Website: http://www.philosophy.umn.edu

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Arts

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Note: The Philosophy graduate program rarely accepts applications directly to the MA; rather, the MA is an additional or alternative credential for students admitted to the Philosophy PhD program. In rare instances, MA applications are considered for individuals with professional goals in other fields.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Preferred: Broad undergraduate background that includes some philosophy coursework.

Special Application Requirements:
Note: The Philosophy graduate program rarely accepts applications directly to the MA; rather, the MA is an additional or alternative credential for students admitted to the Philosophy PhD program.

MA applications are considered for individuals with professional goals in other fields. Candidates admitted to the terminal MA may opt for the MA Plan A or MA Plan B. Please refer to the Department of Philosophy website at www.philosophy.umn.edu for information.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Paper Based - Total Score: 550
- IELTS
  - Total Score: 6.5
- MELAB

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Plan A: Plan A requires 14 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is written and oral.
Plan B: Plan B requires 24 major credits and 6 credits outside the major. The final exam is written and oral. A capstone project is required.

Capstone Project: The project comprises 3 Plan B papers completed in consultation with the advisor.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with advisor approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

4xxx-level courses are primarily for advanced undergraduate students. MA candidates should enroll in the 5xxx or 8xxx level equivalent course. In special cases, 4xxx-level courses will be accepted but must accompany the 8xxx-level workshop to be counted for graduate credit. Permission is required from the director of graduate studies. See the Department of Philosophy website at www.philosophy.umn.edu for more information.

Coursework offered on both the A-F and S/N grading basis must be taken A-F.

Major Coursework (14 to 24 credits)
Plan A students select 14 credits, and Plan B students select 24 credits from the following, in consultation with the advisor and director of graduate studies. Coursework should include one course in ancient and one course in modern philosophy. Non-PHIL courses may be applied to this requirement with advisor and director of graduate studies approval.

PHIL 5xxx
PHIL 8xxx

Outside Coursework (6 credits)
Select 6 credits outside the major in consultation with the advisor and director of graduate studies.

Plan Options

Plan A
Thesis Credits
Take 10 masters thesis credits.
PHIL 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)
Twin Cities Campus
Philosophy Minor
Philosophy Department
College of Liberal Arts

Email: umphil@umn.edu
Website: http://www.philosophy.umn.edu

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Students pursuing the Philosophy minor have the opportunity to expand their knowledge, in consultation with the Philosophy director of graduate studies, in any of the following areas: history of philosophy (ancient or modern), logic, ELMS, epistemology, philosophy of language, metaphysics or mathematics, philosophy of science (philosophy of biology, philosophy of physics), moral and political philosophy, and value theory aesthetics.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Philosophy director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Coursework offered on both the A-F and S/N grading basis must be taken A-F, with a minimum grade of B earned for each course, to be applied to minor field requirements.

The minimum cumulative GPA for minor field coursework is 3.00.

Application of 4xxx-level toward the minor requires approval of the Philosophy director of graduate studies, and is permitted only when taken in conjunction with an appropriate 8xxx-level workshop. Workshop selection is based on the area of philosophy: 8010 (history of phil); 8100 (epistemology and metaphysics); 8200 (logic and philosophy of math, language); 8300 (moral and political) 8600 (philosophy of science).

Coursework (6 to 12 credits)
Masters students select 6 credits, and doctoral students select 12 credits from the following in consultation with the Philosophy director of graduate studies:
PHIL 5xxx
PHIL 8xxx
Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Twin Cities Campus
Philosophy Ph.D.
Philosophy Department
College of Liberal Arts

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 62
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Philosophy PhD is noteworthy for its emphasis on the individual student's research interests. With the help of an advisor, students design their own program of study, which consists of the philosophy major and either a supporting program or a minor that complements the student's research focus. Students gain a broad base of knowledge in history of philosophy, logic, ELMS (epistemology, philosophy of language, metaphysics or mathematics, philosophy of science), moral and political philosophy, and value theory, which provides a firm foundation for research and teaching beyond the PhD program.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Broad undergraduate background that includes substantial philosophy coursework.

Special Application Requirements:
Individuals apply to the University and the Department of Philosophy via the University's online admissions system. Application materials include the application form; personal statement; diversity statement; transcripts; three academic letters of recommendation; and a philosophical writing sample not to exceed 25 pages. For more information regarding application requirements and funding opportunities, refer to the Department of Philosophy website at www.philosophy.umn.edu.

Applications must be received by December 31 for the following fall semester.

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Paper Based - Total Score: 550
• IELTS
  - Total Score: 6.5
• MELAB

Key to test abbreviations: (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
26 credits are required in the major.
12 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 3 semesters must be completed before filing a Degree Program Form.

Coursework offered on both the A-F and S/N grading basis must be taken A-F.

Application of 4xxx-level coursework toward degree requirements requires advisor approval, and is permitted only when taken in conjunction with an appropriate 8xxx-level workshop. Workshop selection is based on the area of philosophy: 8010 (history of phil); 8100 (epistemology and metaphysics); 8200 (logic and philosophy of math, language); 8300 (moral and political) 8600 (philosophy of science). See the Department of Philosophy website at www.philosophy.umn.edu for more information.

**Major Coursework (26 credits)**
Select 26 credits from the following, in consultation with the advisor and director of graduate studies. Non-PHIL courses may be applied to this requirement with advisor and director of graduate studies approval.

PHIL 5xxx
PHIL 8xxx

**Outside Coursework (12 credits)**
Select 12 credits outside the major in consultation with the advisor and director of graduate studies.

**Thesis Credits**
Take a total of 24 doctoral thesis credits beginning the second semester of Year 1.

PHIL 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)
Twin Cities Campus
Political Psychology Minor
School of Journalism & Mass Communication, Political Science Department, Psychology
College of Liberal Arts

Link to a list of faculty for this program.

Contact Information:
Department of Political Science, 1414 Social Sciences Building, 267 19th Avenue South, Minneapolis, MN 55455-0410
Email: polipsych@umn.edu
Website: https://cla.umn.edu/political-psychology/academics/grad-minor-political-psychology

- Program Type: Graduate free-standing minor
- Requirements for this program are current for Fall 2022
- Length of program in credits (Doctorate): 13
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Political psychology is a rapidly advancing field of scientific inquiry concerned with psychological aspects of political behavior. It encompasses a variety of interdisciplinary research perspectives, drawing on the theories and methods of core disciplines such as psychology, political science, law, and sociology, as well as interdisciplinary fields such as mass communication and decision sciences. The minor's structured curriculum provides a foundation in basic areas of political psychology: ideology, partisanship, and political attitudes; political cognition; judgment and decision making; racial and ethnic attitudes and the psychology of intergroup relations in unequal societies; personality and leadership; mass communication; public opinion and mass political behavior; and political socialization. In addition to providing a background in political psychology, the program trains students in the theory and methods useful to this field, such as content analysis, survey analysis, and experimental design. The faculty is drawn from across the University.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Political Psychology director of graduate studies regarding feasibility and requirements.

Knowledge of quantitative methods, gained prior to or during the course of graduate studies, is strongly encouraged.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

The minimum cumulative GPA for minor field coursework is 3.30.

Core Coursework (9 credits)
Take the following courses. Other courses may be substituted with approval of the Political Psychology director of graduate studies.
JOUR 8661 - Seminar: Mediated Political Communication in the Digital Age (3.0 cr)
POL 8311 - Political Psychology and Socialization (3.0 cr)
PSY 8201 - Social Cognition (3.0 cr)

Political Psychology Proseminars (4 credits)
Select 1 of the following proseminar sequences in consultation with the Political Psychology director of graduate studies:
POL 8307 - Proseminar in Political Psychology I (2.0 cr)
POL 8308 - Proseminar in Political Psychology II (2.0 cr)
or PSY 8211 - Proseminar in Political Psychology I (2.0 cr)
PSY 8212 - Proseminar in Political Psychology II (2.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

SOC 8790 - Advanced Topics in Sociological Theory (3.0 cr)
SOC 8890 - Advanced Topics in Research Methods (2.0 - 3.0 cr)
WRIT 5051 - Graduate Research Writing for International Students (3.0 cr)
WRIT 5052 - Graduate Research Presentations and Conference Writing for Non-Native Speakers of English (3.0 cr)

Thesis Credits
Take 24 doctoral thesis credits.
POL 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)

Emphases
Select 2 emphases in consultation with the advisor. Complete the 12 credits required for each for a total of 24 credits.

Political Theory
Required Course (3 credits)
Students selecting the Political Theory emphasis must take the following course:
POL 8201 - Understanding Political Theory (3.0 cr)
Electives (9 credits)
Select 9 credits from the following, in consultation with the advisor, to complete the Political Theory emphasis.
POL 8235 - Democratic Theory (3.0 cr)
POL 8251 - Ancient and Medieval Political Thought (3.0 cr)
POL 8252 - Early Modern Political Thought (3.0 cr)
POL 8253 - Late Modern Political Thought (3.0 cr)
POL 8260 - Topics in Political Theory (3.0 cr)
American Politics
Required Course (3 Credits)
Students selecting the American Politics emphasis must take the following course:
POL 8301 - American Politics (3.0 cr)
Electives (9 credits)
Select 9 credits from the following, in consultation with the advisor, to complete the American Politics emphasis.
POL 8302 - Public Opinion and Political Behavior (3.0 cr)
POL 8311 - Political Psychology and Socialization (3.0 cr)
POL 8312 - Legislative Process (3.0 cr)
POL 8337 - Welfare State Theories and American Social Policy (3.0 cr)
POL 8360 - Topics in American Politics (3.0 cr)

International Relations
Required Course (3 credits)
Students selecting the International Relations emphasis must take the following course:
POL 8401 - International Relations (3.0 cr)
Electives (9 credits)
Select 9 credits from the following, in consultation with the advisor, to complete the International Relations emphasis.
POL 8402 - International Security (3.0 cr)
POL 8403 - International Norms and Institutions (3.0 cr)
POL 8405 - International Political Economy (3.0 cr)
POL 8460 - Topics in International Relations (3.0 cr)

Comparative Politics
Required Course (3 credits)
Students selecting the Comparative Politics emphasis must take the following course:
POL 8601 - Introduction to Comparative Politics (3.0 cr)
Electives (9 credits)
Select 9 credits from the following, in consultation with the advisor, to complete the Comparative Politics emphasis.
POL 8637 - Comparative Political Economy (3.0 cr)
POL 8660 - Topics in Comparative Politics (3.0 cr)

Formal Models and Methodology
Required Course (12 credits)
Students selecting the Political Models and Methodology emphasis must take the following courses:
POL 8120 - Core Course in Political Methodology: Modeling Political Processes (3.0 cr)
POL 8107 - Quantitative Political Science II (3.0 cr)
POL 8108 - Maximum Likelihood Estimation (3.0 cr)
POL 8124 - Game Theory (3.0 cr)

• Program Type: Graduate free-standing minor
• Requirements for this program are current for Fall 2022
• Length of program in credits (Masters): 6
• Length of program in credits (Doctorate): 12
• This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Population studies is a multidisciplinary research area at the intersection of the mathematical sciences, the health and social sciences, and public policy. The curriculum provides a solid grounding in the theories and methods of demography, with additional specialized training across five interdisciplinary subject areas: historical demography, population geography, economic demography, public health demography, and family and life course demography.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Population Studies director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Use of 4xxx courses towards program requirements is not permitted.

Minor field coursework should be from the same subject area and may not be in the student's major field.

Coursework applied to the minor must be approved by the Population Studies director of graduate studies.

Coursework applied to the minor must be taken A-F unless offered only S/N, with a minimum grade of C earned for each course.

The minimum cumulative GPA for minor field coursework is 2.8.

Required Course (3 credits)
Take the following course:
PA 5301 - Population Methods & Issues for the United States & Global South (3.0 cr)

Electives (3 to 9 credits)
Masters students select 3 credits, doctoral students 9 credits. If any of the following courses are chosen, take the section noted: HIST 5970 -- Fertility and the Family; HIST 8970 -- Demographic Transition; PA 5490 -- Politics and Policy of Demographic Change (3
credits); SOC 8540 -- Patriarch, Power, & Pay; SOC 8890  Sex, Death, & Mobility (3 credits; PA 5022 -Economics for Policy Analysis & Planning II- Population Economics; SOC 8090/GEOG 8080 Global Health Data Analysis.

FW 5051 - Analysis of Populations (4.0 cr)
GERO 5103 - Aging and Society (2.0 cr)
HIST 5797 - Methods of Population History (3.0 cr)
HIST 8970 - Advanced Research in Quantitative History (3.0 cr)
PA 5022 - Applications of Economics for Policy Analysis (1.5 - 3.0 cr)
PA 5043 - Economic and Demographic Data Analysis (2.0 cr)
PA 5281 - Immigrants, Urban Planning and Policymaking in the U.S. (3.0 cr)
PA 5401 - Poverty, Inequality, and Public Policy (3.0 cr)
PA 5451 *(Inactive)[3.0 cr)
PA 5490 - Topics in Social Policy (1.0 - 4.0 cr)
PA 8312 - Analysis of Discrimination (4.0 cr)
PA 8331 - Economic Demography (3.0 cr)
PA 8461 - Global and U.S. Perspectives on Health and Mortality (3.0 cr)
PUBH 6605 - Sexual, Reproductive, and Perinatal Public Health (2.0 cr)
PUBH 6737 - Structural Racism and Health (2.0 cr)
PUBH 6845 - Using Demographic Data for Policy Analysis (3.0 cr)
SOC 8090 - Topics in Sociology (1.5 - 3.0 cr)
SOC 8540 - Topics in Family Sociology (3.0 cr)
SOC 8551 - Life Course Inequality & Health (3.0 cr)
SOC 8607 - Migration & Migrants in Demographic Perspective (3.0 cr)
SOC 8890 - Advanced Topics in Research Methods (2.0 - 3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Doctoral

- Program Type: Master’s
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Arts

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Note: The Psychology graduate program does not accept applications directly to the MA; rather, the MA is an additional or alternative credential for students admitted to the Psychology PhD program.

Doctoral program specialties are offered in biological psychopathology; clinical science and psychopathology research; cognitive and brain sciences; counseling psychology; industrial/organizational psychology; personality, individual differences, and behavior genetics; quantitative/psychometric methods; and social psychology.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Note: The Psychology graduate program does not accept applications directly to the MA; rather, the MA is an additional or alternative credential for students admitted to the Psychology PhD program.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Paper Based - Total Score: 550

Key to test abbreviations (TOEFL).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Plan A: Plan A requires 14 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is oral.

Plan B: Plan B requires 24 major credits and 6 credits outside the major. The final exam is written and oral. A capstone project is required.
Capstone Project: The Plan B requires one to three review papers, and comprises the written component of the final examination.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of November 07, 2022
A minimum GPA of 3.00 is required for students to remain in good standing.

Use of 4xxx courses toward program requirements requires approval of the Psychology director of graduate studies in addition to advisor.

**Required Courses (14 credits)**
Select at least 14 credits from the following in consultation with the advisor:
PSY 5xxx
PSY 8xxx

**Outside Coursework (6 credits)**
Select at least 6 credits outside the major in consultation with the advisor.

**Plan Options**

**Plan A**
**Thesis Credits**
Take at least 10 masters thesis credits.
PSY 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

-OR-

**Plan B**
**Additional Credits (10 credits)**
Select at least 10 additional credits in consultation with the advisor to complete the 30-credit minimum.

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Psychology minor provides doctoral students with the opportunity to select coursework from the wide range of Psychology courses offered to meet their unique academic and professional goals.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Doctoral students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Psychology director of graduate studies, regarding feasibility and requirements. Approval of the Psychology director of graduate studies to complete the minor is required.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Application of 4xxx-level, minor coursework requires pre-approval of the Psychology director of graduate studies. The minimum cumulative GPA for coursework applied to the minor is 3.00.

Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Doctoral
Required Coursework (12 credits)
Select credits from the following to complete the minor field requirement. Approval of the Psychology director of graduate studies is required.
PSY 5xxx
PSY 8xxx
Twin Cities Campus
Psychology Ph.D.
Psychology
College of Liberal Arts

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 53 to 112
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Students are admitted only for the Ph.D. degree. The doctoral program offers tracks in clinical science and psychopathology research; cognitive and brain sciences; counseling psychology; industrial/organizational psychology; personality, individual differences, and behavior genetics; quantitative/psychometric methods; and social psychology.

Accreditation
This program is accredited by Counseling accredited by APA. CSPR accredited by APA and PCSAS.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Other requirements to be completed before admission:
Recommended academic preparation includes a minimum of 12 credits (three to four courses) of psychology coursework beyond introductory psychology, including one course in statistics or psychological measurement. An undergraduate major in psychology is preferred, but not required.

Special Application Requirements:
Applications are accepted for fall admission only; the deadline is December 1. Psychology PhD GRE General Test Requirements: Cognitive and Brain Sciences (CAB): Will not require students to submit GRE scores. If submitted, scores will not be considered. Clinical Science and Psychopathology Research (CSPR): Will not require students to submit GRE scores. Applicants who have scores may submit them as part of the programs holistic assessment of applicants qualifications and fit for the program. Counseling Psychology: Will not require students to submit GRE scores. Applicants who have scores may submit them as part of the programs holistic assessment of applicants qualifications and fit for the program. Industrial/Organizational Psychology (I-O): Requires the GRE. Personality, Individual Differences and Behavior Genetics (PIB): Requires the GRE. Quantitative/Psychometric Methods (QPM): Will not require students to submit GRE scores. Applicants are strongly encouraged to take the GRE if it is feasible and can be done without risk. Applicants who can obtain scores should submit them as part of the programs holistic assessment of applicants qualifications and fit for the program. Social Psychology: Will not require students to submit GRE scores. Applicants who have scores may submit them as part of the programs holistic assessment of applicants qualifications and fit for the program. Applicants identify their proposed track at the time of application. A department application; a statement of career interests, goals, and objectives; three letters of recommendation from persons familiar with the applicant's scholarship and research potential; and scores from the GRE General Test are required. The GRE Subject Test in psychology is not required, but highly recommended. Applicants whose native language is not English must submit the results of the TOEFL iBT. Applications are submitted electronically through the online application system.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Internet Based - Speaking Score: 23
The preferred English language test is Test of English as Foreign Language (TOEFL).

Key to test abbreviations (TOEFL).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
29 to 76 credits are required in the major.
0 to 12 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.0 is required for students to remain in good standing.

At least 3 semesters must be completed before filing a Degree Program Form.

Approval of the director of graduate studies, in addition to that of the advisor, is required for use of 4xxx-level coursework.

Outside Coursework (0 to 12 credits)
Students pursuing either the Cognitive and Brain Sciences track or the Industrial/Organizational track must select at least 12 outside credits in consultation with the advisor. Students pursuing the other tracks may take outside courses in addition to required coursework.

Thesis Credits
Take 24 doctoral thesis credits.

PSY 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Clinical Science and Psychopathology Research
All CSPR (APCS) students without the master's upon matriculation must complete the University's Psychology MA degree (thesis option).

Core Clinical Coursework (37 credits)

Required Courses (33 credits)
Take the following courses:

CPSY 8608 - Clinical Interventions Across the Lifespan (3.0 cr)
PSY 8602 - Psychopathology & Personality (3.0 cr)
PSY 8603 - Clinical Seminar Series: Contemporary Directions in Clinical Psychology Research (1.0 cr)
PSY 8614 - Intellectual and Neuropsychological Assessment (3.0 cr)
PSY 8615 - Professional Methods in Applied Assessment I: Intellectual & Neuropsychological Functioning (3.0 cr)
PSY 8616 - Applied Assessment II, Personality and Psychopathology (3.0 cr)
PSY 8617 - Ethical and Equitable Decisions in Clinical Science and Counseling Psychology (3.0 cr)
PSY 8619 - Foundations in Therapeutic Intervention Applying Theory to Clinical Practice (3.0 cr)
PSY 8622 - Theories and Methods of Effective Intervention (3.0 cr)
PSY 8814 - Analysis of Psychological Data (4.0 cr)
PSY 8815 - Analysis of Psychological Data (4.0 cr)

Clinical Psychology Practicum (4 credits)
Take 1 credit of the following at least 4 times in consultation with the advisor:
PSY 8620 - Clinical Practicum: Consultation, Supervision, Professional Standards, and Lifelong Learning (1.0 - 6.0 cr)

Research Courses (12 credits)
Select at least 12 credits from the following in consultation with the advisor:
PSY 5993 - Research Laboratory in Psychology (3.0 cr)
PSY 8993 - Directed Studies: Special Areas of Psychology and Related Sciences (1.0 - 6.0 cr)
Elective Breadth Courses (9 credits)
Select credits from at least 2 of the following areas, in consultation with the advisor, for a minimum of 9 credits. Other courses can be applied to the requirement with advisor approval.

### Brain Science (0 to 6 credits)
- PSY 5062 - Cognitive Neuropsychology (3.0 cr)
- PSY 5063 - Introduction to Functional MRI (3.0 cr)
- PSY 5064 - Brain and Emotion (3.0 cr)
- PSY 5065 - Functional Imaging: Hands-on Training (3.0 cr)
- NSC 5561 - Systems Neuroscience (4.0 cr)
- NSC 5661 - Behavioral Neuroscience (3.0 cr)

### Cognitive Science (0 to 6 credits)
- PSY 5014 - Psychology of Human Learning and Memory (3.0 cr)
- PSY 5015 - Cognition, Computation, and Brain (3.0 cr)
- PSY 5038W - Introduction to Neural Networks [WI] (3.0 cr)
- PSY 5054 - Psychology of Language (3.0 cr)
- PSY 8042 - Proseminar in Cognition, Brain, and Behavior (3.0 cr)

### Developmental (0 to 6 credits)
- CPSY 8301 - Developmental Psychology: Cognitive Processes (4.0 cr)
- CPSY 8302 - Developmental Psychology: Social and Emotional Processes (4.0 cr)

### Differential/Behavior Genetics (0 to 6 credits)
- PSY 5135 - Psychology of Individual Differences (3.0 cr)
- PSY 5137 - Introduction to Behavioral Genetics (3.0 cr)

### Industrial/Organizational (0 to 6 credits)
- PSY 5501 - Self, Society and Health - What's Work Got To Do With It? (3.0 cr)
- PSY 5701 - Employee Selection and Staffing (3.0 cr)
- PSY 5703 - Psychology of Organizational Training and Development (3.0 cr)
- PSY 5708 - Organizational Psychology (3.0 cr)

### Measurement (0 to 6 credits)
Psyc 5862 is required to satisfy the Measurement area. The additional courses below may be taken after 5862 is completed as a secondary Measurement fulfillment.
- PSY 5862 - Psychological Measurement: Theory and Methods (3.0 cr)
- PSY 5865 - Advanced Measurement: Theory and Application (3.0 cr)
- EPSY 8222 - Advanced Measurement: Theory and Application (3.0 cr)

### Personality (0 to 6 credits)
- PSY 5101H - Honors: Personality: Current Theory and Research (3.0 cr)
- PSY 8664 - Personality Assessment (3.0 cr)

### Sensation and Perception (0 to 6 credits)
- PSY 5031W - Perception [WI] (3.0 cr)
- PSY 5036W - Computational Vision [WI] (3.0 cr)
- PSY 5037 - Psychology of Hearing (3.0 cr)
- PSY 8041 - Proseminar in Perception (3.0 cr)

### Social (0 to 6 credits)
- PSY 5202 - Attitudes and Social Behavior (3.0 cr)
- PSY 5204 - Psychology of Interpersonal Relationships (3.0 cr)
- PSY 5205 - Applied Social Psychology (3.0 cr)
- PSY 5206 - Social Psychology and Health Behavior (3.0 cr)
- PSY 8201 - Social Cognition (3.0 cr)
- PSY 8202 - Close Relationships (3.0 cr)
- PSY 8203 - Impression Management (3.0 cr)
- PSY 8204 - Social Psychology of Prejudice and Intergroup Relations (3.0 cr)
- PSY 8205 - Principles of Social Psychology (3.0 cr)
- PSY 8208 - Social Psychology: The Self (3.0 cr)
- PSY 8209 - Research Methods in Social Psychology (3.0 cr)

### Statistics (0 to 6 credits)
- PSY 8960 - Graduate Seminar in Psychology (1.0 - 4.0 cr)

---

### Cognitive and Brain Sciences

#### Core Areas (12 credits)
Select credits from each of the 3 following areas, plus an additional credits 3, for a minimum of 12 credits. Courses are selected in consultation with the advisor.

#### Brain Science (3 to 6 credits)
- NSC 5561 - Systems Neuroscience (4.0 cr)
- NSC 5661 - Behavioral Neuroscience (3.0 cr)
- PSY 5062 - Cognitive Neuropsychology (3.0 cr)
- PSY 5063 - Introduction to Functional MRI (3.0 cr)
- PSY 5064 - Brain and Emotion (3.0 cr)
PSY 5065 - Functional Imaging: Hands-on Training (3.0 cr)

Cognitive Science (3 to 6 Credits)
PSY 5014 - Psychology of Human Learning and Memory (3.0 cr)
PSY 5018H - Mathematical Models of Human Behavior (3.0 cr)
PSY 5038W - Introduction to Neural Networks [WI] (3.0 cr)
PSY 5052 - Psychology of Attention (3.0 cr)
PSY 5054 - Psychology of Language (3.0 cr)
PSY 8042 - Proseminar in Cognition, Brain, and Behavior (3.0 cr)

Sensation and Perception (3 to 6 credits)
PSY 5031W - Perception [WI] (3.0 cr)
PSY 5036W - Computational Vision [WI] (3.0 cr)
PSY 5037 - Psychology of Hearing (3.0 cr)
PSY 8041 - Proseminar in Perception (3.0 cr)

Research Courses (3 credits)
Select at least 3 credits from the following in consultation with the advisor.
PSY 5993 - Research Laboratory in Psychology (3.0 cr)
PSY 8993 - Directed Studies: Special Areas of Psychology and Related Sciences (1.0 - 6.0 cr)

Quantitative Methods or Research Methodology (6 credits)
Select at least 6 credits from the following in consultation with the advisor.
CSCI 5521 - Machine Learning Fundamentals (3.0 cr)
CSCI 5525 - Machine Learning: Analysis and Methods (3.0 cr)
NSC 8111 - Quantitative Neuroscience (3.0 cr)
PSY 5018H - Mathematical Models of Human Behavior (3.0 cr)
PSY 5862 - Psychological Measurement: Theory and Methods (3.0 cr)
PSY 8814 - Analysis of Psychological Data (4.0 cr)
PSY 8815 - Analysis of Psychological Data (4.0 cr)
PSY 8882 - Seminar: Quantitative and Psychometric Methods (3.0 cr)
STAT 5021 - Statistical Analysis (4.0 cr)
STAT 5102 - Theory of Statistics II (4.0 cr)
STAT 5303 - Designing Experiments (4.0 cr)
STAT 5401 - Applied Multivariate Methods (3.0 cr)
STAT 5601 - Nonparametric Methods (3.0 cr)

General Psychology/Neuroscience Courses (3 credits)
Select 3 credits from the following in consultation with the advisor. PSY 5993, PSY 50xx and PSY 80xx courses cannot be applied to this requirement.
NSC 5xxx
NSC 8xxx
PSY 5xx
PSY 8xxx

Outside Coursework (12 credits)
Select at least 12 credits of outside coursework in consultation with the advisor. This requirement can be met by completing a formal minor.

Counseling Psychology

Counseling Psychology
Required Courses (47 credits)
Take the following courses. Take 4 credits of PSY 8514 and 4 credits of PSY 8515. PSY 8960 may be applied to this requirement if the topic History and Methods of Psychology is taken.
PSY 5501 - Self, Society and Health - What's Work Got To Do With It? (3.0 cr)
PSY 5862 - Psychological Measurement: Theory and Methods (3.0 cr)
PSY 5960 - Topics in Psychology (1.0 - 4.0 cr)
PSY 8602 - Psychopathology & Personality (3.0 cr)
PSY 8501 - Counseling Psychology: History and Theories (3.0 cr)
PSY 8502 - Assessment in Counseling Psychology (3.0 cr)
PSY 8503 - Interviewing and Intervention (3.0 cr)
PSY 8514 - University Counseling Practicum I (4.0 - 6.0 cr)
PSY 8515 - University Counseling Practicum II (4.0 - 6.0 cr)
PSY 8541 - Multicultural Psychology (3.0 cr)
PSY 8617 - Ethical and Equitable Decisions in Clinical Science and Counseling Psychology (3.0 cr)
PSY 8545 - Counseling Psychology Process and Outcome Research (3.0 cr)
PSY 8814 - Analysis of Psychological Data (4.0 cr)
PSY 8815 - Analysis of Psychological Data (4.0 cr)

Advanced Practicum (8 credits)
Take at least 1 credit of PSY 8560 the fall semester of years 3, 4, and 5 for a minimum total of 3 credits. Take 1 credit of PSY 8561 the spring semester of years 3, 4, and 5 for a minimum total of 3 credits. Take 1 credit of PSY 8565 (offered in the fall) and 1 credit of PSY 8566 (offered in the spring) year 3 or year 4 for a total of 2 credits.
PSY 8560 - Counseling Psychology Advanced Practicum I: General (1.0 - 3.0 cr)
PSY 8561 - Counseling Psychology Advanced Practicum II: General (1.0 - 3.0 cr)
PSY 8565 - Counseling Psychology Advanced Practicum I: Career Counseling and Assessment Clinic (1.0 - 6.0 cr)
PSY 8566 - Counseling Psychology Advanced Practicum II: Career Counseling and Assessment Clinic (1.0 - 6.0 cr)

General Psychology Electives (21 credits)
Affective and Biological Aspects of Behavior (6 credits)
Only 6 credits are required; however, students need to choose between PSY 5062 or PSY 5064 and PSY 5135 or PSY 5137 (one course from each pairing of two). Another 5xxx or 8xxx-level course on affect, mood, emotion, and multiple biological underpinnings of behavior can be applied to this requirement with advisor approval.
PSY 5062 - Cognitive Neuropsychology (3.0 cr)
PSY 5064 - Brain and Emotion (3.0 cr)
PSY 5135 - Psychology of Individual Differences (3.0 cr)
PSY 5137 - Introduction to Behavioral Genetics (3.0 cr)

Cognitive Aspects of Behavior (3 credits)
Take the following course. Another 5xxx or 8xxx-level course on learning, memory, thought process, and decision-making can be applied to this requirement with advisor approval.
PSY 5014 - Psychology of Human Learning and Memory (3.0 cr)

Social Aspects of Behavior (3 credits)
Take the following course. Another 5xxx or 8xxx-level course on group processes, attributions, discrimination, and attitudes can be applied to this requirement with advisor approval.
PSY 5207 - Personality and Social Behavior (3.0 cr)

Developmental Aspects of Behavior (3 credits)
Select 3 credits from the following in consultation with the advisor. Another 5xxx or 8xxx-level course on transitions, growth, and lifespan development can be applied to this requirement with advisor approval.
CPSY 5301 - Advanced Developmental Psychology (3.0 cr)
CPSY 5302 - Cognitive and Biological Development (3.0 cr)
CPSY 5303 - Social and Emotional Development (3.0 cr)
CPSY 8301 - Developmental Psychology: Cognitive Processes (4.0 cr)
CPSY 8302 - Developmental Psychology: Social and Emotional Processes (4.0 cr)

Statistics (3 credits)
Select 3 credits from the following in consultation with the advisor. Another 5xxx or 8xxx-level advanced statistics course can be applied to this requirement with advisor approval.
EPSY 8266 - Statistical Analysis Using Structural Equation Methods (3.0 cr)
EPSY 8267 - Applied Multivariate Analysis (3.0 cr)
EPSY 8268 - Hierarchical Linear Modeling in Educational Research (3.0 cr)
EPSY 8282 - Statistical Analysis of Longitudinal Data (3.0 cr)
PSY 8960 - Graduate Seminar in Psychology (1.0 - 4.0 cr)

Industrial-Organizational Psychology

Course Requirements
Foundational Statistics and Measurement (11 Credits)
Take the following courses. Other courses can be applied to this requirement with advisor approval.
PSY 5862 - Psychological Measurement: Theory and Methods (3.0 cr)
PSY 8814 - Analysis of Psychological Data (4.0 cr)
PSY 8815 - Analysis of Psychological Data (4.0 cr)

Industrial-Organizational Psychology (16 Credits)
Select at least 16 credits from the following in consultation with the advisor. For the following three courses (PSY 5701, PSY 5703, PSY 5708), other courses with highly similar content and at highly similar level may be applied to this requirement with advisor approval.
PSY 5701 - Employee Selection and Staffing (3.0 cr)
PSY 5703 - Psychology of Organizational Training and Development (3.0 cr)
PSY 5708 - Organizational Psychology (3.0 cr)
PSY 8701 - Seminar in Industrial and Organizational Psychology I (3.0 cr)
PSY 8702 - Seminar in Industrial and Organizational Psychology II (3.0 cr)
PSY 8703 - Seminar in Industrial and Organizational Psychology III (3.0 cr)

Foundational Psychological Science (3 credits)
Select at least 3 credits, in consultation with the advisor, from one of the following 9 areas. Other courses at 5xxx-level or higher can be applied to this requirement with advisor approval.

Brain Science (0 to 3)
PSY 5062 - Cognitive Neuropsychology (3.0 cr)
PSY 5063 - Introduction to Functional MRI (3.0 cr)
PSY 5064 - Brain and Emotion (3.0 cr)
PSY 5065 - Functional Imaging: Hands-on Training (3.0 cr)
NSC 5561 - Systems Neuroscience (4.0 cr)
NSC 5661 - Behavioral Neuroscience (3.0 cr)

Cognitive Science (0 to 3)
PSY 5014 - Psychology of Human Learning and Memory (3.0 cr)
PSY 5015 - Cognition, Computation, and Brain (3.0 cr)
PSY 5038W - Introduction to Neural Networks [WI] (3.0 cr)
PSY 5054 - Psychology of Language (3.0 cr)
PSY 8042 - Proseminar in Cognition, Brain, and Behavior (3.0 cr)

Counseling (0 to 3 credits)
- PSY 5501 - Self, Society and Health - What's Work Got To Do With It? (3.0 cr)
- PSY 8501 - Counseling Psychology: History and Theories (3.0 cr)
- PSY 8502 - Assessment in Counseling Psychology (3.0 cr)
- PSY 8503 - Interviewing and Intervention (3.0 cr)
- PSY 8541 - Multicultural Psychology (3.0 cr)

Developmental (0 to 3 credits)
- CPSY 8301 - Developmental Psychology: Cognitive Processes (4.0 cr)
- CPSY 8302 - Developmental Psychology: Social and Emotional Processes (4.0 cr)

Differential/Behavior Genetics (0 to 3 credits)
- PSY 5135 - Psychology of Individual Differences (3.0 cr)
- PSY 5136 - Human Abilities (3.0 cr)
- PSY 5137 - Introduction to Behavioral Genetics (3.0 cr)

Personality (0 to 3 credits)
- PSY 5101H - Honors: Personality: Current Theory and Research (3.0 cr)
- PSY 5207 - Personality and Social Behavior (3.0 cr)
- PSY 8664 - Personality Assessment (3.0 cr)

Psychopathology (0 to 3 credits)
- CPSY 8603 - Advanced Developmental Psychopathology (3.0 cr)
- PSY 8602 - Psychopathology & Personality (3.0 cr)
- PSY 8617 - Ethical and Equitable Decisions in Clinical Science and Counseling Psychology (3.0 cr)
- PSY 8616 - Applied Assessment II, Personality and Psychopathology (3.0 cr)
- PSY 8622 - Theories and Methods of Effective Intervention (3.0 cr)

Sensation and Perception (0 to 3 credits)
- PSY 5031W - Perception [WI] (3.0 cr)
- PSY 5036W - Computational Vision [WI] (3.0 cr)
- PSY 5037 - Psychology of Hearing (3.0 cr)
- PSY 8041 - Proseminar in Perception (3.0 cr)

Social (0 to 3 credits)
- PSY 5202 - Attitudes and Social Behavior (3.0 cr)
- PSY 5204 - Psychology of Interpersonal Relationships (3.0 cr)
- PSY 5205 - Applied Social Psychology (3.0 cr)
- PSY 5206 - Social Psychology and Health Behavior (3.0 cr)
- PSY 8201 - Social Cognition (3.0 cr)
- PSY 8202 - Close Relationships (3.0 cr)
- PSY 8203 - Impression Management (3.0 cr)
- PSY 8204 - Social Psychology of Prejudice and Intergroup Relations (3.0 cr)
- PSY 8205 - Principles of Social Psychology (3.0 cr)
- PSY 8208 - Social Psychology: The Self (3.0 cr)
- PSY 8209 - Research Methods in Social Psychology (3.0 cr)

Electives (6 credits)
Select at least 6 credits, in consultation with the advisor, from one or more of the following areas. Other courses may be applied to this requirement with advisor approval. PSY 8960, if selected, must be one of the identified topics sections or another topic offered through the I-O psychology area.

I-O Psychology (0 to 6 credits)
- PSY 8960 - Graduate Seminar in Psychology (1.0 - 4.0 cr)
  Seminar in Psych - Meta-Analysis

Seminar in Psych - Fairness and Bias
Seminar in Psych - Personality at Work
Seminar in Psych - Motivation at Work
Seminar in Psych - Counterproductive Work Behaviors

Psychology (0 to 6 credits)
PSY courses at the 5xxx and 8xxx level may be used with advisor approval.

Related Disciplines (0 to 6 credits)
Coursework may include 5xxx and 8xxx level courses in EPSY, STAT, APEC, CSOM, and/or LAW.

Supporting Quantitative Concentration Coursework (12 credits)
Additional Supporting Concentrations or Minor Coursework may be undertaken with advisor approval.

Quantitative Methods (9 credits)
Take each of the following required PSY 8960 topics courses for 3 credits. Other courses may be substituted with advisor approval.
PSY 8960: Research Methods in I-O Psychology
PSY 8960: Data Science
PSY 8960: Multivariate

Additional Quantitative Coursework (3 credits)
Select 3 credits from the following in consultation with the advisor. Other courses can be substituted with advisor approval.

- EPSY 8222 - Advanced Measurement: Theory and Application (3.0 cr)
- EPSY 8264 - Advanced Multiple Regression Analysis (3.0 cr)
- EPSY 8265 - Factor Analysis (3.0 cr)
- EPSY 8266 - Statistical Analysis Using Structural Equation Methods (3.0 cr)
- EPSY 8268 - Hierarchical Linear Modeling in Educational Research (3.0 cr)
- EPSY 8282 - Statistical Analysis of Longitudinal Data (3.0 cr)
- PSY 5018H - Mathematical Models of Human Behavior (3.0 cr)
- PSY 5865 - Advanced Measurement: Theory and Application (3.0 cr)
- PSY 8968 - Seminar: Quantitative and Psychometric Methods (3.0 cr)
- PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
- PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
- PUBH 8442 - Bayesian Decision Theory and Data Analysis (3.0 cr)
- STAT 5302 - Applied Regression Analysis (4.0 cr)
- STAT 5303 - Designing Experiments (4.0 cr)
- STAT 5401 - Applied Multivariate Methods (3.0 cr)

Personality, Individual Differences and Behavior Genetics
Students without the master's upon matriculation must complete the University's Psychology MA degree (thesis option) or equivalent master's degree with advisor and director of graduate studies approval.

Required Courses (14 credits)
Take the following courses:

- PSY 5862 - Psychological Measurement: Theory and Methods (3.0 cr)
- PSY 5960 - Topics in Psychology (1.0 - 4.0 cr)
- PSY 8814 - Analysis of Psychological Data (4.0 cr)
- PSY 8815 - Analysis of Psychological Data (4.0 cr)

Core Electives (6 credits)
Select 6 credits from the following in consultation with the advisor:

- PSY 5101H - Honors: Personality: Current Theory and Research (3.0 cr)
- PSY 5135 - Psychology of Individual Differences (3.0 cr)
- PSY 5137 - Introduction to Behavioral Genetics (3.0 cr)
- PSY 8664 - Personality Assessment (3.0 cr)

Statistics Electives (3 credits)
Select 3 credits from the following in consultation with the advisor:

- PSY 5865 - Advanced Measurement: Theory and Application (3.0 cr)
- PSY 8881 - Seminar: Quantitative and Psychometric Methods (3.0 cr)
- PSY 8882 - Seminar: Quantitative and Psychometric Methods (3.0 cr)

Electives (6 credits)
Select 6 credits from the following in consultation with the advisor. Other courses can be applied to this requirement with advisor approval. Under limited circumstances, this requirement can be waived with advisor and area director approval for students who elect to pursue a formal minor.

- PSY 5136 - Human Abilities (3.0 cr)
- PSY 5207 - Personality and Social Behavior (3.0 cr)
- PSY 8937 - Seminar in Human Behavioral Genetics (3.0 cr)

Quantitative/Psychometric Methods

Required Courses (30 credits)
Take the following courses. Take 21 total credits of PSY 8881 and 8882, in consultation with the advisor. Take 3 credits of PSY 8960 Seminar: Multivariate Statistics for Social Scientists.

- PSY 5862 - Psychological Measurement: Theory and Methods (3.0 cr)
- PSY 5865 - Advanced Measurement: Theory and Application (3.0 cr)
- PSY 8881 - Seminar: Quantitative and Psychometric Methods (3.0 cr)
- PSY 8882 - Seminar: Quantitative and Psychometric Methods (3.0 cr)
- PSY 8960 - Graduate Seminar in Psychology (1.0 - 4.0 cr)

Statistics Courses (6 credits)
Select one of the following course sequences in consultation with the advisor:

- PSY 8814 - Analysis of Psychological Data (4.0 cr)
- PSY 8815 - Analysis of Psychological Data (4.0 cr)
Take either STAT 5101 and STAT 5102 or STAT 8101 and STAT 8102.

- **STAT 5101** - Theory of Statistics I (4.0 cr)
- or **STAT 5102** - Theory of Statistics II (4.0 cr)
- or **Sub-list 0**
  - **STAT 8101** - Theory of Statistics 1 (3.0 cr)
  - **STAT 8102** - Theory of Statistics 2 (3.0 cr)

**General Psychology Courses (3 credits)**

Select at least 3 credits from the following in consultation with the advisor. PSY 5993 and PSY 8993 coursework cannot be applied to this requirement.

- CPSY 5xxx
- CPSY 8xxx
- PSY 5xxx
- PSY 8xxx

**Electives (6 credits)**

Select 6 credits from the following in consultation with the advisor. Application of PSY 8960 credits to this requirement is strongly encouraged.

- PSY 8960: Computerized Adaptive Testing (3.0 cr)

- PSY 8960: Item Response Theory (3.0 cr)
- PSY 8960: Multilevel Modeling (3.0 cr)
- EPSY 8264 - Advanced Multiple Regression Analysis (3.0 cr)
- EPSY 8265 - Factor Analysis (3.0 cr)
- EPSY 8266 - Statistical Analysis Using Structural Equation Methods (3.0 cr)
- EPSY 8267 - Applied Multivariate Analysis (3.0 cr)
- EPSY 8268 - Hierarchical Linear Modeling in Educational Research (3.0 cr)
- EPSY 8282 - Statistical Analysis of Longitudinal Data (3.0 cr)
- MATH 5447 - Theoretical Neuroscience (4.0 cr)
- PUBH 7407 - Analysis of Categorical Data (3.0 cr)
- PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
- PUBH 7460 - Advanced Statistical Computing (3.0 cr)
- PUBH 8442 - Bayesian Decision Theory and Data Analysis (3.0 cr)
- PUBH 8452 - Advanced Longitudinal Data Analysis (3.0 cr)
- PUBH 8475 - Statistical Learning and Data Mining (3.0 cr)
- STAT 5201 - Sampling Methodology in Finite Populations (3.0 cr)
- STAT 5401 - Applied Multivariate Methods (3.0 cr)
- STAT 5421 - Analysis of Categorical Data (3.0 cr)
- STAT 5601 - Nonparametric Methods (3.0 cr)
- STAT 5701 - Statistical Computing (3.0 cr)
- STAT 8051 - Advanced Regression Techniques: linear, nonlinear and nonparametric methods (3.0 cr)
- STAT 8052 - Applied Statistical Methods 2: Design of Experiments and Mixed-Effects Modeling (3.0 cr)
- STAT 8053 - Advanced Multivariate Analysis and Advanced Regression (3.0 cr)
- STAT 8054 - Statistical Methods 4: Advanced Statistical Computing (3.0 cr)

**Social Psychology**

**Required Courses (17 credits)**

Take the following courses. Take Psy 8205 twice for a total of 6 credits. Take Psy 8206 at least 3 times for a total of 3 credits.

- PSY 8205 - Principles of Social Psychology (3.0 cr)
- PSY 8206 - Proseminar in Social Psychology (1.0 cr)
- PSY 8814 - Analysis of Psychological Data (4.0 cr)
- PSY 8815 - Analysis of Psychological Data (4.0 cr)

**Advanced Statistics Courses (3 credits)**

Select at least 3 credits from the following in consultation with the advisor.

- EPSY 8264 - Advanced Multiple Regression Analysis (3.0 cr)
- EPSY 8265 - Factor Analysis (3.0 cr)
- EPSY 8266 - Statistical Analysis Using Structural Equation Methods (3.0 cr)
- EPSY 8267 - Applied Multivariate Analysis (3.0 cr)
- EPSY 8268 - Hierarchical Linear Modeling in Educational Research (3.0 cr)
- EPSY 8282 - Statistical Analysis of Longitudinal Data (3.0 cr)
- PSY 5862 - Psychological Measurement: Theory and Methods (3.0 cr)
- PSY 5865 - Advanced Measurement: Theory and Application (3.0 cr)
- PSY 8882 - Seminar: Quantitative and Psychometric Methods (3.0 cr)
- PUBH 7407 - Analysis of Categorical Data (3.0 cr)
- PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
- PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
- PUBH 8442 - Bayesian Decision Theory and Data Analysis (3.0 cr)
PUBH 8452 - Advanced Longitudinal Data Analysis (3.0 cr)
STAT 5302 - Applied Regression Analysis (4.0 cr)
STAT 5303 - Designing Experiments (4.0 cr)
STAT 5401 - Applied Multivariate Methods (3.0 cr)
STAT 5601 - Nonparametric Methods (3.0 cr)

Electives (12 credits)
Select at least 12 credits, at least 6 of which must be from 8000-level courses, from the following in consultation with the advisor:
PSY 5202 - Attitudes and Social Behavior (3.0 cr)
PSY 5204 - Psychology of Interpersonal Relationships (3.0 cr)
PSY 5205 - Applied Social Psychology (3.0 cr)
PSY 5206 - Social Psychology and Health Behavior (3.0 cr)
PSY 5207 - Personality and Social Behavior (3.0 cr)
PSY 8201 - Social Cognition (3.0 cr)
PSY 8203 - Impression Management (3.0 cr)
PSY 8204 - Social Psychology of Prejudice and Intergroup Relations (3.0 cr)
PSY 8208 - Social Psychology: The Self (3.0 cr)
PSY 8209 - Research Methods in Social Psychology (3.0 cr)
PSY 8210 - Law, Race, and Social Psychology (3.0 cr)

Additional Psychology Course (3 credits)
Select at least 3 credits from the following in consultation with the advisor. PSY 5993, PSY 52xx, and PSY 82xx courses cannot be applied to this requirement.
PSY 5xxx
PSY 8xxx
Twin Cities Campus

Email: ridgs@umn.edu
Website: https://cla.umn.edu/ridgs

- Program Type: Graduate free-standing minor
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The RIDGS graduate minor is the critical and comparative study of significant social categories of power and inequality, namely race, ethnicity, indigeneity, disability, gender, sexuality, class, sovereignty, and diaspora. This interdisciplinary minor foregrounds a transnational and comparative framework to analyze these multiple forms of social difference and their interactions in relation to one another. While the focus is on the United States, given the minor’s attention to the making of social categories and borders, the analytical lens and purview of the minor will be transnational in scale and scope.

Seminars in the minor are grounded by a strong commitment to the analysis and understanding of power relations, structural inequality, and social justice through a relational and multidisciplinary approach. The RIDGS graduate minor focuses on the processes that constitute the categories and groups in the first place, rather than juxtaposing discrete groups, and offers tools for theorizing their mutual constitution. Accordingly, this graduate minor privileges intersectionality, interdisciplinary, transnationalism, comparison, and relationality. What distinguishes this graduate minor is its conceptual and theoretical approach, which not only makes this program complementary to existing graduate courses of study at UMN, but also engages multiscalar justice and equity discourses, in historical and contemporary perspectives.

The RIDGS graduate minor strengthens student work in their major field of study as students learn how best to integrate critical and comparative race, ethnicity, indigeneity, disability, gender and sexuality theories and methodologies into their existing work.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Race, Indigeneity, Gender, Disability, and Sexuality (RIDGS) director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Courses offered for variable credit must be taken for 3 credits and any 4xxx-level coursework requires pre-approval by the RIDGS director of graduate studies.
The minimum cumulative GPA for minor field coursework is 3.00.

**Proseminar (3 credits)**
Select 1 of the following courses in consultation with the RIGS director of graduate studies. If HIST 8910 Topics is chosen, take Race and Class in the United States for 3 credits.
- AFRO 8202 - Seminar: Intellectual History of Race (3.0 cr)
- HIST 8910 - Topics in U.S. History (1.0 - 4.0 cr)
- SOC 8211 - The Sociology of Race & Racialization (3.0 cr)

**Electives (3-6 credits)**
Master's students select 3 credits, and doctoral students select 6 credits in consultation with the RIDGS director of graduate studies. Topics courses must be taken for 3 credits in the section noted: AMIN 8910 Amlnd & Indigenous Studies; ANTH 8510 Decolonizing Archives; ANTH 8810 Anthro of Capitalism; HIST 5910 Am Colonial & Indigenous Hist; HIST 5910 Intersect of Native & AfrAm Hist; HIST 8910 Race & Class in US; HIST 8960 Politics of Land; HIST 8970 W. Imperialisms; POL 8260 Theorizing Violence; SOC 8090 Soc of Black Exp; SOC 8190 Genocide & Mass Violence.
- AFRO 5666 - The Civil Rights and Black Power Movement, 1954-1984 (3.0 cr)
- AFRO 8202 - Seminar: Intellectual History of Race (3.0 cr)
- AMIN 5402 - American Indians and the Cinema [AH, DSJ] (3.0 cr)
- AMIN 5409 - American Indian Women: Ethnographic and Ethnohistorical Perspectives [HIS, DSJ] (3.0 cr)
- AMIN 5412 - Comparative Indigenous Feminisms [GP] (3.0 cr)
- AMIN 5890 - Readings in American Indian and Indigenous History (3.0 cr)
- AMIN 5920 - Topics in American Indian Studies (3.0 cr)
- AMIN 8301 - Critical Indigenous Theory (3.0 cr)
- AMIN 8910 - Topics in American Indian and Indigenous Studies (1.0 - 3.0 cr)
- AMST 8289 - Ethnographic Research Methods: Research Strategies in American Studies (3.0 cr)
- ANTH 8203 - Research Methods in Social and Cultural Anthropology (3.0 cr)
- ANTH 8510 - Topics in Archaeology (3.0 cr)
- ANTH 8810 - Topics in Sociocultural Anthropology (3.0 cr)
- CHIC 5374 - Migrant Farmworkers in the United States: Families, Work, and Advocacy [CIV] (4.0 cr)
- CI 8416 - Speculative Fiction, Radical Imagination, and Social Change (3.0 cr)
- CI 8645 - Indigenous Language Revitalization and Activist Research Methods (3.0 cr)
- GWSS 5104 - Transnational Feminist Theory (3.0 cr)
- GWSS 8260 - Seminar: Race, Representation and Resistance (3.0 cr)
- HIST 5890 - Readings in American Indian and Indigenous History (3.0 cr)
- HIST 5910 - Topics in U.S. History (1.0 - 4.0 cr)
- HIST 8910 - Topics in U.S. History (1.0 - 4.0 cr)
- HIST 8960 - Topics in History (1.0 - 4.0 cr)
- HIST 8970 - Advanced Research in Quantitative History (3.0 cr)
- HSPH 8003 - Race and Indigeneity in Heritage Representation (3.0 cr)
- PA 5690 - Topics in Women, Gender and Public Policy (0.5 - 3.0 cr)
- PA 8690 - Advanced Topics in Women, Gender and Public Policy (1.0 - 3.0 cr)
- POL 8260 - Topics in Political Theory (3.0 cr)
- SOC 8090 - Topics in Sociology (1.5 - 3.0 cr)
- SOC 8190 - Topics in Law, Crime, and Deviance (3.0 cr)
- SOC 8211 - The Sociology of Race & Racialization (3.0 cr)

**Program Sub-plans**
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

**Masters**

**Doctoral**

**Interdisciplinary Methodologies (3 credits)**
Doctoral minors select 1 of the following courses in consultation with the RIDGS director of graduate studies:
- AMST 8289 - Ethnographic Research Methods: Research Strategies in American Studies (3.0 cr)
- ANTH 8203 - Research Methods in Social and Cultural Anthropology (3.0 cr)
- COMM 8110 - Seminar: Communication Research Methods (3.0 cr)
- GWSS 8201 - Feminist Theory and Methods in the Social Sciences (3.0 cr)

- Program Type: Graduate free-standing minor
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 9
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The minor in Religious Studies is available to master's and doctoral students in relevant University of Minnesota departments, schools, and colleges, including but not limited to American Studies, Anthropology, Art History, Classical and Near Eastern Studies, English, History, Philosophy, Sociology, Hubbard School of Journalism and Mass Communication, School of Music, and the College of Education and Human Development.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Other requirements to be completed before admission:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Religious Studies director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

All coursework applied to the minor must be taken on the A-F grade basis.

Required Course (3 credits)
Take the following course:
RELS 5001 - Theory and Method in the Study of Religion: Critical Approaches to the Study of Religion (3.0 cr)

Electives (6 to 9 credits)
Masters students select 6 credits, and doctoral students select 9 credits from the following in consultation with the Religious Studies director of graduate studies. Other courses can be applied to this requirement with approval of the Religious Studies director of graduate studies.
RELS 5013W - Biblical Law and Jewish Ethics [WI] (3.0 cr)
RELS 5071 - Greek and Hellenistic Religions (3.0 cr)
RELS 5115 - Midrash: Reading and Retelling the Hebrew Bible (3.0 cr)
RELS 5204 - The Dead Sea Scrolls (3.0 cr)
RELS 5254 - Archaeology of Ritual and Religion (3.0 cr)
Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Twin Cities Campus
Rhetoric, Scientific and Technical Communication M.A.
Writing Studies Department
College of Liberal Arts

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 34
- This program does not require summer semesters for timely completion.
- Degree: Master of Arts

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Department of Writing Studies trains students to understand how people use written communication (textual, digital, and visual) to shape the world around them, with a particular emphasis on communication in scientific and technical areas. The MA program prepares students for doctoral-level research by training them in the areas of rhetorical theory and history; writing studies and pedagogy; and technical communication, technology, and culture. Students build a broad base of knowledge in these three areas while developing a specialty area and pursuing interdisciplinary study.

MA applicants should have a strong interest in language and rhetorical theory or communication theory. Students often benefit from entering the program with a background in a science, Internet studies, environmental studies, or pedagogy and technology. Students work in collaboration with faculty mentors and peers to develop the expertise required to make original contributions to the scholarship in their field. The curriculum, professional development training, and funding are structured to support students in making early and regular contributions to the published literature, and in teaching first-year writing and advanced writing courses at the college level.

Each student also develops a supporting field or minor by taking courses outside the department. Students often build expertise in such areas as communication studies; curriculum and instruction; history of science and technology; history of medicine; or gender, women's and sexuality studies.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Undergraduate degree in a related discipline such as rhetoric, technical and professional communication, English, or communication studies.

Special Application Requirements:
Nonnative speakers of English are required to take an appropriate test with satisfactory scores. All applicants must submit a departmental supplemental application, personal statement, curriculum vitae or resume, three letters of recommendation and two writing samples. Applicants are also strongly encouraged to submit a diversity statement and, if appropriate, an extenuating circumstances statement. All MA applicants should apply by the January 5 application deadline; all admitted students begin in the fall semester.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- Paper Based - Total Score: 550
- IELTS
Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan B: Plan B requires 28 major credits and 6 credits outside the major. The final exam is oral. A capstone project is required. 
Capstone Project: The Plan B project requires students to complete a publication-worthy research paper under their advisors supervision.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.0 is required for students to remain in good standing.

Coursework offered on both the A-F and S/N grading basis must be taken A-F, with a minimum grade of B earned for each course.

Required Core Area (12 credits)
Select a total of 12 credits from the following 3 categories:

Rhetoric (3 to 6 credits)
Select at least 3 credits from the following in consultation with the advisor:
- WRIT 5775 - Rhetorical Traditions: Classical Period (3.0 cr)
- WRIT 5776 - The Rhetorical Traditions: Modern Era (3.0 cr)

Writing Studies (3 to 6 credits)
Select at least 3 credits from the following in consultation with the advisor:
- WRIT 8540 - Seminar in Technical Communication and Composition Pedagogies (3.0 cr)
- WRIT 8560 - Seminar in Writing Studies (3.0 cr)

Technical Communication (3 to 6 credits)
Select at least 3 credits from the following in consultation with the advisor:
- WRIT 8520 - Seminar in Scientific and Technical Communication (3.0 cr)
- WRIT 8550 - Seminar in Technology, Culture, and Communication (3.0 cr)

Methods and Pedagogies (7 credits)
Take the following courses:
- WRIT 8011 - Research Methods in Writing Studies and Technical Communication (3.0 cr)
- WRIT 5531 - Introduction to Writing Theory and Pedagogies (3.0 cr)
- WRIT 5532 - Practicum in Writing Pedagogies (1.0 cr)

Writing Studies Specialty Area (6 credits)
Courses should be selected to develop a coherent specialty area/concentration. Specialties include areas such as rhetoric, literacies, professional and technical communication, internet studies, theories of writing, writing pedagogies, rhetorics of science, medicine, or law, and the environment.
- WRIT 5112 - Information Design: Theory and Practice (3.0 cr)
- WRIT 5501 - Usability and Human Factors in Technical Communication (3.0 cr)
- WRIT 5561 - Editing and Style for Technical Communicators (3.0 cr)
- WRIT 5662 - Writing With Digital Technologies (3.0 cr)
- WRIT 5664 - Science, Medical, and Health Writing (3.0 cr)
- WRIT 5671 - Visual Rhetoric (3.0 cr)
- WRIT 5775 - Rhetorical Traditions: Classical Period (3.0 cr)
- WRIT 5776 - The Rhetorical Traditions: Modern Era (3.0 cr)
- WRIT 8505 - Professional Practice (3.0 cr)
- WRIT 8510 - Seminar in Rhetoric (3.0 cr)
- WRIT 8520 - Seminar in Scientific and Technical Communication (3.0 cr)
- WRIT 8540 - Seminar in Technical Communication and Composition Pedagogies (3.0 cr)
- WRIT 8550 - Seminar in Technology, Culture, and Communication (3.0 cr)
- WRIT 8560 - Seminar in Writing Studies (3.0 cr)
- WRIT 8792 - Independent Study, Reading, and Research (1.0 - 4.0 cr)
Outside Coursework (6 credits)
Select 6 credits outside the Department of Writing Studies in consultation with the advisor. Other courses can be applied to this requirement with advisor approval.
AMST 8202 - Theoretical Foundations and Current Practice in American Studies (3.0 cr)
BTHX 5300 - Foundations of Bioethics (3.0 cr)
BTHX 8xxx
CI 5xxx
CI 8xxx
COMM 5xxx
COMM 8xxx
ENGL 5xxx

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Graduate Minor in Rhetoric and Scientific & Technical Communication (RSTC) is available for masters and PhD-level students enrolled in other University graduate programs. Courses train students to understand how people use written communication (textual, digital, and visual) to shape the world around them, with a particular emphasis on communication in scientific and technical areas. The minor also offers students opportunities to pursue special interests in areas such as digital, textual, or visual literacies; theories of rhetoric; writing; composition; and writing pedagogies.

Tailored to students in research degree programs, the minor prepares students to integrate writing pedagogy into discipline-specific teaching practices, develop skills in rhetorical analysis, apply scientific and technical communication principles to the communication of scholarly work, and more. Students in graduate-level professional programs who are interested in applying basic theory and research-driven approaches to workplace contexts are encouraged to pursue the Scientific and Technical Communication Minor.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission

Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Rhetoric, Scientific and Technical Communication director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Courses offered on both the A-F and S/N grading basis must be taken A-F, with a minimum grade of B earned for each course.

The minimum cumulative GPA for minor field coursework is 3.00.

Methods, Pedagogies, and Core Areas (6 credits)
Masters students select 6 credits, and doctoral students select 6 or more credits from the following in consultation with the Rhetoric, Scientific and Technical Communication director of graduate studies.

- WRIT 5531 - Introduction to Writing Theory and Pedagogies (3.0 cr)
- WRIT 5775 - Rhetorical Traditions: Classical Period (3.0 cr)
- WRIT 5776 - The Rhetorical Traditions: Modern Era (3.0 cr)
- WRIT 8011 - Research Methods in Writing Studies and Technical Communication (3.0 cr)
- WRIT 8510 - Seminar in Rhetoric (3.0 cr)
- WRIT 8520 - Seminar in Scientific and Technical Communication (3.0 cr)
WRIT 8540 - Seminar in Technical Communication and Composition Pedagogies (3.0 cr)
WRIT 8550 - Seminar in Technology, Culture, and Communication (3.0 cr)
WRIT 8560 - Seminar in Writing Studies (3.0 cr)

Electives
Select coursework in consultation with the Rhetoric, Scientific and Technical Communication director of graduate studies.
WRIT 5112 - Information Design: Theory and Practice (3.0 cr)
WRIT 5270 - Special Topics (3.0 cr)
WRIT 5532 - Practicum in Writing Pedagogies (1.0 cr)
WRIT 5662 - Writing With Digital Technologies (3.0 cr)
WRIT 5664 - Science, Medical, and Health Writing (3.0 cr)
WRIT 5671 - Visual Rhetoric (3.0 cr)
WRIT 8792 - Independent Study, Reading, and Research (1.0 - 4.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Twin Cities Campus
Rhetoric, Scientific and Technical Communication Ph.D.
Writing Studies Department
College of Liberal Arts

Link to a list of faculty for this program.

Contact Information:
Department of Writing Studies, 214 Nolte Center, 315 Pillsbury Drive, SE, Minneapolis, MN 55455 (612-624-3445; fax: 612-624-3617)

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 67
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Department of Writing Studies trains students to understand how people use written communication (textual, digital, and visual) to shape the world around them, with a particular emphasis on communication in scientific and technical areas. The PhD program prepares students to become researchers and teachers with expertise in rhetoric, writing studies, and technical communication. Students in the RSTC program also pursue special interests in areas such as digital, textual, or visual literacies; rhetorics of science, health, medicine, law, and/or the environment; professional communication; internet studies; theories of writing; composition; and writing pedagogies.

Students work in collaboration with faculty mentors and peers to develop the expertise required to make original contributions to the scholarship in their fields. The curriculum, professional development training, and funding are structured to support students in making early and regular contributions to the published literature, and in teaching first-year writing and advanced writing courses at the college level. Most graduates of the program pursue careers teaching at the college level, although some have developed careers in industry or non-governmental organizations.

Each student also develops a supporting program of courses outside the department. Coursework outside the department is commonly pursued in fields such as communication studies; curriculum and instruction; history of medicine; or gender, women's and sexuality studies.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Master's in a related discipline, e.g., rhetoric, technical and professional communication, English, communication studies.

Other requirements to be completed before admission:
Individuals who do not yet have a masters degree in a related discipline are encouraged to apply to Writing Studies Rhetoric, Scientific and Technical Communication MA. Students in the MA program who are making satisfactory progress will, in their second year of study, have the opportunity to apply to the PhD program. For students who continue in the program, most MA courses transfer to the PhD. Continuing students must complete their MA no later than the end of the first semester in the PhD program.

Special Application Requirements:
Nonnative speakers of English are required to take an appropriate test with satisfactory scores. All applicants must submit a departmental supplemental application, personal statement, curriculum vitae or resume, three letters of recommendation and two writing samples. Applicants are also strongly encouraged to submit a diversity statement and, if appropriate, an extenuating circumstances statement. All PhD applicants should apply by the January 5 application deadline; all admitted students begin in the fall semester.

International applicants must submit score(s) from one of the following tests:
- TOEFL
Program Requirements
31 credits are required in the major.
12 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.0 is required for students to remain in good standing.

Up to 6 credits from a master's program, upon consultation with the advisor and approval of the director of graduate studies, can be applied to the PhD.

All coursework offered on both the A-F and S/N grade basis must be taken A-F, with a minimum grade of B earned for each.

Students must write a formal prospectus outlining the plan for their dissertation and present it to committee members within a year of passing the preliminary oral exam. Upon committee approval of the prospectus, the student must obtain their advisor's signature on the prospectus form and file it with the department's graduate studies office.

Required Core Areas (15 credits)
Select a total of 15 credits from the following three categories:

Rhetoric (6 to 9 credits)
Select at least 6 credits from the following in consultation with the advisor:
- WRIT 5775 - Rhetorical Traditions: Classical Period (3.0 cr)
- WRIT 5776 - The Rhetorical Traditions: Modern Era (3.0 cr)
- WRIT 8510 - Seminar in Rhetoric (3.0 cr)

Writing Studies (3 to 6 credits)
Select at least 3 credits from the following in consultation with the advisor:
- WRIT 8540 - Seminar in Technical Communication and Composition Pedagogies (3.0 cr)
- WRIT 8560 - Seminar in Writing Studies (3.0 cr)

Technical Communication (3 to 6 credits)
Select at least 3 credits from the following in consultation with the advisor:
- WRIT 8520 - Seminar in Scientific and Technical Communication (3.0 cr)
- WRIT 8550 - Seminar in Technology, Culture, and Communication (3.0 cr)

Methods and Pedagogies (7 credits)
Take the following courses:
- WRIT 8011 - Research Methods in Writing Studies and Technical Communication (3.0 cr)
- WRIT 5531 - Introduction to Writing Theory and Pedagogies (3.0 cr)
- WRIT 5532 - Practicum in Writing Pedagogies (1.0 cr)

Writing Studies Specialty Area (9 credits)
Courses should be selected to develop a coherent specialty area/concentration. Specialties include areas such as rhetoric, literacies, professional and technical communication, internet studies, theories of writing, writing pedagogies, rhetorics of science, medicine, or law, and the environment.

Writing Studies Courses (9 credits)
Select at least 9 credits from the following in consultation with the advisor:

- WRIT 5112 - Information Design: Theory and Practice (3.0 cr)
- WRIT 5501 - Usability and Human Factors in Technical Communication (3.0 cr)
- WRIT 5561 - Editing and Style for Technical Communicators (3.0 cr)
- WRIT 5662 - Writing With Digital Technologies (3.0 cr)
- WRIT 5664 - Science, Medical, and Health Writing (3.0 cr)
- WRIT 5671 - Visual Rhetoric (3.0 cr)
- WRIT 5775 - Rhetorical Traditions: Classical Period (3.0 cr)
- WRIT 5776 - The Rhetorical Traditions: Modern Era (3.0 cr)
- WRIT 8505 - Professional Practice (3.0 cr)
- WRIT 8510 - Seminar in Rhetoric (3.0 cr)
- WRIT 8520 - Seminar in Scientific and Technical Communication (3.0 cr)
- WRIT 8540 - Seminar in Technical Communication and Composition Pedagogies (3.0 cr)
- WRIT 8550 - Seminar in Technology, Culture, and Communication (3.0 cr)
- WRIT 8560 - Seminar in Writing Studies (3.0 cr)
- WRIT 8792 - Independent Study, Reading, and Research (1.0 - 4.0 cr)
- WRIT 8794 - Directed Research (1.0 - 4.0 cr)

Outside Coursework (12 credits)
Select at least 12 credits of outside coursework from the following, in consultation with the advisor to form a coherent supporting program. Other courses may be applied to this requirement with advisor approval.

- AMST 8202 - Theoretical Foundations and Current Practice in American Studies (3.0 cr)
- BTHX 5300 - Foundations of Bioethics (3.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30
- This program requires summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Department of Writing Studies trains students to understand how people use written communication (digital, visual, textual) to shape the world around them, with a particular emphasis on communication in scientific and technical areas. The MS in Scientific and Technical Communication focuses on applying basic theory and research-driven approaches to the creation and adaptation of content to solve complex problems in technical communication workplaces. Students connect with workplace professionals through client projects, virtual and global teamwork, mentorships, and emerging technologies. These experiences enable students to develop unique strengths in digital, usability, and science/health/medical communication.

MS courses are taught by graduate faculty who themselves have active research agendas in these areas. Students also have the opportunity to work with the Technical Communication Advisory Board (TCAB), a group of business leaders who provide pathways to experiential learning opportunities including networking, mentoring, and internships.

This fully online program equips professionals for transition to the technical communication field and/or for specialized study tailored to career goals. All coursework from the Certificate in Technical Communication program can be applied to the MS.

Program Delivery
This program is available:
- completely online (all program coursework can be completed online)

Prerequisites for Admission
International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Paper Based - Total Score: 550
- IELTS
  - Total Score: 6.5
- MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Plan C: Plan C requires 21 major credits and 9 credits outside the major. The is no final exam. A capstone project is required.
Capstone Project: WRIT 8505, the capstone course, provides a structured setting for students to complete a research project that will position them for applied work in technical communication.

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of November 07, 2022
This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 2.8 is required for students to remain in good standing.

All coursework must be taken for an A-F grade and completed with a minimum grade of B-, unless the course is only offered for an S/N grade.

**Core Coursework (15 credits)**

Take the following courses for a total of 15 credits.

- WRIT 5001 - Introduction to Graduate Studies in Scientific and Technical Communication (3.0 cr)
- WRIT 5112 - Information Design: Theory and Practice (3.0 cr)
- WRIT 5501 - Usability and Human Factors in Technical Communication (3.0 cr)
- WRIT 5561 - Editing and Style for Technical Communicators (3.0 cr)
- WRIT 5662 - Writing With Digital Technologies (3.0 cr)

**Capstone Course (3 credits)**

Take the following course:

- WRIT 8505 - Professional Practice (3.0 cr)

**Electives (3 credits)**

Take at least 3 credits of electives, selected in consultation with the advisor or director of graduate studies. Under some circumstances, 3 credits of independent study (WRIT 5291) or internship (WRIT 5196) may be substituted with the director of graduate studies approval.

- WRIT 4562 - International Professional Communication (3.0 cr)
- WRIT 4573W - Writing Proposals and Grant Management [WI] (3.0 cr)
- WRIT 5664 - Science, Medical, and Health Writing (3.0 cr)

**Outside Coursework (9 credits)**

Select at least 9 credits outside the Department of Writing Studies, in consultation with the advisor or director of graduate studies. Courses can be from the following list or others with approval of the advisor or director of graduate studies. Note: CI 5106, CI 5351, CI 5474, GDES 5372, MOT 5001, and MOT 5002 are not offered online.

- CI 5106 - Multicultural Teaching and Learning in Diverse College Contexts (3.0 cr)
- CI 5156 - Popular Culture, Teaching, and Learning (3.0 cr)
- CI 5301 - Foundations of Computer Applications for Business and Education (3.0 cr)
- CI 5307 - Technology for Teaching and Learning (1.5 cr)
- CI 5323 - Online Learning Communities (3.0 cr)
- CI 5325 - Designing and Developing Online Distance Learning (3.0 cr)
- CI 5331 - Introduction to Learning Technologies (3.0 cr)
- CI 5336 - Planning for Multimedia Design and Development (3.0 cr)
- CI 5351 - Technology Tools for Educators (3.0 cr)
- CI 5361 - Teaching and Learning with the Internet (2.0 - 3.0 cr)
- CI 5362 - Foundations of Interactive Design for Web-based Learning (3.0 cr)
- CI 5371 - Learning Analytics: Theory and Practice (3.0 cr)
- CI 5472 - Teaching Critical Media Analysis in Schools (3.0 cr)
- CI 5474 - New Literacies Frameworks and Instruction: Digital Texts and Digital Reading (3.0 cr)
- CI 5475 - Teaching Digital Writing (3.0 cr)
- COMM 5441 - Communication in Human Organizations (3.0 cr)
- EPSY 5101 - Intelligence and Creativity (3.0 cr)
- EPSY 5243 - Principles and Methods of Evaluation (3.0 cr)
- EPSY 5261 - Introductory Statistical Methods (3.0 cr)

• Program Type: Graduate minor related to major
• Requirements for this program are current for Fall 2022
• Length of program in credits (Masters): 6
• This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Scientific and Technical Communication minor is available for masters-level students enrolled in other University graduate programs. Courses train students to apply basic theory and research-driven approaches to create and adapt content to solve complex problems in technical and scientific communication. The minor offers online courses in areas such as editing and style, writing with digital technologies, information design, and international professional communication. Coursework emphasizes collaboration with workplace professionals through client projects, virtual and global teamwork, mentorships, and emerging technologies and enables students to develop unique strengths in digital, usability, and/or science/health/medical communication.

Program Delivery
This program is available:
• completely online (all program coursework can be completed online)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Scientific and Technical Communication director of graduate studies, regarding feasibility and requirements. Research master's and PhD students interested in rhetorical theory and history, technical communication, technology and culture, digital and new media studies, and writing pedagogy are encouraged to pursue the Rhetoric, Technical and Scientific Communication minor.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum grade of B- is required for all courses applied to the minor, unless the course is only offered S/N. The overall minimum GPA is 2.80.

Coursework (6 credits)
Core Course (3 credits)
Take 3 credits of the following:
WRIT 5112 - Information Design: Theory and Practice (3.0 cr)
Electives (3 credits)
Take 3 credits of electives. Courses can be from the following list or others with approval of the director of graduate studies. Note 4000-level courses are only acceptable if there is not a 5000-level option.
WRIT 4562 - International Professional Communication (3.0 cr)
WRIT 4573W - Writing Proposals and Grant Management [WI] (3.0 cr)
WRIT 5501 - Usability and Human Factors in Technical Communication (3.0 cr)
WRIT 5561 - Editing and Style for Technical Communicators (3.0 cr)
WRIT 5662 - Writing With Digital Technologies (3.0 cr)
WRIT 5664 - Science, Medical, and Health Writing (3.0 cr)
WRIT 8505 - Professional Practice (3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters
Twin Cities Campus  
Sociology M.A.  
Sociology  
College of Liberal Arts

- Program Type: Master's  
- Requirements for this program are current for Fall 2022  
- Length of program in credits: 32 to 33  
- This program does not require summer semesters for timely completion.  
- Degree: Master of Arts

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Note: The Sociology graduate program does not accept applications directly to the MA; rather, the MA is an additional or alternative credential for students admitted to the Sociology PhD program.

Program Delivery
This program is available:  
* via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission

Special Application Requirements:
Note: The Sociology graduate program does not accept applications directly to the MA; rather, the MA is an additional or alternative credential for students admitted to the Sociology PhD program.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan A: Plan A requires 17 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is written and oral.

Plan B: Plan B requires 24 major credits and 6 credits outside the major. The final exam is written and oral.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

Coursework offered on both the A-F and S/N grade basis must be taken A-F with a minimum grade of B earned for each course.

Core Courses (14 Credits)
Take the following courses. Take SOC 8001 twice for a total of 2 credits.  
SOC 8001 - Sociology as a Profession (1.0 cr)  
SOC 8701 - Sociological Theory (4.0 cr)  
SOC 8801 - Sociological Research Methods (4.0 cr)  
SOC 8811 - Advanced Social Statistics (4.0 cr)

Qualitative Elective Coursework (3 credits)
Select one of the following courses.
SOC 8851 - Advanced Qualitative Research Methods: In-Depth Interviewing (3.0 cr)
SOC 8852 - Advanced Qualitative Research Methods: Ethnographic Practicum (3.0 cr)
SOC 8853 - Advanced Qualitative Research Methods: Historical & Comparative Sociology (3.0 cr)

Outside Coursework (6 credits)
Select 6 credits outside the major in consultation with the advisor.
AFRO 8202 - Seminar: Intellectual History of Race (3.0 cr)
AMST 8920 - Topics in American Studies (3.0 cr)
ANTH 8203 - Research Methods in Social and Cultural Anthropology (3.0 cr)
DSSC 8112 - Scholarship and Public Responsibility (1.0 cr)
DSSC 8211 - Doctoral Research Workshop in Development Studies and Social Change (3.0 cr)
EPSY 8268 - Hierarchical Linear Modeling in Educational Research (3.0 cr)
EPSY 8282 - Statistical Analysis of Longitudinal Data (3.0 cr)
GEOG 8230 - Theoretical Geography (3.0 cr)
GEOG 8292 - Seminar in GIS: Spatial Analysis and Modeling (3.0 cr)
GEOG 8294 - Spatiotemporal Modeling and Simulation (3.0 cr)
GEOG 8970 - Directed Readings (1.0 - 5.0 cr)
GEOG 8980 - Topics: Geography (1.0 - 3.0 cr)
GLOS 5403 - Human Rights Advocacy (3.0 cr)
GLOS 5900 - Topics in Global Studies (1.0 - 4.0 cr)
GRAD 8401 - Dissertation Proposal Development Seminar (3.0 cr)
GWSS 5104 - Transnational Feminist Theory (3.0 cr)
GWSS 8108 - Genealogies of Feminist Theory (3.0 cr)
GWSS 8109 - Feminist Knowledge Production (3.0 cr)
GWSS 8250 - Seminar: Nation, State, and Citizenship (1.0 - 3.0 cr)
GWSS 8260 - Seminar: Race, Representation and Resistance (3.0 cr)
GWSS 8270 - Seminar: Theories of Body (3.0 cr)
GWSS 8995 - Directed Research (1.0 - 8.0 cr)
HIST 5890 - Readings in American Indian and Indigenous History (3.0 cr)
HIST 5902 - Latin America Proseminar: Modern (3.0 cr)
HIST 5910 - Topics in U.S. History (1.0 - 4.0 cr)
HIST 8900 - Topics in European/Medieval History (1.0 - 4.0 cr)
HIST 8910 - Topics in U.S. History (1.0 - 4.0 cr)
HIST 8920 - Topics in African History (1.0 - 4.0 cr)
HIST 8960 - Topics in History (1.0 - 4.0 cr)
HIST 8970 - Advanced Research in Quantitative History (3.0 cr)
HIST 8993 - Directed Study (1.0 - 16.0 cr)
JOUR 8503 - Advanced Qualitative Methods in Mass Communication Research (3.0 cr)
KIN 5126 - Social Psychology of Sport & Physical Activity (3.0 cr)
LAW 6846 - Philosophy of Punishment (3.0 cr)
LAW 6889 - Laws of War (3.0 cr)
LING 5900 - Topics in Linguistics (3.0 cr)
OLPD 5103 - Comparative Education (3.0 cr)
OLPD 8095 - Problems: Organizational Leadership, Policy, and Development (1.0 - 3.0 cr)
PA 5151 - Organizational Perspectives on Global Development & Humanitarian Assistance (3.0 cr)
PA 5281 - Immigrants, Urban Planning and Policymaking in the U.S. (3.0 cr)
PA 5301 - Population Methods & Issues for the United States & Global South (3.0 cr)
PA 5401 - Poverty, Inequality, and Public Policy (3.0 cr)
PA 5451 - Inactive
PA 5490 - Topics in Social Policy (1.0 - 4.0 cr)
PA 5801 - Global Public Policy (3.0 cr)
PA 5823 - Human Rights and Humanitarian Crises: Policy Challenges (3.0 cr)
PA 8151 - Organizational Perspectives on Global Development & Humanitarian Assistance (3.0 cr)
PA 8312 - Analysis of Discrimination (4.0 cr)
PA 8331 - Economic Demography (3.0 cr)
PA 8390 - Advanced Topics in Advanced Policy Analysis Methods (1.0 - 3.0 cr)
PA 8461 - Global and U.S. Perspectives on Health and Mortality (3.0 cr)
PA 8690 - Advanced Topics in Women, Gender and Public Policy (1.0 - 3.0 cr)
PHIL 8310 - Seminar: Moral Philosophy (3.0 cr)
POL 8160 - Topics in Models and Methods (3.0 cr)
POL 8260 - Topics in Political Theory (3.0 cr)
POL 8660 - Topics in Comparative Politics (3.0 cr)
PSY 8204 - Social Psychology of Prejudice and Intergroup Relations (3.0 cr)
PSY 8205 - Principles of Social Psychology (3.0 cr)
PSY 8208 - Social Psychology: The Self (3.0 cr)
Plan Options

Plan A
Plan A students take 10 master's thesis credits.
SOC 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

-OR-

Plan B
Plan B students select coursework from the following in consultation with the advisor:
SOC 5090 - Topics in Sociology (1.0 - 3.0 cr)
SOC 5104 - Crime and Human Rights (3.0 cr)
SOC 5315 - Never Again! Memory & Politics after Genocide [GP] (3.0 cr)
SOC 5411 - Terrorist Networks & Counterterror Organizations (3.0 cr)
SOC 5446 - Comparing Healthcare Systems [GP] (3.0 cr)
SOC 5455 - Sociology of Education (3.0 cr)
SOC 8090 - Topics in Sociology (1.5 - 3.0 cr)
SOC 8093 - Directed Study (1.0 - 4.0 cr)
SOC 8094 - Directed Research (1.0 - 4.0 cr)
SOC 8101 - Sociology of Law (3.0 cr)
SOC 8111 - Criminology (3.0 cr)
SOC 8171 - Cross-Disciplinary Perspectives in Human Rights (3.0 cr)
SOC 8190 - Topics in Law, Crime, and Deviance (3.0 cr)
SOC 8211 - The Sociology of Race & Racialization (3.0 cr)
SOC 8221 - Sociology of Gender (3.0 cr)
SOC 8290 - Topics in Race, Class, Gender and other forms of Durable Inequality (3.0 cr)
SOC 8311 - Political Sociology (3.0 cr)
SOC 8390 - Topics in Political Sociology (3.0 cr)
SOC 8412 - Social Network Analysis: Theory and Methods (3.0 cr)
SOC 8490 - Advanced Topics in Social Organization (3.0 cr)
SOC 8501 - Sociology of the Family (3.0 cr)
SOC 8540 - Topics in Family Sociology (3.0 cr)
SOC 8551 - Life Course Inequality & Health (3.0 cr)
SOC 8590 - Topics in Life Course Sociology (3.0 cr)
SOC 8607 - Migration & Migrants in Demographic Perspective (3.0 cr)
SOC 8701 - Sociological Theory (4.0 cr)
SOC 8721 - Social Psychology: Micro-Sociological Approaches to Inequalities and Identities (3.0 cr)
SOC 8731 - Sociology of Knowledge (3.0 cr)
SOC 8735 - Sociology of Culture (3.0 cr)
SOC 8790 - Advanced Topics in Sociological Theory (3.0 cr)
SOC 8801 - Sociological Research Methods (4.0 cr)
SOC 8811 - Advanced Social Statistics (4.0 cr)
SOC 8851 - Advanced Qualitative Research Methods: In-Depth Interviewing (3.0 cr)
SOC 8852 - Advanced Qualitative Research Methods: Ethnographic Practicum (3.0 cr)

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Through the exploration of social and individual dynamics, we prepare our students to enrich social scientific understandings of the complex problems societies face today. Research specialties include:
1. Demography, family, and life course
2. Global, transnational, and comparative sociology
3. Inequalities and culture
4. Law, crime, punishment, and human rights

Methodological training is available in historical and comparative research, survey research, network analysis, advanced statistical analysis, and qualitative research.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission

Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Sociology director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Use of 4xxx courses towards program requirements is not permitted.

Courses applied to the minor must be approved by the Sociology director of graduate studies.

Courses applied to the minor that are offered on both the A-F and S/N grade basis must be taken A-F, with a minimum grade of B earned for each.

The minimum cumulative GPA for minor field coursework is 3.00.

Coursework (6 to 12 credits)
Master's students select 6 credits, and doctoral students select 12 credits from the following in consultation with the Sociology director of graduate studies:

SOC 5090 - Topics in Sociology (1.0 - 3.0 cr)
SOC 5104 - Crime and Human Rights (3.0 cr)
SOC 5315 - Never Again! Memory & Politics after Genocide [GP] (3.0 cr)
SOC 5411 - Terrorist Networks & Counterterror Organizations (3.0 cr)
SOC 5446 - Comparing Healthcare Systems [GP] (3.0 cr)
SOC 5455 - Sociology of Education (3.0 cr)
SOC 8090 - Topics in Sociology (1.5 - 3.0 cr)
SOC 8093 - Directed Study (1.0 - 4.0 cr)
SOC 8094 - Directed Research (1.0 - 4.0 cr)

Program Sub-plans

Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Twin Cities Campus
Sociology Ph.D.
Sociology
College of Liberal Arts

Link to a list of faculty for this program.

Contact Information:
Department of Sociology, 909 Social Sciences Building, 267 19th Avenue South, Minneapolis, MN 55455 (612-624-4300; fax: 612-624-7020)
Email: soc@umn.edu
Website: http://cla.umn.edu/sociology/graduate

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 65
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Through the exploration of social and individual dynamics, students are prepared to enrich social scientific understandings of the complex problems societies face today. Research specialties include:

1. Demography, family, and life course
2. Global, transnational, and comparative sociology
3. Inequalities and culture
4. Law, crime, punishment, and human rights

Methodological training is available in historical and comparative research, survey research, network analysis, advanced statistical analysis, and qualitative research. The doctoral program is for students planning to do research or teach.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.50.

Other requirements to be completed before admission:
An earned graduate or professional degree is not required for admission.

It is recommended that applicants have a background in basic sociology, usually consisting of the equivalent of 18 credits in undergraduate work (including 9 credits of social science statistical methods), or an MA degree in sociology or a closely related field. Individuals without sociology coursework are generally required to complete background coursework in theory and statistics during their first year of residence; such coursework cannot be applied to doctoral credit requirements.

Special Application Requirements:
Applicants are evaluated on their academic potential, commitment to the field, creativity, and potential for contribution to the field. In addition to the University application form, and its required documents, applicants must submit the following: GRE scores: a sample of written work, usually a term paper, written in English; three letters of recommendation; and a personal statement of professional objectives. Non-native English speakers are required to take the TOEFL test, this includes students who have studied in the U.S. The department accepts new students for fall admission only. The application deadline is December 15.

Applicants must submit their test score(s) from the following:
- GRE

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 95
  - Internet Based - Listening Score: 22
The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (GRE, TOEFL).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
29 credits are required in the major.
12 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 3 semesters must be completed before filing a Degree Program Form.

Coursework offered on both the A-F and S/N grade basis must be taken A-F, with a minimum grade of B earned for each course.

Core Courses (14 Credits)
Take the following courses. Take SOC 8001 twice for a total of 2 credits.
SOC 8001: Sociology as a Profession (1.0 cr)
SOC 8701: Sociological Theory (4.0 cr)
SOC 8801: Sociological Research Methods (4.0 cr)
SOC 8811: Advanced Social Statistics (4.0 cr)

Advanced Qualitative Research Methods (3 credits)
Take one of the following courses.
SOC 8851: Advanced Qualitative Research Methods: In-Depth Interviewing (3.0 cr)
SOC 8852: Advanced Qualitative Research Methods: Ethnographic Practicum (3.0 cr)
SOC 8853: Advanced Qualitative Research Methods: Historical & Comparative Sociology (3.0 cr)

Sociology Electives (12 Credits)
Select elective coursework in consultation with the advisor.
SOC 5090: Topics in Sociology (1.0 - 3.0 cr)
SOC 5104: Crime and Human Rights (3.0 cr)
SOC 5315: Never Again! Memory & Politics after Genocide [GP] (3.0 cr)
SOC 5411: Terrorist Networks & Counterterror Organizations (3.0 cr)
SOC 5446: Comparing Healthcare Systems [GP] (3.0 cr)
SOC 5455: Sociology of Education (3.0 cr)
SOC 5809: Topics in Sociology (1.5 - 3.0 cr)
SOC 5893: Directed Study (1.0 - 4.0 cr)
SOC 5894: Directed Research (1.0 - 4.0 cr)
SOC 8010: Sociology of Law (3.0 cr)
SOC 8101: Sociology of the Family (3.0 cr)
SOC 8111: Criminology (3.0 cr)
SOC 8171: Cross-Disciplinary Perspectives in Human Rights (3.0 cr)
SOC 8190: Topics in Law, Crime, and Deviance (3.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 36 to 60
- This program requires summer semesters for timely completion.
- Degree: Master of Arts

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Department of Speech-Language-Hearing Sciences offers an MA with three tracks: speech-language pathology, audiology, and speech-language-hearing sciences; however, the department only accepts MA applications for the speech-language pathology track. The speech-language pathology track focuses on meeting standards for certification as a speech-language pathologist by the American Speech-Language-Hearing Association. It emphasizes outcome-based learning activities that prepare graduates to interpret research findings and incorporate them into clinical practice. Coursework and clinical education focus on diagnostic, rehabilitative techniques and technology, counseling approaches, and human development.

Individuals interested in pursuing an advanced degree in audiology should apply directly to the audiology AuD program. Students admitted to the AuD are eligible to apply for the MA with an audiology track.

The Master of Arts (MA) education program in speech-language pathology at the University of Minnesota Twin Cities is accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology of the American Speech-Language-Hearing Association, 2200 Research Boulevard #310, Rockville, Maryland 20850, 800-498-2071 or 301-296-5700.

**Accreditation**

This program is accredited by Council on Academic Accreditation in Audiology and Speech-Language Pathology (CAA).

**Program Delivery**

This program is available:

- via classroom (the majority of instruction is face-to-face)

**Prerequisites for Admission**

The preferred undergraduate GPA for admittance to the program is 2.80.

**Special Application Requirements:**

Applicants are expected to have completed coursework in statistics (including hypothesis testing), social/behavioral sciences, biological sciences, and physical sciences (physics or chemistry) as well as the following prerequisite courses:

- SLHS 3302: Anatomy & Physiology of the Speech & Hearing Mechanisms
- SLHS 3303: Language Acquisition & Science
- SLHS 3304: Phonetics
- SLHS 3305W: Speech Science
- SLHS 4301: Introduction to the Neuroscience of Human Communication
- SLHS 4402: Assessment and Treatment in Speech-Language Pathology
- SLHS 4801: Clinical Methods in Assessing Auditory Functions and Disorders
- SLHS 4802: Rehabilitative Audiology

Students admitted without having completed the above prerequisites must complete them upon admission. Prerequisite courses do not count toward the minimum SLP course requirements outlined below, and students admitted without the coursework can expect an
additional, 3rd year to complete the MA.

All offers of SLP admission are contingent upon the results of a criminal background check administered by the Minnesota Department of Human Services and completion of immunization requirements.

International applicants must submit score(s) from one of the following tests:

- **TOEFL**
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19

- **IELTS**
  - Total Score: 6.5
  - Reading Score: 6.5
  - Writing Score: 6.5

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

**Program Requirements**

**Plan A:** Plan A requires 45 major credits, 0 credits outside the major, and 10 thesis credits. The final exam is written and oral.

**Plan B:** Plan B requires 30 to 54 major credits and 6 credits outside the major. The final exam is written and oral.

**Plan C:** Plan C requires 49 major credits and 6 credits outside the major. The final exam is written.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 1 semester must be completed before filing a Degree Program Form.

**Plan B and Plan C Only** - Select 6 Outside Coursework credits in consultation with the advisor. Other courses can be selected with adviser approval.

Plan C students must pass a written exam.

**Outside Coursework (6 credits)**

Take 6 or more credit(s) from the following:

- ABUS 4022W - Management in Organizations [WI] (3.0 cr)
- ABUS 4023W - Communicating for Results [WI] (3.0 cr)
- ABUS 4041 - Dynamics of Leadership (3.0 cr)
- ABUS 4014 - Management and Human Resource Practices (3.0 cr)
- ABUS 4701 - Introduction to Marketing (3.0 cr)
- ADDS 5021 - Introduction to Evidence Based Practices and the Helping Relationship (3.0 cr)
- BTHX 5000 - Topics in Bioethics (1.0 - 4.0 cr)
- BTHX 5100 - Introduction to Clinical Ethics (3.0 cr)
- BTHX 5325 - Biomedical Ethics (3.0 cr)
- CGSC 8410 - Perspectives in Learning, Perception, and Cognition (2.0 cr)
- CI 5451 - Teaching Reading in Middle and Secondary Grades (3.0 cr)
- CI 5642 - Assessing English Learners (3.0 cr)
- CI 5653 - Methods in Teaching English as a Second Language (ESL) in Higher Education (3.0 cr)
- CPSY 4302 - Infant Development (3.0 cr)
- CPSY 4329 - Biological Foundations of Development (3.0 cr)
- CPSY 4341 - Perceptual Development (3.0 cr)
- CPSY 4343 - Cognitive Development (3.0 cr)
- CSPH 5101 - Introduction to Integrative Healing Practices (3.0 cr)
- CSPH 5111 - Ways of Thinking about Health (2.0 cr)
- CSPH 5708 - Mind-Body Science and the Art of Transformation (1.0 cr)
- CSPH 5806 - Wellbeing and Resiliency for Health Professionals (1.0 cr)
• CSPH 5807 - Mindfulness in the Workplace: Pause, Practice, Perform (2.0 cr)
• EPSY 5101 - Intelligence and Creativity (3.0 cr)
• EPSY 5135 - Human Relations Workshop (4.0 cr)
• EPSY 5400 - Special Topics in Counseling Psychology (1.0 - 4.0 cr)
• EPSY 5415 - Counseling Children and Adolescents (3.0 cr)
• EPSY 5461 - Cross-Cultural Counseling (3.0 cr)
• EPSY 5609 - Infants and Toddlers with Delays/Disabilities: Family-Centered Approaches to Early Intervention (3.0 cr)
• EPSY 5616W - Classroom Management and Behavior Analytic Problem Solving [WI] (3.0 cr)
• EPSY 5625 - Education of Infants, Toddlers, and Preschool Children with Disabilities: Introduction (2.0 cr)
• EPSY 5641 - Foundations of Deaf Education (3.0 cr)
• EPSY 5642 - Early Intervention for Infants, Toddlers and Families: Deaf and Hard of Hearing (3.0 cr)
• EPSY 5643 - Seminar: Identity, Culture and Diversity in Deaf Education (2.0 cr)
• EPSY 5644 - Early Childhood Language and Literacy Development and Best Practices: Deaf and Hard of Hearing (3.0 cr)
• EPSY 5645 - Deaf Plus: Educating and Understanding Deaf Students with Disabilities (2.0 cr)
• EPSY 5654 - Current Research, Issues Trends in Deaf Education (1.0 cr)
• EPSY 5657 - Interventions for Behavioral Problems in School Settings (3.0 cr)
• EPSY 5661 - Introduction to Autism Spectrum Disorder (3.0 cr)
• EPSY 5663 - Assessment and Intervention for Individuals with Autism Spectrum Disorder (3.0 cr)
• EPSY 5681 - Educating Preschoolers with Disabilities: Specialized Approaches and Interventions (3.0 cr)
• EPSY 5851 - Engaging Diverse Students and Families (3.0 cr)
• EPSY 5900 - Special Topics: Special Education Issues (1.0 - 3.0 cr)
• EPSY 5902 - Advanced Topics in Special Education Research (3.0 cr)
• FSOS 4107 - Traumatic Stress and Resilience in Vulnerable Families Across the Lifespan (3.0 cr)
• FSOS 5937 - Parent-Child Interaction (3.0 cr)
• FSOS 5942 - Diverse Family Experiences (3.0 cr)
• FSOS 5101 - Family Stress, Coping, and Adaptation (3.0 cr)

• GERD 5125 - Gerontology Service Learning (1.0 - 3.0 cr)
• HINF 5501 - US Health Care System: Information Challenges in Clinical Care (1.0 cr)
• HSM 4065 - Information Privacy and Security in Health Services Management [TS] (3.0 cr)
• HSM 4531 - Human Resources in Health Care Settings (3.0 cr)
• KIN 8211 - Seminar: Perception and Action (3.0 cr)
• LING 8921 - Seminar in Language and Cognition (3.0 cr)
• NSCI 5101 - Neurobiology I: Molecules, Cells, and Systems (3.0 cr)
• NSCI 5111 - Medical Neuroscience for Graduate Students (5.0 cr)
• OLPD 5211 - Introduction to the Undereducated Adult (1.0 cr)
• OLPD 5212 - Disability Policy and Services (3.0 cr)
• OTOL 8234 - Anatomy of the Head and Neck and Temporal Bone Dissection (2.0 cr)
• OTOL 8247 - Anatomy and Physiology of Hearing and Balance (3.0 cr)
• PA 5451 - [inactive] (3.0 cr)
• PHAR 5201 - Applied Medical Terminology (2.0 cr)
• PSY 4036 - Perceptual Issues in Visual Impairment (3.0 cr)
• PSY 4960 - Seminar in Psychology (1.0 - 4.0 cr)
• PSY 5014 - Psychology of Human Learning and Memory (3.0 cr)
• PSY 5037 - Psychology of Hearing (3.0 cr)
• PSY 5054 - Psychology of Language (3.0 cr)
• PSY 5062 - Cognitive Neuropsychology (3.0 cr)
• PSY 5137 - Introduction to Behavioral Genetics (3.0 cr)
• PSY 5205 - Applied Social Psychology (3.0 cr)
• PSY 5960 - Topics in Psychology (1.0 - 4.0 cr)
• PSY 8037 - Psychophysics and Audition (3.0 cr)
• PUBH 6055 - Social Inequalities in Health (2.0 cr)
• PUBH 6102 - Issues in Environmental Health (2.0 cr)
• PUBH 6370 - Social Epidemiology (2.0 cr)
• PUBH 6751 - Principles of Management in Health Services Organizations (2.0 cr)
• PUBH 6904 - Nutrition and Aging (2.0 cr)
• PUBH 8805 - Sociological Theory in Health Services Research (3.0 cr)
• SLHS 5502 - Voice and Cleft Palate (3.0 cr)
• SLHS 5602 - Speech Sound Disorders: Assessment and Treatment across Languages (3.0 cr)
• SLHS 5603 - Assessment and Intervention of Language Disorders in Children (3.0 cr)
• SLHS 5605 - Language and Cognitive Disorders in Adults (3.0 cr)
• SLHS 5606 - Introduction to Augmentative and Alternative Communication (3.0 cr)
• SLHS 5609 - Child Language Disorders in Diverse Populations (3.0 cr)
• SLHS 5804 - Cochlear Implants (3.0 cr)
• SLHS 5805 - Advanced Rehabilitative Audiology (3.0 cr)
• SLHS 5900 - Topics in SLHS (2.0 cr)
Program Sub-plans
A sub-plan is not required for this program.
Students may not complete the program with more than one sub-plan.

Speech-Language Pathology
This sub-plan is limited to students completing the program under Plan A or Plan C.

Students pursuing this sub-plan complete the 55-credit Plan A or 55-credit Plan C option.

Required Courses (27 credits)
Take the following courses: Courses must be taken A-F.
• SLHS 5401 - Counseling and Professional Issues (3.0 cr)
• SLHS 5502 - Voice and Cleft Palate (3.0 cr)
• SLHS 5503 - Stuttering Motor Speech Disorders (3.0 cr)
• SLHS 5504 - Evaluation and Management of Dysphagia (3.0 cr)
• SLHS 5602 - Speech Sound Disorders: Assessment and Treatment across Languages (3.0 cr)
• SLHS 5603 - Assessment and Intervention of Language Disorders in Children (3.0 cr)
• SLHS 5605 - Language and Cognitive Disorders in Adults (3.0 cr)
• SLHS 5606 - Introduction to Augmentative and Alternative Communication (3.0 cr)
• SLHS 5609 - Child Language Disorders in Diverse Populations (3.0 cr)

Clinical Education in Speech-Language Pathology (17 credits)
Take exactly 17 credit(s) from the following:
• SLHS 8720 - Clinical Education in Speech-Language Pathology (1.0 - 8.0 cr)

Clinical Education in Audiology (1 credit)
Take exactly 1 credit(s) from the following:
• SLHS 8820 - Clinical Education in Audiology (1.0 - 8.0 cr)

Plan Options

Plan A
Take 10 Master's Thesis credits.
Take exactly 10 credit(s) from the following:
• SLHS 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

OR

Plan C
Take 4 credits in consultation with the advisor on the S/N grade basis.
Take exactly 4 credit(s) from the following:
• SLHS 8994 - Directed Research (1.0 - 12.0 cr)

Audiology
This sub-plan is limited to students completing the program under Plan B.

Students pursuing this sub-plan complete a 60-credit Plan B option.

Required Courses (42 credits)
Take the following courses, courses must be taken A-F:
• SLHS 5401 - Counseling and Professional Issues (3.0 cr)
• SLHS 5801 - Advanced Audiologic Assessment (3.0 cr)
• SLHS 5802 - Hearing Aids I (3.0 cr)
• SLHS 5803 - Pediatric Audiology (3.0 cr)
• SLHS 5804 - Cochlear Implants (3.0 cr)
• SLHS 5805 - Advanced Rehabilitative Audiology (3.0 cr)
SLHS 5806 - Auditory Disorders in Children (3.0 cr)
SLHS 5807 - Noise and Hearing Conservation (3.0 cr)
SLHS 5808 - Pathophysiology of Hearing Disorders (3.0 cr)
SLHS 8801 - Electrophysiologic Assessment of Auditory Function (3.0 cr)
SLHS 8802 - Hearing Aids II (3.0 cr)
SLHS 8803 - Signals and Systems in Audiology (3.0 cr)
SLHS 8805 - Hearing Science Foundations of Audiology (3.0 cr)
SLHS 8807 - Balance Assessment (3.0 cr)

**Laboratory Module in Audiology (2 credits)**
Take 2 credits of the following:
- SLHS 5810 - Laboratory Module in Audiology (1.0 - 2.0 cr)

**Clinical Research and Practice: Grand Rounds (4 credits)**
Take 4 credits of the following:
- SLHS 5820 - Clinical Research and Practice: Grand Rounds (1.0 - 6.0 cr)

**Clinical Foundations in Audiology (2 credits)**
Take 2 credits of the following:
- SLHS 5830 - Clinical Foundations in Audiology (1.0 - 8.0 cr)

**Directed Research (4 credits)**
Take 4 credits in consultation with the advisor on the S/N grade basis.
- SLHS 8994 - Directed Research (1.0 - 12.0 cr)

**Speech-Language-Hearing Sciences (SLHS)**
This sub-plan is limited to students completing the program under Plan B.

Students pursuing this sub-plan complete the 36-credit Plan B option.

**Required Courses**
Take 30 major credits (including 4 credits of SLHS 8994) and 6 credits of outside coursework.

Take 4 credits in consultation with the advisor on the S/N grade basis: SLHS 8994 - Directed Research (1.0-12.0)
Twin Cities Campus

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 9
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Emphasis in the graduate program is speech-language pathology and audiology.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Speech-Language-Hearing Sciences director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

The approval of the SLHS director of graduate studies is required prior to registration for any 4xxx-level minor field coursework.

The minimum cumulative GPA for minor field coursework is 3.00.

Coursework (9 to 12 credits)
Master's students select 9 credits and doctoral students select 12 credits from the following in consultation with the Speech-Language-Hearing Sciences director of graduate studies:

- SLHS 4301 - Introduction to the Neuroscience of Human Communication (3.0 cr)
- SLHS 4402 - Clinical Methods in Speech-Language Pathology (3.0 cr)
- SLHS 4801 - Clinical methods in assessing auditory function and disorders (3.0 cr)
- SLHS 4802 - Clinical Methods for Treating Hearing Disorders (3.0 cr)
- SLHS 5502 - Voice and Cleft Palate (3.0 cr)
- SLHS 5503 - Stuttering Motor Speech Disorders (3.0 cr)
- SLHS 5504 - Evaluation and Management of Dysphagia (3.0 cr)
- SLHS 5602 - Speech Sound Disorders: Assessment and Treatment across Languages (3.0 cr)
- SLHS 5603 - Assessment and Intervention of Language Disorders in Children (3.0 cr)
- SLHS 5605 - Language and Cognitive Disorders in Adults (3.0 cr)
- SLHS 5606 - Introduction to Augmentative and Alternative Communication (3.0 cr)
- SLHS 5609 - Child Language Disorders in Diverse Populations (3.0 cr)
- SLHS 5801 - Advanced Audiologic Assessment (3.0 cr)
- SLHS 5802 - Hearing Aids I (3.0 cr)
SLHS 5803 - Pediatric Audiology (3.0 cr)
SLHS 5804 - Cochlear Implants (3.0 cr)
SLHS 5805 - Advanced Rehabilitative Audiology (3.0 cr)
SLHS 5806 - Auditory Disorders in Children (3.0 cr)
SLHS 5807 - Noise and Hearing Conservation (3.0 cr)
SLHS 5808 - Pathophysiology of Hearing Disorders (3.0 cr)
SLHS 5810 - Laboratory Module in Audiology (1.0 - 2.0 cr)
SLHS 5900 - Topics in SLHS (2.0 cr)
SLHS 5993 - Directed Study (1.0 - 12.0 cr)
SLHS 8111 - Directed Readings in Speech-Language-Hearing Sciences (1.0 - 3.0 cr)
SLHS 8410 - Seminar: Research (3.0 cr)
SLHS 8420 - Seminar: Teaching (3.0 cr)
SLHS 8530 - Seminar: Speech (3.0 cr)
SLHS 8801 - Electrophysiologic Assessment of Auditory Function (3.0 cr)
SLHS 8802 - Hearing Aids II (3.0 cr)
SLHS 8803 - Signals and Systems in Audiology (3.0 cr)
SLHS 8805 - Hearing Science Foundations of Audiology (3.0 cr)
SLHS 8807 - Balance Assessment (3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

• Program Type: Doctorate
• Requirements for this program are current for Fall 2022
• Length of program in credits: 65
• This program requires summer semesters for timely completion.
• Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Emphases in the PhD program are speech-language pathology, audiology, speech science, language science, or hearing science. The program prepares students for careers in research, teaching, and advanced clinical applications. Most students entering the program have a master's degree in speech-language pathology, audiology, or a related area. The PhD degree usually requires five or more years of work beyond the master's degree. In general, a student's program is designed by the student in consultation with the advisor to satisfy the particular objectives of the student and program requirements.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 2.80.

