdisciplinary Methodologies (3 credits)
A graduate seminar on interdisciplinary methodologies that engages with the study of comparative race, ethnicity, and indigeneity.
Take 1 or more course(s) from the following:
• AMST 8289 - Ethnographic Research Methods: Research Strategies in American Studies (3.0 cr)
• ANTH 8203 - Research Methods in Social and Cultural Anthropology (3.0 cr)
• COMM 8110 - Seminar: Communication Research Methods (3.0 cr)
• GWSS 8201 - Feminist Theory and Methods in the Social Sciences (3.0 cr)

Electives (6 credits)
Select at least two interdisciplinary courses in consultation with the RIGS director of graduate studies. Each course should come from a different program or unit related to critical race, ethnicity, and indigeneity, which when taken together, offer a comparative and intersectional framework.
Variable-credit courses must be take for at least three credits.
Take 2 or more course(s) from the following:
• AFRO 5866 - The Civil Rights and Black Power Movement, 1954-1984 (3.0 cr)
• AFRO 8202 - Seminar: Intellectual History of Race (3.0 cr)
• AMIN 5402 - American Indians and the Cinema [AH, DSJ] (3.0 cr)
• AMIN 5409 - American Indian Women: Ethnographic and EthnoHistorical Perspectives [HIS, DSJ] (3.0 cr)
• AMIN 5412 - Comparative Indigenous Feminisms [GP] (3.0 cr)
• AMST 8910 - Topics in U.S. History (1.0 - 4.0 cr)
• AMIN 5890 - Readings in American Indian and Indigenous History (3.0 cr)
• AMIN 5920 - Topics in American Indian Studies (3.0 cr)
• ANTH 8203 - Research Methods in Social and Cultural Anthropology (3.0 cr)
• ANTH 8510 - Topics in Archaeology (3.0 cr)
• ANTH 8810 - Topics in Sociocultural Anthropology (3.0 cr)
• CHIC 5374 - Migrant Farmworkers in the United States: Families, Work, and Advocacy [CIV] (4.0 cr)
• CI 8416 - Speculative Fiction, Radical Imagination, and Social Change (3.0 cr)
• CI 8645 - Indigenous Language Revitalization and Activist Research Methods (3.0 cr)
• GWSS 5104 - Transnational Feminist Theory (3.0 cr)
• GWSS 8260 - Seminar: Race, Representation and Resistance (3.0 cr)
• HIST 8910 - Topics in U.S. History (1.0 - 4.0 cr)
• HIST 8960 - Topics in History (1.0 - 4.0 cr)
• HIST 8970 - Advanced Research in Quantitative History (3.0 cr)
• AMST 5920 - Topics in American Studies (1.0 - 4.0 cr)
• HIST 5890 - Readings in American Indian and Indigenous History (3.0 cr)
• HSPH 8003 - Race and Indigeneity in Heritage Representation (3.0 cr)
• PA 5690 - Topics in Women, Gender and Public Policy (0.5 - 3.0 cr)
• PA 8690 - Advanced Topics in Women, Gender and Public Policy (1.0 - 3.0 cr)
• POL 8260 - Topics in Political Theory (3.0 cr)
• SOC 8090 - Topics in Sociology (1.5 - 3.0 cr)
• SOC 8190 - Topics in Law, Crime, and Deviance (3.0 cr)
• SOC 8211 - The Sociology of Race & Racialization (3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Doctoral
Twin Cities Campus
Religious Studies Minor
Classical & Near Eastern Studies
College of Liberal Arts

- Program Type: Graduate free-standing minor
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 9
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The minor in Religious Studies is available to master's and doctoral students in relevant University of Minnesota departments, schools, and colleges, including but not limited to American Studies, Anthropology, Art History, Classical and Near Eastern Studies, English, History, Philosophy, Sociology, Hubbard School of Journalism and Mass Communication, School of Music, and the College of Education and Human Development.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Other requirements to be completed before admission:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Religious Studies director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

All coursework applied to the minor must be taken on the A/F grade basis.

Required Course (3 credits)
Take the following course:
RELS 5001 - Theory and Method in the Study of Religion: Critical Approaches to the Study of Religion (3.0 cr)

Electives (6 to 9 credits)
Masters students select 6 credits, and doctoral students select 9 credits from the following in consultation with the Religious Studies director of graduate studies. Other courses can be applied to this requirement with approval of the Religious Studies director of graduate studies.
RELS 5013W - Biblical Law and Jewish Ethics [WI] (3.0 cr)
RELS 5070 - Topics in Religious Studies (3.0 cr)
RELS 5071 - Greek and Hellenistic Religions (3.0 cr)
RELS 5072 - The Birth of Christianity [AH] (3.0 cr)
RELS 5115 - Midrash: Reading and Retelling the Hebrew Bible (3.0 cr)
RELS 5121 - Gender and Body in Early Christianity [AH] (3.0 cr)
RELS 5204 - The Dead Sea Scrolls (3.0 cr)
RELS 5254 - Archaeology of Ritual and Religion (3.0 cr)
RELS 5504 - Development of Israelite Religion II (3.0 cr)
RELS 5612 - Baroque Rome: Art and Politics in the Papal Capital (3.0 cr)
RELS 5707W - Anthropology of the Middle East [SOCS, GP, WI] (3.0 cr)
RELS 5721 - North Africa since 1500: Islam, Colonialism, and Independence (3.0 cr)
RELS 5777 - The Diversity of Traditions: Indian Art 1200 to Present (3.0 cr)
RELS 5781 - Age of Empire: The Mughals, Safavids, and Ottomans (3.0 cr)
RELS 5993 - Directed Studies (1.0 - 4.0 cr)
RELS 8070 - Readings in Religious Texts (3.0 cr)
RELS 8190 - Comparative Seminar in Religions in Antiquity (3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 33
- This program does not require summer semesters for timely completion.
- Degree: Master of Arts

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Department of Writing Studies trains students to understand how people use written communication (textual, digital, and visual) to shape the world around them, with a particular emphasis on communication in scientific and technical areas. The MA program prepares students for doctoral-level research by training them in the areas of rhetorical theory and history; writing studies and pedagogy; and technical communication, technology, and culture. Students build a broad base of knowledge in these three areas while developing a specialty area and pursuing interdisciplinary study.

MA applicants should have a strong interest in language and rhetorical theory or communication theory. Students often benefit from entering the program with a background in a science, Internet studies, environmental studies, or pedagogy and technology. Students work in collaboration with faculty mentors and peers to develop the expertise required to make original contributions to the scholarship in their field. The curriculum, professional development training, and funding are structured to support students in making early and regular contributions to the published literature, and in teaching first-year writing and advanced writing courses at the college level.

Each student also develops a supporting field or minor by taking courses outside the department. Students often build expertise in such areas as communication studies; curriculum and instruction; history of science and technology; history of medicine; or gender, women's and sexuality studies.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Undergraduate degree in a related discipline such as rhetoric, technical and professional communication, English, or communication studies.

Special Application Requirements:
Scores from the General Test of the GRE that are less than five years old are required of students with baccalaureate degrees from U.S. institutions. International students are encouraged to take the General Test of the GRE. Nonnative speakers of English are required to take an appropriate test with satisfactory scores. All applicants must submit a departmental supplemental application, personal statement, curriculum vitae or resume, three letters of recommendation and two writing samples. Applicants are also strongly encouraged to submit a diversity statement and, if appropriate, an extenuating circumstances statement. All MA applicants should apply by the January 5 application deadline; all admitted students begin in the fall semester.

Applicants must submit their test score(s) from the following:
• GRE

International applicants must submit score(s) from one of the following tests:
• TOEFL
Internet Based - Total Score: 79
- Internet Based - Writing Score: 21
- Internet Based - Reading Score: 19
- Paper Based - Total Score: 550

IELTS
- Total Score: 6.5

MELAB
- Final score: 80

Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Plan B: Plan B requires 24 to 27 major credits and 6 to 9 credits outside the major. The final exam is oral. A capstone project is required.

Capstone Project: The Plan B project requires students to complete a publication-worthy research paper under their advisors supervision.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.0 is required for students to remain in good standing.

Coursework offered on both the A/F and S/N grading basis must be taken A/F, with a minimum grade of B earned for each course.

Required Core Area (12 credits)
Select a total of 12 credits from the following 3 categories:

Rhetorical Theory and History (3 to 6 credits)
Select at least 3 credits from the following in consultation with the advisor:
WRIT 5775 - The Rhetorical Tradition: Classical Period (3.0 cr)
WRIT 5776 - The Rhetorical Tradition: Modern Era (3.0 cr)

Writing Studies and Pedagogy (3 to 6 credits)
Select at least 3 credits from the following in consultation with the advisor:
WRIT 5531 - Introduction to Writing Theory and Pedagogy (3.0 cr)
WRIT 8540 - Seminar in Technical Communication and Composition Pedagogies (3.0 cr)
WRIT 8560 - Seminar in Writing Studies (3.0 cr)

Technical Communication, Technology, and Culture (3 to 6 credits)
Select at least 3 credits from the following in consultation with the advisor:
WRIT 8520 - Seminar in Scientific and Technical Communication (3.0 cr)
WRIT 8550 - Seminar in Technology, Culture, and Communication (3.0 cr)

Methods Coursework (3 credits)
Take the following course:
WRIT 8011 - Research Methods in Writing Studies and Technical Communication (3.0 cr)

Specialty Area/Concentration (6 credits)
Courses should be selected to develop a coherent specialty area/concentration. Specialties include areas such as rhetoric, literacies, professional and technical communication, internet studies, theories of writing, writing pedagogies, rhetorics of science, medicine, or law, and the environment.
WRIT 5112 - Information Design: Theory and Practice (3.0 cr)
WRIT 5531 - Introduction to Writing Theory and Pedagogy (3.0 cr)
WRIT 5561 - Editing and Style for Technical Communicators (3.0 cr)
WRIT 5662 - Writing With Digital Technologies (3.0 cr)
WRIT 5671 - Visual Rhetoric (3.0 cr)
WRIT 5775 - The Rhetorical Tradition: Classical Period (3.0 cr)
WRIT 5776 - The Rhetorical Tradition: Modern Era (3.0 cr)
WRIT 8505 - Professional Practice (3.0 cr)
WRIT 8610 - Seminar in Rhetoric (3.0 cr)
WRIT 8520 - Seminar in Scientific and Technical Communication (3.0 cr)
WRIT 8540 - Seminar in Technical Communication and Composition Pedagogies (3.0 cr)
WRIT 8550 - Seminar in Technology, Culture, and Communication (3.0 cr)
WRIT 8560 - Seminar in Writing Studies (3.0 cr)
WRIT 8792 - Independent Study, Reading, and Research (1.0 - 4.0 cr)

Outside Coursework (6 credits)
Select 6 credits outside the Department of Writing Studies in consultation with the advisor. Other courses can be applied to this requirement with advisor approval.
AMST 8202 - Theoretical Foundations and Current Practice in American Studies (3.0 cr)
BTHX 5300 - Foundations of Bioethics (3.0 cr)
BTHX 8xxx
CI 5xxx
CI 8xxx
COMM 5xxx
COMM 8xxx
ENGL 5xxx

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Graduate Minor in Rhetoric and Scientific & Technical Communication (RSTC) is available for masters and PhD-level students enrolled in other University graduate programs. Courses train students to understand how people use written communication (textual, digital, and visual) to shape the world around them, with a particular emphasis on communication in scientific and technical areas. The minor also offers students opportunities to pursue special interests in areas such as digital, textual, or visual literacies; theories of rhetoric; writing; composition; and writing pedagogies.

Tailored to students in research degree programs, the minor prepares students to integrate writing pedagogy into discipline-specific teaching practices, develop skills in rhetorical analysis, apply scientific and technical communication principles to the communication of scholarly work, and more. Students in graduate-level professional programs who are interested in applying basic theory and research-driven approaches to workplace contexts are encouraged to pursue the Scientific and Technical Communication Minor.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Rhetoric, Science and Technical Communication director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Courses offered on both the A/F and S/N grading basis must be taken A/F, with a minimum grade of B earned for each course.

The minimum cumulative GPA for minor field coursework is 3.00.

Coursework (6 to 12 credits)
Masters students select 6 credits, and doctoral students select 12 credits from the following in consultation with the Rhetoric, Science and Technical Communication director of graduate studies. The 12 credits applied to the doctoral minor must include at least three credits in WRIT 5775, 5776, and/or 8510.

WRIT 5112 - Information Design: Theory and Practice (3.0 cr)
WRIT 5270 - Special Topics (3.0 cr)
WRIT 5531 - Introduction to Writing Theory and Pedagogy (3.0 cr)
WRIT 5532 - Writing Pedagogy Practicum (1.0 cr)
WRIT 5662 - Writing With Digital Technologies (3.0 cr)
WRIT 5671 - Visual Rhetoric (3.0 cr)
WRIT 5775 - The Rhetorical Tradition: Classical Period (3.0 cr)
WRIT 5776 - The Rhetorical Tradition: Modern Era (3.0 cr)
WRIT 8011 - Research Methods in Writing Studies and Technical Communication (3.0 cr)
WRIT 8510 - Seminar in Rhetoric (3.0 cr)
WRIT 8520 - Seminar in Scientific and Technical Communication (3.0 cr)
WRIT 8540 - Seminar in Technical Communication and Composition Pedagogies (3.0 cr)
WRIT 8550 - Seminar in Technology, Culture, and Communication (3.0 cr)
WRIT 8560 - Seminar in Writing Studies (3.0 cr)
WRIT 8792 - Independent Study, Reading, and Research (1.0 - 4.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Doctoral
**Twin Cities Campus**

**Rhetoric, Scientific and Technical Communication Ph.D.**

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 66
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Department of Writing Studies trains students to understand how people use written communication (textual, digital, and visual) to shape the world around them, with a particular emphasis on communication in scientific and technical areas. The PhD program prepares students to become researchers and teachers with expertise in rhetoric, writing studies, and technical communication. Students in the RSTC program also pursue special interests in areas such as digital, textual, or visual literacies; rhetorics of science, health, medicine, law, and/or the environment; professional communication; internet studies; theories of writing; composition; and writing pedagogies.

Students work in collaboration with faculty mentors and peers to develop the expertise required to make original contributions to the scholarship in their fields. The curriculum, professional development training, and funding are structured to support students in making early and regular contributions to the published literature, and in teaching first-year writing and advanced writing courses at the college level. Most graduates of the program pursue careers teaching at the college level, although some have developed careers in industry or non-governmental organizations.

Each student also develops a supporting program of courses outside the department. Coursework outside the department is commonly pursued in fields such as communication studies; curriculum and instruction; history of medicine; or gender, women's and sexuality studies.

**Program Delivery**

This program is available:
- via classroom (the majority of instruction is face-to-face)

**Prerequisites for Admission**

Master's in a related discipline, e.g., rhetoric, technical and professional communication, English, communication studies.

Other requirements to be completed before admission:
Individuals who do not yet have a masters degree in a related discipline are encouraged to apply to Writing Studies Rhetoric, Scientific and Technical Communication MA. Students in the MA program who are making satisfactory progress will, in their second year of study, have the opportunity to apply to the PhD program. For students who continue in the program, most MA courses transfer to the PhD. Continuing students must complete their MA no later than the end of the first semester in the PhD program.

**Special Application Requirements:**
Scores from the General Test of the GRE that are less than five years old are required of students with baccalaureate degrees from U.S. institutions. International students are encouraged to take the General Test of the GRE. Nonnative speakers of English are required to take an appropriate test with satisfactory scores. All applicants must submit a departmental supplemental application, personal statement, curriculum vitae or resume, three letters of recommendation and two writing samples. Applicants are also strongly encouraged to submit a diversity statement and, if appropriate, an extenuating circumstances statement. All PhD applicants should apply by the January 5 application deadline; all admitted students begin in the fall semester.
Applicants must submit their test score(s) from the following:
• GRE

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Paper Based - Total Score: 550
• IELTS
  - Total Score: 6.5
• MELAB
  - Final score: 80

Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
27 to 30 credits are required in the major.
12 to 15 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.0 is required for students to remain in good standing.

Up to 6 credits from a master's program, upon consultation with the advisor and approval of the director of graduate studies, can be applied to the PhD.

All coursework offered on both the A/F and S/N grade basis must be taken A/F, with a minimum grade of B earned for each.

Students must write a formal prospectus outlining the plan for their dissertation and present it to committee members within a year of passing the preliminary oral exam. Upon committee approval of the prospectus, the student must obtain their advisor's signature on the prospectus form and file it with the department's graduate studies office.

Required Core Areas (15 credits)
Select a total of 15 credits from the following three categories:

Rhetoric Theory and History (6 to 9 credits)
Select at least 6 credits from the following in consultation with the advisor:
WRIT 5775 - The Rhetorical Tradition: Classical Period (3.0 cr)
WRIT 5776 - The Rhetorical Tradition: Modern Era (3.0 cr)
WRIT 8510 - Seminar in Rhetoric (3.0 cr)

Writing Studies and Pedagogy (3 to 6 credits)
Select at least 3 credits from the following in consultation with the advisor:
WRIT 5531 - Introduction to Writing Theory and Pedagogy (3.0 cr)
WRIT 8540 - Seminar in Technical Communication and Composition Pedagogies (3.0 cr)
WRIT 8560 - Seminar in Writing Studies (3.0 cr)

Technical Communication, Technology, and Culture (3 to 6 credits)
Select at least 3 credits from the following in consultation with the advisor:
WRIT 8520 - Seminar in Scientific and Technical Communication (3.0 cr)
WRIT 8550 - Seminar in Technology, Culture, and Communication (3.0 cr)

Methods Course (3 credits)
Take the following course:
WRIT 8011 - Research Methods in Writing Studies and Technical Communication (3.0 cr)
Writing Studies Specialty Area/Concentration (9 credits)
Courses should be selected to develop a coherent specialty area/concentration. Specialties include areas such as rhetoric, literacies, professional and technical communication, internet studies, theories of writing, writing pedagogies, rhetorics of science, medicine, or law, and the environment.

Writing Studies Courses (9 credits)
Select at least 9 credits from the following in consultation with the advisor:
- WRIT 5112 - Information Design: Theory and Practice (3.0 cr)
- WRIT 5531 - Introduction to Writing Theory and Pedagogy (3.0 cr)
- WRIT 5561 - Editing and Style for Technical Communicators (3.0 cr)
- WRIT 5662 - Writing With Digital Technologies (3.0 cr)
- WRIT 5671 - Visual Rhetoric (3.0 cr)
- WRIT 5775 - The Rhetorical Tradition: Classical Period (3.0 cr)
- WRIT 5776 - The Rhetorical Tradition: Modern Era (3.0 cr)
- WRIT 8505 - Professional Practice (3.0 cr)
- WRIT 8510 - Seminar in Rhetoric (3.0 cr)
- WRIT 8520 - Seminar in Scientific and Technical Communication (3.0 cr)
- WRIT 8540 - Seminar in Technical Communication and Composition Pedagogies (3.0 cr)
- WRIT 8550 - Seminar in Technology, Culture, and Communication (3.0 cr)
- WRIT 8560 - Seminar in Writing Studies (3.0 cr)
- WRIT 8792 - Independent Study, Reading, and Research (1.0 - 4.0 cr)

Outside Coursework (12 credits)
Select at least 12 credits of outside coursework from the following, in consultation with the advisor to form a coherent supporting program. Other courses may be applied to this requirement with advisor approval.
- AMST 8202 - Theoretical Foundations and Current Practice in American Studies (3.0 cr)
- BTHX 5300 - Foundations of Bioethics (3.0 cr)
- BTHX 8xxx
- CI 5xxx
- CI 8xxx
- COMM 5xxx
- COMM 8xxx
- ENGL 5xxx
- ENGL 8xxx
- GWSS 5xxx
- GWSS 8xxx
- HMED 5xxx
- HMED 8xxx
- HSCI 5xxx
- HSCI 8xxx
- IDSC 5xxx
- IDSC 8xxx
- OLPD 5xxx
- OLPD 8xxx
- PUBH 6101 - Environmental Health (2.0 cr)
- PUBH 6414 - Biostatistical Literacy (3.0 cr)
- STAT 5021 - Statistical Analysis (4.0 cr)

Electives (3 credits)
Select 3 credits of graduate coursework in consultation with the advisor. Course(s) can be WRIT or non-WRIT.

Thesis Credits
Take 24 or more credit(s) from the following:
- WRIT 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)
Twin Cities Campus
Scientific and Technical Communication M.S.
Writing Studies Department
College of Liberal Arts

Link to a list of faculty for this program.

Contact Information:
Department of Writing Studies, 214 Nolte Center, 315 Pillsbury Drive SE, Minneapolis, MN 55455 (612-624-3445; fax: 612-624-3617)
Email: WRIT@umn.edu
Website: http://cla.umn.edu/writing-studies

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 30
- This program requires summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Department of Writing Studies trains students to understand how people use written communication (digital, visual, textual) to shape the world around them, with a particular emphasis on communication in scientific and technical areas. The MS in Scientific and Technical Communication focuses on applying basic theory and research-driven approaches to the creation and adaptation of content to solve complex problems in technical communication workplaces. Students connect with workplace professionals through client projects, virtual and global teamwork, mentorships, and emerging technologies. These experiences enable students to develop unique strengths in digital, usability, and science/health/medical communication.

Program Delivery
This program is available:
  • completely online (all program coursework can be completed online)

Prerequisites for Admission
International applicants must submit score(s) from one of the following tests:
  • TOEFL
    - Internet Based - Total Score: 79
    - Internet Based - Writing Score: 21
    - Internet Based - Reading Score: 19
    - Paper Based - Total Score: 550
  • IELTS
    - Total Score: 6.5
  • MELAB
    - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Plan C: Plan C requires 21 major credits and 9 credits outside the major. The is no final exam. A capstone project is required.
Capstone Project: WRIT 8505, the capstone course, provides a structured setting for students to complete a research project that will position them for applied work in technical communication.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.
A minimum GPA of 2.8 is required for students to remain in good standing.

All coursework must be taken for an A-F grade and completed with a minimum grade of B, unless the course is only offered for an S-N grade.

**Core Coursework (15 credits)**
Take the following courses for a total of 15 credits.
- **WRIT 4562** - International Professional Communication (3.0 cr)
- **WRIT 5001** - Introduction to Graduate Studies in Scientific and Technical Communication (3.0 cr)
- **WRIT 5112** - Information Design: Theory and Practice (3.0 cr)
- **WRIT 5561** - Editing and Style for Technical Communicators (3.0 cr)
- **WRIT 5662** - Writing With Digital Technologies (3.0 cr)

**Capstone Course (3 credits)**
Take the following course:
- **WRIT 8505** - Professional Practice (3.0 cr)

**Electives (3 credits)**
Take at least 3 credits of electives, selected in consultation with the advisor or director of graduate studies. Under some circumstances, 3 credits of independent study (WRIT 5291) or internship (WRIT 5196) may be substituted with the director of graduate studies approval. Note: WRIT 5671 Visual Rhetoric is not offered online.
- **WRIT 4501** - Usability and Human Factors in Technical Communication (3.0 cr)
- **WRIT 4573W** - Writing Proposals and Grant Management [WI] (3.0 cr)
- **WRIT 4664W** - Science, Medical, and Health Writing [WI] (3.0 cr)
- **WRIT 5671** - Visual Rhetoric (3.0 cr)

**Outside Coursework (9 credits)**
Select at least 9 credits outside the Department of Writing Studies, in consultation with the advisor or director of graduate studies. Courses can be from the following list or others with approval of the advisor or director of graduate studies. Note: CI 5106, CI 5351, CI 5474, GDES 5372, MOT 5001, and MOT 5002 are not offered online.
- **CI 5106** - Multicultural Teaching and Learning in Diverse College Contexts (3.0 cr)
- **CI 5156** - Popular Culture, Teaching, and Learning (3.0 cr)
- **CI 5301** - Foundations of Computer Applications for Business and Education (3.0 cr)
- **CI 5307** - Technology for Teaching and Learning (1.5 cr)
- **CI 5323** - Online Learning Communities (3.0 cr)
- **CI 5325** - Designing and Developing Online Distance Learning (3.0 cr)
- **CI 5331** - Introduction to Learning Technologies (3.0 cr)
- **CI 5336** - Planning for Multimedia Design and Development (3.0 cr)
- **CI 5351** - Technology Tools for Educators (3.0 cr)
- **CI 5361** - Teaching and Learning with the Internet (2.0 - 3.0 cr)
- **CI 5362** - Foundations of Interactive Design for Web-based Learning (3.0 cr)
- **CI 5371** - Learning Analytics: Theory and Practice (3.0 cr)
- **CI 5472** - Teaching Critical Media Analysis in Schools (3.0 cr)
- **CI 5474** - New Literacies Frameworks and Instruction: Digital Texts and Digital Reading (3.0 cr)
- **CI 5475** - Teaching Digital Writing (3.0 cr)
- **COMM 5441** - Communication in Human Organizations (3.0 cr)
- **EPSY 5101** - Intelligence and Creativity (3.0 cr)
- **EPSY 5243** - Principles and Methods of Evaluation (3.0 cr)
- **EPSY 5261** - Introductory Statistical Methods (3.0 cr)
- **GDES 5372** - Data Visualization for Interactive Platforms (3.0 cr)
- **GDES 8361** - Color, Design, and Human Perception (3.0 cr)
- **HINF 5430** - Foundations of Health Informatics I (3.0 cr)
- **HINF 5502** - Python Programming Essentials for the Health Sciences (1.0 cr)
- **HINF 5510** - Applied Health Care Databases: Database Principles and Data Evaluation (3.0 cr)
- **HINF 5520** - Informatics Methods for Health Care Quality, Outcomes, and Patient Safety (2.0 cr)
- **HINF 5531** - Health Data Analytics and Data Science (3.0 cr)
- **KIN 5202** - Current Issues in Health (2.0 cr)
- **MOT 5001** - Technological Business Fundamentals (2.0 cr)
- **MOT 5002** - Creating Technological Innovation (2.0 cr)
- **NURS 5115** - Interprofessional Health Care Informatics (3.0 cr)
- **NURS 5116** - Consumer Health Informatics (1.0 cr)
- **NURS 5925** - Grant Writing and Critique (1.0 cr)

Website: https://cla.umn.edu/writing-studies

• Program Type: Graduate minor related to major
• Requirements for this program are current for Fall 2020
• Length of program in credits (Masters): 6
• This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Scientific and Technical Communication minor is available for masters-level students enrolled in other University graduate programs. Courses train students to apply basic theory and research-driven approaches to create and adapt content to solve complex problems in technical and scientific communication. The minor offers online courses in areas such as editing and style, writing with digital technologies, information design, and international professional communication. Coursework emphasizes collaboration with workplace professionals through client projects, virtual and global teamwork, mentorships, and emerging technologies and enables students to develop unique strengths in digital, usability, and/or science/health/medical communication.

Program Delivery
This program is available:
• completely online (all program coursework can be completed online)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Scientific and Technical Communication director of graduate studies, regarding feasibility and requirements. Research master’s and PhD students interested in rhetorical theory and history, technical communication, technology and culture, digital and new media studies, and writing pedagogy are encouraged to pursue the Rhetoric, Technical and Scientific Communication minor.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

At least a grade of B must be earned for each course applied to the minor. The minimum GPA is 3.00.

Coursework (6 credits)
Core Course (3 credits)
Take 3 credits of the following:
WRIT 5112 - Information Design: Theory and Practice (3.0 cr)

Electives (3 credits)
Take 3 credits of electives. Courses can be from the following list or others with approval of the director of graduate studies
WRIT 4501 - Usability and Human Factors in Technical Communication (3.0 cr)
WRIT 4562 - International Professional Communication (3.0 cr)
WRIT 4573W - Writing Proposals and Grant Management [WI] (3.0 cr)
WRIT 4664W - Science, Medical, and Health Writing [WI] (3.0 cr)
WRIT 5561 - Editing and Style for Technical Communicators (3.0 cr)
WRIT 5662 - Writing With Digital Technologies (3.0 cr)
WRIT 8505 - Professional Practice (3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Masters
Twin Cities Campus
Sociology M.A.
Sociology

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 32 to 33
- This program does not require summer semesters for timely completion.
- Degree: Master of Arts

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Note: The Sociology graduate program does not accept applications directly to the MA; rather, the MA is an additional or alternative credential for students admitted to the Sociology PhD program.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Note: The Sociology graduate program does not accept applications directly to the MA; rather, the MA is an additional or alternative credential for students admitted to the Sociology PhD program.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Plan A: Plan A requires 17 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is written and oral.

Plan B: Plan B requires 24 major credits and 6 credits outside the major. The final exam is written and oral.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

Coursework offered on both the A/F and S/N grade basis must be taken A/F with a minimum grade of B earned for each course.

Core Courses (14 Credits)
Take the following courses. Take SOC 8001 twice for a total of 2 credits.
SOC 8001 - Sociology as a Profession (1.0 cr)
SOC 8701 - Sociological Theory (4.0 cr)
SOC 8801 - Sociological Research Methods (4.0 cr)
SOC 8811 - Advanced Social Statistics (4.0 cr)

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of September 04, 2020
### Qualitative Elective Coursework (3 credits)
Select one of the following courses.

- SOC 8851 - Advanced Qualitative Research Methods: In-Depth Interviewing (3.0 cr)
- SOC 8852 - Advanced Qualitative Research Methods: Ethnographic Practicum (3.0 cr)
- SOC 8853 - Advanced Qualitative Research Methods: Historical & Comparative Sociology (3.0 cr)

### Outside Coursework (6 credits)
Select 6 credits outside the major in consultation with the advisor.

- AFRO 8202 - Seminar: Intellectual History of Race (3.0 cr)
- AMST 8920 - Topics in American Studies (3.0 cr)
- ANTH 5041 - Ecological Anthropology (3.0 cr)
- ANTH 8203 - Research Methods in Social and Cultural Anthropology (3.0 cr)
- DSSC 8112 - Scholarship and Public Responsibility (1.0 cr)
- DSSC 8211 - Doctoral Research Workshop in Development Studies and Social Change (3.0 cr)
- EPSY 8268 - Hierarchical Linear Modeling in Educational Research (3.0 cr)
- EPSY 8282 - Statistical Analysis of Longitudinal Data (3.0 cr)
- GEOG 8230 - Theoretical Geography (3.0 cr)
- GEOG 8292 - Seminar in GIS: Spatial Analysis and Modeling (3.0 cr)
- GEOG 8294 - Spatiotemporal Modeling and Simulation (3.0 cr)
- GEOG 8970 - Directed Readings (1.0 - 5.0 cr)
- GEOG 8980 - Topics: Geography (1.0 - 3.0 cr)
- GLOS 5403 - Human Rights Advocacy (3.0 cr)
- GLOS 5900 - Topics in Global Studies (1.0 - 4.0 cr)
- GRAD 8401 - Dissertation Proposal Development Seminar (3.0 cr)
- GWSS 5104 - Transnational Feminist Theory (3.0 cr)
- GWSS 8108 - Genealogies of Feminist Theory (3.0 cr)
- GWSS 8109 - Feminist Knowledge Production (3.0 cr)
- GWSS 8250 - Seminar: Nation, State, and Citizenship (1.0 - 3.0 cr)
- GWSS 8260 - Seminar: Race, Representation and Resistance (3.0 cr)
- GWSS 8270 - Seminar: Theories of Body (3.0 cr)
- GWSS 8995 - Directed Research (1.0 - 8.0 cr)
- HIST 5890 - Readings in American Indian and Indigenous History (3.0 cr)
- HIST 5902 - Latin America Proseminar: Modern (3.0 cr)
- HIST 5910 - Topics in U.S. History (1.0 - 4.0 cr)
- HIST 8900 - Topics in European/Medieval History (1.0 - 4.0 cr)
- HIST 8910 - Topics in U.S. History (1.0 - 4.0 cr)
- HIST 8920 - Topics in African History (1.0 - 4.0 cr)
- HIST 8960 - Topics in History (1.0 - 4.0 cr)
- HIST 8970 - Advanced Research in Quantitative History (3.0 cr)
- HIST 8993 - Directed Study (1.0 - 16.0 cr)
- JOUR 8503 - Seminar: Qualitative Methods in Mass Communication Research (3.0 cr)
- KIN 5126 - Social Psychology of Sport & Physical Activity (3.0 cr)
- LAW 6846 - Philosophy of Punishment (3.0 cr)
- LAW 6889 - Laws of War (3.0 cr)
- LING 5900 - Topics in Linguistics (1.0 - 4.0 cr)
- OLPD 5103 - Comparative Education (3.0 cr)
- OLPD 8096 - Problems: Organizational Leadership, Policy, and Development (1.0 - 3.0 cr)
- PA 5151 - Organizational Perspectives on Global Development & Humanitarian Assistance (3.0 cr)
- PA 5204 - Urban Spatial and Social Dynamics (3.0 cr)
- PA 5281 - Immigrants, Urban Planning and Policymaking in the U.S. (3.0 cr)
- PA 5301 - Population Methods & Issues for the United States & Global South (3.0 cr)
- PA 5401 - Poverty, Inequality, and Public Policy (3.0 cr)
- PA 5451 - Immigration, Health and Public Policy (3.0 cr)
- PA 5490 - Topics in Social Policy (1.0 - 4.0 cr)
- PA 5801 - Global Public Policy (3.0 cr)
- PA 5823 - Managing Humanitarian and Refugee Crises: Challenges for Policymakers & Practitioners (1.0 cr)
- PA 8151 - Organizational Perspectives on Global Development & Humanitarian Assistance (3.0 cr)
- PA 8312 - Analysis of Discrimination (4.0 cr)
- PA 8331 - Economic Demography (3.0 cr)
- PA 8390 - Advanced Topics in Advanced Policy Analysis Methods (1.0 - 3.0 cr)
- PA 8461 - Global and U.S. Perspectives on Health and Mortality (3.0 cr)
- PA 8690 - Advanced Topics in Women, Gender and Public Policy (1.0 - 3.0 cr)
- PHIL 8310 - Seminar: Moral Philosophy (3.0 cr)
- POL 8160 - Topics in Models and Methods (3.0 cr)
- POL 8260 - Topics in Political Theory (3.0 cr)

**Plan Options**

**Plan A**

Plan A students take 10 master's thesis credits.

SOC 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

**OR**

**Plan B**

Plan B students select coursework from the following in consultation with the advisor:

SOC 5090 - Topics in Sociology (1.0 - 3.0 cr)
SOC 5104 - Crime and Human Rights (3.0 cr)
SOC 5246 - Disease, Disasters, and Other Killers [HIS, ENV] (3.0 cr)
SOC 5315 - Never Again! Memory & Politics after Genocide [GP] (3.0 cr)
SOC 5411 - Terrorist Networks & Counterterror Organizations (3.0 cr)
SOC 5446 - Comparing Healthcare Systems [GP] (3.0 cr)
SOC 5465 - Sociology of Education (3.0 cr)
SOC 5511 - World Population Problems (3.0 cr)
SOC 8090 - Topics in Sociology (1.5 - 3.0 cr)
SOC 8093 - Directed Study (1.0 - 4.0 cr)
SOC 8094 - Directed Research (1.0 - 4.0 cr)
SOC 8101 - Sociology of Law (3.0 cr)
SOC 8111 - Criminology (3.0 cr)
SOC 8171 - Cross-Disciplinary Perspectives in Human Rights (3.0 cr)
SOC 8190 - Topics in Law, Crime, and Deviance (3.0 cr)
SOC 8211 - The Sociology of Race & Racialization (3.0 cr)
SOC 8221 - Sociology of Gender (3.0 cr)
SOC 8290 - Topics in Race, Class, Gender and other forms of Durable Inequality (3.0 cr)
SOC 8311 - Political Sociology (3.0 cr)
SOC 8390 - Topics in Political Sociology (3.0 cr)
SOC 8412 - Social Network Analysis: Theory and Methods (3.0 cr)
SOC 8490 - Advanced Topics in Social Organization (3.0 cr)
SOC 8501 - Sociology of the Family (3.0 cr)
SOC 8540 - Topics in Family Sociology (3.0 cr)
SOC 8551 - Life Course Inequality & Health (3.0 cr)
SOC 8590 - Topics in Life Course Sociology (3.0 cr)
SOC 8607 - Migration & Migrants in Demographic Perspective (3.0 cr)
SOC 8701 - Sociological Theory (4.0 cr)
SOC 8721 - Social Psychology: Micro-Sociological Approaches to Inequalities and Identities (3.0 cr)
SOC 8731 - Sociology of Knowledge (3.0 cr)
SOC 8735 - Sociology of Culture (3.0 cr)
SOC 8790 - Advanced Topics in Sociological Theory (3.0 cr)
SOC 8801 - Sociological Research Methods (4.0 cr)
SOC 8811 - Advanced Social Statistics (4.0 cr)
SOC 8851 - Advanced Qualitative Research Methods: In-Depth Interviewing (3.0 cr)

• Program Type: Graduate minor related to major
• Requirements for this program are current for Fall 2020
• Length of program in credits (Masters): 6
• Length of program in credits (Doctorate): 12
• This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Through the exploration of social and individual dynamics, we prepare our students to enrich social scientific understandings of the complex problems societies face today. Research specialties include:
1. Demography, family, and life course
2. Global, transnational, and comparative sociology
3. Inequalities and culture
4. Law, crime, punishment, and human rights

Methodological training is available in historical and comparative research, survey research, network analysis, advanced statistical analysis, and qualitative research.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission

Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Sociology director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Use of 4xxx courses towards program requirements is not permitted.

Courses applied to the minor must be approved by the Sociology director of graduate studies.

Courses applied to the minor that are offered on both the A/F and S/N grade basis must be taken A/F, with a minimum grade of B earned for each.

The minimum cumulative GPA for minor field coursework is 3.00.

Coursework (6 to 12 credits)
Master's students select 6 credits, and doctoral students select 12 credits from the following in consultation with the Sociology director of graduate studies:
SOC 5090 - Topics in Sociology (1.0 - 3.0 cr)
SOC 5104 - Crime and Human Rights (3.0 cr)
SOC 5246 - Disease, Disasters, and Other Killers [HIS, ENV] (3.0 cr)
SOC 5315 - Never Again! Memory & Politics after Genocide [GP] (3.0 cr)

SOC 8852 - Advanced Qualitative Research Methods: Ethnographic Practicum (3.0 cr)
SOC 8853 - Advanced Qualitative Research Methods: Historical & Comparative Sociology (3.0 cr)
SOC 8890 - Advanced Topics in Research Methods (2.0 - 3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Twin Cities Campus
Sociology Ph.D.

Sociology
College of Liberal Arts

Link to a list of faculty for this program.

Contact Information:
Department of Sociology, 909 Social Sciences Building, 267 19th Avenue South, Minneapolis, MN 55455 (612-624-4300; fax: 612-624-7020)
Email: soc@umn.edu
Website: http://cla.umn.edu/sociology/graduate

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 65
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Through the exploration of social and individual dynamics, students are prepared to enrich social scientific understandings of the complex problems societies face today. Research specialties include:

1. Demography, family, and life course
2. Global, transnational, and comparative sociology
3. Inequalities and culture
4. Law, crime, punishment, and human rights

Methodological training is available in historical and comparative research, survey research, network analysis, advanced statistical analysis, and qualitative research. The doctoral program is for students planning to do research or teach.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.50.

Other requirements to be completed before admission:
An earned graduate or professional degree is not required for admission.

It is recommended that applicants have a background in basic sociology, usually consisting of the equivalent of 18 credits in undergraduate work (including 9 credits of social science statistical methods), or an MA degree in sociology or a closely related field. Individuals without sociology coursework are generally required to complete background coursework in theory and statistics during their first year of residence; such coursework cannot be applied to doctoral credit requirements.

Special Application Requirements:
Applicants are evaluated on their academic potential, commitment to the field, creativity, and potential for contribution to the field. In addition to the University application form, and its required documents, applicants must submit the following: GRE scores; a sample of written work, usually a term paper, written in English; three letters of recommendation; and a personal statement of professional objectives. Non-native English speakers are required to take the TOEFL test, this includes students who have studied in the U.S. The department accepts new students for fall admission only. The application deadline is December 15.

Applicants must submit their test score(s) from the following:
- GRE

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 95

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of September 04, 2020
- Internet Based - Listening Score: 22
- Internet Based - Writing Score: 24
- Internet Based - Reading Score: 22
- Internet Based - Speaking Score: 27

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (GRE, TOEFL).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
29 credits are required in the major.
12 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 3 semesters must be completed before filing a Degree Program Form.

Core Courses (14 Credits)
Take the following courses. Take SOC 8001 twice for a total of 2 credits.
SOC 8001 - Sociology as a Profession (1.0 cr)
SOC 8701 - Sociological Theory (4.0 cr)
SOC 8801 - Sociological Research Methods (4.0 cr)
SOC 8811 - Advanced Social Statistics (4.0 cr)

Advanced Qualitative Research Methods (3 credits)
Take one of the following courses.
SOC 8851 - Advanced Qualitative Research Methods: In-Depth Interviewing (3.0 cr)
SOC 8852 - Advanced Qualitative Research Methods: Ethnographic Practicum (3.0 cr)
SOC 8853 - Advanced Qualitative Research Methods: Historical & Comparative Sociology (3.0 cr)

Sociology Electives (12 Credits)
Select elective coursework in consultation with the advisor.
SOC 5090 - Topics in Sociology (1.0 - 3.0 cr)
SOC 5104 - Crime and Human Rights (3.0 cr)
SOC 5246 - Disease, Disasters, and Other Killers [HIS, ENV] (3.0 cr)
SOC 5315 - Never Again! Memory & Politics after Genocide [GP] (3.0 cr)
SOC 5411 - Sociology of Law (3.0 cr)
SOC 5446 - Comparing Healthcare Systems [GP] (3.0 cr)
SOC 5455 - Sociology of Education (3.0 cr)
SOC 5511 - World Population Problems (3.0 cr)
SOC 5512 - The Sociology of Race & Racialization (3.0 cr)
SOC 5513 - Directed Study (1.0 - 4.0 cr)
SOC 5514 - Directed Research (1.0 - 4.0 cr)
SOC 5515 - Sociology of Law (3.0 cr)
SOC 5516 - Sociology of the Family (3.0 cr)
SOC 5517 - Social Network Analysis: Theory and Methods (3.0 cr)
SOC 5518 - Topics in Social Organization (3.0 cr)
SOC 5519 - Sociology of the Family (3.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 36 to 60
- This program requires summer semesters for timely completion.
- Degree: Master of Arts

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Department of Speech-Language-Hearing Sciences offers an MA with three tracks: speech-language pathology, audiology, and speech-language-hearing sciences; however, the department only accepts MA applications for the speech-language pathology track. The speech-language pathology track focuses on meeting standards for certification as a speech-language pathologist by the American Speech-Language-Hearing Association. It emphasizes outcome-based learning activities that prepare graduates to interpret research findings and incorporate them into clinical practice. Coursework and clinical education focus on diagnostic, rehabilitative techniques, technology counseling approaches, and human development.

Individuals interested in pursuing an advanced degree in audiology should apply directly to the audiology AuD program. Students admitted to the AuD are eligible to apply for the MA with an audiology track.

The Speech-Language Pathology MA program at the University of Minnesota - Twin Cities is accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology (CAA) of the American Speech-Language-Hearing Association, 2200 Research Boulevard #310, Rockville, Maryland 20850, 800-498-2071 or 301-296-5700.

Accreditation
This program is accredited by Council on Academic Accreditation in Audiology and Speech-Language Pathology (CAA).

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Prerequisite coursework includes undergraduate transcript credit in physical science, biological science, social/behavioral science, and statistics.

Applicants must submit their test score(s) from the following:
- GRE

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
Key to test abbreviations (GRE, TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan A: Plan A requires 44 to 50 major credits, 0 to 6 credits outside the major, and 10 thesis credits. The final exam is written and oral.

Plan B: Plan B requires 30 to 60 major credits and 0 to 6 credits outside the major. The final exam is written and oral.

Plan C: Plan C requires 48 to 54 major credits and 0 to 6 credits outside the major. The final exam is written.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.

Program Sub-plans
A sub-plan is not required for this program. Students may not complete the program with more than one sub-plan.

Speech-Language Pathology
This sub-plan is limited to students completing the program under Plan A or Plan C.

The speech-language pathology program emphasizes outcome-based learning activities that prepare graduates to interpret research findings and incorporate them into clinical practice. Coursework and clinical education focus on diagnostic, rehabilitative techniques, technology counseling approaches, and human development. This sub-plan is accredited by the American Speech-Language-Hearing Association for certification in speech-language pathology.

Students in this sub-plan may elect the Plan A option (60-credit minimum) or the Plan C option (54-credit minimum).

Speech Language Pathology: Required Courses
SLHS 5401 - Counseling and Professional Issues (3.0 cr)
SLHS 5502 - Voice and Cleft Palate (3.0 cr)
SLHS 5503 - Fluency and Motor Speech Disorders (3.0 cr)
SLHS 5504 - Evaluation and Management of Dysphagia (3.0 cr)
SLHS 5502 - Speech Sound Disorders: Assessment and Treatment across Languages (3.0 cr)
SLHS 5503 - Assessment and Intervention of Language Disorders in Children (3.0 cr)
SLHS 5605 - Language and Cognitive Disorders in Adults (3.0 cr)
SLHS 5606 - Introduction to Augmentative and Alternative Communication (3.0 cr)

**Clinical Education in Speech-Language Pathology**
Take exactly 17 credit(s) from the following:
- SLHS 8720 - Clinical Education in Speech-Language Pathology (1.0 - 8.0 cr)

**Clinical Education in Audiology**
Take exactly 1 credit(s) from the following:
- SLHS 8820 - Clinical Education in Audiology (1.0 - 8.0 cr)
- SLHS 5609 - Child Language Disorders in Diverse Populations (3.0 cr)

**Related Fields**
In addition to the other Related Fields options, SLP students can use the following course to fulfill their requirement
Take 0 or more course(s) from the following:
- SLHS 5804 - Cochlear Implants (3.0 cr)
- SLHS 5805 - Advanced Rehabilitative Audiology (3.0 cr)

**Plans Options for Speech-Language Pathology Track**

**Plan A**
Take exactly 10 credit(s) from the following:
- SLHS 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

-OR-

**Plan C**
Take exactly 4 credit(s) from the following:
- SLHS 8994 - Directed Research (1.0 - 12.0 cr)

**Audiology**
This sub-plan is limited to students completing the program under Plan B.

The audiology program emphasizes outcome-based learning activities that prepare graduates to interpret research findings and incorporate them into clinical practice. Coursework and clinical education focus on diagnostic, rehabilitative techniques, technology counseling approaches, and human development.

The audiology sub-plan requires a total of 60 credits, and a Plan B comprehensive written exam and a final oral examination.

**Audiology Track: Required Courses**
SLHS 5401 - Counseling and Professional Issues (3.0 cr)
SLHS 5801 - Advanced Audiologic Assessment (3.0 cr)
SLHS 5802 - Hearing Aids I (3.0 cr)
SLHS 5803 - Pediatric Audiology (3.0 cr)
SLHS 5804 - Cochlear Implants (3.0 cr)
SLHS 5805 - Advanced Rehabilitative Audiology (3.0 cr)
SLHS 5806 - Auditory Processing Disorders (3.0 cr)
SLHS 5807 - Noise and Hearing Conservation (3.0 cr)
SLHS 5808 - Pathophysiology of Hearing Disorders (3.0 cr)
SLHS 8801 - Electrophysiologic Assessment of Auditory Function (3.0 cr)
SLHS 8802 - Hearing Aids II (3.0 cr)
SLHS 8803 - Signals and Systems in Audiology (3.0 cr)
SLHS 8805 - Hearing Science Foundations of Audiology (3.0 cr)
SLHS 8807 - Balance Assessment (3.0 cr)

**Laboratory Module in Audiology**
Take exactly 2 credit(s) from the following:
- SLHS 5810 - Laboratory Module in Audiology (1.0 - 2.0 cr)

**Clinical Research and Practice: Grand Rounds**
Take exactly 4 credit(s) from the following:
- SLHS 5820 - Clinical Research and Practice: Grand Rounds (1.0 - 6.0 cr)

**Clinical Foundations in Audiology**
Take exactly 2 credit(s) from the following:
• SLHS 5830 - Clinical Foundations in Audiology (1.0 - 8.0 cr)
• SLHS 5609 - Child Language Disorders in Diverse Populations (3.0 cr)

Related Fields
In addition to the other Related Fields course options, students in the AuD track can use the following courses to fulfill the Related Fields requirement
Take 0 or more course(s) from the following:
• SLHS 5602 - Speech Sound Disorders: Assessment and Treatment across Languages (3.0 cr)
• SLHS 5603 - Assessment and Intervention of Language Disorders in Children (3.0 cr)

Plan B Audiology Track

Directed Research
Take exactly 4 credit(s) from the following:
• SLHS 8994 - Directed Research (1.0 - 12.0 cr)

Speech-Language-Hearing Sciences (SLHS)
This sub-plan is limited to students completing the program under Plan B.

Speech-Language-Hearing Sciences Track: Required Courses
SLHS 5401 - Counseling and Professional Issues (3.0 cr)
SLHS 5502 - Voice and Cleft Palate (3.0 cr)
SLHS 5503 - Fluency and Motor Speech Disorders (3.0 cr)
SLHS 5504 - Evaluation and Management of Dysphagia (3.0 cr)
SLHS 5602 - Speech Sound Disorders: Assessment and Treatment across Languages (3.0 cr)
SLHS 5603 - Assessment and Intervention of Language Disorders in Children (3.0 cr)
SLHS 5605 - Language and Cognitive Disorders in Adults (3.0 cr)
SLHS 5606 - Introduction to Augmentative and Alternative Communication (3.0 cr)
SLHS 5608 - Clinical Issues in Bilingualism and Cultural Diversity (3.0 cr)

Plan B Speech-Language-Hearing Sciences Track

Directed Research
Take exactly 4 credit(s) from the following:
• SLHS 8994 - Directed Research (1.0 - 12.0 cr)
Twin Cities Campus
Speech-Language-Hearing Sciences Minor
Speech-Language-Hearing Sciences
College of Liberal Arts

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 12
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Emphasis in the graduate program is speech-language pathology and audiology.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

The approval of the SLHS director of graduate studies is required prior to registration for any 4xxx-level minor field coursework.

Speech Language Pathology Focus
Take 12 or more credit(s) from the following:
- SLHS 5502 - Voice and Cleft Palate (3.0 cr)
- SLHS 5503 - Fluency and Motor Speech Disorders (3.0 cr)
- SLHS 5504 - Evaluation and Management of Dysphagia (3.0 cr)
- SLHS 5602 - Speech Sound Disorders: Assessment and Treatment across Languages (3.0 cr)
- SLHS 5603 - Assessment and Intervention of Language Disorders in Children (3.0 cr)
- SLHS 5605 - Language and Cognitive Disorders in Adults (3.0 cr)
- SLHS 5606 - Introduction to Augmentative and Alternative Communication (3.0 cr)
- SLHS 5608 - Clinical Issues in Bilingualism and Cultural Diversity (3.0 cr)

Audiology Focus
Take 12 or more course(s) from the following:
- SLHS 4801 - Hearing Measurement and Disorders (3.0 cr)
- SLHS 4802 - Rehabilitative Audiology (3.0 cr)
- SLHS 5801 - Advanced Audiologic Assessment (3.0 cr)
- SLHS 5802 - Hearing Aids I (3.0 cr)
- SLHS 5803 - Pediatric Audiology (3.0 cr)
- SLHS 5804 - Cochlear Implants (3.0 cr)
- SLHS 5805 - Advanced Rehabilitative Audiology (3.0 cr)
- SLHS 5806 - Auditory Processing Disorders (3.0 cr)
• SLHS 5807 - Noise and Hearing Conservation (3.0 cr)
• SLHS 5808 - Pathophysiology of Hearing Disorders (3.0 cr)
• SLHS 5810 - Laboratory Module in Audiology (1.0 - 2.0 cr)
• SLHS 5820 - Clinical Research and Practice: Grand Rounds (1.0 - 6.0 cr)
• SLHS 5830 - Clinical Foundations in Audiology (1.0 - 8.0 cr)
• SLHS 8801 - Electrophysiologic Assessment of Auditory Function (3.0 cr)
• SLHS 8802 - Hearing Aids II (3.0 cr)
• SLHS 8803 - Signals and Systems in Audiology (3.0 cr)
• SLHS 8805 - Hearing Science Foundations of Audiology (3.0 cr)
• SLHS 8807 - Balance Assessment (3.0 cr)

Combined Speech Language Pathology and Audiology Focus
Take 12 or more credit(s) from the following:
• SLHS 4301 - Introduction to the Neuroscience of Human Communication (3.0 cr)
• SLHS 4402 - Assessment and Treatment in Speech-Language Pathology (3.0 cr)
• SLHS 5401 - Counseling and Professional Issues (3.0 cr)
• SLHS 5900 - Topic in Speech-Language-Hearing Sciences (2.0 cr)
• SLHS 5993 - Directed Study (1.0 - 12.0 cr)
• SLHS 8410 - Seminar: Research (3.0 cr)
• SLHS 8420 - Seminar: Teaching (3.0 cr)
• SLHS 8530 - Seminar: Speech (3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Twin Cities Campus
Speech-Language-Hearing Sciences Ph.D.
Speech-Language-Hearing Sciences
College of Liberal Arts

Link to a list of faculty for this program.

Website: http://www.slhs.umn.edu

• Program Type: Doctorate
• Requirements for this program are current for Fall 2020
• Length of program in credits: 65
• This program requires summer semesters for timely completion.
• Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Emphases in the PhD program are speech-language pathology, audiology, speech science, language science, or hearing science. The program prepares students for careers in research, teaching, and advanced clinical applications. Most students entering the program have a master's degree in speech-language pathology, audiology, or a related area. The PhD degree usually requires three or more years of work beyond the master's degree. In general, a student's program is designed by the student in consultation with the advisor to satisfy the particular objectives of the student and program requirements.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Applicants must submit their test score(s) from the following:
• GRE

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
• IELTS
  - Total Score: 6.5

Key to test abbreviations (GRE, TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
29 credits are required in the major.
12 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.
A minimum GPA of 3.00 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.

The PhD degree usually requires three years of work beyond the master's degree. In general, a student's program is designed by the student in consultation with the advisor to satisfy the particular objectives of the student, but there are also some department and University requirements that must be satisfied. These include coursework, research activities, teaching experience, and preliminary and final exams.

A minimum of 12 course credits in a minor or supporting program and registration for 24 thesis credits are required. Also required is a statistics sequence, for which students typically register during their first two years. The written and oral preliminary exams are taken at the end of the second year.

Each student completes a seminar (SLHS 8430) and a minimum of 4 credits of teaching experience that provide an opportunity for the student to develop and teach sections of department courses. Students also complete a seminar (SLHS 8410) and a minimum of 4 credits of research under the direction of one or more faculty members in the department other than the advisor.

**Required Courses**

**Seminar Requirements**
- SLHS 8410 - Seminar: Research (3.0 cr)
- SLHS 8420 - Seminar: Teaching (3.0 cr)
  - or GRAD 8101 - Teaching in Higher Education (3.0 cr)

Take 6 or more credit(s) from the following:
- SLHS 8430 - Proseminar in Speech-Language-Hearing Sciences (1.0 - 6.0 cr)

**Directed Research Requirement**
Take 4 or more credit(s) from the following:
- SLHS 8994 - Directed Research (1.0 - 12.0 cr)

**Directed Teaching Requirement**
Take 4 or more credit(s) from the following:
- SLHS 5993 - Directed Study (1.0 - 12.0 cr)

**Statistics**
- EPSY 5261 - Introductory Statistical Methods (3.0 cr)
  - or EPSY 8251 - Statistical Methods in Education I (3.0 cr)
- EPSY 5262 - Intermediate Statistical Methods (3.0 cr)
  - or EPSY 8252 - Statistical Methods in Education II (3.0 cr)

**Statistics Electives**
Take 3 or more credit(s) from the following:
- EPSY 8220 - Special Topics: Seminar in Quantitative Methods (1.0 - 6.0 cr)
- EPSY 8264 - Advanced Multiple Regression Analysis (3.0 cr)
- EPSY 8265 - Factor Analysis (3.0 cr)
- EPSY 8267 - Applied Multivariate Analysis (3.0 cr)
- EPSY 8268 - Hierarchical Linear Modeling in Educational Research (3.0 cr)
- EPSY 8282 - Statistical Analysis of Longitudinal Data (3.0 cr)
- EPSY 8266 - Statistical Analysis Using Structural Equation Methods (3.0 cr)
- EPSY 8222 - Advanced Measurement: Theory and Application (4.0 cr)
- EPSY 8224 - Performance Assessment Design and Analysis (3.0 cr)
- EPSY 8225 - Operational Measurement: Test Score Quality Assurance, Standard Setting, and Equating (3.0 cr)
- EPSY 8226 - Item Response Models: Theory and Applications (3.0 cr)
- STAT 4101 - Theory of Statistics I (4.0 cr)
- STAT 4102 - Theory of Statistics II (4.0 cr)
- STAT 5021 - Statistical Analysis (4.0 cr)
- STAT 5031 - Inactive (4.0 cr)
- STAT 5101 - Theory of Statistics I (4.0 cr)
- STAT 5102 - Introduction to Statistical Learning (4.0 cr)
- STAT 5201 - Sampling Methodology in Finite Populations (3.0 cr)
- STAT 5302 - Applied Regression Analysis (4.0 cr)
- STAT 5303 - Designing Experiments (4.0 cr)
- STAT 5401 - Applied Multivariate Methods (3.0 cr)
- STAT 5421 - Analysis of Categorical Data (3.0 cr)
- STAT 5601 - Nonparametric Methods (3.0 cr)
- STAT 5701 - Statistical Computing (3.0 cr)
- STAT 5931 - Topics in Statistics (3.0 cr)
- STAT 5993 - Tutorial (1.0 - 6.0 cr)
- STAT 8051 - Advanced Regression Techniques: linear, nonlinear and nonparametric methods (3.0 cr)
• STAT 8052 - Applied Statistical Methods 2: Design of Experiments and Mixed-Effects Modeling (3.0 cr)
• STAT 8053 - Applied Statistical Methods 3: Multivariate Analysis and Advanced Regression (3.0 cr)
• STAT 8054 - Statistical Methods 4: Advanced Statistical Computing (3.0 cr)
• STAT 8102 - Theory of Statistics 2 (3.0 cr)
• STAT 8111 - Mathematical Statistics I (3.0 cr)
• STAT 8112 - Mathematical Statistics II (3.0 cr)
• STAT 8311 - Linear Models (4.0 cr)
• STAT 8801 - Statistical Consulting (3.0 cr)
• STAT 8913 - Literature Seminar (1.0 cr)
• STAT 8931 - Advanced Topics in Statistics (3.0 cr)
• STAT 8932 - Advanced Topics in Statistics (3.0 cr)
• STAT 4893W - Consultation and Communication for Statisticians [WI] (3.0 cr)

Thesis Credits
Take at least 24 doctoral thesis credits.
SLHS 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)

Electives in Related Fields
Electives in Related Fields
Take 12 or more credit(s) from the following:
• ADDS 5021 - Introduction to Evidence Based Practices and the Helping Relationship (3.0 cr)
• BMEN 5101 - Advanced Bioelectricity and Instrumentation (3.0 cr)
• BMEN 5411 - Neural Engineering (3.0 cr)
• BMEN 5412 - Neuromodulation (3.0 cr)
• BMEN 8101 - Biomedical Digital Signal Processing (3.0 cr)
• BMEN 8502 - Physiological Control Systems (3.0 cr)
• BTHX 5000 - Topics in Bioethics (1.0 - 4.0 cr)
• BTHX 5100 - Introduction to Clinical Ethics (3.0 cr)
• CGSC 8410 - Perspectives in Learning, Perception, and Cognition (2.0 cr)
• CI 5451 - Teaching Reading in Middle and Secondary Grades (3.0 cr)
• CI 5642 - Assessing English Learners (3.0 cr)
• CI 5653 - Methods in Teaching English as a Second Language (ESL) in Higher Education (3.0 cr)
• CPSY 4302 - Infant Development (3.0 cr)
• CPSY 4329 - Biological Foundations of Development (3.0 cr)
• CPSY 4341 - Perceptual Development (3.0 cr)
• CPSY 4343 - Cognitive Development (3.0 cr)
• CPSH 5101 - Introduction to Integrative Healing Practices (3.0 cr)
• CPSH 5111 - Ways of Thinking about Health (2.0 cr)
• CPSH 5708 - Mind-Body Science and the Art of Transformation (1.0 cr)
• CPSH 5806 - Wellbeing and Resiliency for Health Professionals (1.0 cr)
• CPSH 5807 - Mindfulness in the Workplace: Pause, Practice, Perform (2.0 cr)
• EPSY 5101 - Intelligence and Creativity (3.0 cr)
• EPSY 5135 - Human Relations Workshop (4.0 cr)
• EPSY 5400 - Special Topics in Counseling Psychology (1.0 - 4.0 cr)
• EPSY 5415 - Child and Adolescent Development and Counseling (4.0 cr)
• EPSY 5451 - College Students Today (3.0 cr)
• EPSY 5461 - Cross-Cultural Counseling (3.0 cr)
• EPSY 5609 - Family-centered Services (3.0 cr)
• EPSY 5616W - Classroom Management and Behavior Analytic Problem Solving [WI] (3.0 cr)
• EPSY 5625 - Education of Infants, Toddlers, and Preschool Children with Disabilities: Introduction (2.0 cr)
• EPSY 5641 - Foundations of Deaf Education (3.0 cr)
• EPSY 5642 - Early Intervention for Infants, Toddlers and Families: Deaf and Hard of Hearing (3.0 cr)
• EPSY 5644 - Early Childhood Language and Literacy Development and Best Practices: Deaf and Hard of Hearing (3.0 cr)
• EPSY 5657 - Interventions for Behavioral Problems in School Settings (3.0 cr)
• EPSY 5661 - Introduction to Autism Spectrum Disorder (3.0 cr)
• EPSY 5663 - Assessment and Intervention for Individuals with Autism Spectrum Disorder (3.0 cr)
• EPSY 5681 - Educating Preschoolers with Disabilities: Specialized Approaches and Interventions (3.0 cr)
• EPSY 8600 - Special Topics: Special Education Issues (1.0 - 3.0 cr)
• FSOS 5937 - Parent-Child Interaction (3.0 cr)
• FSOS 5942 - Diverse Family Experiences (3.0 cr)
• FSOS 8101 - Family Stress, Coping, and Adaptation (3.0 cr)
• GER 151 - Gerontology Service Learning (3.0 cr)
• HINF 5501 - US Health Care System: Information Challenges in Clinical Care (1.0 cr)
• KIN 8211 - Seminar: Perception and Action (3.0 cr)
• LING 8921 - Seminar in Language and Cognition (3.0 cr)
• NSC 5561 - Systems Neuroscience (4.0 cr)
• NSCI 5101 - Neurobiology I: Molecules, Cells, and Systems (3.0 cr)
• NSCI 5111 - Medical Neuroscience for Graduate Students (5.0 cr)
• OLPD 5211 - Introduction to the Undereducated Adult (1.0 cr)
• OLPD 5356 - Disability Policy and Services (3.0 cr)
• OTOL 8234 - Anatomy of the Head and Neck and Temporal Bone Dissection (2.0 cr)
• OTOL 8247 - Anatomy and Physiology of Hearing and Balance (3.0 cr)
• PHAR 5201 - Applied Medical Terminology (2.0 cr)
• PSY 4036 - Perceptual Issues in Visual Impairment (3.0 cr)
• PSY 4960 - Seminar in Psychology (1.0 - 4.0 cr)
• PSY 5014 - Psychology of Human Learning and Memory (3.0 cr)
• PSY 5054 - Psychology of Language (3.0 cr)
• PSY 5062 - Cognitive Neuropsychology (3.0 cr)
• PSY 5137 - Introduction to Behavioral Genetics (3.0 cr)
• PSY 5138 - Adult Development and Aging (3.0 cr)
• PSY 5205 - Applied Social Psychology (3.0 cr)
• PSY 5960 - Topics in Psychology (1.0 - 4.0 cr)
• PSY 8037 - Psychophysics and Audition (3.0 cr)
• PUBH 6370 - Social Epidemiology (2.0 cr)
• PUBH 6751 - Principles of Management in Health Services Organizations (2.0 cr)
• PUBH 6904 - Nutrition and Aging (2.0 cr)
• PUBH 8805 - Sociological Theory in Health Services Research (3.0 cr)
• SLHS 5900 - Topic in Speech-Language-Hearing Sciences (2.0 cr)
• SLHS 8530 - Seminar: Speech (3.0 cr)
• SOC 4246 - Sociology of Health and Illness (3.0 cr)
• SPAN 5985 - Sociolinguistic Perspectives on Spanish in the United States (3.0 cr)

Joint- or Dual-degree Coursework: AuD and PhD in Speech-Language-Hearing Sciences
Student may take a total of 9 credits in common among the academic programs.
Twin Cities Campus  
Statistics M.S.  
Statistics, School of  
College of Liberal Arts

- Program Type: Master’s  
- Requirements for this program are current for Fall 2020  
- Length of program in credits: 30  
- This program does not require summer semesters for timely completion.  
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The School of Statistics is the primary venue at the University for research, teaching, and dissemination of the theory, methodology, and applications of statistical procedures. Students may specialize in any area of statistics. The core program for all students has strong components of both theoretical and applied statistics.

Program Delivery  
This program is available:  
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission  
International applicants must submit score(s) from one of the following tests:  
- TOEFL  
  - Internet Based - Total Score: 79  
  - Internet Based - Writing Score: 21  
  - Internet Based - Reading Score: 19  
  - Paper Based - Total Score: 550  
- IELTS  
  - Total Score: 6.5  
- MELAB  
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements  
Plan B: Plan B requires 24 major credits and 6 credits outside the major. The final exam is oral.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.

A maximum of 9.0 S/N credits can be applied to degree requirements.
Required Coursework

Core Courses (18 credits)

Take the following courses:
- STAT 5701 - Statistical Computing (3.0 cr)
- STAT 8051 - Advanced Regression Techniques: linear, nonlinear and nonparametric methods (3.0 cr)
- STAT 8052 - Applied Statistical Methods 2: Design of Experiments and Mixed-Effects Modeling (3.0 cr)
- STAT 8101 - Theory of Statistics 1 (3.0 cr)
- STAT 8102 - Theory of Statistics 2 (3.0 cr)
- STAT 8801 - Statistical Consulting (3.0 cr)

Statistics Electives (6 credits)

Select 6 credits from the following in consultation with the advisor. Other courses may be selected with advisor approval.
- PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)
- PUBH 7450 - Survival Analysis (3.0 cr)
- PUBH 8442 - Bayesian Decision Theory and Data Analysis (3.0 cr)
- PUBH 8472 - Spatial Biostatistics (3.0 cr)
- STAT 5201 - Sampling Methodology in Finite Populations (3.0 cr)
- STAT 5401 - Applied Multivariate Methods (3.0 cr)
- STAT 5421 - Analysis of Categorical Data (3.0 cr)
- STAT 5601 - Nonparametric Methods (3.0 cr)
- STAT 8053 - Applied Statistical Methods 3: Multivariate Analysis and Advanced Regression (3.0 cr)
- STAT 8054 - Statistical Methods 4: Advanced Statistical Computing (3.0 cr)
- STAT 8111 - Mathematical Statistics I (3.0 cr)
- STAT 8112 - Mathematical Statistics II (3.0 cr)
- STAT 8931 - Advanced Topics in Statistics (3.0 cr)
- STAT 8932 - Advanced Topics in Statistics (3.0 cr)

Outside Coursework (6 credits)

Select 6 credits outside the major in consultation with the advisor. Other courses may be selected with advisor approval.
- CSCI 5523 - Introduction to Data Mining (3.0 cr)
- CSCI 5525 - Machine Learning (3.0 cr)
- IE 8521 - Optimization (4.0 cr)
- MATH 5075 - Mathematics of Options, Futures, and Derivative Securities I (4.0 cr)
- MATH 5076 - Mathematics of Options, Futures, and Derivative Securities II (4.0 cr)
- MATH 5652 - Introduction to Stochastic Processes (4.0 cr)
- POL 8124 - Game Theory (3.0 cr)
- POL 8125 - Dynamic Analysis (3.0 cr)
- PSY 5862 - Psychological Measurement: Theory and Methods (3.0 cr)

• Program Type: Graduate minor related to major
• Requirements for this program are current for Fall 2020
• Length of program in credits (Masters): 9
• Length of program in credits (Doctorate): 14
• This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The School of Statistics is the primary venue at the University for research, teaching, and dissemination of the theory, methodology, and applications of statistical procedures. Students may specialize in any area of statistics. The core program for all students has strong components of both theoretical and applied statistics.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Statistics director of graduate studies regarding feasibility and requirements.

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 79

Key to test abbreviations (TOEFL).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Courses offered on both the A/F and S/N grading basis must be taken A/F, with a minimum grade of B- earned for each, unless otherwise approved by the Statistics director of graduate studies.

Doctoral students cannot apply 4-level courses or STAT 5021 to the minor.

The minimum cumulative GPA for minor field coursework is 2.80.

Coursework (9 to 14 credits)
Masters students select 9 credits, and doctoral students select 14 credits from the following in consultation with their advisor and the Statistics director of graduate studies.
STAT 4051 - Applied Statistics I (4.0 cr)
STAT 4052 - Introduction to Statistical Learning (4.0 cr)
STAT 4101 - Theory of Statistics I (4.0 cr)
STAT 4102 - Theory of Statistics II (4.0 cr)
STAT 5021 - Statistical Analysis (4.0 cr)
STAT 5101 - Theory of Statistics I (4.0 cr)
STAT 5102 - Introduction to Statistical Learning (4.0 cr)
STAT 5201 - Sampling Methodology in Finite Populations (3.0 cr)
STAT 5302 - Applied Regression Analysis (4.0 cr)
STAT 5303 - Designing Experiments (4.0 cr)
STAT 5401 - Applied Multivariate Methods (3.0 cr)
STAT 5421 - Analysis of Categorical Data (3.0 cr)
STAT 5511 - Time Series Analysis (3.0 cr)
STAT 5601 - Nonparametric Methods (3.0 cr)
STAT 5701 - Statistical Computing (3.0 cr)
STAT 5931 - Topics in Statistics (3.0 cr)
STAT 8051 - Advanced Regression Techniques: linear, nonlinear and nonparametric methods (3.0 cr)
STAT 8052 - Applied Statistical Methods 2: Design of Experiments and Mixed-Effects Modeling (3.0 cr)
STAT 8053 - Applied Statistical Methods 3: Multivariate Analysis and Advanced Regression (3.0 cr)
STAT 8054 - Statistical Methods 4: Advanced Statistical Computing (3.0 cr)
STAT 8056 - Statistical Learning and Data Mining (3.0 cr)
STAT 8101 - Theory of Statistics 1 (3.0 cr)
STAT 8102 - Theory of Statistics 2 (3.0 cr)
STAT 8111 - Mathematical Statistics I (3.0 cr)
STAT 8112 - Mathematical Statistics II (3.0 cr)
STAT 8201 - Topics in Sampling (3.0 cr)
STAT 8312 - Linear and Nonlinear Regression (3.0 cr)
STAT 8313 - Topics in Experimental Design (3.0 cr)
STAT 8321 - Regression Graphics (3.0 cr)
STAT 8401 - Topics in Multivariate Methods (3.0 cr)
STAT 8411 - Multivariate Analysis (3.0 cr)
STAT 8421 - Theory of Categorical Data Analysis (3.0 cr)
STAT 8501 - Introduction to Stochastic Processes with Applications (3.0 cr)
STAT 8511 - Time Series Analysis (3.0 cr)
STAT 8931 - Advanced Topics in Statistics (3.0 cr)
STAT 8932 - Advanced Topics in Statistics (3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Twin Cities Campus
Statistics Ph.D.
Statistics, School of
College of Liberal Arts

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 73
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The School of Statistics is the primary venue at the University for research, teaching, and dissemination of the theory, methodology, and applications of statistical procedures. Students may specialize in any area of statistics. The core program for all students has strong components of theoretical, computational, and applied statistics.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Paper Based - Total Score: 550
• IELTS
  - Total Score: 6.5
• MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
37 credits are required in the major.
12 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.
A maximum of 9.0 units of S-graded courses can apply to these requirements.

**Core Courses (25 credits)**
Take the following courses. Take STAT 8913 for a total of 4 credits.

- STAT 8051 - Advanced Regression Techniques: linear, nonlinear and nonparametric methods (3.0 cr)
- STAT 8052 - Applied Statistical Methods 2: Design of Experiments and Mixed Effects Modeling (3.0 cr)
- STAT 8053 - Applied Statistical Methods 3: Multivariate Analysis and Advanced Regression (3.0 cr)
- STAT 8054 - Statistical Methods 4: Advanced Statistical Computing (3.0 cr)
- STAT 8111 - Mathematical Statistics I (3.0 cr)
- STAT 8112 - Mathematical Statistics II (3.0 cr)
- STAT 8801 - Statistical Consulting (3.0 cr)
- STAT 8913 - Literature Seminar (1.0 cr)

**Electives (12 credits)**
Select 12 credits from the following in consultation with the advisor. Other coursework can be applied to this requirement with approval of the advisor and director of graduate studies.

- PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)
- PUBH 7450 - Survival Analysis (3.0 cr)
- PUBH 8442 - Bayesian Decision Theory and Data Analysis (3.0 cr)
- PUBH 8472 - Spatial Biostatistics (3.0 cr)
- STAT 8056 - Statistical Learning and Data Mining (3.0 cr)
- STAT 8511 - Time Series Analysis (3.0 cr)
- STAT 8931 - Advanced Topics in Statistics (3.0 cr)
- STAT 8932 - Advanced Topics in Statistics (3.0 cr)

**Outside Coursework (12 credits)**

**Required Math Courses (6 credits)**
Take the following courses. Comparable courses can be substituted with approval of the advisor and director of graduate studies.

- MATH 8651 - Theory of Probability Including Measure Theory (3.0 cr)
- MATH 8652 - Theory of Probability Including Measure Theory (3.0 cr)

**Additional Courses (6 credits)**
Select 6 credits in consultation with the advisor and director of graduate studies to complete the 12-credit minimum.

- CSCI 5525 - Machine Learning (3.0 cr)
- IE 8521 - Optimization (4.0 cr)
- MATH 5075 - Mathematics of Options, Futures, and Derivative Securities I (4.0 cr)
- MATH 5076 - Mathematics of Options, Futures, and Derivative Securities II (4.0 cr)
- MATH 8659 - Stochastic Processes (3.0 cr)
- POL 8124 - Game Theory (3.0 cr)
- POL 8125 - Dynamic Analysis (3.0 cr)

**Thesis Credits**
Take 24 doctoral thesis credits.

- STAT 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 33
- This program requires summer semesters for timely completion.
- Degree: Master of Arts

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Strategic Communication MA is designed to serve working communications professionals in advertising, public relations, corporate communications, nonprofit organizations, and government. The 33-credit program, which can be completed in 24 calendar months, is conceptually and structurally distinct from the academic master's degree in mass communication in that it focuses on advanced professional study of communications strategy, media, planning, evaluation, and creative management. The MA in strategic communication curriculum is tailored to provide the best foundation for future communications leaders, recognizing that the communication industry is changing rapidly. With digital communication continuing to transform the industry, and massive organizational and global forces reshaping the U.S. economy, communications leaders face significant challenges and can prepare themselves through in-depth study of strategic process management.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
A baccalaureate degree from an accredited U.S. institution or its foreign equivalent is required.

Special Application Requirements:
In addition to the baccalaureate degree, professionals in strategic communication -- currently employed in advertising, public relations, or marketing firms, or in a communications or related function within a corporation or nonprofit organization -- should have at least two years of professional experience. This professional experience can be in any of the following areas: account planning, account management, advertising management, media planning or buying, media sales, promotion marketing, corporate communications, public affairs, public relations, investor relations, direct marketing, sales management, marketing management, brand management, broadcast or print journalism, market research, content creation, or event management.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Paper Based - Total Score: 550
- IELTS
  - Total Score: 6.5
- MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the
Program Requirements

Plan C: Plan C requires 27 major credits and 3 to 6 credits outside the major. There is no final exam. A capstone project is required.

Capstone Project: The project requires completion of the capstone course (Jour 8206), in consultation with the advisor and academic director, that supports completion of the students strategic communication campaign project.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

Coursework offered on both the A/F and S/N grading basis must be taken A/F, with a minimum grade of B earned for each course.

Student progress is evaluated by the academic director, program coordinator, and program faculty.

Student must complete JOUR 8290 twice.

Required Courses (18 credits)
Take the following courses:
- JOUR 8200 - Strategic Communication Research Methods (3.0 cr)
- JOUR 8201 - Factors Affecting Communication Strategy (3.0 cr)
- JOUR 8202 - Generation and Selection of Communication Strategies (3.0 cr)
- JOUR 8203 - Integration of Communication Strategies Across Media (3.0 cr)
- JOUR 8205 - Cases in Strategic Communication (3.0 cr)
- JOUR 8290 - Special Topics in Strategic Communication (3.0 cr)

Major Electives (6-9 credits)
Select 6 to 9 elective credits from the following in consultation with the advisor and/or academic director.
- JOUR 5251 - Strategic Communication Theory (3.0 cr)
- JOUR 5252 - Issue Management Communication and Brand Advocacy (3.0 cr)
- JOUR 5501 - Communication, Public Opinion, and Social Media (3.0 cr)
- JOUR 5541 - Mass Communication and Public Health (3.0 cr)
- JOUR 8208 - Digital Strategy, Planning and Analytics (3.0 cr)
- JOUR 8290 - Special Topics in Strategic Communication (3.0 cr)

Outside Coursework (3-6 credits)
Select 3 to 6 credits from the following in consultation with the advisor and/or academic director.
- COMM 5441 - Communication in Human Organizations (3.0 cr)
- ENTR 6020 - Business Formation (4.0 cr)
- ENTR 6041 - Initiating New Product Design and Business Development (2.0 - 4.0 cr)
- EPSY 5261 - Introductory Statistical Methods (3.0 cr)
- MKTG 6082 - Brand Strategy (2.0 cr)
- WRIT 5112 - Information Design: Theory and Practice (3.0 cr)
- WRIT 5671 - Visual Rhetoric (3.0 cr)

Individual Project (3 credits)
Complete the following:
- JOUR 8206 - Directed Study: Development of an Integrated Strategic Communication Campaign (3.0 cr)
Twin Cities Campus
Studies in Africa and African Diaspora Minor

- Program Type: Graduate free-standing minor
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 9
- Length of program in credits (Doctorate): 15
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

This interdisciplinary graduate minor is administered through the Department of African American & African Studies. The minor program gives students from a variety of disciplines a structured graduate curriculum that offers a systematic understanding of the contemporary and historical experiences of peoples of Africa and of the African diaspora. It is organized around a group of core seminars and focuses on two broad areas: the humanities and the arts, and the social and behavioral sciences.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Admission is contingent upon prior admission to a master's or doctoral degree-granting program.

Special Application Requirements:
Students must complete an application form by the end of spring semester to be considered for acceptance for the following academic year. It is expected that no more than 15 students will be admitted to this minor each year. An undergraduate major or minor in African American and/or African studies is not required for admission to the program, but students are expected to have had sufficient background to begin graduate level study.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Students develop their program in consultation with the director of Graduate Studies in studies in Africa and the African diaspora and in their major. All courses must be outside the student's major field of study.

The master's minor requires a minimum of 9 graduate credits, including the seminar AFRO 5101 - Studies in Africa and the African Diaspora. Remaining courses are selected from one of the following two areas: humanities and the arts or behavioral and social sciences.

The doctoral minor requires a minimum of 15 graduate credits, including the seminar AFRO 5101 - Studies in Africa and the African Diaspora. Students take one additional seminar that focuses on the study of Africa and peoples of African descent. Remaining courses are selected from one of the two areas listed above.
Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Masters
Required Course
AFRO 5101 - Seminar: Introduction to Africa and the African Diaspora (3.0 cr)
Course Electives
All courses must be outside the student's major field of study.
Take 6 or more credit(s) from the following:
• AFRO 5xxx
• AFRO 8xxx

Doctoral
Required Course
AFRO 5101 - Seminar: Introduction to Africa and the African Diaspora (3.0 cr)
Course Electives
All courses must be outside the student's major field of study.
Take 12 or more credit(s) from the following:
• AFRO 5xxx
• AFRO 8xxx
Twin Cities Campus
Studies of Science and Technology Minor

Email: mcps@umn.edu
Website: https://cla.umn.edu/mcps/research/sst-graduate-minor

- Program Type: Graduate free-standing minor
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 7
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Studies of science and technology (SST) deals with a rapidly expanding field that seeks to understand the conceptual foundations, historical development, and social dimensions and context of science and technology. SST faculty are drawn from a number of research and teaching units dedicated in whole or in part to the history, philosophy, and social studies of science and technology.

The SST graduate minor is for students from any major who want to gain a deeper understanding of the nature and development of science and technology. It can be particularly valuable for students who are planning teaching careers in science or engineering, or those majoring in philosophy or history of science and technology.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Studies of Science and Technology director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Courses offered on both the A/F and S/N grading basis must be taken A/F, with a minimum grade of B earned for each.

The minimum cumulative GPA for minor field coursework is 3.00.

History Course (3 credits)
Select 1 of the following courses in consultation with the SST director of graduate studies:
HSCI 8112 - Historiography of Science, Technology, and Medicine (3.0 cr)
HMED 8112 - Historiography of Science, Technology, and Medicine (3.0 cr)

Philosophy Course (3 credits)
Select 1 of the following courses in consultation with the SST director of graduate studies:
PHIL 8602 - Scientific Representation and Explanation (3.0 cr)
PHIL 8610 - Seminar: History of Modern Physical Sciences (3.0 cr)
PHIL 8620 - Seminar: Philosophy of the Biological Sciences (3.0 cr)
PHIL 8670 - Seminar: Philosophy of Science (3.0 cr)
Colloquium (1 or 3 credits)
Masters students take the colloquium once; doctoral students take it twice.
SST 8000 - Colloquium (1.5 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Master's

Doctoral
Additional Coursework (3 credits)
Select 3 credits from the following, in consultation with the SST director of graduate studies, to complete the 12-credit minimum:
SST 8000 - Colloquium (1.5 cr)
SST 8100 - Seminar: Models, Theories, and Reality (3.0 cr)
SST 8200 - Seminar: Philosophy of the Physical Sciences (3.0 cr)
SST 8300 - Seminar: The Biological and Biomedical Sciences (3.0 cr)
SST 8400 - Seminar: Science, Technology, and Society (3.0 cr)
SST 8420 - Seminar: Social and Cultural Studies of Science (3.0 cr)

• Program Type: Post-baccalaureate credit certificate/licensure/endorsement
• Requirements for this program are current for Fall 2020
• Length of program in credits: 15
• This program requires summer semesters for timely completion.
• Degree: Technical Communication PBacc Cert

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Department of Writing Studies trains students to understand how people use written communication (digital, visual, textual) to shape the world around them, with a particular emphasis on communication in scientific and technical areas. The Certificate in Technical Communication focuses on applying basic theory and research-driven approaches to create and adapt content to solve complex problems in technical communication workplaces. Students connect with workplace professionals through client projects, virtual and global teamwork, mentorships, and emerging technologies. These experiences enable students to develop unique strengths in digital, usability, and science/health/medical communication.

Certificate courses are taught by graduate faculty who themselves have active research agendas in these areas. Students also have the opportunity to work with the Technical Communication Advisory Board (TCAB), a group of business leaders who provide pathways to experiential learning opportunities including networking, mentoring, and internships.

This fully online program equips professionals for transition to the technical communication field and/or serves as the foundation for specialized study at the masters level that is tailored to career goals. All coursework from the Certificate can be applied to the MS in Scientific and Technical Communication upon admission to the MS and with program approval.

Program Delivery
This program is available:
• completely online (all program coursework can be completed online)

Prerequisites for Admission
International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Paper Based - Total Score: 550
• IELTS
  - Total Score: 6.5
• MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.
A minimum GPA of 2.80 is required for students to remain in good standing.

A minimum grade of B- is required for each course applied to the certificate.

**Fall Term Courses (6 credits)**
Take the following courses:
- WRIT 5001 - Introduction to Graduate Studies in Scientific and Technical Communication (3.0 cr)
- WRIT 5662 - Writing With Digital Technologies (3.0 cr)

**Spring Term Courses (6 credits)**
Take the following courses:
- WRIT 4562 - International Professional Communication (3.0 cr)
- WRIT 5112 - Information Design: Theory and Practice (3.0 cr)

**Summer Term Course (3 credits)**
Take the following course:
- WRIT 5561 - Editing and Style for Technical Communicators (3.0 cr)

- This program does not require summer semesters for timely completion.
- Degree: Master of Arts

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The University of Minnesota offers a unique graduate program drawing from the varied research expertise of its core faculty. Together, the faculty is committed to the study of theatre and performance as practices of social, cultural, and political consequence. The department’s work in theatre historiography and performance criticism examines the stakes of acts of representation, movement, and meaning-production both within and without the discipline of theatre. The curriculum of this program trains students to be rigorous scholars and expert teachers of theatre and performance studies at the college level.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79

Program Requirements
Plan A: Plan A requires 24 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is oral.

Plan B: Plan B requires 24 major credits and 6 credits outside the major. The final exam is written. A capstone project is required.
Capstone Project: The Plan B requirement comprises three Plan B papers completed in consultation with the advisor and director of graduate studies.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.
A minimum GPA of 2.80 is required for students to remain in good standing.

**Signature Seminars (6 credits)**
- Take the following courses, or take TH 8120 twice to complete this 6-credit requirement.
  - TH 8120 - Seminar (3.0 cr)
  - TH 5117 - Performance and Social Change (3.0 cr)

**Field Seminars (6 credits)**
- Select 6 credits from the following in consultation with the advisor:
  - TH 8111 - History and Theory of Western Theatre: Ancient World and Early Medieval (3.0 cr)
  - TH 8112 - History and Theory of Western Theatre: Medieval Through Renaissance (3.0 cr)
  - TH 8113 - History and Theory of Western Theatre: National Theatres to the French Revolution (3.0 cr)
  - TH 8114 - Theatre: Performance and Political Modernity (3.0 cr)
  - TH 8115 - History and Theory of Western Theatre: 20th Century Through World War II (3.0 cr)
  - TH 8116 - History and Theory of Western Theatre: 20th Century From 1945 to the Present (3.0 cr)

**Pedagogy and Professionalization Course (3 credits)**
- Take TH 8950 for 3 credits.
  - TH 8950 - Topics in Theatre (1.0 - 4.0 cr)

**Historiography Seminar (3 credits)**
- Take the following course:
  - TH 8102 - Theatre Historiography (3.0 cr)

**Electives (6 credits)**
- Select 6 credits from within Theatre Arts in consultation with the advisor.

**Outside Coursework (6 credits)**
- Select 6 credits from outside Theatre Arts in consultation with the advisor.

**Plan Options**

**Plan A**
**Thesis Credits**
- Take 10 master's thesis credits.
  - TH 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 63
- This program does not require summer semesters for timely completion.
- Degree: Master of Fine Arts

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The three-year, performance-oriented, terminal MFA degree specializes in design and technical production. All areas of design are studied to increase understanding in specialization areas, and technology is studied as an essential part of design. Students are expected to achieve proficiency in at least two areas of any combination of design and technology (scenery/properties, costuming, lighting, sound) and a level of expertise in at least one of these areas.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Special Application Requirements:
Portfolio review by the Theatre Arts design/technology faculty

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Paper Based - Total Score: 550
- IELTS
  - Total Score: 6.5
- MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Plan C: Plan C requires 57 major credits and 6 credits outside the major. The final exam is written and oral. A capstone project is required.
Capstone Project: A realized design and technology project.
This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 4 semesters must be completed before filing a Degree Program Form.

Major field coursework offered on both the A/F and S/N grade basis must be taken A/F.

**Foundational Courses (6 credits)**

Take the following courses:
- TH 5510 - Drawing, Rendering, and Painting for the Theatre Designer I (3.0 cr)
- TH 5560 - Drawing, Rendering, and Painting for the Theatre Designer II (3.0 cr)

**Design Courses (9 credits)**

Select two of the following courses in consultation with the advisor. Repeat one of the two considered to be the primary design area.
- TH 5520 - Scene Design (3.0 cr)
- TH 5530 - Costume Design (3.0 cr)
- TH 5540 - Lighting Design for the Theatre (3.0 cr)
- TH 5559 - Sound Design for Performance (3.0 cr)

**Design/Technology Practicums (6 credits)**

Take 6 credits from the following, in any combination, in consultation with the advisor:
- TH 5500 - Theatre Design Practicum (1.0 - 3.0 cr)
- TH 5590 - Theatre Technology Practicum (1.0 - 3.0 cr)
- TH 8500 - Theatre Design Practicum (1.0 - 3.0 cr)
- TH 8590 - Theatre Technology Practicum (1.0 - 3.0 cr)

**Electives (12 credits)**

Select 12 credits from the following in consultation with the advisor:
- TH 4555 - Audio Technology (3.0 cr)
- TH 5355 - Puppetry: Techniques and Practice in Contemporary Theater (3.0 cr)
- TH 5520 - Scene Design (3.0 cr)
- TH 5530 - Costume Design (3.0 cr)
- TH 5540 - Lighting Design for the Theatre (3.0 cr)
- TH 5545 - Stage Lighting Technology (3.0 cr)
- TH 5554 - Multimedia Production for Live Performance (3.0 cr)
- TH 5556 - Audio Engineering (3.0 cr)
- TH 5559 - Sound Design for Performance (3.0 cr)
- TH 5570 - Properties/Scenery Technology (1.0 - 3.0 cr)
- TH 5580 - Costume Technology (3.0 cr)
- TH 5950 - Topics in Theatre (1.0 - 4.0 cr)
- TH 5993 - Directed Study (1.0 - 5.0 cr)
- TH 8950 - Topics in Theatre (1.0 - 4.0 cr)
- TH 8994 - Directed Research (1.0 - 5.0 cr)

**Professional Development Course (12 credits)**

Take 3 credits of TH 8510, in consultation with the advisor, 4 times within 3 years.
- TH 8510 - Professional Design Workshop (1.0 - 3.0 cr)

**Internship (3 credits)**

Take TH 8980 in consultation with the advisor.
- TH 8980 - Internship (1.0 - 5.0 cr)

**History of Literature within the Field (6 credits)**

Select 8 courses from the following in consultation with the advisor. Other courses may be applied to this requirement with advisor approval.
- TH 4177W - Survey of Dramatic Literature I: Strategic Interpretation [WI] (3.0 cr)
- TH 5103 - The Theatre Dramaturg (3.0 cr)
- TH 5117 - Performance and Social Change (3.0 cr)
- TH 5152W - Global Avant-Gardes: Theatre, Music, Modernity [HIS, WI] (3.0 cr)
- TH 5179W - Text and Performance [WI] (3.0 cr)
- TH 5182W - Contemporary Black Theatre: 1960-Present [WI] (3.0 cr)
- TH 5183 - Critical Literacy, Storytelling, and Creative Drama (3.0 cr)
MFA Creative Thesis (3 credits)
Take 3 credits of the following in consultation with the advisor.
*TH 8990 - MFA Creative Thesis (3.0 - 4.0 cr)*

Outside Coursework (6 credits)
Select at least 6 credits outside Theatre Arts in consultation with the advisor.

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 9
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The University of Minnesota offers a minor in Theatre Arts, drawing from the varied research and creative expertise of its MA/PhD and MFA faculty. Students create a customized program by selecting courses to support: scholarly research related to performance, theatre, drama, or dance; creative practice that involves performance, stage design or technology; or professional development in other fields, such as education or social work, in which expertise in performance theory or practice is an asset.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Theatre Arts director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Coursework is chosen in consultation with the Theatre Arts director of graduate studies.

The minimum cumulative GPA for minor field coursework is 3.5.

Required Coursework (9 to 12 credits)
Master's students select 9 credits, and doctoral students select 12 credits in consultation with the Theatre Arts director of graduate studies.
TH 5xxx
TH 8xxx

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.
Masters

Doctoral

• Program Type: Doctorate
• Requirements for this program are current for Fall 2020
• Length of program in credits: 54
• This program does not require summer semesters for timely completion.
• Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The University of Minnesota offers a unique graduate program drawing from the varied research expertise of its core faculty. Together, the faculty is committed to the study of theatre and performance as practices of social, cultural, and political consequence. The department's work in theatre historiography and performance criticism examines the stakes of acts of representation, movement, and meaning-production both within and without the discipline of theatre. The curriculum of this program trains students to be rigorous scholars and expert teachers of theatre and performance studies at the college level.

Accreditation
This program is accredited by National Association of Schools of Theatre (NAST).

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Applicants must demonstrate working knowledge and reading proficiency of at least one foreign language or sign language.

International applicants must submit score(s) from one of the following tests:
• TOEFL
  • Internet Based - Total Score: 79
  • Internet Based - Writing Score: 21
  • Internet Based - Reading Score: 19
  • Paper Based - Total Score: 550
• IELTS
  • Total Score: 6.5
• MELAB
  • Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
18 credits are required in the major.
12 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

Language Requirement: Proficiency in one foreign language.

A minimum GPA of 3.50 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

**Signature Seminars (6 credits)**
Take the following courses, or take TH 8120 twice to complete this 6-credit requirement.
- **TH 8120** - Seminar (3.0 cr)
- **TH 5117** - Performance and Social Change (3.0 cr)

**Field Seminars (6 credits)**
Select 6 credits from the following in consultation with the advisor:
- **TH 8111** - History and Theory of Western Theatre: Ancient World and Early Medieval (3.0 cr)
- **TH 8112** - History and Theory of Western Theatre: Medieval Through Renaissance (3.0 cr)
- **TH 8113** - History and Theory of Western Theatre: National Theatres to the French Revolution (3.0 cr)
- **TH 8114** - Theatre: Performance and Political Modernity (3.0 cr)
- **TH 8115** - History and Theory of Western Theatre: 20th Century Through World War II (3.0 cr)
- **TH 8116** - History and Theory of Western Theatre: 20th Century From 1945 to the Present (3.0 cr)

**Pedagogy and Professionalization Seminar (3 credits)**
Take TH 8950 for 3 credits.
- **TH 8950** - Topics in Theatre (1.0 - 4.0 cr)

**Historiography Seminar (3 credits)**
Take the following course:
- **TH 8102** - Theatre Historiography (3.0 cr)

**Outside Coursework (12 credits)**
Select 12 credits from outside the major in consultation with the advisor.

**Thesis Credits**
Take 24 doctoral thesis credits.
- **TH 8888** - Thesis Credit: Doctoral (1.0 - 24.0 cr)

• Program Type: Graduate free-standing minor
• Requirements for this program are current for Fall 2020
• Length of program in credits (Doctorate): 12
• This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The translational sensory sciences minor provides students with a focused, multidisciplinary educational background and research training opportunities to address critical challenges in the development of assistive technologies that meaningfully improve the lives of people with sensory disabilities.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Translational Sensory Sciences director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Coursework offered on both the A/F and S/N grading basis must be taken A/F, with a minimum grade of C+ earned for each course.

Required Courses (5 credits)
Take the following courses:
GCC 5022 - The Human Experience of Sensory Loss: Seeking Equitable and Effective Solutions [TS] (3.0 cr)
CGSC 8410 - Perspectives in Learning, Perception, and Cognition (2.0 cr)

Electives (7 credits)
Select 7 credits from the following, in consultation with the Translational Sensory Sciences director of graduate studies, to complete the 12-credit minimum. Other courses may be applied to this requirement with approval of the Translational Sensory Sciences director of graduate studies.
BMEN 5413 - Neural Decoding and Interfacing (3.0 cr)
BMEN 8101 - Biomedical Digital Signal Processing (3.0 cr)
CSCI 5115 - User Interface Design, Implementation and Evaluation (3.0 cr)
CSCI 5521 - Introduction to Machine Learning (3.0 cr)
CSCI 5525 - Machine Learning (3.0 cr)
CSCI 5561 - Computer Vision (3.0 cr)
CSCI 5619 - Virtual Reality and 3D Interaction (3.0 cr)
CSCI 5801 - Software Engineering I (3.0 cr)
KIN 5941 - Clinical Movement Neuroscience (3.0 cr)
KIN 8211 - Seminar: Perception and Action (3.0 cr)
OTOL 8234 - Anatomy of the Head and Neck and Temporal Bone Dissection (2.0 cr)
PSY 5031W - Perception [WI] (3.0 cr)
PSY 5038W - Introduction to Neural Networks [WI] (3.0 cr)
PSY 5065 - Functional Imaging: Hands-on Training (3.0 cr)
PSY 8041 - Proseminar in Perception (3.0 cr)
SLHS 5804 - Cochlear Implants (3.0 cr)
SLHS 5807 - Noise and Hearing Conservation (3.0 cr)
SLHS 5808 - Pathophysiology of Hearing Disorders (3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Doctoral
Twin Cities Campus
Juridical Science S.J.D.
Law School

Link to a list of faculty for this program.

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 48
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Juridical Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The SJD program at the University of Minnesota Law School is intended for those who wish to carry on advanced legal study and original research under faculty supervision. SJD students must present research which makes a significant, original contribution of long-term value to legal scholarship. The dissertation must be of publishable quality and provide lawyers, scholars, or governmental officials with a useful understanding, not previously available, of a particular area of the law.

Accreditation
This program is accredited by acquiescence of the American Bar Association.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Applicants must have completed the first degree in law AND must have completed (or are in the process of completing) a US LLM degree at the University of Minnesota or another institution.

Special Application Requirements:
1) Submission of a preliminary dissertation proposal demonstrating that the dissertation will constitute an original and substantial contribution, of publishable quality, to legal scholarship, in a research field in which the Law School has experienced faculty available for advising, and 2) Submission of an extensive, high quality writing sample written in English to demonstrate the ability to engage in advanced research and writing.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
24 credits are required in the major.
24 thesis credits are required.

This program may not be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

Coursework Requirements
Legal Research
Take one of the following courses, or another research course approved by your faculty adviser or the director of graduate studies.
- LAW 6851 - Practice-Ready Legal Research (2.0 cr)
- or LAW 6867 - Practice Ready International Legal Research (2.0 cr)
Elective Courses
The remaining 22 credits are determined through consultation with your faculty advisor or the director of graduate studies.

Thesis Credit Requirement
24 Thesis Credits

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Science Patent Law

Along with the program-specific requirements listed below, please read the [General Information](https://www.law.umn.edu/academics/degree-programs/mspl-program) section of the catalog website for requirements that apply to all major fields.

The Master of Science in Patent Law is a professional master's degree for scientists and engineers interested in pursuing a career in the growing field of patent law. The program requirements may be completed in one year of full-time study or in two years (with an optional third year) on a part-time basis. This program is offered through the University of Minnesota Law School. Students in this program will learn practical patent drafting, patent research, portfolio management, and innovation skills. Many courses in this program will be taken jointly with JD students.

**Program Delivery**

This program is available:
- via classroom (the majority of instruction is face-to-face)

**Prerequisites for Admission**

Applicants with a degree in Science or Engineering are preferred.

Other requirements to be completed before admission:  
GRE and LSAT scores are accepted but not required.

**Special Application Requirements:**

Personal statement, resume, letters of recommendation, interview, patent bar eligibility assessment.

International applicants must submit score(s) from one of the following tests:  
- TOEFL  
- IELTS

Key to test abbreviations (TOEFL, IELTS).

Master Programs in Accounting, 3-110 Carlson School of Management, 321 19th Avenue S, Minneapolis, MN 55455 (612-624-7511; fax: 612-626-7795)
Email: macct@umn.edu
Website: http://www.carlsonschool.umn.edu/degrees/master-accountancy

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 30 to 44
- This program does not require summer semesters for timely completion.
- Degree: Master of Accountancy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Master of Accountancy (MAcc) program enables all students to understand technical accounting problems from an analytical approach, enhancing their critical thinking and management skills with graduate-level courses in accounting, data analytics, finance, taxation, information systems, management, and supply chain and operations. In addition, it provides non-accounting majors the opportunity to take the accounting courses required to sit for the CPA examination.

The MAcc program offers two tracks, a 30-credit track for students with a degree in accounting or finance. The 44-credit track is for students with a bachelor's degree in an academic discipline other than accounting or finance. The additional required core courses include the necessary accounting courses needed to sit for the CPA exam.

The curriculum has been designed and developed by Carlson School of Management faculty with extensive input and ongoing consultation with executives from the professional community. This ensures relevant, practical, and challenging courses that enhance the students' professional development. The program offers students the opportunity to delve more deeply into challenging financial reporting issues faced by organizations. Students develop complex computational analysis skills and analytical processes to better understand modern financial reporting issues.

The 30-credit track can be completed in one year if going full-time. The 44-credit track can be completed in 1.5 years if going full-time. Students may also choose to go part-time. Many of the courses are offered in the evenings (Monday-Thursday, 5:45 9:05 p.m.) or online.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Other requirements to be completed before admission:
All applicants must have a bachelor's degree from an accredited college or university and a cumulative undergraduate grade point average of 3.0 (on a 4.0 scale) or higher.

Applicants with a bachelor's degree in accounting (or equivalent coursework) or finance are generally eligible for the 30-credit MAcc track.

Students who have a bachelor's degree in an academic discipline other than accounting or finance are eligible to apply for the MAcc program and take the 44-credit track. The following courses (or equivalents) are prerequisites to the MAcc courses: ACCT 2050 Financial Accounting, ACCT 3001 Management Accounting, ACCT 5101 Intermediate Accounting I, FINA 3001 Finance Fundamentals. If necessary, some of the prerequisite courses can be taken after being admitted to the MAcc program but credits would not apply to the 44-credit requirement. Coursework will be evaluated after applying.

Special Application Requirements:
Summer/Fall application deadline: February 1 priority, followed by rolling admission until program is full. Spring application deadline: October 1 priority, followed by rolling admission until program is full.

Applicants must submit all application materials through the University's admission system. Application materials include:

Three letters of recommendation from persons qualified to evaluate most recent work and potential for graduate study.

A GMAT score that is not more than five years old is required. The GMAT score must be sent directly from GMAT to be considered official. Admitted Carlson School of Management undergraduate students will have the GMAT requirement waived.

For international students, the results from one of the following English language tests are required: TOEFL, IELTS, MELAB. TOEFL scores must be received directly from TOEFL. IELTS and MELAB scores must be received directly from the testing center.

For additional application details, review the M.Acc. admissions webpages.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan C: Plan C requires 30 to 44 major credits and up to null credits outside the major. There is no final exam.

This program may not be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.8 is required for students to remain in good standing.

Students in the 30-credit MAcc track are required to have completed the following courses (or equivalent courses) in their undergraduate program or complete them in their MAcc program. If required to take any of these courses in the MAcc program, the number of elective credits is reduced by that number of credits.

ACCT 5102 Intermediate Accounting II, 4 cr
ACCT 5125W Auditing, 4 cr
ACCT 5135 Fundamentals of Federal Income Tax, 4 cr
ACCT 6604 Advanced Management Accounting, 2 cr

Required Courses (14 Credits)
All MAcc students must complete the following courses for 14 credits. If 5000 level course was taken in undergraduate program, replace with elective course.

ACCT 5160 - Financial Statement Analysis (2.0 cr)
ACCT 5180 - Consolidations and Advanced Reporting (2.0 cr)
ACCT 5236 - Introduction to Taxation of Business (2.0 cr)
ACCT 6601 - Internal Control (2.0 cr)
ACCT 6602 - Securities and Exchange Commission (SEC) and Standard Setting (2.0 cr)
ACCT 6606 - Financial Data Analytics (2.0 cr)
IDSC 6003 - Accounting and Information Systems (2.0 cr)

Additional Courses Required for the 44-Credit Track (14 Credits)
Students pursuing the 44-credit track must also complete the following courses for 14 credits:

ACCT 5102 - Intermediate Accounting II (4.0 cr)
ACCT 5125W - Auditing Principles and Procedures [WI] (4.0 cr)
ACCT 5135 - Fundamentals of Federal Income Tax (4.0 cr)
ACCT 6604 - Advanced Management Accounting (2.0 cr)

Elective Courses (16 credits)
MAcc students must complete at least 16 elective credits, selected in consultation with the advisor, from the following list. In some cases, other graduate-level courses may be taken with prior approval from the MAcc Director.

ACCT 5126 - Internal Auditing (2.0 cr)
ACCT 5310 - International Accounting (2.0 cr)
ACCT 6603 - Advanced Auditing (2.0 cr)
ACCT 6604 - Advanced Management Accounting (2.0 cr)
BLAW 6158 - The study of laws affecting private business and publicly-traded companies. (2.0 cr)
FINA 6121 - Debt Markets, Interest Rates, and Hedging (2.0 cr)
FINA 6123 - Financial Services Industry (2.0 cr)
FINA 6222 - Mergers and Acquisitions (2.0 cr)
FINA 6241 - Corporate Financial Decisions and Analysis (4.0 cr)
FINA 6242 - Advanced Corporate Finance Analysis and Decisions (4.0 cr)
FINA 6322 - Financial Modeling (2.0 cr)
FINA 6341 - World Economy (4.0 cr)
FINA 6522 - Introduction to Derivatives and Financial Risk Management (2.0 cr)
FINA 6621 - International Financial Management (2.0 cr)
IDSC 6423 - Enterprise Systems (2.0 cr)
IDSC 6444 - Business Analytics for Managers I (2.0 cr)

Carlson MBA & MS Programs
321 19th Ave S, Room 1-110
Minneapolis, MN 55455

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 32
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Applied Business Analytics program provides a strong foundation in business analytics by combining technical know-how that includes machine learning, artificial intelligence, applied statistics, optimization, econometrics, experimentation, data visualization, data engineering and big data with an understanding on how they may be applied in domains such as marketing, consumer behavior, operations, financial and risk management, information management, and strategic management in both public and private sectors. Students who graduate from this part-time, two-year, 32-credit program will have the substantial quantitative capabilities and technical expertise to create business and social value by extracting useful insights from data and providing data-driven solutions to business problems for a variety of career settings.

Accreditation
This program is accredited by AACSB International.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Applicants must have a bachelor's degree from an accredited college or university.

Other requirements to be completed before admission:
- Demonstrated proficiency in computer programming is required. The following programming languages satisfy the requirement: Python, R, C, C++, C#, VB, Java, Pascal, and Fortran.
- Applicants must have completed at least one semester college-level Math course (e.g. Calculus, Linear Algebra) with a grade of "C" or better (or grade equivalent).

Special Application Requirements:
Applicants must submit all application materials through the University's admissions system. Application materials include:
- Transcripts from all colleges/universities previously attended. Non-English transcripts must be accompanied by an English translation.
- A GMAT or GRE General Test that is not more than five years old, with an acceptable score. A GMAT/GRE waiver is available for qualified candidates.
- For international students, an acceptable score on the Test of English as a Foreign Language (TOEFL) International Language Testing System (IELTS).
- Two letters of recommendations need to be submitted through the online application.
- A personal statement of career goals, and objectives for pursuing the MABA degree. The personal statement questions are the following:
  Briefly describe your short-term and long-term career goals. Why are you choosing to pursue MABA degree at this time in your career, and what are you hoping to accomplish by doing so? Why are you interested in pursuing MABA degree at the Carlson School of Management? What do you feel makes you a strong candidate for the program? How will you contribute to the MABA program overall?
Applicants must submit a current resume that includes job responsibilities and accomplishments in the online application.

- Video essay
- Applicants may choose to submit an essay to comment on any item(s) in their application they consider worthy of further explanation.
- Applicants may be required to complete an admissions interview, which are by invitation only.

International applicants must submit score(s) from one of the following tests:

- TOEFL
- IELTS

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan C: Plan C requires 32 major credits and up to null credits outside the major. There is no final exam. A capstone project is required.

Capstone Project: Students complete MABA 6511, in which they engage in an experiential-learning application of the analytics methodologies, techniques, and tools learned throughout the program to a real-world problem. The final project consists of the development and presentation of results, interpretations, insights, and recommendations.

This program may not be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.8 is required for students to remain in good standing.

Required Courses (24 credits)

Take the following courses:

IDSC 6490 - Advanced Topics in MIS (2.0 cr)

Carlson Executive Master of Business Administration

The Carlson executive MBA is built on a foundation of time-tested business principles. By emphasizing a global perspective, the rigorous curriculum helps students develop a deeper understanding of theory and practice. Each class moves through the program together as a cohort, following set schedules. From orientation to graduation, it takes about 21 months to complete the program. Classes are held Fridays and Saturdays, predominantly on alternate weekends, 7:30 a.m. to 4:30 p.m., and do not meet during the summer.

CEMBA Program Requirements

The CEMBA program has a 49.5 credit program requirement.

CMBA 5810 - Introduction to Statistics and Business Analytics (3.0 cr)
CMBA 5811 - Financial Accounting (3.0 cr)

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2020
- Length of program in credits (Doctorate): 16
- This program does not require summer semesters for timely completion.
- None.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The PhD program in business administration offers full-time advanced graduate education for students seeking academic placement at leading universities or research-oriented positions in business or government. The program is for individuals who have the intellectual capacity for advanced study, enjoy independent research and analytical thinking, and who wish to master a discipline within business administration.

Non-business administration doctoral students working toward a minor within the business administration program must complete a cohesive program of study in one of seven areas of specialization: accounting; finance; information and decision sciences; marketing; supply chain and operations; strategic management and entrepreneurship, and work and organizations.

Accreditation
This program is accredited by AACSB International

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
University of Minnesota PhD student in a field other than business administration.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

For each of the seven areas of concentration, a minimum of 16 credits is required. Coursework is selected in consultation with the PhD program office or the PhD coordinator of the student's chosen concentration area. Courses should be 8xxx-level, although up to 8 credits of 5xxx- and 7xxx-level coursework can be taken with the approval of the PhD and master's program offices.

Areas of Concentration

Accounting
Take 16 or more credit(s) from the following:
- ACCT 8801 - Topics in Empirical Research I (2.0 cr)
- ACCT 8802 - Topics in Empirical Research II (2.0 cr)
• ACCT 8803 - Topics in Empirical Research III (2.0 cr)
• ACCT 8811 - Information Economics I (2.0 cr)
• ACCT 8812 - Information Economics II (2.0 cr)
• ACCT 8813 - Information Economics III (2.0 cr)
• ACCT 8821 - Capital Markets I (2.0 cr)
• ACCT 8822 - Capital Markets II (2.0 cr)

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Business Administration PhD program offers full-time advanced graduate education for students seeking academic placement at leading universities or research-oriented positions in business or government. The program is for individuals who have the intellectual capacity for advanced study, enjoy independent research and analytical thinking, and who wish to master a discipline within business administration.

Students choose to concentrate in one of seven areas of specialization: accounting; finance; information and decision sciences; marketing; supply chain and operations; strategic management and entrepreneurship; and work and organizations.

Accreditation
This program is accredited by Association to Advance Collegiate Schools of Business (AACSB)

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Applicants must have completed a four-year undergraduate degree in any relevant field of study.

Other requirements to be completed before admission:
Admission depends on the applicant's grades, test scores (GMAT or GRE), and strength of the letters of recommendation and the statement of purpose.

Preferred minimum test scores are 650 total on the GMAT or 320 total on the GRE general test.

Special Application Requirements:
Submit the following items via the University's online application system: 1) complete application; 2) official copy of the GMAT or GRE scores taken within the last five years; 3) official TOEFL or IELTS scores (international applicants only) from a test taken within the last two years; 4) statement of purpose; 5) resume/CV; 6) three letters of recommendation; and 7) transcripts from all undergraduate and graduate institutions attended. The application deadline for all areas of concentration is December 15 each year for fall admission consideration. Applications are evaluated on a rolling basis beginning in mid-January. Admission decisions continue until available positions are filled.

Applicants must submit their test score(s) from the following:
• GRE
• GMAT
- Total score: 650
International applicants must submit score(s) from one of the following tests:

- **TOEFL**
  - Internet Based - Total Score: 100
  - Internet Based - Speaking Score: 25

- **IELTS**
  - Total Score: 7

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (GRE, GMAT, TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

**Program Requirements**

24 to 28 credits are required in the major.
16 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.30 is required for students to remain in good standing.

At least 4 semesters must be completed before filing a Degree Program Form.

Coursework is selected in consultation with the advisor and varies across areas of concentration.

**Thesis Credits**
Take 24 doctoral thesis credits.

**BA 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)**

**Areas of Concentration**

**Accounting**
The accounting concentration requires 40 credits. Students pursue either an analytic or empirical research paradigm, in consultation with the advisor.

**Required Coursework (24 credits)**
Take the following courses:

- ACCT 8801 - Topics in Empirical Research I (2.0 cr)
- ACCT 8802 - Topics in Empirical Research II (2.0 cr)
- ACCT 8803 - Topics in Empirical Research III (2.0 cr)
- ACCT 8811 - Information Economics I (2.0 cr)
- ACCT 8812 - Information Economics II (2.0 cr)
- ACCT 8813 - Information Economics III (2.0 cr)
- ACCT 8821 - Capital Markets I (2.0 cr)
- ACCT 8822 - Capital Markets II (2.0 cr)
- ACCT 8823 - Capital Markets III (2.0 cr)
- ACCT 8831 - Analytical Research Topics I (2.0 cr)
- ACCT 8832 - Analytical Research Topics II (2.0 cr)
- ACCT 8833 - Topics in Analytical Research III (2.0 cr)

**Supporting/Methodology Coursework (16 credits)**
Select 16 credits from the following in consultation with the advisor:

- APEC 8001 - Applied Microeconomic Analysis of Consumer Choice and Consumer Demand (2.0 cr)
- APEC 8002 - Applied Microeconomic Analysis of Production and Choice Under Uncertainty (2.0 cr)
- APEC 8003 - Applied Microeconomic Analysis of Game Theory and Information (2.0 cr)
- APEC 8004 - Applied Microeconomic Analysis of Social Choice and Welfare (2.0 cr)
- APEC 8211 - Econometric Analysis I (2.0 cr)
- APEC 8212 - Econometric Analysis II (2.0 cr)
- CSOM 8101 - Methods and Topics in Applied Economics (2.0 - 4.0 cr)
Finance

The 44-credit finance concentration provides a strong foundation in economic theory and empirical methods.

Required Coursework (20 credits)
Select 20 credits from the following, in consultation with the advisor. FINA 8810, 8820, and 8890 may be repeated with advisor approval.

- FINA 8802 - Theory of Capital Markets I: Discrete Time (2.0 cr)
- FINA 8803 - Theory of Capital Markets II: Continuous Time (2.0 cr)
- FINA 8804 - Advanced Continuous Time Finance (2.0 cr)
- FINA 8810 - Topics in Asset Pricing (2.0 cr)
- FINA 8812 - Corporate Finance I (2.0 cr)
- FINA 8813 - Corporate Finance II (2.0 cr)
- FINA 8820 - Topics in Corporate Finance (2.0 cr)
- FINA 8822 - Empirical Methods in Finance (2.0 cr)
- FINA 8823 - Empirical Corporate Finance (2.0 cr)
- FINA 8890 - Seminar: Finance Topics (2.0 - 4.0 cr)

Additional Finance Courses (8 credits)
Take the following courses:

- ECON 8101 - Microeconomic Theory (2.0 cr)
- ECON 8102 - Microeconomic Theory (2.0 cr)
- ECON 8103 - Microeconomic Theory (2.0 cr)
- ECON 8104 - Microeconomic Theory (2.0 cr)

Supporting/Methdology Coursework (16 credits)
Select 16 credits from the following in consultation with the advisor:

- ACCT 8812 - Information Economics II (2.0 cr)
- ACCT 8831 - Analytical Research Topics I (2.0 cr)
- ACCT 8832 - Analytical Research Topics II (2.0 cr)
- APEC 8211 - Econometric Analysis I (2.0 cr)
- APEC 8212 - Econometric Analysis II (2.0 cr)
- ECON 8003 - Microeconomic Analysis (2.0 cr)
- ECON 8004 - Microeconomic Analysis (2.0 cr)
- ECON 8105 - Macroeconomic Theory (2.0 cr)
- ECON 8106 - Macroeconomic Theory (2.0 cr)
- ECON 8107 - Macroeconomic Theory (2.0 cr)
- ECON 8108 - Macroeconomic Theory (2.0 cr)
- ECON 8181 - Advanced Topics in Microeconomics (2.0 cr)
- ECON 8182 - Advanced Topics in Microeconomics (2.0 cr)
- ECON 8185 - Advanced Topics in Macroeconomics (2.0 cr)
- ECON 8191 - Workshop in Mathematical Economics (1.0 cr)
- ECON 8201 - Econometric Analysis (2.0 cr)
- ECON 8205 - Applied Econometrics (2.0 cr)
- ECON 8206 - Applied Econometrics (2.0 cr)
- ECON 8207 - Applied Econometrics (2.0 cr)
- ECON 8208 - Applied Econometrics (2.0 cr)
- ECON 8211 - Econometrics (2.0 cr)
- ECON 8221 - Econometrics (2.0 cr)
- ECON 8501 - Wages and Employment (2.0 cr)
- ECON 8601 - Industrial Organization and Government Regulation (2.0 cr)
- ECON 8602 - Industrial Organization and Government Regulation (2.0 cr)
- ECON 8701 - Monetary Economics (2.0 cr)
Information and Decision Sciences

The information and decision sciences (IDSc) concentration requires 41 credits.

Required Coursework (15 credits)

Take the following courses:
IDSC 8511 - Conceptual Topics and Research Methods in Information and Decision Sciences (3.0 cr)
IDSC 8521 - System Development (3.0 cr)
IDSC 8531 - Organizational Theory and Research in Information Systems (3.0 cr)
IDSC 8541 - Introduction to Economics of Information Systems (3.0 cr)
IDSC 8721 - Behavioral Decision Theory (3.0 cr)

Additional IDSc Courses (2 credits)

Select at least 2 credits of the following in consultation with the advisor. IDSC 8801 may be repeated.
IDSC 8620 - Data Mining and Personalization (3.0 cr)
IDSC 8630 - Social Media and Online Communities (3.0 cr)
IDSC 8801 - Research Seminar in Information and Decision Sciences (2.0 cr)

Methodology Coursework (8 credits)

Take at least 8 credits in research methodology from the following:
APEC 8001 - Applied Microeconomic Analysis of Consumer Choice and Consumer Demand (2.0 cr)
APEC 8002 - Applied Microeconomic Analysis of Production and Choice Under Uncertainty (2.0 cr)
APEC 8003 - Applied Microeconomic Analysis of Game Theory and Information (2.0 cr)
APEC 8206 - Dynamic Optimization: Applications in Economics and Management (3.0 cr)
APEC 8211 - Econometric Analysis I (2.0 cr)
APEC 8212 - Econometric Analysis II (2.0 cr)
CSOM 8101 - Methods and Topics in Applied Economics (2.0 - 4.0 cr)
ECON 8581 - Advanced Topics in Labor Economics (2.0 cr)
EPSY 5244 - Survey Design, Sampling, and Implementation (3.0 cr)
EPSY 8252 - Statistical Methods in Education II (3.0 cr)
EPSY 8264 - Advanced Multiple Regression Analysis (3.0 cr)
EPSY 8267 - Applied Multivariate Analysis (3.0 cr)
EPSY 8268 - Hierarchical Linear Modeling in Educational Research (3.0 cr)
MKTG 8842 - Quantitative Modeling I (2.0 cr)
PA 8302 - Applied Policy Analysis (4.0 cr)
PSY 5018H - Mathematical Models of Human Behavior (3.0 cr)
PSY 5862 - Psychological Measurement: Theory and Methods (3.0 cr)
PSY 5993 - Research Laboratory in Psychology (3.0 cr)
PUBH 6470 - SAS Procedures and Data Analysis (3.0 cr)
PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
PUBH 8432 - Probability Models for Biostatistics (3.0 cr)
PUBH 8442 - Bayesian Decision Theory and Data Analysis (3.0 cr)
PUBH 8804 - Advanced Quantitative Methods Seminar (3.0 cr)
SCO 8652 - Regression Analysis (3.0 cr)
SOC 8412 - Social Network Analysis: Theory and Methods (3.0 cr)
SOC 8811 - Advanced Social Statistics (4.0 cr)
STAT 8101 - Theory of Statistics 1 (3.0 cr)

Supporting/Methodology Coursework (16 credits)

Select 16 credits from the following in consultation with the advisor:

Take 16 or more credit(s) from the following:
• APEC 8001 - Applied Microeconomic Analysis of Consumer Choice and Consumer Demand (2.0 cr)
• APEC 8002 - Applied Microeconomic Analysis of Production and Choice Under Uncertainty (2.0 cr)
• APEC 8003 - Applied Microeconomic Analysis of Game Theory and Information (2.0 cr)
• APEC 8206 - Dynamic Optimization: Applications in Economics and Management (3.0 cr)
• APEC 8211 - Econometric Analysis I (2.0 cr)
• APEC 8212 - Econometric Analysis II (2.0 cr)
• CSCI 5980 - Special Topics in Computer Science (1.0 - 3.0 cr)
• CSCI 8551 - Intelligent Agents (3.0 cr)
• CSCI 8980 - Special Advanced Topics in Computer Science (1.0 - 3.0 cr)
• CSOM 8101 - Methods and Topics in Applied Economics (2.0 - 4.0 cr)
•ECON 8581 - Advanced Topics in Labor Economics (2.0 cr)
•ECON 8601 - Industrial Organization and Government Regulation (2.0 cr)
•ECON 8602 - Industrial Organization and Government Regulation (2.0 cr)
•EPSY 8252 - Statistical Methods in Education II (3.0 cr)
•EPSY 8264 - Advanced Multiple Regression Analysis (3.0 cr)
•EPSY 8267 - Applied Multivariate Analysis (3.0 cr)
•EPSY 8268 - Hierarchical Linear Modeling in Educational Research (3.0 cr)
•IDSC 8892 - Readings in Information and Decision Sciences (1.0 - 8.0 cr)
•IDSC 8894 - Graduate Research in Information and Decision Sciences (1.0 - 8.0 cr)
•MGMT 8101 - Theory Building and Research Design (4.0 cr)
•MGMT 8104 - PhD Seminar: Research Design (2.0 cr)
•MGMT 8302 - Seminar in Organizations Theory (4.0 cr)
•MKTG 8842 - Quantitative Modeling I (2.0 cr)
•PA 8302 - Applied Policy Analysis (4.0 cr)
•PSY 5018H - Mathematical Models of Human Behavior (3.0 cr)
•PSY 5862 - Psychological Measurement: Theory and Methods (3.0 cr)
•PSY 5993 - Research Laboratory in Psychology (3.0 cr)
•PSY 8201 - Social Cognition (3.0 cr)
•PSY 8960 - Graduate Seminar in Psychology (1.0 - 4.0 cr)
•PUBH 6470 - SAS Procedures and Data Analysis (3.0 cr)
•PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
•PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
•PUBH 8432 - Probability Models for Biostatistics (3.0 cr)
•PUBH 8442 - Bayesian Decision Theory and Data Analysis (3.0 cr)
•PUBH 8804 - Advanced Quantitative Methods Seminar (3.0 cr)
•SCO 8652 - Regression Analysis (3.0 cr)
•SCO 8721 - Management of Technological Operations (3.0 cr)
•SOC 8412 - Social Network Analysis: Theory and Methods (3.0 cr)
•STAT 8101 - Theory of Statistics I (3.0 cr)

Marketing
The marketing concentration requires 40 credits. Students pursue either a consumer behavior focus or quantitative/marketing strategy focus.

Consumer Behavior Focus (24 credits)
Students pursuing the consumer behavior focus select 16 credits from the following list, plus 8 credits from the quantitative/marketing strategy course list, in consultation with the advisor. MKTG 8810 may be repeated.

MKTG 8809 - Consumer Behavior Research Methods (2.0 cr)
MKTG 8810 - Consumer Behavior Special Topics (2.0 cr)
MKTG 8811 - Consumer Attitudes and Persuasion I (2.0 cr)
MKTG 8812 - Consumer Attitudes and Persuasion II (2.0 cr)
MKTG 8813 - Consumer Judgment and Decision Making I (2.0 cr)
MKTG 8814 - Consumer Judgment and Decision Making II (2.0 cr)

or Quantitative/Marketing Strategy Focus (24 credits)
Students pursuing the quantitative/marketing strategy focus select 14 credits from the following list, plus 10 credits from the consumer behavior course list, in consultation with the advisor. MKTG 8890 can be repeated.

MKTG 8831 - Seminar: Inter-Organizational Relations (4.0 cr)
MKTG 8842 - Quantitative Modeling I (2.0 cr)
MKTG 8843 - Quantitative Modeling II (2.0 cr)
MKTG 8851 - Seminar: Marketing Management and Strategy I (2.0 cr)
MKTG 8852 - Marketing Management & Strategy II (2.0 cr)
MKTG 8890 - Seminar: Marketing Topics (1.0 - 4.0 cr)

Supporting/Methodology Coursework (16 credits)
Select 16 credits from the following in consultation with the advisor:

ACCT 8811 - Information Economics I (2.0 cr)
ACCT 8831 - Analytical Research Topics I (2.0 cr)
APEC 8211 - Econometric Analysis I (2.0 cr)
APEC 8212 - Econometric Analysis II (2.0 cr)
CSOM 8101 - Methods and Topics in Applied Economics (2.0 - 4.0 cr)
ECON 8003 - Microeconomic Analysis (2.0 cr)
ECON 8004 - Microeconomic Analysis (2.0 cr)
ECON 8101 - Microeconomic Theory (2.0 cr)
ECON 8102 - Microeconomic Theory (2.0 cr)
ECON 8103 - Microeconomic Theory (2.0 cr)
ECON 8104 - Microeconomic Theory (2.0 cr)
The supply chain and operations (SCO) concentration requires 41 credits.