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
• IELTS
  - Total Score: 6.5
  - Reading Score: 6.5
  - Writing Score: 6.5

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
29 credits are required in the major.
12 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.
At least 1 semesters must be completed before filing a Degree Program Form.

**Required Coursework (29 credits)**

**Seminars (6 credits)**
- Take the following course:
  - SLHS 8410 - Seminar: Research (3.0 cr)
- Select 1 of the following courses in consultation with the advisor:
  - SLHS 8420 - Seminar: Teaching (3.0 cr)
  - or GRAD 8101 - Teaching in Higher Education (3.0 cr)

**Proseminars (6 credits)**
- Take 6 credits of the following:
  - SLHS 8430 - Proseminar in Speech-Language-Hearing Sciences (1.0 - 6.0 cr)

**Research Experience (4 credits)**
- Take 4 credits of the following:
  - SLHS 8112 - Supervised Laboratory Experience (1.0 - 2.0 cr)

**Teaching Experience (4 credits)**
- Take 4 credits from the following:
  - SLHS 8113 - Supervised Teaching Experience (1.0 - 2.0 cr)

**Statistics (6 credits)**
- Select 6 credits from the following in consultation with the advisor:
  - EPSY 5261 - Introductory Statistical Methods (3.0 cr)
  - EPSY 5262 - Intermediate Statistical Methods (3.0 cr)
  - EPSY 8251 - Statistical Methods in Education I (3.0 cr)
  - EPSY 8252 - Statistical Methods in Education II (3.0 cr)

**Statistics Electives (3 credits)**
- Select 3 credits from the following in consultation with the advisor:
  - EPSY 8220 - Special Topics: Seminar in Quantitative Methods (1.0 - 6.0 cr)
  - EPSY 8222 - Advanced Measurement: Theory and Application (3.0 cr)
  - EPSY 8224 - Performance Assessment Design and Analysis (3.0 cr)
  - EPSY 8225 - Operational Measurement: Test Score Quality Assurance, Standard Setting, and Equating (3.0 cr)
  - EPSY 8226 - Item Response Models: Theory and Applications (3.0 cr)
  - EPSY 8264 - Advanced Multiple Regression Analysis (3.0 cr)
  - EPSY 8265 - Factor Analysis (3.0 cr)
  - EPSY 8266 - Statistical Analysis Using Structural Equation Methods (3.0 cr)
  - EPSY 8267 - Applied Multivariate Analysis (3.0 cr)
  - EPSY 8269 - Hierarchical Linear Modeling in Educational Research (3.0 cr)
  - EPSY 8282 - Statistical Analysis of Longitudinal Data (3.0 cr)

Website: http://www.stat.umn.edu

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The School of Statistics is the primary venue at the University for research, teaching, and dissemination of the theory, methodology, and applications of statistical procedures. Students may specialize in any area of statistics. The core program for all students has strong components of both theoretical and applied statistics.

Program Delivery
This program is available:
* via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Paper Based - Total Score: 550
- IELTS
  - Total Score: 6.5
- MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Plan B: Plan B requires 24 major credits and 6 credits outside the major. The final exam is oral.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.

A maximum of 6.0 S/N credits can be applied to degree requirements.
Required Coursework

Core Courses (18 credits)
Take the following courses:
- STAT 5701 - Statistical Computing (3.0 cr)
- STAT 8051 - Advanced Regression Techniques: linear, nonlinear and nonparametric methods (3.0 cr)
- STAT 8052 - Applied Statistical Methods 2: Design of Experiments and Mixed Effects Modeling (3.0 cr)
- STAT 8101 - Theory of Statistics 1 (3.0 cr)
- STAT 8102 - Theory of Statistics 2 (3.0 cr)
- STAT 8801 - Statistical Consulting (3.0 cr)

Statistics Electives (6 credits)
Select 6 credits from the following in consultation with the advisor. Other courses may be selected with advisor approval.
- PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)
- PUBH 7450 - Survival Analysis (3.0 cr)
- PUBH 8442 - Bayesian Decision Theory and Data Analysis (3.0 cr)
- PUBH 8472 - Spatial Biostatistics (3.0 cr)
- STAT 5201 - Sampling Methodology in Finite Populations (3.0 cr)
- STAT 5401 - Applied Multivariate Methods (3.0 cr)
- STAT 5421 - Analysis of Categorical Data (3.0 cr)
- STAT 5511 - Time Series Analysis (3.0 cr)
- STAT 5601 - Nonparametric Methods (3.0 cr)
- STAT 8053 - Applied Statistical Methods 3: Multivariate Analysis and Advanced Regression (3.0 cr)
- STAT 8054 - Statistical Methods 4: Advanced Statistical Computing (3.0 cr)
- STAT 8111 - Mathematical Statistics I (3.0 cr)
- STAT 8112 - Mathematical Statistics II (3.0 cr)
- STAT 8931 - Advanced Topics in Statistics (3.0 cr)
- STAT 8932 - Advanced Topics in Statistics (3.0 cr)

Outside Coursework (6 credits)
Select 6 credits outside the major in consultation with the advisor. Other courses may be selected with advisor approval.
- CSCI 5523 - Introduction to Data Mining (3.0 cr)
- CSCI 5525 - Machine Learning: Analysis and Methods (3.0 cr)
- IE 8521 - Optimization (4.0 cr)
- MATH 5075 - Mathematics of Options, Futures, and Derivative Securities I (4.0 cr)
- MATH 5076 - Mathematics of Options, Futures, and Derivative Securities II (4.0 cr)
- MATH 5652 - Introduction to Stochastic Processes (4.0 cr)
- POL 8124 - Game Theory (3.0 cr)
- POL 8125 - Dynamic Analysis (3.0 cr)
- PSY 5862 - Psychological Measurement: Theory and Methods (3.0 cr)

• Program Type: Graduate minor related to major
• Requirements for this program are current for Fall 2022
• Length of program in credits (Masters): 9
• Length of program in credits (Doctorate): 14
• This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The School of Statistics is the primary venue at the University for research, teaching, and dissemination of the theory, methodology, and applications of statistical procedures. Students may specialize in any area of statistics. The core program for all students has strong components of both theoretical and applied statistics.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Statistics director of graduate studies regarding feasibility and requirements.

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 79

Key to test abbreviations (TOEFL).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Courses offered on both the A-F and S/N grading basis must be taken A-F, with a minimum grade of B- earned for each, unless otherwise approved by the Statistics director of graduate studies.

Doctoral students cannot apply 4-level courses or STAT 5021 to the minor.

The minimum cumulative GPA for minor field coursework is 2.80.

Coursework (9 to 14 credits)
Masters students select 9 credits, and doctoral students select 14 credits from the following in consultation with their advisor and the Statistics director of graduate studies.
STAT 4051 - Applied Statistics I (4.0 cr)
STAT 4052 - Introduction to Statistical Learning (4.0 cr)
### STAT 4101 - Theory of Statistics I (4.0 cr)

Website: http://www.stat.umn.edu

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 73
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The School of Statistics is the primary venue at the University for research, teaching, and dissemination of the theory, methodology, and applications of statistical procedures. Students may specialize in any area of statistics. The core program for all students has strong components of theoretical, computational, and applied statistics.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Paper Based - Total Score: 550
- IELTS
  - Total Score: 6.5
- MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
40 credits are required in the major.
9 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

A maximum of 6.0 units of S/N graded courses can apply to these requirements.
Core Courses (28 credits)
Take the following courses. Take STAT 8913 for a total of 4 credits.

- STAT 8051 - Advanced Regression Techniques: linear, nonlinear and nonparametric methods (3.0 cr)
- STAT 8052 - Applied Statistical Methods 2: Design of Experiments and Mixed-Effects Modeling (3.0 cr)
- STAT 8053 - Applied Statistical Methods 3: Multivariate Analysis and Advanced Regression (3.0 cr)
- STAT 8054 - Statistical Methods 4: Advanced Statistical Computing (3.0 cr)
- STAT 8111 - Mathematical Statistics I (3.0 cr)
- STAT 8112 - Mathematical Statistics II (3.0 cr)
- STAT 8311 - Linear Models (3.0 cr)
- STAT 8801 - Statistical Consulting (3.0 cr)
- STAT 8913 - Literature Seminar (1.0 cr)

Electives (12 credits)
Select 12 credits from the following in consultation with the advisor. Other coursework can be applied to this requirement with approval of the advisor and director of graduate studies.

- PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)
- PUBH 7450 - Survival Analysis (3.0 cr)
- PUBH 8442 - Bayesian Decision Theory and Data Analysis (3.0 cr)
- PUBH 8472 - Spatial Biostatistics (3.0 cr)
- STAT 8056 - Statistical Learning and Data Mining (3.0 cr)
- STAT 8057 - Time Series Analysis (3.0 cr)
- STAT 8931 - Advanced Topics in Statistics (3.0 cr)
- STAT 8932 - Advanced Topics in Statistics (3.0 cr)

Outside Coursework (9 credits)

Required Math Courses (6 credits)
Take the following courses. Comparable courses can be substituted with approval of the advisor and director of graduate studies.

- MATH 8651 - Theory of Probability Including Measure Theory (3.0 cr)
- MATH 8652 - Theory of Probability Including Measure Theory (3.0 cr)

Additional Courses (3 credits)
Select 3 credits in consultation with the advisor and director of graduate studies to complete the 9-credit minimum.

- CSCI 5525 - Machine Learning: Analysis and Methods (3.0 cr)
- IE 8521 - Optimization (4.0 cr)
- MATH 5075 - Mathematics of Options, Futures, and Derivative Securities I (4.0 cr)
- MATH 5076 - Mathematics of Options, Futures, and Derivative Securities II (4.0 cr)
- MATH 8659 - Stochastic Processes (3.0 cr)
- POL 8124 - Game Theory (3.0 cr)

Thesis Credits
Take 24 doctoral thesis credits.

- STAT 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)
Twin Cities Campus
Strategic Communication M.A.
School of Journalism & Mass Communication
College of Liberal Arts

Link to a list of faculty for this program.

Contact Information:
Hubbard School of Journalism and Mass Communication, 111 Murphy Hall, 206 Church Street SE, Minneapolis, MN 55455 (612-625-1338; fax: 612-626-8251)
Email: sjmcgrad@umn.edu

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30
- This program requires summer semesters for timely completion.
- Degree: Master of Arts

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Strategic Communication MA is designed to serve working communications professionals in advertising, public relations, corporate communications, nonprofit organizations, and government. The 30-credit program, which can be completed in 24 calendar months, is conceptually and structurally distinct from the academic master's degree in mass communication in that it focuses on advanced professional study of communications strategy, media, planning, evaluation, and creative management. The MA in strategic communication curriculum is tailored to provide the best foundation for future communications leaders, recognizing that the communication industry is changing rapidly. With digital communication continuing to transform the industry, and massive organizational and global forces reshaping the U.S. economy, communications leaders face significant challenges and can prepare themselves through in-depth study of strategic process management.

Program Delivery
This program is available:
- completely online (all program coursework can be completed online)

Prerequisites for Admission
A baccalaureate degree from an accredited U.S. institution or its foreign equivalent is required.

Other requirements to be completed before admission:
- Graduate School accepted ELP exams

Special Application Requirements:
In addition to the baccalaureate degree, professionals in strategic communication -- currently employed in advertising, public relations, or marketing firms, or in a communications or related function within a corporation or nonprofit organization -- should have at least two years of professional experience. This professional experience can be in any of the following areas: account planning, account management, advertising management, media planning or buying, media sales, promotion marketing, corporate communications, public affairs, public relations, investor relations, direct marketing, sales management, marketing management, brand management, broadcast or print journalism, market research, content creation, or event management.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Paper Based - Total Score: 550
- IELTS
  - Total Score: 6.5

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the
Program Requirements

Plan C: Plan C requires 27 to 30 major credits and 0 to 3 credits outside the major. The is no final exam. A capstone project is required.

Capstone Project: The project requires completion of the capstone course (JOUR 8206), in consultation with the advisor and academic director, that supports completion of the student's strategic communication campaign project.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

All coursework must be taken on the A-F grading basis.

Required Courses (21 credits)
Take the following courses:
- JOUR 5251 - Strategic Communication Theory (3.0 cr)
- JOUR 8200 - Strategic Communication Research Methods (3.0 cr)
- JOUR 8201 - Factors Affecting Communication Strategy (3.0 cr)
- JOUR 8202 - Generation and Selection of Communication Strategies (3.0 cr)
- JOUR 8203 - Integration of Communication Strategies Across Media (3.0 cr)
- JOUR 8205 - Strategic Communication Cases & Campaigns (3.0 cr)
- JOUR 8208 - Digital Strategy, Planning and Analytics (3.0 cr)

Journalism Electives (3-6 credits)
Select 3 to 6 credits from the following in consultation with the advisor and/or academic director.
- JOUR 5252 - Issue Management Communication and Brand Advocacy (3.0 cr)
- JOUR 5253 - Content Strategy and Development (3.0 cr)
- JOUR 5501 - Communication, Public Opinion, and Social Media (3.0 cr)
- JOUR 5541 - Mass Communication and Public Health (3.0 cr)
- JOUR 8290 - Special Topics in Strategic Communication (3.0 cr)

Outside Coursework (0-3 credits)
Select 0 to 3 credits from the following in consultation with the advisor and/or academic director.
- COMM 5441 - Communication in Human Organizations (3.0 cr)
- ENTR 6041 - Initiating New Product Design and Business Development (4.0 cr)
- EPSY 5261 - Introductory Statistical Methods (3.0 cr)
- WRIT 5112 - Information Design: Theory and Practice (3.0 cr)
- WRIT 5671 - Visual Rhetoric (3.0 cr)

Individual Project (3 credits)
Complete the following with a minimum grade of B:
- JOUR 8206 - Directed Study: Development of an Integrated Strategic Communication Campaign (3.0 cr)
Twin Cities Campus

Studies in Africa and African Diaspora Minor

- Program Type: Graduate free-standing minor
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 9
- Length of program in credits (Doctorate): 15
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

This interdisciplinary graduate minor is administered through the Department of African American & African Studies. The minor program gives students from a variety of disciplines a structured graduate curriculum that offers a systematic understanding of the contemporary and historical experiences of peoples of Africa and of the African diaspora. It is organized around a group of core seminars and focuses on two broad areas: the humanities and the arts, and the social and behavioral sciences.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
An undergraduate major or minor in African American and/or African studies is not required for admission to the minor, but students are expected to have had sufficient background to begin graduate-level study.

Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Studies in Africa and African Diaspora director of graduate studies regarding feasibility and requirements.

Students must complete an application form by the end of spring semester to be considered for acceptance for the following academic year.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Students develop the minor in consultation with the Studies in Africa and the African Diaspora director of graduate studies and with their graduate program.

All courses must be outside the student's major field of study.

Minor field coursework offered on both the A-F and S/N grading basis must be taken A-F.

The minimum cumulative GPA for minor field coursework is 3.00.
Required Course (3 credits)
Take the following course:
AFRO 5101 - Seminar: Introduction to Africa and the African Diaspora (3.0 cr)

Electives (6 to 9 credits)
Masters students select 6 credits, and doctoral students select 9 credits from the following, with the approval of the Studies in Africa and African Diaspora director of graduate studies. Selected courses will focus on the arts and humanities or behavioral and social sciences.
AFRO 5xxx
AFRO 8xxx

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Seminar (3 credits)
Select a seminar with approval of the Studies in Africa and African Diaspora director of graduate studies. Seminars not listed below may be chosen in consultation with the Studies in Africa and African Diaspora director of graduate studies.
AFRO 8202 - Seminar: Intellectual History of Race (3.0 cr)
Twin Cities Campus
Studies of Science and Technology Minor
Philosophy Department
College of Liberal Arts

- Program Type: Graduate free-standing minor
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 7
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Studies of science and technology (SST) deals with a rapidly expanding field that seeks to understand the conceptual foundations, historical development, and social dimensions and context of science and technology. SST faculty are drawn from a number of research and teaching units dedicated in whole or in part to the history, philosophy, and social studies of science and technology.

The SST graduate minor is for students from any major who want to gain a deeper understanding of the nature and development of science and technology. It can be particularly valuable for students who are planning teaching careers in science or engineering, or those majoring in philosophy or history of science and technology.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Studies of Science and Technology director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Courses offered on both the A-F and S/N grading basis must be taken A-F, with a minimum grade of B earned for each.

The minimum cumulative GPA for minor field coursework is 3.00.

History Course (3 credits)
Select 1 of the following courses in consultation with the SST director of graduate studies:
HSCI 8112 - Historiography of Science, Technology, and Medicine (3.0 cr)
HMED 8112 - Historiography of Science, Technology, and Medicine (3.0 cr)

Philosophy Course (3 credits)
Select 1 of the following courses in consultation with the SST director of graduate studies:
PHIL 8602 - Scientific Representation and Explanation (3.0 cr)
PHIL 8610 - Seminar: History of Modern Physical Sciences (3.0 cr)
PHIL 8620 - Seminar: Philosophy of the Biological Sciences (3.0 cr)
PHIL 8670 - Seminar: Philosophy of Science (3.0 cr)
Colloquium (1 or 3 credits)
Masters students take the colloquium once; doctoral students take it twice.
SST 8000 - Colloquium (1.5 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Additional Coursework (3 credits)
Select 3 credits from the following, in consultation with the SST director of graduate studies, to complete the 12-credit minimum:
SST 8000 - Colloquium (1.5 cr)
SST 8100 - Seminar: Models, Theories, and Reality (3.0 cr)
SST 8200 - Seminar: Philosophy of the Physical Sciences (3.0 cr)
SST 8300 - Seminar: The Biological and Biomedical Sciences (3.0 cr)
SST 8400 - Seminar: Science, Technology, and Society (3.0 cr)
SST 8420 - Seminar: Social and Cultural Studies of Science (3.0 cr)

- Program Type: Post-baccalaureate credit certificate/licensure/endorsement
- Requirements for this program are current for Fall 2022
- Length of program in credits: 15
- This program requires summer semesters for timely completion.
- Degree: Technical Communication PBacc Cert

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Department of Writing Studies trains students to understand how people use written communication (digital, visual, textual) to shape the world around them, with a particular emphasis on communication in scientific and technical areas. The Certificate in Technical Communication focuses on applying basic theory and research-driven approaches to create and adapt content to solve complex problems in technical communication workplaces. Students connect with workplace professionals through client projects, virtual and global teamwork, mentorships, and emerging technologies. These experiences enable students to develop unique strengths in digital, usability, and science/health/medical communication.

Certificate courses are taught by graduate faculty who themselves have active research agendas in these areas. Students also have the opportunity to work with the Technical Communication Advisory Board (TCAB), a group of business leaders who provide pathways to experiential learning opportunities including networking, mentoring, and internships.

This fully online program equips professionals for transition to the technical communication field and/or serves as the foundation for specialized study at the masters level that is tailored to career goals. All coursework from the Certificate can be applied to the MS in Scientific and Technical Communication upon admission to the MS and with program approval.

Program Delivery
This program is available:
- completely online (all program coursework can be completed online)

Prerequisites for Admission
International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Paper Based - Total Score: 550
- IELTS
  - Total Score: 6.5
- MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.
A minimum GPA of 2.80 is required for students to remain in good standing.

A minimum grade of B- is required for each course applied to the certificate.

**Fall Term Courses (6 credits)**
Take the following courses:
- WRIT 5001 - Introduction to Graduate Studies in Scientific and Technical Communication (3.0 cr)
- WRIT 5662 - Writing With Digital Technologies (3.0 cr)

**Spring Term Courses (6 credits)**
Take the following courses:
- WRIT 5112 - Information Design: Theory and Practice (3.0 cr)
- WRIT 5501 - Usability and Human Factors in Technical Communication (3.0 cr)

**Summer Term Course (3 credits)**
Take the following course:
- WRIT 5561 - Editing and Style for Technical Communicators (3.0 cr)

• Program Type: Master's
• Requirements for this program are current for Fall 2022
• Length of program in credits: 30 to 40
• This program does not require summer semesters for timely completion.
• Degree: Master of Arts

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The University of Minnesota offers a unique graduate program drawing from the varied research expertise of its core faculty. Together, the faculty is committed to the study of theatre and performance as practices of social, cultural, and political consequence. The department's work in theatre historiography and performance criticism examines the stakes of acts of representation, movement, and meaning production both within and without the discipline of theatre. The curriculum of this program trains students to be rigorous scholars and expert teachers of theatre and performance studies at the college level.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Paper Based - Total Score: 550
• IELTS

Program Requirements
Plan A: Plan A requires 24 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is oral.

Plan B: Plan B requires 24 major credits and 6 credits outside the major. The final exam is written. A capstone project is required.

Capstone Project: The Plan B requirement comprises three Plan B papers completed in consultation with the advisor and director of graduate studies.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.
A minimum GPA of 2.80 is required for students to remain in good standing.

**Signature Seminars (6 credits)**
Take the following courses, or take TH 8120 twice to complete this 6-credit requirement.
- TH 8120 - Seminar (3.0 cr)
- TH 5117 - Performance and Social Change (3.0 cr)

**Field Seminars (6 credits)**
Select 6 credits from the following in consultation with the advisor:
- TH 8111 - History and Theory of Western Theatre: Ancient World and Early Medieval (3.0 cr)
- TH 8112 - History and Theory of Western Theatre: Medieval Through Renaissance (3.0 cr)
- TH 8113 - History and Theory of Western Theatre: National Theatres to the French Revolution (3.0 cr)
- TH 8114 - Theatre: Performance and Political Modernity (3.0 cr)
- TH 8115 - History and Theory of Western Theatre: 20th Century Through World War II (3.0 cr)
- TH 8116 - History and Theory of Western Theatre: 20th Century From 1945 to the Present (3.0 cr)

**Pedagogy and Professionalization Course (3 credits)**
Take TH 8950 for 3 credits.
- TH 8950 - Topics in Theatre (1.0 - 4.0 cr)

**Historiography Seminar (3 credits)**
Take the following course:
- TH 8102 - Theatre Historiography (3.0 cr)

**Electives (6 credits)**
Select 6 credits from within Theatre Arts in consultation with the advisor.

**Outside Coursework (6 credits)**
Select 6 credits from outside Theatre Arts in consultation with the advisor.

**Plan Options**

**Plan A**

**Thesis Credits**
Take 10 master's thesis credits.
- TH 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 60
- This program does not require summer semesters for timely completion.
- Degree: Master of Fine Arts

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The three-year, performance-oriented, terminal MFA degree specializes in design and technical production. All areas of design are studied to increase understanding in specialization areas, and technology is studied as an essential part of design. Students are expected to achieve proficiency in at least two areas of any combination of design and technology (scenery/properties, costuming, lighting, sound) and a level of expertise in at least one of these areas.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Special Application Requirements:
Portfolio review by the Theatre Arts design/technology faculty

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Paper Based - Total Score: 550
- IELTS
  - Total Score: 6.5
- MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Plan C: Plan C requires 57 major credits and 6 credits outside the major. The final exam is written and oral. A capstone project is required.
Capstone Project: A realized technology or design project.

This program may be completed with a minor.
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 4 semesters must be completed before filing a Degree Program Form.

Major field coursework offered on both the A-F and S/N grade basis must be taken A-F.

**Foundational Courses (6 credits)**
Take the following courses:
- TH 5510 - Drawing, Rendering, and Painting for the Theatre Designer I (3.0 cr)
- TH 5560 - Drawing, Rendering, and Painting for the Theatre Designer II (3.0 cr)

**Design Courses (9 credits)**
Select two of the following courses in consultation with the advisor. Repeat one of the two considered to be the primary design area.
- TH 5520 - Scene Design (3.0 cr)
- TH 5530 - Costume Design (3.0 cr)
- TH 5540 - Lighting Design for the Theatre (3.0 cr)
- TH 5559 - Sound Design for Performance (3.0 cr)

**Design/Technology Practicums (6 credits)**
Take 6 credits from the following, in any combination, in consultation with the advisor:
- TH 5500 - Theatre Design Practicum (1.0 - 3.0 cr)
- TH 5590 - Theatre Technology Practicum (1.0 - 3.0 cr)
- TH 8500 - Theatre Design Practicum (1.0 - 3.0 cr)
- TH 8590 - Theatre Technology Practicum (1.0 - 3.0 cr)

**Electives (9 credits)**
Select 9 credits from the following in consultation with the advisor:
- TH 4555 - Audio Technology (3.0 cr)
- TH 5355 - Puppetry: Techniques and Practice in Contemporary Theater (3.0 cr)
- TH 5520 - Scene Design (3.0 cr)
- TH 5530 - Costume Design (3.0 cr)
- TH 5540 - Lighting Design for the Theatre (3.0 cr)
- TH 5545 - Stage Lighting Technology (3.0 cr)
- TH 5554 - Multimedia Production for Live Performance (3.0 cr)
- TH 5556 - Audio Engineering (3.0 cr)
- TH 5559 - Sound Design for Performance (3.0 cr)
- TH 5570 - Properties/Scenery Technology (1.0 - 3.0 cr)
- TH 5580 - Costume Technology (3.0 cr)
- TH 5950 - Topics in Theatre (1.0 - 4.0 cr)
- TH 5993 - Directed Study (1.0 - 5.0 cr)
- TH 8950 - Topics in Theatre (1.0 - 4.0 cr)
- TH 8994 - Directed Research (1.0 - 5.0 cr)

**Professional Development Course (12 credits)**
Take 3 credits of TH 8510, in consultation with the advisor, 4 times within 3 years.
- TH 8510 - Professional Design Workshop (1.0 - 3.0 cr)

**Internship (3 credits)**
Take TH 8980 in consultation with the advisor.
- TH 8980 - Internship (1.0 - 5.0 cr)

**History of Literature within the Field (6 credits)**
Select 6 credits from the following in consultation with the advisor. Other courses may be applied to this requirement with advisor approval.
- TH 4177W - Analysis of Dramatic Literature [WI] (3.0 cr)
- TH 5103 - The Theatre Dramaturg (3.0 cr)
- TH 5117 - Performance and Social Change (3.0 cr)
- TH 5179W - Text and Performance [WI] (3.0 cr)
- TH 5181W - Blacks in American Theatre [WI] (3.0 cr)
- TH 5182W - Contemporary Black Drama and Dramaturgies [WI] (3.0 cr)
- TH 5183 - Critical Literacy, Storytelling, and Creative Drama (3.0 cr)
- TH 8111 - History and Theory of Western Theatre: Ancient World and Early Medieval (3.0 cr)
- TH 8112 - History and Theory of Western Theatre: Medieval Through Renaissance (3.0 cr)
TH 8113 - History and Theory of Western Theatre: National Theatres to the French Revolution (3.0 cr)
TH 8114 - Theatre: Performance and Political Modernity (3.0 cr)
TH 8115 - History and Theory of Western Theatre: 20th Century Through World War II (3.0 cr)
TH 8116 - History and Theory of Western Theatre: 20th Century From 1945 to the Present (3.0 cr)
TH 8120 - Seminar (3.0 cr)

**MFA Creative Thesis (3 credits)**
Take 3 credits of the following in consultation with the advisor.
TH 8990 - MFA Creative Thesis (3.0 - 4.0 cr)

**Outside Coursework (6 credits)**
Select at least 6 credits outside Theatre Arts in consultation with the advisor.

Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Translational Sensory Sciences director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Coursework offered on both the A-F and S/N grading basis must be taken A-F, with a minimum grade of C+ earned for each course.

Required Courses (5 credits)
Take the following courses:
GCC 5022 - The Human Experience of Sensory Loss: Seeking Equitable and Effective Solutions [TS] (3.0 cr)
CGSC 8410 - Perspectives in Learning, Perception, and Cognition (2.0 cr)

Electives (7 credits)
Select 7 credits from the following, in consultation with the Translational Sensory Sciences director of graduate studies, to complete the 12-credit minimum. Other courses may be applied to this requirement with approval of the Translational Sensory Sciences director of graduate studies.
BMEN 5413 - Neural Decoding and Interfacing (3.0 cr)
BMEN 8101 - Biomedical Digital Signal Processing (3.0 cr)
CSCI 5115 - User Interface Design, Implementation and Evaluation (3.0 cr)
CSCI 5521 - Machine Learning Fundamentals (3.0 cr)
CSCI 5525 - Machine Learning: Analysis and Methods (3.0 cr)
CSCI 5561 - Computer Vision (3.0 cr)
CSCI 5619 - Virtual Reality and 3D Interaction (3.0 cr)
CSCI 5801 - Software Engineering I (3.0 cr)
KIN 5941 - Clinical Movement Neuroscience (3.0 cr)
KIN 8211 - Seminar: Perception and Action (3.0 cr)
OTOL 8234 - Anatomy of the Head and Neck and Temporal Bone Dissection (2.0 cr)
PSY 5031W - Perception [WI] (3.0 cr)
PSY 5038W - Introduction to Neural Networks [WI] (3.0 cr)
PSY 5065 - Functional Imaging: Hands-on Training (3.0 cr)
PSY 8041 - Proseminar in Perception (3.0 cr)
SLHS 5804 - Cochlear Implants (3.0 cr)
SLHS 5807 - Noise and Hearing Conservation (3.0 cr)
SLHS 5808 - Pathophysiology of Hearing Disorders (3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Doctoral
Twin Cities Campus
Experimental and Clinical Pharmacology M.S.
College of Pharmacy

Link to a list of faculty for this program.

Contact Information:
Department of Experimental and Clinical Pharmacology, University of Minnesota College of Pharmacy, 7-115 Weaver-Densford Hall, 308 Harvard Street S.E., Minneapolis, MN 55455 (612-625-2160)

Website: https://z.umn.edu/ecpgrad

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 34
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Experimental and Clinical Pharmacology (ECP) graduate program was designed specifically for students interested in clinical research. Its goal is to advance the science of human pharmacology and therapeutics to improve the safe, effective, and economical use of drugs by patients.

Students study such topics as experimental pharmacotherapy, drug metabolism, infectious disease, neuroscience/neuropharmacology, pharmacometrics, and pharmacogenomics. Graduates are prepared for distinguished careers in clinical research.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A U.S. bachelor's degree or a comparable foreign degree from a recognized college or university is required.

Preference is given to candidates who have had professionally-related pharmacy education, but those from other fields such as biology, chemistry, statistics, and public health will be considered.

Other requirements to be completed before admission:
All international students who are non-English speakers are required to submit TOEFL scores. TOEFL test date must be within 2 years of program start. However, applicants who have completed 24 quarter credits or 16 semester credits within the past 24 months in residence as full-time students at recognized institutions of higher learning in the United States or other English-speaking countries before entering the University of Minnesota are generally exempted from this requirement. GRE required by all students except for applicants that have completed a PharmD at a U.S.-accredited institution.

Special Application Requirements:
Students are generally admitted to the ECP program for fall semester only. All application materials should be submitted by the admissions deadline listed on the departmental website. Applications received after the application deadline will be considered on a space-available basis only.

Application to the ECP program at the University of Minnesota is done entirely online.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19

The preferred English language test is Test of English as Foreign Language.
Program Requirements

Plan A: Plan A requires 24 major credits, up to null credits outside the major, and 10 thesis credits. The final exam is oral.

Plan B: Plan B requires 34 major credits and up to null credits outside the major. The final exam is oral.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

Required Courses (8 credits)
Take the following courses. Take ECP 8982 twice for a total of 2 credits.

- ECP 5220 - Regulatory Issues in Drug Research (2.0 cr)
- ECP 8230 - Principles of Clinical Pharmacology (2.0 cr)
- ECP 8983 - Scientific Communications in Experimental and Clinical Pharmacology (1.0 cr)
- ECP 8982 - Inter-Institutional Journal Club in Translational Research (1.0 cr)
- ECP 8100 - Seminar (1.0 cr)

Statistical Analysis (4 credits)
Select at least one of the following courses in consultation with the advisor. Two courses are preferred and will count towards Electives or Focus Area.

- PUBH 6450 - Biostatistics I (4.0 cr)
- PUBH 6451 - Biostatistics II (4.0 cr)
- STAT 5101 - Theory of Statistics I (4.0 cr)
- STAT 5102 - Theory of Statistics II (4.0 cr)

Electives
Select electives, in consultation with the director of graduate studies and/or the advisor, to complete the master's minimum credit requirement.

- ANAT 5xxx
- ANAT 6xxx
- ANAT 7xxx
- ANSC 5xxx
- ANSC 8xxx
- BBE 5xxx
- BBE 6xxx
- BICB 5xxx
- BICB 8xxx
- BINF 5xxx
- BIOC 5xxx
- BIOC 6xxx
- BIOL 5xxx
- BIOL 6xxx
- BIOL 8xxx
- BMEN 5xxx
- BMEN 8xxx
- BMSC 8xxx
- BTHX 5xxx
- BTHX 8xxx
- CGSC 8xxx
- CHEM 5xxx
- CHEM 8xxx
- CLS 5xxx
- CLS 8xxx
Focus Areas

Plan A
Take exactly 10 credit(s) from the following:
- **ECP 8777** - Thesis Credits: Master's (1.0 - 18.0 cr)
  - OR -

Plan B
Take 10 project credits.
**ECP 8776** - Project Credits: Master's Plan B (1.0 - 18.0 cr)
  - OR -
Focus Area -- Pharmacometrics (12 credits)
Coursework chosen from the following list, or other courses to meet the 12-credit focus area requirement, are selected in consultation with the advisor.

ECP 8500 - Advances in Pharmacometrics Modeling and Simulation (1.0 cr)
ECP 8501 - Pharmacometrics (2.0 cr)
ECP 8502 - Introductory Population Pharmacokinetic Methods (2.0 cr)
ECP 8503 - Intermediate Population PK/PD Methods (2.0 cr)
ECP 8504 - Modeling Biologics (2.0 cr)
ECP 8505 - Application of physiological-based pharmacokinetic modeling (PBPK) to model-informed drug development (2.0 cr)
ECP 8506 - Clinical Trial Simulation (2.0 cr)
PUBH 6450 - Biostatistics I (4.0 cr)
PUBH 6451 - Biostatistics II (4.0 cr)
PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)
PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
PUBH 7450 - Survival Analysis (3.0 cr)
STAT 5101 - Theory of Statistics I (4.0 cr)
STAT 5102 - Theory of Statistics II (4.0 cr)

-OR-

Focus Area -- Neuroscience/Neuropharmacology (12 credits)
Coursework chosen from the following list, or other courses to meet the 12-credit focus area requirement, are selected in consultation with the advisor.

NSC 5461 - Cellular and Molecular Neuroscience (3.0 cr)
NSCI 5101 - Neurobiology I: Molecules, Cells, and Systems (3.0 cr)
NSCI 5501 - Neurodegenerative Diseases, Mechanisms to Therapies (3.0 cr)
PUBH 6450 - Biostatistics I (4.0 cr)
PUBH 6451 - Biostatistics II (4.0 cr)
PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)
Neuro-Immune Interactions
CMB 8361 - Neuro-Immune Interactions (3.0 cr)
or NSC 8026 - Neuro-Immune Interactions (3.0 cr)
or PHCL 8026 - Neuro-Immune Interactions (3.0 cr)
Advanced Neuropharmaceutics
CMB 8481 - Advanced Neuropharmaceutics (4.0 cr)
or NSC 8481 - Advanced Neuropharmaceutics (4.0 cr)
or PHM 8481 - Advanced Neuropharmaceutics (4.0 cr)

-OR-

Focus Area -- Infectious Diseases (12 credits)
Coursework chosen from the following list, or other courses to meet the 12-credit focus area requirement, are selected in consultation with the advisor.

ECP 5620 - Drug Metabolism and Disposition (3.0 cr)
MICA 8002 - Structure, Function, and Genetics of Bacteria and Viruses (4.0 cr)
MICA 8003 - Immunity and Immunopathology (4.0 cr)
MICA 8010 - Microbial Pathogenesis (3.0 cr)
PHAR 6224 - Advanced Pharmacogenomics and Precision Medicine (2.0 cr)
PUBH 6450 - Biostatistics I (4.0 cr)
PUBH 6451 - Biostatistics II (4.0 cr)
PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)

-OR-

Focus Area -- Pharmacogenomics Research (12 credits)
Coursework chosen from the following list, or other courses to meet the 12-credit focus area requirement, are selected in consultation with the advisor.

ECP 5620 - Drug Metabolism and Disposition (3.0 cr)
ECP 8900 - Advanced Topics in Experimental and Clinical Pharmacology (1.0 - 4.0 cr)
GCD 4034 - Molecular Genetics and Genomics (3.0 cr)
GCD 4143 - Human Genetics and Genomics (3.0 cr)
GCD 8073 - Genetics & Genomics in Human Health (2.0 cr)
MILI 6589 - Medical Technology Evaluation and Market Research (2.0 cr)
PHAR 6224 - Advanced Pharmacogenomics and Precision Medicine (2.0 cr)
PUBH 6381 - Genetics in Public Health in the Age of Precision Medicine (2.0 cr)
PUBH 6450 - Biostatistics I (4.0 cr)
PUBH 6451 - Biostatistics II (4.0 cr)
PUBH 6717 - Decision Analysis for Health Care (2.0 cr)
PUBH 6862 - Cost-Effectiveness Analysis in Health Care (3.0 cr)
PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)

-OR-

Focus Area -- Applied Pharmacogenomics (12 credits)
This focus area is offered as Plan B only. Coursework chosen from the following list, or other courses to meet the 12-credit focus area requirement, are selected in consultation with the advisor.

BTHX 8114 - Ethical and Legal Issues in Genetic Counseling (2.0 cr)
GCD 5914 - Ethical and Legal Issues in Genetic Counseling (2.0 cr)
GCD 8073 - Genetics & Genomics in Human Health (2.0 cr)
HINF 5430 - Foundations of Health Informatics I (3.0 cr)
HINF 5510 - Applied Health Care Databases: Database Principles and Data Evaluation (3.0 cr)
HINF 5520 - Informatics Methods for Health Care Quality, Outcomes, and Patient Safety (2.0 cr)
HINF 5531 - Health Data Analytics and Data Science (3.0 cr)
MILI 6589 - Medical Technology Evaluation and Market Research (2.0 cr)
NURS 5115 - Interprofessional Health Care Informatics (3.0 cr)
NURS 7051 - Data Science for Healthcare (2.0 cr)
NURS 7113 - Clinical Decision Support: Theory (2.0 cr)
PHAR 6224 - Advanced Pharmacogenomics and Precision Medicine (2.0 cr)
PHAR 6962 - Ethics in Pharmacy Practice (2.0 cr)
PUBH 6381 - Genetics in Public Health in the Age of Precision Medicine (2.0 cr)
PUBH 6717 - Decision Analysis for Health Care (2.0 cr)
PUBH 6862 - Cost-Effectiveness Analysis in Health Care (3.0 cr)
PUBH 7533 - Leading with Impact in Healthcare (1.0 cr)
PUBH 7551 - Principles of Management in Health Services Organizations (2.0 cr)
PUBH 7556 - Health and Health Systems (2.0 cr)
PUBH 7565 - Innovation of Healthcare Services (2.0 cr)
PUBH 8816 - Implementation Science (2.0 cr)
SAPH 8235 - Pharmaceutical Economics and Policy (3.0 cr)
SAPH 8610 - Pharmacoepidemiology (3.0 cr)
SAPH 8700 - Hospital Pharmacy Administration (3.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Note: Students are not admitted directly to the MS program. See the Medicinal Chemistry PhD or contact the Director of Graduate Studies for more information.

The medicinal chemistry program emphasizes the application of chemical principles to research on the action of drugs on biological systems. Courses offered by the program focus on general principles of medicinal chemistry, drug design and synthesis, chemical aspects of drug metabolism, chemical mechanisms of drug toxicity and carcinogenicity, computer-assisted drug design and receptor modeling.

Students must complete a core curriculum of advanced courses in organic and medicinal chemistry, as well as credits in a minor or related field.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Special Application Requirements:
Note: Students are not admitted directly to the M.S. program. See the Medicinal Chemistry Ph.D.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Plan A: Plan A requires 20 major credits, up to null credits outside the major, and 10 thesis credits. The final exam is oral.

Plan B: Plan B requires 30 major credits and up to null credits outside the major. The final exam is oral.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 2.80 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.
Students must take all courses for an A-F grade, unless the course is only offered on the S/N grading basis.

**Required Courses (15 credits)**
Take the following courses:
- MEDC 8001 - General Principles of Medicinal Chemistry (3.0 cr)
- MEDC 8002 - General Principles of Medicinal Chemistry (3.0 cr)
- MEDC 8050 - Physical and Mechanistic Organic Chemistry (2.0 cr)
- MEDC 8435 - BioAssay & Data Analysis (1.0 cr)
- MEDC 8900 - Directed Studies in Medicinal Chemistry (1.0 - 10.0 cr)
- CHEM 8066 - Professional Conduct of Chemical Research (1.0 cr)
- CHEM 8321 - Organic Synthesis (4.0 cr)

**Biochemistry Requirement (2 to 4 credits)**
Select one of the following 2- to 4-credit courses in consultation with the advisor. A substitute course can be selected with approval of the advisor and director of graduate studies.
- BIOC 8005 - Biochemistry: Structure and Catalysis (2.0 cr)
- BIOC 8006 - Biochemistry: Metabolism and Control (2.0 cr)
- BIOC 5535 - Introduction to Modern Structural Biology -- Diffraction (2.0 cr)
- BIOC 5528 - Spectroscopy and Kinetics (4.0 cr)
- GCD 8151 - Cellular Biochemistry and Cell Biology (2.0 - 4.0 cr)
- CHEM 8411 - Introduction to Chemical Biology (4.0 cr)

**Additional Courses to Satisfy Elective Requirement**
Select remaining courses in consultation with the advisor to complete the 20 course credits required for the Plan A, or the 30-credit requirement for the Plan B. At least one course must be selected from the following options.
- MEDC 5185 - Principles of Biomolecular Simulation (3.0 cr)
- MEDC 5485 - Drug Metabolism and Pharmacokinetics (3.0 cr)
- MEDC 5494 - Advanced Methods in Quantitative Drug Analysis (2.0 cr)
- MEDC 8070 - The Chemistry and Biology of Infectious Diseases (3.0 cr)
- MEDC 8401 - Chemistry of Counterterrorism: Chemical, Biological, Radiological, Nuclear & High Explosive Threats (2.0 cr)
- MEDC 8413 - Chemistry of Nucleic Acids (4.0 cr)
- MEDC 8420 - Natural Products Chemistry (3.0 cr)
- MEDC 8461 - Design of Cancer Therapeutics (3.0 cr)
- MEDC 8471 - High Throughput Drug Discovery (3.0 cr)
- MEDC 8700 - Advanced Concepts in Drug Design (2.0 cr)
- MEDC 8753 - MOLECULAR TARGETS OF DRUG DISCOVERY (3.0 cr)
- CHEM 8322 - Advanced Organic Chemistry (4.0 cr)

**Thesis Credits**
Take at least 10 masters thesis credits.
- MEDC 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)
**Twin Cities Campus**

**Medicinal Chemistry Ph.D.**

**Graduate Studies in Medicinal Chemistry**

**College of Pharmacy**

- **Program Type:** Doctorate  
- **Requirements for this program are current for Fall 2022**  
- **Length of program in credits:** 48  
- **This program does not require summer semesters for timely completion.**  
- **Degree:** Doctor of Philosophy

Along with the program-specific requirements listed below, please read the [General Information](#) section of the catalog website for requirements that apply to all major fields.

The program in medicinal chemistry emphasizes the application of chemical principles to research on the action of drugs on biological systems. Courses offered by the program focus on general principles of medicinal chemistry, drug design and synthesis, chemical aspects of drug metabolism, chemical mechanisms of drug toxicity and carcinogenicity, computer-assisted drug design and receptor modeling.

**Program Delivery**

This program is available:  
- via classroom (the majority of instruction is face-to-face)

**Prerequisites for Admission**

The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:

Applicants should have a BS or MS degree in an appropriate related science field such as pharmacy, chemistry, or biology. Students majoring in other degree programs that encompass chemical, biochemical, or biological fields of study are also encouraged to apply. All applicants should have completed undergraduate chemistry through elementary organic chemistry. Undergraduate coursework in biochemistry and physical chemistry is also a prerequisite, but under certain circumstances such coursework may be taken during the first year. Students may apply for admission to the PhD program only and are only admitted fall semester.

**Special Application Requirements:**

Scores from the General (Aptitude) Test of the GRE, three letters of recommendation from college-level faculty, a complete set of official transcripts, and a statement of immediate and long range career objectives are required. All application materials should be submitted by the admissions deadline listed on the departmental website in order to be considered for fellowship, teaching, and research assistantships awarded in the next academic year.

International applicants must submit score(s) from one of the following tests:

- **TOEFL**
  - Internet Based - Total Score: 95
- **IELTS**
  - Total Score: 6.5

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the [General Information](#) section of the catalog website.
Program Requirements

24 credits are required in the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.

Students must take all courses for an A-F grade, unless the course is only offered on the S/N grading basis.

Required Courses (15 credits)
- MEDC 8001 - General Principles of Medicinal Chemistry (3.0 cr)
- MEDC 8002 - General Principles of Medicinal Chemistry (3.0 cr)
- MEDC 8050 - Physical and Mechanistic Organic Chemistry (2.0 cr)
- MEDC 8435 - BioAssay & Data Analysis (1.0 cr)
- MEDC 8100 - Medicinal Chemistry Seminar (1.0 cr)
- CHEM 8066 - Professional Conduct of Chemical Research (1.0 cr)
- CHEM 8321 - Organic Synthesis (4.0 cr)

Biochemistry Requirement (2 to 4 credits)
Take at least one of the following courses or select a different 2 to 4 credit course in consultation with the advisor and director of graduate studies.
- BIOC 5528 - Spectroscopy and Kinetics (4.0 cr)
- BIOC 5535 - Introduction to Modern Structural Biology -- Diffraction (2.0 cr)
- BIOC 8005 - Biochemistry: Structure and Catalysis (2.0 cr)
- BIOC 8006 - Biochemistry: Metabolism and Control (2.0 cr)
- CHEM 8411 - Introduction to Chemical Biology (4.0 cr)
- GCD 8151 - Cellular Biochemistry and Cell Biology (2.0 - 4.0 cr)

Additional Course Requirements
Take three additional courses, two of which must be from the following list, to complete the 24 course-credit requirement.
- CHEM 8322 - Advanced Organic Chemistry (4.0 cr)
- MEDC 5185 - Principles of Biomolecular Simulation (3.0 cr)
- MEDC 5485 - Drug Metabolism and Pharmacokinetics (3.0 cr)
- MEDC 5494 - Advanced Methods in Quantitative Drug Analysis (2.0 cr)
- MEDC 8070 - The Chemistry and Biology of Infectious Diseases (3.0 cr)
- MEDC 8401 - Chemistry of Counterterrorism: Chemical, Biological, Radiological, Nuclear & High Explosive Threats (2.0 cr)
- MEDC 8413 - Chemistry of Nucleic Acids (4.0 cr)
- MEDC 8420 - Natural Products Chemistry (3.0 cr)
- MEDC 8461 - Design of Cancer Therapeutics (3.0 cr)
- MEDC 8471 - High Throughput Drug Discovery (3.0 cr)
- MEDC 8700 - Advanced Concepts in Drug Design (2.0 cr)
- MEDC 8753 - MOLECULAR TARGETS OF DRUG DISCOVERY (3.0 cr)

Thesis Credits
Take at least 24 doctoral thesis credits.
- MEDC 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)
Twin Cities Campus
Pharmaceutics M.S.
Graduate Studies in Pharmaceutics
College of Pharmacy

• Program Type: Master's
• Requirements for this program are current for Fall 2022
• Length of program in credits: 30
• This program does not require summer semesters for timely completion.
• Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Pharmaceutics program offers emphases in physical pharmacy, biopharmaceutics, and pharmacokinetics.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.20.

Other requirements to be completed before admission: Undergraduate (and graduate, if applicable) scholastic records, a statement of career goals and research interests, and three letters of recommendation. A US grade point average of at least 3.2 on a 4.0 scale, or the equivalent from foreign institutions, is considered to be competitive.

International applicants must submit results from the TOEFL (with a preferred minimum 100 total score and 23 speaking score, and a required minimum 21 writing score and 19 reading score) or IELTS (with a required minimum 6.5 total score, 6.5 reading score, and 6.5 writing score, and a preferred 6.5 speaking score).

All of the above are collectively used to determine each candidate's admissibility. Fall admission is highly preferred and the deadline to apply is November 30.

International applicants must submit score(s) from one of the following tests:
• TOEFL
• IELTS

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Plan A: Plan A requires 14 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is oral.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 2.80 is required for students to remain in good standing.

Coursework offered on both the A-F and S/N grade basis must be taken A-F, with a minimum grade of B- earned for each.

Required Background:
Students must demonstrate sufficient background knowledge in Pharmacology. Equivalent coursework or previous experience, with approval of the program faculty, may be substituted in lieu of required background coursework.

Required Courses (8 credits)
Pharmaceutics Modules (4 credits)
Take the following courses:
- PHM 8210 - Pharmacokinetics Module (1.0 cr)
- PHM 8220 - Physical Pharmacy Module I (1.0 cr)
- PHM 8230 - Physical Pharmacy Module II (1.0 cr)
- PHM 8240 - Biopharmaceutics Module (1.0 cr)
Pharmaceutics 84xx Courses (4 credits)
Select one of the following courses in consultation with the advisor:
- PHM 8421 - Advanced Pharmacokinetics (4.0 cr)
- PHM 8431 - Controlled Drug and Gene Delivery: Materials, Mechanisms, and Models (4.0 cr)
- PHM 8441 - Solubility and Solid-State Properties of Drugs (4.0 cr)
- PHM 8481 - Advanced Neuropharmaceutics (4.0 cr)

Electives (6 credits)
Take at least 6 credits of electives in the major, which can include PHAR-designated courses noted below taken to satisfy the background knowledge requirement, or other PHAR- and PHM-designated coursework. All courses must be selected in consultation with the advisor.

Pharmacology Background
- PHAR 6726 - Principles of Pharmacology (2.3 cr)
- PHAR 6762 - Medicinal Chemistry and Neuropharmacology (2.8 cr)

Outside Coursework (6 credits)
Take at least 6 credits of coursework outside the major, which can include non-PHAR- and non-PHM-designated courses noted below taken to satisfy the background knowledge requirement, or other non-PHAR- and non-PHM-designated coursework. All courses must be selected in consultation with the advisor.

Pharmacology Background
- NSC 5461 - Cellular and Molecular Neuroscience (3.0 cr)
- PHCL 5110 - Introduction to Pharmacology (3.0 cr)

Thesis Credits
Take 10 master's thesis credits.
- PHM 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)
Twin Cities Campus
Pharmaceutics Minor
Graduate Studies in Pharmaceutics
College of Pharmacy

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 48
- This program requires summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Pharmaceutics program offers emphases in physical pharmacy, biopharmaceutics, and pharmacokinetics. Minor fields of particular value include biochemistry, biomedical engineering, biometry, chemistry, chemical engineering, mechanical engineering, molecular biology, pharmacology, and statistics.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.20.

Other requirements to be completed before admission:
Undergraduate (and graduate, if applicable) scholastic records, a statement of career goals and research interests, and three letters of recommendation. A US grade point average of at least 3.2 on a 4.0 scale, or the equivalent from foreign institutions, is considered to be competitive.

International applicants must submit results from the TOEFL (with a preferred minimum 100 total score and 23 speaking score, and a required minimum 21 writing score and 19 reading score) or IELTS (with a required minimum 6.5 total score, 6.5 reading score, and 6.5 writing score, and a preferred 6.5 speaking score).

All of the above are collectively used to determine each candidate's admissibility. Fall admission is highly preferred and the deadline to apply is November 30.

International applicants must submit score(s) from one of the following tests:
- TOEFL
- IELTS

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements
16 credits are required in the major.
8 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

Successful completion of program examinations and timely progress towards the degree are also required for students to remain in good standing.

Required Background:
Students must demonstrate sufficient background knowledge in each of the following areas: Pharmacy, Math, and Statistics. Equivalent coursework or previous experience, with approval of the program faculty, may be substituted in lieu of required background coursework.

Required Courses
Pharmaceutics Modules
- PHM 8210 - Pharmacokinetics Module (1.0 cr)
- PHM 8220 - Physical Pharmacy Module I (1.0 cr)
- PHM 8230 - Physical Pharmacy Module II (1.0 cr)
- PHM 8240 - Biopharmaceutics Module (1.0 cr)

Pharmaceutics Seminar
Register for 1 credit each semester in which presenting a seminar and for a total of 2 credits.
- PHM 8100 - Seminar: Pharmaceutics (1.0 cr)

Pharmaceutics Graduate Courses: 81xx
Take two courses for a total of 2 credits from the following list:
- PHM 8110 - Readings in Pharmaceutics (1.0 cr)
- PHM 8120 - Readings in Central Nervous System (CNS) Drug Delivery (1.0 cr)
- PHM 8150 - Pharmacokinetics Research Seminar (1.0 cr)

Pharmaceutics Graduate Courses: 84xx
Choose two courses from the following list for at least 8 credits:
- PHM 8421 - Advanced Pharmacokinetics (4.0 cr)
- PHM 8431 - Controlled Drug and Gene Delivery: Materials, Mechanisms, and Models (4.0 cr)
- PHM 8441 - Solubility and Solid-State Properties of Drugs (4.0 cr)
- PHM 8481 - Advanced Neuropharmaceutics (4.0 cr)

Outside Coursework
Take at least 8 credits of coursework outside the major, which can include non-PHAR- and non-PHM-designated courses noted below taken to satisfy the background knowledge requirement, or other non-PHAR- and non-PHM-designated coursework. All courses must be selected in consultation with the advisor.

Pharmacy Background
- PHCL 5110 - Introduction to Pharmacology (3.0 cr)

Math Background
- MATH 4512 - Differential Equations with Applications (3.0 cr)

Statistics Background
- PUBH 6450 - Biostatistics I (4.0 cr)
- STAT 5021 - Statistical Analysis (4.0 cr)
- STAT 5101 - Theory of Statistics I (4.0 cr)
- STAT 5102 - Theory of Statistics II (4.0 cr)
- STAT 5302 - Applied Regression Analysis (4.0 cr)
- STAT 5303 - Designing Experiments (4.0 cr)
- STAT 5401 - Applied Multivariate Methods (3.0 cr)

Thesis Credits
Take at least 24 doctoral thesis credits.
- PHM 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)
Twin Cities Campus
Social and Administrative Pharmacy M.S.
Pharmaceutical Care and Health
College of Pharmacy

Link to a list of faculty for this program.

Contact Information:
7-155 Weaver-Densford Hall, 308 Harvard Street S.E., Minneapolis, MN 55455 (612-624-2973; fax: 612-625-9931)
Email: cremi001@umn.edu
Website: http://z.umn.edu/saphgrad

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30 to 32
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Study within the Social and Administrative Pharmacy Program is tailored carefully to the specific needs and objectives of the student. It is a flexible, interdisciplinary program which utilizes all resources of the University's many outstanding departments in an effort to provide the student with knowledge and experience in areas she/he feels are applicable to the resolution of pharmacy-oriented problems.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Although the majority of students in the program are pharmacists, a pharmacy education is not required. A bachelor's degree or its foreign equivalent from a recognized college of pharmacy and a strong scholastic record are desirable. Individuals from other fields such as economics, engineering, computer science, medicine, psychology, sociology, or public health may be admitted if their undergraduate coursework satisfies the prerequisites for graduate coursework.

Special Application Requirements:
Applicants must complete a supplementary application form in addition to the University application. The supplementary form along with three letters of recommendation should be uploaded to the University's online application. GRE scores are required and a performance level of 580 (158 for November 1, 2011-June 30, 2012) is preferred on the TOEFL for all international applicants whose native language is not English.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Paper Based - Total Score: 550
- IELTS
  - Total Score: 6.5
- MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements

Plan A: Plan A requires 16 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is oral.

Plan B: Plan B requires 24 major credits and 6 credits outside the major. The final exam is oral. A capstone project is required.

Capstone Project: Plan B also requires two papers of publishable quality; one paper must include a research component with an analysis of data.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

Required Courses (16 credits)
All MS students must complete the following courses for 16 credits and take all courses for an A-F grade. Students are required to complete SAPH 8100 (1 credit) 2 times.

SAPH 5100 - Pro-Seminar (1.0 cr)
SAPH 8100 - Seminar (1.0 cr)
SAPH 8500 - Pharmacy and Its Environment (3.0 cr)
SAPH 8235 - Pharmaceutical Economics and Policy (3.0 cr)
SAPH 8420 - Social and Behavioral Aspects of Pharmacy Practice (3.0 cr)
STAT 5021 - Statistical Analysis (4.0 cr)

Outside Coursework (6 credits)
Select at least 6 credits outside the major, in consultation with the advisor.

Plan Options

Plan A
Plan A students must take at least 10 master's thesis credits.
SAPH 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

-OR-

Plan B
Plan B students must take at least 8 additional course credits, selected in consultation with the advisor, to complete the 30-credit minimum.
Twin Cities Campus
Social and Administrative Pharmacy Minor
Pharmaceutical Care and Health

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Students in the Social and Administrative Pharmacy Program are prepared for research and related activities investigating relationships between biological and physical factors in social settings that involve the drug use process. The flexible interdisciplinary program uses the resources of the many health and social science departments at the University, and may include courses and offerings from public health, geriatrics, management, sociology, psychology, and public affairs.

The program focuses on the discovery and dissemination of new knowledge to foster appropriate use of drugs to improve patient outcomes at the individual and societal level. Students are educated and mentored to become professional scientists. Those who complete the program will understand the process of conducting high-quality research and problem solving through the application of disciplinary and interdisciplinary knowledge, theory, and research methodology.

Social and administrative pharmacy (SAPH) is the application of behavior-oriented interdisciplinary theories to pharmacy problem solving and pharmacy system development. This includes the study of the social, psychosocial, political, legal, public policy, historic, and economic factors that impinge upon the use, non-use, and abuse of drugs.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

In addition to coursework, a written examination is required.

Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Masters
Required Courses (6 credits)
Courses must be selected in consultation with the minor field director of graduate studies.
Take exactly 2 course(s) from the following:
- SAPH 8235 - Pharmaceutical Economics and Policy (3.0 cr)
- SAPH 8420 - Social and Behavioral Aspects of Pharmacy Practice (3.0 cr)
Doctoral

Required Courses (9 credits)
Courses must be selected in consultation with the minor field director of graduate studies.
Take exactly 3 course(s) from the following:
• SAPH 8235 - Pharmaceutical Economics and Policy (3.0 cr)
• SAPH 8420 - Social and Behavioral Aspects of Pharmacy Practice (3.0 cr)
• SAPH 8500 - Pharmacy and Its Environment (3.0 cr)

Elective (3 credits)
Courses must be selected in consultation with the minor field director of graduate studies.
SAPH 8255 - Pharmaceutical Marketing (3.0 cr)
or SAPH 8610 - Pharmacoepidemiology (3.0 cr)
or SAPH 8810 - Social Psychology of Health Care (3.0 cr)
or SAPH 8840 - Social Measurement (3.0 cr)

Program Requirements
35 credits are required in the major.
12 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

Required Courses (23 credits)
All PhD students must complete the following courses for 23 credits and take all courses for an A-F grade. Students are required to complete SAPH 8100 (1 credit) 8 times.

- SAPH 5100 - Pro-Seminar (1.0 cr)
- SAPH 8100 - Seminar (1.0 cr)
- SAPH 8173 - Principles and Methods of Implementing Research (3.0 cr)
- SAPH 8235 - Pharmaceutical Economics and Policy (3.0 cr)
- SAPH 8420 - Social and Behavioral Aspects of Pharmacy Practice (3.0 cr)
- SAPH 8500 - Pharmacy and Its Environment (3.0 cr)
- PUBH 6806 - Principles of Public Health Research (2.0 cr)

Statistics Requirement (6 - 8 credits)
Take at least 2 of the following courses or equivalent statistics courses selected in consultation with the advisor.

Take 6 - 8 credit(s) from the following:
- STAT 5021 - Statistical Analysis (4.0 cr)
- STAT 5302 - Applied Regression Analysis (4.0 cr)
- EPSY 8251 - Statistical Methods in Education I (3.0 cr)
- EPSY 8252 - Statistical Methods in Education II (3.0 cr)
- PUBH 6450 - Biostatistics I (4.0 cr)
- PUBH 6451 - Biostatistics II (4.0 cr)

Electives (6 credits)
Take 6 or more credit(s) from the following:
- SAPH 8054 - Advanced Studies in Pharmaceutical Care Practice (3.0 cr)
- SAPH 8200 - Research Problems (1.0 - 8.0 cr)
- SAPH 8255 - Pharmaceutical Marketing (3.0 cr)
- SAPH 8610 - Pharmacoeconomics (3.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The graduate program in Aerospace Engineering and Mechanics emphasizes engineering sciences basic to fluid mechanics, aerospace systems, and solid mechanics. Theoretical, analytical, experimental, and computational aspects of these fields are covered by the courses and research opportunities offered by the department.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.20.

A four-year BS degree in an engineering, basic science, or mathematics program is required.

Other requirements to be completed before admission:
Admission depends primarily on the applicant's undergraduate record and letters of recommendation.

Special Application Requirements:
Students are admitted fall semester only, with exceptions made only in unusual circumstances.

The application deadline to be considered for financial aid is December 15.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5
- MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Plan A: Plan A requires 14 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is oral.
Plan B: Plan B requires 14 to 24 major credits and 6 to 16 credits outside the major. The final exam is oral. A capstone project is required.

Capstone Project: The Plan B project (AEM 8880; 3 credits) is completed in consultation with the advisor. The project and its results are the topic of the final oral examination.

Plan C: Plan C requires 14 to 24 major credits and 6 to 16 credits outside the major. There is no final exam.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 2.80 is required for students to remain in good standing.

Students can apply a maximum of eight 4000-level course credits to degree requirements.

A maximum of four seminar credits with no more than two from AEM 8000 can be applied to degree requirements.

Plan A students can apply a maximum of six credits, and Plan B and Plan C students a maximum of eight credits, of S/N-graded coursework toward degree requirements.

Required Seminar (2 credits)
Take 2 credits of the following in consultation with the advisor:

- **AEM 8000** - Seminar: Aerospace Engineering and Mechanics (1.0 cr)

Major Coursework (9 to 22 credits)
Plan A and Plan C students select at least 12 credits, and Plan B students select at least 9 credits from the following in consultation with the advisor:

- **AEM 4305** - Spacecraft Attitude Dynamics and Control (3.0 cr)
- **AEM 4321** - Automatic Control Systems (3.0 cr)
- **AEM 5247** - Hypersonic Aerodynamics (3.0 cr)
- **AEM 5253** - Computational Fluid Mechanics (3.0 cr)
- **AEM 5321** - Modern Feedback Control (3.0 cr)
- **AEM 5333** - Design-to-Flight: Small Uninhabited Aerial Vehicles (3.0 cr)
- **AEM 5401** - Intermediate Dynamics (3.0 cr)
- **AEM 5451** - Optimal Estimation (3.0 cr)
- **AEM 5501** - Continuum Mechanics (3.0 cr)
- **AEM 5503** - Theory of Elasticity (3.0 cr)
- **AEM 5581** - Mechanics of Solids (3.0 cr)
- **AEM 5651** - Aeroelasticity (3.0 cr)
- **AEM 8201** - Fluid Mechanics I (3.0 cr)
- **AEM 8202** - Fluid Mechanics II (3.0 cr)
- **AEM 8203** - Fluid Mechanics III (3.0 cr)
- **AEM 8207** - Hydrodynamic Stability (3.0 cr)
- **AEM 8211** - Theory of Turbulence I (3.0 cr)
- **AEM 8212** - Theory of Turbulence II (3.0 cr)
- **AEM 8213** - Turbulent Shear Flows (3.0 cr)
- **AEM 8221** - Rheological Fluid Mechanics (3.0 cr)
- **AEM 8231** - Molecular Gas Dynamics (3.0 cr)
- **AEM 8232** - Physical Gas Dynamics and Molecular Simulation (3.0 cr)
- **AEM 8241** - Perturbation Methods in Fluid Mechanics (3.0 cr)
- **AEM 8251** - Finite-Volume Methods in Computational Fluid Dynamics (3.0 cr)
- **AEM 8253** - Computational Methods in Fluid Mechanics (3.0 cr)
- **AEM 8261** - Nonlinear Waves in Mechanics (3.0 cr)
- **AEM 8271** - Experimental Methods in Fluid Mechanics (3.0 cr)
- **AEM 8400** - Seminar: Aerospace Systems (1.0 cr)
- **AEM 8411** - Advanced Dynamics (3.0 cr)
- **AEM 8421** - Robust Multivariable Control Design (3.0 cr)
- **AEM 8423** - Convex Optimization Methods in Control (3.0 cr)
- **AEM 8426** - Optimization and System Sciences (3.0 cr)
- **AEM 8442** - Aerospace Positioning, Navigation and Timing (3.0 cr)
- **AEM 8451** - System Identification: Theory and Applications (3.0 cr)
- **AEM 8453** - Model Reduction and Approximation of Dynamical Systems (3.0 cr)
AEM 8500 - Research Seminar in Mechanics of Materials (1.0 cr)
AEM 8523 - Elastodynamics (3.0 cr)
AEM 8525 - Elastic Stability of Materials (3.0 cr)
AEM 8527 - Pattern Formation and Bifurcation in Materials (3.0 cr)
AEM 8531 - Fracture Mechanics (3.0 cr)
AEM 8533 - Theory of Plasticity (3.0 cr)
AEM 8541 - Mechanics of Crystalline Solids (3.0 cr)
AEM 8551 - Multiscale Methods for Bridging Length and Time Scales (3.0 cr)

Outside Coursework (6 to 16 credits)
Plan A students select at 6 credits to complete the 20 course credits required. Plan B and C students select 6 to 16 credits as needed to complete the 30-credit minimum. Courses are selected in consultation with the advisor.

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The graduate program emphasizes engineering sciences that are basic to fluid mechanics, aerospace systems, and solid mechanics. Theoretical, analytical, experimental, and computational aspects of these fields are covered by the courses and research opportunities offered by the department.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Aerospace Engineering and Mechanics director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Courses must be taken under the AEM course designator to be counted towards a minor.

Courses must be taken on the A-F grade basis, unless only offered S/N.

The minimum cumulative GPA for the minor is 3.00.

Coursework (6 to 12 credits)
Master’s students select 6 credits, and doctoral students select 12 credits from the following in consultation with the Aerospace Engineering and Mechanics director of graduate studies. Other courses can be applied to the minor with approval by the Aerospace Engineering and Mechanics director of graduate studies.

- AEM 5247 - Hypersonic Aerodynamics (3.0 cr)
- AEM 5253 - Computational Fluid Mechanics (3.0 cr)
- AEM 5321 - Modern Feedback Control (3.0 cr)
- AEM 5333 - Design-to-Flight: Small Uninhabited Aerial Vehicles (3.0 cr)
- AEM 5401 - Intermediate Dynamics (3.0 cr)
- AEM 5451 - Optimal Estimation (3.0 cr)
- AEM 5501 - Continuum Mechanics (3.0 cr)
AEM 5503 - Theory of Elasticity (3.0 cr)
AEM 5581 - Mechanics of Solids (3.0 cr)
AEM 5651 - Aeroelasticity (3.0 cr)
AEM 8201 - Fluid Mechanics I (3.0 cr)
AEM 8202 - Fluid Mechanics II (3.0 cr)
AEM 8203 - Fluid Mechanics III (3.0 cr)
AEM 8207 - Hydrodynamic Stability (3.0 cr)
AEM 8211 - Theory of Turbulence I (3.0 cr)
AEM 8212 - Theory of Turbulence II (3.0 cr)
AEM 8213 - Turbulent Shear Flows (3.0 cr)
AEM 8221 - Rheological Fluid Mechanics (3.0 cr)
AEM 8231 - Molecular Gas Dynamics (3.0 cr)
AEM 8232 - Physical Gas Dynamics and Molecular Simulation (3.0 cr)
AEM 8241 - Perturbation Methods in Fluid Mechanics (3.0 cr)
AEM 8251 - Finite-Volume Methods in Computational Fluid Dynamics (3.0 cr)
AEM 8253 - Computational Methods in Fluid Mechanics (3.0 cr)
AEM 8261 - Nonlinear Waves in Mechanics (3.0 cr)
AEM 8271 - Experimental Methods in Fluid Mechanics (3.0 cr)
AEM 8411 - Advanced Dynamics (3.0 cr)
AEM 8421 - Robust Multivariable Control Design (3.0 cr)
AEM 8423 - Convex Optimization Methods in Control (3.0 cr)
AEM 8426 - Optimization and System Sciences (3.0 cr)
AEM 8442 - Aerospace Positioning, Navigation and Timing (3.0 cr)
AEM 8451 - System Identification: Theory and Applications (3.0 cr)
AEM 8453 - Model Reduction and Approximation of Dynamical Systems (3.0 cr)
AEM 8523 - Elastodynamics (3.0 cr)
AEM 8525 - Elastic Stability of Materials (3.0 cr)
AEM 8527 - Pattern Formation and Bifurcation in Materials (3.0 cr)
AEM 8531 - Fracture Mechanics (3.0 cr)
AEM 8533 - Theory of Plasticity (3.0 cr)
AEM 8541 - Mechanics of Crystalline Solids (3.0 cr)
AEM 8551 - Multiscale Methods for Bridging Length and Time Scales (3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Twin Cities Campus
Aerospace Engineering and Mechanics Ph.D.
Aerospace Engineering & Mechanics
College of Science and Engineering

Link to a list of faculty for this program.

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 66
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Department of Aerospace Engineering and Mechanics offers a PhD degree program which emphasizes engineering sciences basic to fluid mechanics, aerospace systems, and solid mechanics. Theoretical, analytical, experimental, and computational aspects of these fields are covered by the courses and research opportunities offered by the department.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.20.

A four-year BS degree in an engineering, basic science, or mathematics program is required.

Other requirements to be completed before admission:
Admission depends primarily on the applicant's undergraduate record, personal statement, and letters of recommendation.

Special Application Requirements:
Students are admitted fall semester only, with exceptions made only in unusual circumstances.

The application deadline to be considered for financial aid via the department is December 15.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5
- MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
12 to 30 credits are required in the major.
12 to 30 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.0 is required for students to remain in good standing.

Students can apply a maximum of eight 4000-level course credits and 13 S/N-graded course credits to degree requirements.

A maximum of 6 semester credits, with no more than four from AEM 8000, can be applied to degree requirements.

Required Courses (4 credits)

Take 4 credits of the following in consultation with the advisor:

AEM 8000 - Seminar: Aerospace Engineering and Mechanics (1.0 cr)

Major Coursework (8 to 26 credits)

Select at least 8 credits in consultation with the advisor to meet the 12-credit minimum for the major field. Additional credits can be applied to the major with advisor approval.

AEM 4305 - Spacecraft Attitude Dynamics and Control (3.0 cr)
AEM 4321 - Automatic Control Systems (3.0 cr)
AEM 5247 - Hypersonic Aerodynamics (3.0 cr)
AEM 5253 - Computational Fluid Mechanics (3.0 cr)
AEM 5321 - Modern Feedback Control (3.0 cr)
AEM 5333 - Design-to-Flight: Small Uninhabited Aerial Vehicles (3.0 cr)
AEM 5401 - Intermediate Dynamics (3.0 cr)
AEM 5451 - Optimal Estimation (3.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Astrophysics graduate program does not accept applications directly to the MS; rather, the MS is an additional or alternative credential for students admitted to the Astrophysics PhD program.

Astrophysics is the study of the universe and its constituent parts. The Minnesota Institute for Astrophysics conducts research in observational, theoretical, and computational astrophysics, as well as instrument development. The main research areas include minor planetary bodies, solar system properties, dynamics of normal and active galaxies, stellar evolution, interaction of stars with their environments, the interstellar medium, astrophysical magnetohydrodynamics, and galactic and cosmological structure. Observational research includes activities that cover X-ray, ultraviolet, optical, infrared, and radio wavelengths. Extensive research programs in space physics, nucleosynthesis, and the elementary particle-cosmology interface are also carried out in interdisciplinary connections with the graduate program in physics.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
The Astrophysics graduate program does not accept applications directly to the MS; rather, the MS is an additional or alternative credential for students admitted to the Astrophysics PhD program.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Plan A: Plan A requires 14 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is oral.

Plan B: Plan B requires 14 to 24 major credits and 6 to 16 credits outside the major. The final exam is oral. A capstone project is required.
Capstone Project: The Plan B project comprises one to three papers written in connection with three program courses in consultation with the advisor.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 2.8 is required for students to remain in good standing.
Courses must be taken on the A-F grade basis, unless only offered S/N, with a minimum grade of C earned for each course.

Approval by the advisor and director of graduate studies is required for use of 4000-level courses (with a maximum of 9 units at the 4000 level). Courses taken without prior approval by the advisor and director of graduate studies may not count toward the degree.

Required Courses (8 credits)
Take the following courses:
PHYS 5011 - Classical Physics I (4.0 cr)
PHYS 5012 - Classical Physics II (4.0 cr)

Electives (6 to 16 credits)
Plan A students select 6 credits, and Plan B students select 6 to 16 credits from the following in consultation with the advisor:
AST 4001 - Astrophysics I (4.0 cr)
AST 4002 - Astrophysics II (4.0 cr)
AST 4031 - Interpretation and Analysis of Astrophysical Data (4.0 cr)
AST 4041 - Computational Methods in the Physical Sciences (4.0 cr)
AST 5012 - The Interstellar Medium (4.0 cr)
AST 5022 - Relativity, Cosmology, and the Universe (4.0 cr)
AST 5201 - Methods of Experimental Astrophysics (4.0 cr)
AST 8001 - Radiative Processes in Astrophysics (4.0 cr)
AST 8011 - High Energy Astrophysics (4.0 cr)
AST 8031 - Astrophysical Fluid Dynamics (4.0 cr)
AST 8110 - Topics in Astrophysics (4.0 cr)
AST 8120 - Topics in Astrophysics (4.0 cr)
AST 8200 - Astrophysics Seminar (1.0 - 3.0 cr)
AST 8990 - Research in Astronomy and Astrophysics (1.0 - 4.0 cr)

Outside Coursework (6-16 credits)
Plan A students select 6 credits, and Plan B students select 6 to 16 credits from the following in consultation with the advisor. Other courses can be chosen with advisor and director of graduate studies approval.
AEM 5501 - Continuum Mechanics (3.0 cr)
GRAD 8101 - Teaching in Higher Education (3.0 cr)
GRAD 8200 - Teaching and Learning Topics in Higher Education (1.0 cr)
MATH 5651 - Basic Theory of Probability and Statistics (4.0 cr)
PHYS 5001 - Quantum Mechanics I (4.0 cr)
PHYS 5002 - Quantum Mechanics II (4.0 cr)
PHYS 8011 - Quantum Field Theory I (3.0 cr)
PHYS 8012 - Quantum Field Theory II (3.0 cr)
PHYS 8501 - General Relativity and Cosmology I (3.0 cr)
PHYS 8502 - General Relativity and Cosmology II (3.0 cr)

PHYS 8602 - Plasma Physics II (3.0 cr)
PHYS 8611 - Cosmic Rays and Plasma Astrophysics (3.0 cr)
PHYS 8801 - Nuclear Physics I (3.0 cr)
PHYS 8802 - Nuclear Physics II (3.0 cr)

Plan Options

Plan A
Thesis Credits
Take 10 master's thesis credits.
AST 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)
Twin Cities Campus
Astrophysics Minor
Astrophysics, Minnesota Institute for
College of Science and Engineering

Link to a list of faculty for this program.

Contact Information:
Minnesota Institute for Astrophysics, 130 Tate Hall, 116 Church Street S.E., Minneapolis, MN 55455 (612-624-4811; fax: 612-626-2029)
Email: MIfA@umn.edu
Website: https://cse.umn.edu/mifa

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 8
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Astrophysics is the study of the universe and its constituent parts. The Minnesota Institute for Astrophysics conducts research in observational, theoretical, and computational astrophysics, as well as instrument development. The main research areas include minor planetary bodies, solar system properties, dynamics of normal and active galaxies, stellar evolution, interaction of stars with their environments, the interstellar medium, astrophysical magnetohydrodynamics, and galactic and cosmological structure. Observational research includes activities that cover X-ray, ultraviolet, optical, infrared, and radio wavelengths. Extensive research programs in space physics, nucleosynthesis, and the elementary particle-cosmology interface are also carried out in interdisciplinary connections with the graduate program in physics.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Other requirements to be completed before admission:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Astrophysics director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Courses must be taken on the A-F grade basis, unless only offered S/N, with a minimum grade of C earned for each course.

Approval by the advisor and director of graduate studies is required for use of 4000-level courses (with a maximum of 9 units at the 4000 level). Courses taken without prior approval by the advisor and director of graduate studies may not count toward the degree.

The minimum cumulative GPA for the minor is 3.00.

Coursework Requirements 8-12 credits)
Master's students select a minimum of 8 credits, and doctoral students select a minimum of 12 credits in consultation with the Astrophysics director of graduate studies.

AST 4001 - Astrophysics I (4.0 cr)
AST 4002 - Astrophysics II (4.0 cr)
AST 4031 - Interpretation and Analysis of Astrophysical Data (4.0 cr)
AST 4041 - Computational Methods in the Physical Sciences (4.0 cr)
AST 5012 - The Interstellar Medium (4.0 cr)
AST 5022 - Relativity, Cosmology, and the Universe (4.0 cr)
AST 5201 - Methods of Experimental Astrophysics (4.0 cr)
AST 8001 - Radiative Processes in Astrophysics (4.0 cr)
AST 8011 - High Energy Astrophysics (4.0 cr)
AST 8031 - Astrophysical Fluid Dynamics (4.0 cr)
AST 8110 - Topics in Astrophysics (4.0 cr)
AST 8120 - Topics in Astrophysics (4.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Twin Cities Campus
Astrophysics Ph.D.
Astrophysics, Minnesota Institute for
College of Science and Engineering

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 64
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Astrophysics is the study of the universe and its constituent parts. The Minnesota Institute for Astrophysics conducts research in observational, theoretical, and computational astrophysics, as well as instrument development. The main research areas include minor planetary bodies, solar system properties, dynamics of normal and active galaxies, stellar evolution, interaction of stars with their environments, the interstellar medium, astrophysical magnetohydrodynamics, and galactic and cosmological structure. Observational research includes activities that cover X-ray, ultraviolet, optical, infrared, and radio wavelengths. Extensive research programs in space physics, nucleosynthesis, and the elementary particle-cosmology interface are also carried out in interdisciplinary connections with the graduate program in physics.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.50.

An undergraduate astronomy, physics or equivalent degree is required.

Other requirements to be completed before admission:
Coursework in analytical mechanics, electrodynamics, quantum mechanics, thermodynamics, and statistical physics.

Special Application Requirements:
A statement of career goals, diversity statement, scores from the GRE General Test (required) and Subject Test in physics (optional), and three letters of recommendation. Applications are due by December 15 to be considered for fellowships and by January 15 for teaching and research assistantships. Students are admitted fall semester only.

Applicants must submit their test score(s) from the following:
- GRE

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5
- MELAB
  - Final score: 80

The preferred English language test is Test of English as Foreign Language.
Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
28 credits are required in the major.
12 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.0 is required for students to remain in good standing.

Courses must be taken on the A-F grade basis, unless only offered S/N, with a minimum grade of C earned for each course.

Approval by the advisor and director of graduate studies is required for use of 4000-level courses (with a maximum of 9 units at the 4000 level). Courses taken without prior approval by the advisor and director of graduate studies may not count toward the degree.

Required Courses (8 credits)
Take the following courses:
- PHYS 5011 - Classical Physics I (4.0 cr)
- PHYS 5012 - Classical Physics II (4.0 cr)

Electives (20 credits)
Select 20 credits from the following in consultation with the advisor:
- AST 4001 - Astrophysics I (4.0 cr)
- AST 4002 - Astrophysics II (4.0 cr)
- AST 4031 - Interpretation and Analysis of Astrophysical Data (4.0 cr)
- AST 4041 - Computational Methods in the Physical Sciences (4.0 cr)
- AST 5012 - The Interstellar Medium (4.0 cr)
- AST 5022 - Relativity, Cosmology, and the Universe (4.0 cr)
- AST 5201 - Methods of Experimental Astrophysics (4.0 cr)
- AST 5001 - Radiative Processes in Astrophysics (4.0 cr)
- AST 8011 - High Energy Astrophysics (4.0 cr)
- AST 8031 - Astrophysical Fluid Dynamics (4.0 cr)
- AST 8110 - Topics in Astrophysics (4.0 cr)
- AST 8120 - Topics in Astrophysics (4.0 cr)
- AST 8200 - Astrophysics Seminar (1.0 - 3.0 cr)
- AST 8990 - Research in Astronomy and Astrophysics (1.0 - 4.0 cr)

Outside Coursework (12 credits)
Select 12 credits from the following in consultation with the advisor. Other courses may be chosen with advisor and director of graduate studies approval.
- AEM 5501 - Continuum Mechanics (3.0 cr)
- GRAD 8101 - Teaching in Higher Education (3.0 cr)
- GRAD 8200 - Teaching and Learning Topics in Higher Education (1.0 cr)
- MATH 5651 - Basic Theory of Probability and Statistics (4.0 cr)
- PHYS 5001 - Quantum Mechanics I (4.0 cr)
- PHYS 5002 - Quantum Mechanics II (4.0 cr)
- PHYS 8011 - Quantum Field Theory I (3.0 cr)
- PHYS 8012 - Quantum Field Theory II (3.0 cr)
- PHYS 8501 - General Relativity and Cosmology I (3.0 cr)
- PHYS 8502 - General Relativity and Cosmology II (3.0 cr)
- PHYS 8601 - Plasma Physics I (3.0 cr)
- PHYS 8602 - Plasma Physics II (3.0 cr)
- PHYS 8611 - Cosmic Rays and Plasma Astrophysics (3.0 cr)
- PHYS 8801 - Nuclear Physics I (3.0 cr)
- PHYS 8802 - Nuclear Physics II (3.0 cr)
Thesis Credits (24 credits)
Take 24 doctoral thesis credits after passing preliminary oral exam.
AST 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)
Twin Cities Campus
Bioinformatics and Computational Biology M S
R Bioscience/Biotechnology
College of Science and Engineering

Link to a list of faculty for this program.

Contact Information:
Bioinformatics and Computational Biology, 300 University Square, 111 South Broadway, Rochester, MN 55904 (507-258-8006; fax: 507-258-8066)
Email: biecgrad@umn.edu
Website: https://r.umn.edu/academics-research/graduate/bicb

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- The Bioinformatics and Computational Biology Program is an all-University program delivered on the Rochester and Twin Cities campuses. The University of Minnesota Twin Cities is the degree-granting authority for delivery of the Bioinformatics and Computational Biology Program.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Bioinformatics and Computational Biology (BICB) program offers a curriculum individualized to fit the student's interests, research direction, and professional goals. Students receive training in ethics, leadership, and management, including legal and intellectual property issues and entrepreneurship. Those interested in academic careers have the opportunity to participate in development programs that focus on aspects of teaching and learning.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The program expects incoming graduate students to have a strong background in the quantitative sciences and varied backgrounds in the life/health sciences.

The expected competencies of incoming students may be demonstrated by coursework completed at the undergraduate level or by informal competency examinations.

Other requirements to be completed before admission:
In addition to completing the online application form, applicants must submit 1) a personal statement, normally 2 to 3 pages, which describes past experiences and career aspirations, and reasons for pursuing graduate studies in bioinformatics and computational biology; and 2) a diversity statement that describes past experiences and future plans that would enable the applicant to contribute to the diversity of the graduate program and the University. Applicants should also indicate names of the BICB graduate faculty whose interests overlap their own.

Special Application Requirements:
Applications are accepted throughout the year for fall, spring, or summer. Three letters of recommendation and scores from the General Test of the GRE are required. GRE scores may be waived for students with significant work or academic experience.

Applicants must submit their test score(s) from the following:
- GRE

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
Program Requirements

Plan A: Plan A requires 20 major credits, 0 credits outside the major, and 10 thesis credits. The final exam is oral.

Plan B: Plan B requires 30 major credits and 0 credits outside the major. The final exam is oral. A capstone project is required.

Capstone Project: Plan B students complete an experiential project under the direction of a faculty member. One to three written reports or projects, totaling approximately 120 hours of independent work, are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.0 is required for students to remain in good standing.

Approval by the director of graduate studies is required for use of 4xxx courses. A maximum of one 4xxx-level course of 4 credits or less may be applied to degree requirements.

Required Coursework (7 credits)

Major Courses (6 credits)
Take the following courses. Take BICB 8930 twice for 2 credits.

- BICB 8510 - Computation and Biology (2.0 cr) [A-F] (Rochester campus)
- BICB 8920 - BICB Colloquium (1.0 cr) (Rochester campus)
- BICB 8930 - BICB Journal Club (1.0 cr) (Rochester campus)
- BICB 8970 - Entrepreneurship and Leadership Seminar (1.0 cr) (Rochester campus)

Ethics Course (1 credit)
Select one of the following in consultation with the adviser:

- BICB 8401 - Ethics in Bioinformatics and Computational Biology (1 cr) [SNV] (Rochester campus)
- BIOC 5216 - Current Topics in Signal Transduction (2.0 cr)
- BIOC 5309 - Biocatalysis and Biodegradation (3.0 cr)
- BIOC 5351 - Protein Engineering (3.0 cr)
- BIOC 5361 - Microbial Genomics and Bioinformatics (3.0 cr)
- BIOC 5444 - Muscle (3.0 cr)
- BIOC 5528 - Spectroscopy and Kinetics (4.0 cr)
- BIOC 6021 - Biochemistry (3.0 cr)
- BIOC 8005 - Biochemistry: Structure and Catalysis (2.0 cr)

Core Courses (9 credits)
Select a minimum of one course from each of the three core areas. A total of 9 credits is required. Other courses may be applied to this requirement with director of graduate studies approval.

Biochemistry, Genetics, Molecular Cell Biology and Physiology
Select at least one course from the following in consultation with the advisor:

- AGRO 5021 - Plant Breeding Principles (3.0 cr)
- AGRO 5121 - Applied Experimental Design (4.0 cr)
- AGRO 5311 - Research Methods in Crop Improvement and Production (1.0 cr)
- BIOC 5216 - Current Topics in Signal Transduction (2.0 cr)
- BIOC 5309 - Biocatalysis and Biodegradation (3.0 cr)
- BIOC 5351 - Protein Engineering (3.0 cr)
- BIOC 5352 - Biotechnology and Bioengineering for Biochemists (3.0 cr)
- BIOC 5361 - Microbial Genomics and Bioinformatics (3.0 cr)
- BIOC 5444 - Muscle (3.0 cr)
- BIOC 5528 - Spectroscopy and Kinetics (4.0 cr)
- BIOC 6021 - Biochemistry (3.0 cr)
- BIOC 8005 - Biochemistry: Structure and Catalysis (2.0 cr)

**Computer Science, Informatics, Computational Biology and System Biology**

Select at least one course from the following in consultation with the advisor:

- BMEN 4013 - CAD of Biomechanical/transport Devices (1.0 cr)
- CHEN 8754 - Systems Analysis of Biological Processes (3.0 cr)
- CSCI 4041 - Algorithms and Data Structures (4.0 cr)
- CSCI 5066 - Programming Languages (3.0 cr)
- CSCI 5111 - User Interface Design, Implementation and Evaluation (3.0 cr)
- CSCI 5161 - Introduction to Compilers (3.0 cr)
- CSCI 5204 - Advanced Computer Architecture (3.0 cr)
- CSCI 5302 - Analysis of Numerical Algorithms (3.0 cr)
- CSCI 5421 - Advanced Algorithms and Data Structures (3.0 cr)
- CSCI 5451 - Introduction to Parallel Computing: Architectures, Algorithms, and Programming (3.0 cr)
- CSCI 5461 - Functional Genomics, Systems Biology, and Bioinformatics (3.0 cr)
- CSCI 5465 - Introduction to Computing for Biologists (3.0 cr)
- CSCI 5481 - Computational Techniques for Genomics (3.0 cr)
- CSCI 5511 - Artificial Intelligence I (3.0 cr)
- CSCI 5512 - Artificial Intelligence II (3.0 cr)
- CSCI 5521 - Machine Learning Fundamentals (3.0 cr)
- CSCI 5522 - Introduction to Data Mining (3.0 cr)
- CSCI 5525 - Machine Learning: Analysis and Methods (3.0 cr)
- CSCI 5561 - Computer Vision (3.0 cr)
- CSCI 5609 - Visualization (3.0 cr)
Electives

Plan A students select credits to complete the 20 course credits required, and Plan B students select credits to meet the 30-credit minimum. Courses are selected in consultation with the advisor. Courses other than those listed below can be chosen with director of graduate studies approval.

AGRO 5021 - Plant Breeding Principles (3.0 cr)
AGRO 5121 - Applied Experimental Design (4.0 cr)
AGRO 5311 - Research Methods in Crop Improvement and Production (1.0 cr)
BICB 5620 Topics in BICB 0.50 - 4.00 credits [OPT] (Rochester campus)
BICB 8620 Topics in BICB 0.50 - 4.00 credits [OPT] (Rochester campus)
BICB 8670 Topics in Management 0.50 - 4.0 credits [OPT] (Rochester campus)
BICB 8932 - Proposal Writing Seminar (1 cr) (Rochester campus)
BICB 8940 Education and Pedagogy Seminar - 1 credit [S-N] (Rochester campus)
BICB 8960 Internship I - 1 - 6 credits [S-N] (Rochester campus)
BICB 8990 Seminar on Special Topics - 1 credit [OPT] (Rochester campus)
BICB 8991 Independent Study - 1 - 2 credits [S-N] (Rochester campus)
BICB 8994 Directed Research I - 1 - 3 credits [S-N] (Rochester campus)
BIOC 5002 - Critical Evaluation of Biochemistry Research (1.0 cr)
BIOC 5216 - Current Topics in Signal Transduction (2.0 cr)
BIOC 5309 - Biocatalysis and Biodegradation (3.0 cr)
BIOC 5351 - Protein Engineering (3.0 cr)
BIOC 5352 - Biotechnology and Bioengineering for Biochemists (3.0 cr)
BIOC 5361 - Microbial Genomics and Bioinformatics (3.0 cr)
BIOC 5444 - Muscle (3.0 cr)
BIOC 5528 - Spectroscopy and Kinetics (4.0 cr)
BIOC 6021 - Biochemistry (3.0 cr)
BIOC 8005 - Biochemistry: Structure and Catalysis (2.0 cr)
BIOC 8006 - Biochemistry: Metabolism and Control (2.0 cr)
BIOC 8007 - Molecular Biology of the Genome (2.0 cr)
BIOC 8008 - Molecular Biology of the Transcriptome (2.0 cr)
BIOC 8084 - Research and Literature Reports (1.0 cr)
BIOC 8102 - Hot Topics in the Biology of Aging (1.0 cr)
BIOC 8184 - Graduate Seminar (1.0 cr)
BIOL 4003 - Genetics (3.0 cr)
BIOL 5272 - Applied Biostatistics (4.0 cr)
BIOL 5950 - Special Topics (1.0 - 4.0 cr)
BIOL 8100 - Improvisation for Scientists (1.0 cr)
BMEN 4013 - CAD of Biomechanical/transport Devices (1.0 cr)
BMEN 5001 - Advanced Biomaterials (3.0 cr)
BMEN 5041 - Tissue Engineering (3.0 cr)
BMEN 5101 - Advanced Bioelectricity and Instrumentation (3.0 cr)
BMEN 5111 - Biomedical Ultrasound (3.0 cr)
BMEN 5201 - Advanced Biomechanics (3.0 cr)
BMEN 5311 - Advanced Biomedical Transport Processes (3.0 cr)
BMEN 5321 - Microfluidics in Biology and Medicine (3.0 cr)
BMEN 5351 - Cell Engineering (3.0 cr)
BMEN 5411 - Neural Engineering (3.0 cr)
BMEN 5412 - Neuromodulation (3.0 cr)
BMEN 5413 - Neural Decoding and Interfacing (3.0 cr)
BMEN 5501 - Biology for Biomedical Engineers (3.0 cr)
BMEN 5701 - Cancer Bioengineering (3.0 cr)
BMEN 8101 - Biomedical Digital Signal Processing (3.0 cr)
BMEN 8431 - Controlled Drug and Gene Delivery: Materials, Mechanisms, and Models (4.0 cr)
CHEM 5210 - Materials Characterization (4.0 cr)
CHEM 5755 - X-Ray Crystallography (4.0 cr)
CHEM 8011 - Mechanisms of Chemical Reactions (4.0 cr)
CHEM 8021 - Computational Chemistry (4.0 cr)
CHEM 8152 - Analytical Spectroscopy (4.0 cr)
CHEM 8157 - Bioanalytical Chemistry (4.0 cr)
CHEM 8411 - Introduction to Chemical Biology (4.0 cr)
CHEM 8412 - Chemical Biology of Enzymes (4.0 cr)
CHEM 8413 - Nucleic Acids (4.0 cr)
CHEM 8541 - Dynamics (4.0 cr)
CHEM 8551 - Quantum Mechanics I (4.0 cr)
CHEM 8552 - Quantum Mechanics II (2.0 cr)
CHEM 8561 - Thermodynamics, Statistical Mechanics, and Reaction Dynamics I (4.0 cr)
CHEM 8565 - Chemical Reaction Dynamics (2.0 cr)
CHEN 8754 - Systems Analysis of Biological Processes (3.0 cr)
CMB 5912 - Creativity (1.0 cr)
CMB 8208 - Neuropsychopharmacology (3.0 cr)
CSCI 4041 - Algorithms and Data Structures (4.0 cr)
CSCI 5115 - User Interface Design, Implementation and Evaluation (3.0 cr)
CSCI 5161 - Introduction to Compilers (3.0 cr)
CSCI 5302 - Analysis of Numerical Algorithms (3.0 cr)
CSCI 5304 - Computational Aspects of Matrix Theory (3.0 cr)
CSCI 5421 - Advanced Algorithms and Data Structures (3.0 cr)
CSCI 5451 - Introduction to Parallel Computing: Architectures, Algorithms, and Programming (3.0 cr)
CSCI 5461 - Functional Genomics, Systems Biology, and Bioinformatics (3.0 cr)
CSCI 5465 - Introduction to Computing for Biologists (3.0 cr)
CSCI 5481 - Computational Techniques for Genomics (3.0 cr)
CSCI 5511 - Artificial Intelligence I (3.0 cr)
CSCI 5512 - Artificial Intelligence II (3.0 cr)
CSCI 5521 - Machine Learning Fundamentals (3.0 cr)
CSCI 5523 - Introduction to Data Mining (3.0 cr)
CSCI 5525 - Machine Learning: Analysis and Methods (3.0 cr)
CSCI 5561 - Computer Vision (3.0 cr)
CSCI 5609 - Visualization (3.0 cr)
CSCI 5619 - Virtual Reality and 3D Interaction (3.0 cr)
CSCI 5707 - Principles of Database Systems (3.0 cr)
MATH 5485 - Introduction to Numerical Methods I (4.0 cr)
MATH 5525 - Introduction to Ordinary Differential Equations (4.0 cr)
MATH 5535 - Dynamical Systems and Chaos (4.0 cr)
MATH 5583 - Complex Analysis (4.0 cr)
MATH 5587 - Elementary Partial Differential Equations I (4.0 cr)
MATH 5588 - Elementary Partial Differential Equations II (4.0 cr)
MATH 5651 - Basic Theory of Probability and Statistics (4.0 cr)
MATH 5652 - Introduction to Stochastic Processes (4.0 cr)
MATH 5707 - Graph Theory and Non-Enumerative Combinatorics (4.0 cr)
MATH 5711 - Linear Programming and Combinatorial Optimization (4.0 cr)
MATH 8401 - Mathematical Modeling and Methods of Applied Mathematics (3.0 cr)
MATH 8441 - Numerical Analysis and Scientific Computing (3.0 cr)
MATH 8445 - Numerical Analysis of Differential Equations (3.0 cr)
MATH 8583 - Theory of Partial Differential Equations (3.0 cr)
MATH 8584 - Theory of Partial Differential Equations (3.0 cr)
MBA 6241 - Competing in a Data-Driven Digital Age (2.0 cr)
MCDG 8920 - Special Topics (1.0 - 4.0 cr)
MCDG 8950 - Teaching Practicum (1.0 cr)
ME 8222 - New Product Design and Business Development II (4.0 cr)
MEDC 8001 - General Principles of Medicinal Chemistry (3.0 cr)
MEDC 8002 - General Principles of Medicinal Chemistry (3.0 cr)
MEDC 8413 - Chemistry of Nucleic Acids (4.0 cr)
MEDC 8435 - BioAssay & Data Analysis (1.0 cr)
MEDC 8753 - MOLECULAR TARGETS OF DRUG DISCOVERY (3.0 cr)
MICA 5000 - Practicum: Teaching (0.0 cr)
MICA 8002 - Structure, Function, and Genetics of Bacteria and Viruses (4.0 cr)

MICA 8004 - Cellular and Cancer Biology (4.0 cr)
MICA 8005 - Topics in Microbiology, Immunology, and Cancer Biology (1.0 - 4.0 cr)
MICA 8009 - Biochemical Aspects of Normal and Abnormal Cell Growth and Cell Death (2.0 cr)
MICA 8011 - Current Topics in Immunology (3.0 cr)
MICA 8012 - Writing and Reviewing a Research Proposal (2.0 cr)
MICA 8013 - Translational Cancer Research (2.0 cr)
MICA 8094 - Research in Microbiology, Immunology, and Cancer Biology (1.0 cr)
MICA 8910 - Seminar: Faculty Research Topics (0.0 cr)
MICA 8920 - Seminar: Student Research Topics (0.0 cr)
MICE 5035 - Personal Microbiome Analysis (3.0 cr)
MSBA 6331 - Big Data Analytics (3.0 cr)
MSBA 6451 - Optimization and Simulation for Decision Making (3.0 cr)
NSC 5461 - Cellular and Molecular Neuroscience (3.0 cr)
NSC 5561 - Systems Neuroscience (4.0 cr)
NSC 5661 - Behavioral Neuroscience (3.0 cr)
NSC 8026 - Neuro-Immune Interactions (3.0 cr)
NSC 8111 - Quantitative Neurosciences (3.0 cr)
NSC 8211 - Developmental Neurobiology (4.0 cr)
NSC 8320 - Readings in Neurobiology (1.0 - 4.0 cr)
NSC 8481 - Advanced Neuropharmaceuticals (4.0 cr)
PHAR 5201 - Applied Medical Terminology (2.0 cr)
PHAR 5700 - Applied Fundamentals of Pharmacotherapy (3.0 cr)
PHCL 5109 - Introduction to Scientific Communication (1.0 - 18.0 cr)
PHCL 5110 - Introduction to Pharmacology (3.0 cr)
PHCL 5111 - Pharmacogenomics (3.0 cr)
PHCL 5462 - Neuroscience Principles of Drug Abuse (2.0 cr)
PHCL 8014 - Small RNA Biology (2.0 cr)
PHCL 8026 - Neuro-Immune Interactions (3.0 cr)
PHSL 5061 - Principles of Physiology for Biomedical Engineering (4.0 cr)
PHSL 5096 - Integrative Biology and Physiology Research Advances (1.0 cr)
PHSL 5101 - Human Physiology (5.0 cr)
PHSL 5197 - Stress Physiology (1.0 - 3.0 cr)
PHSL 5211 - Physiology of Inflammation in Disease (3.0 cr)
PHSL 5444 - Muscle (3.0 cr)
PHSL 5510 - Advanced Cardiac Physiology and Anatomy (2.0 - 3.0 cr)
PHSL 5525 - Anatomy and Physiology of the Pelvis and Urinary System (1.0 - 2.0 cr)
PHSL 6051 - Systems Physiology (4.0 cr)
PHSL 8232 - Critical Reading of Journal Articles in Physiology (2.0 cr)
PHSL 8294 - Research in Physiology (1.0 - 18.0 cr)

Plan Options

Plan A
Take 10 master's thesis credits
BICB 8777 - Thesis Credit: Masters (Rochester Campus)

Program Sub-plans
A sub-plan is not required for this program.
Students may not complete the program with more than one sub-plan.

Rochester
Twin Cities Campus
Bioinformatics and Computational Biology Minor
R Bioscience/Biotechnology
College of Science and Engineering

Link to a list of faculty for this program.

Contact Information:
Bioinformatics and Computational Biology, 300 University Square, 111 South Broadway, Rochester, MN 55904 (507-258-8006; fax: 507-258-8066)
Email: bicbgrad@umn.edu
Website: https://r.umn.edu/academics-research/graduate/bicb

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 9
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.
- The Bioinformatics and Computational Biology Program is an all-University program delivered on the Rochester and Twin Cities campuses. The University of Minnesota Twin Cities is the degree-granting authority for delivery of the Bioinformatics and Computational Biology Program.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Bioinformatics and Computational Biology (BICB) minor curriculum is individualized to fit the student's interest, research direction, and professional goals.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Bioinformatics and Computational Biology director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

The minimum cumulative GPA for the minor is 3.00.

Approval by the director of graduate studies is required for use of 4xxx courses. A maximum of one 4xxx-level course of 4 credits or less may be applied to degree requirements.

Core Courses (6 credits)
Select one course from at least two of the core areas for a total of 6 credits. Courses are chosen in consultation with the BICB director of graduate studies. Other courses may be applied to this requirement with director of graduate studies approval.

**Elective Courses**

Masters students select courses to complete the 9-credit minimum, and doctoral students select courses to complete the 12-credit minimum in consultation with BICB director of graduate studies. Other courses can be chosen with approval by the BICB director of graduate studies.

**AGRO 5021** - Plant Breeding Principles (3.0 cr)
**AGRO 5121** - Applied Experimental Design (4.0 cr)
**AGRO 5311** - Research Methods in Crop Improvement and Production (1.0 cr)
**BICB 5620** - Topics in Biomedical Informatics and Computational Biology (0.5-4.0 cr) [OPT]
**BICB 8401** - Ethics in Bioinformatics and Computational Biology (1.0 cr)[OPT]
**BICB 8510** - Computation and Biology (2.0 cr) [A-F]
**BICB 8620** - Topics in Biomedical Informatics and Computational Biology (0.5-4.0 cr) [OPT]
**BICB 8670** - Topics in Management of Technology (0.5-4.0 cr) [OPT]
**BICB 8920** - BICB Colloquium (1.0 cr) [S-N]
**BICB 8930** - BICB Journal Club (1.0 cr) [S-N]
**BICB 8932** - Proposal Writing Seminar (1.0 cr) [S-N]
**BICB 8940** - Education and Pedagogy Seminar (1.0 cr) [S-N]
**BICB 8970** - Entrepreneurship and Leadership Seminar (1.0 cr) [S-N]
**BICB 8990** - Seminar on Current Topics (1.0 cr) [OPT]
**BICB 8991** - Independent Study (1.0-2.0 cr) [S-N]

Program Sub-plans

Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Twin Cities Campus
Bioinformatics and Computational Biology Ph D
R Bioscience/Biotechnology
College of Science and Engineering

Link to a list of faculty for this program.

Contact Information:
Bioinformatics and Computational Biology, 300 University Square, 111 South Broadway, Rochester, MN 55904 (507-258-8006; fax: 507-258-8066)
Email: bibgrad@umn.edu
Website: https://r.umn.edu/academics-research/graduate/bicb

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 55
- This program does not require summer semesters for timely completion.
- The Bioinformatics and Computational Biology Program is an all-University program delivered on the Rochester and Twin Cities campuses. The University of Minnesota Twin Cities is the degree-granting authority for delivery of the Bioinformatics and Computational Biology Program.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Bioinformatics and Computational Biology (BICB) program offers a curriculum individualized to fit the student's interests, research direction, and professional goals. Students receive training in ethics, leadership, and management, including legal and intellectual property issues and entrepreneurship. The PhD program includes an industrial or clinical internship. Students interested in academic careers have the opportunity to participate in development programs that focus on aspects of teaching and learning.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The program expects incoming graduate students to have a strong background in the quantitative sciences and varied backgrounds in the life/health sciences.

The expected competencies of incoming students may be demonstrated by coursework completed at the undergraduate level or by informal competency examinations.

Other requirements to be completed before admission:
In addition to completing the online application form, applicants must submit 1) a personal statement, normally 2 to 3 pages, which describes past experiences and career aspirations, and reasons for pursuing graduate studies in bioinformatics and computational biology; and 2) a diversity statement that describes past experiences and future plans that would enable the applicant to contribute to the diversity of the graduate program and the University. Applicants should also indicate the names of the BICB graduate faculty whose interests overlap with their own. The department strongly encourages applicants to contact these faculty members before applying.

Special Application Requirements:
Applicants are admitted for fall semester only. Applications are accepted from September 15 through January 15. Three letters of recommendation and scores from the General Test of the GRE are required. GRE scores may be waived for students with significant work or academic experience. To receive full consideration for financial support, applications must be submitted no later than December 15.