Required Coursework (25 credits)
Take the following courses:
- SCO 8651: Experimental Design (3.0 cr)
- SCO 8652: Regression Analysis (3.0 cr)
- SCO 8711: Research in Operations Strategy (3.0 cr)
- SCO 8721: Management of Technological Operations (3.0 cr)
- SCO 8735: Supply Chain Management (3.0 cr)
- SCO 8745: Research on Quality Management (3.0 cr)
- SCO 8755: Behavioral Operations (3.0 cr)
- MGMT 8101: Theory Building and Research Design (4.0 cr)
- MGMT 8104: PhD Seminar: Research Design (2.0 cr)

Supporting Field/Methodology Coursework (16 credits)
Required Course (3 credits)
Take the following course:
- GRAD 8101: Teaching in Higher Education (3.0 cr)

Supporting/Methodology Courses (13 credits)
Select 13 credits from the following in consultation with the advisor:
- APEC 8206: Dynamic Optimization: Applications in Economics and Management (3.0 cr)
- APEC 8211: Econometric Analysis I (2.0 cr)
- APEC 8212: Econometric Analysis II (2.0 cr)
- APEC 8602: Economics of the Environment (3.0 cr)
- EPSY 8252: Statistical Methods in Education II (3.0 cr)
- EPSY 8266: Statistical Analysis Using Structural Equation Methods (3.0 cr)
- EPSY 8268: Hierarchical Linear Modeling in Educational Research (3.0 cr)
- HRIR 8802: Core Seminar: Organizational Behavior (4.0 cr)
- MGMT 8302: Seminar in Organizations Theory (4.0 cr)
-OR-

**Strategic Management and Entrepreneurship**

The Strategic Management and Entrepreneurship (SME) concentration requires 40 credits.

**Required Coursework (16 credits)**

Take the following courses:

- **CSOM 8101** - Methods and Topics in Applied Economics (2.0 - 4.0 cr)
- **MGMT 8102** - Research Methods I - Applied Empirical Methods (2.0 cr)
- **MGMT 8302** - Seminar in Organizations Theory (4.0 cr)
- **MGMT 8401** - Seminar in Strategy Content (2.0 - 4.0 cr)
- **MGMT 8403** - Strategy Seminar (4.0 cr)
- **MGMT 8501** - Seminar in Entrepreneurship (2.0 - 4.0 cr)

**SME Elective Coursework (8 credits)**

Take at least 8 credits of SME electives from the list below:

- **MGMT 8101** - Theory Building and Research Design (4.0 cr)
- **MGMT 8104** - PhD Seminar: Research Design (2.0 cr)
- **MGMT 8202** - Seminar in International Management (2.0 cr)
- **MGMT 8402** - Seminar in Behavioral Strategy (2.0 cr)
- **MGMT 8404** - Topics in Strategy 1 (2.0 - 4.0 cr)
- **MGMT 8405** - Seminar in Technology Strategy (2.0 cr)

**Supporting/Methodology Coursework (16 credits)**

**Required Courses (7 credits)**

Take the following courses:

- **APEC 8211** - Econometric Analysis I (2.0 cr)
- **APEC 8212** - Econometric Analysis II (2.0 cr)
- **GRAD 8101** - Teaching in Higher Education (3.0 cr)

**Additional Supporting/Methodology Courses (9 credits)**

Select 9 credits from the following in consultation with the advisor:

- **APEC 8001** - Applied Microeconomic Analysis of Consumer Choice and Consumer Demand (2.0 cr)
- **APEC 8003** - Applied Microeconomic Analysis of Game Theory and Information (2.0 cr)
- **APEC 8004** - Applied Microeconomic Analysis of Social Choice and Welfare (2.0 cr)
- **CSCI 5980** - Special Topics in Computer Science (1.0 - 3.0 cr)
- **EPSY 8251** - Statistical Methods in Education I (3.0 cr)
- **EPSY 8252** - Statistical Methods in Education II (3.0 cr)
- **EPSY 8264** - Advanced Multiple Regression Analysis (3.0 cr)
- **EPSY 8268** - Hierarchical Linear Modeling in Educational Research (3.0 cr)
- **EPSY 8282** - Statistical Analysis of Longitudinal Data (3.0 cr)
- **FINA 8823** - Empirical Corporate Finance (2.0 cr)
- **HINF 5502** - Python Programming Essentials for the Health Sciences (1.0 cr)
- **MATH 5651** - Basic Theory of Probability and Statistics (4.0 cr)
- **MGMT 8892** - Readings in Management Theory and Administration (1.0 - 8.0 cr)
- **MGMT 8894** - Graduate Research in Management Theory and Administration (1.0 - 8.0 cr)
- **MKTG 8831** - Seminar: Inter-Organizational Relations (4.0 cr)
- **PA 8302** - Applied Policy Analysis (4.0 cr)
POL 8106 - Quantitative Political Science I (3.0 cr)
PUBH 8804 - Advanced Quantitative Methods Seminar (3.0 cr)
PUBH 8811 - Research Methods in Health Care (3.0 cr)
SOC 8412 - Social Network Analysis: Theory and Methods (3.0 cr)
SOC 8701 - Sociological Theory (4.0 cr)
SOC 8721 - Social Psychology: Micro-Sociological Approaches to Inequalities and Identities (3.0 cr)
SOC 8735 - Sociology of Culture (3.0 cr)
SOC 8801 - Sociological Research Methods (4.0 cr)
SOC 8811 - Advanced Social Statistics (4.0 cr)
SOC 8890 - Advanced Topics in Research Methods (2.0 - 3.0 cr)
STAT 8051 - Advanced Regression Techniques: linear, nonlinear and nonparametric methods (3.0 cr)

-OR-

Work and Organizations
The Work and Organizations (WOrg) concentration requires 44 credits. The multidisciplinary curriculum covers organizational behavior, human resource management, organizational economics and related areas.

Required WOrg Coursework (28 credits)
Take the following courses. HRIR 8820 must be taken 4 times for a total of 8 credits; HRIR must be taken 8825 4 times for a total of 4 credits.
HRIR 8801 - Core Seminar: Fundamentals of Economic Analysis for Work and Organizations (4.0 cr)
HRIR 8802 - Core Seminar: Organizational Behavior (4.0 cr)
HRIR 8803 - Core Seminar: Fundamentals of HR Research (4.0 cr)
HRIR 8812 - Core Seminar: Research Methods in Work and Organizations (4.0 cr)
HRIR 8820 - Seminar: Special Topics in Work and Organizations Research (2.0 cr)
HRIR 8825 - Research Practicum/Workshop (1.0 cr)

Supporting/Methodology Coursework (16 credits)

Required Courses (6 credits)
Take the following courses:
PSY 5862 - Psychological Measurement: Theory and Methods (3.0 cr)

Required APEC Courses (3 credits)
Select APEC 5031 (3 credits) or APEC 8211 and 8212 (total of 4 credits).
APEC 5031 - Methods of Economic Data Analysis (3.0 cr)
APEC 8211 - Econometric Analysis I (2.0 cr)
APEC 8212 - Econometric Analysis II (2.0 cr)

Additional Supporting/Methodology Courses (7 credits)
Select 7 credits from the following in consultation with the advisor:
APEC 8003 - Applied Microeconomic Analysis of Game Theory and Information (2.0 cr)
APEC 8501 - Labor Economics I (2.0 cr)
APEC 8502 - Labor Economics II (2.0 cr)
CSOM 8101 - Methods and Topics in Applied Economics (2.0 - 4.0 cr)
ECON 8205 - Applied Econometrics (2.0 cr)
ECON 8206 - Applied Econometrics (2.0 cr)
EPSY 5247 - Qualitative Methods in Educational Psychology (3.0 cr)
EPSY 5261 - Introductory Statistical Methods (3.0 cr)
EPSY 8266 - Statistical Analysis Using Structural Equation Methods (3.0 cr)
EPSY 8268 - Hierarchical Linear Modeling in Educational Research (3.0 cr)
EPSY 8282 - Statistical Analysis of Longitudinal Data (3.0 cr)
HRIR 8991 - Independent Study in Human Resources and Industrial Relations (1.0 - 8.0 cr)
MGMT 8101 - Theory Building and Research Design (4.0 cr)
MGMT 8104 - PhD Seminar: Research Design (2.0 cr)
MGMT 8301 - Seminar in Organizational Behavior (4.0 cr)
PSY 8208 - Social Psychology: The Self (3.0 cr)
PSY 8664 - Personality Assessment (3.0 cr)
PSY 8701 - Seminar in Industrial and Organizational Psychology I (3.0 cr)
PSY 8702 - Seminar in Industrial and Organizational Psychology II (3.0 cr)
PSY 8960 - Graduate Seminar in Psychology (1.0 - 4.0 cr)
PUBH 6724 - The Health Care System and Public Health (3.0 cr)
PUBH 6832 - Economics of the Health Care System (3.0 cr)
PUBH 6861 - Health Insurance (2.0 cr)
SOC 8590 - Topics in Life Course Sociology (3.0 cr)

Phone: 612-625-5555
Email: msba@umn.edu
Website: https://carlsonschool.umn.edu/degrees/master-science-in-business-analytics

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 45
- This program requires summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The MS in Business Analytics (MSBA) program provides a strong foundation in data analytics by bringing together a diverse body of knowledge from consumer behavior, risk management, operations research, optimization, information systems, computer science, applied statistics, and decision theory for the purpose of data-driven business decision making in both public and private sectors.

Students who graduate from this 45-credit program will have the deep quantitative capabilities and technical expertise to create business and social value by extracting useful insights and applying them in a variety of career settings. The Business Analytics MS can be completed in one year of full-time study or in two years part-time.

Accreditation
This program is accredited by AACSB International. The M.S. program in Business Analytics is STEM designated.

Program Delivery
This program is available:

- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Applicants must have a bachelor's degree from an accredited college or university.

Other requirements to be completed before admission:
- Demonstrated proficiency in computer programming is required. The following programming languages satisfy the requirement: Python, R, C, C++, C#, VB, Java, Pascal, and Fortran.
- Applicants must have completed at least one semester college-level Calculus course with a grade of "C" or better (or grade equivalent).
- Work experience is not required, but preferred.

Special Application Requirements:
MSBA Application Requirements:
Applicants must submit all application materials through the University's admissions system. Application materials include:
- A GMAT or GRE General Test that is not more than five years old, with an acceptable score. PT MSBA applicants: A GMAT/GRE waiver is available for qualified candidates.
- For international students, an acceptable score on the Test of English as a Foreign Language (TOEFL) International Language Testing System (IELTS).
- Two letters of recommendations need to be submitted through the online application.
- A personal statement of career goals, and objectives for pursuing a Business Analytics MS degree. The personal statement questions are the following:
  Briefly describe your short-term and long-term career goals. Why are you choosing to pursue a Business Analytics MS degree at this time in your career, and what are you hoping to accomplish by doing so? Why are you interested in pursuing a Business Analytics MS degree at the Carlson School of Management? What do you feel makes you a strong candidate for the program? How will you...
contribute to the Business Analytics MS Program overall? Applicants must submit a current resume that includes job responsibilities and accomplishments in the online application.
- Applicants may choose to submit an essay to comment on any item(s) in their application they consider worthy of further explanation.
- Applicants may be required to complete an admissions interview, which are by invitation only.
- Video essay.

Applicants must submit their test score(s) from the following:
- GRE
- GMAT

International applicants must submit score(s) from one of the following tests:
- TOEFL
- IELTS

Key to test abbreviations (GRE, GMAT, TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan C: Plan C requires 45 major credits and up to null credits outside the major. The is no final exam. A capstone project is required.

Capstone Project: Students engage in an experiential learning application of the analytics methodologies, techniques, and tools learned throughout the program to a real-world problem. The final project consists of the development and presentation of results, interpretations, insights, and recommendations.

This program may not be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.8 is required for students to remain in good standing.

Some business/basic technical requirements can be waived for students with degrees in related business areas/computer science.

Business/Management Fundamentals (13 credits)
Take the following courses. Take MSBA 6355 for 1.5 credits.
MSBA 6110 - Business Essentials (3.0 cr)
MSBA 6120 - Introduction to Statistics for Data Scientists (3.0 cr)
MSBA 6130 - Introduction to Business Analytics in R (3.0 cr)
MSBA 6140 - Ethics and Data Privacy (1.0 cr)
MSBA 6345 - Agile Management of Analytics Projects (1.5 cr)
MSBA 6355 - Building and Managing Teams (0.0 - 1.5 cr)

Elective (2 credits)
Select at least 2 elective credits in consultation with the advisor.
APEC 5831 - Food and Agribusiness Marketplace (2.0 cr)
BLAW 6158 - The study of laws affecting private business and publicly-traded companies. (2.0 cr)
ENTR 6036 - Managing the Growing Business (2.0 cr)
FINA 6123 - Financial Services Industry (2.0 cr)
FINA 6325 - Behavioral Finance (2.0 cr)
IDSC 6003 - Accounting and Information Systems (2.0 cr)
IDSC 6040 - Information Technology Management (2.0 cr)
IDSC 6050 - Information Technologies and Solutions (2.0 cr)
IDSC 6423 - Enterprise Systems (2.0 cr)
INS 6100 - Corporate Risk Management (2.0 cr)
INS 6101 - Employee Benefits (2.0 cr)
INS 6200 - Insurance Theory and Practice (2.0 cr)
MBA 6110 - Leading Others (2.0 cr)
MBA 6140 - Managerial Economics (2.0 cr)
MBA 6235 - Managerial Accounting (2.0 cr)
MBA 6315 - The Ethical Environment of Business (2.0 cr)
MCOM 5510 - Persuasive Writing in Business (2.0 cr)
MCOM 5530 - Strategies and Skills for Managerial Presentations (2.0 cr)
MGMT 6004 - Negotiation Strategies (2.0 cr)
MGMT 6032 - Strategic Alliances (2.0 cr)
MGMT 6033 - Managing the Strategy Process (2.0 cr)
MGMT 6040 - Competing Globally (2.0 cr)
MGMT 6050 - Management of Innovation and Change (2.0 cr)
MGMT 6084 - Management of Teams (2.0 cr)
MGMT 6310 - Cross-Cultural Management: Developing Intercultural Competence (2.0 cr)
MGMT 6465 - Leadership and Personal Development (2.0 cr)
MILI 6235 - Pharmaceutical Industry: Business and Policy (2.0 cr)
MILI 6589 - Medical Technology Evaluation and Market Research (2.0 cr)
MILI 6990 - The Health Care Marketplace (2.0 cr)
MILI 6991 - Anatomy and Physiology for Managers (2.0 cr)
MILI 6995 - Medical Industry Valuation Laboratory (2.0 cr)
MKTG 6050 - Marketing Analytics: Managerial Decisions (2.0 cr)
MKTG 6086 - Digital Marketing (2.0 cr)
MSBA 6460 - Advanced AI for Business Applications (2.0 cr)

Technical Fundamentals (9 credits)
Take the following courses:
MSBA 6310 - Programming for Data Science (3.0 cr)
MSBA 6320 - Data Management, Databases, and Data Warehousing (3.0 cr)
MSBA 6330 - Big Data Analytics (3.0 cr)

Specialty Courses (15 credits)
Take the following courses:
MSBA 6410 - Exploratory Data Analytics (3.0 cr)
MSBA 6420 - Predictive Analytics (3.0 cr)
MSBA 6430 - Advanced Issues in Business Analytics (3.0 cr)
MSBA 6440 - Causal Inference via Econometrics and Experimentation (3.0 cr)
MSBA 6450 - Optimization and Simulation for Decision Making (3.0 cr)

Capstone Experience (6 credits)
Take the following course:
MSBA 6510 - Business Analytics Experiential Learning (6.0 cr)

Joint- or Dual-degree Coursework: MS-Business Analytics/MBAMS-Business Analytics/MS-Finance
Student may take a total of 22 credits in common among the academic programs.
Twin Cities Campus
Business Analytics Postbaccalaureate Certificate
CSOM MS Business Analytics
Curtis L. Carlson School of Management

- Program Type: Post-baccalaureate credit certificate/licensure/endorsement
- Requirements for this program are current for Fall 2020
- Length of program in credits: 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- primarily online (at least 80% of the instruction for the program is online with short, intensive periods of face-to-face coursework)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
Applicants must have a bachelors degree from an accredited institution.

Other requirements to be completed before admission:
Please review the Admissions Checklist online for detailed admissions requirements.

Special Application Requirements:
Business Analytics certificate requires math and stats prerequisites.

International applicants must submit score(s) from one of the following tests:
- TOEFL
- IELTS

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.8 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.

Required Coursework (12 credits)
Take the following courses:
IDSC 6490 - Advanced Topics in MIS (2.0 cr)
Twin Cities Campus
Business Management Minor
CSOM Financial Services Office
Curtis L. Carlson School of Management

- Program Type: Graduate free-standing minor
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 8
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.
- Coursework is delivered through the Carlson School of Management via the following delivery methods: in-person courses on the Twin Cities campus, courses utilizing a hybrid of in-person meetings and online content delivery, or coursework delivered completely online.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The free-standing graduate-level minor in business management will enhance the preparation of graduate students to enter into organizations with a solid foundation of knowledge in key business disciplines. The business management minor program is flexible and designed to suit the particular needs and interests of the student through completion of a broad range of business core (foundation) and elective courses.

Note: Students enrolled in the master of business administration program or the business administration PhD program are not eligible for this minor.

Accreditation
This program is accredited by AACSB International

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- completely online (all program coursework can be completed online)
- primarily online (at least 80% of the instruction for the program is online with short, intensive periods of face-to-face coursework)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
Other requirements to be completed before admission:
Prior admission into an established master's or doctoral degree program at the University of Minnesota Twin Cities is required. Students must be in good academic standing within their own program to be admitted to the business minor. Students enrolled in the master of business administration program or the business administration PhD program are not eligible for this minor.

Students should first consult with their major program advisor about the advisability of a business minor and whether it is permitted by their program. They may then contact graduate program coordinator, Molly Bendzick (mollyb@umn.edu or (612) 625-7582) for more information on the minor.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Masters
Master's Business Minor
Take 8 or more credit(s) from the following:

- ACCT 5180 - Consolidations and Advanced Reporting (2.0 cr)
- ACCT 6100 - Financial Statement Analysis (2.0 cr)
- BLAW 6158 - The study of laws affecting private business and publicly-traded companies. (2.0 cr)
- ENTR 6020 - Business Formation (4.0 cr)
- ENTR 6021 - Preparing and Implementing the Business Plan (2.0 cr)
- ENTR 6036 - Managing the Growing Business (2.0 cr)
- ENTR 6037 - Corporate Venturing (2.0 cr)
- ENTR 6041 - Initiating New Product Design and Business Development (2.0 - 4.0 cr)

• SCO 6095 - Supply Chain Management in the Food and Agribusiness Sector (2.0 cr)
• SCO 6096 - Supply Chain Management in the Health Care and Medical Devices Sector (2.0 cr)
• SCO 6097 - Supply Chain Management in the Retail Sector (2.0 cr)
• SCO 6098 - Operations Excellence via Lean Thinking (2.0 cr)
• SCO 6191 - Big Data Analytics in Supply Chains (2.0 cr)
• SCO 6192 - Supply Chain Finance (2.0 cr)
• SCO 6850 - Topics in Operations and Management Science (2.0 - 4.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 40 to 44
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The business research MS is a terminal master's degree option restricted to eligible business administration PhD students who do not complete the doctoral degree. Applications to the business research MS are not otherwise considered.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Applicants must be current business administration PhD students who have completed all required core, concentration, and supporting coursework for the doctoral degree. The preliminary written examination must have been passed at the master's level, based on a set of criteria approved by the Carlson School PhD Committee comprising members from all seven areas of concentration.

Applicants must submit their test score(s) from the following:
- GRE
- GMAT
  - Total score: 650

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
- IELTS
  - Total Score: 7

Key to test abbreviations (GRE, GMAT, TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Plan C: Plan C requires 24 to 28 major credits and 16 credits outside the major. There is no final exam.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.
A minimum GPA of 3.3 is required for students to remain in good standing.

At least 4 semesters must be completed before filing a Degree Program Form.

**Areas of Concentration**
Students select one of seven areas of concentration. Concentration areas may require a first-year examination/presentation in addition to other program requirements.

**Accounting**
Students pursuing the accounting concentration must work under one of two accounting research paradigms: analytic or empirical.

**Required Accounting Coursework (24 credits)**
Take the following 24 credits:

- ACCT 8801 - Topics in Empirical Research I (2.0 cr)
- ACCT 8802 - Topics in Empirical Research II (2.0 cr)
- ACCT 8803 - Topics in Empirical Research III (2.0 cr)
- ACCT 8811 - Information Economics I (2.0 cr)
- ACCT 8812 - Information Economics II (2.0 cr)
- ACCT 8813 - Information Economics III (2.0 cr)
- ACCT 8821 - Capital Markets I (2.0 cr)
- ACCT 8822 - Capital Markets II (2.0 cr)
- ACCT 8823 - Capital Markets III (2.0 cr)
- ACCT 8831 - Analytical Research Topics I (2.0 cr)
- ACCT 8832 - Analytical Research Topics II (2.0 cr)
- ACCT 8833 - Topics in Analytical Research III (2.0 cr)

**Supporting/Methodology Coursework (16 credits)**
Courses must be chosen in consultation with the advisor or PhD coordinator. Suggested coursework is listed below.

- APEC 8001 - Applied Microeconomic Analysis of Consumer Choice and Consumer Demand (2.0 cr)
- APEC 8002 - Applied Microeconomic Analysis of Production and Choice Under Uncertainty (2.0 cr)
- APEC 8003 - Applied Microeconomic Analysis of Game Theory and Information (2.0 cr)
- APEC 8004 - Applied Microeconomic Analysis of Social Choice and Welfare (2.0 cr)
- APEC 8211 - Econometric Analysis I (2.0 cr)
- APEC 8212 - Econometric Analysis II (2.0 cr)
- CSOM 8101 - Methods and Topics in Applied Economics (2.0 - 4.0 cr)
- ECON 8003 - Microeconomic Analysis (2.0 cr)
- ECON 8004 - Microeconomic Analysis (2.0 cr)
- ECON 8205 - Applied Econometrics (2.0 cr)
- FINA 8802 - Theory of Capital Markets I: Discrete Time (2.0 cr)
- FINA 8812 - Corporate Finance I (2.0 cr)
- FINA 8813 - Corporate Finance II (2.0 cr)
- FINA 8822 - Empirical Methods in Finance (2.0 cr)
- FINA 8823 - Empirical Corporate Finance (2.0 cr)
- MATH 4603 - Advanced Calculus I (4.0 cr)
- MATH 4604 - Advanced Calculus II (4.0 cr)
- MATH 5651 - Basic Theory of Probability and Statistics (4.0 cr)
- PUBH 6325 - Data Processing with PC-SAS (1.0 cr)
- STAT 5102 - Theory of Statistics II (4.0 cr)
- STAT 8101 - Theory of Statistics I (3.0 cr)
- ACCT 8892 - Readings in Accounting (1.0 - 8.0 cr)
- ACCT 8894 - Research in Accounting (1.0 - 8.0 cr)

-OR-

**Finance**
Finance is viewed as a subfield of economics. Students achieve a strong foundation in economic theory and empirical methods.

**Required Finance Coursework (20 credits)**
Take at least 20 credits from the following list. FINA 8810, 8820, and 8890 may be taken more than once.

- FINA 8802 - Theory of Capital Markets I: Discrete Time (2.0 cr)
- FINA 8803 - Theory of Capital Markets II: Continuous Time (2.0 cr)
- FINA 8804 - Advanced Continuous Time Finance (2.0 cr)
- FINA 8810 - Topics in Asset Pricing (2.0 cr)
- FINA 8812 - Corporate Finance I (2.0 cr)
- FINA 8813 - Corporate Finance II (2.0 cr)
- FINA 8820 - Topics in Corporate Finance (2.0 cr)
- FINA 8822 - Empirical Methods in Finance (2.0 cr)
- FINA 8823 - Empirical Corporate Finance (2.0 cr)
FINA 8890 - Seminar: Finance Topics (2.0 - 4.0 cr)

Additional Required Finance Coursework (8 credits)

Take the following sequence of economics courses:

- ECON 8101 - Microeconomic Theory (2.0 cr)
- ECON 8102 - Microeconomic Theory (2.0 cr)
- ECON 8103 - Microeconomic Theory (2.0 cr)
- ECON 8104 - Microeconomic Theory (2.0 cr)

Supporting/Methodology Coursework (16 credits)

Courses must be chosen in consultation with the advisor or PhD coordinator. Other courses may be selected with advisor or PhD coordinator approval.

- ACCT 8812 - Information Economics II (2.0 cr)
- ACCT 8831 - Analytical Research Topics I (2.0 cr)
- ACCT 8832 - Analytical Research Topics II (2.0 cr)
- APEC 8211 - Econometric Analysis I (2.0 cr)
- APEC 8212 - Econometric Analysis II (2.0 cr)
- ECON 8003 - Microeconomic Analysis (2.0 cr)
- ECON 8004 - Microeconomic Analysis (2.0 cr)
- ECON 8105 - Macroeconomic Theory (2.0 cr)
- ECON 8106 - Macroeconomic Theory (2.0 cr)
- ECON 8107 - Macroeconomic Theory (2.0 cr)
- ECON 8108 - Macroeconomic Theory (2.0 cr)
- ECON 8118 - Advanced Topics in Microeconomics (2.0 cr)
- ECON 8122 - Advanced Topics in Microeconomics (2.0 cr)
- ECON 8185 - Advanced Topics in Macroeconomics (2.0 cr)
- ECON 8191 - Workshop in Mathematical Economics (1.0 cr)
- ECON 8201 - Econometric Analysis (2.0 cr)
- ECON 8205 - Applied Econometrics (2.0 cr)
- ECON 8206 - Applied Econometrics (2.0 cr)
- ECON 8207 - Applied Econometrics (2.0 cr)
- ECON 8208 - Applied Econometrics (2.0 cr)
- ECON 8211 - Econometrics (2.0 cr)
- ECON 8212 - Econometrics (2.0 cr)
- ECON 8501 - Wages and Employment (2.0 cr)
- ECON 8601 - Industrial Organization and Government Regulation (2.0 cr)
- ECON 8602 - Industrial Organization and Government Regulation (2.0 cr)
- ECON 8701 - Monetary Economics (2.0 cr)
- ECON 8702 - Monetary Economics (2.0 cr)
- ECON 8704 - Financial Economics (2.0 cr)
- ECON 8705 - Financial Economics (2.0 cr)
- MATH 8601 - Real Analysis (3.0 cr)
- FINA 8892 - Independent Study in Finance (1.0 - 8.0 cr)
- FINA 8894 - Directed Research in Finance (1.0 - 8.0 cr)

-OR-

Information and Decision Sciences

Required IDSc Coursework (15 credits)

Take all of the following courses:

- IDSC 8511 - Conceptual Topics and Research Methods in Information and Decision Sciences (3.0 cr)
- IDSC 8521 - System Development (3.0 cr)
- IDSC 8531 - Organizational Theory and Research in Information Systems (3.0 cr)
- IDSC 8541 - Introduction to Economics of Information Systems (3.0 cr)
- IDSC 8721 - Behavioral Decision Theory (3.0 cr)

Additional IDSc Required Coursework (2 credits)

Take a minimum of 2 credits from the following. 8801 may be repeated.

- IDSC 8620 - Data Mining and Personalization (3.0 cr)
- IDSC 8630 - Social Media and Online Communities (3.0 cr)
- IDSC 8801 - Research Seminar in Information and Decision Sciences (2.0 cr)

Methodology Coursework (8 credits)

Take at least 8 credits in research methodology from the following:

- APEC 8001 - Applied Microeconomic Analysis of Consumer Choice and Consumer Demand (2.0 cr)
- APEC 8002 - Applied Microeconomic Analysis of Production and Choice Under Uncertainty (2.0 cr)
- APEC 8003 - Applied Microeconomic Analysis of Game Theory and Information (2.0 cr)
- APEC 8206 - Dynamic Optimization: Applications in Economics and Management (3.0 cr)
- APEC 8211 - Econometric Analysis I (2.0 cr)
- APEC 8212 - Econometric Analysis II (2.0 cr)
CSOM 8101 - Methods and Topics in Applied Economics (2.0 - 4.0 cr)
ECON 8581 - Advanced Topics in Labor Economics (2.0 cr)
EPSY 8252 - Statistical Methods in Education II (3.0 cr)
EPSY 8264 - Advanced Multiple Regression Analysis (3.0 cr)
EPSY 8267 - Applied Multivariate Analysis (3.0 cr)
EPSY 8268 - Hierarchical Linear Modeling in Educational Research (3.0 cr)
MKTG 8842 - Quantitative Modeling I (2.0 cr)
PA 8302 - Applied Policy Analysis (4.0 cr)
PSY 5018H - Mathematical Models of Human Behavior (3.0 cr)
PSY 5862 - Psychological Measurement: Theory and Methods (3.0 cr)
PSY 5993 - Research Laboratory in Psychology (3.0 cr)
PUBH 6470 - SAS Procedures and Data Analysis (3.0 cr)
PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
PUBH 8432 - Probability Models for Biostatistics (3.0 cr)
PUBH 8442 - Bayesian Decision Theory and Data Analysis (3.0 cr)
PUBH 8804 - Advanced Quantitative Methods Seminar (3.0 cr)
SCO 8652 - Regression Analysis (3.0 cr)
SOC 8412 - Social Network Analysis: Theory and Methods (3.0 cr)
SOC 8811 - Advanced Social Statistics (4.0 cr)
STAT 8101 - Theory of Statistics 1 (3.0 cr)

**Supporting Field Coursework (16 credits)**

Courses must be chosen in consultation with the advisor or PhD coordinator.

Take 16 or more credits from the following:

• APEC 8001 - Applied Microeconomic Analysis of Consumer Choice and Consumer Demand (2.0 cr)
• APEC 8002 - Applied Microeconomic Analysis of Production and Choice Under Uncertainty (2.0 cr)
• APEC 8003 - Applied Microeconomic Analysis of Game Theory and Information (2.0 cr)
• APEC 8206 - Dynamic Optimization: Applications in Economics and Management (3.0 cr)
• APEC 8211 - Econometric Analysis I (2.0 cr)
• APEC 8212 - Econometric Analysis II (2.0 cr)
• CSCI 5980 - Special Topics in Computer Science (1.0 - 3.0 cr)
• CSCI 8551 - Intelligent Agents (3.0 cr)
• CSCI 8980 - Special Advanced Topics in Computer Science (1.0 - 3.0 cr)
• CSOM 8101 - Methods and Topics in Applied Economics (2.0 - 4.0 cr)
• ECON 8581 - Advanced Topics in Labor Economics (2.0 cr)
• ECON 8601 - Industrial Organization and Government Regulation (2.0 cr)
• ECON 8602 - Industrial Organization and Government Regulation (2.0 cr)
• EPSY 8252 - Statistical Methods in Education II (3.0 cr)
• EPSY 8264 - Advanced Multiple Regression Analysis (3.0 cr)
• EPSY 8267 - Applied Multivariate Analysis (3.0 cr)
• EPSY 8268 - Hierarchical Linear Modeling in Educational Research (3.0 cr)
• IDSC 8892 - Readings in Information and Decision Sciences (1.0 - 8.0 cr)
• IDSC 8894 - Graduate Research in Information and Decision Sciences (1.0 - 8.0 cr)
• MGMT 8101 - Theory Building and Research Design (4.0 cr)
• MGMT 8104 - PhD Seminar: Research Design (2.0 cr)
• MGMT 8302 - Seminar in Organizations Theory (4.0 cr)
• MKTG 8842 - Quantitative Modeling I (2.0 cr)
• PA 8302 - Applied Policy Analysis (4.0 cr)
• PSY 5018H - Mathematical Models of Human Behavior (3.0 cr)
• PSY 5862 - Psychological Measurement: Theory and Methods (3.0 cr)
• PSY 5993 - Research Laboratory in Psychology (3.0 cr)
• PSY 8201 - Social Cognition (3.0 cr)
• PSY 8960 - Graduate Seminar in Psychology (1.0 - 4.0 cr)
• PUBH 6470 - SAS Procedures and Data Analysis (3.0 cr)
• PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
• PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
• PUBH 8432 - Probability Models for Biostatistics (3.0 cr)
• PUBH 8442 - Bayesian Decision Theory and Data Analysis (3.0 cr)
• PUBH 8804 - Advanced Quantitative Methods Seminar (3.0 cr)
• SCO 8652 - Regression Analysis (3.0 cr)
• SOC 8412 - Social Network Analysis: Theory and Methods (3.0 cr)
• SOE 8811 - Advanced Social Statistics (4.0 cr)
• STAT 8101 - Theory of Statistics 1 (3.0 cr)
Marketing

Students pursuing the marketing concentration choose one of two focus areas: consumer behavior or quantitative/marketing strategy.

Consumer Behavior Concentration (24 credits)

Take at least 16 credits of consumer behavior seminars from the list below. Mktg 8810 can be repeated. In addition, take at least 8 credits from the quantitative/marketing strategy concentration course list.

Take 16 or more credit(s) from the following:
- MKTG 8809 - Consumer Behavior Research Methods (2.0 cr)
- MKTG 8810 - Consumer Behavior Special Topics (2.0 cr)
- MKTG 8811 - Consumer Attitudes and Persuasion I (2.0 cr)
- MKTG 8812 - Consumer Attitudes and Persuasion II (2.0 cr)
- MKTG 8813 - Consumer Judgment and Decision Making I (2.0 cr)
- MKTG 8814 - Consumer Judgment and Decision Making II (2.0 cr)

Quantitative/Marketing Strategy Concentration (24 credits)

Take at least 14 credits of quantitative/marketing strategy seminars from the list below. Mktg 8890 can be repeated. In addition, take at least 10 credits from the consumer behavior concentration course list.

Take 14 or more credit(s) from the following:
- MKTG 8831 - Seminar: Inter-Organizational Relations (4.0 cr)
- MKTG 8842 - Quantitative Modeling I (2.0 cr)
- MKTG 8843 - Quantitative Modeling II (2.0 cr)
- MKTG 8851 - Seminar: Marketing Management and Strategy I (2.0 cr)
- MKTG 8852 - Marketing Management & Strategy II (2.0 cr)
- MKTG 8890 - Seminar: Marketing Topics (1.0 - 4.0 cr)

Supporting/Methodology Coursework (16 credits)

Courses must be chosen in consultation with the advisor or PhD coordinator. Suggested courses are listed below.
- ACCT 8811 - Information Economics I (2.0 cr)
- ACCT 8831 - Analytical Research Topics I (2.0 cr)
- APEC 8211 - Econometric Analysis I (2.0 cr)
- APEC 8212 - Econometric Analysis II (2.0 cr)
- CSOM 8101 - Methods and Topics in Applied Economics (2.0 - 4.0 cr)
- ECON 8003 - Microeconomic Analysis (2.0 cr)
- ECON 8004 - Microeconomic Analysis (2.0 cr)
- ECON 8101 - Microeconomic Theory (2.0 cr)
- ECON 8102 - Microeconomic Theory (2.0 cr)
- ECON 8103 - Microeconomic Theory (2.0 cr)
- ECON 8104 - Microeconomic Theory (2.0 cr)
- ECON 8108 - Noncooperative Game Theory (2.0 cr)
- ECON 8119 - Cooperative Game Theory (2.0 cr)
- ECON 8191 - Workshop in Mathematical Economics (1.0 cr)
- ECON 8205 - Applied Econometrics (2.0 cr)
- ECON 8206 - Applied Econometrics (2.0 cr)
- ECON 8207 - Applied Econometrics (2.0 cr)
- ECON 8208 - Applied Econometrics (2.0 cr)
- ECON 8211 - Econometrics (2.0 cr)
- ECON 8212 - Econometrics (2.0 cr)
- ECON 8601 - Industrial Organization and Government Regulation (2.0 cr)
- ECON 8602 - Industrial Organization and Government Regulation (2.0 cr)
- ECON 8603 - Industrial Organization and Government Regulation (2.0 cr)
- EPSY 5221 - Principles of Educational and Psychological Measurement (3.0 cr)
- EPSY 5245 - Advanced Survey Data Analysis for Categorical and Rating Scale Data (1.0 cr)
- EPSY 5261 - Introductory Statistical Methods (3.0 cr)
- EPSY 5262 - Intermediate Statistical Methods (3.0 cr)
- EPSY 8251 - Statistical Methods in Education I (3.0 cr)
- EPSY 8252 - Statistical Methods in Education II (3.0 cr)
- EPSY 8264 - Advanced Multiple Regression Analysis (3.0 cr)
- EPSY 8267 - Applied Multivariate Analysis (3.0 cr)
- IDSC 8721 - Behavioral Decision Theory (3.0 cr)
- MKTG 8892 - Readings in Marketing (1.0 - 8.0 cr)
- MKTG 8894 - Graduate Research in Marketing (1.0 - 8.0 cr)
- MSBA 6440 - Causal Inference via Econometrics and Experimentation (3.0 cr)
- PSY 5202 - Attitudes and Social Behavior (3.0 cr)
- PSY 5204 - Psychology of Interpersonal Relationships (3.0 cr)
- PSY 5207 - Personality and Social Behavior (3.0 cr)
- PSY 5862 - Psychological Measurement: Theory and Methods (3.0 cr)
PSY 8203 - Impression Management (3.0 cr)
PSY 8208 - Social Psychology: The Self (3.0 cr)
PSY 8209 - Research Methods in Social Psychology (3.0 cr)
PSY 8935 - Readings in Behavioral Genetics and Individual Differences Psychology (1.0 cr)
PSY 8960 - Graduate Seminar in Psychology (1.0 - 4.0 cr)
STAT 5021 - Statistical Analysis (4.0 cr)
STAT 5303 - Designing Experiments (4.0 cr)

-OR-

Supply Chain and Operations
Students complete coursework in the areas of operations and supply chain management.

Required SCO Coursework (25 credits)
Take the following courses:

SCO 8651 - Experimental Design (3.0 cr)
SCO 8652 - Regression Analysis (3.0 cr)
SCO 8711 - Research in Operations Strategy (3.0 cr)
SCO 8721 - Management of Technological Operations (3.0 cr)
SCO 8735 - Supply Chain Management (3.0 cr)
SCO 8745 - Research on Quality Management (3.0 cr)
SCO 8755 - Behavioral Operations (3.0 cr)
MGMT 8101 - Theory Building and Research Design (4.0 cr)
MGMT 8104 - PhD Seminar: Research Design (2.0 cr)

Supporting Field/Methodology Coursework (16 credits)
Take GRAD 8101 (3 cr) and at least 13 additional credits from the following list of courses. Courses must be chosen in consultation with the advisor or PhD coordinator.

GRAD 8101 - Teaching in Higher Education (3.0 cr)

Take 13 or more credit(s) from the following:

- APEC 8206 - Dynamic Optimization: Applications in Economics and Management (3.0 cr)
- APEC 8211 - Econometric Analysis I (2.0 cr)
- APEC 8212 - Econometric Analysis II (2.0 cr)
- APEC 8602 - Economics of the Environment (3.0 cr)
- EPSY 8525 - Statistical Methods in Education II (3.0 cr)
- EPSY 8266 - Statistical Analysis Using Structural Equation Methods (3.0 cr)
- EPSY 8268 - Hierarchical Linear Modeling in Educational Research (3.0 cr)
- HRIR 8802 - Core Seminar: Organizational Behavior (4.0 cr)
- MGMT 8302 - Seminar in Organizations Theory (4.0 cr)
- MKTG 8842 - Quantitative Modeling I (2.0 cr)
- MKTG 8843 - Quantitative Modeling II (2.0 cr)
- PA 5032 - Applied Regression (2.0 cr)
- PA 5033 - Multivariate Techniques (2.0 cr)
- PUBH 7405 - Biostatistics: Regression (4.0 cr)
- PUBH 7406 - Advanced Regression and Design (4.0 cr)
- PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
- PUBH 7475 - Statistical Learning and Data Mining (3.0 cr)
- PUBH 8475 - Statistical Learning and Data Mining (3.0 cr)
- PUBH 8804 - Advanced Quantitative Methods Seminar (3.0 cr)
- SCO 8892 - Readings in Operations and Management Science (1.0 - 8.0 cr)
- SCO 8894 - Graduate Research in Operations and Management Science (1.0 - 8.0 cr)
- SOC 5811 - Social Statistics for Graduate Students [MATH] (4.0 cr)
- STAT 5021 - Statistical Analysis (4.0 cr)
- STAT 5101 - Theory of Statistics I (4.0 cr)
- STAT 5102 - Theory of Statistics II (4.0 cr)
- STAT 5302 - Applied Regression Analysis (4.0 cr)
- STAT 5421 - Analysis of Categorical Data (3.0 cr)
- STAT 5701 - Statistical Computing (3.0 cr)
- STAT 8051 - Advanced Regression Techniques: linear, nonlinear and nonparametric methods (3.0 cr)
- STAT 8311 - Linear Models (4.0 cr)

-OR-

Strategic Management and Entrepreneurship
Students focus on leadership, strategy, and entrepreneurship connecting the external worlds of competition and collaboration.

Required SME Coursework (16 credits)
Take the following courses:

CSOM 8101 - Methods and Topics in Applied Economics (2.0 - 4.0 cr)
MGMT 8102 - Research Methods I - Applied Empirical Methods (2.0 cr)
MGMT 8302 - Seminar in Organizations Theory (4.0 cr)
MGMT 8401 - Seminar in Strategy Content (2.0 - 4.0 cr)
MGMT 8403 - Strategy Seminar (4.0 cr)
MGMT 8501 - Seminar in Entrepreneurship (2.0 - 4.0 cr)

SME Elective Coursework (8 credits)
Take at least 8 credits of SME electives from the list below.
MGMT 8101 - Theory Building and Research Design (4.0 cr)
MGMT 8104 - PhD Seminar: Research Design (2.0 cr)
MGMT 8202 - Seminar in International Management (2.0 cr)
MGMT 8402 - Seminar in Behavioral Strategy (2.0 cr)
MGMT 8404 - Topics in Strategy 1 (2.0 - 4.0 cr)
MGMT 8405 - Seminar in Technology Strategy (2.0 cr)

Supporting /Methodology Coursework (16 credits)
Take a minimum of 16 credits of supporting field/methodology coursework. APEC 8211 (2 cr), APEC 8212 (2 cr) and GRAD 8101 (3 cr) are required. Take an additional 9 credits minimum from the list below.
APEC 8211 - Econometric Analysis I (2.0 cr)
APEC 8212 - Econometric Analysis II (2.0 cr)
GRAD 8101 - Teaching in Higher Education (3.0 cr)

Additional Supporting/Methodology Coursework
Take 9 or more credit(s) from the following:
- APEC 8001 - Applied Microeconomic Analysis of Consumer Choice and Consumer Demand (2.0 cr)
- APEC 8003 - Applied Microeconomic Analysis of Game Theory and Information (2.0 cr)
- APEC 8004 - Applied Microeconomic Analysis of Social Choice and Welfare (2.0 cr)
- CSCI 5980 - Special Topics in Computer Science (1.0 - 3.0 cr)
- EPSY 8251 - Statistical Methods in Education I (3.0 cr)
- EPSY 8252 - Statistical Methods in Education II (3.0 cr)
- EPSY 8264 - Advanced Multiple Regression Analysis (3.0 cr)
- EPSY 8268 - Hierarchical Linear Modeling in Educational Research (3.0 cr)
- FINA 8823 - Empirical Corporate Finance (2.0 cr)
- HINF 5502 - Python Programming Essentials for the Health Sciences (1.0 cr)
- MATH 5651 - Basic Theory of Probability and Statistics (4.0 cr)
- MGMT 8892 - Readings in Management Theory and Administration (1.0 - 8.0 cr)
- MGMT 8894 - Graduate Research in Management Theory and Administration (1.0 - 8.0 cr)
- MKTG 8811 - Seminar: Inter-Organizational Relations (4.0 cr)
- FA 8302 - Applied Policy Analysis (4.0 cr)
- POL 8106 - Quantitative Political Science I (3.0 cr)
- PUBH 8804 - Advanced Quantitative Methods Seminar (3.0 cr)
- PUBH 8811 - Research Methods in Health Care (3.0 cr)
- SOC 8412 - Social Network Analysis: Theory and Methods (3.0 cr)
- SOC 8701 - Sociological Theory (4.0 cr)
- SOC 8721 - Social Psychology: Micro-Sociological Approaches to Inequalities and Identities (3.0 cr)
- SOC 8735 - Sociology of Culture (3.0 cr)
- SOC 8801 - Sociological Research Methods (4.0 cr)
- SOC 8811 - Advanced Social Statistics (4.0 cr)
- SOC 8890 - Advanced Topics in Research Methods (2.0 - 3.0 cr)
- STAT 8051 - Advanced Regression Techniques: linear, nonlinear and nonparametric methods (3.0 cr)

-OR-

Work and Organizations
Students complete multidisciplinary coursework covering organizational behavior, human resource management, organizational economics, personnel economics, labor relations, and related areas.

Required WOrg Coursework (28 credits)
Take HRIR 8820 4 times for a total of 8 credits. Take HRIR 8825 4 times for a total of 4 credits. Take 28 or more credit(s) from the following:
- HRIR 8801 - Core Seminar: Fundamentals of Economic Analysis for Work and Organizations (4.0 cr)
- HRIR 8802 - Core Seminar: Organizational Behavior (4.0 cr)
- HRIR 8803 - Core Seminars: Fundamentals of HR Research (4.0 cr)
- HRIR 8812 - Core Seminar: Research Methods in Work and Organizations (4.0 cr)
- HRIR 8820 - Seminar: Special Topics in Work and Organizations Research (2.0 cr)
- HRIR 8825 - Research Practicum/Workshop (1.0 cr)

Supporting/Methodology Coursework (16 credits)
Take a minimum of 16 credits of supporting field/methodology coursework which must include: EPSY 8264 (3 cr); Psy 5862 (3 cr); APEC 5031 (3 cr) or, APEC 8211 and APEC 8212 (2 cr each); and 7 additional credits of supporting field coursework from the list below.
EPSY 8264 - Advanced Multiple Regression Analysis (3.0 cr)
PSY 5862 - Psychological Measurement: Theory and Methods (3.0 cr)

**Required Supporting/Methodology course**
Take either APEC 5031 (3 cr) or, APEC 8211 and APEC 8212 (2 cr each).
Take 3 or more credit(s) from the following:
- APEC 5031 - Methods of Economic Data Analysis (3.0 cr)
- APEC 8211 - Econometric Analysis I (2.0 cr)
- APEC 8212 - Econometric Analysis II (2.0 cr)

**Additional supporting/methodology coursework**
Take 7 or more credit(s) from the following:
- APEC 8003 - Applied Microeconomic Analysis of Game Theory and Information (2.0 cr)
- APEC 8501 - Labor Economics I (2.0 cr)
- APEC 8502 - Labor Economics II (2.0 cr)
- CSOM 8101 - Methods and Topics in Applied Economics (2.0 - 4.0 cr)
- ECON 8205 - Applied Econometrics (2.0 cr)
- ECON 8206 - Applied Econometrics (2.0 cr)
- EPSY 5247 - Qualitative Methods in Educational Psychology (3.0 cr)
- EPSY 5261 - Introductory Statistical Methods (3.0 cr)
- EPSY 8266 - Statistical Analysis Using Structural Equation Methods (3.0 cr)
- EPSY 8268 - Hierarchical Linear Modeling in Educational Research (3.0 cr)
- EPSY 8282 - Statistical Analysis of Longitudinal Data (3.0 cr)
- HRIR 8991 - Independent Study in Human Resources and Industrial Relations (1.0 - 8.0 cr)
- MGMT 8101 - Theory Building and Research Design (4.0 cr)
- MGMT 8104 - PhD Seminar: Research Design (2.0 cr)
- PSY 8208 - Social Psychology: The Self (3.0 cr)
- PSY 8664 - Personality Assessment (3.0 cr)
- PSY 8701 - Seminar in Industrial and Organizational Psychology I (3.0 cr)
- PSY 8702 - Seminar in Industrial and Organizational Psychology II (3.0 cr)
- PSY 8960 - Graduate Seminar in Psychology (1.0 - 4.0 cr)
- PUBH 6724 - The Health Care System and Public Health (3.0 cr)
- PUBH 6832 - Economics of the Health Care System (3.0 cr)
- PUBH 6861 - Health Insurance (2.0 cr)
- SOC 8590 - Topics in Life Course Sociology (3.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Business Taxation

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

As one of the premier graduate tax programs in the nation, the Carlson School Master of Business Taxation (MBT) program helps students acquire a conceptual understanding of taxation, and develop technical competence in the practical application of the rules of taxation in business. In addition, courses in government and economic tax policy, tax negotiations, and tax technology and analytics provide breadth to complement the technical tax courses. Courses are also designed to develop a students analytical, problem solving, writing and communication skills to enable them to more quickly advance their careers.

The program gives students a chance to learn from world-class faculty who are distinguished professionals with extensive real-life experience. The faculty have in-depth knowledge of the tax industry and work closely with the Twin Cities business community. Combining rigorous coursework and top faculty from the tax community brings a broad perspective into the relationship between tax and business issues, which helps prepare graduates for greater responsibilities in business management and consulting.

Historically, more than 80 percent of students are employed in the business community and take courses on a part-time basis. Students are able to complete their degree requirements completely online if they choose. The MBTs online courses are asynchronous, divided into weekly modules. They are designed by online learning experts and employ the latest technologies. In addition, the program continues to offer a limited number of in-person courses in the evenings, Monday-Thursday, 5:45-9:05 p.m. or on a compressed schedule. To free tax professionals from coursework responsibilities during the busiest part of tax season, no courses are offered during the spring semester from early March through April 15. Students enrolled part-time can expect to complete the program in approximately three years. Students enrolled full-time can complete the program in one year.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- completely online (all program coursework can be completed online)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
Required prerequisites
Introduction to Accounting
ACCT 2050 - Introduction to Financial Reporting (4.0 cr)
or equivalent course taken at another institution

Introduction to Federal Income Tax
ACCT 5135 - Fundamentals of Federal Income Tax (4.0 cr)
or equivalent course at another institution

Other requirements to be completed before admission:
Applicants must have a bachelor's degree from an accredited college or university.

The following required prerequisite courses may be taken after being admitted to the MBT program, but must be taken before being
eligible to take any MBT courses: ACCT 2050 and ACCT 5135. Equivalent courses may be substituted with approval of the director of graduate studies.

**Special Application Requirements:**

- **Fall application deadline:** June 15
- **Spring application deadline:** October 15
- **Summer application deadline:** March 15

Applicants must submit all application materials through the University’s admission system.

A GMAT or LSAT (Law School Admission Test) score that is not more than five years old is required. The GMAT score must be sent directly from GMAT to be considered official. The GMAT requirement will be waived for domestic students in the following cases: 1) applicant has a CPA license (either active or inactive), 2) applicant has at least two years of relevant U.S. based tax-related work experience within the prior five years, or 3) applicant is a Carlson School accounting graduate within the prior five years. In order for the waiver to apply, the applicant must have a minimum 3.0 undergraduate GPA from an accredited university.

Applicants may submit their copy of their LSAT score to the MBT office.

For international applicants, the results from one of the following English language tests are required: TOEFL, IELTS, MELAB. TOEFL scores must be received directly from TOEFL. IELTS and MELAB scores must be received directly from the testing center.

For additional application details, review the M.B.T. admissions webpages.

For an online application or for more information about graduate education admissions, see the [General Information](#) section of the catalog website.

**Program Requirements**

**Plan C:** Plan C requires 30 major credits and up to null credits outside the major. There is no final exam.

This program may not be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

**Required Courses (20 credits)**

- Take the following courses:
  - MBT 5200 - Tax Accounting Methods I (2.0 cr)
  - MBT 5201 - Tax Accounting Methods II (2.0 cr)
  - MBT 5220 - Tax Research, Communication, and Practice (4.0 cr)
  - MBT 5230 - Corporate Taxation I (2.0 cr)
  - MBT 5323 - Corporate Taxation II (2.0 cr)
  - MBT 5340 - Taxation of Partners and Partnerships (2.0 cr)
  - MBT 5347 - Tax Technology and Analytics Fundamentals (2.0 cr)
  - MBT 5360 - State and Local Taxation (2.0 cr)
  - MBT 5380 - Tax Aspects of International Business I (2.0 cr)

**Elective Courses (10 credits)**

Select 10 credits from the following list. Other courses may be applied to this requirement with prior approval from the MBT director of graduate studies.

- MBT 5226 - Negotiation Techniques in Taxation (2.0 cr)
- MBT 5333 - Tax Aspects of Consolidated Returns (2.0 cr)
- MBT 5335 - Taxation of the Small Business Corporation (2.0 cr)
- MBT 5346 - ASC 740 Computations and Analysis (2.0 cr)
- MBT 5348 - Advanced ASC 740 Concepts (2.0 cr)
- MBT 5350 - Wealth Transfer I (Estates and Gifts) (2.0 cr)
- MBT 5353 - Trusts and Estates (2.0 cr)
- MBT 5363 - Compensation and Benefits (2.0 cr)
- MBT 5370 - Taxation of Property Transactions (2.0 cr)
- MBT 5381 - Tax Aspects of International Business II (2.0 cr)
- MBT 5382 - Transfer Pricing (2.0 cr)
- MBT 5500 - Business, Government, and Economic Tax Policy (2.0 cr)
Program Sub-plans
A sub-plan is not required for this program.
Students may not complete the program with more than one sub-plan.

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 56
- This program requires summer semesters for timely completion.
- The program will be taught by faculty members from Tsinghua SEM in Beijing, China and the Carlson School in equal proportions with each school responsible for delivering 50% of the curriculum. The program will be offered in modular format. A total of 16 modules will be required with 2 modules back-to-back in the middle of the program at the Carlson School. All overseas modules will occur in Beijing. Instruction will occur in hotels and on campus at Tsinghua University.
- Degree: Doctor of Business Administration

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The proposed 56-credit, cohort-based DBA program is an applied, professional doctoral program directed at high-level executives working in China and the surrounding region. The DBA will go beyond the MBA to prepare participants to better face challenges and pursue opportunities in a complex, global business environment. The program will focus on the application rather than the creation of knowledge. A required thesis will involve an applied perspective that yields case studies or comparative studies of corporate actions. The program is a part-time, cohort-based program for fully-employed individuals. Course instruction for the DBA program will be provided by faculty members from both the Carlson School and Tsinghua SEM.

Accreditation
This program is accredited by AACSB International

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
An appropriate baccalaureate degree or higher is required for admission.

Other requirements to be completed before admission:
15 years of high-level management experience.

Special Application Requirements:
Admission is handled through Tsinghua University, who will recruit and make recommendations on candidates. The Carlson School will either accept or reject recommended candidates. Approved students will be admitted to the University of Minnesota.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
32 credits are required in the major.
24 thesis credits are required.

This program may not be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

**CORE COURSES**
Students must complete all of the following courses:
Take exactly 32 credit(s) from the following:
- GDBA 7101 - Critical Thinking and Leadership (2.0 cr)
- GDBA 7102 - Exploration of Tsinghua University (2.0 cr)
- GDBA 7103 - Financial Market and Investment Decision Making (2.0 cr)
- GDBA 7104 - International Environment and National Strategy (2.0 cr)
- GDBA 7105 - Management Psychology (2.0 cr)
- GDBA 7106 - Management Wisdom Learned from History (2.0 cr)
- GDBA 7107 - Sinology Wisdom and Management Innovation (2.0 cr)
- GDBA 7108 - The Macroeconomic Situation and Policy (2.0 cr)
- GDBA 7201 - Global Strategic Alliances (2.0 cr)
- GDBA 7202 - Innovation through Emerging Technologies (2.0 cr)
- GDBA 7203 - Marketing Strategies for Firms in the Era of Globalization (1.0 cr)
- GDBA 7204 - Qualitative Research Methods (1.0 cr)
- GDBA 7205 - Global Accounting (1.0 cr)
- GDBA 7206 - Mergers and Acquisitions (1.0 cr)
- GDBA 7207 - Family Wealth Management (1.0 cr)
- GDBA 7208 - Management of Headquarters (1.0 cr)
- GDBA 7209 - Service Operations Management (1.0 cr)
- GDBA 7210 - Fundamental Data Analysis (1.0 cr)
- GDBA 7211 - Global Branding (2.0 cr)
- GDBA 7212 - Global Talent Management (2.0 cr)

**Thesis Credits**
Take exactly 24 credit(s) from the following:
- GDBA 7888 - Thesis (12.0 cr)
Twin Cities Campus
Finance M.S.
Finance

Website: https://carlsonschool.umn.edu/degrees/master-science-in-finance

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 39
- This program requires summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The 39-credit master of science program in finance provides students with an advanced understanding of the tools and methods used in businesses and in financial markets. The program focuses on combining financial theory with quantitative and computational methods and real-world applications. Students can complete this full-time graduate program in 12 or 16 months. Graduates will be able to analyze and interpret complex financial data and communicate its implications. Successful applicants begin their MS studies in summer (July).

Accreditation
This program is accredited by AACSB International. The M.S. in Finance is STEM designated.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Applicants must have a bachelor's degree from accredited college or university.

Other requirements to be completed before admission:
- University level courses in calculus and statistics are required.
- Linear algebra is recommended, but not required.
- Work experience is not required, but preferred.

Special Application Requirements:
Applicants must submit all application materials through the University's admissions system. Application materials include:
- A GMAT or GRE General Test that is not more than five years old, with an acceptable score. A GMAT/GRE waiver is available for qualified candidates.
- For international students, an acceptable score on the Test of English as a Foreign Language (TOEFL) International Language Testing System (IELTS).
- Two letters of recommendations need to be submitted through the online application.
- A personal statement of career goals, and objectives for pursuing a MS Finance degree. The personal statement questions are the following: Briefly describe your short-term and long-term career goals. Why are you choosing to pursue an MS in Finance at this time in your career, and what are you hoping to accomplish by doing so? Why are you interested in pursuing an MS degree in Finance at the Carlson School of Management? What do you feel makes you a strong candidate for the program? How will you contribute to the MS in Finance program overall? Applicants must submit a current resume that includes job responsibilities and accomplishments in the online application.
- Applicants may choose to submit an essay to comment on any item(s) in their application they consider worthy of further explanation.
- Video Essay
- Applicants may be required to complete an admissions interview, which are by invitation only.

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of September 04, 2020
Applicants must submit their test score(s) from the following:

- GRE
- GMAT

International applicants must submit score(s) from one of the following tests:

- TOEFL
- IELTS

Key to test abbreviations (GRE, GMAT, TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

**Plan C:** Plan C requires 39 major credits and up to null credits outside the major. There is no final exam.

This program may not be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.8 is required for students to remain in good standing.

**Required Courses: Summer (9 credits)**

Take the following courses:
- MSF 6421 - Computing for Finance: Excel/VBA I & II (2.0 cr)
- MSF 6221 - Fundamentals of Finance I (2.0 cr)
- MSF 6031 - Financial Accounting (3.0 cr)
- MSF 6920 - Introduction to Python (2.0 cr)

**Required Courses: Fall (16 credits)**

Take the following courses:
- MSF 6422 - Financial Econometrics and Computational Methods I (2.0 cr)
- MSF 6223 - Fundamentals of Finance III (2.0 cr)
- MSF 6423 - Financial Econometrics and Computational Methods II (2.0 cr)
- MSF 6322 - Corporate Valuation and Modeling (2.0 cr)
- MSF 6222 - Fundamentals of Finance II (2.0 cr)
- MSF 6121 - Fixed Income and Securities (2.0 cr)
- MSF 6321 - Quantitative Portfolio Analysis (2.0 cr)

**Required Courses: Spring (10 credits)**

Take the following courses:
- MSF 6821 - Experiential Learning (4.0 cr)
- MSF 6522 - Derivatives and Risk Management (2.0 cr)
- MSF 6424 - Introduction to Machine Learning for Finance (2.0 cr)
- MSF 6621 - Finance within the Macroeconomy (2.0 cr)

**Electives (4 credits)**

Select 4 elective credits from the following, or graduate courses offered by other departments in the business school upon approval.
- FINA 6325 - Behavioral Finance (2.0 cr)
- FINA 6621 - International Financial Management (2.0 cr)
- FINA 6222 - Mergers and Acquisitions (2.0 cr)
- FINA 6324 - Securitization Markets (2.0 cr)
- FINA 6341 - World Economy (4.0 cr)

**Non-Credit Courses**

Noncredit 1: On occasion, external speakers will be brought in to enhance the experiential learning component of the MS finance program. Students are required to attend such meetings, and their participation will be assessed on a pass/fail basis.

Noncredit 2: Students will be required to pass the online ethics module from the Chartered Financial Analyst Institute by the end of the summer. Successful completion will be a requirement of the Fundamentals of Finance II course.
Joint- or Dual-degree Coursework: MS-Finance/MS-Business Analytics Student may take a total of 22 credits in common among the academic programs.

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 48 to 49
- This program does not require summer semesters for timely completion.
- Degree: Masters Human Resources and Industrial Relations

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Human resources and industrial relations (HRIR) students study the employment relationship. Teaching and research are guided by the belief that the employment relationship must be investigated through the lenses of different disciplines using systems thinking. The professional master of arts degree is for individuals interested in private and public sector careers in human resource management, labor relations, and related fields.

The curriculum is structured around the core HRIR areas of staffing, training, and development; compensation and benefits; and labor relations and collective bargaining. It is rooted in key concepts from the social and behavioral sciences and business, such as organizational behavior and theory, labor market analysis, leadership, and strategy. Quantitative analysis of employment problems and issues are also included. Master's candidates are encouraged to choose electives to support a generalist orientation with key business knowledge.

MHRIR offers both full and part-time options.

Accreditation
This program is accredited by Association to Advance Collegiate Schools of Business (AACSB).

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Other requirements to be completed before admission:
Entering students have undergraduate degrees in many subjects ranging from the fine arts to engineering. The most common undergraduate majors of incoming students are in the areas of psychology, business, economics, human resources management, human resource development, and speech communication. An undergraduate course in microeconomics must be completed with a grade of at least C before matriculating.

Special Application Requirements:
Applicants must submit three letters of recommendation, a complete set of transcripts, a résumé, personal statements, and GRE or GMAT scores. Applicants whose native language is not English must also submit score results from the TOEFL or IELTS. Students may enter the full-time MHRIR program in the fall and the part-time MHRIR program in either the fall or spring semesters. The application deadlines are June 15 for fall admission and October 15 for spring admission. The MHRIR financial aid deadline for fall semester is February 1. Applicants are encouraged to apply by the deadlines, however applications are accepted after the deadlines have passed if space allows.

Applicants must submit their test score(s) from the following:
- GRE
- GMAT

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of September 04, 2020
International applicants must submit score(s) from one of the following tests:

- **TOEFL**
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- **Paper Based - Total Score**: 550

- **IELTS**
  - Total Score: 6.5
  - Reading Score: 6.5
  - Writing Score: 6.5

Key to test abbreviations (GRE, GMAT, TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

### Program Requirements

**Plan C:** Plan C requires 40 to 41 major credits and 8 credits outside the major. There is no final exam.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.8 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

The MHRIR is offered as a coursework-only program with day (full-time) and evening (part-time) options. Commonly selected related fields include accounting, finance, operations management, managerial communications, economics, human resource development, law, psychology, public affairs, sociology, and research methods.

#### Core Courses (24 credits)

Take the following courses.

- **HRIR 6001** - Business Principles for the HRIR Professional (4.0 cr)
- **HRIR 6111** - Using Data and Metrics in Human Resources and Industrial Relations (4.0 cr)
- **HRIR 6301** - Staffing, Training, and Development (4.0 cr)
- **HRIR 6401** - Organizational Theory Foundations of High-Impact HRIR (2.0 cr)
- **HRIR 6441** - Organizational Behavior Foundations of High-Impact HRIR (2.0 cr)
- **HRIR 6501** - Compensation and Benefits (4.0 cr)
- **HRIR 6701** - Labor Relations and Collective Bargaining (4.0 cr)

**HRIR Leadership Practicum (0-1 credit)**

All full-time students must take HRIR 6805 twice for a total of one credit. Part-time students are exempt from this requirement.

**HRIR 6805** - HRIR Leadership Practicum (0.5 cr)

#### Economic Issues Analysis (2-3 credits)

Select one of the following courses.

- **HRIR 5655** - Public Policies on Work and Pay (3.0 cr)
- *or* **HRIR 5662** - Personnel Economics (2.0 cr)

#### Capstone (2 credits)

Take the following course.

**HRIR 6801** - HRIR in Practice: Strategy, Execution, and Ethics (2.0 cr)

#### Electives (20 credits)

Complete at least 12 credits of HRIR electives and at least 8 credits of related field electives.

Take 20 or more credit(s) including 2 or more sub-requirements(s) from the following:

**HRIR Electives**

Take 12 or more credit(s) from the following:

- **HRIR 5000** - Topics in HRIR (2.0 cr)
- **HRIR 5222** - Creating and Managing Diversity and Inclusion (2.0 cr)
• HRIR 5252 - Employment and Labor Law for the HRIR Professional (2.0 cr)
• HRIR 5442 - Employee Performance Management: Strategies, Systems, and Skills (2.0 cr)
• HRIR 5443 - Principles of Effective Coaching (2.0 cr)
• HRIR 5992 - Independent Study in Human Resources and Industrial Relations (1.0 - 8.0 cr)
• HRIR 6000 - Graduate Topics in Human Resources and Industrial Relations (1.0 - 8.0 cr)
• HRIR 6114 - Human Resource Information Systems (2.0 cr)
• HRIR 6302 - Staffing and Selection: Strategic and Operational Concerns (2.0 cr)
• HRIR 6303 - Employee Training: Creating a Learning Organization (2.0 cr)
• HRIR 6304 - Employee Development: Creating a Competitive Advantage (2.0 cr)
• HRIR 6444 - Employee Motivation, Engagement, and Well-being (2.0 cr)
• HRIR 6484 - Management of Teams (2.0 cr)
• HRIR 6502 - Rewards Management Strategies (2.0 cr)
• HRIR 6503 - Employer-Sponsored Employee Benefit Programs (2.0 cr)
• MGMT 6465 - Leadership and Personal Development (2.0 cr)
• Related Field
Take 8 or more credit(s) from the following:
• CSPH 5807 - Mindfulness in the Workplace: Pause, Practice, Perform (2.0 cr)
• IBUS 5xxx
• IBUS 6xxx
• IDSC 6040 - Information Technology Management (2.0 cr)
• IDSC 6471 - Knowledge Management (2.0 cr)
• IDSC 6481 - Managerial Decision Making (2.0 cr)
• LAW 6203 - Labor Law (2.0 cr)
• LAW 6631 - Employment Discrimination (3.0 cr)
• LAW 6632 - Employment Law (3.0 cr)
• LAW 6633 - Alternative Dispute Resolution (2.0 cr)
• MBA 6030 - Financial Accounting (3.0 cr)
• MBA 6210 - Marketing Management (3.0 cr)
• MBA 6220 - Supply Chain & Operations (3.0 cr)
• MBA 6230 - Financial Management (3.0 cr)
• MBA 6300 - Strategic Management (3.0 cr)
• MBA 6315 - The Ethical Environment of Business (2.0 cr)
• MCOM 5400 - Managerial Communications for the HR Professional (2.0 cr)
• MCOM 5510 - Persuasive Writing in Business (2.0 cr)
• MCOM 5530 - Strategies and Skills for Managerial Presentations (2.0 cr)
• MGMT 6004 - Negotiation Strategies (2.0 cr)
• MGMT 6033 - Managing the Strategy Process (2.0 cr)
• MGMT 6035 - Complex and Cross-Cultural Negotiations (2.0 cr)
• MGMT 6040 - Competing Globally (2.0 cr)
• MGMT 6050 - Management of Innovation and Change (2.0 cr)
• MILI 6992 - Healthcare Delivery Innovations: Optimizing Cost and Quality (2.0 cr)
• MSBA 6250 - Analytics for Competitive Advantage (3.0 cr)
• OLPD 5033 - Foundations of Individual/Organizational Career Development (3.0 cr)
• OLPD 5048 - Cross-Cultural Perspectives on Leadership (3.0 cr)
• OLPD 5201 - Strategies for Teaching Adults (3.0 cr)
• OLPD 5202 - Perspectives of Adult Learning and Development (3.0 cr)
• OLPD 5501 - Principles and Methods of Evaluation (3.0 cr)
• OLPD 5611 - Facilitation and Meeting Skills (1.0 cr)

• PUBH 6120 - Injury Prevention in the Workplace, Community, and Home (2.0 cr)
• PUBH 6170 - Introduction to Occupational Health and Safety (3.0 cr)
• PUBH 6542 - Management of Health Care Organizations (3.0 cr)
• SCO 6041 - Project Management (2.0 cr)
• CSPH 5805 - Wellbeing in the Workplace (3.0 cr)

Joint- or Dual-degree Coursework: MBA/MHRIR
Student may take a total of 24 credits in common among the academic programs.
Program Sub-plans
A sub-plan is not required for this program.
Students may not complete the program with more than one sub-plan.

Part-Time MHRIR
This sub-plan is limited to students completing the program under Plan C.

Integrated BS-Business/Master in HRIR
The Carlson School offers an integrated Bachelor of Science in Business (BSB) and Master of Human Resources and Industrial Relations (MHRIR). The integrated degree program (IDP) offers students the opportunity to earn a bachelor's degree and a master's degree in five years. This program offers several benefits: streamlined admissions from the undergraduate to the graduate program; flexibility in fulfilling required courses for both degrees during the senior year (up to 13 credits can be applied to the graduate program); and a quicker move to more strategic HR positions in the job market. The fourth year of an IDP student's undergraduate degree will be taken as part of the first-year cohort for the MHRIR program. Coursework cannot be applied to both degree requirements. 12 of the credits taken as part of that first-year cohort will be counted towards the BSB degree and the remaining 13 will be applied to the MHRIR degree. The student must be awarded their BSB degree before finishing the MHRIR program in the fifth year of their IDP. Application to the BSB/MHRIR IDP is open to any Carlson School undergraduate student in the fall of their third (junior) year. Any student applying for the IDP program must complete all the requirements for the MHRIR application and go through the application process in its entirety.
Twin Cities Campus
International Taxation Postbaccalaureate Certificate

Accounting
Curtis L. Carlson School of Management

Contact Information:
Masters Programs in Accounting, 3-110 Carlson School of Management, 321 19th Avenue South, Minneapolis, MN 55455. Phone: 612-624-7511.
Email: mbt@umn.edu
Website: http://www.carlsonschool.umn.edu/degrees/master-business-taxation

- Program Type: Post-baccalaureate credit certificate/licensure/endorsement
- Requirements for this program are current for Fall 2020
- Length of program in credits: 12
- This program does not require summer semesters for timely completion.
- Degree: International Taxation Postbaccalaureate Cert

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The International Taxation certificate is designed for tax professionals seeking a credential that identifies them as an expert in the field while preparing graduates for greater responsibilities in business management and consulting. A rigorous curriculum, taught online by top faculty in the tax community, focuses on the analytical, problem solving, writing, and communication skills that foster career advancement. The certificate can be completed in 12 to 24 months, with breaks from early March through April 15 to accommodate schedules during peak tax season.

Program Delivery
This program is available:
- completely online (all program coursework can be completed online)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
Required prerequisites
Introduction to Financial Reporting
ACCT 2050 - Introduction to Financial Reporting (4.0 cr)
or equivalent course taken at another institution

Introduction to Federal Income Tax
ACCT 5135 - Fundamentals of Federal Income Tax (4.0 cr)
or equivalent course taken at another institution

Other requirements to be completed before admission:
Applicants must have a bachelor's degree from an accredited college or university.

Special Application Requirements:
Fall application deadline: June 15
Spring application deadline: October 15
Summer application deadline: March 15

Applicants must submit all application materials through the University's admission system.

A GMAT or LSAT (Law School Admission Test) score that is not more than five years old is required. The GMAT score must be sent directly from GMAT to be considered official. The GMAT requirement will be waived for domestic students in the following cases: 1) applicant has a CPA license (either active or inactive), 2) applicant has at least two years of relevant U.S. based tax-related work experience within the prior five years, or 3) applicant is a Carlson School accounting graduate within the prior five years. In order for the waiver to apply, the applicant must have a minimum 3.0 undergraduate GPA from an accredited university.
Applicants may submit their copy of their LSAT score to the MBT office.

For additional application details, review the MBT admissions webpages.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

Required Courses (10 credits)
Take the following courses:
- MBT 5230 - Corporate Taxation I (2.0 cr)
- MBT 5323 - Corporate Taxation II (2.0 cr)
- MBT 5380 - Tax Aspects of International Business I (2.0 cr)
- MBT 5381 - Tax Aspects of International Business II (2.0 cr)
- MBT 5382 - Transfer Pricing (2.0 cr)

Elective Course (2 credits)
Select one of the following courses to meet the 12-credit requirement:
- MBT 5200 - Tax Accounting Methods I (2.0 cr)
- MBT 5220 - Tax Research, Communication, and Practice (4.0 cr)
- MBT 5226 - Negotiation Techniques in Taxation (2.0 cr)
- MBT 5333 - Tax Aspects of Consolidated Returns (2.0 cr)
- MBT 5335 - Taxation of the Small Business Corporation (2.0 cr)
- MBT 5340 - Taxation of Partners and Partnerships (2.0 cr)

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.8 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.

Required Coursework (7 credits)
Take the following courses:

- MBA 6220 - Supply Chain & Operations (3.0 cr)
- SCO 6051 - Service Management (2.0 cr)
- SCO 6096 - Supply Chain Management in the Health Care and Medical Devices Sector (2.0 cr)

Electives (6 credits)
Select 6 credits from the following:

- MBA 6120 - Data Analysis and Statistics for Managers (3.0 cr)
- SCO 6041 - Project Management (2.0 cr)
- SCO 6045 - Strategic Sourcing (2.0 cr)
- SCO 6048 - Logistics and Transportation (2.0 cr)
- SCO 6072 - Managing Technologies in the Supply Chain (2.0 cr)
- SCO 6091 - Process Improvement Methods (2.0 cr)
- SCO 6092 - Supply Chain Risk and Security (2.0 cr)
- SCO 6094 - Responsible Supply Chain Management (2.0 cr)
- SCO 6098 - Operations Excellence via Lean Thinking (2.0 cr)
- SCO 6191 - Big Data Analytics in Supply Chains (2.0 cr)
- SCO 6192 - Supply Chain Finance (2.0 cr)

Email: msscm@umn.edu
Website: https://carlsonschool.umn.edu/degrees/master-science-in-supply-chain-management

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 32
- This program requires summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The one-year, 32-credit MS degree in supply chain management will provide students with an end-to-end view of supply chain and will develop both their strategic and analytical capabilities needed to manage supply chains. The hallmarks of this MS degree will include leadership development as a programmatic theme, global immersion, corporate social responsibility and the flexibility to focus on supply chain management in specific industry sectors that are foundational to the economy of the State of Minnesota such as health care and medical devices, food and agribusiness, and retail.

Accreditation
This program is accredited by AACSB International. The M.S. in Supply Chain Management is STEM designated.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Applicants must have a bachelor's degree from an accredited college or university.

Other requirements to be completed before admission:
A minimum of 3 years of work experience is required.

Special Application Requirements:
Applicants must submit all application materials through the University's admissions system. Application materials include:
- A GMAT or GRE General Test that is not more than five years old, with an acceptable score. A GMAT/GRE waiver is available for qualified candidates.
- For international students, an acceptable score on the Test of English as a Foreign Language (TOEFL) International Language Testing System (IELTS).
- Two letters of recommendations need to be submitted through the online application.
- A personal statement of career goals, and objectives for pursuing a M.S. degree in Supply Chain Management at this time in your career, and what are you hoping to accomplish by doing so? Why are you interested in pursuing an M.S. degree in Supply Chain Management at the Carlson School of Management? What do you feel makes you a strong candidate for the program? How will you contribute to the M.S. in Supply Chain Management program overall? Applicants must submit a current resume that includes job responsibilities and accomplishments in the online application.
- Applicants may choose to submit an essay to comment on any item(s) in their application they consider worthy of further explanation.
- Applicants may be required to complete an admissions interview, which are by invitation only.
- Video essay.

Applicants must submit their test score(s) from the following:
- GRE
• GMAT

International applicants must submit score(s) from one of the following tests:
• TOEFL
• IELTS

Key to test abbreviations (GRE, GMAT, TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan C: Plan C requires 32 major credits and up to null credits outside the major. There is no final exam.

This program may not be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.8 is required for students to remain in good standing.

Core Courses: Fall (12 credits)
- SCO 6290 - Managing Supply Chain Operations (4.0 cr)
- SCO 6190 - Statistics (2.0 cr)
- SCO 6191 - Big Data Analytics in Supply Chains (2.0 cr)
- SCO 6098 - Operations Excellence via Lean Thinking (2.0 cr)
- SCO 6090 - Sales, Inventory, and Operations Planning (2.0 cr)

Core Courses: Spring (8 credits)
- SCO 6072 - Managing Technologies in the Supply Chain (2.0 cr)
- SCO 6094 - Responsible Supply Chain Management (2.0 cr)
- SCO 6045 - Strategic Sourcing (2.0 cr)
- SCO 6048 - Logistics and Transportation (2.0 cr)

Core Courses: Summer (6 credits)
- SCO 6192 - Supply Chain Finance (2.0 cr)
- SCO 6292 - Global Operations Capstone (4.0 cr)

Core Course: Leadership Development - All Year (Fall, Spring and Summer) (2 credits)
- SCO 6291 - Leadership Development (0.0 - 2.0 cr)

Spring Electives (4 credits)
- SCO 6095 - Supply Chain Management in the Food and Agribusiness Sector (2.0 cr)
- SCO 6096 - Supply Chain Management in the Health Care and Medical Devices Sector (2.0 cr)
- SCO 6097 - Supply Chain Management in the Retail Sector (2.0 cr)
- SCO 6041 - Project Management (2.0 cr)
- SCO 6092 - Supply Chain Risk and Security (2.0 cr)
- SCO 6093 - Negotiations in Supply Chain (2.0 cr)
- MGMT 6004 - Negotiation Strategies (2.0 cr)

Contact Information:
Masters Programs in Accounting, 3-110 Carlson School of Management, 321 19th Avenue South, Minneapolis, MN 55455. Phone: 612-624-7511. Email: mbt@umn.edu
Website: http://www.carlsonschool.umn.edu/degrees/master-business-taxation

Program Type: Post-baccalaureate credit certificate/licensure/endorsement
Requirements for this program are current for Fall 2020
Length of program in credits: 12
This program does not require summer semesters for timely completion.
Degree: Tax Executive Postbaccalaureate Certificate

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Tax Executive certificate is designed primarily for tax professionals working in tax departments of large corporations. It prepares graduates for greater responsibilities within their tax department. A rigorous curriculum, taught online by top faculty in the tax community, focuses on the analytical, problem solving, writing, and communication skills that foster career advancement. The certificate can be completed in 12 to 24 months, with breaks from early March through April 15 to accommodate schedules during peak tax season.

Program Delivery
This program is available:
• completely online (all program coursework can be completed online)
• partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
Required prerequisites
Introduction to Financial Reporting
ACCT 2050 - Introduction to Financial Reporting (4.0 cr)
or equivalent course taken at another institution

Introduction to Federal Income Tax
ACCT 5135 - Fundamentals of Federal Income Tax (4.0 cr)
or equivalent course taken at another institution

Other requirements to be completed before admission:
Applicants must have a bachelor's degree from an accredited college or university.

Special Application Requirements:
Fall application deadline: June 15
Spring application deadline: October 15
Summer application deadline: March 15

Applicants must submit all application materials through the University's admission system.

A GMAT or LSAT (Law School Admission Test) score that is not more than five years old is required. The GMAT score must be sent directly from GMAT to be considered official. The GMAT requirement will be waived for domestic students in the following cases: 1) applicant has a CPA license (either active or inactive), 2) applicant has at least two years of relevant U.S. based tax-related work experience within the prior five years, or 3) applicant is a Carlson School accounting graduate within the prior five years. In order for the waiver to apply, the applicant must have a minimum 3.0 undergraduate GPA from an accredited university.

Applicants may submit their copy of their LSAT score to the MBT office.
For additional application details, review the MBT admissions webpages.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

Required Courses (12 credits)
Take the following courses:
MBT 5230 - Corporate Taxation I (2.0 cr)
MBT 5346 - ASC 740 Computations and Analysis (2.0 cr)
MBT 5347 - Tax Technology and Analytics Fundamentals (2.0 cr)
MBT 5348 - Advanced ASC 740 Concepts (2.0 cr)
MBT 5360 - State and Local Taxation (2.0 cr)
MBT 5380 - Tax Aspects of International Business I (2.0 cr)

Information current as of September 04, 2020.
Applicants may submit their copy of their LSAT score to the MBT office.

For additional application details, review the MBT admissions webpages.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

Required Courses (10 credits)
Take the following courses:
- MBT 5200 - Tax Accounting Methods I (2.0 cr)
- MBT 5220 - Tax Research, Communication, and Practice (4.0 cr)
- MBT 5230 - Corporate Taxation I (2.0 cr)
- MBT 5340 - Taxation of Partners and Partnerships (2.0 cr)

Elective Course (2 credits)
Select one of the following courses to meet the 12-credit requirement:
- MBT 5201 - Tax Accounting Methods II (2.0 cr)
- MBT 5226 - Negotiation Techniques in Taxation (2.0 cr)
- MBT 5323 - Corporate Taxation II (2.0 cr)
- MBT 5333 - Tax Aspects of Consolidated Returns (2.0 cr)
- MBT 5335 - Taxation of the Small Business Corporation (2.0 cr)
- MBT 5346 - ASC 740 Computations and Analysis (2.0 cr)
- MBT 5347 - Tax Technology and Analytics Fundamentals (2.0 cr)
- MBT 5350 - Wealth Transfer I (Estates and Gifts) (2.0 cr)
- MBT 5353 - Trusts and Estates (2.0 cr)
- MBT 5360 - State and Local Taxation (2.0 cr)
- MBT 5363 - Compensation and Benefits (2.0 cr)
- MBT 5370 - Taxation of Property Transactions (2.0 cr)
- MBT 5380 - Tax Aspects of International Business I (2.0 cr)
- MBT 5382 - Transfer Pricing (2.0 cr)
- MBT 5500 - Business, Government, and Economic Tax Policy (2.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 30 to 32
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Note: The Integrative Biology and Physiology graduate program does not routinely accept applications directly to the MS; rather, the MS is an additional or alternative credential for students admitted to the Integrative Biology and Physiology PhD program.

The Twin Cities graduate program has a cardiovascular emphasis, although other areas of specialization are represented.

The program includes faculty and corresponding research laboratories from the Department of Integrative Biology and Physiology and also the Departments of Medicine; Surgery; Neuroscience; Neurosurgery; Biochemistry, Molecular Biology, and Biophysics; Pharmacology; Physical Medicine and Rehabilitation; Kinesiology; and Animal Science.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Special Application Requirements:
Note: The Integrative Biology and Physiology graduate program does not routinely accept applications directly to the MS; rather, the MS is an additional or alternative credential for students admitted to the Integrative Biology and Physiology PhD program.

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Paper Based - Total Score: 550
• IELTS
  - Total Score: 6.5
• MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements

**Plan A:** Plan A requires 22 major credits, 0 credits outside the major, and 10 thesis credits. The final exam is written and oral.

**Plan B:** Plan B requires 30 major credits and 0 credits outside the major. The final exam is oral. A capstone project is required.

**Capstone Project:** The Plan B project, completed under the direction of an IBP faculty member, focuses on an aspect of Physiology.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 2.80 is required for students to remain in good standing.

Twin Cities campus: Students complete the MS degree only under exceptional circumstances.

**Required Coursework (15 credits)**

Take PHSL 8232 in conjunction with PHSL 5101. Take PHSL 8294, on an S/N grade basis, at least twice for 2 credits.

- **ANSC 5702** - Cell Physiology (4.0 cr)
- **PHSL 5101** - Human Physiology (5.0 cr)
- **PHSL 8232** - Critical Reading of Journal Articles in Physiology (2.0 cr)
- **PHSL 8294** - Research in Physiology (1.0 - 18.0 cr)

**Molecular Biology and Genetics Coursework (3 credits)**

Select at least 3 credits chosen from the following in consultation with the advisor.

- **BIOC 4331** - Biochemistry I: Structure, Catalysis, and Metabolism in Biological Systems (4.0 cr)
- **BIOC 4332** - Biochemistry II: Molecular Mechanisms of Signal Transduction and Gene Expression (4.0 cr)
- **BIOC 6021** - Biochemistry (3.0 cr)
- **BIOL 4003** - Genetics (3.0 cr)
- **BIOL 4004** - Cell Biology (3.0 cr)
- **GCD 5036** - Molecular Cell Biology (3.0 cr)

**IBP Seminar Series (4 credits)**

Take PHSL 5096 at least 4 times for a minimum of 4 credits.

- **PHSL 5096** - Integrative Biology and Physiology Research Advances (1.0 cr)

**Plan Options**

**Plan A**

Take at least 10 master's thesis credits.

- **PHSL 8777** - Thesis Credits: Master's (1.0 - 18.0 cr)

- **OR**

**Plan B**

**Electives**

Select elective credits in consultation with the advisor to meet the minimum course credit requirement. Coursework may include the following courses:

- **NUTR 8620** - Advances in Nutrition (2.0 cr)
- **PHSL 5197** - Stress Physiology (1.0 cr)
- **PHSL 5701** - Physiology Laboratory (1.0 - 2.0 cr)
- **PHSL 8242** - Professional Skills Development for Biomedical Scientists (2.0 cr)
- **PUBH 6450** - Biostatistics I (4.0 cr)
- **PUBH 6451** - Biostatistics II (4.0 cr)
- **STAT 5021** - Statistical Analysis (4.0 cr)

Email: ibpdept@umn.edu
Website: http://physiology.med.umn.edu/graduate-program/

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 9
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Physiology may be defined as the application of mathematics, physics, and chemistry to the study of structure and function in living systems. As such, physiology is a "hybrid" field in which expertise from many other disciplines is ordinarily required and combined. The program emphasizes a quantitative approach to understanding the functions of cells, organs, and systems in living animals.

The graduate program in the Twin Cities has a cardiovascular emphasis, although many other areas of specialization are represented.

The program includes faculty and corresponding research laboratories from the Department of Integrative Biology and Physiology and also the Departments of Medicine; Surgery; Neuroscience; Neurosurgery; Biochemistry, Molecular Biology, and Biophysics; Pharmacology; Physical Medicine and Rehabilitation; Kinesiology; and Animal Science.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Other requirements to be completed before admission:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Integrative Biology and Physiology director of graduate studies regarding feasibility and requirements.

For the minor, a background in mathematics, physics, chemistry, and biology acceptable to the graduate faculty is required.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Students must complete the minor with a 3.00 GPA. All coursework must be taken A-F.

Coursework
Select coursework in consultation with the IBP director of graduate studies. Masters students must complete at least 9 credits; doctoral students complete at least 12 credits.
PHSL 4xxx
PHSL 5xxx
PHSL 8xxx
Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 55
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Physiology may be defined as the application of mathematics, physics, and chemistry to the study of structure and function in living systems. As such, physiology is a "hybrid" field in which expertise from many other disciplines is ordinarily required and combined.

The program emphasizes a quantitative approach to understanding the functions of cells, organs, and systems in living animals. PhD students take a core concentration that provides a broad background in the physiology of membranes, cells, transport, and organ systems. Individualized programs are structured to build on the student's strengths and to fill in gaps that would otherwise be an impediment to specific problem solving. Teaching experience is also available to all students.

The graduate program in the Twin Cities has cardiovascular, hypertension and metabolism emphases, although many other areas of specialization are represented.

Students can enter the PhD program from the Twin Cities or Duluth campus. Highly qualified individuals with solid quantitative backgrounds are encouraged to apply. In the Twin Cities, prospective students also include people with previous medical training who are already at the University of Minnesota or are considering the University of Minnesota Medical School for residency or fellowship training.

Entering PhD students are expected to take a series of laboratory rotations to familiarize themselves with active areas of research within the degree program. The program includes faculty and corresponding research laboratories from the Department of Integrative Biology and Physiology and also the Departments of Medicine; Surgery; Neuroscience; Neurosurgery; Biochemistry, Molecular Biology, and Biophysics; Pharmacology; Physical Medicine and Rehabilitation; Kinesiology; and Animal Science.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Other requirements to be completed before admission:
An undergraduate degree with at least one year (three quarters or two semesters) of calculus, one year of physics, one year of biology, and two years of chemistry is required. For the minor, a background in mathematics, physics, chemistry and biology acceptable to the graduate faculty is required.

Special Application Requirements:
There are no minimum GPA or GRE score requirements. All applicants need three letters of recommendation. Admission to the program begins in the Fall semester.
International applicants must submit score(s) from one of the following tests:
International applicants must submit score(s) from one of the following tests:

- **TOEFL**
  - Internet Based - Total Score: 107
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Paper Based - Total Score: 625

- **IELTS**
  - Total Score: 6.5

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

**Program Requirements**

31 credits are required in the major.
0 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 3 semesters must be completed before filing a Degree Program Form.

During the first year, students rotate through three to four laboratories, attend weekly seminars, choose an advisor, and begin a research project.

All coursework must be taken A/F and with an earned grade of B or higher unless offered S/N only.

**Required Coursework (21 credits)**

Take the following courses in consultation with the advisor. Take PHSL 8232 in conjunction with PHSL 5101; 2 credits of PHSL 5701; and 2 credits of PHSL 8294, on an S/N grade basis, at least twice for 4 credits.

- **ANSC 5702** - Cell Physiology (4.0 cr)
- **BIOC 8401** - Ethics, Public Policy, and Careers in Molecular and Cellular Biology (1.0 cr)
- **PHSL 5101** - Human Physiology (5.0 cr)
- **PHSL 5197** - Stress Physiology (1.0 cr)
- **PHSL 5701** - Physiology Laboratory (1.0 - 2.0 cr)
- **PHSL 8232** - Critical Reading of Journal Articles in Physiology (2.0 cr)
- **PHSL 8242** - Professional Skills Development for Biomedical Scientists (2.0 cr)
- **PHSL 8294** - Research in Physiology (1.0 - 18.0 cr)

**PhD Seminar (4 credits)**

Take PHSL 5096 at least 4 times for a total of 4 credits.

**Molecular Biology and Genetic Coursework (3 credits)**

Select at least 3 credits from the following, in consultation with the advisor.

- **BIOC 4331** - Biochemistry I: Structure, Catalysis, and Metabolism in Biological Systems (4.0 cr)
- **BIOC 4332** - Biochemistry II: Molecular Mechanisms of Signal Transduction and Gene Expression (4.0 cr)
- **BIOC 6021** - Biochemistry (3.0 cr)
- **BIOL 4003** - Genetics (3.0 cr)
- **BIOL 4004** - Cell Biology (3.0 cr)
- **GCD 5036** - Molecular Cell Biology (3.0 cr)

**Biostatistics Coursework (3 credits)**

Select at least 3 credits from the following, in consultation with the advisor.

- **PUBH 6414** - Biostatistical Literacy (3.0 cr)
- **PUBH 6450** - Biostatistics I (4.0 cr)
- **PUBH 6451** - Biostatistics II (4.0 cr)
STAT 5021 - Statistical Analysis (4.0 cr)

Thesis Credits (24 credits)
Take 24 credits of doctoral thesis credits.
PHSL 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)
Twin Cities Campus

Contact Information:
Department of Radiation Oncology
420 Delaware Street SE
MMC 494
Minneapolis, MN 55455
phone: 612-626-6505; fax: 612-626-7060
Email: alaei001@umn.edu
Website: https://www.radiationoncology.umn.edu/medical-physics-graduate-program

• Program Type: Master's
• Requirements for this program are current for Fall 2020
• Length of program in credits: 31
• This program does not require summer semesters for timely completion.
• no
• Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The program is made up of faculty members with primary appointments in the departments of radiation oncology and radiology. Affiliate faculty have primary appointments in other departments. The goal of the program is to prepare students (1) for further education, teaching, and research in medical physics, (2) to qualify to enter a medical physics residency program in radiation therapy or imaging, and (3) to provide the mathematical and technical knowledge needed to succeed in the field of medical physics.

Accreditation
This program is accredited by Commission on Accreditation of Medical Physics Education Programs, Inc. (CAMPEP)

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A degree in physics or engineering or other physical science. Equivalent of an undergraduate physics minor-at least 2 semesters of calculus based physics and at least 3 upper level physics courses.

Other requirements to be completed before admission:
All students should have some familiarity with physical chemistry, intermediate physics, intermediate mathematics, biostatistics, computer programming, biology, physiology, and biochemistry. This may be demonstrated by coursework completed at the undergraduate level or as part of the graduate program; by reading or practical experience; or by informal competency examinations.

Special Application Requirements:
Three letters of recommendation and the general GRE test are required. If the GRE was taken more than two years prior to application, the applicant may need to retake the examination. We have no absolute GRE cutoff score, but the score is taken into consideration along with other factors in the evaluation of each application. Applicants with a graduate degree from a US institution are waived the GRE requirement. Applicants are considered for admission in fall semester only.

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
IELTS
- Total Score: 6.5
• MELAB
- Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Plan B: Plan B requires 31 major credits and 0 credits outside the major. The final exam is oral.

This program may not be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 2.8 is required for students to remain in good standing.

In the fall semester of the first year, students must take University ethics training: Responsible Conduct of Research (RCR), Part 1 (a 3-hour session offered about 4 times/year) and Part 2.

Required Courses (25 Credits)
Take all of the following courses. Take MPHY 5138 for at least 1 credit.
MPHY 5138 - Research Seminar (1.0 - 5.0 cr)
MPHY 5160 - Advanced Radiation Physics and Dosimetry (3.0 cr)
MPHY 5170 - Basic Radiological Physics (3.0 cr)
MPHY 5171 - Medical and Health Physics of Imaging I (3.0 cr)
MPHY 5172 - Radiation Biology (3.0 cr)
MPHY 5173 - Medical and Health Physics of Radiation Therapy (3.0 cr)
MPHY 5174 - Medical and Health Physics of Imaging II (3.0 cr)
PHSL 5061 - Principles of Physiology for Biomedical Engineering (4.0 cr)
PHAR 5201 - Applied Medical Terminology (2.0 cr)

Electives (6 Credits)
Take at least 6 electives credits, in consultation with the advisor, to complete the 31-credit requirement.
MPHY 5177 - Radiation Therapy Physics Lab: Radiation Physics Basics (3.0 cr)
MPHY 5178 - Physical Principles of Magnetic Resonance Imaging (3.0 cr)
MPHY 8147 - Advanced Physics of Magnetic Resonance Imaging (MRI) (3.0 cr)
MPHY 8148 - Advanced Digital Imaging Science (3.0 cr)
MPHY 8149 - Advanced Topics in Radiation Therapy Physics (2.0 cr)
Twin Cities Campus
Medical Physics Ph.D.
Radiation Oncology Administration, Radiology

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 49
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The program is made up of faculty members with primary appointments in the departments of radiation oncology and radiology. Affiliate faculty have primary appointments in other departments. The goal of the program is to prepare students (1) for further education, teaching, and research in medical physics, (2) to qualify to enter a medical physics residency program in radiation therapy or imaging, and (3) to provide the mathematical and technical knowledge needed to succeed in the field of medical physics.

Accreditation
This program is accredited by Commission on Accreditation of Medical Physics Education Programs, Inc. (CAMPEP)

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A degree in physics or engineering or other physical science. Equivalent of an undergraduate physics minor-at least 2 semesters of calculus based physics and at least 3 upper level physics courses.

Special Application Requirements:
Three letters of recommendation and the general GRE test are required. If the GRE was taken more than two years prior to application, the applicant may need to retake the examination. There are no absolute GRE cutoff score, but the score is taken into consideration along with other factors in the evaluation of each application. Applicants with a graduate degree from a US institution are waived the GRE requirement. Applicants are considered for admission in fall semester only.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5
- MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).
For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
25 credits are required in the major.
0 credits are required outside the major.
24 thesis credits are required.

This program may not be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.

In the fall semester of the first year, students must take University ethics training: Responsible Conduct of Research (RCR), Part 1 (a 3-hour session offered about 4 times/year) and Part 2.

Required Courses (25 Credits)
Take the following required courses. Take MPHY 5138 for at least 1 credit.
- MPHY 5138 - Research Seminar (1.0 - 5.0 cr)
- MPHY 5160 - Advanced Radiation Physics and Dosimetry (3.0 cr)

• Program Type: Master's
• Requirements for this program are current for Fall 2020
• Length of program in credits: 34
• This program does not require summer semesters for timely completion.
• Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Note: Students are not admitted directly into the master's program; it is available only by special arrangement with the program.

Students prepare for careers in biomedical research and teaching by completing broad training in molecular biology or biological sciences, and focused specialization in one of three concentrations (microbiology, immunology, or cancer biology). The program offers exceptional research opportunities for graduate training in autoimmunity, biotechnology, cancer biology and therapy, environmental microbiology, genetic engineering of microorganisms, lymphocyte activation and development, microbial pathogenesis, molecular genetics of disease, tumor immunology, vaccine development, and vascular biology and inflammation.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Applicants must have a bachelor's degree (BS preferred).

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 96
  - Paper Based - Total Score: 600
• IELTS
  - Total Score: 7
• MELAB
  - Final score: 85

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Plan A: Plan A requires 24 major credits, up to null credits outside the major, and 10 thesis credits. The final exam is written and oral.

This program may not be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.
At least 2 semesters must be completed before filing a Degree Program Form.

During the first year of study, students will identify an advisor through completing laboratory rotations, select a focus area, and initiate thesis research. Students also must complete an ethics seminar and responsible conduct of research course their first year in the program.

All coursework must be taken for an A/F grade and completed with a minimum grade of C, unless the course is only offered for an S/N grade.

No more than one 4xxx-level elective course can be applied to this degree.

Core Coursework (4 credits)
Take one of the following 4-credit core courses in consultation with the advisor. Although only one of the 3 courses is required, taking all 3 is strongly encouraged. If students take more than one of these courses, the additional course(s) will count towards the elective coursework requirement.
MICA 8002 - Structure, Function, and Genetics of Bacteria and Viruses (4.0 cr)
MICA 8003 - Immunity and Immunopathology (4.0 cr)
MICA 8004 - Cellular and Cancer Biology (4.0 cr)

Required Coursework (4 credits)
Take both of the following courses. Take MICA 8094 twice (fall and spring semester of the first year) for 2 credits.
MICA 8012 - Writing and Reviewing a Research Proposal (2.0 cr)
MICA 8094 - Research in Microbiology, Immunology, and Cancer Biology (1.0 cr)

Practicum and Seminar Coursework
Take all of the following courses. Take MICA 8910 4 times; and MICA 8920 4 times.
MICA 5000 - Practicum: Teaching (0.0 cr)
MICA 8910 - Seminar: Faculty Research Topics (0.0 cr)
MICA 8920 - Seminar: Student Research Topics (0.0 cr)

Elective Coursework
Select electives, in consultation with the advisor, to complete the 24 course credits required. Use of 4xxx- and 5xxx-level courses is restricted to either two 5-level courses or one 4- and one 5-level course.
BIOC 4331 - Biochemistry I: Structure, Catalysis, and Metabolism in Biological Systems (4.0 cr)
BIOC 5351 - Protein Engineering (3.0 cr)
BIOC 5352 - Biotechnology and Bioengineering for Biochemists (3.0 cr)
BIOC 5361 - Microbial Genomics and Bioinformatics (3.0 cr)
BIOC 5960 - Special Topics in Biochemistry (3.0 cr)
BIOC 8001 - Biochemistry: Structure, Catalysis, and Metabolism (3.0 cr)
BIOC 8002 - Molecular Biology and Regulation of Biological Processes (3.0 cr)
BIOC 8007 - Molecular Biology of DNA (2.0 cr)
BIOC 8216 - Signal Transduction and Gene Expression (3.0 cr)
BTHX 5610 - Research & Publication Seminar (1.0 cr)
CHEM 8412 - Chemical Biology of Enzymes (4.0 cr)
CHEN 8754 - Systems Analysis of Biological Processes (3.0 cr)
CHEN 8995 - Special Topics (1.0 - 4.0 cr)
CSCI 5465 - Introduction to Computing for Biologists (3.0 cr)
CSCI 5481 - Computational Techniques for Genomics (3.0 cr)
CSCI 5980 - Special Topics in Computer Science (1.0 - 3.0 cr)
ESCI 4801 - Geomicrobiology (3.0 cr)
ESCI 8801 - Geomicrobiology (3.0 cr)
GCD 5005 - Computer Programming for Biology (3.0 cr)
GCD 6103 - Human Histology (3.0 - 8.0 cr)
GCD 8008 - Mammalian Gene Transfer and Genome Engineering (2.0 cr)
GCD 8073 - Genetics & Genomics in Human Health (3.0 cr)
GCD 8131 - Advanced Molecular Genetics and Genomics (3.0 cr)
GCD 8151 - Cellular Biochemistry and Cell Biology (2.0 - 4.0 cr)
GCD 8161 - Advanced Cell Biology and Development (2.0 cr)
GCD 8401 - Ethics, Public Policy & Careers in Molecular Cell Biology (1.0 cr)
GCD 8920 - Special Topics (1.0 - 4.0 cr)
GEOG 8260 - Seminar: Physical Geography (2.0 cr)
GRAD 5102 - Preparation for University Teaching for Nonnative English Speakers (2.0 cr)
GRAD 8101 - Teaching in Higher Education (3.0 cr)
GRAD 8200 - Teaching and Learning Topics in Higher Education (1.0 cr)
HINF 5502 - Python Programming Essentials for the Health Sciences (1.0 cr)

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 8
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.
- No

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Students prepare for careers in biomedical research and teaching by completing broad training in molecular biology or biological sciences, and focused specialization in one of three concentrations (microbiology, immunology, or cancer biology). The program offers exceptional research opportunities for graduate training in autoimmunity, biotechnology, cancer biology and therapy, environmental microbiology, genetic engineering of microorganisms, lymphocyte activation and development, microbial pathogenesis, molecular genetics of disease, tumor immunology, vaccine development, and vascular biology and inflammation.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Other requirements to be completed before admission:
Required courses include calculus, general chemistry, organic chemistry, and physics. A minimum of two upper-level biology courses, which may include biochemistry, genetics, cell biology, molecular biology, microbiology, or immunology, etc. are also required.

Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the MICaB director of graduate studies regarding feasibility and requirements.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 96

Key to test abbreviations (TOEFL).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

All courses must be taken A/F unless only offered S/N. A minimum grade of C is required for A/F coursework. The minimum cumulative GPA for the minor is 3.0.
Required Coursework (8 credits)
Masters and doctoral students must take 2 of the following courses, selected in consultation with the MICaB director of graduate studies, for a total of 8 credits:
MICA 8002 - Structure, Function, and Genetics of Bacteria and Viruses (4.0 cr)
MICA 8003 - Immunity and Immunopathology (4.0 cr)
MICA 8004 - Cellular and Cancer Biology (4.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters
Master’s Requirements
See Program Requirements, above.

Doctoral
Doctoral Requirements (4 credits)
Select at least 4 credits of MICaB coursework, in consultation with the MICaB director of graduate studies, to complete the 12-credit minimum.
MICA 8005 - Topics in Microbiology, Immunology, and Cancer Biology (1.0 - 4.0 cr)
MICA 8006 - Protein Sequence Analysis (3.0 cr)
MICA 8007 - Cell Biology and Biochemistry of the Extracellular Matrix (3.0 cr)
MICA 8009 - Biochemical Aspects of Normal and Abnormal Cell Growth and Cell Death (2.0 cr)
MICA 8010 - Microbial Pathogenesis (3.0 cr)
MICA 8011 - Current Topics in Immunology (3.0 cr)
MICA 8013 - Translational Cancer Research (2.0 cr)
MICA 8014 - Small RNA Biology (2.0 cr)
MICA 8320 - Readings in Neurobiology (1.0 - 4.0 cr)

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 48
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the [General Information](#) section of the catalog website for requirements that apply to all major fields.

Students prepare for careers in biomedical research and teaching by completing broad training in molecular biology or biological sciences, and focused specialization in one of three concentrations (microbiology, immunology, or cancer biology). The program offers exceptional research opportunities for graduate training in autoimmunity, biotechnology, cancer biology and therapy, environmental microbiology, genetic engineering of microorganisms, lymphocyte activation and development, microbial pathogenesis, molecular genetics of disease, tumor immunology, vaccine development, and vascular biology and inflammation.

**Program Delivery**
This program is available:
- via classroom (the majority of instruction is face-to-face)

**Prerequisites for Admission**

Applicants must have a bachelor's degree (BS preferred).

Other requirements to be completed before admission:
Required courses include calculus, general chemistry, organic chemistry, and physics. A minimum of two upper-level biology courses, which may include biochemistry, genetics, cell biology, molecular biology, microbiology, or immunology, etc., are also required.

Research experience is required. Relevant undergraduate experience includes honors thesis work, paid or volunteer work in a research laboratory and summer internships. It does not include laboratory courses that accompany science courses such as biology.

Postbaccalaureate research experience is preferred but not required.

**Special Application Requirements:**
The program evaluates applications based on four equally weighted criteria: academics, letters (3) of recommendation, a personal statement, and research experience. We do not accept or require GRE scores. Letters of recommendation from research advisers or mentors are preferred as these individuals can comment knowledgeably on the student's potential in biomedical research. Applicants’ personal statements should describe their research in general and their specific contribution to it, their rationale for seeking a doctoral degree, and any information they wish to share regarding their backgrounds and interest in the MICaB Program. Finally, applicants should provide specific details of their research experiences (project titles, mentors, dates, locations, etc.), along with a list of relevant abstracts, publications, etc.

International applicants must submit score(s) from one of the following tests:
- TOEFL - Internet Based - Total Score: 96
- Paper Based - Total Score: 600
- IELTS - Total Score: 7
- MELAB

© 2005 by the Regents of the University of Minnesota  
The University of Minnesota is an equal opportunity educator and employer.  
Information current as of September 04, 2020
The preferred English language test is Test of English as Foreign Language.

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
24 credits are required in the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Website: http://www.neuroscience.umn.edu

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 35
- This program requires summer semesters for timely completion.
- NSCI 5551 Cell & Molecular Neurobiology Lab is held at the Itasca Biological Station in Shevlin, Minnesota the first semester the first semester of the program.

- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Note: Neuroscience does not admit students directly to the MS program.

Neuroscience is an interdisciplinary field of inquiry. The objects of this inquiry, the brain, and nervous system, are sufficiently complex and unique among biological systems to require experimental and analytical approaches that cross the traditional boundaries of molecular and cell biology, behavioral biology, biochemistry, genetics, pharmacology, physiology, and psychology. In some instances, neuroscientific inquiry may also encompass computer science, information processing, engineering, physics, and mathematics.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Neuroscience does not admit students directly to the MS program.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Plan A: Plan A requires 25 major credits, up to null credits outside the major, and 10 thesis credits. The final exam is oral.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

Summer - First Year (4 credits)
Take the following course or, with advisor approval, a substitute course:
NSC 5551 - Itasca Cell and Molecular Neurobiology Laboratory (4.0 cr)
Fall - First Year (9.5 Credits)
Take the following courses or, with advisor approval, substitute courses. Take 1 credit of NSC 8334.
NSC 5461 - Cellular and Molecular Neuroscience (4.0 cr)
NSC 5561 - Systems Neuroscience (4.0 cr)
NSC 8321 - Career Skills and Understanding Responsibilities as a Neuroscientist (0.5 cr)
NSC 8334 - Laboratory Neuroscience (1.0 - 3.0 cr)

Spring - First Year (8.5 Credits)
Take the following courses or, with advisor approval, substitute courses. Take 1 credit of NSC 8334.
NSC 5661W - Behavioral Neuroscience [WI] (4.0 cr)
NSC 8211 - Developmental Neurobiology (4.0 cr)
NSC 8321 - Career Skills and Understanding Responsibilities as a Neuroscientist (0.5 cr)
NSC 8334 - Laboratory Neuroscience (1.0 - 3.0 cr)

Fall - Second Year (3.0 Credits)
Take the following courses or, with advisor approval, substitute courses:
NSC 8111 - Quantitative Neuroscience (3.0 cr)

Spring - Second Year (0.5 credits)
Take the following course or, with advisor approval, substitute course.
NSC 8321 - Career Skills and Understanding Responsibilities as a Neuroscientist (0.5 cr)

Thesis Credits
Take 10 master's thesis credits.
NSC 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)
Twin Cities Campus
Neuroscience Minor
Neuroscience
Medical School

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Required Coursework (4 credits)
All students pursuing the minor must take one of the following courses:

NSC 5461 - Cellular and Molecular Neuroscience (4.0 cr)
NSC 5561 - Systems Neuroscience (4.0 cr)

Electives (8 credits)
All students pursuing the minor must take at least eight elective credits, selected in consultation with the Neuroscience director of graduate studies.

NSC 5203 - Basic and Clinical Vision Science (3.0 cr)
NSC 5461 - Cellular and Molecular Neuroscience (4.0 cr)
NSC 5462 - Neuroscience Principles of Drug Abuse (2.0 cr)
NSC 5561 - Systems Neuroscience (4.0 cr)
NSC 5661W - Behavioral Neuroscience [WI] (4.0 cr)
NSC 8026 - Neuro-Immune Interactions (3.0 cr)
NSC 8111 - Quantitative Neuroscience (3.0 cr)
NSC 8208 - Neuropsychopharmacology (3.0 cr)
NSC 8211 - Developmental Neurobiology (4.0 cr)
NSC 8320 - Readings in Neurobiology (1.0 - 4.0 cr)
NSC 8411 - Teaching in Neuroscience (1.0 cr)
NSC 8481 - Advanced Neuropharmaceutics (4.0 cr)
NSCI 4101 - Development of the Nervous System: Cellular and Molecular Mechanisms (3.0 cr)
NSCI 4105 - Neurobiology Laboratory I (3.0 cr)
NSCI 4201 - Neuroscience of Drug Abuse (3.0 cr)
NSCI 4501 - Neurodegenerative Diseases, Mechanisms to Therapies (3.0 cr)
NSCI 5101 - Neurobiology I: Molecules, Cells, and Systems (3.0 cr)
NSCI 5501 - Neurodegenerative Diseases, Mechanisms to Therapies (3.0 cr)
NSCI 6110 - Neuroscience for Dental Students (2.0 cr)
NSCI 6112 - Medical Neuroscience for Professional Students (5.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Doctoral

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 49
- This program requires summer semesters for timely completion.
- The NSCI 5551 Cell & Molecular Neurobiology Lab at Itasca is held at the Itasca Biological Station in Shevlin, Minnesota their first semester.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Neuroscience is an interdisciplinary field of inquiry. The objects of this inquiry, the brain and nervous system, are sufficiently complex and unique among biological systems to require experimental and analytical approaches that cross the traditional boundaries of molecular and cell biology, behavioral biology, biochemistry, genetics, pharmacology, physiology, and psychology. In some instances, neuroscientific inquiry may also encompass computer science, information processing, engineering, physics, and mathematics.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Applicants whose native language is not English are required to take the TOEFL and obtain a minimum score of 625 (paper) or 107 (Internet); or obtain 6.5 on the IELTS examination. There is no minimum GPA requirement to apply.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 107
  - Paper Based - Total Score: 625
- IELTS
  - Total Score: 6.5

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
25 credits are required in the major.
24 thesis credits are required.

Plan A: Plan A requires 23 major credits, up to null credits outside the major, and 10 thesis credits. The final exam is oral.

This program may be completed with a minor.
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

The neuroscience PhD curriculum begins in the summer session with the intensive laboratory course in cellular and molecular neurobiology (NSC 5551), held at the Itasca Biological Station and Laboratories.

While taking courses, students explore research opportunities in the faculty's laboratories and thereby select a thesis advisor.

**Summer - First Year (4 credits)**
- Take the following course or, with advisor approval, a substitute course.
  - NSC 5551 - Itasca Cell and Molecular Neurobiology Laboratory (4.0 cr)

**Fall - First Year (9.5 credits)**
- Take the following courses or, with advisor approval, substitute courses. Take 1 credit of NSC 8334.
  - NSC 5461 - Cellular and Molecular Neuroscience (4.0 cr)
  - NSC 5561 - Systems Neuroscience (4.0 cr)
  - NSC 8321 - Career Skills and Understanding Responsibilities as a Neuroscientist (0.5 cr)
  - NSC 8334 - Laboratory Neuroscience (1.0 - 3.0 cr)

**Spring - First Year (8.5 credits)**
- Take the following courses or, with advisor approval, substitute courses. Take 1 credit of NSC 8334.
  - NSC 5661W - Behavioral Neuroscience [WI] (4.0 cr)
  - NSC 8211 - Developmental Neurobiology (4.0 cr)
  - NSC 8321 - Career Skills and Understanding Responsibilities as a Neuroscientist (0.5 cr)

Website: http://www.med.umn.edu/ophthalmology/education-training/orthoptic-program

- Program Type: Post-baccalaureate credit certificate/licensure/endorsement
- Requirements for this program are current for Fall 2020
- Length of program in credits: 14 to 28
- This program requires summer semesters for timely completion.
- Degree: Orthoptics PostBaccalaureate Certificate

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Orthoptics post-baccalaureate certificate program is a vital part of the ophthalmic health care profession. This is a specialized profession, the focus of which is the evaluation and treatment of disorders of vision, eye movements, and eye alignment in children and adults. The study of orthoptics follows a logical sequence of studies vital to the understanding of the visual system. The didactic education is integrated with practical clinical experience. Orthoptists work with ophthalmologists, eye physicians and surgeons, as part of the medical team. They are employed in a variety of settings, including university and teaching hospitals, children's hospitals, and solo or multi-specialty group medical practices. An orthoptist sees a variety of patients of all ages, although due to the nature of their visual disorders, the majority of the patients are young children; some individuals with multiple health concerns are also evaluated as they commonly have ocular/binocular problems.

Students who successfully complete the Orthoptics post-baccalaureate certificate are eligible to sit for the written and practical examinations, administered by the American Orthoptic Council, required for national certification.

Accreditation
This program is accredited by American Orthoptic Council

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 2.50.

Other requirements to be completed before admission:
All applicants must have an earned baccalaureate degree with a minimum GPA of 2.50.

Applicants to the accelerated certificate also must provide confirmation of:
ophthalmic tech program completion, and
COMT/COT certification.

For an online application or for more information about graduate education admissions, see the General Information section of the
Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.80 is required for students to remain in good standing.

Each course includes 35+ clinical hours/week under supervision of a staff orthoptist/pediatric ophthalmologist.

Required Coursework (28 credits)
Students admitted to the full 28-credit post-baccalaureate certificate program take OPH 5201, 5301, and 5401 during the first year of study, and OPH 5501, 5601, and 5701 the second year of study for a total of 28 credits.

Twin Cities Campus
Otolaryngology Ph.D. Otol.
Otolaryngology
Medical School

Link to a list of faculty for this program.

Contact Information:
Department of Otolaryngology, MMC 396, 420 Delaware Street SE, Minneapolis, MN 55455 (612-625-7692; fax: 612-625-2101)
Website: http://www.ent.umn.edu

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 48
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy in Otolaryngology

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

This program prepares students in both clinical and experimental aspects of otolaryngology. The Ph.D.Otol. degree requires a publishable thesis. Rotations at University of Minnesota Medical Center-Fairview, Minneapolis Veterans Administration Medical Center, Regions Hospital, Minneapolis Children's Hospital, and Hennepin County Medical Center provide a wide range of opportunity for clinical education and surgical experience.

Opportunities for independent research are provided in the areas of audiology, auditory electrophysiology, auditory neurophysiology, basic sciences research, biochemistry, cancer biology, cell biology and genetics, chemical senses, clinical epidemiology, education research, electron microscopy, electrophysiology, histochemistry, laryngeal physiology, mandibular bone physiology, microvascular tissue transfer, morphometry, outcomes research, psychoacoustics, psychometrics, skin-flap physiology, temporal bone pathology, tumor immunology, and vestibular physiology. Graduates of the program have careers in teaching, research, and professional practice.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Requires an M.D. degree.

Other requirements to be completed before admission:
Doctorate will be completed in conjunction with otolaryngology residency.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
24 credits are required in the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

Coursework will vary depending on preparation and the research undertaken. An advisory committee, including the student, the advisor, and the director of graduate studies, determines coursework. Understanding and application of basic statistics and experimental methodology are expected. Statistics coursework is usually necessary. Choice of statistics courses is made with the
guidance of the director of graduate studies.

All students are expected to publish a research paper in a peer-reviewed journal. Students are concurrently in otolaryngology residency and usually take five to six years to complete research, course, and dissertation requirements.

**Thesis Credits**
Take 24 doctoral thesis credits.

**OTOL 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)**
**Twin Cities Campus**

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 30 to 39
- This program requires summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the [General Information](#) section of the catalog website for requirements that apply to all major fields.

Pharmacology is the study of the interactions of chemicals with biological systems. Courses and research training in biochemistry, biophysics, genetics, and molecular biology provide a solid foundation for performing original research in pharmacology, neuropharmacology, and cancer chemotherapy.

**Program Delivery**
This program is available:
- via classroom (the majority of instruction is face-to-face)

**Prerequisites for Admission**
The preferred undergraduate GPA for admittance to the program is 3.50.

A four-year BA or BS degree (or its equivalent) in a basic science program is generally required.

Other requirements to be completed before admission:
Candidates for admission are evaluated on the basis of undergraduate record, previous research experience, and letters of recommendation.

**Special Application Requirements:**
Applicants must submit three letters of recommendation from persons familiar with their scholarship and research potential; a complete set of official transcripts; and a clearly written statement of career interests, goals, and objectives.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7.5

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the [General Information](#) section of the catalog website.

**Program Requirements**

**Plan A:** Plan A requires 29 major credits, 0 credits outside the major, and 10 thesis credits. The final exam is written and oral.
Plan B: Plan B requires 30 major credits and 0 credits outside the major. The final exam is oral. A capstone project is required.

Capstone Project: A research project approved by the advisor and director of graduate studies.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with advisor approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

Students are required to maintain a GPA of 3.00. Students who fail to maintain this standard must petition the director of graduate studies for permission to remain in the program. A minimum grade is B- per course is required.

Required Courses (29-30 credits)
Plan A students take 8 credits (4 credits/2 semesters), and Plan B students take 9 credits (4 credits/2 semesters; 1 credit/1 semester) of PHCL 5109. All students take PHCL 8100 twice; 5 credits of PHCL 8211; and 3 credits of PHCL 8212.

- PHCL 5109 - Problems in Pharmacology (1.0 - 18.0 cr)
- PHCL 5110 - Introduction to Pharmacology (3.0 cr)
- PHCL 5112 - A Graduate Toolkit I: An Introduction to the Scientific Research Lab (1.0 cr)
- PHCL 8100 - Laboratory Research in Pharmacology (4.0 cr)
- PHCL 8200 - Seminar: Selected Topics in Pharmacology (1.0 cr)
- PHCL 8211 - Advanced Medical Pharmacology I (5.0 cr)
- PHCL 8212 - Advanced Medical Pharmacology II (0.0 - 3.0 cr)

Plan Options

Plan A
Take at least 10 master's thesis credits.
- PHCL 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)
Twin Cities Campus

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 138
- This program requires summer semesters for timely completion.
- Courses for the DPT are taught on the Twin Cities East Bank Campus for the first seven semesters (including summers), with numerous off-site clinical education opportunities scheduled throughout. During the student's 3rd year, the student will complete four full-time clinical experiences, which occur off-campus in various physical therapy settings.
- Degree: Doctor of Physical Therapy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Division of Physical Therapy Program, a division within the Department of Rehabilitation Medicine, offers a professional doctoral degree in physical therapy (DPT). Physical therapy is a healthcare discipline involved with the study and rehabilitation of movement impairments, such as muscular weakness, impaired coordination, joint stiffness, and pain, which can lead to functional problems affecting self care, employment, ambulation, etc. Graduates are prepared to promote proper health care and quality of living by maximizing human movement following disease or injury or by preventing its loss. The program requires three years of year-round, full-time graduate study (9 semesters including summers). Academic coursework, clinical education, and research activity are completed during the first seven semesters. The final two semesters are devoted to clinical rotations.

Accreditation
This program is accredited by Commission on Accreditation in Physical Therapy Education (CAPTE)

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

The University of Minnesota Division of Physical Therapy has no required or preferred undergraduate major. Any baccalaureate degree or equivalent from an accredited institution is accepted.

Other requirements to be completed before admission:
To be eligible for admission, applicants must complete a baccalaureate degree, or its foreign equivalent, from an accredited institution by June 1 of the year of admission, including all required prerequisite courses or their program-approved equivalents.

Applicants must complete at least 100 observation hours (shadow/volunteer/work) in a clinical physical therapy setting. Exposure to multiple and varied areas of practice in physical therapy and additional health care exposure are considered important preparation for entry into the program.

Applicants must complete the GRE General Exam. TOEFL is required for international students.

Two letters of recommendation are also required. One letter must be from a practicing physical therapist with whom the applicant completed observation hours.

Special Application Requirements:
Below is a list of required prerequisite coursework applicants must complete to apply to the program. Courses must be taken for college
credit and graded A-F with a received minimum letter grade of C. The exception is medical terminology, which will be accepted pass/fail. Courses may be taken at any accredited college or university. Up to two prerequisite courses may be listed as in progress - either currently being taken or planned to take and complete by June 1 of the year of admission. The program will also accept two AP scores of 4 or above or two IB scores of 6 or above to meet prerequisite requirements. It is recommended that these courses be taken within the previous five years.

- General Biology, with on-site lab
- A second Biology, with on-site lab
- General Chemistry, with on-site lab
- A second Chemistry, with on-site lab
- Human Anatomy (lab strongly recommended)
- Human Physiology
- General Physics I (covering mechanics and electricity), with on-site lab
- General Physics II, with on-site lab
- General Psychology
- Abnormal Psychology
- Statistics (ANOVA and regression analysis content strongly recommended)
- Calculus (Intro to Calculus or Short Calculus are accepted; Pre-Calculus is not accepted)
- Medical Terminology

Distance learning courses are accepted; however, labs must be taken on-site unless prior approval is given by the Admissions Chair.

Applicants must submit their test score(s) from the following:
- GRE

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Listening Score: 18
  - Internet Based - Writing Score: 24
  - Internet Based - Reading Score: 21
  - Internet Based - Speaking Score: 26
- IELTS
  - Total Score: 6.5

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (GRE, TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
138 credits are required in the major.
This program may not be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.8 is required for students to remain in good standing.

At least 6 semesters must be completed before filing a Degree Program Form.

Year 1 Summer (6 credits)
PT 6058 - Anatomy for Physical Therapy (6.0 cr)

Year 1 Fall (20 credits)
PT 6002 - Ethics in Health Care (1.0 cr)
PT 6213 - Clerkship I: Introduction to Physical Therapy: Legal and Ethical Considerations (2.0 cr)
PT 6231 - Clinical Biomechanics (5.0 cr)
PT 6280 - Clinical Assessment (4.0 cr)
PT 6281 - Physiology for Physical Rehabilitation (4.0 cr)
PT 6340 - Human Growth and Development (3.0 cr)
PT 6219 - Foundations in Interprofessional Communication and Collaboration (1.0 cr)

**Year 1 Spring (16 credits)**
- NSCI 6112 - Medical Neuroscience for Professional Students (5.0 cr)
- PT 8132 - Research Seminar (1.0 cr)
- PT 6214 - Clerkship II: Documentation and Reimbursement (2.0 cr)
- PT 6221 - Therapeutic Procedures (4.0 cr)
- PT 6282 - Cardiopulmonary Physiology and Rehabilitation (4.0 cr)

**Year 1 Summer (14 credits)**
Take PT 8193 for 2 credits.
- PT 6250 - Acute Care in Physical Therapy (2.0 cr)
- PT 6251 - Integument (2.0 cr)
- PT 6252 - Pathophysiology (3.0 cr)
- PHAR 6800 - Rehabilitation Pharmacotherapy (2.0 cr)
- PT 8193 - Research Problems (2.0 - 6.0 cr)
- PT 6241 - Movement and Pathokinesiology (3.0 cr)

**Year 2 Summer (14 credits)**
Take PT 8193 for 2 credits.
- PT 6250 - Acute Care in Physical Therapy (2.0 cr)
- PT 6251 - Integument (2.0 cr)
- PT 6252 - Pathophysiology (3.0 cr)
- PT 6282 - Cardiopulmonary Physiology and Rehabilitation (4.0 cr)
- PT 8193 - Research Problems (2.0 - 6.0 cr)

**Year 2 Fall (15 credits)**
Take PT 8193 for 2 credits. PT 6286 course name will change to Neurorehabilitation I in Fall 2020.
- PT 6283 - Musculoskeletal Rehabilitation 1 (6.0 cr)
- PT 6293 - Essentials of Rehabilitation Research (3.0 cr)
- PT 6215 - Clerkship III: The Physical Therapist in Today's Society (1.0 cr)
- PT 8193 - Research Problems (2.0 - 6.0 cr)
- PT 6286 - Scientific Foundations II: Neuromotor Control (3.0 cr)

**Year 2 Spring (16 credits)**
Take PT 8193 for 2 credits. PT 6284 will be offered for 5 credits beginning Spring 2021 and students will complete the course for 5 credits.
- PT 6287 - Neurorehabilitation II (8.0 cr)
- PT 6284 - Musculoskeletal Rehabilitation II (4.0 cr)
- PT 6216 - Clerkship IV: Advocacy and Adjustment to Disability (1.0 cr)
- PT 8193 - Research Problems (2.0 - 6.0 cr)

**Year 3 Summer (13 credits)**
PT 6288 will be offered for 3 credits beginning Summer 2021 and students will complete the course for 3 credits. Elective PT 6403 will be offered for 3 credits beginning Summer 2021 and students will complete the course for 3 credits.
- PT 6288 - Pediatric Rehabilitation (5.0 cr)
- PT 6290 - Contemporary Physical Therapist Practice (4.0 cr)
- PT 6294 - Clinical Integration (3.0 cr)
- Electives
  - PT 6401 - Pediatric Rehabilitation Elective (3.0 cr)
  - or PT 6402 - The Shoulder in Sports (3.0 cr)
  - or PT 6403 - Topics in Aging (1.0 cr)

**Year 3 Fall (18 credits)**
- PT 6295 - Clinical Internship I (9.0 cr)
- PT 6296 - Clinical Internship II (9.0 cr)

**Year 3 Spring (20 credits)**
- PT 6297 - Clinical Internship III (10.0 cr)
- PT 6298 - Clinical Internship IV (10.0 cr)

**Joint- or Dual-degree Coursework:** Doctorate in Physical Therapy / PhD in Rehabilitation Science
**Twin Cities Campus**

**Rehabilitation Science M.S.**

Website: [https://med.umn.edu/rehabmedicine/about/divisions/rehabilitation-science](https://med.umn.edu/rehabmedicine/about/divisions/rehabilitation-science)

- Program Type: Master's  
- Requirements for this program are current for Fall 2020  
- Length of program in credits: 30 to 33  
- This program does not require summer semesters for timely completion.  
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The mission of the graduate program in Rehabilitation Science is to discover and disseminate rehabilitation knowledge and improve the quality of life, participation, health, performance, and well-being of people in Minnesota and throughout the world. The mission further encompasses the cultivation of premier leaders and researchers in academia, industry, and clinical environments to transform the science and practice of rehabilitation. The program is interdisciplinary, with student and faculty backgrounds in physical therapy, occupational therapy, exercise physiology, biomedical engineering, and a variety of other biology and health care backgrounds. The programs philosophy is to provide students with a strong foundation in research methodology; a concentrated educational and research experience tailored toward a students specific area of interest in rehabilitation science; and a working knowledge of the importance of a collaborative and interdisciplinary approach to the scientific process.