Applicants must submit their test score(s) from the following:
• GRE
International applicants must submit score(s) from one of the following tests:

- **TOEFL**
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19

- **IELTS**
  - Total Score: 6.5

Key to test abbreviations (GRE, TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

31 credits are required in the major.
0 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.0 is required for students to remain in good standing.

Approval by the director of graduate studies is required for use of 4xxx courses. A maximum of one 4xxx-level course of 4 credits or less may be applied to degree requirements.

Courses used to satisfy the credit requirements in the Core areas of Biochemistry, Genetics, Molecular Cell Biology and Physiology; Mathematics, Biostatistics and Statistics; and Computer Science, Informatics, Computational Biology and System Biology may not be applied to a minor in another program. A maximum of 6 credits in courses used to satisfy Elective requirements can be applied to a minor.

Students must complete an industrial internship in consultation with and approval of the advisor and the director of graduate studies. A minimum of 120 hours work and a final report are required. The timing is flexible. The internship may be waived for students with equivalent experience upon DGS approval. Students who wish to receive credit for the internship may register for BICB 8960.

Required Coursework (13 credits)

**Major Courses (12 credits)**

- Take BICB 8510 twice for 4 credits. Students may have the spring registration requirement waived with director of graduate studies permission for students with advanced research experience when entering the program.

Take 8920 and 8930 three times for 3 credits.

BICB 8932 may be waived with the director of graduate studies permission for students with advanced research experience when entering the program.

BICB 8510 - Computation and Biology (2 cr)[A-F](Rochester campus)
BICB 8920 - BICB Colloquium (1 cr)[SN](Rochester campus)
BICB 8930 - BICB Journal Club (1 cr)[SN](Rochester campus)
BICB 8932 - Proposal Writing Seminar (1 cr)[SN](Rochester campus)
BICB 8970 - Entrepreneurship and Leadership Seminar (1 cr)[SN](Rochester campus)

**Ethics Course (1 credit)**

Select one of the following in consultation with the advisor:

- BICB 8401 - Ethics in Bioinformatics and Computational Biology (1 cr)[SN](Rochester campus)
- BIOC 8401 - Ethics, Public Policy, and Careers in Molecular and Cellular Biology (1.0 cr)
- BTHX 5000 - Topics in Bioethics (1.0 - 4.0 cr)
- BTHX 5325 - Biomedical Ethics (3.0 cr)
- BTHX 5900 - Independent Study in Bioethics (1.0 - 4.0 cr)
- GCD 8401 - Ethics, Public Policy & Careers in Molecular Cell Biology (1.0 cr)
- MBA 6315 - The Ethical Environment of Business (2.0 cr)
- PUBH 6742 - Ethics in Public Health: Research and Policy (1.0 cr)

**Core Courses (9 credits)**

Select a minimum of one course from each of the three core areas. A total of 9 credits is required. Other courses may be applied to this requirement with director of graduate studies approval.
Biochemistry, Genetics, Molecular Cell Biology and Physiology
Select at least one course from the following in consultation with the advisor:

AGRO 5021 - Plant Breeding Principles (3.0 cr)
AGRO 5121 - Applied Experimental Design (4.0 cr)
AGRO 5311 - Research Methods in Crop Improvement and Production (1.0 cr)
BIOC 5216 - Current Topics in Signal Transduction (2.0 cr)
BIOC 5309 - Biocatalysis and Biodegradation (3.0 cr)
BIOC 5351 - Protein Engineering (3.0 cr)
BIOC 5352 - Biotechnology and Bioengineering for Biochemists (3.0 cr)
BIOC 5361 - Microbial Genomics and Bioinformatics (3.0 cr)
BIOC 5444 - Muscle (3.0 cr)
BIOC 5528 - Spectroscopy and Kinetics (4.0 cr)
BIOC 6021 - Biochemistry (3.0 cr)

PHAR 5201 - Applied Medical Terminology (2.0 cr)
PHAR 5700 - Applied Fundamentals of Pharmacotherapy (3.0 cr)
PHCL 5109 - Introduction to Scientific Communication (1.0 - 18.0 cr)
PHCL 5110 - Introduction to Pharmacoecology (3.0 cr)
PHCL 5111 - Pharmacogenomics (3.0 cr)
PHCL 5462 - Neuroscience Principles of Drug Abuse (2.0 cr)
PHCL 8014 - Small RNA Biology (2.0 cr)
PHCL 8026 - Neuro-Immune Interactions (3.0 cr)
PHSL 5061 - Principles of Physiology for Biomedical Engineering (4.0 cr)
PHSL 5096 - Integrative Biology and Physiology Research Advances (1.0 cr)
PHSL 5101 - Human Physiology (5.0 cr)
PHSL 5197 - Stress Physiology (1.0 - 3.0 cr)
PHSL 5211 - Physiology of Inflammation in Disease (3.0 cr)
PHSL 5444 - Muscle (3.0 cr)
PHSL 5510 - Advanced Cardiac Physiology and Anatomy (2.0 - 3.0 cr)
PHSL 5525 - Anatomy and Physiology of the Pelvis and Urinary System (1.0 - 2.0 cr)
PHSL 6051 - Systems Physiology (4.0 cr)
PLPA 5480 - Principles of Plant Pathology (3.0 cr)
PLPA 8104 - Plant Virology (2.0 cr)
PSY 8026 - Neuro-Immune Interactions (3.0 cr)
PBH 6159 - Principles of Toxicology I (2.0 cr)
PUBH 6180 - Principles of Toxicology II (3.0 cr)
PUBH 6182 - Emerging Infectious Disease: Current Issues, Policies, and Controversies (3.0 cr)
PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)
PUBH 6381 - Genetics in Public Health in the Age of Precision Medicine (2.0 cr)
PUBH 7415 - Introduction to Clinical Trials (3.0 cr)
PUBH 7470 - Study Designs in Biomedical Research (3.0 cr)
PUBH 8160 - Advanced Toxicology (2.0 cr)
SCB 8181 - Stem Cell Biology (3.0 cr)
VMED 5180 - Ecology of Infectious Disease (3.0 cr)
VMED 5240 - Advanced Small Animal Pathobiology I (1.0 cr)
VMED 5243 - Advanced Small Animal Pathobiology IV (1.0 cr)

Mathematics, Biostatistics and Statistics

Select at least one course from the following in consultation with the advisor:
BIOL 5272 - Applied Biostatistics (4.0 cr)
CSCI 5304 - Computational Aspects of Matrix Theory (3.0 cr)
EE 8231 - Optimization Theory (3.0 cr)
IE 8521 - Optimization (4.0 cr)
LING 5801 - Introduction to Computational Linguistics (3.0 cr)
MATH 5385 - Introduction to Computational Algebraic Geometry (4.0 cr)
MATH 5445 - Mathematical Analysis of Biological Networks (4.0 cr)
MATH 5467 - Introduction to the Mathematics of Imaging Data Analysis (4.0 cr)
MATH 5485 - Introduction to Numerical Methods I (4.0 cr)
MATH 5525 - Introduction to Ordinary Differential Equations (4.0 cr)
MATH 5535 - Dynamical Systems and Chaos (4.0 cr)
MATH 5583 - Complex Analysis (4.0 cr)
MATH 5587 - Elementary Partial Differential Equations I (4.0 cr)
MATH 5588 - Elementary Partial Differential Equations II (4.0 cr)
MATH 5651 - Basic Theory of Probability and Statistics (4.0 cr)
MATH 5652 - Introduction to Stochastic Processes (4.0 cr)
MATH 5707 - Graph Theory and Non-enumerative Combinatorics (4.0 cr)
MATH 5711 - Linear Programming and Combinatorial Optimization (4.0 cr)
MATH 8401 - Mathematical Modeling and Methods of Applied Mathematics (3.0 cr)
MATH 8441 - Numerical Analysis and Scientific Computing (3.0 cr)
MATH 8445 - Numerical Analysis of Differential Equations (3.0 cr)
MATH 8583 - Theory of Partial Differential Equations (3.0 cr)
MATH 8584 - Theory of Partial Differential Equations (3.0 cr)
MSBA 6331 - Big Data Analytics (3.0 cr)
MSBA 6451 - Optimization and Simulation for Decision Making (3.0 cr)
PUBH 6310 - Clinical Epidemiology I (1.0 cr)
PUBH 6311 - Clinical Epidemiology II (1.0 cr)
PUBH 6341 - Epidemiologic Methods I (3.0 cr)
PUBH 6342 - Epidemiologic Methods II (3.0 cr)
PUBH 6343 - Epidemiologic Methods III (4.0 cr)
PUBH 6366 - Modeling and Mapping for Infectious Disease Epidemiology (2.0 cr)
PUBH 6386 - Biostatistics I (3.0 cr)
PUBH 6379 - Cancer Epidemiology (2.0 cr)
PUBH 6414 - Biostatistical Literacy (3.0 cr)
PUBH 6450 - Biostatistics I (4.0 cr)
PUBH 6451 - Biostatistics II (4.0 cr)
PUBH 6541 - Statistics for Health Management Decision Making (3.0 cr)
PUBH 7401 - Fundamentals of Biostatistical Inference (4.0 cr)
PUBH 7402 - Biostatistics Modeling and Methods (4.0 cr)
PUBH 7405 - Biostatistical Inference I (4.0 cr)
PUBH 7406 - Biostatistical Inference II (3.0 cr)
PUBH 7407 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)
PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
PUBH 7445 - Statistics for Human Genetics and Molecular Biology (3.0 cr)
PUBH 8401 - Linear Models (3.0 cr)
PUBH 8432 - Probability Models for Biostatistics (3.0 cr)
PUBH 8442 - Bayesian Decision Theory and Data Analysis (3.0 cr)
PUBH 8472 - Spatial Biostatistics (3.0 cr)
PUBH 8475 - Statistical Learning and Data Mining (3.0 cr)
STAT 5021 - Statistical Analysis (4.0 cr)
STAT 5052 - Statistical and Machine Learning (3.0 cr)
STAT 5101 - Theory of Statistics I (4.0 cr)
STAT 5102 - Theory of Statistics II (4.0 cr)
STAT 5701 - Statistical Computing (3.0 cr)
STAT 8051 - Advanced Regression Techniques: linear, nonlinear and nonparametric methods (3.0 cr)
STAT 8052 - Applied Statistical Methods 2: Design of Experiments and Mixed-Effects Modeling (3.0 cr)
STAT 8053 - Applied Statistical Methods 3: Multivariate Analysis and Advanced Regression (3.0 cr)
STAT 8054 - Statistical Methods 4: Advanced Statistical Computing (3.0 cr)
STAT 8056 - Statistical Learning and Data Mining (3.0 cr)
STAT 8101 - Theory of Statistics 1 (3.0 cr)
STAT 8102 - Theory of Statistics 2 (3.0 cr)
STAT 8111 - Mathematical Statistics I (3.0 cr)
STAT 8311 - Linear Models (3.0 cr)
VMED 5442 - Quantitative Methods for Population Health (3.0 cr)
VMED 5915 - Essential Statistics for Life Sciences (3.0 cr)

Computer Science, Informatics, Computational Biology and System Biology
Select at least one course from the following in consultation with the advisor:

BMEN 4013 - CAD of Biomechanical/transport Devices (1.0 cr)
CHEN 8754 - Systems Analysis of Biological Processes (3.0 cr)
CSCI 4041 - Algorithms and Data Structures (4.0 cr)
CSCI 5106 - Programming Languages (3.0 cr)
CSCI 5115 - User Interface Design, Implementation and Evaluation (3.0 cr)
CSCI 5161 - Introduction to Compilers (3.0 cr)
CSCI 5204 - Advanced Computer Architecture (3.0 cr)
CSCI 5302 - Analysis of Numerical Algorithms (3.0 cr)
CSCI 5421 - Advanced Algorithms and Data Structures (3.0 cr)
CSCI 5451 - Introduction to Parallel Computing: Architectures, Algorithms, and Programming (3.0 cr)
CSCI 5461 - Functional Genomics, Systems Biology, and Bioinformatics (3.0 cr)
CSCI 5485 - Introduction to Computing for Biologists (3.0 cr)
CSCI 5481 - Computational Techniques for Genomics (3.0 cr)
CSCI 5511 - Artificial Intelligence I (3.0 cr)
CSCI 5512 - Artificial Intelligence II (3.0 cr)
CSCI 5521 - Machine Learning Fundamentals (3.0 cr)
CSCI 5523 - Introduction to Data Mining (3.0 cr)
CSCI 5525 - Machine Learning: Analysis and Methods (3.0 cr)
CSCI 5561 - Computer Vision (3.0 cr)
CSCI 5609 - Visualization (3.0 cr)
CSCI 5619 - Virtual Reality and 3D Interaction (3.0 cr)
CSCI 5707 - Principles of Database Systems (3.0 cr)
CSCI 5708 - Architecture and Implementation of Database Management Systems (3.0 cr)
CSCI 5715 - From GPS, Google Maps, and Uber to Spatial Data Science (3.0 cr)
CSCI 5801 - Software Engineering I (3.0 cr)
CSCI 5980 - Special Topics in Computer Science (1.0 - 3.0 cr)
CSCI 8205 - Parallel Computer Organization (3.0 cr)
CSCI 8591 - Predictive Learning from Data (3.0 cr)
GCD 5005 - Computer Programming for Biology (3.0 cr)
HINF 5430 - Foundations of Health Informatics I (3.0 cr)
HINF 5431 - Foundations of Health Informatics II (3.0 cr)
HINF 5440 - Foundations of Translational Bioinformatics (3.0 cr)
HINF 5470 - Programming Essentials for the Health Sciences (1.0 cr)
HINF 5510 - Applied Health Care Databases: Database Principles and Data Evaluation (3.0 cr)
HINF 5520 - Informatics Methods for Health Care Quality, Outcomes, and Patient Safety (2.0 cr)
HINF 5531 - Health Data Analytics and Data Science (3.0 cr)
HINF 5560 - Foundations of Biomedical Natural Language Processing (3.0 cr)
HINF 5620 - Data Visualization for the Health Sciences (3.0 cr)
HINF 5650 - Integrative Genomics and Computational Methods (3.0 cr)
HINF 8220 - Computational Causal Analytics (3.0 cr)
HINF 8430 - Foundations of Health Informatics I Lab (2.0 cr)
HINF 8440 - Foundations of Translational Bioinformatics Lab (2.0 cr)
MBA 6241 - Competing in a Data-Driven Digital Age (2.0 cr)
PUBH 6325 - Data Processing with PC-SAS (1.0 cr)
PUBH 6420 - Introduction to SAS Programming (1.0 cr)
PUBH 6717 - Decision Analysis for Health Care (2.0 cr)
PUBH 6813 - Managing Electronic Health Information (2.0 cr)
PUBH 7461 - Exploring and Visualizing Data in R (2.0 cr)
PUBH 7462 - Advanced Programming and Data Analysis in R (2.0 cr)
PUBH 7475 - Statistical Learning and Data Mining (3.0 cr)
VMED 5181 - Spatial Analysis in Infectious Disease Epidemiology (3.0 cr)

Electives (9 credits)
Select courses from the following for a total of 9 credits. Other courses may be applied to this requirement with director of graduate studies approval.

AGRO 5021 - Plant Breeding Principles (3.0 cr)
AGRO 5121 - Applied Experimental Design (4.0 cr)
AGRO 5311 - Research Methods in Crop Improvement and Production (1.0 cr)
BICB 5620 Topics in BICB 0.50 - 4.00 credits [OPT] (Rochester campus)

Email: bmengps@umn.edu
Website: http://cse.umn.edu/bme

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Biomedical engineering is the application of engineering principles and methods to problems in biology and medicine. The discipline includes the study of fundamental processes in biology and physiology, the study of the diagnosis and treatment of disease and injury, and the design and development of medical devices and techniques. Students take courses in mathematics, biology, biomedical engineering, and areas of science and engineering that are relevant to the degree objectives.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.20.

A baccalaureate degree in engineering or in a physical or biological science is required.

Other requirements to be completed before admission:
Applicants with an engineering degree do not need to complete any specific coursework prior to applying.

Applicants without an engineering degree must complete:
* math coursework through calculus I, calculus II, and differential equations; and
* at least 1 year of college-level physics, preferably calculus-based.

Special Application Requirements:
The application deadline is March 31 for the following fall semester.

Local applicants for part-time studies may be considered for spring admission on an exception basis. The application deadline for spring admission is November 1.

International applicants must submit score(s) from one of the following tests:
- TOEFL
- IELTS

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements

Plan A: Plan A requires 20 major credits, 0 credits outside the major, and 10 thesis credits. The final exam is oral.

Plan B: Plan B requires 30 major credits and 0 credits outside the major. The final exam is oral. A capstone project is required. 

Capstone Project: The Plan B project comprises BMEN 8820 (2 credits), completed in collaboration with the advisor.

Plan C: Plan C requires 30 major credits and 0 credits outside the major. The is no final exam.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 2.80 is required for students to remain in good standing.

Coursework offered on both the A-F and S/N grading basis must be taken A-F, with a minimum grade of B- earned for each course.

A single course may NOT be counted simultaneously toward more than one of the requirements listed below.

Use of one 4xxx course toward program requirements is permitted under certain conditions with director of graduate studies approval.

At least 3 credits selected to satisfy the Biomedical Engineering Courses, Technical Electives, and/or Free Electives requirement must be designated as math- or statistics-intensive.

Plan A and Plan B students must complete at least 3 8xxx-level course credits selected in consultation with the advisor. Options exclude seminars, directed research, project, thesis, and independent study registrations.

Biomedical Engineering Courses (6 credits)
Select 6 credits from the following in consultation with the advisor:
BMEN 5001 - Advanced Biomaterials (3.0 cr)
BMEN 5101 - Advanced Bioelectricity and Instrumentation (3.0 cr)
BMEN 5201 - Advanced Biomechanics (3.0 cr)
BMEN 5311 - Advanced Biomedical Transport Processes (3.0 cr)
BMEN 5351 - Cell Engineering (3.0 cr)
BMEN 5401 - Advanced Biomedical Imaging (3.0 cr)
BMEN 8001 - Polymeric Biomaterials (3.0 cr)
BMEN 8041 - Advanced Tissue Engineering Lab (3.0 cr)
BMEN 8101 - Biomedical Digital Signal Processing (3.0 cr)
BMEN 8151 - Biomedical Electronics and Implantable Microsystems (3.0 cr)
BMEN 8201 - Advanced Tissue Mechanics (3.0 cr)
BMEN 8381 - Bioheat and Mass Transfer (3.0 cr)
BMEN 8421 - Biophotonics (3.0 cr)
BMEN 8431 - Controlled Drug and Gene Delivery: Materials, Mechanisms, and Models (4.0 cr)
BMEN 8501 - Dynamical Systems in Biology (3.0 cr)
BMEN 8502 - Physiological Control Systems (3.0 cr)
BMEN 8511 - Systems and Synthetic Biology (3.0 cr)

Biomedical Engineering Seminars (2 credits)
Take 2 credits, in any combination, in consultation with the advisor:
BMEN 8601 - Biomedical Engineering Seminar (1.0 cr)
BMEN 8602 - Biomedical Engineering Seminar (1.0 cr)

Biology Electives (6 credits)
Select electives from the following in consultation with the advisor. Other courses may be chosen with advisor and director of graduate studies approval.
BIOC 5216 - Current Topics in Signal Transduction (2.0 cr)
BIOC 5361 - Microbial Genomics and Bioinformatics (3.0 cr)
BIOC 5444 - Muscle (3.0 cr)
BIOC 6021 - Biochemistry (3.0 cr)
BIOC 8002 - Molecular Biology and Regulation of Biological Processes (3.0 cr)
BIOC 8216 - Signal Transduction and Gene Expression (3.0 cr)
BMEN 5031 - Engineering Extracellular Matrices (3.0 cr)
BMEN 5501 - Biology for Biomedical Engineers (3.0 cr)
BMEN 5701 - Cancer Bioengineering (3.0 cr)
BMEN 8041 - Advanced Tissue Engineering Lab (3.0 cr)
CGSC 8041 - Cognitive Neuroscience (4.0 cr)
CPMS 5101 - Introduction to Clinical Physiology and Movement Science (3.0 cr)
EEB 5371 - Principles of Systematics (3.0 cr)
GCD 5036 - Molecular Cell Biology (3.0 cr)
GCD 8008 - Mammalian Gene Transfer and Genome Engineering (2.0 cr)
GCD 8103 - Human Histology (5.0 cr)
GCD 8131 - Advanced Molecular Genetics and Genomics (3.0 cr)
GCD 8151 - Cellular Biochemistry and Cell Biology (2.0 - 4.0 cr)
GCD 8161 - Advanced Cell Biology and Development (2.0 cr)
MEDC 5245 - Introduction to Drug Design (3.0 cr)
MEDC 8002 - General Principles of Medicinal Chemistry (3.0 cr)
MEDC 8041 - Design of Cancer Therapeutics (3.0 cr)
MEDC 8753 - MOLECULAR TARGETS OF DRUG DISCOVERY (3.0 cr)
MEDC 8760 - Design of Peptidomimetics (2.0 cr)
MICA 8002 - Structure, Function, and Genetics of Bacteria and Viruses (4.0 cr)
MICA 8003 - Immunity and Immunopathology (4.0 cr)
MICA 8004 - Cellular and Cancer Biology (4.0 cr)
MICA 8009 - Biochemical Aspects of Normal and Abnormal Cell Growth and Cell Death (2.0 cr)
MLSP 5111 - Concepts of Diagnostic Microbiology (3.0 cr)
MLSP 5511 - Principles of Immunobiology (3.0 cr)
MPHY 5172 - Radiation Biology (3.0 cr)
NEUR 5230 - Cerebrovascular Hemodynamics and Diseases I (4.0 cr)
NSC 5461 - Cellular and Molecular Neuroscience (3.0 cr)
NSC 5462 - Neuroscience Principles of Drug Abuse (2.0 cr)
NSC 5540 - Survey of Biomedical Neuroscience (2.0 cr)
NSC 5561 - Systems Neuroscience (4.0 cr)
NSC 5661 - Behavioral Neuroscience (3.0 cr)
NSC 8208 - Neuropsychopharmacology (3.0 cr)
NSC 8211 - Developmental Neurobiology (4.0 cr)
NSC 8221 - Neurobiology of Pain and Analgesia (3.0 cr)

PHSL 5525 - Anatomy and Physiology of the Pelvis and Urinary System (1.0 - 2.0 cr)
PSY 5015 - Cognition, Computation, and Brain (3.0 cr)
PSY 5062 - Cognitive Neuropsychology (3.0 cr)
PSY 8041 - Proseminar in Perception (3.0 cr)
RSC 5200 - Introduction to Neuromodulation (1.0 - 3.0 cr)
RSC 5231 - Clinical Biomechanics (2.0 - 5.0 cr)
RSC 5281 - Physiology for Physical Rehabilitation (2.0 - 4.0 cr)
RSC 5402 - The Shoulder in Sports Rehabilitation Science (3.0 cr)
RSC 8282 - Problems in Human Movement (4.0 cr)
SCB 8181 - Stem Cell Biology (3.0 cr)
SLHS 5605 - Language and Cognitive Disorders in Adults (3.0 cr)
SLHS 5802 - Hearing Aids I (3.0 cr)
SLHS 5806 - Auditory Disorders in Children (3.0 cr)
SLHS 8802 - Hearing Aids II (3.0 cr)

Technical Electives (6 to 9 credits)
Plan A students select at least 6 credits, and Plan B and Plan C students select at least 9 credits from the following in consultation with the advisor. Other courses may be chosen with advisor and director of graduate studies approval.
AEM 5401 - Intermediate Dynamics (3.0 cr)
AEM 5451 - Optimal Estimation (3.0 cr)
AEM 5501 - Continuum Mechanics (3.0 cr)
AEM 5503 - Theory of Elasticity (3.0 cr)
AEM 8233 - Multi-phase Flows: Fundamentals, Measurement, and Modeling (3.0 cr)

Free Electives (0-7 credits)
Plan B students select at least 5 credits, and Plan C students select at least 7 credits from the following to complete minimum credit requirements. Other courses may be applied with advisor and director of graduate studies approval. Plan A students are exempt from this requirement.
BMEN 8402 - New Product Design and Business Development (4.0 cr)
BTHX 5100 - Introduction to Clinical Ethics (3.0 cr)
BTHX 5120 - Dying in Contemporary Medical Culture (2.0 cr)
BTHX 5210 - Ethics of Human Subjects Research (3.0 cr)
BTHX 5300 - Foundations of Bioethics (3.0 cr)
BTHX 5325 - Biomedical Ethics (3.0 cr)
BTHX 5650 - Disability Ethics (3.0 cr)
BTHX 8120 - Dying in Contemporary Medical Culture (2.0 cr)
BTHX 8610 - Medical Consumerism (3.0 cr)
CMB 5912 - Creativity (1.0 cr)
MILI 6235 - Pharmaceutical Industry: Business and Policy (2.0 cr)
MILI 6995 - Medical Industry Valuation Laboratory (2.0 cr)
MOT 5001 - Technological Business Fundamentals (2.0 cr)
MOT 5002 - Creating Technological Innovation (2.0 cr)
MOT 5003 - Technological Business Planning Workshop (1.0 cr)
MPHY 5040 - Introduction to Medical Physics (3.0 cr)
PDES 5701 - User-Centered Design Studio (4.0 cr)
PDES 5702 - Visual Communication (3.0 cr)
PDES 5704 - Computer-Aided Design Methods (3.0 cr)
PSY 5036W - Computational Vision [WI] (3.0 cr)
PUBH 6161 - Regulatory Toxicology (2.0 cr)
PUBH 8414 - Biostatistical Literacy (3.0 cr)
PUBH 7415 - Introduction to Clinical Trials (3.0 cr)
RSC 5106 - Introduction to Rehabilitation Science (1.0 cr)
SLHS 5606 - Introduction to Augmentative and Alternative Communication (3.0 cr)
SLHS 5802 - Hearing Aids I (3.0 cr)
SLHS 5804 - Cochlear Implants (3.0 cr)
SLHS 8802 - Hearing Aids II (3.0 cr)

Plan Options

Plan A
Thesis Credits
Take 10 master's thesis credits.
BMEN 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)
-OR-

Plan B
Project Credits (2 credits)
Take 2 credits of the following:
BMEN 8820 - Plan B Project (2.0 - 3.0 cr)
-OR-

Math- or Statistics-intensive Courses
At least 6 credits selected to satisfy the Biomedical Engineering Courses, Technical Electives, and/or Free Electives requirement must be designated as math- or statistics-intensive.
AEM 5451 - Optimal Estimation (3.0 cr)
AEM 5501 - Continuum Mechanics (3.0 cr)
AEM 5503 - Theory of Elasticity (3.0 cr)
AEM 8233 - Multi-phase Flows: Fundamentals, Measurement, and Modeling (3.0 cr)
AEM 8511 - Advanced Topics in Continuum Mechanics (3.0 cr)
BMEN 5111 - Biomedical Ultrasound (3.0 cr)
BMEN 5201 - Advanced Biomechanics (3.0 cr)
BMEN 5311 - Advanced Biomedical Transport Processes (3.0 cr)
BMEN 8101 - Biomedical Digital Signal Processing (3.0 cr)
BMEN 8201 - Advanced Tissue Mechanics (3.0 cr)
BMEN 8381 - Bioheat and Mass Transfer (3.0 cr)
BMEN 8431 - Controlled Drug and Gene Delivery: Materials, Mechanisms, and Models (4.0 cr)
BMEN 8501 - Dynamical Systems in Biology (3.0 cr)
BMEN 8502 - Physiological Control Systems (3.0 cr)
Program Sub-plans
A sub-plan is not required for this program.

Students may not complete the program with more than one sub-plan.

Integrated B.Bm.E./M.S.
The integrated BBmE/MS-Biomedical Engineering program offers students the opportunity to earn both degrees in five years. Students admitted to the integrated program can apply 3 to 16 credits taken their senior year beyond those required for the BBmE to MS degree requirements. Courses cannot be double-counted toward both BBmE and MS requirements. To be eligible for the integrated program, BBmE students must have completed BMEN 2101, 2401, 2501, 3011, 3015, 3111, 3115, 3211, 3215, 3311, 3315, 3411, and 3415 at the time of application. A 3.60 minimum GPA for these courses is preferred, but not required.

Upon admission, students must maintain timely degree progress to ensure all undergraduate degree requirements are completed by the end of their fourth year.

Email: bmengp@umn.edu
Website: https://cse.umn.edu/bme

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Biomedical engineering is the application of engineering principles and methods to problems in biology and medicine. The discipline includes the study of fundamental processes in biology and physiology, the study of the diagnosis and treatment of disease and injury, and the design and development of medical devices and techniques. Students take courses in mathematics, biology, biomedical engineering, and areas of science and engineering that are relevant for the degree objectives.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission

Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Biomedical Engineering director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Use of 4xxx courses towards program requirements is not permitted.

Minor field coursework offered on both the A-F and S/N grading basis must be taken A-F, with a minimum grade of B- earned for each course.

The minimum cumulative GPA for the minor is 3.0.

Core Coursework (3 to 6 credits)
Masters students select 3 to 6 credits, and doctoral student select 6 credits from the following in consultation with the Biomedical Engineering director of graduate studies:
BMEN 5001 - Advanced Biomaterials (3.0 cr)
BMEN 5101 - Advanced Bioelectricity and Instrumentation (3.0 cr)
BMEN 5201 - Advanced Biomechanics (3.0 cr)
BMEN 5311 - Advanced Biomedical Transport Processes (3.0 cr)
BMEN 5351 - Cell Engineering (3.0 cr)
BMEN 5401 - Advanced Biomedical Imaging (3.0 cr)
BMEN 8001 - Polymeric Biomaterials (3.0 cr)
BMEN 8041 - Advanced Tissue Engineering Lab (3.0 cr)
BMEN 8101 - Biomedical Digital Signal Processing (3.0 cr)
BMEN 8151 - Biomedical Electronics and Implantable Microsystems (3.0 cr)
BMEN 8201 - Advanced Tissue Mechanics (3.0 cr)
BMEN 8381 - Bioheat and Mass Transfer (3.0 cr)
BMEN 8421 - Biophotonics (3.0 cr)
BMEN 8431 - Controlled Drug and Gene Delivery: Materials, Mechanisms, and Models (4.0 cr)
BMEN 8501 - Dynamical Systems in Biology (3.0 cr)
BMEN 8502 - Physiological Control Systems (3.0 cr)
BMEN 8511 - Systems and Synthetic Biology (3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters
Electives (0 to 3 credits)
Masters students select credits from the following as needed, in consultation with the Biomedical Engineering director of graduate studies, to complete the 6-credit minimum.

BMEN 5031 - Engineering Extracellular Matrices (3.0 cr)
BMEN 5041 - Tissue Engineering (3.0 cr)
BMEN 5111 - Biomedical Ultrasound (3.0 cr)
BMEN 5151 - Introduction to BioMEMS and Medical Microdevices (2.0 cr)
BMEN 5321 - Microfluidics in Biology and Medicine (3.0 cr)
BMEN 5361 - 3D Bioprinting (2.0 cr)
BMEN 5411 - Neural Engineering (3.0 cr)
BMEN 5412 - Neuromodulation (3.0 cr)
BMEN 5413 - Neural Decoding and Interfacing (3.0 cr)
BMEN 5421 - Introduction to Biomedical Optics (3.0 cr)
BMEN 5501 - Biology for Biomedical Engineers (3.0 cr)
BMEN 5601 - Cardiovascular Devices (1.0 cr)
BMEN 5701 - Cancer Bioengineering (3.0 cr)
BMEN 5910 - Special Topics in Biomedical Engineering (3.0 cr)
BMEN 5920 - Special Topics in Biomedical Engineering (1.0 - 3.0 cr)
BMEN 8401 - New Product Design and Business Development (4.0 cr)
BMEN 8402 - New Product Design and Business Development (4.0 cr)
BMEN 8900 - Special Topics in Biomedical Engineering (1.0 - 4.0 cr)

Doctoral
A single course may not be counted toward more than one requirement.

Biology Elective (3 credits)
Select 3 credits from the following in consultation with the Biomedical Engineering director of graduate studies. Other courses may be applied to this requirement with the approval of the Biomedical Engineering director of graduate studies.
BIOC 5216 - Current Topics in Signal Transduction (2.0 cr)
BIOC 5361 - Microbial Genomics and Bioinformatics (3.0 cr)
BIOC 5444 - Muscle (3.0 cr)
BIOC 6021 - Biochemistry (3.0 cr)
BIOC 8002 - Molecular Biology and Regulation of Biological Processes (3.0 cr)
BIOC 8216 - Signal Transduction and Gene Expression (3.0 cr)
BMEN 5501 - Biology for Biomedical Engineers (3.0 cr)

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 54
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Biomedical engineering is the application of engineering principles and methods to problems in biology and medicine. The discipline includes the study of fundamental processes in biology and physiology, the study of the diagnosis and treatment of disease and injury, and the design and development of medical devices and techniques. Students take courses in mathematics, biology, biomedical engineering, and areas of science and engineering that are relevant for the degree objectives.

Program Delivery
This program is available:
* via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.50.

A baccalaureate degree in engineering or in a physical or biological science is required.

Other requirements to be completed before admission:
Applicants with an engineering degree do not need to complete any specific coursework prior to applying.

Applicants without an engineering degree must complete:
*math coursework through calculus I, calculus II, and differential equations; and
*at least one year of college-level physics, preferably calculus-based.

Special Application Requirements:
The application deadline is December 15 for the following fall semester. Admission is for fall semester only.

International applicants must submit score(s) from one of the following tests:
* TOEFL
* IELTS

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
30 credits are required in the major.
0 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

Coursework offered on both the A-F and S/N grading basis must be taken A-F, with a minimum grade of B- earned for each course.

A single course may NOT be counted simultaneously toward more than one of the requirements listed below.

Use of one 4xxx course toward program requirements is permitted under certain conditions with director of graduate studies approval.

At least 6 credits selected to satisfy the Biomedical Engineering Courses, Technical Electives, and/or Free Electives requirement must be designated as math- or statistics-intensive.

**Biomedical Engineering Courses (6 credits)**
Select 6 credits from the following in consultation with the advisor:

- BMEN 8001 - Polymeric Biomaterials (3.0 cr)
- BMEN 8041 - Advanced Tissue Engineering Lab (3.0 cr)
- BMEN 8101 - Biomedical Digital Signal Processing (3.0 cr)
- BMEN 8151 - Biomedical Electronics and Implantable Microsystems (3.0 cr)
- BMEN 8201 - Advanced Tissue Mechanics (3.0 cr)
- BMEN 8351 - Bioheat and Mass Transfer (3.0 cr)
- BMEN 8431 - Controlled Drug and Gene Delivery: Materials, Mechanisms, and Models (4.0 cr)
- BMEN 8501 - Dynamical Systems in Biology (3.0 cr)
- BMEN 8502 - Physiological Control Systems (3.0 cr)
- BMEN 8511 - Systems and Synthetic Biology (3.0 cr)

**Biomedical Engineering Seminars (3 credits)**
Take 3 credits, in any combination, in consultation with the advisor:

- BMEN 8601 - Biomedical Engineering Seminar (1.0 cr)
- BMEN 8602 - Biomedical Engineering Seminar (1.0 cr)

**Ethics Course (2 credits)**
Take the following course:
- BMEN 8611 - Professional Skills and Ethics for Biomedical Engineers (2.0 cr)

**Biology Electives (6 credits)**
Select 6 credits from the following in consultation with the advisor. Other courses may be applied to this requirement with advisor and director of graduate studies approval.

- BIOC 5216 - Current Topics in Signal Transduction (2.0 cr)
- BIOC 5361 - Microbial Genomics and Bioinformatics (3.0 cr)

**Thesis Credits (24 credits)**

Take 24 doctoral thesis credits after passing the preliminary oral exam.

**BMEN 8888** - Thesis Credit: Doctoral (1.0 - 24.0 cr)

**Math- or Statistics-intensive Courses**

**Math/Stat Courses**

At least 6 credits selected to satisfy the Biomedical Engineering Courses, Technical Electives, and/or Free Electives requirement must be designated as math- or statistics-intensive.

- **AEM 5451** - Optimal Estimation (3.0 cr)
- **AEM 5501** - Continuum Mechanics (3.0 cr)
- **AEM 5503** - Theory of Elasticity (3.0 cr)
- **AEM 8233** - Multi-phase Flows: Fundamentals, Measurement, and Modeling (3.0 cr)
- **AEM 8511** - Advanced Topics in Continuum Mechanics (3.0 cr)
- **BMEN 5111** - Biomedical Ultrasound (3.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Chemical Engineering

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Research activities in the Chemical Engineering and Materials Science (CEMS) Department focus on the development of renewable energy technologies, the solution of important medical and biological engineering challenges, the development of advanced materials and characterization methods, and the application of sophisticated mathematical and theoretical models. Graduate courses offered cover core areas of chemical engineering (fluid mechanics, applied mathematics: linear and nonlinear analysis, transport, chemical thermodynamics, statistical thermodynamics and kinetics, and analysis of chemical reactors) and core areas of materials science (structure and symmetry of materials, thermodynamics and kinetics, transport, advanced mathematics, electronic properties of materials, and mechanical properties of materials). In addition, several specialized topics are offered, including biochemical engineering, biological transport processes, colloids, principles of mass transfer in engineering and biological engineering, rheology, process control, ceramics, polymers, scattering, and electrochemical engineering.

The master of chemical engineering (MChE), also known as the professional master's, is designed for working professionals who are interested in obtaining a master's degree part-time. This degree requires a design project.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
A bachelor's degree in chemical engineering or other related field.

Other requirements to be completed before admission:
This professional master of engineering degree is designed for employees of local industries who wish to pursue their studies part time. No financial support is available. Applicants should contact the program before applying for admission.

Special Application Requirements:
Applicants must submit three letters of recommendation from persons familiar with their scholarship and research potential; a complete set of official transcripts; and a clearly written statement summarizing research/work experience and motivation for graduate work.

Applications are accepted for fall semester only. December 15 is the application deadline; late applications are considered if space is available.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5
- MELAB
Program Requirements

Plan A: Plan A requires 14 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is oral.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 2.80 is required for students to remain in good standing.

Courses must be taken on the A-F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

Approval of advisor and the director of graduate studies is required to apply 4xxx courses to degree requirements.

In addition to the coursework, MChE students are required to complete a design project. The work-related MChE design project consists of an in-depth study of an engineering design. It need not represent a publishable research project. While the amount of work should be the same as for a master's thesis, the project can contain elements that the thesis would not, such as economic considerations, design consultation, and social relevance.

Major Coursework (14 credits)

Core Courses (12 credits)

Select at least 12 credits from this list in consultation with the advisor:

- CHEN 8001 - Structure and Symmetry of Materials (3.0 cr)
- CHEN 8101 - Fluid Mechanics (3.0 cr)
- CHEN 8201 - Applied Math (3.0 cr)
- CHEN 8301 - Physical Rate Processes I: Transport (3.0 cr)
- CHEN 8401 - Physical and Chemical Thermodynamics (3.0 cr)
- CHEN 8402 - Statistical Thermodynamics and Kinetics (3.0 cr)
- CHEN 8501 - Chemical Rate Processes: Analysis of Chemical Reactors (3.0 cr)

Electives

Select credits from the following as needed, in consultation with the advisor, to complete the 14-credit requirement for the major. Other courses may be selected with advisor and director of graduate studies approval.

- CHEN 4214 - Polymers (3.0 cr)
- CHEN 5751 - Biochemical Engineering (3.0 cr)
- CHEN 5753 - Advanced Biomedical Transport Processes (3.0 cr)
- CHEN 5771 - Colloids and Dispersions (3.0 cr)
- CHEN 5803 - Chemical and Materials Technology Commercialization (3.0 cr)
- CHEN 8102 - Introduction to Rheology (2.0 cr)
- CHEN 8104 - Coating Process Fundamentals (2.0 cr)
- CHEN 8221 - Synthetic Polymer Chemistry (4.0 cr)
- CHEN 8754 - Systems Analysis of Biological Processes (3.0 cr)

Outside Coursework (6 to 16 credits)

Select credits from the following in consultation with the advisor. Other courses may be selected with advisor and director of graduate studies approval.

- AEM 4511 - Mechanics of Composite Materials (3.0 cr)
- AEM 5321 - Modern Feedback Control (3.0 cr)
- AEM 5451 - Optimal Estimation (3.0 cr)
- AEM 5501 - Continuum Mechanics (3.0 cr)
- AEM 5503 - Theory of Elasticity (3.0 cr)
- AEM 5581 - Mechanics of Solids (3.0 cr)
- AEM 8201 - Fluid Mechanics I (3.0 cr)
- AEM 8202 - Fluid Mechanics II (3.0 cr)
- AEM 8203 - Fluid Mechanics III (3.0 cr)
- AEM 8251 - Finite-Volume Methods in Computational Fluid Dynamics (3.0 cr)
- AEM 8421 - Robust Multivariable Control Design (3.0 cr)
- AEM 8423 - Convex Optimization Methods in Control (3.0 cr)
AEM 8511 - Advanced Topics in Continuum Mechanics (3.0 cr)
AEM 8525 - Elastic Stability of Materials (3.0 cr)
AEM 8531 - Fracture Mechanics (3.0 cr)
AEM 8541 - Mechanics of Crystalline Solids (3.0 cr)
AEM 8551 - Multiscale Methods for Bridging Length and Time Scales (3.0 cr)
BBE 5001 - Chemistry of Biomass and Biomass Conversion to Fuels and Products (4.0 cr)
BIOC 4332 - Biochemistry II: Molecular Mechanisms of Signal Transduction and Gene Expression (4.0 cr)
BIOC 5351 - Protein Engineering (3.0 cr)
BIOC 5352 - Biotechnology and Bioengineering for Biochemists (3.0 cr)
BIOC 5528 - Spectroscopy and Kinetics (4.0 cr)
BIOC 6021 - Biochemistry (3.0 cr)
BIOC 8002 - Molecular Biology and Regulation of Biological Processes (3.0 cr)
BMEN 5001 - Advanced Biomaterials (3.0 cr)
BMEN 5041 - Tissue Engineering (3.0 cr)
BMEN 5151 - Introduction to BioMEMS and Medical Microdevices (2.0 cr)
BMEN 5201 - Advanced Biomechanics (3.0 cr)
BMEN 5311 - Advanced Biomedical Transport Processes (3.0 cr)
BMEN 5321 - Microfluidics in Biology and Medicine (3.0 cr)
BMEN 5351 - Cell Engineering (3.0 cr)
BMEN 5501 - Biology for Biomedical Engineers (3.0 cr)
BMEN 5701 - Cancer Bioengineering (3.0 cr)
BMEN 8001 - Polymeric Biomaterials (3.0 cr)
BMEN 8431 - Controlled Drug and Gene Delivery: Materials, Mechanisms, and Models (4.0 cr)
BMEN 8511 - Systems and Synthetic Biology (3.0 cr)
CEGE 8022 - Numerical Methods for Free and Moving Boundary Problems (3.0 cr)
CEGE 8401 - Fundamentals of Finite Element Method (3.0 cr)
CEGE 8402 - Nonlinear Finite Element Analysis (3.0 cr)
CEGE 8501 - Environmental Fluid Mechanics I (4.0 cr)
CEGE 8502 - Environmental Fluid Mechanics II (4.0 cr)
CEGE 8504 - Theory of Unit Operations (4.0 cr)
CEGE 8505 - Biological Processes (3.0 cr)
CHEM 5210 - Materials Characterization (4.0 cr)
CHEM 5755 - X-Ray Crystallography (4.0 cr)
CHEM 8011 - Mechanisms of Chemical Reactions (4.0 cr)
CHEM 8021 - Computational Chemistry (4.0 cr)
CHEM 8151 - Analytical Separations and Chemical Equilibria (4.0 cr)
CHEM 8152 - Analytical Spectroscopy (4.0 cr)
CHEM 8201 - Materials Chemistry (4.0 cr)
CHEM 8211 - Physical Polymer Chemistry (4.0 cr)
CHEM 8221 - Synthetic Polymer Chemistry (4.0 cr)
CHEM 8321 - Organic Synthesis (4.0 cr)
CHEM 8322 - Advanced Organic Chemistry (4.0 cr)
CHEM 8361 - Interpretation of Organic Spectra (4.0 cr)
CHEM 8411 - Introduction to Chemical Biology (4.0 cr)
CHEM 8412 - Chemical Biology of Enzymes (4.0 cr)
CHEM 8551 - Quantum Mechanics I (4.0 cr)
CHEM 8561 - Thermodynamics, Statistical Mechanics, and Reaction Dynamics I (4.0 cr)
CHEM 8562 - Thermodynamics, Statistical Mechanics, and Reaction Dynamics II (4.0 cr)
CSCI 5302 - Analysis of Numerical Algorithms (3.0 cr)
CSCI 5304 - Computational Aspects of Matrix Theory (3.0 cr)
CSCI 5461 - Functional Genomics, Systems Biology, and Bioinformatics (3.0 cr)
CSCI 5521 - Machine Learning Fundamentals (3.0 cr)
CSCI 5525 - Machine Learning: Analysis and Methods (3.0 cr)
CSCI 8363 - Numerical Linear Algebra in Data Exploration (3.0 cr)
EE 5163 - Semiconductor Properties and Devices I (3.0 cr)
EE 5164 - Semiconductor Properties and Devices II (3.0 cr)
EE 5171 - Microelectronic Fabrication (3.0 cr)
EE 5173 - Basic Microelectronics Laboratory (1.0 cr)
EE 5181 - Micro and Nanotechnology by Self Assembly (3.0 cr)
EE 5231 - Linear Systems and Optimal Control (3.0 cr)
EE 5235 - Robust Control System Design (3.0 cr)
EE 5239 - Introduction to Nonlinear Optimization (3.0 cr)
EE 5251 - Optimal Filtering and Estimation (3.0 cr)
EE 5531 - Probability and Stochastic Processes (3.0 cr)
EE 5561 - Image Processing and Applications: From linear filters to artificial intelligence (3.0 cr)
EE 5621 - Physical Optics (3.0 cr)
EE 5622 - Physical Optics Laboratory (1.0 cr)
EE 5624 - Optical Electronics (4.0 cr)
EE 5640 - Introduction to Nano-Optics (3.0 cr)
EE 5653 - Physical Principles of Magnetic Materials (3.0 cr)
EE 5655 - Magnetic Recording (3.0 cr)
EE 5657 - Physical Principles of Thin Film Technology (4.0 cr)
EE 8161 - Physics of Semiconductors (3.0 cr)
EE 8231 - Optimization Theory (3.0 cr)
ESCI 5353 - Electron Microprobe Theory and Practice (3.0 cr)
FSCN 8314 - Food Materials Science (2.0 cr)
GCD 4034 - Molecular Genetics and Genomics (3.0 cr)
GCD 8151 - Cellular Biochemistry and Cell Biology (2.0 - 4.0 cr)
GCD 8161 - Advanced Cell Biology and Development (2.0 cr)
IE 5531 - Engineering Optimization I (4.0 cr)
IE 5532 - Stochastic Models (4.0 cr)
IE 8521 - Optimization (4.0 cr)
IE 8531 - Discrete Optimization (4.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30
- This program requires summer semesters for timely completion.
- Degree: Master of Science in Chemical Engineering

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Research activities in the Chemical Engineering and Materials Science (CEMS) Department focus on the development of renewable energy technologies, the solution of important medical and biological engineering challenges, the development of advanced materials and characterization methods, and the application of sophisticated mathematical and theoretical models. Graduate courses offered cover core areas of chemical engineering (fluid mechanics, applied mathematics: linear and nonlinear analysis, transport, chemical thermodynamics, statistical thermodynamics and kinetics, and analysis of chemical reactors) and core areas of materials science (structure and symmetry of materials, thermodynamics and kinetics, transport, advanced mathematics, electronic properties of materials, and mechanical properties of materials). In addition, several specialized topics are offered, including biochemical engineering, biological transport processes, colloids, principles of mass transfer in engineering and biological engineering, rheology, process control, ceramics, polymers, scattering, and electrochemical engineering.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
A bachelor's degree in chemical engineering or other related field.

Other requirements to be completed before admission:
CEMS does not admit directly to the MSChE Plan A (with thesis) for full-time study with support.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Plan A: Plan A requires 14 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is written and oral.

Plan C: Plan C requires 18 major credits and 12 credits outside the major. The is no final exam.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 2.80 is required for students to remain in good standing.

Courses must be taken on the A-F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

Plan Options

Plan A
Thesis Credits
Take 10 master's thesis credits.
CHEN 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)
Twin Cities Campus
Chemical Engineering Minor
Chemical Engineering & Materials Science
College of Science and Engineering

Link to a list of faculty for this program.

Contact Information:
Department of Chemical Engineering and Materials Science, University of Minnesota, 151 Amundson Hall, 421 Washington Ave SE, Minneapolis, MN 55455 (612-625-0382; fax: 612-626-7246)
Email: cemsgrad@umn.edu
Website: https://cse.umn.edu/cems

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Research in the Chemical Engineering and Materials Science (CEMS) Department spans all aspects of chemical and materials engineering ranging from fluid mechanics, transport, catalysis, and reactor design to bioengineering, renewable energy, polymer synthesis and processing, and advanced semiconductor growth and characterization. A strong tradition in mathematical modeling and computation complements experimental efforts. The research of CEMS core faculty and affiliated graduate faculty is organized into 14 themes: applied and computational mathematics; biological engineering; catalysis, separations and reaction engineering; electrochemical materials and devices; electronic, magnetic and photonic materials; electron microscopy; energy; materials processing; materials theory; nanomaterials and nanotechnology; nanomechanics and plasticity; polymer science and engineering; systems engineering; and transport and fluid mechanics.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Chemical Engineering director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Minor programs must be approved by the Chemical Engineering director of graduate studies.

Courses must be taken on the A-F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

The minimum cumulative GPA for the minor is 3.00.

Minor Courses (6-12 credits)
Master's students select a minimum of 6 credits, and doctoral students select a minimum of 12 credits in consultation with the Chemical Engineering director of graduate studies.
CHEN 8001 - Structure and Symmetry of Materials (3.0 cr)
CHEN 8101 - Fluid Mechanics (3.0 cr)
CHEN 8201 - Applied Math (3.0 cr)
CHEN 8301 - Physical Rate Processes I: Transport (3.0 cr)
CHEN 8401 - Physical and Chemical Thermodynamics (3.0 cr)
CHEN 8402 - Statistical Thermodynamics and Kinetics (3.0 cr)
CHEN 8501 - Chemical Rate Processes: Analysis of Chemical Reactors (3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Twin Cities Campus
Chemical Engineering Ph.D.
Chemical Engineering & Materials Science
College of Science and Engineering

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 57
- This program requires summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Research activities in the Chemical Engineering and Materials Science (CEMS) Department focus on the development of renewable energy technologies, the solution of important medical and biological engineering challenges, the development of advanced materials and characterization methods, and the application of sophisticated mathematical and theoretical models. Graduate courses offered cover core areas of chemical engineering (fluid mechanics, applied mathematics: linear and nonlinear analysis, transport, chemical thermodynamics, statistical thermodynamics and kinetics, and analysis of chemical reactors) and core areas of materials science (structure and symmetry of materials, thermodynamics and kinetics, transport, advanced mathematics, electronic properties of materials, and mechanical properties of materials). In addition, several specialized topics are offered, including biochemical engineering, biological transport processes, colloids, principles of mass transfer in engineering and biological engineering, rheology, process control, ceramics, polymers, scattering, and electrochemical engineering.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
A bachelor's degree in chemical engineering or related field.

Other requirements to be completed before admission:
Three letters of recommendation from persons familiar with their scholarship and research potential; a complete set of official transcripts; and a clearly written statement summarizing research/work experience and motivation for graduate work. International students are required to provide TOEFL results.

Special Application Requirements:
Applications are accepted for fall semester only. Submission of all application materials by December 15 is strongly encouraged to ensure priority consideration for fellowships and assistantships; late applications are considered if space is available.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5
- MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements
18 to 27 credits are required in the major.
6 to 15 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

Courses must be taken on the A-F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

Approval of advisor and the director of graduate studies is required to apply 4xxx courses to degree requirements.

Students must attend the departmental seminar for six semesters. Registration is not required; informal attendance will be done within the department.

Major Coursework (18 to 27 credits)
Core Courses (12 credits)
Select at least 12 credits from this list in consultation with the advisor:
CHEN 8001 - Structure and Symmetry of Materials (3.0 cr)
CHEN 8101 - Fluid Mechanics (3.0 cr)
CHEN 8201 - Applied Math (3.0 cr)
CHEN 8301 - Physical Rate Processes I: Transport (3.0 cr)
CHEN 8401 - Physical and Chemical Thermodynamics (3.0 cr)
CHEN 8402 - Statistical Thermodynamics and Kinetics (3.0 cr)
CHEN 8501 - Chemical Rate Processes: Analysis of Chemical Reactors (3.0 cr)

Electives
Select credits from the following as needed, in consultation with the advisor, to complete the major field credit requirement. Other courses may be selected with advisor and director of graduate studies approval.
CHEN 4214 - Polymers (3.0 cr)
CHEN 5751 - Biochemical Engineering (3.0 cr)
CHEN 5753 - Advanced Biomedical Transport Processes (3.0 cr)
CHEN 5771 - Colloids and Dispersions (3.0 cr)
CHEN 5801 - Optimization in Chemical and Energy Systems Engineering (3.0 cr)
CHEN 5803 - Chemical and Materials Technology Commercialization (3.0 cr)
CHEN 8102 - Introduction to Rheology (2.0 cr)
CHEN 8104 - Coating Process Fundamentals (2.0 cr)
CHEN 8221 - Synthetic Polymer Chemistry (4.0 cr)
CHEN 8754 - Systems Analysis of Biological Processes (3.0 cr)

Outside Coursework (6 to 15 credits)
Select 6 to 15 credits from the following as needed, in consultation with the advisor, to meet the outside and total course credits required. Other courses may be selected with advisor director of graduate studies approval.
AEM 4511 - Mechanics of Composite Materials (3.0 cr)
AEM 5321 - Modern Feedback Control (3.0 cr)
AEM 5451 - Optimal Estimation (3.0 cr)
AEM 5501 - Continuum Mechanics (3.0 cr)
AEM 5503 - Theory of Elasticity (3.0 cr)
AEM 5581 - Mechanics of Solids (3.0 cr)
AEM 8201 - Fluid Mechanics I (3.0 cr)
AEM 8202 - Fluid Mechanics II (3.0 cr)
AEM 8203 - Fluid Mechanics III (3.0 cr)
AEM 8251 - Finite-Volume Methods in Computational Fluid Dynamics (3.0 cr)
AEM 8421 - Robust Multivariable Control Design (3.0 cr)
AEM 8423 - Convex Optimization Methods in Control (3.0 cr)
AEM 8511 - Advanced Topics in Continuum Mechanics (3.0 cr)
AEM 8525 - Elastic Stability of Materials (3.0 cr)
AEM 8531 - Fracture Mechanics (3.0 cr)
AEM 8541 - Mechanics of Crystalline Solids (3.0 cr)
AEM 8551 - Multiscale Methods for Bridging Length and Time Scales (3.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30
- This program requires summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Chemical physics focuses on research areas where the techniques of chemistry and physics are combined for the study of atoms and molecules; their interactions in gases, liquids, and solids; and the detailed structure and dynamics of material changes. Areas of research and specialization include spectroscopy, molecular collisions, chemical dynamics, quantum mechanics, statistical mechanics, thermodynamics, low-temperature behavior, polymers and macromolecules, surface science, and biochemical and heterogeneous catalysis.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.20.

An undergraduate degree in chemistry, physics, or a related field is required.

Other requirements to be completed before admission:
Prospective graduate students should have adequate undergraduate preparation in chemistry, physics and mathematics.

Special Application Requirements:
Applications for fall semester must be completed by December 1 in order to be considered for financial support. Applications received after December 1 will be reviewed on a space available basis. The department prefers to admit for fall semester and will only consider spring admission under extenuating circumstances.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 95
  - Internet Based - Speaking Score: 23
- IELTS
  - Total Score: 7
- MELAB
  - Final score: 83

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements

Plan A: Plan A requires 20 major credits, up to null credits outside the major, and 10 thesis credits. The final exam is oral.

Plan B: Plan B requires 30 major credits and up to null credits outside the major. The final exam is written. A capstone project is required.

Capstone Project: Each Plan B project should involve a combined total of approximately 160 hours (the equivalent of four full-time weeks) of library research, reading, and/or writing resulting in the preparation of a significant written document. Students who plan to work on Plan B projects independent of the Preliminary Examination should present a plan, after consultation with the chosen instructor for the Plan B project, outlining the number and content of their projects to the director of graduate studies. Projects should be completed to the satisfaction of the instructor; the final grade is determined by the instructor.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 2.8 is required for students to remain in good standing.

Courses offered on both the A-F and S/N grading basis must be taken A-F.

Restrictions to application of 4-level credits to degree requirements include:

- Courses cannot be CHEM or PHYS courses
- Courses must be pre-approved by the advisor and director of graduate studies
- A maximum of 8 4-level credits is allowed.

Required Courses (2 credits)

Take CHPH 8601 in fall or spring of the first year of study; take CHEM 8066 spring of the first year.

- CHEM 8066 - Professional Conduct of Chemical Research (1.0 cr)
- CHPH 8601 - Seminar: Modern Problems in Chemical Physics (1.0 cr)

Major Coursework (18 to 20 credits)

Plan A students select 18 credits, and Plan B students select 20 credits from the following list. Other courses may be chosen with advisor approval.

- CHEM 5210 - Materials Characterization (4.0 cr)
- CHEM 5755 - X-Ray Crystallography (4.0 cr)
- CHEM 8011 - Mechanisms of Chemical Reactions (4.0 cr)
- CHEM 8021 - Computational Chemistry (4.0 cr)
- CHEM 8151 - Analytical Separations and Chemical Equilibria (4.0 cr)
- CHEM 8152 - Analytical Spectroscopy (4.0 cr)
- CHEM 8153 - Extracting Signal From Noise (5.0 cr)
- CHEM 8155 - Advanced Electroanalytical Chemistry (4.0 cr)
- CHEM 8157 - Bioanalytical Chemistry (4.0 cr)
- CHEM 8201 - Materials Chemistry (4.0 cr)
- CHEM 8211 - Physical Polymer Chemistry (4.0 cr)
- CHEM 8221 - Synthetic Polymer Chemistry (4.0 cr)
- CHEM 8280 - Special Topics in Materials Chemistry (2.0 - 4.0 cr)
- CHEM 8321 - Organic Synthesis (4.0 cr)
- CHEM 8322 - Advanced Organic Chemistry (4.0 cr)
- CHEM 8352 - Physical Organic Chemistry (4.0 cr)
- CHEM 8361 - Interpretation of Organic Spectra (4.0 cr)
- CHEM 8380 - Special Topics in Organic Chemistry (1.0 - 4.0 cr)
- CHEM 8411 - Introduction to Chemical Biology (4.0 cr)
- CHEM 8412 - Chemical Biology of Enzymes (4.0 cr)
- CHEM 8413 - Nucleic Acids (4.0 cr)
- CHEM 8480 - Special Topics in Biological Chemistry (2.0 - 4.0 cr)
- CHEM 8541 - Dynamics (4.0 cr)
- CHEM 8551 - Quantum Mechanics I (4.0 cr)
- CHEM 8552 - Quantum Mechanics II (2.0 cr)
- CHEM 8561 - Thermodynamics, Statistical Mechanics, and Reaction Dynamics I (4.0 cr)
- CHEM 8562 - Thermodynamics, Statistical Mechanics, and Reaction Dynamics II (4.0 cr)
- CHEM 8563 - Molecular Simulations (2.0 cr)
- CHEM 8564 - Laser Spectroscopy (2.0 cr)
- CHEM 8565 - Chemical Reaction Dynamics (2.0 cr)
Plan Options

Plan A

Thesis Credits
Take 10 master's thesis credits.
CHPH 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

-OR-

Plan B

Project Credits (8 credits)
Take the following courses:
CHPH 8081 - M.S. Plan B Project I (4.0 cr)
CHPH 8082 - M.S. Plan B Project II (4.0 cr)
Twin Cities Campus

Chemical Physics Minor

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Chemical physics focuses on research areas where the techniques of chemistry and physics are combined for the study of atoms and molecules; their interactions in gases, liquids, and solids, and the detailed structure and dynamics of material changes. Areas of research and specialization include spectroscopy, molecular collisions, chemical dynamics, quantum mechanics, statistical mechanics, thermodynamics, low-temperature behavior, polymers and macromolecules, surface science, and biochemical and heterogeneous catalysis.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Chemical Physics director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Courses must be taken on the A-F grade basis, unless only offered S/N.

The minimum cumulative GPA for the minor is 3.00.

Chemistry Coursework (3 to 6 credits)
Master’s students select 3 credits, and doctoral students select 6 credits from the following in consultation with their advisor and the Chemical Physics director of graduate studies:
CHEM 5210 - Materials Characterization (4.0 cr)
CHEM 5755 - X-Ray Crystallography (4.0 cr)
CHEM 8011 - Mechanisms of Chemical Reactions (4.0 cr)
CHEM 8021 - Computational Chemistry (4.0 cr)
CHEM 8151 - Analytical Separations and Chemical Equilibria (4.0 cr)
CHEM 8152 - Analytical Spectroscopy (4.0 cr)
CHEM 8153 - Extracting Signal From Noise (5.0 cr)
CHEM 8155 - Advanced Electroanalytical Chemistry (4.0 cr)

CHEM 8715 - Physical Inorganic Chemistry (4.0 cr)
CHEM 8725 - Organometallic Chemistry (4.0 cr)
CHEM 8745 - Advanced Inorganic Chemistry (4.0 cr)
CHEM 8780 - Special Topics in Inorganic Chemistry (2.0 - 4.0 cr)

Physics Coursework (3 to 6 credits)
Master's students select 3 credits and doctoral students select 6 credits from the following in consultation with their advisor and the Chemical Physics director of graduate studies:

PHYS 5001 - Quantum Mechanics I (4.0 cr)
PHYS 5002 - Quantum Mechanics II (4.0 cr)
PHYS 5011 - Classical Physics I (4.0 cr)
PHYS 5012 - Classical Physics II (4.0 cr)
PHYS 5022 - Relativity, Cosmology, and the Universe (4.0 cr)
PHYS 5041 - Mathematical Methods for Physics (4.0 cr)
PHYS 5081 - Introduction to Biopolymer Physics (3.0 cr)
PHYS 5201 - Thermal and Statistical Physics (3.0 cr)
PHYS 5621 - Introduction to Plasma Physics (3.0 cr)
PHYS 5701 - Solid-State Physics for Engineers and Scientists (4.0 cr)
PHYS 8001 - Advanced Quantum Mechanics (3.0 cr)
PHYS 8011 - Quantum Field Theory I (3.0 cr)
PHYS 8012 - Quantum Field Theory II (3.0 cr)
PHYS 8013 - Special Topics in Quantum Field Theory (3.0 cr)
PHYS 8014 - Quantum many Body Systems (3.0 cr)
PHYS 8161 - Atomic and Molecular Structure (3.0 cr)
PHYS 8200 - Seminar: Cosmology and High Energy Astrophysics (1.0 cr)
PHYS 8301 - Symmetry and Its Application to Physical Problems (3.0 cr)
PHYS 8311 - Biological Physics of Single Molecules (3.0 cr)
PHYS 8312 - Biological Physics of Macromolecular Systems (3.0 cr)
PHYS 8501 - General Relativity and Cosmology I (3.0 cr)
PHYS 8502 - General Relativity and Cosmology II (3.0 cr)
PHYS 8601 - Plasma Physics I (3.0 cr)
PHYS 8602 - Plasma Physics II (3.0 cr)
PHYS 8611 - Cosmic Rays and Plasma Astrophysics (3.0 cr)
PHYS 8650 - Advanced Topics in Space and Plasma Physics (3.0 cr)
PHYS 8702 - Statistical Mechanics and Transport Theory (3.0 cr)
PHYS 8711 - Solid-State Physics I (3.0 cr)
PHYS 8712 - Solid-State Physics II (3.0 cr)
PHYS 8750 - Advanced Topics in Condensed Matter Physics (3.0 cr)
PHYS 8801 - Nuclear Physics I (3.0 cr)
PHYS 8802 - Nuclear Physics II (3.0 cr)
PHYS 8850 - Advanced Topics in Nuclear Physics (3.0 cr)
PHYS 8901 - Elementary Particle Physics I (3.0 cr)
PHYS 8902 - Elementary Particle Physics II (3.0 cr)
PHYS 8911 - Introduction to Supersymmetry (3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Chemical Physics Ph.D.
Chemistry
College of Science and Engineering

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

While modern research in chemistry is very interdisciplinary, graduate work in the Department of Chemistry falls broadly into the focus areas of analytical chemistry, chemical biology, environmental chemistry, inorganic chemistry, materials chemistry, organic chemistry, polymer chemistry, experimental physical chemistry, and computational chemistry.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.20.

An undergraduate degree in chemistry or a related field is required for admission.

Other requirements to be completed before admission:
Applicants must offer the substantial equivalent of the courses in analytical, inorganic, organic, and physical chemistry that are required of undergraduate majors in the University of Minnesota chemistry curriculum. They must also have at least one year of college physics, plus college mathematics through calculus.

Special Application Requirements:
Applications for fall semester must be completed by December 1 in order to be considered for fellowship support and teaching and research assistantships. Applications received after December 1 will be reviewed on a space available basis. The department prefers to admit for fall semester and will only consider spring admission under extenuating circumstances.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 95
  - Internet Based - Speaking Score: 23
- IELTS
  - Total Score: 7
- MELAB
  - Final score: 83

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements

Plan A: Plan A requires 20 major credits, up to null credits outside the major, and 10 thesis credits. The final exam is oral.

Plan B: Plan B requires 30 major credits and up to null credits outside the major. The final exam is written. A capstone project is required.

Capstone Project: Each Plan B project should involve a combined total of approximately 160 hours (the equivalent of four full-time weeks) of library research, reading, and/or writing resulting in the preparation of a significant written document. Students who plan to work on Plan B projects independent of the Preliminary Examination should present a plan, after consultation with the chosen instructor for the Plan B project, outlining the number and content of their projects to the director of graduate studies. Projects should be completed to the satisfaction of the instructor; the final grade is determined by the instructor.

Plan C: Plan C requires 30 major credits and up to null credits outside the major. There is no final exam.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 2.80 is required for students to remain in good standing.

Courses must be taken on the A-F grade basis, unless only offered S/N.

All CHEM courses must be taken at the 5xxx or 8xxx level. A maximum of 8 credits in 4xxx-level courses from another department may be used with approval from the director of graduate studies.

Required Courses (2 credits)
Take CHEM 8601 in fall or spring the first year of study; take CHEM 8066 in spring of the first year.

CHEM 8066 - Professional Conduct of Chemical Research (1.0 cr)
CHEM 8601 - Seminar: Modern Problems in Chemistry (1.0 cr)

Major Courses (18 to 28 credits)
Plan A students select 18 credits, Plan B students select 20 credits, and Plan C students select 28 credits from the following list. Other courses may be applied to this requirement with advisor approval.

BIOC 4331 - Biochemistry I: Structure, Catalysis, and Metabolism in Biological Systems (4.0 cr)
BIOC 4332 - Biochemistry II: Molecular Mechanisms of Signal Transduction and Gene Expression (4.0 cr)
BIOC 5351 - Protein Engineering (3.0 cr)
BIOC 8005 - Biochemistry: Structure and Catalysis (2.0 cr)
BIOC 8102 - Hot Topics in the Biology of Aging (1.0 cr)
BIOL 4004 - Cell Biology (3.0 cr)
CEGE 8542 - Chemistry of Organic Pollutants in Environmental Systems (3.0 cr)
CHEM 5210 - Materials Characterization (4.0 cr)
CHEM 5755 - X-Ray Crystallography (4.0 cr)
CHEM 8011 - Mechanisms of Chemical Reactions (4.0 cr)
CHEM 8021 - Computational Chemistry (4.0 cr)
CHEM 8151 - Analytical Separations and Chemical Equilibria (4.0 cr)
CHEM 8152 - Analytical Spectroscopy (4.0 cr)
CHEM 8153 - Extracting Signal From Noise (5.0 cr)

PHYS 8711 - Solid-State Physics I (3.0 cr)
PUBH 6414 - Biostatistical Literacy (3.0 cr)
PUBH 6450 - Biostatistics I (4.0 cr)
STAT 5021 - Statistical Analysis (4.0 cr)

**Plan Options**

**Plan A**
Take 10 master's thesis credits.
- CHEM 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

**Plan B (8 credits)**
Take each of the following project courses for 4 credits:
- CHEM 8081 - M.S. Plan B Project I (1.0 - 4.0 cr)
- CHEM 8082 - M.S. Plan B Project II (1.0 - 4.0 cr)

• Program Type: Graduate minor related to major
• Requirements for this program are current for Fall 2022
• Length of program in credits (Masters): 6
• Length of program in credits (Doctorate): 12
• This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

While modern research in chemistry is very interdisciplinary, graduate work in the Department of Chemistry falls broadly into the focus areas of analytical chemistry, chemical biology, environmental chemistry, inorganic chemistry, materials chemistry, organic chemistry, polymer chemistry, experimental physical chemistry, and computational chemistry.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Chemistry director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Courses offered on both the A-F and S/N grading basis must be taken A-F.

The minimum cumulative GPA for the minor is 3.00.

Minor Coursework (6-12 credits)
Masters students select 6 credits, and doctoral students select 12 credits from the following in consultation with the Chemistry director of graduate studies. Other courses may be selected with director of graduate studies approval.

CHEM 5210 - Materials Characterization (4.0 cr)
CHEM 5755 - X-Ray Crystallography (4.0 cr)
CHEM 8011 - Mechanisms of Chemical Reactions (4.0 cr)
CHEM 8021 - Computational Chemistry (4.0 cr)
CHEM 8151 - Analytical Separations and Chemical Equilibria (4.0 cr)
CHEM 8152 - Analytical Spectroscopy (4.0 cr)
CHEM 8153 - Extracting Signal From Noise (5.0 cr)
CHEM 8155 - Advanced Electroanalytical Chemistry (4.0 cr)
CHEM 8157 - Bioanalytical Chemistry (4.0 cr)
CHEM 8201 - Materials Chemistry (4.0 cr)
CHEM 8211 - Physical Polymer Chemistry (4.0 cr)
CHEM 8221 - Synthetic Polymer Chemistry (4.0 cr)
CHEM 8280 - Special Topics in Materials Chemistry (2.0 - 4.0 cr)
CHEM 8321 - Organic Synthesis (4.0 cr)
CHEM 8322 - Advanced Organic Chemistry (4.0 cr)
CHEM 8352 - Physical Organic Chemistry (4.0 cr)
CHEM 8361 - Interpretation of Organic Spectra (4.0 cr)
CHEM 8380 - Special Topics in Organic Chemistry (1.0 - 4.0 cr)
CHEM 8411 - Introduction to Chemical Biology (4.0 cr)
CHEM 8412 - Chemical Biology of Enzymes (4.0 cr)
CHEM 8413 - Nucleic Acids (4.0 cr)
CHEM 8480 - Special Topics in Biological Chemistry (2.0 - 4.0 cr)
CHEM 8541 - Dynamics (4.0 cr)
CHEM 8551 - Quantum Mechanics I (4.0 cr)
CHEM 8552 - Quantum Mechanics II (2.0 cr)
CHEM 8561 - Thermodynamics, Statistical Mechanics, and Reaction Dynamics I (4.0 cr)
CHEM 8562 - Thermodynamics, Statistical Mechanics, and Reaction Dynamics II (4.0 cr)
CHEM 8563 - Molecular Simulations (2.0 cr)
CHEM 8564 - Laser Spectroscopy (2.0 cr)
CHEM 8565 - Chemical Reaction Dynamics (2.0 cr)
CHEM 8566 - Spin Dynamics (2.0 cr)
CHEM 8567 - Biophysical Chemistry (2.0 cr)
CHEM 8568 - Chemical Bonding at Surfaces (2.0 cr)
CHEM 8569 - Electronic Structure (2.0 cr)
CHEM 8580 - Special Topics in Physical Chemistry (2.0 - 4.0 cr)
CHEM 8715 - Physical Inorganic Chemistry (4.0 cr)
CHEM 8725 - Organometallic Chemistry (4.0 cr)
CHEM 8735 - Bioinorganic Chemistry (4.0 cr)
CHEM 8745 - Advanced Inorganic Chemistry (4.0 cr)
CHEM 8780 - Special Topics in Inorganic Chemistry (2.0 - 4.0 cr)
CHEM 8880 - Special Topics in Chemistry (2.0 - 4.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Twin Cities Campus
Chemistry Ph.D.
Chemistry
College of Science and Engineering

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 48
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

While modern research in chemistry is very interdisciplinary, graduate work in the Department of Chemistry falls broadly into the focus areas of analytical chemistry, chemical biology, environmental chemistry, inorganic chemistry, materials chemistry, organic chemistry, polymer chemistry, experimental physical chemistry, and computational chemistry.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.20.

An undergraduate degree in chemistry or a related field is required for admission.

Other requirements to be completed before admission:
Applicants must offer the substantial equivalent of the courses in analytical, inorganic, organic, and physical chemistry that are required of undergraduate majors in the University of Minnesota chemistry curriculum. They must also have at least one year of college physics, plus college mathematics through calculus.

Special Application Requirements:
Applications for fall semester must be completed by December 1 in order to be considered for fellowship support and teaching and research assistantships. Applications received after December 1 will be reviewed on a space available basis. The department prefers to admit for fall semester and will only consider spring admission under extenuating circumstances.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 95
  - Internet Based - Speaking Score: 23
- IELTS
  - Total Score: 7
- MELAB
  - Final score: 83

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of November 07, 2022
Program Requirements
24 credits are required in the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

Courses must be taken on the A-F grade basis, unless only offered S/N.

All CHEM courses must be taken at the 5xxx or 8xxx level. A maximum of 8 credits in 4xxx-level courses from other departments may be used with approval from the director of graduate studies.

Required Courses (2 credits)
Take CHEM 8601 in fall or spring the first year of study; take CHEM 8066 in spring of the first year.
CHEM 8066 - Professional Conduct of Chemical Research (1.0 cr)
CHEM 8601 - Seminar: Modern Problems in Chemistry (1.0 cr)

Major Courses (22 credits)
Select courses from the following list in consultation with the advisor. Other courses may be selected with advisor approval.
BIOC 4331 - Biochemistry I: Structure, Catalysis, and Metabolism in Biological Systems (4.0 cr)
BIOC 4332 - Biochemistry II: Molecular Mechanisms of Signal Transduction and Gene Expression (4.0 cr)
BIOC 5351 - Protein Engineering (3.0 cr)
BIOC 8005 - Biochemistry: Structure and Catalysis (2.0 cr)
BIOC 8102 - Hot Topics in the Biology of Aging (1.0 cr)
BIOL 4004 - Cell Biology (3.0 cr)
CEGE 8542 - Chemistry of Organic Pollutants in Environmental Systems (3.0 cr)
CHEM 5210 - Materials Characterization (4.0 cr)
CHEM 5755 - X-Ray Crystallography (4.0 cr)
CHEM 8011 - Mechanisms of Chemical Reactions (4.0 cr)
CHEM 8021 - Computational Chemistry (4.0 cr)
CHEM 8151 - Analytical Separations and Chemical Equilibria (4.0 cr)
CHEM 8152 - Analytical Spectroscopy (4.0 cr)
CHEM 8153 - Extracting Signal From Noise (5.0 cr)
CHEM 8155 - Advanced Electroanalytical Chemistry (4.0 cr)
CHEM 8157 - Bioanalytical Chemistry (4.0 cr)
CHEM 8201 - Materials Chemistry (4.0 cr)
CHEM 8211 - Physical Polymer Chemistry (4.0 cr)
CHEM 8221 - Synthetic Polymer Chemistry (4.0 cr)
CHEM 8280 - Special Topics in Materials Chemistry (2.0 - 4.0 cr)
CHEM 8321 - Organic Synthesis (4.0 cr)
CHEM 8322 - Advanced Organic Chemistry (4.0 cr)
CHEM 8352 - Physical Organic Chemistry (4.0 cr)
CHEM 8361 - Interpretation of Organic Spectra (4.0 cr)
CHEM 8380 - Special Topics in Organic Chemistry (1.0 - 4.0 cr)
CHEM 8411 - Introduction to Chemical Biology (4.0 cr)
CHEM 8412 - Chemical Biology of Enzymes (4.0 cr)
CHEM 8413 - Nucleic Acids (4.0 cr)
CHEM 8480 - Special Topics in Biological Chemistry (2.0 - 4.0 cr)
CHEM 8541 - Dynamics (4.0 cr)
CHEM 8551 - Quantum Mechanics I (4.0 cr)
CHEM 8552 - Quantum Mechanics II (2.0 cr)
CHEM 8561 - Thermodynamics, Statistical Mechanics, and Reaction Dynamics I (4.0 cr)
CHEM 8562 - Thermodynamics, Statistical Mechanics, and Reaction Dynamics II (4.0 cr)
CHEM 8563 - Molecular Simulations (2.0 cr)
CHEM 8564 - Laser Spectroscopy (2.0 cr)
CHEM 8565 - Chemical Reaction Dynamics (2.0 cr)
CHEM 8566 - Spin Dynamics (2.0 cr)
CHEM 8567 - Biophysical Chemistry (2.0 cr)
CHEM 8568 - Chemical Bonding at Surfaces (2.0 cr)
CHEM 8569 - Electronic Structure (2.0 cr)
CHEM 8580 - Special Topics in Physical Chemistry (2.0 - 4.0 cr)
CHEM 8715 - Physical Inorganic Chemistry (4.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Civil Engineering

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Master in Civil Engineering (MCE) degree is a terminal degree designed for practicing engineers who wish to obtain an advanced degree in the field on a part- or full-time basis. The program offers students the opportunity to focus on one of the following areas of engineering: environmental (e.g., pollutant fate and transport, process modeling, soil and groundwater remediation, water and wastewater treatment), geomechanics (e.g., fracture and localization, groundwater flow, stability and liquefaction, wave and shock propagation), structural (e.g., computational and structural mechanics, earthquake engineering, infrastructure performance and durability, new systems and materials), transportation (e.g., intelligent transportation systems, pavement design and materials, transportation economics, traffic safety), or water resources (e.g., earthscape processes, environmental and biological systems, hydrologic and climate dynamics, hydrodynamics and turbulence).

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

An ABET-accredited, four-year bachelor's degree in engineering is required for admission.

Other requirements to be completed before admission:
The application deadlines are December 3 for fall admission and August 31 for spring admission. All materials must be submitted to the online application.

Applicants must submit their test score(s) from the following:
- GRE

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5
- MELAB
  - Final score: 80

Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
## Program Requirements

**Plan A:** Plan A requires 20 major credits, up to null credits outside the major, and 10 thesis credits. The final exam is oral.

**Plan C:** Plan C requires 30 major credits and up to null credits outside the major. There is no final exam. A capstone project is required.

**Capstone Project:** The Plan C requires 100 hours of project work and an oral presentation of no less than 10 minutes.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

Courses must be taken on the A-F grade basis, unless only offered S/N.

### Core Courses (12-30 credits)
Select at least 12 credits from the following in consultation with the advisor. One seminar credit (CEGE 8200, 8300, 8400, 8500) may be applied to this requirement. Students may complete all their coursework from this list.

Plan Options

Plan A

Thesis Credits
Take 10 master's thesis credits for the design project.

CEGE 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)
Civil Engineering M.S.
CSENG Civil, Envrn & Geo-Eng (CEGE)
College of Science and Engineering

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Civil Engineering master of science (MS) degree balances education in engineering fundamentals and design. The degree prepares students for careers in industry as well as for continued studies at the doctoral level. The degree offers students the opportunity to focus on one of the following areas of engineering: environmental (e.g., pollutant fate and transport, process modeling, soil and groundwater remediation, water and wastewater treatment), geomechanics (e.g., fracture and localization, groundwater flow, stability and liquefaction, wave and shock propagation), structural (e.g., computational and structural mechanics, earthquake engineering, infrastructure performance and durability, new systems and materials), transportation (e.g., intelligent transportation systems, pavement design and materials, transportation economics, traffic safety), or water resources (e.g., earthscape processes, environmental and biological systems, hydrologic and climate dynamics, hydrodynamics and turbulence).

The MS thesis (Plan A) option combines coursework with research and development. The project based (Plan B) option offers students an opportunity to include in their coursework program up to 3.0 credits of directed research. The coursework-only (Plan C) option is for practicing engineers who wish to pursue the MS part-time, self-funded full-time students, and students interested in pursuing the PhD.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A bachelor's degree in an engineering, basic science, or mathematics program is preferred.

Other requirements to be completed before admission:
Admission depends primarily on the applicant's academic record and letters of recommendation.

Applicants who lack civil engineering training are often required to complete one or more appropriate courses from the undergraduate civil engineering program. Courses from the required undergraduate civil engineering curriculum cannot be applied to graduate degree requirements.

Special Application Requirements:
The application deadlines are December 3 for fall admission and August 31 for spring admission. All materials must be submitted to the online application.

Applicants must submit their test score(s) from the following:
• GRE
International applicants must submit score(s) from one of the following tests:

- **TOEFL**
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19

- **IELTS**
  - Total Score: 6.5

- **MELAB**
  - Final score: 80

Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

**Program Requirements**

**Plan A:** Plan A requires 20 major credits, up to null credits outside the major, and 10 thesis credits. The final exam is oral.

**Plan B:** Plan B requires 30 major credits and up to null credits outside the major. The final exam is oral. A capstone project is required.

**Capstone Project:** The Plan B requires completion of 1 to 3 Plan B papers as determined by the faculty advisor. Plan B papers can include computer programs, annotated bibliographies, field investigations, and analysis/design of special engineering problems.

**Plan C:** Plan C requires 30 major credits and up to null credits outside the major. There is no final exam. A capstone project is required.

**Capstone Project:** The Plan C requires 100 hours of project work and an oral presentation.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

Courses must be taken on the A-F grade basis, unless only offered S/N.

**Core Courses (12-30 credits)**

Select at least 12 credits from the following in consultation with the advisor. One seminar credit (CEGE 8200, 8300, 8400, 8500) may be applied to this requirement. Students may complete all their coursework from this list.

- CEGE 4160 - Special Topics (1.0 - 4.0 cr)
- CEGE 4201 - Principles of Highway Design (3.0 cr)
- CEGE 4253 - Pavement Design, Engineering, and Management (4.0 cr)
- CEGE 4311 - Rock Mechanics (4.0 cr)
- CEGE 4351 - Groundwater Mechanics (3.0 cr)
- CEGE 4352 - Groundwater Modeling (3.0 cr)
- CEGE 4411 - Matrix Structural Analysis (3.0 cr)
- CEGE 4412 - Reinforced Concrete II (3.0 cr)
- CEGE 4413 - Steel Design II (3.0 cr)
- CEGE 4511 - Hydraulic Structures (3.0 cr)
- CEGE 4512 - Open Channel Hydraulics (4.0 cr)
- CEGE 4561 - Solids and Hazardous Wastes (3.0 cr)
- CEGE 4562 - Environmental Remediation Technologies (3.0 cr)
- CEGE 4563 - Pollutant Fate and Transport: Processes and Modeling (3.0 cr)
- CEGE 5094 - Directed Research (1.0 - 4.0 cr)
- CEGE 5180 - Special Topics (1.0 - 4.0 cr)
- CEGE 5211 - Traffic Engineering (3.0 cr)
- CEGE 5212 - Transportation Policy, Planning, and Deployment (3.0 cr)
- CEGE 5213 - Transit Planning and Management (3.0 cr)
- CEGE 5214 - Infrastructure Systems Engineering (3.0 cr)
- CEGE 5219 - Air Transportation Systems (3.0 cr)

**Plan Options**

**Plan A**

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of November 07, 2022
Take 10 master's thesis credits.
**CEGE 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)**

-OR-

**Plan B (0-3 credits)**
Select up to 3 credits of the following, as needed to complete the 30-credit minimum, in consultation with the advisor.
**CEGE 8094 - Directed Research (1.0 - 4.0 cr)**

**Joint- or Dual-degree Coursework:**
- MS-Civil Engineering/MSISyE (Transportation Engineering Focus): 15 common credits
- MS-Civil Engineering/MURP (Transportation or Environmental Engineering Focus): 18 common credits

**Program Sub-plans**
A sub-plan is not required for this program.
Students may not complete the program with more than one sub-plan.

**Integrated B.C.E./M.S. - Civil Engineering**
The department offers an integrated Bachelor of Civil Engineering (BCE) and Master of Science (MS) in Civil Engineering. The integrated BCE/MS program offers students the opportunity to earn a bachelor's degree and a master's degree in five years. The integrated program offers several benefits: streamlined admissions from the undergraduate to the graduate program (GRE not required); flexibility in fulfilling required courses for both degrees during the senior year (up to 16 credits can be transferred to the graduate program); and eligibility for teaching and research assistantships.

Eligibility requirements for the integrated program: Application is open to University BCE undergraduates who:
- are within 32 credits of completing the requirements for the bachelors degree;
- have a faculty advisor selected prior to admission; and
- hold a cumulative GPA of 3.3 or higher.

Both the BCE and MS degrees must be completed in their entirety, with no courses shared between them. The graduate degree cannot be earned before the undergraduate requirements are satisfied. Admitted students who decide not to complete the MS degree are permitted to count credits originally planned for the graduate program toward their BCE technical electives.

**Integrated B.GeoE./M.S. - Civil Engineering**
The department offers an integrated Bachelor of Geoengineering (BGeoE) and Master of Science (MS) in Civil Engineering. Benefits, eligibility requirements, and degree-completion requirements outlined for the BCE/MS integrated program also apply to the BGeoE/MS-Civil Engineering.

**Integrated B.Env.E./M.S. - Civil Engineering**
The department offers an integrated Bachelor of Environmental Engineering (BEnvE) and Master of Science (MS) in Civil Engineering. Benefits, eligibility requirements, and degree-completion requirements outlined for the BCE/MS integrated program also apply to the BEnvE/MS-Civil Engineering.

Contact Information:
Department of Civil, Environmental, and Geo-Engineering, University of Minnesota, 122 Civil Engineering Building, 500 Pillsbury Drive S.E., Minneapolis, MN 55455 (612-625-5522; fax: 612-626-7750)
Email: cegesps@umn.edu
Website: https://cse.umn.edu/cege

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Civil engineering emphases are available in environmental engineering (e.g., pollutant fate and transport, process modeling, soil and groundwater remediation, water and wastewater treatment), geomechanics (e.g., fracture and localization, groundwater flow, stability and liquefaction, wave and shock propagation), structural engineering (e.g., computational and structural mechanics, earthquake engineering, infrastructure performance and durability, new systems and materials), transportation engineering (e.g., intelligent transportation systems, pavement design and materials, transportation economics, traffic safety), and water resources engineering (e.g., earthscape processes, environmental and biological systems, hydrologic and climate dynamics, hydrodynamics, and turbulence).

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Civil Engineering director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Courses must be taken on the A-F grade basis, unless only offered S/N.

The minimum cumulative GPA for the minor is 3.00.

Minor Coursework (6-12 credits)
Master’s students select 6 credits, and doctoral students select 12 credits from the following in consultation with the Civil Engineering director of graduate studies:

- CEGE 5180 - Special Topics (1.0 - 4.0 cr)
- CEGE 5211 - Traffic Engineering (3.0 cr)
- CEGE 5212 - Transportation Policy, Planning, and Deployment (3.0 cr)
- CEGE 5213 - Transit Planning and Management (3.0 cr)
- CEGE 5214 - Infrastructure Systems Engineering (3.0 cr)
- CEGE 5219 - Air Transportation Systems (3.0 cr)
- CEGE 5341 - Wave Methods for Nondestructive Testing (3.0 cr)
- CEGE 5342 - Introduction to Inverse Problems (3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Twin Cities Campus
Civil Engineering Ph.D.
CSENG Civil, Envrn & Geo-Eng (CEGE)
College of Science and Engineering

Link to a list of faculty for this program.

Contact Information:
Department of Civil, Environmental, and Geo-Engineering, University of Minnesota, 122 Civil Engineering Building, 500 Pillsbury Drive S.E., Minneapolis, MN 55455 (612-625-5522; fax: 612-626-7750)
Email: cegespso@umn.edu
Website: https://cse.umn.edu/cege

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 60
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Civil Engineering PhD degree combines coursework and independent research in a comprehensive program for those wishing to attain mastery of their field. Students have the opportunity to focus on one of the following areas of engineering: environmental (e.g., pollutant fate and transport, process modeling, soil and groundwater remediation, water and wastewater treatment), geomechanics (e.g., fracture and localization, groundwater flow, stability and liquefaction, wave and shock propagation), structural (e.g., computational and structural mechanics, earthquake engineering, infrastructure performance and durability, new systems and materials), transportation (e.g., intelligent transportation systems, pavement design and materials, transportation economics, traffic safety), or water resources, (e.g., earthscape processes, environmental and biological systems, hydrologic and climate dynamics, hydrodynamics and turbulence).

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A bachelor's degree in an engineering, basic science, or mathematics program is preferred.

Other requirements to be completed before admission:
Admission depends primarily on the applicant's academic record and letters of recommendation.

Applicants who lack civil engineering training are often required to complete one or more appropriate courses from the undergraduate civil engineering program. Courses from the required undergraduate civil engineering curriculum cannot be applied to graduate degree requirements.

Special Application Requirements:
The application deadlines are December 3 for fall admission and August 31 for spring admission. All materials must be submitted to the online application.

Applicants must submit their test score(s) from the following:
- GRE

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
IELTS
- Total Score: 6.5
MELAB
- Final score: 80

Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
36 credits are required in the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

Courses must be taken on the A-F grading basis, unless only offered S/N.

Core Courses (12-36 credits)
Select at least 12 credits from the following in consultation with the advisor. A maximum of 2 seminar credits (CEGE 8200, 8300, 8400, 8500) may be applied to this requirement. Students may complete all their coursework from this list.

CEGE 4160 - Special Topics (1.0 - 4.0 cr)
CEGE 4201 - Principles of Highway Design (3.0 cr)
CEGE 4253 - Pavement Design, Engineering, and Management (4.0 cr)
CEGE 4311 - Rock Mechanics (4.0 cr)
CEGE 4351 - Groundwater Mechanics (3.0 cr)
CEGE 4352 - Groundwater Modeling (3.0 cr)
CEGE 4411 - Matrix Structural Analysis (3.0 cr)
CEGE 4412 - Reinforced Concrete II (3.0 cr)

**Electives (0-24 credits)**

Select courses from the following as needed, in consultation with the advisor, to complete the 36 course credits required. Students
may complete one course from each of the following cross-listed pairs, but not both: PA 5231 or CEGE 5213; PA 5232 or CEGE 5212; WRS 8581 or CEGE 8581. Other courses can be selected with advisor and director of graduate studies approval.

AEM 4502 - Computational Structural Analysis (3.0 cr)
AEM 4511 - Mechanics of Composite Materials (3.0 cr)
AEM 5321 - Modern Feedback Control (3.0 cr)
AEM 5501 - Continuum Mechanics (3.0 cr)
AEM 5503 - Theory of Elasticity (3.0 cr)
AEM 5581 - Mechanics of Solids (3.0 cr)
AEM 8201 - Fluid Mechanics I (3.0 cr)
AEM 8202 - Fluid Mechanics II (3.0 cr)
AEM 8211 - Theory of Turbulence I (3.0 cr)
AEM 8423 - Convex Optimization Methods in Control (3.0 cr)
AEM 8525 - Elastic Stability of Materials (3.0 cr)
AEM 8531 - Fracture Mechanics (3.0 cr)
AEM 8533 - Theory of Plasticity (3.0 cr)
AEM 8541 - Mechanics of Crystalline Solids (3.0 cr)
AEM 8551 - Multiscale Methods for Bridging Length and Time Scales (3.0 cr)
APEC 5031 - Methods of Economic Data Analysis (3.0 cr)
ARCH 5391 - Design and Representation with BIM (3.0 cr)
ARCH 5671 - Historic Preservation (3.0 cr)
BBE 5302 - Biodegradation of Bioproducts (3.0 cr)
BBE 5513 - Watershed Engineering (3.0 cr)
BBE 5523 - Ecological Engineering Design (3.0 cr)
BBE 5535 - Assessment and Diagnosis of Impaired Waters (3.0 cr)
BBE 5753 - Air Quality and Pollution Control Engineering (3.0 cr)
BBE 8513 - Hydrologic Modeling of Small Watersheds (3.0 cr)
BIOC 5309 - Biocatalysis and Biodegradation (3.0 cr)
BIOC 5351 - Protein Engineering (3.0 cr)
BMEN 8101 - Biomedical Digital Signal Processing (3.0 cr)
CHEM 4214 - Polymers (3.0 cr)
CHEM 4601 - Green Chemistry [ENV] (3.0 cr)
CHEM 5210 - Materials Characterization (4.0 cr)
CHEM 8011 - Mechanisms of Chemical Reactions (4.0 cr)
CHEM 8021 - Computational Chemistry (4.0 cr)
CHEM 8151 - Analytical Separations and Chemical Equilibria (4.0 cr)
CSCI 5421 - Advanced Algorithms and Data Structures (3.0 cr)
CSCI 5521 - Machine Learning Fundamentals (3.0 cr)
CSCI 5523 - Introduction to Data Mining (3.0 cr)
CSCI 5525 - Machine Learning: Analysis and Methods (3.0 cr)
EE 4231 - Linear Control Systems: Designed by Input/Output Methods (3.0 cr)
EE 5231 - Linear Systems and Optimal Control (3.0 cr)
EE 5235 - Robust Control System Design (3.0 cr)
EE 5239 - Introduction to Nonlinear Optimization (3.0 cr)
EE 5251 - Optimal Filtering and Estimation (3.0 cr)
EE 5531 - Probability and Stochastic Processes (3.0 cr)
EE 8231 - Optimization Theory (3.0 cr)
EE 8581 - Detection and Estimation Theory (3.0 cr)
EEB 5068 - Plant Physiological Ecology (3.0 cr)
EEB 5111 - Systems Engineering I (2.0 cr)
EEB 5513 - Systems Engineering II (4.0 cr)
IE 5111 - Systems Engineering I (4.0 cr)
IE 5531 - Engineering Optimization I (4.0 cr)
IE 5532 - Stochastic Models (4.0 cr)
IE 5541 - Project Management (4.0 cr)
IE 5545 - Decision Analysis (4.0 cr)
IE 5551 - Production and Inventory Systems (4.0 cr)
IE 5553 - Simulation (4.0 cr)
IE 8531 - Discrete Optimization (4.0 cr)
IE 8532 - Stochastic Processes and Queuing Systems (4.0 cr)
IE 8534 - Advanced Topics in Operations Research (1.0 - 4.0 cr)
LAAS 5311 - Soil Chemistry and Mineralogy (3.0 cr)
LAAS 5621 - Environmental Genomics and Microbiomes (3.0 cr)
MATH 5485 - Introduction to Numerical Methods I (4.0 cr)
MATH 5486 - Introduction To Numerical Methods II (4.0 cr)
MATH 5587 - Elementary Partial Differential Equations I (4.0 cr)
MATH 5588 - Elementary Partial Differential Equations II (4.0 cr)
MATH 5652 - Introduction to Stochastic Processes (4.0 cr)
MATH 8401 - Mathematical Modeling and Methods of Applied Mathematics (3.0 cr)
MATH 8402 - Mathematical Modeling and Methods of Applied Mathematics (3.0 cr)
MATH 8441 - Numerical Analysis and Scientific Computing (3.0 cr)
MATH 8442 - Numerical Analysis and Scientific Computing (3.0 cr)
MATH 8445 - Numerical Analysis of Differential Equations (3.0 cr)
ME 5229 - Finite Element Method for Computational Mechanics: Transient/Dynamic Applications (4.0 cr)
ME 8228 - Finite Elements in Multidisciplinary Flow/Thermal/Stress and Manufacturing Applications (4.0 cr)
ME 8285 - Control Systems for Intelligent Vehicle Applications (3.0 cr)
ME 8332 - Advanced Fluid Dynamics in Mechanical Engineering (3.0 cr)
PA 5233 - Sustainable Transportation (3.0 cr)
PA 5234 - Urban Transportation Planning and Policy (3.0 cr)
PA 5271 - Geographic Information Systems: Applications in Planning and Policy Analysis (3.0 cr)
PMB 4111 - Microbial Physiology and Diversity (3.0 cr)
PUBH 6132 - Air, Water, and Health (2.0 cr)
PUBH 7405 - Biostatistical Inference I (4.0 cr)
PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
PUBH 7461 - Exploring and Visualizing Data in R (2.0 cr)
PUBH 7482 - Advanced Programming and Data Analysis in R (2.0 cr)
PUBH 7475 - Statistical Learning and Data Mining (3.0 cr)
STAT 5021 - Statistical Analysis (4.0 cr)
STAT 5101 - Theory of Statistics I (4.0 cr)
STAT 5102 - Theory of Statistics II (4.0 cr)
STAT 5302 - Applied Regression Analysis (4.0 cr)
WRS 5101 - Water Policy (3.0 cr)
PA 5231 - Transit Planning and Management (3.0 cr)
  or CEGE 5213 - Transit Planning and Management (3.0 cr)
PA 5232 - Transportation Policy, Planning, and Deployment (3.0 cr)
  or CEGE 5212 - Transportation Policy, Planning, and Deployment (3.0 cr)
WRS 8581 - Research and Professional Ethics in Water Resources and Environmental Science (0.5 cr)
  or CEGE 8581 - Research and Professional Ethics in Water Resources and Environmental Science (0.5 cr)

**Thesis Credits (24 credits)**
Take 24 doctoral thesis credits after passing preliminary oral exam.
CEGE 8898 - Thesis Credit: Doctoral (1.0 - 24.0 cr)
Twin Cities Campus
Computer Science M.C.S.
Computer Science and Engineering
College of Science and Engineering

Contact Information:
Department of Computer Science and Engineering, University of Minnesota, 4-192 Keller Hall, 200 Union Street SE, Minneapolis, MN 55455 (612- 625-4002; fax: 612-625-0572)
Email: csgradmn@umn.edu
Website: https://cse.umn.edu/cs

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 31
- This program does not require summer semesters for timely completion.
- Degree: Master of Computer Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Master's of Computer Science (MCS) is a terminal, professionally focused coursework-only degree designed for working professionals seeking to boost their current career, or change course. The MCS graduate program core offers coursework from a broad spectrum of theoretical and applied computer science topics and incorporates elective coursework opportunities in nearly all areas of the field. Faculty members have expertise in areas such as algorithms and theoretical computer science; numerical, parallel, and high-performance computing; distributed computing and systems; artificial intelligence, robotics, and computer vision; databases and data mining; human-computer interaction and information systems; graphics and visualization; software engineering and programming languages; computer architecture and compilers; networking; bioinformatics and computational biology; and computer security. Faculty from the Department of Computer Science and Engineering also participate in a variety of other graduate programs, including Bioinformatics and Computational Biology, Health Informatics, Cognitive Science, Scientific Computation, and Human Factors and Ergonomics.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Applicants must have an undergraduate or graduate degree in a major with a substantial background in computer science and engineering.

Other requirements to be completed before admission:
The names and email addresses of three recommenders are required; they will be asked to upload their letters of recommendation to the University system. The department only accepts students for fall admission; the application deadline is March 1.

Special Application Requirements:
Applicants must:
- have an undergraduate or graduate degree in a major with a substantial background in computer science and engineering, and be a working professional in the computer science or closely related field in the United States.

Admission is for fall semester only. The application deadline is March 1.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5
Program Requirements

Plan C: Plan C requires 31 major credits and 0 credits outside the major. There is no final exam.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

CSCI courses applied to degree requirements must be taken A-F if the A-F grading basis is offered.

Application of the following courses to degree requirements is restricted to a maximum combined total of 3 credits: CSCI 5991, CSCI 5994, CSCI 8991, and/or CSCI 8994.

Required Coursework (16 credits)

Applications Course (3 credits)

Select 3 credits from the following in consultation with the advisor:
- CSCI 5115 - User Interface Design, Implementation and Evaluation (3.0 cr)
- CSCI 5123 - Recommender Systems (3.0 cr)
- CSCI 5125 - Collaborative and Social Computing (3.0 cr)
- CSCI 5127W - Embodied Computing: Design & Prototyping [WI] (3.0 cr)
- CSCI 5271 - Introduction to Computer Security (3.0 cr)
- CSCI 5461 - Functional Genomics, Systems Biology, and Bioinformatics (3.0 cr)
- CSCI 5471 - Modern Cryptography (3.0 cr)
- CSCI 5511 - Artificial Intelligence I (3.0 cr)
- CSCI 5512 - Artificial Intelligence II (3.0 cr)
- CSCI 5521 - Machine Learning Fundamentals (3.0 cr)
- CSCI 5523 - Introduction to Data Mining (3.0 cr)
- CSCI 5551 - Introduction to Intelligent Robot Systems (3.0 cr)
- CSCI 5561 - Computer Vision (3.0 cr)
- CSCI 5563 - Multiview 3D Geometry in Computer Vision (3.0 cr)
- CSCI 5607 - Fundamentals of Computer Graphics 1 (3.0 cr)
- CSCI 5608 - Fundamentals of Computer Graphics II (3.0 cr)
- CSCI 5609 - Visualization (3.0 cr)
- CSCI 5611 - Animation & Planning in Games (3.0 cr)
- CSCI 5619 - Virtual Reality and 3D Interaction (3.0 cr)
- CSCI 5707 - Principles of Database Systems (3.0 cr)
- CSCI 5715 - From GPS, Google Maps, and Uber to Spatial Data Science (3.0 cr)

Architecture, Systems and Software Course (3 credits)

Select 3 credits from the following in consultation with the advisor:
- CSCI 5103 - Operating Systems (3.0 cr)
- CSCI 5105 - Introduction to Distributed Systems (3.0 cr)
- CSCI 5106 - Programming Languages (3.0 cr)
- CSCI 5161 - Introduction to Compilers (3.0 cr)
- CSCI 5204 - Advanced Computer Architecture (3.0 cr)
- CSCI 5211 - Data Communications and Computer Networks (3.0 cr)
- CSCI 5221 - Foundations of Advanced Networking (3.0 cr)
- CSCI 5451 - Introduction to Parallel Computing: Architectures, Algorithms, and Programming (3.0 cr)
- CSCI 5552 - Sensing and Estimation in Robotics (3.0 cr)
- CSCI 5708 - Architecture and Implementation of Database Management Systems (3.0 cr)
- CSCI 5751 - Big Data Engineering and Architecture (3.0 cr)
- CSCI 5801 - Software Engineering I (3.0 cr)
- CSCI 5802 - Software Engineering II (3.0 cr)
Theory and Algorithms Course (3 credits)
Select 3 credits from the following in consultation with the advisor:
- CSCI 5302 - Analysis of Numerical Algorithms (3.0 cr)
- CSCI 5304 - Computational Aspects of Matrix Theory (3.0 cr)
- CSCI 5421 - Advanced Algorithms and Data Structures (3.0 cr)
- CSCI 5481 - Computational Techniques for Genomics (3.0 cr)
- CSCI 5525 - Machine Learning: Analysis and Methods (3.0 cr)
- CSCI 5527 - Deep Learning: Models, Computation, and Applications (3.0 cr)

Colloquium (1 credit)
Take the following:
- CSCI 8970 - Computer Science Colloquium (1.0 cr)

Computer Science 8000-level Courses (6 credits)
Select 6 credits from the following in consultation with the advisor. CSCI 8980 can be taken multiple times if the topics are different.
- CSCI 8101 - Advanced Operating Systems (3.0 cr)
- CSCI 8102 - Foundations of Distributed Computing (3.0 cr)
- CSCI 8115 - Human-Computer Interaction and User Interface Technology (3.0 cr)
- CSCI 8117 - Understanding the Social Web (3.0 cr)
- CSCI 8161 - Advanced Compiler Techniques (3.0 cr)
- CSCI 8205 - Parallel Computer Organization (3.0 cr)
- CSCI 8211 - Advanced Computer Networks and Their Applications (3.0 cr)
- CSCI 8271 - Security and Privacy in Computing (3.0 cr)
- CSCI 8314 - Sparse Matrix Computations (3.0 cr)
- CSCI 8363 - Numerical Linear Algebra in Data Exploration (3.0 cr)
- CSCI 8442 - Computational Geometry and Applications (3.0 cr)
- CSCI 8523 - AI for Earth: Monitoring Changes in the Environment via Deep Learning (3.0 cr)
- CSCI 8551 - Intelligent Agents (3.0 cr)
- CSCI 8581 - Big Data in Astrophysics (4.0 cr)
- CSCI 8701 - Overview of Database Research (3.0 cr)
- CSCI 8715 - Spatial Data Science Research (3.0 cr)
- CSCI 8725 - Databases for Bioinformatics (3.0 cr)
- CSCI 8735 - Advanced Database Systems (3.0 cr)
- CSCI 8801 - Advanced Software Engineering (3.0 cr)
- CSCI 8880 - Special Advanced Topics in Computer Science (1.0 - 3.0 cr)
- CSCI 8891 - Independent Study (1.0 - 3.0 cr)
or CSCI 8994 - Directed Research in Computer Science (1.0 - 3.0 cr)

Electives (15 credits)
Select 15 credits from the following. Other courses may be chosen with advisor and director of graduate studies approval. CSCI 5980 can be taken multiple times if the topics are different.