Note: The Rehabilitation Science program does not normally admit students to the MS degree. The exception is for students who wish to pursue the integrated Biomedical Engineering BS /Rehabilitation Science MS program. For more information, contact the Rehabilitation Science graduate program office.

**Program Delivery**

This program is available:

- via classroom (the majority of instruction is face-to-face)

**Prerequisites for Admission**

The preferred undergraduate GPA for admittance to the program is 3.30.

University of Minnesota BME bachelor's degree.

**Special Application Requirements:**

In addition to the University's application (including personal statement and fee), applicants must submit the following materials: unofficial transcripts; two reference names with email address and phone number, one reference must be from BME. Student must also have an agreed-upon faculty adviser at the time of applying. Compatibility of research interests is a major determinant in the student/adviser relationship.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

**Program Requirements**

**Plan A:** Plan A requires 20 major credits, 3 credits outside the major, and 10 thesis credits. The final exam is written and oral.

**Plan B:** Plan B requires 27 major credits and 3 credits outside the major. The final exam is written and oral. A capstone project is
required.

**Capstone Project:** The Plan B project is determined in consultation with the advisor.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

**Coursework (20 to 27 credits)**

Plan A students select at least 20 credits, and Plan B students select at least 27 credits from the following list, in consultation with the advisor. For both Plan A and Plan B students, at least 14 of the credits must be from RSC courses.

- **RSC 5058** - Anatomy for Rehabilitation Science (6.0 cr)
- **RSC 5060** - Lower Extremity Anatomy Intensive (2.0 cr)
- **RSC 5065** - Upper Extremity Anatomy Intensive (2.0 cr)
- **RSC 5101** - Mathematical Tools for Research Applications in Health, Rehab, and Human Movement Sciences (1.0 cr)
- **RSC 5106** - Introduction to Rehabilitation Science (1.0 cr)
- **RSC 5135** - Advanced Biomechanics I: Kinematics (3.0 cr)
- **RSC 5200** - Introduction to Neuromodulation (1.0 - 3.0 cr)
- **RSC 5231** - Clinical Biomechanics (2.0 - 5.0 cr)
- **RSC 5235** - Advanced Biomechanics II: Kinetics (3.0 cr)
- **RSC 5281** - Physiology for Physical Rehabilitation (2.0 - 4.0 cr)
- **RSC 5294** - Independent Study in Rehabilitation Science (1.0 - 3.0 cr)
- **RSC 5306** - Scientific and Professional Presentation (1.0 cr)
- **RSC 5310** - Physiology for Physical Rehabilitation (1.0 - 5.0 cr)
- **RSC 5814** - Age, Exercise, and Rehabilitation (2.0 cr)
- **RSC 5841** - Applied Data Acquisition and Processing (3.0 cr)
- **RSC 5901** - Scholarly Inquiry in Health Sciences (4.0 cr)
- **RSC 8106** - Critical Analysis of Scientific Literature (2.0 cr)
- **RSC 8130** - Current Literature Seminar (1.0 - 3.0 cr)
- **RSC 8135** - Human Kinematics (3.0 cr)
- **RSC 8170** - Special Topics in Rehabilitation Science (1.0 - 3.0 cr)
- **RSC 8185** - Problems in Rehabilitation Science (1.0 - 3.0 cr)
- **RSC 8188** - Teaching Practicum (1.0 - 5.0 cr)
- **RSC 8192** - Research Design in Rehabilitation Science (4.0 cr)
- **RSC 8206** - Grant Writing (2.0 cr)
- **RSC 8235** - Human Kinetics (3.0 cr)
- **RSC 8282** - Problems in Human Movement (4.0 cr)
- **RSC 8306** - Peer Review and Publication (2.0 cr)

**Statistics Requirement (3 credits)**

All master's students must take one of the two statistics courses below, or another statistics course approved by the advisor, for at least three credits.

- **PUBH 6450** - Biostatistics I (4.0 cr)
- **EPSY 8251** - Statistical Methods in Education I (3.0 cr)

**Plan Options**

**Plan A**

Take at least 10 master's thesis credits.

- **RSC 8777** - Thesis Credits: Master's (1.0 - 18.0 cr)

- **OR**-

**Plan B**

**Program Sub-plans**

A sub-plan is not required for this program. Students may not complete the program with more than one sub-plan.

**Integrated BS-Biomedical Engineering/MS-Rehabilitation Science**

The Integrated BS Biomedical Engineering / MS Rehabilitation Science program offers students the opportunity to earn a bachelor's degree and a master's degree in a shortened amount of time. The integrated program offers several benefits, including streamlined
admissions from the undergraduate to the graduate program, and flexibility in fulfilling required courses for both degrees during the senior year.

Students pursuing the integrated BS/MS may complete either the Plan A or Plan B option for the Rehabilitation Science master's degree. Both the BS and MS degrees must be completed in their entirety, with no courses shared between them. The graduate degree cannot be earned before the undergraduate requirements are satisfied. Admitted students who decide not to complete the MS degree may count credits originally planned for the graduate program toward their BS degree with approval of the Biomedical Engineering advisors.

For more information regarding the integrated BS/MS degree, including eligibility requirements, contact the Biomedical Engineering or Rehabilitation Science program office.

**Program Delivery**
This program is available:
- via classroom (the majority of instruction is face-to-face)

**Prerequisites for Admission**
The preferred undergraduate GPA for admittance to the program is 3.00.

Bachelor's degree or US equivalent in a related discipline is minimal requirement.

Professional, graduate, or master's degree preferred but not required.

Other requirements to be completed before admission:
Applicants must hold a bachelor's or graduate degree, or accredited US equivalent, in a discipline related to rehabilitation; for example, biomedical engineering, kinesiology, medicine, occupational therapy, physical therapy, public health, or speech/audiology. Depending on the educational background of the applicant, admission may be contingent upon completion of selected prerequisite coursework.

**Special Application Requirements:**
In addition to completing and submitting the University's Graduate School application (which includes submission of a personal statement, diversity statement, and upload of CV/resume), applicants must submit the following materials: report of GRE General Test scores (scores in the 50th percentile or higher are preferred); transcripts from all institutions attended; three letters of recommendation; and TOEFL and/or IELTS scores for international students. Student must also have an agreed-upon faculty adviser at the time of application. Compatibility of research interest is a major determinant in the student/adviser relationship.

Applicants must submit their test score(s) from the following:
- GRE

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 88
  - Internet Based - Listening Score: 21
- Internet Based - Writing Score: 21
- Internet Based - Reading Score: 21
- Internet Based - Speaking Score: 23

IELTS
- Total Score: 6.5

Key to test abbreviations (GRE, TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
36 credits are required in the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

Professional Development Coursework (8 credits)
The following Rehabilitation Science courses are required:

- RSC 5106 - Introduction to Rehabilitation Science (1.0 cr)
- RSC 5306 - Scientific and Professional Presentation (1.0 cr)
- RSC 8106 - Critical Analysis of Scientific Literature (2.0 cr)
- RSC 8206 - Grant Writing (2.0 cr)
- RSC 8306 - Peer Review and Publication (2.0 cr)

Statistics Coursework (6 to 8 credits)
Take the following Public Health or Educational Psychology series. Other statistics courses may be selected with advisor approval.

Public Health Statistics Series
- PUBH 6450 - Biostatistics I (4.0 cr)
- PUBH 6451 - Biostatistics II (4.0 cr)

or Educational Psychology Statistics Series
- EPSY 8251 - Statistical Methods in Education I (3.0 cr)
- EPSY 8252 - Statistical Methods in Education II (3.0 cr)

Electives
Take elective credits, at least 8 credits of which must be from RSC coursework, to complete the 36 course credits required for the degree. Coursework is selected in consultation with the advisor.

- RSC 5058 - Anatomy for Rehabilitation Science (6.0 cr)
- RSC 5060 - Lower Extremity Anatomy Intensive (2.0 cr)
- RSC 5065 - Upper Extremity Anatomy Intensive (2.0 cr)
- RSC 5101 - Mathematical Tools for Research Applications in Health, Rehab, and Human Movement Sciences (1.0 cr)
- RSC 5135 - Advanced Biomechanics I: Kinematics (3.0 cr)
- RSC 5200 - Introduction to Neuromodulation (1.0 - 3.0 cr)
- RSC 5231 - Clinical Biomechanics (2.0 - 5.0 cr)
- RSC 5235 - Advanced Biomechanics II: Kinetics (3.0 cr)
- RSC 5281 - Physiology for Physical Rehabilitation (2.0 - 4.0 cr)
- RSC 5294 - Independent Study in Rehabilitation Science (1.0 - 3.0 cr)
- RSC 5310 - Physiology for Physical Rehabilitation (1.0 - 5.0 cr)
- RSC 5814 - Age, Exercise, and Rehabilitation (2.0 cr)
- RSC 5841 - Applied Data Acquisition and Processing (3.0 cr)
- RSC 5901 - Scholarly Inquiry in Health Sciences (4.0 cr)
- RSC 8130 - Current Literature Seminar (1.0 - 3.0 cr)
- RSC 8135 - Human Kinematics (3.0 cr)
- RSC 8170 - Special Topics in Rehabilitation Science (1.0 - 3.0 cr)
- RSC 8185 - Problems in Rehabilitation Science (1.0 - 3.0 cr)
- RSC 8188 - Teaching Practicum (1.0 - 5.0 cr)
- RSC 8192 - Research Design in Rehabilitation Science (4.0 cr)
- RSC 8235 - Human Kinetics (3.0 cr)
- RSC 8282 - Problems in Human Movement (4.0 cr)
Thesis Credits
Take at least 24 doctoral thesis credits.
RSC 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)

Joint- or Dual-degree Coursework: DPT/PhD Student may take a total of 18 credits in common among the academic programs.
Twin Cities Campus

Stem Cell Biology M.S.

Stem Cell Institute
Medical School

Link to a list of faculty for this program.

Contact Information:
Stem Cell Institute, 2001 6th Street S.E., Mail Code 2873, Minneapolis, MN 55455-3007
Email: scbgrad@umn.edu
Website: https://med.umn.edu/stemcell/graduate-programs/master-science-stem-cell-biology

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 30
- This program requires summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The stem cell biology master's program is a multidisciplinary program that prepares graduates for a career in research, teaching, or industry within the field of stem cell biology. It offers training in stem cell biology, a rapidly growing interdisciplinary field that rests on foundations provided by molecular, cellular, and developmental biology. Students will take lecture, lab, and seminar courses in these various disciplines, in addition to stem cell biology. They will interact with members of the Stem Cell Institute through participation in research seminars and journal clubs.

Students who elect Plan A will spend a full calendar year, including summer, conducting research in the laboratory of a stem cell graduate program faculty member. This research will form the basis of the master's thesis.

Students who elect Plan B will conduct research of primary literature resulting in a written paper and seminar on a topic in Stem Cell Biology agreed upon in advance by the student and faculty advisor. Part-time students choosing Plan B are expected to complete the degree within 3 years by taking one to two courses per semester, excluding summers.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.20.

A bachelor's degree or foreign equivalent in biological science or a related field.

Special Application Requirements:
Applicants must upload to the University's on-line application website: 1) a personal statement (500 words or less) outlining research interests and long- and short-term goals (NOTE: students applying to Plan A should include information about previous research experience); 2) a curriculum vitae or resume; 3) the names of three individuals whom the student has asked to write letters of recommendation; and 4) unofficial transcripts.

Applicants must submit their test score(s) from the following:
- GRE

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 94
  - Internet Based - Listening Score: 22
  - Internet Based - Writing Score: 24
  - Internet Based - Reading Score: 22
  - Internet Based - Speaking Score: 26
  - Paper Based - Total Score: 580
- IELTS

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of September 04, 2020
- Total Score: 7
- Listening Score: 6.2
- Reading Score: 6.2
- Writing Score: 6.2
- Speaking Score: 6.2

Key to test abbreviations (GRE, TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan A: Plan A requires 20 major credits, up to null credits outside the major, and 10 thesis credits. The final exam is oral.

Plan B: Plan B requires 30 major credits and up to null credits outside the major. The final exam is oral.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 2.80 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.

Students must demonstrate familiarity with the tools of research and scholarship in their major field, the ability to work independently, and the ability to present the results of their investigation effectively.

Plan Options

Plan A Course and Thesis

Required Plan A Course (1 credit)

SCB 5051 - Stem Cell Biology Practical Training Module (1.0 cr)

Thesis Credits

Take 10 master's thesis credits. Students are recommended to take five thesis credits in spring of the first year, and the remaining five in fall of the second year.

SCB 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

-OR-

Plan B Course

Take the following course:

SCB 5900 - Master's Plan B Research Paper and Presentation (2.0 cr)

Required Coursework (14 to 15 credits)

Plan A and Plan B students take the following courses. All required courses must be taken A/F.

Core Courses (9 credits)

Take SCB 5054 three times for a total of 6 credits.

SCB 5054 - Stem Cell Institute Research Seminar and Journal Club (2.0 cr)

SCB 8181 - Stem Cell Biology (3.0 cr)

Option 1: Molecular Biology Course (3 to 4 credits)

Students complete either Option 1 or Option 2.

Select at least one of the following courses.

GCD 4034 - Molecular Genetics and Genomics (3.0 cr)

or GCD 8131 - Advanced Molecular Genetics and Genomics (3.0 cr)

or Students complete either Option 1 or Option 2.

Both of the following courses are required.

BIOC 8007 - Molecular Biology of DNA (2.0 cr)

BIOC 8008 - Molecular Biology of RNA (2.0 cr)

Other Courses

Take at least one of the following courses, or other 5000-level or 8000-level course approved prior to registration by the SCB
program, for a minimum of two credits.

GCD 8161 - Advanced Cell Biology and Development (2.0 cr)
or
GCD 8008 - Mammalian Gene Transfer and Genome Engineering (2.0 cr)
or
BTHX 8000 - Advanced Topics in Bioethics (1.0 - 4.0 cr)
or
BTHX 5210 - Ethics of Human Subjects Research (3.0 cr)
or
BTHX 5325 - Biomedical Ethics (3.0 cr)
or
BTHX 5400 - Intro Ethics in Hlth Policy (3.0 cr)
or
BTHX 5100 - Introduction to Clinical Ethics (3.0 cr)
or
BTHX 5000 - Topics in Bioethics (1.0 - 4.0 cr)

Electives
Take elective credits from the following list, or other courses in consultation with the advisor, to complete the minimum credit requirement.

Take 5 or more credit(s) from the following:
• BIOC 5213 - Selected Topics in Molecular Biology (3.0 cr)
• BIOC 8401 - Ethics, Public Policy, and Careers in Molecular and Cellular Biology (1.0 cr)
• BIOL 4004 - Cell Biology (3.0 cr)
• BMEN 5041 - Tissue Engineering (3.0 cr)
• BMEN 5351 - Cell Engineering (3.0 cr)
• BMEN 5701 - Cancer Bioengineering (3.0 cr)
• BTHX 5210 - Ethics of Human Subjects Research (3.0 cr)
• BTHX 5325 - Biomedical Ethics (3.0 cr)
• BTHX 5400 - Intro Ethics in Hlth Policy (3.0 cr)
• CMB 5910 - Grantwriting: What Makes a Winning Proposal? (2.0 cr)
• CSCI 5461 - Functional Genomics, Systems Biology, and Bioinformatics (3.0 cr)
• CSCI 5465 - Introduction to Computing for Biologists (3.0 cr)
• GCD 4161 - Developmental Biology (3.0 cr)
• GCD 5005 - Computer Programming for Biology (3.0 cr)
• GCD 5036 - Molecular Cell Biology (3.0 cr)
• GCD 8008 - Mammalian Gene Transfer and Genome Engineering (2.0 cr)
• GCD 8131 - Advanced Molecular Genetics and Genomics (3.0 cr)
• GCD 8151 - Cellular Biochemistry and Cell Biology (2.0 - 4.0 cr)
• GCD 8161 - Advanced Cell Biology and Development (2.0 cr)
• MICA 8003 - Immunity and Immunopathology (4.0 cr)
• MICA 8004 - Cellular and Cancer Biology (4.0 cr)

Department of Stem Cell Biology Institute, 2001 6th Street SE, Mail Code 2873, Minneapolis, MN 55455-3007 (612-625-0602; fax: 612-624-2436)
Email: scbgrad@umn.edu

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2020
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The stem cell biology minor is available to PhD students in relevant programs such as MCDB&G, MiCaB, pharmacology, microbiology, bio-engineering, or a medical or veterinary medicine school program, and who have an interest in stem cell biology. It offers training in stem cell biology, which is a rapidly growing interdisciplinary field that rests on foundations provided by molecular, cellular, and developmental biology. Students will take lecture and seminar courses, interact with members of the Stem Cell Institute through participation in research seminar and journal clubs, and conduct stem cell research in the laboratory of a stem cell biology graduate program faculty member.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Applicants must be admitted to a Ph.D. program and obtain approval from the Stem Cell Biology director of graduate studies.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

In addition to course requirements, the student's research project must be done in the lab of a Stem Cell Biology faculty member; therefore, students must obtain approval from the Stem Cell Biology director of graduate studies prior to declaring the minor.

The minimum GPA for minor field coursework is 3.00.

Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Doctoral
Required Courses (5 credits)
Take the following required courses on the A/F grade basis.
- SCB 5054 - Stem Cell Institute Research Seminar and Journal Club (2.0 cr)
- SCB 8181 - Stem Cell Biology (3.0 cr)
Electives (7 credits)
Select at least seven elective credits in consultation with the Stem Cell Biology director of graduate studies to complete the 12-credit minimum. Elective courses should be taken on the A/F grade basis. Courses required to meet the student's major field requirement cannot be applied to the minor.

Take 7 or more credit(s) from the following:

- BIOC 5213 - Selected Topics in Molecular Biology (3.0 cr)
- BIOC 8007 - Molecular Biology of DNA (2.0 cr)
- BIOC 8008 - Molecular Biology of RNA (2.0 cr)
- BIOC 8401 - Ethics, Public Policy, and Careers in Molecular and Cellular Biology (1.0 cr)
- BMEN 5041 - Tissue Engineering (3.0 cr)
- BMEN 5351 - Cell Engineering (3.0 cr)
- BMEN 5701 - Cancer Bioengineering (3.0 cr)
- BTHX 5000 - Topics in Bioethics (1.0 - 4.0 cr)
- BTHX 5100 - Introduction to Clinical Ethics (3.0 cr)
- BTHX 5210 - Ethics of Human Subjects Research (3.0 cr)
- BTHX 5325 - Biomedical Ethics (3.0 cr)
- BTHX 5400 - Intro Ethics in Hlth Policy (3.0 cr)
- BTHX 8000 - Advanced Topics in Bioethics (1.0 - 4.0 cr)
- CSCI 5461 - Functional Genomics, Systems Biology, and Bioinformatics (3.0 cr)
- CSCI 5465 - Introduction to Computing for Biologists (3.0 cr)
- GCD 5005 - Computer Programming for Biology (3.0 cr)
- GCD 5036 - Molecular Cell Biology (3.0 cr)
- GCD 8008 - Mammalian Gene Transfer and Genome Engineering (2.0 cr)
- GCD 8131 - Advanced Molecular Genetics and Genomics (3.0 cr)
- GCD 8151 - Cellular Biochemistry and Cell Biology (2.0 - 4.0 cr)
- GCD 8161 - Advanced Cell Biology and Development (2.0 cr)
- MICA 8003 - Immunity and Immunopathology (4.0 cr)
- MICA 8004 - Cellular and Cancer Biology (4.0 cr)
- MICA 8014 - Small RNA Biology (2.0 cr)
- MILI 6235 - Pharmaceutical Industry: Business and Policy (2.0 cr)
- MILI 6726 - Medical Device Industry: Business and Public Policy (2.0 cr)
- MILI 6990 - The Health Care Marketplace (2.0 cr)
- MILI 6995 - Medical Industry Valuation Laboratory (2.0 cr)
- NSC 8211 - Developmental Neurobiology (4.0 cr)
- PHCL 5110 - Introduction to Pharmacology (3.0 cr)
- PHCL 5112 - A Graduate Toolkit I: An Introduction to the Scientific Research Lab (1.0 cr)
- PHSL 8242 - Professional Skills Development for Biomedical Scientists (2.0 cr)
- PSY 5063 - Introduction to Functional MRI (3.0 cr)
- PUBH 6450 - Biostatistics I (4.0 cr)
- PUBH 6451 - Biostatistics II (4.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 37
- This program requires summer semesters for timely completion.
- Degree: Master of Science in Surgery

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The general surgery residency program trains medical doctors for the practice of surgery and for academic positions. During residency, research trainees spend two to three years in either a basic science laboratory or in clinical translational surgery. The Department of Surgery offers supervised work in its experimental research laboratories, hospital, and outpatient departments.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
MD or graduate student in an applicable field.

Other requirements to be completed before admission:
Prospective students must be in the general surgery training program, with two to three clinical years of training completed; physicians interested in an advanced research degree; or individuals with relevant research education and experience. Non-physician applicants should confer with the director of graduate studies prior to applying to determine their potential for the MSSurg degree.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Plan A: Plan A requires 27 major credits, up to null credits outside the major, and 10 thesis credits. The final exam is oral.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

Core Coursework (18 credits)
Take the following courses, in consultation with the advisor, for 18 credits. Take 4 credits each of SURG 8990, 8992, and 8994.
Alternative course credits can be applied to the core requirement only with approval of the director of graduate studies. All courses must be taken A/F, with minimum earned grade of B.

- PUBH 6301 - Fundamentals of Clinical Research (3.0 cr)
- SURG 8202 - Surgical Research (3.0 cr)
- SURG 8990 - Topics in Pancreatology (1.0 - 4.0 cr)
- SURG 8994 - Directed Readings (1.0 - 4.0 cr)
- SURG 8992 - Directed Research (2.0 - 4.0 cr)

Biostatistics Requirement (8 credits)
Both courses must be taken A/F with a minimum earned grade of B.
- PUBH 6450 - Biostatistics I (4.0 cr)

PUBH 6451 - Biostatistics II (4.0 cr)
Ethics Requirement (1 credit)
Course must be taken A/F with minimum earned grade of B.
PUBH 6742 - Ethics in Public Health: Research and Policy (1.0 cr)
Thesis Credits (10 credits)
Take at least 10 master's thesis credits.
SURG 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)
Twin Cities Campus
Adult Health/Gerontological Clinical Nurse Specialist Postgraduate Certificate
School of Nursing

- Program Type: Post-baccalaureate credit certificate/licensure/endorsement
- Requirements for this program are current for Fall 2020
- Length of program in credits: 21 to 34
- This program requires summer semesters for timely completion.
- Degree: Adult Hlth/Geron Clincial Nurse Spec Certificate

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Accreditation
This program is accredited by Commission on Collegiate Nursing Education (CCNE).

Program Delivery
This program is available:
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A DNP degree and coursework in 3 of the 5 following subjects: physiology, pathophysiology, pharmacology, pharmacothereapeutics, advanced physical assessment.

Other requirements to be completed before admission:
All applicants must have a current registered nurse license.

Special Application Requirements:
Applicants are required to submit transcripts from all institutions where post-secondary credit was earned, reference materials containing an Admission Reference Form and personal letter of reference from two separate individuals, two essays, a current curriculum vitae/resume, a current registered nurse license, and English language proficiency scores (if applicable). Application deadlines for this certificate are a priority deadline of November 1, with rolling admissions on a space-available basis until March 1.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 95
  - Paper Based - Total Score: 586
- MELAB
  - Final score: 85

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (TOEFL, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Information current as of September 04, 2020
Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.

3.0 cumulative GPA is required. Please contact the School of Nursing for detailed information about the requirements for this certificate.

Specialty Courses (21 Credits)
Complete the following required specialty courses for the certificate. NURS 6408 must be taken for 1 credit. NURS 6502 must be taken for 3 credits. NURS 7505 must be taken for 2 credits.

NURS 6405 - Advanced Practice CNS Roles Across the Lifespan (3.0 cr)
NURS 6406 - Advanced Practice CNS Roles Across the Lifespan: Practicum (1.0 cr)
NURS 6407 - Advanced Nursing Care of Older Adults (3.0 cr)
NURS 6408 - Advanced Nursing Care of Older Adults Practicum (1.0 - 2.0 cr)
NURS 6501 - Assessment and Management of Health for Advanced Practice Nurses, I (3.0 cr)
NURS 6502 - Assessment and Management of Health for Advanced Practice Nurses, II (2.0 - 3.0 cr)
NURS 7406 - Advanced Nursing Practicum in Adult-Gerontology Health (2.0 cr)
NURS 7505 - Assessment and Management of Health for Advanced Practice Nurses Practicum II (1.0 - 2.0 cr)
NURS 7705 - The Adult and Gerontological Clinical Nurse Specialist in Acute Care (2.0 cr)
NURS 7706 - Implementing the Role of the Clinical Nurse Specialist in Acute Care (1.0 cr)

Advanced Practice Registered Nurse Core Courses (0 to 13 credits)
Completion of the following coursework is required for the post-graduate certificate program. Students who have not completed these courses or their equivalents prior to admission must do so to meet requirements. Consult with the Doctor of Nursing Practice Program Director to evaluate prior APRN coursework for equivalency. NURS 5229 must be taken for 4 credits.

NURS 5200 - Advanced Holistic Health Assessment for the Advanced Practice Nurse (3.0 cr)
NURS 5222 - Advanced Human Physiology (2.0 cr)
NURS 5226 - Advanced Human Pathophysiology (2.0 cr)
NURS 5228 - Pharmacology for Advanced Practice Nursing (2.0 cr)
NURS 5229 - Clinical Pharmacotherapeutics (3.0 - 4.0 cr)

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 39 to 100
- This program requires summer semesters for timely completion.
- Degree: Doctor of Nursing Practice

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Doctor of Nursing Practice (DNP) Program is offered as the post-baccalaureate with specialty (12 specialties). The School of Nursing also offers a post-master’s DNP program for students who have completed a master's degree in a nursing practice specialty.

The DNP program is an innovative, practice-focused program that prepares students to be leaders in health care, develop quality improvement, and systems problem solving. It prepares nurses to create and lead new models of care delivery for communities locally, across the nation, and around the world. Students work with faculty who are leaders in their fields and on the cutting edge of nursing research and practice. These experts become mentors and guide students through the program. The unique, interdisciplinary core curriculum is divided into the following four areas.

1. DNP core - Includes science of nursing intervention, moral and ethical positions, research, statistics, program evaluation, evidence-based practice, epidemiology, informatics, leadership, health economics, health policy, and teaching and learning.
2. DNP specialty core - Prepares students for advanced clinical practice; includes physiology, pharmacology, pharmacotherapeutics, and advanced health assessment.
3. DNP specialization - Prepares graduates for certification in their chosen specialty by a national certifying body and includes:
   a. Advanced clinical practice with specialty-specific courses for each of the areas of clinical specialization
   b. Other specialization in innovation and leadership, informatics, and integrative health and healing
4. DNP project - Completed by all students in a three-semester sequence during which the project is planned, implemented, evaluated, and disseminated

The School of Nursing and the School of Public Health offer a DNP/MPH-Public Health Practice dual degree program. This dual degree option provides students with a unique opportunity to provide advanced nursing care as leaders of inter-professional health care teams, emphasizing population-focused practice, and quality improvement to impact patient outcomes.

Accreditation
This program is accredited by Commission on Collegiate Nursing Education (CCNE).

Program Delivery
This program is available:
- primarily online (at least 80% of the instruction for the program is online with short, intensive periods of face-to-face coursework)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

The post-baccalaureate DNP specialty areas and post-master's DNP require an entry-level nursing degree (e.g. BSN, BAN, post-bacc certificate in nursing, or entry-level master of nursing).

A graduate degree is not required for admission to the post-baccalaureate DNP program.
Applicants for the post-master's DNP must hold a master's degree in a nursing practice specialty.

Other requirements to be completed before admission:
The required application process is available on the School of Nursing website at www.nursing.umn.edu. Interviews are by invitation only and are not granted to all applicants. Application deadlines for the DNP program are available on the School of Nursing website.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 95
  - Paper Based - Total Score: 586
- MELAB
  - Final score: 85

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (TOEFL, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
39 to 100 credits are required in the major.
This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

Students MUST complete coursework according to the program plan appropriate for their term of admission and year plan. Any modifications to the program plan must be approved by the Specialty Coordinator/Faculty Advisor and Doctoral Programs Coordinator.

Core Coursework
Students with a Master of Nursing (MN) degree earned prior to 2010 must take NURS 7600 for 4 credits, and complete the remaining core coursework for a total of 41 credits. Students with an MN degree earned between 2010 and 2014 must take NURS 7600 for 2 credits and complete the remaining core courses for a total of 39 credits. All core courses with the exception of NURS 7110 must be completed with the A-F grade base.

NURS 5115 - Interprofessional Health Care Informatics (3.0 cr)
NURS 6200 - Science of Nursing Intervention (3.0 cr)
NURS 7000 - DNP Proseminar (1.0 cr)
NURS 7100 - Quality Improvement and Implementation Science in Health Care (3.0 cr)
NURS 7102 - Scholarly Dissemination and Advanced Professional Engagement (2.0 cr)
NURS 7200 - Economics of Health Care (3.0 cr)
NURS 7300 - Program Planning and Evaluation (3.0 cr)
NURS 7400 - Health Policy Leadership (3.0 cr)
NURS 7600 - Nursing Research and Evidence Based Practice (2.0 - 4.0 cr)
NURS 7610 - System Leadership and Innovation (3.0 cr)
NURS 7900 - Scholarly Teaching and Learning in Nursing (3.0 cr)
NURS 6110 - Epidemiology in Nursing (2.0 cr)
  or PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)
Take 3 or more credit(s) from the following:
  • NURS 7110 - NURS 7110 DNP Project Practicum (1.0 - 3.0 cr)
Statistics
Complete at least 3 credits of graduate-level inferential statistics
EPSY 5261 - Introductory Statistical Methods (3.0 cr)
  or PUBH 6414 - Biostatistical Literacy (3.0 cr)

Joint- or Dual-degree Coursework: Doctor of Nursing Practice/Master of Public Health - Public Health Practice (D.N.P./M.P.H.-Public Health Practice) Student may take a total of 14 credits in common among the academic programs.

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may complete the program with more than one sub-plan.

**Adult Health/Gerontological Clinical Nurse Specialist**

The DNP program with a specialty in adult health and gerontological nursing as a clinical nurse specialist (CNS) prepares clinical experts to provide advanced nursing care to adults and older adults in a variety of settings as well as leadership role as advanced practice nurses.

Graduates work as expert clinicians and consultants in acute care settings, nursing homes, transitional care, and specialty practices. The adult health and gerontological specialty offers leadership preparation for nurses desiring expertise in the management of complex health conditions, working with nurses and interdiscipliary teams and organizations to provide care and services for adults and older adults. Students ground their studies in the science of nursing interventions, moral/ethical issues, and nursing research. Practicum experiences are arranged to meet the individual needs of students while also meeting CNS competency, accreditation and certification requirements. In addition to completing core studies in the specialty, students also gain skills in evidence-based practice, program evaluation, informatics, teaching/learning, health economics, health care policy, and epidemiology.

**Required Specialty Coursework**

Complete the following courses for at least 39 credits. 4 credits of NURS 5229 is required; 3 credits of NURS 6502 is required; 2 credits of NURS 7505 is required; 1 credit of NURS 6408; 3 credits of NURS 6501 is required for this specialty.

- **CSPH 5101** - Introduction to Integrative Healing Practices (3.0 cr)
- **NURS 5200** - Advanced Holistic Health Assessment for the Advanced Practice Nurse (3.0 cr)
- **NURS 5222** - Advanced Human Physiology (2.0 cr)
- **NURS 5226** - Advanced Human Pathophysiology (2.0 cr)
- **NURS 5228** - Pharmacology for Advanced Practice Nursing (2.0 cr)
- **NURS 5229** - Clinical Pharmacotherapeutics (3.0 - 4.0 cr)
- **NURS 6405** - Advanced Practice CNS Roles Across the Lifespan (3.0 cr)
- **NURS 6406** - Advanced Practice CNS Roles Across the Lifespan: Practicum (1.0 cr)
- **NURS 6407** - Advanced Nursing Care of Older Adults (3.0 cr)
- **NURS 6408** - Advanced Nursing Care of Older Adults Practicum (1.0 - 2.0 cr)
- **NURS 6501** - Assessment and Management of Health for Advanced Practice Nurses, I (3.0 cr)
- **NURS 6502** - Assessment and Management of Health for Advanced Practice Nurses, II (2.0 - 3.0 cr)
- **NURS 7202** - Moral and Ethical Positions and Actions in Nursing (2.0 cr)
- **NURS 7406** - Advanced Nursing Practicum in Adult-Gerontology Health (2.0 cr)
- **NURS 7505** - Assessment and Management of Health for Advanced Practice Nurses Practicum II (1.0 - 2.0 cr)
- **NURS 7705** - The Adult and Gerontological Clinical Nurse Specialist in Acute Care (2.0 cr)
- **NURS 7706** - Implementing the Role of the Clinical Nurse Specialist in Acute Care (1.0 cr)

**Adult/Gerontological Primary Care Nurse Practitioner**

The DNP program with a specialty in adult health and gerontological nursing as a nurse practitioner prepares nurses for leadership as advanced practice nurses and clinical experts to provide advanced nursing care to adults and elders in a variety of settings. This DNP program is for students who already hold a baccalaureate degree in nursing, and involves both coursework and practicum experiences, as well as a final internship where the student has the opportunity focus on a sub-specialty area (e.g. oncology, cardiology, palliative care), if desired. Graduates work in primary care/ambulatory care settings, hospitals, group practices of advanced practice gerontological nurses that manage care of adults and older adults in nursing homes, transitional care settings, assisted living, and specialty practices.

The adult health and gerontological specialty offers leadership preparation for nurses desiring expertise in advanced nursing assessment and management for health promotion and disease prevention, management of complex health conditions, and working with interdisciplinary teams to provide care and services for persons ranging from adolescents, adults, and older adults. Practicum experiences are arranged to meet the individual needs of students while also meeting accreditation and certification requirements.

**Required Specialty Coursework**

Complete the following courses for 37 credits. Specialty requirements for Variable credit course: NURS 5229 = 4 credits; NURS 6305 = 3 credits; NURS 7504 = 1 credit; NURS 7505 = 1 credit; NURS 6502 = 3 credits; NURS 6408 = 2 credits

- **CSPH 5101** - Introduction to Integrative Healing Practices (3.0 cr)
- **NURS 5200** - Advanced Holistic Health Assessment for the Advanced Practice Nurse (3.0 cr)
- **NURS 5222** - Advanced Human Physiology (2.0 cr)
- **NURS 5226** - Advanced Human Pathophysiology (2.0 cr)
- **NURS 5228** - Pharmacology for Advanced Practice Nursing (2.0 cr)
- **NURS 5229** - Clinical Pharmacotherapeutics (3.0 - 4.0 cr)
- **NURS 6305** - Reproductive and Sexual Health Care (3.0 cr)
- **NURS 6307** - Assessment and Management of Health for APNs Practicum III (1.0 cr)
- **NURS 6407** - Advanced Nursing Care of Older Adults (3.0 cr)
- **NURS 6408** - Advanced Nursing Care of Older Adults Practicum (1.0 - 2.0 cr)
- **NURS 6501** - Assessment and Management of Health for Advanced Practice Nurses, I (3.0 cr)
- **NURS 6502** - Assessment and Management of Health for Advanced Practice Nurses, II (2.0 - 3.0 cr)
- **NURS 7202** - Moral and Ethical Positions and Actions in Nursing (2.0 cr)
NURS 7406 - Advanced Nursing Practicum in Adult-Gerontology Health (2.0 cr)
NURS 7504 - Assessment and Management of Health for Advanced Practice Nurses, Practicum I (1.0 - 2.0 cr)
NURS 7505 - Assessment and Management of Health for Advanced Practice Nurses Practicum II (1.0 - 2.0 cr)

Women's Health/Gender-Related Nurse Practitioner
The DNP program with a specialty in women's health prepares nurses for leadership as advanced practice nurses.

Clinical experience is offered in primary care, women's health, and specialty practice areas, such as oncology and reproductive endocrinology. Students ground their studies in the science of nursing intervention, moral/ethical issues, and nursing research. They then focus on courses that examine the basis of assessment and intervention for adolescent and adult populations with an emphasis on adolescent and adult women. Practicum experiences are arranged to meet the individual needs of students while also meeting accreditation and certification requirements. In addition to completing core studies in the specialty, students also gain skills in evidence-based practice, program evaluation, informatics, teaching/learning, health economics, health care policy, and epidemiology. A final project that is a systematic investigation of a practice problem is planned, implemented, and completed during the curriculum.

Required Specialty Coursework
Complete the following courses for at least 38 credits. Courses with Variable credit requirements for this specialty: NURS 5229 = 3 credits; NURS 6305 = 3 credits; NURS 6925 = 3 credits.

CSPH 5101 - Introduction to Integrative Healing Practices (3.0 cr)
NURS 5200 - Advanced Holistic Health Assessment for the Advanced Practice Nurse (3.0 cr)
NURS 5222 - Advanced Human Physiology (2.0 cr)
NURS 5226 - Advanced Human Pathophysiology (2.0 cr)
NURS 5228 - Pharmacology for Advanced Practice Nursing (2.0 cr)
NURS 5229 - Clinical Pharmacotherapeutics (3.0 - 4.0 cr)
NURS 6213 - Reproductive Healthcare for Patients with Complex Conditions (2.0 cr)
NURS 6214 - Reproductive Health Care for Patients with Complex Conditions Practicum (2.0 cr)
NURS 6305 - Reproductive and Sexual Health Care (3.0 cr)
NURS 6306 - Reproductive and Sexual Health Practicum (1.0 cr)
NURS 6501 - Assessment and Management of Health for Advanced Practice Nurses, I (3.0 cr)
NURS 6925 - Advanced Concepts in Women's Health Care I (1.0 - 3.0 cr)
NURS 6926 - Advanced Concepts in Women's Health for WHNP Practicum I (1.0 cr)
NURS 6927 - Advanced Concepts in Women's Health II (3.0 cr)
NURS 6928 - Adv Concepts in Women's Health II WHNP Prac (1.0 cr)
NURS 7202 - Moral and Ethical Positions and Actions in Nursing (2.0 cr)
NURS 7310 - WHNP Clinical and Professional Integration (2.0 cr)

Nurse Anesthesia
This sub-plan is optional and does not fulfill the sub-plan requirement for this program.

The nurse anesthesia area of study prepares registered nurses to become Certified Registered Nurse Anesthetists (CRNAs) who are prepared for nurse anesthesia practice at the highest level. Graduates will possess expertise in general and regional anesthesia techniques and will be prepared to provide leadership in the practice setting. The nurse anesthesia area of study is fully accredited by the Council on Accreditation of Nurse Anesthesia Education Programs. The program was the first nurse anesthesia program in the US to be accredited to offer the entry-level DNP.

With the Minneapolis VA Medical Center serving as the primary clinical site for the program, the University of Minnesota nurse anesthesia students rotate to several urban and rural clinical sites, which offer a broad spectrum of practice experiences.

Nurse anesthesia students complete the requirements for the DNP degree, as well as the requirements to take the National Certification Exam for nurse anesthetists.

Required Specialty Coursework
Complete the following courses for at least 61 credits.

NURS 5222 - Advanced Human Physiology (2.0 cr)
NURS 5226 - Advanced Human Pathophysiology (2.0 cr)
NURS 5228 - Pharmacology for Advanced Practice Nursing (2.0 cr)
NURS 5230 - Pharmacotherapeutics for Nurse Anesthesia (4.0 cr)
NURS 6895 - Adult Acute Care Holistic Health Assessment and Wellness (2.0 cr)
NURS 6900 - Introduction to Principles of Anesthesia (4.0 cr)
NURS 6901 - Basic Nurse Anesthesia Principles (3.0 cr)
NURS 6902 - Nurse Anesthesia Care: Cardiothoracic and Vascular Diseases (2.0 cr)
NURS 6903 - Nurse Anesthesia Care: Special Populations Across the Lifespan (2.0 cr)
NURS 6910 - Nurse Anesthesia Clinical Integration (3.0 cr)
NURS 6911 - Basic Nurse Anesthesia Principles Practicum I (2.0 cr)
NURS 6912 - Nurse Anesthesia Care: Cardiothoracic and Vascular Disease Practicum III (3.0 cr)
Family Nurse Practitioner

The DNP program with a specialty in the family nurse practitioner (FNP) area of study prepares advanced practice nurses for leadership in the provision of health care to individuals and families across the lifespan. The program is for students who already hold a baccalaureate degree in nursing, and involves both coursework and clinical practicums.

The FNP area of study offers an academic-practice program to develop nurse leaders for health promotion and clinical management of health conditions in individuals across the lifespan within the context of their families and environment. Students ground their studies in the science of nursing intervention, evidence-based practice, scientific knowledge, moral/ethical issues, and nursing research. They apply skills focused on evaluating the basis of assessment and intervention for families and individuals of all ages and backgrounds. Faculty and staff within the School of Nursing arrange clinical practicum experiences to provide practice opportunities with diverse populations and settings and to meet the individual needs of students while also meeting national accreditation and certification requirements. In addition to completing core studies in the specialty population, students also gain skills in program evaluation, informatics, teaching/learning, health economics, health care policy, and epidemiology. During the curriculum, students design, implement and complete a final project that is a systematic investigation of a practical area of study.

Required Specialty Coursework

Completion of the courses for 41 credits is required for this specialty. Specialty Credit requirements for courses with variable credits:

- NURS 6299 = 4 credits
- NURS 6502 = 3 credits
- NURS 7504 = 1 credit
- NURS 7505 = 1 credit

CSPH 5101 - Introduction to Integrative Healing Practices (3.0 cr)
NURS 5200 - Advanced Holistic Health Assessment for the Advanced Practice Nurse (3.0 cr)
NURS 5222 - Advanced Human Physiology (2.0 cr)
NURS 5226 - Advanced Human Pathophysiology (2.0 cr)
NURS 5228 - Pharmacology for Advanced Practice Nursing (2.0 cr)
NURS 5229 - Clinical Pharmacotherapeutics (3.0 - 4.0 cr)
NURS 6102 - Family Health Theory (2.0 cr)
NURS 6305 - Reproductive and Sexual Health Care (3.0 cr)
NURS 6501 - Assessment and Management of Health for Advanced Practice Nurses, I (3.0 cr)
NURS 6502 - Assessment and Management of Health for Advanced Practice Nurses, II (2.0 - 3.0 cr)
NURS 7504 - Assessment and Management of Health for Advanced Practice Nurses Practicum I (1.0 cr)
NURS 7505 - Assessment and Management of Health for Advanced Practice Nurses Practicum II (1.0 - 2.0 cr)
NURS 7506 - Family Practice Practicum III: Assessment and Management of Health for the Family Nurse Practitioner (1.0 cr)
NURS 7507 - Assessment Management of Health Practicum IV: Community Health Leadership for Family Nurse Pract (1.0 cr)
NURS 7508 - Health Care of the Elderly for the Family Nurse Practitioner Practicum (1.0 cr)
NURS 7509 - Assessment and Management of Health Practicum V: Primary Care for the Family Nurse Practitioner (1.0 cr)
NURS 7515 - Health Care of Children for the Family Nurse Practitioner: Well Child Care (1.0 cr)
NURS 7516 - Health Care of Children for the Family Nurse Practitioner: Acute and Chronic Management (2.0 cr)
NURS 7518 - Health Care of the Elder Patient for the Family Nurse Practitioner (1.0 cr)

Health Innovation and Leadership

Health care is delivered today in diverse settings, by an expanding workforce and with extraordinary opportunities for nurses to lead, whether through formal leadership positions or through personal advocacy, in traditional settings, or in emerging sites. This requires an individual who can think broadly and embrace a global perspective; who embraces diversity in all its forms, including diversity of thought; who is curious and never satisfied with the status quo; who stimulates new ways of thinking and solutions which open up possibilities for action; who bases action on informed practice gained from multiple ways of knowing; who engages in critical thinking, and learns from other thought leaders; who inspires and creates needed change within a particular environment; who can work effectively with a variety of individuals and within disparate groups; and who can create healing environments within which others can do their best work.

The DNP, with a focus on health innovation and leadership, prepares nurses to function effectively as leaders in traditional and contemporary settings. The goal is to prepare a leader who can work well in the current environment while promoting change and improvement. Students in the program utilize a combination of learning strategies, readings, reflections, and independent learning experiences. Seminars will enable students and faculty to discuss relevant issues and share expertise.
Students must complete the required specialty courses for 34 credits and at least 5 credits of electives to achieve 39 graduate level credits to complete the specialty. Credit requirements for this specialty for courses with variable credits: NURS 6704 = 1 credit; NURS 6706 = 2 credits; NURS 7605 = 2 credits. Students choose 5 credits of elective graduate level coursework in consultation with their faculty advisor.

Required Coursework

Completion of the following courses for at least 39 credits.

**CSPH 5711 - Optimal Healing Environments (3.0 cr)**
**HUMF 5874 - Service Design: Designing complex systems to improve service delivery (4.0 cr)**
**NURS 6600 - Health Systems and Care Models (3.0 cr)**
**NURS 6702 - Nursing Leadership Seminar: Introduction to Innovation and Leadership (3.0 cr)**
**NURS 6703 - Nursing Leadership Seminar: Organizational Culture and Leadership (2.0 cr)**
**NURS 6704 - Nursing Leadership Practicum: Organizational Culture and Leadership (1.0 - 2.0 cr)**
**NURS 6705 - Nursing Leadership Seminar: Quality and Change Management (2.0 cr)**
**NURS 6706 - Nursing Leadership Practicum: Quality and Change Management (1.0 - 2.0 cr)**
**NURS 6707 - Health Care Design and Innovation Practicum (2.0 cr)**
**NURS 7202 - Moral and Ethical Positions and Actions in Nursing (2.0 cr)**
**NURS 7604 - Executive Leadership Seminar: Boundary Spanning Leadership (2.0 cr)**
**NURS 7605 - Executive Leadership Practicum: Boundary Spanning Leadership (1.0 - 2.0 cr)**
**NURS 7606 - Relationship-Based Leadership and Management (3.0 cr)**
**NURS 7608 - Health Care Finance and Resource Management (3.0 cr)**

Specialty Electives

Choose 5 credits of elective coursework in collaboration with faculty advisor. Additional selections permitted with approval from the faculty advisor.

Take 5 or more credit(s) from the following:

- **CSPH 5118 - Whole Person, Whole Community: The Reciprocity of Wellbeing (3.0 cr)**
- **NURS 5812 - Global Health Through Study Abroad (1.0 - 2.0 cr)**
- **GCC 5031 - The Global Climate Challenge: Creating an Empowered Movement for Change [CIV] (3.0 cr)**
- **CSPH 5805 - Wellbeing in the Workplace (3.0 cr)**
- **CSPH 5806 - Wellbeing and Resiliency for Health Professionals (1.0 cr)**
- **CSPH 5807 - Mindfulness in the Workplace: Pause, Practice, Perform (2.0 cr)**
- **CSPH 5115 - Cultural Awareness, Knowledge and Health (3.0 cr)**
- **PUBH 6170 - Introduction to Occupational Health and Safety (3.0 cr)**
- **PUBH 6100 - Topics: Environmental Health (1.0 - 4.0 cr)**

Nursing Informatics

The nursing informatics (NI) specialty area prepares graduates with knowledge and skills necessary for leadership roles in health and nursing informatics to address the issues for consumers, clinical providers, and public health for processing and managing information through the use of various technologies. A wide array of courses throughout the University of Minnesota accompany nursing offerings, which offers students the opportunity to strengthen their disciplinary and interdisciplinary expertise.

With increasing demand for computerizing health information, graduates of the nursing informatics specialty are well positioned to assume leadership roles in nursing and health informatics field. The NI area of study provides knowledge and scholarship complemented by clinical experiences in the following areas:

- Systems analysis and design
- Knowledge representation and interoperability
- Clinical decision support and evidence-based practice
- Human factors and usability
- Leadership and health informatics
- Consumer, clinical provider, and population health informatics
- Health policy leadership
- Development and project management of health informatics projects
- Program evaluation
- Organization and administration of health services
- Ethical foundations of nursing
- Applied research

Required Specialty Coursework

Complete the following courses and at least 28 credits:

**CSPH 5711 - Optimal Healing Environments (3.0 cr)**
**NURS 5611 - Database Principles for Healthcare (2.0 cr)**
**NURS 6105 - Systems Analysis and Design (3.0 cr)**
**NURS 7051 - Data Science for Healthcare (2.0 cr)**
**NURS 7052 - Data Science for Healthcare Practicum (1.0 cr)**
NURS 7105 - Knowledge Representation and Interoperability (2.0 cr)
NURS 7106 - Knowledge Representation and Interoperability Practicum (2.0 cr)
NURS 7108 - Population Health Informatics (2.0 cr)
NURS 7109 - Population Health Informatics Practicum (2.0 cr)
NURS 7113 - Clinical Decision Support: Theory (2.0 cr)
NURS 7114 - Clinical Decision Support Practicum (2.0 cr)
NURS 7118 - Human Factors and Human-Computer Interaction in Health Informatics (3.0 cr)
NURS 7202 - Moral and Ethical Positions and Actions in Nursing (2.0 cr)

Integrative Health and Healing
The integrative health and healing specialty area prepares graduates with skills necessary for working with individuals, families, communities, and health systems in developing holistic approaches to health promotion, disease prevention, and chronic disease management, with a special emphasis on managing lifestyle changes and incorporating the use of complementary therapies. Graduates are prepared to work in diverse settings including hospitals, outpatient settings, health plans, corporate and community organizations, and in private practice. A wide array of courses are available which offer students the opportunity to strengthen their disciplinary and interdisciplinary expertise. Through a collaboration with the Center for Spirituality and Healing, students can opt to concurrently earn a graduate certificate in integrative therapies and healing practices, including a focus in health coaching.

The integrative health and healing area of study provides a foundation of knowledge and practical experiences in the following areas:
- Optimal healing environments
- Botanical medicine
- Clinical aromatherapy
- Mind/body healing
- Functional nutrition
- Energy healing
- Health coaching
- Self-care
- Advanced integrative health and healing skills and program planning
- Applied research

Students choosing to complete coursework part-time are well accommodated by the curriculum.

Completion of 40 graduate level credits is required for the specialty - 38 credits of required coursework and 2 credits of elective coursework.

**Required Specialty Coursework**

Complete the following courses for at least 39 credits.

**CSPH 5101 - Introduction to Integrative Healing Practices (3.0 cr)**
**CSPH 5226 - Advanced Meditation: Body, Brain, Mind, and Universe (1.0 cr)**
**CSPH 5313 - Acupuncture (1.0 cr)**
**CSPH 5423 - Botanical Medicines: Foundations and Practical Applications (1.0 cr)**
**CSPH 5431 - Functional Nutrition: An Expanded View of Nutrition, Chronic Disease, and Optimal Health (2.0 cr)**
**CSPH 5503 - Aromatherapy Fundamentals (1.0 cr)**
**CSPH 5535 - Reiki Healing (1.0 cr)**
**CSPH 5536 - Advanced Reiki Healing: Level II (1.0 cr)**
**CSPH 5631 - Healing Imagery I (2.0 cr)**
**CSPH 5701 - Fundamentals of Health Coaching I (4.0 cr)**
**CSPH 5711 - Optimal Healing Environments (3.0 cr)**
**NURS 5200 - Advanced Holistic Health Assessment for the Advanced Practice Nurse (3.0 cr)**
**NURS 5222 - Advanced Human Physiology (2.0 cr)**
**NURS 5226 - Advanced Human Pathophysiology (2.0 cr)**
**NURS 5228 - Pharmacology for Advanced Practice Nursing (2.0 cr)**
**NURS 7202 - Moral and Ethical Positions and Actions in Nursing (2.0 cr)**
**NURS 7209 - Integrative Nursing I (1.0 cr)**
**NURS 7210 - Integrative Nursing Practicum I (1.0 cr)**
**NURS 7211 - Integrative Nursing Didactic II (1.0 cr)**
**NURS 7212 - Integrative Nursing Practicum II (2.0 cr)**
**NURS 7214 - Integrative Health and Healing III (1.0 cr)**
**NURS 7215 - Integrative Health and Healing Practicum III (2.0 cr)**

Complete one of the following course options
- **CSPH 5102 - Art of Healing: Self as Healer (1.0 cr)**
- or **CSPH 5806 - Wellbeing and Resiliency for Health Professionals (1.0 cr)**

**Specialty Electives**
Additional course options may be available with faculty advisor approval.

Take 2 or more credit(s) from the following:
Course Codes:

CSPH 5000 - Explorations in Integrative Therapies and Healing Practices (1.0 - 4.0 cr)
CSPH 5111 - Ways of Thinking about Health (2.0 cr)
CSPH 5115 - Cultural Awareness, Knowledge and Health (3.0 cr)
CSPH 5121 - Whole Systems Healing: Health and the Environment (2.0 cr)

CSPH 8191 - Independent Study in Integrative Therapies and Healing Practices (1.0 - 6.0 cr)

Nurse Midwifery

This program combines academic preparation with clinical skills for the independent management of health care for women/individuals seeking midwifery care and newborns. Further, students receive additional academic preparation in health care policy, economics, evidence-based practice, evaluation and informatics, and complete a systems change project while in the program. DNP midwifery graduates are prepared to more quickly fulfill leadership roles in the health care setting. Courses are offered in a web-based format, with multi-day, on-campus seminars approximately three to four times per semester, in Minneapolis. By taking the courses in an online format, students may complete the midwifery program without having to relocate. Trips to campus to interact with faculty and other students allow for development of a professional learning community and enhance professional socialization. Midwifery clinical sites are used in or near a student's home community if available. Travel may be necessary depending on available midwifery practice locations. The online program is primarily geared to students in the five-state Upper Midwest region of Minnesota, Iowa, South Dakota, North Dakota, and Wisconsin. Nurse-midwives assist women/individuals seeking midwifery care, newborns and families to promote and maintain health, and to facilitate optimal individual and family integrity in the in the context of culture and community.

Completion of the following courses and at least 40 credits is required. NURS 5505 is required for students without labor and delivery experience as a Registered Nurse. Specialty credit requirements for courses with variable credits: NURS 5229 = 3 credits; NURS 6305 = 3 credits; NURS 6925 = 3 credits; NURS 6308 = 2 credits

Required Specialty Coursework

Complete the following courses for at least 41 credits.

CSPH 5101 - Introduction to Integrative Healing Practices (3.0 cr)
NURS 5200 - Advanced Holistic Health Assessment for the Advanced Practice Nurse (3.0 cr)
NURS 5222 - Advanced Human Physiology (2.0 cr)
NURS 5226 - Advanced Human Pathophysiology (2.0 cr)
NURS 5228 - Pharmacology for Advanced Practice Nursing (2.0 cr)
NURS 5229 - Clinical Pharmacotherapeutics (3.0 - 4.0 cr)
NURS 6210 - Midwifery Care of the Childbearing Family (3.0 cr)
NURS 6211 - Midwifery Care of the Childbearing Family Practicum (2.0 cr)
NURS 6213 - Reproductive Healthcare for Patients with Complex Conditions (2.0 cr)
NURS 6214 - Reproductive Health Care for Patients with Complex Conditions Practicum (2.0 cr)
NURS 6305 - Reproductive and Sexual Health Care (3.0 cr)
NURS 6306 - Reproductive and Sexual Health Practicum (1.0 cr)
NURS 6308 - Women's Primary Care Practicum (1.0 - 2.0 cr)
Required Specialty Coursework

Completion of the courses for 40 credits. Specialty credit requirements for courses with variable credits: NURS 5229 = 3 credits; NURS 6921 = 1 credit

CSPH 5101 - Introduction to Integrative Healing Practices (3.0 cr)
NURS 5200 - Advanced Holistic Health Assessment for the Advanced Practice Nurse (3.0 cr)
NURS 5222 - Advanced Human Physiology (2.0 cr)
NURS 5226 - Advanced Human Pathophysiology (2.0 cr)

OLPD 5556 - Disability Policy and Services (3.0 cr)

Pediatric Nurse Practitioner - Primary Care

The pediatric nurse practitioner (PNP) area of study incorporates theory and clinical courses to prepare students to provide comprehensive care to children and their families. Most students elect to complete the children with special health care needs (CHSN) leadership track by taking additional courses which are supported by the Center for Children with Special Health Care Needs.

Coursework includes nursing theory, moral/ethical issues, research, child assessment, management of childhood illnesses, and health policy. Courses are taught by faculty from the School of Nursing, School of Public Health, the Institute of Child Development, Family Social Science, the Medical School, and the Institute of Community Integration in the College of Education.

Supervised clinical experience is incorporated in the program. Efforts are made to meet students’ individual goals and to provide experiences in their geographic area. Clinical experiences are available in interdisciplinary settings such as primary care, home care, schools, specialty clinics, community agencies, the legislature, and the Minnesota Department of Health.

At the completion of the program, students are eligible to take the Pediatric Nurse Practitioner certification examinations offered by the American Nurses Credentialing Center or the National Certification Board of Pediatric Nurse Practitioners and Nurses. Students in the CHSN track are eligible for certification from the Institute on Community Integration.
Required Specialty Coursework
Completion of the following courses for at least 42 credits is required. Specialty credit requirements for variable credit courses: NURS 5229 = 3 credits; NURS 6921 = 2 credits
CSPH 5101 - Introduction to Integrative Healing Practices (3.0 cr)
NURS 5200 - Advanced Holistic Health Assessment for the Advanced Practice Nurse (3.0 cr)
NURS 5222 - Advanced Human Physiology (2.0 cr)
NURS 5226 - Advanced Human Pathophysiology (2.0 cr)
NURS 5228 - Pharmacology for Advanced Practice Nursing (2.0 cr)
NURS 5229 - Clinical Pharmacotherapeutics (3.0 - 4.0 cr)
NURS 6102 - Family Health Theory (2.0 cr)
NURS 6519 - Advanced Pediatric Assessment (1.0 cr)
NURS 6920 - Primary Care: Assessment of Health and Care of Well Children (3.0 cr)
NURS 6921 - Assessment of Health and Care of Well Children: Primary Care Practicum (1.0 - 2.0 cr)
NURS 6922 - Primary Care: Assessment and Management of Common Conditions Affecting Children (3.0 cr)
NURS 6923 - Primary Care Practicum: Assessment and Management of Common Conditions Affecting Children (2.0 cr)
NURS 6924 - Assessment and Interventions for Children and Youth With Special Health Care Needs (2.0 cr)
NURS 7202 - Moral and Ethical Positions and Actions in Nursing (2.0 cr)
NURS 7925 - Systems of Care for Children and Youth With Special Health Care Needs Practicum (2.0 cr)
NURS 7926 - Advanced Assessment, Intervention in Families of Children and Youth With Special Health Care Needs (2.0 cr)
NURS 7927 - Adv Assessment, Intervention in Families of Children and Youth With Special Health Care Needs Prac (1.0 cr)
OLPD 5356 - Disability Policy and Services (3.0 cr)

Psychiatric-Mental Health Nurse Practitioner
Graduate studies in psychiatric-mental health nursing prepare nurses to assume clinical nurse specialist roles with an emphasis on providing direct patient care to persons with major mental disorders and their families. Coursework focuses on the development of advanced practice nursing knowledge and skills required to provide both psychotherapeutic and biological interventions for the management of acute and chronic psychiatric symptoms with a variety of patients in diverse settings. Coursework integrates extant theories and research in the study of advanced health assessment, psychopathology assessment, psychopharmacology, and individual family and group therapy within various community and institutional systems.

Clinical emphasis is on secondary and tertiary psychiatric interventions and outcomes within a managed care context. Students are clinically precepted by certified psychiatric-mental health clinical nurse specialists. Clinical experiences are available in outpatient clinics, community mental health centers, hospitals, schools, and home care agencies. Full-time or part-time students may enroll in the area of study. Current psychiatric nursing experience is strongly encouraged.

Graduates will be academically prepared to take the American Nurses Credentialing Center (ANCC) certification examination for certified specialists in psychiatric-mental health nursing, after obtaining additional required post-master's clinical hours and supervision.

Completion of 42 credits is required for the specialty - 39 credits of required specialty coursework and 3 credits of complementary alternative medicine elective coursework.

Required Specialty Coursework
Completion of the following courses for at least 39 credits. Specialty requirements for courses with variable credits: NURS 5229 = 3 credits

CSPH 5101 - Introduction to Integrative Healing Practices (3.0 cr)
NURS 5200 - Advanced Holistic Health Assessment for the Advanced Practice Nurse (3.0 cr)
NURS 5222 - Advanced Human Physiology (2.0 cr)
NURS 5225 - Psychopharmacology Advanced Practice Psychiatric/Mental Health Nursing (3.0 cr)
NURS 5226 - Advanced Human Pathophysiology (2.0 cr)
NURS 5228 - Pharmacology for Advanced Practice Nursing (2.0 cr)
NURS 5229 - Clinical Pharmacotherapeutics (3.0 - 4.0 cr)
NURS 6102 - Family Health Theory (2.0 cr)
NURS 6504 - Assessing, Managing Psychiatric Disorders in Adv Practice Psychiatric-Mental Health Nursing (2.0 cr)
NURS 6505 - PMH/APN Prac II:Assessing, Managing Psychiatric Disorders in Adv Prac Psychiatric-Mental Health Nurs (2.0 cr)
NURS 6602 - PMH Advanced Practice Nursing: Group as a Health Care Intervention (2.0 cr)
NURS 6603 - PMH APN Practicum IV: Group as a Health Care Intervention (2.0 cr)
NURS 6604 - Foundations for Integrative Mental Health and Psychiatric Advanced Practice Nursing (2.0 cr)
NURS 6605 - Psychiatric/Mental Health Advanced Nursing Practice Practicum I (1.0 cr)
NURS 6802 - Psychiatric/Mental Health Advance Practice Nursing: Psychotherapy with Individuals and Families (2.0 cr)
NURS 6803 - Psychiatric/Mental Health Adv Prac Nurs Practicum III: Psychotherapy With Individuals,Families (1.0 cr)
NURS 7202 - Moral and Ethical Positions and Actions in Nursing (2.0 cr)
NURS 7612 - Psychiatric/Mental Health Advanced Practice Nursing: Professional Seminar (1.0 cr)
NURS 7613 - Psychiatric/Mental Health Advanced Practice Nursing: Practicum V (2.0 cr)

Complimentary Alternative Medicine Electives
Elective coursework is required and chosen in consultation with faculty advisors. Additional options may be permitted with faculty
advisor approval.
Take 3 or more credit(s) from the following:
• CSPH 5102 - Art of Healing: Self as Healer (1.0 cr)
• CSPH 5111 - Ways of Thinking about Health (2.0 cr)
• CSPH 5115 - Cultural Awareness, Knowledge and Health (3.0 cr)
• CSPH 5311 - Introduction to Traditional Chinese Medicine (2.0 cr)
• CSPH 5315 - Traditional Tibetan Medicine: Ethics, Spirituality, and Healing (2.0 cr)
• CSPH 5317 - Yoga: Ethics, Spirituality, and Healing (2.0 cr)
• CSPH 5313 - Acupressure (1.0 cr)
• CSPH 5331 - Foundations of Shamanism and Shamanic Healing (2.0 cr)
• CSPH 5401 - People, Plants, and Drugs: Introduction to Ethnopharmacology (3.0 cr)
• CSPH 5421 - Botanical Medicines in Integrative Healthcare (3.0 cr)
• CSPH 5431 - Functional Nutrition: An Expanded View of Nutrition, Chronic Disease, and Optimal Health (2.0 cr)
• CSPH 5503 - Aromatherapy Fundamentals (1.0 cr)
• CSPH 5523 - Applications in Therapeutic Horticulture (2.0 cr)
• CSPH 5535 - Reiki Healing (1.0 cr)
• CSPH 5536 - Advanced Reiki Healing: Level II (1.0 cr)
• CSPH 5555 - Introduction to Body and Movement-based Therapies (2.0 cr)
• CSPH 5631 - Healing Imagery I (2.0 cr)
• CSPH 5641 - Animals in Health Care: The Healing Dimensions of Human/Animal Relationships (3.0 cr)
• CSPH 5121 - Whole Systems Healing: Health and the Environment (2.0 cr)
• CSPH 5201 - Spirituality and Resilience (2.0 cr)
• CSPH 5318 - Tibetan Medicine, Ayurveda, and Yoga in India (4.0 cr)
• CSPH 5343 - Ayurveda Medicine: The Science of Self-healing (2.0 cr)
• CSPH 5341 - Overview of Indigenous Hawaiian Healing (2.0 cr)
• CSPH 5423 - Botanical Medicines: Foundations and Practical Applications (1.0 cr)
• CSPH 5433 - An Introduction to Nature-Based Therapeutics (3.0 cr)
• CSPH 5708 - Mind-Body Science and the Art of Transformation (1.0 cr)
• CSPH 5805 - Wellbeing in the Workplace (3.0 cr)
• CSPH 5806 - Wellbeing and Resiliency for Health Professionals (1.0 cr)
• CSPH 5807 - Mindfulness in the Workplace: Pause, Practice, Perform (2.0 cr)
• CSPH 5905 - Food Matters: Cook Like Your Life Depends On It (1.0 cr)

Post-Master's D.N.P.
The post-master's option is for individuals who already hold a master's degree in a nursing practice specialty and who have nursing specialty preparation. The DNP program prepares nurses for leadership as advanced practice nurses, clinical experts, health care executives, policy experts, and informaticians.

Post-master's DNP students complete the core DNP requirements and any additional coursework needed to achieve the 1000 hour practicum requirement. Consult with the DNP program for more information.

Preceptor Supervisor Practicum Hours
Students completing the Post-Master's DNP must complete 1000 supervised hours of practicum. Upon admission, the total hours completed through the master's degree is documented and a gap analysis identifies whether additional practicum hours are needed. The number of credits of appropriate systems-level practicum coursework necessary to meet the 1000-hour requirement, if any, will be determined in consultation with the faculty advisor.

Practicum Course Options
Courses are chosen in consultation with the faculty advisor. Additional options are permitted with advisor approval.
Take 0 or more credit(s) from the following:
• NURS 5117 - Consumer Health Informatics Practicum (1.0 cr)
• NURS 6704 - Nursing Leadership Practicum: Organizational Culture and Leadership (1.0 - 2.0 cr)
• NURS 6706 - Nursing Leadership Practicum: Quality and Change Management (1.0 - 2.0 cr)
• NURS 7106 - Knowledge Representation and Interoperability Practicum (2.0 cr)
• NURS 7109 - Population Health Informatics Practicum (2.0 cr)
• NURS 7401 - Health Policy Leadership Practicum (0.5 - 1.0 cr)
• NURS 7605 - Executive Leadership Practicum: Boundary Spanning Leadership (1.0 - 2.0 cr)
• NURS 7904 - Nursing Education Practicum (2.0 cr)
• NURS 7113 - Clinical Decision Support: Theory (2.0 cr)
• NURS 5812 - Global Health Through Study Abroad (1.0 - 2.0 cr)

- Program Type: Post-baccalaureate credit certificate/licensure/endorsement
- Requirements for this program are current for Fall 2020
- Length of program in credits: 16
- This program requires summer semesters for timely completion.
- Degree: Ldrshp in Hlth Info Tec for Hlth Pro PBacc Cert

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

By combining formal clinical or public health advanced preparation with course work in health information technology (HIT), individuals who earn the postbaccalaureate certificate in leadership in health information technology for health professionals will be able to lead the successful deployment and use of HIT to achieve transformational improvement in the quality, safety, outcomes, and thus in the value of health services.

Program Delivery
This program is available:
- primarily online (at least 80% of the instruction for the program is online with short, intensive periods of face-to-face coursework)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Admittance to the program requires a baccalaureate degree from an accredited institution in a clinical or public health discipline. Example degrees would be a BS/BA in nursing or public health.

Preferred: Advanced degree in clinical or public health discipline from an accredited institution (nursing MS/DNP/PhD; public health MPH/MS/PhD; MS/PhD in other health-related field)

Other requirements to be completed before admission:
Applicants must have clinical or public health experience. A minimum of two years of management experience is required if the applicant does not hold an advanced degree.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 95
  - Paper Based - Total Score: 587
- MELAB
  - Final score: 85

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (TOEFL, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

Required Coursework (16 credits)
Take the following courses:
- NURS 5115 - Interprofessional Health Care Informatics (3.0 cr)
- NURS 5611 - Database Principles for Healthcare (2.0 cr)
- NURS 6105 - Systems Analysis and Design (3.0 cr)
- NURS 7051 - Data Science for Healthcare (2.0 cr)
- NURS 7105 - Knowledge Representation and Interoperability (2.0 cr)
- NURS 7108 - Population Health Informatics (2.0 cr)
- NURS 7113 - Clinical Decision Support: Theory (2.0 cr)

- **Program Type:** Master's
- **Requirements for this program are current for Fall 2020**
- **Length of program in credits:** 51
- **This program requires summer semesters for timely completion.**
- **Degree:** Master of Nursing

Along with the program-specific requirements listed below, please read the [General Information](http://www.nursing.umn.edu) section of the catalog website for requirements that apply to all major fields.

The master of nursing degree (MN) is a full-time, 16-month, graduate-level program for students with a baccalaureate (or higher) degree in a non-nursing field. The program includes all the essentials of a bachelor of science in nursing (BSN) program, plus additional graduate work. Upon completion of the coursework, students are eligible to take the National Council Licensure Examination for Registered Nurses (NCLEX-RN) and are also eligible for Public Health Nursing (PHN) certification in Minnesota. Traditional classroom formats are complemented by interactive components and web-based resources.

**Accreditation**
This program is accredited by Commission on Collegiate Nursing Education (CCNE).

**Program Delivery**
This program is available:
- via classroom (the majority of instruction is face-to-face)

**Prerequisites for Admission**
The preferred undergraduate GPA for admittance to the program is 3.50.

Completion of a baccalaureate degree from an accredited institution in a non-nursing area of study completed no later than June 1 prior to start of fall semester for year admitted.

Other requirements to be completed before admission:

There are nine prerequisite courses to complete before the start of the master of nursing (MN) program: General Chemistry, Human Anatomy, Human Physiology, Microbiology, Pathology, Human Nutrition, Lifespan Growth and Development, Abnormal Psychology, Inferential Statistics.

Five courses must be complete, with final grades sent to the School of Nursing, by the application deadline. Students are recommended to make three of the five courses their science courses.

**Special Application Requirements:**
Prior to matriculation to the program, students must complete a Minnesota background check, immunizations, submit provider-level CPR verification, and meet the School of Nursing published technical standards. Application to the Master of Nursing program is available on the School of Nursing website. After a preliminary review of submitted materials, selected applicants are invited to participate in an interview with representatives of the admissions committee.

Applicants must submit their test score(s) from the following:
- GRE

International applicants must submit score(s) from one of the following tests:
- TOEFL
- Internet Based - Total Score: 95
- Paper Based - Total Score: 586
- IELTS
  - Total Score: 7

The preferred English language test is Test of English as Foreign Language.

Key to test abbreviations (GRE, TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan C: Plan C requires 51 major credits and up to null credits outside the major. There is no final exam. A capstone project is required.

Capstone Project: The capstone project is an examination of a clinical problem in the setting where students complete their final clinical rotation. It may also be a type of research experience or practicum with a School of Nursing faculty member.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

Students must maintain the compliance requirements (Minnesota background check, immunizations, provider-level CPR verification, and School of Nursing published technical standards) throughout the program.

Required Coursework

- **NURS 5029** - Introduction to Nursing Interventions (3.0 cr)
- **NURS 5030** - Foundational Concepts of Professional Nursing (3.0 cr)
- **NURS 5031** - Human Response to Health and Illness: Adults and Elders (4.0 cr)
- **NURS 5032** - Human Response to Health and Illness: Children and Childbearing Families (5.0 cr)
- **NURS 5033** - Population-Focused Health in Public Health and Mental Health Nursing (5.0 cr)
- **NURS 5034** - Transition to Professional Nursing Practice (3.0 cr)
- **NURS 5035** - Practicum Nursing Care for Complex Health Conditions (4.0 cr)
- **NURS 5115** - Interprofessional Health Care Informatics (3.0 cr)
- **NURS 5190** - Essentials of Holistic Health Assessment and Foundational Clinical (3.0 cr)
- **NURS 5222** - Advanced Human Physiology (2.0 cr)
- **NURS 5241** - Nursing Leadership for Effective Practice (2.0 cr)
- **PHAR 5800** - Pharmacotherapy for the Health Professions (3.0 cr)
- **NURS 6200** - Science of Nursing Intervention (3.0 cr)
- **NURS 7202** - Moral and Ethical Positions and Actions in Nursing (2.0 cr)
- **NURS 7600** - Nursing Research and Evidence Based Practice (2.0 - 4.0 cr)
- **NURS 5226** - Advanced Human Pathophysiology (2.0 cr)

Program Sub-plans

A sub-plan is not required for this program.

Students may not complete the program with more than one sub-plan.

- This program requires summer semesters for timely completion.
- Degree: Nurse Midwifery Certificate

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The postgraduate certificate program in nurse midwifery offers students with a doctor of nursing practice (DNP) or other graduate degree in a clinical nursing specialty area the opportunity to complete an additional area of study. Completion of required coursework and practice hours provides eligibility to take certification examinations.

Accreditation
This program is accredited by American Midwifery Certification Board & Commission on Collegiate Nursing Education (CCNE).

Program Delivery
This program is available:
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

DNP with coursework in the 3 of the 5 following subject areas: adv. physiology, adv. pathophysiology, pharmacology, pharmacotherapeutics, adv. health assessment is required for admission to this program

Other requirements to be completed before admission:
All applicants must have a current registered nurse license.

Special Application Requirements:
Applicants are required to submit transcripts from all institutions where postsecondary credit was earned, reference materials containing an Admission Reference Form and personal letter of reference from two separate individuals, two essays, a current curriculum vitae/resume, a current registered nurse license, and English language proficiency scores (if applicable). Application deadlines for this certificate are a priority deadline of November 1, with rolling admissions on a space available basis until March 1.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 95
  - Paper Based - Total Score: 586
- MELAB
  - Final score: 85

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (TOEFL, MELAB).

Program Requirements

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.

Please contact the School of Nursing for detailed information about the requirements for this certificate. Each applicant's curriculum is unique and based on the applicant's previous DNP degree and coursework. Final coursework decisions are made by the faculty advisor. A 3.0 cumulative GPA is required.

Specialty Courses (23 Credits)
Complete the following required specialty courses for the certificate. Credit requirements for courses with variable credits: Take NURS 6305 for 3 credits; NURS 6308 for 2 credits; and NURS 6925 for 2 credits.

- NURS 6305 - Reproductive and Sexual Health Care (3.0 cr)
- NURS 6306 - Reproductive and Sexual Health Practicum (1.0 cr)
- NURS 6501 - Assessment and Management of Health for Advanced Practice Nurses, I (3.0 cr)
- NURS 6308 - Women's Primary Care Practicum (1.0 - 2.0 cr)
- NURS 6210 - Midwifery Care of the Childbearing Family (3.0 cr)
- NURS 6211 - Midwifery Care of the Childbearing Family Practicum (2.0 cr)
- NURS 6213 - Reproductive Healthcare for Patients with Complex Conditions (2.0 cr)
- NURS 6214 - Reproductive Health Care for Patients with Complex Conditions Practicum (2.0 cr)
- NURS 7213 - Midwifery Clinical and Professional Integration (3.0 cr)
- NURS 6925 - Advanced Concepts in Women's Health Care I (1.0 - 3.0 cr)

Advanced Practice Registered Nurse Core Courses (0 to 12 Credits)
Completion of the following coursework is required for the post-graduate certificate program. Students who have not completed these courses or their equivalents prior to admission must do so to meet requirements. Consult with the Doctor of Nursing Practice Program Director to evaluate prior APRN coursework for equivalency. NURS 5229 must be taken for 3 credits.

- NURS 5200 - Advanced Holistic Health Assessment for the Advanced Practice Nurse (3.0 cr)
- NURS 5222 - Advanced Human Physiology (2.0 cr)
- NURS 5226 - Advanced Human Pathophysiology (2.0 cr)
- NURS 5228 - Pharmacology for Advanced Practice Nursing (2.0 cr)
- NURS 5229 - Clinical Pharmacotherapeutics (3.0 - 4.0 cr)

Labor and Delivery Competencies (2 Credits)
Students are required to complete NURS 5505 if they do not have labor and delivery experience as a registered nurse.

- NURS 5505 - Assessment and Support of Women in Labor (2.0 cr)
Twin Cities Campus

Website: https://www.nursing.umn.edu/degrees-programs/phd-nursing

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 58 to 70
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The PhD program in nursing prepares scholars as scientists, leaders, innovators, and educators in nursing and health care who:
- Discover new knowledge for nursing science and health care practice through ethical, innovative, theory-based research;
- Integrate knowledge to influence health care delivery and policy through collaborative, interprofessional initiatives at organizational, local, state, regional, national, and global levels;
- Create and evaluate strategies to improve the health and well-being of individuals, families, communities, and populations; and
- Disseminate knowledge to those in nursing, other health sciences, policy makers, and the public through scholarly publication, formal teaching, and other creative venues.

Accreditation

This program is accredited by Commission on Collegiate Nursing Education (CCNE).

Program Delivery

This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission

The preferred undergraduate GPA for admittance to the program is 3.00.

Applicants must submit their test score(s) from the following:
- GRE
  - General Test - Verbal Reasoning: 156
  - General Test - Quantitative Reasoning: 146
  - General Test - Analytical Writing: 5

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 95
- MELAB
  - Final score: 85

Key to test abbreviations (GRE, TOEFL, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
34 to 46 credits are required in the major.  
24 thesis credits are required.  
This program may be completed with a minor.  
Use of 4xxx courses towards program requirements is not permitted.  
A minimum GPA of 3.00 is required for students to remain in good standing.  
At least 2 semesters must be completed before filing a Degree Program Form.  

Core Coursework (26 credits)  
All students take the following courses. Take NURS 8171 for 3 credits.  
NURS 8180 - Doctoral Proseminar I: Scholarly Development (1.0 cr)  
NURS 8175 - Quantitative Research Design and Methods (3.0 cr)  
NURS 8172 - Theory and Theory Development for Research (3.0 cr)  
NURS 8152 - Scholarship in Health Care Ethics (3.0 cr)  
NURS 8171 - Qualitative Research Design and Methods (3.0 - 4.0 cr)  
NURS 8177 - Advanced Nursing Research Practicum (1.0 - 2.0 cr)  
NURS 8190 - Critical Review in Health Research (2.0 cr)  
NURS 8121 - Health Behaviors and Illness Responses (3.0 cr)  
NURS 8173 - Principles and Methods of Implementing Research (3.0 cr)  
NURS 8134 - Interventions and Outcomes Research (3.0 cr)  

Statistics (6 credits)  
Select at least 6 statistics credits from the courses listed below, in consultation with the faculty advisor.  
Biostatistics  
PUBH 6450 - Biostatistics I (4.0 cr)  
PUBH 6451 - Biostatistics II (4.0 cr)  
or EPSY 8251 - Statistical Methods in Education I (3.0 cr)  
EPSY 8252 - Statistical Methods in Education II (3.0 cr)  

Thesis Credits  
Take at least 24 doctoral thesis credits.  
NURS 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)  

Program Electives  
The number of required elective credits is determined by nursing background and the highest degree awarded prior to Nursing PhD enrollment. Note that the Master of Nursing degree does not qualify for Post-Master's-Entry status.  

Graduate Degree Prepared Nurse Electives (2 credits)  
Take two or more credits from the following list, or select alternative courses, in consultation with the faculty advisor:  
NURS 5115 - Interprofessional Health Care Informatics (3.0 cr)  
NURS 5925 - Grant Writing and Critique (1.0 cr)  
NURS 7600 - Nursing Research and Evidence Based Practice (2.0 - 4.0 cr)  
NURS 6102 - Family Health Theory (2.0 cr)  
NURS 7200 - Economics of Health Care (3.0 cr)  
NURS 7300 - Program Planning and Evaluation (3.0 cr)  
NURS 7900 - Scholarly Teaching and Learning in Nursing (3.0 cr)  
NURS 7904 - Nursing Education Practicum (2.0 cr)  
NURS 8185 - Qualitative Data Analysis for Health Care Research (3.0 - 4.0 cr)  
HINF 5430 - Foundations of Health Informatics I (3.0 cr)  
HINF 5431 - Foundations of Health Informatics II (3.0 cr)  
FSOS 8105 - Family Gerontology (3.0 cr)  
PUBH 6904 - Nutrition and Aging (2.0 cr)  
PUBH 8803 - Long-Term Care: Principles, Programs, and Policies (2.0 cr)  
SW 5810 - Seminar: Special Topics (1.0 - 4.0 cr)  
PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)  
PUBH 6341 - Epidemiologic Methods I (3.0 cr)  
PUBH 6810 - Survey Research Methods (3.0 cr)  
PUBH 7250 - Designing and Conducting Focus Group Interviews (1.0 cr)  
PUBH 7251 - Data Analysis From Focus Groups (1.0 cr)  
EPSY 5245 - Advanced Survey Data Analysis for Categorical and Rating Scale Data (1.0 cr)  
EPSY 8264 - Advanced Multiple Regression Analysis (3.0 cr)  
EPSY 8265 - Factor Analysis (3.0 cr)  

© 2005 by the Regents of the University of Minnesota  
The University of Minnesota is an equal opportunity educator and employer.  
Information current as of September 04, 2020
EPSY 8266 - Statistical Analysis Using Structural Equation Methods (3.0 cr)
EPSY 8268 - Hierarchical Linear Modeling in Educational Research (3.0 cr)

Website: [http://www.nursing.umn.edu](http://www.nursing.umn.edu)

- Program Type: Post-baccalaureate credit certificate/licensure/endorsement
- Requirements for this program are current for Fall 2020
- Length of program in credits: 20 to 32
- This program requires summer semesters for timely completion.
- Degree: Pediatric Clinical Nurse Specialist Certificate

Along with the program-specific requirements listed below, please read the [General Information](http://www.nursing.umn.edu) section of the catalog website for requirements that apply to all major fields.

The postgraduate certificate program in nursing offers students with a doctor of nursing practice (DNP) or other graduate degree in a clinical nursing specialty area the opportunity to complete an additional area of study. Completion of required coursework and practice hours provides eligibility to take certification examinations.

**Accreditation**

This program is accredited by Commission on Collegiate Nursing Education (CCNE).

**Program Delivery**

This program is available:

- partially online (between 50% to 80% of instruction is online)

**Prerequisites for Admission**

The preferred undergraduate GPA for admittance to the program is 3.00.

DNP with coursework in the 3 of the 5 following subject areas: adv.physiology, adv. pathophysiology, pharmacology, pharmacotherapeutics, adv.health assessment is required for admission to this program.

Other requirements to be completed before admission:

All applicants must have a current registered nurse license.

**Special Application Requirements:**

Applicants are required to submit transcripts from all institutions where post-secondary credit was earned, reference materials containing an Admission Reference Form and personal letter of reference from two separate individuals, two essays, a current curriculum vita/resume, a current registered nurse license, and English language proficiency scores (if applicable). Application deadlines for this certificate are a priority deadline of November 1, with rolling admissions on a space available basis until March 1.

International applicants must submit score(s) from one of the following tests:

- TOEFL
  - Internet Based - Total Score: 95
  - Paper Based - Total Score: 586
- MELAB
  - Final score: 85

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (TOEFL, MELAB).

For an online application or for more information about graduate education admissions, see the [General Information](http://www.nursing.umn.edu) section of the catalog website.
Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.

Please contact the School of Nursing for detailed information about the requirements for this certificate. Each applicant's curriculum is unique and based on the applicant's previous DNP degree and coursework; final coursework decisions are made by the faculty advisor. A 3.0 cumulative GPA is required.

Specialty Courses (20 Credits)
Complete the following courses for a total of 20 credits. Take NURS 6921 for 1 credit.

- NURS 6102 - Family Health Theory (2.0 cr)
- NURS 6405 - Advanced Practice CNS Roles Across the Lifespan (3.0 cr)
- NURS 6406 - Advanced Practice CNS Roles Across the Lifespan: Practicum (1.0 cr)
- NURS 6519 - Advanced Pediatric Assessment (1.0 cr)
- NURS 6920 - Primary Care: Assessment of Health and Care of Well Children (3.0 cr)
- NURS 6921 - Assessment of Health and Care of Well Children: Primary Care Practicum (1.0 - 2.0 cr)
- NURS 6924 - Assessment and Interventions for Children and Youth With Special Health Care Needs (2.0 cr)
- NURS 6929 - Advanced Nursing Care of Children with Acute Illness; Practicum for PCNS (2.0 cr)
- NURS 7925 - Systems of Care for Children and Youth With Special Health Care Needs Practicum (2.0 cr)
- NURS 7926 - Advanced Assessment, Intervention in Families of Children and Youth With Special Health Care Needs (2.0 cr)
- NURS 7927 - Adv Assessment, Intervention in Families of Children and Youth With Special Health Care Needs Prac (1.0 cr)

Advanced Practice Registered Nurse Core Courses (0 to 12 Credits)
Completion of the following coursework is required for the post-graduate certificate program. Students who have not completed these courses or their equivalents prior to admission must do so to meet requirements. Consult with the Doctor of Nursing Practice Program Director to evaluate prior APRN coursework for equivalency. NURS 5229 must be taken for 3 credits.

- NURS 5200 - Advanced Holistic Health Assessment for the Advanced Practice Nurse (3.0 cr)
- NURS 5222 - Advanced Human Physiology (2.0 cr)
- NURS 5226 - Advanced Human Pathophysiology (2.0 cr)
- NURS 5228 - Pharmacology for Advanced Practice Nursing (2.0 cr)
- NURS 5229 - Clinical Pharmacotherapeutics (3.0 - 4.0 cr)
Pediatric Nurse Practitioner - Primary Care Postgraduate Certificate

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 34
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Experimental and Clinical Pharmacology (ECP) graduate program was designed specifically for students interested in clinical research. Its goal is to advance the science of human pharmacology and therapeutics to improve the safe, effective, and economical use of drugs by patients.

Students study such topics as experimental pharmacotherapy, drug metabolism, infectious disease, neuroscience/neuropharmacology, pharmacometrics, and pharmacogenomics. Graduates are prepared for distinguished careers in clinical research.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A U.S. bachelor's degree or a comparable foreign degree from a recognized college or university is required.

Preference is given to candidates who have had professionally-related pharmacy education, but those from other fields such as biology, chemistry, statistics, and public health will be considered.

Other requirements to be completed before admission:
All international students who are non-English speakers are required to submit TOEFL scores. TOEFL test date must be within 2 years of program start. However, applicants who have completed 24 quarter credits or 16 semester credits within the past 24 months in residence as full-time students at recognized institutions of higher learning in the United States or other English-speaking countries before entering the University of Minnesota are generally exempted from this requirement. GRE required by all students except for applicants that have completed a PharmD at a U.S.-accredited institution.

Special Application Requirements:
Students are generally admitted to the ECP program for fall semester only. All application materials should be submitted by the admissions deadline listed on the departmental website. Applications received after the application deadline will be considered on a space-available basis only.

Application to the ECP program at the University of Minnesota is done entirely online.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
The preferred English language test is Test of English as Foreign Language (TOEFL).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan A: Plan A requires 24 major credits, up to null credits outside the major, and 10 thesis credits. The final exam is oral.

Plan B: Plan B requires 34 major credits and up to null credits outside the major. The final exam is oral.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

Required Courses (8 credits)
Take the following courses. Take ECP 8982 twice for a total of 2 credits.

- ECP 5220 - Regulatory Issues in Drug Research (2.0 cr)
- ECP 8230 - Principles of Clinical Pharmacology (2.0 cr)
- ECP 8983 - Scientific Communications in Experimental and Clinical Pharmacology (1.0 cr)
- ECP 8982 - Inter-Institutional Journal Club in Translational Research (1.0 cr)
- ECP 8100 - Seminar (1.0 cr)

Statistical Analysis (4 credits)
Select at least one of the following courses in consultation with the advisor. Two courses are preferred and will count towards Electives or Focus Area.

- PUBH 6450 - Biostatistics I (4.0 cr)
- or PUBH 6451 - Biostatistics II (4.0 cr)
- or STAT 5101 - Theory of Statistics I (4.0 cr)
- or STAT 5102 - Theory of Statistics II (4.0 cr)

Electives
Select electives, in consultation with the director of graduate studies and/or the advisor, to complete the master's minimum credit requirement.

- ANAT 5xxx
- ANAT 6xxx
- ANAT 7xxx
- ANSC 5xxx
- ANSC 8xxx
- BBE 5xxx
- BBE 8xxx
- BICB 5xxx
- BICB 8xxx
- BINF 5xxx
- BIOC 5xxx
- BIOC 6xxx
- BIOL 5xxx
- BIOL 6xxx
- BIOL 8xxx
- BMEN 5xxx
- BMEN 8xxx
- BMSC 8xxx
- BTHX 5xxx
- BTHX 8xxx
- CGSC 8xxx
- CHEM 5xxx
- CHEM 8xxx
Focus Areas

Plan A
Take exactly 10 credit(s) from the following:
- **ECP 8777** - Thesis Credits: Master's (1.0 - 18.0 cr)

-OR-

Plan B
Take 10 project credits.
Focus Area -- Pharmacometrics (12 credits)
Coursework chosen from the following list, or other courses to meet the 12-credit focus area requirement, are selected in consultation with the advisor.
- ECP 8500 - Advances in Pharmacometrics Modeling and Simulation (1.0 cr)
- or ECP 8501 - Pharmacometrics (2.0 cr)
- or ECP 8502 - Introductory Population Pharmacokinetic Methods (2.0 cr)
- or ECP 8503 - Intermediate Population PK/PD Methods (2.0 cr)
- or ECP 8504 - Modeling Biologics (2.0 cr)
- or ECP 8505 - Application of physiological-based pharmacokinetic modeling (PBPK) to model-informed drug development (2.0 cr)
- or ECP 8506 - Clinical Trial Simulation (2.0 cr)
- or PUBH 6450 - Biostatistics I (4.0 cr)
- or PUBH 6451 - Biostatistics II (4.0 cr)
- or PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)
- or PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
- or PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
- or PUBH 7450 - Survival Analysis (3.0 cr)
- or STAT 5101 - Theory of Statistics I (4.0 cr)
- or STAT 5102 - Theory of Statistics II (4.0 cr)

Focus Area -- Neuroscience/Neuropharmacology (12 credits)
Coursework chosen from the following list, or other courses to meet the 12-credit focus area requirement, are selected in consultation with the advisor.
- NSC 5461 - Cellular and Molecular Neuroscience (4.0 cr)
- or NSCI 5501 - Neurodegenerative Diseases, Mechanisms to Therapies (3.0 cr)
- or PUBH 6450 - Biostatistics I (4.0 cr)
- or PUBH 6451 - Biostatistics II (4.0 cr)
- or PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)
- or PHCL 8026 - Neuro-Immune Interactions (3.0 cr)
- or CMB 8361 - Neuro-Immune Interactions (3.0 cr)
- or CMB 8481 - Advanced Neuropharmaceutics (4.0 cr)
- or NSC 8026 - Neuro-Immune Interactions (3.0 cr)
- or NSC 8481 - Advanced Neuropharmaceutics (4.0 cr)
- or PHM 8481 - Advanced Neuropharmaceutics (4.0 cr)

Focus Area -- Infectious Diseases (12 credits)
Coursework chosen from the following list, or other courses to meet the 12-credit focus area requirement, are selected in consultation with the advisor.
- ECP 5620 - Drug Metabolism and Disposition (3.0 cr)
- or MICA 8002 - Structure, Function, and Genetics of Bacteria and Viruses (4.0 cr)
- or MICA 8003 - Immunity and Immunopathology (4.0 cr)
- or MICA 8010 - Microbial Pathogenesis (3.0 cr)
- or PHAR 6224 - Pharmacogenomics: Genetic Basis for Variability in Drug Response (2.0 cr)
- or PUBH 6450 - Biostatistics I (4.0 cr)
- or PUBH 6451 - Biostatistics II (4.0 cr)
- or PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)

Focus Area -- Pharmacogenomics (12 credits)
Coursework chosen from the following list, or other courses to meet the 12-credit focus area requirement, are selected in consultation with the advisor.
- ECP 5620 - Drug Metabolism and Disposition (3.0 cr)
- or ECP 8900 - Advanced Topics in Experimental and Clinical Pharmacology (1.0 - 4.0 cr)
- or GCD 4034 - Molecular Genetics and Genomics (3.0 cr)
- or GCD 4143 - Human Genetics and Genomics (3.0 cr)
- or GCD 8073 - Genetics & Genomics in Human Health (3.0 cr)
- or PHAR 6224 - Pharmacogenomics: Genetic Basis for Variability in Drug Response (2.0 cr)
- or PUBH 6381 - Genetics in Public Health in the Age of Precision Medicine (2.0 cr)
or PUBH 6450 - Biostatistics I (4.0 cr)
or PUBH 6451 - Biostatistics II (4.0 cr)
or PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)

  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
The preferred English language test is Test of English as Foreign Language (TOEFL).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
24 credits are required in the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

Required Courses (9 credits)
Take the following courses. Take ECP 8982 twice for a total of 2 credits, and take ECP 8100 2 times for a total of 2 credits.
- ECP 5220 - Regulatory Issues in Drug Research (2.0 cr)
- ECP 8230 - Principles of Clinical Pharmacology (2.0 cr)
- ECP 8983 - Scientific Communications in Experimental and Clinical Pharmacology (1.0 cr)
- ECP 8982 - Inter-Institutional Journal Club in Translational Research (1.0 cr)
- ECP 8100 - Seminar (1.0 cr)

Statistical Analysis (4 credits)
Select at least one of the following courses in consultation with the advisor. Two courses are preferred and will count towards Electives or Focus Area.
- PUBH 6450 - Biostatistics I (4.0 cr)
- or STAT 5101 - Theory of Statistics I (4.0 cr)
- or PUBH 6451 - Biostatistics II (4.0 cr)
- or STAT 5102 - Theory of Statistics II (4.0 cr)

Electives
Take additional courses, in consultation with the director of graduate studies and/or advisor to complete the 24 course credits required.
- ANAT 5xxx
- or ANAT 6xxx
- or ANAT 7xxx
- or ANSC 5xxx
- or ANSC 8xxx
- or BBE 5xxx
- or BBE 8xxx
- or BICB 5xxx
- or BICB 8xxx
- or BINF 5xxx
- or BIOC 5xxx
- or BIOC 6xxx
- or BIOC 8xxx
- or BIOL 5xxx
- or BIOL 6xxx
- or BIOL 8xxx
- or BMEN 5xxx
- or BMEN 8xxx
- or BMSC 8xxx
- or BTHX 5xxx
- or BTHX 8xxx
- or CGSC 8xxx
- or CHEM 5xxx
- or CHEM 8xxx
- or CLS 5xxx
- or CLS 8xxx
or CMB 5xxx
or CMB 8xxx
or ECHO 4xxx
or ECP 5xxx
or ECP 8xxx
or EEB 5xxx
or EEB 8xxx
or GCD 5xxx
or GCD 6xxx
or GCD 8xxx
or HINF 5xxx
or HINF 8xxx
or MATH 5xxx
or MATH 8xxx
or MCDG 8xxx
or MEDC 5xxx
or MEDC 8xxx
or MICA 8xxx
or NSC 5xxx
or NSC 8xxx
or NSCI 5xxx
or NSCI 6xxx
or NURS 5xxx
or NURS 6xxx
or NURS 7xxx
or NURS 8xxx
or PHAR 5xxx
or PHAR 6xxx
or PHAR 7xxx
or PHCL 5xxx
or PHCL 8xxx
or PHM 5xxx

or PUBH 8xxx
or SAPH 5xxx
or SAPH 8xxx
or SCB 5xxx
or SCB 8xxx
or SCIC 8xxx
or STAT 5xxx
or STAT 8xxx
or TXCL 5xxx
or TXCL 8xxx
or VMED 5xxx
or VMED 8xxx

Thesis Credits
Take exactly 24 credit(s) from the following:
• ECP 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)

Focus Areas
Pharmacometrics (11 credits)
Coursework chosen from the following list, or other courses to meet the 11-credit focus area requirement, are selected in consultation with the advisor.
ECP 8500 - Advances in Pharmacometrics Modeling and Simulation (1.0 cr)
• or ECP 8501 - Pharmacometrics (2.0 cr)
• or ECP 8502 - Introductory Population Pharmacokinetic Methods (2.0 cr)
or ECP 8503 - Intermediate Population PK/PD Methods (2.0 cr)
or ECP 8504 - Modeling Biologics (2.0 cr)
or ECP 8505 - Application of physiological-based pharmacokinetic modeling(PBPK) to model-informed drug development (2.0 cr)
or ECP 8506 - Clinical Trial Simulation (2.0 cr)
or PUBH 6450 - Biostatistics I (4.0 cr)
or PUBH 6451 - Biostatistics II (4.0 cr)
or PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)
or PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
or PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
or PUBH 7450 - Survival Analysis (3.0 cr)
or STAT 5101 - Theory of Statistics I (4.0 cr)
or STAT 5102 - Theory of Statistics II (4.0 cr)
or ECP 8900 - Advanced Topics in Experimental and Clinical Pharmacology (1.0 - 4.0 cr)
or PUBH 6381 - Genetics in Public Health in the Age of Precision Medicine (2.0 cr)
or PUBH 6450 - Biostatistics I (4.0 cr)
or PUBH 6451 - Biostatistics II (4.0 cr)
or PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)

-OR-

Neuroscience/Neuropharmacology (11 credits)
Coursework chosen from the following list, or other courses to meet the 11-credit focus area requirement, are selected in consultation with the advisor.
NSC 5461 - Cellular and Molecular Neuroscience (4.0 cr)
or NSCI 5501 - Neurodegenerative Diseases, Mechanisms to Therapies (3.0 cr)
or PUBH 6450 - Biostatistics I (4.0 cr)
or PUBH 6451 - Biostatistics II (4.0 cr)
or PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)
or NSC 8026 - Neuro-Immune Interactions (3.0 cr)
or PHCL 8026 - Neuro-Immune Interactions (3.0 cr)
or Advanced Neuropharmacuetics
CMB 8361 - Neuro-Immune Interactions (3.0 cr)
or NSC 8481 - Advanced Neuropharmacuetics (4.0 cr)
or PHM 8481 - Advanced Neuropharmacuetics (4.0 cr)
or ECP 8900 - Advanced Topics in Experimental and Clinical Pharmacology (1.0 - 4.0 cr)
or MICA 8002 - Structure, Function, and Genetics of Bacteria and Viruses (4.0 cr)
or MICA 8003 - Immunity and Immunopathology (4.0 cr)
or MICA 8010 - Microbial Pathogenesis (3.0 cr)
or PHAR 6224 - Pharmacogenomics: Genetic Basis for Variability in Drug Response (2.0 cr)
or PUBH 6450 - Biostatistics I (4.0 cr)
or PUBH 6451 - Biostatistics II (4.0 cr)
or PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)
or ECP 4034 - Molecular Genetics and Genomics (3.0 cr)
or ECP 4143 - Human Genetics and Genomics (3.0 cr)
or ECP 8073 - Genetics & Genomics in Human Health (3.0 cr)
or PHAR 8224 - Pharmacogenomics: Genetic Basis for Variability in Drug Response (2.0 cr)
or PUBH 6381 - Genetics in Public Health in the Age of Precision Medicine (2.0 cr)
or PUBH 6450 - Biostatistics I (4.0 cr)
or PUBH 6451 - Biostatistics II (4.0 cr)
or PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)

-OR-

Infectious Diseases (11 credits)
Coursework chosen from the following list, or other courses to meet the 11-credit focus area requirement, are selected in consultation with the advisor.
ECP 5620 - Drug Metabolism and Disposition (3.0 cr)
or MICA 8002 - Structure, Function, and Genetics of Bacteria and Viruses (4.0 cr)
or MICA 8003 - Immunity and Immunopathology (4.0 cr)
or MICA 8010 - Microbial Pathogenesis (3.0 cr)
or PHAR 6224 - Pharmacogenomics: Genetic Basis for Variability in Drug Response (2.0 cr)
or PUBH 6450 - Biostatistics I (4.0 cr)
or PUBH 6451 - Biostatistics II (4.0 cr)
or PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)
or GCD 4034 - Molecular Genetics and Genomics (3.0 cr)
or GCD 4143 - Human Genetics and Genomics (3.0 cr)
or GCD 8073 - Genetics & Genomics in Human Health (3.0 cr)
or PHAR 8224 - Pharmacogenomics: Genetic Basis for Variability in Drug Response (2.0 cr)
or PUBH 6381 - Genetics in Public Health in the Age of Precision Medicine (2.0 cr)
or PUBH 6450 - Biostatistics I (4.0 cr)
or PUBH 6451 - Biostatistics II (4.0 cr)
or PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)

-OR-

Pharmacogenomics (11 credits)
Coursework chosen from the following list, or other courses to meet the 11-credit focus area requirement, are selected in consultation with the advisor.
ECP 5620 - Drug Metabolism and Disposition (3.0 cr)
or ECP 8900 - Advanced Topics in Experimental and Clinical Pharmacology (1.0 - 4.0 cr)
or GCD 4034 - Molecular Genetics and Genomics (3.0 cr)
or GCD 4143 - Human Genetics and Genomics (3.0 cr)
or GCD 8073 - Genetics & Genomics in Human Health (3.0 cr)
or PHAR 6224 - Pharmacogenomics: Genetic Basis for Variability in Drug Response (2.0 cr)
or PUBH 6381 - Genetics in Public Health in the Age of Precision Medicine (2.0 cr)
or PUBH 6450 - Biostatistics I (4.0 cr)
or PUBH 6451 - Biostatistics II (4.0 cr)
or PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)

- Program Type: Master's  
- Requirements for this program are current for Fall 2020  
- Length of program in credits: 30  
- This program does not require summer semesters for timely completion.  
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the [General Information](#) section of the catalog website for requirements that apply to all major fields.

Note: Students are not admitted directly to the MS program. See the Medicinal Chemistry PhD or contact the director of graduate studies for more information.

The medicinal chemistry program emphasizes the application of chemical principles to research on the action of drugs on biological systems. Courses offered by the program focus on general principles of medicinal chemistry, drug design and synthesis, chemical aspects of drug metabolism, chemical mechanisms of drug toxicity and carcinogenicity, computer-assisted drug design and receptor modeling, and combinatorial chemistry.

Students must complete a core curriculum of advanced courses in organic and medicinal chemistry, as well as credits in a minor or related field.

**Program Delivery**  
This program is available:  
- via classroom (the majority of instruction is face-to-face)

**Prerequisites for Admission**  
The preferred undergraduate GPA for admittance to the program is 3.00.

**Special Application Requirements:**  
Note: Students are not admitted directly to the M.S. program. See the Medicinal Chemistry Ph.D.

For an online application or for more information about graduate education admissions, see the [General Information](#) section of the catalog website.

**Program Requirements**  
**Plan A:** Plan A requires 20 major credits, up to null credits outside the major, and 10 thesis credits. The final exam is oral.

**Plan B:** Plan B requires 30 major credits and up to null credits outside the major. The final exam is oral.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.
Students must take all courses for an A-F grade, unless the course is only offered on the S/N grading basis.

**Required Courses (14 credits)**
Take the following courses:
- MEDC 8001 - General Principles of Medicinal Chemistry (3.0 cr)
- MEDC 8002 - General Principles of Medicinal Chemistry (3.0 cr)
- MEDC 8050 - Physical and Mechanistic Organic Chemistry (2.0 cr)
- MEDC 8435 - BioAssay & Data Analysis (1.0 cr)
- CHEM 8321 - Organic Synthesis (4.0 cr)
- CHEM 8066 - Professional Conduct of Chemical Research (1.0 cr)

**Biochemistry Requirement (2 to 4 credits)**
Select one of the following 2- to 4-credit courses in consultation with the advisor. A substitute course can be selected with approval of the advisor and director of graduate studies.
- BIOC 8005 - Biochemistry: Structure and Catalysis (2.0 cr)
- BIOC 8006 - Biochemistry: Metabolism and Control (2.0 cr)
- BIOC 5535 - Introduction to Modern Structural Biology -- Diffraction (2.0 cr)
- BIOC 5528 - Spectroscopy and Kinetics (4.0 cr)
- GCD 8151 - Cellular Biochemistry and Cell Biology (2.0 - 4.0 cr)
- CHEM 8411 - Introduction to Chemical Biology (4.0 cr)

**Additional Courses to Satisfy Elective Requirement**
Select remaining courses in consultation with the advisor to complete the 20 course credits required for the Plan A, or the 30-credit requirement for the Plan B. At least one course must be selected from the following options.
- MEDC 5185 - Principles of Biomolecular Simulation (3.0 cr)
- MEDC 8401 - Chemistry of Counterterrorism: Chemical, Biological, Radiological, Nuclear & High Explosive Threats (2.0 cr)
- MEDC 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

**Thesis Credits**
Take at least 10 masters thesis credits.
- MEDC 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)
Twin Cities Campus

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 48
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The program in medicinal chemistry emphasizes the application of chemical principles to research on the action of drugs on biological systems. Courses offered by the program focus on general principles of medicinal chemistry, drug design and synthesis, chemical aspects of drug metabolism, chemical mechanisms of drug toxicity and carcinogenicity, computer-assisted drug design and receptor modeling, and combinatorial chemistry.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Applicants should have a BS or MS degree in an appropriate related science field such as pharmacy, chemistry, or biology. Students majoring in other degree programs that encompass chemical, biochemical, or biological fields of study are also encouraged to apply. All applicants should have completed undergraduate chemistry through elementary organic chemistry. Undergraduate coursework in biochemistry and physical chemistry is also a prerequisite, but under certain circumstances such coursework may be taken during the first year. Students may apply for admission to the PhD program only and are only admitted fall semester.

Special Application Requirements:
Scores from the General (Aptitude) Test of the GRE, three letters of recommendation from college-level faculty, a complete set of official transcripts, and a statement of immediate and long range career objectives are required. All application materials should be submitted by the admissions deadline listed on the departmental website in order to be considered for fellowship, teaching, and research assistantships awarded in the next academic year.

Applicants must submit their test score(s) from the following:
• GRE

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 95

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (GRE, TOEFL).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements
24 credits are required in the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.

Students must take all courses for an A-F grade, unless the course is only offered on the S/N grading basis.

Required Courses (15 credits)
MEDC 8001 - General Principles of Medicinal Chemistry (3.0 cr)
MEDC 8002 - General Principles of Medicinal Chemistry (3.0 cr)
MEDC 8050 - Physical and Mechanistic Organic Chemistry (2.0 cr)
MEDC 8435 - BioAssay & Data Analysis (1.0 cr)
MEDC 8100 - Medicinal Chemistry Seminar (1.0 cr)
CHEM 8066 - Professional Conduct of Chemical Research (1.0 cr)
CHEM 8321 - Organic Synthesis (4.0 cr)

Biochemistry Requirement (2 to 4 credits)
Take at least one of the following courses or select a different 2 to 4 credit course in consultation with the advisor and director of graduate studies.
BIOC 8005 - Biochemistry: Structure and Catalysis (2.0 cr)
BIOC 8006 - Biochemistry: Metabolism and Control (2.0 cr)
BIOC 5535 - Introduction to Modern Structural Biology -- Diffraction (2.0 cr)
BIOC 5528 - Spectroscopy and Kinetics (4.0 cr)
GCD 8151 - Cellular Biochemistry and Cell Biology (2.0 - 4.0 cr)
CHEM 8411 - Introduction to Chemical Biology (4.0 cr)

Additional Course Requirements
Take three additional courses, two of which must be from the following list, to complete the 24 course-credit requirement.
MEDC 5185 - Principles of Biomolecular Simulation (3.0 cr)
MEDC 5494 - Advanced Methods in Quantitative Drug Analysis (2.0 cr)
MEDC 8070 - The Chemistry and Biology of Infectious Diseases (3.0 cr)
MEDC 8420 - Natural Products Chemistry (3.0 cr)
MEDC 8471 - High Throughput Drug Discovery (3.0 cr)
MEDC 8413 - Chemistry of Nucleic Acids (4.0 cr)
MEDC 8461 - Design of Cancer Therapeutics (3.0 cr)
MEDC 8700 - Advanced Concepts in Drug Design (2.0 cr)
MEDC 8753 - MOLECULAR TARGETS OF DRUG DISCOVERY (3.0 cr)
CHEM 8322 - Advanced Organic Chemistry (4.0 cr)
MEDC 8401 - Chemistry of Counterterrorism: Chemical, Biological, Radiological, Nuclear & High Explosive Threats (2.0 cr)

Thesis Credits
Take at least 24 doctoral thesis credits.
MEDC 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)
Twin Cities Campus
Pharmaceutics M.S.
Graduate Studies in Pharmaceutics
College of Pharmacy

• Program Type: Master's
• Requirements for this program are current for Fall 2020
• Length of program in credits: 30
• This program does not require summer semesters for timely completion.
• Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Pharmaceutics program offers emphases in physical pharmacy, biopharmaceutics, and pharmacokinetics.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.20.

Other requirements to be completed before admission:
Undergraduate (and graduate, if applicable) scholastic records, recent GRE scores (with a preferred minimum 80% quantitative reasoning score and 3.5 analytical writing score), a statement of career goals and research interests, and three letters of recommendation.

International applicants must submit results from the TOEFL (with a preferred minimum 100 total score and 23 speaking score, and a required minimum 21 writing score and 19 reading score) or IELTS (with a required minimum 6.5 total score, 6.5 reading score, and 6.5 writing score, and a preferred 6.5 speaking score). Prefer "First Class" or the equivalent on transcripts from foreign institutions.

All of the above are collectively used to determine each candidate's admissibility. Fall admission is highly preferred and the deadline to apply is November 30.

Applicants must submit their test score(s) from the following:
• GRE

International applicants must submit score(s) from one of the following tests:
• TOEFL
• IELTS

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (GRE, TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

The University of Minnesota is an equal opportunity educator and employer.
Information current as of September 04, 2020
Program Requirements

Plan A: Plan A requires 14 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is oral.

This program may not be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 2.80 is required for students to remain in good standing.

Coursework offered on both the A/F and S/N grade basis must be taken A/F, with a minimum grade of B- earned for each.

Required Background:
Students must demonstrate sufficient background knowledge in Pharmacology. Equivalent coursework or previous experience, with approval of the program faculty, may be substituted in lieu of required background coursework.

Required Courses (8 credits)

Pharmaceutics Modules (4 credits)
Take the following courses:
- PHM 8210 - Pharmacokinetics Module (1.0 cr)
- PHM 8220 - Physical Pharmacy Module I (1.0 cr)
- PHM 8230 - Physical Pharmacy Module II (1.0 cr)
- PHM 8240 - Biopharmaceutics Module (1.0 cr)

Pharmaceutics 84xx Courses (4 credits)
Select one of the following courses in consultation with the advisor:
- PHM 8421 - Advanced Pharmacokinetics (4.0 cr)
- PHM 8431 - Controlled Drug and Gene Delivery: Materials, Mechanisms, and Models (4.0 cr)
- PHM 8441 - Solubility and Solid-State Properties of Drugs (4.0 cr)
- PHM 8481 - Advanced Neuropharmaceutics (4.0 cr)

Electives (6 credits)
Take at least 6 credits of electives in the major, which can include PHAR-designated courses noted below taken to satisfy the background knowledge requirement, or other PHAR- and PHM-designated coursework. All courses must be selected in consultation with the advisor.

Pharmacology Background
- PHAR 6726 - Principles of Pharmacology (2.3 cr)
- PHAR 6762 - Medicinal Chemistry and Neuropharmacology (2.8 cr)

Outside Coursework (6 credits)
Take at least 6 credits of coursework outside the major, which can include non-PHAR- and non-PHM-designated courses noted below taken to satisfy the background knowledge requirement, or other non-PHAR- and non-PHM-designated coursework. All courses must be selected in consultation with the advisor.

Pharmacology Background
- NSC 5461 - Cellular and Molecular Neuroscience (4.0 cr)
- PHCL 5110 - Introduction to Pharmacology (3.0 cr)

Thesis Credits
Take 10 master's thesis credits.
- PHM 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)
Twin Cities Campus

**Program Requirements**

16 credits are required in the major.
8 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

Successful completion of program examinations and timely progress towards the degree are also required for students to remain in good standing.

**Required Background:**

Students must demonstrate sufficient background knowledge in each of the following areas: Pharmacy, Math, and Statistics. Equivalent coursework or previous experience, with approval of the program faculty, may be substituted in lieu of required background coursework.

**Required Courses**

**Pharmaceutics Modules**
- PHM 8210 - Pharmacokinetics Module (1.0 cr)
- PHM 8220 - Physical Pharmacy Module I (1.0 cr)
- PHM 8230 - Physical Pharmacy Module II (1.0 cr)
- PHM 8240 - Biopharmaceutics Module (1.0 cr)

**Pharmaceutics Seminar**

Register for 1 credit each semester in which presenting a seminar and for a total of 3 credits.

- PHM 8100 - Seminar: Pharmaceutics (1.0 cr)

**Pharmaceutics Graduate Courses: 81xx**

Take two courses for a total of 2 credits from the following list:

- PHM 8110 - Readings in Pharmaceutics (1.0 cr)
- or PHM 8120 - Readings in Central Nervous System (CNS) Drug Delivery (1.0 cr)
- or PHM 8150 - Pharmacokinetics Research Seminar (1.0 cr)

**Pharmaceutics Graduate Courses: 84xx**

Choose two courses from the following list for at least 7 credits:

- PHM 8421 - Advanced Pharmacokinetics (4.0 cr)
- or PHM 8431 - Controlled Drug and Gene Delivery: Materials, Mechanisms, and Models (4.0 cr)
- or PHM 8441 - Solubility and Solid-State Properties of Drugs (4.0 cr)
- or PHM 8481 - Advanced Neuropharmaceutics (4.0 cr)

**Outside Coursework**

Take at least 8 credits of coursework outside the major, which can include non-PHAR- and non-PHM-designated courses noted below taken to satisfy the background knowledge requirement, or other non-PHAR- and non-PHM-designated coursework. All courses must be selected in consultation with the advisor.

**Pharmacy Background**
- PHCL 5110 - Introduction to Pharmacology (3.0 cr)

**Math Background**
- MATH 4512 - Differential Equations with Applications (3.0 cr)

**Statistics Background**
- PUBH 6450 - Biostatistics I (4.0 cr)
- STAT 5021 - Statistical Analysis (4.0 cr)
- STAT 5101 - Theory of Statistics I (4.0 cr)
- STAT 5102 - Theory of Statistics II (4.0 cr)
- STAT 5302 - Applied Regression Analysis (4.0 cr)
- STAT 5303 - Designing Experiments (4.0 cr)
- STAT 5401 - Applied Multivariate Methods (3.0 cr)

**Thesis Credits**

Take at least 24 doctoral thesis credits.
PHM 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 30 to 32
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Study within the Social and Administrative Pharmacy Program is tailored carefully to the specific needs and objectives of the student. It is a flexible, interdisciplinary program which utilizes all resources of the University's many outstanding departments in an effort to provide the student with knowledge and experience in areas she/he feels are applicable to the resolution of pharmacy-oriented problems.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Although the majority of students in the program are pharmacists, a pharmacy education is not required. A bachelor's degree or its foreign equivalent from a recognized college of pharmacy and a strong scholastic record are desirable. Individuals from other fields such as economics, engineering, computer science, medicine, psychology, sociology, or public health may be admitted if their undergraduate coursework satisfies the prerequisites for graduate coursework.

Special Application Requirements:
Applicants must complete a supplementary application form in addition to the University application. The supplementary form along with three letters of recommendation should be uploaded to the University's online application. GRE scores are required and a performance level of 580 (158 for November 1, 2011-June 30, 2012) is preferred on the TOEFL for all international applicants whose native language is not English.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Paper Based - Total Score: 550
- IELTS
  - Total Score: 6.5
- MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements

Plan A: Plan A requires 16 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is oral.

Plan B: Plan B requires 24 major credits and 6 credits outside the major. The final exam is oral. A capstone project is required.

Capstone Project: Plan B also requires two papers of publishable quality; one paper must include a research component with an analysis of data.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

Required Courses (16 credits)
All MS students must complete the following courses for 16 credits and take all courses for an A-F grade. Students are required to complete SAPH 8100 (1 credit) 2 times.
- SAPH 5100 - Pro-Seminar (1.0 cr)
- SAPH 8100 - Seminar (1.0 cr)
- SAPH 8500 - Pharmacy and Its Environment (3.0 cr)
- SAPH 8235 - Pharmaceutical Economics and Policy (3.0 cr)
- SAPH 8420 - Social and Behavioral Aspects of Pharmacy Practice (3.0 cr)
- STAT 5021 - Statistical Analysis (4.0 cr)

Outside Coursework (6 credits)
Select at least 6 credits outside the major, in consultation with the advisor.

Plan Options

Plan A
Plan A students must take at least 10 master's thesis credits.
- SAPH 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

-OR-

Plan B
Plan B students must take at least 8 additional course credits, selected in consultation with the advisor, to complete the 30-credit minimum.

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Students in the Social and Administrative Pharmacy Program are prepared for research and related activities investigating relationships between biological and physical factors in social settings that involve the drug use process. The flexible interdisciplinary program uses the resources of the many health and social science departments at the University, and may include courses and offerings from public health, geriatrics, management, sociology, psychology, and public affairs.

The program focuses on the discovery and dissemination of new knowledge to foster appropriate use of drugs to improve patient outcomes at the individual and societal level. Students are educated and mentored to become professional scientists. Those who complete the program will understand the process of conducting high-quality research and problem solving through the application of disciplinary and interdisciplinary knowledge, theory, and research methodology.

Social and administrative pharmacy (SAPH) is the application of behavior-oriented interdisciplinary theories to pharmacy problem solving and pharmacy system development. This includes the study of the social, psychosocial, political, legal, public policy, historic, and economic factors that impinge upon the use, non-use, and abuse of drugs.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

In addition to coursework, a written examination is required.

Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Masters

Required Courses (6 credits)
Courses must be selected in consultation with the minor field director of graduate studies.
Take exactly 2 course(s) from the following:
- SAPH 8235 - Pharmaceutical Economics and Policy (3.0 cr)
- SAPH 8420 - Social and Behavioral Aspects of Pharmacy Practice (3.0 cr)

**Doctoral**

**Required Courses (9 credits)**
Courses must be selected in consultation with the minor field director of graduate studies.
Take exactly 3 course(s) from the following:
- SAPH 8235 - Pharmaceutical Economics and Policy (3.0 cr)
- SAPH 8420 - Social and Behavioral Aspects of Pharmacy Practice (3.0 cr)
- SAPH 8500 - Pharmacy and Its Environment (3.0 cr)

**Elective (3 credits)**
Courses must be selected in consultation with the minor field director of graduate studies.
- SAPH 8255 - Pharmaceutical Marketing (3.0 cr)
- or SAPH 8610 - Pharmacoepidemiology (3.0 cr)
- or SAPH 8810 - Social Psychology of Health Care (3.0 cr)
- or SAPH 8840 - Social Measurement (3.0 cr)

- Program Type: Post-baccalaureate credit certificate/licensure/endorsement
- Requirements for this program are current for Fall 2020
- Length of program in credits: 13
- This program requires summer semesters for timely completion.
- Degree: Adv Mgmt Training for Clin Leaders PBacc Cert

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

NOTE: Applications to the Advanced Management Training for Clinician Leaders Certificate program are not being accepted at this time. For more information, please contact sph-ask@umn.edu.

The Regents Certificate in Advanced Management Training for Clinician Leaders is intended for clinicians employed by integrated health systems who will take on critical and expanded roles as executives and managers. This one-year course of study will prepare clinician leaders for successful innovation in emerging forms of healthcare organizations, bring new healthcare leaders with clinical backgrounds into network relationships with other administrators, and consider new approaches to strategy and success in healthcare that are specific to integrated systems.

Program Delivery
This program is available:
- primarily online (at least 80% of the instruction for the program is online with short, intensive periods of face-to-face coursework)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Applicants must have at least two years experience in a US-based healthcare organization that either has developed or is considering integrated system relationships. International applications will be considered on a case-by-case basis with special attention paid to the nature and structure of their employing organizations.

Special Application Requirements:
NOTE: Applications to the Advanced Management Training for Clinician Leaders Certificate program are not being accepted at this time. For more information, please contact sph-ask@umn.edu.

Applicants must submit a letter of intent describing career interests and the relevance of the certificate to the applicant's personal development. One letter of recommendation from a person qualified to assess the applicant's academic work; clinical, public health or professional experience; or leadership potential in integrated health systems is required.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7
Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

**Program Requirements**

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

The certificate is build on a cohort model and comprises 13 credits: five 2-credit courses, one 1-credit face-to-face course and a 2-credit face-to-face practicum. Students will be required to attend on-campus sessions twice during the program. The first on-campus session will be four days in length, during which students will complete a 1-credit course, PUBH 7571. The second session will be held at the end of the program over three days, during which students will present their capstone projects.

**Requirements**

The certificate requires 13 total credits. PUBH 7571, PUBH 7572, along with four brand-new courses and a practicum/capstone project (each offered as topics courses via PUBH 6570) make up the requirements for the program. Students complete PUBH 7571 while on campus during for four days at the start of the program, and will complete five courses online during the remaining 12 months. Students will present their capstone projects completed for the practicum during their final three days on campus.

- **PUBH 7572** - Health Care Strategies in Competitive Markets (2.0 cr)
- **PUBH 6570** - Healthcare Administration (1.0 - 4.0 cr)

- Degree: Aging Studies PBacc Certificate

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

NOTE: Applications to the Aging Certificate program are not being accepted at this time. For more information, please contact sph-ask@umn.edu. The Certificate on Aging is a 12-credit graduate level program with some courses offerings available online, as well as in a face-to-face format. The certificate is designed to increase knowledge and understanding in the multifaceted field of human aging. This interdisciplinary program provides students with the background and confidence necessary to meet the challenges of serving the aging population. The courses are offered through the Center on Aging within the Division of Health Policy and Management.

Aging studies at the University of Minnesota involves an interdisciplinary approach to gerontology for those individuals who hold at least a bachelor's degree. The interdisciplinary nature of the program embraces different backgrounds and interests, and is suitable for graduates from any major.

The primary purpose of aging studies is to prepare professionals for work in programs, businesses, organizations, and agencies that address the needs of an aging population. Examples include the following: hospitals, long-term care facilities, education, clinics, home health care agencies, hospice and end-of-life care organizations, insurance groups, counseling and social services, physician groups, financial planning, architecture and design, public policy makers, and nursing.

Accreditation
This program is accredited by CEPH

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Special Application Requirements:
NOTE: Applications to the Aging Certificate program are not being accepted at this time. For more information, please contact sph-ask@umn.edu. Students who have completed 16-semester credits/24-quarter credits (within the past 24 months) in an academic program in a recognized institution of higher learning in the U.S. do not need to submit the TOEFL as part of the application process.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7

Key to test abbreviations (TOEFL, IELTS).

- Program Type: Graduate free-standing minor
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

This minor is designed to help students understand how to work respectfully and effectively with Tribes and American Indian communities, to understand the basis of health services and implications of specific tribal (local and federal) law to help improve the devastating health issues currently experienced by American Indians.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Students must be enrolled in a University master's or doctoral degree-granting program. Consult with the program advisor, then contact the American Indian Public Health and Wellness director of graduate studies regarding requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Master's
Required Coursework (6 credits)
Take the following required courses for the masters-level minor:
- PUBH 6241 - American Indian Public Health and Wellness, Health Policy, Law, Health Services Administration (2.0 cr)
- PUBH 6242 - Cultural Humility with American Indian Populations (2.0 cr)
- PUBH 6243 - American Indian Research, Evaluation and Collaborations (2.0 cr)

Doctoral
Required Coursework (6 credits)
Take the following required courses:
PUBH 6241 - American Indian Public Health and Wellness, Health Policy, Law, Health Services Administration (2.0 cr)
PUBH 6242 - Cultural Humility with American Indian Populations (2.0 cr)
PUBH 6243 - American Indian Research, Evaluation and Collaborations (2.0 cr)

Electives (6 credits)
Select elective credits, in consultation with the advisor and the American Indian Public Health and Wellness director of graduate studies, to complete the 12-credit minimum for the doctoral-level minor.

AMIN 5107 - The Structure of Anishinaabemowin, the Ojibwe Language (3.0 cr)
or AMIN 5141 - American Indian Language Planning (3.0 cr)
or AMIN 5202 - Indigenous Peoples and Issues Before the United States Supreme Court (3.0 cr)

Contact Information:
School of Public Health, MMC 819, A395 Mayo Memorial Building, 420 Delaware St, Minneapolis, MN 55455 (612-626-3500 OR 1-800-774-8636)
Email: sph-ask@umn.edu
Website: http://www.sph.umn.edu/

- Program Type: Post-baccalaureate credit certificate/licensure/endorsement
- Requirements for this program are current for Fall 2020
- Length of program in credits: 15
- This program requires summer semesters for timely completion.
- Degree: Applied Biostatistics PBacc Cert

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

This primarily online certificate program is designed for working biostatisticians, such as data managers and analysts, who are not formally trained and want to improve their technical, mathematical, and computational skills.