Computer Science Electives
- CSCI 5103 - Operating Systems (3.0 cr)
- CSCI 5105 - Introduction to Distributed Systems (3.0 cr)
- CSCI 5106 - Programming Languages (3.0 cr)
- CSCI 5115 - User Interface Design, Implementation and Evaluation (3.0 cr)
- CSCI 5117 - Developing the Interactive Web (3.0 cr)
- CSCI 5123 - Recommender Systems (3.0 cr)
- CSCI 5125 - Collaborative and Social Computing (3.0 cr)
- CSCI 5143 - Real-Time and Embedded Systems (3.0 cr)
- CSCI 5161 - Introduction to Compilers (3.0 cr)
- CSCI 5204 - Advanced Computer Architecture (3.0 cr)
- CSCI 5211 - Data Communications and Computer Networks (3.0 cr)
- CSCI 5271 - Introduction to Computer Security (3.0 cr)
- CSCI 5302 - Analysis of Numerical Algorithms (3.0 cr)
- CSCI 5304 - Computational Aspects of Matrix Theory (3.0 cr)
- CSCI 5421 - Advanced Algorithms and Data Structures (3.0 cr)
- CSCI 5451 - Advanced Algorithms and Data Structures (3.0 cr)
- CSCI 5481 - Computational Techniques for Genomics (3.0 cr)
- CSCI 5511 - Artificial Intelligence I (3.0 cr)
- CSCI 5512 - Artificial Intelligence II (3.0 cr)
- CSCI 5521 - Machine Learning Fundamentals (3.0 cr)
- CSCI 5523 - Introduction to Data Mining (3.0 cr)
- CSCI 5525 - Machine Learning: Analysis and Methods (3.0 cr)
- CSCI 5527 - Deep Learning: Models, Computation, and Applications (3.0 cr)
- CSCI 5551 - Introduction to Intelligent Robotic Systems (3.0 cr)
- CSCI 5552 - Sensing and Estimation in Robotics (3.0 cr)
CSCI 5561 - Computer Vision (3.0 cr)
CSCI 5563 - Multiview 3D Geometry in Computer Vision (3.0 cr)
CSCI 5607 - Fundamentals of Computer Graphics I (3.0 cr)
CSCI 5608 - Fundamentals of Computer Graphics II (3.0 cr)
CSCI 5609 - Visualization (3.0 cr)
CSCI 5611 - Animation & Planning in Games (3.0 cr)
CSCI 5619 - Virtual Reality and 3D Interaction (3.0 cr)
CSCI 5707 - Principles of Database Systems (3.0 cr)
CSCI 5708 - Architecture and Implementation of Database Management Systems (3.0 cr)
CSCI 5715 - From GPS, Google Maps, and Uber to Spatial Data Science (3.0 cr)
CSCI 5801 - Software Engineering I (3.0 cr)
CSCI 5802 - Software Engineering II (3.0 cr)
CSCI 5980 - Special Topics in Computer Science (1.0 - 3.0 cr)
CSCI 5991 - Independent Study (1.0 - 3.0 cr)
CSCI 5994 - Directed Research (1.0 - 3.0 cr)
CSCI 8115 - Human-Computer Interaction and User Interface Technology (3.0 cr)
CSCI 8205 - Parallel Computer Organization (3.0 cr)
CSCI 8211 - Advanced Computer Networks and Their Applications (3.0 cr)
CSCI 8271 - Security and Privacy in Computing (3.0 cr)
CSCI 8363 - Numerical Linear Algebra in Data Exploration (3.0 cr)
CSCI 8551 - Intelligent Agents (3.0 cr)
CSCI 8715 - Spatial Data Science Research (3.0 cr)
CSCI 8735 - Advanced Database Systems (3.0 cr)
CSCI 8991 - Independent Study (1.0 - 3.0 cr)
CSCI 8994 - Directed Research in Computer Science (1.0 - 3.0 cr)
Other Electives
AEM 5401 - Intermediate Dynamics (3.0 cr)
AEM 5451 - Optimal Estimation (3.0 cr)
AEM 8411 - Advanced Dynamics (3.0 cr)
AEM 8423 - Convex Optimization Methods in Control (3.0 cr)
BMEN 5001 - Advanced Biomaterials (3.0 cr)
BMEN 5201 - Advanced Biomechanics (3.0 cr)
BMEN 5701 - Cancer Bioengineering (3.0 cr)
BMEN 8151 - Biomedical Electronics and Implantable Microsystems (3.0 cr)
CEGE 8211 - Theory of Traffic Flow (4.0 cr)
EE 5231 - Linear Systems and Optimal Control (3.0 cr)
EE 5235 - Robust Control System Design (3.0 cr)
EE 5239 - Introduction to Nonlinear Optimization (3.0 cr)
EE 5251 - Optimal Filtering and Estimation (3.0 cr)
EE 5301 - VLSI Design Automation I (3.0 cr)
EE 5333 - Analog Integrated Circuit Design (3.0 cr)
EE 5351 - Applied Parallel Programming (3.0 cr)
EE 5355 - Algorithmic Techniques for Scalable Many-core Computing (3.0 cr)
EE 5364 - Advanced Computer Architecture (3.0 cr)
EE 5371 - Computer Systems Performance Measurement and Evaluation (3.0 cr)
EE 5373 - Data Modeling Using R (1.0 cr)
EE 5393 - Circuits, Computation, and Biology (3.0 cr)
EE 5505 - Wireless Communication (3.0 cr)
EE 5531 - Probability and Stochastic Processes (3.0 cr)
EE 5542 - Adaptive Digital Signal Processing (3.0 cr)
EE 5581 - Information Theory and Coding (3.0 cr)
EE 5585 - Data Compression (3.0 cr)
EE 5653 - Physical Principles of Magnetic Materials (3.0 cr)
EE 5741 - Advanced Power Electronics (3.0 cr)
EE 8231 - Optimization Theory (3.0 cr)
EE 8367 - Parallel Computer Organization (3.0 cr)
EE 8581 - Detection and Estimation Theory (3.0 cr)
EE 8591 - Predictive Learning from Data (3.0 cr)
IE 5531 - Engineering Optimization I (4.0 cr)
IE 5532 - Stochastic Models (4.0 cr)
MATH 5075 - Mathematics of Options, Futures, and Derivative Securities I (4.0 cr)
MATH 5165 - Mathematical Logic I (4.0 cr)
MATH 5248 - Cryptology and Number Theory (4.0 cr)
MATH 5251 - Error-Correcting Codes, Finite Fields, Algebraic Curves (4.0 cr)
MATH 5335 - Geometry I (4.0 cr)
MATH 5385 - Introduction to Computational Algebraic Geometry (4.0 cr)
MATH 5447 - Theoretical Neuroscience (4.0 cr)
MATH 5467 - Introduction to the Mathematics of Image and Data Analysis (4.0 cr)
MATH 5485 - Introduction to Numerical Methods I (4.0 cr)
MATH 5486 - Introduction to Numerical Methods II (4.0 cr)
MATH 5651 - Basic Theory of Probability and Statistics (4.0 cr)
MATH 5652 - Introduction to Stochastic Processes (4.0 cr)
MATH 5654 - Prediction and Filtering (4.0 cr)
MATH 5705 - Enumerative Combinatorics (4.0 cr)
MATH 5707 - Graph Theory and Non-enumerative Combinatorics (4.0 cr)
MATH 5711 - Linear Programming and Combinatorial Optimization (4.0 cr)
MATH 8211 - Commutative and Homological Algebra (3.0 cr)
MATH 8212 - Commutative and Homological Algebra (3.0 cr)
MATH 8253 - Algebraic Geometry (3.0 cr)
MATH 8254 - Algebraic Geometry (3.0 cr)
MATH 8270 - Topics in Algebraic Geometry (1.0 - 3.0 cr)
MATH 8301 - Manifolds and Topology (3.0 cr)
MATH 8302 - Manifolds and Topology (3.0 cr)
MATH 8306 - Algebraic Topology (3.0 cr)
MATH 8307 - Algebraic Topology (3.0 cr)
MATH 8365 - Riemannian Geometry (3.0 cr)
MATH 8441 - Numerical Analysis and Scientific Computing (3.0 cr)
MATH 8501 - Differential Equations and Dynamical Systems I (3.0 cr)
MATH 8601 - Real Analysis (3.0 cr)
MATH 8602 - Real Analysis (3.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 31
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Computer Science MS degree offers coursework from across a broad spectrum of theoretical and applied computer science and combines research opportunities in nearly all areas of the field. The graduate program’s faculty members advise students in such areas as algorithms and theoretical computer science; numerical, parallel, and high-performance computing; distributed computing and systems; artificial intelligence, robotics, and computer vision; databases and data mining; human-computer interaction and information systems; graphics and visualization; software engineering and programming languages; computer architecture and compilers; networking; bioinformatics and computational biology; and computer security. In addition, students may choose a course of study that integrates research in computer science with applications in other fields. Faculty from the Department of Computer Science and Engineering also participate in a variety of other graduate programs, including bioinformatics and computational biology, health informatics, cognitive science, scientific computation, and human factors and ergonomics.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.25.

A 4-year or equivalent undergraduate degree from an accredited university in any major with a substantial background in computer science is required; a computer science major is preferred.

Other requirements to be completed before admission:
Plan C applicants: Include a statement regarding long-term goals within industry.

International applicants interested in a teaching assistantship position must score at least 23 in both the speaking and writing portion of the TOEFL or equivalent test.

Special Application Requirements:
The program requires all applicants to complete the University’s online application and to include the names and email addresses of three recommenders.

Students are accepted for fall admission only. The application deadline is March 1. The GRE test is not required and will not be accepted as part of the application.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 85
  - Internet Based - Writing Score: 23
  - Internet Based - Reading Score: 23
IELTS
- Total Score: 6.5
- Reading Score: 6.5
- Writing Score: 6.5

MELAB
- Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Plan A: Plan A requires 21 major credits, 0 credits outside the major, and 10 thesis credits. The final exam is written and oral.

Plan B: Plan B requires 31 major credits and 0 credits outside the major. The final exam is oral. A capstone project is required.

Capstone Project: The Plan B project, completed in conjunction with CSCI 8760, demonstrates the student’s familiarity with the tools of research, the capability to work independently, and the ability to effectively relate their results to their committee. A written report describing the Plan B project must be approved by the advisor.

Plan C: Plan C requires 31 major credits and 0 credits outside the major. There is no final exam. A capstone project is required.

Capstone Project: Plan C students must complete a minimum of 100 hours of course-based project work, a written research report, and an oral presentation within CSCI courses taken for graduate credit.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.25 is required for students to remain in good standing.

CSCI courses applied to degree requirements must be taken A-F if the A-F grading basis is offered.

Application of the following courses to degree requirements is restricted to a maximum combined total of 3 credits: CSCI 5991, CSCI 5994, CSCI 8991, and/or CSCI 8994.

Required Coursework (13 to 16 credits)

Breadth Courses (9 credits)

Applications Course (3 credits)
Select 3 credits from the following in consultation with the advisor:

CSCI 5115 - User Interface Design, Implementation and Evaluation (3.0 cr)
CSCI 5123 - Recommender Systems (3.0 cr)
CSCI 5125 - Collaborative and Social Computing (3.0 cr)
CSCI 5127W - Embodied Computing: Design & Prototyping [WI] (3.0 cr)
CSCI 5271 - Introduction to Computer Security (3.0 cr)
CSCI 5461 - Functional Genomics, Systems Biology, and Bioinformatics (3.0 cr)
CSCI 5471 - Modern Cryptography (3.0 cr)
CSCI 5511 - Artificial Intelligence I (3.0 cr)
CSCI 5512 - Artificial Intelligence II (3.0 cr)
CSCI 5521 - Machine Learning Fundamentals (3.0 cr)
CSCI 5523 - Introduction to Data Mining (3.0 cr)
CSCI 5551 - Introduction to Intelligent Robotic Systems (3.0 cr)
CSCI 5561 - Computer Vision (3.0 cr)
CSCI 5563 - Multiview 3D Geometry in Computer Vision (3.0 cr)
CSCI 5607 - Fundamentals of Computer Graphics 1 (3.0 cr)
CSCI 5608 - Fundamentals of Computer Graphics II (3.0 cr)
CSCI 5609 - Visualization (3.0 cr)
CSCI 5611 - Animation & Planning in Games (3.0 cr)
CSCI 5619 - Virtual Reality and 3D Interaction (3.0 cr)
CSCI 5707 - Principles of Database Systems (3.0 cr)
CSCI 5715 - From GPS, Google Maps, and Uber to Spatial Data Science (3.0 cr)

Architecture, Systems and Software Course (3 credits)
Select 3 credits from the following in consultation with the advisor:

CSCI 5103 - Operating Systems (3.0 cr)
CSCI 5105 - Introduction to Distributed Systems (3.0 cr)
CSCI 5106 - Programming Languages (3.0 cr)
CSCI 5161 - Introduction to Compilers (3.0 cr)
CSCI 5204 - Advanced Computer Architecture (3.0 cr)
CSCI 5211 - Data Communications and Computer Networks (3.0 cr)
CSCI 5221 - Foundations of Advanced Networking (3.0 cr)
CSCI 5451 - Introduction to Parallel Computing: Architectures, Algorithms, and Programming (3.0 cr)
CSCI 5552 - Sensing and Estimation in Robotics (3.0 cr)
CSCI 5708 - Architecture and Implementation of Database Management Systems (3.0 cr)
CSCI 5801 - Software Engineering I (3.0 cr)
CSCI 5802 - Software Engineering II (3.0 cr)

**Theory and Algorithms Course (3 credits)**

Select 3 credits from the following in consultation with the advisor:

CSCI 5302 - Analysis of Numerical Algorithms (3.0 cr)
CSCI 5304 - Computational Aspects of Matrix Theory (3.0 cr)
CSCI 5421 - Advanced Algorithms and Data Structures (3.0 cr)
CSCI 5481 - Computational Techniques for Genomics (3.0 cr)
CSCI 5525 - Machine Learning: Analysis and Methods (3.0 cr)
CSCI 5527 - Deep Learning: Models, Computation, and Applications (3.0 cr)

**Colloquium (1 credit)**

Take the following:

CSCI 8970 - Computer Science Colloquium (1.0 cr)

**Computer Science 8000-level Courses (3 to 6 credits)**

Plan A and Plan C students select 6 credits, and Plan B students select 3 credits from the following in consultation with the advisor. CSCI 8980 can be taken multiple times if the topics are different.

CSCI 8101 - Advanced Operating Systems (3.0 cr)
CSCI 8102 - Foundations of Distributed Computing (3.0 cr)
CSCI 8115 - Human-Computer Interaction and User Interface Technology (3.0 cr)
CSCI 8117 - Understanding the Social Web (3.0 cr)
CSCI 8161 - Advanced Compiler Techniques (3.0 cr)
CSCI 8205 - Parallel Computer Organization (3.0 cr)
CSCI 8211 - Advanced Computer Networks and Their Applications (3.0 cr)
CSCI 8271 - Security and Privacy in Computing (3.0 cr)
CSCI 8314 - Sparse Matrix Computations (3.0 cr)
CSCI 8363 - Numerical Linear Algebra in Data Exploration (3.0 cr)
CSCI 8442 - Computational Geometry and Applications (3.0 cr)
CSCI 8523 - AI for Earth: Monitoring Changes in the Environment via Deep Learning (3.0 cr)
CSCI 8551 - Intelligent Agents (3.0 cr)
CSCI 8581 - Big Data in Astrophysics (4.0 cr)
CSCI 8701 - Overview of Database Research (3.0 cr)
CSCI 8715 - Spatial Data Science Research (3.0 cr)
CSCI 8725 - Databases for Bioinformatics (3.0 cr)
CSCI 8735 - Advanced Database Systems (3.0 cr)
CSCI 8801 - Advanced Software Engineering (3.0 cr)
CSCI 8980 - Special Advanced Topics in Computer Science (1.0 - 3.0 cr)
CSCI 8991 - Independent Study (1.0 - 3.0 cr)
or CSCI 8994 - Directed Research in Computer Science (1.0 - 3.0 cr)

**Electives (5-15 credits)**

Plan A students select 5 credits, and Plan B and Plan C students select 15 credits from the following in consultation with the advisor to meet the minimum number of course credits required. Other courses may be applied to this requirement with director of graduate studies approval. CSCI 5980 can be taken multiple times if the topics are different.

**Computer Science Electives**

CSCI 5103 - Operating Systems (3.0 cr)
CSCI 5105 - Introduction to Distributed Systems (3.0 cr)
CSCI 5106 - Programming Languages (3.0 cr)
CSCI 5115 - User Interface Design, Implementation and Evaluation (3.0 cr)
CSCI 5117 - Developing the Interactive Web (3.0 cr)
CSCI 5123 - Recommender Systems (3.0 cr)
CSCI 5125 - Collaborative and Social Computing (3.0 cr)
CSCI 5143 - Real-Time and Embedded Systems (3.0 cr)
CSCI 5161 - Introduction to Compilers (3.0 cr)

Plan Options

Plan A
Thesis Credits
Take 10 master's thesis credits.
CSCI 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

-OR-

Plan B
Project Credits (3 credits)
Take the following:
CSCI 8760 - Plan B Project (3.0 cr)

-OR-

Plan C
At least 2 courses from the lists above, selected in consultation with the advisor to meet the 31-credit requirement, must be project courses. Possible courses include the following:

Project Coursework
CSCI 5115 - User Interface Design, Implementation and Evaluation (3.0 cr)
CSCI 5117 - Developing the Interactive Web (3.0 cr)
CSCI 5127W - Embodied Computing: Design & Prototyping [WI] (3.0 cr)
CSCI 5204 - Advanced Computer Architecture (3.0 cr)
CSCI 5221 - Foundations of Advanced Networking (3.0 cr)
CSCI 5271 - Introduction to Computer Security (3.0 cr)
CSCI 5471 - Modern Cryptography (3.0 cr)
CSCI 5481 - Computational Techniques for Genomics (3.0 cr)
CSCI 5511 - Artificial Intelligence I (3.0 cr)
CSCI 5525 - Machine Learning: Analysis and Methods (3.0 cr)
CSCI 5551 - Introduction to Intelligent Robotic Systems (3.0 cr)
CSCI 5552 - Sensing and Estimation in Robotics (3.0 cr)
CSCI 5561 - Computer Vision (3.0 cr)
CSCI 5608 - Fundamentals of Computer Graphics II (3.0 cr)
CSCI 5609 - Visualization (3.0 cr)
CSCI 5611 - Animation & Planning in Games (3.0 cr)
CSCI 5619 - Virtual Reality and 3D Interaction (3.0 cr)
CSCI 5707 - Principles of Database Systems (3.0 cr)
CSCI 5980 - Special Topics in Computer Science (1.0 - 3.0 cr)
CSCI 5991 - Independent Study (1.0 - 3.0 cr)
CSCI 5994 - Directed Research (1.0 - 3.0 cr)
CSCI 8115 - Human-Computer Interaction and User Interface Technology (3.0 cr)
CSCI 8205 - Parallel Computer Organization (3.0 cr)
CSCI 8211 - Advanced Computer Networks and Their Applications (3.0 cr)
CSCI 8363 - Numerical Linear Algebra in Data Exploration (3.0 cr)
CSCI 8442 - Computational Geometry and Applications (3.0 cr)
CSCI 8551 - Intelligent Agents (3.0 cr)
CSCI 8715 - Spatial Data Science Research (3.0 cr)
CSCI 8735 - Advanced Database Systems (3.0 cr)
CSCI 8980 - Special Advanced Topics in Computer Science (1.0 - 3.0 cr)
CSCI 8991 - Independent Study (1.0 - 3.0 cr)
CSCI 8994 - Directed Research in Computer Science (1.0 - 3.0 cr)

Program Sub-plans
A sub-plan is not required for this program.
Students may not complete the program with more than one sub-plan.

Integrated B.S.Comp.Sc./M.S. - Computer Science
The Department of Computer Science and Engineering offers an integrated bachelor of science in computer science (BCompSc) and master of science (MS). The integrated BCompSc/MS program offers students the opportunity to earn both degrees in five years. The combined program offers several advantages: streamlined admissions from the undergraduate to the graduate program; flexibility in fulfilling required courses for both degrees during the senior year; eligibility for graduate assistantships and fellowships; and financial savings by allowing up to 16 graduate credits to be completed at the undergraduate tuition rate. Eligible applicants must be University undergraduates who have completed a majority of the required upper division courses for their BCompSc degree, with a minimum
technical GPA of 3.50 or a strong recommendation from a Computer Science and Engineering faculty member.

Both the BSCompSc and MS degrees must be completed in their entirety, with no courses shared between them. The graduate degree cannot be earned before the undergraduate requirements are satisfied. Students must spend a minimum of two semesters as a graduate student after the completion of their undergraduate degree.

Integrated B.Comp.E./M.S. - Computer Science
The Department of Computer Science and Engineering offers an integrated bachelor of computer engineering (BCompE) and master of science (MS). Benefits, eligibility requirements, and degree-completion requirements outlined for the integrated BSCompSc/MS program also apply to the BCompE/MS.

Integrated B.A.-Computer Science /M.S. - Computer Science
The Department of Computer Science and Engineering offers an integrated bachelor of arts (BA) and master of science (MS) in computer science. Benefits, eligibility requirements, and degree-completion requirements outlined for the integrated BSCompSc/MS program also apply to the BA/MS.

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 9
- Length of program in credits (Doctorate): 13
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The graduate program in computer science offers coursework from across a broad spectrum of theoretical and applied computer science and combines research opportunities in nearly all areas of the field. The graduate program’s faculty members advise students in such areas as algorithms and theoretical computer science; numerical, parallel, and high-performance computing; distributed computing and systems; artificial intelligence, robotics, and computer vision; databases and data mining; human-computer interaction and information systems; graphics and visualization; software engineering and programming languages; computer architecture and compilers; networking; bioinformatics and computational biology; and computer security. Faculty from the Department of Computer Science and Engineering also participate in a variety of other graduate programs, including Bioinformatics and Computational Biology, Health Informatics, Cognitive Science, Scientific Computation, and Human Factors and Ergonomics.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Computer Science director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Only one 4xxx-level course may be applied to minor field course requirements.

Coursework applied to the minor that is offered on both the A-F and S/N grading basis must be taken A-F.

The minimum cumulative GPA for minor field coursework is 3.00 for masters students and 3.25 for doctoral students.

Minor Coursework (9 to 12 credits)
Masters students select 9 credits, and doctoral students select 12 credits from the following in consultation with the Computer Science graduate program coordinator. Advanced Computer Science Courses require students to complete at least 1 8xxx-level course or 1 5xxx-level course with a 5xxx-level prerequisite. Other courses may be applied to the minor with approval of the Computer Science graduate program coordinator.

Advanced Computer Science Courses (3 credits)
Select at least 3 credits from the following in consultation with the Computer Science graduate program coordinator:

- CSCI 5105 - Introduction to Distributed Systems (3.0 cr)
- CSCI 5125 - Collaborative and Social Computing (3.0 cr)
- CSCI 5161 - Introduction to Compilers (3.0 cr)
- CSCI 5525 - Machine Learning: Analysis and Methods (3.0 cr)
- CSCI 5527 - Deep Learning: Models, Computation, and Applications (3.0 cr)
- CSCI 5552 - Sensing and Estimation in Robotics (3.0 cr)
- CSCI 5561 - Computer Vision (3.0 cr)
- CSCI 5608 - Fundamentals of Computer Graphics II (3.0 cr)
- CSCI 5751 - Big Data Engineering and Architecture (3.0 cr)
- CSCI 5802 - Software Engineering II (3.0 cr)
- CSCI 8101 - Advanced Operating Systems (3.0 cr)
- CSCI 8102 - Foundations of Distributed Computing (3.0 cr)
- CSCI 8115 - Human-Computer Interaction and User Interface Technology (3.0 cr)
- CSCI 8117 - Understanding the Social Web (3.0 cr)
- CSCI 8161 - Advanced Compiler Techniques (3.0 cr)
- CSCI 8205 - Parallel Computer Organization (3.0 cr)
- CSCI 8211 - Advanced Computer Networks and Their Applications (3.0 cr)
- CSCI 8271 - Security and Privacy in Computing (3.0 cr)
- CSCI 8314 - Sparse Matrix Computations (3.0 cr)
- CSCI 8363 - Numerical Linear Algebra in Data Exploration (3.0 cr)
- CSCI 8442 - Computational Geometry and Applications (3.0 cr)
- CSCI 8551 - Intelligent Agents (3.0 cr)
- CSCI 8581 - Big Data in Astrophysics (4.0 cr)
- CSCI 8701 - Overview of Database Research (3.0 cr)
- CSCI 8715 - Spatial Data Science Research (3.0 cr)
- CSCI 8725 - Databases for Bioinformatics (3.0 cr)
- CSCI 8735 - Advanced Database Systems (3.0 cr)
- CSCI 8801 - Advanced Software Engineering (3.0 cr)
- CSCI 8980 - Special Advanced Topics in Computer Science (1.0 - 3.0 cr)

Masters students select credits from the following as needed to complete the 9-credit requirement for the minor, and doctoral students select credits as needed to complete the 12 non-colloquium credits required. Courses are selected in consultation with the Computer Science graduate program coordinator. Other courses can be chosen with Computer Science graduate program coordinator approval.
Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Masters

Doctoral

Colloquium (1 credit)
Doctoral students take the following to complete the 13-credit requirement:
CSCI 8970 - Computer Science Colloquium (1.0 cr)
Twin Cities Campus

Computer Science Ph.D.
Computer Science and Engineering
College of Science and Engineering

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 55
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Computer Science PhD offers coursework from across a broad spectrum of theoretical and applied computer science, combined with research opportunities in nearly all areas of the field. Faculty members advise students in such areas as algorithms and theoretical computer science; numerical, parallel, and high-performance computing; distributed computing and systems; artificial intelligence, robotics, and computer vision; databases and data mining; human-computer interaction and information systems; graphics and visualization; software engineering and programming languages; computer architecture and compilers; networking; bioinformatics and computational biology; machine learning; and computer security. In addition, students may choose a course of study that integrates research in computer science with applications in other fields. Faculty from the Department of Computer Science and Engineering also participate in a variety of other graduate programs, including Bioinformatics and Computational Biology, Health Informatics, Cognitive Science, Scientific Computation, and Human Factors and Ergonomics.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.45.

A degree in any major with a substantial background in computer science is required; a computer science major is preferred.

Other requirements to be completed before admission:
Scores from the General (Aptitude) Test of the GRE are not required and will not be accepted as part of the application.

Students are accepted for fall admission only. The application deadline is January 5. Students seeking financial aid must apply by December 15.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 85
  - Internet Based - Writing Score: 23
  - Internet Based - Reading Score: 23
- IELTS
  - Total Score: 6.5
- MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of November 07, 2022
Program Requirements
16 to 25 credits are required in the major.
6 to 15 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.45 is required for students to remain in good standing.

CSCI courses applied to degree requirements must be taken A-F if the A-F grading basis is offered.

Application of the following courses to degree requirements is restricted to a maximum combined total of 6 credits: CSCI 5991, CSCI 5994, CSCI 8991, and/or CSCI 8994.

Thesis Proposal Examination: All doctoral students must prepare and present an overview of their research topic and objectives after attaining doctoral candidacy, but no later than 6 months before the final oral examination.

Required Coursework (16 credits)

Breadth Courses (15 credits)
Select at least 3 credits from each of the 3 subject areas for a total of 9 credits, plus 6 credits from any of the subject areas, for a total of 15 credits. Courses are selected in consultation with the advisor.

Applications Courses
Select at least 3 credits from the following in consultation with the advisor:
- CSCI 5115 - User Interface Design, Implementation and Evaluation (3.0 cr)
- CSCI 5123 - Recommender Systems (3.0 cr)
- CSCI 5125 - Collaborative and Social Computing (3.0 cr)
- CSCI 5127W - Embodied Computing: Design & Prototyping [WI] (3.0 cr)
- CSCI 5271 - Introduction to Computer Security (3.0 cr)
- CSCI 5461 - Functional Genomics, Systems Biology, and Bioinformatics (3.0 cr)
- CSCI 5471 - Modern Cryptography (3.0 cr)
- CSCI 5511 - Artificial Intelligence I (3.0 cr)
- CSCI 5512 - Artificial Intelligence II (3.0 cr)
- CSCI 5521 - Machine Learning Fundamentals (3.0 cr)
- CSCI 5523 - Introduction to Data Mining (3.0 cr)
- CSCI 5551 - Introduction to Intelligent Robotic Systems (3.0 cr)
- CSCI 5561 - Computer Vision (3.0 cr)
- CSCI 5563 - Multiview 3D Geometry in Computer Vision (3.0 cr)
- CSCI 5607 - Fundamentals of Computer Graphics I (3.0 cr)
- CSCI 5608 - Fundamentals of Computer Graphics II (3.0 cr)
- CSCI 5609 - Visualization (3.0 cr)
- CSCI 5611 - Animation & Planning in Games (3.0 cr)
- CSCI 5619 - Virtual Reality and 3D Interaction (3.0 cr)
- CSCI 5707 - Principles of Database Systems (3.0 cr)
- CSCI 5715 - From GPS, Google Maps, and Uber to Spatial Data Science (3.0 cr)

Architecture, Systems and Software Courses
Select at least 3 credits from the following in consultation with the advisor:

- CSCI 5103 - Operating Systems (3.0 cr)
- CSCI 5105 - Introduction to Distributed Systems (3.0 cr)
- CSCI 5106 - Programming Languages (3.0 cr)
- CSCI 5161 - Introduction to Compilers (3.0 cr)
- CSCI 5204 - Advanced Computer Architecture (3.0 cr)
- CSCI 5211 - Data Communications and Computer Networks (3.0 cr)
- CSCI 5221 - Foundations of Advanced Networking (3.0 cr)
- CSCI 5451 - Introduction to Parallel Computing: Architectures, Algorithms, and Programming (3.0 cr)
- CSCI 5552 - Sensing and Estimation in Robotics (3.0 cr)
- CSCI 5708 - Architecture and Implementation of Database Management Systems (3.0 cr)
- CSCI 5751 - Big Data Engineering and Architecture (3.0 cr)
- CSCI 5801 - Software Engineering I (3.0 cr)
- CSCI 5802 - Software Engineering II (3.0 cr)

Theory and Algorithms Courses
Select at least 3 credits from the following in consultation with the advisor:
CSCI 5302 - Analysis of Numerical Algorithms (3.0 cr)
CSCI 5304 - Computational Aspects of Matrix Theory (3.0 cr)
CSCI 5421 - Advanced Algorithms and Data Structures (3.0 cr)
CSCI 5481 - Computational Techniques for Genomics (3.0 cr)
CSCI 5525 - Machine Learning: Analysis and Methods (3.0 cr)
CSCI 5527 - Deep Learning: Models, Computation, and Applications (3.0 cr)

**Colloquium (1 credit)**
Take the following:
CSCI 8970 - Computer Science Colloquium (1.0 cr)

**Additional Coursework (15 credits)**

**Outside Coursework (6 to 15 credits)**
Select at least 6 credits from the following in consultation with the advisor:

- AEM 5401 - Intermediate Dynamics (3.0 cr)
- AEM 5451 - Optimal Estimation (3.0 cr)
- AEM 8411 - Advanced Dynamics (3.0 cr)
- AEM 8423 - Convex Optimization Methods in Control (3.0 cr)
- BMEN 5001 - Advanced Biomaterials (3.0 cr)
- BMEN 5201 - Advanced Biomechanics (3.0 cr)
- BMEN 5701 - Cancer Bioengineering (3.0 cr)
- BMEN 8151 - Biomedical Electronics and Implantable Microsystems (3.0 cr)
- CEGE 8211 - Theory of Traffic Flow (4.0 cr)
- EE 5231 - Linear Systems and Optimal Control (3.0 cr)
- EE 5235 - Robust Control System Design (3.0 cr)
- EE 5239 - Introduction to Nonlinear Optimization (3.0 cr)
- EE 5251 - Optimal Filtering and Estimation (3.0 cr)
- EE 5301 - VLSI Design Automation I (3.0 cr)
- EE 5333 - Analog Integrated Circuit Design (3.0 cr)
- EE 5351 - Applied Parallel Programming (3.0 cr)
- EE 5355 - Algorithmic Techniques for Scalable Many-core Computing (3.0 cr)
- EE 5364 - Advanced Computer Architecture (3.0 cr)
- EE 5371 - Computer Systems Performance Measurement and Evaluation (3.0 cr)
- EE 5373 - Data Modeling Using R (1.0 cr)
- EE 5393 - Circuits, Computation, and Biology (3.0 cr)
- EE 5505 - Wireless Communication (3.0 cr)
- EE 5531 - Probability and Stochastic Processes (3.0 cr)
- EE 5542 - Adaptive Digital Signal Processing (3.0 cr)
- EE 5581 - Information Theory and Coding (3.0 cr)
- EE 5585 - Data Compression (3.0 cr)
- EE 5653 - Physical Principles of Magnetic Materials (3.0 cr)
- EE 5741 - Advanced Power Electronics (3.0 cr)
- EE 8231 - Optimization Theory (3.0 cr)
- EE 8367 - Parallel Computer Organization (3.0 cr)
- EE 8581 - Detection and Estimation Theory (3.0 cr)
- EE 8591 - Predictive Learning from Data (3.0 cr)
- IE 5531 - Engineering Optimization I (4.0 cr)
- IE 5532 - Stochastic Models (4.0 cr)
- MATH 5075 - Mathematics of Options, Futures, and Derivative Securities I (4.0 cr)
- MATH 5165 - Mathematical Logic I (4.0 cr)
- MATH 5248 - Cryptology and Number Theory (4.0 cr)
- MATH 5251 - Error-Correcting Codes, Finite Fields, Algebraic Curves (4.0 cr)
- MATH 5335 - Geometry I (4.0 cr)
- MATH 5385 - Introduction to Computational Algebraic Geometry (4.0 cr)
- MATH 5447 - Theoretical Neuroscience (4.0 cr)
- MATH 5467 - Introduction to the Mathematics of Image and Data Analysis (4.0 cr)
- MATH 5485 - Introduction to Numerical Methods I (4.0 cr)
- MATH 5486 - Introduction To Numerical Methods II (4.0 cr)
- MATH 5561 - Basic Theory of Probability and Statistics (4.0 cr)
- MATH 5562 - Introduction to Stochastic Processes (4.0 cr)
- MATH 5564 - Prediction and Filtering (4.0 cr)
- MATH 5705 - Enumerative Combinatorics (4.0 cr)
- MATH 5707 - Graph Theory and Non-enumerative Combinatorics (4.0 cr)
- MATH 5711 - Linear Programming and Combinatorial Optimization (4.0 cr)
- MATH 8211 - Commutative and Homological Algebra (3.0 cr)
- MATH 8212 - Commutative and Homological Algebra (3.0 cr)
- MATH 8253 - Algebraic Geometry (3.0 cr)
MATH 8254 - Algebraic Geometry (3.0 cr)
MATH 8270 - Topics in Algebraic Geometry (1.0 - 3.0 cr)

STAT 5511 - Time Series Analysis (3.0 cr)
STAT 5701 - Statistical Computing (3.0 cr)
STAT 8051 - Advanced Regression Techniques: linear, nonlinear and nonparametric methods (3.0 cr)
STAT 8053 - Applied Statistical Methods 3: Multivariate Analysis and Advanced Regression (3.0 cr)
STAT 8101 - Theory of Statistics 1 (3.0 cr)
STAT 8102 - Theory of Statistics 2 (3.0 cr)
STAT 8931 - Advanced Topics in Statistics (3.0 cr)
STAT 8932 - Advanced Topics in Statistics (3.0 cr)
STAT 8933 - Advanced Topics in Statistics (3.0 cr)

Computer Science Electives (0 to 9 credits)
Select credits as needed, in consultation with the advisor, to complete the 31 course credits required. CSCI 5980 and CSCI 8980 can be taken multiple times if the topics are different. Students are encouraged, but not required, to take CSCI 8001 and 8002.

CSCI 5103 - Operating Systems (3.0 cr)
CSCI 5105 - Introduction to Distributed Systems (3.0 cr)
CSCI 5106 - Programming Languages (3.0 cr)
CSCI 5115 - User Interface Design, Implementation and Evaluation (3.0 cr)
CSCI 5117 - Developing the Interactive Web (3.0 cr)
CSCI 5123 - Recommender Systems (3.0 cr)
CSCI 5125 - Collaborative and Social Computing (3.0 cr)
CSCI 5143 - Real-Time and Embedded Systems (3.0 cr)
CSCI 5161 - Introduction to Compilers (3.0 cr)
CSCI 5204 - Advanced Computer Architecture (3.0 cr)
CSCI 5211 - Data Communications and Computer Networks (3.0 cr)
CSCI 5221 - Foundations of Advanced Networking (3.0 cr)
CSCI 5271 - Introduction to Computer Security (3.0 cr)
CSCI 5302 - Analysis of Numerical Algorithms (3.0 cr)
CSCI 5304 - Computational Aspects of Matrix Theory (3.0 cr)
CSCI 5421 - Advanced Algorithms and Data Structures (3.0 cr)
CSCI 5451 - Introduction to Parallel Computing: Architectures, Algorithms, and Programming (3.0 cr)
CSCI 5461 - Functional Genomics, Systems Biology, and Bioinformatics (3.0 cr)
CSCI 5471 - Modern Cryptography (3.0 cr)
CSCI 5481 - Computational Techniques for Genomics (3.0 cr)
CSCI 5511 - Artificial Intelligence I (3.0 cr)
CSCI 5512 - Artificial Intelligence II (3.0 cr)
CSCI 5521 - Machine Learning Fundamentals (3.0 cr)
CSCI 5523 - Introduction to Data Mining (3.0 cr)
CSCI 5525 - Machine Learning: Analysis and Methods (3.0 cr)
CSCI 5527 - Deep Learning: Models, Computation, and Applications (3.0 cr)
CSCI 5551 - Introduction to Intelligent Robotic Systems (3.0 cr)
CSCI 5552 - Sensing and Estimation in Robotics (3.0 cr)
CSCI 5561 - Computer Vision (3.0 cr)
CSCI 5563 - Multiview 3D Geometry in Computer Vision (3.0 cr)
CSCI 5607 - Fundamentals of Computer Graphics I (3.0 cr)
CSCI 5608 - Fundamentals of Computer Graphics II (3.0 cr)
CSCI 5609 - Visualization (3.0 cr)
CSCI 5611 - Animation & Planning in Games (3.0 cr)
CSCI 5619 - Virtual Reality and 3D Interaction (3.0 cr)
CSCI 5707 - Principles of Database Systems (3.0 cr)
CSCI 5708 - Architecture and Implementation of Database Management Systems (3.0 cr)
CSCI 5715 - From GPS, Google Maps, and Uber to Spatial Data Science (3.0 cr)

CSCI 8217 - Security and Privacy in Computing (3.0 cr)
CSCI 8314 - Sparse Matrix Computations (3.0 cr)
CSCI 8363 - Numerical Linear Algebra in Data Exploration (3.0 cr)
CSCI 8442 - Computational Geometry and Applications (3.0 cr)
CSCI 8523 - AI for Earth: Monitoring Changes in the Environment via Deep Learning (3.0 cr)
CSCI 8551 - Intelligent Agents (3.0 cr)
CSCI 8581 - Big Data in Astrophysics (4.0 cr)
CSCI 8701 - Overview of Database Research (3.0 cr)
CSCI 8715 - Spatial Data Science Research (3.0 cr)
CSCI 8725 - Databases for Bioinformatics (3.0 cr)
CSCI 8735 - Advanced Database Systems (3.0 cr)
CSCI 8801 - Advanced Software Engineering (3.0 cr)
CSCI 8990 - Special Advanced Topics in Computer Science (1.0 - 3.0 cr)
CSCI 8991 - Independent Study (1.0 - 3.0 cr)
CSCI 8994 - Directed Research in Computer Science (1.0 - 3.0 cr)

**Thesis Credits (24 credits)**

Take 24 doctoral thesis credits after passing preliminary oral exam.

CSCI 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)
Twin Cities Campus
Cyber Security Minor
Technological Leadership Institute
College of Science and Engineering

Link to a list of faculty for this program.

- Program Type: Graduate free-standing minor
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 8
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Cyber Security minor integrates the fields of technology, security, and management, to provide students with the skills and insights to assume a leadership role in cyber security, or continue their field of study with a focus on cyber security and its role in organizations.

The curriculum applies fundamental concepts of business management, organizational leadership, and risk management techniques and strategies, each as applied in the context of cyber security, to empower engineering, technology, and business professionals to adapt and lead in the emerging field of cyber security. Each class will include exercises that inform students on those cyber security topics, and give them an opportunity to practice the fundamental skills of communications, teamwork, and project management.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Cyber Security director of graduate studies regarding feasibility and requirements.

Students not currently enrolled in the Master of Science in Security Technologies (MSST) program must be approved for the minor by the Director of Graduate Studies, and may be asked to complete a background check prior to receiving registration permission for ST-designated courses.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Courses must be taken on the A-F grade basis, unless only offered S/N.

The minimum cumulative GPA for the minor is 3.00.

Required Courses (6 credits)
Take the following courses in sequence:
ST 8661 - Securing Cyberspace (Fundamentals) (3.0 cr)
ST 8662 - Securing Cyberspace - Advanced (3.0 cr)

Elective Courses (2-6 credits)
Master's students select at least 2 credits, and doctoral students select at least 6 credits in consultation with the Cyber Security director of graduate studies to complete the minimum credit requirement. Other courses may be applied to the minor with approval of the Cyber Security director of graduate studies.
ST 8113 - Information and Cyber Security (2.0 cr)
ST 8513 - Cyber Threat Intelligence (2.0 cr)
CSCI 5271 - Introduction to Computer Security (3.0 cr)
CSCI 5471 - Modern Cryptography (3.0 cr)
CSCI 8271 - Security and Privacy in Computing (3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Doctoral

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The M.S. in Data Science for Chemical Engineering and Materials Science degree bridges disciplinary expertise in chemical engineering and materials science with data and computational science. It aims to educate the next generation of chemical engineers and materials scientists that will be able to work seamlessly with digital technologies.

The program core provides fundamental knowledge of statistical and data analysis, machine learning, and artificial intelligence, as well as their application in chemical, biological, and materials science and engineering problems. Elective courses allow students to specialize in artificial intelligence, high performance computing, systems engineering, automation and robotics, or data analytics, depending on their specific interests and needs.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.50.

Baccalaureate degree in Chemical Engineering, Materials Science or related field.

Other requirements to be completed before admission:
The undergraduate degree must include two semesters of calculus and one semester of the following: multivariable calculus; linear algebra/differential equations; statistics; programming in languages such as C++ or Python; and algorithms and data structures. Exceptions or substitutions will be considered on an individual basis.

Special Application Requirements:
Applications are accepted for fall semester only. The application deadline is January 15. Applications received after that date will be considered on an individual basis only under exceptional circumstances.

International applicants must submit score(s) from one of the following tests:
- TOEFL

Key to test abbreviations (TOEFL).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Plan B: Plan B requires 30 major credits and 0 credits outside the major. The final exam is written and oral. A capstone project is
required.

**Capstone Project:** Students complete a capstone project for a minimum of 3 credits under the supervision of faculty or in collaboration with industry advisors.

**Plan C:** Plan C requires 30 major credits and 0 credits outside the major. There is no final exam.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 2.8 is required for students to remain in good standing.

Courses must be taken on the A-F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

Approval of advisor and the director of graduate studies is required to apply 4xxx courses to degree requirements.

**Core Courses (19 credits)**

Students are strongly recommended to take CSci 5521 before CHEN/MATS 5801. Students may complete one course from each of the following cross-listed pairs, but not both: CHEN/MATS 5801, 5802, 8201. Other courses may be selected with advisor and director of graduate studies approval.

- CSCI 5521 - Machine Learning Fundamentals (3.0 cr)
- CSCI 5523 - Introduction to Data Mining (3.0 cr)
- STAT 5302 - Applied Regression Analysis (4.0 cr)
- CHEN 5801 - Optimization in Chemical and Energy Systems Engineering (3.0 cr)
  - or MATS 5801 - Optimization in Chemical and Energy Systems Engineering (3.0 cr)
- CHEN 5802 - Applied Machine Learning in Chemical Engineering and Materials Science (3.0 cr)
  - or MATS 5802 - Machine Learning for Chemical Sciences and Engineering (3.0 cr)
- CHEN 8201 - Applied Math (3.0 cr)
  - or MATS 8201 - Applied Math (3.0 cr)

**Electives (8 to 11 credits)**

Plan B students select at least 8 credits and Plan C students select at least 11 credits from the following. Other courses may be selected with advisor and director of graduate studies approval.

**Major Electives**

Students may complete one course from each of the following cross-listed pairs, but not both: CHEN/MATS 5771, 5803, 8001, 8221, 8301.

Students who do not have an undergraduate degree in chemical engineering or materials science must take two courses from the following list, in consultation with the director of graduate studies:

- CHEN 5751 - Biochemical Engineering (3.0 cr)
- CHEN 5753 - Advanced Biomedical Transport Processes (3.0 cr)
- CHEN 8101 - Fluid Mechanics (3.0 cr)
- CHEN 8102 - Introduction to Rheology (2.0 cr)
- CHEN 8104 - Coating Process Fundamentals (2.0 cr)
- CHEN 8401 - Physical and Chemical Thermodynamics (3.0 cr)
- CHEN 8402 - Statistical Thermodynamics and Kinetics (3.0 cr)
- CHEN 8501 - Chemical Rate Processes: Analysis of Chemical Reactors (3.0 cr)
- CHEN 8754 - Systems Analysis of Biological Processes (3.0 cr)

IE 5531 - Engineering Optimization I (4.0 cr)
IE 5561 - Analytics and Data-Driven Decision Making (4.0 cr)
IE 8521 - Optimization (4.0 cr)
IE 8531 - Discrete Optimization (4.0 cr)
MSBA 6321 - Data Management, Databases, and Data Warehousing (3.0 cr)
MSBA 6331 - Big Data Analytics (3.0 cr)
PUBH 7401 - Fundamentals of Biostatistical Inference (4.0 cr)
PUBH 7402 - Biostatistics Modeling and Methods (4.0 cr)
PUBH 7405 - Biostatistical Inference I (4.0 cr)
PUBH 7406 - Biostatistical Inference II (3.0 cr)
PUBH 7407 - Analysis of Categorical Data (3.0 cr)
PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
PUBH 7460 - Advanced Statistical Computing (3.0 cr)
PUBH 7474 - Statistical Learning and Data Mining (3.0 cr)
PUBH 7481 - Methods for Causal Inference (3.0 cr)
PUBH 8401 - Linear Models (3.0 cr)
PUBH 8432 - Probability Models for Biostatistics (3.0 cr)
Plan Options

Plan B
Project Credits (3 credits)
Select 3 credits for the capstone project, in consultation with the advisor, from the following list:
CHEN 8993 - Directed Study (1.0 - 12.0 cr)
CHEN 8994 - Directed Research (1.0 - 12.0 cr)
MATS 8993 - Directed Study (1.0 - 12.0 cr)
MATS 8994 - Directed Research (1.0 - 12.0 cr)
Twin Cities Campus
Data Science in Astrophysics Minor
Astrophysics, Minnesota Institute for
College of Science and Engineering

Link to a list of faculty for this program.

Contact Information:
115 Union St SE, Office 321, Minneapolis, MN 55455 (Phone: 612-624-7886).
Email: nrtmma_info@umn.edu
Website: https://dsmma.umn.edu/

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 8
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The minor in Data Science in Astrophysics is designed to be interdisciplinary and integrates data science (statistics, data processing, artificial intelligence) with the field of astrophysics. Students pursuing the minor will receive the training needed to advance the field of astrophysics, while simultaneously preparing to be successful professionals and leaders in the modern data-driven workforce.

The curriculum covers the fundamental concepts in statistics, data processing and data management, as well as the modern machine learning and deep learning techniques needed for analyzing the ever-increasing astrophysics data-sets. Students will have opportunities to conduct frontier research projects using modern astrophysics data-sets, and will work in interdisciplinary teams mentored by interdisciplinary faculty. They will also have opportunities to develop their professional skills, such as communications and leadership.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Data Science in Astrophysics director of graduate studies regarding feasibility and requirements. A background in science, engineering, or statistics is preferred.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Courses offered on both the A-F and S/N grading basis must be taken A-F, with a minimum grade of C earned for each course.

The minimum cumulative GPA for the minor is 3.00.

Required courses (8 credits)
Astrostatistics (4 credits)
All students select 1 of the following in consultation with the Data Science in Astrophysics director of graduate studies.
AST 5731 - Bayesian Astrostatistics (4.0 cr)
or STAT 5731 - Bayesian Astrostatistics (4.0 cr)
Big Data (4 credits)
All students select 1 of the following in consultation with the Data Science in Astrophysics director of graduate studies.

AST 8581 - Big Data in Astrophysics (4.0 cr)
or CSCI 8581 - Big Data in Astrophysics (4.0 cr)
or PHYS 8581 - Big Data in Astrophysics (4.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Doctoral

Electives (4 credits)
Doctoral students select 4 additional credits in consultation with the Data Science in Astrophysics director of graduate studies to meet the 12-credit minimum.

AST 5022 - Relativity, Cosmology, and the Universe (4.0 cr)
AST 8001 - Radiative Processes in Astrophysics (4.0 cr)
AST 8011 - High Energy Astrophysics (4.0 cr)
AST 8990 - Research in Astronomy and Astrophysics (1.0 - 4.0 cr)
CSCI 5521 - Machine Learning Fundamentals (3.0 cr)
CSCI 5523 - Introduction to Data Mining (3.0 cr)
CSCI 5525 - Machine Learning: Analysis and Methods (3.0 cr)
CSCI 5609 - Visualization (3.0 cr)
CSCI 5707 - Principles of Database Systems (3.0 cr)
EE 5239 - Introduction to Nonlinear Optimization (3.0 cr)
EE 5251 - Optimal Filtering and Estimation (3.0 cr)
EE 5531 - Probability and Stochastic Processes (3.0 cr)
EE 5542 - Adaptive Digital Signal Processing (3.0 cr)
EE 5561 - Image Processing and Applications: From linear filters to artificial intelligence (3.0 cr)
EE 8581 - Detection and Estimation Theory (3.0 cr)
EE 8591 - Predictive Learning from Data (3.0 cr)
PHYS 8611 - Cosmic Rays and Plasma Astrophysics (3.0 cr)
PHYS 8994 - Research in Physics (1.0 - 12.0 cr)
PUBH 7460 - Advanced Statistical Computing (3.0 cr)
PUBH 8442 - Bayesian Decision Theory and Data Analysis (3.0 cr)
STAT 5302 - Applied Regression Analysis (4.0 cr)
STAT 5401 - Applied Multivariate Methods (3.0 cr)
STAT 5421 - Analysis of Categorical Data (3.0 cr)
STAT 5511 - Time Series Analysis (3.0 cr)
STAT 5601 - Nonparametric Methods (3.0 cr)
STAT 8051 - Advanced Regression Techniques: linear, nonlinear and nonparametric methods (3.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 31
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Data Science MS program provides a strong foundation in the science of Big Data and its analysis by gathering in a single program the knowledge, expertise, and educational assets in data collection and management, data analytics, scalable data-driven pattern discovery, and the fundamental concepts behind these methods.

Students who graduate from this regular 2-year master's program will learn the state-of-the-art methods for treating Big Data, be exposed to the cutting-edge methods and theory forming the basis for the next generation of Big Data technology, and will complete a project demonstrating that they can use the fundamental concepts to design innovative methods for new application areas arising from business, government, security, medicine, biology, physical sciences, and the environment.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A bachelor's degree from an accredited college or university in computer science, math, statistics, engineering, natural sciences, or a related field.

Other requirements to be completed before admission:
The undergraduate degree must include statistics, calculus, multivariable calculus, linear algebra, and mathematical software environments such as Matlab or R or the equivalent, programming languages such as C, C++, Java, programming experience including algorithms and data structures normally taught in beginning computer science courses either as part of the undergraduate degree or subsequent work experience.

Special Application Requirements:
The application deadline is March 1.

Applicants are only considered for fall admission and decisions are made after all applications are received following the close of the application cycle.

GRE test scores are not required, but are recommended for those applying from international institutions. If submitted, the GRE is only one of many factors considered for admission, and no score will guarantee or preclude admission. Applications without the GRE will be considered based on the material submitted.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Writing Score: 23
  - Internet Based - Reading Score: 23
IELTS
- Total Score: 6.5
MELAB
- Part 1 (Composition) score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

Program Requirements
Plan B: Plan B requires 31 major credits and up to null credits outside the major. The final exam is written and oral. A capstone project is required.

Capstone Project: Students must complete 3 credit hours of DSCI 8760 (capstone project) under the supervision of a faculty member.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.25 is required for students to remain in good standing.

Courses offered on both the A-F and S/N grading basis must be taken A-F.

At least 3 8xxx-level credits, either from an emphasis or an elective, are required.

Complete a presentation at the Data Science Poster Fair for Plan B project as part of degree requirements in the semester of anticipated graduation. Consult with the advisor on an appropriate timeline to present.

Statistics (6 credits)

Statistics Tier I (3 to 6 credits)
Select at least 3 credits from the following in consultation with the advisor:
- PUBH 7401 - Fundamentals of Biostatistical Inference (4.0 cr)
- PUBH 7402 - Biostatistics Modeling and Methods (4.0 cr)
- PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
- STAT 5102 - Theory of Statistics II (4.0 cr)
- STAT 5302 - Applied Regression Analysis (4.0 cr)
- STAT 5401 - Applied Multivariate Methods (3.0 cr)
- STAT 5511 - Time Series Analysis (3.0 cr)
- STAT 8051 - Advanced Regression Techniques: linear, nonlinear and nonparametric methods (3.0 cr)
- STAT 8101 - Theory of Statistics I (3.0 cr)

Statistics Tier II (0 to 3 credits)
Select credits from the following, in consultation with the advisor, as needed to meet the 6-credit Statistics requirement:
- EE 5531 - Probability and Stochastic Processes (3.0 cr)
- PUBH 7405 - Biostatistical Inference I (4.0 cr)
- PUBH 7406 - Biostatistical Inference II (3.0 cr)
- PUBH 7407 - Analysis of Categorical Data (3.0 cr)
- PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
- PUBH 7460 - Advanced Statistical Computing (3.0 cr)
- PUBH 7485 - Methods for Causal Inference (3.0 cr)
- PUBH 8401 - Linear Models (3.0 cr)
- PUBH 8432 - Probability Models for Biostatistics (3.0 cr)
- PUBH 8442 - Bayesian Decision Theory and Data Analysis (3.0 cr)
- STAT 5052 - Statistical and Machine Learning (3.0 cr)
- STAT 5201 - Sampling Methodology in Finite Populations (3.0 cr)
- STAT 5303 - Designing Experiments (4.0 cr)
- STAT 5421 - Analysis of Categorical Data (3.0 cr)
- STAT 5601 - Nonparametric Methods (3.0 cr)
- STAT 5701 - Statistical Computing (3.0 cr)
STAT 8112 - Mathematical Statistics II (3.0 cr)
AST 5731 - Bayesian Astrostatistics (4.0 cr)
or STAT 5731 - Bayesian Astrostatistics (4.0 cr)

Algorithmics (6 credits)
Algorithmics Tier I (3 to 6 credits)
Select at least 3 credits from the following in consultation with the advisor. Students may complete PUBH 8475 or STAT 8056 but not both.
CSCI 5521 - Machine Learning Fundamentals (3.0 cr)
CSCI 5523 - Introduction to Data Mining (3.0 cr)
CSCI 5525 - Machine Learning: Analysis and Methods (3.0 cr)
EE 8591 - Predictive Learning from Data (3.0 cr)
PUBH 7475 - Statistical Learning and Data Mining (3.0 cr)
PUBH 8475 - Statistical Learning and Data Mining (3.0 cr)
or STAT 8056 - Statistical Learning and Data Mining (3.0 cr)

Algorithmics Tier II (0 to 3 credits)
Select credits from the following, in consultation with the advisor, as needed to meet the 6-credit Algorithmics requirement:
CSCI 5302 - Analysis of Numerical Algorithms (3.0 cr)
CSCI 5304 - Computational Aspects of Matrix Theory (3.0 cr)
CSCI 5511 - Artificial Intelligence I (3.0 cr)
CSCI 5512 - Artificial Intelligence II (3.0 cr)
CSCI 5527 - Deep Learning: Models, Computation, and Applications (3.0 cr)
CSCI 5609 - Visualization (3.0 cr)
CSCI 8314 - Sparse Matrix Computations (3.0 cr)
CSCI 8581 - Big Data in Astrophysics (4.0 cr)
EE 5239 - Introduction to Nonlinear Optimization (3.0 cr)
EE 5251 - Optimal Filtering and Estimation (3.0 cr)
EE 5389 - Introduction to Predictive Learning (3.0 cr)
EE 5542 - Adaptive Digital Signal Processing (3.0 cr)
EE 5561 - Image Processing and Applications: From linear filters to artificial intelligence (3.0 cr)
EE 5581 - Information Theory and Coding (3.0 cr)
EE 5585 - Data Compression (3.0 cr)
EE 8231 - Optimization Theory (3.0 cr)
EE 8551 - Multirate Signal Processing and Applications (3.0 cr)
IE 5531 - Engineering Optimization I (4.0 cr)
IE 8521 - Optimization (4.0 cr)
IE 8531 - Discrete Optimization (4.0 cr)

Infrastructure and Large-Scale Computing (6 credits)
Infrastructure and Large-Scale Computing Tier I (3 to 6 credits)
Select at least 3 credits from the following in consultation with the advisor:
CSCI 5105 - Introduction to Distributed Systems (3.0 cr)
CSCI 5451 - Introduction to Parallel Computing: Architectures, Algorithms, and Programming (3.0 cr)
CSCI 5707 - Principles of Database Systems (3.0 cr)
CSCI 5708 - Architecture and Implementation of Database Management Systems (3.0 cr)
EE 5351 - Applied Parallel Programming (3.0 cr)
CSCI 8205 - Parallel Computer Organization (3.0 cr)
or EE 8367 - Parallel Computer Organization (3.0 cr)

Infrastructure and Large-Scale Computing Tier II (0 to 3 credits)
Select credits from the following, in consultation with the advisor, as needed to complete the 6-credit Infrastructure and Large-Scale Computing requirement.
CSCI 5103 - Operating Systems (3.0 cr)
CSCI 5211 - Data Communications and Computer Networks (3.0 cr)
CSCI 5271 - Introduction to Computer Security (3.0 cr)
CSCI 5715 - From GPS, Google Maps, and Uber to Spatial Data Science (3.0 cr)
CSCI 5751 - Big Data Engineering and Architecture (3.0 cr)
CSCI 5801 - Software Engineering I (3.0 cr)
CSCI 5802 - Software Engineering II (3.0 cr)
CSCI 8102 - Foundations of Distributed Computing (3.0 cr)
CSCI 8701 - Overview of Database Research (3.0 cr)
CSCI 8715 - Spatial Data Science Research (3.0 cr)
CSCI 8725 - Databases for Bioinformatics (3.0 cr)
CSCI 8735 - Advanced Database Systems (3.0 cr)
CSCI 8801 - Advanced Software Engineering (3.0 cr)
EE 5355 - Algorithmic Techniques for Scalable Many-core Computing (3.0 cr)
EE 5371 - Computer Systems Performance Measurement and Evaluation (3.0 cr)
EE 5501 - Digital Communication (3.0 cr)

**Electives (9 credits)**
Select 9 credits from the following in consultation with the advisor. Courses from above lists that are not applied to other requirements can be selected with advisor approval. Other electives may be selected in consultation with the advisor and director of graduate studies. If 3 credits of DSCI 8760 have already been taken in a semester an additional 3 credits in a subsequent semester can be used towards elective coursework after consultation with the advisor.

- CSCI 5106 - Programming Languages (3.0 cr)
- CSCI 5123 - Recommender Systems (3.0 cr)
- CSCI 5421 - Advanced Algorithms and Data Structures (3.0 cr)
- CSCI 5461 - Functional Genomics, Systems Biology, and Bioinformatics (3.0 cr)
- CSCI 5541 - Natural Language Processing (3.0 cr)
- CSCI 5561 - Computer Vision (3.0 cr)
- CSCI 5980 - Special Topics in Computer Science (1.0 - 3.0 cr)
- CSCI 8271 - Security and Privacy in Computing (3.0 cr)
- CSCI 8363 - Numerical Linear Algebra in Data Exploration (3.0 cr)
- CSCI 8980 - Special Advanced Topics in Computer Science (1.0 - 3.0 cr)
- DSCI 8760 - Data Science M.S. Plan B Project (3.0 cr)
- EE 5393 - Circuits, Computation, and Biology (3.0 cr)
- IE 8534 - Advanced Topics in Operations Research (1.0 - 4.0 cr)
- IE 8535 - Introduction to Network Science (4.0 cr)
- MATH 5467 - Introduction to the Mathematics of Image and Data Analysis (4.0 cr)
- PUBH 7445 - Statistics for Human Genetics and Molecular Biology (3.0 cr)
- PUBH 7461 - Exploring and Visualizing Data in R (2.0 cr)
- PUBH 8445 - Statistics for Human Genetics and Molecular Biology (3.0 cr)
- PUBH 8446 - Advanced Statistical Genetics and Genomics (3.0 cr)
- PUBH 8472 - Spatial Biostatistics (3.0 cr)

**Research Colloquium (1 credit)**
Select 1 of the following in consultation with the advisor:

- CSCI 8970 - Computer Science Colloquium (1.0 cr)
- or DSCI 8970 - Data Science M.S. Colloquium (1.0 cr)

**Capstone Course (3 credits)**
Take the following in consultation with the advisor:

- DSCI 8760 - Data Science M.S. Plan B Project (3.0 cr)
Twin Cities Campus
Data Science Minor
Computer Science and Engineering
College of Science and Engineering

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 9
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Data Science minor provides a strong foundation in the science of Big Data and its analysis by gathering together the knowledge, expertise, and educational assets in data collection and management, data analytics, scalable data-driven pattern discovery, and the fundamental concepts behind these methods. Students completing this minor will learn the state-of-the-art methods for treating Big Data and be exposed to the cutting-edge methods and theory forming the basis for the next generation of Big Data technology.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Data Science director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Courses must be taken at the University of Minnesota Twin Cities Campus; transfer coursework will not be accepted.

Minor coursework offered on both the A-F and S/N grading basis must be taken A-F.

The minimum cumulative GPA for the minor is 3.00.

Algorithmics (3 credits)
Select 3 credits from the following. Students may complete PUBH 8475 or STAT 8056 but not both.
- CSCI 5521 - Machine Learning Fundamentals (3.0 cr)
- CSCI 5523 - Introduction to Data Mining (3.0 cr)
- CSCI 5525 - Machine Learning: Analysis and Methods (3.0 cr)
- EE 8591 - Predictive Learning from Data (3.0 cr)
- PUBH 7475 - Statistical Learning and Data Mining (3.0 cr)
- PUBH 8475 - Statistical Learning and Data Mining (3.0 cr)
- STAT 8056 - Statistical Learning and Data Mining (3.0 cr)
Statistics (3 credits)
Select 3 credits from the following:
- PUBH 7401 - Fundamentals of Biostatistical Inference (4.0 cr)
- PUBH 7402 - Biostatistics Modeling and Methods (4.0 cr)
- PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
- STAT 5102 - Theory of Statistics II (4.0 cr)
- STAT 5302 - Applied Regression Analysis (4.0 cr)
- STAT 5401 - Applied Multivariate Methods (3.0 cr)
- STAT 5511 - Time Series Analysis (3.0 cr)
- STAT 8051 - Advanced Regression Techniques: linear, nonlinear and nonparametric methods (3.0 cr)
- STAT 8101 - Theory of Statistics 1 (3.0 cr)
- STAT 8102 - Theory of Statistics 2 (3.0 cr)
- MATH 5651 - Basic Theory of Probability and Statistics (4.0 cr)
  or STAT 5101 - Theory of Statistics I (4.0 cr)

Infrastructure and Large-Scale Computing (3 credits)
Select 3 credits from the following:
- CSCI 5105 - Introduction to Distributed Systems (3.0 cr)
- CSCI 5451 - Introduction to Parallel Computing: Architectures, Algorithms, and Programming (3.0 cr)
- CSCI 5707 - Principles of Database Systems (3.0 cr)
- CSCI 5708 - Architecture and Implementation of Database Management Systems (3.0 cr)
- EE 5351 - Applied Parallel Programming (3.0 cr)
  or EE 8367 - Parallel Computer Organization (3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Coursework from the student’s home department cannot be applied as an elective.

Electives (3 credits)
Select 3 credits from the following to complete the 12-credit minimum for the doctoral minor. Coursework not used to satisfy course requirements for the 3 areas listed above can be applied to the elective requirement.
- AST 5731 - Bayesian Astrostatistics (4.0 cr)
- CSCI 5103 - Operating Systems (3.0 cr)
- CSCI 5105 - Introduction to Distributed Systems (3.0 cr)
- CSCI 5106 - Programming Languages (3.0 cr)
- CSCI 5123 - Recommender Systems (3.0 cr)
- CSCI 5211 - Data Communications and Computer Networks (3.0 cr)
- CSCI 5271 - Introduction to Computer Security (3.0 cr)
- CSCI 5302 - Analysis of Numerical Algorithms (3.0 cr)
- CSCI 5304 - Computational Aspects of Matrix Theory (3.0 cr)

- Program Type: Post-baccalaureate credit certificate/licensure/endorsement
- Requirements for this program are current for Fall 2022
- Length of program in credits: 12
- This program does not require summer semesters for timely completion.
- Degree: Data Science Postbaccalaureate Certificate

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Data Science post-baccalaureate certificate program provides a strong foundation in the science of Big Data and its analysis by gathering in a single program the knowledge, expertise, and educational assets in data collection and management, data analytics, scalable data-driven pattern discovery, and the fundamental concepts behind these methods.

Students who graduate from this 2-semester certificate program will learn the state-of-the-art methods for treating Big Data and be exposed to the cutting-edge methods and theory forming the basis for the next generation of Big Data technology.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A bachelor's degree from an accredited college or university in computer science, math, statistics, engineering, natural sciences, or a related field.

Other requirements to be completed before admission:
The undergraduate degree must include statistics, calculus, multivariable calculus, linear algebra, and mathematical software environments such as Matlab or R or the equivalent, programming languages such as C++, Java, programming experience including algorithms and data structures normally taught in beginning computer science courses either as part of the undergraduate degree or subsequent work experience.

Special Application Requirements:
Admission application deadlines: rolling. Applicants are considered for fall or spring admission.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Writing Score: 23
  - Internet Based - Reading Score: 23
- IELTS
  - Total Score: 6.5
- MELAB
  - Part 1 (Composition) score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

Courses offered on both the A-F and S/N grading basis must be taken A-F. A minimum GPA of 3.00 is required for students to remain in good standing.

Coursework Requirements (12 credits)
Select at least 3 credits from each of the 3 emphasis areas, plus 3 credits from any of the emphases or the electives list, in consultation with the advisor.

Algorithmics (3 to 6 credits)
Select at least 3 credits from the following in consultation with the advisor. Students may complete PUBH 8475 or STAT 8056 but not both.

- CSCI 5521 - Machine Learning Fundamentals (3.0 cr)
- CSCI 5523 - Introduction to Data Mining (3.0 cr)
- CSCI 5525 - Machine Learning: Analysis and Methods (3.0 cr)
- EE 8591 - Predictive Learning from Data (3.0 cr)
- PUBH 7475 - Statistical Learning and Data Mining (3.0 cr)
- PUBH 8475 - Statistical Learning and Data Mining (3.0 cr)
  or STAT 8056 - Statistical Learning and Data Mining (3.0 cr)

Statistics (3 to 6 credits)
Select at least 3 credits from the following in consultation with the advisor:

- PUBH 7401 - Fundamentals of Biostatistical Inference (4.0 cr)
- PUBH 7402 - Biostatistics Modeling and Methods (4.0 cr)
- PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
- STAT 5102 - Theory of Statistics II (4.0 cr)
- STAT 5302 - Applied Regression Analysis (4.0 cr)
- STAT 5401 - Applied Multivariate Methods (3.0 cr)
- STAT 5511 - Time Series Analysis (3.0 cr)
- STAT 8051 - Advanced Regression Techniques: linear, nonlinear and nonparametric methods (3.0 cr)
- STAT 8101 - Theory of Statistics 1 (3.0 cr)
- STAT 8102 - Theory of Statistics 2 (3.0 cr)
- MATH 5651 - Basic Theory of Probability and Statistics (4.0 cr)
  or STAT 5101 - Theory of Statistics I (4.0 cr)

Infrastructure and Large-Scale Computing (3 to 6 credits)
Select at least 6 credits from the following in consultation with the advisor:

- CSCI 5105 - Introduction to Distributed Systems (3.0 cr)
- CSCI 5451 - Introduction to Parallel Computing: Architectures, Algorithms, and Programming (3.0 cr)
- CSCI 5707 - Principles of Database Systems (3.0 cr)
- CSCI 5708 - Architecture and Implementation of Database Management Systems (3.0 cr)
- EE 5351 - Applied Parallel Programming (3.0 cr)
- CSCI 8205 - Parallel Computer Organization (3.0 cr)
  or EE 8367 - Parallel Computer Organization (3.0 cr)

Electives (0 to 3 credits)
Select credits as needed, in consultation with the advisor, to complete the 12-credit minimum. Other courses may be selected with advisor and director of graduate studies approval.

- CSCI 5103 - Operating Systems (3.0 cr)
- CSCI 5106 - Programming Languages (3.0 cr)
- CSCI 5123 - Recommender Systems (3.0 cr)
- CSCI 5211 - Data Communications and Computer Networks (3.0 cr)
- CSCI 5271 - Introduction to Computer Security (3.0 cr)
- CSCI 5302 - Analysis of Numerical Algorithms (3.0 cr)
- CSCI 5304 - Computational Aspects of Matrix Theory (3.0 cr)
- CSCI 5421 - Advanced Algorithms and Data Structures (3.0 cr)
- CSCI 5461 - Functional Genomics, Systems Biology, and Bioinformatics (3.0 cr)
- CSCI 5511 - Artificial Intelligence I (3.0 cr)
- CSCI 5512 - Artificial Intelligence II (3.0 cr)
- CSCI 5527 - Deep Learning: Models, Computation, and Applications (3.0 cr)
- CSCI 5541 - Natural Language Processing (3.0 cr)
- CSCI 5561 - Computer Vision (3.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The modern earth sciences are a remarkable synthesis of the physical and biological sciences. They are at the forefront of inquiry into and solutions of most of the major issues involving the global environment: climate, oceans, freshwater in all its forms, natural resources, and natural disasters. Like no other field, they integrate all the systems, from surface to great depth, from physics to chemistry to biology, and over all of geologic time and all geographic scales. The program includes the fields of structural geology, tectonics, petrology, hydrogeology, geomorphology, sedimentology, surface processes, geochemistry, geobiochemistry, geobiology, paleontology and paleobiology, chemical oceanography, mineralogy, mineral and rock magnetism, rock and mineral physics, geodynamics, seismology, geostatistics, planetary geology, and geophysics and applied geophysics.

Students complete one of the following tracks: Geology, Geophysics, Biogeology, Hydrogeology, or Earth Sciences.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A bachelor's degree in geology, geophysics, earth and material sciences, chemistry, physics, biology, or environmental science.

Other requirements to be completed before admission:
At least one year each of study in calculus, chemistry, and physics is required. In general, an outstanding academic record is expected.

Special Application Requirements:
Materials for a complete application file include the student's statement of purpose, optional diversity statement, three letters of recommendation, transcripts, and the Application for Admission. Applications are considered at any time; however, to be considered for financial aid, all materials must be submitted by December 15. Studies may begin in any semester or summer session, although fall semester is preferable.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5

Key to test abbreviations (TOEFL, IELTS).
For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

**Program Requirements**

**Plan A:** Plan A requires 14 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is oral.

**Plan B:** Plan B requires 14 to 22 major credits and 8 to 16 credits outside the major. The final exam is written and oral. A capstone project is required.

**Capstone Project:** The Plan B project comprises one or more projects such as a research paper, presentation of research results, and/or completion of a faculty-supervised research experience.

**Plan C:** Plan C requires 14 to 21 major credits and 9 to 16 credits outside the major. There is no final exam.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 2.80 is required for students to remain in good standing.

Courses offered on both the A-F and S/N grading basis must be taken A-F. A maximum of 4.0 credits of ESCI 8994 are allowed to count toward the degree.

**Required Courses (3 credits)**

Take 1 credit of ESCI 8980. Both courses should be taken in the first year of study.

- ESCI 8001 - Introductory Graduate Seminar (2.0 cr)
- ESCI 8980 - Seminar: Current Topics in Earth & Environmental Sciences (1.0 - 4.0 cr)

**Outside Coursework (6 to 9 credits)**

Plan A students select 6 credits, Plan B students select 8 credits, and Plan C students select 9 credits from the following in consultation with the advisor. Other courses may be applied to this requirement with advisor and director of graduate studies approval.

- ANTH 5403 - Quantitative Methods in Biological Anthropology (4.0 cr)
- CEGE 4501 - Hydrologic Design (4.0 cr)
- CEGE 4512 - Open Channel Hydraulics (4.0 cr)
- CEGE 5541 - Environmental Water Chemistry (3.0 cr)
- CEGE 5551 - Environmental Microbiology (3.0 cr)
- CEGE 5552 - Environmental Microbiology Laboratory (1.0 cr)
- CHEM 4501 - Introduction to Thermodynamics, Kinetics, and Statistical Mechanics (3.0 cr)
- CSCI 5304 - Computational Aspects of Matrix Theory (3.0 cr)
- CSCI 5521 - Machine Learning Fundamentals (3.0 cr)
- CSCI 5609 - Visualization (3.0 cr)
- EE 5531 - Probability and Stochastic Processes (3.0 cr)
- EE 8581 - Detection and Estimation Theory (3.0 cr)
- EEB 5053 - Ecology: Theory and Concepts (4.0 cr)
- EEB 5407 - Ecology (3.0 cr)
- EEB 5601 - Limnology (3.0 cr)
- ESPM 5402 - Biometeorology (3.0 cr)
- FNRM 5114 - Hydrology and Watershed Management (3.0 cr)
- FNRM 5131 - Geographical Information Systems (GIS) for Natural Resources (4.0 cr)
- FNRM 5203 - Forest Fire and Disturbance Ecology (3.0 cr)
- FNRM 5262 - Remote Sensing and Geospatial Analysis of Natural Resources and Environment (3.0 cr)
- LAAS 5311 - Soil Chemistry and Mineralogy (3.0 cr)
- LAAS 5425 - Atmospheric Processes I: Thermodynamics and Dynamics of the Atmosphere (3.0 cr)
- LAAS 5426 - Atmospheric Processes II: Radiation, Composition, and Climate (3.0 cr)
- LAAS 5515 - Soil Formation: Earth Surface Processes and Biogeochemistry (3.0 cr)
- LAAS 5621 - Environmental Genomics and Microbiomes (3.0 cr)
- MATH 5485 - Introduction to Numerical Methods I (4.0 cr)
- MATH 5486 - Introduction To Numerical Methods II (4.0 cr)
- MATS 5517 - Microscopy of Materials (3.0 cr)
- MATS 8001 - Structure and Symmetry of Materials (3.0 cr)
- MATS 8002 - Thermodynamics and Kinetics (3.0 cr)
- MATS 8003 - Electronic Properties (3.0 cr)
- STAT 8101 - Theory of Statistics 1 (3.0 cr)
Electives
Select courses from the following as needed, in consultation with the advisor, to complete the minimum number of course credits required:

- ESCI 4203 - Environmental Geophysics (3.0 cr)
- ESCI 4204 - Geomagnetism and Paleomagnetism (3.0 cr)
- ESCI 4212 - Geodynamics (3.0 cr)
- ESCI 4401 - Aqueous Environmental Geochemistry (3.0 cr)
- ESCI 4402 - Biogeochemical Cycles in the Ocean (3.0 cr)
- ESCI 4501 - Structural Geology (3.0 cr)
- ESCI 4502 - Tectonic Styles (3.0 cr)
- ESCI 4602 - Sedimentology and Stratigraphy (3.0 cr)
- ESCI 4701 - Geomorphology (4.0 cr)
- ESCI 4702 - General Hydrogeology (4.0 cr)
- ESCI 4703 - Glacial Geology (4.0 cr)
- ESCI 4801 - Geomicrobiology (3.0 cr)
- ESCI 4911 - Advanced Field Geology (4.0 cr)
- ESCI 5102 - Climate Change and Human History (3.0 cr)
- ESCI 5201 - Time-Series Analysis of Geological Phenomena (3.0 cr)
- ESCI 5203 - Mineral and Rock Physics (3.0 cr)
- ESCI 5204 - Geostatistics and Inverse Theory (3.0 cr)
- ESCI 5302 - Isotope Geology (3.0 cr)
- ESCI 5353 - Electron Microprobe Theory and Practice (3.0 cr)
- ESCI 5402 - Science and Politics of Global Warming (3.0 cr)
- ESCI 5403 - Computer Applications in Earth & Environmental Sciences (3.0 cr)
- ESCI 5503 - Advanced Petrology (3.0 cr)
- ESCI 5705 - Limnogeology and Paleoenvironment (3.0 cr)
- ESCI 5805 - Standards and Practices for Professional Geoscientists (3.0 cr)
- ESCI 5971 - Field Hydrogeology (2.0 cr)
- ESCI 5980 - Seminar: Current Topics in Earth Sciences (1.0 - 4.0 cr)
- ESCI 8203 - Environmental Geophysics (3.0 cr)
- ESCI 8204 - Geomagnetism and Paleomagnetism (3.0 cr)
- ESCI 8243 - Principles of Rock Magnetism (1.0 - 3.0 cr)
- ESCI 8353 - Phase Equilibrium in Mineral Systems (3.0 cr)
- ESCI 8354 - Igneous Petrology (3.0 cr)
- ESCI 8355 - Metamorphic Petrology (3.0 cr)
- ESCI 8401 - Aqueous Environmental Geochemistry (3.0 cr)
- ESCI 8402 - Biogeochemical Cycles in the Ocean (3.0 cr)
- ESCI 8501 - Structural Geology (4.0 cr)
- ESCI 8502 - Tectonic Styles (3.0 cr)
- ESCI 8511 - Mechanics of Sediment Transport (3.0 cr)
- ESCI 8601 - Introduction to Stream Restoration (3.0 cr)
- ESCI 8602 - Stream Restoration Practice (2.0 cr)
- ESCI 8701 - Geomorphology (4.0 cr)
- ESCI 8712 - Transport Phenomena and Analytical Geohydrology (3.0 - 4.0 cr)
- ESCI 8718 - Numerical Methods in Hydrogeology (4.0 cr)
- ESCI 8801 - Geomicrobiology (3.0 cr)
- ESCI 8970 - Seminar: Current Topics in Earth Sciences (1.0 - 4.0 cr)
- ESCI 8994 - Research in Earth Sciences (1.0 - 4.0 cr)

Plan Options

Plan A
Thesis Credits
Take 10 master's thesis credits.
ESCI 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Biogeology
This sub-plan is limited to students completing the program under Plan A or Plan B.
Biogeology represents a rapidly growing area at the intersection between Earth and the life sciences. It includes research in microbial evolution and biochemistry, microbe/mineral chemical interactions, the role of organisms in basic geological processes, the principles through which organisms or organic compounds can be used to reconstruct surface conditions, biogeochemical cycling, pollution control and remediation, the origin of life on Earth, and astrobiology.

**Required Courses (6 credits)**
Take the following courses:
- **ESCI 8402** - Biogeochemical Cycles in the Ocean (3.0 cr)
- **ESCI 8801** - Geomicrobiology (3.0 cr)

**Earth Sciences**
This sub-plan is limited to students completing the program under Plan A or Plan B.

This generalist track exists for students whose curriculum and/or thesis, paper, or project do not fit any of the other tracks. A curriculum specific to the student will be set through the compact process.

**Required Courses (6 credits)**
Select 6 credits from the following in consultation with the advisor:
- **ESCI 4xxx**
- **ESCI 5xxx**
- **ESCI 8xxx**

**Geology**
This sub-plan is limited to students completing the program under Plan A or Plan B.

Geology uses field observation, laboratory work, analog and computer modeling, chemical and biological probes and assays to understand Earth's coupled rock, water and biological systems, the underlying processes, and their history of interaction as evidenced in the rock record.

**Required Courses (6 credits)**
Select 6 credits from the following in consultation with the advisor:
- **ESCI 5302** - Isotope Geology (3.0 cr)
- **ESCI 5353** - Electron Microprobe Theory and Practice (3.0 cr)
- **ESCI 5503** - Advanced Petrology (3.0 cr)
- **ESCI 5705** - Limnogeology and Paleoenvironment (3.0 cr)

**Geophysics**
This sub-plan is limited to students completing the program under Plan A or Plan B.

Geophysics uses remote sensing probes (seismic waves, potential fields, etc.), laboratory simulation of deep earth conditions and computer modeling of fluid and continuum mechanical dynamics to investigate the structure, composition, history, and dynamics of solid Earth and other planets.

**Required Courses (6 credits)**
Select 6 credits from the following in consultation with the advisor:
- **ESCI 4212** - Geodynamics (3.0 cr)
- **ESCI 5201** - Time-Series Analysis of Geological Phenomena (3.0 cr)
- **ESCI 5203** - Mineral and Rock Physics (3.0 cr)
- **ESCI 5204** - Geostatistics and Inverse Theory (3.0 cr)
- **ESCI 8203** - Environmental Geophysics (3.0 cr)
- **ESCI 8204** - Geomagnetism and Paleomagnetism (3.0 cr)

**Hydrogeology**
The Hydrogeology track is the only option available to all students, including those pursuing the Plan C option.

Hydrogeology uses direct observation and remote sensing, computer modeling and laboratory simulation to constrain the interaction of water and rock in Earth's shallow subsurface. Freshwater is Earth's most precious and increasingly overexploited resource. Hydrogeology is a key discipline in the effective shepherding of this important reserve. This track establishes a baseline curriculum for hydrogeology at the graduate level. The compact process will identify additional coursework appropriate to the student's prior training and research directions.
Required Courses (6 credits)
Take the following courses:
ESCI 4702 - General Hydrogeology (4.0 cr)
ESCI 5971 - Field Hydrogeology (2.0 cr)
Twin Cities Campus
Earth Sciences Minor

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The modern earth sciences are a remarkable synthesis of the physical and biological sciences. They are at the forefront of inquiry into and solutions of most of the major issues involving the global environment: climate, oceans, freshwater in all its forms, natural resources, and natural disasters. Like no other field, they integrate all the systems, from surface to great depth, from physics to chemistry to biology, and over all of geologic time and all geographic scales. The program includes the fields of structural geology, tectonics, petrology, hydrogeology, geomorphology, sedimentology, surface processes, geochemistry, geobiology, geobiochemistry, geodynamics, seismology, geostatistics, planetary geology, and geophysics and applied geophysics.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Earth Sciences director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Courses offered on both the A-F and S/N grading basis must be taken A-F.

The minimum cumulative GPA for the minor is 3.00.

Minor Courses (6 to 12 credits)
Masters students select 6 credits, and doctoral students select 12 credits from the following in consultation with the Earth Sciences director of graduate studies. Other courses may be chosen with the approval of the Earth Sciences director of graduate studies.

ESCI 4203 - Environmental Geophysics (3.0 cr)
ESCI 4204 - Geomagnetism and Paleomagnetism (3.0 cr)
ESCI 4212 - Geodynamics (3.0 cr)
ESCI 4401 - Aqueous Environmental Geochemistry (3.0 cr)
ESCI 4402 - Biogeochemical Cycles in the Ocean (3.0 cr)
ESCI 4501 - Structural Geology (3.0 cr)
ESCI 4502 - Tectonic Styles (3.0 cr)
ESCI 4602 - Sedimentology and Stratigraphy (3.0 cr)
ESCI 4701 - Geomorphology (4.0 cr)
ESCI 4702 - General Hydrogeology (4.0 cr)
ESCI 4703 - Glacial Geology (4.0 cr)
ESCI 4801 - Geomicrobiology (3.0 cr)
ESCI 4911 - Advanced Field Geology (4.0 cr)
ESCI 5102 - Climate Change and Human History (3.0 cr)
ESCI 5201 - Time-Series Analysis of Geological Phenomena (3.0 cr)
ESCI 5203 - Mineral and Rock Physics (3.0 cr)
ESCI 5204 - Geostatistics and Inverse Theory (3.0 cr)
ESCI 5302 - Isotope Geology (3.0 cr)
ESCI 5353 - Electron Microprobe Theory and Practice (3.0 cr)
ESCI 5402 - Science and Politics of Global Warming (3.0 cr)
ESCI 5403 - Computer Applications in Earth & Environmental Sciences (3.0 cr)
ESCI 5503 - Advanced Petrology (3.0 cr)
ESCI 5705 - Limnogeology and Paleoenvironment (3.0 cr)
ESCI 5805 - Standards and Practices for Professional Geoscientists (3.0 cr)
ESCI 5971 - Field Hydrogeology (2.0 cr)
ESCI 5980 - Seminar: Current Topics in Earth Sciences (1.0 - 4.0 cr)
ESCI 8203 - Environmental Geophysics (3.0 cr)
ESCI 8204 - Geomagnetism and Paleomagnetism (3.0 cr)
ESCI 8243 - Principles of Rock Magnetism (1.0 - 3.0 cr)
ESCI 8353 - Phase Equilibrium in Mineral Systems (3.0 cr)
ESCI 8354 - Igneous Petrology (3.0 cr)
ESCI 8355 - Metamorphic Petrology (3.0 cr)
ESCI 8401 - Aqueous Environmental Geochemistry (3.0 cr)
ESCI 8402 - Biogeochemical Cycles in the Ocean (3.0 cr)
ESCI 8501 - Structural Geology (4.0 cr)
ESCI 8502 - Tectonic Styles (3.0 cr)
ESCI 8511 - Mechanics of Sediment Transport (3.0 cr)
ESCI 8601 - Introduction to Stream Restoration (3.0 cr)
ESCI 8602 - Stream Restoration Practice (2.0 cr)
ESCI 8701 - Geomorphology (4.0 cr)
ESCI 8712 - Transport Phenomena and Analytical Geohydrology (3.0 - 4.0 cr)
ESCI 8718 - Numerical Methods in Hydrogeology (4.0 cr)
ESCI 8801 - Geomicrobiology (3.0 cr)
ESCI 8970 - Seminar: Current Topics in Earth Sciences (1.0 - 4.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Twin Cities Campus
Earth Sciences Ph.D.
Department of Earth Sciences
College of Science and Engineering

Link to a list of faculty for this program.

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 48
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The modern earth sciences are a remarkable synthesis of the physical and biological sciences. They are at the forefront of inquiry into and solutions of most of the major issues involving the global environment: climate, oceans, freshwater in all its forms, natural resources, and natural disasters. Like no other field, they integrate all the systems, from surface to great depth, from physics to chemistry to biology, and over all of geologic time and all geographic scales. The program includes the fields of structural geology, tectonics, petrology, hydrogeology, geomorphology, sedimentology, surface processes, geochemistry, geobiochemistry, geobiology, paleontology and paleobiology, chemical oceanography, mineralogy, mineral and rock magnetism, rock and mineral physics, geodynamics, seismology, geostatistics, planetary geology, and geophysics and applied geophysics.

Students complete one of the following tracks: Geology, Geophysics, Biogeology, Hydrogeology, or Earth Sciences.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Bachelor's degree in geology, geophysics, earth and material sciences, chemistry, physics, biology, or environmental science.

Other requirements to be completed before admission:
At least one year of study each in calculus, chemistry, and physics is required. In general, an outstanding academic record is expected.

Special Application Requirements:
Materials for a complete application file include the student's statement of purpose, an optional diversity statement, three letters of recommendation, transcripts, and the Application for Admission. Applications are considered at any time; however, to be considered for financial aid, all materials must be submitted by December 15. Studies may begin in any semester or summer session, although fall semester is preferable.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements
12 credits are required in the major.
12 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.0 is required for students to remain in good standing.

Coursework offered on both the A-F and S/N grading basis must be taken A-F. A maximum of 4.0 units of ESCI 8994 is allowed to count toward the degree.

Required Courses (3 credits)
Take 1 credit of ESCI 8980. Both courses should be taken in the first year of study.
ESCI 8001 - Introductory Graduate Seminar (2.0 cr)
ESCI 8980 - Seminar: Current Topics in Earth & Environmental Sciences (1.0 - 4.0 cr)

Outside Coursework (12 credits)
Select 12 credits from the following in consultation with the advisor. Other courses may be applied to this requirement with advisor and director of graduate studies approval.
ANTH 5403 - Quantitative Methods in Biological Anthropology (4.0 cr)
CEGE 4501 - Hydraulic Design (4.0 cr)
CEGE 4512 - Open Channel Hydraulics (4.0 cr)
CEGE 5541 - Environmental Water Chemistry (3.0 cr)
CEGE 5551 - Environmental Microbiology (3.0 cr) (4.0 cr)
CEGE 5552 - Environmental Microbiology Laboratory (1.0 cr)
CHEM 4501 - Introduction to Thermodynamics, Kinetics, and Statistical Mechanics (3.0 cr)
CSCI 5304 - Computational Aspects of Matrix Theory (3.0 cr)
CSCI 5521 - Machine Learning Fundamentals (3.0 cr)
CSCI 5609 - Visualization (3.0 cr)
EE 5531 - Probability and Stochastic Processes (3.0 cr)
EE 5581 - Detection and Estimation Theory (3.0 cr)
EEB 5053 - Ecology: Theory and Concepts (4.0 cr)
EEB 5407 - Ecology (3.0 cr)
EEB 5601 - Limnology (3.0 cr)
ESPM 5402 - Biometeorology (3.0 cr)
FNRM 5114 - Hydrology and Watershed Management (3.0 cr)
FNRM 5131 - Geographical Information Systems (GIS) for Natural Resources (4.0 cr)
FNRM 5203 - Forest Fire and Disturbance Ecology (3.0 cr)
FNRM 5262 - Remote Sensing and Geospatial Analysis of Natural Resources and Environment (3.0 cr)
LAAS 5311 - Soil Chemistry and Mineralogy (3.0 cr)
LAAS 5425 - Atmospheric Processes I: Thermodynamics and Dynamics of the Atmosphere (3.0 cr)
LAAS 5426 - Atmospheric Processes II: Radiation, Composition, and Climate (3.0 cr)
LAAS 5515 - Soil Formation: Earth Surface Processes and Biogeochemistry (3.0 cr)
LAAS 5521 - Environmental Genomics and Microbiomes (3.0 cr)
MATH 5485 - Introduction to Numerical Methods I (4.0 cr)
MATH 5486 - Introduction To Numerical Methods II (4.0 cr)
MATS 5517 - Microscopy of Materials (3.0 cr)
MATS 8001 - Structure and Symmetry of Materials (3.0 cr)
MATS 8002 - Thermodynamics and Kinetics (3.0 cr)
MATS 8003 - Electronic Properties (3.0 cr)
STAT 8101 - Theory of Statistics 1 (3.0 cr)
STAT 8102 - Theory of Statistics 2 (3.0 cr)

Elective Courses
Select courses from the following as needed, in consultation with the advisor, to complete the minimum number of course credits required.
ESCI 4203 - Environmental Geophysics (3.0 cr)
ESCI 4204 - Geomagnetism and Paleomagnetism (3.0 cr)
ESCI 4212 - Geodynamics (3.0 cr)
ESCI 4401 - Aqueous Environmental Geochemistry (3.0 cr)
ESCI 4402 - Biogeochemical Cycles in the Ocean (3.0 cr)
ESCI 4501 - Structural Geology (3.0 cr)
ESCI 4502 - Tectonic Styles (3.0 cr)
ESCI 4602 - Sedimentology and Stratigraphy (3.0 cr)
ESCI 4701 - Geomorphology (4.0 cr)
ESCI 4702 - General Hydrogeology (4.0 cr)
ESCI 4703 - Glacial Geology (4.0 cr)
ESCI 4801 - Geomicrobiology (3.0 cr)
ESCI 4911 - Advanced Field Geology (4.0 cr)
ESCI 5102 - Climate Change and Human History (3.0 cr)
ESCI 5201 - Time-Series Analysis of Geological Phenomena (3.0 cr)
ESCI 5203 - Mineral and Rock Physics (3.0 cr)
ESCI 5204 - Geostatistics and Inverse Theory (3.0 cr)
ESCI 5302 - Isotope Geology (3.0 cr)
ESCI 5353 - Electron Microprobe Theory and Practice (3.0 cr)
ESCI 5402 - Science and Politics of Global Warming (3.0 cr)
ESCI 5403 - Computer Applications in Earth & Environmental Sciences (3.0 cr)
ESCI 5503 - Advanced Petrology (3.0 cr)
ESCI 5705 - Limnogeology and Paleoenvironment (3.0 cr)
ESCI 5805 - Standards and Practices for Professional Geoscientists (3.0 cr)
ESCI 5971 - Field Hydrogeology (2.0 cr)
ESCI 5980 - Seminar: Current Topics in Earth Sciences (1.0 - 4.0 cr)
ESCI 8203 - Environmental Geophysics (3.0 cr)
ESCI 8204 - Geomagnetism and Paleomagnetism (3.0 cr)
ESCI 8243 - Principles of Rock Magnetism (1.0 - 3.0 cr)
ESCI 8353 - Phase Equilibrium in Mineral Systems (3.0 cr)
ESCI 8354 - Igneous Petrology (3.0 cr)
ESCI 8355 - Metamorphic Petrology (3.0 cr)
ESCI 8401 - Aqueous Environmental Geochemistry (3.0 cr)
ESCI 8402 - Biogeochemical Cycles in the Ocean (3.0 cr)
ESCI 8501 - Structural Geology (4.0 cr)
ESCI 8502 - Tectonic Styles (3.0 cr)
ESCI 8511 - Mechanics of Sediment Transport (3.0 cr)
ESCI 8601 - Introduction to Stream Restoration (3.0 cr)
ESCI 8602 - Stream Restoration Practice (2.0 cr)
ESCI 8701 - Geomorphology (4.0 cr)
ESCI 8712 - Transport Phenomena and Analytical Geohydrology (3.0 - 4.0 cr)
ESCI 8718 - Numerical Methods in Hydrogeology (4.0 cr)
ESCI 8801 - Geomicrobiology (3.0 cr)
ESCI 8970 - Seminar: Current Topics in Earth Sciences (1.0 - 4.0 cr)
ESCI 8994 - Research in Earth Sciences (1.0 - 4.0 cr)

Thesis Credits (24 credits)
Take 24 doctoral thesis credits after passing the preliminary oral exam.
ESCI 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Biogeology
Biogeology represents a rapidly growing area at the intersection between Earth and the life sciences. It includes research in microbial evolution and biochemistry, microbe/mineral chemical interactions, the role of organisms in basic geological processes, the principles through which organisms or organic compounds can be used to reconstruct surface conditions, biogeochemical cycling, pollution control and remediation, the origin of life on Earth, and astrobiology.

Required Courses (6 credits)
Take the following courses:
ESCI 8402 - Biogeochemical Cycles in the Ocean (3.0 cr)
ESCI 8801 - Geomicrobiology (3.0 cr)

Earth Sciences
This generalist track exists for students whose curriculum and/or dissertation do not fit any of the other tracks. A curriculum specific to the student will be set through the compact process.
Required Courses (6 credits)
Select 6 credits from the following in consultation with the advisor:
ESCI 4xxx
ESCI 5xxx
ESCI 8xxx

Geology
Geology uses field observation, laboratory work, analog and computer modeling, chemical and biological probes and assays to understand Earth's coupled rock, water and biological systems, the underlying processes, and their history of interaction as evidenced in the rock record.

Required Courses (6 credits)
Select 6 credits from the following in consultation with the advisor:
ESCI 5302 - Isotope Geology (3.0 cr)
ESCI 5353 - Electron Microprobe Theory and Practice (3.0 cr)
ESCI 5503 - Advanced Petrology (3.0 cr)
ESCI 5705 - Limnogeology and Paleoenvironment (3.0 cr)

Geophysics
Geophysics uses remote sensing probes (seismic waves, potential fields, etc.), laboratory simulation of deep Earth conditions and computer modeling of fluid and continuum mechanical dynamics to investigate the structure, composition, history and dynamics of solid Earth and other planets.

Required Courses (6 credits)
Select 6 credits from the following in consultation with the advisor:
ESCI 4212 - Geodynamics (3.0 cr)
ESCI 5201 - Time-Series Analysis of Geological Phenomena (3.0 cr)
ESCI 5203 - Mineral and Rock Physics (3.0 cr)
ESCI 5204 - Geostatistics and Inverse Theory (3.0 cr)
ESCI 8203 - Environmental Geophysics (3.0 cr)
ESCI 8204 - Geomagnetism and Paleomagnetism (3.0 cr)

Hydrogeology
Hydrogeology uses direct observation and remote sensing, computer modeling and laboratory simulation to constrain the interaction of water and rock in Earth's shallow subsurface. Freshwater is Earth's most precious and increasingly overexploited resource. Hydrogeology is a key discipline in the effective shepherding of this important reserve. This track establishes a baseline curriculum for hydrogeology at the graduate level. The compact process will identify additional coursework appropriate to the student's prior training and research directions.

Required Courses (6 credits)
Take the following courses:
ESCI 4702 - General Hydrogeology (4.0 cr)
ESCI 5971 - Field Hydrogeology (2.0 cr)
Twin Cities Campus
Electrical and Computer Engineering MS.E.C.E.
Electrical and Computer Engineering
College of Science and Engineering

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Department of Electrical and Computer Engineering offers diverse educational programs that encompass nearly all aspects of modern electrical and computer engineering, ranging from the very theoretical system and information theory to highly experimental work in novel device research and microelectronics. Emphases in the major are solid state and physical electronics, surface physics, thin films, sputtering, noise and fluctuation phenomena, quantum electronics, plasma physics, automation, power systems and power electronics theory, wave propagation, communication systems and theory, optics, lasers, fiber optics, magnetism, semiconductor properties and devices, VLSI and WSI engineering in theory and practice, network theory, signal and image processing, and computer and systems engineering. Interdisciplinary work is also available in bioelectrical sciences, control sciences, computer sciences, solar energy, applications of systems theory to urban transportation and economic planning, and biological modeling.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.40.

Other requirements to be completed before admission:
Consideration is given to students who have completed another curriculum in engineering, science, physics, or mathematics that includes sufficient preparation to pursue a graduate program in electrical and computer engineering. In some instances, additional preparatory studies may be required after admission.

Special Application Requirements:
All documents must be submitted electronically. No documents should be mailed to the department or the Graduate Admissions Office.

Applications for admission are considered for fall admission only and the deadline for applying is December 1. Applications submitted after the fall deadline will be considered if space is available. Minnesota residents employed full-time who wish to pursue the degree part-time may apply for spring admission.

The GRE test is not required and will not be accepted as part of the application.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
- Total Score: 6.5
- MELAB
- Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

**Program Requirements**

**Plan A:** Plan A requires 14 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is oral.

**Plan C:** Plan C requires 18 to 24 major credits and 6 to 12 credits outside the major. There is no final exam. A capstone project is required.

**Capstone Project:** The Plan C project requirement can be satisfied by taking EE 8965 (3 credits) or through completion of specific major field courses. Adviser approval is required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.0 is required for students to remain in good standing.

Non-EE coursework that is cross-listed with Electrical Engineering must be taken with the EE course subject.

Application of 4xxx-level coursework to degree requirements is restricted to 9 credits from the courses listed below, of which no more than 6 can be from EE courses.

Courses offered on both the A-F and S/N grading basis must be taken A-F, with a minimum grade of C earned for each course.

Part-time students must choose the Plan C option; full-time students may choose either Plan A or Plan C.

**Plan Options**

**Plan A**

Requirements

**Major Coursework (14 credits)**

Select 14 credits from the following in consultation with the advisor.

A maximum of 2 credits of the following courses may be selected: EE 5041, EE 8190, EE 8210, EE 8230, EE 8360, EE 8370, EE 8500, EE 8610, EE 8660, EE 8920, EE 8925, EE 8940, and MOT 4001.

- EE 4111 - Advanced Analog Electronics Design (4.0 cr)
- EE 4161W - Energy Conversion and Storage [WI] (3.0 cr)
- EE 4163 - Energy Conversion and Storage Laboratory (1.0 cr)
- EE 4231 - Linear Control Systems: Designed by Input/Output Methods (3.0 cr)
- EE 4233 - State Space Control System Design (3.0 cr)
- EE 4235 - Linear Control Systems Laboratory (1.0 cr)
- EE 4237 - State Space Control Laboratory (1.0 cr)
- EE 4301 - Digital Design With Programmable Logic (4.0 cr)
- EE 4303 - Introduction to Programmable Devices Laboratory (1.0 cr)
- EE 4341 - Embedded System Design (4.0 cr)
- EE 4363 - Computer Architecture and Machine Organization (4.0 cr)
- EE 4389W - Introduction to Predictive Learning [WI] (3.0 cr)
- EE 4501 - Communications Systems (3.0 cr)

Thesis Credits
Take 10 master's thesis credits.
EE 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

-OR-

Plan C
Requirements

Major Coursework (18 credits)
Select 18 credits from the following in consultation with the advisor. Consult with the advisor regarding coursework most appropriate for satisfying the Plan C project requirement. Other courses can be chosen with advisor and director of graduate studies approval.
EE 5121 - Transistor Device Modeling for Circuit Simulation (3.0 cr)
EE 5141 - Introduction to Microsystem Technology (4.0 cr)
EE 5163 - Semiconductor Properties and Devices I (3.0 cr)
EE 5164 - Semiconductor Properties and Devices II (3.0 cr)
EE 5171 - Microelectronic Fabrication (3.0 cr)
EE 5173 - Basic Microelectronics Laboratory (1.0 cr)
EE 5181 - Micro and Nanotechnology by Self Assembly (3.0 cr)
EE 5231 - Linear Systems and Optimal Control (3.0 cr)
EE 5235 - Robust Control System Design (3.0 cr)
EE 5239 - Introduction to Nonlinear Optimization (3.0 cr)
EE 5251 - Optimal Filtering and Estimation (3.0 cr)
EE 5271 - Robot Vision (3.0 cr)
EE 5301 - VLSI Design Automation I (3.0 cr)
EE 5302 - VLSI Design Automation II (3.0 cr)
EE 5323 - VLSI Design I (3.0 cr)
EE 5324 - VLSI Design II (3.0 cr)
EE 5327 - VLSI Design Laboratory (3.0 cr)
EE 5329 - VLSI Digital Signal Processing Systems (3.0 cr)
EE 5333 - Analog Integrated Circuit Design (3.0 cr)
EE 5351 - Applied Parallel Programming (3.0 cr)
EE 5364 - Advanced Computer Architecture (3.0 cr)
EE 5371 - Computer Systems Performance Measurement and Evaluation (3.0 cr)
EE 5393 - Circuits, Computation, and Biology (3.0 cr)
EE 5501 - Digital Communication (3.0 cr)
EE 5505 - Wireless Communication (3.0 cr)
EE 5531 - Probability and Stochastic Processes (3.0 cr)
EE 5542 - Adaptive Digital Signal Processing (3.0 cr)
EE 5545 - Digital Signal Processing Design (3.0 cr)
EE 5549 - Digital Signal Processing Structures for VLSI (3.0 cr)
EE 8551 - Multirate Signal Processing and Applications (3.0 cr)
EE 5561 - Image Processing and Applications: From linear filters to artificial intelligence (3.0 cr)
EE 5581 - Information Theory and Coding (3.0 cr)
EE 5583 - Error Control Coding (3.0 cr)
EE 5585 - Data Compression (3.0 cr)
EE 5601 - Introduction to RF/Microwave Engineering (3.0 cr)
EE 5602 - RF/Microwave Circuit Design (3.0 cr)
EE 5611 - Plasma-Aided Manufacturing (4.0 cr)
EE 5613 - RF/Microwave Circuit Design Laboratory (2.0 cr)
EE 5616 - Antenna Theory and Design (3.0 cr)
EE 5621 - Physical Optics (3.0 cr)
EE 5622 - Physical Optics Laboratory (1.0 cr)
EE 5624 - Optical Electronics (4.0 cr)
EE 5627 - Optical Fiber Communication (3.0 cr)
EE 5653 - Physical Principles of Magnetic Materials (3.0 cr)
EE 5655 - Magnetic Recording (3.0 cr)
EE 5657 - Physical Principles of Thin Film Technology (4.0 cr)
EE 5705 - Electric Drives in Sustainable Energy Systems (3.0 cr)
EE 5707 - Electric Drives in Sustainable Energy Systems Laboratory (1.0 cr)
EE 5721 - Power Generation Operation and Control (3.0 cr)
EE 5741 - Advanced Power Electronics (3.0 cr)
EE 5745 - Wind Energy Essentials (2.0 cr)
EE 5811 - Biological Instrumentation (3.0 cr)
EE 5940 - Special Topics in Electrical Engineering I (1.0 - 4.0 cr)
EE 5960 - Special Topics in Electrical Engineering III (1.0 - 4.0 cr)
EE 8100 - Advanced Topics in Electronics (1.0 - 3.0 cr)
EE 8141 - Advanced Heterojunction Transistors (3.0 cr)
EE 8161 - Physics of Semiconductors (3.0 cr)
EE 8163 - Quantum Electronics (3.0 cr)
EE 8213 - Advanced System Theory (3.0 cr)
EE 8215 - Nonlinear Systems (3.0 cr)
EE 8231 - Optimization Theory (3.0 cr)
EE 8235 - Advanced Control Topics (3.0 cr)
EE 8300 - Advanced Topics in Computers (1.0 - 3.0 cr)
EE 8310 - Advanced Topics in VLSI (1.0 - 3.0 cr)
EE 8320 - Advanced Topics in Design Automation (1.0 - 3.0 cr)
EE 8331 - CMOS Data Converters: A/D and D/A (3.0 cr)
EE 8337 - Analog Circuits for Wire/Wireless Communications (3.0 cr)
EE 8367 - Parallel Computer Organization (3.0 cr)
EE 8510 - Advanced Topics in Communications (1.0 - 3.0 cr)
EE 8520 - Advanced Topics in Signal Processing (1.0 - 3.0 cr)
EE 8581 - Detection and Estimation Theory (3.0 cr)
EE 8601 - Advanced Electromagnetic Theory (3.0 cr)
EE 8611 - Plasma Physics (3.0 cr)
EE 8620 - Advanced Topics in Magnetics (1.0 - 3.0 cr)
EE 8630 - Advanced Topics in Electromagnetics (1.0 - 3.0 cr)
EE 8725 - Advanced Power System Analysis and Economics (3.0 cr)
EE 8741 - Power Electronics in Power Systems (3.0 cr)
EE 8744 - Modeling, Analysis, and Control of Renewable Energy Systems (3.0 cr)
EE 8950 - Advanced Topics in Electrical and Computer Engineering (3.0 cr)
EE 8965 - Plan C Project I (3.0 cr)

Outside Coursework (6 credits)
Select at least 6 credits from the following. Other courses can be selected with advisor and director of graduate studies approval.

AEM 4203 - Aerospace Propulsion (4.0 cr)
AEM 4290 - Special Topics in Fluid Mechanics (1.0 - 3.0 cr)
AEM 4301 - Orbital Mechanics (3.0 cr)
AEM 4303W - Flight Dynamics and Control [WI] (3.0 cr)
AEM 4305 - Spacecraft Attitude Dynamics and Control (3.0 cr)
AEM 4331 - Aerospace Vehicle Design (4.0 cr)
AEM 4333 - Aerospace Design: Special Projects (3.0 cr)
AEM 4490 - Special Topics in Aerospace Systems (1.0 - 3.0 cr)
AEM 4501 - Aerospace Structures (3.0 cr)
AEM 4502 - Computational Structural Analysis (3.0 cr)
AEM 4511 - Mechanics of Composite Materials (3.0 cr)
AEM 4581 - Mechanics of Solids (3.0 cr)
AEM 4590 - Special Topics in Solid Mechanics and Materials (1.0 - 3.0 cr)
AEM 4601 - Instrumentation Laboratory (3.0 cr)

**Additional Coursework**

Select remaining courses in consultation with the advisor to complete the 30 course credits required for the major. Coursework can be EE or non-EE coursework and can be selected from the following list or the above Major Coursework or Outside Coursework lists.

A maximum of 2 credits of the following courses may be selected: EE 5041, EE 8190, EE 8210, EE 8230, EE 8360, EE 8370, EE 8500, EE 8610, EE 8660, EE 8920, EE 8925, EE 8940, and MOT 4001.

**EE Courses**

- EE 4111 - Advanced Analog Electronics Design (4.0 cr)
- EE 4161W - Energy Conversion and Storage [WI] (3.0 cr)
- EE 4163 - Energy Conversion and Storage Laboratory (1.0 cr)
- EE 4231 - Linear Control Systems: Designed by Input/Output Methods (3.0 cr)
- EE 4233 - State Space Control System Design (3.0 cr)
- EE 4235 - Linear Control Systems Laboratory (1.0 cr)
- EE 4237 - State Space Control Laboratory (1.0 cr)
- EE 4301 - Digital Design With Programmable Logic (4.0 cr)
- EE 4303 - Introduction to Programmable Devices Laboratory (1.0 cr)
- EE 4341 - Embedded System Design (4.0 cr)
- EE 4363 - Computer Architecture and Machine Organization (4.0 cr)
- EE 4389W - Introduction to Predictive Learning [WI] (3.0 cr)
- EE 4501 - Communications Systems (3.0 cr)
- EE 4505 - Communications Systems Laboratory (1.0 cr)
- EE 4541 - Digital Signal Processing (3.0 cr)
- EE 4607 - Wireless Hardware System Design (3.0 cr)
- EE 4616 - Antennas: Theory, Analysis, and Design (3.0 cr)
- EE 4701 - Electric Drives (3.0 cr)
- EE 4703 - Electric Drives Laboratory (1.0 cr)
- EE 4721 - Introduction to Power System Analysis (3.0 cr)
- EE 4722 - Power System Analysis Laboratory (1.0 cr)
- EE 4741 - Power Electronics (3.0 cr)
- EE 4743 - Switch-Mode Power Electronics Laboratory (1.0 cr)
- EE 5041 - Industrial Assignment for Graduate Students (1.0 cr)
- EE 8190 - Electronics Seminar (1.0 cr)
- EE 8210 - System Theory Seminar (1.0 cr)
- EE 8230 - Control Theory Seminar (1.0 cr)
- EE 8360 - Computer Systems Seminar (1.0 cr)
- EE 8370 - Computer Aided Design Seminar (1.0 cr)
- EE 8500 - Seminar: Communications (1.0 cr)
- EE 8610 - Seminar: Electronics, Fields, and Photonics (1.0 cr)
- EE 8660 - Seminar: Magnetics (1.0 cr)
- EE 8920 - Teaching Experience in Electrical and Computer Engineering (1.0 cr)
- EE 8925 - Ethics in Electrical and Computer Engineering (1.0 cr)
- EE 8940 - Special Investigations (1.0 - 3.0 cr)
- MOT 4001 - Leadership, Professionalism and Business Basics for Engineers (2.0 cr)

**Program Sub-plans**

A sub-plan is not required for this program.

Students may not complete the program with more than one sub-plan.

**Rochester**

Students can complete all degree requirements in Rochester by combining courses taught by College of Science and Engineering faculty in person (face-to-face), or via streaming video using the UNITE (University-Industry Television for Education) instructional television system. UNITE enables students to watch class live via the internet or a special server at a later time.
Integrated B.E.E./MS.E.C.E.
The Department of Electrical and Computer Engineering offers an integrated bachelor of electrical engineering (BEE) and master of science in electrical and computer engineering (MSECE). The integrated BEE/MSECE program offers students the opportunity to earn both degrees in five years. The programs were established to allow high-achieving University undergraduates the opportunity to work toward a masters degree while simultaneously working toward their undergraduate degree. The combined program offers several advantages: flexibility in fulfilling required courses for both degrees during the senior year; eligibility for graduate assistantships and fellowships; and the ability to save money by completing up to 16 graduate credits at the undergraduate tuition rate.

BEE undergraduates can apply to the integrated BEE/MSECE degree program after they have completed a majority of their upper division required (non-elective) courses for their BEE degree.

Both the BEE and MSECE degrees must be completed in their entirety, with no courses shared between them. The graduate degree cannot be earned before the undergraduate requirements are satisfied.

Integrated B.Comp.E./MS.E.C.E.
The Department of Electrical and Computer Engineering offers an integrated bachelor of computer engineering (BCompE) and master of science in electrical and computer engineering (MSECE). Benefits, eligibility requirements, and degree-completion requirements outlined for the BEE/MSECE integrated program also apply to the BCompE/MSECE.
Twin Cities Campus

Contact Information:
Director of Graduate Studies, Department of Electrical and Computer Engineering, University of Minnesota, 3-166 Keller Hall, 200 Union Street SE, Minneapolis, MN 55455 (612-625-3564; fax: 612-625-4583)
Email: newgrad@umn.edu
Website: https://cse.umn.edu/ece

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Department of Electrical and Computer Engineering offers diverse educational programs that encompass nearly all aspects of modern electrical and computer engineering, ranging from the very theoretical system and information theory, to highly experimental work in novel device research and microelectronics. Emphases in the major are solid state and physical electronics, surface physics, thin films, sputtering, noise and fluctuation phenomena, quantum electronics, plasma physics, automation, power systems and power electronics theory, wave propagation, communication systems and theory, optics, lasers, fiber optics, magnetism, semiconductor properties and devices, VLSI and WSI engineering in theory and practice, network theory, signal and image processing, and computer and systems engineering. Interdisciplinary work is also available in bioelectrical sciences, control sciences, computer sciences, solar energy, applications of systems theory to urban transportation and economic planning, and biological modeling.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Electrical Engineering director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Courses offered on both the A-F and S/N grading basis must be taken A-F, with a minimum grade of C earned for each course.

The minimum cumulative GPA for the minor is 3.00.

Minor Coursework (6-12 credits)
Master's students select a minimum of 6 credits, and doctoral students select a minimum of 12 credits from the following in consultation with the Electrical Engineering director of graduate studies:
EE 5121 - Transistor Device Modeling for Circuit Simulation (3.0 cr)
EE 5141 - Introduction to Microsystem Technology (4.0 cr)
EE 5163 - Semiconductor Properties and Devices I (3.0 cr)
EE 5164 - Semiconductor Properties and Devices II (3.0 cr)
EE 5171 - Microelectronic Fabrication (3.0 cr)
EE 5173 - Basic Microelectronics Laboratory (1.0 cr)
EE 5181 - Micro and Nanotechnology by Self Assembly (3.0 cr)
EE 5231 - Linear Systems and Optimal Control (3.0 cr)
EE 5235 - Robust Control System Design (3.0 cr)
EE 5239 - Introduction to Nonlinear Optimization (3.0 cr)
EE 5251 - Optimal Filtering and Estimation (3.0 cr)
EE 5301 - VLSI Design Automation I (3.0 cr)
EE 5302 - VLSI Design Automation II (3.0 cr)
EE 5323 - VLSI Design I (3.0 cr)
EE 5324 - VLSI Design II (3.0 cr)
EE 5327 - VLSI Design Laboratory (3.0 cr)
EE 5329 - VLSI Digital Signal Processing Systems (3.0 cr)
EE 5333 - Analog Integrated Circuit Design (3.0 cr)
EE 5351 - Applied Parallel Programming (3.0 cr)
EE 5364 - Advanced Computer Architecture (3.0 cr)
EE 5371 - Computer Systems Performance Measurement and Evaluation (3.0 cr)
EE 5393 - Circuits, Computation, and Biology (3.0 cr)
EE 5501 - Digital Communication (3.0 cr)
EE 5505 - Wireless Communication (3.0 cr)
EE 5531 - Probability and Stochastic Processes (3.0 cr)
EE 5542 - Adaptive Digital Signal Processing (3.0 cr)
EE 5545 - Digital Signal Processing Design (3.0 cr)
EE 5549 - Digital Signal Processing Structures for VLSI (3.0 cr)
EE 5561 - Image Processing and Applications: From linear filters to artificial intelligence (3.0 cr)
EE 5581 - Information Theory and Coding (3.0 cr)
EE 5583 - Error Control Coding (3.0 cr)
EE 5585 - Data Compression (3.0 cr)
EE 5601 - Introduction to RF/Microwave Engineering (3.0 cr)
EE 5602 - RF/Microwave Circuit Design (3.0 cr)
EE 5611 - Plasma-Aided Manufacturing (4.0 cr)
EE 5613 - RF/Microwave Circuit Design Laboratory (2.0 cr)
EE 5616 - Antenna Theory and Design (3.0 cr)
EE 5621 - Physical Optics (3.0 cr)
EE 5622 - Physical Optics Laboratory (1.0 cr)
EE 5624 - Optical Electronics (4.0 cr)
EE 5627 - Optical Fiber Communication (3.0 cr)
EE 5653 - Physical Principles of Magnetic Materials (3.0 cr)
EE 5655 - Magnetic Recording (3.0 cr)
EE 5657 - Physical Principles of Thin Film Technology (4.0 cr)
EE 5705 - Electric Drives in Sustainable Energy Systems (3.0 cr)
EE 5707 - Electric Drives in Sustainable Energy Systems Laboratory (1.0 cr)
EE 5721 - Power Generation Operation and Control (3.0 cr)
EE 5741 - Advanced Power Electronics (3.0 cr)
EE 5745 - Wind Energy Essentials (2.0 cr)
EE 8141 - Advanced Heterojunction Transistors (3.0 cr)
EE 8161 - Physics of Semiconductors (3.0 cr)
EE 8163 - Quantum Electronics (3.0 cr)
EE 8213 - Advanced System Theory (3.0 cr)
EE 8215 - Nonlinear Systems (3.0 cr)
EE 8231 - Optimization Theory (3.0 cr)
EE 8331 - CMOS Data Converters: A/D and D/A (3.0 cr)
EE 8337 - Analog Circuits for Wire/Wireless Communications (3.0 cr)
EE 8367 - Parallel Computer Organization (3.0 cr)
EE 8551 - Multirate Signal Processing and Applications (3.0 cr)
EE 8581 - Detection and Estimation Theory (3.0 cr)
EE 8591 - Predictive Learning from Data (3.0 cr)
EE 8601 - Advanced Electromagnetic Theory (3.0 cr)
EE 8611 - Plasma Physics (3.0 cr)
EE 8725 - Advanced Power System Analysis and Economics (3.0 cr)
EE 8741 - Power Electronics in Power Systems (3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.
Masters

Doctoral
Twin Cities Campus
Electrical Engineering Ph.D.
Electrical and Computer Engineering
College of Science and Engineering

Link to a list of faculty for this program.

Contact Information:
Director of Graduate Studies, Department of Electrical and Computer Engineering, University of Minnesota, 3-166 Keller Hall, 200 Union Street SE, Minneapolis, MN 55455 (612-625-3564; fax: 612-625-4583)
Email: newgrad@umn.edu
Website: https://cse.umn.edu/ece

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 64
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Department of Electrical and Computer Engineering offers diverse educational programs that encompass nearly all aspects of modern electrical and computer engineering, ranging from the very theoretical system and information theory to highly experimental work in novel device research and microelectronics. Emphases in the major are solid state and physical electronics, surface physics, thin films, sputtering, noise and fluctuation phenomena, quantum electronics, plasma physics, automation, power systems and power electronics theory, wave propagation, communication systems and theory, optics, lasers, fiber optics, magnetism, semiconductor properties and devices, VLSI and WSI engineering in theory and practice, network theory, signal and image processing, and computer and systems engineering. Interdisciplinary work is also available in bioelectrical sciences, control sciences, computer sciences, solar energy, applications of systems theory to urban transportation and economic planning, and biological modeling.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.40.

Other requirements to be completed before admission:
All documents must be submitted electronically. No documents should be mailed to the department or the Graduate Admissions Office.

Applicants to the doctoral program must submit a writing sample with their online application. The writing sample should consist of a minimum of one, to a maximum of three, class papers or publications.

Special Application Requirements:
Students are considered for admission beginning fall semester only (except for part-time students living in Minnesota who work in industry who may apply for other terms). The deadline for applying for fall semester is December 1.

The GRE test is not required and will not be accepted as part of the application.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5
- MELAB
Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
28 credits are required in the major.
12 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.30 is required for students to remain in good standing.

Non-EE coursework that is cross-listed with Electrical Engineering must be taken with the EE course subject.

A minimum of 6 course credits at the 8xxx-level is required. The 8xxx-level courses, with the exception of seminars, directed study, and special investigations, can be from the major or outside field.

Application of 4xxx-level coursework to degree requirements is restricted to 9 credits from the courses listed below, of which no more than 6 can be from EE courses.

Courses offered on both the A-F and S/N grading basis must be taken A-F, with a minimum grade of C earned for each course.

Breadth requirement: To satisfy the breadth requirement as part of the Preliminary Written Exam, students must take at least one course in a breadth area and receive a grade of B+ or above. This requirement is satisfied in consultation with the advisor.

Coursework
Major Coursework (14 credits)
Select 14 credits from the following in consultation with the advisor:
EE 5121 - Transistor Device Modeling for Circuit Simulation (3.0 cr)
EE 5141 - Introduction to Microsystem Technology (4.0 cr)
EE 5163 - Semiconductor Properties and Devices I (3.0 cr)
EE 5164 - Semiconductor Properties and Devices II (3.0 cr)
EE 5171 - Microelectronic Fabrication (3.0 cr)
EE 5173 - Basic Microelectronics Laboratory (1.0 cr)
EE 5181 - Micro and Nanotechnology by Self Assembly (3.0 cr)
EE 5231 - Linear Systems and Optimal Control (3.0 cr)
EE 5235 - Robust Control System Design (3.0 cr)
EE 5239 - Introduction to Nonlinear Optimization (3.0 cr)
EE 5251 - Optimal Filtering and Estimation (3.0 cr)
EE 5271 - Robot Vision (3.0 cr)
EE 5301 - VLSI Design Automation I (3.0 cr)
EE 5302 - VLSI Design Automation II (3.0 cr)
EE 5323 - VLSI Design I (3.0 cr)
EE 5324 - VLSI Design II (3.0 cr)
EE 5327 - VLSI Design Laboratory (3.0 cr)
EE 5329 - VLSI Digital Signal Processing Systems (3.0 cr)
EE 5333 - Analog Integrated Circuit Design (3.0 cr)
EE 5351 - Applied Parallel Programming (3.0 cr)
EE 5364 - Advanced Computer Architecture (3.0 cr)
EE 5371 - Computer Systems Performance Measurement and Evaluation (3.0 cr)
EE 5393 - Circuits, Computation, and Biology (3.0 cr)
EE 5501 - Digital Communication (3.0 cr)
EE 5505 - Wireless Communication (3.0 cr)
EE 5531 - Probability and Stochastic Processes (3.0 cr)
EE 5542 - Adaptive Digital Signal Processing (3.0 cr)
EE 5545 - Digital Signal Processing Design (3.0 cr)
EE 5549 - Digital Signal Processing Structures for VLSI (3.0 cr)
EE 5561 - Image Processing and Applications: From linear filters to artificial intelligence (3.0 cr)
EE 5581 - Information Theory and Coding (3.0 cr)
EE 5583 - Error Control Coding (3.0 cr)
EE 5585 - Data Compression (3.0 cr)
EE 5601 - Introduction to RF/Microwave Engineering (3.0 cr)
EE 5602 - RF/Microwave Circuit Design (3.0 cr)
EE 5611 - Plasma-Aided Manufacturing (4.0 cr)
EE 5613 - RF/Microwave Circuit Design Laboratory (2.0 cr)
EE 5616 - Antenna Theory and Design (3.0 cr)
EE 5621 - Physical Optics (3.0 cr)
EE 5622 - Physical Optics Laboratory (1.0 cr)
EE 5624 - Optical Electronics (4.0 cr)
EE 5627 - Optical Fiber Communication (3.0 cr)
EE 5653 - Physical Principles of Magnetic Materials (3.0 cr)
EE 5655 - Magnetic Recording (3.0 cr)
EE 5657 - Physical Principles of Thin Film Technology (4.0 cr)
EE 5670 - Electric Drives in Sustainable Energy Systems (3.0 cr)
EE 5707 - Electric Drives in Sustainable Energy Systems Laboratory (1.0 cr)
EE 5721 - Power Generation Operation and Control (3.0 cr)
EE 5741 - Advanced Power Electronics (3.0 cr)
EE 5745 - Wind Energy Essentials (2.0 cr)
EE 5940 - Special Topics in Electrical Engineering I (1.0 - 4.0 cr)
EE 5960 - Special Topics in Electrical Engineering III (1.0 - 4.0 cr)
EE 8100 - Advanced Topics in Electronics (1.0 - 3.0 cr)
EE 8141 - Advanced Heterojunction Transistors (3.0 cr)
EE 8161 - Physics of Semiconductors (3.0 cr)
EE 8163 - Quantum Electronics (3.0 cr)
EE 8213 - Advanced System Theory (3.0 cr)
EE 8215 - Nonlinear Systems (3.0 cr)
EE 8231 - Optimization Theory (3.0 cr)
EE 8235 - Advanced Control Topics (3.0 cr)
EE 8300 - Advanced Topics in Computers (1.0 - 3.0 cr)
EE 8310 - Advanced Topics in VLSI (1.0 - 3.0 cr)
EE 8320 - Advanced Topics in Design Automation (1.0 - 3.0 cr)
EE 8331 - CMOS Data Converters: A/D and D/A (3.0 cr)
EE 8337 - Analog Circuits for Wire/Wireless Communications (3.0 cr)
EE 8367 - Parallel Computer Organization (3.0 cr)
EE 8510 - Advanced Topics in Communications (1.0 - 3.0 cr)
EE 8520 - Advanced Topics in Signal Processing (1.0 - 3.0 cr)
EE 8551 - Multirate Signal Processing and Applications (3.0 cr)
EE 8581 - Detection and Estimation Theory (3.0 cr)
EE 8591 - Predictive Learning from Data (3.0 cr)
EE 8601 - Advanced Electromagnetic Theory (3.0 cr)
EE 8611 - Plasma Physics (3.0 cr)
EE 8620 - Advanced Topics in Magnetics (1.0 - 3.0 cr)
EE 8630 - Advanced Topics in Electromagnetics (1.0 - 3.0 cr)
EE 8725 - Advanced Power System Analysis and Economics (3.0 cr)
EE 8741 - Power Electronics in Power Systems (3.0 cr)
EE 8950 - Advanced Topics in Electrical and Computer Engineering (3.0 cr)

Outside Coursework (12 credits)
Select at least 12 credits from the following in consultation with the advisor. Other courses can be selected with advisor and director of graduate studies approval.

AEM 4203 - Aerospace Propulsion (4.0 cr)
AEM 4290 - Special Topics in Fluid Mechanics (1.0 - 3.0 cr)
AEM 4301 - Orbital Mechanics (3.0 cr)
AEM 4303W - Flight Dynamics and Control [WI] (3.0 cr)
AEM 4305 - Spacecraft Attitude Dynamics and Control (3.0 cr)
AEM 4331 - Aerospace Vehicle Design (4.0 cr)
AEM 4333 - Aerospace Design: Special Projects (3.0 cr)
AEM 4490 - Special Topics in Aerospace Systems (1.0 - 3.0 cr)
AEM 4501 - Aerospace Structures (3.0 cr)
AEM 4502 - Computational Structural Analysis (3.0 cr)
AEM 4511 - Mechanics of Composite Materials (3.0 cr)
AEM 4581 - Mechanics of Solids (3.0 cr)
AEM 4590 - Special Topics in Solid Mechanics and Materials (1.0 - 3.0 cr)
AEM 4601 - Instrumentation Laboratory (3.0 cr)
AEM 4602W - Aeromechanics Laboratory [WI] (4.0 cr)

Additional Coursework
Select remaining courses in consultation with the advisor to complete the 40 course credits required for the major. Coursework can be EE or non-EE coursework and can be selected from the following list or the above Major Coursework or Outside Coursework lists.
A maximum of 2 credits of the following courses may be selected: EE 5041, EE 8190, EE 8210, EE 8230, EE 8360, EE 8370, EE 8500, EE 8610, EE 8660, EE 8920, EE 8925, EE 8940, and MOT 4001.
EE 4111 - Advanced Analog Electronics Design (4.0 cr)
EE 4161W - Energy Conversion and Storage [WI] (3.0 cr)
EE 4163 - Energy Conversion and Storage Laboratory (1.0 cr)
EE 4231 - Linear Control Systems: Designed by Input/Output Methods (3.0 cr)
EE 4233 - State Space Control System Design (3.0 cr)
EE 4235 - Linear Control Systems Laboratory (1.0 cr)
EE 4237 - State Space Control Laboratory (1.0 cr)
EE 4301 - Digital Design With Programmable Logic (4.0 cr)
EE 4303 - Introduction to Programmable Devices Laboratory (1.0 cr)
EE 4341 - Embedded System Design (4.0 cr)
EE 4363 - Computer Architecture and Machine Organization (4.0 cr)
EE 4389W - Introduction to Predictive Learning [WI] (3.0 cr)
EE 4501 - Communications Systems (3.0 cr)
EE 4505 - Communications Systems Laboratory (1.0 cr)
EE 4541 - Digital Signal Processing (3.0 cr)
EE 4607 - Wireless Hardware System Design (3.0 cr)
EE 4616 - Antennas: Theory, Analysis, and Design (3.0 cr)
EE 4701 - Electric Drives (3.0 cr)
EE 4703 - Electric Drives Laboratory (1.0 cr)

EE 8190 - Electronics Seminar (1.0 cr)
EE 8210 - System Theory Seminar (1.0 cr)
EE 8230 - Control Theory Seminar (1.0 cr)
EE 8360 - Computer Systems Seminar (1.0 cr)
EE 8370 - Computer Aided Design Seminar (1.0 cr)
EE 8500 - Seminar: Communications (1.0 cr)
EE 8610 - Seminar: Electronics, Fields, and Photonics (1.0 cr)
EE 8660 - Seminar: Magnetics (1.0 cr)
EE 8920 - Teaching Experience in Electrical and Computer Engineering (1.0 cr)
EE 8925 - Ethics in Electrical and Computer Engineering (1.0 cr)
EE 8940 - Special Investigations (1.0 - 3.0 cr)
MOT 4001 - Leadership, Professionalism and Business Basics for Engineers (2.0 cr)

Thesis Credits
Take 24 doctoral thesis credits after passing preliminary oral exam.
EE 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)
Twin Cities Campus
Financial Mathematics M.F.M.
School of Mathematics
College of Science and Engineering

Contact Information:
Program in Financial Mathematics, 127 Vincent Hall, 206 Church Street SE, Minneapolis, MN 55455 (612-624-6391; fax: 612-624-6702)
Email: mcfam@umn.edu
Website: https://cse.umn.edu/mcfam/master-financial-mathematics-mfm

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 35
- This program does not require summer semesters for timely completion.
- Degree: Master of Financial Mathematics

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Master of Financial Mathematics (MFM) degree program helps students understand the underlying mathematics of quantitative finance. The program offers a range of courses, from theoretical to practical, including a mathematical course on stochastic processes, a practitioner's course offering hands-on application of financial software tools, and a programming course focusing on Python and C#.

Courses are offered in the evenings to accommodate working professionals, and can be completed as a full- or part-time student.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A bachelor's degree from an accredited US university or foreign equivalent.

Other requirements to be completed before admission:
Applicants should have completed four semester college-level courses that cover single variable and multivariable calculus and linear algebra, a calculus-based probability course, and have the ability to write code in any programming language.

Students who do not have a strong mathematics background or who need a refresher may be asked to take FM 5001/5002 - Preparation for Financial Mathematics.

Special Application Requirements:
Applications are accepted for fall semester only. The application deadline is February 1.

Applicants must submit their test score(s) from the following:
- GRE

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19

Key to test abbreviations (GRE, TOEFL).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
**Program Requirements**

**Plan C:** Plan C requires 35 major credits and up to null credits outside the major. There is no final exam.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.80 is required for students to remain in good standing.

Courses offered on both the A-F and S/N grading basis must be taken A-F.

**Required Coursework (29 credits)**

Take the following courses. Take FM 5101 in fall of the first year and FM 5202 in spring of the first year.

- **FM 5101 - Current Events in Finance (1.0 cr)**
- **FM 5111 - Introduction to Financial Markets (3.0 cr)**
- **FM 5121 - Mathematics for Finance (3.0 cr)**
- **FM 5151 - Financial Modeling I: Python (3.0 cr)**
- **FM 5202 - Ethics in Finance (1.0 cr)**
- **FM 5212 - Continuous Time Finance (3.0 cr)**
- **FM 5222 - Statistical Methods in Finance (3.0 cr)**
- **FM 5252 - Financial Modeling II: Numerical Methods and Simulations (3.0 cr)**
- **FM 5323 - Data Science and Machine Learning in Finance (3.0 cr)**
- **FM 5343 - Quantitative Risk Management (3.0 cr)**
- **FM 5353 - Software Development in Finance (3.0 cr)**

**Elective Coursework (6 credits)**

Select 6 credits in consultation with the advisor.

- **FM 5422 - Quantitative Hedge Fund Strategies (2.0 cr)**
- **FM 5443 - Credit Risk Models (2.0 cr)**
- **FM 5462 - Market Microstructure (2.0 cr)**
Twin Cities Campus
Fundamentals of Quantitative Finance Postbaccalaureate Certificate
School of Mathematics
College of Science and Engineering

Link to a list of faculty for this program.

Contact Information:
Program in Financial Mathematics, 127 Vincent Hall, 206 Church Street SE, Minneapolis, MN 55455 (612-624-6391; fax: 612-624-6702)
Email: mcfam@umn.edu
Website: https://cse.umn.edu/mcfam/fundamentals-quantitative-finance-fqf-post-baccalaureate-certificate

- Program Type: Post-baccalaureate credit certificate/licensure/endorsement
- Requirements for this program are current for Fall 2022
- Length of program in credits: 15
- This program does not require summer semesters for timely completion.
- Degree: Fundamentals of Quantitative Finance PBacc Cert

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The 15-credit Fundamentals of Quantitative Finance (FQF) certificate is good preparation for the Financial Mathematics master's (MFM) program.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- completely online (all program coursework can be completed online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A bachelor's degree from an accredited US university or foreign equivalent.

Other requirements to be completed before admission:
Applicants should have a good background in mathematics, but not necessarily at the level of a mathematics major. All applicants must have taken at least three semesters of college calculus, covering two semesters of single variable calculus and an additional semester of either multivariable calculus or linear algebra.

International students who want to attend this program on a student visa should contact the University's International Student and Scholar Services (ISSS) office at https://isss.umn.edu/.

Special Application Requirements:
Applications are accepted for fall semester only. The application deadline is May 15.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19

Key to test abbreviations (TOEFL).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.
A minimum GPA of 2.80 is required for students to remain in good standing.

Courses must be taken on the A-F grade basis, unless only offered S/N.

**Required Courses (15 credits)**

Take the following courses:
- **FM 5001** - Preparation for Financial Mathematics I (3.0 cr)
- **FM 5002** - Preparation for Financial Mathematics II (3.0 cr)
- **FM 5111** - Introduction to Financial Markets (3.0 cr)
- **FM 5151** - Financial Modeling I: Python (3.0 cr)
- **FM 5252** - Financial Modeling II: Numerical Methods and Simulations (3.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Geoengineering

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Master of Geoengineering (MGeoE) degree is for the practicing engineer who would like to obtain an advanced degree enrolling part-time or full-time. Emphases are in fundamental aspects of geomechanics and its applications. Research focuses on the use and development of discrete and continuum theories such as elasticity, plasticity, fracture mechanics, and poroelasticity for solving engineering problems. Numerical methods are being developed for obtaining solutions; experimental methods and novel apparatus are being developed for gathering physical evidence. Applications include processes of comminution, flow of granular materials, hydraulic fracturing, and nondestructive testing.

The MGeoE typically takes 2-3 semesters (12-18 months) to complete on a full-time basis or 6-8 semesters on a part-time basis. Students who intend to proceed to the PhD, or who think they may later wish to be admitted to the PhD, should apply for the Geoengineering MS program.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

An ABET-accredited, four-year bachelor's degree in engineering is required for admission.

Other requirements to be completed before admission:
The application deadlines are December 3 for fall admission and August 31 for spring admission. All materials must be submitted to the online application.

Applicants must submit their test score(s) from the following:
• GRE

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
• IELTS
  - Total Score: 6.5
• MELAB
  - Final score: 80

Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).
For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

**Program Requirements**

**Plan A:** Plan A requires 20 major credits, up to null credits outside the major, and 10 thesis credits. The final exam is oral.

**Plan C:** Plan C requires 30 major credits and up to null credits outside the major. There is no final exam. A capstone project is required.

**Capstone Project:** The Plan C requires completion of 100 hours of project work and an oral presentation of no less than 10 minutes.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

Courses must be taken on the A-F grade basis, unless only offered S/N.

Plan A students must complete a professional engineering design project in consultation with the advisor.

**Core Courses (12 to 30 credits)**

Select at least 12 credits from the following in consultation with the advisor. One credit of CEGE 8300 seminar may be applied to this requirement.

• Program Type: Master's
• Requirements for this program are current for Fall 2022
• Length of program in credits: 30
• This program does not require summer semesters for timely completion.
• Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Geoengineering master of science (MS) degree balances education in engineering fundamentals and design with research and development. It is designed for students wishing to pursue a career in industry or to continue toward a PhD. Emphases are in fundamental aspects of geomechanics and its applications. Research focuses on the use and development of discrete and continuum theories such as elasticity, plasticity, fracture mechanics, and poroelasticity for solving engineering problems. Numerical methods are being developed for obtaining solutions; experimental methods and novel apparatus are being developed for gathering physical evidence. Applications include processes of communication, flow of granular materials, hydraulic fracturing, and nondestructive testing.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A bachelor's degree in engineering, basic science, or mathematics is preferred.

Other requirements to be completed before admission:
Admission depends primarily on the applicant's academic record and letters of recommendation. Applicants who lack geoengineering training are often required to complete at least one appropriate course from the undergraduate program. Graduate degree credit is not awarded for such preparatory work.

Special Application Requirements:
The application deadlines are December 3 for fall admission and August 31 for spring admission. All materials must be submitted to the online application.

Applicants must submit their test score(s) from the following:
• GRE

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
• IELTS
  - Total Score: 6.5
• MELAB
  - Final score: 80
Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

**Plan A:** Plan A requires 20 major credits, up to null credits outside the major, and 10 thesis credits. The final exam is oral.

**Plan B:** Plan B requires 30 major credits and up to null credits outside the major. The final exam is oral. A capstone project is required.  
**Capstone Project:** The Plan B requires completion of 1 to 3 Plan B papers as determined by the advisor. Up to 3 credits of CEGE 8094 may be applied to course credit requirements with advisor approval.

**Plan C:** Plan C requires 30 major credits and up to null credits outside the major. There is no final exam. A capstone project is required.  
**Capstone Project:** The Plan C requires completion of 100 hours of project work and an oral presentation of no less than 10 minutes.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

Courses must be taken on the A-F grade basis, unless only offered S/N.

**Core Courses (12 to 30 credits)**

Select at least 12 credits from the following in consultation with the advisor. One credit of CEGE 8300 seminar may be applied to this requirement.

Students may complete all their coursework from this list.

CEGE 8302 - Soil/Rock Plasticity and Limit Analysis (4.0 cr)
CEGE 8311 - Advanced Rock Mechanics (3.0 cr)
CEGE 8321 - Thermoporoelasticity (4.0 cr)
CEGE 8322 - Storage and Flow of Granular Materials (3.0 cr)
CEGE 8331 - Modeling Geomechanical Processes (3.0 cr)
CEGE 8336 - Boundary Element Methods I (3.0 cr)
CEGE 8337 - Boundary Element Methods II (3.0 cr)
CEGE 8341 - Wave Propagation in Solids and Structures (4.0 cr)
CEGE 8351 - Advanced Engineering Mathematics II (3.0 cr)
CEGE 8352 - Advanced Groundwater Mechanics II (3.0 cr)
CEGE 8361 - Engineering Model Fitting (3.0 cr)
CEGE 8401 - Fundamentals of Finite Element Method (3.0 cr)
CEGE 8402 - Nonlinear Finite Element Analysis (3.0 cr)
CEGE 8411 - Plate Structures (3.0 cr)
CEGE 8412 - Shell Structures (3.0 cr)
CEGE 8413 - Fracture and Scaling (3.0 cr)
CEGE 8421 - Structural Dynamics (3.0 cr)
CEGE 8422 - Earthquake Engineering (3.0 cr)
CEGE 8431 - Structural Stability (3.0 cr)
CEGE 8432 - Analysis of Thin-Walled Members (3.0 cr)
CEGE 8441 - Ductile Behavior of Steel Structures (3.0 cr)
CEGE 8442 - Nonlinear Analysis of Structural Systems (3.0 cr)
CEGE 8443 - Fracture of Materials and Structures (3.0 cr)
CEGE 8451 - Behavior of Reinforced Concrete Structures (3.0 cr)
CEGE 8461 - Structural Reliability (3.0 cr)
CEGE 8490 - Special Topics (1.0 - 4.0 cr)
CEGE 8501 - Environmental Fluid Mechanics I (4.0 cr)
CEGE 8502 - Environmental Fluid Mechanics II (4.0 cr)
CEGE 8503 - Environmental Mass Transport (4.0 cr)
CEGE 8504 - Theory of Unit Operations (4.0 cr)
CEGE 8505 - Biological Processes (3.0 cr)
CEGE 8506 - Stochastic Hydrology (4.0 cr)
CEGE 8507 - Advanced Methods in Hydrology (4.0 cr)
CEGE 8508 - Ecological Fluid Mechanics (4.0 cr)
CEGE 8511 - Mechanics of Sediment Transport (3.0 cr)
CEGE 8521 - The Atmospheric Boundary Layer (4.0 cr)
CEGE 8541 - Aquatic Chemistry (3.0 cr)
CEGE 8542 - Chemistry of Organic Pollutants in Environmental Systems (3.0 cr)
CEGE 8551 - Environmental Microbiology: Molecular Theory and Methods (3.0 cr)
CEGE 8561 - Analysis and Modeling of Aquatic Environments I (3.0 cr)
CEGE 8562 - Analysis and Modeling of Aquatic Environments II (3.0 cr)
CEGE 8571 - Hydraulic Measurements (3.0 cr)
CEGE 8572 - Computational Environmental Fluid Dynamics (4.0 cr)
CEGE 8581 - Research and Professional Ethics in Water Resources and Environmental Science (0.5 cr)
CEGE 8601 - Introduction to Stream Restoration (3.0 cr)
CEGE 8602 - Stream Restoration Practice (2.0 cr)

Electives (0 to 18 credits)
Select credits from the following, in consultation with the advisor, to complete the minimum number of course credits required. Students may complete one course from each of the following cross-listed pairs, but not both: PA 5231 or CEGE 5213; PA 5232 or
CEGE 5212; WRS 8581 or CEGE 8581. Other courses may be selected with advisor and director of graduate studies approval.

AEM 4502 - Computational Structural Analysis (3.0 cr)
AEM 4511 - Mechanics of Composite Materials (3.0 cr)
AEM 5321 - Modern Feedback Control (3.0 cr)
AEM 5501 - Continuum Mechanics (3.0 cr)
AEM 5503 - Theory of Elasticity (3.0 cr)
AEM 5581 - Mechanics of Solids (3.0 cr)
AEM 8201 - Fluid Mechanics I (3.0 cr)
AEM 8202 - Fluid Mechanics II (3.0 cr)
AEM 8211 - Theory of Turbulence I (3.0 cr)
AEM 8423 - Convex Optimization Methods in Control (3.0 cr)
AEM 8525 - Elastic Stability of Materials (3.0 cr)
AEM 8531 - Fracture Mechanics (3.0 cr)
AEM 8533 - Theory of Plasticity (3.0 cr)
AEM 8541 - Mechanics of Crystalline Solids (3.0 cr)
AEM 8551 - Multiscale Methods for Bridging Length and Time Scales (3.0 cr)
APEC 5031 - Methods of Economic Data Analysis (3.0 cr)
ARCH 5391 - Design and Representation with BIM (3.0 cr)
ARCH 5671 - Historic Preservation (3.0 cr)
BBE 5302 - Biodegradation of Bioproducts (3.0 cr)
BBE 5513 - Watershed Engineering (3.0 cr)
BBE 5523 - Ecological Engineering Design (3.0 cr)
BBE 5535 - Assessment and Diagnosis of Impaired Waters (3.0 cr)
BBE 5753 - Air Quality and Pollution Control Engineering (3.0 cr)
BBE 8513 - Hydrologic Modeling of Small Watersheds (3.0 cr)
BIOC 5309 - Biocatalysis and Biodegradation (3.0 cr)
BIOC 5351 - Protein Engineering (3.0 cr)
BMEN 8101 - Biomedical Digital Signal Processing (3.0 cr)
CHEM 4214 - Polymers (3.0 cr)
CHEM 4601 - Green Chemistry [ENV] (3.0 cr)
CHEM 5210 - Materials Characterization (4.0 cr)
CHEM 8011 - Mechanisms of Chemical Reactions (4.0 cr)
CHEM 8021 - Computational Chemistry (4.0 cr)
CHEM 8151 - Analytical Separations and Chemical Equilibria (4.0 cr)
CSCI 5421 - Advanced Algorithms and Data Structures (3.0 cr)
CSCI 5451 - Introduction to Parallel Computing: Architectures, Algorithms, and Programming (3.0 cr)
CSCI 5481 - Computational Techniques for Genomics (3.0 cr)
CSCI 5521 - Machine Learning Fundamentals (3.0 cr)
CSCI 5523 - Introduction to Data Mining (3.0 cr)
CSCI 5525 - Machine Learning: Analysis and Methods (3.0 cr)
EE 4231 - Linear Control Systems: Designed by Input/Output Methods (3.0 cr)
EE 5231 - Linear Systems and Optimal Control (3.0 cr)
EE 5235 - Robust Control System Design (3.0 cr)
EE 5239 - Introduction to Nonlinear Optimization (3.0 cr)
EE 5251 - Optimal Filtering and Estimation (3.0 cr)
EE 5531 - Probability and Stochastic Processes (3.0 cr)
EE 8231 - Optimization Theory (3.0 cr)
EE 8581 - Detection and Estimation Theory (3.0 cr)
EEB 5068 - Plant Physiological Ecology (3.0 cr)
EEB 5601 - Limnology (3.0 cr)
ESCI 8801 - Geomicrobiology (3.0 cr)
ESPM 5071 - Ecological Restoration (4.0 cr)
ESPM 5111 - Hydrology and Water Quality Field Methods (3.0 cr)
FNRM 5131 - Geographical Information Systems (GIS) for Natural Resources (4.0 cr)
FNRM 5153 - Forest Hydrology & Watershed Biogeochemistry (3.0 cr)
GCC 5005 - Innovation for Changemakers: Design for a Disrupted World [GP] (3.0 cr)
GEOG 5561 - Principles of Geographic Information Science (4.0 cr)
GEOG 5564 - Urban Geographic Information Science and Analysis (3.0 cr)
HINF 5502 - Python Programming Essentials for the Health Sciences (1.0 cr)
IE 5111 - Systems Engineering I (2.0 cr)
IE 5113 - Systems Engineering II (4.0 cr)
IE 5531 - Engineering Optimization I (4.0 cr)
IE 5532 - Stochastic Models (4.0 cr)
IE 5541 - Project Management (4.0 cr)
IE 5545 - Decision Analysis (4.0 cr)
IE 5551 - Production and Inventory Systems (4.0 cr)
Plan Options

Plan A
Thesis Credits
- Take 10 master’s thesis credits.
  - CEGE 8777 - Thesis Credits: Master’s (1.0 - 18.0 cr)
- OR-

Plan B (0-3 credits)
- Take the following as needed per direction of the advisor. If taken, up to 3 credits can be applied to the course-credit requirement.
  - CEGE 8094 - Directed Research (1.0 - 4.0 cr)

Program Sub-plans
A sub-plan is not required for this program.

Students may not complete the program with more than one sub-plan.

Integrated B.GeoE./M.S. - Geoeengineering
The department offers an integrated Bachelor of Geoeengineering (BGeoE) and master of science (MS) in geoeengineering. The integrated BGeoE/MS program offers students the opportunity to earn the bachelors and masters degree in five years. These programs offer several benefits: streamlined admissions from the undergraduate to the graduate program (GRE not required); flexibility in fulfilling required courses for both degrees during the senior year (up to 16 credits can be applied to the graduate program); and eligibility for

Information current as of November 07, 2022

1024
teaching and research assistantships. Eligibility requirements for the integrated program: Application is open to University BGeoE undergraduates who:
- are within 32 credits of completing the requirements for the bachelors degree;
- have a faculty advisor selected prior to admission; and
- hold a cumulative GPA of 3.3 or higher.

Both the BGeoE and MS degrees must be completed in their entirety, with no courses shared between them. The graduate degree cannot be earned before the undergraduate requirements are satisfied. Admitted students who decide not to complete the MS degree are permitted to count credits originally planned for the graduate program toward their BGeoE technical electives.

**Integrated B.C.E./M.S. - Geoengineering**
The department offers an integrated bachelor of civil engineering (BCE) and master of science (MS) in geoengineering. Benefits, eligibility requirements, and degree-completion requirements outlined for the BGeoE/MS integrated program also apply to the BCE/MS.

**Integrated B.Env.E./M.S. - Geoengineering**
The department offers an integrated bachelor of environmental engineering (BEnvE) and master of science (MS) in geoengineering. Benefits, eligibility requirements, and degree-completion requirements outlined for the BGeoE/MS integrated program also apply to the BEnvE/MS.

Website: https://cse.umn.edu/cege

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 6
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Emphases are in fundamental aspects of geomechanics and its applications. Research focuses on the use and development of discrete and continuum theories such as elasticity, plasticity, fracture mechanics, and poroelasticity for solving engineering problems. Numerical methods are being developed for obtaining solutions; experimental methods and novel apparatus are being developed for gathering physical evidence. Applications include processes of comminution, flow of granular materials, hydraulic fracturing, and nondestructive testing.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Geoengineering director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Courses must be taken on the A-F grade basis, unless only offered S/N.

The minimum cumulative GPA for the minor is 3.00.

Minor Coursework (6 credits)
Select 6 credits from the following in consultation with the advisor and the Geoengineering director of graduate studies:
CEGE 5341 - Wave Methods for Nondestructive Testing (3.0 cr)
CEGE 5342 - Introduction to Inverse Problems (3.0 cr)
CEGE 5351 - Advanced Engineering Mathematics I (3.0 cr)
CEGE 8301 - Fracture of Geomaterials (3.0 cr)
CEGE 8302 - Soil/Rock Plasticity and Limit Analysis (4.0 cr)
CEGE 8311 - Advanced Rock Mechanics (3.0 cr)
CEGE 8321 - Thermoporoelasticity (4.0 cr)
CEGE 8322 - Storage and Flow of Granular Materials (3.0 cr)
CEGE 8331 - Modeling Geomechanical Processes (3.0 cr)
CEGE 8336 - Boundary Element Methods I (3.0 cr)
CEGE 8337 - Boundary Element Methods II (3.0 cr)
Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Masters
**Twin Cities Campus**

**Industrial and Systems Engineering M.S.I.S.Y.E.**

**Industrial and Systems Engineering**

**College of Science and Engineering**

Link to a [list of faculty](#) for this program.

Industrial and Systems Engineering Graduate Program, University of Minnesota, 100 Union Street SE, Minneapolis, MN 55455 (612-624-1582; fax 612-624-0944)

Email: isye@umn.edu

Website: [https://cse.umn.edu/isye/](https://cse.umn.edu/isye/)

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30 to 32
- This program does not require summer semesters for timely completion.
- Degree: Master of Science in Industrial & Systems Engr

Along with the program-specific requirements listed below, please read the [General Information](#) section of the catalog website for requirements that apply to all major fields.

The Industrial and Systems Engineering (ISyE) MS program offers coursework and research in industrial and systems engineering, operations research, and human factors. Special emphasis is on methodologies for design, planning, and management of service and manufacturing systems. Examples of research applications include logistics, transportation, healthcare delivery systems, revenue management, and supply chain management.

MS students can pursue one of three tracks: Analytics, Industrial Engineering, or Systems Engineering.

**Program Delivery**

This program is available:

- via classroom (the majority of instruction is face-to-face)

**Prerequisites for Admission**

The preferred undergraduate GPA for admittance to the program is 3.00.

A baccalaureate degree in engineering or a closely related field is required.

**Special Application Requirements:**

All application materials are submitted electronically through the Graduate Admissions Office. The application must include the intended track.

- **Analytics Track:**
  - The GRE is required.
  - Personal statement
  - Three letters of recommendation (required for financial aid consideration only)
  - Students are admitted fall semester only. The application deadline is February 15.

- **Industrial Engineering Track:**
  - The GRE is required.
  - Personal statement
  - Three letters of recommendation (required for financial aid consideration only)
  - Application deadlines are February 15 for fall semester and October 15 for spring semester.

- **Systems Engineering Track:**
  - The GRE is not required.
  - A minimum two years of professional work experience in a technical field is required; however, promising candidates with less experience will be considered under exceptional circumstances
  - Personal statement
  - Three letters of recommendation
  - Application deadlines are February 15 for fall semester and October 15 for spring semester.
Applicants must submit their test score(s) from the following:

- **GRE**

International applicants must submit score(s) from one of the following tests:

- **TOEFL**
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- **IELTS**
  - Total Score: 6.5

Key to test abbreviations (GRE, TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

**Program Requirements**

**Plan A:** Plan A requires 14 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is oral.

**Plan B:** Plan B requires 24 major credits and 6 credits outside the major. The final exam is oral.

**Plan C:** Plan C requires 24 to 30 major credits and 0 to 6 credits outside the major. The final exam is oral.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.8 is required for students to remain in good standing.

Courses offered on both the A-F and S/N grading basis must be taken A-F.

In order to fulfill the University’s graduate education policy regarding research ethics training, students are required to take an online research ethics training course through the CITI program, or a qualifying equivalent.

Analytics track: Non-native English speakers must take ESL 5008 (2 credits). ESL 5008 cannot be applied to degree requirements.

**Joint- or Dual-degree Coursework:** MSISyE/MS-Civil Engineering (Transportation Engineering Focus) Student may take a total of 15 credits in common among the academic programs.

**Program Sub-plans**

Students are required to complete one of the following sub-plans.

Students may not complete the program with more than one sub-plan.

**Analytics**

This sub-plan is limited to students completing the program under Plan C.

**Required Courses (24 credits)**

Take the following courses. Select CSCI 5521 or CSCI 5523 in consultation with the advisor. Students not in the Integrated B.ISyE/M.S.ISyE program take IE 5532. Students in the Integrated B.ISyE/M.S.ISyE program take IE 5545.

- IE 5531 - Engineering Optimization I (4.0 cr)
- IE 5561 - Analytics and Data-Driven Decision Making (4.0 cr)
- IE 5773 - Practice-focused Seminar (1.0 cr)
- IE 5801 - Capstone Project (4.0 cr)
- STAT 5302 - Applied Regression Analysis (4.0 cr)
- IE 5532 - Stochastic Models (4.0 cr)
  - or IE 5545 - Decision Analysis (4.0 cr)
- CSCI 5521 - Machine Learning Fundamentals (3.0 cr)
  - or CSCI 5523 - Introduction to Data Mining (3.0 cr)
Electives (6 credits)
Select 6 credits from the following in consultation with the advisor. Other credits may be chosen with advisor and director of graduate studies approval.
CSCI 5521 - Machine Learning Fundamentals (3.0 cr)
CSCI 5523 - Introduction to Data Mining (3.0 cr)
CSCI 5525 - Machine Learning: Analysis and Methods (3.0 cr)
CSCI 5707 - Principles of Database Systems (3.0 cr)
CSCI 5751 - Big Data Engineering and Architecture (3.0 cr)
IE 5441 - Financial Decision Making (4.0 cr)
IE 5522 - Quality Engineering and Reliability (4.0 cr)
IE 5541 - Project Management (4.0 cr)
IE 5545 - Decision Analysis (4.0 cr)
IE 5551 - Production and Inventory Systems (4.0 cr)
IE 5553 - Simulation (4.0 cr)
IE 5571 - Reinforcement Learning and Dynamic Programming (4.0 cr)
IE 8564 - Optimization for Machine Learning (4.0 cr)
MABA 6321 - Data Management and Big Data (2.0 cr)
MSBA 6321 - Data Management, Databases, and Data Warehousing (3.0 cr)
MSBA 6331 - Big Data Analytics (3.0 cr)
STAT 5303 - Designing Experiments (4.0 cr)
STAT 5401 - Applied Multivariate Methods (3.0 cr)
STAT 5421 - Analysis of Categorical Data (3.0 cr)
STAT 5511 - Time Series Analysis (3.0 cr)
STAT 5601 - Nonparametric Methods (3.0 cr)

Industrial Engineering
Required Courses (12 to 16 credits)
Take the following courses:
IE 5531 - Engineering Optimization I (4.0 cr)
IE 5532 - Stochastic Models (4.0 cr)
Plan A students select 4 credits, and Plan B and Plan C students select at least 8 credits from the following in consultation with the advisor:
IE 5511 - Human Factors and Work Analysis (4.0 cr)
IE 5545 - Decision Analysis (4.0 cr)
IE 5551 - Production and Inventory Systems (4.0 cr)
Seminar (1 credit)
Select 1 of the following seminars in consultation with the advisor. Other seminars may be chosen with advisor approval.
IE 5773 - Practice-focused Seminar (1.0 cr)
IE 8773 - Graduate Seminar (1.0 cr)
IE 8774 - Graduate Seminar (1.0 cr)

Outside Courses (6 credits)
Select at least 6 credits from the following in consultation with the advisor. Other courses may be chosen with advisor and director of graduate studies approval.
APEC 8001 - Applied Microeconomic Analysis of Consumer Choice and Consumer Demand (2.0 cr)
APEC 8002 - Applied Microeconomic Analysis of Production and Choice Under Uncertainty (2.0 cr)
APEC 8206 - Dynamic Optimization: Applications in Economics and Management (3.0 cr)
APEC 8211 - Econometric Analysis I (2.0 cr)
CSCI 5421 - Advanced Algorithms and Data Structures (3.0 cr)
CSCI 5511 - Artificial Intelligence I (3.0 cr)
CSCI 5512 - Artificial Intelligence II (3.0 cr)
CSCI 5521 - Machine Learning Fundamentals (3.0 cr)
CSCI 5523 - Introduction to Data Mining (3.0 cr)
CSCI 5525 - Machine Learning: Analysis and Methods (3.0 cr)
CSCI 5707 - Principles of Database Systems (3.0 cr)
CSCI 5751 - Big Data Engineering and Architecture (3.0 cr)
CSCI 5801 - Software Engineering I (3.0 cr)
ECON 8117 - Noncooperative Game Theory (2.0 cr)
HINF 5502 - Python Programming Essentials for the Health Sciences (1.0 cr)
MATH 5615H - Honors: Introduction to Analysis I (4.0 cr)
MATH 5616H - Honors: Introduction to Analysis II (4.0 cr)
MATH 8651 - Theory of Probability Including Measure Theory (3.0 cr)
MBA 6031 - Financial Accounting (3.0 cr)
MBA 6221 - Supply Chain & Operations (3.0 cr)
MGMT 6004 - Negotiation Strategies (2.0 cr)
MILI 6985 - The Health Care Marketplace (2.0 cr)
MKTG 8810 - Consumer Behavior Special Topics (2.0 cr)
MOT 5001 - Technological Business Fundamentals (2.0 cr)
MOT 5002 - Creating Technological Innovation (2.0 cr)
PUBH 6325 - Data Processing with PC-SAS (1.0 cr)
PUBH 7461 - Exploring and Visualizing Data in R (2.0 cr)
PUBH 7475 - Statistical Learning and Data Mining (3.0 cr)
SCO 6041 - Project Management (2.0 cr)
SCO 6056 - Managing Supply Chain Operations (4.0 cr)
SCO 6059 - Quality Management and Lean Six Sigma (4.0 cr)
SCO 6072 - Managing Technologies in the Supply Chain (2.0 cr)
STAT 5021 - Statistical Analysis (4.0 cr)
STAT 5302 - Applied Regression Analysis (4.0 cr)
STAT 5303 - Designing Experiments (4.0 cr)
STAT 5401 - Applied Multivariate Methods (3.0 cr)
STAT 5421 - Analysis of Categorical Data (3.0 cr)
STAT 5511 - Time Series Analysis (3.0 cr)
STAT 5601 - Nonparametric Methods (3.0 cr)

Electives
Plan A students select credits as needed to meet the 20 course credits required for the degree, Plan B students select credits as needed to meet the 30-credit minimum, and Plan C students select credits as needed to meet the 32-credit minimum. The number of Plan B credits will be dependent upon how the 4-credit Plan B Project requirement is satisfied. Credits are selected in consultation with the advisor.

IE 5080 - Topics in Industrial Engineering (1.0 - 4.0 cr)
IE 5111 - Systems Engineering I (2.0 cr)
IE 5113 - Systems Engineering II (4.0 cr)
IE 5441 - Financial Decision Making (4.0 cr)
IE 5511 - Human Factors and Work Analysis (4.0 cr)
IE 5513 - Engineering Safety (4.0 cr)
IE 5522 - Quality Engineering and Reliability (4.0 cr)
IE 5524 - Process Transformation through Lean Tools (2.0 cr)
IE 5541 - Project Management (4.0 cr)
IE 5545 - Decision Analysis (4.0 cr)
IE 5551 - Production and Inventory Systems (4.0 cr)
IE 5553 - Simulation (4.0 cr)
IE 5561 - Analytics and Data-Driven Decision Making (4.0 cr)
IE 5571 - Reinforcement Learning and Dynamic Programming (4.0 cr)
IE 5801 - Capstone Project (4.0 cr)
IE 8521 - Optimization (4.0 cr)
IE 8531 - Discrete Optimization (4.0 cr)
IE 8532 - Stochastic Processes and Queuing Systems (4.0 cr)
IE 8533 - Advanced Stochastic Processes and Queuing Systems (4.0 cr)
IE 8534 - Advanced Topics in Operations Research (1.0 - 4.0 cr)
IE 8552 - Advanced Topics in Production, Inventory, and Distribution Systems (4.0 cr)
IE 8564 - Optimization for Machine Learning (4.0 cr)

Plan Options

Plan A
Thesis Credits
Take 10 master's thesis credits.
IE 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

-OR-

Plan B
Project Credits (0 to 4 credits)
Complete the Plan B project/paper. Take 0-4 credits of the following in consultation with the advisor.
IE 8794 - Industrial Engineering Research (1.0 - 6.0 cr)

Systems Engineering
This sub-plan is limited to students completing the program under Plan C.

Required Courses (14 credits)
Take the following courses:
IE 5111 - Systems Engineering I (2.0 cr)

- MOT 5002 - Creating Technological Innovation (2.0 cr)
- PUBH 6325 - Data Processing with PC-SAS (1.0 cr)
- PUBH 7461 - Exploring and Visualizing Data in R (2.0 cr)
- PUBH 7475 - Statistical Learning and Data Mining (3.0 cr)
- SCO 6041 - Project Management (2.0 cr)
- SCO 6056 - Managing Supply Chain Operations (4.0 cr)
- SCO 6059 - Quality Management and Lean Six Sigma (4.0 cr)
- SCO 6072 - Managing Technologies in the Supply Chain (2.0 cr)
- STAT 5021 - Statistical Analysis (4.0 cr)
- STAT 5302 - Applied Regression Analysis (4.0 cr)
- STAT 5303 - Designing Experiments (4.0 cr)
- STAT 5401 - Applied Multivariate Methods (3.0 cr)

**Electives**
Select credits as needed from the following, in consultation with the advisor, to complete the 30-credit minimum.

- IE 5080 - Topics in Industrial Engineering (1.0 - 4.0 cr)
- IE 5441 - Financial Decision Making (4.0 cr)
- IE 5513 - Engineering Safety (4.0 cr)
- IE 5522 - Quality Engineering and Reliability (4.0 cr)
- IE 5524 - Process Transformation through Lean Tools (2.0 cr)
- IE 5531 - Engineering Optimization I (4.0 cr)
- IE 5532 - Stochastic Models (4.0 cr)
- IE 5545 - Decision Analysis (4.0 cr)
- IE 5551 - Production and Inventory Systems (4.0 cr)
- IE 5561 - Analytics and Data-Driven Decision Making (4.0 cr)
- IE 5571 - Reinforcement Learning and Dynamic Programming (4.0 cr)
- IE 5773 - Practice-focused Seminar (1.0 cr)
- IE 5801 - Capstone Project (4.0 cr)
- IE 8521 - Optimization (4.0 cr)
- IE 8531 - Discrete Optimization (4.0 cr)
- IE 8532 - Stochastic Processes and Queuing Systems (4.0 cr)
- IE 8533 - Advanced Stochastic Processes and Queuing Systems (4.0 cr)
- IE 8534 - Advanced Topics in Operations Research (1.0 - 4.0 cr)
- IE 8552 - Advanced Topics in Production, Inventory, and Distribution Systems (4.0 cr)

**Integrated B.I.Sy.E./M.S.I.Sy.E.**
This sub-plan is optional and does not fulfill the sub-plan requirement for this program.

This sub-plan is limited to students completing the program under Plan C.
The Department of Industrial and Systems Engineering offers an integrated bachelor's/master's degree program. The program makes it possible for students to earn both a bachelor's degree (BISyE) and a master's degree (MSISyEAnalytics track) in Industrial and Systems Engineering in five years. The program has several benefits: a streamlined admissions process from the undergraduate to the graduate program; graduate student status granted in the senior year; eligibility for teaching and research assistantships; and flexibility in fulfilling required courses for both degrees in the last two years of study. Applicants must be enrolled in the ISyE undergraduate program at the University of MinnesotaTwin Cities and have a minimum cumulative GPA of at least 3.4 or a strong letter of recommendation from an ISyE faculty member. The following IE courses must be completed or in progress at the time of application: 1101, 2021, 3011, 3012, 3521, 3522, 4011, and 4551.

The BISyE and MSISyE degrees must be completed in their entirety, with no courses shared between them. The graduate degree cannot be earned before the undergraduate requirements are satisfied. Admitted students who decide not to complete the MSISyE degree are permitted to count credits originally planned for the graduate program toward their undergraduate technical electives.

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The industrial and systems engineering (ISyE) program offers coursework and research in industrial and systems engineering, operations research, and human factors. Special emphasis is on methodologies for design, planning, and management of service and manufacturing systems. Examples of research applications include logistics, transportation, healthcare delivery systems, revenue management, and supply chain management.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Industrial and Systems Engineering director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Courses must be taken on the A-F grade basis, unless only offered S/N.

The minimum cumulative GPA for the minor is 3.00.

Minor Coursework (6 to 12 credits)
Master’s students select 6 credits, and doctoral students select 12 credits from the following in consultation with the Industrial and Systems Engineering director of graduate studies. Other courses may be chosen with minor director of graduate studies approval.

IE 5511 - Human Factors and Work Analysis (4.0 cr)
IE 5531 - Engineering Optimization I (4.0 cr)
IE 5532 - Stochastic Models (4.0 cr)
IE 5545 - Decision Analysis (4.0 cr)
IE 5551 - Production and Inventory Systems (4.0 cr)
IE 5561 - Analytics and Data-Driven Decision Making (4.0 cr)
IE 5571 - Reinforcement Learning and Dynamic Programming (4.0 cr)
IE 8521 - Optimization (4.0 cr)
IE 8531 - Discrete Optimization (4.0 cr)
IE 8532 - Stochastic Processes and Queueing Systems (4.0 cr)
Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Twin Cities Campus
Industrial and Systems Engineering Ph.D.
Industrial and Systems Engineering
College of Science and Engineering

Website: http://cse.umn.edu/isye/

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 68
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Industrial and Systems Engineering (ISyE) PhD program offers coursework and research in industrial and systems engineering, operations research, and human factors. Special emphasis is on methodologies for design, planning, and management of service and manufacturing systems. Examples of research applications include logistics, transportation, healthcare delivery systems, revenue management, and supply chain management.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A baccalaureate degree in engineering or a closely related field is required.

Special Application Requirements:
All application materials should be submitted electronically through the online application system.

The application deadlines are December 15 for fall semester and October 15 for spring semester.

Applicants must submit their test score(s) from the following:
- GRE

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5

Key to test abbreviations (GRE, TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
32 credits are required in the major.
12 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

Courses offered on both the A-F and S/N grading basis must be taken A-F.

In order to fulfill the University's graduate education policy regarding research ethics training, students are required to take an online research ethics training course through the CITI program, or a qualifying equivalent.

**Required Courses (12 credits)**
Take the following courses:
- IE 8521 - Optimization (4.0 cr)
- IE 8532 - Stochastic Processes and Queueing Systems (4.0 cr)
- IE 8554 - Advanced Production and Inventory Systems (4.0 cr)

**Seminars (2 credits)**
Take 2 seminar credits from the following in consultation with the advisor. Other seminars may be applied to this requirement with advisor approval.
- IE 8773 - Graduate Seminar (1.0 cr)
- IE 8774 - Graduate Seminar (1.0 cr)

**8000-level IE Coursework (8 credits)**
Complete a minimum of 8 credits from the following, in consultation with the advisor.
- IE 8531 - Discrete Optimization (4.0 cr)
- IE 8533 - Advanced Stochastic Processes and Queueing Systems (4.0 cr)
- IE 8534 - Advanced Topics in Operations Research (1.0 - 4.0 cr)
- IE 8535 - Introduction to Network Science (4.0 cr)
- IE 8536 - Advanced Topics in Engineering Management (4.0 cr)
- IE 8538 - Advanced Topics in Information Systems (4.0 cr)
- IE 8541 - Decision Support Systems (4.0 cr)
- IE 8552 - Advanced Topics in Production, Inventory, and Distribution Systems (4.0 cr)
- IE 8564 - Optimization for Machine Learning (4.0 cr)
- IE 8571 - Advanced Reinforcement Learning and Dynamic Programming (4.0 cr)

**Electives (0 to 10 credits)**
Select coursework from the following, in consultation with the advisor. Other courses may be selected with the advisor and director of graduate studies approval.
- IE 5080 - Topics in Industrial Engineering (1.0 - 4.0 cr)
- IE 5511 - Human Factors and Work Analysis (4.0 cr)
- IE 5513 - Engineering Safety (4.0 cr)
- IE 5522 - Quality Engineering and Reliability (4.0 cr)
- IE 5545 - Decision Analysis (4.0 cr)
- IE 5561 - Analytics and Data-Driven Decision Making (4.0 cr)
- IE 8531 - Discrete Optimization (4.0 cr)
- IE 8533 - Advanced Stochastic Processes and Queueing Systems (4.0 cr)
- IE 8534 - Advanced Topics in Operations Research (1.0 - 4.0 cr)
- IE 8535 - Introduction to Network Science (4.0 cr)
- IE 8536 - Advanced Topics in Engineering Management (4.0 cr)
- IE 8538 - Advanced Topics in Information Systems (4.0 cr)
- IE 8541 - Decision Support Systems (4.0 cr)
- IE 8552 - Advanced Topics in Production, Inventory, and Distribution Systems (4.0 cr)
- IE 8564 - Optimization for Machine Learning (4.0 cr)
- IE 8571 - Advanced Reinforcement Learning and Dynamic Programming (4.0 cr)
- IE 8794 - Industrial Engineering Research (1.0 - 6.0 cr)

**Outside Coursework (12 to 22 credits)**
Select a minimum of 12 credits from the following in consultation with the advisor. Other courses may be chosen with advisor and director of graduate studies approval.
- APEC 8001 - Applied Microeconomic Analysis of Consumer Choice and Consumer Demand (2.0 cr)
- APEC 8002 - Applied Microeconomic Analysis of Production and Choice Under Uncertainty (2.0 cr)
CSCI 5211 - Data Communications and Computer Networks (3.0 cr)
CSCI 5304 - Computational Aspects of Matrix Theory (3.0 cr)
CSCI 5421 - Advanced Algorithms and Data Structures (3.0 cr)
CSCI 5521 - Machine Learning Fundamentals (3.0 cr)
CSCI 5525 - Introduction to Data Mining (3.0 cr)
CSCI 5526 - Machine Learning: Analysis and Methods (3.0 cr)
CSCI 8980 - Special Advanced Topics in Computer Science (1.0 - 3.0 cr)
ECON 8101 - Microeconomic Theory (2.0 cr)
ECON 8102 - Microeconomic Theory (2.0 cr)
ECON 8117 - Noncooperative Game Theory (2.0 cr)
ECON 8118 - Noncooperative Game Theory (2.0 cr)
ECON 8119 - Cooperative Game Theory (2.0 cr)
EE 5239 - Introduction to Nonlinear Optimization (3.0 cr)
MATH 5485 - Introduction to Numerical Methods I (4.0 cr)
MATH 5486 - Introduction To Numerical Methods II (4.0 cr)
MATH 5615H - Honors: Introduction to Analysis I (4.0 cr)
MATH 5616H - Honors: Introduction to Analysis II (4.0 cr)
MATH 5654 - Prediction and Filtering (4.0 cr)
MATH 5707 - Graph Theory and Nonenumerative Combinatorics (4.0 cr)
MATH 8540 - Topics in Mathematical Biology (1.0 - 3.0 cr)
MATH 8601 - Real Analysis (3.0 cr)
MATH 8602 - Real Analysis (3.0 cr)
MATH 8651 - Theory of Probability Including Measure Theory (3.0 cr)
MATH 8652 - Theory of Probability Including Measure Theory (3.0 cr)
MATH 8659 - Stochastic Processes (3.0 cr)
PSYCH 7475 - Statistical Learning and Data Mining (3.0 cr)
PSYCH 8442 - Bayesian Decision Theory and Data Analysis (3.0 cr)
STAT 5302 - Applied Regression Analysis (4.0 cr)
STAT 5303 - Designing Experiments (4.0 cr)
STAT 5401 - Applied Multivariate Methods (3.0 cr)
STAT 5421 - Analysis of Categorical Data (3.0 cr)
STAT 5511 - Time Series Analysis (3.0 cr)
STAT 5601 - Nonparametric Methods (3.0 cr)
STAT 8051 - Advanced Regression Techniques: linear, nonlinear and nonparametric methods (3.0 cr)
STAT 8101 - Theory of Statistics 1 (3.0 cr)
STAT 8102 - Theory of Statistics 2 (3.0 cr)
STAT 8501 - Introduction to Stochastic Processes with Applications (3.0 cr)

Thesis Credits (24 credits)
Take 24 doctoral thesis credits after passing preliminary oral exam.
IE 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)

Program Sub-plans
A sub-plan is not required for this program.
Students may not complete the program with more than one sub-plan.

Industrial Engineering

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 35
- This program does not require summer semesters for timely completion.
- Degree: Master of Science in Management of Technology

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Master of Science in Management of Technology (MSMOT) is a two-year, executive-format program that integrates the fields of technology and management and provides working engineers, scientists, and other professionals with management knowledge and skills needed to become successful technology leaders and innovators across all business and industry sectors. The program focuses on management in technology-based environments in traditional and emerging industries. The curriculum includes technical and advanced management courses, such as pivotal technologies, technology forecasting, project management, management of innovation, intellectual property management, and strategic management of technology. The core management curriculum includes areas such as finance, marketing, accounting, strategic planning and decision making, and conflict management. Students proceed through the program and advance as a cohort, taking a prescribed sequence of courses together. Case studies, class discussions, and study-group interaction stimulate the learning process. Students also participate in off-campus residencies, including an international residency; complete individual and team projects; and develop final projects as part of a capstone course. Most students receive corporate financial support.

The program is offered in a format designed for full-time working professionals. Students take courses one day per week on alternating Fridays and Saturdays and complete the degree within two years.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
A bachelor's degree from an accredited program.

Other requirements to be completed before admission:
Applicants should have at least 5 years of professional experience in a technical field.

In exceptional circumstances, promising candidates with less experience may be considered.

Special Application Requirements:
The program accepts applications on a rolling basis for fall semester of each year.

Applicants must submit three letters of recommendation, a resume, and a statement of purpose.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 90
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
• IELTS
  - Total Score: 7
• MELAB
  - Final score: 83

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan B: Plan B requires 35 major credits and up to null credits outside the major. The final exam is oral. A capstone project is required.

Capstone Project: The capstone project consists of an independent, original investigation requiring between 110 and 130 hours of effort. Students use concepts and methods learned in the MOT program to research and develop an industry-based product, project, process, or venture. The capstone project enables students to directly apply their MOT education at work.

This program may not be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.25 is required for students to remain in good standing.

Courses must be taken on the A-F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

Students attend the program as a cohort and complete their studies in four semesters.

Required Courses (32.5 Credits)

Complete the following courses for a total of 32.5 credits. Take 2 credits of MOT 8960: 1 credit fall of year 2 and 1 credit spring of year 2.

MOT 8111 - Marketing Management for Technology-based Organizations (2.0 cr)
MOT 8112 - Accounting for Decision Making (1.5 cr)
MOT 8113 - Operations Management for Competitive Advantage (1.5 cr)
MOT 8114 - Strategic Technology Analysis (1.5 cr)
MOT 8121 - Managing Organizations in a Technological Environment (1.5 cr)
MOT 8122 - Financial Management for Technology-based Organizations (1.5 cr)
MOT 8133 - Managerial Communication for Technological Leaders: Persuasive Writing and Speaking (2.0 cr)
MOT 8212 - Developing New Technology Products and Services (2.0 cr)
MOT 8214 - Technology Foresight and Forecasting (2.0 cr)
MOT 8218 - Digital Transformation (1.0 cr)
MOT 8221 - Project and Knowledge Management (1.5 cr)
MOT 8224 - Pivotal Technologies (1.0 cr)
MOT 8232 - Managing Technological Innovation (2.0 cr)
MOT 8233 - Strategic Management of Technology (2.0 cr)
MOT 8501 - Leading Individual & Team Performance (1.5 cr)
MOT 8502 - Innovation Leadership and Organizational Effectiveness (1.0 cr)
MOT 8900 - Conflict Management (0.5 cr)
MOT 8920 - Science and Technology Policy (1.5 cr)
MOT 8940 - Managing Intellectual Property (1.0 cr)
MOT 8950 - International Management of Technology Project (2.0 cr)
MOT 8960 - Seminars in Management of Technology (MOT) and Innovation (1.0 cr)

Capstone Project (2.5 Credits)

Take a total of 2.5 credits of MOT 8234: .5 credits in fall of year 2, and 2 credits spring of year 2.

MOT 8234 - Capstone Project (0.5 - 2.5 cr)

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Management of Technology minor integrates the fields of technology and management, allowing students in science and engineering majors to develop understanding and expertise in business principles. The curriculum includes basic business knowledge, with an emphasis on technology-intensive organizations. Topics include strategy, finance, marketing, intellectual property, innovation, and technology planning. Each class will include exercises that inform students on those business topics, and give them an opportunity to practice the fundamental skills of communications, teamwork, and project management.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Management of Technology (MOT) director of graduate studies regarding feasibility and requirements. Approval of the MOT director of graduate studies to pursue the minor is required.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

MOT minor courses cannot be applied to Master of Science in Management of Technology degree requirements.

Courses offered on both the A-F and S/N grading basis must be taken A-F, with a minimum grade of B- earned for each course.

The minimum cumulative GPA for the minor is 3.00.

Core Courses (4 credits)
Take the following courses:
MOT 5001 - Technological Business Fundamentals (2.0 cr)
MOT 5002 - Creating Technological Innovation (2.0 cr)

Electives (2 to 8 credits)
Master's students select 2 credits, and doctoral students select 8 credits in consultation with the MOT director of graduate studies to
complete credit requirements. Other courses may be counted toward the MOT minor with prior approval by the MOT director of graduate studies.

ENTR 6025 - Introduction to Entrepreneurship (2.0 cr)
ENTR 6036 - Managing the Growing Business (2.0 cr)
HSCI 5401 - Ethics in Science and Technology (3.0 cr)
HSCI 5421 - Engineering Ethics (3.0 cr)
IDSC 6041 - Information Technology Management (2.0 cr)
IDSC 6423 - Enterprise Systems (2.0 cr)
IE 5111 - Systems Engineering I (2.0 cr)
IE 5441 - Financial Decision Making (4.0 cr)
IE 5541 - Project Management (4.0 cr)
MBA 6111 - Leading Others (2.0 cr)
MBA 6301 - Strategic Management (3.0 cr)
ME 8221 - New Product Design and Business Development I (4.0 cr)
ME 8222 - New Product Design and Business Development II (4.0 cr)
MGMT 6004 - Negotiation Strategies (2.0 cr)
MGMT 6041 - Competing Globally (2.0 cr)
MGMT 6084 - Management of Teams (2.0 cr)
MGMT 6305 - The International Environment of Business (4.0 cr)
MOT 5003 - Technological Business Planning Workshop (1.0 cr)
OLPD 5607 - Organization Development (3.0 cr)
PA 5711 - Science, Technology & Environmental Policy (3.0 cr)
PA 5741 - Risk, Resilience and Decision Making (1.5 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Twin Cities Campus
Materials Science and Engineering M.Mat.S.E.
Chemical Engineering & Materials Science
College of Science and Engineering

Link to a list of faculty for this program.

• Program Type: Master's
• Requirements for this program are current for Fall 2022
• Length of program in credits: 30
• This program does not require summer semesters for timely completion.
• Degree: Master of Materials Science And Engineering

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Master of Materials Science and Engineering (MMatSE), also known as the professional master's, is designed for working professionals who are interested in obtaining a master's degree part-time. Research activities in the Chemical Engineering and Materials Science (CEMS) Department focus on the development of renewable energy technologies, the solution of important medical and biological engineering challenges, the development of advanced materials and characterization methods, and the application of sophisticated mathematical and theoretical models. Graduate courses offered cover core areas of chemical engineering (fluid mechanics, applied mathematics: linear and nonlinear analysis, transport, chemical thermodynamics, statistical thermodynamics and kinetics, and analysis of chemical reactors) and core areas of materials science (structure and symmetry of materials, thermodynamics and kinetics, transport, advanced mathematics, electronic properties of materials, and mechanical properties of materials). In addition, several specialized topics are offered, including biochemical engineering, biological transport processes, colloids, principles of mass transfer in engineering and biological engineering, rheology, process control, ceramics, polymers, scattering, and electrochemical engineering.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
A bachelor's degree in materials science or other related field.

Other requirements to be completed before admission:
The professional master's in engineering degree is designed for employees of local industries who wish to pursue their studies part-time. No financial support is available. Applicants should contact the program before applying for admission.

Special Application Requirements:
Applicants must submit three letters of recommendation from persons familiar with their scholarship and research potential; a complete set of official transcripts; and a clearly written statement summarizing research/work experience and motivation for graduate work.

Applications are accepted for fall semester only. December 15 is the application deadline; late applications are considered if space is available.

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
• IELTS
  - Total Score: 6.5
• MELAB
Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

**Plan A:** Plan A requires 14 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is oral.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 2.80 is required for students to remain in good standing.

Courses must be taken on the A-F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

Use of 4xxx courses requires director of graduate studies approval.

A work-related MMatSE design project, completed in consultation with the advisor, is required.

**Core Courses (12 credits)**

Select 12 credits from the following in consultation with the advisor:

- **MATS 8001** - Structure and Symmetry of Materials (3.0 cr)
- **MATS 8002** - Thermodynamics and Kinetics (3.0 cr)
- **MATS 8003** - Electronic Properties (3.0 cr)
- **MATS 8004** - Mechanical Properties (3.0 cr)
- **MATS 8201** - Applied Math (3.0 cr)
- **MATS 8301** - Physical Rate Processes I: Transport (3.0 cr)

**Electives**

Select elective courses from the following to complete the 14-credit minimum for the major. Other courses can be selected with advisor and director of graduate studies approval.

- **MATS 4214** - Polymers (3.0 cr)
- **MATS 5517** - Microscopy of Materials (3.0 cr)
- **MATS 5531** - Electrochemical Engineering (3.0 cr)
- **MATS 5771** - Colloids and Dispersions (3.0 cr)
- **MATS 5801** - Optimization in Chemical and Energy Systems Engineering (3.0 cr)
- **MATS 5803** - Chemical and Materials Technology Commercialization (3.0 cr)
- **MATS 8103** - Scattering from Soft Matter (2.0 cr)
- **MATS 8201** - Applied Math (3.0 cr)
- **MATS 8211** - Physical Chemistry of Polymers (4.0 cr)
- **MATS 8217** - Transmission Electron Microscopy (3.0 cr)
- **MATS 8221** - Synthetic Polymer Chemistry (4.0 cr)
- **MATS 8301** - Physical Rate Processes I: Transport (3.0 cr)
- **MATS 8995** - Special Topics (1.0 - 4.0 cr)

**Outside Coursework (6 credits)**

Select 6 credits from the following in consultation with the advisor. Other courses can be applied to this requirement with advisor and director of graduate studies approval.

- **AEM 4511** - Mechanics of Composite Materials (3.0 cr)
- **AEM 5321** - Modern Feedback Control (3.0 cr)
- **AEM 5451** - Optimal Estimation (3.0 cr)
- **AEM 5501** - Continuum Mechanics (3.0 cr)
- **AEM 5503** - Theory of Elasticity (3.0 cr)
- **AEM 5581** - Mechanics of Solids (3.0 cr)
- **AEM 8201** - Fluid Mechanics I (3.0 cr)
- **AEM 8202** - Fluid Mechanics II (3.0 cr)
- **AEM 8203** - Fluid Mechanics III (3.0 cr)
- **AEM 8251** - Finite-Volume Methods in Computational Fluid Dynamics (3.0 cr)
- **AEM 8421** - Robust Multivariable Control Design (3.0 cr)
- **AEM 8423** - Convex Optimization Methods in Control (3.0 cr)

Contact Information:
Department of Chemical Engineering and Materials Science, University of Minnesota, 151 Amundson Hall, 421 Washington Avenue SE, Minneapolis, MN 55455 (612-625-0382; fax: 612-626-7246)
Email: cemsgrad@umn.edu
Website: https://cse.umn.edu/cems

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30
- This program requires summer semesters for timely completion.
- Degree: Master of Science Materials Science And Engr

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Research activities in the Chemical Engineering and Materials Science (CEMS) Department focus on the development of renewable energy technologies, the solution of important medical and biological engineering challenges, the development of advanced materials and characterization methods, and the application of sophisticated mathematical and theoretical models. Graduate courses offered cover core areas of chemical engineering (fluid mechanics, applied mathematics: linear and nonlinear analysis, transport, chemical thermodynamics, statistical thermodynamics and kinetics, and analysis of chemical reactors) and core areas of materials science (structure and symmetry of materials, thermodynamics and kinetics, transport, advanced mathematics, electronic properties of materials, and mechanical properties of materials). In addition, several specialized topics are offered, including biochemical engineering, biological transport processes, colloids, principles of mass transfer in engineering and biological engineering, rheology, process control, ceramics, polymers, scattering, and electrochemical engineering.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
A bachelor's degree in materials science or other related field.

Other requirements to be completed before admission:
CEMS does not admit directly to the MSMatSE Plan A (with thesis) for full-time study with support.

Special Application Requirements:
Applicants must submit three letters of recommendation from persons familiar with their scholarship and research potential; a complete set of official transcripts; and a clearly written statement summarizing research/work experience and motivation for graduate work.

Applications are accepted for fall semester only. December 15 is the application deadline; late applications are considered if space is available.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5
- MELAB
  - Final score: 80

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of November 07, 2022
Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan A: Plan A requires 14 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is written and oral.

Plan C: Plan C requires 18 major credits and 12 credits outside the major. There is no final exam.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 2.80 is required for students to remain in good standing.

Courses must be taken on the A-F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

Use of 4xxx courses requires director of graduate studies approval.

Core Courses (12 credits)
Select 12 credits from the following in consultation with the advisor:
- MATS 8001 - Structure and Symmetry of Materials (3.0 cr)
- MATS 8002 - Thermodynamics and Kinetics (3.0 cr)
- MATS 8003 - Electronic Properties (3.0 cr)
- MATS 8004 - Mechanical Properties (3.0 cr)
- MATS 8201 - Applied Math (3.0 cr)
- MATS 8301 - Physical Rate Processes I: Transport (3.0 cr)

Electives
Select electives from the following, in consultation with the advisor, to meet the minimum number of course credits required for the major field. Other courses can be selected with director of graduate studies approval.
- MATS 4214 - Polymers (3.0 cr)
- MATS 5517 - Microscopy of Materials (3.0 cr)
- MATS 5531 - Electrochemical Engineering (3.0 cr)
- MATS 5771 - Colloids and Dispersions (3.0 cr)
- MATS 5801 - Optimization in Chemical and Energy Systems Engineering (3.0 cr)
- MATS 5803 - Chemical and Materials Technology Commercialization (3.0 cr)
- MATS 8001 - Structure and Symmetry of Materials (3.0 cr)
- MATS 8002 - Thermodynamics and Kinetics (3.0 cr)
- MATS 8003 - Electronic Properties (3.0 cr)
- MATS 8004 - Mechanical Properties (3.0 cr)
- MATS 8103 - Scattering from Soft Matter (2.0 cr)
- MATS 8201 - Applied Math (3.0 cr)
- MATS 8211 - Physical Chemistry of Polymers (4.0 cr)
- MATS 8217 - Transmission Electron Microscopy (3.0 cr)
- MATS 8221 - Synthetic Polymer Chemistry (4.0 cr)
- MATS 8301 - Physical Rate Processes I: Transport (3.0 cr)
- MATS 8995 - Special Topics (1.0 - 4.0 cr)

Outside Coursework (6 to 12 credits)
Plan A students select at least 6 credits, and Plan C students select at least 12 credits from the following in consultation with the advisor. Other courses may be applied to this requirement with advisor and director of graduate studies approval.

AEM 4511 - Mechanics of Composite Materials (3.0 cr)
AEM 5321 - Modern Feedback Control (3.0 cr)
AEM 5451 - Optimal Estimation (3.0 cr)

Plan Options

Plan A

Thesis Credits

Take 10 master's thesis credits.  
MATS 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)
Materials Science and Engineering Minor

Chemical Engineering & Materials Science

Contact Information:
Department of Chemical Engineering and Materials Science, University of Minnesota, 151 Amundson Hall, 421 Washington Avenue SE, Minneapolis, MN 55455 (612-625-0382; fax: 612-626-7246)
Email: cemsgrad@umn.edu
Website: https://cse.umn.edu/cems

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Research activities in the Chemical Engineering and Materials Science (CEMS) Department focus on the development of renewable energy technologies, the solution of important medical and biological engineering challenges, the development of advanced materials and characterization methods, and the application of sophisticated mathematical and theoretical models. Graduate courses offered cover core areas of chemical engineering (fluid mechanics, applied mathematics: linear and nonlinear analysis, transport, chemical thermodynamics, statistical thermodynamics and kinetics, and analysis of chemical reactors) and core areas of materials science (structure and symmetry of materials, thermodynamics and kinetics, transport, advanced mathematics, electronic properties of materials, and mechanical properties of materials). In addition, several specialized topics are offered, including biochemical engineering, biological transport processes, colloids, principles of mass transfer in engineering and biological engineering, rheology, process control, ceramics, polymers, scattering, and electrochemical engineering.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Materials Science and Engineering director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

The minor must be approved by the director of graduate studies in Materials Science and Engineering.

Courses must be taken on the A-F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

The minimum cumulative GPA for the minor is 3.00.

Minor Courses (6-12 credits)
Master's students select 6 credits from the following in consultation with the Materials Science and Engineering director of graduate studies. Doctoral students take all 12 credits.
MATS 8001 - Structure and Symmetry of Materials (3.0 cr)
MATS 8002 - Thermodynamics and Kinetics (3.0 cr)
MATS 8003 - Electronic Properties (3.0 cr)
MATS 8004 - Mechanical Properties (3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Twin Cities Campus
Materials Science and Engineering Ph.D.
Chemical Engineering & Materials Science
College of Science and Engineering

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 57
- This program requires summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Research activities in the Chemical Engineering and Materials Science (CEMS) Department focus on the development of renewable energy technologies, the solution of important medical and biological engineering challenges, the development of advanced materials and characterization methods, and the application of sophisticated mathematical and theoretical models. Graduate courses offered cover core areas of chemical engineering (fluid mechanics, applied mathematics: linear and nonlinear analysis, transport, chemical thermodynamics, statistical thermodynamics and kinetics, and analysis of chemical reactors) and core areas of materials science (structure and symmetry of materials, thermodynamics and kinetics, transport, advanced mathematics, electronic properties of materials, and mechanical properties of materials). In addition, several specialized topics are offered, including biochemical engineering, biological transport processes, colloids, principles of mass transfer in engineering and biological engineering, rheology, process control, ceramics, polymers, scattering, and electrochemical engineering.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
A bachelor's degree in materials science or other related field.

Other requirements to be completed before admission:
Applicants must submit three letters of recommendation from persons familiar with their scholarship and research potential, a complete set of official transcripts, and a clearly written statement summarizing research/work experience and motivation for graduate work.

Special Application Requirements:
Applications are accepted for fall semester only. Submission of all application materials by December 15 is strongly encouraged to ensure priority consideration for fellowships and assistantships; late applications are considered if space is available.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5
- MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements
21 credits are required in the major.
12 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

Courses must be taken on the A-F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

Use of 4xxx courses requires director of graduate studies approval.

Students must attend the departmental seminar for six semesters. Registration is not required; informal attendance will be done within the department.

Core Courses (12 credits)
Select 12 credits from the following in consultation with the advisor:
MATS 8001 - Structure and Symmetry of Materials (3.0 cr)
MATS 8002 - Thermodynamics and Kinetics (3.0 cr)
MATS 8003 - Electronic Properties (3.0 cr)
MATS 8004 - Mechanical Properties (3.0 cr)
MATS 8201 - Applied Math (3.0 cr)
MATS 8301 - Physical Rate Processes I: Transport (3.0 cr)

Electives (9 credits)
Select elective credits from the following, in consultation with the advisor, to meet the 21 course credits required for the major field.
Other courses can be selected with advisor and director of graduate studies approval.
MATS 4214 - Polymers (3.0 cr)
MATS 5517 - Microscopy of Materials (3.0 cr)
MATS 5531 - Electrochemical Engineering (3.0 cr)
MATS 5771 - Colloids and Dispersions (3.0 cr)
MATS 8001 - Structure and Symmetry of Materials (3.0 cr)
MATS 8002 - Thermodynamics and Kinetics (3.0 cr)
MATS 8003 - Electronic Properties (3.0 cr)
MATS 8004 - Mechanical Properties (3.0 cr)
MATS 8103 - Scattering from Soft Matter (2.0 cr)
MATS 8201 - Applied Math (3.0 cr)
MATS 8211 - Physical Chemistry of Polymers (4.0 cr)
MATS 8217 - Transmission Electron Microscopy (3.0 cr)
MATS 8221 - Synthetic Polymer Chemistry (4.0 cr)
MATS 8301 - Physical Rate Processes I: Transport (3.0 cr)
MATS 8995 - Special Topics (1.0 - 4.0 cr)

Outside Coursework (12 credits)
Select 12 credits from the following in consultation with the advisor. Other courses may be applied to this requirement with advisor and director of graduate studies approval.
AEM 4511 - Mechanics of Composite Materials (3.0 cr)
AEM 5321 - Modern Feedback Control (3.0 cr)
AEM 5451 - Optimal Estimation (3.0 cr)
AEM 5501 - Continuum Mechanics (3.0 cr)
AEM 5503 - Theory of Elasticity (3.0 cr)
AEM 5581 - Mechanics of Solids (3.0 cr)
AEM 8201 - Fluid Mechanics I (3.0 cr)
AEM 8202 - Fluid Mechanics II (3.0 cr)
AEM 8203 - Fluid Mechanics III (3.0 cr)
AEM 8251 - Finite-Volume Methods in Computational Fluid Dynamics (3.0 cr)
AEM 8421 - Robust Multivariable Control Design (3.0 cr)
AEM 8423 - Convex Optimization Methods in Control (3.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The School of Mathematics offers a master of science (MS) in mathematics. Students may also earn the MS degree with emphasis in applied and industrial mathematics or with emphasis in mathematics education.

Special areas of research include ordinary and partial differential equations; probability; real, complex, harmonic, functional, and numerical analysis; differential and algebraic geometry; topology; number theory; commutative algebra; group theory; logic; combinatorics; mathematical physics; and applied and industrial mathematics, mathematical biology, and dynamical systems.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Undergraduate degree in mathematics or equivalent.

Other requirements to be completed before admission:
Applicants should have the prerequisite material of abstract algebra, analysis, and topology.

GRE scores are not required for admission.

To receive full consideration for financial support, applicants for whom English is not their native language should have an English Language Proficiency Score of at least a 2 per University of Minnesota policy, which is a total score of 100 or higher and a speaking score of 23 or higher on the TOEFL iBT or a total score of 7 or higher with a speaking score of 7 or higher on the IELTS.

Special Application Requirements:
Applications are accepted for fall semester only. The application deadline is February 1.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Internet Based - Speaking Score: 18
- IELTS
  - Total Score: 6.5
  - Reading Score: 6.5
  - Writing Score: 6
  - Speaking Score: 6
Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan A: Plan A requires 14 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is oral.

Plan B: Plan B requires 15 to 30 major credits and 0 to 15 credits outside the major. The final exam is oral.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

Courses offered on both the A-F and S/N grading basis must be taken A-F, with a minimum grade of B earned for each course.

Students choose a program of coursework in consultation with their advisor and the director of graduate studies.

Outside Coursework (6 to 15 credits)

Plan A students select at least 6 credits, and Plan B students select up to 15 credits in consultation with the advisor and director of graduate studies. Courses may include mathematics coursework outside the major research area.

Plan Options

Plan A

Major Field Coursework (14 credits)
Select at least 14 credits in consultation with advisor and director of graduate studies.

Thesis Credits
Take 10 master's thesis credits.
MATH 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

OR

Plan B

Major Field Coursework (15 credits)
Select at least 15 credits in consultation with advisor and director of graduate studies from the following:

MATH 8141 - Applied Logic (3.0 cr)
MATH 8142 - Applied Logic (3.0 cr)
MATH 8151 - Axiomatic Set Theory (3.0 cr)
MATH 8152 - Axiomatic Set Theory (3.0 cr)
MATH 8166 - Recursion Theory (3.0 cr)
MATH 8167 - Recursion Theory (3.0 cr)
MATH 8201 - General Algebra (3.0 cr)
MATH 8202 - General Algebra (3.0 cr)
MATH 8207 - Theory of Modular Forms and L-Functions (3.0 cr)
MATH 8208 - Theory of Modular Forms and L-Functions (3.0 cr)

Contact Information:
School of Mathematics, University of Minnesota, 127 Vincent Hall, 206 Church Street SE, Minneapolis, MN 55455 (612-624-6391, fax: 612-624-6702)
Email: mathgrad@umn.edu
Website: https://cse.umn.edu/math

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Special areas of research include ordinary and partial differential equations; probability: real, complex, harmonic, functional, and numerical analysis; differential and algebraic geometry; topology; number theory; commutative algebra; group theory; logic; combinatorics; mathematical physics; and applied and industrial mathematics, mathematical biology, and dynamical systems.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission

Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Mathematics director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Courses offered on both the A-F and S/N grading basis must be taken A-F, with a minimum grade of B earned for each course.

The minimum cumulative GPA for the minor is 3.00.

Consult the Mathematics director of graduate studies in advance for course approval.

Minor Coursework (6 to 12 credits)
Master’s students select at least 6 credits from two semester courses and doctoral students select at least 12 credits from four semester courses to meet coursework requirements. Courses are selected in consultation with the advisor and the Mathematics director of graduate study.

Website: https://cse.umn.edu/math

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 60
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The School of Mathematics offers a PhD in mathematics and a PhD in mathematics with emphasis in applied mathematics.

Special areas of research include ordinary and partial differential equations; probability: real, complex, harmonic, functional, and numerical analysis; differential and algebraic geometry; topology; number theory; commutative algebra; group theory; logic; combinatorics; mathematical physics; and applied and industrial mathematics, mathematical biology, and dynamical systems.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Undergraduate degree in mathematics or equivalent.

Other requirements to be completed before admission:
Applicants should have the prerequisite material of abstract algebra, analysis, and topology.

GRE scores are not required for admission.

To receive full consideration for financial support, applicants for whom English is not their native language should have an English Language Proficiency (ELP) score of at least a 2, which is a total score of 100 or higher and a speaking score of 23 or higher on the TOEFL iBT or a total score of 7 or higher with a speaking score of 7 or higher on the IELTS.

Special Application Requirements:
Applications are accepted for fall semester only. The application deadline is December 15.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Internet Based - Speaking Score: 18
- IELTS
  - Total Score: 6.5
  - Reading Score: 6.5
  - Writing Score: 6
  - Speaking Score: 6

Key to test abbreviations (TOEFL, IELTS).
For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
24 credits are required in the major.
12 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

Courses offered on both the A-F and S/N grading basis must be taken A-F, with a minimum grade of B earned for each course.

Students choose a program of coursework in consultation with their advisor and the director of graduate studies that best prepares them for research in mathematics.

Major Coursework (24 credits)
A minimum of 24 major credits is required. Courses are selected with the advisor and director of graduate studies.

MATH 8990 - Topics in Mathematics (1.0 - 6.0 cr)
MATH 8991 - Independent Study (1.0 - 6.0 cr)
MATH 8992 - Directed Reading (1.0 - 6.0 cr)
MATH 8993 - Directed Study (1.0 - 6.0 cr)
MATH 8994 - Topics at the IMA (1.0 - 3.0 cr)

Outside Coursework (12 credits)
A minimum of 12 credits in a minor or supporting program that supports the thesis research are required. If a supporting program is chosen, it may consist partly or entirely of mathematics courses outside the student's major research area. Coursework is selected with the advisor and director of graduate studies.

Thesis Credits (24 credits)
Take 24 doctoral thesis credits after passing preliminary oral exam.
MATH 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Science in Mechanical Engineering

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Coursework and research are offered in advanced and additive manufacturing; bioengineering; combustion; computer-aided design; computer-aided manufacturing; control systems; energy conservation; environmental control; environmental engineering; fluid mechanics; fluid power; heat and mass transfer; machine design; manufacturing engineering; nanoengineering and nanotechnology; particle technology; plasma chemistry; plasma heat transfer; power, propulsion, and applied thermodynamics; solar energy; sprays and multiphase flows; systems dynamics; thermal energy storage; thermal environmental engineering; thermodynamics; transportation; vibration; wind energy; and interdisciplinary finite element methodology. Additional instructional and research programs can be formulated.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A four-year BS degree in engineering, science, or mathematics.

Special Application Requirements:
The department offers two options for applying to the masters degree program. The standard application requires a full set of application materials and allows admission to the Plan A or Plan C degree options. The streamlined application offers an abbreviated application process and admission is only for the coursework-only masters degree (Plan C). The program does not accept applications directly to the MSME Plan B option; rather, the Plan B is an additional or alternative credential for students admitted to the Mechanical Engineering PhD program.

Students admitted to the Plan C option are not eligible for financial support from the department.

Applications are accepted for fall semester only. The standard application deadline is December 15 and the streamlined application deadline is April 15.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5

Key to test abbreviations (TOEFL, IELTS).
For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

**Program Requirements**

**Plan A:** Plan A requires 20 major credits, up to null credits outside the major, and 10 thesis credits. The final exam is oral.

**Plan B:** Plan B requires 30 major credits and up to null credits outside the major. The final exam is oral.

**Plan C:** Plan C requires 30 major credits and up to null credits outside the major. There is no final exam.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 2.8 is required for students to remain in good standing.

Courses offered on both the A-F and S/N grading basis must be taken A-F.

No more than 6 4xxx-level course credits can be applied to degree requirements.

**Major Coursework Requirements**

**Required Seminar (1 credit)**
Select 1 seminar credit from the following in consultation with the advisor. Other seminars may be chosen with advisor and director of graduate studies approval.

- ME 8773 - Graduate Seminar (1.0 cr)
- ME 8774 - Graduate Seminar (1.0 cr)

**Math Course**
Select one course from following in consultation with the advisor:

- CSCI 5304 - Computational Aspects of Matrix Theory (3.0 cr)
- MATH 5587 - Elementary Partial Differential Equations I (4.0 cr)
- MATH 5588 - Elementary Partial Differential Equations II (4.0 cr)
- MATH 8401 - Mathematical Modeling and Methods of Applied Mathematics (3.0 cr)
- MATH 8402 - Mathematical Modeling and Methods of Applied Mathematics (3.0 cr)
- PHYS 5041 - Mathematical Methods for Physics (4.0 cr)

**Core Courses**
Plan A students select two courses, and Plan B and Plan C students select four courses, from any of the following topic areas in consultation with the advisor:

**Controls and System Dynamics:**

- ME 5281 - Feedback Control Systems (4.0 cr)
- ME 8281 - Advanced Control System Design-1 (3.0 cr)
- ME 8282 - Advanced Control Systems Design-2 (3.0 cr)

**Design and Manufacturing:**

- ME 5223 - Materials in Design (4.0 cr)
- ME 5243 - Advanced Mechanism Design (4.0 cr)
- ME 5247 - Applied Stress Analysis (4.0 cr)

**Fluid Mechanics:**

- ME 5332 - Intermediate Fluid Mechanics (4.0 cr)
- ME 8332 - Advanced Fluid Dynamics in Mechanical Engineering (3.0 cr)

**Reacting Systems:**

- ME 8111 - Multiphase Systems Analysis (3.0 cr)
- ME 8361 - Molecular Gas Dynamics (3.0 cr)
- ME 8363 - Introduction to Reactive Flow Systems (3.0 cr)

**Thermodynamics and Heat Transfer:**

- ME 8341 - Conduction (3.0 cr)
- ME 8342 - Convection (3.0 cr)
- ME 8343 - Radiation (3.0 cr)

**Electives**
Plan A students select credits as needed to meet the 20 course credits required; Plan B and Plan C students select credits as needed to complete the 30-credit requirement. Other courses can be selected with advisor and director of graduate studies approval.
AEM 4511 - Mechanics of Composite Materials (3.0 cr)

ME 8363 - Introduction to Reactive Flow Systems (3.0 cr)
ME 8381 - Bioheat and Mass Transfer (3.0 cr)
ME 8390 - Advanced Topics in the Thermal Sciences: Biostabilization in Biomedicine, and Biotechnology (1.0 - 3.0 cr)
ME 8446 - Advanced Combustion (3.0 cr)
ME 8794 - Mechanical Engineering Research (1.0 - 4.0 cr)
PHYS 4101 - Quantum Mechanics (4.0 cr)
PHYS 4201 - Statistical and Thermal Physics (3.0 cr)
PHYS 4211 - Introduction to Solid-State Physics (3.0 cr)

Plan Options

Plan A
Thesis Credits
- Take 10 master's thesis credits.
  ME 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

Program Sub-plans
A sub-plan is not required for this program.
Students may not complete the program with more than one sub-plan.

Integrated B.M.E./M.S.M.E.
The Department of Mechanical Engineering offers an integrated bachelor's/master's degree program. The program makes it possible for students to earn a bachelor's degree (BME) and a master's degree (MSME) in Mechanical Engineering in five years. The program has several benefits: a streamlined admissions process from the undergraduate program to the graduate program; graduate student status granted in the senior year; eligibility for research assistantships; and flexibility in fulfilling required courses for both degrees simultaneously in the last two years of study.

Eligible applicants must be University undergraduates within 32 semester credits of completing the BME degree, with a minimum 3.25 GPA preferred.

Both the BME and MSME degrees must be completed in their entirety, with no courses shared between them. The graduate degree cannot be earned before the undergraduate requirements are satisfied. Admitted students who decide not to complete the MSME degree are permitted to count credits originally planned for the graduate program toward their undergraduate technical electives.

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Coursework is offered in advanced and additive manufacturing; bioengineering; combustion; computer-aided design; computer-aided manufacturing; control systems; energy conservation; environmental control; environmental engineering; fluid mechanics; fluid power; heat and mass transfer; machine design; manufacturing engineering; nanoengineering and nanotechnology; particle technology; plasma chemistry; plasma heat transfer; power, propulsion, and applied thermodynamics; solar energy; sprays and multiphase flows; systems dynamics; thermal energy storage; thermal environmental engineering; thermodynamics; transportation; vibration; wind energy; and interdisciplinary finite element methodology. Additional instructional and research programs can be formulated.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Mechanical Engineering director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Courses must be taken on the A-F grade basis, unless only offered S/N.

The minimum cumulative GPA for the minor is 3.00.

Minor Courses (6-12 credits)
Master's students select 6 credits, and doctoral students select 12 credits from the following in consultation with the Mechanical Engineering director of graduate studies:
ME 5103 - Thermal Environmental Engineering (4.0 cr)
ME 5113 - Aerosol/Particle Engineering (4.0 cr)
ME 5133 - Aerosol Measurement Laboratory (4.0 cr)
ME 5221 - Computer-Assisted Product Realization (4.0 cr)

Program Requirements
36 credits are required in the major.
24 thesis credits are required.
This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.0 is required for students to remain in good standing.

Courses must be taken on the A-F grade basis, unless only offered S/N.

A minimum of 12 course credits at the 8000-level are required (seminars and ethics courses may not be included).

Use of 4xxx courses requires approval of the advisor and director of graduate studies.

**Major Coursework Requirements**

**Required Seminar (2 credits)**
Select 2 seminar credits from the following in consultation with the advisor. Other seminars may be chosen with advisor and director of graduate studies approval.

- ME 8773 - Graduate Seminar (1.0 cr)
- ME 8774 - Graduate Seminar (1.0 cr)

**Math Course**
Select one course from following in consultation with the advisor:

- CSCI 5304 - Computational Aspects of Matrix Theory (3.0 cr)
- MATH 5587 - Elementary Partial Differential Equations I (4.0 cr)
- MATH 5588 - Elementary Partial Differential Equations II (4.0 cr)
- MATH 8401 - Mathematical Modeling and Methods of Applied Mathematics (3.0 cr)
- MATH 8402 - Mathematical Modeling and Methods of Applied Mathematics (3.0 cr)
- PHYS 5041 - Mathematical Methods for Physics (4.0 cr)

**Core Courses**
Select four courses from the following in consultation with the advisor. Two courses must be from the same topic area.

- **Controls and System Dynamics:**
  - ME 5281 - Feedback Control Systems (4.0 cr)
  - ME 8281 - Advanced Control System Design-1 (3.0 cr)
  - ME 8282 - Advanced Control Systems Design-2 (3.0 cr)

- **Design and Manufacturing:**
  - ME 5223 - Materials in Design (4.0 cr)
  - ME 5243 - Advanced Mechanism Design (4.0 cr)
  - ME 5247 - Applied Stress Analysis (4.0 cr)

- **Fluid Mechanics:**
  - ME 5332 - Intermediate Fluid Mechanics (4.0 cr)
  - ME 8332 - Advanced Fluid Dynamics in Mechanical Engineering (3.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 34
- This program requires summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Medical Device Innovation master of science (MS) degree is an interdisciplinary program comprising courses in the core areas of technology innovation management and medical industry dynamics. Students experiences are enhanced through therapeutic-area-based group activities and hands-on experiences in innovative biodesign through practicums at the Medical Devices Center. The 22-month program draws upon the fields of technology innovation, product development, project and business management, intellectual property, regulatory affairs, clinical needs, entrepreneurship, emerging trends, globalization, reimbursement, and public policy. This program provides students with a full understanding of medical device innovation from start to finish. In doing so, it goes well beyond the traditional technology focus of most master's programs.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A bachelor's degree in a related field, such as biological or physical sciences, engineering, computer science, mathematics, statistics, or business is preferred.