The certificate focuses on key aspects of study design, implementation, and analysis for observational and clinical studies.

Accreditation
This program is accredited by Council on Education for Public Health (CEPH)

Program Delivery
This program is available:
- primarily online (at least 80% of the instruction for the program is online with short, intensive periods of face-to-face coursework)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Admission preferences and prerequisites:
- Bachelor's degree
- Strong GPA in math and science coursework
- Strong written skills
- Work experience

Special Application Requirements:
Applicants must submit to SOPHAS Express, a centralized online application service:
- Completed SOPHAS Express application and application fee, designating the University of Minnesota School of Public Health
- Personal statement describing the applicant's reason for applying, career goals, and how the certificate will help them achieve their goals
- One letter of recommendation
- Unofficial transcripts of record from each college/university where a degree was earned. (If admitted, official transcripts will need to be sent directly to the School of Public Health.)
- Resume or C.V.

For detailed application requirements and instructions visit www.sph.umn.edu.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of September 04, 2020
- Paper Based - Total Score: 600
- IELTS
  - Total Score: 7

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

Courses must be taken A-F, unless offered only S-N. The minimum grade for each A-F graded course is B-.

**Required Coursework (15 credits)**
- Select PubH 6431 or PubH 6432 in consultation with the advisor.
- PUBH 6450 - Biostatistics I (4.0 cr)
- PUBH 6451 - Biostatistics II (4.0 cr)
- PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)
- PUBH 7415 - Introduction to Clinical Trials (3.0 cr)
- PUBH 6431 - Topics in Hierarchical Bayesian Analysis (1.0 cr)
  - or PUBH 6432 - Biostatistical Methods in Translational and Clinical Research (1.0 cr)
Twin Cities Campus

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 42
- This program requires summer semesters for timely completion.
- Degree: Master of Public Health

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

A biostatistician is an important member of many research teams. Working in close partnership with researchers across a wide array of scientific disciplines, a biostatistician designs studies and develops statistical tools to extract meaning from complex data. The Biostatistics MPH program requires students to meet core competencies in public health administration, behavioral science, biostatistics, environmental health, foundations, epidemiology, and ethics, as well as complete both an applied practice and integrative learning experience.

Accreditation
This program is accredited by CEPH (Council on Education for Public Health).

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
The admissions committee reviews applicants according to their record of academic achievement, demonstrated academic potential, letters of recommendation, background and experience, and other factors. GPAs and standardized test scores provide competitive points of reference for admission but are not alone decisive in the admissions review.

Prospective applicants should have taken at least:
- Three semesters of calculus (including multivariable calculus)
- One semester of linear algebra

Experience with a programming language (eg. Java, C, Python) is helpful, but not required.

Special Application Requirements:
International applicants who have attended post-secondary institutions outside of the U.S. are also required to submit the following supporting documentation to SOPHAS.

World Education Services (WES) evaluation of foreign academic credentials. The University of Minnesota School of Public Health requires all applicants with foreign academic credentials to provide a WES course-by-course evaluation of those credentials.
Note: Applicants with transcripts from Canadian schools are exempt from this requirement. Instead, applicants should have copies of their Canadian transcripts sent directly to SOPHAS.

Through special arrangements with SOPHAS, WES will deliver its credential evaluation report directly to SOPHAS by secure electronic transmission. This expedites the delivery of the evaluation report as well as images of the applicant's verified transcripts to SOPHAS.

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of September 04, 2020
and allows SOPHAS to process the report most efficiently. Go to http://www.wes.org/sophas for more information.

Note: Once WES receives the required documentation, it can complete an evaluation in seven business days or less, depending on the type of service requested. However, if additional research, correspondence, or verification is required, the evaluation will take longer. Students are recommended to start the process at least six weeks prior to the program deadline to ensure that their WES evaluation reports are complete by the deadline.

Proof of English Proficiency
Applicants whose native language is not English, or whose academic study was done exclusively at non-English speaking institutions, must prove English proficiency by providing either official Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS) scores. Official report of the scores should be sent directly to SOPHAS using designation code 5688 for the TOEFL or designation code SOPHAS for the IELTS.

Applicants must submit their test score(s) from the following:
- GRE
  - General Test - Verbal Reasoning: 150
  - General Test - Quantitative Reasoning: 146
  - General Test - Analytical Writing: 4

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7
- MELAB
  - Final score: 80

Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Plan C: Plan C requires 42 major credits and up to null credits outside the major. The final exam is oral. A capstone project is required.
Capstone Project: Students complete 1 credit of PUBH 7494 (Integrative Learning Experience).

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

Courses must be taken A/F unless offered only S/N. Minimum grade of B- must be earned for required courses.

Public Health Core Requirements (12 credits)
A minimum grade of B- must be earned for each of the following PUBH core courses:
- Administration
  PUBH 6751 - Principles of Management in Health Services Organizations (2.0 cr)
- Foundations of Social and Behavioral Science
  PUBH 6020 - Fundamentals of Social and Behavioral Science (2.0 cr)
- Environmental Health
  PUBH 6102 - Issues in Environmental Health (2.0 cr)
- Epidemiology
  PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)
  or PUBH 6341 - Epidemiologic Methods I (3.0 cr)
- Foundations of Public Health
  PUBH 6250 - Foundations of Public Health (2.0 cr)
- Ethics
PUBH 6741 - Ethics in Public Health: Professional Practice and Policy (1.0 cr)

**Biostatistics Core Requirements (22 credits)**
- PUBH 7405 - Biostatistics: Regression (4.0 cr)
- PUBH 7406 - Advanced Regression and Design (4.0 cr)
- PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)
- PUBH 7450 - Survival Analysis (3.0 cr)
- STAT 5101 - Theory of Statistics I (4.0 cr)
- STAT 5102 - Theory of Statistics II (4.0 cr)

**Applied Practice Experience (1 cr)**
- PUBH 7496 - Applied Practice Experience: Biostatistics (1.0 cr)

**Integrated Learning Experience (1 credit)**
- Take PUBH 7494 for one credit.
  - PUBH 7494 - Integrative Learning Experience: Biostatistics (1.0 - 3.0 cr)

**Biostatistics Electives (6 credits)**
- PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
- PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
- PUBH 7445 - Statistics for Human Genetics and Molecular Biology (3.0 cr)
- PUBH 7460 - Advanced Statistical Computing (3.0 cr)
- PUBH 7461 - Exploring and Visualizing Data in R (2.0 cr)
- PUBH 7462 - Advanced Programming and Data Analysis in R (2.0 cr)
- PUBH 7465 - Biostatistics Consulting (3.0 cr)
- PUBH 7470 - Study Designs in Biomedical Research (3.0 cr)
- PUBH 7475 - Statistical Learning and Data Mining (3.0 cr)
- PUBH 7485 - Methods for Causal Inference (3.0 cr)
- PUBH 8422 - Modern Nonparametrics (3.0 cr)
- PUBH 8472 - Spatial Biostatistics (3.0 cr)

- PUBH 8475 - Statistical Learning and Data Mining (3.0 cr)
- PUBH 8485 - Methods for Causal Inference (3.0 cr)

Electives (6 credits)
Complete 6 credits in consultation with advisor.
- MATH 5615H - Honors: Introduction to Analysis I (4.0 cr)
- MATH 5616H - Honors: Introduction to Analysis II (4.0 cr)
- STAT 5101 - Theory of Statistics I (4.0 cr)
- STAT 5102 - Theory of Statistics II (4.0 cr)
- STAT 5401 - Applied Multivariate Methods (3.0 cr)
- STAT 5601 - Nonparametric Methods (3.0 cr)
- STAT 8101 - Theory of Statistics 1 (3.0 cr)
- STAT 8102 - Theory of Statistics 2 (3.0 cr)

Plan A Thesis (10 credits)
- PUBH 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

Biostatistics Plan B Requirements (33 credits)

In consultation with advisor, Plan B students complete 33 credits.

Biostatistics Core (14 credits)
- PUBH 7405 - Biostatistics: Regression (4.0 cr)
- PUBH 7406 - Advanced Regression and Design (4.0 cr)
- PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)
- PUBH 7450 - Survival Analysis (3.0 cr)
STAT 5101 - Theory of Statistics I (4.0 cr)
or STAT 8101 - Theory of Statistics 1 (3.0 cr)
STAT 5102 - Theory of Statistics II (4.0 cr)
or STAT 8102 - Theory of Statistics 2 (3.0 cr)

Public Health Foundations (2 credits)
PUBH 6250 - Foundations of Public Health (2.0 cr)

Biostatistics Electives (8 credits)
Plan B students complete courses in consultation with advisor to meet the 33-credit minimum.
GEOG 5561 - Principles of Geographic Information Science (4.0 cr)
GIS 5571 - ArcGIS I (3.0 cr)
MATH 5615H - Honors: Introduction to Analysis I (4.0 cr)
MATH 5616H - Honors: Introduction to Analysis II (4.0 cr)
PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
PUBH 7445 - Statistics for Human Genetics and Molecular Biology (3.0 cr)
PUBH 7460 - Advanced Statistical Computing (3.0 cr)
PUBH 7461 - Exploring and Visualizing Data in R (2.0 cr)
PUBH 7462 - Advanced Programming and Data Analysis in R (2.0 cr)
PUBH 7465 - Biostatistics Consulting (3.0 cr)
PUBH 7470 - Study Designs in Biomedical Research (3.0 cr)
PUBH 7475 - Statistical Learning and Data Mining (3.0 cr)
PUBH 7485 - Methods for Causal Inference (3.0 cr)
PUBH 8422 - Modern Nonparametrics (3.0 cr)
PUBH 8472 - Spatial Biostatistics (3.0 cr)
STAT 5401 - Applied Multivariate Methods (3.0 cr)
STAT 5601 - Nonparametric Methods (3.0 cr)
WRIT 5051 - Graduate Research Writing for International Students (3.0 cr)
WRIT 5052 - Graduate Research Presentations and Conference Writing for Non-Native Speakers of English (3.0 cr)

Plan B Project (3 credits)
PUBH 7494 - Integrative Learning Experience: Biostatistics (1.0 - 3.0 cr)
Twin Cities Campus

School of Public Health, MMC 819, A395 Mayo Memorial Building, 420 Delaware Street, Minneapolis, MN 55455 (612-626-3500 OR 1-800-774-8636)
Email: sph-ask@umn.edu
Website: http://www.sph.umn.edu

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12 to 14
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The biostatistics minor is designed to familiarize students with the statistical tools necessary to analyze health science data. By taking public health courses focused on the fundamentals of statistical methodologies and programming techniques, students will gain skills that enable them to be involved in the design and analysis of quantitative studies as part of their future professional career or graduate study in an applied field.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Admission to the biostatistics graduate minor is contingent upon enrollment in a University graduate program. Students should consult with their advisor about pursuing the biostatistics minor prior to contacting the biostatistics program office for information.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters
No more than one course can be taken S/N. Approval by the Biostatistics director of graduate studies is required. A minimum GPA of 3.0 is required.

Required Courses (6 credits)
Select at least two courses, in consultation with the Biostatistics director of graduate studies, from the following list:
PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
PUBH 7445 - Statistics for Human Genetics and Molecular Biology (3.0 cr)
PUBH 7450 - Survival Analysis (3.0 cr)
PUBH 7470 - Study Designs in Biomedical Research (3.0 cr)
PUBH 7475 - Statistical Learning and Data Mining (3.0 cr)
PUBH 7485 - Methods for Causal Inference (3.0 cr)

Students may take 7415 or 7420 but not both.

- PUBH 7415 - Introduction to Clinical Trials (3.0 cr)
- or PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)

Doctoral

PhD students must obtain pre-approval from the Biostatistics director of graduate studies for proposed minor field coursework.

No more than one course can be taken S/N, and must be approved by the Biostatistics director of graduate studies is required.

Required Courses for students in the Statistics PhD program (12 credits)

**Required Courses (6 credits)**

Take the following courses:

- PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)
- PUBH 7450 - Survival Analysis (3.0 cr)

**Electives (6 credits)**

Select at least 6 credits, in consultation with the Biostatistics director of graduate studies, from the following list:

- PUBH 8422 - Modern Nonparametrics (3.0 cr)
- PUBH 8442 - Bayesian Decision Theory and Data Analysis (3.0 cr)
- PUBH 8452 - Advanced Longitudinal Data Analysis (3.0 cr)
- PUBH 8462 - Advanced Survival Analysis (3.0 cr)
- PUBH 8472 - Spatial Biostatistics (3.0 cr)
- PUBH 8475 - Statistical Learning and Data Mining (3.0 cr)
- PUBH 8482 - Sequential and Adaptive Methods for Clinical Trials (3.0 cr)
- PUBH 8485 - Methods for Causal Inference (3.0 cr)

or **Required Courses for students in a PhD program outside of Statistics (14 credits)**

**Required Course Sequence (8 credits)**

Select one of the following course sequences, in consultation with the Biostatistics director of graduate studies:

- **Option 1**
  - PUBH 7401 - Fundamentals of Biostatistical Inference (4.0 cr)
  - PUBH 7402 - Biostatistics Modeling and Methods (4.0 cr)

- **Option 2**
  - PUBH 7405 - Biostatistics: Regression (4.0 cr)
  - PUBH 7406 - Advanced Regression and Design (4.0 cr)

**Electives (6 credits)**

Select at least 6 credits, in consultation with the Biostatistics director of graduate studies, from the following list:

- PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
- PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
- PUBH 7445 - Statistics for Human Genetics and Molecular Biology (3.0 cr)
- PUBH 7450 - Survival Analysis (3.0 cr)
- PUBH 7470 - Study Designs in Biomedical Research (3.0 cr)
- PUBH 7475 - Statistical Learning and Data Mining (3.0 cr)
- PUBH 7485 - Methods for Causal Inference (3.0 cr)

Clinical Trials course options

Students may take 7415 or 7420 but not both.

- PUBH 7415 - Introduction to Clinical Trials (3.0 cr)
- or PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 53 to 67
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The biostatistics PhD prepares graduates to conduct original research, collaborate and consult with biomedical researchers, implement and disseminate results of this research, and teach and mentor others in the field.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.70.

Other requirements to be completed before admission:
At least three semesters of calculus (including multivariable) and one semester of linear algebra, and two semesters of undergraduate courses in probability and mathematical statistics are strongly recommended. Real analysis or an equivalent is recommended.
Experience with programming language (e.g., R, Java, C) and exposure to applied statistics is helpful, but not required.

In addition to completing the SOPHAS application, applicants must submit the following directly to SOPHAS:
- Statement of purpose and objectives (an essay describing past education, experience, and current professional career objectives)
- Résumé or curriculum vitae
- Official postsecondary transcripts from all institutions attended, including previous study at the University of Minnesota (have transcripts sent directly from the institutions to SOPHAS)
- Three letters of recommendation from persons qualified to assess academic work; clinical, public health, or professional experience; and leadership potential

Special Application Requirements:
Applications are accepted for fall semester admission only. All admitted international Ph.D. applicants are required to provide a World Education Services (WES) document verification report prior to beginning the program.

Proof of English Proficiency
Applicants whose native language is not English, or whose academic study was done exclusively at non-English speaking institutions, must prove English proficiency by providing either official Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS) scores. Official report of the scores should be sent directly to SOPHAS using designation code 5688 for the TOEFL or designation code SOPHAS for the IELTS. Scores must be less than two years old. The preferred minimum English language test scores for admission to the School of Public Health are listed below.

The English Language test requirement may be waived if an applicant can provide proof of one of the following:
- Completion of 16 semester credits/24 quarter credits (within the past 24 months) in an academic program at a recognized institution of higher learning in the U.S. or Canada.
- An Educational Commission for Foreign Medical Graduates (ECFMG) certificate. Students should have an official or attested copy sent directly to the University of Minnesota School of Public Health at the address listed above.
Applicants must submit their test score(s) from the following:
  • GRE
    - General Test - Verbal Reasoning: 150
    - General Test - Quantitative Reasoning: 146
    - General Test - Analytical Writing: 4

International applicants must submit score(s) from one of the following tests:
  • TOEFL
    - Internet Based - Total Score: 100
    - Paper Based - Total Score: 600
  • IELTS
    - Total Score: 7
  • MELAB
    - Final score: 80

Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
29 to 43 credits are required in the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.3 is required for students to remain in good standing.

At least 3 semesters must be completed before filing a Degree Program Form.

Students entering the program without a statistics or biostatistics master's degree may need to complete additional preparatory coursework in their first year, selected in consultation with the advisor and Biostatistics director of graduate studies upon admission. Students who have not taken a real analysis course may need to complete MATH 4603 Advanced Calculus. Those who have taken a real analysis course are strongly encouraged, but not required to, take MATH 5615H. Preparatory coursework cannot be applied toward degree requirements.

Courses must be taken A/F, unless offered only S/N.

Biostatistics Core Requirements (19 credits)
  PUBH 6250 - Foundations of Public Health (2.0 cr)
  PUBH 7450 - Survival Analysis (3.0 cr)
  PUBH 8401 - Linear Models (4.0 cr)
  PUBH 8403 - Research Skills in Biostatistics (1.0 cr)
  PUBH 8412 - Advanced Statistical Inference (3.0 cr)
  PUBH 8432 - Probability Models for Biostatistics (3.0 cr)
  PUBH 8442 - Bayesian Decision Theory and Data Analysis (3.0 cr)

Biostatistics Electives (9 credits)
Select at least 9 credits, in consultation with the advisor, from the following:
  PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)
  PUBH 7465 - Biostatistics Consulting (3.0 cr)
  PUBH 8422 - Modern Nonparametrics (3.0 cr)
  PUBH 8445 - Statistics for Human Genetics and Molecular Biology (3.0 cr)
  PUBH 8446 - Advanced Statistical Genetics and Genomics (3.0 cr)
  PUBH 8452 - Advanced Longitudinal Data Analysis (3.0 cr)
  PUBH 8462 - Advanced Survival Analysis (3.0 cr)
**PUBH 8472** - Spatial Biostatistics (3.0 cr)
**PUBH 8475** - Statistical Learning and Data Mining (3.0 cr)
**PUBH 8482** - Sequential and Adaptive Methods for Clinical Trials (3.0 cr)
**PUBH 8485** - Methods for Causal Inference (3.0 cr)
**PUBH 8492** - Theories of Hierarchical and Other Richly Parametrized Linear Models (3.0 cr)

**Health Science Elective (1 credit)**
Take at least one credit offered by other School of Public Health divisions or Health Sciences programs. This course is chosen in consultation with the advisor.
- PUBH 6xxx
- PUBH 7xxx
- PUBH 8xxx

**Thesis Credits**
Take at least 24 doctoral thesis credits.
- **PUBH 8888** - Thesis Credit: Doctoral (1.0 - 24.0 cr)

**Requirements for students entering the PhD without a master's in statistics or biostatistics**
Students entering the PhD without a master's in statistics or biostatistics must complete an additional 14 credits, selected in consultation with advisor.

**Additional Biostatistics Coursework (14 credits)**
Take the following courses for 14 credits:
- **STAT 8101** - Theory of Statistics 1 (3.0 cr)
- **STAT 8102** - Theory of Statistics 2 (3.0 cr)
- **PUBH 7405** - Biostatistics: Regression (4.0 cr)
- **PUBH 7406** - Advanced Regression and Design (4.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 38
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The MS in clinical research is a graduate degree as well as a career development path for physician-scientists, clinical scholars, and biomedical researchers.

The program trains students to conduct patient-oriented research, directly interacting with human subjects to better understand disease, the development of therapeutic interventions, and the conduct of clinical trials. Students learn how to conduct epidemiologic and behavioral studies and understand issues related to outcomes-based research, and also develop grant writing and data analytic skills.

Program Delivery
This program is available:
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

An advanced health professional degree (MD, DDS, DVM, DO, DNP, DC, PharmD, PhD, etc.) or other advanced doctoral degree in a clinical biomedical field from an accredited university.

Other requirements to be completed before admission:
Students must have completed or must be at an advanced stage of their clinical practice training and be affiliated with a University faculty member eligible to advise and access a clinical project. The admissions committee considers exceptions on an individual basis.

Special Application Requirements:
An official transcript verifying completion of an advanced health professional degree and training sufficient to be eligible for a license to practice. One of the three required recommendation letters and a completed School of Public Health Recommendation form from the clinical director of training supporting the applicant's potential as a clinical researcher.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7
- MELAB
  - Final score: 80

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (TOEFL, IELTS, MELAB).
For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan B: Plan B requires 38 major credits and 0 credits outside the major. The final exam is oral. A capstone project is required.

Capstone Project: Students can opt to complete a manuscript or a grant proposal for their capstone project. The topic and scope of the project must be approved by the advisor and director of graduate studies.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.

Students must complete both sessions of the University's Responsible Conduct of Research course, validated by ORTTA. Students also must complete the NIH's online training, Protection of Human Research Subjects, validated by electronic certificate upon successful completion.

A grade of at least B- must be earned for the core, epidemiology, and clinical trials courses taken on the A/F grade basis. If PUBH 6320 is taken, a grade of at least A- must be earned.

Required Core Courses (16 credits)

- Take the following courses:
  - PUBH 6301 - Fundamentals of Clinical Research (3.0 cr)
  - PUBH 6450 - Biostatistics I (4.0 cr)
  - PUBH 6451 - Biostatistics II (4.0 cr)
  - PUBH 6742 - Ethics in Public Health: Research and Policy (1.0 cr)
  - PUBH 6250 - Foundations of Public Health (2.0 cr)
  - PUBH 6310 - Clinical Epidemiology I (1.0 cr)
  - PUBH 6311 - Clinical Epidemiology II (1.0 cr)

Epidemiology Course (3 credits)

- Select one of the following courses in consultation with the director of graduate studies.
  - PUBH 6341 - Epidemiologic Methods I (3.0 cr)
  - or PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)

Clinical Trials Course (3 credits)

- Select one of the following courses in consultation with the director of graduate studies.
  - PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)
  - or PUBH 7415 - Introduction to Clinical Trials (3.0 cr)

Capstone Project (6 to 10 credits)

Take 6 to 10 credits of PUBH 8394, in consultation with the advisor and director of graduate studies.

PUBH 8394 - Capstone Project: Clinical Research (1.0 - 10.0 cr)

Electives

Select electives in consultation with the director of graduate studies to meet the 38-credit requirement.

- DENT 8100 - Topics in Advanced Periodontology: Literature Review (2.0 cr)
- DENT 8120 - Advanced Principles and Techniques of Orofacial Pain Disorders (2.0 cr)
- DENT 8121 - Current Literature in TMD and Orofacial Pain (1.0 cr)
- ECP 5220 - Regulatory Issues in Drug Research (2.0 cr)
- ECP 5620 - Drug Metabolism and Disposition (3.0 cr)
- ECP 8100 - Seminar (1.0 cr)
- MICA 8013 - Translational Cancer Research (2.0 cr)
- NURS 5925 - Grant Writing and Critique (1.0 cr)
- NURS 6102 - Family Health Theory (2.0 cr)
- NURS 7202 - Moral and Ethical Positions and Actions in Nursing (2.0 cr)
- NURS 8152 - Scholarship in Health Care Ethics (3.0 cr)
- NURS 8172 - Theory and Theory Development for Research (3.0 cr)
- NURS 8173 - Principles and Methods of Implementing Research (3.0 cr)
- NURS 8175 - Quantitative Research Design and Methods (3.0 cr)
- PHAR 6224 - Pharmacogenomics: Genetic Basis for Variability in Drug Response (2.0 cr)

© 2005 by the Regents of the University of Minnesota

The University of Minnesota is an equal opportunity educator and employer.

Information current as of September 04, 2020
PHCL 5111 - Pharmacogenomics (3.0 cr)
PUBH 6108 - Foundations of Global Health (2.0 cr)
PUBH 6181 - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
PUBH 6303 - Clinical Research Project Seminar (2.0 cr)
PUBH 6325 - Data Processing with PC-SAS (1.0 cr)
PUBH 6343 - Epidemiologic Methods III (4.0 cr)
PUBH 6348 - Writing Research Grants (2.0 cr)
PUBH 6381 - Genetics in Public Health in the Age of Precision Medicine (2.0 cr)
PUBH 6385 - Epidemiology and Control of Infectious Diseases (2.0 cr)
PUBH 6386 - Cardiovascular Disease Epidemiology and Prevention (2.0 cr)
PUBH 6387 - Cancer Epidemiology (2.0 cr)
PUBH 6389 - Nutritional Epidemiology (2.0 cr)
PUBH 6420 - Introduction to SAS Programming (1.0 cr)
PUBH 6717 - Decision Analysis for Health Care (2.0 cr)
PUBH 6803 - Conducting a Systematic Literature Review (3.0 cr)
PUBH 6863 - Understanding Health Care Quality (2.0 cr)
PUBH 6864 - Conducting Health Outcomes Research (3.0 cr)
PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
PUBH 7445 - Statistics for Human Genetics and Molecular Biology (3.0 cr)
PUBH 7450 - Survival Analysis (3.0 cr)
PUBH 7470 - Study Designs in Biomedical Research (3.0 cr)
TMDP 8441 - Seminar in Temporomandibular Disorders & Orofacial Pain (1.0 cr)
VMED 5080 - Problems in Veterinary Epidemiology and Public Health (1.0 - 3.0 cr)
VMED 5165 - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
VMED 8090 - Epidemiology of Zoonoses and Diseases Common to Animals and Humans (3.0 cr)

- Program Type: Post-baccalaureate credit certificate/licensure/endorsement
- Requirements for this program are current for Fall 2020
- Length of program in credits: 16
- This program does not require summer semesters for timely completion.
- Degree: Clinical Research PBacc Cert

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The certificate is designed for clinicians and other health professionals with at least five years of relevant experience who want to learn how to design, implement, and interpret clinical research studies. Students can pursue the certificate on a part-time basis.

Accreditation
This program is accredited by Council on Education for Public Health (CEPH)

Program Delivery
This program is available:
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Applicants are required to have a baccalaureate degree and either a minimum of five years of relevant clinical research experience or GRE scores.

Special Application Requirements:
Applicants must submit to SOPHAS Express, a centralized online application service:
- Completed SOPHAS Express application and application fee, designating the University of Minnesota School of Public Health
- Personal statement describing the applicant's reason for applying, career goals, and how the certificate will help them achieve their goals
- One letter of recommendation
- Unofficial transcripts of record from each college/university where a degree was earned. (If admitted, official transcripts will need to be sent directly to the School of Public Health.)
- Resume or C.V.

For detailed application requirements and instructions visit www.sph.umn.edu.

Applicants must submit their test score(s) from the following:
- GRE
  - General Test - Analytical Writing: 3.5

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 48
- This program requires summer semesters for timely completion.
- Degree: Master of Public Health

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Through coursework and fieldwork taken at the School of Public Health, students in community health promotion develop basic competencies in theory, health behavior and policy interventions, assessment methods, cultural competency, and management.

Each graduate should have the ability to:
- Use theories of behavior and social change to inform the planning and evaluation of health interventions
- Identify individual, community, and policy-level interventions that are effective in promoting healthy behaviors and social conditions
- Design and implement effective individual, community, and policy-level interventions targeting a variety of health behaviors
- Assess the health status of populations and communities
- Utilize appropriate data collection strategies and qualitative and quantitative methods to evaluate health interventions
- Identify the role of cultural, social, and behavioral factors in influencing health behaviors and status
- Develop and adapt approaches to solving health problems, taking into account cultural differences
- Communicate health information effectively both in writing and orally
- Advocate for public health programs and resources
- Collaborate with public health agencies and other constituency groups
- Coordinate and manage health programs/services
- Relate ethical considerations and values to one’s professional practice

The MPH in community health promotion is a good path for students planning for careers as public health practitioners or planning to pursue a PhD in social and behavioral epidemiology, which is available in the School of Public Health.

Accreditation
This program is accredited by Council on Education for Public Health (CEPH).

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Baccalaureate degree or higher from an accredited college or university. College-level courses in the following areas: social and behavioral sciences (at least 3 courses) and introductory statistics (1 course).

Special Application Requirements:
Applicants must have one year of paid or volunteer experience in a public health, social service, or community setting.

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
• IELTS
  - Total Score: 7

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan C: Plan C requires 48 major credits and up to null credits outside the major. The final exam. A capstone project is required.

Capstone Project: Students complete an Integrated Learning Experience (ILE) in consultation with the advisor.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

Courses must be taken A/F unless offered only S/N. Minimum grade of B- must be earned for required courses.

Public Health Core Requirements (15 credits)

Biostatistics (4 credits)
Take the following course:
PUBH 6450 - Biostatistics I (4.0 cr)

Environmental Health (2 credits)
Take the following course:
PUBH 6102 - Issues in Environmental Health (2.0 cr)

Epidemiology (3 credits)
Select one of the following:
PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)
or PUBH 6341 - Epidemiologic Methods I (3.0 cr)

Ethics (1 credit)
Take the following course:
PUBH 6741 - Ethics in Public Health: Professional Practice and Policy (1.0 cr)

Administration/Management (2 credits)
Take the following course:
PUBH 6751 - Principles of Management in Health Services Organizations (2.0 cr)

Community Health Theory/Social and Behavioral Health (3 credits)
Take the following course:
PUBH 6050 - Community Health Promotion I: Integrating Theory, Evidence, and Context (3.0 cr)

Theory (3 credits)
Take the following course:
PUBH 6051 - Community Health Promotion II: Developing, Implementing, and Justifying Interventions (3.0 cr)

Health Behavior and Policy Interventions (8 credits)

Required Course
Take 1 of the following courses:
PUBH 6045 - Skills for Policy Development (1.0 cr)
or PUBH 6078 - Public Health Policy as a Prevention Strategy (2.0 cr)

Select courses from the following to meet to complete this 8-credit minimum:
PUBH 5231 - Emergency Preparedness: A Public Health Perspective (2.0 cr)
PUBH 6011 - Public Health Approaches to HIV/AIDS (3.0 cr)
PUBH 6049 - Legislative Advocacy Skills for Public Health (3.0 cr)
PUBH 6055 - Social Inequalities in Health (2.0 cr)
PUBH 6066 - Building Communities, Increasing Health: Preparing for Community Health Work (2.0 cr)
PUBH 6074 - Mass Communication and Public Health (3.0 cr)
PUBH 6081 - Sex, Sexuality, and Sexual Health (2.0 cr)
PUBH 6094 - Obesity and Eating Disorder Interventions (2.0 cr)
PUBH 6120 - Injury Prevention in the Workplace, Community, and Home (2.0 cr)
PUBH 6123 - Violence Prevention and Control: Theory, Research, and Application (2.0 cr)
PUBH 6627 - Sexuality Education: Criteria, Curricula, and Controversy (1.0 cr)

Evaluation-related Methods (6-10 credits)
Required Course
Take the following course:
PUBH 6035 - Evaluation II: Applications (3.0 cr)

Evaluation Course
Select one of the following courses in consultation with the advisor:
PUBH 6034 - Evaluation (3.0 cr)
or PUBH 6852 - Program Evaluation in Health and Mental Health Settings (2.0 cr)

Methods Course
Select one of the following courses in consultation with the advisor:
PUBH 6107 - Excel and Access Skills in Public Health Settings (1.0 cr)
PUBH 6414 - Biostatistical Literacy (3.0 cr)
PUBH 6451 - Biostatistics II (4.0 cr)
PUBH 6636 - Qualitative Research Methods in Public Health Practice (2.0 cr)

Applied Practice Experience (1-2 credits)
Take at least 1 credit, in consultation with the advisor:
PUBH 7096 - Applied Practice Experience: Community Health Promotion (1.0 - 5.0 cr)

Integrated Learning Experience (1 credit)
Take at least 1 credit, in consultation with the advisor:
PUBH 7094 - Integrative Learning Experience: Community Health Promotion (1.0 - 6.0 cr)

Electives
Select electives, in consultation with the advisor, to complete the 48-credit requirement.
CSPH 5111 - Ways of Thinking about Health (2.0 cr)
CSPH 5115 - Cultural Awareness, Knowledge and Health (3.0 cr)
CSPH 5118 - Whole Person, Whole Community: The Reciprocity of Wellbeing (3.0 cr)
CSPH 5215 - Forgiveness and Healing: A Journey Toward Wholeness (3.0 cr)
CSPH 5303 - Pain Management and Evidence Based Complementary Health Approaches (3.0 cr)
CSPH 5305 - Introduction to Integrative Mental Health (2.0 cr)
CSPH 5701 - Fundamentals of Health Coaching I (4.0 cr)
CSPH 5702 - Fundamentals of Health Coaching II (4.0 cr)
CSPH 5703 - Advanced Health Coaching Practicum (3.0 cr)
CSPH 5704 - Business of Health Coaching (2.0 cr)
CSPH 5706 - Lifestyle Medicine (2.0 cr)
CSPH 5707 - Coaching People with Clinical Conditions (2.0 cr)
CSPH 5708 - Mind-Body Science and the Art of Transformation (1.0 cr)
CSPH 5709 - Health and Wellbeing Group Coaching (2.0 cr)
CSPH 5713 - Health Coaching for Health Professionals (2.0 cr)
CSPH 5805 - Wellbeing in the Workplace (3.0 cr)
CSPH 5806 - Wellbeing and Resiliency for Health Professionals (1.0 cr)
CSPH 5807 - Mindfulness in the Workplace: Pause, Practice, Perform (2.0 cr)
CSPH 5805 - Food Matters: Cook Like Your Life Depends On It (1.0 cr)
EPSY 5114 - Psychology of Student Learning (3.0 cr)
EPSY 5244 - Survey Design, Sampling, and Implementation (3.0 cr)
EPSY 5247 - Qualitative Methods in Educational Psychology (3.0 cr)
EPSY 5609 - Family-centered Services (3.0 cr)
EPSY 8251 - Statistical Methods in Education I (3.0 cr)
EPSY 8264 - Advanced Multiple Regression Analysis (3.0 cr)
EPSY 8282 - Statistical Analysis of Longitudinal Data (3.0 cr)
FSCN 4612W - Advanced Human Nutrition [WI] (4.0 cr)
FSCN 4614W - Community Nutrition [SOCS, DSJ, WI] (3.0 cr)
FSCN 4621 - Nutrition and Metabolism (4.0 cr)
FSCN 4622 - Nutritional Toxicology, the basic science of diet-related toxicants (3.0 cr)
FSCN 4665 - Medical Nutrition Therapy I (3.0 cr)
FSCN 4666 - Medical Nutrition Therapy II (3.0 cr)
FSCN 4732 - Food and Nutrition Management (3.0 cr)
FSCN 5131 - Food Quality for Graduate Credit (3.0 cr)
FSCN 5312 - Food Analysis (4.0 cr)
FSCN 5601 - Management of Eating Disorders (3.0 cr)
FSOS 5014 - Quantitative Family Research Methods I (3.0 cr)

• Program Type: Master's
• Requirements for this program are current for Fall 2020
• Length of program in credits: 42 to 52
• This program does not require summer semesters for timely completion.
• Degree: Master of Public Health

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Environmental health is the study of how exposures to external hazards, including chemical, physical, and biological agents, affect human health. Environmental health researchers and professionals seek to understand how to evaluate exposures that create risk to human health, how those exposures elicit biological responses that lead to disease and injury, and how policy is developed and used to prevent adverse health effects. This program offers academic programs at the master's and doctoral levels, conducts research in diverse areas of environmental health, offers continuing education, and conducts outreach. The academic programs prepare students to be leaders in environmental health in academia, industry, consulting groups, and government agencies. The program's training and research emphasizes the importance of translating basic scientific knowledge into solutions for current societal problems and concerns.

The School of Public Health (SPH) and College of Biological Sciences (CBS) offer an early-admission opportunity for eligible University CBS students interested in completing the MPH Environmental Health degree. Interested CBS students should contact their college office or the SPH for more information.

Accreditation
This program is accredited by Council on Education for Public Health

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)
• completely online (all program coursework can be completed online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Minimum qualifications include a baccalaureate degree with coursework in the basic sciences. Occupational health nursing/medicine applicants must have a relevant degree from an accredited school.

Other requirements to be completed before admission:
Applicants to the Industrial Hygiene sub-plan must meet the following additional criteria: a good undergraduate academic record in a relevant discipline (preferably science or engineering), with a minimum level of coursework in biology, chemistry (including organic), physics, and mathematics (including calculus). Students with undergraduate non-science fields, with appropriate additional coursework or work experience, may also apply, but must demonstrate strengths in physics, chemistry (including organic), biology, and mathematics (including calculus) and complementary non-science coursework (e.g. social sciences, languages). Strong letters of recommendation and a written statement that reflects a clear motivation toward occupational and environmental health. Success in prior industrial hygiene-related work is a strong factor for admission to this track. Applicants interested in the Environmental Infectious Diseases emphasis: microbiology background is preferred.

Applicants must submit their test score(s) from the following:
• GRE

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of September 04, 2020
General Test - Verbal Reasoning: 150
- General Test - Quantitative Reasoning: 150
- General Test - Analytical Writing: 3.5

- GMAT
- MCAT
  - Verbal Reasoning score: 10
  - Physical Science score: 10
  - Biological Reasoning score: 10
  - Writing Sample score: 10
- LSAT
  - Law School Admission Test (LSAT) score: 140
- DAT
  - Score: 15

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7
- MELAB
  - Final score: 80

Key to test abbreviations (GRE, GMAT, MCAT, LSAT, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the [General Information](#) section of the catalog website.

**Program Requirements**

**Plan C:** Plan C requires 42 to 52 major credits and up to null credits outside the major. The is no final exam. A capstone project is required.

**Capstone Project:** Students complete PUBH 7194 (Integrative Learning Experience) in consultation with the advisor.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.0 is required for students to remain in good standing.

**Public Health Core Requirements (16 credits)**
Take the following courses for a total of 9 credits. A minimum grade of B- is required for each course.

- PUBH 6020 - Fundamentals of Social and Behavioral Science (2.0 cr)
- PUBH 6102 - Issues in Environmental Health (2.0 cr)
- PUBH 6250 - Foundations of Public Health (2.0 cr)
- PUBH 6741 - Ethics in Public Health: Professional Practice and Policy (1.0 cr)
- PUBH 6751 - Principles of Management in Health Services Organizations (2.0 cr)

**Epidemiology Requirement (3 cr)**
Take one of the following courses. Students taking electives from the Environmental and Occupational Epidemiology emphasis or Injury and Violence Epidemiology and Prevention emphasis must take PUBH 6341. A minimum grade of B- is required.

- PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)
- or PUBH 6341 - Biostatistical Methods I (3.0 cr)

**Biostatistics Requirement (4 cr)**
Select PUBH 6450 or PUBH 6414 in consultation with the advisor. Students taking electives from the Environmental and Occupational Epidemiology emphasis, Injury and Violence Epidemiology and Prevention emphasis, or pursuing the Industrial Hygiene track must take PUBH 6450. Students who take PUBH 6414 must take at least one additional credit from the biostatistical program course list to complete the 4-credit requirement. A minimum grade of B- is required.

- PUBH 6450 - Biostatistics I (4.0 cr)
- or PUBH 6414 - Biostatistical Literacy (3.0 cr)

**Biostatistical Programming Options**
Students who take PUBH 6414 must select one of the following courses in consultation with the advisor to complete the biostatistics programming requirement. A minimum grade of B- is required.

- PUBH 6107 - Excel and Access Skills in Public Health Settings (1.0 cr)
or PUBH 6123 - Violence Prevention and Control: Theory, Research, and Application (2.0 cr)
or PUBH 6325 - Data Processing with PC-SAS (1.0 cr)
or PUBH 6420 - Introduction to SAS Programming (1.0 cr)
or PUBH 6470 - SAS Procedures and Data Analysis (3.0 cr)
or PUBH 6755 - Planning and Budgeting for Public Health (2.0 cr)
or PUBH 6813 - Managing Electronic Health Information (2.0 cr)
or PUBH 6845 - Using Demographic Data for Policy Analysis (3.0 cr)
or PUBH 7461 - Exploring and Visualizing Data in R (2.0 cr)

Applied Practice Experience (1 to 3 credits)
Take the following course in consultation with the advisor. Students pursuing the Industrial Hygiene track must take PUBH 7196 for 3 credits. All other students take the course for 1 credit.

PUBH 7196 - Applied Practice Experience: Environmental Health (1.0 - 5.0 cr)

Integrative Learning Experience (1 to 3 credits)
Take the following course in consultation with the advisor. Students pursuing the Industrial Hygiene track must take PUBH 7194 for 3 credits. All other students take the course for 1 credit.

PUBH 7194 - Integrative Learning Experience: Environmental Health (1.0 - 5.0 cr)

Emphasis Areas

Generalist (24 credits)
Students pursue and develop their particular interests to complete this emphasis.

Environmental Health Required Coursework (4 credits)
Take one course from each of the following lists. A minimum of B- is required.

Integrated Exposure & Health Effects
Take one course from the following list:
PUBH 6112 - Environmental Health Risk Assessment: Application to Human Health Risks from Exposure to Chemicals (2.0 cr)
PUBH 6141 - GIS & Spatial Analysis for Public Health (3.0 cr)
PUBH 6154 - Climate Change and Global Health (3.0 cr)
PUBH 6162 - Biomarkers (2.0 cr)
PUBH 6181 - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
PUBH 6190 - Environmental Chemistry (3.0 cr)
PUBH 6193 - Advanced Topics in Human Exposure Science (2.0 cr)

Risk Management
Take one from the following list:
PUBH 6115 - Worker Protection Law (1.0 cr)
PUBH 6116 - Environmental Law (1.0 cr)
PUBH 6120 - Injury Prevention in the Workplace, Community, and Home (2.0 cr)
PUBH 6123 - Violence Prevention and Control: Theory, Research, and Application (2.0 cr)

Choose electives in consultation with the advisor to complete the 42-credit minimum.

PUBH 6385 - Epidemiology and Control of Infectious Diseases (2.0 cr)
PUBH 6601 - Born a Girl: Global Women's Health (1.0 cr)
PUBH 6852 - Program Evaluation in Health and Mental Health Settings (2.0 cr)
PUBH 6034 - Evaluation (3.0 cr)
PUBH 6045 - Skills for Policy Development (1.0 cr)
PUBH 6055 - Social Inequalities in Health (2.0 cr)
PUBH 6066 - Building Communities, Increasing Health: Preparing for Community Health Work (2.0 cr)
PUBH 6527 - Healthcare Leadership and Effecting Change (2.0 cr)
PA 5451 - Immigration, Health and Public Policy (3.0 cr)
PUBH 6906 - Global Nutrition (2.0 cr)
PUBH 6730 - International Comparative Health Systems (2.0 cr)
PUBH 6605 - Reproductive and Perinatal Health (2.0 cr)
PUBH 6130 - Occupational Medicine: Principles and Practice (2.0 cr)
PUBH 6140 - Occupational and Environmental Epidemiology (2.0 cr)
PUBH 6150 - Interdisciplinary Evaluation of Occupational Health and Safety Field Problems (3.0 cr)
PUBH 6160 - Principles of Toxicology II (3.0 cr)
PUBH 6170 - Introduction to Occupational Health and Safety (3.0 cr)
PUBH 6173 - Exposure to Physical Agents (2.0 cr)
PUBH 6011 - Public Health Approaches to HIV/AIDS (3.0 cr)
PUBH 5231 - Emergency Preparedness: A Public Health Perspective (2.0 cr)
PUBH 6386 - Cardiovascular Disease Epidemiology and Prevention (2.0 cr)
PUBH 6035 - Evaluation II: Applications (3.0 cr)
PUBH 6049 - Legislative Advocacy Skills for Public Health (3.0 cr)
PUBH 6210 - Public Health Medicine Seminar (1.0 cr)

Environmental and Occupational Epidemiology (24 credits)

Required Coursework (9 credits)
Take the following courses. Students taking electives from the Environmental and Occupational Epidemiology emphasis must have completed PUBH 6341 and PUBH 6450.
- PUBH 6140 - Occupational and Environmental Epidemiology (2.0 cr)
- PUBH 6342 - Epidemiologic Methods II (3.0 cr)
- PUBH 6451 - Biostatistics II (4.0 cr)

Environmental Health Requirement (4 credits)
Take one course from each of the following lists. A minimum of B- is required.

Integrated Exposure & Health Effects
Take one course from the following list.
- PUBH 6112 - Environmental Health Risk Assessment: Application to Human Health Risks from Exposure to Chemicals (2.0 cr)
- PUBH 6141 - GIS & Spatial Analysis for Public Health (3.0 cr)
- PUBH 6154 - Climate Change and Global Health (3.0 cr)
- PUBH 6162 - Biomarkers (2.0 cr)
- PUBH 6181 - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
- PUBH 6190 - Environmental Chemistry (3.0 cr)
- PUBH 6193 - Advanced Topics in Human Exposure Science (2.0 cr)

Risk Management
Take one course from the following list:
- PUBH 6115 - Worker Protection Law (1.0 cr)
- PUBH 6116 - Environmental Law (1.0 cr)
- PUBH 6120 - Injury Prevention in the Workplace, Community, and Home (2.0 cr)
- PUBH 6123 - Violence Prevention and Control: Theory, Research, and Application (2.0 cr)

Electives (11 credits)
Choose electives in consultation with the advisor to meet the 42-credit minimum.
- PUBH 6034 - Evaluation (3.0 cr)
- PUBH 6045 - Skills for Policy Development (1.0 cr)
- PUBH 6055 - Social Inequalities in Health (2.0 cr)
- PUBH 6066 - Building Communities, Increasing Health: Preparing for Community Health Work (2.0 cr)
- PUBH 6067 - Healthcare Leadership and Effecting Change (2.0 cr)
- PUBH 6080 - Global Nutrition (2.0 cr)
- PUBH 6730 - International Comparative Health Systems (2.0 cr)
- PUBH 6605 - Reproductive and Perinatal Health (2.0 cr)
- PUBH 6130 - Occupational Medicine: Principles and Practice (2.0 cr)
- PUBH 6150 - Interdisciplinary Evaluation of Occupational Health and Safety Field Problems (3.0 cr)
- PUBH 6160 - Principles of Toxicology II (3.0 cr)
- PUBH 6170 - Introduction to Occupational Health and Safety (3.0 cr)
- PUBH 6173 - Exposure to Physical Agents (2.0 cr)
- PUBH 6011 - Public Health Approaches to HIV/AIDS (3.0 cr)
- PUBH 5231 - Emergency Preparedness: A Public Health Perspective (2.0 cr)
- PUBH 6366 - Cardiovascular Disease Epidemiology and Prevention (2.0 cr)
- PUBH 6035 - Evaluation II: Applications (3.0 cr)
- PUBH 6049 - Legislative Advocacy Skills for Public Health (3.0 cr)
- PUBH 6210 - Public Health Medicine Seminar (1.0 cr)

Environmental Infectious Diseases (24 credits)

Required Coursework (10 credits)

Take the following courses:

PUBH 6181 - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
PUBH 6182 - Emerging Infectious Disease: Current Issues, Policies, and Controversies (3.0 cr)
PUBH 6385 - Epidemiology and Control of Infectious Diseases (2.0 cr)
VMED 5180 - Ecology of Infectious Disease (3.0 cr)

Environmental Health Requirement (4 credits)

Take one course from each of the following lists. A minimum grade of B- is required.

Integrated Exposure & Health Effects

Take one course from the following list.

PUBH 6112 - Environmental Health Risk Assessment: Application to Human Health Risks from Exposure to Chemicals (2.0 cr)
PUBH 6141 - GIS & Spatial Analysis for Public Health (3.0 cr)
PUBH 6154 - Climate Change and Global Health (3.0 cr)
PUBH 6162 - Biomarkers (2.0 cr)
PUBH 6190 - Environmental Chemistry (3.0 cr)
PUBH 6193 - Advanced Topics in Human Exposure Science (2.0 cr)

Risk Management

Take one course from the following list:

PUBH 6115 - Worker Protection Law (1.0 cr)
PUBH 6116 - Environmental Law (1.0 cr)
PUBH 6120 - Injury Prevention in the Workplace, Community, and Home (2.0 cr)
PUBH 6123 - Violence Prevention and Control: Theory, Research, and Application (2.0 cr)

Electives (10 credits)

Choose electives in consultation with the advisor to meet the 42-credit minimum.

PUBH 6547 - Health Care Human Resources Management (2.0 cr)
PUBH 6601 - Born a Girl: Global Women's Health (1.0 cr)
PUBH 6852 - Program Evaluation in Health and Mental Health Settings (2.0 cr)

PUBH 7565 - Innovation of Healthcare Services (2.0 cr)
PUBH 7568 - Interdisciplinary Teamwork in Health Care (2.0 cr)
PUBH 7569 - Health Care Policy (1.0 cr)

-OR-

Occupational and Environmental Health Nursing (24 credits)

Required Coursework (9 credits)
Take the following courses:

PUBH 6130 - Occupational Medicine: Principles and Practice (2.0 cr)
PUBH 6150 - Interdisciplinary Evaluation of Occupational Health and Safety Field Problems (3.0 cr)
PUBH 6170 - Introduction to Occupational Health and Safety (3.0 cr)
PUBH 6151 - Occupational and Environmental Health Nursing Seminar (1.0 cr)

Environmental Health Requirement (4 credits)
Take one course from each of the following lists. A minimum grade of B- is required.

Integrated Exposure & Health Effects
Take one course from the following list:
PUBH 6112 - Environmental Health Risk Assessment: Application to Human Health Risks from Exposure to Chemicals (2.0 cr)
PUBH 6141 - GIS & Spatial Analysis for Public Health (3.0 cr)
PUBH 6154 - Climate Change and Global Health (3.0 cr)
PUBH 6162 - Biomarkers (2.0 cr)
PUBH 6181 - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
PUBH 6190 - Environmental Chemistry (3.0 cr)
PUBH 6193 - Advanced Topics in Human Exposure Science (2.0 cr)

Risk Management
Take one course from the following list:
PUBH 6115 - Worker Protection Law (1.0 cr)
PUBH 6116 - Environmental Law (1.0 cr)
PUBH 6120 - Injury Prevention in the Workplace, Community, and Home (2.0 cr)
PUBH 6123 - Violence Prevention and Control: Theory, Research, and Application (2.0 cr)

Electives (11 credits)
Choose electives in consultation with the advisor to meet the 42-credit minimum.

PA 5451 - Immigration, Health and Public Policy (3.0 cr)
PUBH 5231 - Emergency Preparedness: A Public Health Perspective (2.0 cr)
PUBH 6011 - Public Health Approaches to HIV/AIDS (3.0 cr)
PUBH 6034 - Evaluation (3.0 cr)
PUBH 6035 - Evaluation II: Applications (3.0 cr)
PUBH 6045 - Skills for Policy Development (1.0 cr)
PUBH 6049 - Legislative Advocacy Skills for Public Health (3.0 cr)
PUBH 6055 - Social Inequalities in Health (2.0 cr)
PUBH 6060 - Motivational Interviewing: Strategies to Effect Behavior Change (1.0 cr)
PUBH 6066 - Building Communities, Increasing Health: Preparing for Community Health Work (2.0 cr)
PUBH 6074 - Mass Communication and Public Health (3.0 cr)
PUBH 6078 - Public Health Policy as a Prevention Strategy (2.0 cr)
PUBH 6094 - Obesity and Eating Disorder Interventions (2.0 cr)
PUBH 6140 - Occupational and Environmental Epidemiology (2.0 cr)
PUBH 6160 - Principles of Toxicology II (3.0 cr)
PUBH 6173 - Exposure to Physical Agents (2.0 cr)
PUBH 6210 - Public Health Medicine Seminar (1.0 cr)
PUBH 6342 - Epidemiologic Methods II (3.0 cr)
PUBH 6343 - Epidemiologic Methods III (4.0 cr)
PUBH 6344 - Completing the Integrated Learning Experience: Secondary Data Analysis (2.0 cr)
PUBH 6350 - Epidemiologic Methods III: Lab (1.0 cr)
PUBH 6355 - Pathophysiology of Human Disease (4.0 cr)
PUBH 6381 - Genetics in Public Health in the Age of Precision Medicine (2.0 cr)
PUBH 6385 - Epidemiology and Control of Infectious Diseases (2.0 cr)
PUBH 6386 - Cardiovascular Disease Epidemiology and Prevention (2.0 cr)
PUBH 6389 - Nutritional Epidemiology (2.0 cr)
PUBH 6420 - Introduction to SAS Programming (1.0 cr)
PUBH 6431 - Topics in Hierarchical Bayesian Analysis (1.0 cr)
PUBH 6470 - SAS Procedures and Data Analysis (3.0 cr)
PUBH 6527 - Healthcare Leadership and Effecting Change (2.0 cr)
PUBH 6541 - Statistics for Health Management Decision Making (3.0 cr)
PUBH 6542 - Management of Health Care Organizations (3.0 cr)

Occupational and Environmental Medicine (24 credits)

Required Coursework (19 credits)

Take the following courses:

PUBH 6120 - Injury Prevention in the Workplace, Community, and Home (2.0 cr)
PUBH 6130 - Occupational Medicine: Principles and Practice (2.0 cr)
PUBH 6140 - Occupational and Environmental Epidemiology (2.0 cr)
PUBH 6150 - Interdisciplinary Evaluation of Occupational Health and Safety Field Problems (3.0 cr)
PUBH 6159 - Principles of Toxicology I (2.0 cr)
PUBH 6170 - Introduction to Occupational Health and Safety (3.0 cr)
PUBH 6173 - Exposure to Physical Agents (2.0 cr)
PUBH 6387 - Cancer Epidemiology (2.0 cr)
PUBH 8120 - Occupational Health and Safety Research Seminar (1.0 cr)

Environmental Health Requirement (4 credits)

Take one course from each of the following lists. A minimum of B- is required.

Integrated Exposure & Health Effects

Take one course from the following list.

PUBH 6112 - Environmental Health Risk Assessment: Application to Human Health Risks from Exposure to Chemicals (2.0 cr)
PUBH 6141 - GIS & Spatial Analysis for Public Health (3.0 cr)
PUBH 6154 - Climate Change and Global Health (3.0 cr)
PUBH 6162 - Biomarkers (2.0 cr)
PUBH 6181 - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
PUBH 6190 - Environmental Chemistry (3.0 cr)
PUBH 6193 - Advanced Topics in Human Exposure Science (2.0 cr)

Risk Management

Take one course from the following list:

PUBH 6115 - Worker Protection Law (1.0 cr)
PUBH 6116 - Environmental Law (1.0 cr)
PUBH 6123 - Violence Prevention and Control: Theory, Research, and Application (2.0 cr)

Electives (1 credit)

Choose electives in consultation with the advisor to meet the 42-credit minimum.

PA 5451 - Immigration, Health and Public Policy (3.0 cr)

PUBH 7214 - Principles of Risk Communication (1.0 cr)
PUBH 7222 - Best Practices in Emergency Response (1.0 cr)
PUBH 7236 - Farm to Table Program: Minnesota (2.0 cr)
PUBH 7250 - Designing and Conducting Focus Group Interviews (1.0 cr)
PUBH 7252 - Qualitative Research Methods: Discovering the Value of Voice in Words, Stories and Photographs (1.0 cr)
PUBH 7253 - Introduction to GIS (1.0 cr)
PUBH 7257 - Qualitative Data Analysis (1.0 cr)
PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
PUBH 7475 - Statistical Learning and Data Mining (3.0 cr)
PUBH 7534 - Marketing for Health Care Professionals (1.0 cr)
PUBH 7535 - Managerial Accounting for Health Services (3.0 cr)
PUBH 7541 - Statistics for Health Management Decision Making (3.0 cr)
PUBH 7556 - Health and Health Systems (2.0 cr)
PUBH 7562 - Information Technology in Health Care (2.0 cr)
PUBH 7564 - Private Purchasers of Health Care (2.0 cr)
PUBH 7565 - Innovation of Healthcare Services (2.0 cr)
PUBH 7568 - Interdisciplinary Teamwork in Health Care (2.0 cr)
PUBH 7569 - Health Care Policy (1.0 cr)

-OR-

Injury and Violence Epidemiology and Prevention (24 credits)
Required Coursework (8 credits)
Students taking electives from the Injury and Violence Epidemiology and Prevention emphasis must have taken PUBH 6341 and PUBH 6450.
PUBH 6120 - Injury Prevention in the Workplace, Community, and Home (2.0 cr)
PUBH 6123 - Violence Prevention and Control: Theory, Research, and Application (2.0 cr)
PUBH 6342 - Epidemiologic Methods II (3.0 cr)
PUBH 8120 - Occupational Health and Safety Research Seminar (1.0 cr)

Environmental Health Requirement (4 credits)
Take one course from each of the following lists. A minimum grade of B- is required.

Integrated Exposure & Health Effects
Take one course from the following list. If Topics, must select PUBH 6100 GIS & Spatial Analysis (3 cr).
PUBH 6112 - Environmental Health Risk Assessment: Application to Human Health Risks from Exposure to Chemicals (2.0 cr)
PUBH 6141 - GIS & Spatial Analysis for Public Health (3.0 cr)
PUBH 6154 - Climate Change and Global Health (3.0 cr)
PUBH 6162 - Biomarkers (2.0 cr)
PUBH 6181 - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
PUBH 6190 - Environmental Chemistry (3.0 cr)
PUBH 6193 - Advanced Topics in Human Exposure Science (2.0 cr)

Risk Management
Take one course from the following list:
PUBH 6115 - Worker Protection Law (1.0 cr)
PUBH 6116 - Environmental Law (1.0 cr)

Electives (12 credits)
Choose electives in consultation with the advisor to meet the 42-credit minimum.
HUMF 5001 - Foundations of Human Factors/Ergonomics (3.0 cr)
IE 5513 - Engineering Safety (4.0 cr)
KIN 5122 - Applied Exercise Physiology (3.0 cr)
KIN 5723 - Psychology of Sport Injury and Rehabilitation (3.0 cr)
PSY 5501 - Vocational and Occupational Health Psychology (3.0 cr)
PUBH 6130 - Occupational Medicine: Principles and Practice (2.0 cr)
PUBH 6140 - Occupational and Environmental Epidemiology (2.0 cr)
PUBH 6173 - Exposure to Physical Agents (2.0 cr)
PUBH 6451 - Biostatistics II (4.0 cr)
PUBH 6636 - Qualitative Research Methods in Public Health Practice (2.0 cr)
PUBH 6806 - Principles of Public Health Research (2.0 cr)
PUBH 6810 - Survey Research Methods (3.0 cr)
PUBH 6852 - Program Evaluation in Health and Mental Health Settings (2.0 cr)
PUBH 7401 - Fundamentals of Biostatistical Inference (4.0 cr)
PUBH 7402 - Biostatistics Modeling and Methods (4.0 cr)
PUBH 7405 - Biostatistics: Regression (4.0 cr)
PUBH 7406 - Advanced Regression and Design (4.0 cr)
PUBH 7407 - Analysis of Categorical Data (3.0 cr)
PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)
PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
PUBH 7450 - Survival Analysis (3.0 cr)
PUBH 7460 - Advanced Statistical Computing (3.0 cr)
PUBH 8341 - Advanced Epidemiologic Methods: Concepts (3.0 cr)
PUBH 8342 - Advanced Epidemiologic Methods: Applications (3.0 cr)
PUBH 8343 - Synthesis and Application of Methods in Epidemiologic Research (4.0 cr)
PUBH 8813 - Measurement of Health-Related Social Factors (3.0 cr)

Food Safety (24 credits)
Required Coursework (15 credits)
Take the following courses. PUBH 7210 must be taken twice for a total of 1 credit.
PUBH 6181 - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
PUBH 6182 - Emerging Infectious Disease: Current Issues, Policies, and Controversies (3.0 cr)
PUBH 6183 - Theory and Practice in Foodborne Disease Outbreak Detection, Investigation and Control (1.0 cr)
PUBH 6385 - Epidemiology and Control of Infectious Diseases (2.0 cr)
PUBH 7210 - Topics: Global Food Systems (0.5 cr)
VMED 5180 - Ecology of Infectious Disease (3.0 cr)
FSCN 5131 - Food Quality for Graduate Credit (3.0 cr)

Environmental Health Requirement (4 credits)
Take one course from each of the following lists. A minimum grade of B- is required.

Integrated Exposure & Health Effects
Take one course from the following list. If Topics, must select PUBH 6100 GIS & Spatial Analysis (3 cr).
PUBH 6112 - Environmental Health Risk Assessment: Application to Human Health Risks from Exposure to Chemicals (2.0 cr)
PUBH 6141 - GIS & Spatial Analysis for Public Health (3.0 cr)
PUBH 6154 - Climate Change and Global Health (3.0 cr)
PUBH 6162 - Biomarkers (2.0 cr)
PUBH 6190 - Environmental Chemistry (3.0 cr)
PUBH 6193 - Advanced Topics in Human Exposure Science (2.0 cr)

**Risk Management**
Take one course from the following list:
PUBH 6115 - Worker Protection Law (1.0 cr)
PUBH 6116 - Environmental Law (1.0 cr)
PUBH 6120 - Injury Prevention in the Workplace, Community, and Home (2.0 cr)
PUBH 6123 - Violence Prevention and Control: Theory, Research, and Application (2.0 cr)

**Electives (5 credits)**
Choose electives in consultation with the advisor to meet the 42-credit minimum.
PUBH 6711 - Public Health Law (2.0 cr)
PUBH 7214 - Principles of Risk Communication (1.0 cr)
VMED 5181 - Spatial Analysis in Infectious Disease Epidemiology (3.0 cr)
MICB 4131 - Immunology (3.0 cr)
MICB 4151 - Molecular and Genetic Bases for Microbial Diseases (3.0 cr)
MICB 4171 - Biology, Genetics, and Pathogenesis of Viruses (3.0 cr)

**Joint- or Dual-degree Coursework:** MPH-Environmental Health/JD
Student may take a total of 12 credits in common among the academic programs.

**Program Sub-plans**
A sub-plan is not required for this program.
Students may not complete the program with more than one sub-plan.

**Industrial Hygiene**
The Industrial Hygiene (IH) sub-plan, accredited by the Applied Science Accreditation Commission of ABET, focuses on the health and safety of people at work and the community at large. Specific concerns are with the recognition, evaluation and control of potential workplace hazards, including chemical, physical, and biological agents; and the potential health threats to the community and the environment. This sub-plan prepares well-qualified practitioners and researchers for an exciting career in industry, government organizations, and academic and research institutions.

Students pursuing the Industrial Hygiene track must complete the following in addition to the Public Health Core, Environmental Health, Applied Practice Experience, and Integrated Learning Experience coursework required of all Environmental Health MPH students.

**Industrial Hygiene Requirements (21 credits)**
Take the following courses:
PUBH 6172 - Industrial Hygiene Applications (2.0 cr)
PUBH 6174 - Control of Workplace Exposure (3.0 cr)
PUBH 6173 - Exposure to Physical Agents (2.0 cr)
PUBH 6175 - Environmental Measurements Laboratory (2.0 cr)
PUBH 6192 - Measurement and Properties of Air Contaminants (2.0 cr)
PUBH 6193 - Advanced Topics in Human Exposure Science (2.0 cr)
PUBH 6130 - Occupational Medicine: Principles and Practice (2.0 cr)
PUBH 6150 - Interdisciplinary Evaluation of Occupational Health and Safety Field Problems (3.0 cr)
PUBH 6170 - Introduction to Occupational Health and Safety (3.0 cr)

**Environmental Health Requirement (4 credits)**
Take one course from each of the following lists. A minimum grade of B- is required.

**Integrated Exposure & Health Effects**
Take one course from the following list:
PUBH 6112 - Environmental Health Risk Assessment: Application to Human Health Risks from Exposure to Chemicals (2.0 cr)
PUBH 6141 - GIS & Spatial Analysis for Public Health (3.0 cr)
PUBH 6154 - Climate Change and Global Health (3.0 cr)
PUBH 6162 - Biomarkers (2.0 cr)
PUBH 6181 - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
PUBH 6190 - Environmental Chemistry (3.0 cr)
PUBH 6193 - Advanced Topics in Human Exposure Science (2.0 cr)

**Risk Management**
Take one course from the following list:
PUBH 6115 - Worker Protection Law (1.0 cr)
PUBH 6116 - Environmental Law (1.0 cr)
PUBH 6120 - Injury Prevention in the Workplace, Community, and Home (2.0 cr)
PUBH 6123 - Violence Prevention and Control: Theory, Research, and Application (2.0 cr)
Electives (5 credits)
Select electives in consultation with the advisor to complete the 52-credit minimum.

- PUBH 6131 - Working in Global Health (2.0 cr)
- PUBH 6132 - Air, Water, and Health (2.0 cr)
- PUBH 6140 - Occupational and Environmental Epidemiology (2.0 cr)
- PUBH 6161 - Regulatory Toxicology (2.0 cr)
- PUBH 6177 - Nanotechnology Health and Safety (3.0 cr)
- PUBH 6182 - Emerging Infectious Disease: Current Issues, Policies, and Controversies (3.0 cr)
- PUBH 6451 - Biostatistics II (4.0 cr)
- CEGE 4561 - Solids and Hazardous Wastes (3.0 cr)
- CEGE 5551 - Environmental Microbiology (3.0 cr)
- IE 5511 - Human Factors and Work Analysis (4.0 cr)
- IE 5513 - Engineering Safety (4.0 cr)
- KIN 5001 - Foundations of Human Factors/Ergonomics (3.0 cr)
- ME 5113 - Aerosol/Particle Engineering (4.0 cr)
- PA 5721 - Energy Systems and Policy (3.0 cr)

Integrated BS-Biochemistry/MPH-Environmental Health
This sub-plan is limited to students completing the program under Plan C.

The School of Public Health (SPH) and the College of Biological Sciences (CBS) offer an early-admission opportunity for eligible Biochemistry BS students interested in pursuing the Environmental Health MPH degree. Students admitted to the Integrated BS-Biochemistry/MPH-Environmental Health sub-plan take 12 MPH credits during their senior (fourth) year, and complete the MPH by taking remaining credits as a full-time graduate student their fifth year and following summer. Graduate courses cannot be applied toward both BS and MPH credit and degree requirements. Admitted students must maintain timely degree progress to ensure that the BS degree is awarded no later than the end of the senior (fourth) year. The application deadline for the Integrated BS-Biochemistry/MPH-Environmental Health opportunity is the spring of the applicant's junior (third) year. Confer with the CBS advising office and the School of Public Health for application instructions.

Integrated BS-Biology/MPH-Environmental Health
This sub-plan is limited to students completing the program under Plan C.

The School of Public Health (SPH) and the College of Biological Sciences (CBS) offer an early-admission opportunity for eligible Biology BS students interested in pursuing the Environmental Health MPH degree. Students admitted to the Integrated BS-Biology/MPH Environmental Health sub-plan take 12 MPH credits during their senior (fourth) year, and complete the MPH by taking remaining credits as a full-time graduate student their fifth year and following summer. Graduate courses cannot be applied toward both BS and MPH credit and degree requirements. Admitted students must maintain timely degree progress to ensure that the BS degree is awarded no later than the end of the senior (fourth) year. The application deadline for the Integrated BS-Biology/MPH-Environmental Health opportunity is the spring of the applicant's junior (third) year. Confer with the CBS advising office and the School of Public Health for application instructions.

Integrated BS-Cellular and Organismal Physiology/MPH-Environmental Health
This sub-plan is limited to students completing the program under Plan C.

The School of Public Health (SPH) and the College of Biological Sciences (CBS) offer an early-admission opportunity for eligible Cellular and Organismal Physiology BS students interested in pursuing the Environmental Health MPH degree. Students admitted to the Integrated BS-Cellular and Organismal Physiology/MPH-Environmental Health sub-plan take 12 MPH credits during their senior (fourth) year, and complete the MPH by taking remaining credits as a full-time graduate student their fifth year and following summer. Graduate courses cannot be applied toward both BS and MPH credit and degree requirements. Admitted students must maintain timely degree progress to ensure that the BS degree is awarded no later than the end of the senior (fourth) year. The application deadline for the Integrated BS-Cellular and Organismal Physiology/MPH-Environmental Health opportunity is the spring of the applicant's junior (third) year. Confer with the CBS advising office and the School of Public Health for application instructions.

Integrated BS-Ecology, Evolution and Behavior/MPH-Environmental Health
This sub-plan is limited to students completing the program under Plan C.

The School of Public Health (SPH) and the College of Biological Sciences (CBS) offer an early-admission opportunity for eligible
The School of Public Health (SPH) and the College of Biological Sciences (CBS) offer an early-admission opportunity for eligible Genetics, Cell Biology and Development BS students interested in pursuing the Environmental Health MPH degree. Students admitted to the Integrated BS-Genetics, Cell Biology and Development MPH-Environmental Health sub-plan take 12 MPH credits during their senior (fourth) year, and complete the MPH by taking remaining credits as a full-time graduate student their fifth year and following summer. Graduate courses cannot be applied toward both BS and MPH credit and degree requirements. Admitted students must maintain timely degree progress to ensure that the BS degree is awarded no later than the end of the senior (fourth) year. The application deadline for the Integrated BS- Genetics, Cell Biology and Development/MPH-Environmental Health opportunity is the spring of the applicant's junior (third) year. Confer with the CBS advising office and the School of Public Health for application instructions.

Integrated BS-Genetics, Cell Biology and Development/MPH-Environmental Health
This sub-plan is limited to students completing the program under Plan C.

The School of Public Health (SPH) and the College of Biological Sciences (CBS) offer an early-admission opportunity for eligible Microbiology BS students interested in pursuing the Environmental Health MPH degree. Students admitted to the Integrated BS-Microbiology/MPH-Environmental Health sub-plan take 12 MPH credits during their senior (fourth) year, and complete the MPH by taking remaining credits as a full-time graduate student their fifth year and following summer. Graduate courses cannot be applied toward both BS and MPH credit and degree requirements. Admitted students must maintain timely degree progress to ensure that the BS degree is awarded no later than the end of the senior (fourth) year. The application deadline for the Integrated BS-Microbiology/MPH-Environmental Health opportunity is the spring of the applicant's junior (third) year. Confer with the CBS advising office and the School of Public Health for application instructions.

Integrated BS-Microbiology/MPH-Environmental Health
This sub-plan is limited to students completing the program under Plan C.

The School of Public Health (SPH) and the College of Biological Sciences (CBS) offer an early-admission opportunity for eligible Neuroscience BS students interested in pursuing the Environmental Health MPH degree. Students admitted to the Integrated BS-Neuroscience/MPH-Environmental Health sub-plan take 12 MPH credits during their senior (fourth) year, and complete the MPH by taking remaining credits as a full-time graduate student their fifth year and following summer. Graduate courses cannot be applied toward both BS and MPH credit and degree requirements. Admitted students must maintain timely degree progress to ensure that the BS degree is awarded no later than the end of the senior (fourth) year. The application deadline for the Integrated BS-Neuroscience/MPH-Environmental Health opportunity is the spring of the applicant's junior (third) year. Confer with the CBS advising office and the School of Public Health for application instructions.

Integrated BS-Neuroscience/MPH-Environmental Health
This sub-plan is limited to students completing the program under Plan C.

The School of Public Health (SPH) and the College of Biological Sciences (CBS) offer an early-admission opportunity for eligible Plant and Microbial Biology BS students interested in pursuing the Environmental Health MPH degree. Students admitted to the Integrated BS- Plant and Microbial Biology/MPH-Environmental Health sub-plan take 12 MPH credits during their senior (fourth) year, and complete the MPH by taking remaining credits as a full-time graduate student their fifth year and following summer. Graduate courses cannot be applied toward both BS and MPH credit and degree requirements. Admitted students must maintain timely degree progress to ensure that the BS degree is awarded no later than the end of the senior (fourth) year. The application deadline for the Integrated BS- Plant and Microbial Biology/MPH-Environmental Health opportunity is the spring of the applicant’s junior (third) year. Confer with the CBS advising office and the School of Public Health for application instructions.

Integrated BS-Plant and Microbial Biology/MPH-Environmental Health
This sub-plan is limited to students completing the program under Plan C.

School of Public Health, MMC 819, A395 Mayo Memorial Building, 420 Delaware Street, Minneapolis, MN 55455 (612-626-3500 OR 1-800-774-8636)
Email: sph-ask@umn.edu
Website: http://www.sph.umn.edu

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 30 to 52
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Environmental health is the study of how exposures to external hazards, including chemical, physical, and biological agents, affect human health. Environmental health researchers and professionals seek to understand how to evaluate exposures that create risk to human health, how those exposures elicit biological responses that lead to disease and injury, and how policy is developed and used to prevent adverse health effects. Environmental Health at the University of Minnesota offers master's and doctoral degrees, conducts research in diverse areas of environmental health, offers continuing education, and conducts outreach. Students are prepared to be leaders in environmental health in academia, industry, consulting groups, and government agencies. The program's training and research emphasizes the importance of translating basic scientific knowledge into solutions for current societal problems and concerns.

The MS program offers students a wide range of coursework and research opportunities in areas such as environmental infectious diseases; environmental and occupational epidemiology; environmental chemistry; exposure science; food safety; injury and violence epidemiology and prevention; global environmental health; and regulatory toxicology and risk assessment to prepare them for careers in their chosen area of environmental health. A generalist emphasis area and a specialized track in industrial hygiene are also available. The industrial hygiene track is accredited by ABET.

Program Delivery
This program is available:
\* via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Minimum requirements include a baccalaureate degree with coursework in the basic sciences.

Other requirements to be completed before admission:
Prerequisites for the regulatory toxicology and risk management emphasis include a bachelor's degree in the basic sciences, including completion of courses in organic chemistry, biochemistry, cell biology and physiology. Students who have not completed at least two prerequisites must do so upon admission to the MS program and in consultation with the advisor. Prerequisite coursework cannot be applied to MS credit requirements.

The Industrial Hygiene track requires additional preparation. For more information refer to http://www.sph.umn.edu/programs/ehs/tracks/index.asp.

Applicants must submit their test score(s) from the following:
- GRE
  - General Test - Verbal Reasoning: 150
  - General Test - Quantitative Reasoning: 150
  - General Test - Analytical Writing: 3.5
International applicants must submit score(s) from one of the following tests:

- **TOEFL**
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- **IELTS**
  - Total Score: 7
- **MELAB**
  - Final score: 80

Key to test abbreviations (GRE, GMAT, MCAT, LSAT, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

**Program Requirements**

**Plan A:** Plan A requires 24 to 28 major credits, 0 credits outside the major, and 10 thesis credits. The final exam is written and oral.

**Plan B:** Plan B requires 30 to 52 major credits and 0 credits outside the major. The final exam is written and oral. A capstone project is required.

**Capstone Project:** The Plan B project is a master's capstone project selected in consultation with the advisor.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 4 semesters must be completed before filing a Degree Program Form.

**Public Health Core Requirements (11 credits)**

All Public Health Core coursework must be taken on the A-F grade basis, with a minimum grade of B- earned for each course.

**Epidemiology (3 credits)**

Select one of the following courses in consultation with the advisor. Students pursuing either the Environmental and Occupational Epidemiology emphasis or the Injury and Violence Epidemiology and Prevention emphasis must take PUBH 6341. Students pursuing the Industrial Hygiene track must take PUBH 6320.

- PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)
- PUBH 6341 - Epidemiologic Methods I (3.0 cr)

**Environmental Health (2 credits)**

Take the following course:
- PUBH 6102 - Issues in Environmental Health (2.0 cr)

**Foundations of Public Health (2 credits)**

Take the following course:
- PUBH 6250 - Foundations of Public Health (2.0 cr)

**Biostatistics (3-4 credits)**

Select one of the following courses in consultation with the advisor. Students pursuing either the Environmental and Occupational Epidemiology emphasis, the Injury and Violence Epidemiology and Prevention emphasis, or the Industrial Hygiene track must take PUBH 6450. Only students pursuing the Environmental Chemistry emphasis can take STAT 5021 and are encouraged to take STAT 5021.

- PUBH 6414 - Biostatistical Literacy (3.0 cr)
- PUBH 6450 - Biostatistics I (4.0 cr)
- STAT 5021 - Statistical Analysis (4.0 cr)

**Ethics (1 credit)**

Take the following course:
- PUBH 6742 - Ethics in Public Health: Research and Policy (1.0 cr)
Plan Options

Plan A Thesis (10 credits)
Plan A students must take at least 10 master's thesis credits.
PUBH 6777 - Thesis Credits: Master's (1.0 - 18.0 cr)

or Plan B Project (3 credits)
Plan B students must take at least 3 Plan B Project credits in consultation with the advisor.
PUBH 7195 - MS in Environmental Health Sciences Plan B Project (1.0 - 5.0 cr)

Concentration Areas

Generalist (15-16 credits)
The Generalist emphasis is restricted to Plan B only.

Environmental Health Requirement (4 credits)
Select at least one course from each of the following two course lists, in consultation with the advisor, to meet the 4-credit Environment Health requirement. A minimum grade of B- is required.

Integrated Exposure & Health Effects
Take one course from the following list. If Topics, must select PUBH 6100 GIS & Spatial Analysis (3 cr).
PUBH 6112 - Environmental Health Risk Assessment: Application to Human Health Risks from Exposure to Chemicals (2.0 cr)
PUBH 6141 - GIS & Spatial Analysis for Public Health (3.0 cr)
PUBH 6154 - Climate Change and Global Health (3.0 cr)
PUBH 6162 - Biomarkers (2.0 cr)
PUBH 6181 - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
PUBH 6190 - Environmental Chemistry (3.0 cr)
PUBH 6193 - Advanced Topics in Human Exposure Science (2.0 cr)

Risk Management
Take one course from the following list:
PUBH 6115 - Worker Protection Law (1.0 cr)
PUBH 6116 - Environmental Law (1.0 cr)
PUBH 6120 - Injury Prevention in the Workplace, Community, and Home (2.0 cr)
PUBH 6123 - Violence Prevention and Control: Theory, Research, and Application (2.0 cr)

Elective Coursework
Select electives, in consultation with the advisor, from the following list to satisfy the 30-credit minimum. Other courses may be substituted with approval of the advisor and director of graduate studies.

PA 5451 - Immigration, Health and Public Policy (3.0 cr)
PUBH 5231 - Emergency Preparedness: A Public Health Perspective (2.0 cr)
PUBH 6010 - Public Health Approaches to HIV/AIDS (3.0 cr)
PUBH 6034 - Evaluation (3.0 cr)
PUBH 6035 - Applied Research Methods (3.0 cr)
PUBH 6045 - Skills for Policy Development (1.0 cr)
PUBH 6049 - Legislative Advocacy Skills for Public Health (3.0 cr)
PUBH 6055 - Social Inequalities in Health (2.0 cr)
PUBH 6060 - Motivational Interviewing: Strategies to Effect Behavior Change (1.0 cr)
PUBH 6066 - Building Communities, Increasing Health: Preparing for Community Health Work (2.0 cr)
PUBH 6078 - Public Health Policy as a Prevention Strategy (2.0 cr)
PUBH 6085 - (Inactive) (2.0 cr)
PUBH 6094 - Obesity and Eating Disorder Interventions (2.0 cr)
PUBH 6134 - Sustainable Development and Global Public Health (2.0 cr)
PUBH 6210 - Public Health Medicine Seminar (1.0 cr)
PUBH 6325 - Data Processing with PC-SAS (1.0 cr)
PUBH 6341 - Epidemiologic Methods I (3.0 cr)
PUBH 6342 - Epidemiologic Methods II (3.0 cr)
PUBH 6348 - Writing Research Grants (2.0 cr)
PUBH 6385 - Epidemiology and Control of Infectious Diseases (2.0 cr)
PUBH 6386 - Cardiovascular Disease Epidemiology and Prevention (2.0 cr)
PUBH 6387 - Cancer Epidemiology (2.0 cr)
PUBH 6420 - Introduction to SAS Programming (1.0 cr)
PUBH 6431 - Topics in Hierarchical Bayesian Analysis (1.0 cr)
PUBH 6451 - Biostatistics II (4.0 cr)
PUBH 6527 - Healthcare Leadership and Effecting Change (2.0 cr)
PUBH 6556 - Health and Health Systems (3.0 cr)
PUBH 6557 - Health Finance I (3.0 cr)
PUBH 6558 - Health Finance II (3.0 cr)
PUBH 6560 - Operations Research and Quality in Health Care (3.0 cr)
PUBH 6562 - Information Technology in Health Care (2.0 cr)
PUBH 6563 - Integrated Delivery Systems (2.0 cr)
Environmental and Occupational Epidemiology (15 credits)

The Environmental and Occupational Epidemiology emphasis is restricted to Plan B only.

Required Coursework (9 credits)

- PUBH 6140 - Occupational and Environmental Epidemiology (2.0 cr)
- PUBH 6342 - Epidemiologic Methods II (3.0 cr)
- PUBH 6451 - Biostatistics II (4.0 cr)

Environmental Health Requirement (4 credits)

Select at least one course from each of the following two course lists, in consultation with the advisor, to meet the 4-credit Environmental Health requirement. A minimum grade of B- is required.

Integrated Exposure & Health Effects

Take one course from the following list:
- PUBH 6112 - Environmental Health Risk Assessment: Application to Human Health Risks from Exposure to Chemicals (2.0 cr)
- PUBH 6141 - GIS & Spatial Analysis for Public Health (3.0 cr)
- PUBH 6154 - Climate Change and Global Health (3.0 cr)
- PUBH 6162 - Biomarkers (2.0 cr)
- PUBH 6181 - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
- PUBH 6190 - Environmental Chemistry (3.0 cr)
- PUBH 6193 - Advanced Topics in Human Exposure Science (2.0 cr)

Risk Management

Take one course from the following list:
- PUBH 6115 - Worker Protection Law (1.0 cr)
- PUBH 6116 - Environmental Law (1.0 cr)
- PUBH 6120 - Injury Prevention in the Workplace, Community, and Home (2.0 cr)
- PUBH 6123 - Violence Prevention and Control: Theory, Research, and Application (2.0 cr)

Electives (2 credits)

Select coursework, in consultation with the advisor, from the following list to satisfy the 30-credit minimum. Other courses may be substituted with approval of the advisor and director of graduate studies.

- PA 5451 - Immigration, Health and Public Policy (3.0 cr)
- PUBH 5231 - Emergency Preparedness: A Public Health Perspective (2.0 cr)
- PUBH 6010 - Public Health Approaches to HIV/AIDS (3.0 cr)
- PUBH 6034 - Evaluation (3.0 cr)
- PUBH 6035 - Applied Research Methods (3.0 cr)
- PUBH 6045 - Skills for Policy Development (1.0 cr)
- PUBH 6049 - Legislative Advocacy Skills for Public Health (3.0 cr)
- PUBH 6055 - Social Inequalities in Health (2.0 cr)
- PUBH 6060 - Motivational Interviewing: Strategies to Effect Behavior Change (1.0 cr)
- PUBH 6066 - Building Communities, Increasing Health: Preparing for Community Health Work (2.0 cr)
- PUBH 6078 - Public Health Policy as a Prevention Strategy (2.0 cr)
- PUBH 6085 - [Inactive] (2.0 cr)
- PUBH 6094 - Obesity and Eating Disorder Interventions (2.0 cr)
- PUBH 6134 - Sustainable Development and Global Public Health (2.0 cr)
- PUBH 6210 - Public Health Medicine Seminar (1.0 cr)
- PUBH 6325 - Data Processing with PC-SAS (1.0 cr)

PUBH 6630 - Foundations of Maternal and Child Health Leadership (3.0 cr)
PUBH 6730 - International Comparative Health Systems (2.0 cr)
PUBH 6732 - Topics and Methods in Global Health Assessment (2.0 cr)
PUBH 6852 - Program Evaluation in Health and Mental Health Settings (2.0 cr)
PUBH 6906 - Global Nutrition (2.0 cr)

-OR-

Environmental Infectious Diseases (15-16 credits)
The Environmental Infectious Diseases emphasis is restricted to Plan B only.

Required Coursework (10 credits)
Take the following courses:
PUBH 6182 - Emerging Infectious Disease: Current Issues, Policies, and Controversies (3.0 cr)
PUBH 6184 - Field and laboratory methods in public health entomology (2.0 cr)
PUBH 6385 - Epidemiology and Control of Infectious Diseases (2.0 cr)
VMED 5180 - Ecology of Infectious Disease (3.0 cr)

Environmental Health Requirement (4 credits)
Select at least one course from each of the following two course lists, in consultation with the advisor, to meet the 4-credit Environment Health requirement. A minimum grade of B- is required.

Integrated Exposure & Health Effects
Take one course from the following list:
PUBH 6112 - Environmental Health Risk Assessment: Application to Human Health Risks from Exposure to Chemicals (2.0 cr)
PUBH 6141 - GIS & Spatial Analysis for Public Health (3.0 cr)
PUBH 6154 - Climate Change and Global Health (3.0 cr)
PUBH 6162 - Biomarkers (2.0 cr)
PUBH 6181 - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
PUBH 6190 - Environmental Chemistry (3.0 cr)
PUBH 6193 - Advanced Topics in Human Exposure Science (2.0 cr)

Risk Management
Take one course from the following list:
PUBH 6115 - Worker Protection Law (1.0 cr)
PUBH 6116 - Environmental Law (1.0 cr)
PUBH 6120 - Injury Prevention in the Workplace, Community, and Home (2.0 cr)
PUBH 6123 - Violence Prevention and Control: Theory, Research, and Application (2.0 cr)

Electives (1-2 credits)
Select coursework, in consultation with the advisor, from the following list to satisfy the 30-credit minimum. Other courses may be substituted with approval of the advisor and director of graduate studies.
PA 5451 - Immigration, Health and Public Policy (3.0 cr)
PUBH 5231 - Emergency Preparedness: A Public Health Perspective (2.0 cr)
PUBH 6010 - Public Health Approaches to HIV/AIDS (3.0 cr)
PUBH 6034 - Evaluation (3.0 cr)
PUBH 6035 - Applied Research Methods (3.0 cr)
PUBH 6045 - Skills for Policy Development (1.0 cr)
PUBH 6049 - Legislative Advocacy Skills for Public Health (3.0 cr)
PUBH 6055 - Social Inequalities in Health (2.0 cr)
PUBH 6060 - Motivational Interviewing: Strategies to Effect Behavior Change (1.0 cr)
PUBH 6066 - Building Communities, Increasing Health: Preparing for Community Health Work (2.0 cr)
PUBH 6078 - Public Health Policy as a Prevention Strategy (2.0 cr)

**Regulatory Toxicology and Risk Assessment (18 credits)**

The Regulatory Toxicology and Risk Assessment emphasis is restricted to Plan B only.

**Required Coursework (14 credits)**
Take the following courses to meet the 32 credits required for this emphasis.

**Environmental Health Risk Assessment (2.0 cr)**
PUBH 6112 - Environmental Health Risk Assessment: Application to Human Health Risks from Exposure to Chemicals

**Principles of Toxicology I (2.0 cr)**
PUBH 6160 - Principles of Toxicology I (3.0 cr)

**Regulatory Toxicology (2.0 cr)**
PUBH 6161 - Regulatory Toxicology

**Biomarkers (2.0 cr)**
PUBH 6162 - Biomarkers

**Advanced Toxicology (2.0 cr)**
PUBH 8160 - Advanced Toxicology

**Current Literature in Toxicology (1.0 cr)**
PUBH 8161 - Current Literature in Toxicology

**Environmental Health Requirement (4 credits)**
Select at least one course from each of the following two course lists, in consultation with the advisor, to meet the 4-credit Environment Health requirement. A minimum grade of B- is required.

### Integrated Exposure & Health Effects
Take one course from the following list.

- PUBH 6141 - GIS & Spatial Analysis for Public Health (3.0 cr)
- PUBH 6154 - Climate Change and Global Health (3.0 cr)
- PUBH 6181 - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
- PUBH 6190 - Environmental Chemistry (3.0 cr)
- PUBH 6193 - Advanced Topics in Human Exposure Science (2.0 cr)

### Risk Management
Take one course from the following list:

- PUBH 6115 - Worker Protection Law (1.0 cr)
- PUBH 6116 - Environmental Law (1.0 cr)
- PUBH 6120 - Injury Prevention in the Workplace, Community, and Home (2.0 cr)
- PUBH 6123 - Violence Prevention and Control: Theory, Research, and Application (2.0 cr)

### Food Safety (19 credits)
Take the following courses to meet the 33 credits required for this emphasis. Take PUBH 7210 twice for a total of one credit.

#### Required Coursework (15 credits)
Students complete the following required courses. Students take PUBH 7210 two times.

- FSCN 5131 - Food Quality for Graduate Credit (3.0 cr)
- PUBH 6181 - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
- PUBH 6182 - Emerging Infectious Disease: Current Issues, Policies, and Controversies (3.0 cr)
- PUBH 6183 - Theory and Practice in Foodborne Disease Outbreak Detection, Investigation and Control (1.0 cr)
- PUBH 6385 - Epidemiology and Control of Infectious Diseases (2.0 cr)
- PUBH 7210 - Topics: Global Food Systems (0.5 cr)
- VMED 5180 - Ecology of Infectious Disease (3.0 cr)

#### Environmental Health Requirement (4 credits)
Select at least one course from each of the following two course lists, in consultation with the advisor, to meet the 4-credit Environment Health requirement. A minimum grade of B- is required.

### Integrated Exposure & Health Effects
Take one course from the following list.

- PUBH 6112 - Environmental Health Risk Assessment: Application to Human Health Risks from Exposure to Chemicals (2.0 cr)
- PUBH 6141 - GIS & Spatial Analysis for Public Health (3.0 cr)
- PUBH 6154 - Climate Change and Global Health (3.0 cr)
- PUBH 6162 - Biomarkers (2.0 cr)
- PUBH 6190 - Environmental Chemistry (3.0 cr)
- PUBH 6193 - Advanced Topics in Human Exposure Science (2.0 cr)

### Risk Management
Take one course from the following list:

- PUBH 6115 - Worker Protection Law (1.0 cr)
- PUBH 6116 - Environmental Law (1.0 cr)
- PUBH 6120 - Injury Prevention in the Workplace, Community, and Home (2.0 cr)
- PUBH 6123 - Violence Prevention and Control: Theory, Research, and Application (2.0 cr)

### Environmental Chemistry (13-16 credits)
The Environmental Chemistry emphasis can be completed as Plan A or Plan B.

#### Required Coursework (9 credits)
All students pursuing this emphasis take the following courses:

- CEGE 5541 - Environmental Water Chemistry (3.0 cr)
- EEB 5601 - Limnology (3.0 cr)
- PUBH 6190 - Environmental Chemistry (3.0 cr)

#### Environmental Health Requirement (4 credits)
Select at least one course from each of the following two course lists, in consultation with the advisor, to meet the 4-credit Environment Health requirement. A minimum grade of B- is required.

### Integrated Exposure & Health Effects
Take one course from the following list.

- PUBH 6112 - Environmental Health Risk Assessment: Application to Human Health Risks from Exposure to Chemicals (2.0 cr)
- PUBH 6141 - GIS & Spatial Analysis for Public Health (3.0 cr)
- PUBH 6154 - Climate Change and Global Health (3.0 cr)
- PUBH 6162 - Biomarkers (2.0 cr)
- PUBH 6190 - Environmental Chemistry (3.0 cr)
- PUBH 6193 - Advanced Topics in Human Exposure Science (2.0 cr)
Environment Health requirement. A minimum grade of B- is required.

**Integrated Exposure & Health Effects**
Take one course from the following list:
- PUBH 6112 - Environmental Health Risk Assessment: Application to Human Health Risks from Exposure to Chemicals (2.0 cr)
- PUBH 6141 - GIS & Spatial Analysis for Public Health (3.0 cr)
- PUBH 6154 - Climate Change and Global Health (3.0 cr)
- PUBH 6162 - Biomarkers (2.0 cr)
- PUBH 6181 - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
- PUBH 6193 - Advanced Topics in Human Exposure Science (2.0 cr)

**Risk Management**
Take one course from the following list:
- PUBH 6115 - Worker Protection Law (1.0 cr)
- PUBH 6116 - Environmental Law (1.0 cr)
- PUBH 6120 - Injury Prevention in the Workplace, Community, and Home (2.0 cr)
- PUBH 6123 - Violence Prevention and Control: Theory, Research, and Application (2.0 cr)

**Electives (0-3 credits)**
Students pursuing the Plan B must take electives in addition to the required emphasis coursework to meet the 30-credit minimum. Select courses in consultation with the advisor. Other courses may be substituted with approval of the advisor and director of graduate studies.
- CEGE 4561 - Solids and Hazardous Wastes (3.0 cr)
- CEGE 8503 - Environmental Mass Transport (4.0 cr)
- CEGE 8542 - Chemistry of Organic Pollutants in Environmental Systems (3.0 cr)
- CEGE 8561 - Analysis and Modeling of Aquatic Environments I (3.0 cr)

-OR-

**Injury and Violence Epidemiology and Prevention (16 credits)**
The Injury and Violence Epidemiology and Prevention emphasis can be completed as Plan A or Plan B.

**Required Coursework (12 credits)**
All students pursuing this emphasis take the following courses:
- PUBH 6120 - Injury Prevention in the Workplace, Community, and Home (2.0 cr)
- PUBH 6123 - Violence Prevention and Control: Theory, Research, and Application (2.0 cr)
- PUBH 6342 - Epidemiologic Methods II (3.0 cr)
- PUBH 6451 - Biostatistics II (4.0 cr)
- PUBH 8120 - Occupational Health and Safety Research Seminar (1.0 cr)

**Environmental Health Requirement (4 credits)**
Select at least one course from each of the following two course lists, in consultation with the advisor, to meet the 4-credit Environment Health requirement. A minimum grade of B- is required.

**Integrated Exposure & Health Effects**
Take one course from the following list:
- PUBH 6112 - Environmental Health Risk Assessment: Application to Human Health Risks from Exposure to Chemicals (2.0 cr)
- PUBH 6141 - GIS & Spatial Analysis for Public Health (3.0 cr)
- PUBH 6154 - Climate Change and Global Health (3.0 cr)
- PUBH 6162 - Biomarkers (2.0 cr)
- PUBH 6181 - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
- PUBH 6193 - Advanced Topics in Human Exposure Science (2.0 cr)

**Risk Management**
Take one course from the following list:
- PUBH 6115 - Worker Protection Law (1.0 cr)
- PUBH 6116 - Environmental Law (1.0 cr)

**Program Sub-plans**
A sub-plan is not required for this program.
Students may not complete the program with more than one sub-plan.

**Industrial Hygiene**
The Environmental Health MS with the Industrial Hygiene (IH) track is a 52-credit program that focuses on the recognition, evaluation and control of potential workplace hazards -- including chemical, physical, and biological agents -- and the potential health threats to the community and the environment.
The Industrial Hygiene track is restricted to Plan B only.

**Industrial Hygiene Required Courses (21 credits)**
Take the following courses:
PUBH 6130 - Occupational Medicine: Principles and Practice (2.0 cr)
PUBH 6150 - Interdisciplinary Evaluation of Occupational Health and Safety Field Problems (3.0 cr)
PUBH 6170 - Introduction to Occupational Health and Safety (3.0 cr)
PUBH 6172 - Industrial Hygiene Applications (2.0 cr)
PUBH 6173 - Exposure to Physical Agents (2.0 cr)
PUBH 6174 - Control of Workplace Exposure (3.0 cr)
PUBH 6175 - Environmental Measurements Laboratory (2.0 cr)
PUBH 6192 - Measurement and Properties of Air Contaminants (2.0 cr)
PUBH 6193 - Advanced Topics in Human Exposure Science (2.0 cr)

Applied Practice Experience (3 credits)
Take the following course in consultation with the advisor.
PUBH 7196 - Applied Practice Experience: Environmental Health (1.0 - 5.0 cr)

Electives (9 credits)
Select electives from the following list, in consultation with the advisor, to complete the 52-credit minimum. Other courses may be substituted with approval of the advisor and director of graduate studies.
PUBH 6020 - Fundamentals of Social and Behavioral Science (2.0 cr)
PUBH 6112 - Environmental Health Risk Assessment: Application to Human Health Risks from Exposure to Chemicals (2.0 cr)
PUBH 6115 - Worker Protection Law (1.0 cr)
PUBH 6116 - Environmental Law (1.0 cr)
PUBH 6120 - Injury Prevention in the Workplace, Community, and Home (2.0 cr)
PUBH 6131 - Working in Global Health (2.0 cr)
PUBH 6132 - Air, Water, and Health (2.0 cr)
PUBH 6140 - Occupational and Environmental Epidemiology (2.0 cr)
PUBH 6161 - Regulatory Toxicology (2.0 cr)
PUBH 6162 - Biomarkers (2.0 cr)
PUBH 6177 - Nanotechnology Health and Safety (3.0 cr)
PUBH 6182 - Emerging Infectious Disease: Current Issues, Policies, and Controversies (3.0 cr)
PUBH 6190 - Environmental Chemistry (3.0 cr)
PUBH 6451 - Biostatistics II (4.0 cr)
PUBH 6751 - Principles of Management in Health Services Organizations (2.0 cr)
CEGE 4561 - Solids and Hazardous Wastes (3.0 cr)
CEGE 5551 - Environmental Microbiology (3.0 cr)
IE 5511 - Human Factors and Work Analysis (4.0 cr)
IE 5513 - Engineering Safety (4.0 cr)
KIN 5001 - Foundations of Human Factors/Ergonomics (3.0 cr)
ME 5113 - Aerosol/Particle Engineering (4.0 cr)
PA 5721 - Energy Systems and Policy (3.0 cr)
CMGT 4031 - Construction Safety and Loss Control (3.0 cr)

School of Public Health, MMC 819, A395 Mayo Memorial Building, 420 Delaware Street, Minneapolis, MN 55455 (612-626-3500 OR 1-800-774-8636)
Email: sph-ask@umn.edu
Website: http://www.sph.umn.edu

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The environmental health minor is designed for students who wish to understand how our physical and social environment affects public health. Students will learn about exposure to physical and social stressors, such as chemicals, infectious agents, stress, and violence; how stressors affect health; and how decisions are made to protect health.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Students enrolled in University master's or doctoral programs are eligible for the minor.

Other requirements to be completed before admission:
Prior consultation with the major field academic advisor regarding pursuit of the Environmental Health minor is expected. For more information regarding the Environmental Health minor, contact sph-ask@umn.edu.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Courses offered on both the A/F and S/N grade basis must be taken A/F. A minimum grade of B- is required for all courses.

The minimum cumulative GPA for the minor is 3.00.

Coursework (6-12 credits)
Required Course (2 credits)
Take the following course.
PUBH 6102 - Issues in Environmental Health (2.0 cr)

Electives
Master's students must select 4 credits from the following list and doctoral students must select 10 credits, in consultation with the Environmental Health director of graduate studies.
PubH 6100 Topics must be GIS and Spatial Analysis (3 cr).

PUBH 6100 - Topics: Environmental Health (1.0 - 4.0 cr)
PUBH 6112 - Environmental Health Risk Assessment: Application to Human Health Risks from Exposure to Chemicals (2.0 cr)
PUBH 6115 - Worker Protection Law (1.0 cr)
PUBH 6116 - Environmental Law (1.0 cr)
PUBH 6120 - Injury Prevention in the Workplace, Community, and Home (2.0 cr)
PUBH 6123 - Violence Prevention and Control; Theory, Research, and Application (2.0 cr)
PUBH 6154 - Climate Change and Global Health (3.0 cr)
PUBH 6161 - Regulatory Toxicology (2.0 cr)
PUBH 6162 - Biomarkers (2.0 cr)
PUBH 6173 - Exposure to Physical Agents (2.0 cr)
PUBH 6174 - Control of Workplace Exposure (3.0 cr)
PUBH 6181 - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
PUBH 6190 - Environmental Chemistry (3.0 cr)
PUBH 6192 - Measurement and Properties of Air Contaminants (2.0 cr)
PUBH 6193 - Advanced Topics in Human Exposure Science (2.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Environmental Health Ph.D.

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 48 to 82
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Environmental health is the study of how exposures to external hazards, including chemical, physical, and biological agents, affect human health. Environmental health researchers and professionals seek to understand how to evaluate exposures that create risk to human health, how those exposures elicit biological responses that lead to disease and injury, and how policy is developed and used to prevent adverse health effects. This program offers academic programs at the master's and doctoral levels, conducts research in diverse areas of environmental health, offers continuing education, and conducts outreach. The academic programs prepare students to be leaders in environmental health in academia, industry, consulting groups, and government agencies. The program's training and research emphasizes the importance of translating basic scientific knowledge into solutions for current societal problems and concerns.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A baccalaureate degree with coursework in the basic sciences. Each specialty requires slightly different preparation. Industrial Hygiene requires physics, biology, chemistry, organic, and calculus.

Other requirements to be completed before admission:
Applicants to the industrial hygiene track must meet the following additional criteria:
For students with undergraduate degrees in a relevant discipline, good academic performance (preferably science or engineering, but other disciplines will be considered), and a minimum level of coursework in biology, chemistry (including organic), physics, and mathematics (including calculus) are required. Students with undergraduate degrees in non-science fields with appropriate additional coursework and work experience may also apply, but must demonstrate strengths in physics, chemistry (including organic), biology, and mathematics (including calculus); complementary courses in non-science disciplines (e.g., social sciences, languages) that reflect a well-rounded education; a clear motivation toward occupational and environmental health as articulated by the written statement, and strong letters of recommendation. Success in prior industrial hygiene-related work is preferred.

Applicants must submit their test score(s) from the following:
- MCAT
  - Verbal Reasoning score: 10
  - Physical Science score: 10
  - Biological Reasoning score: 10
- LSAT

International applicants must submit score(s) from one of the following tests:
- TOEFL
- Internet Based - Total Score: 100
- Paper Based - Total Score: 600

IELTS
- Total Score: 7

MELAB
- Final score: 80

Key to test abbreviations (MCAT, LSAT, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
24 to 58 credits are required in the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 4 semesters must be completed before filing a Degree Program Form.

Core Coursework (3 credits)
Take the following courses:
- PUBH 6742 - Ethics in Public Health: Research and Policy (1.0 cr)
- PUBH 6250 - Foundations of Public Health (2.0 cr)

Thesis Credits (24 credits)
Take at least 24 doctoral thesis credits.
- PUBH 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)

Concentration Areas
Generalist (48 credits)
Coursework (48 credits)
Select courses in consultation with the advisor.
- PUBH 6385 - Epidemiology and Control of Infectious Diseases (2.0 cr)
- PUBH 6601 - Born a Girl: Global Women's Health (1.0 cr)
- PUBH 6852 - Program Evaluation in Health and Mental Health Settings (2.0 cr)
- PUBH 6034 - Evaluation (3.0 cr)
- PUBH 6055 - Social Inequalities in Health (2.0 cr)
- PUBH 6045 - Skills for Policy Development (1.0 cr)
- PUBH 6066 - Building Communities, Increasing Health: Preparing for Community Health Work (2.0 cr)
- PUBH 6572 - Management for Clinical Research (2.0 cr)
- PUBH 6655 - Principles and Programs in Maternal and Child Health (2.0 cr)
- PUBH 6906 - Global Nutrition (2.0 cr)
- PUBH 6730 - International Comparative Health Systems (2.0 cr)
- PUBH 6605 - Reproductive and Perinatal Health (2.0 cr)
- PUBH 6112 - Environmental Health Risk Assessment: Application to Human Health Risks from Exposure to Chemicals (2.0 cr)
- PUBH 6120 - Injury Prevention in the Workplace, Community, and Home (2.0 cr)
- PUBH 6123 - Violence Prevention and Control: Theory, Research, and Application (2.0 cr)
- PUBH 6130 - Occupational Medicine: Principles and Practice (2.0 cr)
- PUBH 6140 - Occupational and Environmental Epidemiology (2.0 cr)
- PUBH 6150 - Interdisciplinary Evaluation of Occupational Health and Safety Field Problems (3.0 cr)
- PUBH 6154 - Climate Change and Global Health (3.0 cr)
- PUBH 6160 - Principles of Toxicology II (3.0 cr)
- PUBH 6162 - Biomarkers (2.0 cr)
- PUBH 6170 - Introduction to Occupational Health and Safety (3.0 cr)
- PUBH 6181 - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
- PUBH 6173 - Exposure to Physical Agents (2.0 cr)
PUBH 6011 - Public Health Approaches to HIV/AIDS (3.0 cr)
PUBH 5231 - Emergency Preparedness: A Public Health Perspective (2.0 cr)
PUBH 6386 - Cardiovascular Disease Epidemiology and Prevention (2.0 cr)
PUBH 6035 - Evaluation II: Applications (3.0 cr)
PUBH 6190 - Environmental Chemistry (3.0 cr)
PUBH 6049 - Legislative Advocacy Skills for Public Health (3.0 cr)
PUBH 6210 - Public Health Medicine Seminar (1.0 cr)
PUBH 6060 - Motivational Interviewing: Strategies to Effect Behavior Change (1.0 cr)
PUBH 6074 - Mass Communication and Public Health (3.0 cr)
PUBH 6078 - Public Health Policy as a Prevention Strategy (2.0 cr)
PUBH 6094 - Obesity and Eating Disorder Interventions (2.0 cr)
PUBH 6342 - Epidemiologic Methods II (3.0 cr)
PUBH 6344 - Completing the Integrated Learning Experience: Secondary Data Analysis (2.0 cr)
PUBH 6389 - Nutritional Epidemiology (2.0 cr)
PUBH 6350 - Epidemiologic Methods III: Lab (1.0 cr)
PUBH 6355 - Pathophysiology of Human Disease (4.0 cr)
PUBH 6381 - Genetics in Public Health in the Age of Precision Medicine (2.0 cr)
PUBH 6420 - Introduction to SAS Programming (1.0 cr)
PUBH 6431 - Topics in Hierarchical Bayesian Analysis (1.0 cr)
PUBH 6470 - SAS Procedures and Data Analysis (3.0 cr)
PUBH 6541 - Statistics for Health Management Decision Making (3.0 cr)
PUBH 6542 - Management of Health Care Organizations (3.0 cr)
PUBH 6544 - Principles of Problem Solving in Health Services Organizations (3.0 cr)
PUBH 6547 - Health Care Human Resources Management (2.0 cr)
PUBH 6555 - Topics in Health Economics (2.0 cr)
PUBH 6560 - Operations Research and Quality in Health Care (3.0 cr)
PUBH 6562 - Information Technology in Health Care (2.0 cr)
PUBH 6563 - Integrated Delivery Systems (2.0 cr)
PUBH 6564 - Private Purchasers of Health Care: Roles of Employers and Health Plans in U.S. Health Care System (2.0 cr)
PUBH 6565 - Innovation of Healthcare Services (2.0 cr)
PUBH 6571 - Quality, Patient Safety, and Performance Improvement (2.0 cr)
PUBH 6589 - Medical Technology Evaluation and Market Research (2.0 cr)
PUBH 6596 - Legal Considerations in Health Services Organizations (2.0 cr)
PUBH 6627 - Sexuality Education: Criteria, Curricula, and Controversy (1.0 cr)
PUBH 6630 - Foundations of Maternal and Child Health Leadership (3.0 cr)
PUBH 6634 - Children and Families: Public Health Policy and Advocacy (2.0 cr)
PUBH 6702 - Integrative Leadership Seminar (3.0 cr)
PUBH 6711 - Public Health Law (2.0 cr)
PUBH 6717 - Decision Analysis for Health Care (2.0 cr)
PUBH 6724 - The Health Care System and Public Health (3.0 cr)
PUBH 6727 - Health Leadership and Effecting Change (2.0 cr)
PUBH 6729 - Public Health Leadership (1.0 cr)
PUBH 6755 - Planning and Budgeting for Public Health (2.0 cr)
PUBH 6765 - Continuous Quality Improvement: Methods and Techniques (3.0 cr)
PUBH 6803 - Conducting a Systematic Literature Review (3.0 cr)
PUBH 6805 - Introduction to Project Management for Health Professionals (2.0 cr)
PUBH 6806 - Principles of Public Health Research (2.0 cr)
PUBH 6832 - Economics of the Health Care System (3.0 cr)
PUBH 6809 - Advanced Methods in Health Decision Science (3.0 cr)
PUBH 6810 - Survey Research Methods (3.0 cr)
PUBH 6812 - Applied Projects in Health Intelligence and Analytics (2.0 cr)
PUBH 6813 - Managing Electronic Health Information (2.0 cr)
PUBH 6814 - Data and Information for Population Health Management (2.0 cr)
PUBH 7214 - Principles of Risk Communication (1.0 cr)
PUBH 6835 - Principles of Health Policy (2.0 cr)
PUBH 6845 - Using Demographic Data for Policy Analysis (3.0 cr)
PUBH 7222 - Best Practices in Emergency Response (1.0 cr)
PUBH 6855 - Medical Sociology (3.0 cr)
PUBH 6862 - Cost-Effectiveness Analysis in Health Care (3.0 cr)
PUBH 6863 - Understanding Health Care Quality (2.0 cr)
PUBH 6901 - Foundations of Public Health Nutrition Leadership (2.0 cr)
PUBH 6920 - Foundations of Interprofessional Professional Communication and Collaboration (1.0 cr)
PUBH 7210 - Topics: Global Food Systems (0.5 cr)
PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of September 04, 2020
PUBH 7535 - Managerial Accounting for Health Services (3.0 cr)
PUBH 7236 - Farm to Table Program: Minnesota (2.0 cr)
PUBH 7250 - Designing and Conducting Focus Group Interviews (1.0 cr)
PUBH 7253 - Introduction to GIS (1.0 cr)
PUBH 7257 - Qualitative Data Analysis (1.0 cr)
PUBH 7475 - Statistical Learning and Data Mining (3.0 cr)
PUBH 7534 - Marketing for Health Care Professionals (1.0 cr)
PUBH 7541 - Statistics for Health Management Decision Making (3.0 cr)

PUBH 7569 - Health Care Policy (1.0 cr)

-OR-

Environmental Chemistry (21 credits)

Required Coursework (16 credits)

Take the following courses:

CEGE 5541 - Environmental Water Chemistry (3.0 cr)
CEGE 8542 - Chemistry of Organic Pollutants in Environmental Systems (3.0 cr)
EEB 5601 - Limnology (3.0 cr)
PUBH 6190 - Environmental Chemistry (3.0 cr)
STAT 5021 - Statistical Analysis (4.0 cr)

Electives (5 credits)

Choose electives in consultation with the advisor.

CONS 8004 - Economic and Social Aspects of Conservation Biology (3.0 cr)
CEGE 4561 - Solids and Hazardous Wastes (3.0 cr)
CEGE 4503 - Environmental Mass Transport (4.0 cr)
CEGE 8561 - Analysis and Modeling of Aquatic Environments I (3.0 cr)
EEB 4611 - Biogeochemical Processes (3.0 cr)
EEB 5609 - Ecosystem Ecology (3.0 cr)

-OR-

Environmental and Occupational Epidemiology (27 credits)

Required Coursework (16 credits)

Take the following courses. Take 4 credits of PUBH 8120.
PUBH 6140 - Occupational and Environmental Epidemiology (2.0 cr)
PUBH 8120 - Occupational Health and Safety Research Seminar (1.0 cr)
PUBH 8341 - Advanced Epidemiologic Methods: Concepts (3.0 cr)
PUBH 8342 - Advanced Epidemiologic Methods: Applications (3.0 cr)
PUBH 8343 - Synthesis and Application of Methods in Epidemiologic Research (4.0 cr)

Electives (11 credits)

Choose electives in consultation with the advisor.
PUBH 6120 - Injury Prevention in the Workplace, Community, and Home (2.0 cr)
PUBH 6130 - Occupational Medicine: Principles and Practice (2.0 cr)
PUBH 6150 - Interdisciplinary Evaluation of Occupational Health and Safety Field Problems (3.0 cr)
PUBH 6170 - Introduction to Occupational Health and Safety (3.0 cr)
PUBH 6173 - Exposure to Physical Agents (2.0 cr)
PUBH 6181 - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
PUBH 6343 - Epidemiologic Methods III (4.0 cr)
PUBH 6355 - Pathophysiology of Human Disease (4.0 cr)
PUBH 6381 - Genetics in Public Health in the Age of Precision Medicine (2.0 cr)
PUBH 6385 - Epidemiology and Control of Infectious Diseases (2.0 cr)
PUBH 6387 - Cancer Epidemiology (2.0 cr)
PUBH 6806 - Principles of Public Health Research (2.0 cr)
PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
PUBH 7460 - Advanced Statistical Computing (3.0 cr)
PUBH 6112 - Environmental Health Risk Assessment: Application to Human Health Risks from Exposure to Chemicals (2.0 cr)
PUBH 6162 - Biomarkers (2.0 cr)
PUBH 6182 - Emerging Infectious Disease: Current Issues, Policies, and Controversies (3.0 cr)
PUBH 6389 - Nutritional Epidemiology (2.0 cr)
PUBH 6915 - Nutrition Assessment (2.0 cr)
VMED 8090 - Epidemiology of Zoonoses and Diseases Common to Animals and Humans (3.0 cr)
VMED 5180 - Ecology of Infectious Disease (3.0 cr)
**PUBH 6192 - Measurement and Properties of Air Contaminants (2.0 cr)**
**PUBH 6193 - Advanced Topics in Human Exposure Science (2.0 cr)**
**PUBH 6880 - Introduction to Public Health Informatics (2.0 cr)**
**PUBH 6813 - Managing Electronic Health Information (2.0 cr)**
**PUBH 6814 - Data and Information for Population Health Management (2.0 cr)**
**HINF 5430 - Foundations of Health Informatics I (3.0 cr)**

-OR-

**Environmental Infectious Diseases (30 credits)**

**Required Coursework**
Take the following courses for a total of 12 credits:

- **PUBH 6181** - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
- **PUBH 6182** - Emerging Infectious Disease: Current Issues, Policies, and Controversies (3.0 cr)
- **PUBH 6385** - Epidemiology and Control of Infectious Diseases (2.0 cr)
- **VMED 5180** - Ecology of Infectious Disease (3.0 cr)
- **PUBH 6102** - Issues in Environmental Health (2.0 cr)

**Epidemiology (10 credits)**
Take the following courses:

- **PUBH 6341** - Epidemiologic Methods I (3.0 cr)
- **PUBH 6342** - Epidemiologic Methods II (3.0 cr)
- **PUBH 6343** - Epidemiologic Methods III (4.0 cr)

**Biostatistics (8 credits)**
Take the following courses:

- **PUBH 6450** - Biostatistics I (4.0 cr)
- **PUBH 6451** - Biostatistics II (4.0 cr)

-OR-

**Occupational and Environmental Health Nursing (35 credits)**

**Required Coursework**
Take the following courses. Take 2 credits of PUBH 8120.

- **PUBH 6140** - Occupational and Environmental Epidemiology (2.0 cr)
- **PUBH 6170** - Introduction to Occupational Health and Safety (3.0 cr)
- **PUBH 6451** - Biostatistics II (4.0 cr)
- **PUBH 8120** - Occupational and Environmental Health Research Seminar (1.0 cr)
- **PUBH 6342** - Epidemiologic Methods II (3.0 cr)
- **PUBH 6343** - Epidemiologic Methods III (4.0 cr)
- **GRAD 8101** - Teaching in Higher Education (3.0 cr)
- **PUBH 6102** - Issues in Environmental Health (2.0 cr)
- **PUBH 6341** - Epidemiologic Methods I (3.0 cr)
- **PUBH 6450** - Biostatistics I (4.0 cr)
- **PUBH 6150** - Interdisciplinary Evaluation of Occupational Health and Safety Field Problems (3.0 cr)
- **PUBH 6130** - Occupational Medicine: Principles and Practice (2.0 cr)

-OR-

**Environmental Toxicology (21 credits)**

**Required Coursework (20 credits)**
Take the following courses:

- **PUBH 6320** - Fundamentals of Epidemiology (3.0 cr)
- **PUBH 6414** - Biostatistical Literacy (3.0 cr)
- **PUBH 6112** - Environmental Health Risk Assessment: Application to Human Health Risks from Exposure to Chemicals (2.0 cr)
- **PUBH 6159** - Principles of Toxicology I (2.0 cr)
- **PUBH 6160** - Principles of Toxicology II (3.0 cr)
- **PUBH 6161** - Regulatory Toxicology (2.0 cr)
- **PUBH 6162** - Biomarkers (2.0 cr)
- **PUBH 8160** - Advanced Toxicology (2.0 cr)
- **PUBH 8161** - Current Literature in Toxicology (1.0 cr)

**Electives (1 credit)**
Select one of the following courses, in consultation with the advisor, to complete the 21-credit minimum for this concentration.

- **ANSC 8344** - Mechanisms of Hormone Action (2.0 cr)
- **PHCL 5111** - Pharmacogenomics (3.0 cr)
- **BIOC 8216** - Signal Transduction and Gene Expression (3.0 cr)
- **CSCI 5980** - Special Topics in Computer Science (1.0 - 3.0 cr)
- **CSCI 5461** - Functional Genomics, Systems Biology, and Bioinformatics (3.0 cr)
- **BIOC 5391** - Microbial Genomics and Bioinformatics (3.0 cr)
GRAD 8101 - Teaching in Higher Education (3.0 cr)
GRAD 8102 - Practicum for Future Faculty (3.0 cr)

-OR-

**Occupational Injury Prevention Research Training (53 credits)**

**Required Coursework**
Take the following courses. Take 4 credits of PUBH 8120.

- PUBH 6341 - Epidemiologic Methods I (3.0 cr)
- PUBH 6342 - Epidemiologic Methods II (3.0 cr)
- PUBH 8341 - Advanced Epidemiologic Methods: Concepts (3.0 cr)
- PUBH 8342 - Advanced Epidemiologic Methods: Applications (3.0 cr)
- PUBH 8343 - Synthesis and Application of Methods in Epidemiologic Research (4.0 cr)
- PUBH 6450 - Biostatistics I (4.0 cr)
- PUBH 6451 - Biostatistics II (4.0 cr)
- PUBH 6102 - Issues in Environmental Health (2.0 cr)
- PUBH 6120 - Injury Prevention in the Workplace, Community, and Home (2.0 cr)
- PUBH 6123 - Violence Prevention and Control: Theory, Research, and Application (2.0 cr)
- PUBH 6140 - Occupational and Environmental Epidemiology (2.0 cr)
- PUBH 6150 - Interdisciplinary Evaluation of Occupational Health and Safety Field Problems (3.0 cr)
- PUBH 6170 - Introduction to Occupational Health and Safety (3.0 cr)
- PUBH 8120 - Occupational Health and Safety Research Seminar (1.0 cr)
- GRAD 8101 - Teaching in Higher Education (3.0 cr)
- IE 5511 - Human Factors and Work Analysis (4.0 cr)
- PUBH 6343 - Epidemiologic Methods III (4.0 cr)

-OR-

**Food Safety (35 credits)**
Take the following courses. Take PUBH 7210 twice for a total of 1 credit.

- PUBH 6102 - Issues in Environmental Health (2.0 cr)
- PUBH 6151 - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
- PUBH 6183 - Theory and Practice in Foodborne Disease Outbreak Detection, Investigation and Control (1.0 cr)
- PUBH 6182 - Emerging Infectious Disease: Current Issues, Policies, and Controversies (3.0 cr)
- PUBH 6385 - Epidemiology and Control of Infectious Diseases (2.0 cr)
- PUBH 7210 - Topics: Global Food Systems (0.5 cr)
- VMED 5180 - Ecology of Infectious Disease (3.0 cr)
- FSCN 5131 - Food Quality for Graduate Credit (3.0 cr)

**Epidemiology (10 credits)**

- PUBH 6341 - Epidemiologic Methods I (3.0 cr)
- PUBH 6342 - Epidemiologic Methods II (3.0 cr)
- PUBH 6343 - Epidemiologic Methods III (4.0 cr)

**Biostatistics (8 credits)**

- PUBH 6450 - Biostatistics I (4.0 cr)
- PUBH 6451 - Biostatistics II (4.0 cr)

**Program Sub-plans**
A sub-plan is not required for this program.
Students may not complete the program with more than one sub-plan.

**Industrial Hygiene**
The Industrial Hygiene program focuses on the health and safety of people at work, the community at large, and the environment. Specific concerns are with the recognition, evaluation and control of potential workplace hazards, including chemical, physical, and biological agents.

**Industrial Hygiene (23 credits)**
Take the following courses:

- PUBH 6130 - Occupational Medicine: Principles and Practice (2.0 cr)
- PUBH 6150 - Interdisciplinary Evaluation of Occupational Health and Safety Field Problems (3.0 cr)
- PUBH 6170 - Introduction to Occupational Health and Safety (3.0 cr)
- PUBH 6172 - Industrial Hygiene Applications (2.0 cr)
- PUBH 6173 - Exposure to Physical Agents (2.0 cr)
- PUBH 6174 - Control of Workplace Exposure (3.0 cr)
PUBH 6175 - Environmental Measurements Laboratory (2.0 cr)
PUBH 6192 - Measurement and Properties of Air Contaminants (2.0 cr)
PUBH 6193 - Advanced Topics in Human Exposure Science (2.0 cr)
PUBH 6159 - Principles of Toxicology I (2.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 42 to 48
- This program does not require summer semesters for timely completion.
- Degree: Master of Public Health

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The epidemiology MPH is a 48-credit program that prepares future leaders in epidemiology to analyze public health trends, design and implement studies, and interpret results for policy and program development. Beyond investigations into the determinants of health and infectious and chronic disease, epidemiologists translate medical and laboratory data into population trends to identify changes in the public health burden of disease. Students with an earned doctorate in a related field may be eligible for the accelerated, 42-credit program.

Accreditation
This program is accredited by Council on Education for Public Health (CEPH).

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A baccalaureate degree, with coursework in the basic sciences, from an accredited institution.

Admission to the accelerated program requires an earned doctorate (e.g., MD, PhD, DVM, DC, DDS), in a related field, from an accredited institution.

Other requirements to be completed before admission:
For more information visit www.sph.umn.edu

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
• IELTS
  - Total Score: 7

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements

Plan C: Plan C requires 42 to 48 major credits and up to null credits outside the major. There is no final exam. A capstone project is required.

Capstone Project: The capstone project comprises an integrative learning experience. Students complete either PUBH 7394 or PUBH 6344, selected in consultation with the advisor, to meet this requirement.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with advisor approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

Public Health Core Requirements (14 credits)
A minimum grade of B- must be earned for each of the following PUBH core courses:

- PUBH 6020 - Fundamentals of Social and Behavioral Science (2.0 cr)
- PUBH 6102 - Issues in Environmental Health (2.0 cr)
- PUBH 6341 - Epidemiologic Methods I (3.0 cr)
- PUBH 6450 - Biostatistics I (4.0 cr)
- PUBH 6741 - Ethics in Public Health: Professional Practice and Policy (1.0 cr)
- PUBH 6751 - Principles of Management in Health Services Organizations (2.0 cr)

Epidemiology Core Requirements (9 credits)
Take the following courses. Select PUBH 6325 or PUBH 6420 in consultation with the advisor. A minimum grade of B- must be earned for PUBH 6342, 6343, and 6350. All courses must be completed A-F.

- PUBH 6342 - Epidemiologic Methods II (3.0 cr)
- PUBH 6343 - Epidemiologic Methods III (4.0 cr)
- PUBH 6350 - Epidemiologic Methods III Lab (1.0 cr)
- PUBH 6325 - Data Processing with PC-SAS (1.0 cr)
  or PUBH 6420 - Introduction to SAS Programming (1.0 cr)

Epidemiology Content Courses (2 credits)
Select at least 1 course from the following, in consultation with the advisor. All courses must be completed A-F with a minimum grade of B-.

- PUBH 6381 - Genetics in Public Health in the Age of Precision Medicine (2.0 cr)
- PUBH 6385 - Epidemiology and Control of Infectious Diseases (2.0 cr)
- PUBH 6386 - Cardiovascular Disease Epidemiology and Prevention (2.0 cr)
- PUBH 6387 - Cancer Epidemiology (2.0 cr)
- PUBH 6389 - Nutritional Epidemiology (2.0 cr)
- PUBH 6605 - Reproductive and Perinatal Health (2.0 cr)

Biostatistics (4 credits)
A minimum grade of B- must be earned for the following course:

- PUBH 6451 - Biostatistics II (4.0 cr)

Basic Science Requirement (4 credits)
PUBH 6355 is not required for students in the accelerated program, or for standard-program students who obtain prior approval from the program director and course instructor.

- PUBH 6355 - Pathophysiology of Human Disease (4.0 cr)

Applied Practice Experience (1-2 credits)
Take 1-2 credits of PUBH 7396, in consultation with the advisor.

- PUBH 7396 - Applied Practice Experience: Epidemiology (1.0 - 5.0 cr)

Integrated Learning Experience (2 credits)
Take 1 of the following courses, in consultation with the advisor. If PUBH 7394 is selected, take at least 2 credits.

- PUBH 7394 - Integrative Learning Experience: Epidemiology (1.0 - 6.0 cr)
  or PUBH 6344 - Completing the Integrated Learning Experience: Secondary Data Analysis (2.0 cr)

Electives (10-12 credits)
Students pursuing the standard program select at least 10 elective credits, and students pursuing the accelerated program select at least 8 elective credits in consultation with the advisor.

- CSPH 5111 - Ways of Thinking about Health (2.0 cr)
- CSPH 5115 - Cultural Awareness, Knowledge and Health (3.0 cr)
- CSPH 5118 - Whole Person, Whole Community: The Reciprocity of Wellbeing (3.0 cr)
- CSPH 5215 - Forgiveness and Healing: A Journey Toward Wholeness (3.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 38
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

**Prerequisites for Admission**
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Please visit [www.sph.umn.edu](http://www.sph.umn.edu) for admission requirements.

**Special Application Requirements:**
Students are not admitted directly into the MS program.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7
- MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

**Program Requirements**

**Plan B:** Plan B requires 38 major credits and 0 credits outside the major. The final exam is oral. A capstone project is required.

**Capstone Project:** A master's project is required, equivalent to approximately 4 semester credits.

This program may be completed with a minor.
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.

These requirements apply only to students admitted by special arrangement with the program; students are not admitted directly into the Epidemiology MS program.