Other requirements to be completed before admission:
A strong background in science, engineering, and math, with at least two to five years of work experience, is preferred.

Special Application Requirements:
Applications are accepted on a rolling basis for the program's start in fall of each year.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5
- MELAB
  - Final score: 80
The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan B: Plan B requires 28 major credits and 6 credits outside the major. The final exam is written and oral. A capstone project is required.

Capstone Project: The capstone project is independent, original, and applied research on a relevant subject, problem, or issue in areas of medical device technologies, policy, business, or innovation. The capstone project is rooted in real-world topics in the industry, and is usually framed in cooperation with the students organization or employer.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.0 is required for students to remain in good standing.

Courses offered on both the A-F and S/N grading basis must be taken A-F.

Application of 4xxx courses toward program requirements requires approval of the advisor and the director of graduate studies.

Core Courses (26 credits)

Take the following courses:

- MDI 5004 - Clinical Foundations of Medical Device Innovation (3.0 cr)
- MDI 5006 - Finance, Valuation, and Entrepreneurship (3.0 cr)
- MDI 5008 - Quality, Regulatory and Operations Management (3.0 cr)
- MDI 5010 - Product Innovation & Development Management (2.0 cr)
- MDI 5013 - Biodesign Practicum I (2.0 cr)
- MDI 5014 - Biodesign Practicum II (2.0 cr)
- MDI 5015 - Biodesign Practicum III (2.0 cr)
- MOT 8114 - Strategic Technology Analysis (1.5 cr)
- MOT 8133 - Managerial Communication for Technological Leaders: Persuasive Writing and Speaking (2.0 cr)
- MOT 8214 - Technology Foresight and Forecasting (2.0 cr)
- MOT 8224 - Pivotal Technologies (1.0 cr)
- MOT 8501 - Leading Individual & Team Performance (1.5 cr)
- MOT 8502 - Innovation Leadership and Organizational Effectiveness (1.0 cr)

Electives (6 credits)

Take 6 credits from the following in consultation with the advisor. Students selecting topics courses MGMT 6100 or ME 8262 must get approval of the topic prior to registering from the director of graduate studies.

- BMEN 5001 - Advanced Biomaterials (3.0 cr)
- BMEN 5041 - Tissue Engineering (3.0 cr)
- BMEN 5101 - Advanced Bioelectricity and Instrumentation (3.0 cr)
- BMEN 5151 - Introduction to BioMEMS and Medical Microsystems (2.0 cr)
- BMEN 5201 - Advanced Biomechanics (3.0 cr)
- BMEN 5311 - Advanced Biomedical Transport Processes (3.0 cr)
- BMEN 5321 - Microfluidics in Biology and Medicine (3.0 cr)
- BMEN 5351 - Cell Engineering (3.0 cr)
- BMEN 5401 - Advanced Biomedical Imaging (3.0 cr)
- BMEN 5411 - Neural Engineering (3.0 cr)
- BMEN 5412 - Neuromodulation (3.0 cr)
- BMEN 5413 - Neural Decoding and Interfacing (3.0 cr)
- BMEN 5421 - Introduction to Biomedical Optics (3.0 cr)
- BMEN 5501 - Biology for Biomedical Engineers (3.0 cr)
- BMEN 5701 - Cancer Bioengineering (3.0 cr)
- BMEN 8101 - Biomedical Digital Signal Processing (3.0 cr)
- BTHX 5100 - Introduction to Clinical Ethics (3.0 cr)
- BTHX 5210 - Ethics of Human Subjects Research (3.0 cr)
- BTHX 5300 - Foundations of Bioethics (3.0 cr)

Neuroengineering Minor
Department of Biomedical Engineering
College of Science and Engineering

Link to a list of faculty for this program.

Contact Information:
Graduate Minor in Neuroengineering, 7-105 Nils Hasselmo Hall, 312 Church Street S.E., Minneapolis, MN 55455 (612-624-8396; fax 612-626-6583)
Email: bmenpg@umn.edu
Website: http://cne.umn.edu/

- Program Type: Graduate free-standing minor
- Requirements for this program are current for Fall 2022
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The doctoral minor in neuroengineering (NE) is motivated by the notion that future breakthroughs in this rapidly growing area of research will be made by engineers who understand the fundamental issues and principles of neuroscience that occur during neural interventions, and by neuroscientists who are truly competent in engineering concepts and tools. The minor trains students to develop the skills to revolutionize technologies for interfacing with the brain and to advance our understanding of the neuroscience processes that arise when we interface with and modulate the brain.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Neuroengineering director of graduate studies regarding feasibility and requirements including, for students pursuing PhDs in majors other than neuroscience, or in biomedical, electrical, or mechanical engineering, consultation with the Neuroengineering director of graduate studies about the necessary background to succeed in the minor.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Coursework must be approved by the neuroengineering director of graduate studies.

For any course listed in multiple categories, students must choose which requirement that course will fulfill. A single course cannot be counted simultaneously toward multiple categories.

Coursework applied to minor field requirements offered on both the A-F and S/N grading basis must be graded A-F, with a minimum grade of B- earned for each course.

The minimum cumulative GPA for the minor is 3.00.

Neuroengineering Seminar (2 credits)
Take the following course:
BMEN 8411 - Neuroengineering Seminar (2.0 cr)

Neuroengineering Course (3 credits)
Select 1 of the following in consultation with the Neuroengineering director of graduate studies. BMEN 5411 is strongly recommended for students who have not already completed a neural engineering course.

**BMEN 5411 - Neural Engineering (3.0 cr)**
**BMEN 5412 - Neuromodulation (3.0 cr)**

**Neuroscience Course (3 credits)**
Select 1 of the following courses in consultation with the Neuroengineering director of graduate studies:

**NSCI 5101 - Neurobiology I: Molecules, Cells, and Systems (3.0 cr)**
**NSC 5561 - Systems Neuroscience (4.0 cr)**

**Electives**
Select electives as needed, in consultation with the Neuroengineering director of graduate studies, to complete the 12-credit minimum. Other courses may be selected with approval of the Neuroengineering director of graduate studies.

**BMEN 5401 - Advanced Biomedical Imaging (3.0 cr)**
**BMEN 5411 - Neural Engineering (3.0 cr)**
**BMEN 5412 - Neuromodulation (3.0 cr)**
**BMEN 5413 - Neural Decoding and Interfacing (3.0 cr)**
**BMEN 8101 - Biomedical Digital Signal Processing (3.0 cr)**
**BMEN 8151 - Biomedical Electronics and Implantable Microsystems (3.0 cr)**
**BMEN 8411 - Neuroengineering Seminar (2.0 cr)**
**BMEN 8502 - Physiological Control Systems (3.0 cr)**
**EE 5231 - Linear Systems and Optimal Control (3.0 cr)**
**EE 5239 - Introduction to Nonlinear Optimization (3.0 cr)**
**EE 5542 - Adaptive Digital Signal Processing (3.0 cr)**
**ME 5281 - Feedback Control Systems (4.0 cr)**
**ME 5286 - Robotics (4.0 cr)**
**MPHY 5176 - Physical Principles of Magnetic Resonance Imaging (3.0 cr)**
**MPHY 8147 - Advanced Physics of Magnetic Resonance Imaging (MRI) (3.0 cr)**
**NSC 8111 - Quantitative Neuroscience (3.0 cr)**
**NSC 8217 - Systems and Computational Neuroscience (2.0 cr)**
**PSY 5036W - Computational Vision [WI] (3.0 cr)**
**PSY 5038W - Introduction to Neural Networks [WI] (3.0 cr)**
**PSY 5063 - Introduction to Functional MRI (3.0 cr)**
**PSY 5065 - Functional Imaging: Hands-on Training (3.0 cr)**

**Program Sub-plans**
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

**Doctoral**

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Physics is the study of the fundamental structure and interactions of matter. Research areas in the program include experimental and theoretical studies in astrophysics and cosmology, biological physics, condensed matter physics, elementary particle physics, nuclear physics, space and planetary physics, and physics education research. Interdisciplinary study is also available with the programs in astrophysics, biological sciences, chemistry, chemical engineering and materials science, electrical and computer engineering, mechanical engineering, and the history of science and technology.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.30.

Other requirements to be completed before admission:
Upper division courses in the core areas of classical mechanics, electricity and magnetism, quantum mechanics, and statistical and thermal physics are encouraged. It is advisable to have taken an upper division course in experimental methods in physics.

Financial support is generally not offered to students admitted to the terminal MS degree.

GRE scores are not required.

Special Application Requirements:
Applications are accepted for fall semester only. The application deadline is December 15.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5
  - Reading Score: 6.5
  - Writing Score: 6.5
- MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements

Plan A: Plan A requires 20 major credits, 0 credits outside the major, and 10 thesis credits. The final exam is oral.

Plan B: Plan B requires 30 major credits and 0 credits outside the major. The final exam is oral. A capstone project is required.

Capstone Project: The Plan B project (Physics 8500, 4 credits) can comprise either a self-contained research problem, or 1 to 3 papers related to completed courses.

Plan C: Plan C requires 30 major credits and 0 credits outside the major. The is no final exam.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Physics 4001, 4002, 4101, 4201, and 4303 cannot be used to satisfy degree requirements.

Courses must be taken on the A-F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

Plan A & B must graduate with a minimum GPA of 2.80. Plan C students must complete with a 3.00 GPA.

Plan C students must pass the Physics Graduate Written Exam.

Required Courses (8 to 16 credits)
Plan A and Plan B students complete either the quantum mechanics sequence or the classical physics sequence. Plan C students must complete both sequences. The minimum GPA for the required core courses is 3.30 for Plan C students.

Quantum Mechanics Sequence
- PHYS 5001 - Quantum Mechanics I (4.0 cr)
- PHYS 5002 - Quantum Mechanics II (4.0 cr)

Classical Physics Sequence
- PHYS 5011 - Classical Physics I (4.0 cr)
- PHYS 5012 - Classical Physics II (4.0 cr)

Seminar (2 credits)
Take 1 credit in the fall and 1 credit in the Spring.
- PHYS 5980 - Introduction to Research Seminar (1.0 cr)

Elective Courses (9 to 16 credits)
Plan A students select 10 credits, Plan B students 16 credits, and Plan C students select 9 credits from the following, in consultation with the advisor. Additional courses may be approved by the director of graduate studies.

Atomic Physics and Optics
- PHYS 8161 - Atomic and Molecular Structure (3.0 cr)

Biophysics and Medical Physics
- PHYS 5081 - Introduction to Biopolymer Physics (3.0 cr)
- PHYS 8300 - Seminar: Biological and Medical Physics (1.0 cr)
- PHYS 8311 - Biological Physics of Single Molecules (3.0 cr)
- PHYS 8312 - Biological Physics of Macroscopic Systems (3.0 cr)

Condensed Matter Physics
- PHYS 4211 - Introduction to Solid-State Physics (3.0 cr)
- PHYS 5701 - Solid-State Physics for Engineers and Scientists (4.0 cr)
- PHYS 5750 - Advanced Topics in Quantum Mechanics and Quantum Information (3.0 cr)
- PHYS 8014 - Quantum many Body Systems (3.0 cr)
- PHYS 8700 - Seminar: Condensed Matter Physics (1.0 cr)
- PHYS 8702 - Statistical Mechanics and Transport Theory (3.0 cr)
- PHYS 8711 - Solid-State Physics I (3.0 cr)
- PHYS 8712 - Solid-State Physics II (3.0 cr)
- PHYS 8750 - Advanced Topics in Condensed Matter Physics (3.0 cr)

Elementary Particle Physics
- PHYS 4511 - Introduction to Nuclear and Particle Physics (3.0 cr)
- PHYS 8011 - Quantum Field Theory I (3.0 cr)
- PHYS 8012 - Quantum Field Theory II (3.0 cr)
- PHYS 8013 - Special Topics in Quantum Field Theory (3.0 cr)
- PHYS 8900 - Seminar: Elementary Particle Physics (1.0 cr)
- PHYS 8901 - Elementary Particle Physics I (3.0 cr)
PHYS 8902 - Elementary Particle Physics II (3.0 cr)
PHYS 8911 - Introduction to Supersymmetry (3.0 cr)

Mathematical, Advanced Quantum, and Computational Physics
PHYS 5041 - Mathematical Methods for Physics (4.0 cr)
PHYS 8001 - Advanced Quantum Mechanics (3.0 cr)
PHYS 8301 - Symmetry and Its Application to Physical Problems (3.0 cr)

Nuclear Physics
PHYS 8800 - Seminar: Nuclear Physics (1.0 cr)
PHYS 8801 - Nuclear Physics I (3.0 cr)
PHYS 8802 - Nuclear Physics II (3.0 cr)
PHYS 8850 - Advanced Topics in Nuclear Physics (3.0 cr)

Plasma and Space Physics
PHYS 4611 - Introduction to Space Physics (3.0 cr)
PHYS 4621 - Introduction to Plasma Physics (3.0 cr)
PHYS 5621 - Introduction to Plasma Physics (3.0 cr)
PHYS 8600 - Seminar: Space Physics (1.0 cr)
PHYS 8601 - Plasma Physics I (3.0 cr)
PHYS 8602 - Plasma Physics II (3.0 cr)
PHYS 8611 - Cosmic Rays and Plasma Astrophysics (3.0 cr)
PHYS 8650 - Advanced Topics in Space and Plasma Physics (3.0 cr)

Relativity and Cosmology
PHYS 5022 - Relativity, Cosmology, and the Universe (4.0 cr)
PHYS 8200 - Seminar: Cosmology and High Energy Astrophysics (1.0 cr)
PHYS 8501 - General Relativity and Cosmology I (3.0 cr)
PHYS 8502 - General Relativity and Cosmology II (3.0 cr)

Physics Education
PHYS 5072 - Best Practices in College Physics Teaching (1.0 - 3.0 cr)
PHYS 8100 - Seminar: Problems of Physics Teaching and Higher Education (1.0 cr)

Plan Options

Plan A (10 credits)
Take 10 master's thesis credits.
PHYS 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

-OR-

Plan B (4 credits)
Take the following course:
PHYS 8500 - Plan B Project (4.0 cr)

-OR-

Plan C (3 credits)
Take the following course:
PHYS 5201 - Thermal and Statistical Physics (3.0 cr)
Twin Cities Campus

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Physics is the study of the fundamental structure and interactions of matter. Research areas in the program include experimental and theoretical studies in astrophysics and cosmology, biological physics, condensed matter physics, elementary particle physics, nuclear physics, space and planetary physics, and physics education research. Interdisciplinary study is also available with the programs in astrophysics, biological sciences, chemistry, chemical engineering and materials science, electrical and computer engineering, mechanical engineering, and the history of science and technology.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Other requirements to be completed before admission:
A physics minor requires a background in differential and integral calculus and one year of calculus-level college physics.

Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Physics director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Courses offered on both the A-F and S/N grading basis must be taken A-F, with a minimum grade of B- earned for each course.

The minimum cumulative GPA for the minor is 3.00.

The following courses cannot be applied to the minor: Physics 4001, 4002, 4101, 4201, and 4303.

Elective Courses (2 to 4 credits)
Master's students select 2 credits, and doctoral students select 4 credits from the following in consultation with the Physics director of graduate studies to complete minimum credit requirements.

Atomic Physics and Optics
PHYS 8161 - Atomic and Molecular Structure (3.0 cr)
Biophysics and Medical Physics
PHYS 5081 - Introduction to Biopolymer Physics (3.0 cr)
PHYS 8300 - Seminar: Biological and Medical Physics. (1.0 cr)
PHYS 8311 - Biological Physics of Single Molecules (3.0 cr)
PHYS 8312 - Biological Physics of Macroscopic Systems (3.0 cr)

Condensed Matter Physics
PHYS 4211 - Introduction to Solid-State Physics (3.0 cr)
PHYS 5701 - Solid-State Physics for Engineers and Scientists (4.0 cr)
PHYS 5750 - Advanced Topics in Quantum Mechanics and Quantum Information (3.0 cr)
PHYS 8014 - Quantum many Body Systems (3.0 cr)
PHYS 8700 - Seminar: Condensed Matter Physics (1.0 cr)
PHYS 8702 - Statistical Mechanics and Transport Theory (3.0 cr)
PHYS 8711 - Solid-State Physics I (3.0 cr)
PHYS 8712 - Solid-State Physics II (3.0 cr)
PHYS 8750 - Advanced Topics in Condensed Matter Physics (3.0 cr)

Elementary Particle Physics
PHYS 4511 - Introduction to Nuclear and Particle Physics (3.0 cr)
PHYS 8011 - Quantum Field Theory I (3.0 cr)
PHYS 8012 - Quantum Field Theory II (3.0 cr)
PHYS 8013 - Special Topics in Quantum Field Theory (3.0 cr)
PHYS 8900 - Seminar: Elementary Particle Physics (1.0 cr)
PHYS 8901 - Elementary Particle Physics I (3.0 cr)
PHYS 8902 - Elementary Particle Physics II (3.0 cr)
PHYS 8911 - Introduction to Supersymmetry (3.0 cr)

Mathematical, Advanced Quantum, and Computational Physics
PHYS 5041 - Mathematical Methods for Physics (4.0 cr)
PHYS 8001 - Advanced Quantum Mechanics (3.0 cr)
PHYS 8301 - Symmetry and Its Application to Physical Problems (3.0 cr)

Nuclear Physics
PHYS 8800 - Seminar: Nuclear Physics (1.0 cr)
PHYS 8801 - Nuclear Physics I (3.0 cr)
PHYS 8802 - Nuclear Physics II (3.0 cr)
PHYS 8850 - Advanced Topics in Nuclear Physics (3.0 cr)

Plasma and Space Physics
PHYS 4611 - Introduction to Space Physics (3.0 cr)
PHYS 4621 - Introduction to Plasma Physics (3.0 cr)
PHYS 5621 - Introduction to Plasma Physics (3.0 cr)
PHYS 8600 - Seminar: Space Physics (1.0 cr)
PHYS 8601 - Plasma Physics I (3.0 cr)
PHYS 8602 - Plasma Physics II (3.0 cr)
PHYS 8611 - Cosmic Rays and Plasma Astrophysics (3.0 cr)
PHYS 8650 - Advanced Topics in Space and Plasma Physics (3.0 cr)

Relativity and Cosmology
PHYS 5022 - Relativity, Cosmology, and the Universe (4.0 cr)
PHYS 8200 - Seminar: Cosmology and High Energy Astrophysics (1.0 cr)
PHYS 8501 - General Relativity and Cosmology I (3.0 cr)
PHYS 8502 - General Relativity and Cosmology II (3.0 cr)

Physics Education
PHYS 5072 - Best Practices in College Physics Teaching (1.0 - 3.0 cr)
PHYS 8100 - Seminar: Problems of Physics Teaching and Higher Education (1.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters
Required Course (4 credits)
Select 1 of the following in consultation with the Physics director of graduate studies:
PHYS 5001 - Quantum Mechanics I (4.0 cr)
or PHYS 5011 - Classical Physics I (4.0 cr)

Doctoral
Required Courses (8 credits)
Select 1 of the following course sequences in consultation with the Physics director of graduate studies:
Quantum Mechanics Sequence
PHYS 5001 - Quantum Mechanics I (4.0 cr)
PHYS 5002 - Quantum Mechanics II (4.0 cr)

or Classical Physics Sequence
PHYS 5011 - Classical Physics I (4.0 cr)
PHYS 5012 - Classical Physics II (4.0 cr)
Twin Cities Campus

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 64
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Physics is the study of the fundamental structure and interactions of matter. Research areas in the program include experimental and theoretical studies in astrophysics and cosmology, biological physics, condensed matter physics, elementary particle physics, nuclear physics, space and planetary physics, and physics education research. Interdisciplinary study is also available with the programs in astrophysics, biological sciences, chemistry, chemical engineering and materials science, electrical and computer engineering, mechanical engineering, and the history of science and technology.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.50.

Other requirements to be completed before admission:
Courses at the upper division level in the core areas of classical mechanics, electricity and magnetism, quantum mechanics, and statistical and thermal physics are encouraged. It is advisable to have taken an upper division course in experimental methods in physics.

Special Application Requirements:
Applicants are required to submit three letters of recommendation from persons familiar with their scholarship and research potential; a complete set of transcripts; and a clearly written statement of career interests, goals, and objectives. GRE scores are not required. Applications are accepted for fall semester only. The application deadline is December 15.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5
  - Reading Score: 6.5
  - Writing Score: 6.5
- MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

Program Requirements
40 credits are required in the major.
0 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

Physics 4001, 4002, 4101, 4201, and 4303 cannot be used to satisfy the requirements.

Courses must be taken on the A-F grade basis, unless only offered S/N, with a minimum grade of B- earned for each course.

At least credits of 8000-level coursework, not including dissertation credits, are required.
The minimum GPA for the required core courses is 3.30.

Students holding TA appointments must take PHYS 5072 over 2 semesters for a total of 3 credits.

Required Core Courses (19 credits)
Take the following courses:
PHYS 5001 - Quantum Mechanics I (4.0 cr)
PHYS 5002 - Quantum Mechanics II (4.0 cr)
PHYS 5011 - Classical Physics I (4.0 cr)
PHYS 5012 - Classical Physics II (4.0 cr)
PHYS 5201 - Thermal and Statistical Physics (3.0 cr)

Required Seminars (4 credits)
Complete PHYS 5980 for 2 credits. Select 2 additional seminars from the following in consultation with the advisor:
PHYS 5980 - Introduction to Research Seminar (1.0 cr)
PHYS 8100 - Seminar: Problems of Physics Teaching and Higher Education (1.0 cr)
PHYS 8200 - Seminar: Cosmology and High Energy Astrophysics (1.0 cr)
PHYS 8300 - Seminar: Biological and Medical Physics. (1.0 cr)
PHYS 8600 - Seminar: Space Physics (1.0 cr)
PHYS 8700 - Seminar: Condensed Matter Physics (1.0 cr)
PHYS 8800 - Seminar: Nuclear Physics (1.0 cr)
PHYS 8900 - Seminar: Elementary Particle Physics (1.0 cr)

Electives (17 credits)
Select courses from the following, in consultation with the advisor, to complete the 40 course credits required. Other courses may be chosen with approval of the advisor and director of graduate studies.

Students holding TA appointments must take PHYS 5072 over 2 semesters for a total of 3 credits.

Atomic Physics and Optics
PHYS 8161 - Atomic and Molecular Structure (3.0 cr)

Biophysics and Medical Physics
PHYS 5081 - Introduction to Biopolymer Physics (3.0 cr)
PHYS 8300 - Seminar: Biological and Medical Physics. (1.0 cr)
PHYS 8311 - Biological Physics of Single Molecules (3.0 cr)
PHYS 8312 - Biological Physics of Macroscopic Systems (3.0 cr)

Condensed Matter Physics
PHYS 4211 - Introduction to Solid-State Physics (3.0 cr)
PHYS 5701 - Solid-State Physics for Engineers and Scientists (4.0 cr)
PHYS 5750 - Advanced Topics in Quantum Mechanics and Quantum Information (3.0 cr)
PHYS 8014 - Quantum many Body Systems (3.0 cr)
PHYS 8700 - Seminar: Condensed Matter Physics (1.0 cr)
PHYS 8702 - Statistical Mechanics and Transport Theory (3.0 cr)
PHYS 8711 - Solid-State Physics I (3.0 cr)
PHYS 8712 - Solid-State Physics II (3.0 cr)
PHYS 8750 - Advanced Topics in Condensed Matter Physics (3.0 cr)

- Program Type: Graduate free-standing minor
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The faculty of the graduate minor in quaternary paleoecology (QP) hold appointments in several departments. Students in this unique program benefit from the broad range of expertise and experience available at a large research university. From their coursework in the minor, graduate students learn techniques and approaches from other areas that can be applied to their own research.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Quaternary Paleoecology director of graduate studies regarding feasibility and requirements.

Apply by sending a letter of application to the director of graduate studies (qpminor@umn.edu) with a letter of endorsement from the advisor.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

The Quaternary Paleoecology minor curriculum is developed in consultation with the major advisor and the Quaternary Paleoecology director of graduate studies. Courses must be from relevant disciplines outside the major field.

Courses offered on both the A-F and S/N grade basis must be taken A-F, with a minimum grade of C earned for each course.

The minimum cumulative GPA for the minor is 3.00.

Minor Coursework (6 to 12 credits)
Masters students select 6 credits, and doctoral students select 12 credits from the following list. Alternative coursework can be selected with approval from the major advisor and Quaternary Paleoecology director of graduate studies.
ANTH 4077 - Neanderthals: Biology and Culture of Humanity's Nearest Relative (3.0 cr)
ANTH 4329 - Primate Ecology and Social Behavior (3.0 cr)
ANTH 5009 - Human Behavioral Biology (3.0 cr)
ANTH 5015W - Biology, Evolution, and Cultural Development of Language & Music [SOCS, WI] (3.0 cr)
ANTH 5269 - Analysis of Stone Tool Technology (4.0 cr)
ANTH 5401 - The Human Fossil Record (3.0 cr)
ANTH 5402 - Zooarchaeology Laboratory (3.0 cr)
ANTH 5403 - Quantitative Methods in Biological Anthropology (4.0 cr)
ANTH 5405 - Human Skeletal Analysis (4.0 cr)
ANTH 5442 - Archaeology of the British Isles (3.0 cr)
CEGE 5541 - Environmental Water Chemistry (3.0 cr)
CEGE 5551 - Environmental Microbiology (3.0 cr)
CEGE 8508 - Ecological Fluid Mechanics (4.0 cr)
CEGE 8511 - Mechanics of Sediment Transport (3.0 cr)
CEGE 8551 - Environmental Microbiology: Molecular Theory and Methods (3.0 cr)
CEGE 8561 - Analysis and Modeling of Aquatic Environments I (3.0 cr)
CEGE 8562 - Analysis and Modeling of Aquatic Environments II (3.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 31
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Robotics MS program provides a strong foundation in robotics by gathering in a single program the relevant knowledge, expertise, and educational assets such as robot modeling and control, perception using cameras and other sensors, and cognition to reason, plan, and make decisions.

Students who graduate from this regular 2-year masters program will learn the state-of-the-art methods for developing and using robots, be exposed to the cutting-edge technologies and theory forming the basis for the next generation of robots and their applications in areas such as agriculture, underwater exploration, autonomous driving, and manufacturing applications.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Applicants must have a bachelors degree from an accredited college or university in an engineering field, computer science, physics, or mathematics.

Other requirements to be completed before admission:
Programming experience including basic algorithms and data structures that are normally taught in beginning computer science courses as part of the undergraduate degree, or subsequent work experience is required.

Applicants without some of the background preparation can be admitted, but will be required to complete some of the relevant undergraduate courses in addition to the MS requirements.

The GRE is recommended but not required.

Special Application Requirements:
Applications are accepted on a rolling basis.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5
  - Reading Score: 6.5
  - Writing Score: 6.5
Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan A: Plan A requires 21 major credits, up to null credits outside the major, and 10 thesis credits. The final exam is oral.

Plan B: Plan B requires 31 major credits and up to null credits outside the major. The final exam is written and oral. A capstone project is required.

Capstone Project: The capstone project is completed in consultation with the faculty, or in collaboration with industry partners.

Plan C: Plan C requires 31 major credits and up to null credits outside the major. The final exam is no final exam. A capstone project is required.

Capstone Project: Plan C students must complete, in consultation with the advisor, one class project totaling 100 hours or two projects of 50 hours each.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

Courses must be taken on the A-F grade basis, unless only offered S/N.

Required courses (9 credits)

Cognition (3 credits)

Select 3 credits from the following in consultation with the advisor:

- CSCI 5511 - Artificial Intelligence I (3.0 cr)
- CSCI 5512 - Artificial Intelligence II (3.0 cr)
- CSCI 5521 - Machine Learning Fundamentals (3.0 cr)
- CSCI 5525 - Machine Learning: Analysis and Methods (3.0 cr)

Perception (3 credits)

Select 3 credits from the following in consultation with the advisor:

- CSCI 5561 - Computer Vision (3.0 cr)
- EE 5271 - Robot Vision (3.0 cr)
- EE 5561 - Image Processing and Applications: From linear filters to artificial intelligence (3.0 cr)

Robot Modeling and Control (3 credits)

Select 3 credits from the following in consultation with the advisor:

- AEM 5321 - Modern Feedback Control (3.0 cr)
- CSCI 5551 - Introduction to Intelligent Robotic Systems (3.0 cr)
- CSCI 5552 - Sensing and Estimation in Robotics (3.0 cr)
- EE 5231 - Linear Systems and Optimal Control (3.0 cr)
- ME 5286 - Robotics (4.0 cr)

Colloquium (1 credit)

Take the following:

- ROB 8970 - Robotics Colloquium (1.0 cr)

Electives (10-21 credits)

Plan A students select 10 to 11 credits, Plan B students select 14 to 18 credits, and Plan C students select 20 to 21 credits from the following in consultation with the advisor.

Up to 3 credits of ROB 5994 can be applied to degree requirements. Other courses may be selected with approval of the advisor and director of graduate studies.

- AEM 5321 - Modern Feedback Control (3.0 cr)
- AEM 5333 - Design-to-Flight: Small Uninhabited Aerial Vehicles (3.0 cr)
- AEM 5451 - Optimal Estimation (3.0 cr)
- AEM 8411 - Advanced Dynamics (3.0 cr)
- AEM 8421 - Robust Multivariable Control Design (3.0 cr)
- AEM 8423 - Convex Optimization Methods in Control (3.0 cr)
- BMEN 5151 - Introduction to BioMEMS and Medical Microdevices (2.0 cr)
- CSCI 5125 - Collaborative and Social Computing (3.0 cr)
- CSCI 5211 - Data Communications and Computer Networks (3.0 cr)
CSCI 5451 - Introduction to Parallel Computing: Architectures, Algorithms, and Programming (3.0 cr)
CSCI 5511 - Artificial Intelligence I (3.0 cr)
CSCI 5512 - Artificial Intelligence II (3.0 cr)
CSCI 5521 - Machine Learning Fundamentals (3.0 cr)
CSCI 5523 - Introduction to Data Mining (3.0 cr)
CSCI 5525 - Machine Learning: Analysis and Methods (3.0 cr)
CSCI 5541 - Natural Language Processing (3.0 cr)
CSCI 5551 - Introduction to Intelligent Robotic Systems (3.0 cr)
CSCI 5552 - Sensing and Estimation in Robotics (3.0 cr)
CSCI 5561 - Computer Vision (3.0 cr)
CSCI 5563 - Multiview 3D Geometry in Computer Vision (3.0 cr)
CSCI 5607 - Fundamentals of Computer Graphics I (3.0 cr)
CSCI 5609 - Visualization (3.0 cr)
CSCI 5619 - Virtual Reality and 3D Interaction (3.0 cr)
CSCI 8581 - Big Data in Astrophysics (4.0 cr)
DES 5185 - Human Factors in Design (3.0 cr)
DES 5901 - Principles of Wearable Technology (2.0 cr)
DES 5902 - Wearable Technology Laboratory Practicum (2.0 cr)
EE 5231 - Linear Systems and Optimal Control (3.0 cr)
EE 5235 - Robust Control System Design (3.0 cr)
EE 5239 - Introduction to Nonlinear Optimization (3.0 cr)
EE 5251 - Optimal Filtering and Estimation (3.0 cr)
EE 5271 - Robot Vision (3.0 cr)
EE 5373 - Data Modeling Using R (1.0 cr)
EE 5505 - Wireless Communication (3.0 cr)
EE 5531 - Probability and Stochastic Processes (3.0 cr)
EE 5542 - Adaptive Digital Signal Processing (3.0 cr)
EE 5561 - Image Processing and Applications: From linear filters to artificial intelligence (3.0 cr)
EE 5621 - Physical Optics (3.0 cr)
EE 5622 - Physical Optics Laboratory (1.0 cr)
EE 5624 - Optical Electronics (4.0 cr)
EE 5705 - Electric Drives in Sustainable Energy Systems (3.0 cr)
EE 5707 - Electric Drives in Sustainable Energy Systems Laboratory (1.0 cr)
EE 8215 - Nonlinear Systems (3.0 cr)
EE 8231 - Optimization Theory (3.0 cr)
EE 8581 - Detection and Estimation Theory (3.0 cr)
EE 8591 - Predictive Learning from Data (3.0 cr)
HUMF 5874 - Human Centered Design to Improve Complex Systems (4.0 cr)
IE 5561 - Analytics and Data-Driven Decision Making (4.0 cr)
ME 5241 - Computer-Aided Engineering (4.0 cr)
ME 5243 - Advanced Mechanism Design (4.0 cr)
ME 5248 - Vibration Engineering (4.0 cr)
ME 5286 - Robotics (4.0 cr)
ME 8281 - Advanced Control System Design-1 (3.0 cr)
ME 8283 - Design of Mechatronic Products (4.0 cr)
ME 8285 - Control Systems for Intelligent Vehicle Applications (3.0 cr)
ROB 5994 - Directed Research (1.0 - 3.0 cr)

Plan Options

Plan A (10 credits)
Take 10 thesis credits.
ROB 8777 - Thesis Credits Master's (1.0 - 18.0 cr)

-OR-

Plan B (3 to 6 credits)
Take at least 3 credits of the following in consultation with advisor:
ROB 8760 - Capstone Project (1.0 - 3.0 cr)
Twin Cities Campus
Robotics Minor
College of Science and Engineering - Adm
College of Science and Engineering

Email: mnri@umn.edu
Website: https://cse.umn.edu/mnri

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 9
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Robotics minor is designed to familiarize master's students with the areas relevant to robotics, such as robot modeling and control; perception using cameras and other sensors; and cognition to reason, plan, and make decisions. Students will learn state-of-the-art methods for developing and using robots, and be exposed to cutting edge technologies and theories forming the basis for the next generation of robots and their applications in areas such as agriculture, underwater exploration, autonomous driving, and manufacturing applications.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Robotics director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Courses offered on both the A-F and S/N grading basis must be taken A-F.

The minimum cumulative GPA for minor field coursework is 3.00.

Required courses (9 credits)
Cognition (3 credits)
Select 3 credits from the following in consultation with the Robotics director of graduate studies:
- CSCI 5511 - Artificial Intelligence I (3.0 cr)
- CSCI 5512 - Artificial Intelligence II (3.0 cr)
- CSCI 5521 - Machine Learning Fundamentals (3.0 cr)
- CSCI 5525 - Machine Learning: Analysis and Methods (3.0 cr)
Perception (3 credits)
Select 3 credits from the following in consultation with the Robotics director of graduate studies:
- CSCI 5561 - Computer Vision (3.0 cr)
- EE 5271 - Robot Vision (3.0 cr)
- EE 5561 - Image Processing and Applications: From linear filters to artificial intelligence (3.0 cr)
Robot Modeling and Control (3 credits)
Select 3 credits from the following in consultation with the Robotics director of graduate studies:

- AEM 5321 - Modern Feedback Control (3.0 cr)
- CSCI 5551 - Introduction to Intelligent Robotic Systems (3.0 cr)
- CSCI 5552 - Sensing and Estimation in Robotics (3.0 cr)
- EE 5231 - Linear Systems and Optimal Control (3.0 cr)
- ME 5286 - Robotics (4.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters
Twin Cities Campus
Security Technologies M.S.S.T.
Technological Leadership Institute
College of Science and Engineering

Link to a list of faculty for this program.

Contact Information:

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 32
- This program requires summer semesters for timely completion.
- Degree: Master of Science in Security Technologies

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Master of Science in Security Technologies (MSST) shapes tomorrow's analytical and risk management policy makers and innovators through a multi-disciplinary graduate program developed in response to growing demand in many levels of industry and government. During the 21-month program and through a multidisciplinary systems approach, the program synthesizes core learning in four areas: security methods and foundations; application expertise (including cyber, bio, food, infrastructure, global supply chains); systems science (interdependency among critical networks, components, human capital, organizational dimensions); and social and policy dimensions. Through elective courses, students can focus on security systems technologies or security risk. This program bridges disciplines to address local, regional, national, and global areas of need, seeding innovative capabilities while enabling interdisciplinary connections through direct links to industry, business, and government partners.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A bachelor's degree in a related field, e.g. in biological or physical sciences, engineering, computer science, mathematics, statistics, social sciences, or public policy, is preferred.

Special Application Requirements:
Admission is for fall term only.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5
- MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements

Plan B: Plan B requires 26 major credits and 6 credits outside the major. The final exam is written and oral. A capstone project is required.

Capstone Project: The Plan B project is an independent applied investigation, completed in consultation with the advisor, on a relevant issue in security technologies or homeland security.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

Courses offered on both the A-F and S/N grading basis must be taken A-F.

Core Courses (24 credits)

Take the following courses:

- MOT 8133 - Managerial Communication for Technological Leaders: Persuasive Writing and Speaking (2.0 cr)
- MOT 8214 - Technology Foresight and Forecasting (2.0 cr)
- MOT 8224 - Pivotal Technologies (1.0 cr)
- MOT 8501 - Leading Individual & Team Performance (1.5 cr)
- MOT 8502 - Innovation Leadership and Organizational Effectiveness (1.0 cr)
- ST 8109 - Cybersecurity Foundations - Technology, Risk & Communication (2.0 cr)
- ST 8111 - Methods, Theory, and Applications (2.5 cr)
- ST 8113 - Information and Cyber Security (2.0 cr)
- ST 8220 - Vulnerability, Risk and Threat Assessment and Management (2.5 cr)
- ST 8330 - Critical Infrastructure Protection (2.5 cr)
- ST 8331 - Dynamic Systems Modeling and Simulation Tools (2.0 cr)
- ST 8511 - Public Policy (1.0 cr)
- ST 8512 - Partnership in Conflict Management: Security/Privacy Law, Social Responsibility and Ethics (2.0 cr)

Electives (6 credits)

Select 6 credits from the following. Other courses may be applied to this requirement with advisor and director of graduate studies approval.

- CI 5301 - Foundations of Computer Applications for Business and Education (3.0 cr)
- CSCI 5221 - Foundations of Advanced Networking (3.0 cr)
- CSCI 5271 - Introduction to Computer Security (3.0 cr)
- CSCI 5471 - Modern Cryptography (3.0 cr)
- CSCI 8715 - Spatial Data Science Research (3.0 cr)
- ESPM 5604 - Environmental Management Systems and Strategy (3.0 cr)
- FNRM 5131 - Geographical Information Systems (GIS) for Natural Resources (4.0 cr)
- GEOG 5561 - Principles of Geographic Information Science (4.0 cr)
- GEOG 5563 - Advanced Geographic Information Science (3.0 cr)
- GEOG 5564 - Urban Geographic Information Science and Analysis (3.0 cr)
- GIS 5574 - Web GIS and Services (3.0 cr)
- GIS 5577 - Spatial Database Design and Administration (3.0 cr)
- HINF 5502 - Python Programming Essentials for the Health Sciences (1.0 cr)
- IDSC 6041 - Information Technology Management (2.0 cr)
- IDSC 6051 - Information Technologies and Solutions (2.0 cr)
- IDSC 6423 - Enterprise Systems (2.0 cr)
- IDSC 6444 - Business Analytics for Managers I (2.0 cr)
- IDSC 6481 - Managerial Decision Making (2.0 cr)
- IDSC 8003 - Accounting and Information Systems (4.0 cr)
- IFSL 7031 - Food Security, Safety, and Defense (2.0 cr)
- LAW 6022 - LL.M. Legal Writing and Legal Skills II (3.0 cr)
- LAW 6103 - Data Privacy Law (3.0 cr)
- LAW 6832 - Cybercrime and Cybersecurity (2.0 cr)
- MATH 5248 - Cryptology and Number Theory (4.0 cr)
- MATH 5251 - Error-Correcting Codes, Finite Fields, Algebraic Curves (4.0 cr)
- MBA 6111 - Leading Others (2.0 cr)
- MBA 6301 - Strategic Management (3.0 cr)
- MGMT 6004 - Negotiation Strategies (2.0 cr)
- MGMT 6034 - Strategic Leadership (2.0 cr)
- MGMT 6084 - Management of Teams (2.0 cr)
- MGMT 6402 - Integrative Leadership: Leading Across Sectors to Address Grand Challenges (3.0 cr)

The Security Technologies graduate program shapes tomorrow's analytical and risk management policy makers and innovators through a multi-disciplinary graduate program developed in response to growing demand in many levels of industry and government. The program synthesizes core learning in four areas: security methods and foundations; application expertise (including cyber, bio, food, infrastructure, global supply chains); systems science (interdependency among critical networks, components, human capital, organizational dimensions); and social and policy dimensions. This program bridges disciplines to address local, regional, national, and global areas of need, seeding innovative capabilities while enabling interdisciplinary connections through direct links to industry, business, and government partners.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Security Technologies director of graduate studies regarding feasibility and requirements.

Applicants must be interviewed for admission by the Security Technologies director of graduate studies or designate. An exception to the interview requirement may be waived, but only in rare circumstances.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Courses offered on both the A-F and S/N grading basis must be taken A-F, with a minimum grade of B- earned for each course.

The minimum cumulative GPA for the minor is 3.00.

Required Courses (9 to 12 credits)
Master's students select 9 credits, and doctoral students select 12 credits from the following in consultation with the Security Technologies director of graduate studies, to meet minimum credit requirements.

ST 8109 Cybersecurity Foundations - Technology, Risk & Communication (2.0 cr)
ST 8111 - Methods, Theory, and Applications (2.5 cr)
ST 8113 - Information and Cyber Security (2.0 cr)
ST 8200 - Special Topics in Security Technologies (0.5 cr)
ST 8220 - Vulnerability, Risk and Threat Assessment and Management (2.5 cr)
ST 8330 - Critical Infrastructure Protection (2.5 cr)
ST 8331 - Dynamic Systems Modeling and Simulation Tools (2.0 cr)
ST 8511 - Public Policy (1.0 cr)
ST 8512 - Partnership in Conflict Management: Security/Privacy Law, Social Responsibility and Ethics (2.0 cr)
ST 8661 - Securing Cyberspace (Fundamentals) (3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Twin Cities Campus
Software Engineering M.S.S.E.
Computer Science and Engineering
College of Science and Engineering

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Master of Science in Software Engineering (MSSE) program provides a thorough understanding of the fundamental issues related to software development and the software development process. The MSSE curriculum provides a solid grounding in theoretical methods, principles, and tools, and an examination of fundamental software development issues and processes. These concepts are explored using realistic and relevant case examples and projects to ensure that the theory works in practice. The MSSE program is an interdisciplinary program administered by the College of Science and Engineering's Department of Computer Science and Engineering.

The program is offered in a format designed for full-time working professionals. Students take courses one day per week (alternating Fridays and Saturdays) and move through the curriculum as a cohort, taking all classes together for four semesters.

Program Delivery
This program is available:
  • via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Prospective students should have an undergraduate degree in computer science or a closely related field.

Other requirements to be completed before admission:
Students with degrees in other fields may be considered for admission based on relevant work experience.

Prospective applicants should have a minimum of one year of professional experience working in the software industry.

Because the MSSE program is designed for full-time working professionals, international applicants typically hold an H-1B visa.

Special Application Requirements:
Admission is for fall semester only. The early application deadline is February 28. The final deadline is June 30.

International applicants must submit score(s) from one of the following tests:
  • TOEFL
    - Internet Based - Total Score: 79
    - Internet Based - Writing Score: 21
    - Internet Based - Reading Score: 19
  • IELTS
    - Total Score: 6.5
  • MELAB
    - Final score: 80

Program Requirements

Plan C: Plan C requires 30 major credits and up to null credits outside the major. There is no final exam.

This program may not be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

Courses must be taken on the A-F grade basis, unless only offered S/N, with a minimum grade of C earned for each course.

Semester 1 (7 credits)
Take the following courses:
- SENG 5707 - The Principles of Database Systems (3.0 cr)
- SENG 5801 - Software Engineering I: Overview, Requirements, and Modeling (3.0 cr)
- SENG 5899 - Software Engineering Seminar (1.0 cr)

Semester 2 (8 credits)
Take the following courses:
- SENG 5802 - Software Engineering II: Software Design (3.0 cr)
- SENG 5811 - Software Testing and Verification (3.0 cr)
- SENG 5852 - Quality Assurance and Process Improvement (2.0 cr)

Semester 3 (7 credits)
Take the following courses:
- SENG 5851 - Software Project Management (3.0 cr)
- SENG 5861 - Introduction to Software Architecture (3.0 cr)
- SENG 5899 - Software Engineering Seminar (1.0 cr)

Semester 4 (8 credits)

Required Course (2 credits)
Take the following course:
- SENG 5115 - Graphical User Interface Design, Evaluation, and Implementation (2.0 cr)

Electives (6 credits)
Select 6 credits from the following, in consultation with the advisor, to complete the 30-credit minimum:
- SENG 5130 - Introduction to Internet of Things: Systems-Level Design and Experimentation (3.0 cr)
- SENG 5133 - Cloud Computing - Leading Technical Change (3.0 cr)
- SENG 5199 - Topics in Software Engineering (2.0 - 3.0 cr)
- SENG 5271 - Cybersecurity (3.0 cr)
- SENG 5511 - Artificial Intelligence (2.0 - 3.0 cr)
- SENG 5708 - Data Analytics (2.0 - 3.0 cr)
- SENG 5709 - Big Data Engineering and Analytics (3.0 cr)
- SENG 5831 - Software Development for Real-Time Systems (2.0 - 3.0 cr)
- SENG 5841 - Model-based Development (3.0 cr)
- SENG 8891 - Independent Project (2.0 - 6.0 cr)

- Program Type: Post-baccalaureate credit certificate/licensure/endorsement
- Requirements for this program are current for Fall 2022
- Length of program in credits: 16
- This program does not require summer semesters for timely completion.
- Degree: Stream Rest. Science & Engineering PBacc Cert

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Stream Restoration Science and Engineering post-baccalaureate certificate is a three-semester program producing graduates who understand how to blend engineering, physical, biological, and social sciences in prioritizing, designing, implementing, and evaluating stream restoration projects.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A bachelor's degree in a field related to ecology, civil engineering, or environmental and earth sciences from an accredited US institution or its foreign equivalent.

Other requirements to be completed before admission:
In addition to the University's online application form, students must submit a program application and one letter of reference.

Applications are accepted throughout the year, although it is preferable to start the program in fall semester.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5
  - Reading Score: 6.5
  - Writing Score: 6.5

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.
Courses offered on both the A-F and S/N grade basis must be taken A-F.

The minimum cumulative GPA for coursework is 3.00.

**Foundation Course (3 credits)**
Select 1 of the following courses in consultation with the advisor.

- CEGE 8601 - Introduction to Stream Restoration (3.0 cr)
- or EEB 8601 - Introduction to Stream Restoration (3.0 cr)
- or ESCI 8601 - Introduction to Stream Restoration (3.0 cr)

**Elective Coursework (11 credits)**
Select electives from the following in consultation with the advisor. Other courses may be selected with advisor and director of graduate studies approval.

- BBE 5513 - Watershed Engineering (3.0 cr)
- BBE 8513 - Hydrologic Modeling of Small Watersheds (3.0 cr)
- CEGE 4501 - Hydrologic Design (4.0 cr)
- CEGE 4511 - Hydraulic Structures (3.0 cr)
- CEGE 4512 - Open Channel Hydraulics (4.0 cr)
- CEGE 4563 - Pollutant Fate and Transport: Processes and Modeling (3.0 cr)
- CEGE 5512 - Stochastic Ecohydrology (3.0 cr)
- CEGE 5515 -Remote Sensing of Environment and Water Resources (3.0 cr)
- CEGE 5541 - Environmental Water Chemistry (3.0 cr)
- CEGE 8508 - Ecological Fluid Mechanics (4.0 cr)
- CEGE 8511 - Mechanics of Sediment Transport (3.0 cr)
- CEGE 8541 - Aquatic Chemistry (3.0 cr)
- EEB 5601 - Limnology (3.0 cr)
- ESCI 4701 - Geomorphology (4.0 cr)
- ESCI 4702 - General Hydrogeology (4.0 cr)
- ESPM 4295W - GIS in Environmental Science and Management [WI] (4.0 cr)
- ESPM 5061 - Water Quality and Natural Resources (3.0 cr)
- ESPM 5111 - Hydrology and Water Quality Field Methods (3.0 cr)
- ESPM 5202 - Environmental Conflict Management, Leadership, and Planning (3.0 cr)
- FNRM 5114 - Hydrology and Watershed Management (3.0 cr)
- FNRM 5153 - Forest Hydrology & Watershed Biogeochemistry (3.0 cr)
- FW 8459 - Stream and River Ecology (3.0 cr)
- FW 8465 - Fish Habitats and Restoration (3.0 cr)
- HORT 5071 - Ecological Restoration (4.0 cr)
- WRS 5101 - Water Policy (3.0 cr)

**Capstone Course (2 credits)**
Select 1 of the following courses in consultation with the advisor.

- CEGE 8602 - Stream Restoration Practice (2.0 cr)
- or EEB 8602 - Stream Restoration Practice (2.0 cr)
- or ESCI 8602 - Stream Restoration Practice (2.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30
- This program requires summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The mission of the Comparative and Molecular Biosciences (CMB) program is to train outstanding scientists in the basic mechanisms of animal and human health and disease. The CMB program embraces a One Health approach and investigates a wide range of species, including humans, laboratory animals, companion animals, and livestock species.

The CMB program is transdisciplinary, bringing together basic, applied, and clinical scientists from a number of departments to provide students with individualized, cutting-edge biomedical research training. Areas of emphasis include genetic and infectious diseases, and comparative aspects of biology and pathology across animal species and humans. Students receive scientific training that prepares them for careers as independent investigators and educators in academia, industry, and government.

The purpose of the master's degree is to provide technical training and scientific competence in the basic mechanisms of animal and human health and disease.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.25.

A bachelor's degree in a biological or basic science is required. Previous laboratory experience is strongly preferred.

Other requirements to be completed before admission:
Applicants must submit a C.V. or résumé; three letters of recommendation from persons familiar with their scholarship and research potential; and a statement of any research experience, as well as career interests, goals, and objectives.

Special Application Requirements:
Submission of all application materials by December 1 is required to ensure consideration for fall semester admission.

Applicants must submit their test score(s) from the following:
- GRE

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Paper Based - Total Score: 550
- IELTS
  - Total Score: 6.5
  - Reading Score: 6.5

The University of Minnesota is an equal opportunity educator and employer.
Information current as of November 07, 2022
The preferred English language test is the Test of English as Foreign Language (TOEFL).

Key to test abbreviations: (GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

**Plan A:** Plan A requires 20 major credits, 0 credits outside the major, and 10 thesis credits. The final exam is written and oral.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

**CMB Program Courses (11 credits)**

*Take the following courses. CMB 8550 must be taken twice for a total of 2 credits.*

- CMB 8134 - Ethical Conduct of Animal Research (3.0 cr)
- CMB 8202 - Mechanisms of Animal Health and Disease II (3.0 cr)
- CMB 8303 - Comparative Models of Disease (2.0 cr)
- CMB 8550 - Comparative and Molecular Biosciences Seminar (1.0 cr)
- CMB 8560 - Research and Literature Reports (1.0 cr)

**Statistics (3 to 4 credits)**

Select one of the following courses in consultation with an adviser.

- CMB 5200 - Statistical Genetics and Genomics (4.0 cr)
- or CMB 5915 - Essential Statistics for Life Sciences (3.0 cr)
- or CMB 8910 - Statistical Principles of Research Design (3.0 cr)
- or PUBH 6450 - Biostatistics I (4.0 cr)
- or PUBH 6451 - Biostatistics II (4.0 cr)
- or STAT 5021 - Statistical Analysis (4.0 cr)
- or STAT 5302 - Applied Regression Analysis (4.0 cr)
- or STAT 5303 - Designing Experiments (4.0 cr)
- or STAT 5421 - Analysis of Categorical Data (3.0 cr)

**Additional coursework (5 to 6 credits)**

Select coursework, in consultation with the advisor, to complete the 20 course credits required. Other courses may be selected with advisor approval.

- MICA 8002 - Structure, Function, and Genetics of Bacteria and Viruses (4.0 cr)
- or MICA 8003 - Immunity and Immunopathology (4.0 cr)
- or MICA 8004 - Cellular and Cancer Biology (4.0 cr)
- or MICA 8009 - Biochemical Aspects of Normal and Abnormal Cell Growth and Cell Death (2.0 cr)
- or MICA 8010 - Microbial Pathogenesis (3.0 cr)
- or BIOC 5361 - Microbial Genomics and Bioinformatics (3.0 cr)
- or BIOC 6021 - Biochemistry (3.0 cr)
- or BIOC 8002 - Molecular Biology and Regulation of Biological Processes (3.0 cr)
- or BIOC 8216 - Signal Transduction and Gene Expression (3.0 cr)
- or GCD 5036 - Molecular Cell Biology (3.0 cr)
- or GCD 8008 - Mammalian Gene Transfer and Genome Engineering (2.0 cr)
- or GCD 8073 - Genetics & Genomics in Human Health (2.0 cr)
- or GCD 8131 - Advanced Molecular Genetics and Genomics (3.0 cr)
- or GCD 8151 - Cellular Biochemistry and Cell Biology (2.0 - 4.0 cr)
- or GCD 8161 - Advanced Cell Biology and Development (2.0 cr)
- or CMB 5200 - Statistical Genetics and Genomics (4.0 cr)
- or CMB 5340 - Structural Biology in Biomedical Research (2.0 cr)
- or CMB 5571 - Pathogenomics and Molecular Epidemiology - Learning to Fly (3.0 cr)
- or CMB 5594 - Directed Research in Comparative and Molecular Biosciences (1.0 - 4.0 cr)
- or CMB 5910 - Grantwriting: What Makes a Winning Proposal? (2.0 cr)
- or CMB 8208 - Neuropsychopharmacology (3.0 cr)
or CMB 8344 - Mechanisms of Hormone Action (2.0 cr)
or CMB 8361 - Neuro-Immune Interactions (3.0 cr)
or CMB 8371 - Mucosal Immunobiology (3.0 cr)
or CMB 8481 - Advanced Neuropharmaceutics (4.0 cr)
or CMB 8571 - Pathogenomics and Molecular Epidemiology - Learning to Fly (3.0 cr)

Thesis credits
Take 10 master's thesis credits.

Program Requirements
24 credits are required in the major.
0 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

The PhD requires a minimum of 24 course credits and 24 thesis credits. The 24 course credits include 15 credits of CMB program courses. A statistics course is required. A minimum of 6 additional course credits from the biological sciences are also required. In addition, all students are required to complete a teaching experience.

CMB program courses
A minimum of 15 course credits are required. CMB 8100 must be taken twice and CMB 8550 must be taken twice.
CMB 5910 - Grantwriting: What Makes a Winning Proposal? (2.0 cr)
CMB 8100 - Research Rotation in Comparative and Molecular Biosciences (1.0 cr)
CMB 8134 - Ethical Conduct of Animal Research (3.0 cr)
CMB 8202 - Mechanisms of Animal Health and Disease II (3.0 cr)
CMB 8303 - Comparative Models of Disease (2.0 cr)
CMB 8550 - Comparative and Molecular Biosciences Seminar (1.0 cr)
CMB 8560 - Research and Literature Reports (1.0 cr)

Statistics
One of the following statistics courses is required.
CMB 5200 - Statistical Genetics and Genomics (4.0 cr)
or CMB 5915 - Essential Statistics for Life Sciences (3.0 cr)
or CMB 8910 - Statistical Principles of Research Design (3.0 cr)
or PUBH 6450 - Biostatistics I (4.0 cr)
or PUBH 6451 - Biostatistics II (4.0 cr)
or STAT 5021 - Statistical Analysis (4.0 cr)
or STAT 5302 - Applied Regression Analysis (4.0 cr)
or STAT 5303 - Designing Experiments (4.0 cr)
or STAT 5421 - Analysis of Categorical Data (3.0 cr)

Additional courses
A minimum of 6 course credits are required, selected from the following list or in consultation with the advisor. Students may take GRAD 8101 OR GRAD 8200 but not both, and these cannot be applied toward the degree requirements.
BIOC 5361 - Microbial Genomics and Bioinformatics (3.0 cr)
or BIOC 6021 - Biochemistry (3.0 cr)
or BIOC 8002 - Molecular Biology and Regulation of Biological Processes (3.0 cr)
or BIOC 8216 - Signal Transduction and Gene Expression (3.0 cr)
or CMB 5200 - Statistical Genetics and Genomics (4.0 cr)
or CMB 5340 - Structural Biology in Biomedical Research (2.0 cr)
or CMB 5571 - Pathogenomics and Molecular Epidemiology - Learning to Fly (3.0 cr)
or CMB 8208 - Neuropsychopharmacology (3.0 cr)
or CMB 8344 - Mechanisms of Hormone Action (2.0 cr)
or CMB 8361 - Neuro-Immune Interactions (3.0 cr)
or CMB 8371 - Mucosal Immunobiology (3.0 cr)
or CMB 8894 - Research in Comparative Biomedical Sciences (1.0 - 6.0 cr)
or CMB 8481 - Advanced Neuropharmaceutics (4.0 cr)
or CMB 8571 - Pathogenomics and Molecular Epidemiology - Learning to Fly (3.0 cr)
or GCD 5036 - Molecular Cell Biology (3.0 cr)
or GCD 8008 - Mammalian Gene Transfer and Genome Engineering (2.0 cr)
or GCD 8073 - Genetics & Genomics in Human Health (2.0 cr)
or GCD 8131 - Advanced Molecular Genetics and Genomics (3.0 cr)
or GCD 8151 - Cellular Biochemistry and Cell Biology (2.0 - 4.0 cr)
or GCD 8161 - Advanced Cell Biology and Development (2.0 cr)
or GRAD 8101 - Teaching in Higher Education (3.0 cr)
or GRAD 8200 - Teaching and Learning Topics in Higher Education (1.0 cr)
or MICA 8002 - Structure, Function, and Genetics of Bacteria and Viruses (4.0 cr)
or MICA 8003 - Immunity and Immunopathology (4.0 cr)
or MICA 8004 - Cellular and Cancer Biology (4.0 cr)
or MICA 8009 - Biochemical Aspects of Normal and Abnormal Cell Growth and Cell Death (2.0 cr)
or MICA 8010 - Microbial Pathogenesis (3.0 cr)

**Thesis Credits**
Take at least 24 doctoral thesis credits

**CMB 8888** - Thesis Credit: Doctoral (1.0 - 24.0 cr)

• Program Type: Post-baccalaureate credit certificate/licensure/endorsement
• Requirements for this program are current for Fall 2022
• Length of program in credits: 12
• This program requires summer semesters for timely completion.
• Degree: Poultry Health Postbaccalaureate Certificate

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Poultry Health post-baccalaureate certificate is a 12-credit, 12-month online program designed for early- to mid-career professionals interested in advanced understanding of poultry health and disease. The certificate focuses on basic understanding of the avian host as it relates to poultry production systems, the technologies and tools to assess health, and diagnosing and addressing disease at the gross and molecular levels. The enhanced knowledge and hands-on experience with applied and/or molecular tools will position graduates to deal with commonly encountered and investigated issues that arise in poultry production and allied industries. In addition to the online curriculum, elective experiential credits are offered by the Mid-Central Research and Outreach Center in Willmar, MN.

Program Delivery

This program is available:
• primarily online (at least 80% of the instruction for the program is online with short, intensive periods of face-to-face coursework)

Prerequisites for Admission

The preferred undergraduate GPA for admittance to the program is 3.00.

Special Application Requirements:

International students who want to attend this program on a student visa should contact the University's International Student and Scholar Services (ISSS) office at https://isss.umn.edu/.

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 79
• IELTS
  - Total Score: 6.5
  - Reading Score: 6.5
  - Writing Score: 6.5
• MELAB
  - Final score: 80

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

Required Courses (9 credits)

Take the following courses:

POUL 5101 - Living in a microbial world and raising animals: the poultry perspective (3.0 cr)
PoUL 5102 - How safe is your chicken? Food safety from a poultry perspective (3.0 cr)
POUL 5103 - Poultry biosecurity: framework for healthy production (3.0 cr)

Electives (3 credits)

Select 3 credits from the following, in consultation with the advisor, to complete the 12-credit minimum:

POUL 5001 - Avian Anatomy and Physiology (1.0 cr)
POUL 5002 - Poultry Nutrition (1.0 cr)
POUL 5003 - Poultry Diseases (1.0 cr)
POUL 5013 - Animal Welfare (1.0 cr)
POUL 5015 - Broiler/Layer/Turkey Rotation (1.0 cr)
POUL 5016 - Capstone in Molecular Technologies (1.0 cr)

Program Requirements

Plan A: Plan A requires 20 major credits, up to null credits outside the major, and 10 thesis credits. The final exam is written and oral.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

Required Courses (9 credits)
Take the following courses. VMED 8550 must be taken twice for a total of 2 credits.

VMED 5190 - Effective Science Communication (2.0 cr)
VMED 5910 - Grant Writing: What Makes a Winning Proposal? (2.0 cr)
VMED 8134 - Ethical Conduct of Animal Research (3.0 cr)
VMED 8550 - Veterinary Medicine Seminar (1.0 cr)

Statistics
Select at least 3 credits from the following in consultation with the advisor. Two statistics are recommended, but not required.
VMED 5915 - Essential Statistics for Life Sciences (3.0 cr)
VMED 8910 - Statistical Principles of Research Design (3.0 cr)
PUBH 6414 - Biostatistical Literacy (3.0 cr)
PUBH 6450 - Biostatistics I (4.0 cr)
PUBH 6451 - Biostatistics II (4.0 cr)
STAT 5021 - Statistical Analysis (4.0 cr)
STAT 5302 - Applied Regression Analysis (4.0 cr)
STAT 5303 - Designing Experiments (4.0 cr)
STAT 5421 - Analysis of Categorical Data (3.0 cr)

8xxx-level Coursework
Select at least 1 course from the following in consultation with the advisor. CMB 8202 is recommended.
BIOC 8002 - Molecular Biology and Regulation of Biological Processes (3.0 cr)
BIOC 8216 - Signal Transduction and Gene Expression (3.0 cr)
GCD 8008 - Mammalian Gene Transfer and Genome Engineering (2.0 cr)
GCD 8073 - Genetics & Genomics in Human Health (2.0 cr)
GCD 8131 - Advanced Molecular Genetics and Genomics (3.0 cr)
GCD 8151 - Cellular Biochemistry and Cell Biology (2.0 - 4.0 cr)
GCD 8161 - Advanced Cell Biology and Development (2.0 cr)
CMB 8202 - Mechanisms of Animal Health and Disease II (3.0 cr)
CMB 8303 - Comparative Models of Disease (2.0 cr)
CMB 8344 - Mechanisms of Hormone Action (2.0 cr)
CMB 8571 - Pathogenomics and Molecular Epidemiology - Learning to Fly (3.0 cr)
VMED 8192 - Dairy Health Management: Critical Thinking (1.0 cr)
VMED 8394 - Research in Veterinary Medicine (1.0 - 3.0 cr)
VMED 8492 - Seminar: Infectious Diseases and Swine Medicine (1.0 cr)
VMED 8592 - Infectious Disease Journals: Critical Thinking (1.0 cr)

Additional Biological Sciences Coursework
Select at least 7 credits from the following in consultation with the advisor:
VPM 4131 - Immunology (3.0 cr)
VMED 5165 - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
VMED 5180 - Ecology of Infectious Disease (3.0 cr)
VMED 5181 - Spatial Analysis in Infectious Disease Epidemiology (3.0 cr)
VMED 5182 - Molecular biology for the Public Health Professional (2.0 cr)
VMED 5190 - Effective Science Communication (2.0 cr)
VMED 5442 - Quantitative Methods for Population Health (3.0 cr)
VMED 5594 - Research in Veterinary Medicine (1.0 - 4.0 cr)
VMED 5910 - Grant Writing: What Makes a Winning Proposal? (2.0 cr)
VMED 5920 - Food Defense: Prepare, Respond, Recover (3.0 cr)
VMED 5921 - Protecting your Lunch: Food Defense Awareness (1.0 cr)
CMB 5200 - Statistical Genetics and Genomics (4.0 cr)
CMB 5340 - Structural Biology in Biomedical Research (2.0 cr)
CMB 5571 - Pathogenomics and Molecular Epidemiology - Learning to Fly (3.0 cr)
PUBH 6341 - Epidemiologic Methods I (3.0 cr)
PUBH 6342 - Epidemiologic Methods II (3.0 cr)
PUBH 6343 - Epidemiologic Methods III (4.0 cr)
PUBH 6350 - Epidemiologic Methods III: Lab (1.0 cr)
PUBH 6385 - Epidemiology and Control of Infectious Diseases (2.0 cr)
BIOC 8002 - Molecular Biology and Regulation of Biological Processes (3.0 cr)
BIOC 8216 - Signal Transduction and Gene Expression (3.0 cr)
GCD 8008 - Mammalian Gene Transfer and Genome Engineering (2.0 cr)
GCD 8073 - Genetics & Genomics in Human Health (2.0 cr)
GCD 8131 - Advanced Molecular Genetics and Genomics (3.0 cr)
GCD 8151 - Cellular Biochemistry and Cell Biology (2.0 - 4.0 cr)
GCD 8161 - Advanced Cell Biology and Development (2.0 cr)
CMB 8202 - Mechanisms of Animal Health and Disease II (3.0 cr)
CMB 8303 - Comparative Models of Disease (2.0 cr)
CMB 8344 - Mechanisms of Hormone Action (2.0 cr)
CMB 8571 - Pathogenomics and Molecular Epidemiology - Learning to Fly (3.0 cr)
VMED 8192 - Dairy Health Management: Critical Thinking (1.0 cr)
VMED 8394 - Research in Veterinary Medicine (1.0 - 3.0 cr)
VMED 8492 - Seminar: Infectious Diseases and Swine Medicine (1.0 cr)
VMED 8592 - Infectious Disease Journals: Critical Thinking (1.0 cr)
VMED 5440 - Using Risk Analysis Tools: Estimating Food Safety Risks on the Farm to Table Continuum (2.0 cr)

Thesis Credits
Take 10 master's thesis credits.
CMB 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 48
- This program requires summer semesters for timely completion.
- NO
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the [General Information](#) section of the catalog website for requirements that apply to all major fields.

The veterinary medicine graduate program focuses on the scientific study of the mechanisms of transmission and progression of diseases of importance to companion animals, livestock, and humans with applications to diagnosis, prevention, and treatment. Includes training in infectious and noninfectious disease, epidemiology, environmental biology, ethology, anatomical, clinical and molecular pathobiology.

**Accreditation**

This program is accredited by NA

**Program Delivery**

This program is available:
- via classroom (the majority of instruction is face-to-face)

**Prerequisites for Admission**

The preferred undergraduate GPA for admittance to the program is 3.25.

DVM or equivalent; students with a BA or BS in biological sciences may be considered. Previous laboratory experience is strongly preferred.

Other requirements to be completed before admission:

Applicants must submit a CV or resume; three letters of recommendation from persons familiar with their scholarship and research potential; and a statement of any research experience, as well as career interests, goals, and objectives.

**Special Application Requirements:**

Submission of all application materials by December 1 is required to ensure consideration for fellowships and research assistantships awarded for the next academic year.

Applicants must submit their test score(s) from the following:
- GRE

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Paper Based - Total Score: 550
- IELTS
  - Total Score: 6.5
  - Reading Score: 6.5
  - Writing Score: 6.5

Information current as of November 07, 2022
• MELAB
  - Final score: 80

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
24 credits are required in the major.
0 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

VMED Program Courses
Take the following courses for 9 credits. VMED 8550 must be taken twice.
VMED 5190 - Effective Science Communication (2.0 cr)
VMED 5910 - Grant Writing: What Makes a Winning Proposal? (2.0 cr)
VMED 8134 - Ethical Conduct of Animal Research (3.0 cr)
VMED 8550 - Veterinary Medicine Seminar (1.0 cr)

Statistics Requirement
Take at least one statistics course, in consultation with the advisor. Two statistics courses are preferred.
VMED 5915 - Essential Statistics for Life Sciences (3.0 cr)
VMED 8910 - Statistical Principles of Research Design (3.0 cr)
PUBH 6414 - Biostatistical Literacy (3.0 cr)
PUBH 6450 - Biostatistics I (4.0 cr)
PUBH 6451 - Biostatistics II (4.0 cr)
STAT 5302 - Applied Regression Analysis (4.0 cr)
STAT 5303 - Designing Experiments (4.0 cr)
STAT 5421 - Analysis of Categorical Data (3.0 cr)

Additional Graduate-Level Coursework Requirement
Take at least three graduate-level biological sciences (totaling at least seven credits) courses from the following list, or select others, in consultation with the advisor.

These courses cannot be seminars or journal clubs; prefer each course to be 8000-level and at least two credits.

5000-level courses must be PAC-approved. CMB 8202 is recommended.
BIOC 8002 - Molecular Biology and Regulation of Biological Processes (3.0 cr)
BIOC 8216 - Signal Transduction and Gene Expression (3.0 cr)
GCD 8008 - Mammalian Gene Transfer and Genome Engineering (2.0 cr)
GCD 8073 - Genetics & Genomics in Human Health (2.0 cr)
GCD 8131 - Advanced Molecular Genetics and Genomics (3.0 cr)
GCD 8151 - Cellular Biochemistry and Cell Biology (2.0 - 4.0 cr)
GCD 8161 - Advanced Cell Biology and Development (2.0 cr)
CMB 8100 - Research Rotation in Comparative and Molecular Biosciences (1.0 cr)
CMB 8202 - Mechanisms of Animal Health and Disease II (3.0 cr)
CMB 8303 - Comparative Models of Disease (2.0 cr)
CMB 8344 - Mechanisms of Hormone Action (2.0 cr)
CMB 8571 - Pathogenomics and Molecular Epidemiology - Learning to Fly (3.0 cr)
VMED 8192 - Dairy Health Management: Critical Thinking (1.0 cr)

Additional Coursework
Take additional courses from the following list, or select others in consultation with the advisor, to complete the minimum course credit requirement.
VPM 4131 - Immunology (3.0 cr)
VMED 5165 - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
VMED 5180 - Ecology of Infectious Disease (3.0 cr)
VMED 5181 - Spatial Analysis in Infectious Disease Epidemiology (3.0 cr)
VMED 5182 - Molecular biology for the Public Health Professional (2.0 cr)
VMED 5190 - Effective Science Communication (2.0 cr)
VMED 5442 - Quantitative Methods for Population Health (3.0 cr)
VMED 5594 - Research in Veterinary Medicine (1.0 - 4.0 cr)
VMED 5596 - Swine Diseases and Diagnostics (2.0 - 3.0 cr)
VMED 5910 - Grant Writing: What Makes a Winning Proposal? (2.0 cr)
VMED 5921 - Protecting your Lunch: Food Defense Awareness (1.0 cr)
CMB 5200 - Statistical Genetics and Genomics (4.0 cr)
CMB 5340 - Structural Biology in Biomedical Research (2.0 cr)
CMB 5571 - Pathogenomics and Molecular Epidemiology - Learning to Fly (3.0 cr)
PUBH 6341 - Epidemiologic Methods I (3.0 cr)
PUBH 6342 - Epidemiologic Methods II (3.0 cr)
PUBH 6343 - Epidemiologic Methods III (4.0 cr)
PUBH 6350 - Epidemiologic Methods III: Lab (1.0 cr)
PUBH 6385 - Epidemiology and Control of Infectious Diseases (2.0 cr)

Thesis Credits
Take 24 doctoral thesis credits.
VMED 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)

Contact Information:
Master Programs in Accounting, 3-110 Carlson School of Management, 321 19th Avenue S, Minneapolis, MN 55455 (612-624-7511; fax: 612-626-7795)
Email: macct@umn.edu
Website: http://www.carlsonschool.umn.edu/degrees/master-accountancy

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30 to 44
- This program does not require summer semesters for timely completion.
- Degree: Master of Accountancy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Master of Accountancy (MAcc) program enables all students to understand technical accounting problems from an analytical approach, enhancing their critical thinking and management skills with graduate-level courses in accounting, data analytics, finance, taxation, information systems, management, and supply chain and operations. In addition, it provides non-accounting majors the opportunity to take the accounting courses required to sit for the CPA examination.

The MAcc program offers two tracks, a 30-credit track for students with a degree in accounting or finance. The 44-credit track is for students with a bachelor's degree in an academic discipline other than accounting or finance. The additional required core courses include the necessary accounting courses needed to sit for the CPA exam.

The curriculum has been designed and developed by Carlson School of Management faculty with extensive input and ongoing consultation with executives from the professional community. This ensures relevant, practical, and challenging courses that enhance the students' professional development. The program offers students the opportunity to delve more deeply into challenging financial reporting issues faced by organizations. Students develop complex computational analysis skills and analytical processes to better understand modern financial reporting issues.

The 30-credit track can be completed in one year if going full-time. The 44-credit track can be completed in 1.5 years if going full-time. Students may also choose to go part-time. Many of the courses are offered in the evenings (Monday-Thursday, 5:45  9:05 p.m.) or online.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Other requirements to be completed before admission:
All applicants must have a bachelor's degree from an accredited college or university and a cumulative undergraduate grade point average of 3.0 (on a 4.0 scale) or higher.

Applicants with a bachelor's degree in accounting (or equivalent coursework) or finance are generally eligible for the 30-credit MAcc track.

Students who have a bachelor's degree in an academic discipline other than accounting or finance are eligible to apply for the MAcc program and take the 44-credit track. The following courses (or equivalents) are prerequisites to the MAcc courses: ACCT 2051 Financial Accounting, ACCT 3001 Management Accounting, ACCT 5101 Intermediate Accounting I, FINA 3001 Finance Fundamentals (or be required to take MBA 6231 Financial Management in the MAcc program). If necessary, some of the prerequisite courses can be taken after being admitted to the MAcc program but credits would not apply to the 44-credit requirement. Coursework will be evaluated after applying.

Special Application Requirements:
Summer/Fall application deadline: February 1 priority, followed by rolling admission until program is full.
Spring application deadline: October 1 priority, followed by rolling admission until program is full.

Applicants must submit all application materials through the University's online application system. Application materials include:

- Personal Statement and Diversity statement
- Unofficial Transcripts
- Three letters of recommendation from persons qualified to evaluate most recent work and potential for graduate study
- International students and domestic applicants whose first language is not English must provide proof of English language proficiency by submitting results from one of the following English language tests: TOEFL, IELTS. TOEFL scores must be received directly from TOEFL. IELTS scores must be received directly from the testing center.

For additional application details, review the M.Acc. admissions webpages.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

**Plan C:** Plan C requires 30 to 44 major credits and up to null credits outside the major. There is no final exam.

This program may not be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.8 is required for students to remain in good standing.

Students in the 30-credit MAcc track are required to have completed the following courses (or equivalent courses) in their undergraduate program or complete them in their MAcc program. If required to take any of these courses in the MAcc program, the number of elective credits is reduced by that number of credits.

- ACCT 5102 Intermediate Accounting II, 4 cr
- ACCT 5125W Auditing, 4 cr
- ACCT 5135 Fundamentals of Federal Income Tax, 4 cr
- ACCT 5201 Intermediate Management Accounting, 2 cr

**Required Courses (14 Credits)**

All MAcc students must complete the following courses for 14 credits. If 5000 level course was taken in undergraduate program, replace with elective course.

- ACCT 5161 - Financial Statement Analysis (2.0 cr)
- ACCT 5181 - Consolidations and Advanced Reporting (2.0 cr)
- ACCT 5236 - Introduction to Taxation of Business (2.0 cr)
- ACCT 6601 - Internal Control (2.0 cr)
- ACCT 6602 - Securities and Exchange Commission (SEC) and Standard Setting (2.0 cr)
- ACCT 6606 - Financial Data Analytics (2.0 cr)
- IDSC 6003 - Accounting and Information Systems (2.0 cr)

**Additional Courses Required for the 44-Credit Track (17 Credits)**

Students pursuing the 44-credit track must also complete the following courses for 17 credits:

- ACCT 5102 - Intermediate Accounting II (4.0 cr)
- ACCT 5125W - Auditing Principles and Procedures [WI] (4.0 cr)
- ACCT 5135 - Fundamentals of Federal Income Tax (4.0 cr)
- ACCT 5201 - Intermediate Management Accounting (2.0 cr)
- MBA 6231 - Financial Management (3.0 cr)

**Elective Courses (16 credits)**

MAcc students must complete at least 13 - 16 elective credits to reach their total credits required (30 or 44), selected in consultation with the advisor, from the following list. In some cases, graduate-level courses from outside this list may be taken with prior approval from the MAcc Director.

- ACCT 5126 - Internal Auditing (2.0 cr)
- ACCT 5311 - International Accounting (2.0 cr)
- ACCT 5320 - Financial Reporting Data Analytics (2.0 cr)
- ACCT 6603 - Advanced Auditing (2.0 cr)
- BLAW 6158 - The study of laws affecting private business and publicly-traded companies (2.0 cr)
- FINA 6111 - Financing over a Firm's Lifecycle (1.0 cr)

Master of Applied Business Analytics Program
Carlson School of Management
University of Minnesota
321 19th Ave S, Room 1-110
Minneapolis, MN 55455

Phone: 612-625-5555
Email: maba@umn.edu
Website: https://carlsonschool.umn.edu/degrees/master-applied-business-analytics

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 32
- This program does not require summer semesters for timely completion.
- Degree: Master of Applied Business Analytics

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Applied Business Analytics program provides a strong foundation in business analytics by combining technical know-how that includes machine learning, artificial intelligence, applied statistics, optimization, econometrics, experimentation, data visualization, data engineering and big data with an understanding on how they may be applied in domains such as marketing, consumer behavior, operations, financial and risk management, information management, and strategic management in both public and private sectors. Students who graduate from this part-time, two-year, 32-credit program will have the substantial quantitative capabilities and technical expertise to create business and social value by extracting useful insights from data and providing data-driven solutions to business problems for a variety of career settings. HyFlex course delivery provides students with the freedom to flex between an online and in-person experience.

Accreditation
This program is accredited by AACSB International.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Applicants must have a bachelor's degree from an accredited college or university.

Other requirements to be completed before admission:
- Applicants must have completed at least one semester college-level math course (e.g. Calculus, Linear Algebra).
- Demonstrated competency in computer programming in at least one of the following computer programming languages is required: Python, R, C, C++, C#, VB, Java, or PHP. Academic transcripts, certificates from online courses, or work experience may be cited to meet this requirement.

Special Application Requirements:
Applicants must submit all application materials through the University's admissions system. Application materials include:
- Online application & application fee.
- Transcripts from all colleges/universities previously attended. Non-English transcripts must be accompanied by an English translation.
- A GMAT or GRE General Test that is not more than five years old, with an acceptable score. A GMAT/GRE waiver is available for qualified candidates.
- For international students, an acceptable score on the Test of English as a Foreign Language (TOEFL) International Language Testing System (IELTS).
- Two letters of recommendations need to be submitted through the online application.
- A personal statement (max. 2 pages). Please answer each prompt as a separate short essay. (1) Why are you interested in studying at the Carlson School of Management at the University of Minnesota? What draws you to the Carlson School’s Master of Applied Business Analytics (MABA) program specifically? (2) Briefly discuss your short- and long-term career goals. How will completing the Business Analytics program at this time help you toward achieving your goals? (3) An aptitude for technical and quantitative work is necessary for success in the MABA program. Please provide a specific example(s) from your past academic project, internship, or professional experience where you used a technical/quantitative tool or method to solve a problem. Please provide details describing the problem/situation; the actions you took; the specific tools, programming languages, and methods you used; and the results of your actions.
- Applicants must submit a current resume that includes job responsibilities and accomplishments in the online application.
- Video Essay.
- Admissions interview (by invitation only).

For admissions details, please visit https://carlsonschool.umn.edu/degrees/master-applied-business-analytics/admissions

Applicants must submit their test score(s) from the following:
• GRE
• GMAT

International applicants must submit score(s) from one of the following tests:
• TOEFL
• IELTS

Key to test abbreviations (GRE, GMAT, TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

**Plan C:** Plan C requires 32 major credits and up to null credits outside the major. There is no final exam. A capstone project is required.

**Capstone Project:** Students complete MABA 6511, in which they engage in an experiential-learning application of the analytics methodologies, techniques, and tools learned throughout the program to a real-world problem. The final project consists of the development and presentation of results, interpretations, insights, and recommendations.

This program may not be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.8 is required for students to remain in good standing.

**Required Courses (24 credits)**

Take the following courses:
- MABA 6121 - Practical Statistics for Business Applications (2.0 cr)
- MABA 6131 - Mathematics Essentials for Business Analytics (2.0 cr)
- MABA 6141 - Ethics, Data Privacy, and Governance (1.0 cr)
- MABA 6251 - AI for Competitive Advantage (2.0 cr)
- MABA 6311 - Programming for Business Analytics (2.0 cr)
- MABA 6321 - Data Management and Big Data (2.0 cr)
- MABA 6341 - Data Visualization (2.0 cr)
- MABA 6411 - Exploratory Data Analytics (2.0 cr)
- MABA 6421 - Predictive Analytics (2.0 cr)
- MABA 6431 - Advanced Topics on Business Analytics (2.0 cr)
- MABA 6441 - Causal Inference via Econometrics and Experimentation (2.0 cr)
- MABA 6451 - Prescriptive Analytics (2.0 cr)
- MABA 6490 - Special Topics in Applied Business Analytics (1.0 cr)

**Capstone Course (4 credits)**

Take the following course:
- MABA 6511 - Experiential Learning (4.0 cr)

**Electives (4 credits)**

Select at least 4 credits from the following:
- ENTR 6025 - Introduction to Entrepreneurship (2.0 cr)
- ENTR 6036 - Managing the Growing Business (2.0 cr)
- FINA 6322 - Financial Modeling (2.0 cr)
- IDSC 6041 - Information Technology Management (2.0 cr)

• Program Type: Post-baccalaureate credit certificate/licensure/endorsement
• Requirements for this program are current for Fall 2022
• Length of program in credits: 12
• This program does not require summer semesters for timely completion.
• Degree: Asset Management Postbaccalaureate Certificate

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Minnesota has a broad and deep asset management community, ranging from large national firms to smaller boutique investment firms. Not all who serve this market seek a full graduate degree. The Asset Management certificate focuses on coursework focuses on the most relevant topics for those seeking to advance in their firms or pivot into asset management.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)
• primarily online (at least 80% of the instruction for the program is online with short, intensive periods of face-to-face coursework)
• partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
Applicants must have a bachelors degree from an accredited institution.

Other requirements to be completed before admission: Please review the Admissions Checklist online for detailed admissions requirements.

International applicants must submit score(s) from one of the following tests:
• TOEFL
• IELTS

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.8 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.

Required Coursework (6 credits)
Take the following courses:
MBA 6031 - Financial Accounting (3.0 cr)
MBA 6231 - Financial Management (3.0 cr)
Electives (6 credits)
Select 6 credits from the following:

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 48 to 64
- This program does not require summer semesters for timely completion.
- Degree: Master of Business Administration

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

At the Carlson School, students tailor their education to meet their career objectives. Supported by outstanding faculty, cutting-edge coursework, and extensive networking opportunities, students compile an impressive record of professional achievements even before they graduate.

The Carlson School offers several pathways to the master of business administration degree: the full-time MBA, the part-time MBA, the online MBA, and the executive MBA. Dual degree programs are only available through the full-time MBA program. Please visit our website at http://www.carlsonschool.umn.edu/mba for more information.

The Carlson School's China Executive MBA program is offered through a partnership between the Carlson School and Lingnan (University) College of Sun Yat-sen University. The Carlson School's Vienna Executive MBA program is offered jointly with the Vienna University of Economics and Business (WU). For additional information on these two programs, please contact cgi@umn.edu.

Accreditation
This program is accredited by AACSB International.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- primarily online (at least 80% of the instruction for the program is online with short, intensive periods of face-to-face coursework)

Prerequisites for Admission
Applicants must have a bachelor's degree from an accredited college or university.

Other requirements to be completed before admission:
Please review the Admissions Checklist online for detailed admissions requirements.

Special Application Requirements:
Applicants must have an acceptable score on the GMAT or GRE. In addition, international students must have an acceptable score on the Test of English as a Foreign Language (TOEFL), the International English Language Testing System (IELTS), or the Pearson Test of English Academic (PTE).

International applicants must submit score(s) from one of the following tests:
- TOEFL
- IELTS

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements

Plan C: Plan C requires 48 to 64 major credits and up to null credits outside the major. The final exam is no final exam.

This program may not be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.80 is required for students to remain in good standing.

Joint- or Dual-degree Coursework: The Full-Time MBA program offers the following dual degree program options: MS-Applied Economics/MBA: up to 12 credits in common allowed; MS-Business Analytics/MBA: up to 12 credits in common allowed; MA-HRIR/MBA: up to 12 credits in common allowed; MHA/MBA: up to 12 credits in common allowed; MPP/MBA: up to 12 credits in common allowed; JD/MBA: up to 12 credits in common allowed; MD/MBA: up to 12 credits in common allowed; and PharmD/MBA: up to 12 credits in common allowed. For complete Dual Degree information, visit http://carlonschool.umn.edu/degrees/master-business-administration/dual-degrees

Student may take a total of 12 credits in common among the academic programs.

Program Sub-plans

Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Full-Time Master of Business Administration

The Carlson full-time MBA program offers an intense curriculum that gives students a distinct edge. They start by taking coordinated core courses that provide a sound foundation in essential managerial disciplines, while at the same time, customizing their education to fit their career paths. The full-time program involves a rigorous time commitment. While the amount of time spent on campus varies from 30-50 hours per week, all students are expected to complete the degree in two years with a minimum of 64 credits.

Financial Accounting

Take 1 or more course(s) from the following:
- MBA 6031 - Financial Accounting (3.0 cr)

Data Analysis & Statistics

Take 1 or more course(s) from the following:
- MBA 6121 - Data Analysis and Statistics for Managers (3.0 cr)

Managerial Economics

Take 1 or more course(s) from the following:
- MBA 6141 - Managerial Economics (2.0 cr)

Marketing

Take 1 or more course(s) from the following:
- MBA 6211 - Marketing Management (3.0 cr)

Supply Chain & Operations

Take 1 or more course(s) from the following:
- MBA 6221 - Supply Chain & Operations (3.0 cr)

Financial Management

Take 1 or more course(s) from the following:
- MBA 6231 - Financial Management (3.0 cr)

IT Management

Take 1 or more course(s) from the following:
- MBA 6241 - Competing in a Data-Driven Digital Age (2.0 cr)

Strategic Management

Take 1 or more course(s) from the following:
- MBA 6301 - Strategic Management (3.0 cr)

Business Ethics

Take 1 or more course(s) from the following:
- MBA 6315 - The Ethical Environment of Business (2.0 cr)

Leadership Requirement

The total leadership credit requirement is 4 credits. MBA 6110 is completed in spring of the first year for a total of 2 credits. Additionally, students must complete MGMT 6465 for 2 credits prior to degree completion. Take exactly 2 course(s) totaling exactly 4 credit(s) from the following:
- MBA 6111 - Leading Others (2.0 cr)
- MGMT 6465 - Leadership and Personal Development (2.0 cr)

Internship Requirement

MBA students are required to complete work experience during the program. Students will be enrolled in a zero-credit course during their first spring semester prior to work experience during the summer.
MBA 6999 - Full Time MBA Internship Course (0.0 cr)

Enterprise Requirement
All full-time MBA students are required to participate in one Enterprise program throughout their time in the program.
Take exactly 8 credit(s) from the following:
• MBA 6501 - Carlson Funds Enterprise: Growth (1.0 - 4.0 cr)
• MBA 6502 - Carlson Funds Enterprise: Fixed Income (1.0 - 4.0 cr)
• MBA 6503 - Carlson Ventures Enterprise (2.0 - 4.0 cr)
• MBA 6504 - Carlson Consulting Enterprise (1.0 - 4.0 cr)
• MBA 6505 - Carlson Brand Enterprise (2.0 - 4.0 cr)

International Experience
All MBA students must participate in an international study abroad program or complete a course that has been designated to meet this requirement. A minimum of 4 credits is required. If more are taken, remainder will count as elective credit(s).
Take 1 or more course(s) totaling 4 or more credit(s) from the following:
• IBUS 5xxx
• IBUS 6xxx
• IDSC 6465 - Emerging Technologies and Digital Transformation: Changes to Work, Capability Sourcing and Innovation (4.0 cr)
• MGMT 6305 - The International Environment of Business (4.0 cr)
• MILI 6997 - MILI Global Valuation Lab (4.0 cr)
• MKTG 6072 - International Marketing (4.0 cr)
• SCO 6081 - Global Operations Strategy (4.0 cr)

MBA Electives
Electives not on this list must be approved by MBA Programs Office in order to count for degree requirements.
Take 24 or more credit(s) from the following:
• ACCT 5181 - Consolidations and Advanced Reporting (2.0 cr)
• ACCT 6102 - Financial Statement Analysis (2.0 cr)
• APEC 5831 - Food and Agribusiness Marketplace (2.0 - 3.0 cr)
• BLAW 6158 - The study of laws affecting private business and publicly-traded companies. (2.0 cr)
• ENTR 6021 - Developing New Ventures (2.0 cr)
• ENTR 6023 - Financing Business Ventures (2.0 cr)
• ENTR 6025 - Introduction to Entrepreneurship (2.0 cr)
• ENTR 6036 - Managing the Growing Business (2.0 cr)
• ENTR 6037 - Corporate Venturing (2.0 cr)
• ENTR 6041 - Initiating New Product Design and Business Development (4.0 cr)
• ENTR 6042 - Implementing New Product Design and Business Development (4.0 cr)
• FINA 5529 - Derivatives II (2.0 cr)
• FINA 6111 - Financing over a Firm's Lifecycle (1.0 cr)
• FINA 6112 - Private Equity (1.0 cr)
• FINA 6113 - Public Equity (1.0 cr)
• FINA 6121 - Debt Markets, Interest Rates, and Hedging (2.0 cr)
• FINA 6122 - Financial Management of Depository Institutions (2.0 cr)
• FINA 6123 - Financial Services Industry (2.0 cr)
• FINA 6125 - Cryptocurrency, Blockchain, and Their Business Applications (2.0 cr)
• FINA 6211 - Cash Flows and Project Selection (1.0 cr)
• FINA 6212 - Working Capital Management (1.0 cr)
• FINA 6213 - Financial Capital Structure (1.0 cr)
• FINA 6214 - Business Valuation (1.0 cr)
• FINA 6215 - The CFO Mindset: Finance, Strategy and Operations (1.0 cr)
• FINA 6222 - Mergers and Acquisitions (2.0 cr)
• FINA 6241 - Corporate Financial Decisions and Analysis (4.0 cr)
• FINA 6242 - Advanced Corporate Finance Analysis and Decisions (4.0 cr)
• FINA 6321 - Portfolio Analysis and Management (2.0 cr)
• FINA 6322 - Financial Modeling (2.0 cr)
• FINA 6323 - Advanced Financial Modeling (2.0 cr)
• FINA 6324 - Securitization Markets (2.0 cr)
• FINA 6325 - Behavioral Finance (2.0 cr)
• FINA 6341 - World Economy (4.0 cr)
• FINA 6511 - Options for Corporate Finance (1.0 cr)
• FINA 6522 - Introduction to Derivatives and Financial Risk Management (2.0 cr)

Carlson Executive Master of Business Administration
The Carlson executive MBA is built on a foundation of time-tested business principles. By emphasizing a global perspective, the rigorous curriculum helps students develop a deeper understanding of theory and practice. Each class moves through the program together as a cohort, following set schedules. From orientation to graduation, it takes about 21 months to complete the program. Classes are held Fridays and Saturdays, predominantly on alternate weekends, 7:30 a.m. to 4:30 p.m., and do not meet during the summer.

CEMBA Program Requirements

VMBA 5715 - Corporate and Entrepreneurial Strategy (4.0 cr)

India

Online Master of Business Administration
The online MBA is a 2-3 year, 52-credit, fully online program designed for working professionals to obtain the fundamental business knowledge crucial for leading careers in a complex, rapidly evolving business environment. Courses are taught by our nationally renowned expert faculty and executive-level professionals.

Online MBA students will be required to complete at least one in-person residency.

Strategic Management
MBA 6301 - Strategic Management (3.0 cr)
Financial Accounting
MBA 6031 - Financial Accounting (3.0 cr)
Financial Management
MBA 6231 - Financial Management (3.0 cr)
Data Analysis & Statistics
MBA 6121 - Data Analysis and Statistics for Managers (3.0 cr)
Supply Chain & Operations
MBA 6221 - Supply Chain & Operations (3.0 cr)
Economics
MBA 6141 - Managerial Economics (2.0 cr)
Organizational Behavior
MBA 6111 - Leading Others (2.0 cr)
Marketing
MBA 6211 - Marketing Management (3.0 cr)
Business Ethics
MBA 6315 - The Ethical Environment of Business (2.0 cr)
Information Technology Management
MBA 6241 - Competing in a Data-Driven Digital Age (2.0 cr)
International Experience
All MBA students must participate in an international study abroad program or complete a course that has been designated to meet this requirement. A minimum of 4 credits is required. If more are taken, remainder will count as elective credit(s).
Take exactly 4 credit(s) from the following:
•IBUS 5xxx
•IBUS 6xxx
•IDSC 6465 - Emerging Technologies and Digital Transformation: Changes to Work, Capability Sourcing and Innovatio (4.0 cr)

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of November 07, 2022
• MGMT 6305 - The International Environment of Business (4.0 cr)
• MILI 6997 - MILI Global Valuation Lab (4.0 cr)
• MKTG 6072 - International Marketing (4.0 cr)
• SCO 6081 - Global Operations Strategy (4.0 cr)

Electives
Electives not on this list must be approved by MBA Programs Office in order to count for degree requirements. Take 22 or more credit(s) from the following:

• ACCT 5181 - Consolidations and Advanced Reporting (2.0 cr)
• ACCT 6102 - Financial Statement Analysis (2.0 cr)
• APEC 5831 - Food and Agribusiness Marketplace (2.0 - 3.0 cr)

Global Medical Industry M.B.A.
The Carlson Global Medical Industry MBA is designed to train multi-professional business leaders around the world to shape the future of the medical industry and drive innovation in financing, technology and care solutions. The curriculum integrates rich practical experiences in data analytics, medical technology, technological innovation, global financing, business operations and management, marketing, strategy, and promotion of the world's sustainable development all with a uniquely global perspective. The program features a capstone course, Global Medical Innovation Laboratory, offering curriculum and experiential learning with partner universities on multiple continents as an immersive critical student thinking process to accelerate affordable new service and technology solutions around the world. Since first offered to domestic MBA students in 2014, the Laboratory has won multiple awards for innovation in MBA and business school curriculum. The lab is a mix of class sessions, research, virtual site visits, and group work. This lab is geared to provide participants with an opportunity to work in cross-cultural teams on a valuation project.

Global Medical Industry MBA Courses
Take the following courses:
IDSC 6051 - Information Technologies and Solutions (2.0 cr)
MBA 6031 - Financial Accounting (3.0 cr)
MBA 6035 - Managerial Accounting (3.0 cr)
MBA 6111 - Leading Others (2.0 cr)
MBA 6121 - Data Analysis and Statistics for Managers (3.0 cr)
MBA 6141 - Managerial Economics (2.0 cr)
MBA 6211 - Marketing Management (3.0 cr)

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 16
- Length of program in credits (Doctorate): 16
- This program does not require summer semesters for timely completion.
- None.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The PhD program in business administration offers full-time advanced graduate education for students seeking academic placement at leading universities or research-oriented positions in business or government. The program is for individuals who have the intellectual capacity for advanced study, enjoy independent research and analytical thinking, and who wish to master a discipline within business administration.

Non-business administration doctoral students working toward a minor within the business administration program must complete a cohesive program of study in one of seven areas of specialization: accounting; finance; information and decision sciences; marketing; supply chain and operations; strategic management and entrepreneurship, and work and organizations.

Accreditation
This program is accredited by AACSB International

Program Delivery
This program is available:

- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
University of Minnesota PhD student in a field other than business administration.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

For each of the seven areas of concentration, a minimum of 16 credits is required. Coursework is selected in consultation with the PhD program office or the PhD coordinator of the student's chosen concentration area. Courses should be 8xxx-level, although up to 8 credits of 5xxx- and 7xxx-level coursework can be taken with the approval of the PhD and master's program offices.

Areas of Concentration

Accounting
Take 16 or more credit(s) from the following:

- ACCT 8801 - Topics in Empirical Research I (2.0 cr)
- ACCT 8802 - Topics in Empirical Research II (2.0 cr)
-ACCT 8803 - Topics in Empirical Research III (2.0 cr)
-ACCT 8811 - Topics in Information Economics I (2.0 cr)
-ACCT 8812 - Topics in Information Economics II (2.0 cr)
-ACCT 8813 - Topics in Information Economics III (2.0 cr)
-ACCT 8821 - Topics in Capital Markets I (2.0 cr)
-ACCT 8822 - Topics in Capital Markets II (2.0 cr)
-ACCT 8823 - Topics in Capital Markets III (2.0 cr)
-ACCT 8831 - Topics in Analytical Research I (2.0 cr)
-ACCT 8832 - Analytical Research Topics II (2.0 cr)
-ACCT 8833 - Topics in Analytical Research III (2.0 cr)

-OR-

Finance
Take 16 or more credit(s) from the following:
-FINA 8802 - Theory of Capital Markets I: Discrete Time (2.0 cr)
-FINA 8803 - Theory of Capital Markets II: Continuous Time (2.0 cr)
-FINA 8804 - Advanced Continuous Time Finance (2.0 cr)
-FINA 8810 - Topics in Asset Pricing (2.0 cr)
-FINA 8812 - Corporate Finance I (2.0 cr)
-FINA 8813 - Corporate Finance II (2.0 cr)
-FINA 8820 - Topics in Corporate Finance (2.0 cr)
-FINA 8822 - Empirical Methods in Finance (2.0 cr)
-FINA 8823 - Empirical Corporate Finance (2.0 cr)
-FINA 8890 - Seminar: Finance Topics (2.0 - 4.0 cr)

-OR-

Information and Decision Sciences
Take 16 or more credit(s) from the following:
-IDSC 8511 - Conceptual Topics and Research Methods in Information and Decision Sciences (3.0 cr)
-IDSC 8521 - System Development (3.0 cr)
-IDSC 8531 - Organizational Theory and Research in Information Systems (3.0 cr)
-IDSC 8541 - Introduction to Economics of Information Systems (3.0 cr)
-IDSC 8620 - Data Mining and Personalization (3.0 cr)
-IDSC 8630 - Social Media and Online Communities (2.0 cr)
-IDSC 8721 - Behavioral Decision Theory (3.0 cr)
-IDSC 8801 - Research Seminar in Information and Decision Sciences (2.0 cr)

-OR-

Marketing
Take 16 or more credit(s) from the following:
-MKTG 8809 - Consumer Behavior Research Methods (2.0 cr)
-MKTG 8810 - Consumer Behavior Special Topics (2.0 cr)
-MKTG 8811 - Consumer Attitudes and Persuasion I (2.0 cr)
-MKTG 8812 - Consumer Attitudes and Persuasion II (2.0 cr)
-MKTG 8813 - Consumer Judgment and Decision Making I (2.0 cr)
-MKTG 8814 - Consumer Judgment and Decision Making II (2.0 cr)
-MKTG 8831 - Seminar: Inter-Organizational Relations (4.0 cr)
-MKTG 8842 - Quantitative Modeling I (2.0 cr)
-MKTG 8843 - Empirical Quantitative Models (4.0 cr)
-MKTG 8851 - Seminar: Marketing Management and Strategy I (2.0 cr)
-MKTG 8852 - Marketing Management & Strategy II (2.0 cr)
-MKTG 8890 - Seminar: Marketing Topics (1.0 - 4.0 cr)

-OR-

Strategic Management and Entrepreneurship
Take 16 or more credit(s) from the following:
-MGMT 8101 - PhD Seminar: Theory Building (2.0 cr)
-MGMT 8102 - Research Methods I - Applied Empirical Methods (2.0 cr)
-MGMT 8104 - PhD Seminar: Research Design (2.0 cr)
-MGMT 8202 - Seminar in International Management (2.0 cr)
-MGMT 8302 - Seminar in Organizational Theory (4.0 cr)
-MGMT 8401 - Strategy I (2.0 cr)
-MGMT 8402 - Seminar in Behavioral Strategy (2.0 cr)
-MGMT 8403 - Strategy II (2.0 cr)
-MGMT 8404 - Seminar in Non-Market Strategy (2.0 cr)
• MGMT 8405 - Seminar in Technology Strategy (2.0 cr)
• MGMT 8501 - Seminar in Entrepreneurship (4.0 cr)

-OR-

Supply Chain and Operations
Take 16 or more credit(s) from the following:
• SCO 8800 - Research Topics in Supply Chain and Operations (1.0 - 2.0 cr)
• SCO 8811 - Operations Strategy (4.0 cr)
• SCO 8821 - Management of Technological Operations (4.0 cr)
• SCO 8822 - Innovative Operations (2.0 cr)
• SCO 8831 - Supply Chain Management (2.0 cr)
• SCO 8832 - Analytical Models for Operations Management (2.0 cr)
• SCO 8841 - Behavioral Research in Operations Management (4.0 cr)
• SCO 8842 - Retail Operations (2.0 cr)
• SCO 8843 - Sustainable and Socially-Responsible Operations (2.0 cr)
• SCO 8892 - Readings in Supply Chain and Operations (1.0 - 8.0 cr)
• SCO 8894 - Research in Supply Chain and Operations (1.0 - 8.0 cr)

-OR-

Work and Organizations
Take 16 or more credit(s) from the following:
• HRIR 8801 - Core Seminar: Fundamentals of Economic Analysis for Work and Organizations (4.0 cr)
• HRIR 8802 - Core Seminar: Organizational Behavior (4.0 cr)
• HRIR 8803 - Core Seminar: Fundamentals of HR Research (4.0 cr)
• HRIR 8820 - Seminar: Special Topics in Work and Organizations Research (2.0 cr)
• HRIR 8825 - Research Practicum/Workshop (1.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Doctoral

- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Business Administration PhD program offers full-time advanced graduate education for students seeking academic placement at leading universities or research-oriented positions in business or government. The program is for individuals who have the intellectual capacity for advanced study, enjoy independent research and analytical thinking, and who wish to master a discipline within business administration.

Students choose to concentrate in one of seven areas of specialization: accounting; finance; information and decision sciences; marketing; supply chain and operations; strategic management and entrepreneurship; and work and organizations.

Accreditation
This program is accredited by Association to Advance Collegiate Schools of Business (AACSB)

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Applicants must have completed a four-year undergraduate degree in any relevant field of study.

Other requirements to be completed before admission:
Admission depends on the applicant's grades, test scores (GMAT or GRE), and strength of the letters of recommendation and the statement of purpose.

Preferred minimum test scores are 650 total on the GMAT or 320 total on the GRE general test.

Special Application Requirements:
Submit the following items via the University’s online application system: 1) complete application; 2) official copy of the GMAT or GRE scores taken within the last five years; 3) official TOEFL or IELTS scores (international applicants only) from a test taken within the last two years; 4) statement of purpose; 5) resume/CV; 6) three letters of recommendation; and 7) transcripts from all undergraduate and graduate institutions attended. The application deadline for all areas of concentration is December 15 each year for fall admission consideration. Applications are evaluated on a rolling basis beginning in mid-January. Admission decisions continue until available positions are filled.

Applicants must submit their test score(s) from the following:
- GRE
- GMAT
  - Total score: 650
International applicants must submit score(s) from one of the following tests:

- **TOEFL**
  - Internet Based - Total Score: 100
  - Internet Based - Speaking Score: 25
- **IELTS**
  - Total Score: 7

The preferred English language test is Test of English as Foreign Language (TOEFL).

Key to test abbreviations (GRE, GMAT, TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

## Program Requirements

24 to 28 credits are required in the major.

16 credits are required outside the major.

24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.30 is required for students to remain in good standing.

At least 4 semesters must be completed before filing a Degree Program Form.

Coursework is selected in consultation with the advisor and varies across areas of concentration.

### Thesis Credits

Take 24 doctoral thesis credits.

**BA 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)**

### Areas of Concentration

**Accounting**

The accounting concentration requires 40 credits. Students pursue either an analytic or empirical research paradigm, in consultation with the advisor.