Courses must be taken A/F, unless offered only S/N. The minimum grade required for each A/F-graded course is B-.

**Required Coursework (13 credits)**

Complete the following:

- PUBH 6348 - Writing Research Grants (2.0 cr)
- PUBH 6742 - Ethics in Public Health: Research and Policy (1.0 cr)
- PUBH 7401 - Fundamentals of Biostatistical Inference (4.0 cr)
- PUBH 8341 - Advanced Epidemiologic Methods: Concepts (3.0 cr)
- PUBH 8342 - Advanced Epidemiologic Methods: Applications (3.0 cr)

**Electives (25 credits)**

Select elective courses from the following list, or other electives to meet the 38-credit minimum. All courses must be selected in consultation with the advisor.

- PUBH 6074 - Mass Communication and Public Health (3.0 cr)
- PUBH 6078 - Public Health Policy as a Prevention Strategy (2.0 cr)
- PUBH 6094 - Obesity and Eating Disorder Interventions (2.0 cr)
- PUBH 6140 - Occupational and Environmental Epidemiology (2.0 cr)
- PUBH 6333 - Principles of Human Behavior I (2.0 cr)
- PUBH 6334 - Human Behavior II (2.0 cr)

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 8
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Epidemiologists investigate the determinants of health and disease, and use data to identify changes in the public health burden of disease. The Epidemiology minor trains students to analyze public health trends, design and implement studies, and interpret results for policy and program development.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Epidemiology director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

All minor field coursework must be taken A/F, with a minimum grade of B- earned for each course unless otherwise stated.

The minimum cumulative GPA for minor field coursework is 3.00.

Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Masters
Coursework Requirements (8 credits)
Required Courses (6 credits)
Students must complete PUBH 6342 plus PUBH 6341 or PUBH 6320. Students choosing PUBH 6320 must earn a minimum grade of A-.
PUBH 6342 - Epidemiologic Methods II (3.0 cr)
PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)
or PUBH 6341 - Epidemiologic Methods I (3.0 cr)

Electives (2 credits)
Select 2 credits from the following in consultation with the Epidemiology director of graduate studies.
PUBH 6381 - Genetics in Public Health in the Age of Precision Medicine (2.0 cr)
PUBH 6385 - Epidemiology and Control of Infectious Diseases (2.0 cr)
PUBH 6386 - Cardiovascular Disease Epidemiology and Prevention (2.0 cr)
PUBH 6387 - Cancer Epidemiology (2.0 cr)
PUBH 6389 - Nutritional Epidemiology (2.0 cr)
PUBH 6605 - Reproductive and Perinatal Health (2.0 cr)

Doctoral

Doctoral Minor Options
The doctoral minor can be completed in one of two ways: Option 1 is for students with the necessary background of epidemiology coursework, as determined by the Epidemiology director of graduate studies; Option 2 is for students without that necessary coursework.

Coursework Requirements (12 credits)
Required Courses: Option 1 (10 credits)
Students with the necessary epidemiology background take the following courses:
PUBH 7401 - Fundamentals of Biostatistical Inference (4.0 cr)
PUBH 8341 - Advanced Epidemiologic Methods: Concepts (3.0 cr)
PUBH 8342 - Advanced Epidemiologic Methods: Applications (3.0 cr)
or Required Courses: Option 2 (10 credits)
Students without the necessary epidemiology background take the following courses:
PUBH 6341 - Epidemiologic Methods I (3.0 cr)
PUBH 6342 - Epidemiologic Methods II (3.0 cr)
PUBH 6450 - Biostatistics I (4.0 cr)

Electives (2 credits)
Select 2 credits from the following, or other coursework, in consultation with the Epidemiology director of graduate studies.
PUBH 6365 - Global Challenges in Infectious Disease Epidemiology (2.0 cr)
PUBH 6381 - Genetics in Public Health in the Age of Precision Medicine (2.0 cr)
PUBH 6385 - Epidemiology and Control of Infectious Diseases (2.0 cr)
PUBH 6386 - Cardiovascular Disease Epidemiology and Prevention (2.0 cr)
PUBH 6387 - Cancer Epidemiology (2.0 cr)
PUBH 6389 - Nutritional Epidemiology (2.0 cr)
PUBH 7405 - Biostatistics: Regression (4.0 cr)
PUBH 7406 - Advanced Regression and Design (4.0 cr)
PUBH 7415 - Introduction to Clinical Trials (3.0 cr)
PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
PUBH 7445 - Statistics for Human Genetics and Molecular Biology (3.0 cr)
PUBH 7450 - Survival Analysis (3.0 cr)
PUBH 7470 - Study Designs in Biomedical Research (3.0 cr)
PUBH 7475 - Statistical Learning and Data Mining (3.0 cr)
PUBH 7485 - Methods for Causal Inference (3.0 cr)

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 53 to 63
- This program requires summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the [General Information](#) section of the catalog website for requirements that apply to all major fields.

The Epidemiology PhD program is designed for students interested in research and teaching careers in the health sciences. Students select one of two formal tracks: clinical/biological epidemiology (CBE) or social/behavioral epidemiology (SBE). Each track emphasizes advanced epidemiologic design, methodology, and analytic skills.

The CBE track focuses on the etiology of diseases, particularly cardiovascular, cancer, genetics, and infectious diseases. The SBE track focuses on origins and development of human behavior patterns and how they are influenced and formed by personality, family, culture, and environment.

**Program Delivery**

This program is available:

- via classroom (the majority of instruction is face-to-face)

**Prerequisites for Admission**

The preferred undergraduate GPA for admittance to the program is 3.00.

Applicants must be in process, or have completed, a master's degree in a related field.

**Special Application Requirements:**

Strong quantitative aptitude, demonstrated by scoring at or above the 70th percentile on the quantitative section of the GRE, along with satisfactory grades in college-level quantitative courses. At least three recommendations (form and separate letter) from faculty and/or work supervisors with knowledge of the applicant's scholastic and professional capabilities and potential; Statement of goals and objectives (letter of intent) for seeking a career in epidemiology.

In addition, applicants must submit a separate essay (statement of research interests) beyond what is required for the SOPHAS application process that provides evidence of their potential to conduct original research in a specific epidemiologic area and, if possible, indicates an interest in particular methodologies or study designs. Serious applicants are encouraged to contact the program coordinator at epichstu@umn.edu before applying. Students begin their studies in the fall semester. Applications must be completed by December 1 of the year prior to beginning the doctoral program for scholarship consideration; the final deadline is February 1.

Applicants must submit their test score(s) from the following:

- GRE
  - General Test - Analytical Writing: 4

International applicants must submit score(s) from one of the following tests:

- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7

Information current as of September 04, 2020
MELAB
- Final score: 80

Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
29 to 39 credits are required in the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.25 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

Courses offered on both the A/F and S/N grading basis must be taken A/F, with a minimum grade of B- earned for each course.

Core Coursework (15 credits)
Take the following courses:
- PUBH 6348 - Writing Research Grants (2.0 cr)
- PUBH 6742 - Ethics in Public Health: Research and Policy (1.0 cr)
- PUBH 7401 - Fundamentals of Biostatistical Inference (4.0 cr)
- PUBH 8341 - Advanced Epidemiologic Methods: Concepts (3.0 cr)
- PUBH 8342 - Advanced Epidemiologic Methods: Applications (3.0 cr)
- PUBH 6250 - Foundations of Public Health (2.0 cr)

Teaching Course (1-3 credits)
Select one of the following, in consultation with the advisor. Students choosing GRAD 8200 must complete it with the following topic, ‘Teaching & Learning: An Online Course’.

- GRAD 8101 - Teaching in Higher Education (3.0 cr)
- or GRAD 8200 - Teaching and Learning Topics in Higher Education (1.0 cr)

Thesis Credits
Take at least 24 doctoral thesis credits.
- PUBH 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)

Joint- or Dual-degree Coursework: MD/PhD-Epidemiology

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Clinical/Biological Epidemiology
Clinical/Biological Track (13-23 credits)

Biological Methods/Statistics Course (3 credits)

Take the following course:
- PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)

Additional Biostatistics Course (3 credits)
Select at least 3 credits from the following in consultation with the advisor:
- PUBH 6915 - Nutrition Assessment (2.0 cr)
- PUBH 7402 - Biostatistics Modeling and Methods (4.0 cr)
- PUBH 7405 - Biostatistics: Regression (4.0 cr)
- PUBH 7406 - Advanced Regression and Design (4.0 cr)
- PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
- PUBH 8343 - Synthesis and Application of Methods in Epidemiologic Research (4.0 cr)
PUBH 8804 - Advanced Quantitative Methods Seminar (3.0 cr)
PUBH 8344 - Advanced Epidemiologic Methods Workshop (1.0 cr)
PUBH 7445 - Statistics for Human Genetics and Molecular Biology (3.0 cr)

Content Area Courses (2-4 credits)
Students pursuing the joint MD/PhD degree select at least 2 credits in consultation with the advisor. All other students complete at least 4 credits.
PUBH 6140 - Occupational and Environmental Epidemiology (2.0 cr)
PUBH 6381 - Genetics in Public Health in the Age of Precision Medicine (2.0 cr)
PUBH 6385 - Epidemiology and Control of Infectious Diseases (2.0 cr)
PUBH 6386 - Cardiovascular Disease Epidemiology and Prevention (2.0 cr)
PUBH 6387 - Cancer Epidemiology (2.0 cr)
PUBH 6389 - Nutritional Epidemiology (2.0 cr)

Electives (5-13 credits)
Students pursuing the joint MD/PhD degree select at least 5 elective credits in consultation with the advisor. All other students complete at least 13 elective credits.
PUBH 6355 - Pathophysiology of Human Disease (4.0 cr)
PUBH 7391 - Independent Study: Epidemiology (1.0 - 4.0 cr)
PUBH 7405 - Biostatistics: Regression (4.0 cr)
PUBH 7406 - Advanced Regression and Design (4.0 cr)
PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
PUBH 7445 - Statistics for Human Genetics and Molecular Biology (3.0 cr)
PUBH 7450 - Survival Analysis (3.0 cr)
PUBH 8343 - Synthesis and Application of Methods in Epidemiologic Research (4.0 cr)
VMED 5180 - Ecology of Infectious Disease (3.0 cr)
VMED 8090 - Epidemiology of Zoonoses and Diseases Common to Animals and Humans (3.0 cr)
PUBH 8344 - Advanced Epidemiologic Methods Workshop (1.0 cr)
PUBH 7392 - Readings in Epidemiology (1.0 - 4.0 cr)

Social/Behavioral Epidemiology
Social/Behavioral Track (13-23 credits)
Behavioral Methods/Statistics Course (3 credits)
Take the following course:
PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)

Additional Biostatistics Course (3 credits)
Select at least 3 credits from the following in consultation with the advisor:
PUBH 6915 - Nutrition Assessment (2.0 cr)
PUBH 7402 - Biostatistics Modeling and Methods (4.0 cr)
PUBH 7405 - Biostatistics: Regression (4.0 cr)
PUBH 7406 - Advanced Regression and Design (4.0 cr)
PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
PUBH 8343 - Synthesis and Application of Methods in Epidemiologic Research (4.0 cr)
PUBH 8804 - Advanced Quantitative Methods Seminar (3.0 cr)
PUBH 8344 - Advanced Epidemiologic Methods Workshop (1.0 cr)

Content Area Courses (4 credits)
Take the following courses:
PUBH 6333 - Principles of Human Behavior I (2.0 cr)
PUBH 6334 - Human Behavior II (2.0 cr)

Electives (3-13 credits)
Students pursuing the joint MD/PhD degree select at least 3 elective credits in consultation with the advisor. All other students complete at least 13 elective credits.
PUBH 6074 - Mass Communication and Public Health (3.0 cr)
PUBH 6078 - Public Health Policy as a Prevention Strategy (2.0 cr)
PUBH 6094 - Obesity and Eating Disorder Interventions (2.0 cr)
PUBH 6370 - Social Epidemiology (2.0 cr)
PUBH 6381 - Genetics in Public Health in the Age of Precision Medicine (2.0 cr)
PUBH 6385 - Epidemiology and Control of Infectious Diseases (2.0 cr)
PUBH 6386 - Cardiovascular Disease Epidemiology and Prevention (2.0 cr)
PUBH 6387 - Cancer Epidemiology (2.0 cr)
PUBH 7392 - Readings in Epidemiology (1.0 - 4.0 cr)
PUBH 7405 - Biostatistics: Regression (4.0 cr)
PUBH 7406 - Advanced Regression and Design (4.0 cr)
PUBH 8344 - Advanced Epidemiologic Methods Workshop (1.0 cr)
PUBH 8343 - Synthesis and Application of Methods in Epidemiologic Research (4.0 cr)
PUBH 7391 - Independent Study: Epidemiology (1.0 - 4.0 cr)

- Program Type: Graduate free-standing minor
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 8
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The gerontology minor is not currently available.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
The gerontology minor is not currently available.

Declaring the gerontology minor is contingent upon enrollment in a University master's or doctoral degree-granting program. Students should first consult with their program advisor about the advisability of a minor in gerontology, then contact the Gerontology director of graduate studies for minor information and to design their course program.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

The master's and doctoral minors are developed in consultation with, and should be approved in advance by, the Gerontology director of graduate studies.

Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Master's

Doctoral

- Program Type: Post-baccalaureate credit certificate/licensure/endorsement
- Requirements for this program are current for Fall 2020
- Length of program in credits: 15
- This program does not require summer semesters for timely completion.
- Degree: Global Health P Bac Certificate

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Global Health Certificate focuses on knowledge, skills, and attitudes to address health issues that transcend national boundaries, and that develop and implement solutions to health problems that requires global cooperation.

The Global Health Certificate is designed for students who have a strong interest in global health, who have a desire to understand cultures, and who want to experience first-hand a global field experience which may prepare them for work in a global setting. Many students may want to complete the Certificate to complement their graduate degree.

It is increasingly recognized that issues that affect health transcend national boundaries, and that development and implementation of solutions to such health problems requires global cooperation. Global health represents an interdisciplinary approach that embraces both disease prevention in populations and clinical care of individuals, with a strong emphasis on health equity and health as a public good.

Accreditation
This program is accredited by Council on Education for Public Health (CEPH)

Program Delivery
This program is available:
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Applicants must hold a baccalaureate degree.

Special Application Requirements:
Applicants must submit to SOPHAS Express, a centralized online application service:
- Completed SOPHAS Express application and application fee, designating the University of Minnesota School of Public Health
- Personal statement describing the applicant's reason for applying, career goals, and how the certificate will help them achieve their goals
- One letter of recommendation
- Unofficial transcripts of record from each college/university where a degree was earned. (If admitted, official transcripts will need to be sent directly to the School of Public Health.)
- Resume or C.V.

For detailed application instructions and requirements visit www.sph.umn.edu.

International applicants must submit score(s) from one of the following tests:
Program Requirements

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 42 to 60
- This program requires summer semesters for timely completion.
- Degree: Master of Healthcare Administration

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The full-time master of healthcare administration (MHA) program is appropriate for applicants with limited or no healthcare work experience, or individuals who wish to make a career change from industries other than health care. Now ranked third in the nation by U.S. News & World Report, the program is accredited by the CAHME.

The program's consistently high rankings are a reflection of many factors--an outstanding faculty of researchers and practitioners, location in one of the nation's centers of healthcare innovation, an extraordinary alumni association, and a track record of educating outstanding leaders for the healthcare industries.

Accreditation
This program is accredited by Commission on Accreditation of Healthcare Management Education (CAHME)

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Full-time program applicants should have a strong commitment to managing people and resources to create and sustain outstanding healthcare services and organizations. Strong quantitative and communication skills are essential; prior experience in health care is not required.

Visit SPH for detailed application requirements at www.sph.umn.edu

Special Application Requirements:
For the executive program: At least three years of management or clinical leadership experience in a healthcare organization is required. The program reserves the right to require the Graduate Record Examination (GRE) or the Graduate Management Admission Test (GMAT) as a part of the admissions process.

For the full-time program: To prepare for the program's rigorous curriculum, the faculty highly recommends the following coursework prior to matriculation:
- Statistics
- Accounting
- Microeconomics
- Finance
Applicants must submit their test score(s) from the following:
- **GRE**
  - General Test - Verbal Reasoning: 150
  - General Test - Quantitative Reasoning: 150
  - General Test - Analytical Writing: 3.5
- **GMAT**
  - Total score: 500

International applicants must submit score(s) from one of the following tests:
- **TOEFL**
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- **IELTS**
  - Total Score: 7
- **MELAB**
  - Final score: 80

Key to test abbreviations (GRE, GMAT, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

---

**Program Requirements**

**Plan C**: Plan C requires 42 to 60 major credits and up to null credits outside the major. The is no final exam. A capstone project is required.

**Capstone Project**: Advanced Problem Solving in Healthcare Administration, PUBH 6577, 2 credits.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

At least 3 semesters must be completed before filing a Degree Program Form.

**Full-time MHA program (60 credits)**

**Required Courses (47 credits)**

Take the following courses:
- PUBH 6525 - Introduction to Population Health: A Health System (2.0 cr)
- PUBH 6535 - Managerial Accounting for Health Services (3.0 cr)
- PUBH 6541 - Statistics for Health Management Decision Making (3.0 cr)
- PUBH 6542 - Management of Health Care Organizations (3.0 cr)
- PUBH 6544 - Principles of Problem Solving in Health Services Organizations (3.0 cr)
- PUBH 6547 - Health Care Human Resources Management (2.0 cr)
- PUBH 6553 - Health Care Management Ethics (1.0 cr)
- PUBH 6554 - Healthcare Strategy and Marketing (2.0 cr)
- PUBH 6555 - Topics in Health Economics (2.0 cr)
- PUBH 6556 - Health and Health Systems (3.0 cr)
- PUBH 6557 - Health Finance I (3.0 cr)
- PUBH 6558 - Health Finance II (3.0 cr)
- PUBH 6560 - Operations Research and Quality in Health Care (3.0 cr)
- PUBH 6562 - Information Technology in Health Care (2.0 cr)
- PUBH 6564 - Private Purchasers of Health Care: Roles of Employers and Health Plans in U.S. Health Care System (2.0 cr)
- PUBH 6565 - Innovation of Healthcare Services (2.0 cr)
- PUBH 6567 - Advanced Problem Solving in Health Services Administration (2.0 cr)
- PUBH 6596 - Legal Considerations in Health Services Organizations (2.0 cr)
- PUBH 7596 - Clerkship in Health Care Administration (2.0 cr)

**Leadership or Change Management (2 credits)**

Select one of the following courses in consultation with the advisor. If PUBH 6570 is selected it must be for 2 credits of Change Management.

PUBH 6570 - Healthcare Administration (1.0 - 4.0 cr)
Electives (11 credits)

Select coursework from the following in consultation with the advisor:

- ACCT 6605 - Negotiations for Financial Executives (2.0 cr)
- ANTH 5009 - Human Behavioral Biology (3.0 cr)
- CSPH 5000 - Explorations in Integrative Therapies and Healing Practices (1.0 - 4.0 cr)
- CSPH 5101 - Introduction to Integrative Healing Practices (3.0 cr)
- CSPH 5115 - Cultural Awareness, Knowledge and Health (3.0 cr)
- CSPH 5513 - Living Well, Dying Well: Empowering Patient Communication at the End of Life (2.0 cr)
- CSPH 5711 - Optimal Healing Environments (3.0 cr)
- CSPH 5806 - Wellbeing and Resiliency for Health Professionals (1.0 cr)
- ENTR 6020 - Business Formation (4.0 cr)
- FINA 6222 - Mergers and Acquisitions (2.0 cr)
- FINA 6241 - Corporate Financial Decisions and Analysis (4.0 cr)
- HINF 5430 - Foundations of Health Informatics I (3.0 cr)
- HINF 5531 - Health Data Analytics and Data Science (3.0 cr)
- MBA 6110 - Leading Others (2.0 cr)
- MBA 6112 - Leading Organizations (0.0 - 1.0 cr)
- MBA 6230 - Financial Management (3.0 cr)
- MBA 6300 - Strategic Management (3.0 cr)
- MBA 6504 - Carlson Consulting Enterprise (2.0 - 4.0 cr)
- MGMT 6004 - Negotiation Strategies (2.0 cr)
- MGMT 6032 - Strategic Alliances (2.0 cr)
- MGMT 6033 - Managing the Strategy Process (2.0 cr)
- MGMT 6034 - Strategic Leadership (2.0 cr)
- MGMT 6050 - Management of Innovation and Change (2.0 cr)
- MGMT 6084 - Management of Teams (2.0 cr)

Dual Degree MBA/MHA Electives

Dual Degree MBA/MHA Electives
Dual degree students may choose from the following list of electives.
Electives (11 credits)
Select coursework from the following in consultation with the advisor:
ANTH 5009 - Human Behavioral Biology (3.0 cr)
CSPH 5000 - Explorations in Integrative Therapies and Healing Practices (1.0 - 4.0 cr)
CSPH 5101 - Introduction to Integrative Healing Practices (3.0 cr)
CSPH 5115 - Cultural Awareness, Knowledge and Health (3.0 cr)
CSPH 5513 - Living Well, Dying Well: Empowering Patient Communication at the End of Life (2.0 cr)
CSPH 5711 - Optimal Healing Environments (3.0 cr)
HINF 5430 - Foundations of Health Informatics I (3.0 cr)
HINF 5531 - Health Data Analytics and Data Science (3.0 cr)
NURS 7606 - Relationship-Based Leadership and Management (3.0 cr)
PA 5108 - Board leadership development (1.0 cr)
PA 5926 - Presentation Skills: How to Inspire Your Audience and Change the World (1.0 cr)
PHAR 5201 - Applied Medical Terminology (2.0 cr)
PUBH 6020 - Fundamentals of Social and Behavioral Science (2.0 cr)
PUBH 6055 - Social Inequalities in Health (2.0 cr)
PUBH 6066 - Building Communities, Increasing Health: Preparing for Community Health Work (2.0 cr)
PUBH 6094 - Obesity and Eating Disorder Interventions (2.0 cr)
PUBH 6107 - Excel and Access Skills in Public Health Settings (1.0 cr)
PUBH 6131 - Working in Global Health (2.0 cr)
PUBH 6134 - Sustainable Development and Global Public Health (2.0 cr)
PUBH 6370 - Social Epidemiology (2.0 cr)
PUBH 6578 - Negotiation Strategies (2.0 cr)
PUBH 6606 - Children's Health: Life Course and Equity Perspectives (2.0 cr)
PUBH 6702 - Integrative Leadership Seminar (3.0 cr)
PUBH 6727 - Health Leadership and Effecting Change (2.0 cr)

PUBH 7565 - Innovation of Healthcare Services (2.0 cr)
PUBH 7584 - Health Care and Medical Needs (1.0 cr)
PUBH 7590 - Gerontology for Healthcare Managers (1.0 cr)
PUBH 7591 - Independent Study: Health Care Administration (1.0 - 4.0 cr)
Program Sub-plans
A sub-plan is not required for this program.
Students may not complete the program with more than one sub-plan.

Executive MHA Program
The Executive Master of Health Care Administration (EMHA) is delivered in a dynamic learning cohort model. Most of the coursework is online; students spend 26 days (five sessions) on campus over 25 months.

Executive MHA (42 credits)
Take the following courses. In consultation with the advisor, students must complete PUBH 7570 Topics courses:
1. Spring term -- Population Health (1 cr); and
2. Fall term -- Leading with Impact in Healthcare (1 cr).

- PUBH 7535 - Managerial Accounting for Health Services (3.0 cr)
- PUBH 7536 - Health Finance I (3.0 cr)
- PUBH 7537 - Health Finance II (3.0 cr)
- PUBH 7541 - Statistics for Health Management Decision Making (3.0 cr)
- PUBH 7542 - Quality Improvement and Patient Safety (2.0 cr)
- PUBH 7547 - Health Care Human Resource Management (2.0 cr)
- PUBH 7551 - Principles of Management in Health Services Organizations (2.0 cr)
- PUBH 7553 - Health Care Management Ethics (1.0 cr)
- PUBH 7554 - Health Care Strategy and Marketing (3.0 cr)
- PUBH 7555 - Topics in Health Economics (2.0 cr)
- PUBH 7556 - Health and Health Systems (2.0 cr)
- PUBH 7560 - Operations Research and Quality in Health Care (3.0 cr)
- PUBH 7562 - Information Technology in Health Care (2.0 cr)
- PUBH 7564 - Private Purchasers of Health Care (2.0 cr)
- PUBH 7565 - Innovation of Healthcare Services (2.0 cr)
- PUBH 7566 - Executive Capstone in Healthcare Leadership (2.0 cr)
- PUBH 7569 - Health Care Policy (1.0 cr)
- PUBH 7570 - Topics: Healthcare Administration (1.0 cr)
- PUBH 7576 - Legal Considerations in Health Services Organizations (2.0 cr)

- Program Type: Graduate free-standing minor
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 7
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The health equity minor promotes understanding of the root causes of health inequities and explores practice and policy solutions to eliminate health inequities.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Admission to the health equity minor is contingent upon enrollment in a University master's or doctoral degree-granting program.

Students should consult with their program advisor, prior to then contact the Health Equity director of graduate studies regarding requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

All minor coursework must be taken on the A-F grade basis, with a minimum grade of B- earned for each course, and a cumulative GPA of 3.00.

Minor Coursework
Required (1 credit)
- PUBH 6772 - Health Disparities Capstone Seminar (1.0 cr)

Additional Course (2-3 credits)
Select at least one course from list below:
- CSPH 5115 - Cultural Awareness, Knowledge and Health (3.0 cr)
- PUBH 6055 - Social Inequalities in Health (2.0 cr)
- PUBH 6066 - Building Communities, Increasing Health: Preparing for Community Health Work (2.0 cr)
- PUBH 6855 - Medical Sociology (3.0 cr)

Electives
Choose coursework to complete 7 credits for the masters minor, and 12 total credits for the doctoral minor. If PubH 6000, Topics:
Urban Health & Social Policy (2 cr).
GCC 5003 - Seeking Solutions to Global Health Issues [GP] (3.0 cr)
GCC 5028 - Harnessing the Power of Research, Community, Clinic and Policy to Build a Culture of Health [DSJ] (3.0 cr)
NURS 5033 - Population-Focused Health in Public Health and Mental Health Nursing (5.0 cr)
PA 5401 - Poverty, Inequality, and Public Policy (3.0 cr)
PA 5421 - Racial Inequality and Public Policy (3.0 cr)
PA 5451 - Immigration, Health and Public Policy (3.0 cr)
PA 5452 - Immigration and Public Policy (3.0 cr)
PUBH 6131 - Working in Global Health (2.0 cr)
PUBH 6242 - Cultural Humility with American Indian Populations (2.0 cr)
PUBH 6370 - Social Epidemiology (2.0 cr)
PUBH 6525 - Introduction to Population Health: A Health System (1.0 cr)
PUBH 6601 - Born a Girl: Global Women's Health (1.0 cr)
PUBH 6606 - Children's Health: Life Course and Equity Perspectives (2.0 cr)
PUBH 6607 - Adolescent Health: Issues, Programs, and Policies (2.0 cr)
PUBH 6634 - Children and Families: Public Health Policy and Advocacy (2.0 cr)
PUBH 6675 - Women's Health (2.0 cr)
PUBH 6703 - Health Impact Assessment: A Tool to Promote Health Equity (1.5 cr)
PUBH 6713 - Global Health in a Local Context (3.0 cr)
PUBH 6804 - Mental Health Policy (2.0 cr)
PUBH 6815 - Community-based Participatory Research (2.0 cr)
PUBH 7242 - War and Public Health (1.0 cr)
SOC 8211 - The Sociology of Race & Racialization (3.0 cr)
SOC 8735 - Sociology of Culture (3.0 cr)
SW 8551 - Advanced Community Practice: Assessment, Organizing, and Advocacy (3.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 34
- This program requires summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The MS in health services research, policy, and administration is for people with an analytical focus who enjoy research and data-driven approaches to solving health care problems.

The MS offers specializations that focus on health economics, access, quality, and social determinants of health, disparities, health policy, quality improvement, data science, analytics, and big data.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Good math skills are essential. Previous coursework in algebra, statistics, or other quantitative coursework is recommended.

Applicants must submit their test score(s) from the following:
- GRE
  - General Test - Verbal Reasoning: 153
  - General Test - Quantitative Reasoning: 144
  - General Test - Analytical Writing: 3.5

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7
- MELAB
  - Final score: 80

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements

Plan B: Plan B requires 34 major credits and 0 credits outside the major. The final exam is oral. A capstone project is required.

Capstone Project: The Plan B project comprises either an industry-specific project involving student collaboration with a local organization, or independent research conducted on a relevant topic of interest. The project is selected in consultation with and guided by the advisor.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

Good math skills are essential. Previous coursework in algebra, statistics, or other quantitative coursework is recommended.

Required Coursework (21-22 credits)

In consultation with the advisor, select at least 21 credits from the following list. Students must receive a B- or better for PubH 6450 and 6451. The majority of courses must be taken A/F.

- PUBH 6450 - Biostatistics I (4.0 cr)
- PUBH 6451 - Biostatistics II (4.0 cr)
- PUBH 6724 - The Health Care System and Public Health (3.0 cr)
- PUBH 6250 - Foundations of Public Health (2.0 cr)
- PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)
  or PUBH 6341 - Epidemiologic Methods I (3.0 cr)
- PUBH 6806 - Principles of Public Health Research (2.0 cr)
  or PUBH 6864 - Conducting Health Outcomes Research (3.0 cr)
- PUBH 6741 - Ethics in Public Health: Professional Practice and Policy (1.0 cr)
  or PUBH 6742 - Ethics in Public Health: Research and Policy (1.0 cr)

Plan B Project (2 credits)

Take 2 Plan B Project credits in consultation with the advisor.

Electives

Select remaining coursework from the recommended electives, or courses from any specialization, in consultation with the advisor to meet the 34-credit minimum.

- CSPH 5115 - Cultural Awareness, Knowledge and Health (3.0 cr)
  or PUBH 6055 - Social Inequalities in Health (2.0 cr)
  or PUBH 6066 - Building Communities, Increasing Health: Preparing for Community Health Work (2.0 cr)

  or PUBH 6852 - Program Evaluation in Health and Mental Health Settings (2.0 cr)
  or PUBH 6855 - Medical Sociology (3.0 cr)
  or PUBH 6862 - Cost-Effectiveness Analysis in Health Care (3.0 cr)
  or PUBH 6863 - Understanding Health Care Quality (2.0 cr)
  or PUBH 8802 - Health Services Policy Analysis: Applications (2.0 cr)

Specialization Areas
Choose coursework in consultation with the advisor to meet the 34-credit minimum.

**Cost Effectiveness**
- PUBH 6717 - Decision Analysis for Health Care (2.0 cr)
- PUBH 6809 - Advanced Methods in Health Decision Science (3.0 cr)
- PUBH 6832 - Economics of the Health Care System (3.0 cr)
- PUBH 6862 - Cost-Effectiveness Analysis in Health Care (3.0 cr)

-OR-

**Quality Improvement/Operations Research**
- PUBH 6560 - Operations Research and Quality in Health Care (3.0 cr)
- PUBH 6702 - Integrative Leadership Seminar (3.0 cr)
- PUBH 6727 - Health Leadership and Effecting Change (2.0 cr)
- PUBH 6765 - Continuous Quality Improvement: Methods and Techniques (3.0 cr)
- PUBH 6805 - Introduction to Project Management for Health Professionals (2.0 cr)

-OR-

**Health Economics**
Take PUBH 6862, and select either PUBH 6832 or PUBH 6555 in consultation with advisor.
- PUBH 6862 - Cost-Effectiveness Analysis in Health Care (3.0 cr)
- PUBH 6555 - Topics in Health Economics (2.0 cr)
  or PUBH 6832 - Economics of the Health Care System (3.0 cr)

-OR-

**Health Services Research and Evaluation**
- PUBH 6717 - Decision Analysis for Health Care (2.0 cr)
- PUBH 6803 - Conducting a Systematic Literature Review (3.0 cr)
- PUBH 6810 - Survey Research Methods (3.0 cr)
- PUBH 6845 - Using Demographic Data for Policy Analysis (3.0 cr)
- PUBH 6852 - Program Evaluation in Health and Mental Health Settings (2.0 cr)
- PUBH 6863 - Understanding Health Care Quality (2.0 cr)

-OR-

**Health Policy**
- PUBH 6078 - Public Health Policy as a Prevention Strategy (2.0 cr)
- PUBH 6711 - Public Health Law (2.0 cr)
- PUBH 6735 - Principles of Health Policy (3.0 cr)
- PUBH 8802 - Health Services Policy Analysis: Applications (2.0 cr)
- PUBH 6555 - Topics in Health Economics (2.0 cr)
  or PUBH 6634 - Children and Families: Public Health Policy and Advocacy (2.0 cr)
  or PUBH 6832 - Economics of the Health Care System (3.0 cr)

-OR-

**Social Determinants of Health**
- CSPH 5115 - Cultural Awareness, Knowledge and Health (3.0 cr)
- PUBH 6055 - Social Inequalities in Health (2.0 cr)
- PUBH 6066 - Building Communities, Increasing Health: Preparing for Community Health Work (2.0 cr)
- PUBH 6078 - Public Health Policy as a Prevention Strategy (2.0 cr)
- PUBH 6627 - Sexuality Education: Criteria, Curricula, and Controversy (1.0 cr)
- PUBH 6675 - Women's Health (2.0 cr)
- PUBH 6804 - Mental Health Policy (2.0 cr)
- PUBH 6855 - Medical Sociology (3.0 cr)

**Joint- or Dual-degree Coursework:** JD/MS-HSRP&A Students may take a total of 8 credits in common among the academic programs. Student may take a total of 8 credits in common among the academic programs.

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The health services research, policy, and administration minor is available to students who are interested in the social, political, and economic forces that affect the operations, financing, and delivery of health care. The minor offers a high degree of flexibility in course selection, tailored to students’ individual interests and goals.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
The health services research, policy, and administration graduate minor is contingent upon enrollment and good academic standing in a University master's or doctoral degree-granting program.

Students should confer with their program advisor about the advisability of an HSRP&A minor before contacting the HSRP&A director of graduate studies or graduate program coordinator. Approval of the HSRP&A director of graduate studies is required.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Coursework must be completed A-F with a minimum grade of B-.
Minimum GPA is 3.00 to graduate with the HSRPA Minor.

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters
Required Coursework (3 credits)
Take one of the following courses in consultation with the HSRP&A director of graduate studies:
PUBH 6556 - Health and Health Systems (3.0 cr)
PUBH 6724 - The Health Care System and Public Health (3.0 cr)

Electives (3 credits)
PUBH 6560 - Operations Research and Quality in Health Care (3.0 cr)
PUBH 6717 - Decision Analysis for Health Care (2.0 cr)
PUBH 6727 - Health Leadership and Effecting Change (2.0 cr)
PUBH 6735 - Principles of Health Policy (3.0 cr)
PUBH 6744 - State Health Policy and Politics (2.0 cr)
PUBH 6765 - Continuous Quality Improvement: Methods and Techniques (3.0 cr)
PUBH 6803 - Conducting a Systematic Literature Review (3.0 cr)
PUBH 6804 - Mental Health Policy (2.0 cr)
PUBH 6806 - Principles of Public Health Research (2.0 cr)
PUBH 6809 - Advanced Methods in Health Decision Science (3.0 cr)
PUBH 6810 - Survey Research Methods (3.0 cr)
PUBH 6815 - Community-based Participatory Research (2.0 cr)
PUBH 6832 - Economics of the Health Care System (3.0 cr)
PUBH 6845 - Using Demographic Data for Policy Analysis (3.0 cr)
PUBH 6852 - Program Evaluation in Health and Mental Health Settings (2.0 cr)
PUBH 6855 - Medical Sociology (3.0 cr)
PUBH 6862 - Cost-Effectiveness Analysis in Health Care (3.0 cr)
PUBH 6863 - Understanding Health Care Quality (2.0 cr)
PUBH 6864 - Conducting Health Outcomes Research (3.0 cr)
PUBH 6730 - International Comparative Health Systems (2.0 cr)
PUBH 6737 - Structural Racism and Health (2.0 cr)
PUBH 6805 - Introduction to Project Management for Health Professionals (2.0 cr)
PUBH 6713 - Global Health in a Local Context (3.0 cr)
PUBH 6745 - Rural Health (2.0 cr)

Doctoral

Required Coursework (12 credits)
Students choose, in consultation with the HSRP&A director of graduate studies, the minors standard curriculum or the health economics curriculum.

Option 1  Standard Curriculum

Required Coursework (5-6 credits)
Students completing the minors standard curriculum must take at least 5 credits from the following, in consultation with the HSRP&A director of graduate studies:
PUBH 6724 - The Health Care System and Public Health (3.0 cr)
or PUBH 6556 - Health and Health Systems (3.0 cr)
PUBH 8801 - Health Services Policy Analysis: Theory (1.0 cr)
or PUBH 8802 - Health Services Policy Analysis: Applications (2.0 cr)

Electives (6-7 credits)
PUBH 6717 - Decision Analysis for Health Care (2.0 cr)
PUBH 6744 - State Health Policy and Politics (2.0 cr)
PUBH 6803 - Conducting a Systematic Literature Review (3.0 cr)
PUBH 6804 - Mental Health Policy (2.0 cr)
PUBH 6809 - Advanced Methods in Health Decision Science (3.0 cr)
PUBH 6810 - Survey Research Methods (3.0 cr)
PUBH 6815 - Community-based Participatory Research (2.0 cr)
PUBH 6832 - Economics of the Health Care System (3.0 cr)
PUBH 6845 - Using Demographic Data for Policy Analysis (3.0 cr)
PUBH 6855 - Medical Sociology (3.0 cr)
PUBH 6862 - Cost-Effectiveness Analysis in Health Care (3.0 cr)
PUBH 6863 - Understanding Health Care Quality (2.0 cr)
PUBH 6864 - Conducting Health Outcomes Research (3.0 cr)
PUBH 6804 - Advanced Quantitative Methods Seminar (3.0 cr)
PUBH 6805 - Sociological Theory in Health Services Research (3.0 cr)
PUBH 6810 - Research Studies in Health Care (3.0 cr)
PUBH 6811 - Research Methods in Health Care (3.0 cr)
PUBH 6813 - Measurement of Health-Related Social Factors (3.0 cr)
PUBH 8821 - Health Economics II (3.0 cr)
PUBH 6737 - Structural Racism and Health (2.0 cr)
PUBH 8816 - Implementation Science in Public Health (2.0 cr)

or Option 2  Health Economics Curriculum

Required Coursework (6 credits)
Students completing the minors health economics curriculum take the following courses:
PUBH 6832 - Economics of the Health Care System (3.0 cr)
PUBH 8821 - Health Economics II (3.0 cr)

Electives (6 credits)

In consultation with the HSRP&A director of graduate studies, select at least 6 credits to meet the 12-credit minimum. PUBH 8821 is not an option for students who have, or are currently taking ECON 8101, 8102, 8103 or 8104.

PUBH 6862 - Cost-Effectiveness Analysis in Health Care (3.0 cr)
PUBH 8801 - Health Services Policy Analysis: Theory (1.0 cr)
PUBH 8811 - Research Methods in Health Care (3.0 cr)

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 71 to 88
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The health services research, policy, and administration doctoral program offers a multidisciplinary examination of the social, political, and economic forces that affect the organization, financing, and delivery of health care. Graduates will be in a position to apply learned research skills to influence policy and positively impact health care systems in various sectors, including universities, government agencies, think tanks, health insurance providers, managed care organizations, and consulting firms.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
The PhD program requires prerequisites in calculus and statistics. Applicants who have not completed the prerequisites, but are otherwise qualified for admission, are required to take relevant courses at the University or another accredited institution before beginning the program.

Special Application Requirements:
Students who wish to pursue the Health Policy and Analysis concentration area must complete PubH 6724 or PubH 6556 either before enrollment by the end of the first year of the doctoral program.

See www.sph.umn.edu for additional admission requirements.

Applicants must submit their test score(s) from the following:
- GRE
  - General Test - Verbal Reasoning: 153
  - General Test - Quantitative Reasoning: 144
  - General Test - Analytical Writing: 3.5

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7
- MELAB
  - Final score: 80

The preferred English language test is Test of English as Foreign Language
Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
47 to 64 credits are required in the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 4 semesters must be completed before filing a Degree Program Form.

All coursework must be completed A-F.

Core Coursework (25 credits)
Courses must be completed with a minimum B- grade.
Take all of the following core courses:
- PUBH 6250 - Foundations of Public Health (2.0 cr)
- PUBH 6742 - Ethics in Public Health: Research and Policy (1.0 cr)
- PUBH 6832 - Economics of the Health Care System (3.0 cr)
- PUBH 6855 - Medical Sociology (3.0 cr)
- PUBH 8341 - Advanced Epidemiologic Methods: Concepts (3.0 cr)
- PUBH 8801 - Health Services Policy Analysis: Theory (1.0 cr)
- PUBH 8810 - Research Studies in Health Care (3.0 cr)
- PUBH 8811 - Research Methods in Health Care (3.0 cr)
- PUBH 8830 - Writing for Research (2.0 cr)
- PUBH 8831 - Writing for Research (2.0 cr)

Econometrics and Biostatistics Requirement (8 credits)
Select APEC 8211 and 8212 or PUBH 7401 and 7402 in consultation with the advisor.
- Econometrics
  - APEC 8211 - Econometric Analysis I (2.0 cr)
  - APEC 8212 - Econometric Analysis II (2.0 cr)
- or Biostatistics
  - PUBH 7401 - Fundamentals of Biostatistical Inference (4.0 cr)
  - PUBH 7402 - Biostatistics Modeling and Methods (4.0 cr)

Thesis Credits (24 credits)
Take at least 24 doctoral thesis credits.
- PUBH 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)

Concentration Areas

Multidisciplinary Social Sciences (20-22 credits)
The Multidisciplinary Social Science concentration area is designed for doctoral students who want a broad introduction to analytic perspectives from economics, sociology, and political science, along with statistics and econometrics.

Required Coursework (6 credits)
Take the following courses:
- APEC 5151 - Applied Microeconomics: Firm and Household (3.0 cr)
- PUBH 8805 - Sociological Theory in Health Services Research (3.0 cr)

Required Theory Coursework (2-4 credits)
Select one of the following courses in consultation with the advisor:
- APEC 8203 - Applied Welfare Economics and Public Policy (3.0 cr)
- PUBH 6717 - Decision Analysis for Health Care (2.0 cr)
- PUBH 6809 - Advanced Methods in Health Decision Science (3.0 cr)
- PUBH 6862 - Cost-Effectiveness Analysis in Health Care (3.0 cr)
- PUBH 8804 - Advanced Quantitative Methods Seminar (3.0 cr)
- PUBH 8821 - Health Economics II (3.0 cr)
SOC 8701 - Sociological Theory (4.0 cr)
SOC 8721 - Social Psychology: Micro-Sociological Approaches to Inequalities and Identities (3.0 cr)

Electives (12 credits)
Select electives from the following list in consultation with the advisor:
APEC 8202 - Mathematical Optimization in Applied Economics (3.0 cr)
APEC 8206 - Dynamic Optimization: Applications in Economics and Management (3.0 cr)
ECON 8181 - Advanced Topics in Microeconomics (2.0 cr)
ECON 8182 - Advanced Topics in Microeconomics (2.0 cr)
ECON 8205 - Applied Econometrics (2.0 cr)
ECON 8206 - Applied Econometrics (2.0 cr)
ECON 8207 - Applied Econometrics (2.0 cr)
ECON 8208 - Applied Econometrics (2.0 cr)
IDSC 8511 - Conceptual Topics and Research Methods in Information and Decision Sciences (3.0 cr)
IDSC 8721 - Behavioral Decision Theory (3.0 cr)
MGMT 8302 - Seminar in Organizations Theory (4.0 cr)
PA 8302 - Applied Policy Analysis (4.0 cr)
PUBH 6803 - Conducting a Systematic Literature Review (3.0 cr)
PUBH 6810 - Survey Research Methods (3.0 cr)
PUBH 6845 - Using Demographic Data for Policy Analysis (3.0 cr)
PUBH 6863 - Understanding Health Care Quality (2.0 cr)
PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)
PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
PUBH 7450 - Survival Analysis (3.0 cr)
PUBH 8802 - Health Services Policy Analysis: Applications (2.0 cr)
PUBH 8813 - Measurement of Health-Related Social Factors (3.0 cr)
SOC 8101 - Sociology of Law (3.0 cr)
SOC 8211 - The Sociology of Race & Racialization (3.0 cr)
SOC 8290 - Topics in Race, Class, Gender and other forms of Durable Inequality (3.0 cr)
SOC 8311 - Political Sociology (3.0 cr)
SOC 8390 - Topics in Political Sociology (3.0 cr)
SOC 8412 - Social Network Analysis: Theory and Methods (3.0 cr)
SOC 8501 - Sociology of the Family (3.0 cr)
SOC 8551 - Life Course Inequality & Health (3.0 cr)
SOC 8731 - Sociology of Knowledge (3.0 cr)
SOC 8735 - Sociology of Culture (3.0 cr)

-OR-

Sociology of Health and Illness (18 credits)
The Sociology of Health and Illness concentration area emphasizes fundamental issues in medical sociology, such as social stratification, the social construction of health and illness, population dynamics, and demographic forces.

Required Coursework (6 credits)
Select at least 6 credits from the following list in consultation with the advisor:
MGMT 8302 - Seminar in Organizations Theory (4.0 cr)
PUBH 8805 - Sociological Theory in Health Services Research (3.0 cr)
SOC 8211 - The Sociology of Race & Racialization (3.0 cr)
SOC 8701 - Sociological Theory (4.0 cr)
SOC 8731 - Sociology of Knowledge (3.0 cr)

Electives (12 credits)
Specialization Coursework (9 credits)
Select at least 9 credits from the following list in consultation with the advisor:
IDSC 8721 - Behavioral Decision Theory (3.0 cr)
SOC 8101 - Sociology of Law (3.0 cr)
SOC 8290 - Topics in Race, Class, Gender and other forms of Durable Inequality (3.0 cr)
SOC 8311 - Political Sociology (3.0 cr)
SOC 8390 - Topics in Political Sociology (3.0 cr)
SOC 8412 - Social Network Analysis: Theory and Methods (3.0 cr)
SOC 8501 - Sociology of the Family (3.0 cr)
SOC 8551 - Life Course Inequality & Health (3.0 cr)
SOC 8735 - Sociology of Culture (3.0 cr)

Advanced Methodology Coursework (3 credits)
Select at least 3 credits from the following list in consultation with the advisor:
EPSY 5247 - Qualitative Methods in Educational Psychology (3.0 cr)
POL 8126 - Qualitative Methods (3.0 cr)
PSY 8881 - Seminar: Quantitative and Psychometric Methods (3.0 cr)
Health Decision Science (23 credits)
The Health Decision Science concentration area consists of a collection of quantitative methods used to evaluate decision making under uncertainty. There are many areas relevant to medical decision-making including decision analysis, cost-effectiveness analysis, disease simulation modeling, infectious disease modeling, quality-of-life assessment, utility elicitation, health outcomes assessment, and pharmacoeconomics.

Required Coursework (11 credits)
Take the following courses:
- PUBH 6717 - Decision Analysis for Health Care (2.0 cr)
- PUBH 6809 - Advanced Methods in Health Decision Science (3.0 cr)
- PUBH 6862 - Cost-Effectiveness Analysis in Health Care (3.0 cr)
Select one of the following courses in consultation with the advisor:
- IDSC 8511 - Conceptual Topics and Research Methods in Information and Decision Sciences (3.0 cr)
- IDSC 8721 - Behavioral Decision Theory (3.0 cr)

Electives (12 credits)
Select electives from the following list in consultation with the advisor. If PUBH 7401, 7402, 6809, or 6862 are completed as part of the required coursework, students will need to choose different course credits for electives.
- IE 5080 - Topics in Industrial Engineering (1.0 - 4.0 cr)
- IE 5111 - Systems Engineering I (2.0 cr)
- IE 5113 - Systems Engineering II (4.0 cr)
- IE 5441 - Financial Decision Making (4.0 cr)
- IE 5511 - Human Factors and Work Analysis (4.0 cr)
- IE 5522 - Quality Engineering and Reliability (4.0 cr)
- IE 5524 - Process Transformation through Lean Tools (2.0 cr)
- IE 5531 - Engineering Optimization I (4.0 cr)
- IE 5532 - Stochastic Models (4.0 cr)
- IE 5541 - Project Management (4.0 cr)
- IE 5545 - Decision Analysis (4.0 cr)
- IE 5551 - Production Planning and Inventory Control (4.0 cr)
- IE 5553 - Simulation (4.0 cr)
- IE 5561 - Analytics and Data-Driven Decision Making (4.0 cr)
- IE 5773 - Practice-focused Seminar (1.0 cr)
- PUBH 6803 - Conducting a Systematic Literature Review (3.0 cr)
- PUBH 6804 - Mental Health Policy (2.0 cr)
- PUBH 6805 - Introduction to Project Management for Health Professionals (2.0 cr)
- PUBH 6806 - Principles of Public Health Research (2.0 cr)
- PUBH 6810 - Survey Research Methods (3.0 cr)
- PUBH 6813 - Managing Electronic Health Information (2.0 cr)
- PUBH 6815 - Community-based Participatory Research (2.0 cr)
- PUBH 6845 - Using Demographic Data for Policy Analysis (3.0 cr)
- PUBH 6852 - Program Evaluation in Health and Mental Health Settings (2.0 cr)
- PUBH 6863 - Understanding Health Care Quality (2.0 cr)
- PUBH 6864 - Conducting Health Outcomes Research (3.0 cr)
- PUBH 7401 - Fundamentals of Biostatistical Inference (4.0 cr)
- PUBH 7402 - Biostatistics Modeling and Methods (4.0 cr)
- PUBH 7405 - Biostatistics: Regression (4.0 cr)
- PUBH 7406 - Advanced Regression and Design (4.0 cr)
- PUBH 7415 - Introduction to Clinical Trials (3.0 cr)
- PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)
- PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
- PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
- PUBH 7445 - Statistics for Human Genetics and Molecular Biology (3.0 cr)
- PUBH 7450 - Survival Analysis (3.0 cr)
- PUBH 7461 - Exploring and Visualizing Data in R (2.0 cr)
- PUBH 7462 - Advanced Programming and Data Analysis in R (2.0 cr)
- PUBH 7465 - Biostatistics Consulting (3.0 cr)
- PUBH 7470 - Study Designs in Biomedical Research (3.0 cr)
- PUBH 7475 - Statistical Learning and Data Mining (3.0 cr)
- PUBH 7485 - Methods for Causal Inference (3.0 cr)
Clinical Outcomes Research (31 credits)
The Clinical Outcomes Research concentration area is designed to train health services researchers who wish to study clinical care, costs and outcomes. Their research may be conducted using observational (quasi-experimental) studies, randomized clinical trials, or analyses of secondary data sets, including administrative data.

Required Coursework (19 credits)
Take the following courses:
- PUBH 6810 - Survey Research Methods (3.0 cr)
- PUBH 6864 - Conducting Health Outcomes Research (3.0 cr)
- PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
- PUBH 7450 - Survival Analysis (3.0 cr)
- PUBH 8342 - Advanced Epidemiologic Methods: Applications (3.0 cr)
- PUBH 8343 - Synthesis and Application of Methods in Epidemiologic Research (4.0 cr)

Electives (12 credits)
Select at least 12 credits from the following list in consultation with the advisor:
- PUBH 6717 - Decision Analysis for Health Care (2.0 cr)
- PUBH 6862 - Cost-Effectiveness Analysis in Health Care (3.0 cr)
- PUBH 6863 - Understanding Health Care Quality (2.0 cr)
- PUBH 8813 - Measurement of Health-Related Social Factors (3.0 cr)
- PUBH 6576 - Understanding Clinical Quality Using Administrative Data (2.0 cr)

Health Policy and Analysis (14 credits)
The Health Policy concentration area prepares students for careers in research, teaching, and public service in academic, governmental and public policy settings. The focus of this area includes multi-disciplinary training in the social sciences; application of quantitative research methods; rigorous writing and communication skill-based training.

Required Coursework (2 credits)
Take the following course:
- PUBH 8802 - Health Services Policy Analysis: Applications (2.0 cr)

Electives (12 credits)
Select at least 12 credits from the following list in consultation with the advisor. PUBH 6845 and 8804 are strongly recommended.
- PUBH 6717 - Decision Analysis for Health Care (2.0 cr)
- PUBH 6810 - Survey Research Methods (3.0 cr)
- PUBH 6845 - Using Demographic Data for Policy Analysis (3.0 cr)
- PUBH 6862 - Cost-Effectiveness Analysis in Health Care (3.0 cr)
- PUBH 8813 - Measurement of Health-Related Social Factors (3.0 cr)

Health Economics (31 credits)
Health Economics trains health economists who will rival PhDs from the top economics departments in competing for jobs in universities and research institutions. The curriculum includes a broad menu of health economics courses in addition to the multidisciplinary core courses. A minimum 78 credits is required for this emphasis area.

Required Course (3 credits)
Take the following course:
- PUBH 8821 - Health Economics II (3.0 cr)

Required Microeconomics Series (8 credits)
Select four courses from one of the following series, in consultation with the advisor, for a total of 8 credits:

Applied Microeconomics
- APEC 8001 - Applied Microeconomic Analysis of Consumer Choice and Consumer Demand (2.0 cr)
- APEC 8002 - Applied Microeconomic Analysis of Production and Choice Under Uncertainty (2.0 cr)
- APEC 8003 - Applied Microeconomic Analysis of Game Theory and Information (2.0 cr)
- APEC 8004 - Applied Microeconomic Analysis of Social Choice and Welfare (2.0 cr)

or

Required Microeconomic Theory Series
- ECON 8101 - Microeconomic Theory (2.0 cr)
- ECON 8102 - Microeconomic Theory (2.0 cr)
- ECON 8103 - Microeconomic Theory (2.0 cr)
- ECON 8104 - Microeconomic Theory (2.0 cr)

Required Coursework (8 credits)
Choose one of the following sequences in consultation with the advisor for a total of 8 credits:

Econometric Analysis
- APEC 8211 & 8212 are recommended.
- APEC 8211 - Econometric Analysis I (2.0 cr)
- APEC 8212 - Econometric Analysis II (2.0 cr)

or

Fundamentals of Biostatistical Inference
PUBH 7401 - Fundamentals of Biostatistical Inference (4.0 cr)
PUBH 7402 - Biostatistics Modeling and Methods (4.0 cr)

Electives (12 credits)
In consultation with academic advisor, students select minimum 12 total credits from the following list.
APEC 8202 - Mathematical Optimization in Applied Economics (3.0 cr)
APEC 8206 - Dynamic Optimization: Applications in Economics and Management (3.0 cr)
PUBH 8804 - Advanced Quantitative Methods Seminar (3.0 cr)

Econometric Analysis
If APEC 8211 & 8212 were completed as required courses, credits cannot count toward electives.
APEC 8211 - Econometric Analysis I (2.0 cr)
APEC 8212 - Econometric Analysis II (2.0 cr)

Applied Economics
ECON 8205 - Applied Econometrics (2.0 cr)
ECON 8206 - Applied Econometrics (2.0 cr)
ECON 8207 - Applied Econometrics (2.0 cr)
ECON 8208 - Applied Econometrics (2.0 cr)

Fundamentals of Biostatistical Inference
If PUBH 7401 & 7402 were completed as required courses, credits cannot count toward electives.
PUBH 7401 - Fundamentals of Biostatistical Inference (4.0 cr)
PUBH 7402 - Biostatistics Modeling and Methods (4.0 cr)

Other Electives
Select courses from the following list in consultation with the advisor, to complete the credit minimum:
APEC 8341 - Applied Public Finance (3.0 cr)
APEC 8501 - Labor Economics I (2.0 cr)
APEC 8502 - Labor Economics II (2.0 cr)
APEC 8602 - Economics of the Environment (3.0 cr)
APEC 8701 - Trade and Development I (2.0 cr)
APEC 8703 - Trade and Development II (2.0 cr)
APEC 8803 - Marketing Economics (3.0 cr)
ECON 8103 - Microeconomic Theory (2.0 cr)
ECON 8104 - Microeconomic Theory (2.0 cr)
ECON 8107 - Macroeconomic Theory (2.0 cr)
ECON 8108 - Macroeconomic Theory (2.0 cr)
ECON 8117 - Noncooperative Game Theory (2.0 cr)
ECON 8118 - Noncooperative Game Theory (2.0 cr)
ECON 8182 - Advanced Topics in Microeconomics (2.0 cr)
ECON 8186 - Advanced Topics in Macroeconomics (2.0 cr)
ECON 8192 - Workshop in Mathematical Economics (1.0 cr)
ECON 8312 - Economic Growth and Development (2.0 cr)
ECON 8391 - Workshop in Economic Growth and Development (1.0 cr)
ECON 8392 - Workshop in Economic Growth and Development (1.0 cr)
ECON 8401 - International Trade and Payments Theory (2.0 cr)
ECON 8402 - International Trade and Payments Theory (2.0 cr)
ECON 8403 - International Trade and Payments Theory (2.0 cr)
ECON 8491 - Workshop in Trade and Development (1.0 cr)
ECON 8492 - Workshop in Trade and Development (1.0 - 3.0 cr)
ECON 8501 - Wages and Employment (2.0 cr)
ECON 8502 - Wages and Employment (2.0 cr)
ECON 8503 - Wages and Employment (2.0 cr)
ECON 8581 - Advanced Topics in Labor Economics (2.0 cr)
ECON 8582 - Advanced Topics in Labor Economics (2.0 cr)
ECON 8601 - Industrial Organization and Government Regulation (2.0 cr)
ECON 8602 - Industrial Organization and Government Regulation (2.0 cr)
ECON 8603 - Industrial Organization and Government Regulation (2.0 cr)
ECON 8691 - Workshop in Applied Microeconomics (1.0 cr)
ECON 8692 - Workshop in Applied Microeconomics (1.0 cr)
ECON 8702 - Monetary Economics (2.0 cr)
ECON 8703 - Monetary Economics (2.0 cr)
ECON 8704 - Financial Economics (2.0 cr)
ECON 8705 - Financial Economics (2.0 cr)
ECON 8791 - Workshop in Macroeconomics (1.0 cr)
ECON 8792 - Workshop in Macroeconomics (1.0 cr)
ECON 8801 - Public Economics (2.0 cr)
ECON 8802 - Public Economics (2.0 cr)
ECON 8803 - Public Economics (2.0 cr)
PUBH 6862 - Cost-Effectiveness Analysis in Health Care (3.0 cr)

**Joint- or Dual-degree Coursework:** JD/PhD-Health Services Research Policy & Administration

Student may take a total of 12 credits in common among the academic programs.

- Program Type: Post-baccalaureate credit certificate/licensure/endorsement
- Requirements for this program are current for Fall 2020
- Length of program in credits: 14
- This program does not require summer semesters for timely completion.
- Degree: Management Fundamentals PBacc Certificate

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Management Fundamentals Certificate program provides students with the fundamentals of health care management. It includes coursework in the design of health care delivery systems, health economics, cost accounting in health care, introduction to health care finance, teamwork in health care, and an introduction to management principles in health care. The certificate includes select coursework from the School of Public Health's health care administration MHA degree - executive track, and is designed for individuals working in health care organizations and interested in developing a better understanding of management.

Accreditation
This program is accredited by Commission on Accreditation of Healthcare Management.

Program Delivery
This program is available:
- primarily online (at least 80% of the instruction for the program is online with short, intensive periods of face-to-face coursework)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Special Application Requirements:
Admission to the certificate is decided by the MHA faculty with the advice and counsel of an admissions committee. Admission to the certificate requires the following:
- a bachelor's degree from an accredited college or university
- at least three years of experience in a healthcare organization
- current employment in a healthcare organization which affords the opportunity to apply the assignments in the coursework, or an agreement with such an organization in which the applicant is not employed
- a letter of intent describing career interests and the relevance of the certificate to the applicant's personal development

Note: Students are expected to bring a personal computer to the on-campus sessions.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7
- MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).
For an online application or for more information about graduate education admissions, see the [General Information](#) section of the catalog website.

**Program Requirements**

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 4 semesters must be completed before filing a Degree Program Form.

All courses must be taken for an A-F grade.

**Required Coursework (14 credits)**

- PUBH 7565 - Innovation of Healthcare Services (2.0 cr)
- PUBH 7535 - Managerial Accounting for Health Services (3.0 cr)
- PUBH 7556 - Health and Health Systems (2.0 cr)
- PUBH 7551 - Principles of Management in Health Services Organizations (2.0 cr)
- PUBH 7536 - Health Finance I (3.0 cr)
- PUBH 7542 - Quality Improvement and Patient Safety (2.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 42 to 48
- This program requires summer semesters for timely completion.
- Degree: Master of Public Health

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The maternal and child health MPH program is a 48-credit program rooted in the principles of social justice and the programmatic and policy development needed to improve the health of women, children, fathers, and families around the world. The program focuses on public health skills development (program design and evaluation, advocacy, epidemiology) and maternal and child health (MCH) content (family health, reproductive health, infant and child health, adolescent health, social disparities, family systems, and women's health). Eligible students can complete an advanced-standing, 42-credit curriculum entirely online.

Accreditation
This program is accredited by Council on Education for Public Health (CEPH).

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- completely online (all program coursework can be completed online)
- primarily online (at least 80% of the instruction for the program is online with short, intensive periods of face-to-face coursework)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
At least one year of work or volunteer experience in a clinical, community-based, public health or managed-care agency/program that focuses on women, children, adolescents, and/or families.

Basic understanding of physiological and/or psychological human development as demonstrated by coursework, experience, and/or referenced readings.

Special Application Requirements:
Applicants to the advanced-standing option must hold either an advanced degree (e.g., MS, MD, MA, MSW) or have 3-5 years of experience directly related to maternal and child health.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of September 04, 2020
Total Score: 7

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan C: Plan C requires 42 to 48 major credits and up to null credits outside the major. There is no final exam. A capstone project is required.

Capstone Project: Students complete an Integrated Learning Experience (ILE) in consultation with the advisor.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.0 is required for students to remain in good standing.

Courses offered both A/F and S/N must be taken A/F, with a minimum grade of B- earned.

Public Health Core Requirements (16 credits)

Biostatistics (4 credits)
Select PUBH 6450 (4 credits) or PUBH 6414 (3 credits) plus one biostatistics programming course, in consultation with the advisor.
PUBH 6450 - Biostatistics I (4.0 cr)
or PUBH 6414 - Biostatistical Literacy (3.0 cr)

Biostatistics Programming
Students who take PUBH 6414 must select an additional course for at least 1 credit, in consultation with the advisor, from the following list:
PUBH 6107 - Excel and Access Skills in Public Health Settings (1.0 cr)
PUBH 6325 - Data Processing with PC-SAS (1.0 cr)
PUBH 6420 - Introduction to SAS Programming (1.0 cr)
PA 5929 - Data Visualization: Telling Stories with Numbers (2.0 cr)
PUBH 6123 - Violence Prevention and Control: Theory, Research, and Application (2.0 cr)

Epidemiology (3 credits)
Select one of the following courses in consultation with the advisor:
PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)
or PUBH 6341 - Epidemiologic Methods I (3.0 cr)

Administration/Management (2 credits)
Take the following course:
PUBH 6751 - Principles of Management in Health Services Organizations (2.0 cr)

Environmental Health (2 credits)
Take the following course:
PUBH 6102 - Issues in Environmental Health (2.0 cr)

Social and Behavioral Health (2 credits)
Take the following course:
PUBH 6020 - Fundamentals of Social and Behavioral Science (2.0 cr)

Ethics (1 credit)
Take the following course:
PUBH 6741 - Ethics in Public Health: Professional Practice and Policy (1.0 cr)

Foundations of Public Health (2 credits)
Take the following course:
PUBH 6250 - Foundations of Public Health (2.0 cr)

Maternal and Child Health Core Requirements (9-11 credits)
PUBH 6630 - Foundations of Maternal and Child Health Leadership (3.0 cr)

MCH Coursework (6-8 credits)
Students completing the standard program select 8 credits from the following list to meet the 11-credit MCH core requirement. Advanced-standing students select 6 credits to meet the 9-credit minimum required. Courses are selected in consultation with the advisor. PubH 6600 Topics, if selected, must be for 2 credits of Global Maternal and Child Health.
PUBH 6600 - Topics: Maternal and Child Health (0.5 - 4.0 cr)
PUBH 6605 - Reproductive and Perinatal Health (2.0 cr)
PUBH 6606 - Children's Health: Life Course and Equity Perspectives (2.0 cr)
PUBH 6607 - Adolescent Health: Issues, Programs, and Policies (2.0 cr)
PUBH 6613 - Children and Youth With Special Health Care Needs (2.0 cr)
PUBH 6675 - Women's Health (2.0 cr)
PUBH 6907 - Maternal, Infant, Child and Adolescent Nutrition (3.0 cr)

Methods and Analysis (5-8 credits)
Methods Required Course (2-3 credits)
Select one of the following courses in consultation with the advisor:
- PUBH 6034 - Evaluation (3.0 cr)
- PUBH 6852 - Program Evaluation in Health and Mental Health Settings (2.0 cr)

Methods Coursework (3-5 credits)
Students completing the standard program select 5 credits, and advanced-standing students select at least 3 credits from the following list. PUBH 6107, PUBH 6325, and PUBH 6420 may not be appropriate for students taking PUBH 6414 to complete the biostatistics programming requirement. Courses are selected in consultation with the advisor.
- PUBH 6035 - Evaluation II: Applications (3.0 cr)
- PUBH 6107 - Excel and Access Skills in Public Health Settings (1.0 cr)
- PUBH 6310 - Clinical Epidemiology I (1.0 cr)
- PUBH 6325 - Data Processing with PC-SAS (1.0 cr)
- PUBH 6342 - Epidemiologic Methods II (3.0 cr)
- PUBH 6389 - Nutritional Epidemiology (2.0 cr)
- PUBH 6420 - Introduction to SAS Programming (1.0 cr)
- PUBH 6451 - Biostatistics II (4.0 cr)
- PUBH 6636 - Qualitative Research Methods in Public Health Practice (2.0 cr)
- PUBH 6765 - Continuous Quality Improvement: Methods and Techniques (3.0 cr)
- PUBH 6803 - Conducting a Systematic Literature Review (3.0 cr)
- PUBH 6806 - Principles of Public Health Research (2.0 cr)
- PUBH 7250 - Designing and Conducting Focus Group Interviews (1.0 cr)
- PUBH 6311 - Clinical Epidemiology II (1.0 cr)
- PA 5929 - Data Visualization: Telling Stories with Numbers (2.0 cr)

Management, Communication, Policy and Advocacy Skills (4-6 credits)
Grant Writing (1 credit)
Take the following course:
- PUBH 6673 - Grant Writing for Public Health (1.0 cr)

Management, Communications, Policy and Advocacy (3 to 5 credits)
Students in the standard track should select a minimum of 5 credits from the following list. Students in the advanced-standing track should select a minimum of 3 credits from the following list.
- PUBH 6045 - Skills for Policy Development (1.0 cr)
- PUBH 6049 - Legislative Advocacy Skills for Public Health (3.0 cr)
- PUBH 6066 - Building Communities, Increasing Health: Preparing for Community Health Work (2.0 cr)
- PUBH 6074 - Mass Communication and Public Health (3.0 cr)
- PUBH 6078 - Public Health Policy as a Prevention Strategy (2.0 cr)
- PUBH 6627 - Sexuality Education: Criteria, Curricula, and Controversy (1.0 cr)
- PUBH 6711 - Public Health Law (2.0 cr)
- PUBH 6727 - Health Leadership and Effecting Change (2.0 cr)
- PUBH 6735 - Principles of Health Policy (3.0 cr)
- PUBH 6755 - Planning and Budgeting for Public Health (2.0 cr)
- PUBH 6955 - Using Policy to Address the Weight-Related Health of Child and Adolescent Populations (1.0 cr)
- PUBH 7691 - Independent Study: Maternal and Child Health (1.0 - 4.0 cr)
- PUBH 6055 - Social Inequalities in Health (2.0 cr)
- PUBH 6737 - Structural Racism and Health (2.0 cr)
- PUBH 6914 - Community Nutrition Intervention (3.0 cr)
- PUBH 6954 - Personal, Social and Environmental Influences on the Weight-Related Health of Pediatric Populations (2.0 cr)

Applied Practice (AP) Experience (1 credit)
Take at least one AP credit in consultation with the advisor.
- PUBH 7696 - Applied Practice Experience: Maternal and Child Health (1.0 - 5.0 cr)

Integrated Learning Experience (ILE) (1 credit)
Take at least one ILE credit in consultation with the advisor.
- PUBH 7694 - Integrative Learning Experience: Maternal and Child Health (1.0 - 4.7 cr)

Electives
Select electives in consultation with the advisor to complete 48-credit minimum for the standard program or the 42-credit minimum for the advanced-standing program.
CSPH 5111 - Ways of Thinking about Health (2.0 cr)
CSPH 5115 - Cultural Awareness, Knowledge and Health (3.0 cr)
CSPH 5118 - Whole Person, Whole Community: The Reciprocity of Wellbeing (3.0 cr)
CSPH 5215 - Forgiveness and Healing: A Journey Toward Wholeness (3.0 cr)
CSPH 5305 - Introduction to Integrative Mental Health (2.0 cr)
CSPH 5701 - Fundamentals of Health Coaching I (4.0 cr)
CSPH 5702 - Fundamentals of Health Coaching II (4.0 cr)
CSPH 5703 - Advanced Health Coaching Practicum (3.0 cr)
CSPH 5704 - Business of Health Coaching (2.0 cr)
CSPH 5706 - Lifestyle Medicine (2.0 cr)
CSPH 5707 - Coaching People with Clinical Conditions (2.0 cr)
CSPH 5708 - Mind-Body Science and the Art of Transformation (1.0 cr)
CSPH 5709 - Health and Wellbeing Group Coaching (2.0 cr)
CSPH 5713 - Health Coaching for Health Professionals (2.0 cr)
CSPH 5715 - Wellbeing in the Workplace (3.0 cr)
CSPH 5806 - Wellbeing and Resiliency for Health Professionals (1.0 cr)
CSPH 5807 - Mindfulness in the Workplace: Pause, Practice, Perform (2.0 cr)
CSPH 5905 - Food Matters: Cook Like Your Life Depends On It (1.0 cr)
EPSY 5114 - Psychology of Student Learning (3.0 cr)
EPSY 5247 - Qualitative Methods in Educational Psychology (3.0 cr)
EPSY 5609 - Family-centered Services (3.0 cr)
EPSY 8251 - Statistical Methods in Education I (3.0 cr)
EPSY 8264 - Advanced Multiple Regression Analysis (3.0 cr)
EPSY 8282 - Statistical Analysis of Longitudinal Data (3.0 cr)
FSCN 5131 - Food Quality for Graduate Credit (3.0 cr)
FSCN 5312 - Food Analysis (4.0 cr)
FSCN 5601 - Management of Eating Disorders (3.0 cr)
FSOS 5014 - Quantitative Family Research Methods I (3.0 cr)
FSOS 5015 - Family Research Laboratory (1.0 cr)
FSOS 5111 - Introduction to Family Therapy (3.0 cr)
FSOS 5701 - Prevention Science: Principles and Practices (3.0 cr)
FSOS 5937 - Parent-Child Interaction (3.0 cr)
FSOS 5942 - Diverse Family Experiences (3.0 cr)
FSOS 5944 - Curricular Design in Parent Education (3.0 cr)
FSOS 5945 - Teaching and Learning in Parent Education (3.0 cr)
FSOS 5946 - Assessment and Evaluation in Parent Education (3.0 cr)
FSOS 8001 - Conceptual Frameworks in the Family (3.0 cr)
FSOS 8002 - Advanced Family Conceptual Frameworks (3.0 cr)
FSOS 8014 - Quantitative Family Research Methods II (3.0 cr)
FSOS 8036 - Couple/Marriage and Family Therapy Research (3.0 cr)
FSOS 8101 - Family Stress, Coping, and Adaptation (3.0 cr)
HINF 5430 - Foundations of Health Informatics I (3.0 cr)
HINF 5431 - Foundations of Health Informatics II (3.0 cr)
HINF 5440 - Foundations of Translational Bioinformatics (3.0 cr)
HINF 5450 - Foundations of Precision Medicine Informatics (3.0 cr)
HINF 5502 - Python Programming Essentials for the Health Sciences (1.0 cr)
HINF 5510 - Applied Health Care Databases: Database Principles and Data Evaluation (3.0 cr)
HINF 5520 - Informatics Methods for Health Care Quality, Outcomes, and Patient Safety (2.0 cr)
HINF 5531 - Health Data Analytics and Data Science (3.0 cr)
HINF 5610 - Foundations of Biomedical Natural Language Processing (3.0 cr)
HINF 5620 - Data Visualization for the Health Sciences (3.0 cr)
HINF 5630 - Clinical Data Mining (3.0 cr)
HSEX 6001 - Foundations of Human Sexuality (3.0 cr)
HSEX 6011 - Policy in Human Sexuality: Cutting Edge Analyses (3.0 cr)
HSEX 6012 - Sexual Function and Dysfunction (3.0 cr)
HSEX 6013 - Perspectives and Practices in Sexuality Education (3.0 cr)
LAW 6036 - Reproductive Rights (3.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 42 to 44
- This program requires summer semesters for timely completion.
- Degree: Master of Public Health

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The public health administration and policy MPH is a 44-credit program that provides core knowledge about managing organizations and influencing policy to improve population health.

The curriculum emphasizes the skills necessary for population-focused management, policy development, and evidence-based public health. Graduates work in government agencies, nonprofits, health care systems, and for-profit organizations that seek to improve the health of populations.

A 42-credit executive public health administration and policy MPH, designed for working professionals, is available.

Accreditation
This program is accredited by Council on Education for Public Health (CEPH).

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- completely online (all program coursework can be completed online)
- primarily online (at least 80% of the instruction for the program is online with short, intensive periods of face-to-face coursework)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Special Application Requirements:
Additional Executive PHAP requirements:
- at least 3 years removed from the completion of the undergraduate degree
- a minimum 3.00 undergraduate GPA
- employment or volunteer work in a field related to public health

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7
- MELAB
Program Requirements

Plan C: Plan C requires 42 to 44 major credits and up to null credits outside the major. There is no final exam. A capstone project is required.

Capstone Project: Students complete an Integrated Learning Experience (ILE) in consultation with the advisor.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

Courses must be taken A/F unless offered only S/N. Minimum grade of B- must be earned for required courses.

Public Health Core Requirements (17 credits)

Required Coursework (9 credits)

A minimum grade of B- is required.

- PUBH 6020 - Fundamentals of Social and Behavioral Science (2.0 cr)
- PUBH 6250 - Foundations of Public Health (2.0 cr)
- PUBH 6741 - Ethics in Public Health: Professional Practice and Policy (1.0 cr)
- PUBH 6751 - Principles of Management in Health Services Organizations (2.0 cr)
- PUBH 6102 - Issues in Environmental Health (2.0 cr)

Biostatistics Requirement

Take a biostatistics course and the biostatistics programming course. A minimum grade of B- is required.

- Biostatistics Course (3 - 4 credits)
  - PUBH 6450 - Biostatistics I (4.0 cr)
  - or PUBH 6414 - Biostatistical Literacy (3.0 cr)

- Biostatistics Programming Course (2 credits)
  - PUBH 6755 - Planning and Budgeting for Public Health (2.0 cr)

Epidemiology (3 credits)

Take 1 of the following courses. A minimum grade of B- is required.

- PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)
- or PUBH 6341 - Epidemiologic Methods I (3.0 cr)

Applied Practice Experience (2 credits)

Take the following course in consultation with the advisor:

- PUBH 7796 - Applied Practice Experience: Public Health Administration and Policy (2.0 cr)

Integrative Learning Experience (2 credits)

Take 2 ILE credits in consultation with the advisor.

- PUBH 7794 - Integrative Learning Experience: Public Health Administration and Policy (2.0 cr)

PHAP Core Requirements (12 credits)

Take all of the following courses:

- PUBH 6724 - The Health Care System and Public Health (3.0 cr)
- PUBH 6727 - Health Leadership and Effecting Change (2.0 cr)
- PUBH 6735 - Principles of Health Policy (3.0 cr)
- PUBH 6806 - Principles of Public Health Research (2.0 cr)

Seminar (2 credits)

Students take this course twice for a total of two credits.

- PUBH 7784 - Master's Project Seminar: PHAP and HSRP&A (1.0 cr)

Electives (10 to 11 credits)

Take courses from the list below, or other coursework in consultation with the advisor.

- JOUR 5542 - Theory-based Health Message Design (3.0 cr)
- LAW 6036 - Reproductive Rights (3.0 cr)
- MILI 6421 - Healthcare Law: Strategic and Business Implications (2.0 cr)

**Program Sub-plans**

A sub-plan is not required for this program. Students may not complete the program with more than one sub-plan.

**Executive Public Health Administration and Policy**

This sub-plan is limited to students completing the program under Plan C.

The Executive Public Health Administration & Policy (E-PHAP) MPH program is tailored to working public and population health professionals currently in or seeking leadership roles in government agencies, nonprofits, health systems, and other organizations that aim to improve the health of populations. The program is designed for early and mid-career professionals who have at least three years of professional experience and who are committed to managing organizations that improve public and population health. The E-PHAP degree is a 42-credit program designed to be completed in 25 months. Students enrolled in the program will spend 17
days on campus where they will complete four intensive (7 credits total) in-person courses that include an online component. The remainder of the program is delivered in an online environment.

**Public Health Core Requirements (17 to 18 credits)**
Take the following courses. A minimum grade of B- must be earned for each course.

**Required Coursework (12 credits)**
- PUBH 6020 - Fundamentals of Social and Behavioral Science (2.0 cr)
- PUBH 6102 - Issues in Environmental Health (2.0 cr)
- PUBH 6250 - Foundations of Public Health (2.0 cr)
- PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)
- PUBH 6741 - Ethics in Public Health: Professional Practice and Policy (1.0 cr)
- PUBH 6751 - Principles of Management in Health Services Organizations (2.0 cr)

**Biostatistics Requirement**
Take a biostatistics course and the biostatistics programming course. A minimum grade of B- is required.

- **Biostatistics Course** (3 - 4 credits)
  - PUBH 6450 - Biostatistics I (4.0 cr)
  - or PUBH 6414 - Biostatistical Literacy (3.0 cr)

- **Biostatistics Programming Course** (2 credits)
  - PUBH 6755 - Planning and Budgeting for Public Health (2.0 cr)

**Integrated Learning Experience (2 credits)**
Take 2 ILE credits in consultation with the advisor.
- PUBH 7794 - Integrative Learning Experience: Public Health Administration and Policy (2.0 cr)

**E-PHAP Core Courses (18 credits)**
Take the following courses. A minimum grade of B- must be earned for each course.
- PUBH 6724 - The Health Care System and Public Health (3.0 cr)
- PUBH 6727 - Health Leadership and Effecting Change (2.0 cr)
- PUBH 6735 - Principles of Health Policy (3.0 cr)
- PUBH 6765 - Continuous Quality Improvement: Methods and Techniques (3.0 cr)
- PUBH 7710 - Setting Priorities and Framing Public Health Issues (2.0 cr)
- PUBH 7720 - Data to Drive Public Health (2.0 cr)
- PUBH 7730 - Public Health Laws, Rules, and Regulations (1.0 cr)
- PUBH 7740 - Leadership and Leading Change (2.0 cr)

**Applied Practice Experience (2 credits)**
Take 2 credits in consultation with the advisor.
- PUBH 7796 - Applied Practice Experience: Public Health Administration and Policy (2.0 cr)

**Electives**
Select electives in consultation with the advisor as needed to complete the 42-credit requirement.
- LAW 6036 - Reproductive Rights (3.0 cr)
- MILI 6411 - Healthcare Law: Strategic and Business Implications (2.0 cr)
- MILI 6992 - Healthcare Delivery Innovations: Optimizing Cost and Quality (2.0 cr)
- MILI 6995 - Medical Industry Valuation Laboratory (2.0 cr)
- PA 5451 - Immigration, Health and Public Policy (3.0 cr)
- PUBH 6060 - Motivational Interviewing: Strategies to Effect Behavior Change (1.0 cr)
- PUBH 6074 - Mass Communication and Public Health (3.0 cr)
- PUBH 6078 - Public Health Policy as a Prevention Strategy (2.0 cr)
- PUBH 6108 - Foundations of Global Health (2.0 cr)
- PUBH 6131 - Working in Global Health (2.0 cr)
- PUBH 6135 - Job Search Strategies and Career Professional Development (1.0 cr)
- PUBH 6365 - Global Challenges in Infectious Disease Epidemiology (2.0 cr)
- PUBH 6381 - Genetics in Public Health in the Age of Precision Medicine (2.0 cr)
- PUBH 6387 - Cancer Epidemiology (2.0 cr)
- PUBH 6576 - Understanding Clinical Quality Using Administrative Data (2.0 cr)
- PUBH 6606 - Children's Health: Life Course and Equity Perspectives (2.0 cr)
- PUBH 6627 - Sexuality Education: Criteria, Curricula, and Controversy (1.0 cr)
- PUBH 6702 - Integrative Leadership Seminar (3.0 cr)
- PUBH 6711 - Public Health Law (2.0 cr)
- PUBH 6730 - International Comparative Health Systems (2.0 cr)
- PUBH 6815 - Community-based Participatory Research (2.0 cr)
- PUBH 6855 - Medical Sociology (3.0 cr)
- PUBH 6863 - Understanding Health Care Quality (2.0 cr)
- PUBH 7214 - Principles of Risk Communication (1.0 cr)
- PUBH 7227 - Incident Management Systems: The Public Health Role (1.0 cr)
- PUBH 7235 - Surveillance of Zoonotic Pathogens in Animals (1.0 cr)
- PUBH 7242 - War and Public Health (1.0 cr)
- PUBH 7250 - Designing and Conducting Focus Group Interviews (1.0 cr)

- Program Type: Post-baccalaureate credit certificate/licensure/endorsement
- Requirements for this program are current for Fall 2020
- Length of program in credits: 15
- This program does not require summer semesters for timely completion.
- Degree: Public Health Core Concepts PBacc Certificate

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The certificate program offers students the opportunity to gain the expertise in population science that is increasingly valued in public health, health care, and human services settings. Students can apply the knowledge and skills related to understanding, assessing, and managing population health to enhance effectiveness in their current work and expand opportunities for their chosen career path.

Accreditation
This program is accredited by Council on Education for Public Health (CEPH)

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- completely online (all program coursework can be completed online)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Completed baccalaureate degree required. Strong writing skills, strong math and science grades, and related work experience preferred.

Special Application Requirements:
Applicants must submit to SOPHAS Express, a centralized online application service:
- Completed SOPHAS Express application and application fee, designating the University of Minnesota School of Public Health
- Personal statement describing the applicant’s reason for applying, career goals, and how the certificate will help them achieve their goals
- One letter of recommendation
- Official transcripts will need to be sent directly to the School of Public Health.
- Resume or C.V.

For detailed application requirements and instructions visit www.sph.umn.edu.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of September 04, 2020
- Total Score: 7

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

A minimum grade of B- is required for all courses taken.

Required Coursework (15-16 credits)
- Public Health Courses (9 credits)
  - PUBH 6020 - Fundamentals of Social and Behavioral Science (2.0 cr)
  - PUBH 6102 - Issues in Environmental Health (2.0 cr)
  - PUBH 6250 - Foundations of Public Health (2.0 cr)

- Degree: Public Health Food Protection PBacc Certificate

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

NOTE: Applications are not being accepted at this time.

The Public Health Food Protection certificate is designed for professionals working in health or human services. It prepares public health workers and others to respond to incidents of bioterrorism, infectious disease outbreaks, and other emerging public health issues. Many students use the knowledge and skills gained to enhance opportunities in their current work or career path.

The curriculum can be completed by attending at least two sessions of the Public Health Institute, held in May and June every year.

Accreditation
This program is accredited by Council on Education for Public Health (CEPH)

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
NOTE: Applications are not being accepted at this time.

Special Application Requirements:
Applicants must submit to SOPHAS Express, a centralized online application service:
- Completed SOPHAS Express application and application fee, designating the University of Minnesota School of Public Health
- Personal statement describing the applicant's reason for applying, career goals, and how the certificate will help them achieve their goals
- One letter of recommendation
- Unofficial transcripts of record from each college/university where a degree was earned. (If admitted, official transcripts will need to be sent directly to the School of Public Health.)
- Resume or C.V.

For detailed application instructions and requirements visit www.sph.umn.edu.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

Required Coursework
- PUBH 7210 - Topics: Global Food Systems (0.5 cr)
- PUBH 7213 - Applications of Microbiology to Food Systems Monitoring (1.0 cr)
- PUBH 7214 - Principles of Risk Communication (1.0 cr)
- PUBH 7215 - Food Safety: Risk Assessment and Risk Management (1.0 cr)
- PUBH 7233 - Food System Defense: Vulnerabilities in the Food System (1.5 cr)
- PUBH 6181 - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
- PUBH 7231 - Surveillance of Foodborne Diseases in Humans (1.0 cr)
- PUBH 7200 - Topics: Public Health Practice (0.5 - 4.0 cr)
- PUBH 6711 - Public Health Law (2.0 cr)
- PUBH 6182 - Emerging Infectious Disease: Current Issues, Policies, and Controversies (3.0 cr)

Elective Courses
In consultation with academic advisor, students select minimum 5 elective credits.

The pre-approved Topics courses are:
- PUBH 7200 The Politics of Policy, Turning Good Ideas into Better Health (1 cr)
- PUBH 7200 Food Labeling and Nutrition and Law (1 cr)
- PUBH 7200 Epidemiology and Ecology of Mycobacterial Diseases (1 cr)
- PUBH 7200 Global Studies in Infectious Disease (1 cr)
- PUBH 7200 Understanding the Emergence of Zoonotic Diseases (1 cr)
- PUBH 7217 - Advances in Molecular Epidemiological Analysis (1.0 cr)
  or PUBH 7232 - Surveillance of Foodborne Diseases in Animals and Plants (1.0 cr)
  or PUBH 7230 - Topics in Infectious Disease (0.5 - 4.0 cr)
  or PUBH 7231 - Surveillance of Foodborne Diseases in Humans (1.0 cr)
  or PUBH 7200 - Topics: Public Health Practice (0.5 - 4.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 43
- This program does not require summer semesters for timely completion.
- Courses are available both on campus and in a hybrid format where students attend classes remotely using WebEx or similar technology.
- Degree: Master of Public Health

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Information is key to effective public health administration. Surveillance systems provide information on infectious disease tracking, disease clusters, food-borne outbreaks, and injuries. Environmental monitoring systems provide information on health risks such as toxic chemicals or airborne pollutants. Registries contain information on vital statistics such as birth, death, and immunization. E-Public Health integrates information from electronic health records to use in improving population health.

Students pursuing the MPH in Public Health Informatics (MPH-PHI) learn how to manage public health information systems, including vital statistics systems, online analytical processing tools, immunization registries, population health surveillance, community health information networks, and more.

The MPH-PHI is offered both in-person and fully online. This program will prepare you to:

- Understand the significance of the various public health information systems and how to leverage these systems to improve health of the public
- Conceive, design, develop, implement, and use IT by applying informatics skills to population health
- Manage information systems within an organization or network of organizations
- Create state-of-the-art solutions at the intersection of informatics and global public health

Accreditation
This program is accredited by CEPH (Council on Education for Public Health)

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
All application materials are submitted directly to SOPHAS:
Statement of purpose and objectives: Provide an essay describing your past education, experience, and current professional career objectives. You are encouraged to comment on any or all of the following: plans you have to use your education and training; the needs and/or challenges you perceive as important in your field of study; and any personal qualities, characteristics, and skills you believe will enable you to be successful in your chosen field of study.
Resume or CV
Official post-secondary transcripts from all US institutions attended (must be sent directly from the institutions to SOPHAS). This
includes previous study at the University of Minnesota. Three letters of recommendation from persons qualified to assess your academic work; clinical, public health, or professional experiences; or leadership potential in public health.

Applicants must submit their test score(s) from the following:

- GRE
  - General Test - Verbal Reasoning: 150
  - General Test - Quantitative Reasoning: 150
  - General Test - Analytical Writing: 3.5

International applicants must submit score(s) from one of the following tests:

- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (GRE, TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan C: Plan C requires 43 major credits and up to null credits outside the major. There is no final exam. A capstone project is required.

Capstone Project: The purpose of the master's project is to enable students to demonstrate: familiarity with the tools of research and scholarship in the field of public health informatics; the ability to work independently; the ability to plan and carry out a systematic investigation related to a public health issue; and the ability to effectively present, in written and oral form, the results of their investigation.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

Required Coursework

M.P.H. Core Coursework

Students must satisfy competency requirements in the six core areas of public health - administration, behavioral science, biostatistics, environmental health, epidemiology, and ethics.

Take 15 credits of MPH core courses from the following list:

Administration

- PUBH 6751 - Principles of Management in Health Services Organizations (2.0 cr)

Behavioral Science

- PUBH 6020 - Fundamentals of Social and Behavioral Science (2.0 cr)

Biostatistics

- PUBH 6450 - Biostatistics I (4.0 cr)

Environmental Health

- PUBH 6101 - Environmental Health (2.0 cr)
  or PUBH 6102 - Issues in Environmental Health (2.0 cr)

Ethics

- PUBH 6741 - Ethics in Public Health: Professional Practice and Policy (1.0 cr)
  or PUBH 6742 - Ethics in Public Health: Research and Policy (1.0 cr)

Epidemiology

- PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)
  or PUBH 6341 - Epidemiologic Methods I (3.0 cr)

Public Health Informatics Core Coursework

Take 21 credits of PHI core courses from the following list:

- HINF 5430 - Foundations of Health Informatics I (3.0 cr)
**Program Sub-plans**

A sub-plan is not required for this program. Students may complete the program with more than one sub-plan.

**Health Disparities Interdisciplinary Concentration Area**
The Health Disparities Interdisciplinary Concentration (HDIC) addresses the unequal burden of health risks, morbidity, and mortality experienced by minority cultural and social groups in the US, as well as unequal quality of and access to health care. Achieving optimum health for all segments of society is a central goal of Healthy People 2020, and a concern in Minnesota as well. Despite Minnesota’s ranking as one of the nation’s healthiest states, Minnesota has some of the largest gaps among cultural and social groups in health indicators.

SPH graduate students must complete a formal program plan if they want the HDIC to appear on their transcripts. For more information, contact Carol Francis, interdisciplinary concentrations coordinator, at franc004@umn.edu or 612-624-6952.

**Public Health Policy Interdisciplinary Concentration Area**
The School of Public Health's Public Health Policy Interdisciplinary Concentration (PHPIC) focuses on promoting the health of populations and groups through public and organizational policy. PHPIC is open to students pursuing an MPH, includes coursework that explores the way in which federal, state, local, and institutional entities affect the financing, structure, and delivery of public health and medical care. PHPIC coursework provides a better understanding of the health care system as a whole and prevention policy. The challenging curriculum helps MPH majors hone practical skills that are highly sought after in the public health and policy arenas.

Students who pursue the concentration can choose courses that emphasize:

- Understanding community dynamics
- Developing advocacy skills for public health
- Analyzing legal and policy structures
- Evaluating and implementing policies and programs
- Influencing community health
- Motivating and educating stakeholders and decision-makers
- Using policy as prevention strategy

Eliminating health disparities through policy SPH graduate students must complete a formal program plan if they want the PHPIC to appear on their transcripts. For more information, contact Carol Francis, interdisciplinary concentrations coordinator, at franc004@umn.edu or 612-624-6952.

• Requirements for this program are current for Fall 2020
• Length of program in credits: 13
• This program does not require summer semesters for timely completion.
• Degree: Public Health Informatics PostBaccalaureate Cert

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

NOTE: Applications to the Public Health Informatics Certificate program are not being accepted at this time. For more information, please contact sph-ask@umn.edu.

The certificate in public health informatics (Cert-PHI) is a 9-12 month program designed to prepare professionals for leadership positions that bridge information technology and public health.

Students who complete the certificate will be able to implement and manage public health information systems, including: vital statistics systems, online analytic processing tools that support decision-making, immunization registries, population health surveillance, community health information networks, and electronic public health data interchange.

This certificate is awarded upon successful completion of 12 credits. We expect students who complete the Cert-PHI to have expanded and supplemented their current domain knowledge in a way that opens up new corridors of discovery and employment for them.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)
• partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Baccalaureate degree or higher

Other requirements to be completed before admission:

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

In addition to the required courses specified below, Cert PHI students are strongly encouraged to take the following course as most work in PHI involves projects:

PUBH 6805 - Project Management for Health Professionals (2.0 cr).

Required Coursework

HINF 5430 - Foundations of Health Informatics I (3.0 cr)
PUBH 6813 - Managing Electronic Health Information (2.0 cr)
PUBH 6814 - Data and Information for Population Health Management (2.0 cr)
PUBH 6876 {Inactive}(2.0 cr)
PUBH 6877 - Public Health Systems Analysis and Design - Practicum (2.0 cr)
PUBH 6880 - Introduction to Public Health Informatics (2.0 cr)

Website: http://www.sph.umn.edu

- Program Type: Graduate free-standing minor
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 8
- Length of program in credits (Doctorate): 14
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The graduate minor in public health is designed to prepare professionals in health and other fields (e.g., law, business, architecture, urban planning, teaching and engineering, including dual-degree students) to understand how their professional activities impact the health of communities, and to work together across disciplines, organizations, and sectors on innovative strategies to improve population health.

Accreditation
This program is accredited by Council on Education for Public Health (CEPH)

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- completely online (all program coursework can be completed online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Admission to the public health graduate minor is contingent upon enrollment in a master's or doctoral degree-granting program at the University of Minnesota. Students enrolled in graduate programs within the School of Public Health are not eligible for this minor.

Consult with your advisor and the public health director of graduate studies regarding the option of a minor in public health.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Required courses must be taken A/F, and a minimum grade of B- must be earned.
The overall minimum GPA for coursework applied to the minor is 3.0.

Required Coursework (8 credits)
All students take 8 credits from the following:
Required Course
Take the following course:
PUBH 6102 - Issues in Environmental Health (2.0 cr)
Take one of the following courses:
- PUBH 6414 - Biostatistical Literacy (3.0 cr)
- or PUBH 6450 - Biostatistics I (4.0 cr)

Epidemiology Course
Take one of the following courses:
- PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)
- or PUBH 6341 - Epidemiologic Methods I (3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Doctoral Electives (6 credits)
Select 6 credits, in consultation with the Public Health director of graduate studies, to complete the 14-credit requirement.
- PUBH 6034 - Evaluation (3.0 cr)
- PUBH 6055 - Social Inequalities in Health (2.0 cr)
- PUBH 6066 - Building Communities, Increasing Health: Preparing for Community Health Work (2.0 cr)
- PUBH 6074 - Mass Communication and Public Health (3.0 cr)
- PUBH 6078 - Public Health Policy as a Prevention Strategy (2.0 cr)
- PUBH 6108 - Foundations of Global Health (2.0 cr)
- PUBH 6112 - Environmental Health Risk Assessment: Application to Human Health Risks from Exposure to Chemicals (2.0 cr)
- PUBH 6120 - Injury Prevention in the Workplace, Community, and Home (2.0 cr)
- PUBH 6123 - Violence Prevention and Control: Theory, Research, and Application (2.0 cr)
- PUBH 6131 - Working in Global Health (2.0 cr)
- PUBH 6132 - Air, Water, and Health (2.0 cr)
- PUBH 6134 - Sustainable Development and Global Public Health (2.0 cr)
- PUBH 6140 - Occupational and Environmental Epidemiology (2.0 cr)
- PUBH 6159 - Principles of Toxicology I (2.0 cr)
- PUBH 6160 - Principles of Toxicology II (3.0 cr)
- PUBH 6161 - Regulatory Toxicology (2.0 cr)
- PUBH 6162 - Biomarkers (2.0 cr)
- PUBH 6170 - Introduction to Occupational Health and Safety (3.0 cr)
- PUBH 6173 - Exposure to Physical Agents (2.0 cr)
- PUBH 6181 - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
- PUBH 6182 - Emerging Infectious Disease: Current Issues, Policies, and Controversies (3.0 cr)
- PUBH 6190 - Environmental Chemistry (3.0 cr)
- PUBH 6333 - Principles of Human Behavior I (2.0 cr)
- PUBH 6334 - Human Behavior II (2.0 cr)
- PUBH 6342 - Epidemiologic Methods II (3.0 cr)
- PUBH 6348 - Writing Research Grants (2.0 cr)
- PUBH 6355 - Pathophysiology of Human Disease (4.0 cr)
- PUBH 6370 - Social Epidemiology (2.0 cr)
- PUBH 6381 - Genetics in Public Health in the Age of Precision Medicine (2.0 cr)
- PUBH 6385 - Epidemiology and Control of Infectious Diseases (2.0 cr)
- PUBH 6386 - Cardiovascular Disease Epidemiology and Prevention (2.0 cr)
- PUBH 6387 - Cancer Epidemiology (2.0 cr)
- PUBH 6389 - Nutritional Epidemiology (2.0 cr)
- PUBH 6451 - Biostatistics II (4.0 cr)
- PUBH 6556 - Health and Health Systems (3.0 cr)
- PUBH 6605 - Reproductive and Perinatal Health (2.0 cr)
- PUBH 6636 - Qualitative Research Methods in Public Health Practice (2.0 cr)
- PUBH 6655 - Principles and Programs in Maternal and Child Health (2.0 cr)
- PUBH 6675 - Women's Health (2.0 cr)
- PUBH 6717 - Decision Analysis for Health Care (2.0 cr)
- PUBH 6724 - The Health Care System and Public Health (3.0 cr)
- PUBH 6727 - Health Leadership and Effecting Change (2.0 cr)
- PUBH 6735 - Principles of Health Policy (3.0 cr)
- PUBH 6744 - State Health Policy and Politics (2.0 cr)
- PUBH 6751 - Principles of Management in Health Services Organizations (2.0 cr)
- PUBH 6803 - Conducting a Systematic Literature Review (3.0 cr)
PUBH 6804 - Mental Health Policy (2.0 cr)
PUBH 6806 - Principles of Public Health Research (2.0 cr)
PUBH 6809 - Advanced Methods in Health Decision Science (3.0 cr)
PUBH 6810 - Survey Research Methods (3.0 cr)
PUBH 6815 - Community-based Participatory Research (2.0 cr)
PUBH 6832 - Economics of the Health Care System (3.0 cr)
PUBH 6845 - Using Demographic Data for Policy Analysis (3.0 cr)
PUBH 6852 - Program Evaluation in Health and Mental Health Settings (2.0 cr)
PUBH 6862 - Cost-Effectiveness Analysis in Health Care (3.0 cr)
PUBH 6863 - Understanding Health Care Quality (2.0 cr)
PUBH 6864 - Conducting Health Outcomes Research (3.0 cr)
PUBH 7250 - Designing and Conducting Focus Group Interviews (1.0 cr)
PUBH 7401 - Fundamentals of Biostatistical Inference (4.0 cr)
PUBH 7402 - Biostatistics Modeling and Methods (4.0 cr)
PUBH 7405 - Biostatistics: Regression (4.0 cr)
PUBH 7406 - Advanced Regression and Design (4.0 cr)
PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)
PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
PUBH 7445 - Statistics for Human Genetics and Molecular Biology (3.0 cr)
PUBH 7450 - Survival Analysis (3.0 cr)
PUBH 8160 - Advanced Toxicology (2.0 cr)
PUBH 8341 - Advanced Epidemiologic Methods: Concepts (3.0 cr)
PUBH 8342 - Advanced Epidemiologic Methods: Applications (3.0 cr)
PUBH 8801 - Health Services Policy Analysis: Theory (1.0 cr)
PUBH 8802 - Health Services Policy Analysis: Applications (2.0 cr)
PUBH 8811 - Research Methods in Health Care (3.0 cr)
PUBH 8821 - Health Economics II (3.0 cr)

• Program Type: Master's
• Requirements for this program are current for Fall 2020
• Length of program in credits: 42 to 58
• This program requires summer semesters for timely completion.
• Degree: Master of Public Health

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The public health nutrition MPH program is designed for students who want graduate training in health promotion disease prevention, program development, and nutrition interventions. The programs faculty are internationally recognized for research in obesity prevention, child and adolescent nutrition, eating disorder prevention, nutrition epidemiology, and nutrition intervention. The public health nutrition MPH also offers a coordinated masters program (CMP) track, which provides additional didactic coursework and supervised practice components for registration eligibility and entry into dietetics practice. The MPH is offered on a full- and part-time basis; however, most of the courses are offered only during the day. The MPH/CMP track is available only as a full-time program.

Accreditation
This program is accredited by Council on Education for Public Health (CEPH) & Commission on Accreditation for Dietetics Education.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
All applicants must have completed the following:
one general biology course with lab;
two general chemistry classes with labs;
one organic chemistry course;
one biochemistry course;
one human nutrition course; and
one social science course.

The application deadline is July 1 for fall admission. All courses must be completed before starting the program. Applicants with outstanding prerequisites must include how those courses will be completed prior to the program.

Special Application Requirements:
CMP applicants must also complete:
one physiology course;
one microbiology course with lab;
one intro to nutrition course;
one intro to food science course; and
one food systems/service management course.
The application deadline for the CMP track is December 1. All courses must be completed before starting the program. Applicants with outstanding prerequisites must include how those courses will be completed prior to the program.

CMP applicants, upon admission to the MPH, undergo an additional email and phone interview process. Students admitted to the MPH but not the CMP track are not eligible to pursue the track at a later date.

Applicants must submit their test score(s) from the following:
- **GRE**
  - General Test - Verbal Reasoning: 150
  - General Test - Quantitative Reasoning: 150
  - General Test - Analytical Writing: 3.5

International applicants must submit score(s) from one of the following tests:
- **TOEFL**
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- **IELTS**
  - Total Score: 7

Key to test abbreviations (GRE, TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

**Program Requirements**

**Plan C:** Plan C requires 42 to 58 major credits and up to null credits outside the major. The is no final exam. A capstone project is required.

**Capstone Project:** Students complete an Integrated Learning Experience (ILE) in consultation with the advisor.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

Courses must be taken A/F unless offered only S/N. A minimum grade of B- must be earned for required courses.

4xxx-level coursework not accepted toward the degree, with the exception of courses required for students admitted to the MPH with non-nutrition/dietetics undergraduate degrees.

**Public Health Core Requirements (17 credits)**

**Foundations of Public Health Nutrition Leadership (2 credits)**
Take the following course:
- PUBH 6901 - Foundations of Public Health Nutrition Leadership (2.0 cr)

**Biostatistics (4 credits)**
Select PUBH 6450 (4 credits) or PUBH 6414 (3 credits) plus one biostatistics programming course, in consultation with the advisor, to meet the 4-credit biostatistics requirement.
- PUBH 6450 - Biostatistics I (4.0 cr)
- PUBH 6414 - Biostatistical Literacy (3.0 cr)

**Biostatistics Programming Course Options**
Students who take PUBH 6414 must select an additional course for at least one credit, in consultation with the advisor, from the following list:
- PUBH 6107 - Excel and Access Skills in Public Health Settings (1.0 cr)
- PUBH 6325 - Data Processing with PC-SAS (1.0 cr)
- PUBH 6420 - Introduction to SAS Programming (1.0 cr)
- PA 5929 - Data Visualization: Telling Stories with Numbers (2.0 cr)
- PUBH 6123 - Violence Prevention and Control: Theory, Research, and Application (2.0 cr)

**Environmental Health (2 credits)**
Take the following course:
PUBH 6102 - Issues in Environmental Health (2.0 cr)

Epidemiology (3 credits)
Select one of the following courses in consultation with the advisor:
PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)
or PUBH 6341 - Epidemiologic Methods I (3.0 cr)

Ethics (1 credit)
Take the following course:
PUBH 6741 - Ethics in Public Health: Professional Practice and Policy (1.0 cr)

Administration/Management (2 credits)
Take the following course:
PUBH 6751 - Principles of Management in Health Services Organizations (2.0 cr)

Community Soc Intervention & Behavioral Health (3 credits)
PUBH 6914 - Community Nutrition Intervention (3.0 cr)

Public Health Nutrition Core (4 credits)
PUBH 6915 - Nutrition Assessment (2.0 cr)
PUBH 6933 - Nutrition and Chronic Diseases (2.0 cr)

Lifespan Nutrition (4-5 credits)
Select two courses from the following list in consultation with the advisor. CMP-track students with non-nutrition/dietetics undergraduate degrees must take PUBH 6904 and PUBH 6907.
PUBH 6904 - Nutrition and Aging (2.0 cr)
PUBH 6906 - Global Nutrition (2.0 cr)
PUBH 6907 - Maternal, Infant, Child and Adolescent Nutrition (3.0 cr)

Research Methods (4 credits)
Select at least 4 credits from the following list, in consultation with the advisor:
NURS 8171 - Qualitative Research Design and Methods (3.0 - 4.0 cr)
PUBH 6034 - Evaluation (3.0 cr)
PUBH 6035 - Evaluation II: Applications (3.0 cr)
PUBH 6107 - Excel and Access Skills in Public Health Settings (1.0 cr)
PUBH 6325 - Data Processing with PC-SAS (1.0 cr)
PUBH 6342 - Epidemiologic Methods II (3.0 cr)
PUBH 6389 - Nutritional Epidemiology (2.0 cr)
PUBH 6420 - Introduction to SAS Programming (1.0 cr)
PUBH 6451 - Biostatistics II (4.0 cr)
PUBH 6636 - Qualitative Research Methods in Public Health Practice (2.0 cr)
PUBH 6803 - Conducting a Systematic Literature Review (3.0 cr)
PUBH 6806 - Principles of Public Health Research (2.0 cr)
PUBH 6852 - Program Evaluation in Health and Mental Health Settings (2.0 cr)
PUBH 7250 - Designing and Conducting Focus Group Interviews (1.0 cr)
PA 5929 - Data Visualization: Telling Stories with Numbers (2.0 cr)

Integrated Learning Experience (1 credit)
Take 1 credit in consultation with the advisor.
PUBH 7994 - Integrated Learning Experience: Public Health Nutrition (1.0 - 6.0 cr)

Electives
Select electives, in consultation with the advisor, as needed to meet minimum credit requirements.
CSPH 5101 - Introduction to Integrative Healing Practices (3.0 cr)
CSPH 5102 - Art of Healing: Self as Healer (1.0 cr)
CSPH 5111 - Ways of Thinking about Health (2.0 cr)
CSPH 5115 - Cultural Awareness, Knowledge and Health (3.0 cr)
CSPH 5118 - Whole Person, Whole Community: The Reciprocity of Wellbeing (3.0 cr)
CSPH 5215 - Forgiveness and Healing: A Journey Toward Wholeness (3.0 cr)
CSPH 5303 - Pain Management and Evidence Based Complementary Health Approaches (3.0 cr)
CSPH 5305 - Introduction to Integrative Mental Health (2.0 cr)
CSPH 5431 - Functional Nutrition: An Expanded View of Nutrition, Chronic Disease, and Optimal Health (2.0 cr)
CSPH 5701 - Fundamentals of Health Coaching I (4.0 cr)
CSPH 5702 - Fundamentals of Health Coaching II (4.0 cr)
CSPH 5703 - Advanced Health Coaching Practicum (3.0 cr)
CSPH 5704 - Business of Health Coaching (2.0 cr)
CSPH 5706 - Lifestyle Medicine (2.0 cr)
CSPH 5707 - Coaching People with Clinical Conditions (2.0 cr)
CSPH 5708 - Mind-Body Science and the Art of Transformation (1.0 cr)
CSPH 5709 - Health and Wellbeing Group Coaching (2.0 cr)
CSPH 5713 - Health Coaching for Health Professionals (2.0 cr)
CSPH 5805 - Wellbeing in the Workplace (3.0 cr)
CSPH 5806 - Wellbeing and Resiliency for Health Professionals (1.0 cr)
CSPH 5807 - Mindfulness in the Workplace: Pause, Practice, Perform (2.0 cr)
EPSY 5114 - Psychology of Student Learning (3.0 cr)
EPSY 5247 - Qualitative Methods in Educational Psychology (3.0 cr)
EPSY 5609 - Family-centered Services (3.0 cr)
EPSY 8251 - Statistical Methods in Education I (3.0 cr)
EPSY 8264 - Advanced Multiple Regression Analysis (3.0 cr)
EPSY 8282 - Statistical Analysis of Longitudinal Data (3.0 cr)
FSCN 4612W - Advanced Human Nutrition [WI] (4.0 cr)
FSCN 4614W - Community Nutrition [SOCS, DSJ, WI] (3.0 cr)
FSCN 4621 - Nutrition and Metabolism (4.0 cr)
FSCN 4622 - Nutritional Toxicology, the basic science of diet-related toxicants (3.0 cr)
FSCN 4665 - Medical Nutrition Therapy I (3.0 cr)
FSCN 4666 - Medical Nutrition Therapy II (3.0 cr)
FSCN 4732 - Food and Nutrition Management (3.0 cr)
FSCN 5131 - Food Quality for Graduate Credit (3.0 cr)
FSCN 5312 - Food Analysis (4.0 cr)
FSCN 5601 - Management of Eating Disorders (3.0 cr)
FSOS 5014 - Quantitative Family Research Methods I (3.0 cr)
FSOS 5015 - Family Research Laboratory (1.0 cr)
FSOS 5111 - Introduction to Family Therapy (3.0 cr)
FSOS 5570 - Prevention Science: Principles and Practices (3.0 cr)
FSOS 5597 - Parent-Child Interaction (3.0 cr)
FSOS 5942 - Diverse Family Experiences (3.0 cr)
FSOS 5944 - Curricular Design in Parent Education (3.0 cr)
FSOS 5945 - Teaching and Learning in Parent Education (3.0 cr)
FSOS 8001 - Conceptual Frameworks in the Family (3.0 cr)
FSOS 8002 - Advanced Family Conceptual Frameworks (3.0 cr)
FSOS 8014 - Quantitative Family Research Methods II (3.0 cr)
FSOS 8036 - Couple/Marriage and Family Therapy Research (3.0 cr)
FSOS 8101 - Family Stress, Coping, and Adaptation (3.0 cr)
HINF 5430 - Foundations of Health Informatics I (3.0 cr)
HINF 5431 - Foundations of Health Informatics II (3.0 cr)
HINF 5440 - Foundations of Translational Bioinformatics (3.0 cr)
HINF 5450 - Foundations of Precision Medicine Informatics (3.0 cr)
HINF 5502 - Python Programming Essentials for the Health Sciences (1.0 cr)
HINF 5510 - Applied Health Care Databases: Database Principles and Data Evaluation (3.0 cr)
HINF 5520 - Informatics Methods for Health Care Quality, Outcomes, and Patient Safety (2.0 cr)
HINF 5531 - Health Data Analytics and Data Science (3.0 cr)
HINF 5610 - Foundations of Biomedical Natural Language Processing (3.0 cr)
HINF 5620 - Data Visualization for the Health Sciences (3.0 cr)
HINF 5630 - Clinical Data Mining (3.0 cr)
HSEX 6001 - Foundations of Human Sexuality (3.0 cr)
HSEX 6011 - Policy in Human Sexuality: Cutting Edge Analyses (3.0 cr)
HSEX 6012 - Sexual Function and Dysfunction (3.0 cr)
HSEX 6013 - Perspectives and Practices in Sexuality Education (3.0 cr)
LAW 6036 - Reproductive Rights (3.0 cr)
LAW 6046 - Human Trafficking (2.0 cr)
LAW 6058 - Human Rights Advocacy (3.0 cr)
LAW 6621 - Rights in Conflict: Citizenship and Human Rights (2.0 cr)
LAW 6718 - Immigration and Criminal Law: Immigration Consequences of Crimes and Criminalizing Migration (2.0 cr)
LAW 6827 - Women's International Human Rights (2.0 cr)
LAW 6862 - Sexual Orientation, Gender Identity, and Human Rights (2.0 cr)
NURS 5029 - Introduction to Nursing Interventions (3.0 cr)
NURS 5031 - Human Response to Health and Illness: Adults and Elders (4.0 cr)
NURS 5032 - Human Response to Health and Illness: Children and Childbearing Families (5.0 cr)
NURS 5115 - Interprofessional Health Care Informatics (3.0 cr)
NURS 5116 - Consumer Health Informatics (1.0 cr)
NURS 5117 - Consumer Health Informatics Practicum (1.0 cr)
NURS 5190 - Essentials of Holistic Health Assessment and Foundational Clinical (3.0 cr)
NURS 5284 - Supporting Physiologic Labor and Childbirth for Nurses (2.0 cr)
NURS 5505 - Assessment and Support of Women in Labor (2.0 cr)
NURS 6110 - Epidemiology in Nursing (2.0 cr)
NURS 6213 - Reproductive Healthcare for Patients with Complex Conditions (2.0 cr)
NURS 6305 - Reproductive and Sexual Health Care (3.0 cr)

SW 8901 - Assessment and Treatment of Trauma (2.0 cr)
SW 8902 - Social Work Supervision, Consultation, and Leadership (2.0 cr)
VMED 5101 - Molecular and Cellular Basis of Nanoparticle Toxicity (3.0 cr)
VMED 5165 - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
VMED 5180 - Ecology of Infectious Disease (3.0 cr)
VMED 5181 - Spatial Analysis in Infectious Disease Epidemiology (3.0 cr)
VMED 5915 - Essential Statistics for Life Sciences (3.0 cr)
VMED 8134 - Ethical Conduct of Animal Research (3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Standard Track
Courses must be taken A/F unless offered only S/N. Minimum grade of B- must be earned for required courses.

**Applied Practice Experience (1-2 credits)**
Take 1-2 credits in consultation with the advisor.
- PUBH 7996 - Applied Practice Experience: Public Health Nutrition (1.0 - 5.0 cr)

**Standard-track students with non-nutrition/dietetics degrees**

**Required Courses (8 credits)**
Standard-track students must also complete the following 8-credit requirement if not taken previously in an undergraduate program:
- FSCN 4621 - Nutrition and Metabolism (4.0 cr)
- PUBH 6355 - Pathophysiology of Human Disease (4.0 cr)

**Coordinated Masters Program**
This sub-plan is optional and does not fulfill the sub-plan requirement for this program.

The Public Health Nutritions Coordinated Masters Program (CMP) track is a 24-month program that provides additional didactic coursework and supervised practice components for registration eligibility and entry into dietetics practice. Students complete 1,200 hours of supervised practice, utilizing sites within and outside Minnesota, throughout the program. CMP students must provide their own transportation during the course of the program as many sites are not accessible via public transportation. MPH/CMP-track graduates will be provided with an eligibility verification statement for the national registration examination for dietitians.

Courses must be taken A/F unless offered only S/N. Minimum grade of B- must be earned for required courses.

**Applied Practice Experience (22 credits)**
Take the following courses, in consultation with the advisor. PUBH 7991 and PUBH 7996 each must be taken for 4 credits.
- PUBH 6995 - Community Nutrition Practicum (6.0 - 7.0 cr)
- PUBH 6996 - Clinical Nutrition Practicum (7.0 cr)
- PUBH 7991 - Independent Study: Public Health Nutrition (1.0 - 4.0 cr)
- PUBH 7996 - Applied Practice Experience: Public Health Nutrition (1.0 - 5.0 cr)

**CMP-track students with non-nutrition/dietetics degrees**

**Required Courses (6 credits)**
CMP-track students with non-nutrition/dietetics undergraduate degrees must also complete the following 6-credit requirement:
- FSCN 4665 - Medical Nutrition Therapy I (3.0 cr)
- FSCN 4666 - Medical Nutrition Therapy II (3.0 cr)

- Program Type: Post-baccalaureate credit certificate/licensure/endorsement
- Requirements for this program are current for Fall 2020
- Length of program in credits: 12
- This program requires summer semesters for timely completion.
- Degree: Performance Improvement PBacc Cert

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

NOTE: Applications to the Performance Improvement Certificate program are not being accepted at this time. For more information, please contact sph-ask@umn.edu.

The public health certificate in performance improvement trains students to understand and apply quality improvement methods at both the systems and organizational level. The program will provide the tools needed in order to achieve and maintain high process performance.

The certificate provides participants with hands-on knowledge about how to improve processes in their respective organizations. By so doing, best practices will be diffused, and process performance will improve public health services.

This certificate addresses concerns voiced by the National Board of Public Health Examiners, the Public Health Accreditation Board, and the Council on Education for Public Health to provide more educational opportunities in performance improvement to working public health professionals.

Accreditation
This program is accredited by Council on Education for Public Health (CEPH)

Program Delivery
This program is available:
- completely online (all program coursework can be completed online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
NOTE: Applications to the Performance Improvement Certificate program are not being accepted at this time. For more information, please contact sph-ask@umn.edu.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7
- MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 42
- This program requires summer semesters for timely completion.
- Degree: Master of Public Health

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The public health practice MPH brings together the science and the art of public health, addressing public health as a broad social enterprise that seeks to extend the benefits of current knowledge in ways that will have the maximum impact on the health status of populations.

Accreditation
This program is accredited by Council on Education for Public Health (CEPH)

Program Delivery
This program is available:
- primarily online (at least 80% of the instruction for the program is online with short, intensive periods of face-to-face coursework)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
To be eligible for an MPH in public health practice, applicants for the Executive Program are required to have an advanced degree or have completed the Public Health Core Concepts Certificate Program; applicants for dual degrees programs are required to be admitted/enrolled in a DDS, DNP, DVM, JD, MD, MPP, MURP, PharmD program at the University of Minnesota.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements

Plan C: Plan C requires 42 major credits and up to null credits outside the major. The is no final exam. A capstone project is required.

Capstone Project: Students complete 1 Integrated Learning Experience credit in consultation with the advisor.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

Courses must be taken A/F unless offered only S/N. Minimum grade of B- must be earned for required courses.

Public Health Core Requirements (12 credits)
Courses must be taken A/F, unless offered only S/N. A minimum grade of B- is required.

- PUBH 6020 - Fundamentals of Social and Behavioral Science (2.0 cr)
- PUBH 6102 - Issues in Environmental Health (2.0 cr)
- PUBH 6250 - Foundations of Public Health (2.0 cr)
- PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)
- PUBH 6741 - Ethics in Public Health: Professional Practice and Policy (1.0 cr)
- PUBH 6751 - Principles of Management in Health Services Organizations (2.0 cr)

Biotatistics Requirement (4 credits)
Students select either PUBH 6450 Biostatistics I or PUBH 6414 Biostatistical Literacy plus a biostatistics programming course.

Biotatistics (4 credits)
Courses must be taken A/F, unless offered only S/N. A minimum grade of B- is required.

- PUBH 6450 - Biostatistics I (4.0 cr)
- or PUBH 6414 - Biostatistical Literacy (3.0 cr)

Biostatistics Programming Course Options

- PUBH 6107 - Excel and Access Skills in Public Health Settings (1.0 cr)
- PUBH 6325 - Data Processing with PC-SAS (1.0 cr)
- PUBH 6420 - Introduction to SAS Programming (1.0 cr)
- PUBH 6470 - SAS Procedures and Data Analysis (3.0 cr)
- PUBH 6755 - Planning and Budgeting for Public Health (2.0 cr)
- PUBH 6813 - Managing Electronic Health Information (2.0 cr)
- PUBH 6845 - Using Demographic Data for Policy Analysis (3.0 cr)
- PUBH 7461 - Exploring and Visualizing Data in R (2.0 cr)
- PA 5929 - Data Visualization: Telling Stories with Numbers (2.0 cr)
- PUBH 6123 - Violence Prevention and Control: Theory, Research, and Application (2.0 cr)

Applied Practice Experience (1 credit)
Take at least one credit of the following in consultation with the advisor.

- PUBH 7296 - Applied Practice Experience: Public Health Practice (0.5 - 8.0 cr)

Integrated Learning Experience (1 credit)
Take at least one credit of the following in consultation with the advisor.

- PUBH 7294 - Integrative Learning Experience: Public Health Practice (0.5 - 4.0 cr)

Electives (24 credits)
Select elective courses in consultation with the advisor to complete the 42 credit minimum.

- COMM 5250 - Environmental Communication (3.0 cr)
- ENT 5920 - Special Lectures in Entomology (1.0 - 4.0 cr)
- MKTG 6090 - Marketing Topics (1.0 - 4.0 cr)
- PA 5101 - Management and Governance of Nonprofit Organizations (3.0 cr)
- PA 5108 - Board leadership development (1.0 cr)
- PA 5421 - Racial Inequality and Public Policy (3.0 cr)
- PA 5451 - Immigration, Health and Public Policy (3.0 cr)
- PA 5601 - Global Survey of Gender and Public Policy (3.0 cr)
- PA 5690 - Topics in Women, Gender and Public Policy (0.5 - 3.0 cr)
- PA 5801 - Global Public Policy (3.0 cr)
- PA 5929 - Data Visualization: Telling Stories with Numbers (2.0 cr)
- PUBH 5231 - Emergency Preparedness: A Public Health Perspective (2.0 cr)
- PUBH 6011 - Public Health Approaches to HIV/AIDS (3.0 cr)
- PUBH 6034 - Evaluation (3.0 cr)
- PUBH 6035 - Evaluation II: Applications (3.0 cr)
- PUBH 6049 - Legislative Advocacy Skills for Public Health (3.0 cr)

**Program Requirements**

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

**Required Coursework**

Take at least one course in each group below. Courses at the Public Health Institute are topical and will change from year to year. PUBH 7200 can meet the requirements of each group, depending on the topic. Please consult the program staff for appropriate courses.

**Policy Development/Program Planning**

Take 1 or more course(s) from the following:
- PUBH 5231 - Emergency Preparedness: A Public Health Perspective (2.0 cr)
- PUBH 7200 - Topics: Public Health Practice (0.5 - 4.0 cr)

**Analytical/Assessment Skills**

Take 1 or more course(s) from the following:
- PUBH 7230 - Topics in Infectious Disease (0.5 - 4.0 cr)
- PUBH 7231 - Surveillance of Foodborne Diseases in Humans (1.0 cr)
- PUBH 7235 - Surveillance of Zoonotic Pathogens in Animals (1.0 cr)

**Communications Skills**

Take 1 or more course(s) from the following:
- PUBH 7214 - Principles of Risk Communication (1.0 cr)
- PUBH 7200 - Topics: Public Health Practice (0.5 - 4.0 cr)

**Cultural Competency Skills**

Take 1 or more course(s) from the following:
- PUBH 7223 - Concepts of Disaster Behavioral Health (1.0 cr)
- PUBH 7200 - Topics: Public Health Practice (0.5 - 4.0 cr)

**Community Dimensions of Practice Skills**

Take 1 or more course(s) from the following:
- PUBH 7227 - Incident Management Systems: The Public Health Role (1.0 cr)
- PUBH 7200 - Topics: Public Health Practice (0.5 - 4.0 cr)

**Leadership and Systems Thinking, Financial Planning and Management Skills**

Take 1 or more course(s) from the following:
- PUBH 6711 - Public Health Law (2.0 cr)
- PUBH 7221 - Planning for Urgent Threats (1.0 cr)
- PUBH 7200 - Topics: Public Health Practice (0.5 - 4.0 cr)

**Electives**

Students select remaining credits from an approved list to complete the certificate's 12-credit minimum. Courses at the Public Health Institute are topical and will change from year to year. Please consult the program staff for appropriate courses.

Take 1 or more course(s) from the following:
- PUBH 7200 - Topics: Public Health Practice (0.5 - 4.0 cr)
- PUBH 7210 - Topics: Global Food Systems (0.5 cr)
- PUBH 7237 - Using Risk Analysis Tools: Estimating Food Safety on the Farm to Table Continuum (1.0 cr)
- PUBH 7253 - Introduction to GIS (1.0 cr)

- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The sexual health minor is designed for students who want to specialize in sex, sexuality, reproductive health, and sexual health. By taking public health courses tailored specifically to address sexual health, students are better able to enter the professional world with the confidence and skills needed to handle complex questions and issues related to sexual and reproductive health.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Sexual Health director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Required coursework must be completed A-F with a minimum grade of B-.
Minimum GPA is 3.00.

Required Course
Take the following course:
- PUBH 6081 - Sex, Sexuality, and Sexual Health (2.0 cr)

Additional Coursework
Courses for SPH Majors
Select at least one course from the following list:
- PUBH 6011 - Public Health Approaches to HIV/AIDS (3.0 cr)
- PUBH 6605 - Reproductive and Perinatal Health (2.0 cr)
- PUBH 6627 - Sexuality Education: Criteria, Curricula, and Controversy (1.0 cr)
- PUBH 6675 - Women's Health (2.0 cr)

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of September 04, 2020
Courses for non-SPH Majors

Students pursuing a non-SPH graduate program must take at least one of the following courses, in consultation with the Sexual Health director of graduate studies:

- PUBH 6020 - Fundamentals of Social and Behavioral Science (2.0 cr)
- PUBH 6250 - Foundations of Public Health (2.0 cr)

Electives

Select electives in consultation with the Sexual Health director of graduate studies to meet the masters 6-credit or the doctoral 12-credit minimum. The minimum grade required for a course taken for an A-F grade is B-.

- AFRO 8554 - Seminar: Gender, Race, Nation, and Policy--Perspectives from Within the African Diaspora (3.0 cr)
- BTHX 8510 - Gender and the Politics of Health (3.0 cr)
- FSOS 4101 - Sexuality and Gender in Families and Close Relationships (3.0 cr)
- GWSS 4406 - Black Feminist Thought in the American and African Diasporas (3.0 cr)
- HSEX 6001 - Foundations of Human Sexuality (3.0 cr)
- HSEX 6011 - Policy in Human Sexuality: Cutting Edge Analyses (3.0 cr)
- LAW 6036 - Reproductive Rights (3.0 cr)
- LAW 6046 - Human Trafficking (2.0 cr)
- PA 5601 - Global Survey of Gender and Public Policy (3.0 cr)
- LAW 6827 - Women’s International Human Rights (2.0 cr)

Program Sub-plans

Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

- Masters
- Doctoral

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The graduate program in Aerospace Engineering and Mechanics emphasizes engineering sciences that are basic to fluid mechanics, aerospace systems, and solid mechanics. Theoretical, analytical, experimental, and computational aspects of these fields are covered by the courses and research opportunities offered by the department.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.20.

A four-year BS degree in an engineering, basic science, or mathematics program is required.

Other requirements to be completed before admission:
Admission depends primarily on the applicant's undergraduate record and letters of recommendation.

Special Application Requirements:
GRE scores are not required but are strongly recommended for students applying for graduate fellowships. In all cases, these test scores are taken into account if provided. Students are admitted fall semester only. Only under unusual circumstances are students allowed to begin their studies at another time during the academic year.

The application deadline is December 15.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5
- MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of September 04, 2020
Program Requirements

Plan A: Plan A requires 14 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is oral.

Plan B: Plan B requires 14 to 24 major credits and 6 to 16 credits outside the major. The final exam is oral.

Plan C: Plan C requires 14 to 24 major credits and 6 to 16 credits outside the major. There is no final exam.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with advisor approval.

A minimum GPA of 2.80 is required for students to remain in good standing.

All plans require a minimum of 14 major credits, of which 12 must be at the 5xxx or 8xxx level.

No more than 8 credits in 4xxx-level courses and no more than 8 credits (6 for Plan A) taken as S/N are allowed.

Two semesters of seminar attendance are required.

Required Courses (6 credits)
Select one 2-course sequence in fluids, solids, or dynamics.

**Fluids**
- AEM 8201 - Fluid Mechanics I (3.0 cr)
- AEM 8202 - Fluid Mechanics II (3.0 cr)

**Solids**
- AEM 5501 - Continuum Mechanics (3.0 cr)
- AEM 5503 - Theory of Elasticity (3.0 cr)

**Dynamics**
- AEM 5401 - Intermediate Dynamics (3.0 cr)
- AEM 8411 - Advanced Dynamics (3.0 cr)

Additional Major Courses (8-18 credits)
Students select a minimum of 8 credits in consultation with advisor from the following to meet the required 14 credits in AEM courses. Plan B and Plan C students may take up to 18 credits from the list. One credit of AEM 8000 may be applied to degree requirements.

- AEM 4305 - Spacecraft Attitude Dynamics and Control (3.0 cr)
- AEM 4321 - Automatic Control Systems (3.0 cr)
- AEM 5247 - Hypersonic Aerodynamics (3.0 cr)
- AEM 5253 - Computational Fluid Mechanics (3.0 cr)
- AEM 5321 - Modern Feedback Control (3.0 cr)
- AEM 5333 - Design-to-Flight: Small Uninhabited Aerial Vehicles (3.0 cr)
- AEM 5401 - Intermediate Dynamics (3.0 cr)
- AEM 5451 - Optimal Estimation (3.0 cr)
- AEM 5501 - Continuum Mechanics (3.0 cr)
- AEM 5503 - Theory of Elasticity (3.0 cr)
- AEM 5581 - Mechanics of Solids (3.0 cr)
- AEM 5651 - Aerelasticity (3.0 cr)
- AEM 8000 - Seminar: Aerospace Engineering and Mechanics (1.0 cr)
- AEM 8201 - Fluid Mechanics I (3.0 cr)
- AEM 8202 - Fluid Mechanics II (3.0 cr)
- AEM 8203 - Fluid Mechanics III (3.0 cr)
- AEM 8207 - Hydrodynamic Stability (3.0 cr)
- AEM 8211 - Theory of Turbulence I (3.0 cr)
- AEM 8212 - Theory of Turbulence II (3.0 cr)
- AEM 8213 - Turbulent Shear Flows (3.0 cr)
- AEM 8221 - Rheological Fluid Mechanics (3.0 cr)
- AEM 8231 - Molecular Gas Dynamics (3.0 cr)
- AEM 8232 - Physical Gas Dynamics and Molecular Simulation (3.0 cr)
- AEM 8241 - Perturbation Methods in Fluid Mechanics (3.0 cr)
- AEM 8251 - Finite-Volume Methods in Computational Fluid Dynamics (3.0 cr)
- AEM 8253 - Computational Methods in Fluid Mechanics (3.0 cr)
- AEM 8261 - Nonlinear Waves in Mechanics (3.0 cr)
- AEM 8271 - Experimental Methods in Fluid Mechanics (3.0 cr)
AEM 8400 - Seminar: Aerospace Systems (1.0 cr)
AEM 8411 - Advanced Dynamics (3.0 cr)
AEM 8421 - Robust Multivariable Control Design (3.0 cr)
AEM 8423 - Convex Optimization Methods in Control (3.0 cr)
AEM 8426 - Optimization and System Sciences (3.0 cr)
AEM 8442 - Aerospace Positioning, Navigation and Timing (3.0 cr)
AEM 8451 - System Identification: Theory and Applications (3.0 cr)
AEM 8500 - Research Seminar in Mechanics of Materials (1.0 cr)
AEM 8523 - Elastodynamics (3.0 cr)
AEM 8525 - Elastic Stability of Materials (3.0 cr)
AEM 8531 - Fracture Mechanics (3.0 cr)
AEM 8533 - Theory of Plasticity (3.0 cr)
AEM 8541 - Mechanics of Crystalline Solids (3.0 cr)
AEM 8551 - Multiscale Methods for Bridging Length and Time Scales (3.0 cr)

Outside Courses (6-16 credits)
Students take a minimum of 6 credits from the following list. Plan B and Plan C students may take as many as 16 credits. Consult with advisor for course selection or additional course options.

BMEN 5321 - Microfluidics in Biology and Medicine (3.0 cr)
BMEN 8101 - Biomedical Digital Signal Processing (3.0 cr)
CEGE 8401 - Fundamentals of Finite Element Method (3.0 cr)
CEGE 8521 - The Atmospheric Boundary Layer (4.0 cr)
CHEM 8541 - Dynamics (4.0 cr)
CHEM 8565 - Chemical Reaction Dynamics (2.0 cr)
CSCI 4041 - Algorithms and Data Structures (4.0 cr)
CSCI 5304 - Computational Aspects of Matrix Theory (3.0 cr)
CSCI 5451 - Introduction to Parallel Computing: Architectures, Algorithms, and Programming (3.0 cr)
CSCI 5512 - Artificial Intelligence II (3.0 cr)
CSCI 5521 - Introduction to Machine Learning (3.0 cr)
CSCI 5525 - Machine Learning (3.0 cr)
CSCI 5551 - Introduction to Intelligent Robotic Systems (3.0 cr)
CSCI 5552 - Sensing and Estimation in Robotics (3.0 cr)
CSCI 8314 - Sparse Matrix Computations (3.0 cr)
EE 5231 - Linear Systems and Optimal Control (3.0 cr)
EE 5235 - Robust Control System Design (3.0 cr)
EE 5239 - Introduction to Nonlinear Optimization (3.0 cr)
EE 5531 - Probability and Stochastic Processes (3.0 cr)
EE 8215 - Nonlinear Systems (3.0 cr)
EE 8581 - Detection and Estimation Theory (3.0 cr)
MATH 4242 - Applied Linear Algebra (4.0 cr)
MATH 5587 - Elementary Partial Differential Equations I (4.0 cr)
MATH 5651 - Basic Theory of Probability and Statistics (4.0 cr)
MATH 8401 - Mathematical Modeling and Methods of Applied Mathematics (3.0 cr)
MATH 8402 - Mathematical Modeling and Methods of Applied Mathematics (3.0 cr)
MATH 8431 - Mathematical Fluid Mechanics (3.0 cr)
MATH 8441 - Numerical Analysis and Scientific Computing (3.0 cr)
MATH 8442 - Numerical Analysis and Scientific Computing (3.0 cr)
MATH 8445 - Numerical Analysis of Differential Equations (3.0 cr)
MATH 8446 - Numerical Analysis of Differential Equations (3.0 cr)
MATH 8601 - Real Analysis (3.0 cr)
ME 8285 - Advanced Control System Design, with Applications to Smart Vehicles (3.0 cr)
ME 8361 - Molecular Gas Dynamics (3.0 cr)
ME 8446 - Advanced Combustion (3.0 cr)

Plan Options

Plan A (10 credits)
Take 10 thesis credits
AEM 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

-OR-

Plan B (3 credits)
Take 3 credits of AEM 8880 and complete a final project. The 3 credits in AEM 8880 may be counted toward the required 14 credits in AEM courses.
AEM 8880 - Plan B Project (1.0 - 3.0 cr)
Plan C
Plan C students do not have additional requirements.

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The graduate program emphasizes engineering sciences that are basic to fluid mechanics, aerospace systems, and solid mechanics. Theoretical, analytical, experimental, and computational aspects of these fields are covered by the courses and research opportunities offered by the department.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Courses must be taken under the AEM course designator to be counted towards a minor.

Courses must be taken on the A/F grade basis, unless only offered S/N.

The minimum cumulative GPA for the minor is 3.00.

Required Courses (6 credits)
All students take one course sequence from one of the following research areas for a minimum of 6 credits.

Fluids
AEM 8201 - Fluid Mechanics I (3.0 cr)
AEM 8202 - Fluid Mechanics II (3.0 cr)

or Solids
AEM 5501 - Continuum Mechanics (3.0 cr)
AEM 5503 - Theory of Elasticity (3.0 cr)

or Dynamics
AEM 5401 - Intermediate Dynamics (3.0 cr)
AEM 8411 - Advanced Dynamics (3.0 cr)

or Controls
AEM 5321 - Modern Feedback Control (3.0 cr)
AEM 5451 - Optimal Estimation (3.0 cr)
AEM 8421 - Robust Multivariable Control Design (3.0 cr)
or Computational Fluid Dynamics
AEM 5253 - Computational Fluid Mechanics (3.0 cr)
AEM 8253 - Computational Methods in Fluid Mechanics (3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Doctoral

Electives (6 credits)
Doctoral students select a minimum of 6 additional credits to meet the 12-credit minimum. Choose from the following list or consult with the director of graduate studies for further options.
AEM 5247 - Hypersonic Aerodynamics (3.0 cr)
AEM 5253 - Computational Fluid Mechanics (3.0 cr)
AEM 5321 - Modern Feedback Control (3.0 cr)
AEM 5333 - Design-to-Flight: Small Uninhabited Aerial Vehicles (3.0 cr)
AEM 5401 - Intermediate Dynamics (3.0 cr)
AEM 5451 - Optimal Estimation (3.0 cr)
AEM 5501 - Continuum Mechanics (3.0 cr)
AEM 5503 - Theory of Elasticity (3.0 cr)
AEM 5581 - Mechanics of Solids (3.0 cr)
AEM 5651 - Aeroelasticity (3.0 cr)
AEM 8201 - Fluid Mechanics I (3.0 cr)
AEM 8202 - Fluid Mechanics II (3.0 cr)
AEM 8203 - Fluid Mechanics III (3.0 cr)
AEM 8207 - Hydrodynamic Stability (3.0 cr)
AEM 8211 - Theory of Turbulence I (3.0 cr)
AEM 8212 - Theory of Turbulence II (3.0 cr)
AEM 8213 - Turbulent Shear Flows (3.0 cr)
AEM 8221 - Rheological Fluid Mechanics (3.0 cr)
AEM 8231 - Molecular Gas Dynamics (3.0 cr)
AEM 8232 - Physical Gas Dynamics and Molecular Simulation (3.0 cr)
AEM 8241 - Perturbation Methods in Fluid Mechanics (3.0 cr)
AEM 8251 - Finite-Volume Methods in Computational Fluid Dynamics (3.0 cr)
AEM 8253 - Computational Methods in Fluid Mechanics (3.0 cr)
AEM 8261 - Nonlinear Waves in Mechanics (3.0 cr)
AEM 8271 - Experimental Methods in Fluid Mechanics (3.0 cr)
AEM 8411 - Advanced Dynamics (3.0 cr)
AEM 8421 - Robust Multivariable Control Design (3.0 cr)
AEM 8423 - Convex Optimization Methods in Control (3.0 cr)

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 66
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Department of Aerospace Engineering and Mechanics offers a PhD degree program which emphasizes engineering sciences that are basic to fluid mechanics, aerospace systems, and solid mechanics. Theoretical, analytical, experimental, and computational aspects of these fields are covered by the courses and research opportunities offered by the department.

Program Delivery
This program is available:
  • via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.20.

A four-year BS degree in an engineering, basic science, or mathematics program is required.

Other requirements to be completed before admission:
Admission depends primarily on the applicant's undergraduate record, personal statement, and letters of recommendation.

Special Application Requirements:
GRE scores are not required but are strongly recommended for students applying for graduate fellowships. In all cases, these test scores are taken into account if provided. Students are admitted fall semester only. Only under unusual circumstances are students allowed to begin their studies at another time during the academic year.

The application deadline is December 15.

International applicants must submit score(s) from one of the following tests:
  • TOEFL
    - Internet Based - Total Score: 79
    - Internet Based - Writing Score: 21
    - Internet Based - Reading Score: 19
  • IELTS
    - Total Score: 6.5
  • MELAB
    - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements
12 to 30 credits are required in the major.
12 to 30 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.0 is required for students to remain in good standing.

No more than 8 credits in 4xxx-level courses and no more than 13 credits taken as S/N are allowed.

The program requires 42 course credits which must include a minimum of 12 credits in AEM courses at the 5xxx or 8xxx level.

Four semesters of seminar attendance are required.

Required Courses (6 credits)
Select one 2-course sequence in fluids, solids, or dynamics

Fluids
AEM 8201 - Fluid Mechanics I (3.0 cr)
AEM 8202 - Fluid Mechanics II (3.0 cr)

or Solids
AEM 5501 - Continuum Mechanics (3.0 cr)

- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Minnesota Institute for Astrophysics does not admit directly into the master's program. The information here is for current graduate students who choose not to seek a Ph.D.

Astrophysics is the study of the universe and its constituent parts. The Minnesota Institute for Astrophysics conducts research in observational, theoretical, and computational astrophysics, as well as instrument development. The main research areas include minor planetary bodies, solar system properties, dynamics of normal and active galaxies, stellar evolution, interaction of stars with their environments, the interstellar medium, astrophysical magnetohydrodynamics, and galactic and cosmological structure. Observational research includes activities that cover X-ray, ultraviolet, optical, infrared, and radio wavelengths. Extensive research programs in space physics, nucleosynthesis, and the elementary particle-cosmology interface are also carried out in interdisciplinary connections with the graduate program in physics.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Students are not admitted directly into the master's program.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan A: Plan A requires 14 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is oral.

Plan B: Plan B requires 14 to 24 major credits and 6 to 16 credits outside the major. The final exam is oral.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 2.8 is required for students to remain in good standing.

Courses must be taken on the A/F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

Major Courses (14-24 credits)
In consultation with adviser, Plan A students select a minimum of 14 credits and Plan B students select 14-24 credits. All students must complete PHYS 5011.

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of September 04, 2020
AST 4001 - Astrophysics I (4.0 cr)
AST 4002 - Astrophysics II (4.0 cr)
AST 4031 - Interpretation and Analysis of Astrophysical Data (4.0 cr)
AST 4041 - Computational Methods in the Physical Sciences (4.0 cr)
AST 5012 - The Interstellar Medium (4.0 cr)
AST 5022 - Relativity, Cosmology, and the Universe (4.0 cr)
AST 5201 - Methods of Experimental Astrophysics (4.0 cr)
AST 8001 - Radiative Processes in Astrophysics (4.0 cr)
AST 8011 - High Energy Astrophysics (4.0 cr)
AST 8031 - Astrophysical Fluid Dynamics (4.0 cr)
AST 8110 - Topics in Astrophysics (4.0 cr)
AST 8120 - Topics in Astrophysics (2.0 - 4.0 cr)
AST 8200 - Astrophysics Seminar (1.0 - 3.0 cr)
AST 8990 - Research in Astronomy and Astrophysics (1.0 - 4.0 cr)
PHYS 5011 - Classical Physics I (4.0 cr)

Electives (6-16 credits)
In consultation with adviser, select a minimum of 6 credits to complete the course credits requirement. Additional courses may be approved by the director of graduate studies.
AEM 5501 - Continuum Mechanics (3.0 cr)
GRAD 8101 - Teaching in Higher Education (3.0 cr)
GRAD 8200 - Teaching and Learning Topics in Higher Education (1.0 cr)
MATH 5651 - Basic Theory of Probability and Statistics (4.0 cr)
PHYS 5001 - Quantum Mechanics I (4.0 cr)
PHYS 5002 - Quantum Mechanics II (4.0 cr)
PHYS 5012 - Classical Physics II (4.0 cr)
PHYS 8011 - Quantum Field Theory I (3.0 cr)
PHYS 8012 - Quantum Field Theory II (3.0 cr)
PHYS 8501 - General Relativity and Cosmology I (3.0 cr)
PHYS 8502 - General Relativity and Cosmology II (3.0 cr)
PHYS 8601 - Plasma Physics I (3.0 cr)
PHYS 8602 - Plasma Physics II (3.0 cr)
PHYS 8611 - Cosmic Rays and Plasma Astrophysics (3.0 cr)
PHYS 8801 - Nuclear Physics I (3.0 cr)
PHYS 8802 - Nuclear Physics II (3.0 cr)

Plan Options

Plan A (10 credits)
Take 10 thesis credits.
AST 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

-OR-

Plan B
The Plan B requires the completion of 1-3 papers written in connection with three courses taken in the program.

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 64
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Astrophysics is the study of the universe and its constituent parts. The Minnesota Institute for Astrophysics conducts research in observational, theoretical, and computational astrophysics, as well as instrument development. The main research areas include minor planetary bodies, solar system properties, dynamics of normal and active galaxies, stellar evolution, interaction of stars with their environments, the interstellar medium, astrophysical magnetohydrodynamics, and galactic and cosmological structure. Observational research includes activities that cover X-ray, ultraviolet, optical, infrared, and radio wavelengths. Extensive research programs in space physics, nucleosynthesis, and the elementary particle-cosmology interface are also carried out in interdisciplinary connections with the graduate program in physics.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.50.

Undergraduate astronomy, physics or equivalent degree required.

Other requirements to be completed before admission:
Coursework in analytical mechanics, electrodynamics, quantum mechanics, thermodynamics, and statistical physics.

Special Application Requirements:
A statement of career goals, diversity statement, scores from the GRE General Test (required) and Subject Test in physics (optional), and three letters of recommendation are required. Applications are due by December 15 to be considered for fellowships and by January 15 for teaching and research assistantships. Students are admitted fall semester only.

Applicants must submit their test score(s) from the following:
- GRE

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5
- MELAB
  - Final score: 80

The preferred English language test is Test of English as Foreign Language.
Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
28 credits are required in the major.
12 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.0 is required for students to remain in good standing.

Courses must be taken on the A/F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

Major Courses (28 credits)
In consultation with adviser, select a minimum of 28 credits from the following. All students must complete PHYS 5011-12.

**AST 4001** - Astrophysics I (4.0 cr)
**AST 4002** - Astrophysics II (4.0 cr)
**AST 4031** - Interpretation and Analysis of Astrophysical Data (4.0 cr)
**AST 4041** - Computational Methods in the Physical Sciences (4.0 cr)
**AST 5012** - The Interstellar Medium (4.0 cr)
**AST 5022** - Relativity, Cosmology, and the Universe (4.0 cr)
**AST 5201** - Methods of Experimental Astrophysics (4.0 cr)
**AST 8001** - Radiative Processes in Astrophysics (4.0 cr)
**AST 8011** - High Energy Astrophysics (4.0 cr)
**AST 8031** - Astrophysical Fluid Dynamics (4.0 cr)
**AST 8110** - Topics in Astrophysics (4.0 cr)
**AST 8120** - Topics in Astrophysics (2.0 - 4.0 cr)
**AST 8200** - Astrophysics Seminar (1.0 - 3.0 cr)
**AST 8990** - Research in Astronomy and Astrophysics (1.0 - 4.0 cr)
**PHYS 5011** - Classical Physics I (4.0 cr)
**PHYS 5012** - Classical Physics II (4.0 cr)

Electives (12 credits)
In consultation with adviser, select a minimum of 12 credits. Additional courses may be approved by the director of graduate studies.

**AEM 5501** - Continuum Mechanics (3.0 cr)
**GRAD 8101** - Teaching in Higher Education (3.0 cr)
**GRAD 8200** - Teaching and Learning Topics in Higher Education (1.0 cr)
**MATH 5651** - Basic Theory of Probability and Statistics (4.0 cr)
**PHYS 5001** - Quantum Mechanics I (4.0 cr)
**PHYS 5002** - Quantum Mechanics II (4.0 cr)
**PHYS 5012** - Classical Physics II (4.0 cr)
**PHYS 8011** - Quantum Field Theory I (3.0 cr)
**PHYS 8012** - Quantum Field Theory II (3.0 cr)
**PHYS 8501** - General Relativity and Cosmology I (3.0 cr)
**PHYS 8502** - General Relativity and Cosmology II (3.0 cr)
**PHYS 8601** - Plasma Physics I (3.0 cr)
**PHYS 8602** - Plasma Physics II (3.0 cr)
**PHYS 8611** - Cosmic Rays and Plasma Astrophysics (3.0 cr)
**PHYS 8801** - Nuclear Physics I (3.0 cr)
**PHYS 8802** - Nuclear Physics II (3.0 cr)

Thesis Credits (24 credits)
Take 24 credits after passing preliminary oral exam.

**AST 8888** - Thesis Credit: Doctoral (1.0 - 24.0 cr)
**Twin Cities Campus**

**Biomedical Engineering M.S.**

Email: bmengps@umn.edu

Website: [http://cse.umn.edu/bme](http://cse.umn.edu/bme)

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the [General Information](#) section of the catalog website for requirements that apply to all major fields.

Biomedical engineering is the application of engineering principles and methods to problems in biology and medicine. The discipline includes the study of fundamental processes in biology and physiology, the study of the diagnosis and treatment of disease and injury, and the design and development of medical devices and techniques. Students take courses in mathematics, biology, biomedical engineering, and areas of science and engineering that are relevant to the degree objectives.

**Program Delivery**

This program is available:

- via classroom (the majority of instruction is face-to-face)
- partially online (between 50% to 80% of instruction is online)

**Prerequisites for Admission**

The preferred undergraduate GPA for admittance to the program is 3.20.

A baccalaureate degree in engineering or in a physical or biological science is required.

Other requirements to be completed before admission:

Applicants with an engineering degree do not need to complete any specific coursework prior to applying. Applicants without an engineering degree must complete (1) math coursework through calculus I, calculus II, linear algebra, and differential equations; and (2) at least 1 year of college-level physics, preferably calculus-based.

Eligibility requirements for the integrated BS/MS program:

- Students must be enrolled in the Biomedical Engineering undergraduate program at the University of Minnesota-Twin Cities.
- Applicants must have a minimum GPA of 3.6 in BMEn courses. Applicants with a lower GPA will be considered on a space-available basis.
- The following BMEn courses must be completed at the time of application: 2101, 2401, 2501, 3011, 3015, 3111, 3115, 3211, 3215, 3311, 3315, 3411, and 3415.

**Special Application Requirements:**

There are no minimum GPA, GRE, or English language test score requirements. A GPA of at least 3.2 on a 4.0 scale is preferred, but not required. Applicants with a lower GPA may still apply, but they will have a much lower chance of admission.

The fall application deadline for MS applicants is March 31. Local applicants applying for the program as part-time students may, under certain circumstances, be considered for spring admission.

Applicants must submit their test score(s) from the following:

- GRE
International applicants must submit score(s) from one of the following tests:
- TOEFL
- IELTS

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (GRE, TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan A: Plan A requires 20 major credits, 0 credits outside the major, and 10 thesis credits. The final exam is oral.

Plan B: Plan B requires 30 major credits and 0 credits outside the major. The final exam is oral. A capstone project is required.

Capstone Project: The Plan B Project (BMEn 8820, minimum of 2 credits) should entail approximately 50-75 hours of work per credit, performed in collaboration with a faculty advisor.

Plan C: Plan C requires 30 major credits and 0 credits outside the major. There is no final exam.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 2.80 is required for students to remain in good standing.

All coursework (excluding seminars and internships) must be taken for a letter grade (A-F). A minimum grade of B- is required for coursework to be counted toward degree requirements.

A single course may NOT be counted simultaneously toward more than one of the requirements listed below.

Included in the Core/Elective requirements listed below must be a minimum of 3 credits designated as math-/statistics-intensive. These are not additional credits but will overlap with coursework already satisfying the BMEn Core, Technical Elective, and/or Free Elective requirements. Further information is available in the BME graduate handbook.

8000 Level (Plans A and B only) - Core/Elective coursework must include at least 3 credits at the 8000 level, from any department (does not need to be BMEn). Credits of seminar, directed research, internship, project, thesis, and/or independent study cannot be used to fulfill this requirement. Plan C students are not required to complete 8000-level coursework.

Required Courses

BMEn Core (6 credits)

Select at least 6 credits from the following in consultation with the advisor:

BMEN 5001 - Advanced Biomaterials (3.0 cr)
BMEN 5101 - Advanced Bioelectricity and Instrumentation (3.0 cr)
BMEN 5201 - Advanced Biomechanics (3.0 cr)
BMEN 5311 - Advanced Biomedical Transport Processes (3.0 cr)
BMEN 5351 - Cell Engineering (3.0 cr)
BMEN 5401 - Advanced Biomedical Imaging (3.0 cr)
BMEN 8001 - Polymeric Biomaterials (3.0 cr)
BMEN 8041 - Advanced Tissue Engineering Lab (3.0 cr)
BMEN 8101 - Biomedical Digital Signal Processing (3.0 cr)
BMEN 8151 - Biomedical Electronics and Implantable Microsystems (3.0 cr)
BMEN 8201 - Advanced Tissue Mechanics (3.0 cr)
BMEN 8381 - Bioheat and Mass Transfer (3.0 cr)
BMEN 8421 - Biophotonics (3.0 cr)
BMEN 8431 - Controlled Drug and Gene Delivery: Materials, Mechanisms, and Models (4.0 cr)
BMEN 8501 - Dynamical Systems in Biology (3.0 cr)
BMEN 8502 - Physiological Control Systems (3.0 cr)
BMEN 8511 - Systems and Synthetic Biology (3.0 cr)
BME Seminar (2 credits)
Seminars are 1 credit per semester, repeatable for credit, and may be taken in any order.
BMEN 8601 - Biomedical Engineering Seminar (1.0 cr)
BMEN 8602 - Biomedical Engineering Seminar (1.0 cr)

Biology Electives (6 credits)
Select 6 credits from the following. Other courses may be applied with director of graduate studies approval.
BIOC 5216 - Current Topics in Signal Transduction (2.0 cr)
BIOC 5361 - Microbial Genomics and Bioinformatics (3.0 cr)
BIOC 5444 - Muscle (3.0 cr)
BIOC 6021 - Biochemistry (3.0 cr)
BIOC 8002 - Molecular Biology and Regulation of Biological Processes (3.0 cr)
BIOC 8216 - Signal Transduction and Gene Expression (3.0 cr)
BMEN 5501 - Biology for Biomedical Engineers (3.0 cr)
BMEN 5701 - Cancer Bioengineering (3.0 cr)
BMEN 8041 - Advanced Tissue Engineering Lab (3.0 cr)
CGSC 8041 - Cognitive Neuroscience (4.0 cr)
CPMS 5101 - Introduction to Clinical Physiology and Movement Science (3.0 cr)
EEB 5371 - Principles of Systematics (3.0 cr)
GCD 5036 - Molecular Cell Biology (3.0 cr)
GCD 8008 - Mammalian Gene Transfer and Genome Engineering (2.0 cr)
GCD 8103 - Human Histology (5.0 cr)
GCD 8131 - Advanced Molecular Genetics and Genomics (3.0 cr)
GCD 8161 - Advanced Cell Biology and Development (2.0 cr)
MEDC 5245 - Introduction to Drug Design (3.0 cr)
MEDC 5461 - Design of Cancer Therapeutics (3.0 cr)
MEDC 8753 - MOLECULAR TARGETS OF DRUG DISCOVERY (3.0 cr)
MEDC 8760 - Design of Peptidomimetics (2.0 cr)
MICA 8002 - Structure, Function, and Genetics of Bacteria and Viruses (4.0 cr)
MICA 8003 - Immunity and Immunopathology (4.0 cr)
MICA 8004 - Cellular and Cancer Biology (4.0 cr)
MICA 8009 - Biochemical Aspects of Normal and Abnormal Cell Growth and Cell Death (2.0 cr)
MLSP 5111 - Concepts of Diagnostic Microbiology (3.0 cr)
MLSP 5511 - Principles of Immunobiology (3.0 cr)
MPHY 5172 - Radiation Biology (3.0 cr)
NEUR 5230 - Cerebrovascular Hemodynamics and Diseases I (4.0 cr)
NSC 5461 - Cellular and Molecular Neuroscience (4.0 cr)
NSC 5462 - Neuroscience Principles of Drug Abuse (2.0 cr)
NSC 5540 - Survey of Biomedical Neuroscience (2.0 cr)
NSC 5561 - Systems Neuroscience (4.0 cr)
NSC 5661W - Behavioral Neuroscience [WI] (4.0 cr)
NSC 8211 - Developmental Neurobiology (4.0 cr)
NSC 8221 - Neurobiology of Pain and Analgesia (3.0 cr)
OBIO 8012 - Basic Concepts in Skeletal Biology (2.0 cr)
OBIO 8028 - Molecular Basis of Cellular and Microbial Adhesion (2.0 cr)
PHAR 5700 - Applied Fundamentals of Pharmacotherapy (3.0 cr)
PHSL 5061 - Principles of Physiology for Biomedical Engineering (4.0 cr)
PHSL 5115 - Clinical Physiology I (3.0 cr)
PHSL 5116 - Clinical Physiology II (3.0 cr)
PHSL 5444 - Muscle (3.0 cr)
PHSL 5510 - Advanced Cardiac Physiology and Anatomy (2.0 - 3.0 cr)
PHSL 5525 - Anatomy and Physiology of the Pelvis and Urinary System (1.0 - 2.0 cr)
PSY 5015 - Cognition, Computation, and Brain (3.0 cr)
PSY 5062 - Cognitive Neuropsychology (3.0 cr)
PSY 8041 - Proseminar in Perception (3.0 cr)
RSC 5200 - Introduction to Neuromodulation (1.0 - 3.0 cr)
RSC 5231 - Clinical Biomechanics (2.0 - 5.0 cr)
RSC 5281 - Physiology for Physical Rehabilitation (2.0 - 4.0 cr)
RSC 8282 - Problems in Human Movement (4.0 cr)
SCB 8181 - Stem Cell Biology (3.0 cr)

Technical Electives (6-9 credits)
Plan A students select at least 6 credits, and Plan B and Plan C students select at least 9 credits from the following in consultation with
the advisor. Other courses may be applied with director of graduate studies approval.

Free Electives (0-7 credits)
Plan B students select at least 5 credits, and Plan C students select at least 7 credits from the following to complete minimum credit requirements. Other courses may be applied with director of graduate studies approval. Plan A students are exempt from this requirement.
BMEN 8402 - New Product Design and Business Development (4.0 cr)
BTHX 5100 - Introduction to Clinical Ethics (3.0 cr)
BTHX 5120 - Dying in Contemporary Medical Culture (2.0 cr)
BTHX 5210 - Ethics of Human Subjects Research (3.0 cr)
BTHX 5300 - Foundations of Bioethics (3.0 cr)
BTHX 5325 - Biomedical Ethics (3.0 cr)
BTHX 5650 - Disability Ethics (3.0 cr)
BTHX 8120 - Dying in Contemporary Medical Culture (2.0 cr)
CMB 5912 - Creativity (1.0 cr)
MILI 6235 - Pharmaceutical Industry: Business and Policy (2.0 cr)
MILI 6995 - Medical Industry Valuation Laboratory (2.0 cr)
MOT 5001 - Technological Business Fundamentals (2.0 cr)
MOT 5002 - Creating Technological Innovation (2.0 cr)
MOT 5003 - Technological Business Planning Workshop (1.0 cr)
PDES 5701 - User-Centered Design Studio (3.0 cr)
PDES 5702 - Visual Communication (3.0 cr)
PDES 5704 - Computer-Aided Design Methods (3.0 cr)
PSY 5036W - Computational Vision [WI] (3.0 cr)
PUBH 6161 - Regulatory Toxicology (2.0 cr)
PUBH 6414 - Biostatistical Literacy (3.0 cr)
PUBH 7415 - Introduction to Clinical Trials (3.0 cr)
RSC 5106 - Introduction to Rehabilitation Science (1.0 cr)
SLHS 5804 - Cochlear Implants (3.0 cr)

Plan Options

Plan A (10 credits)
Complete 10 master's thesis credits.
BMEN 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

-OR-

Plan B (2 credits)
Complete a minimum of 2 credits for the Plan B project.
BMEN 8820 - Plan B Project (2.0 - 3.0 cr)

-OR-

Plan C
Plan C does not have additional requirements.

Program Sub-plans
A sub-plan is not required for this program.
Students may not complete the program with more than one sub-plan.

Combined B.Bm.E./M.S.
The College Science & Engineering offers an early-admission opportunity for eligible University of Minnesota B.Bm.E. students also interested in completing the Biomedical Engineering MS degree (Plan A or Plan B only). The Early Admission sub-plan, also referred to as the Combined B.Bm.E./MS Biomedical Engineering program, enables B.Bm.E. majors to take 3-16 credits toward the MS requirements during their senior (fourth) year, in addition to the courses required for the B.Bm.E. degree. The MS degree may then be completed in the fifth year of study. Students are NOT permitted to count a single course toward both the undergraduate and graduate degrees; each course must be counted either toward the B.Bm.E. requirements or the MS requirements.

Students admitted to the Combined B.Bm.E./M.S. must maintain timely degree progress to ensure that all undergraduate degree requirements are completed by the end of their fourth year. They must also be able to take additional courses during their senior year, beyond those required by the B.Bm.E. curriculum, to be eligible for this program.

Email: bmengps@umn.edu
Website: https://cse.umn.edu/bme

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Biomedical engineering is the application of engineering principles and methods to problems in biology and medicine. The discipline includes the study of fundamental processes in biology and physiology, the study of the diagnosis and treatment of disease and injury, and the design and development of medical devices and techniques. Students take courses in mathematics, biology, biomedical engineering, and areas of science and engineering that are relevant for the degree objectives.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Biomedical Engineering director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

All courses applied to the minor must be completed for a letter grade (A-F), with a minimum grade of B- earned for each course. The minimum cumulative GPA for the minor is 3.0.

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters
Course Requirements
Core Coursework (3-6 credits)
- Select at least 3 credits from the following in consultation with the Biomedical Engineering director of graduate studies:
  - BMEN 5001 - Advanced Biomaterials (3.0 cr)
  - BMEN 5101 - Advanced Bioelectricity and Instrumentation (3.0 cr)
BMEN 5201 - Advanced Biomechanics (3.0 cr)
BMEN 5311 - Advanced Biomedical Transport Processes (3.0 cr)
BMEN 5351 - Cell Engineering (3.0 cr)
BMEN 5401 - Advanced Biomedical Imaging (3.0 cr)
BMEN 8001 - Polymeric Biomaterials (3.0 cr)
BMEN 8041 - Advanced Tissue Engineering Lab (3.0 cr)
BMEN 8101 - Biomedical Digital Signal Processing (3.0 cr)
BMEN 8151 - Biomedical Electronics and Implantable Microsystems (3.0 cr)
BMEN 8201 - Advanced Tissue Mechanics (3.0 cr)
BMEN 8381 - Bioheat and Mass Transfer (3.0 cr)
BMEN 8421 - Biophotonics (3.0 cr)
BMEN 8431 - Controlled Drug and Gene Delivery: Materials, Mechanisms, and Models (4.0 cr)
BMEN 8501 - Dynamical Systems in Biology (3.0 cr)
BMEN 8502 - Physiological Control Systems (3.0 cr)
BMEN 8511 - Systems and Synthetic Biology (3.0 cr)

Additional Coursework (0-3 credits)
Select 3 credits as needed from the following, in consultation with the Biomedical Engineering director of graduate studies, to complete the 6-credit minimum.

BMEN 5031 - Engineering Extracellular Matrices (3.0 cr)
BMEN 5041 - Tissue Engineering (3.0 cr)
BMEN 5111 - Biomedical Ultrasound (3.0 cr)
BMEN 5151 - Introduction to BioMEMS and Medical Microdevices (2.0 cr)
BMEN 5321 - Microfluidics in Biology and Medicine (3.0 cr)
BMEN 5361 - 3D Bioprinting (2.0 cr)
BMEN 5411 - Neural Engineering (3.0 cr)
BMEN 5412 - Neuromodulation (3.0 cr)
BMEN 5413 - Neural Decoding and Interfacing (3.0 cr)
BMEN 5421 - Introduction to Biomedical Optics (3.0 cr)
BMEN 5501 - Biology for Biomedical Engineers (3.0 cr)
BMEN 5601 - Cardiovascular Devices (1.0 cr)
BMEN 5701 - Cancer Bioengineering (3.0 cr)
BMEN 5910 - Special Topics in Biomedical Engineering (3.0 cr)
BMEN 5920 - Special Topics in Biomedical Engineering (1.0 - 3.0 cr)
BMEN 8401 - New Product Design and Business Development (4.0 cr)
BMEN 8402 - New Product Design and Business Development (4.0 cr)
BMEN 8900 - Special Topics in Biomedical Engineering (1.0 - 4.0 cr)

Doctoral
A single course may not be counted toward more than one requirement.

Core Coursework (6 credits)
Select 6 credits from the following in consultation with the Biomedical Engineering director of graduate studies:
BMEN 5001 - Advanced Biomaterials (3.0 cr)
BMEN 5101 - Advanced Bioelectricity and Instrumentation (3.0 cr)
BMEN 5201 - Advanced Biomechanics (3.0 cr)
BMEN 5311 - Advanced Biomedical Transport Processes (3.0 cr)
BMEN 5351 - Cell Engineering (3.0 cr)
BMEN 5401 - Advanced Biomedical Imaging (3.0 cr)
BMEN 8001 - Polymeric Biomaterials (3.0 cr)
BMEN 8041 - Advanced Tissue Engineering Lab (3.0 cr)
BMEN 8101 - Biomedical Digital Signal Processing (3.0 cr)
BMEN 8151 - Biomedical Electronics and Implantable Microsystems (3.0 cr)
BMEN 8201 - Advanced Tissue Mechanics (3.0 cr)
BMEN 8381 - Bioheat and Mass Transfer (3.0 cr)
BMEN 8421 - Biophotonics (3.0 cr)
BMEN 8431 - Controlled Drug and Gene Delivery: Materials, Mechanisms, and Models (4.0 cr)
BMEN 8501 - Dynamical Systems in Biology (3.0 cr)
BMEN 8502 - Physiological Control Systems (3.0 cr)
BMEN 8511 - Systems and Synthetic Biology (3.0 cr)

Biology Elective (3 credits)
Select 3 credits from the following in consultation with the Biomedical Engineering director of graduate studies. Other courses may be applied to this requirement with the approval of the Biomedical Engineering director of graduate studies.
BIOC 5216 - Current Topics in Signal Transduction (2.0 cr)
BIOC 5361 - Microbial Genomics and Bioinformatics (3.0 cr)
BIOC 5444 - Muscle (3.0 cr)
BIOC 6021 - Biochemistry (3.0 cr)
BIOC 8002 - Molecular Biology and Regulation of Biological Processes (3.0 cr)
BIOC 8216 - Signal Transduction and Gene Expression (3.0 cr)
BMEN 5501 - Biology for Biomedical Engineers (3.0 cr)
BMEN 5701 - Cancer Bioengineering (3.0 cr)
BMEN 8041 - Advanced Tissue Engineering Lab (3.0 cr)
CGSC 8041 - Cognitive Neuroscience (4.0 cr)
CPMS 5101 - Introduction to Clinical Physiology and Movement Science (3.0 cr)
EEB 5371 - Principles of Systematics (3.0 cr)
BMEN 5701 - Cancer Bioengineering (3.0 cr)
BMEN 8041 - Advanced Tissue Engineering Lab (3.0 cr)
CGSC 8041 - Cognitive Neuroscience (4.0 cr)
CPMS 5101 - Introduction to Clinical Physiology and Movement Science (3.0 cr)
EEB 5371 - Principles of Systematics (3.0 cr)

Technical Elective (3 credits)
Select 3 credits from the following in consultation with the Biomedical Engineering director of graduate studies. Other courses may be applied to this requirement with the approval of the Biomedical Engineering director of graduate studies.

AEM 5401 - Intermediate Dynamics (3.0 cr)
AEM 5451 - Optimal Estimation (3.0 cr)
AEM 5501 - Continuum Mechanics (3.0 cr)
AEM 5503 - Theory of Elasticity (3.0 cr)
AEM 8511 - Advanced Topics in Continuum Mechanics (3.0 cr)
AEM 8531 - Fracture Mechanics (3.0 cr)
BBE 5301 - Applied Surface and Colloid Science (3.0 cr)
BIOC 5351 - Protein Engineering (3.0 cr)
BIOC 5352 - Biotechnology and Bioengineering for Biochemists (3.0 cr)
BIOC 5528 - Spectroscopy and Kinetics (4.0 cr)
BIOC 8005 - Biochemistry: Structure and Catalysis (2.0 cr)
BMEN 5001 - Advanced Biomaterials (3.0 cr)
BMEN 5041 - Tissue Engineering (3.0 cr)
BMEN 5101 - Advanced Bioelectricity and Instrumentation (3.0 cr)
BMEN 5111 - Biomedical Ultrasound (3.0 cr)
BMEN 5151 - Introduction to BioMEMS and Medical Microdevices (2.0 cr)
BMEN 5201 - Advanced Biomechanics (3.0 cr)
BMEN 5311 - Advanced Biomedical Transport Processes (3.0 cr)
BMEN 5321 - Microfluidics in Biology and Medicine (3.0 cr)
BMEN 5351 - Cell Engineering (3.0 cr)
BMEN 5361 - 3D Bioprinting (2.0 cr)

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 54
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Biomedical engineering is the application of engineering principles and methods to problems in biology and medicine. The discipline includes the study of fundamental processes in biology and physiology, the study of the diagnosis and treatment of disease and injury, and the design and development of medical devices and techniques. Students take courses in mathematics, biology, biomedical engineering, and areas of science and engineering that are relevant for the degree objectives.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.50.

A baccalaureate degree in engineering or in a physical or biological science is required.

Other requirements to be completed before admission:
Applicants with an engineering degree do not need to complete any specific coursework prior to applying. Applicants without an engineering degree must complete (1) math coursework through calculus I, calculus II, linear algebra, and differential equations; and (2) at least one year of college-level physics, preferably calculus-based.

There are no minimum required GPA, GRE, or English language test scores. A GPA of at least 3.5 on a 4.0 scale is preferred, but not required. Applicants with a lower GPA may still apply, but they will have a much lower chance of admission.

Special Application Requirements:
Fall application deadline is December 15. PhD applications are not accepted for the spring or summer terms.

Applicants must submit their test score(s) from the following:
- GRE

International applicants must submit score(s) from one of the following tests:
- TOEFL
- IELTS

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (GRE, TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements
30 credits are required in the major.
0 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

All coursework (excluding seminars and internships) must be taken for a letter grade (A-F). A minimum grade of B- is required for coursework to be counted toward degree requirements.

A single course may NOT be counted simultaneously toward more than one of the requirements listed below.

Included in the Core/Elective requirements listed below must be a minimum of 6 credits designated as math-/statistics-intensive. These are not additional credits but will overlap with coursework already satisfying the BMEn Core, Technical Elective, and/or Free Elective requirements. Further information is available in the BME graduate handbook.

Required Courses
BMEn 8000-Level Core (6 credits)
Select at least 6 credits from the following in consultation with the advisor:
BMEN 8001 - Polymeric Biomaterials (3.0 cr)
BMEN 8041 - Advanced Tissue Engineering Lab (3.0 cr)
BMEN 8101 - Biomedical Digital Signal Processing (3.0 cr)
BMEN 8151 - Biomedical Electronics and Implantable Microsystems (3.0 cr)
BMEN 8201 - Advanced Tissue Mechanics (3.0 cr)
BMEN 8381 - Bioheat and Mass Transfer (3.0 cr)
BMEN 8421 - Biophotonics (3.0 cr)
BMEN 8431 - Controlled Drug and Gene Delivery: Materials, Mechanisms, and Models (4.0 cr)
BMEN 8501 - Dynamical Systems in Biology (3.0 cr)
BMEN 8502 - Physiological Control Systems (3.0 cr)
BMEN 8511 - Systems and Synthetic Biology (3.0 cr)

BMEn Seminars (3 credits)
Seminars are 1 credit per semester, repeatable for credit, and may be taken in any order. Up to 1 seminar credit from another department/program may be applied to this requirement with prior approval of the director of graduate studies.
BMEN 8601 - Biomedical Engineering Seminar (1.0 cr)
BMEN 8602 - Biomedical Engineering Seminar (1.0 cr)

Ethics Course (2 credits)
Take the following course:
BMEN 8611 - Professional Skills and Ethics for Biomedical Engineers (2.0 cr)

Biology Electives (6 credits)
Select 6 credits from the following in consultation with the advisor. Other courses may be applied to this requirement with director of graduate studies approval.
BIOC 5216 - Current Topics in Signal Transduction (2.0 cr)
BIOC 5361 - Microbial Genomics and Bioinformatics (3.0 cr)
BIOC 5444 - Muscle (3.0 cr)
BIOC 6021 - Biochemistry (3.0 cr)
BIOC 8002 - Molecular Biology and Regulation of Biological Processes (3.0 cr)
BIOC 8216 - Signal Transduction and Gene Expression (3.0 cr)
BMEN 5501 - Biology for Biomedical Engineers (3.0 cr)
BMEN 5701 - Cancer Bioengineering (3.0 cr)
BMEN 8041 - Advanced Tissue Engineering Lab (3.0 cr)
CGSC 8041 - Cognitive Neuroscience (4.0 cr)
CPMS 5101 - Introduction to Clinical Physiology and Movement Science (3.0 cr)
EEB 5371 - Principles of Systematics (3.0 cr)
GCD 5036 - Molecular Cell Biology (3.0 cr)
GCD 8008 - Mammalian Gene Transfer and Genome Engineering (2.0 cr)
GCD 8103 - Human Histology (5.0 cr)
GCD 8131 - Advanced Molecular Genetics and Genomics (3.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Chemical Engineering

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Research activities in the Chemical Engineering and Materials Science (CEMS) Department focus on the development of renewable energy technologies, the solution of important medical and biological engineering challenges, the development of advanced materials and characterization methods, and the application of sophisticated mathematical and theoretical models. Graduate courses offered cover core areas of chemical engineering (fluid mechanics, applied mathematics: linear and nonlinear analysis, transport, chemical thermodynamics, statistical thermodynamics and kinetics, and analysis of chemical reactors) and core areas of materials science (structure and symmetry of materials, thermodynamics and kinetics, transport, advanced mathematics, electronic properties of materials, and mechanical properties of materials). In addition, several specialized topics are offered, including biochemical engineering, biological transport processes, colloids, principles of mass transfer in engineering and biological engineering, rheology, process control, ceramics, polymers, scattering, and electrochemical engineering.

The master of chemical engineering (M.Ch.E.), also known as the professional master's, is designed for working professionals who are interested in obtaining a master's degree part-time. This degree requires a design project. Part-time students may also choose the M.S.Ch.E. Plan C, which is coursework only.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
A bachelor's degree in chemical engineering or other related field.

Other requirements to be completed before admission:
This professional master of engineering degree is designed for employees of local industries who wish to pursue their studies part time. No financial support is available. Applicants should contact the program before applying for admission.

Special Application Requirements:
Applicants must submit scores from the General Test of the GRE; three letters of recommendation from persons familiar with their scholarship and research potential; a complete set of official transcripts; and a clearly written statement summarizing research/work experience and motivation for graduate work. International students are required to provide TOEFL results.

Applications are accepted for fall semester only. December 15 is the application deadline; late applications are considered if space is available.

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of September 04, 2020
Program Requirements

Plan A: Plan A requires 12 to 14 major credits, 6 to 8 credits outside the major, and 10 thesis credits. The final exam is oral.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 2.80 is required for students to remain in good standing.

Courses must be taken on the A/F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

In addition to the coursework, MChE students are required to complete a design project. The work-related MChE design project consists of an in-depth study of an engineering design. It need not represent a publishable research project. While the amount of work should be the same as for a master's thesis, the project can contain elements that the thesis would not, such as economic considerations, design consultation, and social relevance.

Core Courses (12-14 Credits)

In consultation with the advisor, select a minimum of 12 credits from the following.

CHEN 8101 - Fluid Mechanics (3.0 cr)
CHEN 8201 - Applied Math (3.0 cr)
CHEN 8301 - Physical Rate Processes I: Transport (3.0 cr)
CHEN 8401 - Physical and Chemical Thermodynamics (3.0 cr)
CHEN 8402 - Statistical Thermodynamics and Kinetics (3.0 cr)
CHEN 8501 - Chemical Rate Processes: Analysis of Chemical Reactors (3.0 cr)

Electives (6-8 credits)

In consultation with the advisor, select courses from the following to complete the course credit requirements. A minimum of 6 credits must be in non-CHEN courses. Additional courses may be approved by the director of graduate studies.

AEM 4511 - Mechanics of Composite Materials (3.0 cr)
AEM 5321 - Modern Feedback Control (3.0 cr)
AEM 5451 - Optimal Estimation (3.0 cr)
AEM 5501 - Continuum Mechanics (3.0 cr)
AEM 5503 - Theory of Elasticity (3.0 cr)

STAT 5601 - Nonparametric Methods (3.0 cr)

**Thesis Credits**
10 thesis credits are required for the design project.

**CHEN 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)**
Twin Cities Campus
Chemical Engineering M.S.Ch.E.
Chemical Engineering & Materials Science
College of Science and Engineering

Link to a list of faculty for this program.

Contact Information:
Department of Chemical Engineering and Materials Science, University of Minnesota, 151 Amundson Hall, 421 Washington Ave SE, Minneapolis, MN 55455 (612-625-0382; fax: 612-626-7246)
Email: cemsgrad@umn.edu
Website: http://www.cems.umn.edu

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 30
- This program requires summer semesters for timely completion.
- Degree: Master of Science in Chemical Engineering

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Research activities in the Chemical Engineering and Materials Science (CEMS) Department focus on the development of renewable energy technologies, the solution of important medical and biological engineering challenges, the development of advanced materials and characterization methods, and the application of sophisticated mathematical and theoretical models. Graduate courses offered cover core areas of chemical engineering (fluid mechanics, applied mathematics: linear and nonlinear analysis, transport, chemical thermodynamics, statistical thermodynamics and kinetics, and analysis of chemical reactors) and core areas of materials science (structure and symmetry of materials, thermodynamics and kinetics, transport, advanced mathematics, electronic properties of materials, and mechanical properties of materials). In addition, several specialized topics are offered, including biochemical engineering, biological transport processes, colloids, principles of mass transfer in engineering and biological engineering, rheology, process control, ceramics, polymers, scattering, and electrochemical engineering.

The Chemical Engineering program offers two types of master's degrees: the M.S.Ch.E. (Plan A or C) and the M.Ch.E. degree, also known as the professional master's. The M.S.Ch.E. Plan A degree is a thesis-based master's that requires the student to work in a faculty member's research laboratory. The M.S.Ch.E. Plan C degree is a coursework-based master's that is generally reserved only for current graduate students who choose not to seek a PhD. Working professionals who are interested in obtaining a master's degree part time should follow the requirements for the M.Ch.E. degree, which requires a design project.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
A bachelor's degree in chemical engineering or other related field.

Other requirements to be completed before admission:
With the exception of the professional master's degree (the MChE) and the MSChE Plan C, the CEMS Department focuses on the PhD and does not generally admit students directly to the MSChE Plan A degree.

Special Application Requirements:
Applicants must submit scores from the General Test of the GRE; three letters of recommendation from persons familiar with their scholarship and research potential; a complete set of official transcripts; and a clearly written statement summarizing research/work experience and motivation for graduate work. International students are required to provide TOEFL results.

Applications are accepted for fall semester only. December 15 is the application deadline; late applications are considered if space is available.

Applicants must submit their test score(s) from the following:
- GRE
International applicants must submit score(s) from one of the following tests:

- **TOEFL**
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19

- **IELTS**
  - Total Score: 6.5

- **MELAB**
  - Final score: 80

Key to test abbreviations(GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the [General Information](#) section of the catalog website.

### Program Requirements

**Plan A:** Plan A requires 12 to 14 major credits, 6 to 8 credits outside the major, and 10 thesis credits. The final exam is written and oral.

**Plan C:** Plan C requires 12 to 18 major credits and 12 to 18 credits outside the major. There is no final exam.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 2.80 is required for students to remain in good standing.

Courses must be taken on the A/F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

### Core Courses (12-18 credits)

In consultation with the advisor, select a minimum of 12 credits from the following.

- **CHEN 8101** - Fluid Mechanics (3.0 cr)
- **CHEN 8201** - Applied Math (3.0 cr)
- **CHEN 8301** - Physical Rate Processes I: Transport (3.0 cr)
- **CHEN 8401** - Physical and Chemical Thermodynamics (3.0 cr)
- **CHEN 8402** - Statistical Thermodynamics and Kinetics (3.0 cr)
- **CHEN 8501** - Chemical Rate Processes: Analysis of Chemical Reactors (3.0 cr)

### Electives (6-18 credits)

In consultation with the advisor, select courses to complete the course credit requirements. Plan A students must include a minimum of 6 credits in non-CHEN courses and Plan C students must include a minimum of 12 credits in non-CHEN courses. Additional courses may be approved by the director of graduate studies.

Contact Information:
Department of Chemical Engineering and Materials Science, University of Minnesota, 151 Amundson Hall, 421 Washington Ave SE, Minneapolis, MN 55455 (612-625-0382; fax: 612-626-7246)
Email: cemsgrad@umn.edu
Website: http://www.cems.umn.edu

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Research in the Chemical Engineering and Materials Science (CEMS) Department spans all aspects of chemical and materials engineering ranging from fluid mechanics, transport, catalysis, and reactor design to bioengineering, renewable energy, polymer synthesis and processing, and advanced semiconductor growth and characterization. A strong tradition in mathematical modeling and computation complements experimental efforts. The research of CEMS core faculty and affiliated graduate faculty is organized into 14 themes: applied and computational mathematics; biological engineering; catalysis, separations and reaction engineering; electrochemical materials and devices; electronic, magnetic and photonic materials; electron microscopy; energy; materials processing; materials theory; nanomaterials and nanotechnology; nanomechanics and plasticity; polymer science and engineering; systems engineering; and transport and fluid mechanics.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission

Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Chemical Engineering director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Use of 4xxx courses towards program requirements is not permitted.

Minor programs must be approved by the Chemical Engineering director of graduate studies.

Courses must be taken on the A/F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

The minimum cumulative GPA for the minor is 3.00.

Minor Courses (6-12 credits)

Master's students select a minimum of 6 credits, and doctoral students select a minimum of 12 credits in consultation with the Chemical Engineering director of graduate studies.

CHEN 8101 - Fluid Mechanics (3.0 cr)
CHEN 8201 - Applied Math (3.0 cr)
CHEN 8301 - Physical Rate Processes I: Transport (3.0 cr)
CHEN 8401 - Physical and Chemical Thermodynamics (3.0 cr)
CHEN 8402 - Statistical Thermodynamics and Kinetics (3.0 cr)
CHEN 8501 - Chemical Rate Processes: Analysis of Chemical Reactors (3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Twin Cities Campus
Chemical Engineering Ph.D.
Chemical Engineering & Materials Science
College of Science and Engineering

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 57
- This program requires summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Research activities in the Chemical Engineering and Materials Science (CEMS) Department focus on the development of renewable energy technologies, the solution of important medical and biological engineering challenges, the development of advanced materials and characterization methods, and the application of sophisticated mathematical and theoretical models. Graduate courses offered cover core areas of chemical engineering (fluid mechanics, applied mathematics: linear and nonlinear analysis, transport, chemical thermodynamics, statistical thermodynamics and kinetics, and analysis of chemical reactors) and core areas of materials science (structure and symmetry of materials, thermodynamics and kinetics, transport, advanced mathematics, electronic properties of materials, and mechanical properties of materials). In addition, several specialized topics are offered, including biochemical engineering, biological transport processes, colloids, principles of mass transfer in engineering and biological engineering, rheology, process control, ceramics, polymers, scattering, and electrochemical engineering.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
A bachelor's degree in chemical engineering or related field.

Other requirements to be completed before admission:
Applicants must submit scores from the General Test of the GRE; three letters of recommendation from persons familiar with their scholarship and research potential; a complete set of official transcripts; and a clearly written statement summarizing research/work experience and motivation for graduate work. International students are required to provide TOEFL results.

Special Application Requirements:
Applications are accepted for fall semester only. Submission of all application materials by December 15 is strongly encouraged to ensure priority consideration for fellowships and assistantships; late applications are considered if space is available.

Applicants must submit their test score(s) from the following:
- GRE

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5
- MELAB
  - Final score: 80
Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

**Program Requirements**

21 credits are required in the major.
12 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

Courses must be taken on the A/F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

Students must attend, but not enroll in, the departmental seminar for six semesters. Informal attendance will be done within the department.

**Core Courses (12 credits)**

Take the following courses:

- CHEN 8101 - Fluid Mechanics (3.0 cr)
- CHEN 8201 - Applied Math (3.0 cr)
- CHEN 8301 - Physical Rate Processes I: Transport (3.0 cr)
- CHEN 8401 - Physical and Chemical Thermodynamics (3.0 cr)
- CHEN 8402 - Statistical Thermodynamics and Kinetics (3.0 cr)
- CHEN 8501 - Chemical Rate Processes: Analysis of Chemical Reactors (3.0 cr)

**Outside Coursework (12 credits)**

Select courses from the following in consultation with the advisor. Other courses may be selected with director of graduate studies approval.

- AEM 4511 - Mechanics of Composite Materials (3.0 cr)
- AEM 5321 - Modern Feedback Control (3.0 cr)
- AEM 5451 - Optimal Estimation (3.0 cr)
- AEM 5501 - Continuum Mechanics (3.0 cr)
- AEM 5503 - Theory of Elasticity (3.0 cr)
- AEM 5581 - Mechanics of Solids (3.0 cr)
- AEM 8201 - Fluid Mechanics I (3.0 cr)
- AEM 8202 - Fluid Mechanics II (3.0 cr)
- AEM 8203 - Fluid Mechanics III (3.0 cr)
- AEM 8251 - Finite-Volume Methods in Computational Fluid Dynamics (3.0 cr)
- AEM 8421 - Robust Multivariable Control Design (3.0 cr)
- AEM 8423 - Convex Optimization Methods in Control (3.0 cr)
- AEM 8525 - Elastic Stability of Materials (3.0 cr)
- AEM 8531 - Fracture Mechanics (3.0 cr)
- AEM 8541 - Mechanics of Crystalline Solids (3.0 cr)
- AEM 8551 - Multiscale Methods for Bridging Length and Time Scales (3.0 cr)
- BBE 5001 - Chemistry of Biomass and Biomass Conversion to Fuels and Products (4.0 cr)
- BIOC 4332 - Biochemistry II: Molecular Mechanisms of Signal Transduction and Gene Expression (4.0 cr)
- BIOC 5351 - Protein Engineering (3.0 cr)
- BIOC 5352 - Biotechnology and Bioengineering for Biochemists (3.0 cr)
- BIOC 5528 - Spectroscopy and Kinetics (4.0 cr)
- BIOC 6021 - Biochemistry (3.0 cr)
- BIOC 8002 - Molecular Biology and Regulation of Biological Processes (3.0 cr)
- BIOL 5950 - Special Topics (1.0 - 4.0 cr)
- BMEN 5001 - Advanced Biomaterials (3.0 cr)
- BMEN 5041 - Tissue Engineering (3.0 cr)
- BMEN 5201 - Advanced Biomechanics (3.0 cr)
- BMEN 5311 - Advanced Biomedical Transport Processes (3.0 cr)
- BMEN 5321 - Microfluidics in Biology and Medicine (3.0 cr)
BMEN 5351 - Cell Engineering (3.0 cr)
BMEN 5501 - Biology for Biomedical Engineers (3.0 cr)
BMEN 5701 - Cancer Bioengineering (3.0 cr)
BMEN 8511 - Systems and Synthetic Biology (3.0 cr)
CEGE 8022 - Numerical Methods for Free and Moving Boundary Problems (3.0 cr)
CEGE 8401 - Fundamentals of Finite Element Method (3.0 cr)
CEGE 8402 - Nonlinear Finite Element Analysis (3.0 cr)
CEGE 8501 - Environmental Fluid Mechanics I (4.0 cr)
CEGE 8502 - Environmental Fluid Mechanics II (4.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 30
- This program requires summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Chemical physics focuses on research areas where the techniques of chemistry and physics are combined for the study of atoms and molecules; their interactions in gases, liquids, and solids; and the detailed structure and dynamics of material changes. Areas of research and specialization include spectroscopy, molecular collisions, chemical dynamics, quantum mechanics, statistical mechanics, thermodynamics, low-temperature behavior, polymers and macromolecules, surface science, and biochemical and heterogeneous catalysis.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.20.

An undergraduate degree in chemistry, physics, or a related field is required for admission.

Other requirements to be completed before admission:
Prospective graduate students should have adequate undergraduate preparation in chemistry, physics and mathematics.

Scores from the GRE general test are required for international applicants. A Subject GRE score is not required but is strongly recommended. The Subject GRE can be taken in chemistry, physics, or a related discipline.

Special Application Requirements:
Applications for fall semester must be completed by December 1 in order to be considered for financial support. Applications received after December 1 will be reviewed on a space available basis. The department prefers to admit for fall semester and will only consider spring admission under extenuating circumstances.

Applicants must submit their test score(s) from the following:
• GRE

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 95
  - Internet Based - Speaking Score: 23
• IELTS
  - Total Score: 7
• MELAB
  - Final score: 83

Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).
For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

**Plan A:** Plan A requires 20 major credits, up to null credits outside the major, and 10 thesis credits. The final exam is oral.

**Plan B:** Plan B requires 30 major credits and up to null credits outside the major. The final exam is written. A capstone project is required.

**Capstone Project:** Each Plan B project should involve a combined total of approximately 160 hours (the equivalent of four full-time weeks) of library research, reading, and/or writing resulting in the preparation of a significant written document. Students who plan to work on Plan B projects independent of the Preliminary Examination should present a plan, after consultation with the chosen instructor for the Plan B project, outlining the number and content of their projects to the director of graduate studies. Projects should be completed to the satisfaction of the instructor; the final grade is determined by the instructor.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 2.8 is required for students to remain in good standing.

Courses must be taken on the A/F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

All CHPH, CHEM, and PHYS courses must be taken at the 5xxx or 8xxx level. A maximum of 8 credits in 4xxx-level courses from other departments may be used with approval from the director of graduate studies.

Course credits must include at least 6 CHEM credits and 6 PHYS credits, or at least 3 credits each in quantum mechanics, thermodynamics, and statistical mechanics.

All first-year students must register for CHPH 8601 during both fall and spring semesters and for CHEM 8066 during the spring semester of their first year in residence.

**Major Courses (20-22 credits)**

Plan A students select 20 credits, and Plan B students select 22 credits from the following list. Other coursework may be applied to this requirement with adviser approval. One credit each of CHEM 8066 and CHPH 8601 can be applied to degree requirements.

- CHEM 5210 - Materials Characterization (4.0 cr)
- CHEM 5755 - X-Ray Crystallography (4.0 cr)
- CHEM 8011 - Mechanisms of Chemical Reactions (4.0 cr)
- CHEM 8021 - Computational Chemistry (4.0 cr)
- CHEM 8066 - Professional Conduct of Chemical Research (1.0 cr)
- CHEM 8151 - Analytical Separations and Chemical Equilibria (4.0 cr)
- CHEM 8152 - Analytical Spectroscopy (4.0 cr)
- CHEM 8153 - Extracting Signal From Noise (5.0 cr)
- CHEM 8155 - Advanced Electroanalytical Chemistry (4.0 cr)
- CHEM 8157 - Bioanalytical Chemistry (4.0 cr)

CHEM 8826 - Advanced Topics in Elementary Particle Physics (3.0 cr)

Plan Options

Plan A
Complete 10 master's thesis credits.
CHPH 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

-OR-

Plan B (8 credits)
Take the Plan B project courses for 8 credits.
CHPH 8081 - M.S. Plan B Project I (4.0 cr)
CHPH 8082 - M.S. Plan B Project II (4.0 cr)

Email: chmapply@umn.edu
Website: http://chem.umn.edu/academics/graduate/chemical-physics

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Chemical physics focuses on research areas where the techniques of chemistry and physics are combined for the study of atoms and molecules; their interactions in gases, liquids, and solids, and the detailed structure and dynamics of material changes. Areas of research and specialization include spectroscopy, molecular collisions, chemical dynamics, quantum mechanics, statistical mechanics, thermodynamics, low-temperature behavior, polymers and macromolecules, surface science, and biochemical and heterogeneous catalysis.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Chemical Physics director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Courses must be taken on the A/F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

The minimum cumulative GPA for the minor is 3.00.

Chemistry Coursework (3 to 6 credits)
Master’s students select 3 credits, and doctoral students select 6 credits from the following in consultation with their advisor and the Chemical Physics director of graduate studies:
CHEM 5210 - Materials Characterization (4.0 cr)
CHEM 5755 - X-Ray Crystallography (4.0 cr)
CHEM 8011 - Mechanisms of Chemical Reactions (4.0 cr)
CHEM 8021 - Computational Chemistry (4.0 cr)
CHEM 8151 - Analytical Separations and Chemical Equilibria (4.0 cr)
CHEM 8152 - Analytical Spectroscopy (4.0 cr)
CHEM 8153 - Extracting Signal From Noise (5.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Doctoral
**Twin Cities Campus**

Chemical Physics Ph.D.

Chemistry

College of Science and Engineering

Link to a list of faculty for this program.

**Contact Information:**

Chemical Physics Program, University of Minnesota, 137 Smith Hall, 207 Pleasant St SE, Minneapolis, MN 55455 (612-626-7444; fax: 612-626-7541)

Email: chmapply@umn.edu

Website: [http://chem.umn.edu/academics/graduate/chemical-physics](http://chem.umn.edu/academics/graduate/chemical-physics)

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 48
- This program requires summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the [General Information](http://chem.umn.edu/academics/graduate/chemical-physics) section of the catalog website for requirements that apply to all major fields.

Chemical physics focuses on research areas where the techniques of chemistry and physics are combined for the study of atoms and molecules; their interactions in gases, liquids, and solids; and the detailed structure and dynamics of material changes. Areas of research and specialization include spectroscopy, molecular collisions, chemical dynamics, quantum mechanics, statistical mechanics, thermodynamics, low-temperature behavior, polymers and macromolecules, surface science, and biochemical and heterogeneous catalysis.

**Program Delivery**

This program is available:

- via classroom (the majority of instruction is face-to-face)

**Prerequisites for Admission**

The preferred undergraduate GPA for admittance to the program is 3.20.

An undergraduate degree in chemistry, physics, or a related field is required for admission.

Other requirements to be completed before admission:

Prospective graduate students should have adequate undergraduate preparation in chemistry, physics and mathematics.

Scores from the GRE general test are required for international applicants. A Subject GRE score is not required but is strongly recommended. The Subject GRE can be taken in chemistry, physics, or a related discipline.

**Special Application Requirements:**

Applications for fall semester must be completed by December 1 in order to be considered for financial support. Applications received after December 1 will be reviewed on a space available basis. The program prefers to admit for fall semester and will only consider spring admission under extenuating circumstances.

Applicants must submit their test score(s) from the following:

- GRE

International applicants must submit score(s) from one of the following tests:

- TOEFL
  - Internet Based - Total Score: 95
  - Internet Based - Speaking Score: 23
- IELTS
  - Total Score: 7
- MELAB
  - Final score: 83
Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
24 credits are required in the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

Courses must be taken on the A/F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

All CHPH, CHEM, and PHYS courses must be taken at the 5xxx or 8xxx level. A maximum of 8 credits in 4xxx-level courses from other departments may be used with approval from the director of graduate studies.

The 24 course credits required must include either:

- At least 5 CHEM credits and at least 5 PHYS credits, or
- At least 16 credits in chemistry and/or physics combined, including at least 5 credits of quantum mechanics and at least 5 credits chosen from among the areas of thermodynamics, statistical mechanics, statistical physics, and chemical dynamics.

All first-year students must register for CHPH 8601 during both fall and spring semesters and for CHEM 8066 during the spring semester of their first year in residence.

Major Courses (24 credits)
Select courses from the following list, or consult with the advisor for additional options. One credit each of CHEM 8066 and CHPH 8601 can be applied to degree requirements.

- CHEM 5210 - Materials Characterization (4.0 cr)
- CHEM 5755 - X-Ray Crystallography (4.0 cr)
- CHEM 8011 - Mechanisms of Chemical Reactions (4.0 cr)
- CHEM 8021 - Computational Chemistry (4.0 cr)
- CHEM 8066 - Professional Conduct of Chemical Research (1.0 cr)
- CHEM 8151 - Analytical Separations and Chemical Equilibria (4.0 cr)
- CHEM 8152 - Analytical Spectroscopy (4.0 cr)
- CHEM 8153 - Extracting Signal From Noise (5.0 cr)
- CHEM 8155 - Advanced Electroanalytical Chemistry (4.0 cr)
- CHEM 8157 - Bioanalytical Chemistry (4.0 cr)
- CHEM 8159 - Nuclear Magnetic Resonance Spectroscopy (4.0 cr)
- CHEM 8180 - Special Topics in Analytical Chemistry (2.0 - 4.0 cr)
- CHEM 8201 - Materials Chemistry (4.0 cr)
- CHEM 8211 - Physical Polymer Chemistry (4.0 cr)
- CHEM 8221 - Synthetic Polymer Chemistry (4.0 cr)
- CHEM 8230 - Special Topics in Materials Chemistry (2.0 - 4.0 cr)
- CHEM 8321 - Organic Synthesis (4.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

While modern research in chemistry is very interdisciplinary, graduate work in the Department of Chemistry falls broadly into the focus areas of analytical chemistry, chemical biology, environmental chemistry, inorganic chemistry, materials chemistry, organic chemistry, polymer chemistry, experimental physical chemistry, and computational chemistry.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.20.

An undergraduate degree in chemistry or a related field is required for admission.

Other requirements to be completed before admission:
Applicants must offer the substantial equivalent of the courses in analytical, inorganic, organic, and physical chemistry that are required of undergraduate majors in the University of Minnesota chemistry curriculum. They must also have at least one year of college physics, plus college mathematics through calculus.

Scores from the GRE general test are required for international applicants. A Subject GRE score is not required but is strongly recommended. The Subject GRE can be taken in chemistry or a related discipline.

Special Application Requirements:
Applications for fall semester must be completed by December 1 in order to be considered for fellowship support and teaching and research assistantships. Applications received after December 1 will be reviewed on a space available basis. The department prefers to admit for fall semester and will only consider spring admission under extenuating circumstances.

Applicants must submit their test score(s) from the following:
• GRE

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 95
  - Internet Based - Speaking Score: 23
• IELTS
  - Total Score: 7
• MELAB
  - Final score: 83
Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

**Plan A:** Plan A requires 20 major credits, up to null credits outside the major, and 10 thesis credits. The final exam is oral.

**Plan B:** Plan B requires 30 major credits and up to null credits outside the major. The final exam is written. A capstone project is required.

**Capstone Project:** Each Plan B project should involve a combined total of approximately 160 hours (the equivalent of four full-time weeks) of library research, reading, and/or writing resulting in the preparation of a significant written document. Students who plan to work on Plan B projects independent of the Preliminary Examination should present a plan, after consultation with the chosen instructor for the Plan B project, outlining the number and content of their projects to the director of graduate studies. Projects should be completed to the satisfaction of the instructor; the final grade is determined by the instructor.

**Plan C:** Plan C requires 30 major credits and up to null credits outside the major. There is no final exam.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 2.80 is required for students to remain in good standing.

Courses must be taken on the A/F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

All CHEM courses must be taken at the 5xxx or 8xxx level. A maximum of 8 credits in 4xxx-level courses from another department may be used with approval from the director of graduate studies.

All first-year students must register for CHEM 8601 during both fall and spring semesters and for CHEM 8066 during the spring semester of their first year in residence.

Major Courses (20-30 credits)

Plan A students select 20 credits, Plan B students select 22 credits, and Plan C students select 30 credits from the following list. Other courses may be applied to this requirement with advisor approval. Students may count one credit each of CHEM 8066 and CHPH 8601 towards degree requirements.

- CHEM 5210 - Materials Characterization (4.0 cr)
- CHEM 5755 - X-Ray Crystallography (4.0 cr)
- CHEM 8011 - Mechanisms of Chemical Reactions (4.0 cr)
- CHEM 8021 - Computational Chemistry (4.0 cr)
- CHEM 8066 - Professional Conduct of Chemical Research (1.0 cr)
- CHEM 8151 - Analytical Separations and Chemical Equilibria (4.0 cr)
- CHEM 8152 - Analytical Spectroscopy (4.0 cr)
- CHEM 8153 - Extracting Signal From Noise (5.0 cr)
- CHEM 8155 - Advanced Electroanalytical Chemistry (4.0 cr)
- CHEM 8157 - Bioanalytical Chemistry (4.0 cr)
- CHEM 8159 - Nuclear Magnetic Resonance Spectroscopy (4.0 cr)
- CHEM 8180 - Special Topics in Analytical Chemistry (2.0 - 4.0 cr)
- CHEM 8201 - Materials Chemistry (4.0 cr)
- CHEM 8211 - Physical Polymer Chemistry (4.0 cr)
- CHEM 8221 - Synthetic Polymer Chemistry (4.0 cr)
- CHEM 8280 - Special Topics in Materials Chemistry (2.0 - 4.0 cr)
- CHEM 8321 - Organic Synthesis (4.0 cr)
- CHEM 8322 - Advanced Organic Chemistry (4.0 cr)
- CHEM 8352 - Physical Organic Chemistry (4.0 cr)
- CHEM 8361 - Interpretation of Organic Spectra (4.0 cr)
- CHEM 8380 - Special Topics in Organic Chemistry (1.0 - 4.0 cr)
- CHEM 8411 - Introduction to Chemical Biology (4.0 cr)
- CHEM 8412 - Chemical Biology of Enzymes (4.0 cr)
- CHEM 8413 - Nucleic Acids (4.0 cr)
CHEM 8480 - Special Topics in Biological Chemistry (2.0 - 4.0 cr)
CHEM 8541 - Dynamics (4.0 cr)
CHEM 8551 - Quantum Mechanics I (4.0 cr)
CHEM 8552 - Quantum Mechanics II (2.0 cr)
CHEM 8561 - Thermodynamics, Statistical Mechanics, and Reaction Dynamics I (4.0 cr)
CHEM 8562 - Thermodynamics, Statistical Mechanics, and Reaction Dynamics II (4.0 cr)
CHEM 8563 - Molecular Simulations (2.0 cr)
CHEM 8564 - Laser Spectroscopy (2.0 cr)
CHEM 8565 - Chemical Reaction Dynamics (2.0 cr)
CHEM 8566 - Spin Dynamics (2.0 cr)
CHEM 8567 - Biophysical Chemistry (2.0 cr)
CHEM 8568 - Chemical Bonding at Surfaces (2.0 cr)
CHEM 8569 - Electronic Structure (2.0 cr)
CHEM 8580 - Special Topics in Physical Chemistry (2.0 - 4.0 cr)
CHEM 8601 - Seminar: Modern Problems in Chemistry (1.0 cr)
CHEM 8700 - Advanced Concepts in Medicinal Chemistry: Combinatorial Methods in Chemical Biology (2.0 cr)
CHEM 8715 - Physical Inorganic Chemistry (4.0 cr)
CHEM 8725 - Organometallic Chemistry (4.0 cr)
CHEM 8735 - Bioinorganic Chemistry (4.0 cr)
CHEM 8745 - Advanced Inorganic Chemistry (4.0 cr)
CHEM 8780 - Special Topics in Inorganic Chemistry (2.0 - 4.0 cr)
CHEM 8880 - Special Topics in Chemistry (2.0 - 4.0 cr)

Plan Options

Plan A
Take 10 master's thesis credits.
CHEM 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

-OR-

Plan B (8 credits)
Take the following project courses:
CHEM 8081 - M.S. Plan B Project I (1.0 - 4.0 cr)
CHEM 8082 - M.S. Plan B Project II (1.0 - 4.0 cr)

-OR-

Plan C
Twin Cities Campus
Chemistry Minor
Chemistry
College of Science and Engineering

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

While modern research in chemistry is very interdisciplinary, graduate work in the Department of Chemistry falls broadly into the focus areas of analytical chemistry, chemical biology, environmental chemistry, inorganic chemistry, materials chemistry, organic chemistry, polymer chemistry, experimental physical chemistry, and computational chemistry.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Courses must be taken on the A/F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

The minimum cumulative GPA for the minor is 3.00.

Minor Coursework (6-12 credits)
The following courses may be used for the minor or consult with the chemistry director of graduate studies for additional options.
Master’s students select 6 credits and doctoral students select 12 credits.
CHEM 5210 - Materials Characterization (4.0 cr)
CHEM 5755 - X-Ray Crystallography (4.0 cr)
CHEM 8011 - Mechanisms of Chemical Reactions (4.0 cr)
CHEM 8021 - Computational Chemistry (4.0 cr)
CHEM 8151 - Analytical Separations and Chemical Equilibria (4.0 cr)
CHEM 8152 - Analytical Spectroscopy (4.0 cr)
CHEM 8153 - Extracting Signal From Noise (5.0 cr)
CHEM 8155 - Advanced Electroanalytical Chemistry (4.0 cr)
CHEM 8157 - Bioanalytical Chemistry (4.0 cr)
CHEM 8159 - Nuclear Magnetic Resonance Spectroscopy (4.0 cr)
CHEM 8180 - Special Topics in Analytical Chemistry (2.0 - 4.0 cr)
CHEM 8201 - Materials Chemistry (4.0 cr)
CHEM 8211 - Physical Polymer Chemistry (4.0 cr)
CHEM 8221 - Synthetic Polymer Chemistry (4.0 cr)
CHEM 8280 - Special Topics in Materials Chemistry (2.0 - 4.0 cr)
CHEM 8321 - Organic Synthesis (4.0 cr)
CHEM 8322 - Advanced Organic Chemistry (4.0 cr)
CHEM 8352 - Physical Organic Chemistry (4.0 cr)
CHEM 8361 - Interpretation of Organic Spectra (4.0 cr)
CHEM 8410 - Special Topics in Organic Chemistry (1.0 - 4.0 cr)
CHEM 8411 - Introduction to Chemical Biology (4.0 cr)
CHEM 8412 - Chemical Biology of Enzymes (4.0 cr)
CHEM 8413 - Nucleic Acids (4.0 cr)
CHEM 8480 - Special Topics in Biological Chemistry (2.0 - 4.0 cr)
CHEM 8541 - Dynamics (4.0 cr)
CHEM 8551 - Quantum Mechanics I (4.0 cr)
CHEM 8552 - Quantum Mechanics II (2.0 cr)
CHEM 8561 - Thermodynamics, Statistical Mechanics, and Reaction Dynamics I (4.0 cr)
CHEM 8562 - Thermodynamics, Statistical Mechanics, and Reaction Dynamics II (4.0 cr)
CHEM 8563 - Molecular Simulations (2.0 cr)
CHEM 8564 - Laser Spectroscopy (2.0 cr)
CHEM 8565 - Chemical Reaction Dynamics (2.0 cr)
CHEM 8566 - Spin Dynamics (2.0 cr)
CHEM 8567 - Biophysical Chemistry (2.0 cr)
CHEM 8568 - Chemical Bonding at Surfaces (2.0 cr)
CHEM 8569 - Electronic Structure (2.0 cr)
CHEM 8580 - Special Topics in Physical Chemistry (2.0 - 4.0 cr)
CHEM 8700 - Advanced Concepts in Medicinal Chemistry: Combinatorial Methods in Chemical Biology (2.0 cr)
CHEM 8715 - Physical Inorganic Chemistry (4.0 cr)
CHEM 8725 - Organometallic Chemistry (4.0 cr)
CHEM 8735 - Bioinorganic Chemistry (4.0 cr)
CHEM 8745 - Advanced Inorganic Chemistry (4.0 cr)
CHEM 8780 - Special Topics in Inorganic Chemistry (2.0 - 4.0 cr)
CHEM 8880 - Special Topics in Chemistry (2.0 - 4.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Twin Cities Campus
Chemistry Ph.D.
Chemistry
College of Science and Engineering

Link to a list of faculty for this program.

**Program Requirements**

24 credits are required in the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

Courses must be taken on the A/F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

All CHEM courses must be taken at the 5xxx or 8xxx level. A maximum of 8 credits in 4xxx-level courses from other departments may be used with approval from the director of graduate studies.

All first-year students must register for CHEM 8601 during both fall and spring semesters and for CHEM 8066 during the spring semester of their first year in residence.

**Major Courses (24 credits)**

Select courses from the following list or consult with the advisor for further options. One credit each of CHEM 8066 and 8601 can be applied to degree requirements.

- **CHEM 5210** - Materials Characterization (4.0 cr)
- **CHEM 5755** - X-Ray Crystallography (4.0 cr)
- **CHEM 8011** - Mechanisms of Chemical Reactions (4.0 cr)
- **CHEM 8021** - Computational Chemistry (4.0 cr)
- **CHEM 8066** - Professional Conduct of Chemical Research (1.0 cr)
- **CHEM 8151** - Analytical Separations and Chemical Equilibria (4.0 cr)
- **CHEM 8152** - Analytical Spectroscopy (4.0 cr)
- **CHEM 8153** - Extracting Signal From Noise (5.0 cr)
- **CHEM 8155** - Advanced Electroanalytical Chemistry (4.0 cr)
- **CHEM 8157** - Bioanalytical Chemistry (4.0 cr)
- **CHEM 8159** - Nuclear Magnetic Resonance Spectroscopy (4.0 cr)
- **CHEM 8180** - Special Topics in Analytical Chemistry (2.0 - 4.0 cr)
- **CHEM 8201** - Materials Chemistry (4.0 cr)
- **CHEM 8211** - Physical Polymer Chemistry (4.0 cr)
- **CHEM 8221** - Synthetic Polymer Chemistry (4.0 cr)
- **CHEM 8280** - Special Topics in Materials Chemistry (2.0 - 4.0 cr)
- **CHEM 8321** - Organic Synthesis (4.0 cr)
- **CHEM 8322** - Advanced Organic Chemistry (4.0 cr)
- **CHEM 8352** - Physical Organic Chemistry (4.0 cr)
- **CHEM 8361** - Interpretation of Organic Spectra (4.0 cr)
- **CHEM 8380** - Special Topics in Organic Chemistry (1.0 - 4.0 cr)
- **CHEM 8411** - Introduction to Chemical Biology (4.0 cr)
- **CHEM 8412** - Chemical Biology of Enzymes (4.0 cr)
- **CHEM 8413** - Nucleic Acids (4.0 cr)
- **CHEM 8480** - Special Topics in Biological Chemistry (2.0 - 4.0 cr)
- **CHEM 8541** - Dynamics (4.0 cr)
- **CHEM 8551** - Quantum Mechanics I (4.0 cr)
- **CHEM 8552** - Quantum Mechanics II (2.0 cr)
- **CHEM 8556** - Thermodynamics, Statistical Mechanics, and Reaction Dynamics I (4.0 cr)
- **CHEM 8562** - Thermodynamics, Statistical Mechanics, and Reaction Dynamics II (4.0 cr)
- **CHEM 8563** - Molecular Simulations (2.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Civil Engineering

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Civil engineering emphases are available in environmental engineering (e.g., pollutant fate and transport, process modeling, soil and groundwater remediation, water and wastewater treatment), geomechanics (e.g., fracture and localization, groundwater flow, stability and liquefaction, wave and shock propagation), structural engineering (e.g., computational and structural mechanics, earthquake engineering, infrastructure performance and durability, new systems and materials), transportation engineering (e.g., intelligent transportation systems, pavement design and materials, transportation economics, traffic safety), and water resources engineering (e.g., earthscape processes, environmental and biological systems, hydrologic and climate dynamics, hydrodynamics, and turbulence).

The master of civil engineering (MCE) degree is designed for the practicing engineer who would like to obtain an advanced degree on a part-time or full-time basis. Students who intend to proceed to the PhD program or who think they may later wish to be admitted to the PhD program should apply for the master of science program. Students are expected to follow a coherent program of coursework in one of the following subareas of civil engineering: environmental, geomechanics, structural, transportation, or water resources engineering. The program is selected with the help of a faculty adviser and approved by the director of graduate studies. In addition to completing graduate-level courses, students must demonstrate professional competence either by carrying out and defending a design project or by taking a coursework-related final oral exam (without a project).

The degree typically takes 2-3 semesters (12-18 months) to complete on a full-time basis or 6-8 semesters on a part-time basis.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

An ABET-accredited, four-year bachelor's degree in engineering is required for admission.

Other requirements to be completed before admission:
The application deadlines are December 3 for fall admission and August 31 for spring admission. All materials must be submitted to the online application.

Applicants must submit their test score(s) from the following:
• GRE

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
• IELTS
  - Total Score: 6.5
• MELAB
  - Final score: 80

Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan A: Plan A requires 20 major credits, up to null credits outside the major, and 10 thesis credits. The final exam is oral.

Plan C: Plan C requires 30 major credits and up to null credits outside the major. The final exam is oral. A capstone project is required.

Capstone Project: The Plan C requires 100 hours of project work and an oral presentation of no less than 10 minutes. Plan C coursework must include a minimum of two 8xxx-level courses.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

Courses must be taken on the A/F grade basis, unless only offered S/N.

The MCE degree is offered under two plans. The Plan A requires preparation of a thesis/design project. The thesis/design project must be carried out by the student in consultation with a faculty adviser. The Plan C is a coursework-only degree program.

Plan C coursework must include a minimum of two 8xxx-level courses.

Core Courses (12-30 credits)

Select at least 12 credits from the following in consultation with the advisor. One seminar credit (CEGE 8200, 8300, 8400, 8500) may be applied to this requirement.

CEGE 4201 - Principles of Highway Design (3.0 cr)
CEGE 4411 - Matrix Structural Analysis (3.0 cr)
CEGE 4412 - Reinforced Concrete II (3.0 cr)
CEGE 4413 - Steel Design II (3.0 cr)
CEGE 4511 - Hydraulic Structures (3.0 cr)
CEGE 4561 - Solids and Hazardous Wastes (3.0 cr)
CEGE 4563 - Pollutant Fate and Transport: Processes and Modeling (3.0 cr)
CEGE 5094 - Directed Research (1.0 - 4.0 cr)
CEGE 5180 - Special Topics (1.0 - 4.0 cr)
CEGE 5211 - Traffic Engineering (3.0 cr)
CEGE 5212 - Transportation Policy, Planning, and Deployment (3.0 cr)
CEGE 5213 - Transit Planning and Management (3.0 cr)
CEGE 5214 - Transportation Systems Analysis (3.0 cr)
CEGE 5341 - Wave Methods for Nondestructive Testing (3.0 cr)
CEGE 5342 - Introduction to Inverse Problems (3.0 cr)
CEGE 5351 - Advanced Engineering Mathematics I (3.0 cr)
CEGE 5411 - Applied Structural Mechanics (3.0 cr)
CEGE 5412 - Prestressed Concrete Design (3.0 cr)
CEGE 5415 - Masonry Structures (3.0 cr)
CEGE 5416 - Sensors in Infrastructure (3.0 cr)
CEGE 5417 - Structural Engineering Design of Wood Buildings (3.0 cr)
CEGE 5511 - Urban Hydrology and Water Quality (4.0 cr)
CEGE 5512 - Stochastic Hydrology (3.0 cr)
CEGE 5513 - Energy Conversion from Wind, Hydro and Solar Resources (3.0 cr)
CEGE 5541 - Environmental Water Chemistry (3.0 cr)
CEGE 5542 - Experimental Methods in Environmental Engineering (3.0 cr)
CEGE 5543 - Introductory Environmental Fluid Mechanics (4.0 cr)
CEGE 5551 - Environmental Microbiology (3.0 cr)
CEGE 5552 - Environmental Microbiology Laboratory (1.0 cr)

CEGE 8601 - Introduction to Stream Restoration (3.0 cr)
CEGE 8602 - Stream Restoration Practice (2.0 cr)

Electives (0-18 credits)
Select courses from the following as needed, in consultation with the advisor, to complete the minimum number of course credits required. Coursework from the Core Courses list, as well as other courses, can be selected with director of graduate studies approval.
AEM 4511 - Mechanics of Composite Materials (3.0 cr)
AEM 5501 - Continuum Mechanics (3.0 cr)
AEM 5503 - Theory of Elasticity (3.0 cr)
AEM 8211 - Theory of Turbulence I (3.0 cr)
AEM 8525 - Elastic Stability of Materials (3.0 cr)
AEM 8531 - Fracture Mechanics (3.0 cr)
AEM 8551 - Multiscale Methods for Bridging Length and Time Scales (3.0 cr)
APEC 5031 - Methods of Economic Data Analysis (3.0 cr)
ARCH 5391 - Design and Representation with BIM (3.0 cr)
ARCH 5671 - Historic Preservation (3.0 cr)
BEE 5513 - Watershed Engineering (3.0 cr)
BEE 5523 - Ecological Engineering Design (3.0 cr)
BEE 5535 - Assessment and Diagnosis of Impaired Waters (3.0 cr)
BEE 5753 - Air Quality and Pollution Control Engineering (3.0 cr)
BEE 8513 - Hydrologic Modeling of Small Watersheds (3.0 cr)
BMEN 8101 - Biomedical Digital Signal Processing (3.0 cr)
CHEM 5210 - Materials Characterization (4.0 cr)
CSCI 5421 - Advanced Algorithms and Data Structures (3.0 cr)
CSCI 5451 - Introduction to Parallel Computing: Architectures, Algorithms, and Programming (3.0 cr)
EE 5239 - Introduction to Nonlinear Optimization (3.0 cr)
EE 5251 - Optimal Filtering and Estimation (3.0 cr)
EE 8231 - Optimization Theory (3.0 cr)
EE 8581 - Detection and Estimation Theory (3.0 cr)
EEB 5601 - Limnology (3.0 cr)
ESCI 8801 - Geomicrobiology (3.0 cr)
ESPM 5071 - Ecological Restoration (4.0 cr)
ESPM 5111 - Hydrology and Water Quality Field Methods (3.0 cr)

PA 5231 - Transit Planning and Management (3.0 cr)
PA 5271 - Geographic Information Systems: Applications in Planning and Policy Analysis (3.0 cr)
PA 5880 - Exploring Global Cities (1.0 - 3.0 cr)
PA 5926 - Presentation Skills: How to Inspire Your Audience and Change the World (1.0 cr)
PUBH 6132 - Air, Water, and Health (2.0 cr)
STAT 5021 - Statistical Analysis (4.0 cr)
STAT 5302 - Applied Regression Analysis (4.0 cr)
WRS 5101 - Water Policy (3.0 cr)
WRS 8581 - Research and Professional Ethics in Water Resources and Environmental Science (0.5 cr)

Plan Options

Plan A
Complete 10 master's thesis credits for the design project.
CEGE 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

-OR-

Plan C
Twin Cities Campus

Civil Engineering M.S.
CSENG Civil, Envrn & Geo-Eng (CEGE)
College of Science and Engineering

Link to a list of faculty for this program.

Contact Information:
Department of Civil, Environmental, and Geo-Engineering, University of Minnesota, 122 Civil Engineering Building, 500 Pillsbury Drive S.E., Minneapolis, MN 55455 (612-625-5522; fax: 612-626-7750)
Email: cgeesps@umn.edu
Website: http://www.cege.umn.edu

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Civil engineering emphases are available in environmental engineering (e.g., pollutant fate and transport, process modeling, soil and groundwater remediation, water and wastewater treatment), geomechanics (e.g., fracture and localization, groundwater flow, stability and liquefaction, wave and shock propagation), structural engineering (e.g., computational and structural mechanics, earthquake engineering, infrastructure performance and durability, new systems and materials), transportation engineering (e.g., intelligent transportation systems, pavement design and materials, transportation economics, traffic safety), and water resources engineering (e.g., earthscape processes, environmental and biological systems, hydrologic and climate dynamics, hydrodynamics, and turbulence).

The master of science (M.S.) degree balances education in engineering fundamentals and design, and provides preparation for students wishing to pursue a career in industry, as well as those wanting to continue studies toward a Ph.D. degree. Programs range from the Plan C, which is a coursework-only program, to the Plan A, which balances coursework with research and development. The Plan C program is intended for practicing engineers who want to pursue a degree on a part-time basis, self-funded full-time students, as well as students who plan to continue on for a Ph.D. degree.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A bachelor's degree in an engineering, basic science, or mathematics program is preferred.

Other requirements to be completed before admission:
Admission depends primarily on the applicant's academic record and letters of recommendation. Applicants who lack civil engineering training are often required to complete one or more appropriate courses from the undergraduate civil engineering program. Graduate credit is not awarded for such preparatory work.

Eligibility requirements for the integrated BS/MS program:
Application is open to civil engineering undergraduates who:
- are within 32 credits of completing the requirements for the bachelors degree;
- have a faculty advisor selected prior to admission; and
- hold a cumulative GPA of 3.3 or higher.

Special Application Requirements:
The application deadlines are December 3 for fall admission and August 31 for spring admission. All materials must be submitted to the online application.

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of September 04, 2020
Applicants must submit their test score(s) from the following:

- GRE

International applicants must submit score(s) from one of the following tests:

- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5
- MELAB
  - Final score: 80

Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan A: Plan A requires 20 major credits, up to null credits outside the major, and 10 thesis credits. The final exam is oral.

Plan B: Plan B requires 30 major credits and up to null credits outside the major. The final exam is oral. A capstone project is required. Capstone Project: The Plan B requires completion of 1 to 3 Plan B papers as determined by the faculty advisor. Plan B papers can include computer programs, annotated bibliographies, field investigations, and analysis/design of special engineering problems.

Plan C: Plan C requires 30 major credits and up to null credits outside the major. There is no final exam. A capstone project is required. Capstone Project: The Plan C requires 100 hours of project work and an oral presentation of no less than 10 minutes.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

Courses must be taken on the A/F grade basis, unless only offered S/N.

Plan C coursework must include a minimum of 2 8xxx-level courses.

Core Courses (12-30 credits)

Select at least 12 credits from the following in consultation with the advisor. One seminar credit (CEGE 8200, 8300, 8400, 8500) may be applied to this requirement.

- CEGE 4201 - Principles of Highway Design (3.0 cr)
- CEGE 4411 - Matrix Structural Analysis (3.0 cr)
- CEGE 4412 - Reinforced Concrete II (3.0 cr)
- CEGE 4413 - Steel Design II (3.0 cr)
- CEGE 4511 - Hydraulic Structures (3.0 cr)
- CEGE 4561 - Solids and Hazardous Wastes (3.0 cr)
- CEGE 4563 - Pollutant Fate and Transport: Processes and Modeling (3.0 cr)
- CEGE 4594 - Directed Research (1.0 - 4.0 cr)
- CEGE 5100 - Special Topics (1.0 - 4.0 cr)
- CEGE 5211 - Transportation Analysis (3.0 cr)
- CEGE 5212 - Transportation Policy, Planning, and Deployment (3.0 cr)
- CEGE 5213 - Transit Planning and Management (3.0 cr)
- CEGE 5214 - Transportation Systems Analysis (3.0 cr)
- CEGE 5341 - Wave Methods for Nondestructive Testing (3.0 cr)
- CEGE 5342 - Introduction to Inverse Problems (3.0 cr)
- CEGE 5351 - Advanced Engineering Mathematics I (3.0 cr)
CEGE 8511 - Mechanics of Sediment Transport (3.0 cr)
CEGE 8521 - The Atmospheric Boundary Layer (4.0 cr)
CEGE 8541 - Aquatic Chemistry (3.0 cr)
CEGE 8542 - Chemistry of Organic Pollutants in Environmental Systems (3.0 cr)

WRS 8581 - Research and Professional Ethics in Water Resources and Environmental Science (0.5 cr)

Plan Options

Plan A
Take 10 master's thesis credits.
CEGE 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

-OR-

Plan B (0-3 credits)
Up to 3 credits of CEGE 8094 may be applied to the 30-credit minimum.
CEGE 8094 - Directed Research (1.0 - 4.0 cr)

-OR-

Plan C
Joint- or Dual-degree Coursework:
MS-Civil Engineering/ MSISyE (Transportation Engineering Focus): 15 common credits
MS-Civil Engineering/MURP (Transportation or Environmental Engineering Focus): 18 common credits

Program Sub-plans
A sub-plan is not required for this program.
Students may not complete the program with more than one sub-plan.

Integrated B.C.E./M.S. - Civil Engineering
The department offers an integrated Bachelor of Civil Engineering (BCE) and Master of Science (MS) in Civil Engineering. The integrated BCE/MS program offers students the opportunity to earn a bachelor's degree and a master's degree in five years. These programs offer several benefits: streamlined admissions from the undergraduate to the graduate program (GRE not required); flexibility in fulfilling required courses for both degrees during the senior year (up to 16 credits can be transferred to the graduate program); and eligibility for teaching and research assistantships.

Both the BCE and MS degrees must be completed in their entirety, with no courses shared between them. The graduate degree cannot be earned before the undergraduate requirements are satisfied. Admitted students who decide not to complete the MS degree are permitted to count credits originally planned for the graduate program toward their BCE technical electives.

Integrated B.GeoE./M.S. - Civil Engineering
The department offers an integrated Bachelor of Geoengineering (B.GeoE.) and Master of Science (MS) in Civil Engineering. Benefits, eligibility requirements, and degree-completion requirements outlined for the BCE/MS integrated program also apply to the B.GeoE./MS

Integrated B.Env.E./M.S. - Civil Engineering
The department offers an integrated Bachelor of Environmental Engineering (B.Env.E.) and Master of Science (MS) in Civil Engineering. Benefits, eligibility requirements, and degree-completion requirements outlined for the BCE/MS integrated program also apply to the B.Env.E./MS

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Civil engineering emphases are available in environmental engineering (e.g., pollutant fate and transport, process modeling, soil and groundwater remediation, water and wastewater treatment), geomechanics (e.g., fracture and localization, groundwater flow, stability and liquefaction, wave and shock propagation), structural engineering (e.g., computational and structural mechanics, earthquake engineering, infrastructure performance and durability, new systems and materials), transportation engineering (e.g., intelligent transportation systems, pavement design and materials, transportation economics, traffic safety), and water resources engineering (e.g., earthscape processes, environmental and biological systems, hydrologic and climate dynamics, hydrodynamics, and turbulence).

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Civil Engineering director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Courses must be taken on the A/F grade basis, unless only offered S/N.

The minimum cumulative GPA for the minor is 3.00.

Minor Coursework (6-12 credits)
Master's students select 6 credits, and doctoral students select 12 credits from the following in consultation with the Civil Engineering director of graduate studies:
CEGE 5211 - Traffic Engineering (3.0 cr)
CEGE 5212 - Transportation Policy, Planning, and Deployment (3.0 cr)
CEGE 5213 - Transit Planning and Management (3.0 cr)
CEGE 5214 - Transportation Systems Analysis (3.0 cr)
CEGE 5341 - Wave Methods for Nondestructive Testing (3.0 cr)
CEGE 5342 - Introduction to Inverse Problems (3.0 cr)
CEGE 5351 - Advanced Engineering Mathematics I (3.0 cr)
CEGE 5411 - Applied Structural Mechanics (3.0 cr)
CEGE 5414 - Prestressed Concrete Design (3.0 cr)
CEGE 5415 - Masonry Structures (3.0 cr)
CEGE 5416 - Sensors in Infrastructure (3.0 cr)
CEGE 5417 - Structural Engineering Design of Wood Buildings (3.0 cr)
CEGE 5511 - Urban Hydrology and Water Quality (4.0 cr)
CEGE 5512 - Stochastic Ecohydrology (3.0 cr)
CEGE 5513 - Energy Conversion from Wind, Hydro and Solar Resources (3.0 cr)
CEGE 5514 - Environmental Water Chemistry (3.0 cr)
CEGE 5516 - Introductory Environmental Fluid Mechanics (4.0 cr)
CEGE 5517 - Environmental Microbiology (3.0 cr)
CEGE 5518 - Environmental Microbiology Laboratory (1.0 cr)
CEGE 5519 - Numerical Methods for Free and Moving Boundary Problems (3.0 cr)
CEGE 5521 - Theory of Traffic Flow (4.0 cr)
CEGE 5522 - Advanced Travel Demand Modeling and Supply Analysis (3.0 cr)
CEGE 5523 - Advanced Transportation Technologies Seminar (1.0 cr)
CEGE 5524 - Transportation Economics (4.0 cr)
CEGE 5525 - Transportation Data Analysis (3.0 cr)
CEGE 5526 - Urban Traffic Operations (3.0 cr)
CEGE 5527 - Transportation Network Analysis (4.0 cr)
CEGE 5528 - Dynamic Transportation Network Analysis (4.0 cr)
CEGE 5529 - Advanced Pavement Engineering (3.0 cr)
CEGE 5530 - Advanced Bituminous Materials Characterization (3.0 cr)
CEGE 5531 - Fracture of Geomaterials (3.0 cr)
CEGE 5532 - Soil/Rock Plasticity and Limit Analysis (4.0 cr)
CEGE 5533 - Advanced Rock Mechanics (3.0 cr)
CEGE 5534 - Thermoporoelasticity (4.0 cr)
CEGE 5535 - Storage and Flow of Granular Materials (3.0 cr)
CEGE 5536 - Boundary Element Methods I (3.0 cr)
CEGE 5537 - Boundary Element Methods II (3.0 cr)
CEGE 5538 - Wave Propagation in Solids and Structures (4.0 cr)
CEGE 5539 - Advanced Engineering Mathematics II (3.0 cr)
CEGE 5540 - Advanced Groundwater Mechanics II (3.0 cr)
CEGE 5541 - Engineering Model Fitting (3.0 cr)
CEGE 5542 - Fundamentals of Finite Element Method (3.0 cr)
CEGE 5543 - Nonlinear Finite Element Analysis (3.0 cr)
CEGE 5544 - Plate Structures (3.0 cr)
CEGE 5545 - Shell Structures (3.0 cr)
CEGE 5546 - Fracture and Scaling (3.0 cr)
CEGE 5547 - Structural Dynamics (3.0 cr)
CEGE 5548 - Earthquake Engineering (3.0 cr)
CEGE 5549 - Structural Stability (3.0 cr)
CEGE 5550 - Analysis of Thin-Walled Members (3.0 cr)
CEGE 5551 - Ductile Behavior of Steel Structures (3.0 cr)
CEGE 5552 - Nonlinear Analysis of Structural Systems (3.0 cr)
CEGE 5553 - Fracture of Materials and Structures (3.0 cr)
CEGE 5554 - Behavior of Reinforced Concrete Structures (3.0 cr)
CEGE 5555 - Structural Reliability (3.0 cr)
CEGE 5556 - Special Topics (1.0 - 4.0 cr)
CEGE 5557 - Environmental Fluid Mechanics I (4.0 cr)
CEGE 5558 - Environmental Fluid Mechanics II (4.0 cr)
CEGE 5559 - Environmental Mass Transport (4.0 cr)
CEGE 5560 - Theory of Unit Operations (4.0 cr)
CEGE 5561 - Biological Processes (3.0 cr)
CEGE 5562 - Stochastic Hydrology (4.0 cr)
CEGE 5563 - Advanced Methods in Hydrology (4.0 cr)
CEGE 5564 - Ecological Fluid Mechanics (4.0 cr)
CEGE 5565 - Mechanics of Sediment Transport (3.0 cr)
CEGE 5566 - The Atmospheric Boundary Layer (4.0 cr)
CEGE 5567 - Aquatic Chemistry (3.0 cr)
CEGE 5568 - Chemistry of Organic Pollutants in Environmental Systems (3.0 cr)
CEGE 5569 - Environmental Microbiology: Molecular Theory and Methods (4.0 cr)
CEGE 5570 - Groundwater Microbiology: Laboratory (4.0 cr)
CEGE 8553 - Biofilms (3.0 cr)
CEGE 8561 - Analysis and Modeling of Aquatic Environments I (3.0 cr)
CEGE 8562 - Analysis and Modeling of Aquatic Environments II (3.0 cr)
CEGE 8563 - Industrial Waste Treatment (3.0 cr)
CEGE 8571 - Hydraulic Measurements (3.0 cr)
CEGE 8572 - Computational Environmental Fluid Dynamics (4.0 cr)
CEGE 8581 - Research and Professional Ethics in Water Resources and Environmental Science (0.5 cr)
CEGE 8601 - Introduction to Stream Restoration (3.0 cr)
CEGE 8602 - Stream Restoration Practice (2.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Twin Cities Campus
Civil Engineering Ph.D.
CSENG Civil, Envrm & Geo-Eng (CEGE)
College of Science and Engineering

Contact Information:
Department of Civil, Environmental, and Geo-Engineering, University of Minnesota, 122 Civil Engineering Building, 500 Pillsbury Drive S.E., Minneapolis, MN 55455 (612-625-5522; fax: 612-626-7750)
Email: cegesps@umn.edu
Website: http://www.cege.umn.edu

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 60
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Civil engineering emphases are available in environmental engineering (e.g., pollutant fate and transport, process modeling, soil and groundwater remediation, water and wastewater treatment), geomechanics (e.g., fracture and localization, groundwater flow, stability and liquefaction, wave and shock propagation), structural engineering (e.g., computational and structural mechanics, earthquake engineering, infrastructure performance and durability, new systems and materials), transportation engineering (e.g., intelligent transportation systems, pavement design and materials, transportation economics, traffic safety), and water resources engineering (e.g., earthscape processes, environmental and biological systems, hydrologic and climate dynamics, hydrodynamics, and turbulence).

The PhD degree couples independent research with coursework in a comprehensive program for those wishing to attain mastery of their field. The PhD degree demands the ability and desire to pursue independent and original studies and can be earned with emphasis in environmental, geomechanics, structural, transportation, or water resources engineering. Research performance, as judged by preparation of a dissertation on an independently pursued research topic, is the primary requirement for the PhD degree.

Students enter the PhD program two to four years following the bachelor’s degree, normally after completing the MS degree. The PhD program is typically completed in four to six years following the bachelor’s degree. Each program of study is designed in consultation with a faculty adviser to meet the special needs of the student, although programs must be approved by the director of graduate studies.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A bachelor’s degree in an engineering, basic science, or mathematics program is preferred.

Other requirements to be completed before admission:
Admission depends primarily on the applicant's academic record and letters of recommendation. Applicants who lack civil engineering training are often required to complete one or more appropriate courses from the undergraduate civil engineering program. Graduate credit is not awarded for such preparatory work.

Special Application Requirements:
The application deadlines are December 3 for fall admission and August 31 for spring admission. All materials must be submitted to the online application.

Applicants must submit their test score(s) from the following:
- GRE
International applicants must submit score(s) from one of the following tests:

- **TOEFL**
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- **IELTS**
  - Total Score: 6.5
- **MELAB**
  - Final score: 80

Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

**Program Requirements**

36 credits are required in the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

Courses must be taken on the A/F grading basis, unless only offered S/N.

**Core Courses (12-36 credits)**

Select at least 12 credits from the following in consultation with the advisor. A maximum of 2 seminar credits (CEGE 8200, 8300, 8400, 8500) may be applied to this requirement.

- CEGE 4201 - Principles of Highway Design (3.0 cr)
- CEGE 4411 - Matrix Structural Analysis (3.0 cr)
- CEGE 4412 - Reinforced Concrete II (3.0 cr)
- CEGE 4413 - Steel Design II (3.0 cr)
- CEGE 4511 - Hydraulic Structures (3.0 cr)
- CEGE 4561 - Solids and Hazardous Wastes (3.0 cr)
- CEGE 4563 - Pollutant Fate and Transport: Processes and Modeling (3.0 cr)
- CEGE 5094 - Directed Research (1.0 - 4.0 cr)
- CEGE 5180 - Special Topics (1.0 - 4.0 cr)
- CEGE 5211 - Traffic Engineering (3.0 cr)
- CEGE 5212 - Transportation Policy, Planning, and Deployment (3.0 cr)
- CEGE 5213 - Transit Planning and Management (3.0 cr)
- CEGE 5214 - Transportation Systems Analysis (3.0 cr)
- CEGE 5341 - Wave Methods for Nondestructive Testing (3.0 cr)
- CEGE 5342 - Introduction to Inverse Problems (3.0 cr)
- CEGE 5351 - Advanced Engineering Mathematics I (3.0 cr)
- CEGE 5411 - Applied Structural Mechanics (3.0 cr)
- CEGE 5414 - Prestressed Concrete Design (3.0 cr)
- CEGE 5415 - Masonry Structures (3.0 cr)
- CEGE 5416 - Sensors in Infrastructure (3.0 cr)
- CEGE 5417 - Structural Engineering Design of Wood Buildings (3.0 cr)
- CEGE 5511 - Urban Hydrology and Water Quality (4.0 cr)
- CEGE 5512 - Stochastic Ecohydrology (3.0 cr)
- CEGE 5513 - Energy Conversion from Wind, Hydro and Solar Resources (3.0 cr)
- CEGE 5541 - Environmental Water Chemistry (3.0 cr)
- CEGE 5542 - Experimental Methods in Environmental Engineering (3.0 cr)
- CEGE 5543 - Introductory Environmental Fluid Mechanics (4.0 cr)
- CEGE 5551 - Environmental Microbiology (3.0 cr)
- CEGE 5552 - Environmental Microbiology Laboratory (1.0 cr)
- CEGE 5570 - Design for Sustainable Development - India (3.0 - 9.0 cr)
- CEGE 8022 - Numerical Methods for Free and Moving Boundary Problems (3.0 cr)

Electives (0-24 credits)
Select courses from the following as needed, in consultation with the advisor, to complete the 36 course credits required. Coursework from the Core Courses list, as well as other courses, can be selected with director of graduate studies approval.

AEM 4511 - Mechanics of Composite Materials (3.0 cr)
AEM 5501 - Continuum Mechanics (3.0 cr)
AEM 5503 - Theory of Elasticity (3.0 cr)
AEM 8211 - Theory of Turbulence I (3.0 cr)
AEM 8525 - Elastic Stability of Materials (3.0 cr)
AEM 8531 - Fracture Mechanics (3.0 cr)
AEM 8551 - Multiscale Methods for Bridging Length and Time Scales (3.0 cr)
APEC 5031 - Methods of Economic Data Analysis (3.0 cr)
ARCH 5391 - Design and Representation with BIM (3.0 cr)
ARCH 5671 - Historic Preservation (3.0 cr)
BEE 5513 - Watershed Engineering (3.0 cr)
BEE 5523 - Ecological Engineering Design (3.0 cr)
BEE 5535 - Assessment and Diagnosis of Impaired Waters (3.0 cr)
BEE 5753 - Air Quality and Pollution Control Engineering (3.0 cr)
BEE 8513 - Hydrologic Modeling of Small Watersheds (3.0 cr)
BMEN 8101 - Biomedical Digital Signal Processing (3.0 cr)
CHEM 5210 - Materials Characterization (4.0 cr)
CSCI 5421 - Advanced Algorithms and Data Structures (3.0 cr)
CSCI 5451 - Introduction to Parallel Computing: Architectures, Algorithms, and Programming (3.0 cr)
EE 5239 - Introduction to Nonlinear Optimization (3.0 cr)
EE 5251 - Optimal Filtering and Estimation (3.0 cr)
EE 8231 - Optimization Theory (3.0 cr)
EE 8581 - Detection and Estimation Theory (3.0 cr)
EEB 5601 - Limnology (3.0 cr)
ESCI 8801 - Geomicrobiology (3.0 cr)
ESPM 5071 - Ecological Restoration (4.0 cr)
ESPM 5111 - Hydrology and Water Quality Field Methods (3.0 cr)
FNRM 5131 - Geographical Information Systems (GIS) for Natural Resources (4.0 cr)
GCC 5005 - Innovation for the Public Good: Post-Pandemic Venture Design [GP] (3.0 cr)
GEOG 5561 - Principles of Geographic Information Science (4.0 cr)
HINF 5502 - Python Programming Essentials for the Health Sciences (1.0 cr)
IE 5531 - Engineering Optimization I (4.0 cr)
IE 5532 - Stochastic Models (4.0 cr)
IE 5541 - Project Management (4.0 cr)
IE 5545 - Decision Analysis (4.0 cr)
IE 8531 - Discrete Optimization (4.0 cr)
LAAS 5311 - Soil Chemistry and Mineralogy (3.0 cr)
LAAS 5621 - Soil and Environmental Genomics (3.0 cr)
MATH 5587 - Elementary Partial Differential Equations I (4.0 cr)
MATH 5588 - Elementary Partial Differential Equations II (4.0 cr)
MATH 8401 - Mathematical Modeling and Methods of Applied Mathematics (3.0 cr)
MATH 8402 - Mathematical Modeling and Methods of Applied Mathematics (3.0 cr)
MATH 8441 - Numerical Analysis and Scientific Computing (3.0 cr)
MATH 8442 - Numerical Analysis and Scientific Computing (3.0 cr)
PA 5204 - Urban Spatial and Social Dynamics (3.0 cr)
PA 5231 - Transit Planning and Management (3.0 cr)
PA 5271 - Geographic Information Systems: Applications in Planning and Policy Analysis (3.0 cr)
PA 5880 - Exploring Global Cities (1.0 - 3.0 cr)
PA 5926 - Presentation Skills: How to Inspire Your Audience and Change the World (1.0 cr)
STAT 5302 - Applied Regression Analysis (4.0 cr)
WRS 5101 - Water Policy (3.0 cr)
WRS 8581 - Research and Professional Ethics in Water Resources and Environmental Science (0.5 cr)

Thesis Credits (24 credits)
Complete 24 thesis credits after passing preliminary oral exam.
CEGE 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)
**Twin Cities Campus**  
**Computer Science M.C.S.**

- Program Type: Master's  
- Requirements for this program are current for Fall 2020  
- Length of program in credits: 31  
- This program does not require summer semesters for timely completion.  
- Degree: Master of Computer Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Masters of Computer Science degree (MCS) is a terminal, professionally focused coursework-only degree designed for working professionals seeking to boost their current career, or change course. The MCS graduate program core offers coursework from a broad spectrum of theoretical and applied computer science topics and incorporates elective coursework opportunities in nearly all areas of the field. Faculty members have expertise in areas such as algorithms and theoretical computer science; numerical, parallel, and high-performance computing; distributed computing and systems; artificial intelligence, robotics, and computer vision; databases and data mining; human-computer interaction and information systems; graphics and visualization; software engineering and programming languages; computer architecture and compilers; networking; bio-informatics and computational biology; and computer security. Faculty from the Department of Computer Science and Engineering also participate in a variety of other graduate programs, including Bioinformatics and Computational Biology, Health Informatics, Cognitive Science, Scientific Computation, and Human Factors and Ergonomics.

**Program Delivery**  
This program is available:  
- via classroom (the majority of instruction is face-to-face)  
- partially online (between 50% to 80% of instruction is online)

**Prerequisites for Admission**  
The preferred undergraduate GPA for admittance to the program is 3.00.

Applicants must have an undergraduate or graduate degree in a major with a substantial background in computer science and engineering.

Other requirements to be completed before admission:  
The names and email addresses of three recommenders are required; they will be asked to upload their letters of recommendation to the University system. The department only accepts students for fall admission; the application deadline is March 1.

**Special Application Requirements:**  
Applicants with an inadequate background must resolve any deficiencies before applying to the program.

International applicants must submit score(s) from one of the following tests:

- **TOEFL**  
  - Internet Based - Total Score: 79  
  - Internet Based - Writing Score: 21  
  - Internet Based - Reading Score: 19  
- **IELTS**  
  - Total Score: 6.5  
  - Reading Score: 6.5  
  - Writing Score: 6.5  
- **MELAB**
Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan C: Plan C requires 31 major credits and 0 credits outside the major. There is no final exam.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

All major courses must be taken on the A-F grading option and students must maintain a GPA above 3.00 after completing 8 credits.

Required Coursework (16 credits)

Breadth Courses (9 credits)
Select 3 credits from each of the 3 subject areas, for a total of 9 credits. Courses are selected in consultation with the advisor.

Applications
Take 1 or more course(s) totaling 3 or more credit(s) from the following:
- CSCI 5115 - User Interface Design, Implementation and Evaluation (3.0 cr)
- CSCI 5123 - Recommender Systems (3.0 cr)
- CSCI 5125 - Collaborative and Social Computing (3.0 cr)
- CSCI 5127W - Embodied Computing: Design & Prototyping [WI] (3.0 cr)
- CSCI 5271 - Introduction to Computer Security (3.0 cr)
- CSCI 5461 - Functional Genomics, Systems Biology, and Bioinformatics (3.0 cr)
- CSCI 5471 - Modern Cryptography (3.0 cr)
- CSCI 5511 - Artificial Intelligence I (3.0 cr)
- CSCI 5512 - Artificial Intelligence II (3.0 cr)
- CSCI 5521 - Introduction to Machine Learning (3.0 cr)
- CSCI 5523 - Introduction to Data Mining (3.0 cr)
- CSCI 5551 - Introduction to Intelligent Robotic Systems (3.0 cr)
- CSCI 5607 - Fundamentals of Computer Graphics I (3.0 cr)
- CSCI 5561 - Computer Vision (3.0 cr)
- CSCI 5608 - Fundamentals of Computer Graphics II (3.0 cr)
- CSCI 5609 - Visualization (3.0 cr)
- CSCI 5611 - Animation & Planning in Games (3.0 cr)
- CSCI 5619 - Virtual Reality and 3D Interaction (3.0 cr)
- CSCI 5707 - Principles of Database Systems (3.0 cr)

Architecture, Systems and Software
Take 1 or more course(s) totaling 3 or more credit(s) from the following:
- CSCI 5103 - Operating Systems (3.0 cr)
- CSCI 5105 - Introduction to Distributed Systems (3.0 cr)
- CSCI 5106 - Programming Languages (3.0 cr)
- CSCI 5161 - Introduction to Compilers (3.0 cr)
- CSCI 5204 - Advanced Computer Architecture (3.0 cr)
- CSCI 5211 - Data Communications and Computer Networks (3.0 cr)
- CSCI 5221 - Foundations of Advanced Networking (3.0 cr)
- CSCI 5231 - Wireless and Sensor Networks (3.0 cr)
- CSCI 5451 - Introduction to Parallel Computing: Architectures, Algorithms, and Programming (3.0 cr)
- CSCI 5552 - Sensing and Estimation in Robotics (3.0 cr)
- CSCI 5708 - Architecture and Implementation of Database Management Systems (3.0 cr)
- CSCI 5751 - Big Data Engineering and Architecture (3.0 cr)
- CSCI 5801 - Software Engineering I (3.0 cr)
- CSCI 5802 - Software Engineering II (3.0 cr)

Theory and Algorithms
Take 1 or more course(s) totaling 3 or more credit(s) from the following:
- CSCI 5302 - Analysis of Numerical Algorithms (3.0 cr)
- CSCI 5304 - Computational Aspects of Matrix Theory (3.0 cr)
- CSCI 5421 - Advanced Algorithms and Data Structures (3.0 cr)
- CSCI 5481 - Computational Techniques for Genomics (3.0 cr)
- CSCI 5525 - Machine Learning (3.0 cr)

**Colloquium (1 credit)**

Take the following:
- CSCI 8970 - Computer Science Colloquium (1.0 cr)

**Computer Science 8000-level Courses (6 credits)**

Select 6 credits from the following in consultation with the advisor. CSCI 8980 can be taken twice if the topics are different.

- CSCI 8101 - Advanced Operating Systems (3.0 cr)
- CSCI 8102 - Foundations of Distributed Computing (3.0 cr)
- CSCI 8115 - Human-Computer Interaction and User Interface Technology (3.0 cr)
- CSCI 8117 - Understanding the Social Web (3.0 cr)
- CSCI 8161 - Advanced Compiler Techniques (3.0 cr)
- CSCI 8205 - Parallel Computer Organization (3.0 cr)
- CSCI 8211 - Advanced Computer Networks and Their Applications (3.0 cr)
- CSCI 8271 - Security and Privacy in Computing (3.0 cr)
- CSCI 8314 - Sparse Matrix Computations (3.0 cr)
- CSCI 8363 - Numerical Linear Algebra in Data Exploration (3.0 cr)
- CSCI 8442 - Computational Geometry and Applications (3.0 cr)
- CSCI 8551 - Intelligent Agents (3.0 cr)
- CSCI 8581 - Big Data in Astrophysics (4.0 cr)
- CSCI 8701 - Overview of Database Research (3.0 cr)
- CSCI 8715 - Spatial Data Science Research (3.0 cr)
- CSCI 8725 - Databases for Bioinformatics (3.0 cr)
- CSCI 8735 - Advanced Database Systems (3.0 cr)
- CSCI 8801 - Advanced Software Engineering (3.0 cr)
- CSCI 8990 - Special Advanced Topics in Computer Science (1.0 - 3.0 cr)
  or CSCI 8994 - Directed Research in Computer Science (1.0 - 3.0 cr)

**Electives (15 credits)**

Select 15 credits from the following to complete the 31 credits required. Other courses can be applied to this requirement with director of graduate studies approval.

**Computer Science Courses**

- CSCI 5103 - Operating Systems (3.0 cr)
- CSCI 5105 - Introduction to Distributed Systems (3.0 cr)
- CSCI 5106 - Programming Languages (3.0 cr)
- CSCI 5114 - User Interface Design, Implementation and Evaluation (3.0 cr)
- CSCI 5125 - Collaborative and Social Computing (3.0 cr)
- CSCI 5143 - Real-Time and Embedded Systems (3.0 cr)
- CSCI 5161 - Introduction to Compilers (3.0 cr)
- CSCI 5204 - Advanced Computer Architecture (3.0 cr)
- CSCI 5211 - Data Communications and Computer Networks (3.0 cr)
- CSCI 5231 - Wireless and Sensor Networks (3.0 cr)
- CSCI 5271 - Introduction to Computer Security (3.0 cr)
- CSCI 5302 - Analysis of Numerical Algorithms (3.0 cr)
- CSCI 5304 - Computational Aspects of Matrix Theory (3.0 cr)
- CSCI 5421 - Advanced Algorithms and Data Structures (3.0 cr)
- CSCI 5451 - Introduction to Parallel Computing: Architectures, Algorithms, and Programming (3.0 cr)
- CSCI 5461 - Functional Genomics, Systems Biology, and Bioinformatics (3.0 cr)

Department of Computer Science and Engineering, University of Minnesota, 4-192 Keller Hall, 200 Union Street SE, Minneapolis, MN 55455 (612-625-4002; fax: 612-625-0572)
Email: csgradmn@umn.edu
Website: http://www.cs.umn.edu

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 31
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Computer Science MS degree offers coursework from across a broad spectrum of theoretical and applied computer science and combines research opportunities in nearly all areas of the field. The graduate program's faculty members advise students in such areas as algorithms and theoretical computer science; numerical, parallel, and high-performance computing; distributed computing and systems; artificial intelligence, robotics, and computer vision; databases and data mining; human-computer interaction and information systems; graphics and visualization; software engineering and programming languages; computer architecture and compilers; networking; bio-informatics and computational biology; and computer security. In addition, students may choose a course of study that integrates research in computer science with applications in other fields. The Computer Science MS degree offers three distinct variations: Plan A with thesis, Plan B with project, or coursework-only Plan C with coursework-based projects. Faculty from the Department of Computer Science and Engineering also participate in a variety of other graduate programs, including bioinformatics and computational biology, health informatics, cognitive science, scientific computation, and human factors and ergonomics.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.25.

A degree in any major with a substantial background in computer science is required; a computer science major is preferred.

Other requirements to be completed before admission:
Applications with an inadequate background must resolve any deficiencies before applying to the program.

Eligibility requirements for the integrated BS/MS program:
Application to the integrated program is open to University students in the computer science or computer engineering program who have completed a majority of the required upper division courses for their undergraduate degree and have a technical GPA of 3.5 or higher, or a strong recommendation from a Computer Science and Engineering faculty member.

Special Application Requirements:
The program requires all applicants to complete the University's online application. The names and email addresses of three recommenders; and scores from the General (Aptitude) Test of the GRE are required. Students are accepted for fall admission only. The application deadline is March 1.

Applicants must submit their test score(s) from the following:
- GRE

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 85
  - Internet Based - Writing Score: 23
  - Internet Based - Reading Score: 23
• IELTS
  - Total Score: 6.5
  - Reading Score: 6.5
  - Writing Score: 6.5
• MELAB
  - Final score: 80

Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan A: Plan A requires 21 major credits, 0 credits outside the major, and 10 thesis credits. The final exam is written and oral.

Plan B: Plan B requires 31 major credits and 0 credits outside the major. The final exam is oral. A capstone project is required.

Capstone Project: The Plan B project, completed in conjunction with CSCI 8760, demonstrates the student's familiarity with the tools of research, the capability to work independently, and the ability to effectively relate their results to their committee. A written report describing the Plan B project must be approved by the advisor.

Plan C: Plan C requires 31 major credits and 0 credits outside the major. The is no final exam. A capstone project is required.

Capstone Project: Plan C students must complete a minimum of 100 hours of course-based project work, a written research report, and an oral presentation within CSCI courses taken for graduate credit.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.25 is required for students to remain in good standing.

Courses offered on both the A/F and S/N grading basis must be taken A/F, with a minimum grade of B- earned for each course.

Required Coursework (13 to 16 credits)

Breadth Courses (9 credits)
Select 3 credits from each of the 3 subject areas, for a total of 9 credits. Courses are selected in consultation with the advisor.