#### Required Coursework (24 credits)

Take the following courses:

- **ACCT 8801 - Topics in Empirical Research I (2.0 cr)**
- **ACCT 8802 - Topics in Empirical Research II (2.0 cr)**
- **ACCT 8803 - Topics in Empirical Research III (2.0 cr)**
- **ACCT 8811 - Topics in Information Economics I (2.0 cr)**
- **ACCT 8812 - Topics in Information Economics II (2.0 cr)**
- **ACCT 8813 - Topics in Information Economics III (2.0 cr)**
- **ACCT 8821 - Topics in Capital Markets I (2.0 cr)**
- **ACCT 8822 - Topics in Capital Markets II (2.0 cr)**
- **ACCT 8823 - Topics in Capital Markets III (2.0 cr)**
- **ACCT 8831 - Topics in Analytical Research I (2.0 cr)**
- **ACCT 8832 - Analytical Research Topics II (2.0 cr)**
- **ACCT 8833 - Topics in Analytical Research III (2.0 cr)**

#### Supporting/Methodology Coursework (16 credits)

Select 16 credits from the following in consultation with the advisor:

- **APEC 8001 - Applied Microeconomic Analysis of Consumer Choice and Consumer Demand (2.0 cr)**
- **APEC 8002 - Applied Microeconomic Analysis of Production and Choice Under Uncertainty (2.0 cr)**
- **APEC 8003 - Applied Microeconomic Analysis of Game Theory and Information (2.0 cr)**
- **APEC 8004 - Applied Microeconomic Analysis of Social Choice and Welfare (2.0 cr)**
- **APEC 8211 - Econometric Analysis I (2.0 cr)**
- **APEC 8212 - Econometric Analysis II (2.0 cr)**
- **CSOM 8101 - Methods and Topics in Applied Economics (2.0 - 4.0 cr)**
- **ECON 8003 - Microeconomic Analysis (2.0 cr)**
- **ECON 8004 - Microeconomic Analysis (2.0 cr)**
ECON 8205 - Applied Econometrics (2.0 cr)
FINA 8802 - Theory of Capital Markets I: Discrete Time (2.0 cr)
FINA 8812 - Corporate Finance I (2.0 cr)
FINA 8813 - Corporate Finance II (2.0 cr)
FINA 8822 - Empirical Methods in Finance (2.0 cr)
FINA 8823 - Empirical Corporate Finance (2.0 cr)
MATH 5651 - Basic Theory of Probability and Statistics (4.0 cr)
STAT 6325 - Data Processing with PC-SAS (1.0 cr)
STAT 5102 - Theory of Statistics II (4.0 cr)
STAT 8101 - Theory of Statistics 1 (3.0 cr)
ACCT 8892 - Readings in Accounting (1.0 - 8.0 cr)
ACCT 8894 - Research in Accounting (1.0 - 8.0 cr)

-OR-

Finance
The 44-credit finance concentration provides a strong foundation in economic theory and empirical methods.

Required Coursework (20 credits)
Select 20 credits from the following, in consultation with the advisor. FINA 8810, 8820, and 8890 may be repeated with advisor approval.
FINA 8802 - Theory of Capital Markets I: Discrete Time (2.0 cr)
FINA 8803 - Theory of Capital Markets II: Continuous Time (2.0 cr)
FINA 8804 - Advanced Continuous Time Finance (2.0 cr)
FINA 8810 - Topics in Asset Pricing (2.0 cr)
FINA 8812 - Corporate Finance I (2.0 cr)
FINA 8813 - Corporate Finance II (2.0 cr)
FINA 8820 - Topics in Corporate Finance (2.0 cr)
FINA 8822 - Empirical Methods in Finance (2.0 cr)
FINA 8823 - Empirical Corporate Finance (2.0 cr)
FINA 8890 - Seminar: Finance Topics (2.0 - 4.0 cr)

Additional Finance Courses (8 credits)
Take the following courses:
ECON 8101 - Microeconomic Theory (2.0 cr)
ECON 8102 - Microeconomic Theory (2.0 cr)
ECON 8103 - Microeconomic Theory (2.0 cr)
ECON 8104 - Microeconomic Theory (2.0 cr)

Supporting/Methdology Coursework (16 credits)
Select 16 credits from the following in consultation with the advisor:
ACCT 8812 - Topics in Information Economics II (2.0 cr)
ACCT 8831 - Topics in Analytical Research I (2.0 cr)
ACCT 8832 - Analytical Research Topics II (2.0 cr)
APEC 8211 - Econometric Analysis I (2.0 cr)
APEC 8212 - Econometric Analysis II (2.0 cr)
ECON 8003 - Microeconomic Analysis (2.0 cr)
ECON 8004 - Microeconomic Analysis (2.0 cr)
ECON 8105 - Macroeconomic Theory (2.0 cr)
ECON 8106 - Macroeconomic Theory (2.0 cr)
ECON 8107 - Macroeconomic Theory (2.0 cr)
ECON 8108 - Macroeconomic Theory (2.0 cr)
ECON 8181 - Advanced Topics in Microeconomics (2.0 cr)
ECON 8182 - Advanced Topics in Microeconomics (2.0 cr)
ECON 8185 - Advanced Topics in Macroeconomics (2.0 cr)
ECON 8191 - Workshop in Mathematical Economics (1.0 cr)
ECON 8201 - Econometric Analysis (2.0 cr)
ECON 8205 - Applied Econometrics (2.0 cr)
ECON 8206 - Applied Econometrics (2.0 cr)
ECON 8207 - Applied Econometrics (2.0 cr)
ECON 8208 - Applied Econometrics (2.0 cr)
ECON 8211 - Econometrics (2.0 cr)
ECON 8212 - Econometrics (2.0 cr)
ECON 8501 - Wages and Employment (2.0 cr)
ECON 8601 - Industrial Organization and Government Regulation (2.0 cr)
ECON 8602 - Industrial Organization and Government Regulation (2.0 cr)
ECON 8701 - Monetary Economics (2.0 cr)
ECON 8702 - Monetary Economics (2.0 cr)
ECON 8704 - Financial Economics (2.0 cr)
ECON 8705 - Financial Economics (2.0 cr)
MATH 8601 - Real Analysis (3.0 cr)
FINA 8892 - Independent Study in Finance (1.0 - 8.0 cr)
FINA 8894 - Directed Research in Finance (1.0 - 8.0 cr)

-OR-

Information and Decision Sciences

The information and decision sciences (IDSc) concentration requires 40 credits.

Required Coursework (15 credits)
Take the following courses:
IDSC 8511 - Conceptual Topics and Research Methods in Information and Decision Sciences (3.0 cr)
IDSC 8521 - System Development (3.0 cr)
IDSC 8531 - Organizational Theory and Research in Information Systems (3.0 cr)
IDSC 8541 - Introduction to Economics of Information Systems (3.0 cr)
IDSC 8721 - Behavioral Decision Theory (3.0 cr)

Additional IDSc Courses (2 credits)
Select at least 2 credits of the following in consultation with the advisor. IDSC 8801 may be repeated.
IDSC 8620 - Data Mining and Personalization (3.0 cr)
IDSC 8630 - Social Media and Online Communities (2.0 cr)
IDSC 8801 - Research Seminar in Information and Decision Sciences (2.0 cr)

Methodology Coursework (8 credits)
Take at least 8 credits in research methodology from the following:
APEC 8001 - Applied Microeconomic Analysis of Consumer Choice and Consumer Demand (2.0 cr)
APEC 8002 - Applied Microeconomic Analysis of Production and Choice Under Uncertainty (2.0 cr)
APEC 8003 - Applied Microeconomic Analysis of Game Theory and Information (2.0 cr)
APEC 8206 - Dynamic Optimization: Applications in Economics and Management (3.0 cr)
APEC 8211 - Econometric Analysis I (2.0 cr)
APEC 8212 - Econometric Analysis II (2.0 cr)
CI 8149 - Qualitative Research: Coding, Analysis, Interpretation, and Writing (3.0 cr)
CSCI 5511 - Artificial Intelligence I (3.0 cr)
CSCI 5512 - Artificial Intelligence II (3.0 cr)
CSCI 5521 - Machine Learning Fundamentals (3.0 cr)
CSCI 5523 - Introduction to Data Mining (3.0 cr)
CSCI 5551 - Introduction to Intelligent Robotic Systems (3.0 cr)
CSOM 8101 - Methods and Topics in Applied Economics (2.0 - 4.0 cr)
ECON 8581 - Advanced Topics in Labor Economics (2.0 cr)
EPSY 5244 - Survey Design, Sampling, and Implementation (3.0 cr)
EPSY 8252 - Statistical Methods in Education II (3.0 cr)
EPSY 8264 - Advanced Multiple Regression Analysis (3.0 cr)
EPSY 8267 - Applied Multivariate Analysis (3.0 cr)
EPSY 8268 - Hierarchical Linear Modeling in Educational Research (3.0 cr)
JOUR 8500 - Seminar: Advanced Methods Special Topics (3.0 cr)
MABA 6441 - Causal Inference via Econometrics and Experimentation (2.0 cr)
MKTG 8809 - Consumer Behavior Research Methods (2.0 cr)
MKTG 8842 - Quantitative Modeling I (2.0 cr)
OLPD 5056 - Case Studies for Policy Research (3.0 cr)
OLPD 5061 - Ethnographic Research Methods (3.0 cr)
PA 5041 - Qualitative Methods for Policy Analysts (4.0 cr)
PA 5933 - Survey Methods: Designing Effective Questionnaires (2.0 cr)
PA 8302 - Applied Policy Analysis (4.0 cr)
PSY 5018H - Mathematical Models of Human Behavior (3.0 cr)
PSY 5862 - Psychological Measurement: Theory and Methods (3.0 cr)
PSY 5993 - Research Laboratory in Psychology (3.0 cr)
PUBH 6636 - Qualitative Research Methods in Public Health Practice (2.0 cr)
PUBH 6810 - Survey Research Methods (3.0 cr)
PUBH 6815 - Community-based Participatory Research (2.0 cr)
PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
PUBH 8432 - Probability Models for Biostatistics (3.0 cr)
PUBH 8442 - Bayesian Decision Theory and Data Analysis (3.0 cr)
PUBH 8804 - Advanced Quantitative Methods Seminar (3.0 cr)
SOC 8412 - Social Network Analysis: Theory and Methods (3.0 cr)
SOC 8811 - Advanced Social Statistics (4.0 cr)
STAT 8101 - Theory of Statistics I (3.0 cr)

Supporting/Methodology Coursework (15 credits)
Select 16 credits from the following in consultation with the advisor:
Take 16 or more credits from the following:
- APEC 8001 - Applied Microeconomic Analysis of Consumer Choice and Consumer Demand (2.0 cr)
- APEC 8002 - Applied Microeconomic Analysis of Production and Choice Under Uncertainty (2.0 cr)
- APEC 8003 - Applied Microeconomic Analysis of Game Theory and Information (2.0 cr)
- APEC 8206 - Dynamic Optimization: Applications in Economics and Management (3.0 cr)
- APEC 8211 - Econometric Analysis I (2.0 cr)
- APEC 8212 - Econometric Analysis II (2.0 cr)
- CSCI 5125 - Collaborative and Social Computing (3.0 cr)
- CSCI 5980 - Special Topics in Computer Science (1.0 - 3.0 cr)
- CSCI 8551 - Intelligent Agents (3.0 cr)
- CSCI 8980 - Special Advanced Topics in Computer Science (1.0 - 3.0 cr)
- CSON 8101 - Methods and Topics in Applied Economics (2.0 - 4.0 cr)
- ECON 8581 - Advanced Topics in Labor Economics (2.0 cr)
- ECON 8601 - Industrial Organization and Government Regulation (2.0 cr)
- ECON 8602 - Industrial Organization and Government Regulation (2.0 cr)
- EPSY 8252 - Statistical Methods in Education II (3.0 cr)
- EPSY 8264 - Advanced Multiple Regression Analysis (3.0 cr)
- EPSY 8267 - Applied Multivariate Analysis (3.0 cr)
- EPSY 8268 - Hierarchical Linear Modeling in Educational Research (3.0 cr)
- HRIR 8820 - Seminar: Special Topics in Work and Organizations Research (2.0 cr)
- IDSC 8892 - Readings in Information and Decision Sciences (1.0 - 8.0 cr)
- IDSC 8894 - Graduate Research in Information and Decision Sciences (1.0 - 8.0 cr)
- MGMT 8101 - PhD Seminar: Theory Building (2.0 cr)
- MGMT 8104 - PhD Seminar: Research Design (2.0 cr)
- MGMT 8302 - Seminar in Organizational Theory (4.0 cr)
- MKTG 8842 - Quantitative Modeling I (2.0 cr)
- PA 8302 - Applied Policy Analysis (4.0 cr)
- PSY 5018H - Mathematical Models of Human Behavior (3.0 cr)
- PSY 5862 - Psychological Measurement: Theory and Methods (3.0 cr)
- PSY 5993 - Research Laboratory in Psychology (3.0 cr)
- PSY 8201 - Social Cognition (3.0 cr)
- PSY 8960 - Graduate Seminar in Psychology (1.0 - 4.0 cr)
- PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
- PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
- PUBH 8432 - Probability Models for Biostatistics (3.0 cr)
- PUBH 8442 - Bayesian Decision Theory and Data Analysis (3.0 cr)
- PUBH 8890 - Seminar: Marketing Topics (1.0 - 4.0 cr)
- STAT 8101 - Theory of Statistics 1 (3.0 cr)

---

**Marketing**

The marketing concentration requires 40 credits. Students pursue either a consumer behavior focus or quantitative/marketing strategy focus.

**Consumer Behavior Focus (24 credits)**

Students pursuing the consumer behavior focus select 16 credits from the following list, plus 8 credits from the quantitative/marketing strategy course list, in consultation with the advisor. MKTG 8810 may be repeated.

- MKTG 8809 - Consumer Behavior Research Methods (2.0 cr)
- MKTG 8810 - Consumer Behavior Special Topics (2.0 cr)
- MKTG 8811 - Consumer Attitudes and Persuasion I (2.0 cr)
- MKTG 8812 - Consumer Attitudes and Persuasion II (2.0 cr)
- MKTG 8813 - Consumer Judgment and Decision Making I (2.0 cr)
- MKTG 8814 - Consumer Judgment and Decision Making II (2.0 cr)

or **Quantitative/Marketing Strategy Focus (24 credits)**

Students pursuing the quantitative/marketing strategy focus select 14 credits from the following list, plus 10 credits from the consumer behavior course list, in consultation with the advisor. MKTG 8890 can be repeated.

- MKTG 8831 - Seminar: Inter-Organizational Relations (4.0 cr)
- MKTG 8842 - Quantitative Modeling I (2.0 cr)
- MKTG 8843 - Empirical Quantitative Models (4.0 cr)
- MKTG 8851 - Seminar: Marketing Management and Strategy I (2.0 cr)
- MKTG 8852 - Marketing Management & Strategy II (2.0 cr)
- MKTG 8890 - Seminar: Marketing Topics (1.0 - 4.0 cr)

**Supporting/Methodology Coursework (16 credits)**

Select 16 credits from the following in consultation with the advisor:

- ACCT 8811 - Topics in Information Economics I (2.0 cr)
- ACCT 8831 - Topics in Analytical Research I (2.0 cr)
- APEC 8211 - Econometric Analysis I (2.0 cr)
APEC 8212 - Econometric Analysis II (2.0 cr)
CSOM 8101 - Methods and Topics in Applied Economics (2.0 - 4.0 cr)
ECON 8003 - Microeconomic Analysis (2.0 cr)
ECON 8004 - Microeconomic Analysis (2.0 cr)
ECON 8101 - Microeconomic Theory (2.0 cr)
ECON 8102 - Microeconomic Theory (2.0 cr)
ECON 8103 - Microeconomic Theory (2.0 cr)
ECON 8104 - Microeconomic Theory (2.0 cr)
ECON 8118 - Noncooperative Game Theory (2.0 cr)
ECON 8119 - Cooperative Game Theory (2.0 cr)
ECON 8191 - Workshop in Mathematical Economics (1.0 cr)
ECON 8205 - Applied Econometrics (2.0 cr)
ECON 8206 - Applied Econometrics (2.0 cr)
ECON 8207 - Applied Econometrics (2.0 cr)
ECON 8208 - Applied Econometrics (2.0 cr)
ECON 8211 - Econometrics (2.0 cr)
ECON 8212 - Econometrics (2.0 cr)
ECON 8601 - Industrial Organization and Government Regulation (2.0 cr)
ECON 8602 - Industrial Organization and Government Regulation (2.0 cr)
ECON 8603 - Industrial Organization and Government Regulation (2.0 cr)
EPSY 5221 - Principles of Educational and Psychological Measurement (3.0 cr)
EPSY 5245 - Advanced Survey Data Analysis for Categorical and Rating Scale Data (1.0 cr)
EPSY 5261 - Introductory Statistical Methods (3.0 cr)
EPSY 5262 - Intermediate Statistical Methods (3.0 cr)
EPSY 8251 - Statistical Methods in Education I (3.0 cr)
EPSY 8252 - Statistical Methods in Education II (3.0 cr)
EPSY 8264 - Advanced Multiple Regression Analysis (3.0 cr)
EPSY 8267 - Applied Multivariate Analysis (3.0 cr)
IDSC 8721 - Behavioral Decision Theory (3.0 cr)
MKTG 8892 - Readings in Marketing (1.0 - 8.0 cr)
MKTG 8894 - Graduate Research in Marketing (1.0 - 8.0 cr)
MSBA 6441 - Causal Inference via Econometrics and Experimentation (3.0 cr)
PSY 5202 - Attitudes and Social Behavior (3.0 cr)
PSY 5204 - Psychology of Interpersonal Relationships (3.0 cr)
PSY 5207 - Personality and Social Behavior (3.0 cr)
PSY 5862 - Psychological Measurement: Theory and Methods (3.0 cr)
PSY 8203 - Impression Management (3.0 cr)
PSY 8208 - Social Psychology: The Self (3.0 cr)
PSY 8209 - Research Methods in Social Psychology (3.0 cr)
PSY 8935 - Readings in Behavioral Genetics and Individual Differences Psychology (1.0 cr)
PSY 8960 - Graduate Seminar in Psychology (1.0 - 4.0 cr)
STAT 5021 - Statistical Analysis (4.0 cr)
STAT 5303 - Designing Experiments (4.0 cr)

Supply Chain and Operations
The supply chain and operations (SCO) concentration requires 42 credits.

Required Coursework (22 credits)
Take the following courses:
SCO 8811 - Operations Strategy (4.0 cr)
SCO 8821 - Management of Technological Operations (4.0 cr)
SCO 8822 - Innovative Operations (2.0 cr)
SCO 8831 - Supply Chain Management (2.0 cr)
SCO 8832 - Analytical Models for Operations Management (2.0 cr)
SCO 8841 - Behavioral Research in Operations Management (4.0 cr)
SCO 8842 - Retail Operations (2.0 cr)
SCO 8843 - Sustainable and Socially-Responsible Operations (2.0 cr)

Supporting Field/Methodology Coursework (14 credits)
Take the following courses:
APEC 8211 - Econometric Analysis I (2.0 cr)
APEC 8212 - Econometric Analysis II (2.0 cr)
APEC 8213 - Econometric Analysis III (2.0 cr)
APEC 8214 - Econometric Analysis IV (2.0 cr)
APEC 8215 - Theory of Statistics I (4.0 cr)
MKTG 8810 - PhD Seminar: Theory Building (2.0 cr)

Additional Supporting/Methodology Courses (6 credits)

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of November 07, 2022
Select at least 6 credits from the following:

APEC 8206 - Dynamic Optimization: Applications in Economics and Management (3.0 cr)
APEC 8602 - Economics of the Environment (3.0 cr)
EPSY 8251 - Statistical Methods in Education I (3.0 cr)
EPSY 8252 - Statistical Methods in Education II (3.0 cr)
EPSY 8254 - Advanced Multiple Regression Analysis (3.0 cr)
EPSY 8266 - Statistical Analysis Using Structural Equation Methods (3.0 cr)
EPSY 8268 - Hierarchical Linear Modeling in Educational Research (3.0 cr)
EPSY 8282 - Statistical Analysis of Longitudinal Data (3.0 cr)
HINF 5502 - Python Programming Essentials for the Health Sciences (1.0 cr)
HRIR 8802 - Core Seminar: Organizational Behavior (4.0 cr)
MGMT 8302 - Seminar in Organizational Theory (4.0 cr)
MKTG 8842 - Quantitative Modeling I (2.0 cr)
MKTG 8843 - Empirical Quantitative Models (4.0 cr)
PA 5032 - Applied Regression (2.0 cr)
PA 5033 - Multivariate Techniques (2.0 cr)
PUBH 7405 - Biostatistical Inference I (4.0 cr)
PUBH 7406 - Biostatistical Inference II (3.0 cr)
PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
PUBH 7475 - Statistical Learning and Data Mining (3.0 cr)
PUBH 8804 - Advanced Quantitative Methods Seminar (3.0 cr)
PUBH 8811 - Research Methods in Health Care (3.0 cr)
SOC 5811 - Social Statistics for Graduate Students (3.0 cr)
SOC 8412 - Social Network Analysis: Theory and Methods (3.0 cr)
SOC 8801 - Sociological Research Methods (4.0 cr)
SOC 8811 - Advanced Social Statistics (4.0 cr)
SOC 8890 - Advanced Topics in Research Methods (2.0 - 3.0 cr)
STAT 5021 - Statistical Analysis (4.0 cr)
STAT 5102 - Theory of Statistics II (4.0 cr)
STAT 5302 - Applied Regression Analysis (4.0 cr)
STAT 5421 - Analysis of Categorical Data (3.0 cr)
STAT 5701 - Statistical Computing (3.0 cr)
STAT 8051 - Advanced Regression Techniques: linear, nonlinear and nonparametric methods (3.0 cr)
STAT 8311 - Linear Models (3.0 cr)

-OR-

Strategic Management and Entrepreneurship
The Strategic Management and Entrepreneurship (SME) concentration requires a minimum of 40 credits.

**Required Coursework (16 credits)**

Take the following courses:

CSOM 8101 - Methods and Topics in Applied Economics (2.0 - 4.0 cr)
MGMT 8102 - Research Methods I - Applied Empirical Methods (2.0 cr)
MGMT 8302 - Seminar in Organizational Theory (4.0 cr)
MGMT 8401 - Strategy I (2.0 cr)
MGMT 8403 - Strategy II (2.0 cr)
MGMT 8501 - Seminar in Entrepreneurship (4.0 cr)

**SME Elective Coursework (8 credits)**

Take at least 8 credits of SME electives from the list below:

MGMT 8101 - PhD Seminar: Theory Building (2.0 cr)
MGMT 8104 - PhD Seminar: Research Design (2.0 cr)
MGMT 8202 - Seminar in International Management (2.0 cr)
MGMT 8402 - Seminar in Behavioral Strategy (2.0 cr)
MGMT 8404 - Seminar in Non-Market Strategy (2.0 cr)
MGMT 8405 - Seminar in Technology Strategy (2.0 cr)

**Supporting/Methodology Coursework (16 credits)**

**Required Courses (7 credits)**

Take the following courses:

APEC 8211 - Econometric Analysis I (2.0 cr)
APEC 8212 - Econometric Analysis II (2.0 cr)
GRAD 8101 - Teaching in Higher Education (3.0 cr)

**Additional Supporting/Methodology Courses (9 credits)**

Select 9 credits from the following in consultation with the advisor:

APEC 8001 - Applied Microeconomic Analysis of Consumer Choice and Consumer Demand (2.0 cr)
APEC 8002 - Applied Microeconomic Analysis of Production and Choice Under Uncertainty (2.0 cr)
APEC 8003 - Applied Microeconomic Analysis of Game Theory and Information (2.0 cr)
APEC 8004 - Applied Microeconomic Analysis of Social Choice and Welfare (2.0 cr)
APEC 8213 - Econometric Analysis III (2.0 cr)
CSCI 5980 - Special Topics in Computer Science (1.0 - 3.0 cr)
EPSY 8251 - Statistical Methods in Education I (3.0 cr)
EPSY 8252 - Statistical Methods in Education II (3.0 cr)
EPSY 8264 - Advanced Multiple Regression Analysis (3.0 cr)
EPSY 8268 - Hierarchical Linear Modeling in Educational Research (3.0 cr)
EPSY 8282 - Statistical Analysis of Longitudinal Data (3.0 cr)
FINA 8823 - Empirical Corporate Finance (2.0 cr)
HINF 5502 - Python Programming Essentials for the Health Sciences (1.0 cr)
MATH 5651 - Basic Theory of Probability and Statistics (4.0 cr)
MGMT 8892 - Readings in Management Theory and Administration (1.0 - 8.0 cr)
MGMT 8894 - Graduate Research in Management Theory and Administration (1.0 - 8.0 cr)
MKTG 8831 - Seminar: Inter-Organizational Relations (4.0 cr)
PA 8302 - Applied Policy Analysis (4.0 cr)
POL 8106 - Quantitative Political Science I (3.0 cr)
PUBH 8804 - Advanced Quantitative Methods Seminar (3.0 cr)
PUBH 8811 - Research Methods in Health Care (3.0 cr)
SOC 8412 - Social Network Analysis: Theory and Methods (3.0 cr)
SOC 8701 - Sociological Theory (4.0 cr)
SOC 8721 - Social Psychology: Micro-Sociological Approaches to Inequalities and Identities (3.0 cr)
SOC 8735 - Sociology of Culture (3.0 cr)
SOC 8801 - Sociological Research Methods (4.0 cr)
SOC 8811 - Advanced Social Statistics (4.0 cr)
SOC 8890 - Advanced Topics in Research Methods (2.0 - 3.0 cr)
STAT 8051 - Advanced Regression Techniques: linear, nonlinear and nonparametric methods (3.0 cr)

-OR-

Work and Organizations
The Work and Organizations (WOrg) concentration requires 44 credits. The multidisciplinary curriculum covers organizational behavior, human resource management, organizational economics and related areas.

Required WOrg Coursework (28 credits)
Take the following courses. HRIR 8820 must be taken 4 times for a total of 8 credits; HRIR must be taken 8825 4 times for a total of 4 credits.

HRIR 8801 - Core Seminar: Fundamentals of Economic Analysis for Work and Organizations (4.0 cr)
HRIR 8802 - Core Seminar: Organizational Behavior (4.0 cr)
HRIR 8803 - Core Seminar: Fundamentals of HR Research (4.0 cr)
HRIR 8812 - Core Seminar: Research Methods in Work and Organizations (4.0 cr)
HRIR 8820 - Seminar: Special Topics in Work and Organizations Research (2.0 cr)
HRIR 8825 - Research Practicum/Workshop (1.0 cr)

Supporting/Methodology Coursework (16 credits)
Required Courses (6 credits)
Take the following courses:
EPSY 8264 - Advanced Multiple Regression Analysis (3.0 cr)
PSY 5862 - Psychological Measurement: Theory and Methods (3.0 cr)

Required APEC Courses (3 credits)
Select APEC 5031 (3 credits) or APEC 8211 and 8212 (total of 4 credits).
APEC 5031 - Methods of Economic Data Analysis (3.0 cr)
APEC 8211 - Econometric Analysis I (2.0 cr)
APEC 8212 - Econometric Analysis II (2.0 cr)

Additional Supporting/Methodology Courses (7 credits)
Select 7 credits from the following in consultation with the advisor:
APEC 8003 - Applied Microeconomic Analysis of Game Theory and Information (2.0 cr)
APEC 8501 - Labor Economics I (2.0 cr)
APEC 8502 - Labor Economics II (2.0 cr)
CSOM 8101 - Methods and Topics in Applied Economics (2.0 - 4.0 cr)
ECON 8205 - Applied Econometrics (2.0 cr)
ECON 8206 - Applied Econometrics (2.0 cr)
EPSY 5247 - Qualitative Methods in Educational Psychology (3.0 cr)
EPSY 5261 - Introductory Statistical Methods (3.0 cr)
EPSY 8266 - Statistical Analysis Using Structural Equation Methods (3.0 cr)
EPSY 8268 - Hierarchical Linear Modeling in Educational Research (3.0 cr)
EPSY 8282 - Statistical Analysis of Longitudinal Data (3.0 cr)
HRIR 8991 - Independent Study in Human Resources and Industrial Relations (1.0 - 8.0 cr)
MGMT 8101 - PhD Seminar: Theory Building (2.0 cr)
MGMT 8104 - PhD Seminar: Research Design (2.0 cr)
PSY 8208 - Social Psychology: The Self (3.0 cr)

• Program Type: Master's
• Requirements for this program are current for Fall 2022
• Length of program in credits: 45
• This program requires summer semesters for timely completion.
• Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The MS in Business Analytics (MSBA) program provides a strong foundation in data analytics by bringing together a diverse body of knowledge from consumer behavior, risk management, operations research, optimization, information systems, computer science, applied statistics, and decision theory for the purpose of data-driven business decision making in both public and private sectors.

Students who graduate from this 45-credit program will have the deep quantitative capabilities and technical expertise to create business and social value by extracting useful insights and applying them in a variety of career settings. The Business Analytics MS can be completed in one year of full-time study or in two years part-time.

Accreditation
This program is accredited by AACSB International. The M.S. program in Business Analytics is STEM designated.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Applicants must have a bachelor's degree from an accredited college or university.

Other requirements to be completed before admission:
- Demonstrated competency in computer programming in at least one of the following computer programming languages is required: Python, R, C, C++, C#, VB, Java, or PHP. Academic transcripts, certificates from online courses, or work experience may be cited to meet this requirement.
- At least one-semester college level calculus course is required.
- Work experience is not required, but preferred.

Special Application Requirements:
Applicants must submit all application materials through the University's admissions system. Application materials include:
- Online application & application fee.
- Transcripts from all colleges/universities previously attended. Non-English transcripts must be accompanied by an English translation.
- A GMAT or GRE General Test that is not more than five years old, with an acceptable score. A GMAT/GRE waiver is available for qualified candidates.
- For international students, an acceptable score on the Test of English as a Foreign Language (TOEFL) International Language Testing System (IELTS).
- Two letters of recommendations need to be submitted through the online application.
- A personal statement: submit essay responses to the three prompts below (2 pages maximum). Please answer each prompt as a separate short essay. (1) Why are you interested in studying at the Carlson School of Management at the University of Minnesota? What draws you to the Carlson School's MSBA program specifically? (approx. 200 words). (2) Briefly discuss your short- and long-term career goals. How will completing the MSBA program at this time help you toward achieving your goals? (approx. 275 words). (3) An aptitude for technical and quantitative work is necessary for success in the MSBA program. Please provide a specific example(s) from your past academic project, internship, or professional experience where you used a technical/quantitative tool or method to solve a problem. Please provide details describing the problem/situation; the actions you took; the specific tools, programming languages, and methods you used; and the results of your actions. (approx. 275 words)
- Applicants must submit a current resume that includes job responsibilities and accomplishments in the online application.
- Applicants may choose to submit an essay to comment on any item(s) in their application they consider worthy of further explanation.
- Admissions interview (by invitation only).
- Video essay.

For admissions details, please visit https://carlsonschool.umn.edu/degrees/master-science-in-business-analytics/applying-admission

Applicants must submit their test score(s) from the following:

- GRE
- GMAT

International applicants must submit score(s) from one of the following tests:

- TOEFL
- IELTS

Key to test abbreviations (GRE, GMAT, TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

**Plan C:** Plan C requires 45 major credits and up to null credits outside the major. There is no final exam. A capstone project is required.

**Capstone Project:** Students engage in an experiential learning application of the analytics methodologies, techniques, and tools learned throughout the program to a real-world problem. The final project consists of the development and presentation of results, interpretations, insights, and recommendations.

This program may not be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.8 is required for students to remain in good standing.

Some business/basic technical requirements can be waived for students with degrees in related business areas/computer science.

**Business/Management Fundamentals (13 credits)**

Take the following courses. Take MSBA 6355 for 1.5 credits.

- **MSBA 6111** - Business Essentials (3.0 cr)
- **MSBA 6121** - Introduction to Statistics for Data Scientists (3.0 cr)
- **MSBA 6131** - Introduction to Business Analytics in R (3.0 cr)
- **MSBA 6141** - Ethics and Data Privacy (1.0 cr)
- **MSBA 6345** - Consultative Problem-Solving & Agile Management for Analytics Projects (1.5 cr)
- **MSBA 6355** - Building and Managing Teams (0.5 cr)

**Elective (2 credits)**

Select at least 2 elective credits in consultation with the advisor.

- **APEC 5831** - Food and Agribusiness Marketplace (2.0 - 3.0 cr)
- **BLAW 6158** - The study of laws affecting private business and publicly-traded companies. (2.0 cr)
- **ENTR 6036** - Managing the Growing Business (2.0 cr)
- **FINA 6123** - Financial Services Industry (2.0 cr)
- **FINA 6325** - Behavioral Finance (2.0 cr)
- **IDSC 6003** - Accounting and Information Systems (2.0 cr)
- **IDSC 6041** - Information Technology Management (2.0 cr)
- **IDSC 6051** - Information Technologies and Solutions (2.0 cr)
- **IDSC 6423** - Enterprise Systems (2.0 cr)
- **INS 6105** - Corporate Risk Management (2.0 cr)
- **INS 6101** - Employee Benefits (2.0 cr)
INS 6200 - Insurance Theory and Practice (2.0 cr)
MBA 6111 - Leading Others (2.0 cr)
MBA 6141 - Managerial Economics (2.0 cr)
MBA 6235 - Managerial Accounting (2.0 cr)
MBA 6315 - The Ethical Environment of Business (2.0 cr)
MCOM 5515 - Persuasive Writing in Business (2.0 cr)
MCOM 5535 - Strategies and Skills for Managerial Presentations (2.0 cr)
MGT 6004 - Negotiation Strategies (2.0 cr)
MGT 6032 - Strategic Alliances (2.0 cr)
MGT 6033 - Strategy Implementation (2.0 cr)
MGT 6041 - Competing Globally (2.0 cr)
MGT 6055 - Management of Innovation and Change (2.0 cr)
MGT 6084 - Management of Teams (2.0 cr)
MGT 6310 - Cross-Cultural Management: Developing Intercultural Competence (2.0 cr)
MGT 6465 - Leadership and Personal Development (2.0 cr)
MILI 6235 - Pharmaceutical Industry: Business and Policy (2.0 cr)
MILI 6589 - Medical Technology Evaluation and Market Research (2.0 cr)
MILI 6985 - The Health Care Marketplace (2.0 cr)
MILI 6991 - Anatomy and Physiology for Managers (2.0 cr)
MILI 6995 - Medical Industry Valuation Laboratory (2.0 cr)
MKTG 6052 - Marketing Analytics: Managerial Decisions (2.0 cr)
MKTG 6086 - Digital Marketing (2.0 cr)
MSBA 6461 - Advanced AI for Business Applications (2.0 cr)

Technical Fundamentals (9 credits)
Take the following courses:
MSBA 6311 - Programming for Data Science (3.0 cr)
MSBA 6321 - Data Management, Databases, and Data Warehousing (3.0 cr)
MSBA 6331 - Big Data Analytics (3.0 cr)

Specialty Courses (15 credits)
Take the following courses:
MSBA 6411 - Exploratory Data Analytics (3.0 cr)
MSBA 6421 - Predictive Analytics (3.0 cr)
MSBA 6431 - Advanced Issues in Business Analytics (3.0 cr)
MSBA 6441 - Causal Inference via Econometrics and Experimentation (3.0 cr)
MSBA 6451 - Optimization and Simulation for Decision Making (3.0 cr)

Capstone Experience (6 credits)
Take the following course:
MSBA 6511 - Business Analytics Experiential Learning (3.0 - 6.0 cr)

Joint- or Dual-degree Coursework: MS-Business Analytics/MBAMS-Business Analytics/MS-Finance
Student may take a total of 22 credits in common among the academic programs.

- Program Type: Post-baccalaureate credit certificate/licensure/endorsement
- Requirements for this program are current for Fall 2022
- Length of program in credits: 12
- This program does not require summer semesters for timely completion.
- Degree: Business Analytics Postbaccalaureate Certificate

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Business analytics and data science is one of the most sought after skill sets in modern industry. The Business Analytics certificate offers candidates the skills to extract insights with creative data analysis, and then apply the results in real business settings.

Program Delivery
This program is available:
- primarily online (at least 80% of the instruction for the program is online with short, intensive periods of face-to-face coursework)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
Applicants must have a bachelors degree from an accredited institution.

Other requirements to be completed before admission:
Please review the Admissions Checklist online for detailed admissions requirements: https://carlsonschool.umn.edu/degrees/graduate-certificates/admissions-requirements

Special Application Requirements:
- Demonstrated competency in computer programming in at least one of the following computer programming languages is required: Python, R, C, C++, C#, VB, Java, PHP, Pascal, or Fortran. Academic transcripts, certificates from online courses, or work experience may be cited to meet this requirement.
- At least one-semester college level math course (e.g. Calculus, Linear Algebra) is required.

International applicants must submit score(s) from one of the following tests:
- TOEFL
- IELTS

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.8 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.
Required Coursework (12 credits)

Take the following courses:
- MABA 6121 - Practical Statistics for Business Applications (2.0 cr)
- MABA 6251 - AI for Competitive Advantage (2.0 cr)
- MABA 6311 - Programming for Business Analytics (2.0 cr)
- MABA 6321 - Data Management and Big Data (2.0 cr)
- MABA 6341 - Data Visualization (2.0 cr)
- MABA 6131 - Mathematics Essentials for Business Analytics (2.0 cr)

Email: mbasa@umn.edu
Website: https://carlsonschool.umn.edu/degrees/business-management-minor

- Program Type: Graduate free-standing minor
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 8
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.
- Coursework is delivered through the Carlson School of Management via the following delivery methods: in-person courses on the Twin Cities campus, courses utilizing a hybrid of in-person meetings and online content delivery, or coursework delivered completely online.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The free-standing graduate-level minor in business management will enhance the preparation of graduate students to enter into organizations with a solid foundation of knowledge in key business disciplines. The business management minor program is flexible and designed to suit the particular needs and interests of the student through completion of a broad range of business core (foundation) and elective courses.

Note: Students enrolled in the master of business administration program or the business administration PhD program are not eligible for this minor.

Accreditation
This program is accredited by AACSB International

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- completely online (all program coursework can be completed online)
- primarily online (at least 80% of the instruction for the program is online with short, intensive periods of face-to-face coursework)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
Other requirements to be completed before admission:
Prior admission into an established master's or doctoral degree program at the University of Minnesota Twin Cities is required. Students must be in good academic standing within their own program to be admitted to the business minor. Students enrolled in the master of business administration program or the business administration PhD program are not eligible for this minor.

Students should first consult with their major program advisor about the advisability of a business minor and whether it is permitted by their program. They may then contact graduate program coordinator, Molly Bendzick (mollyb@umn.edu or (612) 625-7582) for more information on the minor.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
## Program Requirements

Use of 4xxx courses towards program requirements is not permitted.

### Minor Coursework (8 - 12 credits)

Master's students select 8 credits and doctoral students select 12 credits from the following:

- **ACCT 5181** - Consolidations and Advanced Reporting (2.0 cr)
- **ACCT 6102** - Financial Statement Analysis (2.0 cr)
- **APEC 5831** - Food and Agribusiness Marketplace (2.0 - 3.0 cr)
- **BLAW 6158** - The study of laws affecting private business and publicly-traded companies. (2.0 cr)
- **ENTR 6021** - Developing New Ventures (2.0 cr)
- **ENTR 6023** - Financing Business Ventures (2.0 cr)
- **ENTR 6025** - Introduction to Entrepreneurship (2.0 cr)
- **ENTR 6036** - Managing the Growing Business (2.0 cr)
- **ENTR 6037** - Corporate Venturing (2.0 cr)
- **ENTR 6041** - Initiating New Product Design and Business Development (4.0 cr)
- **ENTR 6042** - Implementing New Product Design and Business Development (4.0 cr)
- **FINA 5529** - Derivatives II (2.0 cr)
- **FINA 6111** - Financing over a Firm’s Lifecycle (1.0 cr)
- **FINA 6112** - Private Equity (1.0 cr)
- **FINA 6113** - Public Equity (1.0 cr)
- **FINA 6121** - Debt Markets, Interest Rates, and Hedging (2.0 cr)
- **FINA 6122** - Financial Management of Depository Institutions (2.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Twin Cities Campus
Business Research M.S.
Curtis L. Carlson School of Management - Adm
Curtis L. Carlson School of Management

Link to a list of faculty for this program.

Contact Information:
Business Administration PhD Program, Suite 4-205, 321-19th Avenue South, Minneapolis, MN  55455 (Phone: 612-624-0875; Fax: 612-624-8221)
Email: csom-phd@umn.edu
Website: https://carlsonschool.umn.edu/degrees/phd

• Program Type: Master's
• Requirements for this program are current for Fall 2022
• Length of program in credits: 40 to 44
• This program does not require summer semesters for timely completion.
• Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The business research MS is a terminal master's degree option restricted to eligible business administration PhD students who do not complete the doctoral degree. Applications to the business research MS are not otherwise considered.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Applicants must be current business administration PhD students who have completed all required core, concentration, and supporting coursework for the doctoral degree. The preliminary written examination must have been passed at the master's level, based on a set of criteria approved by the Carlson School PhD Committee comprising members from all seven areas of concentration.

Applicants must submit their test score(s) from the following:
• GRE
• GMAT
  - Total score: 650

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 100
• IELTS
  - Total Score: 7

Key to test abbreviations (GRE, GMAT, TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Plan C: Plan C requires 24 to 28 major credits and 16 credits outside the major. The is no final exam.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.
A minimum GPA of 3.3 is required for students to remain in good standing.

At least 4 semesters must be completed before filing a Degree Program Form.

Areas of Concentration
Students select one of seven areas of concentration. Concentration areas may require a first-year examination/presentation in addition to other program requirements.

Accounting (40 credits)
Students pursuing the accounting concentration must work under one of two accounting research paradigms: analytic or empirical.

Required Accounting Coursework (24 credits)
Take the following 24 credits:
- ACCT 8801 - Topics in Empirical Research I (2.0 cr)
- ACCT 8802 - Topics in Empirical Research II (2.0 cr)
- ACCT 8803 - Topics in Empirical Research III (2.0 cr)
- ACCT 8811 - Topics in Information Economics I (2.0 cr)
- ACCT 8812 - Topics in Information Economics II (2.0 cr)
- ACCT 8813 - Topics in Information Economics III (2.0 cr)
- ACCT 8821 - Topics in Capital Markets I (2.0 cr)
- ACCT 8822 - Topics in Capital Markets II (2.0 cr)
- ACCT 8823 - Topics in Capital Markets III (2.0 cr)
- ACCT 8831 - Topics in Analytical Research I (2.0 cr)
- ACCT 8832 - Analytical Research Topics II (2.0 cr)
- ACCT 8833 - Topics in Analytical Research III (2.0 cr)

Supporting/Methodology Coursework (16 credits)
Courses must be chosen in consultation with the advisor or PhD coordinator. Suggested coursework is listed below.
- ACCT 8892 - Readings in Accounting (1.0 - 8.0 cr)
- ACCT 8894 - Research in Accounting (1.0 - 8.0 cr)
- APEC 8001 - Applied Microeconomic Analysis of Consumer Choice and Consumer Demand (2.0 cr)
- APEC 8002 - Applied Microeconomic Analysis of Production and Choice Under Uncertainty (2.0 cr)
- APEC 8003 - Applied Microeconomic Analysis of Game Theory and Information (2.0 cr)
- APEC 8004 - Applied Microeconomic Analysis of Social Choice and Welfare (2.0 cr)
- APEC 8211 - Econometric Analysis I (2.0 cr)
- APEC 8212 - Econometric Analysis II (2.0 cr)
- CSOM 8101 - Methods and Topics in Applied Economics (2.0 - 4.0 cr)
- ECON 8003 - Microeconomic Analysis (2.0 cr)
- ECON 8004 - Microeconomic Analysis (2.0 cr)
- ECON 8205 - Applied Econometrics (2.0 cr)
- FINA 8802 - Theory of Capital Markets I: Discrete Time (2.0 cr)
- FINA 8812 - Corporate Finance I (2.0 cr)

- MATH 4604 - Advanced Calculus II (4.0 cr)
- MATH 5651 - Basic Theory of Probability and Statistics (4.0 cr)
- PUBH 6325 - Data Processing with PC-SAS (1.0 cr)
- STAT 5102 - Theory of Statistics II (4.0 cr)
- STAT 8101 - Theory of Statistics 1 (3.0 cr)
- OR-

Finance (44 credits)
Finance is viewed as a subfield of economics. Students achieve a strong foundation in economic theory and empirical methods.

Required Finance Coursework (20 credits)
Take at least 20 credits from the following list. FINA 8810, 8820, and 8890 may be taken more than once.
- FINA 8802 - Theory of Capital Markets I: Discrete Time (2.0 cr)
- FINA 8803 - Theory of Capital Markets II: Continuous Time (2.0 cr)
- FINA 8804 - Advanced Continuous Time Finance (2.0 cr)
- FINA 8810 - Topics in Asset Pricing (2.0 cr)
- FINA 8812 - Corporate Finance I (2.0 cr)
- FINA 8813 - Corporate Finance II (2.0 cr)
- FINA 8820 - Topics in Corporate Finance (2.0 cr)
- FINA 8822 - Empirical Methods in Finance (2.0 cr)
- FINA 8823 - Empirical Corporate Finance (2.0 cr)
- FINA 8890 - Seminar: Finance Topics (2.0 - 4.0 cr)

Additional Required Finance Coursework (8 credits)
Take the following sequence of economics courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 8101</td>
<td>Microeconomic Theory</td>
<td>2.0 cr</td>

**Supporting Field Coursework (16 credits)**

Courses must be chosen in consultation with the advisor or PhD coordinator. Take 16 or more credit(s) from the following:

- **APEC 8001** - Applied Microeconomic Analysis of Consumer Choice and Consumer Demand (2.0 cr)
- **APEC 8002** - Applied Microeconomic Analysis of Production and Choice Under Uncertainty (2.0 cr)
- **APEC 8003** - Applied Microeconomic Analysis of Game Theory and Information (2.0 cr)
- **APEC 8206** - Dynamic Optimization: Applications in Economics and Management (3.0 cr)
- **APEC 8211** - Econometric Analysis I (2.0 cr)
- **APEC 8212** - Econometric Analysis II (2.0 cr)
- **CSCI 5125** - Collaborative and Social Computing (3.0 cr)
- **CSCI 5980** - Special Topics in Computer Science (1.0 - 3.0 cr)
- **CSCI 8551** - Intelligent Agents (3.0 cr)
- **CSCI 9980** - Special Advanced Topics in Computer Science (1.0 - 3.0 cr)
- **CSOM 8101** - Methods and Topics in Applied Economics (2.0 - 4.0 cr)
- **ECON 8581** - Advanced Topics in Labor Economics (2.0 cr)
- **ECON 8601** - Industrial Organization and Government Regulation (2.0 cr)
- **ECON 8602** - Industrial Organization and Government Regulation (2.0 cr)
- **EPSY 8252** - Statistical Methods in Education II (3.0 cr)
- **EPSY 8264** - Advanced Multiple Regression Analysis (3.0 cr)
- **EPSY 8267** - Applied Multivariate Analysis (3.0 cr)
- **EPSY 8268** - Hierarchical Linear Modeling in Educational Research (3.0 cr)
- **HRIR 8820** - Seminar: Special Topics in Work and Organizations Research (2.0 cr)
- **IDSC 8892** - Readings in Information and Decision Sciences (1.0 - 8.0 cr)
- **IDSC 8894** - Graduate Research in Information and Decision Sciences (1.0 - 8.0 cr)
- **MGMT 8101** - PhD Seminar: Theory Building (2.0 cr)
- **MGMT 8104** - PhD Seminar: Research Design (2.0 cr)
- **MGMT 8302** - Seminar in Organizational Theory (4.0 cr)
- **MKTG 8842** - Quantitative Modeling I (2.0 cr)
- **PA 8302** - Applied Policy Analysis (4.0 cr)
- **PSY 5018H** - Mathematical Models of Human Behavior (3.0 cr)
- **PSY 5862** - Psychological Measurement: Theory and Methods (3.0 cr)
- **PSY 5993** - Research Laboratory in Psychology (3.0 cr)
- **PSY 8201** - Social Cognition (3.0 cr)
- **PSY 8960** - Graduate Seminar in Psychology (1.0 - 4.0 cr)
- **PUBH 7430** - Statistical Methods for Correlated Data (3.0 cr)
• PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
• PUBH 8432 - Probability Models for Biostatistics (3.0 cr)
• PUBH 8442 - Bayesian Decision Theory and Data Analysis (3.0 cr)
• PUBH 8804 - Advanced Quantitative Methods Seminar (3.0 cr)
• SOC 8412 - Social Network Analysis: Theory and Methods (3.0 cr)
• SOC 8811 - Advanced Social Statistics (4.0 cr)
• STAT 8101 - Theory of Statistics I (3.0 cr)

-OR-

Marketing (40 credits)

Students pursuing the marketing concentration choose one of two focus areas: consumer behavior or quantitative/marketing strategy.

Consumer Behavior Concentration (24 credits)

Take at least 16 credits of consumer behavior seminars from the list below. Mktg 8810 can be repeated. In addition, take at least 8 credits from the quantitative/marketing strategy concentration course list.

Take 16 or more credit(s) from the following:
- MKTG 8809 - Consumer Behavior Research Methods (2.0 cr)
- MKTG 8810 - Consumer Behavior Special Topics (2.0 cr)
- MKTG 8811 - Consumer Attitudes and Persuasion I (2.0 cr)
- MKTG 8812 - Consumer Attitudes and Persuasion II (2.0 cr)
- MKTG 8813 - Consumer Judgment and Decision Making I (2.0 cr)
- MKTG 8814 - Consumer Judgment and Decision Making II (2.0 cr)

or Quantitative/Marketing Strategy Concentration (24 credits)

Take at least 14 credits of quantitative/marketing strategy seminars from the list below. Mktg 8890 can be repeated. In addition, take at least 10 credits from the consumer behavior concentration course list.

Take 14 or more credit(s) from the following:
- MKTG 8831 - Seminar: Inter-Organizational Relations (4.0 cr)
- MKTG 8842 - Quantitative Modeling I (2.0 cr)
- MKTG 8843 - Empirical Quantitative Models (4.0 cr)
- MKTG 8851 - Seminar: Management Marketing and Strategy I (2.0 cr)
- MKTG 8852 - Marketing Management & Strategy II (2.0 cr)
- MKTG 8890 - Seminar: Marketing Topics (1.0 - 4.0 cr)

Supporting/Methodology Coursework (16 credits)

Courses must be chosen in consultation with the advisor or PhD coordinator. Suggested courses are listed below.

ACCT 8811 - Topics in Information Economics I (2.0 cr)
ACCT 8831 - Topics in Analytical Research I (2.0 cr)
APEC 8211 - Econometric Analysis I (2.0 cr)
APEC 8212 - Econometric Analysis II (2.0 cr)
CSOM 8101 - Methods and Topics in Applied Economics (2.0 - 4.0 cr)
ECON 8003 - Microeconomic Analysis (2.0 cr)
ECON 8004 - Microeconomic Analysis (2.0 cr)
ECON 8101 - Microeconomic Theory (2.0 cr)
ECON 8102 - Microeconomic Theory (2.0 cr)
ECON 8103 - Microeconomic Theory (2.0 cr)
ECON 8104 - Microeconomic Theory (2.0 cr)
ECON 8118 - Noncooperative Game Theory (2.0 cr)
ECON 8119 - Cooperative Game Theory (2.0 cr)
ECON 8191 - Workshop in Mathematical Economics (1.0 cr)
ECON 8205 - Applied Econometrics (2.0 cr)
ECON 8206 - Applied Econometrics (2.0 cr)
ECON 8207 - Applied Econometrics (2.0 cr)
ECON 8208 - Applied Econometrics (2.0 cr)
ECON 8211 - Econometrics (2.0 cr)
ECON 8212 - Econometrics (2.0 cr)
ECON 8601 - Industrial Organization and Government Regulation (2.0 cr)
ECON 8602 - Industrial Organization and Government Regulation (2.0 cr)
ECON 8603 - Industrial Organization and Government Regulation (2.0 cr)
EPSY 5221 - Principles of Educational and Psychological Measurement (3.0 cr)
EPSY 5245 - Advanced Survey Data Analysis for Categorical and Rating Scale Data (1.0 cr)
EPSY 5261 - Introductory Statistical Methods (3.0 cr)
EPSY 5262 - Intermediate Statistical Methods (3.0 cr)
EPSY 8251 - Statistical Methods in Education I (3.0 cr)
EPSY 8252 - Statistical Methods in Education II (3.0 cr)
EPSY 8264 - Advanced Multiple Regression Analysis (3.0 cr)
EPSY 8267 - Applied Multivariate Analysis (3.0 cr)
IDSC 8721 - Behavioral Decision Theory (3.0 cr)
MKTG 8892 - Readings in Marketing (1.0 - 8.0 cr)
MKTG 8894 - Graduate Research in Marketing (1.0 - 8.0 cr)
MSBA 6441 - Causal Inference via Econometrics and Experimentation (3.0 cr)
PSY 5202 - Attitudes and Social Behavior (3.0 cr)
PSY 5204 - Psychology of Interpersonal Relationships (3.0 cr)
PSY 5207 - Personality and Social Behavior (3.0 cr)
PSY 5862 - Psychological Measurement: Theory and Methods (3.0 cr)
PSY 8203 - Impression Management (3.0 cr)
PSY 8208 - Social Psychology: The Self (3.0 cr)
PSY 8209 - Research Methods in Social Psychology (3.0 cr)
PSY 8935 - Readings in Behavioral Genetics and Individual Differences Psychology (1.0 cr)
PSY 8960 - Graduate Seminar in Psychology (1.0 - 4.0 cr)
STAT 5021 - Statistical Analysis (4.0 cr)
STAT 5303 - Designing Experiments (4.0 cr)

Strategic Management and Entrepreneurship (40 credits)
Students focus on leadership, strategy, and entrepreneurship connecting the external worlds of competition and collaboration.
Required SME Coursework (16 credits)
Take the following courses:
CSOM 8101 - Methods and Topics in Applied Economics (2.0 - 4.0 cr)
MGMT 8102 - Research Methods I - Applied Empirical Methods (2.0 cr)
MGMT 8302 - Seminar in Organizational Theory (4.0 cr)
MGMT 8401 - Strategy I (2.0 cr)
MGMT 8403 - Strategy II (2.0 cr)
MGMT 8501 - Seminar in Entrepreneurship (4.0 cr)

SME Elective Coursework (8 credits)
Take at least 8 credits of SME electives from the list below.
MGMT 8101 - PhD Seminar: Theory Building (2.0 cr)
MGMT 8104 - PhD Seminar: Research Design (2.0 cr)
MGMT 8202 - Seminar in International Management (2.0 cr)
MGMT 8402 - Seminar in Behavioral Strategy (2.0 cr)
MGMT 8404 - Seminar in Non-Market Strategy (2.0 cr)
MGMT 8405 - Seminar in Technology Strategy (2.0 cr)

Supporting /Methodology Coursework (16 credits)
Take a minimum of 16 credits of supporting field/methodology coursework. APEC 8211 (2 cr), APEC 8212 (2 cr) and GRAD 8101 (3 cr) are required. Take an additional 9 credits minimum from the list below.
APEC 8211 - Econometric Analysis I (2.0 cr)
APEC 8212 - Econometric Analysis II (2.0 cr)
GRAD 8101 - Teaching in Higher Education (3.0 cr)

Additional Supporting/Methodology Coursework (9 credits)
Take 9 or more credit(s) from the following:
• APEC 8001 - Applied Microeconomic Analysis of Consumer Choice and Consumer Demand (2.0 cr)
• APEC 8002 - Applied Microeconomic Analysis of Production and Choice Under Uncertainty (2.0 cr)
• APEC 8003 - Applied Microeconomic Analysis of Game Theory and Information (2.0 cr)
• APEC 8004 - Applied Microeconomic Analysis of Social Choice and Welfare (2.0 cr)
• APEC 8213 - Econometric Analysis III (2.0 cr)
• CSCI 5980 - Special Topics in Computer Science (1.0 - 3.0 cr)
• EPSY 8251 - Statistical Methods in Education I (3.0 cr)
• EPSY 8252 - Statistical Methods in Education II (3.0 cr)
• EPSY 8264 - Advanced Multiple Regression Analysis (3.0 cr)
• EPSY 8268 - Hierarchical Linear Modeling in Educational Research (3.0 cr)
• FINA 8823 - Empirical Corporate Finance (2.0 cr)
• HINF 5502 - Python Programming Essentials for the Health Sciences (1.0 cr)
• MATH 5651 - Basic Theory of Probability and Statistics (4.0 cr)
• MKTG 8892 - Readings in Management Theory and Administration (1.0 - 8.0 cr)
• MKTG 8894 - Graduate Research in Management Theory and Administration (1.0 - 8.0 cr)
• MKTG 8831 - Seminar: Inter-Organizational Relations (4.0 cr)
• PA 8302 - Applied Policy Analysis (4.0 cr)
• POL 8106 - Quantitative Political Science I (3.0 cr)
• PUBH 8804 - Advanced Quantitative Methods Seminar (3.0 cr)
• PUBH 8811 - Research Methods in Health Care (3.0 cr)
• SOC 8412 - Social Network Analysis: Theory and Methods (3.0 cr)
• SOC 8701 - Sociological Theory (4.0 cr)
• SOC 8721 - Social Psychology: Micro-Sociological Approaches to Inequalities and Identities (3.0 cr)
• SOC 8735 - Sociology of Culture (3.0 cr)
• SOC 8801 - Sociological Research Methods (4.0 cr)
• SOC 8811 - Advanced Social Statistics (4.0 cr)
• SOC 8890 - Advanced Topics in Research Methods (2.0 - 3.0 cr)
• STAT 8051 - Advanced Regression Techniques: linear, nonlinear and nonparametric methods (3.0 cr)

-OR-

Supply Chain and Operations (42 credits)
Students complete coursework in the areas of operations and supply chain management.

Required SCO Coursework (22 credits)
Take the following courses:
SCO 8811 - Operations Strategy (4.0 cr)
SCO 8821 - Management of Technological Operations (4.0 cr)
SCO 8822 - Innovative Operations (2.0 cr)
SCO 8831 - Supply Chain Management (2.0 cr)
SCO 8832 - Analytical Models for Operations Management (2.0 cr)
SCO 8841 - Behavioral Research in Operations Management (4.0 cr)
SCO 8842 - Retail Operations (2.0 cr)
SCO 8843 - Sustainable and Socially-Responsible Operations (2.0 cr)

Supporting Field/Methodology Coursework (14 credits)
Take the following courses:
APEC 8211 - Econometric Analysis I (2.0 cr)
APEC 8212 - Econometric Analysis II (2.0 cr)
APEC 8213 - Econometric Analysis III (2.0 cr)
APEC 8214 - Econometric Analysis IV (2.0 cr)
MGMT 8101 - PhD Seminar: Theory Building (2.0 cr)
STAT 5101 - Theory of Statistics I (4.0 cr)

Additional Supporting/Methodology Coursework (6 credits)
APEC 8208 - Dynamic Optimization: Applications in Economics and Management (3.0 cr)
APEC 8602 - Economics of the Environment (3.0 cr)
EPSY 8251 - Statistical Methods in Education I (3.0 cr)
EPSY 8264 - Advanced Multiple Regression Analysis (3.0 cr)
EPSY 8266 - Statistical Analysis Using Structural Equation Methods (3.0 cr)
EPSY 8268 - Hierarchical Linear Modeling in Educational Research (3.0 cr)
EPSY 8282 - Statistical Analysis of Longitudinal Data (3.0 cr)
HINF 5502 - Python Programming Essentials for the Health Sciences (1.0 cr)
HRIR 8802 - Core Seminar: Organizational Behavior (4.0 cr)
MGMT 8302 - Seminar in Organizational Theory (4.0 cr)
MKTG 8842 - Quantitative Modeling I (2.0 cr)
MKTG 8843 - Empirical Quantitative Models (4.0 cr)
PA 5032 - Applied Regression (2.0 cr)
PA 5033 - Multivariate Techniques (2.0 cr)
PUBH 7405 - Biostatistical Inference I (4.0 cr)
PUBH 7406 - Biostatistical Inference II (3.0 cr)
PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
PUBH 7475 - Statistical Learning and Data Mining (3.0 cr)
PUBH 8804 - Advanced Quantitative Methods Seminar (3.0 cr)
PUBH 8811 - Research Methods in Health Care (3.0 cr)
SOC 5811 - Social Statistics for Graduate Students (3.0 cr)
SOC 8412 - Social Network Analysis: Theory and Methods (3.0 cr)

STAT 5701 - Statistical Computing (3.0 cr)
STAT 8051 - Advanced Regression Techniques: linear, nonlinear and nonparametric methods (3.0 cr)
STAT 8311 - Linear Models (3.0 cr)

-OR-

Work and Organizations (44 credits)
Students complete multidisciplinary coursework covering organizational behavior, human resource management, organizational economics, personnel economics, labor relations, and related areas.

Required WOrg Coursework (28 credits)
Take HRIR 8820 4 times for a total of 8 credits. Take HRIR 8825 4 times for a total of 4 credits.
Take 28 or more credit(s) from the following:
• HRIR 8801 - Core Seminar: Fundamentals of Economic Analysis for Work and Organizations (4.0 cr)
• HRIR 8802 - Core Seminar: Organizational Behavior (4.0 cr)
• HRIR 8803 - Core Seminar: Fundamentals of HR Research (4.0 cr)
• HRIR 8812 - Core Seminar: Research Methods in Work and Organizations (4.0 cr)
• HRIR 8820 - Seminar: Special Topics in Work and Organizations Research (2.0 cr)
• HRIR 8825 - Research Practicum/Workshop (1.0 cr)

Supporting/Methodology Coursework (16 credits)
Take a minimum of 16 credits of supporting field/methodology coursework which must include: EPsy 8264 (3 cr); Psy 5862 (3 cr); APEC 5031 (3 cr) or, APEC 8211 and APEC 8212 (2 cr each); and 7 additional credits of supporting field coursework from the list below.

EPsy 8264 - Advanced Multiple Regression Analysis (3.0 cr)
Psy 5862 - Psychological Measurement: Theory and Methods (3.0 cr)

Required Supporting/Methodology course (3 credits)
Take either APEC 5031 (3 cr) or, APEC 8211 and APEC 8212 (2 cr each).

Take 3 or more credit(s) from the following:
• APEC 5031 - Methods of Economic Data Analysis (3.0 cr)
• APEC 8211 - Econometric Analysis I (2.0 cr)
• APEC 8212 - Econometric Analysis II (2.0 cr)

Additional supporting/methodology coursework (7 credits)
Take 7 or more credit(s) from the following:
• APEC 8003 - Applied Microeconomic Analysis of Game Theory and Information (2.0 cr)
• APEC 8051 - Labor Economics I (2.0 cr)
• APEC 8502 - Labor Economics II (2.0 cr)
• CSOM 8101 - Methods and Topics in Applied Economics (2.0 - 4.0 cr)
• ECON 8205 - Applied Econometrics (2.0 cr)
• ECON 8206 - Applied Econometrics (2.0 cr)
• EPsy 5247 - Qualitative Methods in Educational Psychology (3.0 cr)
• EPsy 5261 - Introductory Statistical Methods (3.0 cr)
• EPsy 8266 - Statistical Analysis Using Structural Equation Methods (3.0 cr)
• EPsy 8268 - Hierarchical Linear Modeling in Educational Research (3.0 cr)
• EPsy 8282 - Statistical Analysis of Longitudinal Data (3.0 cr)
• HRIR 8991 - Independent Study in Human Resources and Industrial Relations (1.0 - 8.0 cr)
• MGMT 8101 - PhD Seminar: Theory Building (2.0 cr)
• MGMT 8104 - PhD Seminar: Research Design (2.0 cr)
• PSY 8208 - Social Psychology: The Self (3.0 cr)
• PSY 8664 - Personality Assessment (3.0 cr)
• PSY 8701 - Seminar in Industrial and Organizational Psychology I (3.0 cr)
• PSY 8702 - Seminar in Industrial and Organizational Psychology II (3.0 cr)
• PSY 8960 - Graduate Seminar in Psychology (1.0 - 4.0 cr)
• PUBH 6724 - The Health Care System and Public Health (3.0 cr)
• PUBH 6832 - Economics of the Health Care System (3.0 cr)
• SOC 8590 - Topics in Life Course Sociology (3.0 cr)

Masters Programs in Accounting, 3-110 Carlson School of Management, 321 19th Avenue South, Minneapolis, MN 55455 (612-624-7511; fax: 612-626-7795).
Email: mbt@umn.edu
Website: http://www.carlsonschool.umn.edu/degrees/master-business-taxation

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Business Taxation

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

As one of the premier graduate tax programs in the nation, the Carlson School Master of Business Taxation (MBT) program helps students acquire a conceptual understanding of taxation, and develop technical competence in the practical application of the rules of taxation in business. In addition, courses in government and economic tax policy, tax negotiations, and tax technology and analytics provide breadth to complement the technical tax courses. Courses are also designed to develop a student's analytical, problem solving, writing and communication skills to enable them to more quickly advance their careers.

The program gives students a chance to learn from world-class faculty who are distinguished professionals with extensive real-life experience. The faculty have in-depth knowledge of the tax industry and work closely with the Twin Cities business community. Combining rigorous coursework and top faculty from the tax community brings a broad perspective into the relationship between tax and business issues, which helps prepare graduates for greater responsibilities in business management and consulting.

Historically, more than 80 percent of students are employed in the business community and take courses on a part-time basis. All courses are online. The MBTs online courses are asynchronous, divided into weekly modules. They are designed by online learning experts and employ the latest technologies. To free tax professionals from coursework responsibilities during the busiest part of tax season, no courses are offered during the spring semester from early March through April 15.

Program Delivery
This program is available:
- completely online (all program coursework can be completed online)
- primarily online (at least 80% of the instruction for the program is online with short, intensive periods of face-to-face coursework)

Prerequisites for Admission
Required prerequisites
Introduction to Accounting
ACCT 2051 - Introduction to Accounting (4.0 cr)
or equivalent course taken at another institution

Introduction to Federal Income Tax
ACCT 5135 - Fundamentals of Federal Income Tax (4.0 cr)
or equivalent course at another institution

Other requirements to be completed before admission:
Applicants must have a bachelor's degree from an accredited college or university.

The following required prerequisite courses may be taken after being admitted to the MBT program, but must be taken before being eligible to take any MBT courses: ACCT 2051 and ACCT 5135. Equivalent courses may be substituted with approval of the director of graduate studies.

Special Application Requirements:
Fall application deadline: June 15
Spring application deadline: October 15
Summer application deadline: March 15

Applicants must submit all application materials through the University’s admission system.

For international applicants, the results from one of the following English language tests are required: TOEFL, IELTS, MELAB. TOEFL scores must be received directly from TOEFL. IELTS and MELAB scores must be received directly from the testing center.

For additional application details, review the M.B.T. admissions webpages.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
**Plan C:** Plan C requires 30 major credits and up to null credits outside the major. There is no final exam.

This program may not be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

**Required Courses (22 credits)**
Take the following courses:

- MBT 6201 - Tax Accounting Methods I (2.0 cr)
- MBT 6202 - Tax Accounting Methods II (2.0 cr)
- MBT 6221 - Tax Research, Communication, and Practice (4.0 cr)
- MBT 6231 - Corporate Taxation I (2.0 cr)
- MBT 6232 - Corporate Taxation II (2.0 cr)
- MBT 6341 - Taxation of Partners and Partnerships (2.0 cr)
- MBT 6347 - Tax Technology and Analytics Fundamentals (2.0 cr)
- MBT 6361 - State and Local Taxation (2.0 cr)
- MBT 6381 - Tax Aspects of International Business I (2.0 cr)
- MBT 6501 - Business, Government, and Economic Tax Policy (2.0 cr)

**Elective Courses (8 credits)**
Select 8 credits from the following list. Other courses may be applied to this requirement with prior approval from the MBT director of graduate studies.

- MBT 6226 - Negotiation Techniques in Taxation (2.0 cr)
- MBT 6333 - Tax Aspects of Consolidated Returns (2.0 cr)
- MBT 6335 - Taxation of the Small Business Corporation (2.0 cr)
- MBT 6346 - ASC 740 Computations and Analysis (2.0 cr)
- MBT 6348 - Advanced ASC 740 Concepts (2.0 cr)
- MBT 6351 - Wealth Transfer I (Estates and Gifts) (2.0 cr)
- MBT 6353 - Income Taxation of Fiduciaries (2.0 cr)
- MBT 6363 - Compensation and Benefits (2.0 cr)
- MBT 6371 - Taxation of Property Transactions (2.0 cr)
- MBT 6382 - Tax Aspects of International Business II (2.0 cr)
- MBT 6383 - Transfer Pricing (2.0 cr)

Program Sub-plans
A sub-plan is not required for this program.

Students may not complete the program with more than one sub-plan.

- **Program Type:** Doctorate  
- **Requirements for this program are current for Fall 2022**  
- **Length of program in credits:** 56  
- **This program requires summer semesters for timely completion.**  
- **The program will be taught by faculty members from Tsinghua SEM in Beijing, China and the Carlson School in equal proportions with each school responsible for delivering 50% of the curriculum. The program will be offered in modular format. A total of 16 modules will be required with 2 modules back-to-back in the middle of the program at the Carlson School. All overseas modules will occur in Beijing. Instruction will occur in hotels and on campus at Tsinghua University.**  
- **Degree: Doctor of Business Administration**

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The proposed 56-credit, cohort-based DBA program is an applied, professional doctoral program directed at high-level executives working in China and the surrounding region. The DBA will go beyond the MBA to prepare participants to better face challenges and pursue opportunities in a complex, global business environment. The program will focus on the application rather than the creation of knowledge. A required thesis will involve an applied perspective that yields case studies or comparative studies of corporate actions. The program is a part-time, cohort-based program for fully-employed individuals. Course instruction for the DBA program will be provided by faculty members from both the Carlson School and Tsinghua SEM.

**Accreditation**  
This program is accredited by AACSB International

**Program Delivery**  
This program is available:  
* via classroom (the majority of instruction is face-to-face)*

**Prerequisites for Admission**  
An appropriate baccalaureate degree or higher is required for admission.

Other requirements to be completed before admission:  
15 years of high-level management experience.

**Special Application Requirements:**  
Admission is handled through Tsinghua University, who will recruit and make recommendations on candidates. The Carlson School will either accept or reject recommended candidates. Approved students will be admitted to the University of Minnesota.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

**Program Requirements**  
32 credits are required in the major.
24 thesis credits are required.

This program may not be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

**CORE COURSES**
Students must complete all of the following courses:
Take exactly 32 credit(s) from the following:
- GDBA 7101 - Critical Thinking and Leadership (2.0 cr)
- GDBA 7102 - Exploration of Tsinghua University (2.0 cr)
- GDBA 7103 - Financial Market and Investment Decision Making (2.0 cr)
- GDBA 7104 - International Environment and National Strategy (2.0 cr)
- GDBA 7105 - Management Psychology (2.0 cr)
- GDBA 7106 - Management Wisdom Learned from History (2.0 cr)
- GDBA 7107 - Sinology Wisdom and Management Innovation (2.0 cr)
- GDBA 7108 - The Macroeconomic Situation and Policy (2.0 cr)
- GDBA 7201 - Global Strategic Alliances (2.0 cr)
- GDBA 7202 - Innovation through Emerging Technologies (2.0 cr)
- GDBA 7203 - Marketing Strategies for Firms in the Era of Globalization (1.0 cr)
- GDBA 7204 - Qualitative Research Methods (1.0 cr)
- GDBA 7205 - Global Accounting (1.0 cr)
- GDBA 7206 - Mergers and Acquisitions (1.0 cr)
- GDBA 7207 - Family Wealth Management (1.0 cr)
- GDBA 7208 - Management of Headquarters (1.0 cr)

- This program does not require summer semesters for timely completion.
- Degree: Entrepreneurship and Innovation PBacc Certificate

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

How do you take a new idea or technology and turn it into a commercially successful offering? The post-baccalaureate certificate in Entrepreneurship & Innovation brings together a set of courses designed to help take you through that journey: from idea generation and opportunity identification, through business planning, funding, product development and testing, all the way to managing a growing business. Whether your goal is to learn how to start a new firm or grow a creative idea within an existing one, this certificate offers a fundamental understanding of the principles through which new innovations achieve and sustain success.

**Program Delivery**
This program is available:
- partially online (between 50% to 80% of instruction is online)

**Prerequisites for Admission**
Applicants must have a bachelor's degree from an accredited college or university.

Other requirements to be completed before admission:
Please review the Admissions Checklist online for detailed admissions requirements.

**Special Application Requirements:**
International students must have an acceptable score on the Test of English as a Foreign Language (TOEFL), the International English Language Testing System (IELTS), or the Pearson Test of English Academic (PTE).

International students who want to attend this program on a student visa should contact the University's International Student and Scholar Services (ISSS) office at [https://isss.umn.edu/](https://isss.umn.edu/).

Applicants must submit their test score(s) from the following:
- Pearson Test of English Academic (PTE)

International applicants must submit score(s) from one of the following tests:
- TOEFL
- IELTS

Key to test abbreviations (TOEFL, IELTS).

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 39
- This program requires summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The 39-credit master of science program in finance provides students with an advanced understanding of the tools and methods used in businesses and in financial markets. The program focuses on combining financial theory with quantitative and computational methods and real-world applications. Students can complete this full-time graduate program in 10 or 16 months. Graduates will be able to analyze and interpret complex financial data and communicate its implications. Successful applicants begin their MS studies in summer (July).

Accreditation
This program is accredited by AACSB International. The M.S. in Finance is STEM designated.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Applicants must have a bachelor's degree from an accredited college or university.

Other requirements to be completed before admission:
- University level courses in calculus and statistics are required.
- Linear algebra is recommended, but not required.
- Work experience is not required, but preferred.

Additional requirements for MSF Research Track:
- Linear Algebra
- Intermediate Microeconomics
- Intermediate Macroeconomics

Special Application Requirements:
Applicants must submit all application materials through the University's admissions system. Application materials include:
- Online application & application fee.
- Transcripts from all colleges/universities previously attended. Non-English transcripts must be accompanied by an English translation.
- A GMAT or GRE General Test that is not more than five years old, with an acceptable score. A GMAT/GRE waiver is available for qualified candidates.
- For international and domestic applicants whose first language is not English, an acceptable score on the Test of English as a Foreign Language (TOEFL), International Language Testing System (IELTS), or Pearson (PTE).
- Two recommendations need to be submitted through the online application.
- A personal statement of career goals, and objectives for pursuing a MS Finance degree. The personal statement questions are the
following:

(1) Why are you interested in studying at the Carlson School of Management at the University of Minnesota? What draws you to the Carlson School's MSF program specifically? (approx. 200 words)

(2) Briefly describe your short-term and long-term career goals. How will completing an MS in Finance program at this time help you toward achieving your goals? (approx. 300 words)

(3) What do you feel makes you a strong candidate for the program? How will you contribute to the program overall? (approx. 250 words)

(4) Additional question required for MSF Research Track: Please briefly describe any research experience that you had before. What did you learn from your research experience?

- Applicants must submit a current resume that includes job responsibilities and accomplishments in the online application.
- Applicants may choose to submit an essay to comment on any item(s) in their application they consider worthy of further explanation.
- Video Essay.
- Interview (by invitation only).

https://carlsonschool.umn.edu/degrees/master-science-in-finance/admissions/application-requirements

Applicants must submit their test score(s) from the following:

- GRE
- GMAT

International applicants must submit score(s) from one of the following tests:

- TOEFL
- IELTS

Key to test abbreviations (GRE, GMAT, TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan C: Plan C requires 39 major credits and up to null credits outside the major. The is no final exam. A capstone project is required.

Capstone Project: Students engage in full-semester experiential learning application of finance theory and quantitative, computational skills learned throughout the program to analyze real financial challenges for real client companies. The final project consists of the development and presentation of results, interpretations, insights, and recommendations, which client companies then use in their business practices.

This program may not be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.8 is required for students to remain in good standing.

Required Courses: Summer (9 credits)
Take the following courses:

- MSF 6031 - Financial Accounting (3.0 cr)
- MSF 6221 - Finance I: Risk, Return, and Value (2.0 cr)
- MSF 6421 - Computing for Finance: Excel/VBA I & II (2.0 cr)
- MSF 6921 - Introduction to Python (2.0 cr)

Required Courses: Fall (14 credits)
Take the following courses:

- MSF 6121 - Fixed Income and Securities (2.0 cr)
- MSF 6222 - Finance II: Cash Flows, Managerial Decisions, and Project Valuation (2.0 cr)
- MSF 6223 - Fundamentals of Finance III (2.0 cr)
- MSF 6321 - Quantitative Portfolio Analysis (2.0 cr)
- MSF 6322 - Corporate Valuation and Modeling (2.0 cr)
- MSF 6422 - Financial Econometrics and Computational Methods I (2.0 cr)
- MSF 6423 - Financial Econometrics and Computational Methods II (2.0 cr)

Required Courses: Spring (12 credits)
Take the following courses:

- MSF 6021 - Communications for Finance (2.0 cr)
- MSF 6424 - Introduction to Machine Learning for Finance (2.0 cr)
- MSF 6522 - Derivatives and Risk Management (2.0 cr)
- MSF 6621 - Finance within the Macroeconomy (2.0 cr)
**Electives (4 credits)**  
Select 4 elective credits from the following, or graduate courses offered by other departments in the business school upon approval.  
- APEC 5831 - Food and Agribusiness Marketplace (2.0 - 3.0 cr)  
- FINA 6112 - Private Equity (1.0 cr)  
- FINA 6113 - Public Equity (1.0 cr)  
- FINA 6123 - Financial Services Industry (2.0 cr)  
- FINA 6125 - Cryptocurrency, Blockchain, and Their Business Applications (2.0 cr)  
- FINA 6222 - Mergers and Acquisitions (2.0 cr)  
- FINA 6324 - Securitization Markets (2.0 cr)  
- FINA 6325 - Behavioral Finance (2.0 cr)  
- FINA 6341 - World Economy (4.0 cr)  
- FINA 6621 - International Financial Management (2.0 cr)  

**Non-Credit Courses**  
Noncredit 1: On occasion, external speakers will be brought in to enhance the experiential learning component of the MS finance program. Students are required to attend such meetings, and their participation will be assessed on a pass/fail basis.

Noncredit 2: Students will be required to pass the online ethics module from the Chartered Financial Analyst Institute by the end of the summer. Successful completion will be a requirement of the Fundamentals of Finance II course.

**Joint- or Dual-degree Coursework:** MS-Finance/MS-Business Analytics  
Student may take a total of 22 credits in common among the academic programs.

- Requirements for this program are current for Fall 2022
- Length of program in credits: 12
- This program requires summer semesters for timely completion.
- Degree: High Net-Worth Individual Taxation PBacc Cert

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The High Net-Worth Individual Taxation certificate is designed for tax professionals seeking a credential that identifies them as a tax expert in the field while preparing graduates for greater responsibilities in financial consulting. A rigorous curriculum, taught online by top faculty in the tax community, focuses on the analytical, problem solving, writing, and communication skills that foster career advancement. The certificate can be completed in 12 to 24 months, with breaks from early March through April 15 to accommodate schedules during peak tax season.

Program Delivery
This program is available:
- completely online (all program coursework can be completed online)
- primarily online (at least 80% of the instruction for the program is online with short, intensive periods of face-to-face coursework)

Prerequisites for Admission
Required prerequisites
Introduction to Financial Reporting
ACCT 2051 - Introduction to Financial Reporting (4.0 cr)
or equivalent course taken at another institution

Introduction to Federal Income Tax
ACCT 5135 - Fundamentals of Federal Income Tax (4.0 cr)
or equivalent course taken at another institution

Other requirements to be completed before admission:
Applicants must have a bachelor's degree from an accredited college or university.

Special Application Requirements:
Fall application deadline: June 15
Spring application deadline: October 15
Summer application deadline: March 15

Applicants must submit all application materials through the University's admission system.

For additional application details, review the MBT admissions webpages.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

Required Courses (12 credits)
Take the following courses:
- MBT 6221 - Tax Research, Communication, and Practice (4.0 cr)
- MBT 6351 - Wealth Transfer I (Estates and Gifts) (2.0 cr)
- MBT 6353 - Income Taxation of Fiduciaries (2.0 cr)
- MBT 6363 - Compensation and Benefits (2.0 cr)
- MBT 6371 - Taxation of Property Transactions (2.0 cr)

Email: hrirgrad@umn.edu
Website: https://carlsonschool.umn.edu/degrees/master-arts-human-resources-industrial-relations

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 49
- This program does not require summer semesters for timely completion.
- Degree: Masters Human Resources and Industrial Relations

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Human resources and industrial relations (HRIR) students study the employment relationship. Teaching and research are guided by the belief that the employment relationship must be investigated through the lenses of different disciplines using systems thinking. The professional master of arts degree is for individuals interested in private and public sector careers in human resource management, labor relations, and related fields.

The curriculum is structured around the core HRIR areas of staffing, training, and development; compensation and benefits; and labor relations and collective bargaining. It is rooted in key concepts from the social and behavioral sciences and business, such as organizational behavior and theory, labor market analysis, leadership, and strategy. Quantitative analysis of employment problems and issues are also included. Master's candidates are encouraged to choose electives to support a generalist orientation with key business knowledge.

MHRIR offers both full and part-time options.

Accreditation
This program is accredited by Association to Advance Collegiate Schools of Business (AACSB).

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Other requirements to be completed before admission:
Entering students have undergraduate degrees in many subjects ranging from the fine arts to engineering. The most common undergraduate majors of incoming students are in the areas of psychology, business, economics, human resources management, human resource development, and speech communication. An undergraduate course in microeconomics must be completed with a grade of at least C before matriculating.

Special Application Requirements:
Applicants must submit three letters of recommendation, a complete set of transcripts, a résumé, personal statements, and GRE or GMAT scores are preferred but not required. (Check MHRIR website for more information if you choose not to submit GRE/GMAT scores.) Applicants whose native language is not English must also submit score results from the TOEFL or IELTS. Students may enter the full-time MHRIR program in either the fall or spring semesters. The application deadlines are June 15 for fall admission and October 15 for spring admission. The MHRIR financial aid deadline for fall semester is February 1. Applicants are encouraged to apply by the deadlines, however applications are accepted after the deadlines have passed if space allows.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
Program Requirements

Plan C: Plan C requires 41 major credits and 8 credits outside the major. There is no final exam.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.8 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

The MHRIR is offered as a coursework-only program with day (full-time) and evening (part-time) options. Commonly selected related fields include accounting, finance, operations management, managerial communications, economics, human resource development, law, psychology, public affairs, sociology, and research methods.

Submission of the Individual Reflection Paper at the end of the final semester in the program is a requirement that is recorded as a milestone. This paper is designed to help students make connections and uncover insights (personal, business, cultural, sociological, professional, etc.) about their experiences in the MHRIR Program.

Core Courses (24 credits)
Take the following courses.

HRIR 6001 - Business Principles for the HRIR Professional (4.0 cr)
HRIR 6111 - Using Data and Metrics in Human Resources and Industrial Relations (4.0 cr)
HRIR 6301 - Staffing, Training, and Development (4.0 cr)
HRIR 6401 - Organizational Theory Foundations of High-Impact HRIR (2.0 cr)
HRIR 6441 - Organizational Behavior Foundations of High-Impact HRIR (2.0 cr)
HRIR 6501 - Compensation and Benefits (4.0 cr)
HRIR 6701 - Labor Relations and Collective Bargaining (4.0 cr)

HRIR Leadership Practicum (1 credit)
One credit of HRIR 6805 is required for all full-time and part-time MHRIR students. Full-time students must take HRIR 6805 in two semesters for 0.5 credits each. Part-time students must take HRIR 6805 in one semester for one credit.

HRIR 6805 - HRIR Leadership Practicum (0.5 - 1.0 cr)

Economic Issues Analysis (2-3 credits)
Select one of the following courses.

HRIR 5655 - Public Policies on Work and Pay (3.0 cr)
or HRIR 5662 - Personnel Economics (2.0 cr)

Experiential Learning Capstone (2 credits)
Take the following course.

HRIR 6801 - HRIR in Practice: Strategy, Execution, and Ethics (2.0 cr)

Electives (20 credits)
Complete at least 12 credits of HRIR electives and at least 8 credits of related field electives.

Take 20 or more credit(s) including 2 or more sub-requirement(s) from the following:

HRIR Electives
Take 12 or more credit(s) from the following:

• HRIR 5000 - Topics in HRIR (2.0 cr)
• HRIR 5222 - Creating and Managing Diversity and Inclusion (2.0 cr)
• HRIR 5252 - Employment and Labor Law for the HRIR Professional (2.0 cr)
•HRIR 5442 - Employee Performance Management: Strategies, Systems, and Skills (2.0 cr)
•HRIR 5443 - Principles of Effective Coaching (2.0 cr)
•HRIR 5450 - Change in the Workplace (2.0 cr)
•HRIR 5992 - Independent Study in Human Resources and Industrial Relations (1.0 - 8.0 cr)
•HRIR 6000 - Graduate Topics in Human Resources and Industrial Relations (1.0 - 8.0 cr)
•HRIR 6112 - People Analytics (2.0 cr)
•HRIR 6114 - Human Resource Information Systems (2.0 cr)
•HRIR 6302 - Staffing and Selection: Strategic and Operational Concerns (2.0 cr)
•HRIR 6303 - Employee Training: Creating a Learning Organization (2.0 cr)

Joint- or Dual-degree Coursework: MBA/MHRIR
Student may take a total of 24 credits in common among the academic programs.

Program Sub-plans
A sub-plan is not required for this program.
Students may not complete the program with more than one sub-plan.
Part-Time MHRIR
This sub-plan is limited to students completing the program under Plan C.

Integrated BS-Business/Master in HRIR
The Carlson School offers an integrated Bachelor of Science in Business (BSB) and Master of Human Resources and Industrial Relations (MHRIR). The integrated degree program (IDP) offers students the opportunity to earn a bachelor's degree and a master's degree in five years. This program offers several benefits: streamlined admissions from the undergraduate to the graduate program; flexibility in fulfilling required courses for both degrees during the senior year (up to 13 credits can be applied to the graduate program); and a quicker move to more strategic HR positions in the job market. The fourth year of an IDP student's undergraduate degree will be taken as part of the first-year cohort for the MHRIR program. Coursework cannot be applied to both degree requirements. 12 of the credits taken as part of that first-year cohort will be counted towards the BSB degree and the remaining 13 will be applied to the MHRIR degree. The student must be awarded their BSB degree before finishing the MHRIR program in the fifth year of their IDP. Application to the BSB/MHRIR IDP is open to any Carlson School undergraduate student in the fall of their third (junior) year. Any student applying for the IDP program must complete all the requirements for the MHRIR application and go through the application process in its entirety.

Master of Marketing Program  
Carlson School of Management  
University of Minnesota  
321 - 19th Avenue South, Suite 1-110  
Minneapolis, MN 55455

Phone: 612-625-5555  
Email: msmk@umn.edu  
Website: https://carlsonschool.umn.edu/degrees/master-marketing

- Program Type: Master's  
- Requirements for this program are current for Fall 2022  
- Length of program in credits: 32  
- This program does not require summer semesters for timely completion.  
- Degree: Master of Marketing

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Marketing M.MKTG program provides a strong foundation in marketing by combining a year of intentionally designed course work, an experiential project with a real client, the opportunity to gain industry connections, and job interview preparation through the Carlson School Graduate Business Career Center. Students who graduate from this full-time 9-month, 32-credit program will have substantial marketing capabilities including understanding interactions (e.g., social media, individual profiling, web site traffic), as well as the depth of knowledge of consumers (e.g., customer experience, big data, web site personalization) and will be able to successfully contribute to marketing functions in both small and large organizations.

**Accreditation**

This program is accredited by Carlson School of Management is accredited by AACSB International.

**Program Delivery**

This program is available:

- via classroom (the majority of instruction is face-to-face)

**Prerequisites for Admission**

Applicants must have a bachelor’s degree from an accredited college or university.

**Special Application Requirements:**

Applicants must submit all application materials through the University’s admissions system. Application materials include:

- Online application & application fee.
- Transcripts from all colleges/universities previously attended. Non-English transcripts must be accompanied by an English translation.
- A GMAT or GRE General Test that is not more than five years old, with an acceptable score. A GMAT/GRE waiver is available for qualified candidates.
- For international students, an acceptable score on the Test of English as a Foreign Language (TOEFL) International Language Testing System (IELTS).
- Two letters of recommendations need to be submitted through the online application.
- A personal statement of career goals, and objectives for pursuing a M.MKTG degree. The personal statement questions are the following:
  1. Briefly describe your short-term and long-term career goals. Why are you choosing to pursue a Master of Marketing at the Carlson School of Management, and what are you hoping to accomplish by doing so?
  2. Being a professional in marketing requires strong communication skills. Describe a time when you were able to successfully pitch or communicate an idea.
  3. What do you feel makes you a strong candidate for the program? How will you contribute to the program overall?
- Applicants must submit a current resume that includes job responsibilities and accomplishments in the online application.
- Video Essay.
- Admissions interview (by invitation only).

For admissions details, please visit https://carlonschool.umn.edu/degrees/master-marketing/admissions/application-requirements

Applicants must submit their test score(s) from the following:
- GRE
- GMAT

International applicants must submit score(s) from one of the following tests:
- TOEFL
- IELTS

Key to test abbreviations (GRE, GMAT, TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan C: Plan C requires 32 major credits and up to null credits outside the major. The is no final exam. A capstone project is required.

Capstone Project: The Carlson Brand Enterprise (CBE) is a unique opportunity for our Master of Marketing students to work on a semester-long project with cross functional teams of graduate and undergraduate students. Each project focuses on strategic marketing projects for real companies and organizations, solving complex business challenges, utilizing strategic and analytical driven insights. Unlike most project-based student consultancies, the Carlson Brand Enterprise operates as a professional services firm, serving multiple external clients across a range of industries and business models by providing high impact, value added, objective solutions. Student consultants apply the concepts, principles, and frameworks they have learned in the classroom to practical and engaging business challenges with support from world class faculty and leading industry professionals.

This program may not be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.8 is required for students to remain in good standing.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The one-year, 32-credit MS degree in supply chain management will provide students with an end-to-end view of supply chain and will develop both their strategic and analytical capabilities needed to manage supply chains. The hallmarks of this MS degree will include leadership development as a programmatic theme, global immersion, corporate social responsibility and the flexibility to focus on supply chain management in specific industry sectors that are foundational to the economy of the State of Minnesota such as health care and medical devices, food and agribusiness, and retail.

Accreditation
This program is accredited by AACSB International. The M.S. in Supply Chain Management is STEM designated.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Applicants must have a bachelor’s degree from an accredited college or university.

Other requirements to be completed before admission:
A minimum of 3 years of full-time professional work experience is required (internships not included) at the time of application submission.

Special Application Requirements:
Applicants must submit all application materials through the University’s admissions system. Application materials include:
- Online application & application fee.
- Transcripts from all colleges/universities previously attended. Non-English transcripts must be accompanied by an English translation.
- For international students, an acceptable score on the Test of English as a Foreign Language (TOEFL) International Language Testing System (iETS).
- Two letters of recommendations need to be submitted through the online application.
- A personal statement (750 words / 2 pages maximum) answering the following questions: (1) Briefly describe your short-term and long-term career goals. Why are you choosing to pursue an MS SCM program at this time in your career, and what are you hoping to accomplish by doing so? (2) Why are you interested in pursuing an MS SCM program at the Carlson School of Management? (3) What do you feel makes you a strong candidate for the program? How will you contribute to the MS SCM program overall? (4) Any other academic weaknesses or concerns. Reflect on your prior academic performance and
make a case for why you are now prepared for the rigor of graduate level work.
- Applicants may choose to submit an essay to comment on any item(s) in their application they consider worthy of further explanation.
- Admissions interview (by invitation only).
- Video essay.
For admissions details, please visit https://carlsonschool.umn.edu/degrees/master-science-in-supply-chain-management/adm

International applicants must submit score(s) from one of the following tests:
• TOEFL
• IELTS

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan C: Plan C requires 32 major credits and up to null credits outside the major. There is no final exam. A capstone project is required.

Capstone Project: Bring all of the knowledge, skills, and tools developed in the MS SCM program to bear on an impactful global supply chain project for an external client. The objective for this course is to teach critical thinking and analysis skills in a global operations context. Students will conduct a fact-based analysis of a global supply chain issue for an external client. This course increases student understanding of the strategic nature of decision making in the supply chain field, and allows students to apply such thinking to the design and improvement of global supply chain networks. The course emphasizes critical thinking, communication, teamwork, and client management skills. Students will conduct primary and secondary research in order to develop a set of meaningful recommendations for a client on a global supply chain issue.

This program may not be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.8 is required for students to remain in good standing.

Core Courses: Fall (12 credits)
SCO 6048 - Logistics and Transportation (2.0 cr)
SCO 6098 - Operations Excellence via Lean Thinking (2.0 cr)
SCO 6185 - Statistics (2.0 cr)
SCO 6191 - Big Data Analytics in Supply Chains (2.0 cr)
SCO 6285 - Managing Supply Chain Operations (4.0 cr)

Core Courses: Spring (8 credits)
SCO 6045 - Strategic Sourcing (2.0 cr)
SCO 6072 - Managing Technologies in the Supply Chain (2.0 cr)
SCO 6094 - Responsible Supply Chain Management (2.0 cr)
SCO 6192 - Supply Chain Finance (2.0 cr)

Core Courses: Summer (6 credits)
SCO 6085 - Sales, Inventory, and Operations Planning (2.0 cr)
SCO 6292 - Global Operations Capstone (4.0 cr)

Core Course: Leadership Development - All Year (Fall, Spring and Summer) (2 credits)
SCO 6291 - Leadership Development (0.0 - 2.0 cr)

Spring Electives (4 credits)
APEC 5831 - Food and Agribusiness Marketplace (2.0 - 3.0 cr)
MGMT 6004 - Negotiation Strategies (2.0 cr)
MGMT 6084 - Management of Teams (2.0 cr)
SCO 6041 - Project Management (2.0 cr)
SCO 6091 - Process Improvement Methods (2.0 cr)
SCO 6092 - Supply Chain Risk and Security (2.0 cr)
SCO 6093 - Negotiations in Supply Chain (2.0 cr)
SCO 6095 - Supply Chain Management in the Food and Agribusiness Sector (2.0 cr)
SCO 6096 - Supply Chain Management in the Health Care and Medical Devices Sector (2.0 cr)
SCO 6097 - Supply Chain Management in the Retail Sector (2.0 cr)
Twin Cities Campus
Tax Executive Postbaccalaureate Certificate
Accounting
Curtis L. Carlson School of Management

Link to a list of faculty for this program.

Contact Information:
Masters Programs in Accounting, 3-110 Carlson School of Management, 321 19th Avenue South, Minneapolis, MN 55455. Phone: 612-624-7511.
Email: mbt@umn.edu
Website: http://www.carlsonschool.umn.edu/degrees/master-business-taxation

- Program Type: Post-baccalaureate credit certificate/licensure/endorsement
- Requirements for this program are current for Fall 2022
- Length of program in credits: 12
- This program does not require summer semesters for timely completion.
- Degree: Tax Executive Postbaccalaureate Certificate

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Tax Executive certificate is designed primarily for tax professionals working in tax departments of large corporations. It prepares graduates for greater responsibilities within their tax department. A rigorous curriculum, taught online by top faculty in the tax community, focuses on the analytical, problem solving, writing, and communication skills that foster career advancement. The certificate can be completed in 12 to 24 months, with breaks from early March through April 15 to accommodate schedules during peak tax season.

Program Delivery
This program is available:
- completely online (all program coursework can be completed online)
- primarily online (at least 80% of the instruction for the program is online with short, intensive periods of face-to-face coursework)

Prerequisites for Admission
Required prerequisites
Introduction to Financial Reporting
ACCT 2051 - Introduction to Financial Reporting (4.0 cr)
or equivalent course taken at another institution

Introduction to Federal Income Tax
ACCT 5135 - Fundamentals of Federal Income Tax (4.0 cr)
or equivalent course taken at another institution

Other requirements to be completed before admission:
Applicants must have a bachelor's degree from an accredited college or university.

Special Application Requirements:
Fall application deadline: June 15
Spring application deadline: October 15
Summer application deadline: March 15

Applicants must submit all application materials through the University's admission system.

For additional application details, review the MBT admissions webpages.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

**Required Courses (12 credits)**
Take the following courses:
- MBT 6231 - Corporate Taxation I (2.0 cr)
- MBT 6346 - ASC 740 Computations and Analysis (2.0 cr)
- MBT 6347 - Tax Technology and Analytics Fundamentals (2.0 cr)
- MBT 6348 - Advanced ASC 740 Concepts (2.0 cr)
- MBT 6361 - State and Local Taxation (2.0 cr)
- MBT 6381 - Tax Aspects of International Business I (2.0 cr)

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

Required Courses (10 credits)
Take the following courses:
- MBT 6201 - Tax Accounting Methods I (2.0 cr)
- MBT 6221 - Tax Research, Communication, and Practice (4.0 cr)
- MBT 6231 - Corporate Taxation I (2.0 cr)
- MBT 6341 - Taxation of Partners and Partnerships (2.0 cr)

Elective Course (2 credits)
Select one of the following courses to meet the 12-credit requirement:
- MBT 6202 - Tax Accounting Methods II (2.0 cr)
- MBT 6226 - Negotiation Techniques in Taxation (2.0 cr)
- MBT 6232 - Corporate Taxation II (2.0 cr)
- MBT 6333 - Tax Aspects of Consolidated Returns (2.0 cr)
- MBT 6335 - Taxation of the Small Business Corporation (2.0 cr)
- MBT 6346 - ASC 740 Computations and Analysis (2.0 cr)
- MBT 6347 - Tax Technology and Analytics Fundamentals (2.0 cr)
- MBT 6351 - Wealth Transfer I (Estates and Gifts) (2.0 cr)
- MBT 6353 - Income Taxation of Fiduciaries (2.0 cr)
- MBT 6361 - State and Local Taxation (2.0 cr)
- MBT 6363 - Compensation and Benefits (2.0 cr)
- MBT 6371 - Taxation of Property Transactions (2.0 cr)
- MBT 6381 - Tax Aspects of International Business I (2.0 cr)
- MBT 6383 - Transfer Pricing (2.0 cr)
- MBT 6501 - Business, Government, and Economic Tax Policy (2.0 cr)

• Program Type: Master's
• Requirements for this program are current for Fall 2022
• Length of program in credits: 30
• This program requires summer semesters for timely completion.
• Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The biochemistry, molecular biology and biophysics (BMBB) graduate program is an interdisciplinary program that is supported by the College of Biological Sciences (CBS) and the Medical School of the University of Minnesota. The program provides a broad research-based education involving faculty from BMBB, as well as many faculty members from several other departments in CBS, the Medical School, the College of Science and Engineering (CSE), the College of Food, Agricultural and Natural Resources Sciences (CFANS), and the College of Veterinary Medicine.

BMBB focuses on determining the molecular mechanisms that underlie basic biological functions using an integrated approach that encompasses biochemistry, chemistry, biophysics, genomics, molecular biology, proteomics, and structural biology. Special emphasis is placed on revealing how biological processes go awry in diseases including cancer, diabetes, heart disease, and AIDS. The program has four areas of emphasis: synthetic biology and biotechnology, molecular biology, metabolic and systems biology, and chemical and structural biology. All students are expected to demonstrate a minimum level of competence in these areas, but will emphasize the area most related to their thesis project.

While graduate training in a BMBB laboratory involves first-year coursework and associated preliminary examinations, the focal point for graduate education is thesis research. Laboratory-based exploration coupled with journal clubs, seminars, scientific meetings and retreats, career counseling, and scientific ethics constitutes the major components of the program. Support for graduate education comes from a variety of sources but is augmented by several NIH and NSF-based training grants. Most graduate students from the University of Minnesota obtain full-time employment immediately after graduation or pursue advanced training in academic or corporate positions.

Students pursuing a degree in BMBB are only admitted to the PhD program (see note below) under the auspices of Molecular, Cellular and Structural Biology (MCSB), a first-year program administered by BMBB and the Molecular, Cellular, Developmental Biology and Genetics (MCDB&G) graduate programs. After the first year, students select either BMBB or MCDB&G to complete their degree.

Note: One cannot apply for admission to the master's degree in BMBB. Students are only admitted to the BMBB PhD program. Alternative, related master's degree programs that admit students are the master's of biological Sciences (MBS) (http://cce.umn.edu/master-of-biological-sciences) and the master's in microbial engineering (http://biti.umn.edu/MicE/).

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The program can accommodate for a variety of educational backgrounds. However, applications from students with an undergraduate degree in the biological, chemical, or physical sciences are encouraged.

The program can accommodate for a variety of educational backgrounds. However, applications from students with an advanced
degree in the biological, chemical, or physical sciences are encouraged.

Other requirements to be completed before admission:
Recommended academic preparation includes one year each of calculus, organic chemistry, and basic biology, including biochemistry and genetics. For students of demonstrated ability, background deficiencies can be made up during the first year of graduate study.

Successful applicants must have previous research experience in an academic or industrial setting, in addition to any course-related laboratory experiences. It is important to demonstrate familiarity, with an aptitude for basic science research prior to embarking on a graduate career in this program.

***Note: Students are admitted only to the PhD program for BMBB (see additional note below).

Special Application Requirements:
Additionally, applicants must submit three letters of recommendation from persons familiar with their academic and research capabilities. A statement of interests and goals, a complete set of transcripts, and official scores from the General Test of the GRE are required. The GRE Subject Test in biochemistry, cell and molecular biology, biology, or chemistry is strongly recommended, but not required.

The deadline to submit a completed application is December 1. Completed files are reviewed between January and February. Graduate studies begin fall semester only.

Note: One cannot apply for admission to the master's degree in BMBB. Students are only admitted to the BMBB PhD program. Alternative, related master's degree programs that admit students are the Master of Biological Sciences (MBS) (http://cce.umn.edu/master-of-biological-sciences) and the Master in Microbial Engineering (http://bti.umn.edu/MicE/).

International applicants must submit score(s) from one of the following tests:
- **TOEFL**
  - Internet Based - Total Score: 107
  - Internet Based - Writing Score: 25
  - Internet Based - Reading Score: 25
- **IELTS**
  - Total Score: 7

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

**Plan A:** Plan A requires 20 major credits, 0 credits outside the major, and 10 thesis credits. The final exam is oral.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.0 is required for students to remain in good standing.

All students are expected to participate in seminars involving student reports on current literature and research.

**Biochemistry Core (1 Credit)**
Take the following core course for 1 credit:
- **BIOC 8401** - Ethics, Public Policy, and Careers in Molecular and Cellular Biology (1.0 cr)

**Laboratory and Field Course (1 Credit)**
Take MCDG 8920 for at least 1 credit. In August of the first year, BMBB students must register for this hands-on, intensive lab course that takes place at the Itasca Biological Station and Laboratories, which provides first-year students with exposure to a range of modern methods and model systems.
- **MCDG 8920** - Special Topics (1.0 - 4.0 cr)

**Module Options (6 Credits)**
Complete 6 credits in consultation with the director of graduate studies.
- **BIOC 5535** - Introduction to Modern Structural Biology -- Diffraction (2.0 cr)
- **BIOC 5536** - Introduction to Modern Structural Biology - Nuclear Magnetic Resonance (2.0 cr)
- **BIOC 8005** - Biochemistry: Structure and Catalysis (2.0 cr)
BIOC 8006 - Biochemistry: Metabolism and Control (2.0 cr)
BIOC 8007 - Molecular Biology of the Genome (2.0 cr)
BIOC 8008 - Molecular Biology of the Transcriptome (2.0 cr)

Electives (12 Credits)
Take 12 credits of coursework in one of the four BMBB emphases: synthetic biology and biotechnology, molecular biology, metabolic and systems biology, or chemical and structural biology. Courses from disciplines other than BMBB, in consultation with the advisor, may be used to build an emphasis.
BIOC 5216 - Current Topics in Signal Transduction (2.0 cr)
BIOC 5309 - Biocatalysis and Biodegradation (3.0 cr)
BIOC 5351 - Protein Engineering (3.0 cr)
BIOC 5352 - Biotechnology and Bioengineering for Biochemists (3.0 cr)
BIOC 5361 - Microbial Genomics and Bioinformatics (3.0 cr)
BIOC 5444 - Muscle (3.0 cr)
BIOC 5528 - Spectroscopy and Kinetics (4.0 cr)
BIOC 8084 - Research and Literature Reports (1.0 cr)
BIOC 8184 - Graduate Seminar (1.0 cr)
BIOC 8100 - Improvisation for Scientists (1.0 cr)
CHEM 8011 - Mechanisms of Chemical Reactions (4.0 cr)
CHEM 8021 - Computational Chemistry (4.0 cr)
CHEM 8411 - Introduction to Chemical Biology (4.0 cr)
CHEM 8412 - Chemical Biology of Enzymes (4.0 cr)
CHEM 8735 - Bioinorganic Chemistry (4.0 cr)
CHEN 8754 - Systems Analysis of Biological Processes (3.0 cr)
CSCI 5461 - Functional Genomics, Systems Biology, and Bioinformatics (3.0 cr)
GCD 5005 - Computer Programming for Biology (3.0 cr)
GCD 8008 - Mammalian Gene Transfer and Genome Engineering (2.0 cr)
GCD 8131 - Advanced Molecular Genetics and Genomics (3.0 cr)
GCD 8151 - Cellular Biochemistry and Cell Biology (2.0 - 4.0 cr)
GRAD 5102 - Preparation for University Teaching for Nonnative English Speakers (2.0 cr)
GRAD 8101 - Teaching in Higher Education (3.0 cr)
GRAD 8200 - Teaching and Learning Topics in Higher Education (1.0 cr)
MICA 8002 - Structure, Function, and Genetics of Bacteria and Viruses (4.0 cr)
MICA 8003 - Immunity and Immunopathology (4.0 cr)
MICA 8004 - Cellular and Cancer Biology (4.0 cr)
MICA 8010 - Microbial Pathogenesis (3.0 cr)
MICA 8013 - Translational Cancer Research (2.0 cr)
PHCL 5111 - Pharmacogenomics (3.0 cr)
PHBH 6450 - Biostatistics I (4.0 cr)
PHBH 7445 - Statistics for Human Genetics and Molecular Biology (3.0 cr)
SCB 8181 - Stem Cell Biology (3.0 cr)
STAT 5021 - Statistical Analysis (4.0 cr)

Thesis Credits
Take at least 10 master's thesis credits.
BIOC 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)
Biochemistry, Molecular Biology and Biophysics Minor

Please visit the program website for more information (http://www.med.umn.edu/mdphd/index.htm). Note: One cannot apply for admission to the master's degree in BMBB. Students are only admitted to the BMBB PhD program. Alternative, related master's degree programs that admit students are the Master of Biological Sciences (MBS) (http://cce.umn.edu/master-of-biological-sciences) and the Master in Microbial Engineering (http://bti.umn.edu/MicE/).
For an online application or for more information about graduate education admissions, see the General Information section of this website.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 107
  - Internet Based - Writing Score: 25
  - Internet Based - Reading Score: 25
- IELTS
  - Total Score: 7

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
24 credits are required in the major.
0 credits are required outside the major.
24 thesis credits are required.
This program may be completed with a minor.
Use of 4xxx courses towards program requirements is not permitted.
A minimum GPA of 3.00 is required for students to remain in good standing.
Students must complete three seminar presentations and two teaching assignments between years 2 and 4.
Students must register for BIOC 8084 and 8184 at least once during their first or second year in the program.