Applications
Take 1 or more course(s) totaling 3 or more credit(s) from the following:
• CSCI 5115 - User Interface Design, Implementation and Evaluation (3.0 cr)
• CSCI 5123 - Recommender Systems (3.0 cr)
• CSCI 5125 - Collaborative and Social Computing (3.0 cr)
• CSCI 5127W - Embodied Computing: Design & Prototyping [WI] (3.0 cr)
• CSCI 5271 - Introduction to Computer Security (3.0 cr)
• CSCI 5461 - Functional Genomics, Systems Biology, and Bioinformatics (3.0 cr)
• CSCI 5471 - Modern Cryptography (3.0 cr)
• CSCI 5511 - Artificial Intelligence I (3.0 cr)
• CSCI 5512 - Artificial Intelligence II (3.0 cr)
• CSCI 5521 - Introduction to Machine Learning (3.0 cr)
• CSCI 5523 - Introduction to Data Mining (3.0 cr)
• CSCI 5551 - Introduction to Intelligent Robotic Systems (3.0 cr)
• CSCI 5607 - Fundamentals of Computer Graphics I (3.0 cr)
• CSCI 5611 - Animation & Planning in Games (3.0 cr)
• CSCI 5619 - Virtual Reality and 3D Interaction (3.0 cr)
• CSCI 5707 - Principles of Database Systems (3.0 cr)

**Architecture, Systems and Software**
Take 1 or more course(s) totaling 3 or more credit(s) from the following:
• CSCI 5103 - Operating Systems (3.0 cr)
• CSCI 5105 - Introduction to Distributed Systems (3.0 cr)
• CSCI 5106 - Programming Languages (3.0 cr)
• CSCI 5161 - Introduction to Compilers (3.0 cr)
• CSCI 5204 - Advanced Computer Architecture (3.0 cr)
• CSCI 5211 - Data Communications and Computer Networks (3.0 cr)
• CSCI 5221 - Foundations of Advanced Networking (3.0 cr)
• CSCI 5231 - Wireless and Sensor Networks (3.0 cr)
• CSCI 5451 - Introduction to Parallel Computing: Architectures, Algorithms, and Programming (3.0 cr)
• CSCI 5552 - Sensing and Estimation in Robotics (3.0 cr)
• CSCI 5708 - Architecture and Implementation of Database Management Systems (3.0 cr)
• CSCI 5751 - Big Data Engineering and Architecture (3.0 cr)
• CSCI 5801 - Software Engineering I (3.0 cr)
• CSCI 5802 - Software Engineering II (3.0 cr)

**Theory and Algorithms**
Take 1 or more course(s) totaling 3 or more credit(s) from the following:
• CSCI 5302 - Analysis of Numerical Algorithms (3.0 cr)
• CSCI 5304 - Computational Aspects of Matrix Theory (3.0 cr)
• CSCI 5421 - Advanced Algorithms and Data Structures (3.0 cr)
• CSCI 5481 - Computational Techniques for Genomics (3.0 cr)
• CSCI 5525 - Machine Learning (3.0 cr)

**Colloquium (1 credit)**
Take the following:
CSCI 8970 - Computer Science Colloquium (1.0 cr)

**Computer Science 8000-level Courses (3 to 6 credits)**
Plan A students and Plan C students select 6 credits, and Plan B students select 3 credits from the following in consultation with the advisor. CSCI 8980 can be taken twice if the topics are different.

CSCI 8101 - Advanced Operating Systems (3.0 cr)
CSCI 8102 - Foundations of Distributed Computing (3.0 cr)
CSCI 8115 - Human-Computer Interaction and User Interface Technology (3.0 cr)
CSCI 8117 - Understanding the Social Web (3.0 cr)
CSCI 8161 - Advanced Compiler Techniques (3.0 cr)
CSCI 8205 - Parallel Computer Organization (3.0 cr)
CSCI 8211 - Advanced Computer Networks and Their Applications (3.0 cr)
CSCI 8271 - Security and Privacy in Computing (3.0 cr)
CSCI 8314 - Sparse Matrix Computations (3.0 cr)
CSCI 8363 - Numerical Linear Algebra in Data Exploration (3.0 cr)
CSCI 8442 - Computational Geometry and Applications (3.0 cr)
CSCI 8551 - Intelligent Agents (3.0 cr)
CSCI 8581 - Big Data in Astrophysics (4.0 cr)
CSCI 8701 - Overview of Database Research (3.0 cr)
CSCI 8715 - Spatial Data Science Research (3.0 cr)
CSCI 8725 - Databases for Bioinformatics (3.0 cr)
CSCI 8735 - Advanced Database Systems (3.0 cr)
CSCI 8801 - Advanced Software Engineering (3.0 cr)
CSCI 8980 - Special Advanced Topics in Computer Science (1.0 - 3.0 cr)
CSCI 8991 - Independent Study (1.0 - 3.0 cr)
or CSCI 8994 - Directed Research in Computer Science (1.0 - 3.0 cr)

**Electives (5-15 credits)**
Plan A students select 5 credits, and Plan B and Plan C students select 15 credits from the following in consultation with the advisor to meet the minimum number of course credits required. Other courses may be applied to this requirement with director of graduate studies approval.

**Computer Science Courses**
CSCI 5103 - Operating Systems (3.0 cr)
CSCI 5105 - Introduction to Distributed Systems (3.0 cr)
CSCI 5106 - Programming Languages (3.0 cr)
CSCI 5115 - User Interface Design, Implementation and Evaluation (3.0 cr)
CSCI 5125 - Collaborative and Social Computing (3.0 cr)
CSCI 5143 - Real-Time and Embedded Systems (3.0 cr)
CSCI 5161 - Introduction to Compilers (3.0 cr)

STAT 8053 - Applied Statistical Methods 3: Multivariate Analysis and Advanced Regression (3.0 cr)
STAT 8101 - Theory of Statistics 1 (3.0 cr)
STAT 8102 - Theory of Statistics 2 (3.0 cr)
STAT 8931 - Advanced Topics in Statistics (3.0 cr)
STAT 8932 - Advanced Topics in Statistics (3.0 cr)
STAT 8933 - Advanced Topics in Statistics (3.0 cr)

Plan Options
Plan A (10 credits)
Complete 10 thesis credits.
CSCI 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

Plan B (3 credits)
Take the following:
CSCI 8760 - Plan B Project (3.0 cr)

Plan C (0-3 credits)
Plan C students can apply up to 3 credits of the following directed research/independent study courses toward the minimum 31-credit requirement.
CSCI 5991 - Independent Study (1.0 - 3.0 cr)
CSCI 5994 - Directed Research (1.0 - 3.0 cr)
CSCI 8991 - Independent Study (1.0 - 3.0 cr)
CSCI 8994 - Directed Research in Computer Science (1.0 - 3.0 cr)

Program Sub-plans
A sub-plan is not required for this program.
Students may not complete the program with more than one sub-plan.

Integrated B.S.Comp.Sc./M.S. - Computer Science
The Department of Computer Science and Engineering offers an integrated bachelor of science in computer science (BSCompSc) and master of science (MS). The integrated BSCompSc/MS program offers students the opportunity to earn both degrees in five years. The combined program offers several advantages: streamlined admissions from the undergraduate to the graduate program (GRE not required); flexibility in fulfilling required courses for both degrees during the senior year; eligibility for graduate assistantships and fellowships; and financial savings by allowing up to 16 graduate credits to be completed at the undergraduate tuition rate.

Both the BSCompSc and MS degrees must be completed in their entirety, with no courses shared between them. The graduate degree cannot be earned before the undergraduate requirements are satisfied. Students must spend a minimum of two semesters as a graduate student after the completion of their undergraduate degree.

Integrated B.Comp.E./M.S. - Computer Science
The Department of Computer Science and Engineering offers an integrated bachelor of computer engineering (BCompE) and master of science (MS). Benefits, eligibility requirements, and degree-completion requirements outlined for the BSCompSc/MS integrated program also apply to the BCompE/MS.

Integrated B.A./M.S. - Computer Science
The Department of Computer Science and Engineering offers an integrated bachelor of arts (BA) and master of science (MS) in computer science. Benefits, eligibility requirements, and degree-completion requirements outlined for the BSCompSc/MS integrated program also apply to the BA/MS.

Email: admissions@cs.umn.edu
Website: http://www.cs.umn.edu

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 9
- Length of program in credits (Doctorate): 13
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The graduate program in computer science offers coursework from across a broad spectrum of theoretical and applied computer science and combines research opportunities in nearly all areas of the field. The graduate program's faculty members advise students in such areas as algorithms and theoretical computer science; numerical, parallel, and high-performance computing; distributed computing and systems; artificial intelligence, robotics, and computer vision; databases and data mining; human-computer interaction and information systems; graphics and visualization; software engineering and programming languages; computer architecture and compilers; networking; bio-informatics and computational biology; and computer security. Faculty from the Department of Computer Science and Engineering also participate in a variety of other graduate programs, including bioinformatics and computational biology, health informatics, cognitive science, scientific computation, and human factors and ergonomics.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Computer Science director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Only one 4xxx-level course may be applied to minor field course requirements.

Coursework applied to the minor must be taken A/F.

The minimum cumulative GPA for minor field coursework is 3.00 for masters students and 3.25 for doctoral students.

Minor Coursework (9-12 credits)
Masters students select 9 credits, and doctoral students select 12 credits from the following in consultation with the Computer Science director of graduate studies. Advanced Computer Science Courses requires student to complete at least 1 8xxx-level course or 1 5xxx-level course with a 5xxx-level prerequisite. Other courses may be applied to the minor with approval of the Computer Science director of graduate studies.
Advanced Computer Science Courses

Complete at least one of the following courses:

CSCI 5105 - Introduction to Distributed Systems (3.0 cr)
CSCI 5125 - Collaborative and Social Computing (3.0 cr)
CSCI 5161 - Introduction to Compilers (3.0 cr)
CSCI 5552 - Sensing and Estimation in Robotics (3.0 cr)
CSCI 5608 - Fundamentals of Computer Graphics II (3.0 cr)
CSCI 5751 - Big Data Engineering and Architecture (3.0 cr)
CSCI 5802 - Software Engineering II (3.0 cr)
CSCI 8101 - Advanced Operating Systems (3.0 cr)
CSCI 8102 - Foundations of Distributed Computing (3.0 cr)
CSCI 8115 - Human-Computer Interaction and User Interface Technology (3.0 cr)
CSCI 8117 - Understanding the Social Web (3.0 cr)
CSCI 8161 - Advanced Compiler Techniques (3.0 cr)
CSCI 8205 - Parallel Computer Organization (3.0 cr)
CSCI 8211 - Advanced Computer Networks and Their Applications (3.0 cr)
CSCI 8271 - Security and Privacy in Computing (3.0 cr)
CSCI 8314 - Sparse Matrix Computations (3.0 cr)
CSCI 8363 - Numerical Linear Algebra in Data Exploration (3.0 cr)
CSCI 8442 - Computational Geometry and Applications (3.0 cr)
CSCI 8551 - Intelligent Agents (3.0 cr)
CSCI 8551 - Big Data in Astrophysics (4.0 cr)
CSCI 8701 - Overview of Database Research (3.0 cr)
CSCI 8715 - Spatial Data Science Research (3.0 cr)
CSCI 8725 - Databases for Bioinformatics (3.0 cr)
CSCI 8735 - Advanced Database Systems (3.0 cr)
CSCI 8901 - Advanced Software Engineering (3.0 cr)
CSCI 8980 - Special Advanced Topics in Computer Science (1.0 - 3.0 cr)

Complete coursework to meet the minimum credit requirement. Other courses may be applied to the minor with approval of the Computer Science director of graduate studies.

CSCI 5103 - Operating Systems (3.0 cr)
CSCI 5106 - Programming Languages (3.0 cr)
CSCI 5115 - User Interface Design, Implementation and Evaluation (3.0 cr)
CSCI 5123 - Recommender Systems (3.0 cr)
CSCI 5127W - Embodied Computing: Design & Prototyping [WI] (3.0 cr)
CSCI 5143 - Real-Time and Embedded Systems (3.0 cr)
CSCI 5204 - Advanced Computer Architecture (3.0 cr)
CSCI 5211 - Data Communications and Computer Networks (3.0 cr)
CSCI 5231 - Wireless and Sensor Networks (3.0 cr)
CSCI 5271 - Introduction to Computer Security (3.0 cr)
CSCI 5302 - Analysis of Numerical Algorithms (3.0 cr)
CSCI 5304 - Computational Aspects of Matrix Theory (3.0 cr)
CSCI 5421 - Advanced Algorithms and Data Structures (3.0 cr)
CSCI 5451 - Introduction to Parallel Computing: Architectures, Algorithms, and Programming (3.0 cr)
CSCI 5461 - Functional Genomics, Systems Biology, and Bioinformatics (3.0 cr)
CSCI 5471 - Modern Cryptography (3.0 cr)
CSCI 5481 - Computational Techniques for Genomics (3.0 cr)
CSCI 5511 - Artificial Intelligence I (3.0 cr)
CSCI 5512 - Artificial Intelligence II (3.0 cr)
CSCI 5521 - Introduction to Machine Learning (3.0 cr)
CSCI 5523 - Introduction to Data Mining (3.0 cr)
CSCI 5525 - Machine Learning (3.0 cr)
CSCI 5551 - Introduction to Intelligent Robotic Systems (3.0 cr)
CSCI 5561 - Computer Vision (3.0 cr)
CSCI 5607 - Fundamentals of Computer Graphics 1 (3.0 cr)
CSCI 5609 - Visualization (3.0 cr)
CSCI 5611 - Animation & Planning in Games (3.0 cr)
CSCI 5619 - Virtual Reality and 3D Interaction (3.0 cr)
CSCI 5707 - Principles of Database Systems (3.0 cr)
CSCI 5708 - Architecture and Implementation of Database Management Systems (3.0 cr)
CSCI 5715 - From GPS, Google Maps, and Uber to Spatial Data Science (3.0 cr)
CSCI 5801 - Software Engineering I (3.0 cr)
CSCI 5980 - Special Topics in Computer Science (1.0 - 3.0 cr)
Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Doctoral

Colloquium Credit (1 credit)
Doctoral students take the following to complete the 13-credit requirement:
CSCI 8970 - Computer Science Colloquium (1.0 cr)
Twin Cities Campus
Computer Science Ph.D.
Computer Science and Engineering
College of Science and Engineering

Link to a list of faculty for this program.

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 55
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Computer Science PhD offers coursework from across a broad spectrum of theoretical and applied computer science, combined with research opportunities in nearly all areas of the field. Faculty members advise students in such areas as algorithms and theoretical computer science; numerical, parallel, and high-performance computing; distributed computing and systems; artificial intelligence, robotics, and computer vision; databases and data mining; human-computer interaction and information systems; graphics and visualization; software engineering and programming languages; computer architecture and compilers; networking; bio-informatics and computational biology; machine learning; and computer security. In addition, students may choose a course of study that integrates research in computer science with applications in other fields. Faculty from the Department of Computer Science and Engineering also participate in a variety of other graduate programs, including Bioinformatics and Computational Biology, Health Informatics, Cognitive Science, Scientific Computation, and Human Factors and Ergonomics.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.45.

A degree in any major with a substantial background in computer science is required; a computer science major is preferred.

Other requirements to be completed before admission:
The program requires all applicants to complete the department's online application, as well as the University's online application. The names and email addresses of three recommenders are required; they will be asked to upload their letters of recommendation to the CS&E online application only. Scores from the General (Aptitude) Test of the GRE are also required. Students are accepted for fall admission only. The application deadline is April 1. Students seeking financial aid must apply by December 5.

Applicants must submit their test score(s) from the following:
• GRE

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 85
  - Internet Based - Writing Score: 23
  - Internet Based - Reading Score: 23
• IELTS
  - Total Score: 6.5
• MELAB
  - Final score: 80

Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).
For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

**Program Requirements**

16 to 25 credits are required in the major.

6 to 15 credits are required outside the major.

24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.45 is required for students to remain in good standing.

Students are expected to complete all courses in their degree program with a GPA of at least 3.45. All courses must be taken for graduate credit and on the A-F grading basis.

**Required Coursework (16 credits)**

**Breadth Courses (15 credits)**

Select at least 3 credits from each of the 3 subject areas for a total of 9 credits, plus 6 credits from any of the subject areas, for a total of 15 credits. Courses are selected in consultation with the advisor.

**Applications**

Take 1 or more course(s) totaling 3 or more credit(s) from the following:

- CSCI 5115 - User Interface Design, Implementation and Evaluation (3.0 cr)
- CSCI 5123 - Recommender Systems (3.0 cr)
- CSCI 5125 - Collaborative and Social Computing (3.0 cr)
- CSCI 5127W - Embodied Computing: Design & Prototyping [WI] (3.0 cr)
- CSCI 5271 - Introduction to Computer Security (3.0 cr)
- CSCI 5461 - Functional Genomics, Systems Biology, and Bioinformatics (3.0 cr)
- CSCI 5471 - Modern Cryptography (3.0 cr)
- CSCI 5511 - Artificial Intelligence I (3.0 cr)
- CSCI 5512 - Artificial Intelligence II (3.0 cr)
- CSCI 5521 - Introduction to Machine Learning (3.0 cr)
- CSCI 5523 - Introduction to Data Mining (3.0 cr)
- CSCI 5551 - Introduction to Intelligent Robotic Systems (3.0 cr)
- CSCI 5607 - Fundamentals of Computer Graphics I (3.0 cr)
- CSCI 5561 - Computer Vision (3.0 cr)
- CSCI 5608 - Fundamentals of Computer Graphics II (3.0 cr)
- CSCI 5609 - Visualization (3.0 cr)
- CSCI 5611 - Animation & Planning in Games (3.0 cr)
- CSCI 5619 - Virtual Reality and 3D Interaction (3.0 cr)
- CSCI 5707 - Principles of Database Systems (3.0 cr)

**Architecture, Systems and Software**

Take 1 or more course(s) totaling 3 or more credit(s) from the following:

- CSCI 5103 - Operating Systems (3.0 cr)
- CSCI 5105 - Introduction to Distributed Systems (3.0 cr)
- CSCI 5106 - Programming Languages (3.0 cr)
- CSCI 5161 - Introduction to Compilers (3.0 cr)
- CSCI 5204 - Advanced Computer Architecture (3.0 cr)
- CSCI 5211 - Data Communications and Computer Networks (3.0 cr)
- CSCI 5221 - Foundations of Advanced Networking (3.0 cr)
- CSCI 5231 - Wireless and Sensor Networks (3.0 cr)
- CSCI 5451 - Introduction to Parallel Computing: Architectures, Algorithms, and Programming (3.0 cr)
- CSCI 5552 - Sensing and Estimation in Robotics (3.0 cr)
- CSCI 5708 - Architecture and Implementation of Database Management Systems (3.0 cr)
- CSCI 5751 - Big Data Engineering and Architecture (3.0 cr)
- CSCI 5801 - Software Engineering I (3.0 cr)
- CSCI 5802 - Software Engineering II (3.0 cr)

**Theory and Algorithms**

Take 1 or more course(s) totaling 3 or more credit(s) from the following:

- CSCI 5302 - Analysis of Numerical Algorithms (3.0 cr)
• CSCI 5304 - Computational Aspects of Matrix Theory (3.0 cr)
• CSCI 5421 - Advanced Algorithms and Data Structures (3.0 cr)
• CSCI 5481 - Computational Techniques for Genomics (3.0 cr)
• CSCI 5525 - Machine Learning (3.0 cr)

Colloquium (1 credit)
Take the following:
CSCI 8970 - Computer Science Colloquium (1.0 cr)

Additional Coursework (15 credits)

Outside Coursework (6 to 15 credits)
Select at least 6 credits from the following in consultation with the advisor:

AEM 5401 - Intermediate Dynamics (3.0 cr)
AEM 5451 - Optimal Estimation (3.0 cr)
AEM 8411 - Advanced Dynamics (3.0 cr)
AEM 8423 - Convex Optimization Methods in Control (3.0 cr)
BMEN 5001 - Advanced Biomaterials (3.0 cr)
BMEN 5201 - Advanced Biomechanics (3.0 cr)
BMEN 5701 - Cancer Bioengineering (3.0 cr)
BMEN 8151 - Biomedical Electronics and Implantable Microsystems (3.0 cr)
CEGE 8211 - Theory of Traffic Flow (4.0 cr)
EE 5231 - Linear Systems and Optimal Control (3.0 cr)
EE 5235 - Robust Control System Design (3.0 cr)
EE 5239 - Introduction to Nonlinear Optimization (3.0 cr)
EE 5251 - Optimal Filtering and Estimation (3.0 cr)
EE 5301 - VLSI Design Automation I (3.0 cr)
EE 5333 - Analog Integrated Circuit Design (3.0 cr)
EE 5351 - Applied Parallel Programming (3.0 cr)
EE 5355 - Algorithmic Techniques for Scalable Many-core Computing (3.0 cr)
EE 5364 - Advanced Computer Architecture (3.0 cr)
EE 5371 - Computer Systems Performance Measurement and Evaluation (3.0 cr)
EE 5373 - Data Modeling Using R (1.0 cr)
EE 5393 - Circuits, Computation, and Biology (3.0 cr)
EE 5505 - Wireless Communication (3.0 cr)
EE 5531 - Probability and Stochastic Processes (3.0 cr)
EE 5542 - Adaptive Digital Signal Processing (3.0 cr)
EE 5581 - Information Theory and Coding (3.0 cr)
EE 5585 - Data Compression (3.0 cr)
EE 5653 - Physical Principles of Magnetic Materials (3.0 cr)
EE 5741 - Advanced Power Electronics (3.0 cr)
EE 8231 - Optimization Theory (3.0 cr)
EE 8367 - Parallel Computer Organization (3.0 cr)
EE 8581 - Detection and Estimation Theory (3.0 cr)
EE 8591 - Predictive Learning from Data (3.0 cr)
IE 5531 - Engineering Optimization I (4.0 cr)
IE 5532 - Stochastic Models (4.0 cr)
MATH 5075 - Mathematics of Options, Futures, and Derivative Securities I (4.0 cr)
MATH 5165 - Mathematical Logic I (4.0 cr)
MATH 5248 - Cryptology and Number Theory (4.0 cr)
MATH 5251 - Error-Correcting Codes, Finite Fields, Algebraic Curves (4.0 cr)
MATH 5335 - Geometry I (4.0 cr)

Website: http://tli.umn.edu

- Program Type: Graduate free-standing minor
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 8
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Cyber Security minor integrates the fields of technology, security, and management, to provide students with the skills and insights to assume a leadership role in cyber security, or continue their field of study with a focus on cyber security and its role in organizations.

The curriculum applies fundamental concepts of business management, organizational leadership, and risk management techniques and strategies, each as applied in the context of cyber security, to empower engineering, technology, and business professionals to adapt and lead in the emerging field of cyber security. Each class will include exercises that inform students on those cyber security topics, and give them an opportunity to practice the fundamental skills of communications, teamwork, and project management.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Students not currently enrolled in the Master of Science in Security Technologies (MSST) program must be approved for the minor by the Director of Graduate Studies. Non-MSST students may be asked to complete a background check prior to receiving registration permission for courses with ST designators.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Courses must be taken on the A/F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

The minimum cumulative GPA for the minor is 3.00.

Required Courses (6 credits)
These core courses are designed to be taken in sequence.
ST 8661 - Securing Cyberspace (Fundamentals) (3.0 cr)
ST 8662 - Securing Cyberspace - Advanced (3.0 cr)
Elective Courses (2-6 credits)
Master's students select at least 2 credits, and doctoral students select at least 6 credits in consultation with the Cyber Security director of graduate studies to complete the minimum credit requirement. Other courses may be applied to the minor with approval of the Cyber Security director of graduate studies.
- ST 8113 - Information and Cyber Security (2.0 cr)
- ST 8513 - Cyber Threat Intelligence (2.0 cr)
- CSCI 5271 - Introduction to Computer Security (3.0 cr)
- CSCI 5471 - Modern Cryptography (3.0 cr)
- CSCI 8271 - Security and Privacy in Computing (3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Twin Cities Campus
Data Science Certificate
Computer Science and Engineering
College of Science and Engineering

Link to a list of faculty for this program.

- Program Type: Post-baccalaureate credit certificate/licensure/endorsement
- Requirements for this program are current for Fall 2020
- Length of program in credits: 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Data Science Certificate program provides a strong foundation in the science of Big Data and its analysis by gathering in a single program the knowledge, expertise, and educational assets in data collection and management, data analytics, scalable data-driven pattern discovery, and the fundamental concepts behind these methods.

Students who graduate from this 2-semester certificate program will learn the state-of-the-art methods for treating Big Data and be exposed to the cutting edge methods and theory forming the basis for the next generation of Big Data technology.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A bachelor’s degree from an accredited college or university in computer science, math, statistics, engineering, natural sciences, or a related field.

Other requirements to be completed before admission:
The undergraduate degree must include statistics, calculus, multivariable calculus, linear algebra, and mathematical software environments such as Matlab or R or the equivalent, programming languages such as C++, C++, Java, programming experience including algorithms and data structures normally taught in beginning computer science courses either as part of the undergraduate degree or subsequent work experience.

Special Application Requirements:
Admission application deadlines: rolling. Applicants are considered for Fall or Spring admission and decisions are made after all applications are received following the close of the application cycle.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Writing Score: 23
  - Internet Based - Reading Score: 23
- IELTS
  - Total Score: 6.5
- MELAB
  - Part 1 (Composition) score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the
Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

The Data Science certificate requires a minimum of 12 credits consisting of one course from each of the three emphasis areas, plus one course chosen from any of the three emphasis areas.

Courses must be taken on the A/F grading scale with a minimum grade of B-.

Algorithmics (3-6 credits)
Select at least 3 credits from the following:
- CSCI 5521 - Introduction to Machine Learning (3.0 cr)
- CSCI 5523 - Introduction to Data Mining (3.0 cr)
- CSCI 5525 - Machine Learning (3.0 cr)
- EE 8591 - Predictive Learning from Data (3.0 cr)
- PUBH 7475 - Statistical Learning and Data Mining (3.0 cr)

Statistics (3-6 credits)
Select at least 3 credits from the following:
- PUBH 7402 - Biostatistics Modeling and Methods (4.0 cr)
- PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
- STAT 5102 - Theory of Statistics II (4.0 cr)
- STAT 5302 - Applied Regression Analysis (4.0 cr)
- STAT 5401 - Applied Multivariate Methods (3.0 cr)
- STAT 5511 - Time Series Analysis (3.0 cr)
- STAT 8051 - Advanced Regression Techniques: linear, nonlinear and nonparametric methods (3.0 cr)
- MATH 5651 - Basic Theory of Probability and Statistics (4.0 cr)
  or STAT 5101 - Theory of Statistics I (4.0 cr)

Infrastructure and Large Scale Computing (3-6 credits)
Select at least 3 credits from the following:
- CSCI 5105 - Introduction to Distributed Systems (3.0 cr)
- CSCI 5451 - Introduction to Parallel Computing: Architectures, Algorithms, and Programming (3.0 cr)
- CSCI 5707 - Principles of Database Systems (3.0 cr)
- CSCI 8980 - Special Advanced Topics in Computer Science (1.0 - 3.0 cr)
- EE 5351 - Applied Parallel Programming (3.0 cr)
- CSCI 8205 - Parallel Computer Organization (3.0 cr)
  or EE 8367 - Parallel Computer Organization (3.0 cr)
Twin Cities Campus

Data Science in Astrophysics Minor

Astrophysics, Minnesota Institute for
College of Science and Engineering

Email: MIfA@umn.edu
Website: http://www.astro.umn.edu

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 8
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The minor in Data Science in Astrophysics is designed to be interdisciplinary and integrates data science (statistics, data processing, artificial intelligence) with the field of astrophysics. Students pursuing the minor will receive the training needed to advance the field of astrophysics, while simultaneously preparing to be successful professionals and leaders in the modern data-driven workforce.

The curriculum covers the fundamental concepts in statistics, data processing and data management, as well as the modern machine learning and deep learning techniques needed for analyzing the ever-increasing astrophysics data-sets. Students will have opportunities to conduct frontier research projects using modern astrophysics data-sets, and will work in interdisciplinary teams mentored by interdisciplinary faculty. They will also have opportunities to develop their professional skills, such as communications and leadership.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Current students with a science, engineering, or statistics background and in good standing from any University graduate program are eligible for the minor.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Courses applied to the minor that are offered on both the A/F and S/N grade basis must be taken A/F.

The minimum cumulative GPA for the minor is 3.00.

Required courses (8 credits)
All students take one Astrostatistics course and one Big Data course for a total of 8 credits. Course selection must be approved by the Astrophysics director of graduate studies.

Astrostatistics
AST 5731 - Bayesian Astrostatistics (4.0 cr)  
or STAT 5731 - Bayesian Astrostatistics (4.0 cr)

**Big Data**

AST 8581 - Big Data in Astrophysics (4.0 cr)  
or CSCI 8581 - Big Data in Astrophysics (4.0 cr)  
or PHYS 8581 - Big Data in Astrophysics (4.0 cr)

**Program Sub-plans**

Students are required to complete one of the following sub-plans.  
Students may not complete the program with more than one sub-plan.

**Masters**

**Doctoral**

**Electives (4 credits)**

Doctoral students select a minimum of 4 additional credits in consultation with the Data Science in Astrophysics director of graduate studies to meet the 12-credit minimum.

- **AST 5022** - Relativity, Cosmology, and the Universe (4.0 cr)
- **AST 8001** - Radiative Processes in Astrophysics (4.0 cr)
- **AST 8011** - High Energy Astrophysics (4.0 cr)
- **AST 8990** - Research in Astronomy and Astrophysics (1.0 - 4.0 cr)
- **CSCI 5521** - Introduction to Machine Learning (3.0 cr)
- **CSCI 5523** - Introduction to Data Mining (3.0 cr)
- **CSCI 5525** - Machine Learning (3.0 cr)
- **CSCI 5609** - Visualization (3.0 cr)
- **CSCI 5707** - Principles of Database Systems (3.0 cr)
- **EE 5239** - Introduction to Nonlinear Optimization (3.0 cr)
- **EE 5251** - Optimal Filtering and Estimation (3.0 cr)
- **EE 5531** - Probability and Stochastic Processes (3.0 cr)
- **EE 5542** - Adaptive Digital Signal Processing (3.0 cr)
- **EE 5561** - Image Processing and Applications (3.0 cr)
- **EE 8581** - Detection and Estimation Theory (3.0 cr)
- **EE 8591** - Predictive Learning from Data (3.0 cr)
- **PHYS 8611** - Cosmic Rays and Plasma Astrophysics (3.0 cr)
- **PUBH 7460** - Advanced Statistical Computing (3.0 cr)
- **PUBH 8442** - Bayesian Decision Theory and Data Analysis (3.0 cr)
- **STAT 5302** - Applied Regression Analysis (4.0 cr)
- **STAT 5401** - Applied Multivariate Methods (3.0 cr)
- **STAT 5421** - Analysis of Categorical Data (3.0 cr)
- **STAT 5511** - Time Series Analysis (3.0 cr)
- **STAT 5601** - Nonparametric Methods (3.0 cr)
- **STAT 8051** - Advanced Regression Techniques: linear, nonlinear and nonparametric methods (3.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 31
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Data Science MS program provides a strong foundation in the science of Big Data and its analysis by gathering in a single program the knowledge, expertise, and educational assets in data collection and management, data analytics, scalable data-driven pattern discovery, and the fundamental concepts behind these methods.

Students who graduate from this regular 2-year master's program will learn the state-of-the-art methods for treating Big Data, be exposed to the cutting-edge methods and theory forming the basis for the next generation of Big Data technology, and will complete a project demonstrating that they can use the fundamental concepts to design innovative methods for new application areas arising from business, government, security, medicine, biology, physical sciences, and the environment.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A bachelor's degree from an accredited college or university in computer science, math, statistics, engineering, natural sciences, or a related field.

Other requirements to be completed before admission:
The undergraduate degree must include statistics, calculus, multivariable calculus, linear algebra, and mathematical software environments such as Matlab or R or the equivalent, programming languages such as C++, Java, programming experience including algorithms and data structures normally taught in beginning computer science courses either as part of the undergraduate degree or subsequent work experience.

Special Application Requirements:
Admission application deadlines: February 1st international applicants, March 1st domestic applicants. Applicants are only considered for fall admission and decisions are made after all applications are received following the close of the application cycle.

Applicants must submit their test score(s) from the following:
- GRE

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Writing Score: 23
  - Internet Based - Reading Score: 23
- IELTS
  - Total Score: 6.5
MELAB
  - Part 1 (Composition) score: 80

Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan B: Plan B requires 31 major credits and up to null credits outside the major. The final exam is written and oral. A capstone project is required.

Capstone Project: Students must complete 3 credit hours of capstone project coursework supervised by a faculty member.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

Courses must be taken on the A/F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

At least 3 8xxx-level credits, either from an emphasis or an elective, are required.

Statistics (6 credits)
In consultation with advisor, select 6 credits from the Statistics emphasis, at least 3 of which must be from the following short list:

Short List
- PUBH 7401 - Fundamentals of Biostatistical Inference (4.0 cr)
- PUBH 7402 - Biostatistics Modeling and Methods (4.0 cr)
- PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
- STAT 5102 - Theory of Statistics II (4.0 cr)
- STAT 5302 - Applied Regression Analysis (4.0 cr)
- STAT 5401 - Applied Multivariate Methods (3.0 cr)
- STAT 5511 - Time Series Analysis (3.0 cr)
- STAT 8051 - Advanced Regression Techniques: linear, nonlinear and nonparametric methods (3.0 cr)
- MATH 5651 - Basic Theory of Probability and Statistics (4.0 cr)

or
- STAT 5101 - Theory of Statistics I (4.0 cr)

Additional Courses
- EE 5531 - Probability and Stochastic Processes (3.0 cr)
- EE 8581 - Detection and Estimation Theory (3.0 cr)
- PUBH 7405 - Biostatistics: Regression (4.0 cr)
- PUBH 7406 - Advanced Regression and Design (4.0 cr)
- PUBH 7407 - Analysis of Categorical Data (3.0 cr)
- PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
- PUBH 7485 - Methods for Causal Inference (3.0 cr)
- PUBH 8401 - Linear Models (4.0 cr)
- PUBH 8432 - Probability Models for Biostatistics (3.0 cr)
- PUBH 8442 - Bayesian Decision Theory and Data Analysis (3.0 cr)
- STAT 5201 - Sampling Methodology in Finite Populations (3.0 cr)
- STAT 5303 - Designing Experiments (4.0 cr)
- STAT 5421 - Analysis of Categorical Data (3.0 cr)
- STAT 5601 - Nonparametric Methods (3.0 cr)
- PUBH 8475 - Statistical Learning and Data Mining (3.0 cr)

Algorithmics (6 credits)
In consultation with advisor, select 6 credits from the Algorithmics emphasis, at least 3 of which must be from the following short list:

Short List
- CSCI 5521 - Introduction to Machine Learning (3.0 cr)
- CSCI 5523 - Introduction to Data Mining (3.0 cr)
- CSCI 5525 - Machine Learning (3.0 cr)
- EE 8591 - Predictive Learning from Data (3.0 cr)
- PUBH 8475 - Statistical Learning and Data Mining (3.0 cr)

Additional Courses
CSCI 5302 - Analysis of Numerical Algorithms (3.0 cr)
CSCI 5304 - Computational Aspects of Matrix Theory (3.0 cr)
CSCI 5511 - Artificial Intelligence I (3.0 cr)
CSCI 5512 - Artificial Intelligence II (3.0 cr)
CSCI 5609 - Visualization (3.0 cr)
CSCI 8314 - Sparse Matrix Computations (3.0 cr)
EE 5239 - Introduction to Nonlinear Optimization (3.0 cr)
EE 5251 - Optimal Filtering and Estimation (3.0 cr)
EE 5355 - Algorithmic Techniques for Scalable Many-core Computing (3.0 cr)
EE 5391 - Computing With Neural Networks (3.0 cr)
EE 5542 - Adaptive Digital Signal Processing (3.0 cr)
EE 5551 - Multiscale and Multirate Signal Processing (3.0 cr)
EE 5561 - Image Processing and Applications (3.0 cr)
EE 5581 - Information Theory and Coding (3.0 cr)
EE 5585 - Data Compression (3.0 cr)
EE 8251 - Optimization Theory (3.0 cr)
IE 5531 - Engineering Optimization I (4.0 cr)
IE 8521 - Optimization (4.0 cr)
IE 8531 - Discrete Optimization (4.0 cr)
IE 8534 - Advanced Topics in Operations Research (4.0 cr)

Infrastructure and Large Scale Computing (6 credits)
In consultation with advisor, select 6 credits from the Infrastructure and Large Scale Computing emphasis, at least 3 of which must be from the following short list:

**Short List**
CSCI 5105 - Introduction to Distributed Systems (3.0 cr)
CSCI 5451 - Introduction to Parallel Computing: Architectures, Algorithms, and Programming (3.0 cr)
CSCI 5707 - Principles of Database Systems (3.0 cr)
CSCI 8980 - Special Advanced Topics in Computer Science (1.0 - 3.0 cr)
EE 5351 - Applied Parallel Programming (3.0 cr)
EE 8367 - Parallel Computer Organization (3.0 cr)
CSCI 5708 - Architecture and Implementation of Database Management Systems (3.0 cr)

**Additional Courses**
CSCI 5211 - Data Communications and Computer Networks (3.0 cr)
CSCI 5231 - Wireless and Sensor Networks (3.0 cr)
CSCI 5271 - Introduction to Computer Security (3.0 cr)
CSCI 5716 - From GPS, Google Maps, and Uber to Spatial Data Science (3.0 cr)
CSCI 5801 - Software Engineering I (3.0 cr)
CSCI 5802 - Software Engineering II (3.0 cr)
CSCI 8102 - Foundations of Distributed Computing (3.0 cr)
CSCI 8701 - Overview of Database Research (3.0 cr)
CSCI 8715 - Spatial Data Science Research (3.0 cr)
CSCI 8735 - Advanced Database Systems (3.0 cr)
CSCI 8801 - Advanced Software Engineering (3.0 cr)
EE 5371 - Computer Systems Performance Measurement and Evaluation (3.0 cr)
EE 5381 - Telecommunications Networks (3.0 cr)
EE 5501 - Digital Communication (3.0 cr)

**Electives (9 credits)**
Select credits from the following to meet the 31-credit minimum, or choose additional courses from the lists above. Other courses may be applied to this requirement with director of graduate studies approval.
CSCI 5115 - User Interface Design, Implementation and Evaluation (3.0 cr)
CSCI 5461 - Functional Genomics, Systems Biology, and Bioinformatics (3.0 cr)
CSCI 5481 - Computational Techniques for Genomics (3.0 cr)
CSCI 5561 - Computer Vision (3.0 cr)
CSCI 5980 - Special Topics in Computer Science (1.0 - 3.0 cr)
CSCI 8115 - Human-Computer Interaction User Interface Technology (3.0 cr)
CSCI 8271 - Security and Privacy in Computing (3.0 cr)
CSCI 8363 - Numerical Linear Algebra in Data Exploration (3.0 cr)
CSCI 8715 - Spatial Data Science Research (3.0 cr)
CSCI 8725 - Databases for Bioinformatics (3.0 cr)
MATH 5467 - Introduction to the Mathematics of Image and Data Analysis (4.0 cr)
MSBA 6330 - Big Data Analytics (3.0 cr)
PUBH 7475 - Statistical Learning and Data Mining (3.0 cr)
PUBH 8445 - Statistics for Human Genetics and Molecular Biology (3.0 cr)
PUBH 8446 - Advanced Statistical Genetics and Genomics (3.0 cr)
PUBH 8472 - Spatial Biostatistics (3.0 cr)

Research Colloquium (1 credit)
Take 1 credit from the one of the following:
CSCI 8970 - Computer Science Colloquium (1.0 cr)
or DSCI 8970 - Data Science M.S. Colloquium (1.0 cr)

Capstone Course (3 credits)
Complete 3 credits for the capstone project.
DSCI 8760 - Data Science M.S. Plan B Project (3.0 cr)

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 9
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Data Science minor provides a strong foundation in the science of Big Data and its analysis by gathering together the knowledge, expertise, and educational assets in data collection and management, data analytics, scalable data-driven pattern discovery, and the fundamental concepts behind these methods. Students completing this minor will learn the state-of-the-art methods for treating Big Data and be exposed to the cutting-edge methods and theory forming the basis for the next generation of Big Data technology.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Data Science director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Courses must be taken at the University of Minnesota Twin Cities Campus; transfer coursework will not be accepted.

Courses must be taken on the A/F grading scale.

A 3.0 GPA must be maintained in the courses applied to the Data Science minor.

Algorithmics (3 credits)
All students select 3 credits from the following:
CSCI 5521 - Introduction to Machine Learning (3.0 cr)
CSCI 5523 - Introduction to Data Mining (3.0 cr)
CSCI 5525 - Machine Learning (3.0 cr)
EE 8591 - Predictive Learning from Data (3.0 cr)
PUBH 7475 - Statistical Learning and Data Mining (3.0 cr)

Statistics (3 credits)
All students select 3 credits from the following:
PUBH 7401 - Fundamentals of Biostatistical Inference (4.0 cr)
PUBH 7402 - Biostatistics Modeling and Methods (4.0 cr)
PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
STAT 5102 - Theory of Statistics II (4.0 cr)
STAT 5302 - Applied Regression Analysis (4.0 cr)
STAT 5401 - Applied Multivariate Methods (3.0 cr)
STAT 5511 - Time Series Analysis (3.0 cr)
STAT 8051 - Advanced Regression Techniques: linear, nonlinear and nonparametric methods (3.0 cr)
MATH 5651 - Basic Theory of Probability and Statistics (4.0 cr)
or STAT 5101 - Theory of Statistics I (4.0 cr)

Infrastructure and Large Scale Computing (3 credits)
All students select 3 credits from the following:
CSCI 5105 - Introduction to Distributed Systems (3.0 cr)
CSCI 5451 - Introduction to Parallel Computing: Architectures, Algorithms, and Programming (3.0 cr)
CSCI 5707 - Principles of Database Systems (3.0 cr)
CSCI 8980 - Special Advanced Topics in Computer Science (1.0 - 3.0 cr)
EE 5351 - Applied Parallel Programming (3.0 cr)
CSCI 8205 - Parallel Computer Organization (3.0 cr)
or EE 8367 - Parallel Computer Organization (3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Coursework from the student's home department cannot be applied as a doctoral minor elective.

Electives (3 Credits)
Select 3 credits from the following to complete the 12-credit minimum for the doctoral minor.
CSCI 5105 - Introduction to Distributed Systems (3.0 cr)
CSCI 5211 - Data Communications and Computer Networks (3.0 cr)
CSCI 5231 - Wireless and Sensor Networks (3.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The modern earth sciences are a remarkable synthesis of the physical and biological sciences. They are at the forefront of inquiry into and solutions of most of the major issues involving the global environment: climate, oceans, freshwater in all its forms, natural resources, and natural disasters. Like no other field, they integrate all the systems, from surface to great depth, from physics to chemistry to biology, and over all of geologic time and all geographic scales. The program includes the fields of structural geology, tectonics, petrology, hydrogeology, geomorphology, sedimentology, surface processes, geochemistry, geobiology, chemical oceanography, mineralogy, mineral and rock magnetism, rock and mineral physics, geodynamics, geostatistics, planetary geology, and geophysics and applied geophysics. Students may accommodate other areas of interest such as engineering geology, environmental geology, materials science, soil science, and paleoecology by choosing a minor or supporting field from outside the program.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A bachelor's degree in geology, geophysics, earth and material sciences, chemistry, physics, biology, or environmental science.

Other requirements to be completed before admission:
At least one year each of study in calculus, chemistry, and physics is required. In general, an outstanding academic record is expected.

Special Application Requirements:
Materials required for a complete application file include the student's statement of purpose, three letters of recommendation, transcripts, official GRE scores, and the Application for Admission. Applications are considered at any time; however, to be considered for financial aid, all materials must be submitted by December 15. Studies may begin in any semester or summer session, although fall semester is preferable.

Applicants must submit their test score(s) from the following:
- GRE

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5
• MELAB
  - Final score: 80

Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan A: Plan A requires 14 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is oral.

Plan B: Plan B requires 14 to 22 major credits and 8 to 16 credits outside the major. The final exam is written and oral. A capstone project is required.

Capstone Project: Students must demonstrate familiarity with the tools of research or scholarship in their track, the ability to work independently, and the ability to present the results of their investigation effectively, by completing one or more projects, which may take the form of a research paper, presentation of research results, or completion of a faculty-supervised research experience. The Plan B project(s) should involve a minimum combined total of approximately 120 hours (the equivalent of three full-time weeks) of work.

Plan C: Plan C requires 14 to 21 major credits and 9 to 16 credits outside the major. There is no final exam.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 2.80 is required for students to remain in good standing.

At the onset of studies, a coursework "compact" will be developed with the student, their advisor, and the graduate studies committee. The compact will be reviewed annually to assure timely progress and revise as needed.

The masters degree is offered under Plan A (thesis), Plan B (project), or Plan C (coursework). Plan A and Plan B students must choose one of five tracks in the earth sciences program: geology, geophysics, biogeology, hydrogeology, or earth sciences. Plan C students may only choose the hydrogeology track. Tracks carry coursework requirements that are part of the student's course compact.

Coursework taken A/F must be completed with an average grade of B or better.

Required Courses (3 credits)
  Take ESci 8001 and 1 credit of ESci 8980, preferably in the first year.
  ESci 8001 - Introductory Graduate Seminar (2.0 cr)
  ESci 8980 - Seminar: Current Topics in Earth Sciences (1.0 - 4.0 cr)

Outside Coursework (6 to 9 credits)
Plan A students select 6 credits, Plan B students select 8 credits, and Plan C students select 9 credits from the following in consultation with the advisor. Other courses may be applied to this requirement with director of graduate studies approval.
  ANTH 5403 - Quantitative Methods in Biological Anthropology (4.0 cr)
  CEGE 4501 - Hydrologic Design (4.0 cr)
  CEGE 4512 - Open Channel Hydraulics (4.0 cr)
  CEGE 5541 - Environmental Water Chemistry (3.0 cr)
  CEGE 5551 - Environmental Microbiology (3.0 cr)
  CEGE 5552 - Environmental Microbiology Laboratory (1.0 cr)
  CHEM 4501 - Introduction to Thermodynamics, Kinetics, and Statistical Mechanics (3.0 cr)
  CSCI 5304 - Computational Aspects of Matrix Theory (3.0 cr)
  CSCI 5521 - Introduction to Machine Learning (3.0 cr)
  CSCI 5609 - Visualization (3.0 cr)
  EE 5531 - Probability and Stochastic Processes (3.0 cr)
  EE 5581 - Detection and Estimation Theory (3.0 cr)
  EEB 5053 - Ecology: Theory and Concepts (4.0 cr)
  EEB 5407 - Ecology (3.0 cr)
  EEB 5601 - Limnology (3.0 cr)
  ESPM 5402 - Biomeeorology (3.0 cr)
  FNRM 5114 - Hydrology and Watershed Management (3.0 cr)
  FNRM 5131 - Geographical Information Systems (GIS) for Natural Resources (4.0 cr)
FNRM 5203 - Forest Fire and Disturbance Ecology (3.0 cr)
FNRM 5262 - Remote Sensing and Geospatial Analysis of Natural Resources and Environment (3.0 cr)
LAAS 5311 - Soil Chemistry and Mineralogy (3.0 cr)
LAAS 5425 - Atmospheric Processes I: Thermodynamics and Dynamics of the Atmosphere (3.0 cr)
LAAS 5426 - Atmospheric Processes II: Radiation, Composition, and Climate (3.0 cr)
LAAS 5515 - Soil Formation: Earth Surface Processes and Biogeochemistry (3.0 cr)
LAAS 5621 - Soil and Environmental Genomics (3.0 cr)
MATH 5485 - Introduction to Numerical Methods I (4.0 cr)
MATH 5486 - Introduction To Numerical Methods II (4.0 cr)
MATS 5517 - Microscopy of Materials (3.0 cr)
MATS 8001 - Structure and Symmetry of Materials (3.0 cr)
MATS 8002 - Thermodynamics and Kinetics (3.0 cr)
MATS 8003 - Electronic Properties (3.0 cr)
STAT 8101 - Theory of Statistics 1 (3.0 cr)
STAT 8102 - Theory of Statistics 2 (3.0 cr)

Electives
Select courses from the following, as needed to complete the minimum number of course credits required.
ESCI 4203 - Environmental Geophysics (3.0 cr)
ESCI 4204 - Geomagnetism and Paleomagnetism (3.0 cr)
ESCI 4211 - Solid Earth Geophysics I (3.0 cr)
ESCI 4212 - Solid Earth Geophysics II (3.0 cr)
ESCI 4401 - Aqueous Environmental Geochemistry (3.0 cr)
ESCI 4402 - Biogeochemical Cycles in the Ocean (3.0 cr)
ESCI 4501 - Structural Geology (3.0 cr)
ESCI 4502 - Tectonic Styles (3.0 cr)
ESCI 4602 - Sedimentology and Stratigraphy (3.0 cr)
ESCI 4701 - Geomorphology (4.0 cr)
ESCI 4702 - General Hydrogeology (4.0 cr)
ESCI 4703 - Glacial Geology (4.0 cr)
ESCI 4801 - Geomicrobiology (3.0 cr)
ESCI 4911 - Advanced Field Geology (4.0 cr)
ESCI 5093 - Directed Studies in Earth Sciences (1.0 - 4.0 cr)
ESCI 5102 - Climate Change and Human History (3.0 cr)
ESCI 5201 - Time-Series Analysis of Geological Phenomena (3.0 cr)
ESCI 5203 - Mineral and Rock Physics (3.0 cr)
ESCI 5204 - Geostatistics and Inverse Theory (3.0 cr)
ESCI 5302 - Isotope Geology (3.0 cr)
ESCI 5351 - Geochemical Modeling of Aqueous Systems (3.0 cr)
ESCI 5353 - Electron Microprobe Theory and Practice (3.0 cr)
ESCI 5402 - Science and Politics of Global Warming (3.0 cr)
ESCI 5403 - Computer Applications in Earth & Environmental Sciences (3.0 cr)
ESCI 5503 - Advanced Petrology (3.0 cr)
ESCI 5705 - Limnogeology and Paleoenvironment (3.0 cr)
ESCI 5805 - Standards and Practices for Professional Geoscientists (3.0 cr)
ESCI 5971 - Field Hydrogeology (2.0 cr)
ESCI 5980 - Seminar: Current Topics in Earth Sciences (1.0 - 4.0 cr)
ESCI 8203 - Environmental Geophysics (3.0 cr)
ESCI 8204 - Geomagnetism and Paleomagnetism (3.0 cr)
ESCI 8243 - Principles of Rock Magnetism (1.0 - 3.0 cr)
ESCI 8353 - Phase Equilibrium in Mineral Systems (3.0 cr)
ESCI 8354 - Igneous Petrology (3.0 cr)
ESCI 8355 - Metamorphic Petrology (3.0 cr)
ESCI 8401 - Aqueous Environmental Geochemistry (3.0 cr)
ESCI 8402 - Biogeochemical Cycles in the Ocean (3.0 cr)
ESCI 8501 - Structural Geology (4.0 cr)
ESCI 8502 - Tectonic Styles (3.0 cr)
ESCI 8511 - Mechanics of Sediment Transport (3.0 cr)
ESCI 8601 - Introduction to Stream Restoration (3.0 cr)
ESCI 8602 - Stream Restoration Practice (2.0 cr)
ESCI 8701 - Geomorphology (4.0 cr)
ESCI 8712 - Transport Phenomena and Analytical Geohydrology (3.0 - 4.0 cr)
ESCI 8718 - Numerical Methods in Hydrogeology (4.0 cr)
ESCI 8801 - Geomicrobiology (3.0 cr)
ESCI 8970 - Seminar: Current Topics in Earth Sciences (1.0 - 4.0 cr)
ESCI 8994 - Research in Earth Sciences (1.0 - 4.0 cr)

Plan Options

Plan A
Complete 10 master's thesis credits.
ESCI 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

-OR-

Plan B (0-3 credits)
Up to 3 credits of ESCI 8994 may be used for the Plan B project requirement.
ESCI 8994 - Research in Earth Sciences (1.0 - 4.0 cr)

-OR-

Plan C

Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Biogeology
This sub-plan is limited to students completing the program under Plan A or Plan B.

Biogeology represents a rapidly growing area at the intersection between Earth and the life sciences. It includes research in microbial evolution and biochemistry, microbe/mineral chemical interactions, the role of organisms in basic geological processes, the principles through which organisms or organic compounds can be used to reconstruct surface conditions, biogeochemical cycling, pollution control and remediation, the origin of life on Earth, and astrobiology.

Required Courses (6 credits)
Take the following courses:
ESCI 8402 - Biogeochemical Cycles in the Ocean (3.0 cr)
ESCI 8801 - Geomicrobiology (3.0 cr)

Earth Sciences
This sub-plan is limited to students completing the program under Plan A or Plan B.

This generalist track exists for students whose curriculum and/or thesis, paper, or project do not fit any of the other four tracks. A curriculum specific to the student will be set through the compact process.

Required Courses (6 credits)
Select 6 credits from the following:
ESCI 4xxx
ESCI 5xxx
ESCI 8xxx

Geology
This sub-plan is limited to students completing the program under Plan A or Plan B.

Geology uses field observation, laboratory work, analog and computer modeling, chemical and biological probes and assays to understand Earth's coupled rock, water and biological systems, the underlying processes, and their history of interaction as evidenced in the rock record.

Required Courses (6 credits)
Select 6 credits from the following:
ESCI 5302 - Isotope Geology (3.0 cr)
ESCI 5351 - Geochemical Modeling of Aqueous Systems (3.0 cr)
ESCI 5353 - Electron Microprobe Theory and Practice (3.0 cr)
ESCI 5503 - Advanced Petrology (3.0 cr)
ESCI 5705 - Limnogeology and Paleoenvironment (3.0 cr)
Geophysics
This sub-plan is limited to students completing the program under Plan A or Plan B.

Geophysics uses remote sensing probes (seismic waves, potential fields, etc.), laboratory simulation of deep earth conditions and computer modeling of fluid and continuum mechanical dynamics to investigate the structure, composition, history and dynamics of solid Earth and other planets.

Required Courses (6 credits)
Take the following course:
ESCI 4211 - Solid Earth Geophysics I (3.0 cr)
Select 3 credits from the following:
ESCI 4212 - Solid Earth Geophysics II (3.0 cr)
ESCI 5201 - Time-Series Analysis of Geological Phenomena (3.0 cr)
ESCI 5203 - Mineral and Rock Physics (3.0 cr)
ESCI 5204 - Geostatistics and Inverse Theory (3.0 cr)
ESCI 8203 - Environmental Geophysics (3.0 cr)
ESCI 8204 - Geomagnetism and Paleomagnetism (3.0 cr)

Hydrogeology
Hydrogeology uses direct observation and remote sensing, computer modeling and laboratory simulation to constrain the interaction of water and rock in Earth's shallow subsurface. Freshwater is Earth's most precious and increasingly overexploited resource. Hydrogeology is a key discipline in the effective shepherding of this important reserve. This track establishes a baseline curriculum for hydrogeology at the graduate level. The compact process will identify additional coursework appropriate to the student's prior training and research directions.

Required Courses (6 credits)
Take the following courses:
ESCI 4702 - General Hydrogeology (4.0 cr)
ESCI 5971 - Field Hydrogeology (2.0 cr)

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The modern earth sciences are a remarkable synthesis of the physical and biological sciences. They are at the forefront of inquiry into and solutions of most of the major issues involving the global environment: climate, oceans, freshwater in all its forms, natural resources, and natural disasters. Like no other field, they integrate all the systems, from surface to great depth, from physics to chemistry to biology, and over all of geologic time and all geographic scales. The program includes the fields of structural geology, tectonics, petrology, hydrogeology, geomorphology, sedimentology, surface processes, geochemistry, geobioremediation, geobiology, chemical oceanography, mineralogy, mineral and rock magnetism, rock and mineral physics, geodynamics, seismology, geostatistics, planetary geology, and geophysics and applied geophysics.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Earth Sciences director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Courses must be taken on the A/F grade basis, unless only offered S/N.

The minimum cumulative GPA for the minor is 3.00.

Minor Courses (6 to 12 credits)
Masters students select at least 6 credits, and doctoral students select at least 12 credits from the following, in consultation with the Earth Sciences director of graduate studies. With approval of the Earth Sciences director of graduate studies, other courses may be applied to the minor.

ESCI 4203 - Environmental Geophysics (3.0 cr)
ESCI 4204 - Geomagnetism and Paleomagnetism (3.0 cr)
ESCI 4211 - Solid Earth Geophysics I (3.0 cr)
ESCI 4212 - Solid Earth Geophysics II (3.0 cr)

- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The modern earth sciences are a remarkable synthesis of the physical and biological sciences. They are at the forefront of inquiry into and solutions of most of the major issues involving the global environment: climate, oceans, freshwater in all its forms, natural resources, and natural disasters. Like no other field, they integrate all the systems, from surface to great depth, from physics to chemistry to biology, and over all of geologic time and all geographic scales. The program includes the fields of structural geology, tectonics, petrology, hydrogeology, geomorphology, sedimentology, surface processes, geochemistry, geobiology, chemical oceanography, mineralogy, mineral and rock magnetism, rock and mineral physics, geodynamics, seismology, geostatistics, planetary geology, and geophysics and applied geophysics. Students may accommodate other areas of interest such as engineering geology, environmental geology, materials science, soil science, and paleoecology by choosing a minor or supporting field from outside the program.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Bachelor's degree in geology, geophysics, earth and material sciences, chemistry, physics, biology, or environmental science.

Other requirements to be completed before admission:
At least one year of study each in calculus, chemistry, and physics is required. In general, an outstanding academic record is expected.

Special Application Requirements:
Materials required for a complete application file include the student's statement of purpose, three letters of recommendation, transcripts, official GRE scores, and the Application for Admission. Applications are considered at any time; however, to be considered for financial aid, all materials must be submitted by December 15. Studies may begin in any semester or summer session, although fall semester is preferable.

Applicants must submit their test score(s) from the following:
• GRE

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
• IELTS
  - Total Score: 6.5
• MELAB
Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
12 credits are required in the major.
12 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.0 is required for students to remain in good standing.

At the onset of studies, a coursework "compact" is developed with the student, the advisor, and the graduate studies committee. The compact will be reviewed annually to assure timely progress and revise as needed.

Students must choose one of five tracks: geology, geophysics, biogeology, hydrogeology, or earth sciences. Tracks carry coursework requirements that are part of the student's course compact.

Coursework taken A/F must be completed with an average grade of B or better.

Required Courses (3 credits)
Take ESci 8001 and 1 credit of ESCI 8980, preferably in the first year.
ESCI 8001 - Introductory Graduate Seminar (2.0 cr)
ESCI 8980 - Seminar: Current Topics in Earth Sciences (1.0 - 4.0 cr)

Outside Coursework (12 credits)
Select 12 credits from the following in consultation with the advisor. Other courses may be applied to this requirement with director of graduate studies approval.
ANTH 5403 - Quantitative Methods in Biological Anthropology (4.0 cr)
CEGE 4501 - Hydrologic Design (4.0 cr)
CEGE 4512 - Open Channel Hydraulics (4.0 cr)
CEGE 5541 - Environmental Water Chemistry (3.0 cr)
CEGE 5551 - Environmental Microbiology (3.0 cr)
CEGE 5552 - Environmental Microbiology Laboratory (1.0 cr)
CHEM 4501 - Introduction to Thermodynamics, Kinetics, and Statistical Mechanics (3.0 cr)
CSCI 5304 - Computational Aspects of Matrix Theory (3.0 cr)
CSCI 5521 - Introduction to Machine Learning (3.0 cr)
CSCI 5609 - Visualization (3.0 cr)
FNRM 5114 - Hydrology and Watershed Management (3.0 cr)
FNRM 5131 - Geographical Information Systems (GIS) for Natural Resources (4.0 cr)
FNRM 5262 - Remote Sensing and Geospatial Analysis of Natural Resources and Environment (3.0 cr)
LAAS 5311 - Soil Chemistry and Mineralogy (3.0 cr)
LAAS 5425 - Atmospheric Processes I: Thermodynamics and Dynamics of the Atmosphere (3.0 cr)
LAAS 5426 - Atmospheric Processes II: Radiation, Composition, and Climate (3.0 cr)
LAAS 5515 - Soil Formation: Earth Surface Processes and Biogeochemistry (3.0 cr)
LAAS 5621 - Soil and Environmental Genomics (3.0 cr)
MATH 5485 - Introduction to Numerical Methods I (4.0 cr)
MATH 5486 - Introduction To Numerical Methods II (4.0 cr)
MATS 5517 - Microscopy of Materials (3.0 cr)
MATS 8001 - Structure and Symmetry of Materials (3.0 cr)
MATS 8002 - Thermodynamics and Kinetics (3.0 cr)
MATS 8003 - Electronic Properties (3.0 cr)
STAT 8101 - Theory of Statistics 1 (3.0 cr)
STAT 8102 - Theory of Statistics 2 (3.0 cr)

Elective Courses
Select courses from the following, as needed to complete the minimum number of course credits required.
ESCI 4203 - Environmental Geophysics (3.0 cr)
ESCI 4204 - Geomagnetism and Paleomagnetism (3.0 cr)
ESCI 4211 - Solid Earth Geophysics I (3.0 cr)
ESCI 4212 - Solid Earth Geophysics II (3.0 cr)
ESCI 4401 - Aqueous Environmental Geochemistry (3.0 cr)
ESCI 4402 - Biogeochemical Cycles in the Ocean (3.0 cr)
ESCI 4501 - Structural Geology (3.0 cr)
ESCI 4502 - Tectonic Styles (3.0 cr)
ESCI 4602 - Sedimentology and Stratigraphy (3.0 cr)
ESCI 4701 - Geomorphology (4.0 cr)
ESCI 4702 - General Hydrogeology (4.0 cr)
ESCI 4703 - Glacial Geology (4.0 cr)
ESCI 4801 - Geomicrobiology (3.0 cr)
ESCI 4911 - Advanced Field Geology (4.0 cr)
ESCI 5093 - Directed Studies in Earth Sciences (1.0 - 4.0 cr)
ESCI 5102 - Climate Change and Human History (3.0 cr)
ESCI 5201 - Time-Series Analysis of Geological Phenomena (3.0 cr)
ESCI 5203 - Mineral and Rock Physics (3.0 cr)
ESCI 5204 - Geostatistics and Inverse Theory (3.0 cr)
ESCI 5302 - Isotope Geology (3.0 cr)
ESCI 5351 - Geochemical Modeling of Aqueous Systems (3.0 cr)
ESCI 5353 - Electron Microprobe Theory and Practice (3.0 cr)
ESCI 5402 - Science and Politics of Global Warming (3.0 cr)
ESCI 5403 - Computer Applications in Earth & Environmental Sciences (3.0 cr)
ESCI 5503 - Advanced Petrology (3.0 cr)
ESCI 5705 - Limnogeology and Paleoenvironment (3.0 cr)
ESCI 5805 - Standards and Practices for Professional Geoscientists (3.0 cr)
ESCI 5971 - Field Hydrogeology (2.0 cr)
ESCI 5980 - Seminar: Current Topics in Earth Sciences (1.0 - 4.0 cr)
ESCI 8203 - Environmental Geophysics (3.0 cr)
ESCI 8204 - Geomagnetism and Paleomagnetism (3.0 cr)
ESCI 8243 - Principles of Rock Magnetism (1.0 - 3.0 cr)
ESCI 8352 - Phase Equilibrium in Mineral Systems (3.0 cr)
ESCI 8354 - Igneous Petrology (3.0 cr)
ESCI 8355 - Metamorphic Petrology (3.0 cr)
ESCI 8401 - Aqueous Environmental Geochemistry (3.0 cr)
ESCI 8402 - Biogeochemical Cycles in the Ocean (3.0 cr)
ESCI 8501 - Structural Geology (4.0 cr)
ESCI 8502 - Tectonic Styles (3.0 cr)
ESCI 8511 - Mechanics of Sediment Transport (3.0 cr)
ESCI 8601 - Introduction to Stream Restoration (3.0 cr)
ESCI 8602 - Stream Restoration Practice (2.0 cr)
ESCI 8701 - Geomorphology (4.0 cr)
ESCI 8712 - Transport Phenomena and Analytical Geohydrology (3.0 - 4.0 cr)
ESCI 8718 - Numerical Methods in Hydrogeology (4.0 cr)
ESCI 8801 - Geomicrobiology (3.0 cr)
ESCI 8970 - Seminar: Current Topics in Earth Sciences (1.0 - 4.0 cr)
ESCI 8994 - Research in Earth Sciences (1.0 - 4.0 cr)

Thesis Credits (24 credits)
Complete 24 doctoral credits after passing preliminary oral exam.
ESCI 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.
Biogeology
Biogeology represents a rapidly growing area at the intersection between Earth and the life sciences. It includes research in microbial evolution and biochemistry, microbe/mineral chemical interactions, the role of organisms in basic geological processes, the principles through which organisms or organic compounds can be used to reconstruct surface conditions, biogeochemical cycling, pollution control and remediation, the origin of life on Earth, and astrobiology.

Required Courses (6 credits)
Take the following courses:
ESCI 8402 - Biogeochemical Cycles in the Ocean (3.0 cr)
ESCI 8801 - Geomicrobiology (3.0 cr)

Earth Sciences
This generalist track exists for students whose curriculum and/or dissertation do not fit any of the other four tracks. A curriculum specific to the student will be set through the compact process.

Required Courses (6 credits)
Select 6 credits from the following:
ESCI 4xxx
ESCI 5xxx
ESCI 8xxx

Geology
Geology uses field observation, laboratory work, analog and computer modeling, chemical and biological probes and assays to understand Earth's coupled rock, water and biological systems, the underlying processes, and their history of interaction as evidenced in the rock record.

Required Courses (6 credits)
Select 6 credits from the following:
ESCI 5302 - Isotope Geology (3.0 cr)
ESCI 5351 - Geochemical Modeling of Aqueous Systems (3.0 cr)
ESCI 5353 - Electron Microprobe Theory and Practice (3.0 cr)
ESCI 5503 - Advanced Petrology (3.0 cr)
ESCI 5705 - Limnogeology and Paleoenvironment (3.0 cr)

Geophysics
Geophysics uses remote sensing probes (seismic waves, potential fields, etc.), laboratory simulation of deep Earth conditions and computer modeling of fluid and continuum mechanical dynamics to investigate the structure, composition, history and dynamics of solid Earth and other planets.

Required Courses (6 credits)
Take the following course:
ESCI 4211 - Solid Earth Geophysics I (3.0 cr)
Select 3 credits from the following:
ESCI 4212 - Solid Earth Geophysics II (3.0 cr)
ESCI 5201 - Time-Series Analysis of Geological Phenomena (3.0 cr)
ESCI 5203 - Mineral and Rock Physics (3.0 cr)
ESCI 5204 - Geostatistics and Inverse Theory (3.0 cr)
ESCI 8203 - Environmental Geophysics (3.0 cr)
ESCI 8204 - Geomagnetism and Paleomagnetism (3.0 cr)

Hydrogeology
Hydrogeology uses direct observation and remote sensing, computer modeling and laboratory simulation to constrain the interaction of water and rock in Earth's shallow subsurface. Freshwater is Earth's most precious and increasingly overexploited resource. Hydrogeology is a key discipline in the effective shepherding of this important reserve. This track establishes a baseline curriculum for hydrogeology at the graduate level. The compact process will identify additional coursework appropriate to the student's prior training and research directions.

Required Courses (6 credits)
Take the following courses:
ESCI 4702 - General Hydrogeology (4.0 cr)
ESCI 5971 - Field Hydrogeology (2.0 cr)
Twin Cities Campus
Electrical and Computer Engineering MS.E.C.E.

Director of Graduate Studies, Department of Electrical and Computer Engineering, University of Minnesota, 3-166 Keller Hall, 200 Union Street SE, Minneapolis, MN 55455 (612-625-3564; fax: 612-625-4583)
Email: newgrad@umn.edu
Website: http://www.ece.umn.edu

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Department of Electrical and Computer Engineering offers diverse educational programs that encompass nearly all aspects of modern electrical and computer engineering, ranging from the very theoretical system and information theory to highly experimental work in novel device research and microelectronics. Emphases in the major are solid state and physical electronics, surface physics, thin films, sputtering, noise and fluctuation phenomena, quantum electronics, plasma physics, automation, power systems and power electronics theory, wave propagation, communication systems and theory, optics, lasers, fiber optics, magnetism, semiconductor properties and devices, VLSI and WSI engineering in theory and practice, network theory, signal and image processing, and computer and systems engineering. Interdisciplinary work is also available in bioelectrical sciences, control sciences, computer sciences, solar energy, applications of systems theory to urban transportation and economic planning, and biological modeling.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.40.

Other requirements to be completed before admission:
Consideration is given to students who have completed another curriculum in engineering, science, physics, or mathematics that includes sufficient preparation to pursue a graduate program in electrical and computer engineering. In some instances, additional preparatory studies may be required after admission.

Eligibility requirements for the integrated BS/MS program:
University of Minnesota undergraduates can apply to the 5-year integrated BEE/MSECE and BCompE/MSECE degree program after they have completed a majority of their upper division required (non elective) courses for their BEE or BCompE degree.

Special Application Requirements:
All documents must be submitted electronically. No documents should be mailed to the department or the Graduate Admissions Office.

Every applicant must submit the General Test of the GRE (except University of Minnesota bachelor of electrical engineering or bachelor of computer engineering graduates who have a GPA of 3.40 or better). The GRE Subject Test is not required for admission.

Applications for admission are considered for fall admission only and the deadline for applying is December 1. Applications can be submitted after the deadline and will be considered if there is space in the program.

Minnesota residents who are employed full-time who want to obtain a degree as a part-time student may apply for spring admission.
Applicants must submit their test score(s) from the following:

- GRE

International applicants must submit score(s) from one of the following tests:

- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5
- MELAB
  - Final score: 80

Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan A: Plan A requires 14 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is oral.

Plan C: Plan C requires 18 to 24 major credits and 6 to 12 credits outside the major. There is no final exam. A capstone project is required.

Capstone Project: The Plan C project requirement can be satisfied by taking EE 8965 (3 credits) or through completion of specific major field courses. Adviser approval is required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.0 is required for students to remain in good standing.

Non-EE coursework that is cross-listed with Electrical Engineering counts only toward major field requirements.

Only the 4xxx-level courses listed below may be used towards degree requirements. Up to 6 of the 9 credits at the 4xxx-level allowed by University policy can be from EE courses. Refer to the ECE graduate handbook for further information.

Courses offered on both the A/F and S/N grade basis must be taken A/F, with the exception of EE 5041 and EE 8925. The minimum grade earned is C.

Part-time students must choose the Plan C option; full-time students may choose either Plan A or Plan C.

Major Field Coursework (14 to 24 credits)

In consultation with adviser, Plan A students select 14 credits from the following and Plan C students select 18 to 24 credits. All major field coursework for Plan C students must be 5xxx or 8xxx level.

- EE 4111 - Advanced Analog Electronics Design (4.0 cr)
- EE 4161W - Energy Conversion and Storage [WI] (3.0 cr)

EE 8850 - Advanced Topics in Electrical and Computer Engineering (1.0 - 3.0 cr)

Additional Course Options (0 to 2 credits)
Plan A students can select coursework from the following to meet the major field credit requirement. Plan C students must first satisfy minimum major and outside credit requirements before including any coursework from this list. MOT 4001 is restricted to Plan C students.
EE 5041 - Industrial Assignment for Graduate Students (1.0 cr)
EE 8190 - Electronics Seminar (1.0 cr)
EE 8210 - System Theory Seminar (1.0 cr)
EE 8230 - Control Theory Seminar (1.0 cr)
EE 8360 - Computer Systems Seminar (1.0 cr)
EE 8370 - Computer Aided Design Seminar (1.0 cr)
EE 8500 - Seminar: Communications (1.0 cr)
EE 8610 - Seminar: Electronics, Fields, and Photonics (1.0 cr)
EE 8660 - Seminar: Magnetics (1.0 cr)
EE 8920 - Teaching Experience in Electrical and Computer Engineering (1.0 cr)
EE 8925 - Ethics in Electrical and Computer Engineering (1.0 cr)
MOT 4001 - Leadership, Professionalism and Business Basics for Engineers (2.0 cr)
EE 8940 - Special Investigations (1.0 - 3.0 cr)

Outside Field Coursework (6 to 12 credits)
Plan A students select 6 credits from the following to complete the 20 course credits required, and Plan C students select 6 to 12 credits to meet the 30-credit minimum. Only the 4xxx and 5xxx courses listed below will count toward the non-EE credit requirement. Additional 8xxx level courses may be approved by the director of graduate studies.
AEM 4203 - Aerospace Propulsion (4.0 cr)
AEM 4290 - Special Topics in Fluid Mechanics (1.0 - 3.0 cr)
AEM 4301 - Orbital Mechanics (3.0 cr)
AEM 4303W - Flight Dynamics and Control [WI] (3.0 cr)
AEM 4305 - Spacecraft Attitude Dynamics and Control (3.0 cr)
AEM 4331 - Aerospace Vehicle Design (4.0 cr)
AEM 4333 - Aerospace Design: Special Projects (3.0 cr)
AEM 4490 - Special Topics in Aerospace Systems (1.0 - 3.0 cr)
AEM 4501 - Aerospace Structures (3.0 cr)
AEM 4502 - Computational Structural Analysis (3.0 cr)
AEM 4511 - Mechanics of Composite Materials (3.0 cr)
AEM 4581 - Mechanics of Solids (3.0 cr)
AEM 4590 - Special Topics in Solid Mechanics and Materials (1.0 - 3.0 cr)
AEM 4601 - Instrumentation Laboratory (3.0 cr)
AEM 4602W - Aeromechanics Laboratory [WI] (4.0 cr)
AEM 5247 - Hypersonic Aerodynamics (3.0 cr)
AEM 5253 - Computational Fluid Mechanics (3.0 cr)
AEM 5333 - Design-to-Flight: Small Uninhabited Aerial Vehicles (3.0 cr)
AEM 5401 - Intermediate Dynamics (3.0 cr)
AEM 5501 - Continuum Mechanics (3.0 cr)
AEM 5503 - Theory of Elasticity (3.0 cr)
AEM 5581 - Mechanics of Solids (3.0 cr)
AEM 5651 - Aeroelasticity (3.0 cr)
BBE 5023 - Process Control and Instrumentation (3.0 cr)
BBE 5333 - Off-road Vehicle Design (4.0 cr)
SSM 5413 - A Systems Approach to Residential Construction (4.0 cr)
SSM 5416 - Building Testing & Diagnostics (2.0 cr)
BBE 5733 - Renewable Energy Technologies (3.0 cr)
BIOC 5361 - Microbial Genomics and Bioinformatics (3.0 cr)
BIOC 5527 - Introduction to Modern Structural Biology (4.0 cr)
BIOC 5528 - Spectroscopy and Kinetics (4.0 cr)
BIOL 4003 - Genetics (3.0 cr)
BIOL 4004 - Cell Biology (3.0 cr)
PMB 4121 - Microbial Ecology and Applied Microbiology (3.0 cr)
BIOL 4850 - Special Topics in Biology (1.0 - 5.0 cr)
BIOL 5272 - Applied Biostatistics (4.0 cr)
BMEN 5001 - Advanced Biomaterials (3.0 cr)
BMEN 5041 - Tissue Engineering (3.0 cr)
BMEN 5101 - Advanced Bioelectricity and Instrumentation (3.0 cr)
BMEN 5111 - Biomedical Ultrasound (3.0 cr)
BMEN 5151 - Introduction to BioMEMS and Medical Microdevices (2.0 cr)
BMEN 5201 - Advanced Biomechanics (3.0 cr)
BMEN 5321 - Microfluidics in Biology and Medicine (3.0 cr)
BMEN 5351 - Cell Engineering (3.0 cr)
BMEN 5401 - Advanced Biomedical Imaging (3.0 cr)
BMEN 5411 - Neural Engineering (3.0 cr)
BMEN 5412 - Neuromodulation (3.0 cr)
BMEN 5413 - Neural Decoding and Interfacing (3.0 cr)
BMEN 5421 - Introduction to Biomedical Optics (3.0 cr)
BMEN 5501 - Biology for Biomedical Engineers (3.0 cr)
BMEN 5701 - Cancer Bioengineering (3.0 cr)
CEGE 5211 - Traffic Engineering (3.0 cr)
CEGE 5411 - Applied Structural Mechanics (3.0 cr)
CHEM 4001 - Chemistry of Biomass and Biomass Conversion to Fuels and Products [ENV] (4.0 cr)
CHEM 4011 - Mechanisms of Chemical Reactions (3.0 cr)
CHEM 4021 - Computational Chemistry (3.0 cr)
CHEM 4066 - Chemistry of Industry (3.0 cr)
CHEM 4101 - Modern Instrumental Methods of Chemical Analysis (3.0 cr)
CHEM 4111W - Modern Instrumental Methods of Chemical Analysis Lab [WI] (2.0 cr)
CHEM 4201 - Materials Chemistry (3.0 cr)
CHEM 4214 - Polymers (3.0 cr)
CHEM 4221 - Introduction to Polymer Chemistry (3.0 cr)
CHEM 4223W - Polymer Laboratory [WI] (2.0 cr)
CHEM 4301 - Applied Surface and Colloid Science (3.0 cr)
CHEM 4311W - Advanced Organic Chemistry Lab [WI] (4.0 cr)
CHEM 4321 - Organic Synthesis (3.0 cr)
CHEM 4322 - Advanced Organic Chemistry (3.0 cr)
CHEM 4352 - Physical Organic Chemistry (3.0 cr)
CHEM 4361 - Interpretation of Organic Spectra (3.0 cr)
CHEM 4411 - Introduction to Chemical Biology (3.0 cr)
CHEM 4412 - Chemical Biology of Enzymes (3.0 cr)
CHEM 4501 - Introduction to Thermodynamics, Kinetics, and Statistical Mechanics (3.0 cr)
CHEM 4502 - Introduction to Quantum Mechanics and Spectroscopy (3.0 cr)
CHEM 4511W - Advanced Physical Chemistry Lab [WI] (3.0 cr)
CHEM 4601 - Green Chemistry [ENV] (3.0 cr)
CHEM 4701 - Inorganic Chemistry (3.0 cr)
CHEM 4711W - Advanced Inorganic Chemistry Lab [WI] (3.0 cr)
CHEM 4715 - Physical Inorganic Chemistry (3.0 cr)
CHEM 4725 - Organometallic Chemistry (3.0 cr)
CHEM 4735 - Bioinorganic Chemistry (3.0 cr)
CHEM 4745 - Advanced Inorganic Chemistry (3.0 cr)
CHEM 5755 - X-Ray Crystallography (4.0 cr)
CHEN 4214 - Polymers (3.0 cr)
CHEM 4401W - Senior Chemical Engineering Lab [WI] (4.0 cr)

Plan Options

Plan A (10 credits)
Complete 10 thesis credits.
EE 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

-OR-

Plan C (0-3 credits)
Plan C students can complete the Plan C project through completion of specific major field courses, or by taking EE 8965. Advisor approval is required.
EE 8965 - Plan C Project I (3.0 cr)

Program Sub-plans
A sub-plan is not required for this program.
Students may not complete the program with more than one sub-plan.

Rochester
The University of Minnesota Rochester (UMR) offers the Master of Science in Electrical and Computer Engineering degree. Students may complete all degree requirements in Rochester by combining courses taught by College of Science and Engineering faculty in person (face-to-face), or via streaming video using the UNITE (University-Industry Television for Education) instructional television system. UNITE enables students to watch class live via the internet or pick up class on a special server at a later time.

Integrated B.E.E./M.S.E.C.E.
The Department of Electrical and Computer Engineering offers an integrated bachelor of electrical engineering (BEE) and master of science in electrical and computer engineering (MSECE). The integrated BEE/MSECE program offers students the opportunity to earn both degrees in five years. The programs were established to allow high-achieving University undergraduates the opportunity to work toward a masters degree while simultaneously working toward their undergraduate degree. The combined program offers several advantages: flexibility in fulfilling required courses for both degrees during the senior year; eligibility for graduate assistantships and fellowships; and the ability to save money by completing up to 16 graduate credits at the undergraduate tuition rate.
Both the BEE and MSECE degrees must be completed in their entirety, with no courses shared between them. The graduate degree cannot be earned before the undergraduate requirements are satisfied.

Integrated B.Comp.E./MS.E.C.E.
The Department of Electrical and Computer Engineering offers an integrated bachelor of computer engineering (B.Comp.E.) and master of science in electrical and computer engineering (MSECE). Benefits, eligibility requirements, and degree-completion requirements outlined for the BEE/MSECE integrated program also apply to the B.Comp.E./MSECE.

Contact Information:
Director of Graduate Studies, Department of Electrical and Computer Engineering, University of Minnesota, 3-166 Keller Hall, 200 Union Street SE, Minneapolis, MN 55455 (612-625-3564; fax: 612-625-4583)
Email: jager001@umn.edu
Website: http://www.ece.umn.edu

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Department of Electrical and Computer Engineering offers diverse educational programs that encompass nearly all aspects of modern electrical and computer engineering, ranging from the very theoretical system and information theory, to highly experimental work in novel device research and microelectronics. Emphases in the major are solid state and physical electronics, surface physics, thin films, sputtering, noise and fluctuation phenomena, quantum electronics, plasma physics, automation, power systems and power electronics theory, wave propagation, communication systems and theory, optics, lasers, fiber optics, magnetism, semiconductor properties and devices, VLSI and WSI engineering in theory and practice, network theory, signal and image processing, and computer and systems engineering. Interdisciplinary work is also available in bioelectrical sciences, control sciences, computer sciences, solar energy, applications of systems theory to urban transportation and economic planning, and biological modeling.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Electrical Engineering director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Courses must be taken on the A/F grade basis with a minimum grade of B- earned for each course.

The minimum cumulative GPA for the minor is 3.00.

Minor Coursework (6-12 credits)
Master's students select a minimum of 6 credits, and doctoral students select a minimum of 12 credits from the following in consultation with the Electrical Engineering director of graduate studies:
EE 5121 - Transistor Device Modeling for Circuit Simulation (3.0 cr)
EE 5141 - Introduction to Microsystem Technology (4.0 cr)
EE 5163 - Semiconductor Properties and Devices I (3.0 cr)
EE 5164 - Semiconductor Properties and Devices II (3.0 cr)
EE 5171 - Microelectronic Fabrication (4.0 cr)
EE 5173 - Basic Microelectronics Laboratory (1.0 cr)
EE 5181 - Micro and Nanotechnology by Self Assembly (3.0 cr)
EE 5231 - Linear Systems and Optimal Control (3.0 cr)
EE 5235 - Robust Control System Design (3.0 cr)
EE 5239 - Introduction to Nonlinear Optimization (3.0 cr)
EE 5251 - Optimal Filtering and Estimation (3.0 cr)
EE 5301 - VLSI Design Automation I (3.0 cr)
EE 5302 - VLSI Design Automation II (3.0 cr)
EE 5323 - VLSI Design I (3.0 cr)
EE 5324 - VLSI Design II (3.0 cr)
EE 5327 - VLSI Design Laboratory (3.0 cr)
EE 5329 - VLSI Digital Signal Processing Systems (3.0 cr)
EE 5333 - Analog Integrated Circuit Design (3.0 cr)
EE 5351 - Applied Parallel Programming (3.0 cr)
EE 5364 - Advanced Computer Architecture (3.0 cr)
EE 5371 - Computer Systems Performance Measurement and Evaluation (3.0 cr)
EE 5381 - Telecommunications Networks (3.0 cr)
EE 5391 - Computing With Neural Networks (3.0 cr)
EE 5393 - Circuits, Computation, and Biology (3.0 cr)
EE 5501 - Digital Communication (3.0 cr)
EE 5505 - Wireless Communication (3.0 cr)
EE 5531 - Probability and Stochastic Processes (3.0 cr)
EE 5542 - Adaptive Digital Signal Processing (3.0 cr)
EE 5545 - Digital Signal Processing Design (3.0 cr)
EE 5549 - Digital Signal Processing Structures for VLSI (3.0 cr)
EE 5551 - Multiscale and Multirate Signal Processing (3.0 cr)
EE 5561 - Image Processing and Applications (3.0 cr)
EE 5581 - Information Theory and Coding (3.0 cr)
EE 5583 - Error Control Coding (3.0 cr)
EE 5585 - Data Compression (3.0 cr)
EE 5601 - Introduction to RF/Microwave Engineering (3.0 cr)
EE 5602 - RF/Microwave Circuit Design (3.0 cr)
EE 5611 - Plasma-Aided Manufacturing (4.0 cr)
EE 5613 - RF/Microwave Circuit Design Laboratory (2.0 cr)
EE 5616 - Antenna Theory and Design (3.0 cr)
EE 5621 - Physical Optics (3.0 cr)
EE 5622 - Physical Optics Laboratory (1.0 cr)
EE 5624 - Optical Electronics (4.0 cr)
EE 5627 - Optical Fiber Communication (3.0 cr)
EE 5628 - Fiber Optics Laboratory (1.0 cr)
EE 5629 - Optical System Design (2.0 cr)
EE 5653 - Physical Principles of Magnetic Materials (3.0 cr)
EE 5655 - Magnetic Recording (3.0 cr)
EE 5657 - Physical Principles of Thin Film Technology (4.0 cr)
EE 5705 - Electric Drives in Sustainable Energy Systems (3.0 cr)
EE 5707 - Electric Drives in Sustainable Energy Systems Laboratory (1.0 cr)
EE 5721 - Power Generation Operation and Control (3.0 cr)
EE 5725 - Power Systems Engineering (3.0 cr)
EE 5741 - Advanced Power Electronics (3.0 cr)
EE 5745 - Wind Energy Essentials (2.0 cr)
EE 8141 - Advanced Heterojunction Transistors (3.0 cr)
EE 8161 - Physics of Semiconductors (3.0 cr)
EE 8163 - Quantum Electronics (3.0 cr)
EE 8213 - Advanced System Theory (3.0 cr)
EE 8215 - Nonlinear Systems (3.0 cr)
EE 8231 - Optimization Theory (3.0 cr)
EE 8331 - CMOS Data Converters: A/D and D/A (3.0 cr)
EE 8337 - Analog Circuits for Wire/Wireless Communications (3.0 cr)
EE 8367 - Parallel Computer Organization (3.0 cr)
EE 8581 - Detection and Estimation Theory (3.0 cr)
EE 8591 - Predictive Learning from Data (3.0 cr)
EE 8601 - Advanced Electromagnetic Theory (3.0 cr)
EE 8611 - Plasma Physics (3.0 cr)
EE 8725 - Advanced Power System Analysis and Economics (3.0 cr)
EE 8741 - Power Electronics in Power Systems (3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Twin Cities Campus
Electrical Engineering Ph.D.
Electrical and Computer Engineering
College of Science and Engineering

Link to a list of faculty for this program.

Contact Information:
Director of Graduate Studies, Department of Electrical and Computer Engineering, University of Minnesota, 3-166 Keller Hall, 200
Union Street SE, Minneapolis, MN 55455 (612-625-3564; fax: 612-625-4583)
Email: newgrad@umn.edu
Website: http://www.ece.umn.edu

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 64
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for
requirements that apply to all major fields.

The Department of Electrical and Computer Engineering offers diverse educational programs that encompass nearly all aspects of
modern electrical and computer engineering, ranging from the very theoretical system and information theory to highly experimental
work in novel device research and microelectronics. Emphases in the major are solid state and physical electronics, surface physics,
thin films, sputtering, noise and fluctuation phenomena, quantum electronics, plasma physics, automation, power systems and power
electronics theory, wave propagation, communication systems and theory, optics, lasers, fiber optics, magnetism, semiconductor
properties and devices, VLSI and WSI engineering in theory and practice, network theory, signal and image processing, and computer
and systems engineering. Interdisciplinary work is also available in bioelectrical sciences, control sciences, computer sciences, solar
energy, applications of systems theory to urban transportation and economic planning, and biological modeling.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.40.

Other requirements to be completed before admission:
All documents must be submitted electronically. No documents should be mailed to the department or the Graduate Admissions Office.

Applicants to the doctoral program must submit a writing sample with their online application. The writing sample should consist of a
minimum of one, to a maximum of three, class papers or publications.

Every applicant, except University of Minnesota bachelor of electrical engineering graduates who have a GPA of 3.40 or better, must
submit the General Test of the GRE. The GRE Subject Test is not required for admission.

Special Application Requirements:
Students are considered for admission beginning fall semester only (except for part-time students living in Minnesota who work in
industry who may apply for other terms). The deadline for applying for fall semester is December 1.

Applicants must submit their test score(s) from the following:
- GRE

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
• IELTS
  - Total Score: 6.5
• MELAB
  - Final score: 80

Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
14 to 28 credits are required in the major.
12 to 26 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.30 is required for students to remain in good standing.

Non-EE coursework that is cross-listed with Electrical Engineering counts only toward major field requirements.

A minimum of 6 course credits at the 8xxx-level is required.

Courses can be from the major or outside field; but seminars, directed study, and special investigations may not be used to satisfy this requirement.

Only the 4xxx-level courses listed below may be used towards degree requirements. Up to 6 of the 9 credits at the 4xxx-level allowed by University policy can be from EE courses. Refer to the ECE graduate handbook for further information.

Courses offered on both the A/F and S/N grading basis must be taken A/F, with a minimum grade of C earned for each course.

Coursework
Major Coursework (14 credits)
Select 14 credits from the following in consultation with the advisor:

EE 5121 - Transistor Device Modeling for Circuit Simulation (3.0 cr)
EE 5141 - Introduction to Microsystem Technology (4.0 cr)
EE 5163 - Semiconductor Properties and Devices I (3.0 cr)
EE 5164 - Semiconductor Properties and Devices II (3.0 cr)
EE 5171 - Microelectronic Fabrication (4.0 cr)
EE 5173 - Basic Microelectronics Laboratory (1.0 cr)
EE 5181 - Micro and Nanotechnology by Self Assembly (3.0 cr)
EE 5231 - Linear Systems and Optimal Control (3.0 cr)
EE 5251 - Robust Control System Design (3.0 cr)
EE 5239 - Introduction to Nonlinear Optimization (3.0 cr)
EE 5501 - Digital Communication (3.0 cr)
EE 5505 - Wireless Communication (3.0 cr)

**Electives**

Select courses from the following, as needed to complete the minimum number of course credits required, in consultation with the advisor. A maximum of 2 credits of the following EE courses may be selected: 5041, 8190, 8210, 8230, 8360, 8370, 8500, 8610, 8660, 8920, 8925, and 8940.

EE 4111 - Advanced Analog Electronics Design (4.0 cr)
EE 4161W - Energy Conversion and Storage [WI] (3.0 cr)
EE 4163 - Energy Conversion and Storage Laboratory (1.0 cr)
EE 4231 - Linear Control Systems: Designed by Input/Output Methods (3.0 cr)
EE 4233 - State Space Control System Design (3.0 cr)
EE 4235 - Linear Control Systems Laboratory (1.0 cr)
EE 4237 - State Space Control Laboratory (1.0 cr)
EE 4301 - Digital Design With Programmable Logic (4.0 cr)
EE 4303 - Introduction to Programmable Devices Laboratory (1.0 cr)
EE 4341 - Embedded System Design (4.0 cr)
EE 4363 - Computer Architecture and Machine Organization (4.0 cr)
EE 4389W - Introduction to Predictive Learning [WI] (3.0 cr)
EE 4501 - Communications Systems (3.0 cr)
EE 4505 - Communications Systems Laboratory (1.0 cr)
EE 4541 - Digital Signal Processing (3.0 cr)
EE 4607 - Wireless Hardware System Design (3.0 cr)
EE 4701 - Electric Drives (3.0 cr)
EE 4703 - Electric Drives Laboratory (1.0 cr)
EE 4721 - Introduction to Power System Analysis (3.0 cr)
EE 4722 - Power System Analysis Laboratory (1.0 cr)
EE 4741 - Power Electronics (3.0 cr)
EE 4743 - Switch-Mode Power Electronics Laboratory (1.0 cr)
EE 5041 - Industrial Assignment for Graduate Students (1.0 cr)
EE 8190 - Electronics Seminar (1.0 cr)
EE 8210 - System Theory Seminar (1.0 cr)
EE 8230 - Control Theory Seminar (1.0 cr)
EE 8360 - Computer Systems Seminar (1.0 cr)
EE 8370 - Computer Aided Design Seminar (1.0 cr)
EE 8500 - Seminar: Communications (1.0 cr)
EE 8610 - Seminar: Electronics, Fields, and Photonics (1.0 cr)
EE 8660 - Seminar: Magnetics (1.0 cr)
EE 8920 - Teaching Experience in Electrical and Computer Engineering (1.0 cr)
EE 8925 - Ethics in Electrical and Computer Engineering (1.0 cr)
EE 8940 - Special Investigations (1.0 - 3.0 cr)

**Thesis Credits**

Complete 24 thesis credits after passing preliminary oral exam.

EE 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)
Twin Cities Campus
Financial Mathematics M.F.M.
School of Mathematics
College of Science and Engineering

Contact Information:
Program in Financial Mathematics, 127 Vincent Hall, 206 Church Street SE, Minneapolis, MN 55455 (612-624-6391; fax: 612-624-6702)
Email: mfmath@umn.edu
Website: http://www.math.umn.edu/finmath/

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 32
- This program does not require summer semesters for timely completion.
- Degree: Master of Financial Mathematics

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The master of financial mathematics degree program helps students understand the underlying mathematics of quantitative finance. The program offers a range of courses, from theoretical to practical, including a mathematical course on stochastic processes, a practitioner's course offering hands-on application of financial software tools, and a programming course focusing on C# and MATLAB.

Courses are offered in the evenings to accommodate working professionals. The program is designed with the possibility for full-time students to complete all requirements in one year.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A bachelor's degree from an accredited US university or foreign equivalent.

Other requirements to be completed before admission:
Applicants should have completed college level courses in single variable and multivariable calculus and linear algebra. Background in probability and familiarity with programming language are highly recommended.

Students who do not have a strong mathematics background or who need a refresher may be asked to take FM 5001/5002 - Preparation for Financial Mathematics.

Special Application Requirements:
Applications are accepted for fall semester only. The application deadline is February 1.

Applicants must submit their test score(s) from the following:
- GRE

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19

Key to test abbreviations (GRE, TOEFL).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements

Plan C: Plan C requires 32 major credits and up to null credits outside the major. There is no final exam.

This program may be completed with a minor.

Use of 4xx courses towards program requirements is not permitted.

A minimum GPA of 2.80 is required for students to remain in good standing.

Courses must be taken on the A/F grade basis, unless only offered S/N, with a minimum grade of B earned for each course.

Required Courses (32 credits)

Students complete all 4 course sequences for a total of 32 credits. These sequences may be taken either in parallel or sequentially, following their numerical order, with the exception of FM 5091/5092, which is recommended to be taken as early as possible.

FM 5011 - Mathematical Background for Finance I (4.0 cr)
FM 5012 - Mathematical Background for Finance II (4.0 cr)
FM 5021 - Mathematical Theory Applied to Finance I (4.0 cr)
FM 5022 - Mathematical Theory Applied to Finance II (4.0 cr)
FM 5031 - A Practitioner's Course in Finance I (4.0 cr)
FM 5032 - A Practitioner's Course in Finance II (4.0 cr)
FM 5091 - Computation, Algorithms, and Coding in Finance I (4.0 cr)
FM 5092 - Computation, Algorithms, and Coding in Finance II (4.0 cr)

Optional Course (0-2 credits)

Students may take the optional FM 5990 topics course.

FM 5990 - Topics in Financial Mathematics (1.0 - 2.0 cr)
Twin Cities Campus

Fundamentals of Quantitative Finance Postbaccalaureate Certificate

School of Mathematics  
College of Science and Engineering

Link to a list of faculty for this program.

Contact Information:
Director of Graduate Studies, School of Mathematics, University of Minnesota, 127 Vincent Hall, 206 Church Street S.E., Minneapolis, MN 55455 (612-624-6391; fax: 612-624-6702) 
Email: mfmath@umn.edu  
Website: http://www.math.umn.edu/finmath/

- Program Type: Post-baccalaureate credit certificate/licensure/endorsement
- Requirements for this program are current for Fall 2020
- Length of program in credits: 14
- This program does not require summer semesters for timely completion.
- Degree: Fundamentals of Quantitative Finance PBacc Cert

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The 14-credit Fundamentals of Quantitative Finance (FQF) certificate is good preparation for the Financial Mathematics master's (MFM) program.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.
A bachelor's degree from an accredited US university or foreign equivalent.

Other requirements to be completed before admission:
Applicants should have a good background in mathematics, but not necessarily at the level of a mathematics major. In particular, all applicants must have taken at least three semesters of college calculus, covering two semesters of single variable calculus and an additional semester of either multivariable calculus or linear algebra.

Special Application Requirements:
Applications are accepted for fall semester only. The application deadline is May 15.

International applicants must submit score(s) from one of the following tests:
• TOEFL  
  - Internet Based - Total Score: 79  
  - Internet Based - Writing Score: 21  
  - Internet Based - Reading Score: 19

Key to test abbreviations (TOEFL).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.80 is required for students to remain in good standing.

Courses must be taken on the A/F grade basis, unless only offered S/N, with a minimum grade of B earned for each course.
Required Courses (14 credits)
Students must complete all four courses for a total of 14 credits.
**FM 5001** - Preparation for Financial Mathematics I (3.0 cr)
**FM 5002** - Preparation for Financial Mathematics II (3.0 cr)
**FM 5091** - Computation, Algorithms, and Coding in Finance I (4.0 cr)
**FM 5092** - Computation, Algorithms, and Coding in Finance II (4.0 cr)
Twin Cities Campus

Geoengineering M.GeoE.
CSENG Civil, Envrn & Geo-Eng (CEGE)

College of Science and Engineering

Link to a list of faculty for this program.

Contact Information:
Department of Civil, Environmental, and Geo-Engineering, University of Minnesota, 122 Civil Engineering Building, 500 Pillsbury Drive S.E., Minneapolis, MN 55455 (612-625-5522; fax: 612-626-7750)
Email: cegeseps@umn.edu
Website: http://www.cege.umn.edu

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Geoengineering

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Emphases are in fundamental aspects of geomechanics and its applications. Research focuses on the use and development of discrete and continuum theories such as elasticity, plasticity, fracture mechanics, and poroelasticity for solving engineering problems. Numerical methods are being developed for obtaining solutions; experimental methods and novel apparatus are being developed for gathering physical evidence. Applications include processes of comminution, flow of granular materials, hydraulic fracturing, and nondestructive testing.

The master of geoengineering (M.GeoE.) degree is for the practicing engineer who would like to obtain an advanced degree enrolling part-time or full-time. Students who intend to proceed to the PhD program, or who think they may later wish to be admitted to the PhD program, should apply for the master of science program. Students are expected to follow a coherent program of coursework selected with the help of a faculty advisor and approved by the director of graduate studies. Students also must demonstrate professional competence by carrying out and defending a design project or by taking a coursework-related final oral exam (without a project).

The degree typically takes 2-3 semesters (12-18 months) to complete on a full-time basis or 6-8 semesters on a part-time basis. Students interested in pursuing doctoral studies should see the PhD program in civil engineering.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

An ABET-accredited, four-year bachelor's degree in engineering is required for admission.

Other requirements to be completed before admission:
The application deadlines are December 3 for fall admission and August 31 for spring admission. All materials must be submitted to the online application.

Applicants must submit their test score(s) from the following:
- GRE

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5
- MELAB

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of September 04, 2020
Program Requirements

Plan A: Plan A requires 20 major credits, up to null credits outside the major, and 10 thesis credits. The final exam is oral.

Plan C: Plan C requires 30 major credits and up to null credits outside the major. There is no final exam.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

Courses must be taken on the A/F grade basis, unless only offered S/N.

The M.GeoE. is offered under two plans. Plan A requires preparation of a thesis/design project. The thesis/design project must be carried out by the student in consultation with a faculty advisor. Plan C is a coursework-only degree program.

Core Courses (12-30 credits)
Select a minimum of 12 credits from the following in consultation with the advisor. One credit of CEGE 8300 seminar may be applied to this requirement.

**Electives (0-18 credits)**

Select courses from the following, in consultation with the advisor, to complete minimum course credit requirements. Other courses may be selected with director of graduate studies approval.

- **AEM 4511** - Mechanics of Composite Materials (3.0 cr)
- **AEM 5501** - Continuum Mechanics (3.0 cr)
- **AEM 5503** - Theory of Elasticity (3.0 cr)
- **AEM 8211** - Theory of Turbulence I (3.0 cr)
- **AEM 8525** - Elastic Stability of Materials (3.0 cr)

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of September 04, 2020
Plan Options

Plan A (10 credits)
Complete 10 thesis credits for the design project.
CEGE 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

-OR-

Plan C
Plan C requires completion of 100 hours of project work and an oral presentation of no less than 10 minutes. Plan C coursework must include a minimum of two 8xxx-level courses.
Twin Cities Campus
Geoengineering M.S.

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Emphases are in fundamental aspects of geomechanics and its applications. Research focuses on the use and development of discrete and continuum theories such as elasticity, plasticity, fracture mechanics, and poroelasticity for solving engineering problems. Numerical methods are being developed for obtaining solutions; experimental methods and novel apparatus are being developed for gathering physical evidence. Applications include processes of communication, flow of granular materials, hydraulic fracturing, and nondestructive testing.

The master of science (MS) degree balances education in engineering fundamentals and design with research and development. It is designed for students wishing to pursue a career in industry or to continue toward a PhD.

Students interested in pursuing doctoral studies should see the PhD program in civil engineering.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A bachelor's degree in engineering, basic science, or mathematics is preferred.

Other requirements to be completed before admission:
Admission depends primarily on the applicant's academic record and letters of recommendation. Applicants who lack geoengineering training are often required to complete at least one appropriate course from the undergraduate program. Graduate degree credit is not awarded for such preparatory work.

Eligibility requirements for integrated BS/MS program:
Application is open to geoengineering undergraduates who:
- Are within 32 credits of completing the requirements for the bachelors degree;
- Have a faculty advisor selected prior to admission; and
- Hold a cumulative GPA of 3.3 or higher.

Special Application Requirements:
The application deadlines are December 3 for fall admission and August 31 for spring admission. All materials must be submitted to the online application.
Applicants must submit their test score(s) from the following:
  • GRE

International applicants must submit score(s) from one of the following tests:
  • TOEFL
    - Internet Based - Total Score: 79
    - Internet Based - Writing Score: 21
    - Internet Based - Reading Score: 19
  • IELTS
    - Total Score: 6.5
  • MELAB
    - Final score: 80

Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan A: Plan A requires 20 major credits, up to null credits outside the major, and 10 thesis credits. The final exam is oral.

Plan B: Plan B requires 30 major credits and up to null credits outside the major. The final exam is oral.

Plan C: Plan C requires 30 major credits and up to null credits outside the major. There is no final exam.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

Courses must be taken on the A/F grade basis, unless only offered S/N.

Core Courses (12-30 credits)
Select at least 12 credits from the following in consultation with the advisor. One credit of CEGE 8300 seminar may be applied to this requirement.

CEGE 4201 - Principles of Highway Design (3.0 cr)
CEGE 4411 - Matrix Structural Analysis (3.0 cr)
CEGE 4412 - Reinforced Concrete II (3.0 cr)
CEGE 4413 - Steel Design II (3.0 cr)
CEGE 4511 - Hydraulic Structures (3.0 cr)
CEGE 4561 - Solids and Hazardous Wastes (3.0 cr)
CEGE 4563 - Pollutant Fate and Transport: Processes and Modeling (3.0 cr)
CEGE 5094 - Directed Research (1.0 - 4.0 cr)
CEGE 5180 - Special Topics (1.0 - 4.0 cr)
CEGE 5211 - Traffic Engineering (3.0 cr)
CEGE 5212 - Transportation Policy, Planning, and Deployment (3.0 cr)
CEGE 5213 - Transit Planning and Management (3.0 cr)
CEGE 5341 - Wave Methods for Nondestructive Testing (3.0 cr)
CEGE 5342 - Introduction to Inverse Problems (3.0 cr)
CEGE 5351 - Advanced Engineering Mathematics I (3.0 cr)
CEGE 5411 - Applied Structural Mechanics (3.0 cr)
CEGE 5414 - Prestressed Concrete Design (3.0 cr)
CEGE 5415 - Masonry Structures (3.0 cr)
CEGE 5416 - Sensors in Infrastructure (3.0 cr)
CEGE 5417 - Structural Engineering Design of Wood Buildings (3.0 cr)
CEGE 5511 - Urban Hydrology and Water Quality (4.0 cr)
CEGE 5512 - Stochastic Hydrology (3.0 cr)
CEGE 5513 - Energy Conversion from Wind, Hydro and Solar Resources (3.0 cr)
CEGE 5541 - Environmental Water Chemistry (3.0 cr)
CEGE 5542 - Experimental Methods in Environmental Engineering (3.0 cr)
CEGE 5543 - Introductory Environmental Fluid Mechanics (4.0 cr)
CEGE 5551 - Environmental Microbiology (3.0 cr)
CEGE 5552 - Environmental Microbiology Laboratory (1.0 cr)
CEGE 5570 - Design for Sustainable Development - India (3.0 - 9.0 cr)
CEGE 8022 - Numerical Methods for Free and Moving Boundary Problems (3.0 cr)
CEGE 8094 - Directed Research (1.0 - 4.0 cr)
CEGE 8211 - Theory of Traffic Flow (4.0 cr)
CEGE 8212 - Advanced Travel Demand Modeling and Supply Analysis (3.0 cr)
CEGE 8213 - Advanced Transportation Technologies Seminar (1.0 cr)
CEGE 8214 - Transportation Economics (4.0 cr)
CEGE 8215 - Transportation Data Analysis (3.0 cr)
CEGE 8216 - Urban Traffic Operations (3.0 cr)
CEGE 8217 - Transportation Network Analysis (4.0 cr)
CEGE 8218 - Dynamic Transportation Network Analysis (4.0 cr)
CEGE 8231 - Advanced Pavement Engineering (3.0 cr)
CEGE 8233 - Advanced Bituminous Materials Characterization (3.0 cr)
CEGE 8300 - Seminar: Geomechanics (1.0 - 3.0 cr)
CEGE 8301 - Fracture of Geomaterials (3.0 cr)
CEGE 8302 - Soil/Rock Plasticity and Limit Analysis (4.0 cr)
CEGE 8311 - Advanced Rock Mechanics (3.0 cr)
CEGE 8321 - Thermoporoeelasticity (4.0 cr)
CEGE 8322 - Storage and Flow of Granular Materials (3.0 cr)
CEGE 8331 - Modeling Geomechanical Processes (3.0 cr)
CEGE 8336 - Boundary Element Methods I (3.0 cr)
CEGE 8337 - Boundary Element Methods II (3.0 cr)
CEGE 8341 - Wave Propagation in Solids and Structures (4.0 cr)
CEGE 8351 - Advanced Engineering Mathematics II (3.0 cr)
CEGE 8352 - Advanced Groundwater Mechanics II (3.0 cr)
CEGE 8361 - Engineering Model Fitting (3.0 cr)
CEGE 8401 - Fundamentals of Finite Element Method (3.0 cr)
CEGE 8402 - Nonlinear Finite Element Analysis (3.0 cr)
CEGE 8411 - Plate Structures (3.0 cr)
CEGE 8412 - Shell Structures (3.0 cr)
CEGE 8413 - Fracture and Scaling (3.0 cr)
CEGE 8421 - Structural Dynamics (3.0 cr)
CEGE 8422 - Earthquake Engineering (3.0 cr)
CEGE 8431 - Structural Stability (3.0 cr)
CEGE 8432 - Analysis of Thin-Walled Members (3.0 cr)
CEGE 8441 - Ductile Behavior of Steel Structures (3.0 cr)
CEGE 8442 - Nonlinear Analysis of Structural Systems (3.0 cr)
CEGE 8443 - Fracture of Materials and Structures (3.0 cr)
CEGE 8451 - Behavior of Reinforced Concrete Structures (3.0 cr)
CEGE 8461 - Structural Reliability (3.0 cr)
CEGE 8490 - Special Topics (1.0 - 4.0 cr)
CEGE 8501 - Environmental Fluid Mechanics I (4.0 cr)
CEGE 8502 - Environmental Fluid Mechanics II (4.0 cr)
CEGE 8503 - Environmental Mass Transport (4.0 cr)
CEGE 8504 - Theory of Unit Operations (4.0 cr)
CEGE 8505 - Biological Processes (3.0 cr)
CEGE 8506 - Stochastic Hydrology (4.0 cr)
CEGE 8507 - Advanced Methods in Hydrology (4.0 cr)
CEGE 8508 - Ecological Fluid Mechanics (4.0 cr)
CEGE 8511 - Mechanics of Sediment Transport (3.0 cr)
CEGE 8521 - The Atmospheric Boundary Layer (4.0 cr)
CEGE 8541 - Aquatic Chemistry (3.0 cr)
CEGE 8542 - Chemistry of Organic Pollutants in Environmental Systems (3.0 cr)
CEGE 8551 - Environmental Microbiology: Molecular Theory and Methods (4.0 cr)
CEGE 8552 - Groundwater Microbiology: Laboratory (4.0 cr)
CEGE 8553 - Biofilms (3.0 cr)
CEGE 8561 - Analysis and Modeling of Aquatic Environments I (3.0 cr)
CEGE 8562 - Analysis and Modeling of Aquatic Environments II (3.0 cr)
CEGE 8563 - Industrial Waste Treatment (3.0 cr)
CEGE 8571 - Hydraulic Measurements (3.0 cr)
CEGE 8572 - Computational Environmental Fluid Dynamics (4.0 cr)
CEGE 8581 - Research and Professional Ethics in Water Resources and Environmental Science (0.5 cr)
CEGE 8601 - Introduction to Stream Restoration (3.0 cr)
CEGE 8602 - Stream Restoration Practice (2.0 cr)

**Electives (0-18 credits)**
Select credits from the following, in consultation with the advisor, to complete the minimum number of course credits required. Other courses may be selected with director of graduate studies approval.

- AEM 4511 - Mechanics of Composite Materials (3.0 cr)
- AEM 5501 - Continuum Mechanics (3.0 cr)
- AEM 5503 - Theory of Elasticity (3.0 cr)
- AEM 8211 - Theory of Turbulence I (3.0 cr)
- AEM 8525 - Elastic Stability of Materials (3.0 cr)
- AEM 8531 - Fracture Mechanics (3.0 cr)
- AEM 8551 - Multiscale Methods for Bridging Length and Time Scales (3.0 cr)
- APEC 5031 - Methods of Economic Data Analysis (3.0 cr)
- ARCH 5391 - Design and Representation with BIM (3.0 cr)
- ARCH 5671 - Historic Preservation (3.0 cr)
- BBE 5513 - Watershed Engineering (3.0 cr)
- BBE 5523 - Ecological Engineering Design (3.0 cr)
- BBE 5535 - Assessment and Diagnosis of Impaired Waters (3.0 cr)
- BBE 5753 - Air Quality and Pollution Control Engineering (3.0 cr)
- BBE 8513 - Hydrologic Modeling of Small Watersheds (3.0 cr)
- BMEN 8101 - Biomedical Digital Signal Processing (3.0 cr)
- CHEM 5210 - Materials Characterization (4.0 cr)
- CSCI 5421 - Advanced Algorithms and Data Structures (3.0 cr)
- CSCI 5451 - Introduction to Parallel Computing: Architectures, Algorithms, and Programming (3.0 cr)
- EE 5239 - Introduction to Nonlinear Optimization (3.0 cr)
- EE 5251 - Optimal Filtering and Estimation (3.0 cr)
- EE 8231 - Optimization Theory (3.0 cr)
- EE 8581 - Detection and Estimation Theory (3.0 cr)
- EEB 5601 - Limnology (3.0 cr)
- ESCI 8801 - Geomicrobiology (3.0 cr)
- ESPM 5071 - Ecological Restoration (4.0 cr)
- ESPM 5111 - Hydrology and Water Quality Field Methods (3.0 cr)
- FNRM 5131 - Geographical Information Systems (GIS) for Natural Resources (4.0 cr)
- GCC 5005 - Innovation for the Public Good: Post-Pandemic Venture Design [GP] (3.0 cr)
- GEOG 5561 - Principles of Geographic Information Science (4.0 cr)
- HINF 5502 - Python Programming Essentials for the Health Sciences (1.0 cr)
- IE 5531 - Engineering Optimization I (4.0 cr)
- IE 5532 - Stochastic Models (4.0 cr)
- IE 5541 - Project Management (4.0 cr)
- IE 5545 - Decision Analysis (4.0 cr)
- IE 8531 - Discrete Optimization (4.0 cr)
- LAAS 5311 - Soil Chemistry and Mineralogy (3.0 cr)
- LAAS 5621 - Soil and Environmental Genomics (3.0 cr)
- MATH 5587 - Elementary Partial Differential Equations I (4.0 cr)
- MATH 5588 - Elementary Partial Differential Equations II (4.0 cr)
- MATH 8401 - Mathematical Modeling and Methods of Applied Mathematics (3.0 cr)
- MATH 8402 - Mathematical Modeling and Methods of Applied Mathematics (3.0 cr)
- MATH 8441 - Numerical Analysis and Scientific Computing (3.0 cr)
- MATH 8442 - Numerical Analysis and Scientific Computing (3.0 cr)
- PA 5204 - Urban Spatial and Social Dynamics (3.0 cr)
- PA 5231 - Transit Planning and Management (3.0 cr)
- PA 5271 - Geographic Information Systems: Applications in Planning and Policy Analysis (3.0 cr)
- PA 5880 - Exploring Global Cities (1.0 - 3.0 cr)
- PA 5926 - Presentation Skills: How to Inspire Your Audience and Change the World (1.0 cr)
- PUBH 6132 - Air, Water, and Health (2.0 cr)
- STAT 5021 - Statistical Analysis (4.0 cr)
- STAT 5302 - Applied Regression Analysis (4.0 cr)
- WRS 5101 - Water Policy (3.0 cr)
- WRS 8581 - Research and Professional Ethics in Water Resources and Environmental Science (0.5 cr)

**Plan Options**

**Plan A (10 credits)**
Complete 10 thesis credits.
CEGE 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

-OR-

Plan B (0-3 credits)
Plan B requires completion of 1-3 Plan B papers as determined by the faculty adviser. Plan B papers can include computer programs, annotated bibliographies, field investigations, and analysis/design of special engineering problems. Up to 3 credits of CEGE 8094 may be applied to course credit requirements.

CEGE 8094 - Directed Research (1.0 - 4.0 cr)

-OR-

Plan C
Plan C requires completion of 100 hours of project work and an oral presentation of no less than 10 minutes. Plan C coursework must include a minimum of two 8xxx-level courses.

Program Sub-plans
A sub-plan is not required for this program. Students may not complete the program with more than one sub-plan.

Integrated B.GeoE./M.S. - Geoengineering
The department offers an integrated Bachelor of Geoengineering (B.GeoE.) and master of science (MS) in geoengineering. The integrated B.GeoE./MS program offers students the opportunity to earn the bachelors and masters degree in five years. These programs offer several benefits: streamlined admissions from the undergraduate to the graduate program (GRE not required); flexibility in fulfilling required courses for both degrees during the senior year (up to 16 credits can be transferred to the graduate program); and eligibility for teaching and research assistantships.

Both the B.GeoE. and MS degrees must be completed in their entirety, with no courses shared between them. The graduate degree cannot be earned before the undergraduate requirements are satisfied. Admitted students who decide not to complete the MS degree are permitted to count credits originally planned for the graduate program toward their B.GeoE. technical electives.

Integrated B.C.E./M.S. - Geoengineering
The department offers an integrated bachelor of civil engineering (B.C.E) and master of science (MS) in geoengineering. Benefits, eligibility requirements, and degree-completion requirements outlined for the B.GeoE./MS integrated program also apply to the B.C.E./MS.

Integrated B.Env.E./M.S. - Geoengineering
The department offers an integrated bachelor of environmental engineering (B.Env.E.) and master of science (MS) in geoengineering. Benefits, eligibility requirements, and degree-completion requirements outlined for the B.GeoE./MS integrated program also apply to the B.Env.E./MS.

Email: cegesp@umn.edu  
Website: [http://www.cege.umn.edu](http://www.cege.umn.edu)

- Program Type: Graduate minor related to major  
- Requirements for this program are current for Fall 2020  
- Length of program in credits (Masters): 6  
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the [General Information](http://www.cege.umn.edu) section of the catalog website for requirements that apply to all major fields.

Emphases are in fundamental aspects of geomechanics and its applications. Research focuses on the use and development of discrete and continuum theories such as elasticity, plasticity, fracture mechanics, and poroelasticity for solving engineering problems. Numerical methods are being developed for obtaining solutions; experimental methods and novel apparatus are being developed for gathering physical evidence. Applications include processes of comminution, flow of granular materials, hydraulic fracturing, and nondestructive testing.

Program Delivery  
This program is available:  
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission  
Special Application Requirements:  
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Geoengineering director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the [General Information](http://www.cege.umn.edu) section of the catalog website.

Program Requirements  
Use of 4xxx courses towards program requirements is not permitted.

Courses must be taken on the A/F grade basis, unless only offered S/N.

The minimum cumulative GPA for the minor is 3.00.

Minor Courses (6 credits)  
In consultation with the advisor and Geoengineering director of graduate studies, select a minimum of 6 credits from the following:  
- CEGE 5341 - Wave Methods for Nondestructive Testing (3.0 cr)  
- CEGE 5351 - Advanced Engineering Mathematics I (3.0 cr)  
- CEGE 8301 - Fracture of Geomaterials (3.0 cr)  
- CEGE 8302 - Soil/Rock Plasticity and Limit Analysis (4.0 cr)  
- CEGE 8311 - Advanced Rock Mechanics (3.0 cr)  
- CEGE 8321 - Thermoporoelasticity (4.0 cr)  
- CEGE 8322 - Storage and Flow of Granular Materials (3.0 cr)  
- CEGE 8331 - Modeling Geomechanical Processes (3.0 cr)  
- CEGE 8336 - Boundary Element Methods I (3.0 cr)  
- CEGE 8337 - Boundary Element Methods II (3.0 cr)  
- CEGE 8341 - Wave Propagation in Solids and Structures (4.0 cr)
CEGE 8351 - Advanced Engineering Mathematics II (3.0 cr)
CEGE 8352 - Advanced Groundwater Mechanics II (3.0 cr)
CEGE 8361 - Engineering Model Fitting (3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Email: isye@umn.edu
Website: https://cse.umn.edu/isye/

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 30 to 32
- This program does not require summer semesters for timely completion.
- Degree: Master of Science in Industrial & Systems Engr

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The industrial and systems engineering (ISyE) program offers coursework and research in industrial and systems engineering, operations research, and human factors. Special emphasis is on methodologies for design, planning, and management of service and manufacturing systems. Examples of research applications include logistics, transportation, healthcare delivery systems, revenue management, and supply chain management.

The Department of Industrial & Systems Engineering offers an MS degree with three tracks: Analytics; Industrial Engineering; or Systems Engineering. MS degree applicants must indicate which track they are applying for on the application form. Note that the admission requirements for the three tracks are different. In addition, the ISyE program also offers a dual MS in ISyE and Civil Engineering (Transportation Engineering focus) and an integrated bachelor’s/master’s program.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A baccalaureate degree in engineering or a closely related field is required.

Other requirements to be completed before admission:
Eligibility requirements for the integrated BS/MS program:
- Students must be enrolled in the Industrial and Systems Engineering undergraduate program at the University of Minnesota Twin Cities.
- Applicants must have a minimum cumulative GPA of at least 3.4 or a strong letter of recommendation from an ISyE faculty member.
- The following IE courses must be completed or in progress at the time of application: 1101, 2021, 3011, 3012, 3521, 3522, 4011, and 4551.

Special Application Requirements:
All application materials should be submitted electronically through the Graduate Admissions Office.

Applicants to the systems engineering track are required to have at least two years of professional work experience in a technical field. Promising candidates with less experience will be considered under exceptional circumstances. Applicants must submit a personal statement and three letters of recommendation. In addition to the academic record, the professional record of the applicant and the letters of recommendation carry weight in admission decisions. A GRE score is not required for applicants to the systems engineering track.

Applicants to the industrial engineering and analytics tracks must submit a GRE score. Letters of recommendation are not required, but are highly recommended if you want to be considered for financial aid.

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of September 04, 2020
Applications for the analytics track are accepted for fall semester only.

The application deadlines are February 15 for fall semester and October 15 for spring semester.

Applicants must submit their test score(s) from the following:
- GRE

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5

Key to test abbreviations (GRE, TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan A: Plan A requires 14 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is oral.

Plan B: Plan B requires 16 to 24 major credits and 6 to 14 credits outside the major. The final exam is oral.

Plan C: Plan C requires 14 to 26 major credits and 6 to 16 credits outside the major. The final exam is oral.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.8 is required for students to remain in good standing.

Courses must be taken on the A/F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

The Master of Science in Industrial and Systems Engineering (M.S.I.Sy.E.) is offered with three tracks: Analytics, Industrial Engineering, or Systems Engineering.

Students may replace a required course with a qualifying replacement course if they have taken the equivalent of the required course elsewhere.

Joint- or Dual-degree Coursework: Dual M.S. in ISyE and Civil Engineering (Transportation Engineering Focus): Student may take a total of 15 credits in common among the academic programs.

Program Sub-plans

Students are required to complete one of the following sub-plans.

Students may not complete the program with more than one sub-plan.

Analytics

This sub-plan is limited to students completing the program under Plan C.

The analytics track is a coursework-only option (Plan C) requiring 30-32 credits. Students proceed through the program and advance as a cohort. The program requires 24 credits in core courses and a minimum of 6 credits in elective courses. In addition, non-native English speakers are required to take the 2-credit course ESL 5008.

Required Courses (24 credits)

IE 5531 - Engineering Optimization I (4.0 cr)
IE 5532 - Stochastic Models (4.0 cr)
IE 5561 - Analytics and Data-Driven Decision Making (4.0 cr)
IE 5773 - Practice-focused Seminar (1.0 cr)
IE 5801 - Capstone Project (4.0 cr)
STAT 5302 - Applied Regression Analysis (4.0 cr)
CSCI 5521 - Introduction to Machine Learning (3.0 cr)
or CSCI 5523 - Introduction to Data Mining (3.0 cr)

Electives (6 credits)
In consultation with adviser, select a minimum of 6 credits from the following. Additional courses may be approved by the Director of Graduate Studies.
CSCI 5521 - Introduction to Machine Learning (3.0 cr)
CSCI 5523 - Introduction to Data Mining (3.0 cr)
CSCI 5751 - Big Data Engineering and Architecture (3.0 cr)
IE 5441 - Financial Decision Making (4.0 cr)
IE 5522 - Quality Engineering and Reliability (4.0 cr)
IE 5541 - Project Management (4.0 cr)
IE 5545 - Decision Analysis (4.0 cr)
IE 5551 - Production Planning and Inventory Control (4.0 cr)
IE 5553 - Simulation (4.0 cr)

PUBH 7461 - Exploring and Visualizing Data in R (2.0 cr)
PUBH 7475 - Statistical Learning and Data Mining (3.0 cr)
STAT 5303 - Designing Experiments (4.0 cr)
STAT 5401 - Applied Multivariate Methods (3.0 cr)
STAT 5421 - Analysis of Categorical Data (3.0 cr)
STAT 5511 - Time Series Analysis (3.0 cr)
STAT 5601 - Nonparametric Methods (3.0 cr)

English Proficiency (0-2 credits)
Non-native English speakers are required to take the following:
ESL 5008 - Speaking for Professional Settings (2.0 cr)

Industrial Engineering
The industrial engineering track has three options:

- Plan A (thesis) requires 30 credits: 14 in the major, 6 outside IE, and 10 thesis credits.
- Plan B (project) requires 30 credits: 17 in the major, which may include 4 credits for the Plan B project course, 6 outside IE, and 7 additional elective credits.
- Plan C (coursework) requires 32 credits: 17 in the major, 6 outside IE, and 9 additional elective credits.

Required Courses (13-17 credits)
All students take IE 5531 and 5532 for 8 credits.
IE 5531 - Engineering Optimization I (4.0 cr)
IE 5532 - Stochastic Models (4.0 cr)
In addition, Plan A students choose a minimum of 1 course from the following, and Plan B and C students, choose a minimum of 2 courses.
IE 5511 - Human Factors and Work Analysis (4.0 cr)
IE 5545 - Decision Analysis (4.0 cr)
IE 5551 - Production Planning and Inventory Control (4.0 cr)

Seminar
Complete 1 seminar credit. The following may be used or consult with adviser for additional options.
IE 8773 - Graduate Seminar (1.0 cr)
IE 8774 - Graduate Seminar (1.0 cr)

Electives (7-15 credits)
In consultation with adviser, select courses from the following to complete the minimum course credit requirements. A minimum of 6 credits must be from non-IE courses. Additional courses may be approved by the Director of Graduate Studies.
APEC 8001 - Applied Microeconomic Analysis of Consumer Choice and Consumer Demand (2.0 cr)
APEC 8002 - Applied Microeconomic Analysis of Production and Choice Under Uncertainty (2.0 cr)
APEC 8206 - Dynamic Optimization: Applications in Economics and Management (3.0 cr)
APEC 8211 - Econometric Analysis I (2.0 cr)
CSCI 5421 - Advanced Algorithms and Data Structures (3.0 cr)
CSCI 5521 - Introduction to Machine Learning (3.0 cr)
CSCI 5523 - Introduction to Data Mining (3.0 cr)
CSCI 5525 - Machine Learning (3.0 cr)
CSCI 5801 - Software Engineering I (3.0 cr)
ECON 8117 - Noncooperative Game Theory (2.0 cr)
HINF 5502 - Python Programming Essentials for the Health Sciences (1.0 cr)
IE 5080 - Topics in Industrial Engineering (1.0 - 4.0 cr)
IE 5111 - Systems Engineering I (2.0 cr)
IE 5113 - Systems Engineering II (4.0 cr)
IE 5441 - Financial Decision Making (4.0 cr)
IE 5513 - Engineering Safety (4.0 cr)
IE 5522 - Quality Engineering and Reliability (4.0 cr)
IE 5531 - Engineering Optimization I (4.0 cr)
IE 5532 - Stochastic Models (4.0 cr)
IE 5541 - Project Management (4.0 cr)
IE 5545 - Decision Analysis (4.0 cr)
IE 5551 - Production Planning and Inventory Control (4.0 cr)
IE 5553 - Simulation (4.0 cr)
IE 5561 - Analytics and Data-Driven Decision Making (4.0 cr)
IE 5773 - Practice-focused Seminar (1.0 cr)
IE 5801 - Capstone Project (4.0 cr)
IE 8521 - Optimization (4.0 cr)
IE 8531 - Discrete Optimization (4.0 cr)
IE 8532 - Stochastic Processes and Queuing Systems (4.0 cr)
IE 8533 - Advanced Stochastic Processes and Queuing Systems (4.0 cr)
IE 8534 - Advanced Topics in Operations Research (4.0 cr)
IE 8552 - Advanced Topics in Production, Inventory, and Distribution Systems (4.0 cr)
MATH 5615H - Honors: Introduction to Analysis I (4.0 cr)
MATH 5616H - Honors: Introduction to Analysis II (4.0 cr)
MATH 8651 - Theory of Probability Including Measure Theory (3.0 cr)
MBA 6030 - Financial Accounting (3.0 cr)
MBA 6220 - Supply Chain & Operations (3.0 cr)
MGMT 6004 - Negotiation Strategies (2.0 cr)
MILI 6990 - The Health Care Marketplace (2.0 cr)
MKTG 8810 - Consumer Behavior Special Topics (2.0 cr)
MOT 5001 - Technological Business Fundamentals (2.0 cr)
MOT 5002 - Creating Technological Innovation (2.0 cr)
PUBH 6325 - Data Processing with PC-SAS (1.0 cr)
PUBH 7461 - Exploring and Visualizing Data in R (2.0 cr)
PUBH 7475 - Statistical Learning and Data Mining (3.0 cr)
SCO 6041 - Project Management (2.0 cr)
SCO 6056 - Managing Supply Chain Operations (4.0 cr)
SCO 6159 - Quality Management and Lean Six Sigma (4.0 cr)
SCO 6072 - Managing Technologies in the Supply Chain (2.0 cr)
STAT 5021 - Statistical Analysis (4.0 cr)
STAT 5302 - Applied Regression Analysis (4.0 cr)
STAT 5401 - Applied Multivariate Methods (3.0 cr)

Plan Options

Plan A (10 credits)
Complete 10 thesis credits.
IE 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

-OR-

Plan B (0-4 credits)
Plan B students must either take the Plan B course IE 8794 or complete one to three Plan B papers, determined in consultation with the adviser.
IE 8794 - Industrial Engineering Research (1.0 - 6.0 cr)

-OR-

Plan C
Plan C students do not have additional requirements.

Systems Engineering
This sub-plan is limited to students completing the program under Plan C.

The systems engineering track is a coursework-only option (Plan C) requiring 30 credits.

Required Courses (14 credits)
IE 5111 - Systems Engineering I (2.0 cr)
IE 5113 - Systems Engineering II (4.0 cr)
IE 5541 - Project Management (4.0 cr)
IE 5553 - Simulation (4.0 cr)

**Electives (16 credits)**

In consultation with advisor, select courses from the following to complete course credit requirements. A minimum of 6 credits must be from non-IE courses. Additional courses may be approved by the Director of Graduate Studies.

APEC 8001 - Applied Microeconomic Analysis of Consumer Choice and Consumer Demand (2.0 cr)
APEC 8002 - Applied Microeconomic Analysis of Production and Choice Under Uncertainty (2.0 cr)
APEC 8206 - Dynamic Optimization: Applications in Economics and Management (3.0 cr)
APEC 8211 - Econometric Analysis I (2.0 cr)
CSCI 5421 - Advanced Algorithms and Data Structures (3.0 cr)
CSCI 5521 - Introduction to Machine Learning (3.0 cr)
CSCI 5523 - Introduction to Data Mining (3.0 cr)
CSCI 5525 - Machine Learning (3.0 cr)
CSCI 5501 - Software Engineering I (3.0 cr)
ECON 8117 - Noncooperative Game Theory (2.0 cr)
HINF 5502 - Python Programming Essentials for the Health Sciences (1.0 cr)
IE 5111 - Systems Engineering I (2.0 cr)
IE 5113 - Systems Engineering II (4.0 cr)
IE 5441 - Financial Decision Making (4.0 cr)
IE 5513 - Engineering Safety (4.0 cr)
IE 5522 - Quality Engineering and Reliability (4.0 cr)
IE 5531 - Engineering Optimization I (4.0 cr)
IE 5532 - Stochastic Models (4.0 cr)
IE 5541 - Project Management (4.0 cr)
IE 5545 - Decision Analysis (4.0 cr)
IE 5551 - Production Planning and Inventory Control (4.0 cr)
IE 5553 - Simulation (4.0 cr)
IE 5561 - Analytics and Data-Driven Decision Making (4.0 cr)
IE 5773 - Practice-focused Seminar (1.0 cr)
IE 5801 - Capstone Project (4.0 cr)
IE 8521 - Optimization (4.0 cr)
IE 8531 - Discrete Optimization (4.0 cr)
IE 8532 - Stochastic Processes and Queuing Systems (4.0 cr)
IE 8533 - Advanced Stochastic Processes and Queuing Systems (4.0 cr)
IE 8534 - Advanced Topics in Operations Research (4.0 cr)
IE 8552 - Advanced Topics in Production, Inventory, and Distribution Systems (4.0 cr)
MATH 5615H - Honors: Introduction to Analysis I (4.0 cr)
MATH 5616H - Honors: Introduction to Analysis II (4.0 cr)
MATH 8651 - Theory of Probability Including Measure Theory (3.0 cr)
MBA 6030 - Financial Accounting (3.0 cr)
MBA 6220 - Supply Chain & Operations (3.0 cr)
MGMT 6004 - Negotiation Strategies (2.0 cr)
MILI 6990 - The Health Care Marketplace (2.0 cr)
MKTG 8810 - Consumer Behavior Special Topics (2.0 cr)
MOT 5001 - Technological Business Fundamentals (2.0 cr)
MOT 5002 - Creating Technological Innovation (2.0 cr)
PUBH 6325 - Data Processing with PC-SAS (1.0 cr)
PUBH 7461 - Exploring and Visualizing Data in R (2.0 cr)
PUBH 7475 - Statistical Learning and Data Mining (3.0 cr)
SCO 6041 - Project Management (2.0 cr)
SCO 6056 - Managing Supply Chain Operations (4.0 cr)
SCO 6059 - Quality Management and Lean Six Sigma (4.0 cr)
SCO 6072 - Managing Technologies in the Supply Chain (2.0 cr)
STAT 5021 - Statistical Analysis (4.0 cr)
STAT 5302 - Applied Regression Analysis (4.0 cr)
STAT 5401 - Applied Multivariate Methods (3.0 cr)

**Integrated B.I.Sy.E./M.S.I.Sy.E.**

This sub-plan is optional and does not fulfill the sub-plan requirement for this program.

This sub-plan is limited to students completing the program under Plan C.
The Department of Industrial and Systems Engineering offers an integrated bachelor's/master's degree program. The program makes it possible for students to earn both a bachelor's degree (B.I.Sy.E.) and a master's degree (M.S.I.Sy.E.) in Industrial and Systems Engineering in five years. The program has several benefits: a streamlined admissions process from the undergraduate to the graduate program; graduate student status granted in the senior year; eligibility for teaching and research assistantships; and, flexibility in fulfilling required courses for both degrees simultaneously in the last two years of study. The integrated program is available only for the Analytics Track.

Both the BiSyE and MSISyE degrees must be completed in their entirety, with no courses shared between them. The graduate degree cannot be earned before the undergraduate requirements are satisfied. Admitted students who decide not to complete the MSISyE degree are permitted to count credits originally planned for the graduate program toward their undergraduate technical electives.
**Twin Cities Campus**

**Industrial and Systems Engineering Minor**

**Contact Information:**

Industrial and Systems Engineering Graduate Program, University of Minnesota, 100 Union Street SE, Minneapolis, MN 55455 (612-624-1582; fax: 612-624-0944)

Email: isye@umn.edu

Website: [https://cse.umn.edu/isye/](https://cse.umn.edu/isye/)

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the [General Information](#) section of the catalog website for requirements that apply to all major fields.

The industrial and systems engineering (ISyE) program offers coursework and research in industrial and systems engineering, operations research, and human factors. Special emphasis is on methodologies for design, planning, and management of service and manufacturing systems. Examples of research applications include logistics, transportation, healthcare delivery systems, revenue management, and supply chain management.

**Program Delivery**

This program is available:

- via classroom (the majority of instruction is face-to-face)

**Prerequisites for Admission**

For an online application or for more information about graduate education admissions, see the [General Information](#) section of the catalog website.

**Program Requirements**

Use of 4xxx courses towards program requirements is not permitted.

Courses must be taken on the A/F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

The minimum cumulative GPA for the minor is 3.00.

**Minor Courses (6-12 credits)**

Master's students select a minimum of 6 credits, and doctoral students select a minimum of 12 credits from the following in consultation with the Industrial and Systems Engineering director of graduate studies. Other courses may be chosen with minor director of graduate studies approval.

- IE 5511 - Human Factors and Work Analysis (4.0 cr)
- IE 5531 - Engineering Optimization I (4.0 cr)
- IE 5532 - Stochastic Models (4.0 cr)
- IE 5545 - Decision Analysis (4.0 cr)
- IE 5551 - Production Planning and Inventory Control (4.0 cr)
- IE 5561 - Analytics and Data-Driven Decision Making (4.0 cr)
- IE 8521 - Optimization (4.0 cr)
- IE 8531 - Discrete Optimization (4.0 cr)
- IE 8532 - Stochastic Processes and Queuing Systems (4.0 cr)
- IE 8533 - Advanced Stochastic Processes and Queueing Systems (4.0 cr)
- IE 8534 - Advanced Topics in Operations Research (4.0 cr)
- IE 8535 - Introduction to Network Science (4.0 cr)
IE 8552 - Advanced Topics in Production, Inventory, and Distribution Systems (4.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Twin Cities Campus
Industrial and Systems Engineering Ph.D.
Industrial and Systems Engineering
College of Science and Engineering

Link to a list of faculty for this program.

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 68
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The industrial and systems engineering (ISyE) program offers coursework and research in industrial and systems engineering, operations research, and human factors. Special emphasis is on methodologies for design, planning, and management of service and manufacturing systems. Examples of research applications include logistics, transportation, healthcare delivery systems, revenue management, and supply chain management.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A baccalaureate degree in engineering or a closely related field is required.

Special Application Requirements:
All application materials should be submitted electronically through the online application system. Students whose native language is not English are required to submit scores from one of the following English proficiency examinations: TOEFL, MELAB, or IELTS. The GRE General Test is required for students applying to the PhD program.

The application deadlines are December 15 for fall semester and October 15 for spring semester.

Applicants must submit their test score(s) from the following:
- GRE

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5

Key to test abbreviations (GRE, TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements

32 credits are required in the major.
12 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

Courses offered on both the A/F and S/N grading basis must be taken A/F, with a minimum grade of B- earned for each course.

Students may replace a required course with a qualifying replacement course if they have taken the equivalent of the required course elsewhere.

Required Courses (16 credits)
Take the following courses:
IE 8521 - Optimization (4.0 cr)
IE 8532 - Stochastic Processes and Queuing Systems (4.0 cr)
Select 8 credits from the following:
IE 5511 - Human Factors and Work Analysis (4.0 cr)
IE 5545 - Decision Analysis (4.0 cr)
IE 5551 - Production Planning and Inventory Control (4.0 cr)

Seminars (2 credits)
Take 2 seminar credits from the following, or other seminars, in consultation with the advisor.
IE 8773 - Graduate Seminar (1.0 cr)
IE 8774 - Graduate Seminar (1.0 cr)

Outside Coursework (12 credits)
Select 12 credits from the following in consultation with the advisor. Other courses may be applied to this requirement with director of graduate studies approval.
APEC 8001 - Applied Microeconomic Analysis of Consumer Choice and Consumer Demand (2.0 cr)
APEC 8002 - Applied Microeconomic Analysis of Production and Choice Under Uncertainty (2.0 cr)
CSCI 5211 - Data Communications and Computer Networks (3.0 cr)
CSCI 5421 - Advanced Algorithms and Data Structures (3.0 cr)
CSCI 5521 - Introduction to Machine Learning (3.0 cr)
CSCI 8980 - Special Advanced Topics in Computer Science (1.0 - 3.0 cr)
ECON 8101 - Microeconomic Theory (2.0 cr)
ECON 8102 - Microeconomic Theory (2.0 cr)
ECON 8117 - Noncooperative Game Theory (2.0 cr)
ECON 8118 - Noncooperative Game Theory (2.0 cr)
ECON 8119 - Cooperative Game Theory (2.0 cr)
ECON 8119 - Cooperative Game Theory (2.0 cr)
MATH 5485 - Introduction to Numerical Methods I (4.0 cr)
MATH 5486 - Introduction To Numerical Methods II (4.0 cr)
MATH 5615H - Honors: Introduction to Analysis I (4.0 cr)
MATH 5616H - Honors: Introduction to Analysis II (4.0 cr)
MATH 8601 - Real Analysis (3.0 cr)
MATH 8602 - Real Analysis (3.0 cr)
MATH 8651 - Theory of Probability Including Measure Theory (3.0 cr)
MATH 8652 - Theory of Probability Including Measure Theory (3.0 cr)
PUBH 8442 - Bayesian Decision Theory and Data Analysis (3.0 cr)
STAT 5302 - Applied Regression Analysis (4.0 cr)
STAT 5303 - Designing Experiments (4.0 cr)
STAT 5401 - Applied Multivariate Methods (3.0 cr)
STAT 8051 - Advanced Regression Techniques: linear, nonlinear and nonparametric methods (3.0 cr)
STAT 8101 - Theory of Statistics 1 (3.0 cr)
STAT 8102 - Theory of Statistics 2 (3.0 cr)
STAT 8501 - Introduction to Stochastic Processes with Applications (3.0 cr)

Electives
Select credits from the following to meet the minimum course credit requirement. Other courses may be selected with director of graduate studies approval.
IE 5080 - Topics in Industrial Engineering (1.0 - 4.0 cr)
IE 5511 - Human Factors and Work Analysis (4.0 cr)
IE 5513 - Engineering Safety (4.0 cr)
IE 5522 - Quality Engineering and Reliability (4.0 cr)
IE 5545 - Decision Analysis (4.0 cr)
IE 5551 - Production Planning and Inventory Control (4.0 cr)
IE 5561 - Analytics and Data-Driven Decision Making (4.0 cr)
IE 8531 - Discrete Optimization (4.0 cr)
IE 8533 - Advanced Stochastic Processes and Queuing Systems (4.0 cr)
IE 8534 - Advanced Topics in Operations Research (4.0 cr)
IE 8535 - Introduction to Network Science (4.0 cr)
IE 8536 - Advanced Topics in Engineering Management (4.0 cr)
IE 8538 - Advanced Topics in Information Systems (4.0 cr)
IE 8541 - Decision Support Systems (4.0 cr)
IE 8552 - Advanced Topics in Production, Inventory, and Distribution Systems (4.0 cr)
IE 8794 - Industrial Engineering Research (1.0 - 6.0 cr)

Thesis Credits (24 credits)
Take 24 credits after passing preliminary oral exam.
IE 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)

Program Sub-plans
A sub-plan is not required for this program.
Students may not complete the program with more than one sub-plan.

Industrial Engineering

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 36
- This program does not require summer semesters for timely completion.
- Degree: Master of Science in Management of Technology

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The master of science in the management of technology (MSMOT) is a two-year, executive-format program that integrates the fields of technology and management and provides working engineers and scientists with management knowledge and skills needed to assume a technical leadership role within their organizations. The program focuses on management in technology-based environments in traditional and emerging industries. The curriculum includes technical and advanced management courses, such as pivotal technologies, technology forecasting, project management, management of innovation, intellectual property management, and strategic management of technology. The core management curriculum includes areas such as finance, marketing, accounting, strategic planning and decision making, and conflict management. Students proceed through the program and advance as a cohort, taking a prescribed sequence of courses together. Case studies, class discussions, and study-group interaction stimulate the learning process. Students also participate in off-campus residencies, including an international residency; complete individual and team projects; and develop final projects as part of a capstone course. Most students receive corporate financial support.

The program is offered in a format designed for full-time working professionals. Students take courses one day per week on alternating Fridays and Saturdays and complete the degree within two years.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
A bachelor's degree in an engineering, science, or other technology-related field from an accredited program.

Other requirements to be completed before admission:
Applicants should have at least 5 years of professional experience in a technical field and have completed coursework (or show proficiency) in economics, mathematical modeling, statistics, and computer literacy.

In exceptional circumstances, promising candidates with less experience may be considered.

Special Application Requirements:
The program accepts applications on a rolling basis for fall semester of each year.

Applicants must submit three letters of recommendation, a resume, and a statement of purpose.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
Program Requirements

Plan B: Plan B requires 36 major credits and up to null credits outside the major. The final exam is oral. A capstone project is required.

Capstone Project: The capstone project consists of an independent, original investigation requiring between 110 and 130 hours of effort. Students use concepts and methods learned in the MOT program to research and develop an industry-based product, project, process, or venture. The capstone project enables students to directly apply their MOT education at work.

This program may not be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.25 is required for students to remain in good standing.

Courses must be taken on the A/F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

Students attend the program as a cohort and complete their studies in four semesters.

Required Courses (33.5 Credits)

Complete the following courses for a total of 33.5 credits. Take MOT 8218 for 1.5 credits and MOT 8960 twice for a total of 2 credits.

MOT 8111 - Marketing Management for Technology-based Organizations (2.0 cr)
MOT 8112 - Accounting for Decision Making (1.5 cr)
MOT 8113 - Operations Management for Competitive Advantage (1.5 cr)
MOT 8114 - Strategic Technology Analysis (1.5 cr)
MOT 8121 - Managing Organizations in a Technological Environment (2.0 cr)
MOT 8122 - Financial Management for Technology-based Organizations (1.5 cr)
MOT 8133 - Managerial Communication for Technological Leaders: Persuasive Writing and Speaking (2.0 cr)
MOT 8212 - Developing New Technology Products and Services (2.0 cr)
MOT 8214 - Technology Foresight and Forecasting (2.0 cr)
MOT 8218 - Digital Transformation (1.0 - 1.5 cr)
MOT 8221 - Project and Knowledge Management (1.5 cr)
MOT 8222 - Pivotal Technologies (1.0 cr)
MOT 8232 - Managing Technological Innovation (2.0 cr)
MOT 8233 - Strategic Management of Technology (2.0 cr)
MOT 8501 - Leading Individual & Team Performance (1.5 cr)
MOT 8502 - Innovation Leadership and Organizational Effectiveness (1.0 cr)
MOT 8900 - Conflict Management (0.5 cr)
MOT 8920 - Science and Technology Policy (1.5 cr)
MOT 8940 - Managing Intellectual Property (1.0 cr)
MOT 8950 - International Management of Technology Project (2.0 cr)
MOT 8960 - Seminars in Management of Technology (MOT) and Innovation (1.0 cr)

Capstone Project (2.5 Credits)

Complete a total of 2.5 credits.

MOT 8234 - Capstone Project (0.5 - 2.5 cr)
Management of Technology Minor

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The management of technology minor program integrates the fields of technology and management, allowing students in science and engineering majors to develop understanding and expertise in business principles. The curriculum includes basic business knowledge, with an emphasis on technology-intensive organizations. Topics include strategy, finance, marketing, intellectual property, innovation, and technology planning. Each class will include exercises that inform students on those business topics, and give them an opportunity to practice the fundamental skills of communications, teamwork, and project management.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Management of Technology (MOT) director of graduate studies regarding feasibility and requirements. Approval of the MOT director of graduate studies to pursue the minor is required.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

MOT minor courses cannot be counted towards the Master of Science in Management of Technology degree requirements.

Courses must be taken on the A/F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

The minimum cumulative GPA for the minor is 3.00.

Core Courses (4 credits)
MOT 5001 - Technological Business Fundamentals (2.0 cr)
MOT 5002 - Creating Technological Innovation (2.0 cr)

Electives (2-8 credits)
Master's students select a minimum of 2 credits, and doctoral students select a minimum of 8 credits in consultation with the MOT
director of graduate studies to complete credit requirements. Other courses may be counted toward the MOT minor with prior approval.

- **ENTR 6020** - Business Formation (4.0 cr)
- **ENTR 6036** - Managing the Growing Business (2.0 cr)
- **HSCI 5401** - Ethics in Science and Technology (3.0 cr)
- **HSCI 5421** - Engineering Ethics (3.0 cr)
- **IDSC 6040** - Information Technology Management (2.0 cr)
- **IDSC 6423** - Enterprise Systems (2.0 cr)
- **IE 5111** - Systems Engineering I (2.0 cr)
- **IE 5441** - Financial Decision Making (4.0 cr)
- **IE 5541** - Project Management (4.0 cr)
- **MBA 6110** - Leading Others (2.0 cr)
- **MBA 6300** - Strategic Management (3.0 cr)
- **ME 8221** - New Product Design and Business Development I (4.0 cr)
- **ME 8222** - New Product Design and Business Development II (4.0 cr)
- **MGMT 6004** - Negotiation Strategies (2.0 cr)
- **MGMT 6040** - Competing Globally (2.0 cr)
- **MGMT 6084** - Management of Teams (2.0 cr)
- **MGMT 6305** - The International Environment of Business (4.0 cr)
- **MOT 5003** - Technological Business Planning Workshop (1.0 cr)
- **OLPD 5607** - Organization Development (3.0 cr)
- **PA 5711** - Science, Technology & Environmental Policy (3.0 cr)
- **PA 5741** - Risk, Resilience and Decision Making (1.5 cr)

**Program Sub-plans**

Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

**Masters**

**Doctoral**
Twin Cities Campus

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Materials Science And Engineering

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Research activities in the Chemical Engineering and Materials Science (CEMS) Department focus on the development of renewable energy technologies, the solution of important medical and biological engineering challenges, the development of advanced materials and characterization methods, and the application of sophisticated mathematical and theoretical models. Graduate courses offered cover core areas of chemical engineering (fluid mechanics, applied mathematics: linear and nonlinear analysis, transport, chemical thermodynamics, statistical thermodynamics and kinetics, and analysis of chemical reactors) and core areas of materials science (structure and symmetry of materials, thermodynamics and kinetics, transport, advanced mathematics, electronic properties of materials, and mechanical properties of materials). In addition, several specialized topics are offered, including biochemical engineering, biological transport processes, colloids, principles of mass transfer in engineering and biological engineering, rheology, process control, ceramics, polymers, scattering, and electrochemical engineering.

The Masters of Materials Science and Engineering (MMatSE), also known as the professional master's, is designed for working professionals who are interested in obtaining a master's degree part-time. This degree requires a design project. Part-time students may also choose the MSMatSE Plan C, which is coursework only.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
A bachelor's degree in materials science or other related field.

Other requirements to be completed before admission:
The professional master's in engineering degree is designed for employees of local industries who wish to pursue their studies part-time. No financial support is available. Applicants should contact the program before applying for admission.

Special Application Requirements:
Applicants must submit scores from the General Test of the GRE; three letters of recommendation from persons familiar with their scholarship and research potential; a complete set of official transcripts; and a clearly written statement summarizing research/work experience and motivation for graduate work. International students are required to provide TOEFL results.

Applications are accepted for fall semester only. December 15 is the application deadline; late applications are considered if space is available.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
IELTS
- Total Score: 6.5
MELAB
- Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan A: Plan A requires 14 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is oral.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 2.80 is required for students to remain in good standing.

Courses must be taken on the A/F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

In addition to the coursework, MMatSE students are required to complete a design project. The work-related MMatSE design project consists of an in-depth study of an engineering design. It need not represent a publishable research project. While the amount of work should be the same as for a master’s thesis, the project can contain elements that the thesis would not, such as economic considerations, design consultation, and social relevance. The written design report must be approved by a three-person faculty committee. The final exam consists of the written design report and an oral presentation to the faculty committee.

Core Courses (12 credits)
Select at least 12 credits from the following in consultation with the advisor:
- MATS 8001 - Structure and Symmetry of Materials (3.0 cr)
- MATS 8002 - Thermodynamics and Kinetics (3.0 cr)
- MATS 8003 - Electronic Properties (3.0 cr)
- MATS 8004 - Mechanical Properties (3.0 cr)
- MATS 8201 - Applied Math (3.0 cr)
- MATS 8301 - Physical Rate Processes I: Transport (3.0 cr)

Outside Coursework (6 credits)
Select at least 6 credits from the following in consultation with the advisor. Other courses can be applied to this requirement with advisor and director of graduate studies approval.
- AEM 4511 - Mechanics of Composite Materials (3.0 cr)
- AEM 5321 - Modern Feedback Control (3.0 cr)
- AEM 5451 - Optimal Estimation (3.0 cr)
- AEM 5501 - Continuum Mechanics (3.0 cr)
- AEM 5503 - Theory of Elasticity (3.0 cr)
- AEM 5581 - Mechanics of Solids (3.0 cr)
- AEM 8201 - Fluid Mechanics I (3.0 cr)
- AEM 8202 - Fluid Mechanics II (3.0 cr)
- AEM 8203 - Fluid Mechanics III (3.0 cr)
- AEM 8251 - Finite-Volume Methods in Computational Fluid Dynamics (3.0 cr)
- AEM 8421 - Robust Multivariable Control Design (3.0 cr)
- AEM 8423 - Convex Optimization Methods in Control (3.0 cr)
- AEM 8525 - Elastic Stability of Materials (3.0 cr)
- AEM 8531 - Fracture Mechanics (3.0 cr)
- AEM 8541 - Mechanics of Crystalline Solids (3.0 cr)
- AEM 8551 - Multiscale Methods for Bridging Length and Time Scales (3.0 cr)
- BBE 5001 - Chemistry of Biomass and Biomass Conversion to Fuels and Products (4.0 cr)
- BIOC 4332 - Biochemistry II: Molecular Mechanisms of Signal Transduction and Gene Expression (4.0 cr)
- BIOC 5351 - Protein Engineering (3.0 cr)
- BIOC 5352 - Biotechnology and Bioengineering for Biochemists (3.0 cr)
- BIOC 5528 - Spectroscopy and Kinetics (4.0 cr)
- BIOC 6021 - Biochemistry (3.0 cr)
- BIOC 8002 - Molecular Biology and Regulation of Biological Processes (3.0 cr)
- BIOL 5950 - Special Topics (1.0 - 4.0 cr)

- This program requires summer semesters for timely completion.
- Degree: Master of Science Materials Science And Engr

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Research activities in the Chemical Engineering and Materials Science (CEMS) Department focus on the development of renewable energy technologies, the solution of important medical and biological engineering challenges, the development of advanced materials and characterization methods, and the application of sophisticated mathematical and theoretical models. Graduate courses offered cover core areas of chemical engineering (fluid mechanics, applied mathematics: linear and nonlinear analysis, transport, chemical thermodynamics, statistical thermodynamics and kinetics, and analysis of chemical reactors) and core areas of materials science (structure and symmetry of materials, thermodynamics and kinetics, transport, advanced mathematics, electronic properties of materials, and mechanical properties of materials). In addition, several specialized topics are offered, including biochemical engineering, biological transport processes, colloids, principles of mass transfer in engineering and biological engineering, rheology, process control, ceramics, polymers, scattering, and electrochemical engineering.

The Materials Science and Engineering program offers two types of master's degrees: the MSMatSE (Plan A or C) and the MMatSE degree, also known as the professional master's. The MMatSE Plan A degree is a thesis-based master's that requires the student to work in a faculty member's research laboratory. The MMatSE Plan C degree is a coursework-based master's that is generally reserved only for current graduate students who choose not to seek a PhD. Working professionals who are interested in obtaining a master's degree part time should follow the requirements for the MMatSE degree, which requires a design project.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
A bachelor's degree in materials science or other related field.

Other requirements to be completed before admission:
With the exception of the professional master's degree (the MMatSE) and the MSMatSE Plan C, the CEMS department focuses on the PhD and does not generally admit students directly to the MSMatSE Plan A degree.

Special Application Requirements:
Applicants must submit scores from the General Test of the GRE; three letters of recommendation from persons familiar with their scholarship and research potential; a complete set of official transcripts; and a clearly written statement summarizing research/work experience and motivation for graduate work. International students are required to provide TOEFL results.

Applications are accepted for fall semester only. December 15 is the application deadline; late applications are considered if space is available.

Applicants must submit their test score(s) from the following:

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of September 04, 2020
International applicants must submit score(s) from one of the following tests:

- **TOEFL**
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19

- **IELTS**
  - Total Score: 6.5

- **MELAB**
  - Final score: 80

Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

### Program Requirements

**Plan A:** Plan A requires 14 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is written and oral.

**Plan C:** Plan C requires 18 major credits and 12 credits outside the major. There is no final exam.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 2.80 is required for students to remain in good standing.

Courses must be taken on the A/F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

### Core Courses (12 credits)

Select at least 12 credits from the following in consultation with the advisor:

- MATS 8001 - Structure and Symmetry of Materials (3.0 cr)
- MATS 8002 - Thermodynamics and Kinetics (3.0 cr)
- MATS 8003 - Electronic Properties (3.0 cr)
- MATS 8004 - Mechanical Properties (3.0 cr)
- MATS 8201 - Applied Math (3.0 cr)
- MATS 8301 - Physical Rate Processes I: Transport (3.0 cr)

### Outside Coursework (6-12 credits)

Plan A students select at least 6 credits, and Plan C students select at least 12 credits from the following in consultation with the advisor. Other courses may be applied to this requirement with adviser and director of graduate studies approval.

- AEM 4511 - Mechanics of Composite Materials (3.0 cr)
- AEM 5451 - Optimal Estimation (3.0 cr)
- AEM 5501 - Continuum Mechanics (3.0 cr)
- AEM 5503 - Theory of Elasticity (3.0 cr)
- AEM 5581 - Mechanics of Solids (3.0 cr)
- AEM 8201 - Fluid Mechanics I (3.0 cr)
- AEM 8202 - Fluid Mechanics II (3.0 cr)
- AEM 8203 - Fluid Mechanics III (3.0 cr)
- AEM 8251 - Finite-Volume Methods in Computational Fluid Dynamics (3.0 cr)
- AEM 8421 - Robust Multivariable Control Design (3.0 cr)
- AEM 8423 - Convex Optimization Methods in Control (3.0 cr)

**Electives**

Select electives from the following, in consultation with the advisor, to meet the minimum number of course credits required. Other courses can be selected with director of graduate studies approval.

- MATS 4214 - Polymers (3.0 cr)
- MATS 5517 - Microscopy of Materials (3.0 cr)
- MATS 5531 - Electrochemical Engineering (3.0 cr)
- MATS 8001 - Structure and Symmetry of Materials (3.0 cr)
- MATS 8002 - Thermodynamics and Kinetics (3.0 cr)
- MATS 8003 - Electronic Properties (3.0 cr)
MATS 8004 - Mechanical Properties (3.0 cr)
MATS 8201 - Applied Math (3.0 cr)
MATS 8211 - Physical Chemistry of Polymers (4.0 cr)
MATS 8217 - Transmission Electron Microscopy (3.0 cr)
MATS 8221 - Synthetic Polymer Chemistry (4.0 cr)
MATS 8301 - Physical Rate Processes I: Transport (3.0 cr)

Plan Options

Plan A
Take 10 master's thesis credits.
MATS 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

-OR-

Plan C
Plan C students do not have additional requirements.
Materials Science and Engineering Minor
Chemical Engineering & Materials Science
College of Science and Engineering

Link to a list of faculty for this program.

Contact Information:
Department of Chemical Engineering and Materials Science, University of Minnesota, 151 Amundson Hall, 421 Washington Avenue SE, Minneapolis, MN 55455 (612-625-0382; fax: 612-626-7246)
Email: cemsgrad@umn.edu
Website: http://www.cems.umn.edu

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Research activities in the Chemical Engineering and Materials Science (CEMS) Department focus on the development of renewable energy technologies, the solution of important medical and biological engineering challenges, the development of advanced materials and characterization methods, and the application of sophisticated mathematical and theoretical models. Graduate courses offered cover core areas of chemical engineering (fluid mechanics, applied mathematics: linear and nonlinear analysis, transport, chemical thermodynamics, statistical thermodynamics and kinetics, and analysis of chemical reactors) and core areas of materials science (structure and symmetry of materials, thermodynamics and kinetics, transport, advanced mathematics, electronic properties of materials, and mechanical properties of materials). In addition, several specialized topics are offered, including biochemical engineering, biological transport processes, colloids, principles of mass transfer in engineering and biological engineering, rheology, process control, ceramics, polymers, scattering, and electrochemical engineering.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

The minor must be approved by the director of graduate studies in Materials Science and Engineering.

Courses must be taken on the A/F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

The minimum cumulative GPA for the minor is 3.00.

Minor Courses (6-12 credits)
Master’s students select two courses from the following for a minimum of 6 credits. Doctoral students must complete all four courses for 12 credits.
- MATS 8001 - Structure and Symmetry of Materials (3.0 cr)
- MATS 8002 - Thermodynamics and Kinetics (3.0 cr)
- MATS 8003 - Electronic Properties (3.0 cr)
- MATS 8004 - Mechanical Properties (3.0 cr)
Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Twin Cities Campus
Materials Science and Engineering Ph.D.
Chemical Engineering & Materials Science
College of Science and Engineering

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 57
- This program requires summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Research activities in the Chemical Engineering and Materials Science (CEMS) Department focus on the development of renewable energy technologies, the solution of important medical and biological engineering challenges, the development of advanced materials and characterization methods, and the application of sophisticated mathematical and theoretical models. Graduate courses offered cover core areas of chemical engineering (fluid mechanics, applied mathematics: linear and nonlinear analysis, transport, chemical thermodynamics, statistical thermodynamics and kinetics, and analysis of chemical reactors) and core areas of materials science (structure and symmetry of materials, thermodynamics and kinetics, transport, advanced mathematics, electronic properties of materials, and mechanical properties of materials). In addition, several specialized topics are offered, including biochemical engineering, biological transport processes, colloids, principles of mass transfer in engineering and biological engineering, rheology, process control, ceramics, polymers, scattering, and electrochemical engineering.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
A bachelor's degree in materials science or other related field.

Other requirements to be completed before admission:
Applicants must submit scores from the general test of the GRE, three letters of recommendation from persons familiar with their scholarship and research potential, a complete set of official transcripts, and a clearly written statement summarizing research/work experience and motivation for graduate work. International students are required to provide TOEFL results.

Special Application Requirements:
Applications are accepted for fall semester only. Submission of all application materials by December 15 is strongly encouraged to ensure priority consideration for fellowships and assistantships; late applications are considered if space is available.

Applicants must submit their test score(s) from the following:
- GRE

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5
- MELAB
  - Final score: 80
Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
21 credits are required in the major.
12 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

Courses must be taken on the A/F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

Students must attend, but not enroll in, the departmental seminar for six semesters. Informal attendance will be done within the department.

Core Courses (12 credits)
Select 12 credits from the following in consultation with the advisor:
- MATS 8001 - Structure and Symmetry of Materials (3.0 cr)
- MATS 8002 - Thermodynamics and Kinetics (3.0 cr)
- MATS 8003 - Electronic Properties (3.0 cr)
- MATS 8004 - Mechanical Properties (3.0 cr)
- MATS 8201 - Applied Math (3.0 cr)
- MATS 8301 - Physical Rate Processes I: Transport (3.0 cr)

Outside Coursework (12 credits)
Select 12 credits from the following in consultation with the advisor. Other courses may be applied to this requirement with adviser and director of graduate studies approval.
- AEM 4511 - Mechanics of Composite Materials (3.0 cr)
- AEM 5451 - Optimal Estimation (3.0 cr)
- AEM 5501 - Continuum Mechanics (3.0 cr)
- AEM 5503 - Theory of Elasticity (3.0 cr)
- AEM 5581 - Mechanics of Solids (3.0 cr)
- AEM 8201 - Fluid Mechanics I (3.0 cr)
- AEM 8202 - Fluid Mechanics II (3.0 cr)
- AEM 8203 - Fluid Mechanics III (3.0 cr)
- AEM 8251 - Finite-Volume Methods in Computational Fluid Dynamics (3.0 cr)
- AEM 8421 - Robust Multivariable Control Design (3.0 cr)
- AEM 8423 - Convex Optimization Methods in Control (3.0 cr)
- AEM 8525 - Elastic Stability of Materials (3.0 cr)
- AEM 8531 - Fracture Mechanics (3.0 cr)
- AEM 8541 - Mechanics of Crystalline Solids (3.0 cr)
- AEM 8581 - Multiscale Methods for Bridging Length and Time Scales (3.0 cr)

- Requirements for this program are current for Fall 2020  
- Length of program in credits: 30  
- This program does not require summer semesters for timely completion.  
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The School of Mathematics offers a master of science (MS) in mathematics. Students may also earn the MS degree with emphasis in applied and industrial mathematics or with emphasis in mathematics education.

Special areas of research include ordinary and partial differential equations; probability; real, complex, harmonic, functional, and numerical analysis; differential and algebraic geometry; topology; number theory; commutative algebra; group theory; logic; combinatorics; mathematical physics; and applied and industrial mathematics, mathematical biology, and dynamical systems.

**Program Delivery**
This program is available:  
- via classroom (the majority of instruction is face-to-face)

**Prerequisites for Admission**
The preferred undergraduate GPA for admittance to the program is 3.00.

Undergraduate degree in mathematics or equivalent.

Other requirements to be completed before admission:  
Applicants should have the prerequisite material of linear algebra, advanced calculus and differential equations, and should be ready for higher level courses in analysis and algebra.

GRE scores are not required for admission, but the Math subject test is strongly recommended.

To receive full consideration for financial support, international applicants should have a TOEFL score of at least 100 with a speaking score of at least 23.

**Special Application Requirements:**  
Applications are accepted for fall semester only. The application deadline is February 1.

International applicants must submit score(s) from one of the following tests:

- TOEFL  
  - Internet Based: Total Score: 79  
  - Internet Based: Writing Score: 21  
  - Internet Based: Reading Score: 19  
  - Internet Based: Speaking Score: 18

Key to test abbreviations (TOEFL).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements

Plan A: Plan A requires 14 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is oral.

Plan B: Plan B requires 15 to 30 major credits and 0 to 15 credits outside the major. The final exam is oral.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

Courses offered on both the A/F and S/N grading basis must be taken A/F, with a minimum grade of B earned for each course.

Students choose a program of coursework in consultation with their advisor and the director of graduate studies.

Major Field Coursework (14-15 credits)

Plan A students select at least 14 credits, and Plan B students select at least 15 credits in consultation with advisor and director of graduate studies.

Outside Coursework (6 to 15 credits)

Plan A students select at least 6 credits, and Plan B students select up to 15 credits in consultation with the advisor and director of graduate studies. Courses may include mathematics coursework outside the major research area.

Plan Options

Plan A

Take 10 master’s thesis credits.

MATH 8777 - Thesis Credits: Master’s (1.0 - 18.0 cr)

- OR -

Plan B
Twin Cities Campus
Mathematics Minor
School of Mathematics
College of Science and Engineering

Contact Information:
School of Mathematics, University of Minnesota, 127 Vincent Hall, 206 Church Street SE, Minneapolis, MN 55455 (612-624-6391, fax: 612-624-6702)
Email: gradprog@math.umn.edu
Website: http://www.math.umn.edu/grad/

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Special areas of research include ordinary and partial differential equations; probability: real, complex, harmonic, functional, and numerical analysis; differential and algebraic geometry; topology; number theory; commutative algebra; group theory; logic; combinatorics; mathematical physics; and applied and industrial mathematics, mathematical biology, and dynamical systems.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission

Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Mathematics director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Courses offered on both the A/F and S/N grading basis must be taken A/F, with a minimum grade of B earned for each course.

The minimum cumulative GPA for the minor is 3.00.

Consult the Mathematics director of graduate studies in advance for course approval.

Minor Coursework (6-12 credits)
A minimum of 6 credits and 2 courses are required for a master's minor and a minimum of 12 credits and 4 courses are required for a doctoral minor. Coursework must be at the 5xxx or 8xxx level and must be approved by the advisor and by the Mathematics Director of Graduate Studies.

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.
Twin Cities Campus
Mathematics Ph.D.
School of Mathematics
College of Science and Engineering

Link to a list of faculty for this program.

Contact Information:
127 Vincent Hall, 206 Church Street SE, Minneapolis, MN 55455 (612-624-6391; fax: 612-624-6702)
Email: gradprog@math.umn.edu
Website: http://www.math.umn.edu/grad/

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 60
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The School of Mathematics offers a PhD in mathematics and a PhD in mathematics with emphasis in applied mathematics.

Special areas of research include ordinary and partial differential equations; probability: real, complex, harmonic, functional, and numerical analysis; differential and algebraic geometry; topology; number theory; commutative algebra; group theory; logic; combinatorics; mathematical physics; and applied and industrial mathematics, mathematical biology, and dynamical systems.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Undergraduate degree in mathematics or equivalent.

Other requirements to be completed before admission:
Applicants should have the prerequisite material of abstract algebra, analysis, and topology. GRE scores are not required for admission, but the Math subject test is strongly recommended. To receive full consideration for financial support, international applicants should have a TOEFL score of at least 100 with a speaking score of at least 23.

Special Application Requirements:
Applications are accepted for fall semester only. The application deadline is December 15.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Internet Based - Speaking Score: 18

Key to test abbreviations (TOEFL).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
24 credits are required in the major.
12 credits are required outside the major.

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of September 04, 2020
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

Language Requirement: French, German, Italian, or Russian.

A minimum GPA of 3.00 is required for students to remain in good standing.

Courses offered on both the A/F and S/N grading basis must be taken A/F, with a minimum grade of B earned for each course.

Students choose a program of coursework in consultation with their advisor and the director of graduate studies that best prepares them for research in mathematics.

**Major Coursework (24 credits)**
A minimum of 24 major credits is required. Courses are selected with the advisor and director of graduate studies.

**Supporting Program (12 credits)**
A minimum of 12 credits in a minor or supporting program that supports the thesis research are required. If a supporting program is chosen, it may consist partly or entirely of mathematics courses outside the student's major research area. Coursework is selected with the advisor and director of graduate studies.

**Thesis Credits (24 credits)**
Complete 24 credits after passing preliminary oral exam.
**MATH 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)**

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Science in Mechanical Engineering

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Coursework and research for all graduate degrees are offered in advanced & additive manufacturing; bioengineering; combustion; computer-aided design; computer-aided manufacturing; control systems; energy conservation; environmental control; environmental engineering; fluid mechanics; heat and mass transfer; lubrication; machine design; manufacturing engineering; nanoengineering & nanotechnology; particle technology; plasma chemistry; plasma heat transfer; power, propulsion, and applied thermodynamics; solar energy; sprays & multiphase flows; systems dynamics; thermal energy storage; thermal environmental engineering; thermodynamics; transportation; tribology; vibration; wind energy; and interdisciplinary finite element methodology. Additional instructional and research programs can be formulated.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A four-year BS degree in engineering, science, or mathematics.

Other requirements to be completed before admission:
Integrated BS/MS degree eligibility requirements:
- Students must be enrolled in the Mechanical Engineering undergraduate program at the University of Minnesota Twin Cities.
- Students who are within 32 semester credits completing the requirements for the bachelor's degree are eligible to apply.
- Students with a GPA of 3.25 or greater are preferred. For students who have transferred from another institution, at least one semester must be completed at the University of Minnesota Twin Cities before admission to the program will be granted.

Special Application Requirements:
The department offers two options for applying to the masters degree program. The standard application requires a full set of application materials and allows admission to any of the MSME degree options (Plan A, B, or C). The streamlined application offers an abbreviated application process and admission is only for the coursework-only masters degree (Plan C).

The GRE test is not required for applicants to the streamlined application. Students admitted through the streamlined process are not eligible for financial support from the department.

Applications are accepted for fall semester only. The standard application deadline is December 15 and the streamlined application deadline is April 15.

Applicants must submit their test score(s) from the following:
- GRE
International applicants must submit score(s) from one of the following tests:

- **TOEFL**
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19

- **IELTS**
  - Total Score: 6.5

Key to test abbreviations (GRE, TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

**Program Requirements**

**Plan A:** Plan A requires 20 major credits, up to null credits outside the major, and 10 thesis credits. The final exam is oral.

**Plan B:** Plan B requires 30 major credits and up to null credits outside the major. The final exam is oral.

**Plan C:** Plan C requires 30 major credits and up to null credits outside the major. There is no final exam.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 2.8 is required for students to remain in good standing.

Courses offered on both the A/F and S/N grading basis must be taken A/F, with a minimum grade of B- earned for each course.

No more than 6 4xxx-level course credits can be applied to degree requirements.

**Major Courses (14 to 24 credits)**

Plan A and Plan B students select at least 14 credits, and Plan C students select at least 24 credits from the following in consultation with the advisor. All students must take 1 to 2 graduate seminar credits (ME 8773 or 8774) and 1 research and professional ethics course (ME 8001).

- AEM 5401 - Intermediate Dynamics (3.0 cr)

Plan Options

Plan A
Take 10 master's thesis credits.
ME 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

-OR-

Plan B
Plan B requires completion of a project or 1-3 Plan B papers, determined in consultation with adviser. Up to 4 credits of ME 8794, taken S/N, may be used for the Plan B project
ME 8794 - Mechanical Engineering Research (1.0 - 4.0 cr)

-OR-

Plan C
Up to 4 credits of ME 8794, taken S/N, may be applied to the degree requirements.
ME 8794 - Mechanical Engineering Research (1.0 - 4.0 cr)

Program Sub-plans
A sub-plan is not required for this program.
Students may not complete the program with more than one sub-plan.

Integrated B.M.E./M.S.M.E.
The Department of Mechanical Engineering offers an integrated bachelor's/master's degree program. The program makes it possible for students to earn a bachelor's degree (BME) and a master's degree (MSME) in Mechanical Engineering in five years. The program has several benefits: a streamlined admissions process from the undergraduate program to the graduate program; graduate student status granted in the senior year; eligibility for teaching and research assistantships; and flexibility in fulfilling required courses for both degrees simultaneously in the last two years of study.

Both the BME and MSME degrees must be completed in their entirety, with no courses shared between them. The graduate degree cannot be earned before the undergraduate requirements are satisfied. Admitted students who decide not to complete the MSME degree are permitted to count credits originally planned for the graduate program toward their undergraduate technical electives.

ME 8363 - Introduction to Reactive Flow Systems (3.0 cr)
ME 8381 - Bioheat and Mass Transfer (3.0 cr)
ME 8390 - Advanced Topics in the Thermal Sciences: Biostabilization in Biomedicine, and Biotechnology (1.0 - 3.0 cr)
ME 8446 - Advanced Combustion (3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Twin Cities Campus
Mechanical Engineering Ph.D.
Mechanical Engineering
College of Science and Engineering

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 62
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Coursework and research for all graduate degrees are offered in advanced & additive manufacturing; bioengineering; combustion; computer-aided design; computer-aided manufacturing; control systems; energy conservation; environmental control; environmental engineering; fluid mechanics; heat and mass transfer; lubrication; machine design; manufacturing engineering; nanoengineering & nanotechnology; particle technology; plasma chemistry; plasma heat transfer; power, propulsion, and applied thermodynamics; solar energy; sprays & multiphase flows; systems dynamics; thermal energy storage; thermal environmental engineering; thermodynamics; transportation; tribology; vibration; wind energy; and interdisciplinary finite element methodology. Additional instructional and research programs can be formulated.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A four-year BS degree in engineering, science, or mathematics.

Special Application Requirements:
Applications are accepted for fall semester only. The application deadline is December 15.

Applicants must submit their test score(s) from the following:
• GRE

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
• IELTS
  - Total Score: 6.5

Key to test abbreviations (GRE, TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements
38 credits are required in the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.0 is required for students to remain in good standing.

Courses must be taken on the A/F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

A minimum of 12 course credits at the 8000-level are required (seminars and ethics courses may not be included).

Major Courses (18 credits)
Select a minimum of 18 credits from the following. The credits must include 2-3 graduate seminar credits (ME 8773 or 8774) and one research and professional ethics course (ME 8001).

Information current as of September 04, 2020
ME 8350 - Heat Transfer Physics (3.0 cr)
ME 8361 - Molecular Gas Dynamics (3.0 cr)
ME 8362 - Introduction to Plasma Technology (3.0 cr)
ME 8383 - Introduction to Reactive Flow Systems (3.0 cr)
ME 8381 - Bioheat and Mass Transfer (3.0 cr)
ME 8390 - Advanced Topics in the Thermal Sciences : Biostabilization in Biomedicine, and Biotechnology (1.0 - 3.0 cr)
ME 8446 - Advanced Combustion (3.0 cr)
ME 8773 - Graduate Seminar (1.0 cr)
ME 8774 - Graduate Seminar (1.0 cr)

Electives (20 credits)
Select courses from the following, in consultation with the advisor, to complete minimum course credit requirements. Other courses may be applied with director of graduate studies approval.
AEM 4502 - Computational Structural Analysis (3.0 cr)
AEM 4511 - Mechanics of Composite Materials (3.0 cr)
AEM 4581 - Mechanics of Solids (3.0 cr)
AEM 5253 - Computational Fluid Mechanics (3.0 cr)
AEM 5401 - Intermediate Dynamics (3.0 cr)
AEM 5451 - Optimal Estimation (3.0 cr)
AEM 5501 - Continuum Mechanics (3.0 cr)
AEM 5503 - Theory of Elasticity (3.0 cr)
AEM 8201 - Fluid Mechanics I (3.0 cr)
AEM 8202 - Fluid Mechanics II (3.0 cr)
AEM 8207 - Hydrodynamic Stability (3.0 cr)
AEM 8211 - Theory of Turbulence I (3.0 cr)
AEM 8212 - Theory of Turbulence II (3.0 cr)
AEM 8232 - Physical Gas Dynamics and Molecular Simulation (3.0 cr)
AEM 8253 - Computational Methods in Fluid Mechanics (3.0 cr)
AEM 8421 - Robust Multivariable Control Design (3.0 cr)
AEM 8423 - Convex Optimization Methods in Control (3.0 cr)
AEM 8442 - Aerospace Positioning, Navigation and Timing (3.0 cr)
AEM 8451 - System Identification: Theory and Applications (3.0 cr)
AEM 8531 - Fracture Mechanics (3.0 cr)
BMEN 5001 - Advanced Biomaterials (3.0 cr)
BMEN 5151 - Introduction to BioMEMS and Medical Microdevices (2.0 cr)
BMEN 5201 - Advanced Biomechanics (3.0 cr)
BMEN 5311 - Advanced Biomedical Transport Processes (3.0 cr)
BMEN 5321 - Microfluidics in Biology and Medicine (3.0 cr)
CHEM 4502 - Introduction to Quantum Mechanics and Spectroscopy (3.0 cr)
CHEM 8021 - Computational Chemistry (4.0 cr)
CHEN 5771 - Colloids and Dispersions (3.0 cr)
CHEN 8102 - Principles and Applications of Rheology (2.0 cr)
CHEN 8301 - Physical Rate Processes I: Transport (3.0 cr)
CSCI 5552 - Sensing and Estimation in Robotics (3.0 cr)
EE 4541 - Digital Signal Processing (3.0 cr)
EE 5171 - Microelectronic Fabrication (4.0 cr)
EE 5173 - Basic Microelectronics Laboratory (1.0 cr)
EE 5231 - Linear Systems and Optimal Control (3.0 cr)
EE 5235 - Robust Control System Design (3.0 cr)
EE 5251 - Optimal Filtering and Estimation (3.0 cr)
EE 8215 - Nonlinear Systems (3.0 cr)
MATH 4512 - Differential Equations with Applications (3.0 cr)
MATH 5587 - Elementary Partial Differential Equations I (4.0 cr)
MATH 5588 - Elementary Partial Differential Equations II (4.0 cr)
MATH 8401 - Mathematical Modeling and Methods of Applied Mathematics (3.0 cr)
MATH 8402 - Mathematical Modeling and Methods of Applied Mathematics (3.0 cr)
PHYS 4051 - Methods of Experimental Physics I (5.0 cr)
PHYS 4101 - Quantum Mechanics (4.0 cr)
PHYS 4201 - Statistical and Thermal Physics (3.0 cr)
PHYS 4211 - Introduction to Solid-State Physics (3.0 cr)

Thesis Credits (24 credits)
Complete 24 thesis credits after passing preliminary oral exam.
ME 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 34
- This program requires summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The master of science in medical device innovation is an interdisciplinary program comprised of courses in the core areas of technology innovation management and medical industry dynamics. Students experiences are enhanced through therapeutic area-based group activities and hands-on experiences in innovative biodesign through practicums at the Medical Devices Center. Students have the opportunity to specialize in an area of interest by taking 9 credits of electives in medical, technical, or business courses. The 14-month program draws upon the fields of technology innovation, product development, project and business management, intellectual property, regulatory affairs, clinical needs, entrepreneurship, emerging trends, globalization, reimbursement, and public policy. This program provides students with a full understanding of medical device innovation from start to finish. In doing so, it goes well beyond the traditional technology focus of most master's programs.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A bachelor's degree in a related field, such as biological or physical sciences, engineering, computer science, mathematics, statistics, or business is preferred.

Other requirements to be completed before admission:
A strong background in science, engineering, and math, with at least two to five years of work experience, is preferred.

Special Application Requirements:
Applications are accepted on a rolling basis for the program's start in fall of each year.

Students may choose to complete the program by the Traditional option, which is 4 semesters long; or by the Extended option, which is 5 semesters and provides additional time to complete the final project and elective courses. The required credits and tuition are the same for both options.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5
• MELAB
  - Final score: 80

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan B: Plan B requires 28 major credits and 6 credits outside the major. The final exam is written and oral. A capstone project is required.

Capstone Project: The capstone project is independent, original, and applied research on a relevant subject, problem, or issue in areas of medical device technologies, policy, business, or innovation. The capstone project is rooted in real-world topics in the industry, and is usually framed in cooperation with the students organization or employer. The capstone is the students opportunity to demonstrate mastery of the concepts and methods (quantitative as well as qualitative) that have been learned in the MDI program, and to apply them to an industry-based medical device technology, venture, process, or organizational challenge.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.0 is required for students to remain in good standing.

Courses must be taken on the A/F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

4xxx-level courses may be used towards program requirements with prior approval from the Director of Graduate Studies.

Core Courses (26 Credits)

- Complete the following courses. Take MDI 5001 for 1 credit.
  - MDI 5001 - Technical Writing Essentials (0.0 - 1.0 cr)
  - MDI 5002 - Technology Foresight and Forecasting (3.0 cr)
  - MDI 5004 - Clinical Foundations of Medical Device Innovation (3.0 cr)
  - MDI 5006 - Finance, Valuation, and Entrepreneurship (3.0 cr)
  - MDI 5008 - Quality, Regulatory and Manufacturing Management (2.0 cr)
  - MDI 5010 - Product Innovation & Development Management (3.0 cr)
  - MDI 5012 - Medical Industry Macro Environment (3.0 cr)
  - MDI 5013 - Medical Device Center Practicum I (2.0 cr)
  - MDI 5014 - Medical Device Center Practicum II (2.0 cr)
  - MDI 5015 - Medical Device Center Practicum III (2.0 cr)
  - MDI 5050 - Interpersonal & Team Effectiveness (1.0 cr)
  - MDI 5051 - Leading Innovation & Change (1.0 cr)

Electives (6 Credits)

- Complete a minimum of six credits of electives from the following in consultation with adviser.
  - BMEN 5001 - Advanced Biomaterials (3.0 cr)
  - BMEN 5041 - Tissue Engineering (3.0 cr)
  - BMEN 5101 - Advanced Bioelectricity and Instrumentation (3.0 cr)
  - BMEN 5151 - Introduction to BioMEMS and Medical Microdevices (2.0 cr)
  - BMEN 5201 - Advanced Biomechanics (3.0 cr)
  - BMEN 5311 - Advanced Biomedical Transport Processes (3.0 cr)
  - BMEN 5321 - Microfluidics in Biology and Medicine (3.0 cr)
  - BMEN 5351 - Cell Engineering (3.0 cr)
  - BMEN 5401 - Advanced Biomedical Imaging (3.0 cr)
  - BMEN 5411 - Neural Engineering (3.0 cr)
  - BMEN 5412 - Neuromodulation (3.0 cr)
  - BMEN 5413 - Neural Decoding and Interfacing (3.0 cr)
  - BMEN 5421 - Introduction to Biomedical Optics (3.0 cr)
  - BMEN 5501 - Biology for Biomedical Engineers (3.0 cr)
  - BMEN 5701 - Cancer Bioengineering (3.0 cr)
BMEN 8101 - Biomedical Digital Signal Processing (3.0 cr)
BTHX 5100 - Introduction to Clinical Ethics (3.0 cr)
BTHX 5210 - Ethics of Human Subjects Research (3.0 cr)
BTHX 5300 - Foundations of Bioethics (3.0 cr)
BTHX 5325 - Biomedical Ethics (3.0 cr)
BTHX 5400 - Intro Ethics in Hlth Policy (3.0 cr)

BTHX 5620 - Social Context of Health and Illness (3.0 cr)
BTHX 8114 - Ethical and legal Issues in Genetic Counseling (3.0 cr)
BTHX 8510 - Gender and the Politics of Health (3.0 cr)
BTHX 8610 - Medical Consumerism (3.0 cr)
CSCI 5103 - Operating Systems (3.0 cr)
CSCI 5105 - Introduction to Distributed Systems (3.0 cr)
CSCI 5115 - User Interface Design, Implementation and Evaluation (3.0 cr)
CSCI 5143 - Real-Time and Embedded Systems (3.0 cr)
CSCI 5204 - Advanced Computer Architecture (3.0 cr)
CSCI 5211 - Data Communications and Computer Networks (3.0 cr)
CSCI 5221 - Foundations of Advanced Networking (3.0 cr)
CSCI 5231 - Wireless and Sensor Networks (3.0 cr)
CSCI 5451 - Introduction to Parallel Computing: Architectures, Algorithms, and Programming (3.0 cr)
CSCI 5461 - Functional Genomics, Systems Biology, and Bioinformatics (3.0 cr)
CSCI 5481 - Computational Techniques for Genomics (3.0 cr)
CSCI 5523 - Introduction to Data Mining (3.0 cr)
CSCI 5551 - Introduction to Intelligent Robotic Systems (3.0 cr)
CSCI 5552 - Sensing and Estimation in Robotics (3.0 cr)
CSCI 5609 - Visualization (3.0 cr)
CSCI 5707 - Principles of Database Systems (3.0 cr)
CSCI 5708 - Architecture and Implementation of Database Management Systems (3.0 cr)
CSCI 5801 - Software Engineering I (3.0 cr)
CSCI 5802 - Software Engineering II (3.0 cr)
CSCI 8725 - Databases for Bioinformatics (3.0 cr)
DES 5185 - Human Factors in Design (3.0 cr)
EE 5121 - Transistor Device Modeling for Circuit Simulation (3.0 cr)
EE 5141 - Introduction to Microsystem Technology (4.0 cr)
EE 5163 - Semiconductor Properties and Devices I (3.0 cr)
EE 5164 - Semiconductor Properties and Devices II (3.0 cr)
EE 5171 - Microelectronic Fabrication (4.0 cr)
EE 5181 - Micro and Nanotechnology by Self Assembly (3.0 cr)
EE 5251 - Optimal Filtering and Estimation (3.0 cr)
EE 5364 - Advanced Computer Architecture (3.0 cr)
EE 5371 - Computer Systems Performance Measurement and Evaluation (3.0 cr)
EE 5393 - Circuits, Computation, and Biology (3.0 cr)
EE 5542 - Adaptive Digital Signal Processing (3.0 cr)
EE 5545 - Digital Signal Processing Design (3.0 cr)
EE 5551 - Multiscale and Multirate Signal Processing (3.0 cr)
EE 5581 - Information Theory and Coding (3.0 cr)
EE 5583 - Error Control Coding (3.0 cr)
EE 5585 - Data Compression (3.0 cr)
EE 8367 - Parallel Computer Organization (3.0 cr)
ENTR 6020 - Business Formation (4.0 cr)
HINF 5502 - Python Programming Essentials for the Health Sciences (1.0 cr)
HINF 5510 - Applied Health Care Databases: Database Principles and Data Evaluation (3.0 cr)
HINF 5520 - Informatics Methods for Health Care Quality, Outcomes, and Patient Safety (2.0 cr)
HINF 5530 - Health Care Software Management (2.0 cr)
HINF 5531 - Health Data Analytics and Data Science (3.0 cr)
IE 5111 - Systems Engineering I (2.0 cr)
IE 5113 - Systems Engineering II (4.0 cr)
IE 5522 - Quality Engineering and Reliability (4.0 cr)
IE 5541 - Project Management (4.0 cr)
IE 5545 - Decision Analysis (4.0 cr)
IE 5551 - Production Planning and Inventory Control (4.0 cr)
IE 5553 - Simulation (4.0 cr)
IMBA 6405 - Industry Vertical: Health (2.0 cr)
MBA 6110 - Leading Others (2.0 cr)
MBA 6300 - Strategic Management (3.0 cr)
ME 5223 - Materials in Design (4.0 cr)
ME 5341 - Case Studies in Thermal Engineering and Design (4.0 cr)
ME 8381 - Bioheat and Mass Transfer (3.0 cr)
ME 8775 - Technical Communication (1.0 cr)
MGMT 6050 - Management of Innovation and Change (2.0 cr)
MGMT 6100 - Topics in Management (1.0 - 4.0 cr)
MILI 6235 - Pharmaceutical Industry: Business and Policy (2.0 cr)
MILI 6562 - Information Technology in Health Care (2.0 cr)
MILI 6589 - Medical Technology Evaluation and Market Research (2.0 cr)
MILI 6726 - Medical Device Industry: Business and Public Policy (2.0 cr)
MILI 6990 - The Health Care Marketplace (2.0 cr)
MILI 6991 - Healthcare Delivery Innovations: Optimizing Cost and Quality (2.0 cr)
MILI 6995 - Medical Industry Valuation Laboratory (2.0 cr)
MKTG 6088 - Strategic Marketing (2.0 cr)
NEUR 5230 - Cerebrovascular Hemodynamics and Diseases I (4.0 cr)

MDI 5020 - Medical Device Innovation Capstone (1.0 - 2.0 cr)
Twin Cities Campus

Neuroengineering Minor
Department of Biomedical Engineering
College of Science and Engineering

Link to a list of faculty for this program.

Contact Information:
Graduate Minor in Neuroengineering, 7-105 Nils Hasselmo Hall, 312 Church Street S.E., Minneapolis, MN 55455 (612-624-8396; fax 612-626-6583)
Email: bmengqs@umn.edu
Website: http://cne.umn.edu/

• Program Type: Graduate free-standing minor
• Requirements for this program are current for Fall 2020
• Length of program in credits (Doctorate): 12
• This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The graduate minor in neuroengineering (NE) is motivated by the notion that future breakthroughs in this rapidly-growing area of research will be made by engineers who understand the fundamental issues and principles of neuroscience that occur during neural interventions, and by neuroscientists who are truly competent in engineering concepts and tools. The minor trains doctoral students to develop the skills to revolutionize technologies for interfacing with the brain and to advance our understanding of the neuroscience processes that arise when we interface with and modulate the brain.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Other requirements to be completed before admission:
Enrollment in the neuroengineering minor is open to all currently enrolled PhD students in biomedical engineering, electrical engineering, mechanical engineering, and neuroscience. PhD students majoring in other programs may obtain approval from the neuroengineering director of graduate studies to participate in the minor program if they have the necessary science background to complete the coursework and are in good standing in their major program.

Students must officially declare the minor before taking the Oral Preliminary Examination (OPE).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Coursework must be approved by the neuroengineering director of graduate studies.

For any course listed in multiple categories, students must choose which requirement that course will fulfill. A single course cannot be counted simultaneously toward multiple categories.

Courses must be completed for a letter grade (A-F), with a minimum grade of B- required to be counted toward the minor.

The minimum cumulative GPA for the minor is 3.0

Neuroengineering Seminar (1-2 credits)
One credit of seminar is required, but it may be taken for credit twice.
BMEN 8411 - Neuroengineering Seminar (2.0 cr)
Neuroengineering Course (3 credits)
It is strongly recommended that students take BMEn 5411 Neural Engineering, unless they have previously completed a neural engineering course.
Take 1 or more course(s) totaling 3 or more credit(s) from the following:
- BMEN 5411 - Neural Engineering (3.0 cr)
- BMEN 5412 - Neuromodulation (3.0 cr)

Neuroscience Course (3-4 credits)
Take 1 or more course(s) totaling 3 or more credit(s) from the following:
- NSCI 5101 - Neurobiology I: Molecules, Cells, and Systems (3.0 cr)
- NSC 5561 - Systems Neuroscience (4.0 cr)

Electives (3-5 credits)
Complete additional coursework to meet the 12 credit minimum for the minor. Additional courses may be approved by the neuroengineering DGS.
BMEN 5401 - Advanced Biomedical Imaging (3.0 cr)
BMEN 5411 - Neural Engineering (3.0 cr)
BMEN 5412 - Neuromodulation (3.0 cr)
BMEN 5413 - Neural Decoding and Interfacing (3.0 cr)
BMEN 8101 - Biomedical Digital Signal Processing (3.0 cr)
BMEN 8151 - Biomedical Electronics and Implantable Microsystems (3.0 cr)
BMEN 8411 - Neuroengineering Seminar (2.0 cr)
BMEN 8502 - Physiological Control Systems (3.0 cr)
EE 5231 - Linear Systems and Optimal Control (3.0 cr)
EE 5239 - Introduction to Nonlinear Optimization (3.0 cr)
EE 5542 - Adaptive Digital Signal Processing (3.0 cr)
ME 5281 - Feedback Control Systems (4.0 cr)
ME 5286 - Robotics (4.0 cr)
MPHY 5178 - Physical Principles of Magnetic Resonance Imaging (3.0 cr)
MPHY 8147 - Advanced Physics of Magnetic Resonance Imaging (MRI) (3.0 cr)
NSC 8111 - Quantitative Neuroscience (3.0 cr)
NSC 8217 - Systems and Computational Neuroscience (2.0 cr)
PSY 5036W - Computational Vision [WI] (3.0 cr)
PSY 5038W - Introduction to Neural Networks [WI] (3.0 cr)
PSY 5063 - Introduction to Functional MRI (3.0 cr)
PSY 5065 - Functional Imaging: Hands-on Training (3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Doctoral
Twin Cities Campus  
Physics M.S.  
School of Physics & Astronomy  
College of Science and Engineering

Link to a list of faculty for this program.

Contact Information:
Director of Graduate Studies in Physics, School of Physics and Astronomy, University of Minnesota, 116 Church St. SE, Minneapolis, MN 55455 (612-626-5982; fax: 612-624-4578)
Email: physics@umn.edu
Website: http://www.physics.umn.edu/grad

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Physics is the study of the fundamental structure and interactions of matter. Research areas in the program include experimental and theoretical studies in astrophysics and cosmology, biological physics, condensed matter physics, elementary particle physics, nuclear physics, space and planetary physics, and physics education research. Interdisciplinary study is also available with the programs in astrophysics, biological sciences, chemistry, chemical engineering and materials science, electrical and computer engineering, mechanical engineering, and the history of science and technology.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.30.

Other requirements to be completed before admission:
Upper division courses in the core areas of classical mechanics, electricity and magnetism, quantum mechanics, and statistical and thermal physics are required. It is advisable to have taken an upper division course in experimental methods in physics.

Students applying for a terminal M.S. degree are not admitted, unless they arrange for their own financial support. Students admitted to the Physics Ph.D. program are automatically eligible for the M.S.

Special Application Requirements:
GRE scores are not required but are strongly recommended. Applications are accepted for fall semester only. The application deadline is December 15.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5
- MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the
Program Requirements

**Plan A:** Plan A requires 20 major credits, 0 credits outside the major, and 10 thesis credits. The final exam is oral.

**Plan B:** Plan B requires 30 major credits and 0 credits outside the major. The final exam is oral. A capstone project is required.

**Capstone Project:** The Plan B project is a self-contained research problem performed in conjunction with the student's advisor. Students register for 4 credits of Physics 8500: Plan B project, which count toward the program requirement of 30 credits. The project is described in a written paper. Examples of Plan B projects include carrying out a specific calculation, writing and documenting a computer program, analyzing a set of experimental data, designing and/or constructing experimental instrumentation, and designing and/or constructing an undergraduate laboratory experiment. The alternative to the Plan B project is writing 1-3 Plan B papers. The Plan B papers are related to three courses that the student has taken and do not require original research. It is expected that completion of either the project or the Plan B papers require a nominal three weeks of full-time effort.

**Plan C:** Plan C requires 30 major credits and 0 credits outside the major. There is no final exam.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Physics 4001, 4002, 4101, 4201, and 4303 cannot be used to satisfy degree requirements.

Courses must be taken on the A/F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

**Required Courses (8-16 credits)**
- Plan A and Plan B students complete either the quantum mechanics sequence or the classical physics sequence. Plan C students must complete both sequences.
  - **Quantum Mechanics Sequence**
    - PHYS 5001 - Quantum Mechanics I (4.0 cr)
    - PHYS 5002 - Quantum Mechanics II (4.0 cr)
  - **Classical Physics Sequence**
    - PHYS 5011 - Classical Physics I (4.0 cr)
    - PHYS 5012 - Classical Physics II (4.0 cr)

**Elective Courses (11-22 credits)**
- Plan A students select 12 credits, Plan B students select up to 22 credits, and Plan C students select 11 credits from the following, in consultation with the advisor. Additional courses may be approved by the director of graduate studies.

**Atomic Physics and Optics**
- PHYS 8161 - Atomic and Molecular Structure (3.0 cr)

**Biophysics and Medical Physics**
- PHYS 5081 - Introduction to Biopolymer Physics (3.0 cr)
- PHYS 8311 - Biological Physics of Single Molecules (3.0 cr)
- PHYS 8312 - Biological Physics of Macroscopic Systems (3.0 cr)
- PHYS 8300 - Seminar: Biological and Medical Physics (1.0 cr)

**Condensed Matter Physics**
- PHYS 4211 - Introduction to Solid-State Physics (3.0 cr)
- PHYS 5701 - Solid-State Physics for Engineers and Scientists (4.0 cr)
- PHYS 8014 - Quantum many Body Systems (3.0 cr)
- PHYS 8700 - Seminar: Condensed Matter Physics (1.0 cr)
- PHYS 8702 - Statistical Mechanics and Transport Theory (3.0 cr)
- PHYS 8711 - Solid-State Physics I (3.0 cr)
- PHYS 8712 - Solid-State Physics II (3.0 cr)
- PHYS 8750 - Advanced Topics in Condensed Matter Physics (3.0 cr)

**Elementary Particle Physics**
- PHYS 4511 - Introduction to Nuclear and Particle Physics (3.0 cr)
- PHYS 8011 - Quantum Field Theory I (3.0 cr)
- PHYS 8012 - Quantum Field Theory II (3.0 cr)
- PHYS 8013 - Special Topics in Quantum Field Theory (3.0 cr)
- PHYS 8901 - Elementary Particle Physics I (3.0 cr)
- PHYS 8902 - Elementary Particle Physics II (3.0 cr)
- PHYS 8911 - Introduction to Supersymmetry (3.0 cr)
PHYS 8950 - Advanced Topics in Elementary Particle Physics (3.0 cr)
PHYS 8900 - Seminar: Elementary Particle Physics (1.0 cr)

Mathematical, Advanced Quantum, and Computational Physics
PHYS 5041 - Mathematical Methods for Physics (4.0 cr)
PHYS 8001 - Advanced Quantum Mechanics (3.0 cr)
PHYS 8301 - Symmetry and Its Application to Physical Problems (3.0 cr)

Nuclear Physics
PHYS 8800 - Seminar: Nuclear Physics (1.0 cr)
PHYS 8801 - Nuclear Physics I (3.0 cr)
PHYS 8802 - Nuclear Physics II (3.0 cr)
PHYS 8850 - Advanced Topics in Nuclear Physics (3.0 cr)

Plasma and Space Physics
PHYS 4611 - Introduction to Space Physics (3.0 cr)
PHYS 4621 - Introduction to Plasma Physics (3.0 cr)
PHYS 5621 - Introduction to Plasma Physics (3.0 cr)
PHYS 8600 - Seminar: Space Physics (1.0 cr)
PHYS 8601 - Plasma Physics I (3.0 cr)
PHYS 8602 - Plasma Physics II (3.0 cr)
PHYS 8611 - Cosmic Rays and Plasma Astrophysics (3.0 cr)
PHYS 8650 - Advanced Topics in Space and Plasma Physics (3.0 cr)

Relativity and Cosmology
PHYS 5022 - Relativity, Cosmology, and the Universe (4.0 cr)
PHYS 8501 - General Relativity and Cosmology I (3.0 cr)
PHYS 8502 - General Relativity and Cosmology II (3.0 cr)
PHYS 8200 - Seminar: Cosmology and High Energy Astrophysics (1.0 cr)

Physics Education
PHYS 5071 - Physics for High School Teachers: Experimental Foundations and Historical Perspectives (3.0 cr)
PHYS 5072 - Best Practices in College Physics Teaching (1.0 - 3.0 cr)
PHYS 8100 - Seminar: Problems of Physics Teaching and Higher Education (1.0 cr)

Plan Options

Plan A (10 credits)
Complete 10 thesis credits. The minimum GPA to remain in good standing is 2.8
PHYS 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)
-OR-

Plan B (0-4 credits)
Up to 4 credits of PHYS 8500 may be used for the Plan B project. The minimum GPA to remain in good standing is 2.8.
PHYS 8500 - Plan B Project (4.0 cr)
-OR-

Plan C (3 credits)
Plan C students must complete PHYS 5201. Plan C students must also pass the Physics Graduate Written Exam. The minimum GPA to remain in good standing is 3.3.
PHYS 5201 - Thermal and Statistical Physics (3.0 cr)
Twin Cities Campus

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Physics is the study of the fundamental structure and interactions of matter. Research areas in the program include experimental and theoretical studies in astrophysics and cosmology, biological physics, condensed matter physics, elementary particle physics, nuclear physics, space and planetary physics, and physics education research. Interdisciplinary study is also available with the programs in astrophysics, biological sciences, chemistry, chemical engineering and materials science, electrical and computer engineering, mechanical engineering, and the history of science and technology.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Other requirements to be completed before admission:
A physics minor requires a background in differential and integral calculus and one year of calculus-level college physics.

Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Physics director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Courses must be taken on the A/F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

The minimum cumulative GPA for the minor is 3.00.

The following courses cannot be used to satisfy the requirements: Physics 4001, 4002, 4101, 4201, and 4303.

Elective Courses (2-4 credits)
In addition to the required courses, master's students select 2 credits, and doctoral students select 4 credits from the following in consultation with the Physics director of graduate studies to complete minimum credit requirements.

Atomic Physics and Optics
PHYS 8161 - Atomic and Molecular Structure (3.0 cr)

Biophysics and Medical Physics
PHYS 5081 - Introduction to Biopolymer Physics (3.0 cr)
PHYS 8311 - Biological Physics of Single Molecules (3.0 cr)
PHYS 8312 - Biological Physics of Macroscopic Systems (3.0 cr)
PHYS 8300 - Seminar: Biological and Medical Physics. (1.0 cr)

Condensed Matter Physics
PHYS 4211 - Introduction to Solid-State Physics (3.0 cr)
PHYS 5701 - Solid-State Physics for Engineers and Scientists (4.0 cr)
PHYS 8014 - Quantum many Body Systems (3.0 cr)
PHYS 8700 - Seminar: Condensed Matter Physics (1.0 cr)
PHYS 8702 - Statistical Mechanics and Transport Theory (3.0 cr)
PHYS 8711 - Solid-State Physics I (3.0 cr)
PHYS 8712 - Solid-State Physics II (3.0 cr)
PHYS 8750 - Advanced Topics in Condensed Matter Physics (3.0 cr)

Elementary Particle Physics
PHYS 4511 - Introduction to Nuclear and Particle Physics (3.0 cr)
PHYS 8011 - Quantum Field Theory I (3.0 cr)
PHYS 8012 - Quantum Field Theory II (3.0 cr)
PHYS 8013 - Special Topics in Quantum Field Theory (3.0 cr)
PHYS 8901 - Elementary Particle Physics I (3.0 cr)
PHYS 8902 - Elementary Particle Physics II (3.0 cr)
PHYS 8911 - Introduction to Supersymmetry (3.0 cr)
PHYS 8950 - Advanced Topics in Elementary Particle Physics (3.0 cr)
PHYS 8900 - Seminar: Elementary Particle Physics (1.0 cr)

Mathematical, Advanced Quantum, and Computational Physics
PHYS 5041 - Mathematical Methods for Physics (4.0 cr)
PHYS 8001 - Advanced Quantum Mechanics (3.0 cr)
PHYS 8301 - Symmetry and Its Application to Physical Problems (3.0 cr)

Nuclear Physics
PHYS 8800 - Seminar: Nuclear Physics (1.0 cr)
PHYS 8801 - Nuclear Physics I (3.0 cr)
PHYS 8802 - Nuclear Physics II (3.0 cr)
PHYS 8850 - Advanced Topics in Nuclear Physics (3.0 cr)

Plasma and Space Physics
PHYS 4611 - Introduction to Space Physics (3.0 cr)
PHYS 4621 - Introduction to Plasma Physics (3.0 cr)
PHYS 5621 - Introduction to Plasma Physics (3.0 cr)
PHYS 8600 - Seminar: Space Physics (1.0 cr)
PHYS 8601 - Plasma Physics I (3.0 cr)
PHYS 8602 - Plasma Physics II (3.0 cr)
PHYS 8611 - Cosmic Rays and Plasma Astrophysics (3.0 cr)
PHYS 8650 - Advanced Topics in Space and Plasma Physics (3.0 cr)

Relativity and Cosmology
PHYS 5022 - Relativity, Cosmology, and the Universe (4.0 cr)
PHYS 8501 - General Relativity and Cosmology I (3.0 cr)
PHYS 8502 - General Relativity and Cosmology II (3.0 cr)
PHYS 8200 - Seminar: Cosmology and High Energy Astrophysics (1.0 cr)

Physics Education
PHYS 5071 - Physics for High School Teachers: Experimental Foundations and Historical Perspectives (3.0 cr)
PHYS 5072 - Best Practices in College Physics Teaching (1.0 - 3.0 cr)
PHYS 8100 - Seminar: Problems of Physics Teaching and Higher Education (1.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Masters
Required Courses (4 credits)
Complete either Physics 5001 or 5011 for 4 credits.
PHYS 5001 - Quantum Mechanics I (4.0 cr)

or PHYS 5011 - Classical Physics I (4.0 cr)
Doctoral

Required Courses (8 credits)
Complete either the classical physics sequence or the quantum mechanics sequence for 8 credits.

Quantum Mechanics Sequence
- PHYS 5001 - Quantum Mechanics I (4.0 cr)
- PHYS 5002 - Quantum Mechanics II (4.0 cr)

or Classical Physics Sequence
- PHYS 5011 - Classical Physics I (4.0 cr)
- PHYS 5012 - Classical Physics II (4.0 cr)
Twin Cities Campus
Physics Ph.D.

Information current as of September 04, 2020
Program Requirements

40 credits are required in the major.
0 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.30 is required for students to remain in good standing.

Physics 4001, 4002, 4101, 4201, and 4303 cannot be used to satisfy the requirements.

Courses must be taken on the A/F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

Required Courses (19 credits)

PHYS 5001 - Quantum Mechanics I (4.0 cr)
PHYS 5002 - Quantum Mechanics II (4.0 cr)
PHYS 5011 - Classical Physics I (4.0 cr)
PHYS 5012 - Classical Physics II (4.0 cr)
PHYS 5201 - Thermal and Statistical Physics (3.0 cr)

Seminars (2 credits)

Take 2 or more course(s) totaling 2 or more credit(s) from the following:

• PHYS 8100 - Seminar: Problems of Physics Teaching and Higher Education (1.0 cr)
• PHYS 8200 - Seminar: Cosmology and High Energy Astrophysics (1.0 cr)
• PHYS 8300 - Seminar: Biological and Medical Physics. (1.0 cr)
• PHYS 8600 - Seminar: Space Physics (1.0 cr)
• PHYS 8700 - Seminar: Condensed Matter Physics (1.0 cr)
• PHYS 8800 - Seminar: Nuclear Physics (1.0 cr)
• PHYS 8900 - Seminar: Elementary Particle Physics (1.0 cr)

Electives (19 credits)

Select courses from the following, in consultation with the advisor, to complete the 40 course credits required. Students whose financial support comes from TA assignments are also required to complete 3 credits of PHYS 5072 over two semesters. Additional courses may be approved by the director of graduate studies.

Atomic Physics and Optics

PHYS 8161 - Atomic and Molecular Structure (3.0 cr)

Biophysics and Medical Physics

PHYS 5081 - Introduction to Biopolymer Physics (3.0 cr)
PHYS 8311 - Biological Physics of Single Molecules (3.0 cr)
PHYS 8312 - Biological Physics of Macroscopic Systems (3.0 cr)
PHYS 8300 - Seminar: Biological and Medical Physics. (1.0 cr)

Email: qpminor@umn.edu
Website: [http://lrc.geo.umn.edu/qpminor/index.html](http://lrc.geo.umn.edu/qpminor/index.html)

- Program Type: Graduate free-standing minor
- Requirements for this program are current for Fall 2020
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The faculty of the graduate minor in quaternary paleoecology (QP) hold appointments in several departments. Students in this unique program benefit from the broad range of expertise and experience available at a large research university. From their coursework in the minor, graduate students learn techniques and approaches from other areas that can be applied to their own research.

**Program Delivery**
This program is available:
- via classroom (the majority of instruction is face-to-face)

**Prerequisites for Admission**
Other requirements to be completed before admission:
Students must be enrolled in a graduate program (master's or doctoral) at the University of Minnesota.

**Special Application Requirements:**
Students apply by sending a letter of application to the director of graduate studies (qpminor@umn.edu) as well as a letter of endorsement from their major adviser. Application may be made at any time.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

**Program Requirements**
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

The Quaternary Paleoecology minor curriculum is developed in consultation with the major advisor and the Quaternary Paleoecology director of graduate studies. Courses must be from relevant disciplines outside the major field.

Courses offered on both the A/F and S/N grade basis must be taken A/F.

The minimum cumulative GPA for the minor is 3.00.

**Minor Courses (6-12 credits)**
Masters students select at least 6 credits, and doctoral students select at least 12 credits from the following list. Alternative coursework can be applied to the minor with approval from the major advisor and Quaternary Paleoecology director of graduate studies.

- ANTH 4077 - Neanderthals: Biology and Culture of Humanity’s Nearest Relative (3.0 cr)
- ANTH 4329 - Primate Ecology and Social Behavior (3.0 cr)
- ANTH 5009 - Human Behavioral Biology (3.0 cr)
- ANTH 5015W - Biology, Evolution, and Cultural Development of Language & Music [SOCS, WI] (3.0 cr)
ANTH 5041 - Ecological Anthropology (3.0 cr)
ANTH 5269 - Analysis of Stone Tool Technology (4.0 cr)
ANTH 5401 - The Human Fossil Record (3.0 cr)
ANTH 5402 - Zooarchaeology Laboratory (3.0 cr)
ANTH 5403 - Quantitative Methods in Biological Anthropology (4.0 cr)
ANTH 5405 - Human Skeletal Analysis (4.0 cr)
ANTH 5442 - Archaeology of the British Isles (3.0 cr)
CEGE 5541 - Environmental Water Chemistry (3.0 cr)
CEGE 5551 - Environmental Microbiology (3.0 cr)
CEGE 8508 - Ecological Fluid Mechanics (4.0 cr)
CEGE 8511 - Mechanics of Sediment Transport (3.0 cr)
CEGE 8551 - Environmental Microbiology: Molecular Theory and Methods (4.0 cr)
CEGE 8552 - Groundwater Microbiology: Laboratory (4.0 cr)
CEGE 8553 - Biofilms (3.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 31
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Master of Science (MS) in Robotics program provides a strong foundation in Robotics by gathering in a single program the knowledge, expertise, and educational assets in the areas relevant to robotics, which include robot modeling and control, perception using cameras and other sensors, and cognition to reason, plan, and make decisions.

Students who graduate from this regular 2-year masters program will learn the state-of-the-art methods for developing and using robots, be exposed to the cutting edge technologies and theory forming the basis for the next generation of robots and their applications in areas such as agriculture, underwater exploration, autonomous driving, and manufacturing applications.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Applicants must have a bachelor's degree from an accredited college or university in engineering (any), computer science, physics, or mathematics.

Other requirements to be completed before admission:
Programming experience including basic algorithms and data structures normally taught in beginning computer science courses either as part of the undergraduate degree or subsequent work experience is required. Students who are missing some of the background preparation can be admitted but will be required to complete some of the relevant undergraduate courses.

In lieu of GRE scores, an applicant may use industry experience. At least three years of demonstrated industry experience are needed in this case.

Special Application Requirements:
Applications are accepted on a rolling basis.

Applicants must submit their test score(s) from the following:
- GRE

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5
Key to test abbreviations (GRE, TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan A: Plan A requires 21 major credits, up to null credits outside the major, and 10 thesis credits. The final exam is oral.

Plan B: Plan B requires 31 major credits and up to null credits outside the major. The final exam is written and oral. A capstone project is required.

Capstone Project: The capstone project, completed in consultation with the advisor, covers a theoretical or practical problem in robotics. It includes a written report and a poster-session presentation in spring semester.

Plan C: Plan C requires 31 major credits and up to null credits outside the major. The final exam is oral.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

Courses must be taken on the A/F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

Required courses (9 credits)
Select one course from each emphasis area in consultation with the advisor.

Cognition (3 credits)
- CSCI 5511 - Artificial Intelligence I (3.0 cr)
- CSCI 5512 - Artificial Intelligence II (3.0 cr)
- CSCI 5521 - Introduction to Machine Learning (3.0 cr)
- CSCI 5525 - Machine Learning (3.0 cr)

Perception (3 credits)
- CSCI 5561 - Computer Vision (3.0 cr)
- EE 5561 - Image Processing and Applications (3.0 cr)

Robot Modeling and Control (3 credits)
- AEM 5321 - Modern Feedback Control (3.0 cr)
- CSCI 5551 - Introduction to Intelligent Robotic Systems (3.0 cr)
- CSCI 5552 - Sensing and Estimation in Robotics (3.0 cr)
- EE 5231 - Linear Systems and Optimal Control (3.0 cr)
- ME 5286 - Robotics (4.0 cr)

Colloquium (1 credit)
Take 1 colloquium credit.

ROB 8970 - Robotics Colloquium (1.0 cr)

Electives (10-21 credits)
Select credits from the following, in consultation with the advisor, to complete minimum course credit requirements. Directed Research 5994 is limited to 3 credits total. For CSCI 8980 Special Topics, only topics in the areas of robotics, computer vision, and cognition may be used. Other courses may be selected with approval of the director of graduate studies.

AEM 5321 - Modern Feedback Control (3.0 cr)
AEM 5333 - Design-to-Flight: Small Uninhabited Aerial Vehicles (3.0 cr)
AEM 5451 - Optimal Estimation (3.0 cr)
AEM 8411 - Advanced Dynamics (3.0 cr)
AEM 8421 - Robust Multivariable Control Design (3.0 cr)
AEM 8423 - Convex Optimization Methods in Control (3.0 cr)
AEM 8495 - Advanced Topics in Aerospace Systems (1.0 - 4.0 cr)
CSCI 5231 - Wireless and Sensor Networks (3.0 cr)
CSCI 5511 - Artificial Intelligence I (3.0 cr)
CSCI 5512 - Artificial Intelligence II (3.0 cr)
CSCI 5521 - Introduction to Machine Learning (3.0 cr)
CSCI 5523 - Introduction to Data Mining (3.0 cr)
CSCI 5525 - Machine Learning (3.0 cr)
CSCI 5551 - Introduction to Intelligent Robotic Systems (3.0 cr)
CSCI 5552 - Sensing and Estimation in Robotics (3.0 cr)
CSCI 5561 - Computer Vision (3.0 cr)
CSCI 5609 - Visualization (3.0 cr)
CSCI 5619 - Virtual Reality and 3D Interaction (3.0 cr)
CSCI 8980 - Special Advanced Topics in Computer Science (1.0 - 3.0 cr)
EE 5231 - Linear Systems and Optimal Control (3.0 cr)
EE 5235 - Robust Control System Design (3.0 cr)
EE 5239 - Introduction to Nonlinear Optimization (3.0 cr)
EE 5251 - Optimal Filtering and Estimation (3.0 cr)
EE 5391 - Computing With Neural Networks (3.0 cr)
EE 5542 - Adaptive Digital Signal Processing (3.0 cr)
EE 5561 - Image Processing and Applications (3.0 cr)
EE 5621 - Physical Optics (3.0 cr)
EE 5622 - Physical Optics Laboratory (1.0 cr)
EE 5624 - Optical Electronics (4.0 cr)
EE 5705 - Electric Drives in Sustainable Energy Systems (3.0 cr)
EE 5707 - Electric Drives in Sustainable Energy Systems Laboratory (1.0 cr)
EE 5940 - Special Topics in Electrical Engineering I (1.0 - 4.0 cr)
EE 8215 - Nonlinear Systems (3.0 cr)
EE 8231 - Optimization Theory (3.0 cr)
EE 8581 - Detection and Estimation Theory (3.0 cr)
EE 8591 - Predictive Learning from Data (3.0 cr)
ME 5241 - Computer-Aided Engineering (4.0 cr)
ME 5243 - Advanced Mechanism Design (4.0 cr)
ME 5248 - Vibration Engineering (4.0 cr)
ME 5286 - Robotics (4.0 cr)
ME 8281 - Advanced Control System Design (4.0 cr)
ME 8283 - Design of Mechatronic Products (4.0 cr)
ME 8285 - Advanced Control System Design, with Applications to Smart Vehicles (3.0 cr)
ROB 5994 - Directed Research (1.0 - 3.0 cr)

Plan Options

Plan A (10 credits)
Take 10 thesis credits.
ROB 8777 - Thesis Credits Master's (1.0 - 18.0 cr)

-OR-

Plan B (3 credits)
Take a minimum of 3 credits in the capstone course, in consultation with adviser.
ROB 8760 - Capstone Project (1.0 - 3.0 cr)

-OR-

Plan C
Students must complete one class project totaling 100 hours or two projects of 50 hours each.

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 32
- This program requires summer semesters for timely completion.
- Degree: Master of Science in Security Technologies

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The master of science in security technologies (MSST) shapes tomorrow's analytical and risk management policy makers and innovators through a multi-disciplinary graduate program developed in response to growing demand in many levels of industry and government. During the 14-month program and through a multidisciplinary systems approach, the program synthesizes core learning in four areas: security methods and foundations; application expertise (including cyber, bio, food, infrastructure, global supply chains); systems science (interdependency among critical networks, components, human capital, organizational dimensions); and social and policy dimensions. Through elective courses, students also choose a learning track in either security systems technologies or security risk management. Students can further specialize through a range of elective courses. This program bridges disciplines to address local, regional, national, and global areas of need, seeding innovative capabilities while enabling interdisciplinary connections through direct links to industry, business, and government partners.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A bachelor's degree in a related field, e.g. in biological or physical sciences, engineering, computer science, mathematics, statistics, social sciences, or public policy, is preferred.

Special Application Requirements:
Applications are accepted on a rolling basis for the program's start in the summer of each year. Applicants must successfully complete a background check prior to final program admission.

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
• IELTS
  - Total Score: 6.5
• MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements

Plan B: Plan B requires 26 major credits and 6 credits outside the major. The final exam is written and oral. A capstone project is required.

Capstone Project: The Plan B project is an independent applied investigation on a relevant issue in security technologies or homeland security.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

Courses must be taken on the A/F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

Core Courses (24 credits)
Complete the following courses. Take 0.5 credits of ST 8440.

ST 8109 - Cybersecurity Foundations - Technology, Risk & Communication (2.0 cr)
ST 8110 - Security Science and Technology Foundations (3.0 cr)
ST 8111 - Methods, Theory, and Applications (2.5 cr)
ST 8113 - Information and Cyber Security (2.0 cr)
ST 8220 - Vulnerability, Risk and Threat Assessment and Management (3.0 cr)
ST 8221 - Communications of Risk and Security (1.0 cr)
ST 8330 - Critical Infrastructure Protections (3.0 cr)
ST 8331 - Dynamic Systems Modeling and Simulation Tools (2.0 cr)
ST 8840 - Security Practicum (0.5 - 2.0 cr)
ST 8510 - Psychology/Behavior Intelligence for Homeland Security (2.0 cr)
ST 8511 - Public Policy (1.0 cr)
ST 8512 - Partnership in Conflict Management: Security/Privacy Law, Social Responsibility and Ethics (2.0 cr)

Electives (6 credits)
Select a minimum of 6 credits from the following. Other courses may be applied to this requirement with director of graduate studies approval.

CI 5301 - Foundations of Computer Applications for Business and Education (3.0 cr)
CSCI 5221 - Foundations of Advanced Networking (3.0 cr)
CSCI 5271 - Introduction to Computer Security (3.0 cr)
CSCI 5471 - Modern Cryptography (3.0 cr)
CSCI 8715 - Spatial Data Science Research (3.0 cr)
ESP 5604 - Environmental Management Systems and Strategy (3.0 cr)
FNRM 5131 - Geographical Information Systems (GIS) for Natural Resources (4.0 cr)
GEOG 5561 - Principles of Geographic Information Science (4.0 cr)
GEOG 5563 - Advanced Geographic Information Science (3.0 cr)
GEOG 5564 - Urban Geographic Information Science and Analysis (3.0 cr)
GIS 5574 - Web GIS and Services (3.0 cr)
GIS 5577 - Spatial Database Design and Administration (3.0 cr)
IDSC 6040 - Information Technology Management (2.0 cr)
IDSC 6050 - Information Technologies and Solutions (2.0 cr)
IDSC 6423 - Enterprise Systems (2.0 cr)
IDSC 6444 - Business Analytics for Managers I (2.0 cr)
IDSC 6481 - Managerial Decision Making (2.0 cr)
IDSC 8003 - Accounting and Information Systems (4.0 cr)
LAW 6022 - LL.M. Legal Writing and Legal Skills II (3.0 cr)
LAW 6103 - Data Privacy Law (3.0 cr)
LAW 6705 - Information Governance (2.0 cr)
LAW 6832 - Cybercrime and Cybersecurity (2.0 cr)
MATH 5248 - Cryptology and Number Theory (4.0 cr)
MATH 5251 - Error-Correcting Codes, Finite Fields, Algebraic Curves (4.0 cr)
MGMT 6004 - Negotiation Strategies (2.0 cr)
MGMT 6034 - Strategic Leadership (2.0 cr)
MGMT 6084 - Management of Teams (2.0 cr)
MGMT 6402 - Integrative Leadership: Leading Across Sectors to Address Grand Challenges (3.0 cr)
OLPD 5611 - Facilitation and Meeting Skills (1.0 cr)
OLPD 5619 - Planning and Decision-Making Skills (1.0 cr)
OLPD 6402 - Integrative Leadership: Leading Across Sectors to Address Grand Challenges (3.0 cr)
PA 5011 - Management of Organizations (3.0 cr)
PA 5105 - Integrative Leadership: Leading Across Sectors to Address Grand Challenges (3.0 cr)
PA 5405 - Public Policy Implementation (3.0 cr)
PA 5701 - Science and State (3.0 cr)
PA 5711 - Science, Technology & Environmental Policy (3.0 cr)
PA 5741 - Risk, Resilience and Decision Making (1.5 cr)
PA 5822 - International Security (3.0 cr)
POL 5885 - International Conflict and Security (3.0 cr)
POL 8402 - International Security (3.0 cr)
PUBH 5231 - Emergency Preparedness: A Public Health Perspective (2.0 cr)
PUBH 6112 - Environmental Health Risk Assessment: Application to Human Health Risks from Exposure to Chemicals (2.0 cr)
PUBH 6123 - Violence Prevention and Control: Theory, Research, and Application (2.0 cr)
PUBH 6182 - Emerging Infectious Disease: Current Issues, Policies, and Controversies (3.0 cr)
PUBH 6571 - Quality, Patient Safety, and Performance Improvement (2.0 cr)
PUBH 6702 - Integrative Leadership Seminar (3.0 cr)

The security technologies graduate program shapes tomorrow's analytical and risk management policy makers and innovators through a multi-disciplinary graduate program developed in response to growing demand in many levels of industry and government. Through a multidisciplinary systems approach, the program synthesizes core learning in four areas: security methods and foundations; application expertise (including cyber, bio, food, infrastructure, global supply chains); systems science (interdependency among critical networks, components, human capital, organizational dimensions); and social and policy dimensions. Through elective courses, students choose a learning track in either security systems technologies or security risk management. Students can further specialize through a range of elective courses. This program bridges disciplines to address local, regional, national, and global areas of need, seeding innovative capabilities while enabling interdisciplinary connections through direct links to industry, business, and government partners.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Security Technologies director of graduate studies regarding feasibility and requirements. Applicants must be interviewed for admission (in person or by telephone) by the Security Technologies director of graduate studies or designate. An exception to the interview requirement may be waived, but only in rare circumstances.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Courses must be taken on the A/F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

The minimum cumulative GPA for the minor is 3.00.

Required Courses (9-12 credits)
Master's students select at least 9 credits, and doctoral students select at least 12 credits from the following in consultation with the Security Technologies director of graduate studies.
ST 8109 - Cybersecurity Foundations - Technology, Risk & Communication (2.0 cr)
ST 8110 - Security Science and Technology Foundations (3.0 cr)
ST 8111 - Methods, Theory, and Applications (2.5 cr)
ST 8113 - Information and Cyber Security (2.0 cr)
ST 8200 - Special Topics in Security Technologies (0.5 cr)
ST 8220 - Vulnerability, Risk and Threat Assessment and Management (3.0 cr)
ST 8221 - Communications of Risk and Security (1.0 cr)
ST 8330 - Critical Infrastructure Protections (3.0 cr)
ST 8331 - Dynamic Systems Modeling and Simulation Tools (2.0 cr)
ST 8510 - Psychology/Behavior Intelligence for Homeland Security (2.0 cr)
ST 8511 - Public Policy (1.0 cr)
ST 8512 - Partnership in Conflict Management: Security/Privacy Law, Social Responsibility and Ethics (2.0 cr)
ST 8661 - Securing Cyberspace (Fundamentals) (3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Science in Software Engineering

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Master of Science in Software Engineering (MSSE) program provides a thorough understanding of the fundamental issues related to software development and the software development process. The MSSE curriculum provides a solid grounding in theoretical methods, principles, and tools, and an examination of fundamental software development issues and processes. These concepts are explored using realistic and relevant case examples and projects to ensure that the theory works in practice. The MSSE program is an interdisciplinary program administered by the College of Science and Engineering's Department of Computer Science and Engineering.

The program is offered in a format designed for full-time working professionals. Students take courses one day per week (alternating Fridays and Saturdays) and move through the curriculum as a cohort, taking all classes together for four semesters.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Prospective students should have an undergraduate degree in computer science or a closely related field.

Other requirements to be completed before admission:
Students with degrees in other fields may be considered for admission based on relevant work experience.
Prospective applicants must have a minimum of one year of professional experience working in the software industry.

Because the MSSE program is designed for full-time working professionals, international applicants typically hold an H-1B visa.

Special Application Requirements:
The early application deadline is March 31. The final deadline is July 1. Applications are accepted for fall semester only.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5
- MELAB

Information current as of September 04, 2020
Program Requirements

Plan C: Plan C requires 30 major credits and up to null credits outside the major. There is no final exam.

This program may not be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

Courses must be taken on the A/F grade basis, unless only offered S/N, with a minimum grade of C earned for each course.

The MSSE curriculum is fixed for the first three semesters. The fourth semester offers electives, including an optional independent project. The project requirement can be met by a combination of class projects or by the independent project elective SENG 8891.

Core Courses (24 credits)
Complete all courses for 24 credits. Take SENG 5899 twice for a total of 2 credits.

- SENG 5115 - Graphical User Interface Design, Evaluation, and Implementation (2.0 cr)
- SENG 5707 - The Principles of Database Systems (3.0 cr)
- SENG 5801 - Software Engineering I: Overview, Requirements, and Modeling (3.0 cr)
- SENG 5802 - Software Engineering II: Software Design (3.0 cr)
- SENG 5811 - Software Testing and Verification (3.0 cr)
- SENG 5851 - Software Project Management (3.0 cr)
- SENG 5852 - Quality Assurance and Process Improvement (2.0 cr)
- SENG 5861 - Introduction to Software Architecture (3.0 cr)
- SENG 5899 - Software Engineering Seminar (1.0 cr)

Electives (6 credits)
Choose a minimum of 6 credits in consultation with adviser

- SENG 5130 - Introduction to Internet of Things: Systems-Level Design and Experimentation (3.0 cr)
- SENG 5199 - Topics in Software Engineering (2.0 - 3.0 cr)
- SENG 5271 - Cybersecurity (3.0 cr)
- SENG 5511 - Artificial Intelligence (2.0 - 3.0 cr)
- SENG 5708 - Data Analytics (2.0 - 3.0 cr)
- SENG 5709 - Big Data Engineering and Analytics (3.0 cr)
- SENG 5831 - Software Development for Real-Time Systems (2.0 - 3.0 cr)
- SENG 5841 - Model-based Development (3.0 cr)
- SENG 8891 - Independent Project (2.0 - 6.0 cr)

Stream Restoration Graduate Certificate Program, National Center for Earth-surface Dynamics, Saint Anthony Falls Laboratory, 2 Third Avenue SE, Minneapolis, MN 55414 (612-624-4363)
Email: volle001@umn.edu
Website: http://www.nced.umn.edu/apply-certificate-program-stream-restoration

- Program Type: Post-baccalaureate credit certificate/licensure/endorsement
- Requirements for this program are current for Fall 2020
- Length of program in credits: 16
- This program does not require summer semesters for timely completion.
- Degree: Stream Rest. Science & Engineering PBacc Cert

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The postbaccalaureate certificate in stream restoration science and engineering is a three-semester program producing graduates who understand how to blend engineering, physical, biological, and social sciences in prioritizing, designing, implementing, and evaluating stream restoration projects. Two courses, including an introduction to stream restoration and a restoration design experience are required. The remaining courses are chosen from a specified list of relevant courses taught across a number of University departments.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A bachelor's degree in a field related to ecology, civil engineering, or environmental and earth sciences from an accredited US institution or its foreign equivalent.

Other requirements to be completed before admission:
In addition to the University's online application form, students must submit a program application and one letter of reference.

Applications are accepted throughout the year, however, it is preferable to start the program in fall semester.

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
• IELTS
  - Total Score: 6.5
• MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.
A minimum GPA of 3.00 is required for students to remain in good standing.

Courses offered on both the A/F and S/N grade basis must be taken A/F.

The minimum cumulative GPA for coursework is 3.00.

**Foundation Course (3 credits)**

Students pursuing a degree in Civil Engineering, Ecology, Evolution and Behavior, or Earth Sciences should register for the foundation course under a designator other than that of their major.

- CEGE 8601 - Introduction to Stream Restoration (3.0 cr)
- or EEB 8601 - Introduction to Stream Restoration (3.0 cr)
- or ESCI 8601 - Introduction to Stream Restoration (3.0 cr)

**Elective Coursework (11 credits)**

Elective credits are chosen from four theme areas in consultation with adviser.

**River and Floodplain Science and Engineering**

Students must take a minimum of one course from this theme area.

- BBE 5513 - Watershed Engineering (3.0 cr)
- BBE 8513 - Hydrologic Modeling of Small Watersheds (3.0 cr)
- CEGE 4501 - Hydrologic Design (4.0 cr)
- CEGE 4511 - Hydraulic Structures (3.0 cr)
- CEGE 4512 - Open Channel Hydraulics (4.0 cr)
- CEGE 8511 - Mechanics of Sediment Transport (3.0 cr)
- ESCI 4701 - Geomorphology (4.0 cr)
- FNRM 5114 - Hydrology and Watershed Management (3.0 cr)
- FNRM 5153 - Forest Hydrology & Watershed Biogeochemistry (3.0 cr)

**River and Floodplain Ecology**

- CEGE 8508 - Ecological Fluid Mechanics (4.0 cr)
- EEB 5601 - Limnology (3.0 cr)
- FW 8465 - Fish Habitats and Restoration (3.0 cr)
- FW 8459 - Stream and River Ecology (3.0 cr)
- HORT 5071 - Ecological Restoration (4.0 cr)

**Water Quality**

- CEGE 5541 - Environmental Water Chemistry (3.0 cr)
- CEGE 8541 - Aquatic Chemistry (3.0 cr)
- CEGE 8561 - Analysis and Modeling of Aquatic Environments I (3.0 cr)
- CEGE 8562 - Analysis and Modeling of Aquatic Environments II (3.0 cr)
- ESCI 4702 - General Hydrogeology (4.0 cr)
- ESPM 5111 - Hydrology and Water Quality Field Methods (3.0 cr)

**Water Policy and Management**

A maximum of 4 credits may be taken from this theme area.

- ESPM 4295W - GIS in Environmental Science and Management [WI] (4.0 cr)
- ESPM 5061 - Water Quality and Natural Resources (3.0 cr)
- ESPM 5202 - Environmental Conflict Management, Leadership, and Planning (3.0 cr)
- WRS 5101 - Water Policy (3.0 cr)

**Capstone Course (2 credits)**

The capstone requires students to participate in a stream restoration design experience. Students pursuing a degree in Civil Engineering, Ecology, Evolution and Behavior, or Earth Sciences should register for the capstone course under a designator other than that of their major.

- CEGE 8602 - Stream Restoration Practice (2.0 cr)
- or EEB 8602 - Stream Restoration Practice (2.0 cr)
- or ESCI 8602 - Stream Restoration Practice (2.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2020
- Length of program in credits: 30
- This program requires summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The mission of the Comparative and Molecular Biosciences (CMB) program is to train outstanding scientists in the basic mechanisms of animal and human health and disease. The CMB program embraces a One Health approach and investigates a wide range of species, including humans, laboratory animals, companion animals, and livestock species.

The CMB program is transdisciplinary, bringing together basic, applied, and clinical scientists from a number of departments to provide students with individualized, cutting-edge biomedical research training. Areas of emphasis include genetic and infectious diseases, and comparative aspects of biology and pathology across animal species and humans. Students receive scientific training that prepares them for careers as independent investigators and educators in academia, industry, and government.

The purpose of the master's degree is to provide technical training and scientific competence in the basic mechanisms of animal and human health and disease.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.25.

A bachelor's degree in a biological or basic science is required. Previous laboratory experience is strongly preferred.

Other requirements to be completed before admission:
Applicants must submit a C.V. or résumé; three letters of recommendation from persons familiar with their scholarship and research potential; and a statement of any research experience, as well as career interests, goals, and objectives.

Special Application Requirements:
Submission of all application materials by December 1 is required to ensure consideration for fall semester admission.

Applicants must submit their test score(s) from the following:
- GRE

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- Paper Based - Total Score: 550
- IELTS
  - Total Score: 6.5

Program Requirements

Plan A: Plan A requires 20 major credits, 0 credits outside the major, and 10 thesis credits. The final exam is written and oral.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

CMB Program Courses (11 credits)
Take the following courses. CMB 8550 must be taken twice for a total of 2 credits.

- CMB 8134 - Ethical Conduct of Animal Research (3.0 cr)
- CMB 8202 - Mechanisms of Animal Health and Disease II (3.0 cr)
- CMB 8303 - Comparative Models of Disease (2.0 cr)
- CMB 8550 - Comparative and Molecular Biosciences Seminar (1.0 cr)
- CMB 8560 - Research and Literature Reports (1.0 cr)

Statistics (3 to 4 credits)
Select one of the following courses in consultation with adviser.

- CMB 5200 - Statistical Genetics and Genomics (4.0 cr)
  or CMB 5915 - Essential Statistics for Life Sciences (3.0 cr)
  or CMB 8910 - Statistical Principles of Research Design (3.0 cr)
  or PUBH 6450 - Biostatistics I (4.0 cr)
  or PUBH 6451 - Biostatistics II (4.0 cr)
  or STAT 5021 - Statistical Analysis (4.0 cr)
  or STAT 5302 - Applied Regression Analysis (4.0 cr)
  or STAT 5303 - Designing Experiments (4.0 cr)
  or STAT 5421 - Analysis of Categorical Data (3.0 cr)

Additional coursework (5 to 6 credits)
Select coursework, in consultation with the advisor, to complete the 20 course credits required. Other courses may be selected with advisor approval.

- MICA 8002 - Structure, Function, and Genetics of Bacteria and Viruses (4.0 cr)
  or MICA 8003 - Immunity and Immunopathology (4.0 cr)
  or MICA 8004 - Cellular and Cancer Biology (4.0 cr)
  or MICA 8009 - Biochemical Aspects of Normal and Abnormal Cell Growth and Cell Death (2.0 cr)
  or MICA 8010 - Microbial Pathogenesis (3.0 cr)
  or BIOC 5361 - Microbial Genomics and Bioinformatics (3.0 cr)
  or BIOC 6021 - Biochemistry (3.0 cr)
  or BIOC 8002 - Molecular Biology and Regulation of Biological Processes (3.0 cr)
  or BIOC 8216 - Signal Transduction and Gene Expression (3.0 cr)
  or GCD 5036 - Molecular Cell Biology (3.0 cr)
  or GCD 8008 - Mammalian Gene Transfer and Genome Engineering (2.0 cr)
  or GCD 8073 - Genetics & Genomics in Human Health (3.0 cr)
  or GCD 8131 - Advanced Molecular Genetics and Genomics (3.0 cr)
  or GCD 8151 - Cellular Biochemistry and Cell Biology (2.0 - 4.0 cr)
  or GCD 8161 - Advanced Cell Biology and Development (2.0 cr)
  or GCD 5200 - Statistical Genetics and Genomics (4.0 cr).
  or CMB 5340 - Structural Biology in Biomedical Research (2.0 cr)
  or CMB 5571 - Pathogenomics and Molecular Epidemiology - Learning to Fly (3.0 cr)
  or CMB 5594 - Directed Research in Comparative and Molecular Biosciences (1.0 - 4.0 cr)
or CMB 5910 - Grantwriting: What Makes a Winning Proposal? (2.0 cr)
or CMB 8208 - Neuropsychopharmacology (3.0 cr)
or CMB 8344 - Mechanisms of Hormone Action (2.0 cr)
or CMB 8361 - Neuro-Immune Interactions (3.0 cr)
or CMB 8371 - Mucosal Immunobiology (3.0 cr)
or CMB 8481 - Advanced Neuropharmaceutics (4.0 cr)
or CMB 8571 - Pathogenomics and Molecular Epidemiology - Learning to Fly (3.0 cr)

Thesis credits
Take 10 master's thesis credits.
CMB 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

Program Requirements

24 credits are required in the major.
0 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

The PhD requires a minimum of 24 course credits and 24 thesis credits. The 24 course credits include 15 credits of CMB program courses. A statistics course is required. A minimum of 6 additional course credits from the biological sciences are also required. In addition, all students are required to complete a teaching experience.

CMB program courses

A minimum of 15 course credits are required. CMB 8100 must be taken twice and CMB 8550 must be taken twice.
- CMB 5910 - Grantwriting: What Makes a Winning Proposal? (2.0 cr)
- CMB 8100 - Research Rotation in Comparative and Molecular Biosciences (1.0 cr)
- CMB 8134 - Ethical Conduct of Animal Research (3.0 cr)
- CMB 8202 - Mechanisms of Animal Health and Disease II (3.0 cr)
- CMB 8303 - Comparative Models of Disease (2.0 cr)
- CMB 8550 - Comparative and Molecular Biosciences Seminar (1.0 cr)
- CMB 8560 - Research and Literature Reports (1.0 cr)

Statistics

One of the following statistics courses is required.
- CMB 5200 - Statistical Genetics and Genomics (4.0 cr)

or CMB 5915 - Essential Statistics for Life Sciences (3.0 cr)

or CMB 8910 - Statistical Principles of Research Design (3.0 cr)

or PUBH 6450 - Biostatistics I (4.0 cr)

or STAT 6451 - Biostatistics II (4.0 cr)

or STAT 5021 - Statistical Analysis (4.0 cr)

or STAT 5302 - Applied Regression Analysis (4.0 cr)

or STAT 5303 - Designing Experiments (4.0 cr)

or STAT 5421 - Analysis of Categorical Data (3.0 cr)

Additional courses

A minimum of 6 course credits are required, selected from the following list or in consultation with the advisor. Students may take GRAD 8101 OR GRAD 8200 but not both, and these cannot be applied toward the degree requirements.
- BIOC 5361 - Microbial Genomics and Bioinformatics (3.0 cr)

or BIOC 6021 - Biochemistry (3.0 cr)

or BIOC 8002 - Molecular Biology and Regulation of Biological Processes (3.0 cr)

- BIOC 8216 - Signal Transduction and Gene Expression (3.0 cr)

or CMB 5200 - Statistical Genetics and Genomics (4.0 cr)

or CMB 5340 - Structural Biology in Biomedical Research (2.0 cr)

or CMB 5571 - Pathogenomics and Molecular Epidemiology - Learning to Fly (3.0 cr)

or CMB 8208 - Neuropsychopharmacology (3.0 cr)

or CMB 8344 - Mechanisms of Hormone Action (2.0 cr)

or CMB 8361 - Neuro-Immune Interactions (3.0 cr)

or CMB 8371 - Mucosal Immunobiology (3.0 cr)

or CMB 8394 - Research in Comparative Biomedical Sciences (1.0 - 6.0 cr)

or CMB 8481 - Advanced Neuropharmaceutics (4.0 cr)

or CMB 8571 - Pathogenomics and Molecular Epidemiology - Learning to Fly (3.0 cr)

or GCD 5036 - Molecular Cell Biology (3.0 cr)
or GCD 8008 - Mammalian Gene Transfer and Genome Engineering (2.0 cr)
or GCD 8073 - Genetics & Genomics in Human Health (3.0 cr)
or GCD 8131 - Advanced Molecular Genetics and Genomics (3.0 cr)
or GCD 8151 - Cellular Biochemistry and Cell Biology (2.0 - 4.0 cr)
or GCD 8161 - Advanced Cell Biology and Development (2.0 cr)
or GRAD 8101 - Teaching in Higher Education (3.0 cr)
or GRAD 8200 - Teaching and Learning Topics in Higher Education (1.0 cr)
or MICA 8002 - Structure, Function, and Genetics of Bacteria and Viruses (4.0 cr)
or MICA 8003 - Immunity and Immunopathology (4.0 cr)
or MICA 8004 - Cellular and Cancer Biology (4.0 cr)
or MICA 8009 - Biochemical Aspects of Normal and Abnormal Cell Growth and Cell Death (2.0 cr)

Plan A: Plan A requires 20 major credits, up to null credits outside the major, and 10 thesis credits. The final exam is written and oral.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

Required Courses (9 credits)
Take the following courses. VMED 8550 must be taken twice for a total of 2 credits.

VMED 5190 - Seminar and Presentation Development (2.0 cr)
VMED 5910 - Grant Writing: What Makes a Winning Proposal? (2.0 cr)
VMED 8134 - Ethical Conduct of Animal Research (3.0 cr)
VMED 8550 - Veterinary Medicine Seminar (1.0 cr)

Statistics
Select at least 3 credits from the following in consultation with the advisor. Two statistics are recommended, but not required.
VMED 5915 - Essential Statistics for Life Sciences (3.0 cr)
VMED 8910 - Statistical Principles of Research Design (3.0 cr)
PUBH 6414 - Biostatistical Literacy (3.0 cr)
PUBH 6450 - Biostatistics I (4.0 cr)
PUBH 6451 - Biostatistics II (4.0 cr)
STAT 5021 - Statistical Analysis (4.0 cr)
STAT 5302 - Applied Regression Analysis (4.0 cr)
STAT 5303 - Designing Experiments (4.0 cr)
STAT 5421 - Analysis of Categorical Data (3.0 cr)

8xxx-level Coursework
Select at least 1 course from the following in consultation with the advisor. CMB 8202 is recommended.
BIOL 8002 - Molecular Biology and Regulation of Biological Processes (3.0 cr)
BIOL 8216 - Signal Transduction and Gene Expression (3.0 cr)
GCD 8008 - Mammalian Gene Transfer and Genome Engineering (2.0 cr)
GCD 8073 - Genetics & Genomics in Human Health (3.0 cr)
GCD 8131 - Advanced Molecular Genetics and Genomics (3.0 cr)
GCD 8151 - Cellular Biochemistry and Cell Biology (2.0 - 4.0 cr)
GCD 8161 - Advanced Cell Biology and Development (2.0 cr)
CMB 8202 - Mechanisms of Animal Health and Disease II (3.0 cr)
CMB 8303 - Comparative Models of Disease (2.0 cr)
CMB 8344 - Mechanisms of Hormone Action (2.0 cr)
CMB 8571 - Pathogenomics and Molecular Epidemiology - Learning to Fly (3.0 cr)
VMED 8192 - Dairy Health Management: Critical Thinking (1.0 cr)
VMED 8394 - Research in Veterinary Medicine (1.0 - 3.0 cr)
VMED 8492 - Seminar: Infectious Diseases and Swine Medicine (1.0 cr)
VMED 8592 - Infectious Disease Journals: Critical Thinking (1.0 cr)

Additional Biological Sciences Coursework
Select at least 7 credits from the following in consultation with the advisor:
VPM 4131 - Immunology (3.0 cr)
VMED 5165 - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
VMED 5180 - Ecology of Infectious Disease (3.0 cr)
VMED 5181 - Spatial Analysis in Infectious Disease Epidemiology (3.0 cr)
VMED 5182 - Molecular biology for the Public Health Professional (2.0 cr)
VMED 5190 - Seminar and Presentation Development (2.0 cr)
VMED 5442 - Quantitative Methods for Population Health (3.0 cr)
VMED 5594 - Research in Veterinary Medicine (1.0 - 4.0 cr)
VMED 5910 - Grant Writing: What Makes a Winning Proposal? (2.0 cr)
VMED 5920 - Food Defense: Prepare, Respond, Recover (3.0 cr)
VMED 5921 - Seminar in Food Protection and Defense (1.0 cr)
CMB 5200 - Statistical Genetics and Genomics (4.0 cr)
CMB 5340 - Structural Biology in Biomedical Research (2.0 cr)
CMB 5571 - Pathogenomics and Molecular Epidemiology - Learning to Fly (3.0 cr)
PUBH 6341 - Epidemiologic Methods I (3.0 cr)
PUBH 6342 - Epidemiologic Methods II (3.0 cr)
PUBH 6343 - Epidemiologic Methods III (4.0 cr)
PUBH 6350 - Epidemiologic Methods III: Lab (1.0 cr)
PUBH 6385 - Epidemiology and Control of Infectious Diseases (2.0 cr)
BIOC 8002 - Molecular Biology and Regulation of Biological Processes (3.0 cr)
BIOC 8216 - Signal Transduction and Gene Expression (3.0 cr)
GCD 8008 - Mammalian Gene Transfer and Genome Engineering (2.0 cr)
GCD 8073 - Genetics & Genomics in Human Health (3.0 cr)
GCD 8131 - Advanced Molecular Genetics and Genomics (3.0 cr)
GCD 8151 - Cellular Biochemistry and Cell Biology (2.0 - 4.0 cr)
GCD 8161 - Advanced Cell Biology and Development (2.0 cr)
CMB 8202 - Mechanisms of Animal Health and Disease II (3.0 cr)
CMB 8303 - Comparative Models of Disease (2.0 cr)
CMB 8344 - Mechanisms of Hormone Action (2.0 cr)
CMB 8571 - Pathogenomics and Molecular Epidemiology - Learning to Fly (3.0 cr)
VMED 8192 - Dairy Health Management: Critical Thinking (1.0 cr)
VMED 8394 - Research in Veterinary Medicine (1.0 - 3.0 cr)
VMED 8492 - Seminar: Infectious Diseases and Swine Medicine (1.0 cr)
VMED 8592 - Infectious Disease Journals: Critical Thinking (1.0 cr)
VMED 8440 - Using Risk Analysis Tools: Estimating Food Safety Risks on the Farm to Table Continuum (2.0 cr)

Thesis Credits
Take 10 master's thesis credits.
CMB 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)
Twin Cities Campus
Veterinary Medicine Ph.D.
College of Veterinary Medicine

Contact Information:
College of Veterinary Medicine, 1365 Gortner Avenue, Room 443 VMC, Saint Paul, MN 55108 (612-625-3770; fax: 612-626-2825)

- Program Type: Doctorate
- Requirements for this program are current for Fall 2020
- Length of program in credits: 48
- This program requires summer semesters for timely completion.
- NO
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The veterinary medicine graduate program focuses on the scientific study of the mechanisms of transmission and progression of diseases of importance to companion animals, livestock, and humans with applications to diagnosis, prevention, and treatment. Includes training in infectious and noninfectious disease, epidemiology, environmental biology, ethology, anatomical, clinical and molecular pathobiology.

Accreditation
This program is accredited by NA

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.25.

DVM or equivalent; students with a BA or BS in biological sciences may be considered. Previous laboratory experience is strongly preferred.

Other requirements to be completed before admission:
Applicants must submit a CV or resume; three letters of recommendation from persons familiar with their scholarship and research potential; and a statement of any research experience, as well as career interests, goals, and objectives.

Special Application Requirements:
Submission of all application materials by December 1 is required to ensure consideration for fellowships and research assistantships awarded for the next academic year.

Applicants must submit their test score(s) from the following:
• GRE

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Paper Based - Total Score: 550
• IELTS
  - Total Score: 6.5
  - Reading Score: 6.5

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of September 04, 2020
The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
24 credits are required in the major.
0 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

VMED Program Courses
Take the following courses for 9 credits. VMED 8550 must be taken twice.
VMED 5190 - Seminar and Presentation Development (2.0 cr)
VMED 5910 - Grant Writing: What Makes a Winning Proposal? (2.0 cr)
VMED 8134 - Ethical Conduct of Animal Research (3.0 cr)
VMED 8550 - Veterinary Medicine Seminar (1.0 cr)

Statistics Requirement
Take at least one statistics course, in consultation with the advisor. Two statistics courses are preferred.
VMED 5915 - Essential Statistics for Life Sciences (3.0 cr)
or VMED 8910 - Statistical Principles of Research Design (3.0 cr)
or PUBH 6414 - Biostatistical Literacy (3.0 cr)
or PUBH 6450 - Biostatistics I (4.0 cr)
or PUBH 6451 - Biostatistics II (4.0 cr)
or STAT 5302 - Applied Regression Analysis (4.0 cr)
or STAT 5303 - Designing Experiments (4.0 cr)
or STAT 5421 - Analysis of Categorical Data (3.0 cr)

8000-Level Coursework Requirement
Take at least 3 8000-level biological sciences courses from the following list, or select others, in consultation with the advisor. CMB 8202 is recommended.
BIOC 8002 - Molecular Biology and Regulation of Biological Processes (3.0 cr)
or BIOC 8216 - Signal Transduction and Gene Expression (3.0 cr)
or GCD 8008 - Mammalian Gene Transfer and Genome Engineering (2.0 cr)
or GCD 8073 - Genetics & Genomics in Human Health (3.0 cr)
or GCD 8131 - Advanced Molecular Genetics and Genomics (3.0 cr)
or GCD 8151 - Cellular Biochemistry and Cell Biology (2.0 - 4.0 cr)
or GCD 8161 - Advanced Cell Biology and Development (2.0 cr)
or CMB 8100 - Research Rotation in Comparative and Molecular Biosciences (1.0 cr)
or CMB 8202 - Mechanisms of Animal Health and Disease II (3.0 cr)
or CMB 8303 - Comparative Models of Disease (2.0 cr)
or CMB 8344 - Mechanisms of Hormone Action (2.0 cr)
or CMB 8571 - Pathogenomics and Molecular Epidemiology - Learning to Fly (3.0 cr)
or VMED 8192 - Dairy Health Management: Critical Thinking (1.0 cr)
or VMED 8394 - Research in Veterinary Medicine (1.0 - 3.0 cr)
or VMED 8492 - Seminar: Infectious Diseases and Swine Medicine (1.0 cr)
or VMED 8592 - Infectious Disease Journals: Critical Thinking (1.0 cr)

Additional Coursework
Take additional courses from the following list, or select others in consultation with the advisor, to complete the minimum course credit requirement.
VPM 4131 - Immunology (3.0 cr)
or VMED 5165 - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
or VMED 5180 - Ecology of Infectious Disease (3.0 cr)
or VMED 5181 - Spatial Analysis in Infectious Disease Epidemiology (3.0 cr)
or VMED 5182 - Molecular biology for the Public Health Professional (2.0 cr)
or VMED 5190 - Seminar and Presentation Development (2.0 cr)
or VMED 5442 - Quantitative Methods for Population Health (3.0 cr)
or VMED 5594 - Research in Veterinary Medicine (1.0 - 4.0 cr)
or VMED 5596 - Swine Diseases and Diagnostics (2.0 - 3.0 cr)
or VMED 5910 - Grant Writing: What Makes a Winning Proposal? (2.0 cr)
or VMED 5921 - Seminar in Food Protection and Defense (1.0 cr)
or CMB 5200 - Statistical Genetics and Genomics (4.0 cr)
or CMB 5340 - Structural Biology in Biomedical Research (2.0 cr)
or CMB 5571 - Pathogenomics and Molecular Epidemiology - Learning to Fly (3.0 cr)
or PUBH 6341 - Epidemiologic Methods I (3.0 cr)
or PUBH 6342 - Epidemiologic Methods II (3.0 cr)
or PUBH 6343 - Epidemiologic Methods III (4.0 cr)
or PUBH 6350 - Epidemiologic Methods III: Lab (1.0 cr)
or PUBH 6385 - Epidemiology and Control of Infectious Diseases (2.0 cr)

**Thesis Credits**
Take at least 24 doctoral thesis credits.
VMED 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)