Biochemistry Required Coursework (12 Credits)
Core Courses (4 credits)
Complete the following core courses. MCDG 8920 must be taken for two credits.
- BIOC 5002 - Critical Evaluation of Biochemistry Research (1.0 cr)
- BIOC 8184 - Graduate Seminar (1.0 cr)
- MCDG 8920 - Special Topics (1.0 - 4.0 cr)
Student Seminar (1 credit)
BIOC 8084 - Research and Literature Reports (1.0 cr)

or

MCDG 8900 - Student Research Seminar (1.0 cr)

Ethics (1 credit)

BIOC 8401 - Ethics, Public Policy, and Careers in Molecular and Cellular Biology (1.0 cr)

or

GCD 8401 - Ethics, Public Policy & Careers in Molecular Cell Biology (1.0 cr)

Module Options (6 Credits)

Complete six credits, in consultation with the director of graduate studies, from the following list:

BIOC 5535 - Introduction to Modern Structural Biology -- Diffraction (2.0 cr)

BIOC 5536 - Introduction to Modern Structural Biology - Nuclear Magnetic Resonance (2.0 cr)

BIOC 8005 - Biochemistry: Structure and Catalysis (2.0 cr)

BIOC 8006 - Biochemistry: Metabolism and Control (2.0 cr)

BIOC 8007 - Molecular Biology of the Genome (2.0 cr)

BIOC 8008 - Molecular Biology of the Transcriptome (2.0 cr)

Emphasis Electives (12 Credits)

Complete 12 credits of coursework, in consultation with the advisor, from one of the four BMBB emphases: synthetic biology and biotechnology, molecular biology, metabolic and systems biology, or chemical and structural biology. Non-BMBB courses may be used to build an emphasis with advisor and director of graduate studies approval.

BIOC 5216 - Current Topics in Signal Transduction (2.0 cr)

BIOC 5309 - Biocatalysis and Biodegradation (3.0 cr)

BIOC 5351 - Protein Engineering (3.0 cr)

BIOC 5352 - Biotechnology and Bioengineering for Biochemists (3.0 cr)

BIOC 5361 - Microbial Genomics and Bioinformatics (3.0 cr)

BIOC 5444 - Muscle (3.0 cr)

BIOC 5528 - Spectroscopy and Kinetics (4.0 cr)

BIOC 8084 - Research and Literature Reports (1.0 cr)

BIOC 8184 - Graduate Seminar (1.0 cr)

BIOL 8100 - Improvisation for Scientists (1.0 cr)

CHEM 8011 - Mechanisms of Chemical Reactions (4.0 cr)

CHEM 8021 - Computational Chemistry (4.0 cr)

CHEM 8411 - Introduction to Chemical Biology (4.0 cr)

CHEM 8412 - Chemical Biology of Enzymes (4.0 cr)

CHEM 8735 - Bioinorganic Chemistry (4.0 cr)

CHEN 8754 - Systems Analysis of Biological Processes (3.0 cr)

CSCI 5461 - Functional Genomics, Systems Biology, and Bioinformatics (3.0 cr)

GCD 5005 - Computer Programming for Biology (3.0 cr)

GCD 8008 - Research and Literature Reports (1.0 cr)

GCD 8184 - Graduate Seminar (1.0 cr)

GCD 8151 - Cellular Biochemistry and Cell Biology (2.0 - 4.0 cr)

GCD 8900 - Seminar (1.0 - 2.0 cr)

GRAD 5102 - Preparation for University Teaching for Nonnative English Speakers (2.0 cr)

GRAD 8101 - Teaching in Higher Education (3.0 cr)

GRAD 8200 - Teaching and Learning Topics in Higher Education (1.0 cr)

MICA 8002 - Structure, Function, and Genetics of Bacteria and Viruses (4.0 cr)

MICA 8003 - Immunity and Immunopathology (4.0 cr)

MICA 8004 - Cellular and Cancer Biology (4.0 cr)

MICA 8010 - Microbial Pathogenesis (3.0 cr)

MICA 8013 - Translational Cancer Research (2.0 cr)

PHCL 5111 - Pharmacogenomics (3.0 cr)

PUBH 6450 - Biostatistics I (4.0 cr)

PUBH 7445 - Statistics for Human Genetics and Molecular Biology (3.0 cr)

SCB 8181 - Stem Cell Biology (3.0 cr)

STAT 5021 - Statistical Analysis (4.0 cr)

Thesis Credits

Take 24 doctoral thesis credits.

BIOC 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)

Joint- or Dual-degree Coursework: MD/PhD-Biochemistry, Molecular Biology and Biophysics
Student may take a total of 18 credits in common among the academic programs.
**Twin Cities Campus**

**Bioethics M.A.**

*Bioethics, Center for Graduate School*

Link to a list of faculty for this program.

**Contact Information:**
Center for Bioethics, University of Minnesota, Suite N504 Boynton, 410 Church Street SE, Minneapolis, MN 55455 (612-624-9440)
Email: bthxed@umn.edu
Website: [http://www.bioethics.umn.edu/education/master-arts-bioethics](http://www.bioethics.umn.edu/education/master-arts-bioethics)

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Arts

Along with the program-specific requirements listed below, please read the [General Information](http://www.bioethics.umn.edu/education/master-arts-bioethics) section of the catalog website for requirements that apply to all major fields.

Admissions for the Bioethics MA Program are currently on hold. Please contact bthxed@umn.edu for updates.

The Center for Bioethics offers two kinds of MA degrees: Plan A and Plan B with a major in bioethics. The curriculum for both Plan A and Plan B degrees includes a set of required core courses, bioethics electives, and a requirement for coursework in fields related to bioethics. The Plan A culminates in a substantial, 10-credit master's thesis. In lieu of a thesis, the Plan B culminates in a 4-credit practicum, a 3-credit capstone project and final exam. Electives comprise the additional 3 credits in the Plan B degree.

Graduates of the MA in bioethics greatly enhance their professional opportunities in the field when they combine their bioethics degree with a terminal graduate or professional degree in another field. Examples of degree combinations can include an MA degree in bioethics with a JD, PhD, MD, nursing, or others. This model of pairing the MA in bioethics with another degree prompts students to acquire a firm disciplinary grounding as well as interdisciplinary bioethics expertise, a practice which best prepares students for the interdisciplinary career options related to bioethics. Some examples of careers include work in the fields of genetics, social work, public health, veterinary science, religious studies, psychology, biology, and philosophy.

**Program Delivery**

This program is available:
- via classroom (the majority of instruction is face-to-face)

**Prerequisites for Admission**

The preferred undergraduate GPA for admittance to the program is 3.00.

A bachelor's degree is required for admission.

**Special Application Requirements:**

This program is not accepting applications for new students at this time.

Transcripts of all postsecondary academic work, a personal statement, a writing sample (preferably on a topic in bioethics), a description of research or relevant work experience, a C.V. or résumé, and at least three letters of reference are required. Applicants may also submit a statement on "Extenuating Circumstances" and "Diversity." See program website for more details.

Students are admitted to the Bioethics M.A. program for fall semester only. Applications are accepted as early as the first day of fall semester prior to the proposed start of the student's M.A. program. Our primary deadline is March 1 with an extended deadline of May 1 if space in our program remains available.

Students are encouraged to link their degree in bioethics to a degree in a related field (either before entering the bioethics M.A. program or at the same time). Given the fundamentally interdisciplinary nature of bioethics, prospective students are advised against viewing the bioethics M.A. as a stand-alone degree that prepares them for career placement. This model prompts students to acquire a firm disciplinary grounding as well as interdisciplinary bioethics expertise—a practice that best prepares students for bioethics-related career placement. Thus, the admissions process will give preference to students who have already earned or are in the process of earning an advanced degree in a related field, although this will not strictly be required for admission.
Because our program recommends pairing the Bioethics degree with another graduate or professional degree, we recognize applicants may need to answer to another program prior to our deadline. If this is the case, please email bthxed@umn.edu with your concern.

Applicants must submit their test score(s) from the following:
- GRE
- MCAT
- LSAT

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600

Key to test abbreviations (GRE, MCAT, LSAT, TOEFL).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan A: Plan A requires 14 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is oral.

Plan B: Plan B requires 21 major credits and 9 credits outside the major. The final exam is written and oral. A capstone project is required.

Capstone Project: Students will design and undertake a project and its corollary product relevant to their interests, experience, and intended use of the MA in bioethics. The experiential component is designed to be flexible, allowing the student to undertake an internship, shadow physicians or other health care personnel, or use their own work experience when relevant to cater a project to their intended goals. Rigor is maintained through committee oversight, nature of the experience, and number of hours undertaken.

Products are also designed to be flexible while retaining rigor, innovation, and written analysis. Original research is not required (as with a thesis), but a thorough literature review and accompanying overview or synthesis of the arena of which the project is a part is necessary, as is a thorough explanation of the final product. Full committee approval of the final product before the project is undertaken is required.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

Core Courses (6 credits)
- BTHX 5010 - Bioethics Proseminar (2.0 cr)
- BTHX 5300 - Foundations of Bioethics (3.0 cr)
- BTHX 5610 - Research & Publication Seminar (1.0 cr)
  or BTHX 5630 - Bioethics Colloquium (1.0 cr)

Bioethic Electives (8)
Select at least 8 credits of BTHX courses in consultation with the advisor.
- BTHX 5xxx
- BTHX 6xxx
- BTHX 7xxx
- BTHX 8xxx

Related Fields Electives (6-9 credits)
Plan A students take at least 6 credits and Plan B students take at least 9 credits of elective credits from outside Bioethics.

Joint- or Dual-degree Coursework: Joint Degree Program in Law, Health, and the Life Sciences Student may take a total of 11 credits in common among the academic programs.
Twin Cities Campus
Bioethics Minor
Bioethics, Center for
Graduate School

Contact Information:
Center for Bioethics, University of Minnesota, N504 Boynton, 410 Church Street SE, Minneapolis, MN 55455 (612-624-9440)
Email: bthxed@umn.edu
Website: http://www.bioethics.umn.edu/education/graduate-minor-bioethics

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 8
- Length of program in credits (Doctorate): 14
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Bioethics minor is designed to deepen students knowledge of the ethical issues surrounding health and the life sciences.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students pursuing the JD, MD, PharmD, DVM, DDS, or LLM degree are not eligible for the minor.

Eligible students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Bioethics director of graduate studies regarding feasibility and requirements.

Acceptance into the Bioethics minor requires pre-approval by the Bioethics director of graduate studies.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Courses must be chosen in consultation with the bioethics director of graduate studies.

Philosophy students are expected to have successfully completed at least one course in ethical theory at the 5xxx or 8xxx level prior to undertaking coursework in the minor.

Students must complete the minor with a 3.00 GPA.

Coursework Requirements
Required Courses (2 credits)
Select 1 of the following courses in consultation with the Bioethics director of graduate studies:
BTHX 5010 - Bioethics Proseminar (2.0 cr)
or BTHX 5325 - Biomedical Ethics (3.0 cr)

Electives (6 to 12 credits)
Masters students select at least 6 credits and doctoral students select at least 12 credits from the following, in consultation with the Bioethics director of graduate studies, to meet minimum credit requirements. Other elective courses may be chosen with approval of the Bioethics director of graduate studies.
BTHX 5000 - Topics in Bioethics (1.0 - 4.0 cr)
BTHX 5100 - Introduction to Clinical Ethics (3.0 cr)
BTHX 5110 - Ethical Issues in Pediatrics (2.0 cr)
BTHX 5120 - Dying in Contemporary Medical Culture (2.0 cr)
BTHX 5210 - Ethics of Human Subjects Research (3.0 cr)
BTHX 5400 - Intro Ethics in Hlth Policy (3.0 cr)
BTHX 5411 - Health Law and Policy (3.0 cr)
BTHX 5453 - Law, Biomedicine, and Bioethics (3.0 cr)
BTHX 5510 - Gender and the Politics of Health (3.0 cr)
BTHX 5520 - Social Justice and Bioethics (3.0 cr)
BTHX 5540 - Bioethics, Psychiatry & Psychology (3.0 cr)
BTHX 5610 - Research & Publication Seminar (1.0 cr)
BTHX 5620 - Social Context of Health and Illness (3.0 cr)
BTHX 5630 - Bioethics Colloquium (1.0 cr)
BTHX 5650 - Disability Ethics (3.0 cr)
BTHX 5900 - Independent Study in Bioethics (1.0 - 4.0 cr)
BTHX 8000 - Advanced Topics in Bioethics (1.0 - 4.0 cr)
BTHX 8114 - Ethical and legal Issues in Genetic Counseling (2.0 cr)
BTHX 8120 - Dying in Contemporary Medical Culture (2.0 cr)
BTHX 8500 - Practicum in Bioethics (1.0 - 4.0 cr)
BTHX 8510 - Gender and the Politics of Health (3.0 cr)
BTHX 8520 - Social Justice and Bioethics (3.0 cr)
BTHX 8610 - Medical Consumerism (3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Twin Cities Campus
Clinical Ethics Postbaccalaureate Certificate
Bioethics, Center for
Graduate School

Link to a list of faculty for this program.

Contact Information:
Center for Bioethics
N504 Boynton
410 Church St SE
Minneapolis, MN 55455
Email: bthxed@umn.edu
Website: http://www.bioethics.umn.edu/education/clinical-ethics-certificate-program

- Program Type: Post-baccalaureate credit certificate/licensure/endorsement
- Requirements for this program are current for Fall 2022
- Length of program in credits: 13
- This program does not require summer semesters for timely completion.
- Degree: Clinical Ethics PBacc Certificate

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Admissions to the clinical ethics post-baccalaureate certificate are currently on hold. Please contact bthxed@umn.edu for updates.

The clinical ethics post-baccalaureate certificate will offer a graduate level educational opportunity for practicing professionals including physicians, nurses, social workers, chaplains, and others. Students will engage in classwork and practical experience geared toward mastery of the knowledge and skills needed for work in clinical ethics, including participation on ethics committees, clinical ethics consultation services, institutional and regional clinical ethics policy bodies, such as organ allocation committees or brain death committees, support for institutional staff development programs in their professional fields, or simply being better prepared to meet the ethical challenges that arise in their work. The curriculum will fulfill the health care ethics core competencies promulgated by the American Society for Bioethics and Humanities.

Program Delivery
This program is available:
* via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
A graduate or professional degree in a field related to clinical ethics is required for admission.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600

Key to test abbreviations (TOEFL).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.

Required Courses (13 credits)
NB: BTHX 8500 will be taken twice, 2 cr each time, once fall once spring.
BTHX 5100 - Introduction to Clinical Ethics (3.0 cr)
BTHX 5110 Ethical Issues in Pediatrics (2.0 cr)
BTHX 5120 Dying in Contemporary Medical Culture (2.0 cr)
BTHX 8100 Advanced Theory and Practice of Clinical Ethics (2.0 cr)
BTHX 8500 - Practicum in Bioethics (1.0 - 4.0 cr)

Website: https://nursing.umn.edu/academics/certificates

- Program Type: Post-baccalaureate credit certificate/licensure/endorsement
- Requirements for this program are current for Fall 2022
- Length of program in credits: 12
- This program does not require summer semesters for timely completion.
- Degree: Health Care Design & Innovation PBacc Certificate

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The postbaccalaureate certificate in health care design and innovation prepares health care and design practitioners to create optimal healing environments. Students learn how to apply design thinking in creating new processes, systems, and care environments. The certificate emphasizes principles that promote healing and safe patient care while maximizing clinical and financial outcomes.

Program Delivery
This program is available:
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Admittance to the certificate program requires a baccalaureate degree from an accredited institution in a health-related field, interior design, architecture, or other design-related area.

Other requirements to be completed before admission:
Applicants are required to submit transcripts from all institutions where postsecondary credit was earned, reference materials containing an Admission Reference Form and personal letter of reference from two separate individuals, one essay, a current curriculum vitae/resume, and English language proficiency scores (if applicable). This certificate has two application deadlines: November 1 for spring admission and July 1 for fall admission.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Paper Based - Total Score: 550

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (TOEFL).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.8 is required for students to remain in good standing.

Required Courses
CSPH 5711 - Optimal Healing Environments (3.0 cr)
NURS 7610 - System Leadership and Innovation (3.0 cr)
HUMF 5874 - Human Centered Design to Improve Complex Systems (4.0 cr)
NURS 6707 - Health Care Design and Innovation Practicum (2.0 cr)

- Program Type: Master's  
- Requirements for this program are current for Fall 2022  
- Length of program in credits: 31  
- This program does not require summer semesters for timely completion.  
- Degree: Master of Health Informatics

Along with the program-specific requirements listed below, please read the [General Information](#) section of the catalog website for requirements that apply to all major fields.

Health informatics (also known as biomedical informatics) is an interdisciplinary field of scholarship that applies computer, information, statistical, management, and related scientific methods to enable biomedical discovery and support the effective and efficient use and analysis of data, management of information, and application of knowledge across the spectrum from basic science to clinical care. The ultimate goal of the field is to improve the health, well-being, and economic functioning of society. Students take a sequence of core courses in health informatics and biostatistics and take electives in technical and health science areas.

### Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- completely online (all program coursework can be completed online)
- primarily online (at least 80% of the instruction for the program is online with short, intensive periods of face-to-face coursework)
- partially online (between 50% to 80% of instruction is online)

### Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Applicants are expected to have at least a bachelor's degree or equivalent degree from a regionally accredited institution of higher education or an international equivalent.

**Required prerequisites**

**Health or Biological Sciences**
Applicants must have taken 6 semester-credits or 9 quarter-credits at the undergraduate or graduate level in medical, life, or biological sciences from a regionally accredited institution of higher learning or equivalent. This broadly defined requirement includes most courses with a health or biology emphasis, including biostatistics, health services research, and public health, as well as more traditional biology or life science courses.

**Programming Language**
Documented work or educational experience working with a programming language such as C, C++, Java, Python, R, Visual Basic, etc.
- or [HINF 5502 - Python Programming Essentials for the Health Sciences (1.0 cr)](http://example.com)
- or Department Consent

Applicants must submit their test score(s) from the following:
- GRE
  - General Test - Verbal Reasoning: 151
  - General Test - Quantitative Reasoning: 153
  - General Test - Analytical Writing: 4

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
• IELTS
  - Total Score: 6.5
  - Reading Score: 6.5
  - Writing Score: 6.5
• MELAB
  - Final score: 80

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan C: Plan C requires 31 major credits and up to null credits outside the major. The is no final exam. A capstone project is required.

Capstone Project: The capstone project is a 3- or 4-credit course in which students apply their newly acquired knowledge and skills to a project involving a practical problem in health informatics. Students learn how to design these projects properly through review of past exemplary projects. With the help of their advisors and the capstone course director, students design and carry out their own projects, which can take a variety of forms, including developing design and evaluation specifications for software to address a specific healthcare need; working on, observing, analyzing, and reporting the actions of a team involved in implementing a new information system; or observing and measuring the impact of such a system in a healthcare setting. Students submit a written project report, graded by the capstone project instructor and the student's advisor, in lieu of a final examination.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 2.80 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.

HINF Courses (15 credits)
Take the following courses:
HINF 5430 - Foundations of Health Informatics I (3.0 cr)
HINF 5431 - Foundations of Health Informatics II (3.0 cr)
HINF 5436 - AHC Informatics Grand Rounds (1.0 cr)
HINF 5510 - Applied Health Care Databases: Database Principles and Data Evaluation (3.0 cr)
HINF 5520 - Informatics Methods for Health Care Quality, Outcomes, and Patient Safety (2.0 cr)
HINF 5531 - Health Data Analytics and Data Science (3.0 cr)

Other Required Courses (6 credits)
Take the following courses:
NURS 7108 - Population Health Informatics (2.0 cr)
PUBH 6450 - Biostatistics I (4.0 cr)

Final Project (3 credits)
MHI students take HINF 5499 (3 credits). Students pursuing the joint MD/MHI take LAMP 7195 (4 credits).
HINF 5499 - Capstone Project for the Masters of Health Informatics (3.0 cr)
or LAMP 7195 - Medical Informatics (4.0 cr)

Electives
Take electives as needed to meet the 31-credit minimum. If labs or practicums are selected as electives, they must be taken concurrently with the associated course (i.e. take HINF 8430 with HINF 5430). Electives must be approved by the advisor.
BIOC 5361 - Microbial Genomics and Bioinformatics (3.0 cr)
BIOC 8007 - Molecular Biology of the Genome (2.0 cr)
BIOC 8008 - Molecular Biology of the Transcriptome (2.0 cr)
CGSC 8410 - Perspectives in Learning, Perception, and Cognition (2.0 cr)
CSCI 5106 - Programming Languages (3.0 cr)
CSCI 5115 - User Interface Design, Implementation and Evaluation (3.0 cr)
CSCI 5271 - Introduction to Computer Security (3.0 cr)
CSCI 5421 - Advanced Algorithms and Data Structures (3.0 cr)
CSCI 5461 - Functional Genomics, Systems Biology, and Bioinformatics (3.0 cr)
CSCI 5481 - Computational Techniques for Genomics (3.0 cr)
CSCI 5511 - Artificial Intelligence I (3.0 cr)
CSCI 5521 - Machine Learning Fundamentals (3.0 cr)
CSCI 5525 - Machine Learning: Analysis and Methods (3.0 cr)
CSCI 5607 - Fundamentals of Computer Graphics I (3.0 cr)
CSCI 5608 - Fundamentals of Computer Graphics II (3.0 cr)
CSCI 5707 - Principles of Database Systems (3.0 cr)
CSCI 5708 - Architecture and Implementation of Database Management Systems (3.0 cr)
CSCI 5801 - Software Engineering I (3.0 cr)
CSCI 8725 - Databases for Bioinformatics (3.0 cr)
DES 5185 - Human Factors in Design (3.0 cr)
EPSY 5244 - Survey Design, Sampling, and Implementation (3.0 cr)
EPSY 5262 - Intermediate Statistical Methods (3.0 cr)
GCD 8103 - Human Histology (5.0 cr)
HINF 5440 - Foundations of Translational Bioinformatics (3.0 cr)
HINF 5450 - Foundations of Precision Medicine Informatics (3.0 cr)
HINF 5494 - Topics in Health Informatics (1.0 - 3.0 cr)
HINF 5496 - Internship in Health Informatics (1.0 - 6.0 cr)
HINF 5502 - Python Programming Essentials for the Health Sciences (1.0 cr)
HINF 5610 - Foundations of Biomedical Natural Language Processing (3.0 cr)
HINF 5620 - Data Visualization for the Health Sciences (3.0 cr)
HINF 5630 - Clinical Data Mining (3.0 cr)
HINF 5640 - Advanced Translational Bioinformatics Methods (3.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 36
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Health informatics (also known as biomedical informatics) is an interdisciplinary field of scholarship that applies computer, information, statistical, management, and related scientific methods to enable biomedical discovery and support the effective and efficient use and analysis of data, management of information, and application of knowledge across the spectrum from basic science to clinical care. The ultimate goal of the field is to improve the health, well-being, and economic functioning of society. Students take a sequence of core courses in health informatics, computing, and biostatistics, and electives in technical and health science areas. Possible areas of emphasis include health information systems, telehealth, bioinformatics, user interface design, system impact evaluation, database construction and analysis, clinical decision-making, evaluation of health programs, and physiological monitoring and control.

The health informatics MS is intended for students who are interested in research, but who do not have the background or are not ready to commit to the PhD program.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.30.

Applicants are expected to have at least a bachelor of science or equivalent degree from a regionally accredited institution of higher education.

Required prerequisites

Health or Biological Sciences
Applicants must have taken 6 semester-credits or 9 quarter-credits at the undergraduate or graduate level in medical, life, or biological sciences from a regionally accredited institution of higher learning or equivalent. This broadly defined requirement includes most courses with a health or biology emphasis, including biostatistics, health services research, and public health, as well as more traditional biology or life science courses.

Programming Language
Documented work or educational experience working with a programming language such as C, C++, Java, Python, R, Visual Basic, etc.
or HINF 5502 - Python Programming Essentials for the Health Sciences (1.0 cr)
or Department Consent

Applicants must submit their test score(s) from the following:
- GRE
  - General Test - Verbal Reasoning: 151
  - General Test - Quantitative Reasoning: 160
  - General Test - Analytical Writing: 4
International applicants must submit score(s) from one of the following tests:

- **TOEFL**
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19

- **IELTS**
  - Total Score: 6.5
  - Reading Score: 6.5
  - Writing Score: 6.5

- **MELAB**
  - Final score: 80

The preferred English language test is Test of English as Foreign Language (TOEFL).

Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

**Program Requirements**

**Plan A:** Plan A requires 26 major credits, up to null credits outside the major, and 10 thesis credits. The final exam is written and oral.

**Plan B:** Plan B requires 36 major credits and up to null credits outside the major. The final exam is written and oral.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.

**Required HINF Courses (16 credits)**

Take the following courses. Take HINF 5436 twice for a total of 2 credits.

- **HINF 5430** - Foundations of Health Informatics I (3.0 cr)
- **HINF 5431** - Foundations of Health Informatics II (3.0 cr)
- **HINF 5436** - AHC Informatics Grand Rounds (1.0 cr)
- **HINF 5510** - Applied Health Care Databases: Database Principles and Data Evaluation (3.0 cr)
- **HINF 5520** - Informatics Methods for Health Care Quality, Outcomes, and Patient Safety (2.0 cr)
- **HINF 5531** - Health Data Analytics and Data Science (3.0 cr)

**Other Required Courses (7 credits)**

Take the following courses:

- **NURS 7108** - Population Health Informatics (2.0 cr)
- **PUBH 6450** - Biostatistics I (4.0 cr)

**Electives (3 to 9 credits)**

Plan A students select 3 credits, and Plan B students select 9 credits from the following. If labs or practicums are selected, they must be taken concurrently with the associated course (e.g., HINF 8430 must be taken with HINF 5430). Advisor approval is required.

- **BIOC 5361** - Microbial Genomics and Bioinformatics (3.0 cr)
- **BIOC 8007** - Molecular Biology of the Genome (2.0 cr)
- **BIOC 8008** - Molecular Biology of the Transcriptome (2.0 cr)
- **CGSC 8410** - Perspectives in Learning, Perception, and Cognition (2.0 cr)
- **CSCI 5106** - Programming Languages (3.0 cr)
- **CSCI 5115** - User Interface Design, Implementation and Evaluation (3.0 cr)
- **CSCI 5271** - Introduction to Computer Security (3.0 cr)
- **CSCI 5421** - Advanced Algorithms and Data Structures (3.0 cr)
- **CSCI 5461** - Functional Genomics, Systems Biology, and Bioinformatics (3.0 cr)
- **CSCI 5481** - Computational Techniques for Genomics (3.0 cr)
- **CSCI 5511** - Artificial Intelligence I (3.0 cr)
- **CSCI 5521** - Machine Learning Fundamentals (3.0 cr)

Plan Options

Plan A
Take at least 10 master's thesis credits.
HINF 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

Plan B
Take the following course:
HINF 8770 - Plan B Project (4.0 cr)

Program Sub-plans
A sub-plan is not required for this program.
Students may not complete the program with more than one sub-plan.
Twin Cities Campus
Health Informatics Minor
Health Informatics, AHC Inst
Graduate School

Email: ihl@umn.edu
Website: http://healthinformatics.umn.edu

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Health informatics (also known as biomedical informatics) is an interdisciplinary field of scholarship that applies computer, information, statistical, management, and related scientific methods to enable biomedical discovery and support the effective and efficient use and analysis of data, management of information, and application of knowledge across the spectrum from basic science to clinical care. The ultimate goal of the field is to improve the health, well-being, and economic functioning of society. The minor provides an opportunity for students to supplement their primary training with additional knowledge and skills in health informatics.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- primarily online (at least 80% of the instruction for the program is online with short, intensive periods of face-to-face coursework)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Required prerequisites
Health or Biological Sciences
Applicants must have taken 6 semester-credits or 9 quarter-credits at the undergraduate or graduate level in medical, life, or biological sciences from a regionally accredited institution of higher learning or equivalent. This broadly defined requirement includes most courses with a health or biology emphasis, including biostatistics, health services research, and public health, as well as more traditional biology or life science courses.

Programming language
Documented work or educational experience working with a programming language such as C, C++, Java, Python, R, Visual Basic, etc.

or HINF 5502 - Python Programming Essentials for the Health Sciences (1.0 cr)

or Department Consent

Special Application Requirements:
Applicants must be earning a graduate-level degree from the University of Minnesota.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Required Coursework
All students pursuing the Health Informatics minor must complete the following course:
HINF 5430 - Foundations of Health Informatics I (3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Masters
Required Course
Take the following course to complete the 6-credit minimum for the master's minor:
HINF 5431 - Foundations of Health Informatics II (3.0 cr)

Doctoral
Required courses
HINF 5440 - Foundations of Translational Bioinformatics (3.0 cr)

Foundations Lab
Students must take at least one lab concurrently with the associated course (i.e. take 8430 concurrently with 5430 or 8440 concurrently with 5440).
Take 1 - 2 course(s) from the following:
• HINF 8430 - Foundations of Health Informatics I Lab (2.0 cr)
• HINF 8440 - Foundations of Translational Bioinformatics Lab (2.0 cr)

Electives
Take HINF electives to meet the 12-credit minimum for the doctoral minor.
HINF 5431 - Foundations of Health Informatics II (3.0 cr)
HINF 5436 - AHC Informatics Grand Rounds (1.0 cr)
HINF 5450 - Foundations of Precision Medicine Informatics (3.0 cr)
HINF 5494 - Topics in Health Informatics (1.0 - 3.0 cr)
HINF 5510 - Applied Health Care Databases: Database Principles and Data Evaluation (3.0 cr)
HINF 5520 - Informatics Methods for Health Care Quality, Outcomes, and Patient Safety (2.0 cr)
HINF 5531 - Health Data Analytics and Data Science (3.0 cr)
HINF 5610 - Foundations of Biomedical Natural Language Processing (3.0 cr)
HINF 5620 - Data Visualization for the Health Sciences (3.0 cr)
HINF 5630 - Clinical Data Mining (3.0 cr)
HINF 5640 - Advanced Translational Bioinformatics Methods (3.0 cr)
HINF 5650 - Integrative Genomics and Computational Methods (3.0 cr)
HINF 8220 - Computational Causal Analytics (3.0 cr)
HINF 8405 - Advanced Topics in Health Informatics I (1.0 - 4.0 cr)
HINF 8406 - Advanced Topics in Health Informatics II (1.0 - 4.0 cr)
HINF 8492 - Advanced Readings or Research in Health Informatics (1.0 - 6.0 cr)

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 70
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Health informatics (also known as biomedical informatics) is an interdisciplinary field of scholarship that applies computer, information, statistical, management, and related scientific methods to enable biomedical discovery and support the effective and efficient use and analysis of data, management of information, and application of knowledge across the spectrum from basic science to clinical care. The ultimate goal of the field is to improve the health, well-being, and economic functioning of society. Students take a sequence of core courses in health informatics, computing, and biostatistics, and electives in technical and health science areas, and pursue one of four tracks: data science and informatics for learning health systems; clinical informatics; translational bioinformatics; or precision and personalized medicine (PPM) informatics.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.50.

Applicants must have a BS or equivalent in science, technology, engineering, computer science, math, or another pertinent field from a regionally accredited university or international equivalent.

Required prerequisites
Health or Biological Sciences
Applicants must have taken 6 semester-credits or 9 quarter-credits at the undergraduate or graduate level in medical, life, or biological sciences from a regionally accredited institution of higher learning or equivalent. This broadly defined requirement includes most courses with a health or biology emphasis, including biostatistics, health services research, and public health, as well as more traditional biology or life science courses.
6-9 credits

Computer Science
Clinical Informatics Track
Documented work or educational experience working with a general purpose programming language such as C, C++, Java, Visual Basic, PASCAL, etc.
or HINF 5502 - Python Programming Essentials for the Health Sciences (1.0 cr)
or Other Tracks
Applicants to the data science for learning health systems, translational bioinformatics, and precision and personalized medicine informatics tracks must also have taken an introduction to data structures and algorithms, such as the course listed below.
CSCI 1933 - Introduction to Algorithms and Data Structures (4.0 cr)

Track-Specific Prerequisites
Applicants to the data science for learning health systems, translational bioinformatics, and precision and personalized medicine informatics tracks must also have the following prerequisites or must take remedial courses at the discretion of the admissions committee:
Mathematics
Applicants must have college-level calculus and linear algebra, such as the courses listed below.
MATH 1271 - Calculus I [MATH] (4.0 cr)
CSCI 2033 - Elementary Computational Linear Algebra (4.0 cr)
or MATH 4242 - Applied Linear Algebra (4.0 cr)

Statistics
Applicants must have college-level statistics, such as the courses below.
STAT 3011 - Introduction to Statistical Analysis [MATH] (4.0 cr)
or STAT 3021 - Introduction to Probability and Statistics (3.0 cr)

Applicants must submit their test score(s) from the following:
• GRE
  - General Test - Verbal Reasoning: 151
  - General Test - Quantitative Reasoning: 160
  - General Test - Analytical Writing: 4

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
• IELTS
  - Total Score: 6.5
  - Reading Score: 6.5
  - Writing Score: 6.5
• MELAB
  - Final score: 80

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
46 credits are required in the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

All courses taken, milestones met, and progress made in the program are subject to Academic Program Committee (APC) review. The inclusion of 4000-level coursework requires APC approval.

Required Core Coursework (14 credits)

Phase I (12 credits)
Take the following courses. Take HINF 5436 twice for a total of 2 credits.
HINF 5430 - Foundations of Health Informatics I (3.0 cr)
HINF 8430 - Foundations of Health Informatics I Lab (2.0 cr)
HINF 5436 - AHC Informatics Grand Rounds (1.0 cr)
HINF 5440 - Foundations of Translational Bioinformatics (3.0 cr)
HINF 8440 - Foundations of Translational Bioinformatics Lab (2.0 cr)

Phase II (2 credits)
Take the following course, with APC approval, after completing Phase I coursework.
HINF 8525 - Health Informatics Teaching (2.0 cr)

Thesis Credits
Take at least 24 doctoral thesis credits in consultation with the APC.
Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Clinical Informatics
The clinical informatics track provides instruction and training for students interested in clinical applications methods and applications. The curriculum includes instruction in health data and coding, systems analysis, human-computer interaction, current informatics research, and current applications such as decision support systems, natural language processing, and predictive modeling. Additionally, students learn biostatistical methods, relational database theory and practice, analytics and data science methodologies, consumer health informatics, and interprofessional practice. Electives supplement individual student interests in areas such as computer programming, health data management, health care finance, and public and population health (with scope to include person-empowered participation and inter-professional engagement). Courses use a mixture of theoretical and applied subject matter to provide a solid grounding in current informatics thinking and practice.

Clinical Informatics Coursework (32 credits)
Core Coursework (16 credits)
Take the following core courses:
- HINF 5431 - Foundations of Health Informatics II (3.0 cr)
- HINF 8431 - Foundations of Health Informatics II Lab (2.0 cr)
- HINF 5510 - Applied Health Care Databases: Database Principles and Data Evaluation (3.0 cr)
- HINF 5520 - Informatics Methods for Health Care Quality, Outcomes, and Patient Safety (2.0 cr)
- HINF 5531 - Health Data Analytics and Data Science (3.0 cr)
- NURS 5116 - Consumer Health Informatics (2.0 cr)
- NURS 7108 - Population Health Informatics (2.0 cr)

Required Biostatistics Coursework (8 credits)
Take the following two courses:
- PUBH 6450 - Biostatistics I (4.0 cr)
- PUBH 6451 - Biostatistics II (4.0 cr)

Electives
Select at least 8 elective credits, in consultation with the APC, to complete the 46 course credits required for the PhD degree.
- BIOC 5361 - Microbial Genomics and Bioinformatics (3.0 cr)
- BIOC 8007 - Molecular Biology of the Genome (2.0 cr)
- BIOC 8008 - Molecular Biology of the Transcriptome (2.0 cr)
- CGSC 8410 - Perspectives in Learning, Perception, and Cognition (2.0 cr)
- CSCI 5106 - Programming Languages (3.0 cr)
- CSCI 5115 - User Interface Design, Implementation and Evaluation (3.0 cr)
- CSCI 5271 - Introduction to Computer Security (3.0 cr)
- CSCI 5421 - Advanced Algorithms and Data Structures (3.0 cr)
- CSCI 5461 - Functional Genomics, Systems Biology, and Bioinformatics (3.0 cr)
- CSCI 5481 - Computational Techniques for Genomics (3.0 cr)
- CSCI 5511 - Artificial Intelligence I (3.0 cr)
- CSCI 5521 - Machine Learning Fundamentals (3.0 cr)
- CSCI 5525 - Machine Learning: Analysis and Methods (3.0 cr)
- CSCI 5607 - Fundamentals of Computer Graphics I (3.0 cr)
- CSCI 5608 - Fundamentals of Computer Graphics II (3.0 cr)
- CSCI 5707 - Principles of Database Systems (3.0 cr)
- CSCI 5708 - Architecture and Implementation of Database Management Systems (3.0 cr)
- CSCI 5801 - Software Engineering I (3.0 cr)
- CSCI 8725 - Databases for Bioinformatics (3.0 cr)
- DES 5185 - Human Factors in Design (3.0 cr)
- EPSY 5244 - Survey Design, Sampling, and Implementation (3.0 cr)
- EPSY 5262 - Intermediate Statistical Methods (3.0 cr)
- GCD 8103 - Human Histology (5.0 cr)
- HINF 5450 - Foundations of Precision Medicine Informatics (3.0 cr)
- HINF 5494 - Topics in Health Informatics (1.0 - 3.0 cr)
- HINF 5496 - Internship in Health Informatics (1.0 - 6.0 cr)
- HINF 5502 - Python Programming Essentials for the Health Sciences (1.0 cr)
- HINF 5610 - Foundations of Biomedical Natural Language Processing (3.0 cr)
- HINF 5620 - Data Visualization for the Health Sciences (3.0 cr)
- HINF 5630 - Clinical Data Mining (3.0 cr)
- HINF 5640 - Advanced Translational Bioinformatics Methods (3.0 cr)
- HINF 5650 - Integrative Genomics and Computational Methods (3.0 cr)

Data Science and Informatics for Learning Health Systems

The data science and informatics for learning health systems track builds on the highly regarded data science program offered jointly by the School of Engineering, School of Public Health, and School of Statistics. It also takes advantage of the School of Nursing's breadth of nursing and health informatics courses.

Students who pursue the data science and informatics for learning health systems track are expected to earn the University's data science MS degree en route to completing the PhD.

Students must consult with the APC to coordinate completion of coursework and other requirements for the data science MS, the health informatics PhD, and the data science and informatics for learning health systems track. Credits earned in the University's data science MS program may be used to fulfill required courses or elective credits in the data science and informatics for learning health systems track, subject to APC approval. Students who have an MS in data science from a comparable program may be exempt from this requirement in whole or in part, subject to APC review and approval.

Data Science and Informatics Coursework (32 credits)

Core Coursework (18 credits)
Take the following courses, in consultation with the APC, after completion of the data science MS degree. Take HINF 5496 and HINF 8492 for at least 3 credits each.

- HINF 5496 - Internship in Health Informatics (1.0 - 6.0 cr)
- HINF 5510 - Applied Health Care Databases: Database Principles and Data Evaluation (3.0 cr)
- HINF 5610 - Foundations of Biomedical Natural Language Processing (3.0 cr)
- HINF 5630 - Clinical Data Mining (3.0 cr)
- HINF 8220 - Computational Causal Analytics (3.0 cr)
- HINF 8492 - Advanced Readings or Research in Health Informatics (1.0 - 6.0 cr)

Elective Coursework (14 credits)
Select at least 14 elective credits from the following list, in consultation with the APC, to complete the 46 course credits required for the PhD degree. Credits earned in pursuit of the data science MS may be used to fulfill elective course requirements for this track, subject to APC approval.

Take 14 or more course(s) from the following:

Informatics
- Take 0 or more course(s) from the following:
  - HINF 5431 - Foundations of Health Informatics II (3.0 cr)
  - HINF 8431 - Foundations of Health Informatics II Lab (2.0 cr)
  - HINF 5610 - Foundations of Biomedical Natural Language Processing (3.0 cr)
  - HINF 5620 - Data Visualization for the Health Sciences (3.0 cr)
  - HINF 5647 - Introduction to the Mathematics of Image and Data Analysis (4.0 cr)

Applications
- Take 0 or more course(s) from the following:
  - NURS 7113 - Clinical Decision Support: Theory (2.0 cr)
  - PUBH 6102 - Issues in Environmental Health (2.0 cr)
  - PUBH 6560 - Operations Research and Quality in Health Care (3.0 cr)
• PUBH 6717 - Decision Analysis for Health Care (2.0 cr)
• PUBH 6751 - Principles of Management in Health Services Organizations (2.0 cr)
• PUBH 6765 - Continuous Quality Improvement: Methods and Techniques (3.0 cr)
• PUBH 6809 - Advanced Methods in Health Decision Science (3.0 cr)
• PUBH 6862 - Cost-Effectiveness Analysis in Health Care (3.0 cr)

• Advanced Methodology
Take 0 or more course(s) from the following:
• PUBH 6341 - Epidemiologic Methods I (3.0 cr)
• PUBH 8452 - Advanced Longitudinal Data Analysis (3.0 cr)
• PUBH 8462 - Advanced Survival Analysis (3.0 cr)
• PUBH 8472 - Spatial Biostatistics (3.0 cr)

• Data Science
Take 0 or more course(s) from the following:
• STAT 5101 - Theory of Statistics I (4.0 cr)
• STAT 5102 - Theory of Statistics II (4.0 cr)
• STAT 5302 - Applied Regression Analysis (4.0 cr)
• STAT 5511 - Time Series Analysis (3.0 cr)
• STAT 5401 - Applied Multivariate Methods (3.0 cr)
• STAT 8051 - Advanced Regression Techniques: linear, nonlinear and nonparametric methods (3.0 cr)
• PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
• CSCI 5521 - Machine Learning Fundamentals (3.0 cr)
• CSCI 5523 - Introduction to Data Mining (3.0 cr)
• CSCI 5525 - Machine Learning: Analysis and Methods (3.0 cr)
• PUBH 8475 - Statistical Learning and Data Mining (3.0 cr)
• CSCI 5105 - Introduction to Distributed Systems (3.0 cr)
• CSCI 5451 - Introduction to Parallel Computing: Architectures, Algorithms, and Programming (3.0 cr)
• CSCI 5707 - Principles of Database Systems (3.0 cr)

Translational Bioinformatics
The translational bioinformatics track bridges genomics and bioinformatics to precision medicine through its methods and techniques development and innovation that directly relate to the study of basic biological science and diseases. The computational methods related to genomics, epigenomics, transcriptomics, proteomics, metabolomics, and pharmacogenomics are included, which build the connection of molecular findings and phenotypes to characterize disease susceptibility or determine disease markers, and predict response to treatment and prognosis. The program offers three specialized areas: structural and functional genomics, microbiomics and metagenomics, and cancer genomics.

Students must consult with the APC to coordinate completion of coursework and other requirements.

Translational Bioinformatics Coursework (32 credits)

Phase I (22 credits)
Take the following courses for a total of 22 credits:
CSCI 5521 - Machine Learning Fundamentals (3.0 cr)
CSCI 5421 - Advanced Algorithms and Data Structures (3.0 cr)
HINF 8220 - Computational Causal Analytics (3.0 cr)
HINF 5650 - Integrative Genomics and Computational Methods (3.0 cr)
STAT 8051 - Advanced Regression Techniques: linear, nonlinear and nonparametric methods (3.0 cr)
STAT 8052 - Applied Statistical Methods 2: Design of Experiments and Mixed-Effects Modeling (3.0 cr)
BIOC 8007 - Molecular Biology of the Genome (2.0 cr)

Phase II (6 credits)
Take the following courses after completing Phase I, and with the approval of the APC:
HINF 5496 - Internship in Health Informatics (1.0 - 6.0 cr)
HINF 8492 - Advanced Readings or Research in Health Informatics (1.0 - 6.0 cr)

Elective Coursework (4 credits)
Select at least 4 elective credits from the following list, in consultation with the APC, to complete the 46 course credits required for the PhD degree.
HINF 5431 - Foundations of Health Informatics II (3.0 cr)
HINF 8431 - Foundations of Health Informatics II Lab (2.0 cr)
HINF 5450 - Foundations of Precision Medicine Informatics (3.0 cr)
HINF 5610 - Foundations of Biomedical Natural Language Processing (3.0 cr)
MEDC 5245 - Introduction to Drug Design (3.0 cr)
PHAR 6224 - Advanced Pharmacogenomics and Precision Medicine (2.0 cr)
PUBH 7415 - Introduction to Clinical Trials (3.0 cr)
PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)
PUBH 8445 - Statistics for Human Genetics and Molecular Biology (3.0 cr)
STAT 8053 - Applied Statistical Methods 3: Multivariate Analysis and Advanced Regression (3.0 cr)
Precision and Personalized Medicine Informatics

The precision and personalized medicine informatics track provides a didactic program for students training in informatics who will develop specialized knowledge in precision informatics methods applied to personal and population health-focused problems. The scope of this track includes social determinants of health and inter-professional research and expertise. Students will develop skills in quantitative methods and biomedical sciences for their application to precision medicine. In addition, students will gain an understanding of medical and biological science to provide needed context on which to apply informatics methods.

Students must consult with the APC to coordinate completion of coursework and other requirements.

Precision and Personalized Medicine Informatics Coursework (32 credits)

Phase I (19 credits)
Take the following courses:
- HINF 5450 - Foundations of Precision Medicine Informatics (3.0 cr)
- HINF 5510 - Applied Health Care Databases: Database Principles and Data Evaluation (3.0 cr)
- HINF 5520 - Informatics Methods for Health Care Quality, Outcomes, and Patient Safety (2.0 cr)
- PUBH 7401 - Fundamentals of Biostatistical Inference (4.0 cr)
- PUBH 7402 - Biostatistics Modeling and Methods (4.0 cr)
- HINF 5531 - Health Data Analytics and Data Science (3.0 cr)
  or HINF 5630 - Clinical Data Mining (3.0 cr)

Phase II (8 credits)
Take the following courses after completing Phase I, and with the approval of the APC. Take HINF 5496 and HINF 8492 for at least 3 credits each.
- HINF 5496 - Internship in Health Informatics (1.0 - 6.0 cr)
- HINF 8492 - Advanced Readings or Research in Health Informatics (1.0 - 6.0 cr)
- PHAR 6224 - Advanced Pharmacogenomics and Precision Medicine (2.0 cr)

Elective Coursework (5 credits)
Select at least 5 elective credits, in consultation with the APC, to complete the 46 course credits required for the PhD degree.
- HINF 5431 - Foundations of Health Informatics II (3.0 cr)
- MATH 5652 - Introduction to Stochastic Processes (4.0 cr)
- MATH 5445 - Mathematical Analysis of Biological Networks (4.0 cr)
- PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
- PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
- PUBH 7445 - Statistics for Human Genetics and Molecular Biology (3.0 cr)
- PUBH 8432 - Probability Models for Biostatistics (3.0 cr)
- PUBH 8442 - Bayesian Decision Theory and Data Analysis (3.0 cr)
- PUBH 8445 - Statistics for Human Genetics and Molecular Biology (3.0 cr)
- PUBH 8446 - Advanced Statistical Genetics and Genomics (3.0 cr)
- STAT 5511 - Time Series Analysis (3.0 cr)
- STAT 5401 - Applied Multivariate Methods (3.0 cr)

Program in the History of Science, Technology, and Medicine, University of Minnesota, 585 Shepherd Labs, 100 Union Street S.E., Minneapolis, MN 55455 (612-624-7069; fax: 612-301-1442)
Email: hstm@umn.edu
Website: http://cse.umn.edu/hstm

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30 to 31
- This program does not require summer semesters for timely completion.
- Degree: Master of Arts

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The program offers opportunities for advanced research and study in the history of science and technology (with particular expertise in the history of the physical sciences, history of the biological sciences, history of technology, and history of American science and technology) and in the history of medicine.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Students must have a bachelor's degree with a preferred grade average of B or better and must be capable of interdisciplinary study. Depending on background and career objectives, additional preparatory studies may be necessary in either the science-technology area or in the humanities and social sciences.

Although it is not strictly required for admission, it's strongly recommended that applicants submit a GRE score.

Special Application Requirements:
All application materials are submitted online to the University. Applications are accepted for fall admission only. The application deadline is December 1.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5
- MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Plan A: Plan A requires 15 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is oral.

Plan B: Plan B requires 24 major credits and 6 credits outside the major. The final exam is written.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Language Requirement: Reading proficiency in one foreign language.

A minimum GPA of 3.30 is required for students to remain in good standing.

Courses must be taken on the A-F grade basis, unless only offered S/N, with a minimum grade of B earned for each course.

Students select one of two tracks: the history of science and technology or the history of medicine.

Coursework is subject to distribution requirements in terms of area and period. To meet the period distribution requirement, all students must take at least one course covering material in the pre-1800 period and one course covering material in the post-1800 period.

Students in the History of Science and Technology (HSCI) track are required to meet the area distribution requirement by completing a minimum of two courses in each of two fields. There are four fields in the HSCI track from which to choose: 1. History of the Physical Sciences 2. History of the Biological Sciences 3. History of Technology 4. History of Science and Technology in American Culture

Additional information is stipulated in the Graduate Handbook. The period and area distribution requirements are completed in consultation with the advisor and director of graduate studies. HSCI/HMED 8112 and 8113 cannot fulfill period or area distribution requirements.

Core Coursework (6 credits)
Select one of the following sequences in consultation with the advisor:

- HMED 8112 - Historiography of Science, Technology, and Medicine (3.0 cr)
- HMED 8113 - Research Methods in the History of Science, Technology, and Medicine (3.0 cr)
- or HSCI 8112 - Historiography of Science, Technology, and Medicine (3.0 cr)
- HSCI 8113 - Research Methods in the History of Science, Technology, and Medicine (3.0 cr)

Period Distribution Requirement
At least 1 course meeting MA degree requirements must also cover material in the pre-1800 period and at least 1 course must also cover material in the post-1800 period. Select coursework from the following in consultation with the advisor. Other courses may be chosen with advisor and director of graduate studies approval.

Pre-1800 Course (1 course)
- EMS 8250 - Seminar in Early Modern Studies (3.0 cr)
- HMED 8001 - Foundations in the History of Early Medicine (3.0 cr)
- HSCI 5611 - Enlightenment, Revolution, and the Rise of Modern Science (3.0 cr)
- HSCI 8124 - Foundations for Research in Ancient Science (3.0 cr)
- HSCI 8125 - Foundations for Research in the Scientific Revolution (3.0 cr)
- HSCI 8900 - Seminar: History of Early Physical Science (3.0 cr)

Post-1800 Course (1 course)
- HIST 5910 - Topics in U.S. History (1.0 - 4.0 cr)
- HIST 8940 - Topics in Asian History (1.0 - 4.0 cr)
- HIST 8960 - Topics in History (1.0 - 4.0 cr)
- HIST 8993 - Directed Study (1.0 - 16.0 cr)
- HMED 5075 - Technology and Medicine in Modern America (3.0 cr)
- HMED 5940 - Topics in the History of Medicine (3.0 cr)
- HMED 8002 - Foundations in the History of Modern Medicine, 1800-present (3.0 cr)
- HMED 8220 - Seminar: Current Topics in the History of Medicine (3.0 cr)
- HMED 8830 - Topics in the History of Science, Technology, and Medicine (3.0 cr)
- HSCI 5211 - Biology and Culture in the 19th and 20th Centuries [DIV] (3.0 cr)
- HSCI 5242 - Navigating a Darwinian World (3.0 cr)
- HSCI 5244 - Nature's History: Science, Humans, and the Environment (3.0 cr)
- HSCI 5246 - History of (Un)Natural Disasters (3.0 cr)
- HSCI 5331 - Technology and American Culture (3.0 cr)
- HSCI 5332 - Science in the Shaping of America (3.0 cr)
- HSCI 5401 - Ethics in Science and Technology (3.0 cr)
- HSCI 5421 - Engineering Ethics (3.0 cr)
- HSCI 8131 - Industrial Revolutions (3.0 cr)
- HSCI 8421 - Social and Cultural Studies of Science (3.0 cr)
HSCI 8441 - Women in Science: Historical Perspectives (3.0 cr)
HSCI 8830 - Topics in the History of Science, Technology, and Medicine (3.0 cr)
HSCI 8910 - Seminar: History of Modern Physical Sciences (3.0 cr)
HSCI 8920 - Seminar: History of Biological Sciences (3.0 cr)
HSCI 8940 - Seminar: History of Science and Technology in the Americas (3.0 cr)
HSCI 8950 - Seminar: Science and Technology in Cultural Settings (3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

History of Medicine

**History of Medicine Coursework (9 to 15 credits)**
Plan A students select 9 credits, and Plan B students select 15 credits from the following in consultation with the advisor:
HMED 5075 - Technology and Medicine in Modern America (3.0 cr)
HMED 5940 - Topics in the History of Medicine (3.0 cr)
HMED 8001 - Foundations in the History of Early Medicine (3.0 cr)
HMED 8002 - Foundations in the History of Modern Medicine, 1800-present (3.0 cr)
HMED 8135 - Disease and Debility in History (3.0 cr)
HMED 8220 - Seminar: Current Topics in the History of Medicine (3.0 cr)
HMED 8631 - Directed Study (1.0 - 6.0 cr)
HMED 8632 - Directed Study (1.0 - 6.0 cr)
HMED 8830 - Topics in the History of Science, Technology, and Medicine (3.0 cr)

Outside Coursework (6 credits)
Select 6 credits from the following in consultation with the advisor. Other courses may be chosen with advisor and director of graduate studies approval,
EMS 8100 - Workshop in Early Modern Studies (1.0 - 3.0 cr)
EMS 8250 - Seminar in Early Modern Studies (3.0 cr)
HIST 5910 - Topics in U.S. History (1.0 - 4.0 cr)
HIST 8940 - Topics in History (1.0 - 4.0 cr)
HIST 8993 - Directed Study (1.0 - 16.0 cr)
HSCI 5242 - Navigating a Darwinian World (3.0 cr)
HSCI 5244 - Nature's History: Science, Humans, and the Environment (3.0 cr)
HSCI 5246 - History of (Un)Natural Disasters (3.0 cr)
HSCI 5331 - Technology and American Culture (3.0 cr)
HSCI 5332 - Science in the Shaping of America (3.0 cr)
HSCI 5401 - Ethics in Science and Technology (3.0 cr)
HSCI 5421 - Engineering Ethics (3.0 cr)
HSCI 5611 - Enlightenment, Revolution, and the Rise of Modern Science (3.0 cr)
HSCI 5993 - Directed Studies (1.0 - 15.0 cr)
HSCI 8124 - Foundations for Research in Ancient Science (3.0 cr)
HSCI 8125 - Foundations for Research in the Scientific Revolution (3.0 cr)
HSCI 8131 - Industrial Revolutions (3.0 cr)
HSCI 8421 - Social and Cultural Studies of Science (3.0 cr)
HSCI 8441 - Women in Science: Historical Perspectives (3.0 cr)
HSCI 8900 - Seminar: History of Early Physical Science (3.0 cr)
HSCI 8910 - Seminar: History of Modern Physical Sciences (3.0 cr)
HSCI 8920 - Seminar: History of Biological Sciences (3.0 cr)
HSCI 8930 - Seminar: History of Technology (3.0 cr)
HSCI 8940 - Seminar: History of Science and Technology in the Americas (3.0 cr)
HSCI 8950 - Seminar: Science and Technology in Cultural Settings (3.0 cr)
HSCI 8993 - Directed Studies (1.0 - 5.0 cr)
HSCI 8994 - Directed Research (1.0 - 5.0 cr)
MST 5011 - Museum History and Philosophy (3.0 cr)
MST 5012 - Museum Practices (3.0 cr)
MST 5020 - Internship (1.0 - 6.0 cr)

Plan Options

**Plan A**

**Thesis Credits**
Take 10 master's thesis credits.
HMED 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)
Plan B

Project Credits (3 credits)
Take 1 of the following, in consultation with the advisor, for 3 credits:
- HMED 8631 - Directed Study (1.0 - 6.0 cr)
- or HMED 8632 - Directed Study (1.0 - 6.0 cr)

History of Science and Technology

History of Science and Technology Coursework (9 to 15 credits)
Plan A students select 9 credits, and Plan B students select 15 credits from the following in consultation with the advisor:
- HSCI 5211 - Biology and Culture in the 19th and 20th Centuries [CIV] (3.0 cr)
- HSCI 5242 - Navigating a Darwinian World (3.0 cr)
- HSCI 5244 - Nature's History: Science, Humans, and the Environment (3.0 cr)
- HSCI 5246 - History of (Un)Natural Disasters (3.0 cr)
- HSCI 5331 - Technology and American Culture (3.0 cr)
- HSCI 5332 - Science in the Shaping of America (3.0 cr)
- HSCI 5401 - Ethics in Science and Technology (3.0 cr)
- HSCI 5421 - Engineering Ethics (3.0 cr)
- HSCI 5611 - Enlightenment, Revolution, and the Rise of Modern Science (3.0 cr)
- HSCI 5993 - Directed Studies (1.0 - 15.0 cr)
- HSCI 8124 - Foundations for Research in Ancient Science (3.0 cr)
- HSCI 8125 - Foundations for Research in the Scientific Revolution (3.0 cr)
- HSCI 8131 - Industrial Revolutions (3.0 cr)
- HSCI 8421 - Social and Cultural Studies of Science (3.0 cr)
- HSCI 8441 - Women in Science: Historical Perspectives (3.0 cr)
- HSCI 8830 - Topics in the History of Science, Technology, and Medicine (3.0 cr)
- HSCI 8900 - Seminar: History of Early Physical Science (3.0 cr)
- HSCI 8910 - Seminar: History of Modern Physical Sciences (3.0 cr)
- HSCI 8920 - Seminar: History of Biological Sciences (3.0 cr)
- HSCI 8930 - Seminar: History of Technology (3.0 cr)
- HSCI 8940 - Seminar: History of Science and Technology in the Americas (3.0 cr)
- HSCI 8950 - Seminar: Science and Technology in Cultural Settings (3.0 cr)
- HSCI 8993 - Directed Studies (1.0 - 5.0 cr)
- HSCI 8994 - Directed Research (1.0 - 5.0 cr)

Outside Coursework (6 credits)
Select 6 credits from the following in consultation with the advisor. Other courses may be chosen with advisor and director of graduate studies approval.
- EMS 8100 - Workshop in Early Modern Studies (1.0 - 3.0 cr)
- EMS 8250 - Seminar in Early Modern Studies (3.0 cr)
- HIST 5910 - Topics in U.S. History (1.0 - 4.0 cr)
- HIST 8940 - Topics in Asian History (1.0 - 4.0 cr)
- HIST 8960 - Topics in History (1.0 - 4.0 cr)
- HIST 8993 - Directed Study (1.0 - 16.0 cr)
- HMED 5075 - Technology and Medicine in Modern America (3.0 cr)
- HMED 5940 - Topics in the History of Medicine (3.0 cr)
- HMED 8002 - Foundations in the History of Modern Medicine, 1800-present (3.0 cr)
- HMED 8135 - Disease and Debility in History (3.0 cr)
- HMED 8220 - Seminar: Current Topics in the History of Medicine (3.0 cr)
- HMED 8631 - Directed Study (1.0 - 6.0 cr)
- HMED 8632 - Directed Study (1.0 - 6.0 cr)
- MST 5011 - Museum History and Philosophy (3.0 cr)
- MST 5012 - Museum Practices (3.0 cr)
- MST 5020 - Internship (1.0 - 6.0 cr)

Plan Options

Plan A

Thesis Credits
Take 10 master's thesis credits.
- HSCI 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

-OR-

Plan B

Project Credits (3 credits)
Take 1 of the following, in consultation with the advisor, for 3 credits:
HSCI 8993 - Directed Studies (1.0 - 5.0 cr)

or HSCI 8994 - Directed Research (1.0 - 5.0 cr)
Twin Cities Campus
History of Science, Technology, and Medicine Minor

Contact Information:
Program in the History of Science, Technology, and Medicine, University of Minnesota, 585 Shepherd Labs, 100 Union Street SE, Minneapolis, MN 55455 (612-624-7069; fax: 612-301-1442)
Email: hstm@umn.edu
Website: http://cse.umn.edu/hstm

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The program offers opportunities for advanced research and study in the history of science and technology (with particular expertise in the history of the physical sciences, history of the biological sciences, history of technology, and history of American science and technology) and in the history of medicine.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the History of Science, Technology, and Medicine director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Courses must be taken on the A-F grade basis, unless only offered S/N, with a minimum grade of B earned for each course.

The minimum required GPA for the minor is 3.00.

Students are strongly encouraged to take minor field coursework from multiple faculty members.

Minor Courses (6-12 credits)
Masters students select 6 credits, and doctoral students select 12 credits from the following in consultation with the History of Science, Technology, and Medicine director of graduate studies. Coursework should reflect both an identifiable focus and breadth. HSCI or HMED 8112 is strongly recommended.

HMED 5075 - Technology and Medicine in Modern America (3.0 cr)
HMED 5940 - Topics in the History of Medicine (3.0 cr)
HMED 8001 - Foundations in the History of Early Medicine (3.0 cr)
HMED 8002 - Foundations in the History of Modern Medicine, 1800-present (3.0 cr)
HMED 8112 - Historiography of Science, Technology, and Medicine (3.0 cr)
HMED 8113 - Research Methods in the History of Science, Technology, and Medicine (3.0 cr)
HMED 8220 - Seminar: Current Topics in the History of Medicine (3.0 cr)

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 54
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The program offers opportunities for advanced research and study in the history of science and technology (with particular expertise in the history of the physical sciences, history of the biological sciences, history of technology, and history of American science and technology) and in the history of medicine.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisities for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Students must have a bachelor's degree with a preferred grade average of B or better and must be capable of interdisciplinary study. Depending on background and career objectives, additional preparatory studies may be necessary in either the science-technology area or in the humanities and social sciences.

Although it is not strictly required for admission, it's strongly recommended that applicants submit a GRE score.

Special Application Requirements:
All application materials are submitted online to the University. Applications are accepted for fall semester only. The application deadline is December 1.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- IELTS
  - Total Score: 6.5
- MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of November 07, 2022
24 credits are required in the major.
6 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Language Requirement: Reading proficiency in two foreign languages.

A minimum GPA of 3.30 is required for students to remain in good standing.

Courses must be taken on the A-F grade basis, unless only offered S/N, with a minimum grade of B earned for each course.

Students select one of two tracks: the history of science and technology or the history of medicine.

Coursework is subject to distribution requirements in terms of area and period. To meet the period distribution requirement, all students must take at least one course covering material in the pre-1800 period and one course covering material in the post-1800 period.

Students in the History of Science and Technology (HSCI) track are required to meet the area distribution requirement by completing a minimum of two courses in each of two fields. There are four fields in the HSCI track from which to choose: 1. History of the Physical Sciences 2. History of the Biological Sciences 3. History of Technology 4. History of Science and Technology in American Culture

Additional information is stipulated in the Graduate Handbook. The period and area distribution requirements are completed in consultation with the advisor and director of graduate studies. HSCI/HMED 8112 and 8113 cannot fulfill period or area distribution requirements.

Core Coursework (6 credits)
Select one of the following sequences in consultation with the advisor:

HMED 8112 - Historiography of Science, Technology, and Medicine (3.0 cr)
HMED 8113 - Research Methods in the History of Science, Technology, and Medicine (3.0 cr)
or
HSCI 8112 - Historiography of Science, Technology, and Medicine (3.0 cr)
HSCI 8113 - Research Methods in the History of Science, Technology, and Medicine (3.0 cr)

Period Distribution Requirement
At least 1 course meeting PhD degree requirements must also cover material in the pre-1800 period and at least 1 course must also cover material in the post-1800 period. Select coursework from the following in consultation with the advisor. Other courses may be chosen with advisor and director of graduate studies approval.

Pre-1800 Course (1 course)
EMS 8250 - Seminar in Early Modern Studies (3.0 cr)
HMED 8001 - Foundations in the History of Early Medicine (3.0 cr)
HSCI 5611 - Enlightenment, Revolution, and the Rise of Modern Science (3.0 cr)
HSCI 8124 - Foundations for Research in Ancient Science (3.0 cr)
HSCI 8125 - Foundations for Research in the Scientific Revolution (3.0 cr)
HSCI 8900 - Seminar: History of Early Physical Science (3.0 cr)

Post-1800 Course (1 course)
HIST 5910 - Topics in U.S. History (1.0 - 4.0 cr)
HIST 8940 - Topics in Asian History (1.0 - 4.0 cr)
HIST 8960 - Topics in History (1.0 - 4.0 cr)
HIST 8993 - Directed Study (1.0 - 16.0 cr)
HMED 5075 - Technology and Medicine in Modern America (3.0 cr)
HMED 5940 - Topics in the History of Medicine (3.0 cr)
HMED 8002 - Foundations in the History of Modern Medicine, 1800-present (3.0 cr)
HMED 8220 - Seminar: Current Topics in the History of Medicine (3.0 cr)
HMED 8830 - Topics in the History of Science, Technology, and Medicine (3.0 cr)
HSCI 5211 - Biology and Culture in the 19th and 20th Centuries [CIV] (3.0 cr)
HSCI 5242 - Navigating a Darwinian World (3.0 cr)
HSCI 5244 - Nature's History: Science, Humans, and the Environment (3.0 cr)
HSCI 5246 - History of (Un)Natural Disasters (3.0 cr)
HSCI 5331 - Technology and American Culture (3.0 cr)
HSCI 5332 - Science in the Shaping of America (3.0 cr)
HSCI 5401 - Ethics in Science and Technology (3.0 cr)
HSCI 5421 - Engineering Ethics (3.0 cr)
HSCI 8131 - Industrial Revolutions (3.0 cr)
HSCI 8421 - Social and Cultural Studies of Science (3.0 cr)
HSCI 8441 - Women in Science: Historical Perspectives (3.0 cr)
HSCI 8830 - Topics in the History of Science, Technology, and Medicine (3.0 cr)
HSCI 8910 - Seminar: History of Modern Physical Sciences (3.0 cr)
HSCI 8920 - Seminar: History of Biological Sciences (3.0 cr)
HSCI 8940 - Seminar: History of Science and Technology in the Americas (3.0 cr)
HSCI 8950 - Seminar: Science and Technology in Cultural Settings (3.0 cr)

**Thesis Credits**
Take 24 doctoral thesis credits after passing the preliminary oral exam.
HMED 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)
or HSCI 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)

**Program Sub-plans**
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

**History of Medicine**

**History of Medicine Coursework (18 credits)**
Select 15 credits from the following in consultation with the advisor:

- HMED 5075 - Technology and Medicine in Modern America (3.0 cr)
- HMED 5940 - Topics in the History of Medicine (3.0 cr)
- HMED 8001 - Foundations in the History of Early Medicine (3.0 cr)
- HMED 8002 - Foundations in the History of Modern Medicine, 1800-present (3.0 cr)
- HMED 8135 - Disease and Debility in History (3.0 cr)
- HMED 8220 - Seminar: Current Topics in the History of Medicine (3.0 cr)
- HMED 8830 - Topics in the History of Science, Technology, and Medicine (3.0 cr)

Take 1 of the following, in consultation with the advisor, for 3 credits:

- HMED 8631 - Directed Study (1.0 - 6.0 cr)
-or HMED 8632 - Directed Study (1.0 - 6.0 cr)

**Outside Coursework (6 credits)**
Select 6 credits from the following in consultation with the advisor. Other courses may be chosen with advisor and director of graduate studies approval.

- EMS 8100 - Workshop in Early Modern Studies (1.0 - 3.0 cr)
- EMS 8250 - Seminar in Early Modern Studies (3.0 cr)
- HIST 5910 - Topics in U.S. History (1.0 - 4.0 cr)
- HIST 8940 - Topics in Asian History (1.0 - 4.0 cr)
- HIST 8960 - Topics in History (1.0 - 4.0 cr)
- HIST 8993 - Directed Study (1.0 - 16.0 cr)
- HSCI 5242 - Navigating a Darwinian World (3.0 cr)
- HSCI 5244 - Nature's History: Science, Humans, and the Environment (3.0 cr)
- HSCI 5246 - History of (Un)Natural Disasters (3.0 cr)
- HSCI 5331 - Technology and American Culture (3.0 cr)
- HSCI 5332 - Science in the Shaping of America (3.0 cr)
- HSCI 5401 - Ethics in Science and Technology (3.0 cr)
- HSCI 5421 - Engineering Ethics (3.0 cr)
- HSCI 5611 - Enlightenment, Revolution, and the Rise of Modern Science (3.0 cr)
- HSCI 5993 - Directed Studies (1.0 - 15.0 cr)
- HSCI 8124 - Foundations for Research in Ancient Science (3.0 cr)
- HSCI 8125 - Foundations for Research in the Scientific Revolution (3.0 cr)
- HSCI 8131 - Industrial Revolutions (3.0 cr)
- HSCI 8421 - Social and Cultural Studies of Science (3.0 cr)
- HSCI 8441 - Women in Science: Historical Perspectives (3.0 cr)
- HSCI 8900 - Seminar: History of Early Physical Science (3.0 cr)
- HSCI 8910 - Seminar: History of Modern Physical Sciences (3.0 cr)
- HSCI 8920 - Seminar: History of Biological Sciences (3.0 cr)
- HSCI 8930 - Seminar: History of Technology (3.0 cr)
- HSCI 8940 - Seminar: History of Science and Technology in the Americas (3.0 cr)
- HSCI 8950 - Seminar: Science and Technology in Cultural Settings (3.0 cr)
- HSCI 8993 - Directed Studies (1.0 - 5.0 cr)
- HSCI 8994 - Directed Research (1.0 - 5.0 cr)
- MST 5011 - Museum History and Philosophy (3.0 cr)
- MST 5012 - Museum Practices (3.0 cr)
- MST 5020 - Internship (1.0 - 6.0 cr)

**History of Science and Technology**
History of Science and Technology Coursework (18 credits)
Select 15 credits from the following in consultation with the advisor:

HSCI 5211 - Biology and Culture in the 19th and 20th Centuries [CIV] (3.0 cr)
HSCI 5242 - Navigating a Darwinian World (3.0 cr)
HSCI 5244 - Nature's History: Science, Humans, and the Environment (3.0 cr)
HSCI 5246 - History of (Un)Natural Disasters (3.0 cr)
HSCI 5331 - Technology and American Culture (3.0 cr)
HSCI 5332 - Science in the Shaping of America (3.0 cr)
HSCI 5401 - Ethics in Science and Technology (3.0 cr)
HSCI 5421 - Engineering Ethics (3.0 cr)
HSCI 5611 - Enlightenment, Revolution, and the Rise of Modern Science (3.0 cr)
HSCI 5993 - Directed Studies (1.0 - 15.0 cr)
HSCI 8124 - Foundations for Research in Ancient Science (3.0 cr)
HSCI 8125 - Foundations for Research in the Scientific Revolution (3.0 cr)
HSCI 8131 - Industrial Revolutions (3.0 cr)
HSCI 8421 - Social and Cultural Studies of Science (3.0 cr)
HSCI 8441 - Women in Science: Historical Perspectives (3.0 cr)
HSCI 8830 - Topics in the History of Science, Technology, and Medicine (3.0 cr)
HSCI 8900 - Seminar: History of Early Physical Science (3.0 cr)
HSCI 8910 - Seminar: History of Modern Physical Sciences (3.0 cr)
HSCI 8920 - Seminar: History of Biological Sciences (3.0 cr)
HSCI 8930 - Seminar: History of Technology (3.0 cr)
HSCI 8940 - Seminar: History of Science and Technology in the Americas (3.0 cr)
HSCI 8950 - Seminar: Science and Technology in Cultural Settings (3.0 cr)

Take 1 of the following for 3 credits, in consultation with the advisor:

HSCI 8993 - Directed Studies (1.0 - 5.0 cr)
or HSCI 8994 - Directed Research (1.0 - 5.0 cr)

Outside Coursework (6 credits)
Select 6 credits from the following in consultation with the advisor. Other courses may be chosen with advisor and director of graduate studies approval.

EMS 8100 - Workshop in Early Modern Studies (1.0 - 3.0 cr)
EMS 8250 - Seminar in Early Modern Studies (3.0 cr)
HIST 5910 - Topics in U.S. History (1.0 - 4.0 cr)
HIST 8840 - Topics in Asian History (1.0 - 4.0 cr)
HIST 8960 - Topics in History (1.0 - 4.0 cr)
HIST 8993 - Directed Study (1.0 - 16.0 cr)
HMED 5075 - Technology and Medicine in Modern America (3.0 cr)
HMED 5940 - Topics in the History of Medicine (3.0 cr)
HMED 8002 - Foundations in the History of Modern Medicine, 1800-present (3.0 cr)
HMED 8135 - Disease and Deblility in History (3.0 cr)
HMED 8220 - Seminar: Current Topics in the History of Medicine (3.0 cr)
HMED 8631 - Directed Study (1.0 - 6.0 cr)
HMED 8632 - Directed Study (1.0 - 6.0 cr)
MST 5011 - Museum History and Philosophy (3.0 cr)
MST 5012 - Museum Practices (3.0 cr)
MST 5020 - Internship (1.0 - 6.0 cr)
Program Requirements

**Plan C**: Plan C requires 45 major credits and up to null credits outside the major. There is no final exam. A capstone project is required.

**Capstone Project**: Students will participate in a three-credit capstone seminar rather than a thesis. The capstone seminar is one of the required core courses.
This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 2.8 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.

A 200-hour, non-credit professional internship, supervised by the Human Rights program, is required. Completion of the internship during the summer after the first year is expected.

4xxx-level coursework is limited to language courses unless approved by the director of graduate studies.

Excluding electives, all courses offered on both the A-F and S/N grading basis must be taken A-F.

**Human Rights Core (11 credits)**

If HIST 8910 is taken, topic must be Human Rights and Race.

- **PA 5886** - Master of Human Rights Cohort Seminar I (1.0 cr)
- **PA 5887** - Master of Human Rights Cohort Seminar II (1.0 cr)

Take 3 or more course(s) totaling 9 or more credit(s) from the following:
- **GLOS 5403** - Human Rights Advocacy (3.0 cr)
- **HIST 8245** - Human Rights: A Global History (3.0 cr)
- **HIST 8910** - Topics in U.S. History (1.0 - 4.0 cr)
- **LAW 6886** - International Human Rights Law (3.0 cr)
- **PA 5885** - Human Rights Policy: Issues and Actors (3.0 cr)
- **SOC 8171** - Cross-Disciplinary Perspectives in Human Rights (3.0 cr)

**Professional Core (12 credits)**

Select credits from each of the following 4 professional core areas, in consultation with the advisor, to satisfy the 12-credit professional core minimum:

**Quantitative**
- Higher-level options available for students with strong statistical background, with director of graduate studies approval.
  - **PA 5031** - Statistics for Public Affairs (4.0 cr)
  - **PA 5032** - Applied Regression (2.0 cr)
  - **PA 5033** - Multivariate Techniques (2.0 cr)
  - **PA 5044** - Applied Regression, Accelerated (2.0 cr)
  - **PA 5045** - Statistics for Public Affairs, Accelerated (4.0 cr)
  - **SOC 5811** - Social Statistics for Graduate Students (3.0 cr)
  - **STAT 5021** - Statistical Analysis (4.0 cr)
  - **STAT 5401** - Applied Multivariate Methods (3.0 cr)

**Qualitative**
- **OLPD 5061** - Ethnographic Research Methods (3.0 cr)
- **PA 5041** - Qualitative Methods for Policy Analysts (4.0 cr)
- **SOC 8852** - Advanced Qualitative Research Methods: Ethnographic Practicum (3.0 cr)

**Management**
- **PA 5011** - Management of Organizations (3.0 cr)
- **PA 5101** - Management and Governance of Nonprofit Organizations (3.0 cr)
- **PA 5151** - Organizational Perspectives on Global Development & Humanitarian Assistance (3.0 cr)

**Policy and Economic Analysis**
- **PA 5002** - Introduction to Policy Analysis (1.5 cr)
- **PA 5012** - The Politics of Public Affairs (3.0 cr)
- **PA 5021** - Microeconomics for Policy Analysis (3.0 cr)
- **PA 5022** - Applications of Economics for Policy Analysis (1.5 - 3.0 cr)
- **PA 5431** - Public Policies on Work and Pay (3.0 cr)
- **PA 5503** - Economics of Development (3.0 cr)
- **PA 5521** - Development Planning and Policy Analysis (4.0 cr)
- **PA 5722** - Economics of Environmental Policy (3.0 cr)
- **PA 5801** - Global Public Policy (3.0 cr)
- **PA 5805** - Global Economics (3.0 cr)

**Capstone or Professional Paper**

Take 1 or more course(s) from the following:
- **PA 8081** - Capstone Workshop (3.0 cr)
- **PA 8082** - Professional Paper-Writing Seminar (3.0 cr)
Electives
Select elective credits as needed, in consultation with the advisor, to meet the 45-credit minimum.

Concentrations: Pre-Designed
Students complete 12 credits in a pre-designed or self-designed concentration. Pre-designed concentrations are listed below. Consult the program or adviser for courses which do not appear but which may be eligible with consent of adviser.

Arts and Humanities
This concentration is meant to prepare students in the understanding of the role of artistic, literary and cultural practices in the promotion of cultures that support and respect human rights. Students will work with their faculty advisor to choose 12 credits from the following or other courses appropriate to their particular arts and humanities focus. Students may take PA 5890 and select the topic, "Fact-finding Investigations on Human Rights."

- ARTS 5710 - Advanced Photography and Moving Image Projects (4.0 cr)
- ARTS 5760 - Experimental Film and Video (4.0 cr)
- ENGW 5102 - Graduate Fiction Writing (4.0 cr)
- ENGW 5106 - Graduate Literary Nonfiction Writing (4.0 cr)
- PA 5890 - Topics in Foreign Policy and International Affairs (0.5 - 5.0 cr)

-OR-

Conflict, Security, and Diplomacy
Select 12 credits from the following, in consultation with the advisor. Students may take PA 5890 and select the topic, "Fact-finding Investigations on Human Rights."

- GLOS 5315 - Never Again! Memory & Politics after Genocide [GP] (3.0 cr)
- LAW 6027 - Law of the Sea (2.0 cr)
- LAW 6071 - International Law (3.0 cr)
- LAW 6648 - International Criminal Law (3.0 cr)
- LAW 6708 - Terrorism, Counter-Terrorism, and International Law (2.0 cr)
- LAW 6887 - Law of International Organizations (2.0 cr)
- LAW 6889 - Laws of War (3.0 cr)
- LAW 6918 - Rule of Law (2.0 cr)
- PA 5801 - Global Public Policy (3.0 cr)
- PA 5813 - US Foreign Policy: Issues and Institutions (3.0 cr)
- PA 5814 - Global Diplomacy in a Time of Change (3.0 cr)
- PA 5823 - Human Rights and Humanitarian Crises: Policy Challenges (3.0 cr)
- PA 5825 - Crisis Management in Foreign Affairs (1.5 cr)
- PA 5826 - National Security Policy (3.0 cr)
- PA 5890 - Topics in Foreign Policy and International Affairs (0.5 - 5.0 cr)
- POL 8401 - International Relations (3.0 cr)
- POL 8402 - International Security (3.0 cr)
- POL 8403 - International Norms and Institutions (3.0 cr)
- SOC 5171 - Sociology of International Law: Human Rights & Trafficking [GP] (3.0 cr)
- SOC 5315 - Never Again! Memory & Politics after Genocide [GP] (3.0 cr)

-OR-

Crime, Law, and Justice
Select 12 credits from the following, in consultation with the advisor. Students may take PA 5890 and select the topic, "Fact-finding Investigations on Human Rights."

- GLOS 5315 - Never Again! Memory & Politics after Genocide [GP] (3.0 cr)
- LAW 6621 - Rights in Conflict: Citizenship and Human Rights (2.0 cr)
- LAW 6648 - International Criminal Law (3.0 cr)
- LAW 6718 - Immigration and Criminal Law: Immigration Consequences of Crimes and Criminalizing Migration (2.0 cr)
- LAW 6893 *(Inactive)* (2.0 cr)
- LAW 6918 - Rule of Law (2.0 cr)
- PA 5890 - Topics in Foreign Policy and International Affairs (0.5 - 5.0 cr)
- PHIL 5321 - Theories of Justice (3.0 cr)
- POL 5492 - Law and (In)Justice in Latin America (3.0 cr)
- SOC 5101 - Sociology of Law (3.0 cr)
- SOC 5104 - Crime and Human Rights (3.0 cr)
- SOC 5171 - Sociology of International Law: Human Rights & Trafficking [GP] (3.0 cr)
- SOC 5315 - Never Again! Memory & Politics after Genocide [GP] (3.0 cr)
- SOC 8111 - Criminology (3.0 cr)
- SOC 8190 - Topics in Law, Crime, and Deviance (3.0 cr)

*PA 8921* - Master's: Professional Paper (Individual Option) (1.0 - 3.0 cr)
SOC 8290 - Topics in Race, Class, Gender and other forms of Durable Inequality (3.0 cr)

-OR-

Development
Select 12 credits from the following, in consultation with the advisor. Students may take PA 5890 and select the topic, "Fact-finding Investigations on Human Rights."

DSSC 8111 - Approaches to Knowledge and Truth: Ways of Knowing in Development Studies and Social Change (3.0 cr)
ESPM 5251 - Natural Resources in Sustainable International Development (3.0 cr)
GCC 5003 - Seeking Solutions to Global Health Issues [GP] (3.0 cr)
GCC 5005 - Innovation for Changemakers: Design for a Disrupted World [GP] (3.0 cr)
GCC 5017 - World Food Problems: Agronomics, Economics and Hunger [GP] (3.0 cr)
GCC 5041 - Transition to a Sustainable World: Can Psychology Help Facilitate Global Sustainability? [ENV] (3.0 cr)
LAW 6879 - Poverty and Human Rights (2.0 cr)
LAW 6887 - Law of International Organizations (2.0 cr)
OLPD 5104 - Strategies for International Development of Education Systems (3.0 cr)
OLPD 5107 - Gender, Education, and International Development (3.0 cr)
PA 5151 - Organizational Perspectives on Global Development & Humanitarian Assistance (3.0 cr)
PA 5405 - Public Policy Implementation (3.0 cr)
PA 5501 - Theories and Policies of Development (3.0 cr)
PA 5503 - Economics of Development (3.0 cr)
PA 5521 - Development Planning and Policy Analysis (4.0 cr)
PA 5561 - Gender and International Development (3.0 cr)
PA 5601 - Global Survey of Gender and Public Policy (3.0 cr)
PA 5823 - Human Rights and Humanitarian Crises: Policy Challenges (3.0 cr)
PA 5890 - Topics in Foreign Policy and International Affairs (0.5 - 5.0 cr)
PUBH 6134 - Sustainable Development and Global Public Health (2.0 cr)

-OR-

Environment
Select 12 credits from the following, in consultation with the advisor. Students may take PA 5890 and select the topic, "Fact-finding Investigations on Human Rights."

ESPM 5202 - Environmental Conflict Management, Leadership, and Planning (3.0 cr)
ESPM 5242 - Methods for Environmental and Natural Resource Policy Analysis (3.0 cr)
ESPM 5245 - Sustainable Land Use Planning and Policy (3.0 cr)
ESPM 5251 - Natural Resources in Sustainable International Development (3.0 cr)
GCC 5008 - Policy and Science of Global Environmental Change [ENV] (3.0 cr)
GCC 5011 - Pathways to Renewable Energy [TS] (3.0 cr)
GCC 5013 - Making Sense of Climate Change - Science, Art, and Agency [CIV] (3.0 cr)
GCC 5017 - World Food Problems: Agronomics, Economics and Hunger [GP] (3.0 cr)
GCC 5027 - Power Systems Journey: Making the Invisible Visible and Actionable [TS] (3.0 cr)
GCC 5031 - The Global Climate Challenge: Creating an Empowered Movement for Change [CIV] (3.0 cr)
GCC 5032 - Ecosystems Health: Leadership at the intersection of humans, animals and the environment [ENV] (3.0 cr)
LAW 6062 - Energy Law (3.0 cr)
LAW 6215 - Environmental Law (3.0 cr)
LAW 6234 - Public Lands and Natural Resources (3.0 cr)
LAW 6400 - International Environmental Law (2.0 cr)
PA 5013 - Law and Urban Land Use (1.5 cr)
PA 5242 - Environmental Planning, Policy, and Decision Making (3.0 cr)
PA 5243 - Environmental Justice in Urban Planning & Public Policy (3.0 cr)
PA 5711 - Science, Technology & Environmental Policy (3.0 cr)
PA 5721 - Energy Systems and Policy (3.0 cr)
PA 5722 - Economics of Environmental Policy (3.0 cr)
PA 5723 - Water Policy (3.0 cr)
PA 5724 - Climate Change Policy (3.0 cr)
PA 5890 - Topics in Foreign Policy and International Affairs (0.5 - 5.0 cr)
PUBH 6132 - Air, Water, and Health (2.0 cr)
PUBH 6154 - Climate Change and Global Health (3.0 cr)

-OR-

Gender and Sexuality
Select 12 credits from the following, in consultation with the advisor. Students may take PA 5690 and select "Gender and Electoral Politics in Global Perspective." Students may take PA 5890 and select either "Women's Human Rights in Practice" or "Fact-finding Investigations on Human Rights."

AMIN 5409 - American Indian Women: Ethnographic and Ethnohistorical Perspectives [HIS, DSJ] (3.0 cr)
AMST 5412 - Comparative Indigenous Feminisms [GP] (3.0 cr)

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of November 07, 2022
BTHX 5510 - Gender and the Politics of Health (3.0 cr)
GWSS 5104 - Transnational Feminist Theory (3.0 cr)
GWSS 5503 - Queering Theory (3.0 cr)
GWSS 8260 - Seminar: Race, Representation and Resistance (3.0 cr)
HSEX 6011 - Policy in Human Sexuality: Cutting Edge Analyses (3.0 cr)
LAW 6036 - Reproductive Rights (3.0 cr)
LAW 6827 - Women's International Human Rights (2.0 cr)
LAW 6862 - Sexual Orientation, Gender Identity, and Human Rights (2.0 cr)
OLPD 5107 - Gender, Education, and International Development (3.0 cr)
PA 5426 - Community-Engaged Research and Policy with Marginalized Groups (3.0 cr)
PA 5561 - Gender and International Development (3.0 cr)
PA 5601 - Global Survey of Gender and Public Policy (3.0 cr)
PA 5631 - LGBTQ Politics & Policy (1.5 cr)

**Race and Ethnicity**

Select 12 credits from the following in consultation with the advisor. Students may take AMIN 5890 and select topic "Problems in American Indian History." Students may take PA 5480 or PA 5490 and select topic, Reparations: Policy, History & Theory. Students may take PA 5490 and select topic "Civil Rights and Black Power Movement 1954-1984. Students may take PA 5890 and select topic,
Fact-finding Investigations on Human Rights.
AFRO 5101 - Seminar: Introduction to Africa and the African Diaspora (3.0 cr)
AFRO 5866 - The Civil Rights and Black Power Movement, 1954-1984 (3.0 cr)
AFRO 8202 - Seminar: Intellectual History of Race (3.0 cr)
AMIN 5409 - American Indian Women: Ethnographic and Ethnohistorical Perspectives [HiS, DSJ] (3.0 cr)
AMIN 5890 - Readings in American Indian and Indigenous History (3.0 cr)
AMIN 8301 - Critical Indigenous Theory (3.0 cr)
AMST 5412 - Comparative Indigenous Feminisms [GP] (3.0 cr)
GCC 5036 - Seeking Connection through Decolonization: The Power of Indigenous Lands and Languages [DSJ] (3.0 cr)
GCC 5042 - Just Education: The Role of Higher Education in Disrupting Mass Incarceration [DSJ] (3.0 cr)
LAW 6084 - Equal Protection: Race and the Civil Rights Acts (3.0 cr)
LAW 6236 (Inactive) (3.0 cr)
PA 5002 - Introduction to Policy Analysis (1.5 cr)
PA 5311 - Program Evaluation (3.0 cr)
PA 5421 - Racial Inequality and Public Policy (3.0 cr)
PA 5422 - Diversity and Public Policy (3.0 cr)
PA 5426 - Community-Engaged Research and Policy with Marginalized Groups (3.0 cr)
PA 5480 - Topics in Race, Ethnicity, and Public Policy (1.0 - 3.0 cr)
PA 5490 - Topics in Social Policy (1.0 - 4.0 cr)
PA 5890 - Topics in Foreign Policy and International Affairs (0.5 - 5.0 cr)
PA 8302 - Applied Policy Analysis (4.0 cr)
PA 8312 - Analysis of Discrimination (4.0 cr)
PSY 8210 - Law, Race, and Social Psychology (3.0 cr)
PUBH 6241 - American Indian Public Health and Wellness, Health Policy, Law, Health Services Administration (2.0 cr)
PUBH 6242 - Cultural Humility with American Indian Populations (2.0 cr)
PUBH 6243 - American Indian Research, Evaluation and Collaborations (2.0 cr)
SOC 8290 - Topics in Race, Class, Gender and other forms of Durable Inequality (3.0 cr)

-OR-

Research Methods
Select 12 credits from the following, in consultation with the advisor. Students may take PA 5890 and select topic, "Fact-finding Investigations on Human Rights" must be chosen.
ANTH 8002 - Ethnography: Contemporary Theory and Practice (3.0 cr)
LAW 6867 - Practice-Ready International Legal Research (2.0 cr)
OLPD 5056 - Case Studies for Policy Research (3.0 cr)
OLPD 5061 - Ethnographic Research Methods (3.0 cr)
PA 5031 - Statistics for Public Affairs (4.0 cr)
PA 5032 - Applied Regression (2.0 cr)
PA 5033 - Multivariate Techniques (2.0 cr)
PA 5041 - Qualitative Methods for Policy Analysts (4.0 cr)
PA 5044 - Applied Regression, Accelerated (2.0 cr)
PA 5301 - Population Methods & Issues for the United States & Global South (3.0 cr)
PA 5426 - Community-Engaged Research and Policy with Marginalized Groups (3.0 cr)
PA 5890 - Topics in Foreign Policy and International Affairs (0.5 - 5.0 cr)
PA 5929 - Data Visualization: Telling Stories with Numbers (2.0 cr)
PA 5932 - Working with Data: Finding, Managing, and Using Data (1.5 cr)
PA 5933 - Survey Methods: Designing Effective Questionnaires (2.0 cr)
PUBH 6243 - American Indian Research, Evaluation and Collaborations (2.0 cr)
PUBH 6803 - Conducting a Systematic Literature Review (3.0 cr)
PUBH 6810 - Survey Research Methods (3.0 cr)
PUBH 6815 - Community-based Participatory Research (2.0 cr)
PUBH 6845 - Using Demographic Data for Policy Analysis (3.0 cr)
PUBH 7250 - Designing and Conducting Focus Group Interviews (1.0 cr)
SOC 5811 - Social Statistics for Graduate Students (3.0 cr)
SOC 8412 - Social Network Analysis: Theory and Methods (3.0 cr)
SOC 8801 - Sociological Research Methods (4.0 cr)
SOC 8811 - Advanced Social Statistics (4.0 cr)
SOC 8852 - Advanced Qualitative Research Methods: Ethnographic Practicum (3.0 cr)
STAT 5021 - Statistical Analysis (4.0 cr)
STAT 5401 - Applied Multivariate Methods (3.0 cr)

-OR-

Concentration: Self-Designed
Select 12 credits, in consultation with the advisor, to meet academic and professional goals. Other courses can be chosen in consultation with advisor and director of graduate studies approval.
Joint- or Dual-degree Coursework: MHR/MPH-Public Health Practice
Student may take a total of 14 credits in common among the
academic programs.
Twin Cities Campus
Integrated Biosciences M.S.
Medical School - Adm
Graduate School

Contact Information:
University of Minnesota, 251 Swenson Science Building, 1035 Kirby Drive, Duluth, MN 55812 (218-726-6898; fax: 218-726-8152)
Email: ibs@d.umn.edu
Website: http://www.d.umn.edu/ibs

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30
- This program requires summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The all-University integrated biosciences graduate program offers study toward the master of science (M.S.) degree under Plan A (coursework and original thesis). The program has two areas of emphasis: cell, molecular, and physiological (CMP) biology; and ecology, organismal, and population (EOP) biology.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A bachelor's degree or equivalent from an accredited college/university in the biological or physical sciences or a related field. Background in a variety of subdisciplines is appropriate preparation.

Other requirements to be completed before admission:
Recommended undergraduate courses for applicants pursuing the M.S. degree include one year each of chemistry, biology, and physics. One semester of calculus is also recommended. Applicants are strongly encouraged to have taken other advanced courses in chemistry, biology, additional calculus, and introductory statistics.

Applicants must submit their test score(s) from the following:
- GRE

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Paper Based - Total Score: 550
- IELTS
  - Total Score: 6.5
- MELAB
  - Final score: 80

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (GRE, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements

Plan A: Plan A requires 14 major credits, 6 credits outside the major, and 10 thesis credits. The final exam is oral.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

Required Coursework
**Twin Cities Campus**

**Integrated Biosciences Ph.D.**

*Medical School - Adm*

**Graduate School**

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 56
- This program does not require summer semesters for timely completion.
- The Integrated Biosciences Ph.D. is an All-University program delivered on the Twin Cities and Duluth Campuses. The University of Minnesota Twin Cities is the degree granting authority for the Integrated Biosciences Ph.D. program in Duluth.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The all-University integrated biosciences graduate program offers study toward the doctor of philosophy (Ph.D.) degree. The program has two areas of emphasis: cell, molecular, and physiological (CMP) biology; and ecology, organismal, and population (EOP) biology.

**Program Delivery**
This program is available:
- via classroom (the majority of instruction is face-to-face)

**Prerequisites for Admission**
The preferred undergraduate GPA for admittance to the program is 3.00.

A bachelor's degree or equivalent from an accredited college or university in the biological or physical sciences or a related field.

Other requirements to be completed before admission:
Recommended undergraduate courses for applicants pursuing the Ph.D. degree include one year each of chemistry, biology, physics, calculus, and advanced chemistry. One semester (minimum) of statistics is also recommended.

Additional recommended courses for students in the ecology, organismal, and population (EOP) emphasis include one year of calculus, one semester each of ecology and evolutionary biology along with one course in two of the following subjects: genetics, cell biology, biochemistry.

Additional recommended courses for students in the cell, molecular, and physiological (CMP) emphasis include one year of organic chemistry plus one course in each of the following: genetics, cell biology, and biochemistry.

Applicants must submit their test score(s) from the following:
- GRE

International applicants must submit score(s) from one of the following tests:
- TOEFL  
  - Internet Based - Total Score: 79  
  - Internet Based - Writing Score: 21  
  - Internet Based - Reading Score: 19  
  - Paper Based - Total Score: 550  
- IELTS  
  - Total Score: 6.5  
- MELAB  
  - Final score: 80

The preferred English language test is Test of English as Foreign Language.

Program Requirements
20 credits are required in the major.
12 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

Ph.D. Written Preliminary Examination: In addition to completing the curriculum for the major and internal related fields, students will be required to pass both a written and oral preliminary examination prior to completing the Ph.D. program. The preliminary written examination will be administered once the student has completed the majority of the required coursework. This will typically occur in the summer of the second year. The written examination will consist of a completed NIH or NSF grant application for the student's proposed research project. The project will be evaluated by the Thesis Examining Committee, which will also serve as the student's Final Oral Examining Committee to provide continuity of advice during the length of the student's research program.

Ph.D. Oral Preliminary Examination: The oral preliminary examination will be administered within two months of the successful completion of the preliminary written examination. The examination will be administered by the graduate faculty according to University regulations and all students will be required to pass the oral examination to continue in the Ph.D. program.

Most students will complete the requirements for the Ph.D. degree within five years. The final oral defense will be conducted by the graduate faculty according to University regulations. It will consist of a public seminar presented by the student.
Integrated Food Systems Leadership Post-baccalaureate Certificate

College of Veterinary Medicine - Adm
Graduate School

Contact Information:
1365 Gortner Ave, St. Paul, MN 55108; 612-624-2459

Requirements for this program are current for Fall 2022
Length of program in credits: 12
This program requires summer semesters for timely completion.
Degree: Integrated Food Systems Leadership PBacc Cert

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Integrated Food Systems Leadership Post-Baccalaureate Certificate (IFSL Certificate) is a competency-based, interdisciplinary, and cross-collegiate graduate certificate program focusing on developing leadership skills in the context of integrated food systems. The primary objective of the IFSL Certificate is to develop leaders with robust knowledge about the interrelationships among aspects of the global food supply - production, processing, supply chain, regulation, policy, food safety, food security, product development, business and marketing, consumer demands, and communication - in the context of the farm-to-fork food system. The certificate program is ideal for aspiring or new leaders seeking to increase their leadership, expand their food system perspective, take on additional responsibility, and improve effectiveness in their organization. The program focuses on developing leadership and critical thinking skills using a food systems approach while working across disciplines in industry, academia, government agencies, and intergovernmental organizations.

Program Delivery
This program is available:
• completely online (all program coursework can be completed online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

all degrees acceptable

Other requirements to be completed before admission:
Applicants must be early to mid-career working professionals

International applicants must submit score(s) from one of the following tests:
• TOEFL

MCDB&G Graduate Program, 6-160 Jackson Hall, 321 Church Street SE, University of Minnesota, Minneapolis, MN, 55455 (612-624-7470, fax: 612-626-6140)
Email: gcgrad@umn.edu
Website: https://cbs.umn.edu/genetic-counseling/home

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30 to 55
- This program requires summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The MCDB&G MS degree offers genetic counseling track that integrates selected coursework with first-hand experience in diagnostic medical genetics laboratories and supervised work in clinical settings with patients and families. Students who pursue the track have the opportunity to participate in the Leadership Education in Neurodevelopmental and Related Disabilities (LEND) program.

Applications to a free-standing research MS degree are not accepted.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Genetic counseling track: http://cbs.umn.edu/genetic-counseling/admissions

Joint MCDBG PhD/Genetic Counseling MS Program: https://cbs.umn.edu/genetic-counseling/program-information/phdprogram

Special Application Requirements:
MS/genetic counseling track:
Experiences where you have developed skills transferable to genetic counseling practice. There are numerous skill-based components of genetic counseling and many ways to develop these skills. For example, you might develop counseling skills by volunteering with people in distress, patient-education skills by working as a teacher or tutor, confidential data management skills from time spent as a research assistant, collaboration/teamwork skills from organizing events, or advocacy skills from helping your family navigate the medical system. In your application, help us see how your experiences will inform your work as a genetic counselor.

Strong understanding of the field of genetic counseling, including the varied roles available to genetic counselors, the dynamics of providing both education and counseling in our work, and current issues/debates. This may be from shadowing experiences, informational interviews, webinars, reading blogs, listening to podcasts, or many other avenues. Application deadline is December 1 for the following fall semester

International applicants must submit score(s) from one of the following tests:
- TOEFL
- IELTS

Key to test abbreviations (TOEFL, IELTS).
Program Requirements

Plan A: Plan A requires 20 major credits, 0 credits outside the major, and 10 thesis credits. The final exam is written and oral.

Plan B: Plan B requires 30 to 55 major credits and 0 credits outside the major. The final exam is written.

This program may not be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

Coursework (20 to 30 credits)

Required Coursework (3 credits)
Select 1 of the following courses. GCD 5005: Computer Programming for Cell Biology (Fall) or GCD 8141: Computational Genomics (Spring)
GCD 8141 - Computational Genomics (3.0 cr)
or GCD 5005 - Computer Programming for Biology (3.0 cr)

Electives (17 to 27 credits)

Plan A students take 17 credits, and Plan B students not pursuing the genetics counseling track take 27 credits from the following. Additional coursework may be selected in consultation with the advisor and the director of graduate studies.

MCDG 8900 can be taken for 1 credit up to 4 semesters for a maximum of 4 credits. MCDG 8950 can be taken for 1 credit up to 2 semesters for a maximum of 2 credits. Students pursuing the genetics counseling track exempt from this requirement.

GCD 8131 - Advanced Molecular Genetics and Genomics (3.0 cr)
GCD 8151 - Cellular Biochemistry and Cell Biology (2.0 - 4.0 cr)
GCD 8161 - Advanced Cell Biology and Development (2.0 cr)
GCD 8171 - Literature Analysis (1.0 - 2.0 cr)
GCD 8401 - Ethics, Public Policy & Careers in Molecular Cell Biology (1.0 cr)
MCDG 8900 - Student Research Seminar (1.0 cr)
MCDG 8950 - Teaching Practicum (1.0 cr)

Plan Options

Plan A
Thesis Credits
Plan A students take at least 10 master's thesis credits.
MCDG 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

Joint- or Dual-degree Coursework: MCDBG PhD/Genetic Counseling MS Joint Program
Student may take a total of 21 credits in common among the academic programs.

Program Sub-plans

A sub-plan is not required for this program. Students may not complete the program with more than one sub-plan.

Genetic Counseling
This sub-plan is limited to students completing the program under Plan B.

Students must earn a passing grade in the 5 clinical internship rotations.

Students must present a log of at least 50 clinical cases to be eligible for the final written examination.

Students accepted into the Leadership Education in Neurodevelopmental and Related Disabilities (LEND) program must take OLPD 5356 (3 credits) in addition to the genetic counseling track curriculum.

First Year (25 credits)
Students will gain experience in the clinical laboratories one day per week.
Take 2 credits of GCD 8921 (2 semesters; 1 credit each).
Take GCD 8993 for 2 credits.

GCD 8073 - Genetics & Genomics in Human Health (2.0 cr)
GCD 8911 - Introduction to Genetic Counseling Skills and Practice (4.0 cr)
GCD 8912 - Genetic Counseling in Practice (4.0 cr)
GCD 8916 - Genetic Counseling Research Seminar (2.0 cr)
GCD 8917 - Medical Genetics I (3.0 cr)
GCD 8918 - Medical Genetics II (3.0 cr)
GCD 8921 - Professional Development Seminar I (1.0 cr)
GCD 8993 - Directed Studies (1.0 - 5.0 cr)
PSY 5137 - Introduction to Behavioral Genetics (3.0 cr)

Summer (3 credits)
During the summer between the first and second year of the program, students will begin their first clinical internship rotation with patient responsibilities. This clinical rotation includes the expectation that students will spend between 2-3 days per week in the clinic.

GCD 8001 - Genetic Counseling Clinical Internship I (3.0 cr)

Second Year (24 credits)
Students will complete internships in a clinical setting 2-3 days per week.
Take 2 credits of GCD 8922 (2 semesters; 1 credit each).
Take 4 credits of GCD 8994 (2 semesters; 2 credits each).
Students admitted Fall 2020 and later will complete GCD 8914 for 2 credits.

GCD 8002 - Genetic Counseling Clinical Internship II (5.0 cr)
GCD 8003 - Genetic Counseling Clinical Internship III (5.0 cr)
GCD 8913 - Psychosocial Issues in Genetic Counseling I (3.0 cr)
GCD 8914 - Ethical and Legal Issues in Genetic Counseling (2.0 cr)
GCD 8915 - Psychosocial Issues in Genetic Counseling II (3.0 cr)
GCD 8922 - Professional Development Seminar II (1.0 cr)
GCD 8994 - Research (1.0 - 5.0 cr)

LEND Program Participants
Students participating in the Leadership Education in Neurodevelopmental and Related Disabilities (LEND) program complete an additional 3-credit required course. LEND program participants may be advised to complete all 4 credits of GCD 8994 in one semester.

Second Year Required Course (3 Credits)
Take the following course. A Policy & Advocacy module and policy project may be substituted for OLPD 5356 with approval of the director of graduate studies.
OLPD 5356 - Disability Policy and Services (3.0 cr)
Twin Cities Campus

Molecular, Cellular, Developmental Biology and Genetics Minor

• Program Type: Graduate minor related to major
• Requirements for this program are current for Fall 2022
• Length of program in credits (Masters): 12
• Length of program in credits (Doctorate): 12
• This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

This program provides scientific training in the basic life sciences, with emphasis on the molecular basis of genetics, development, and cell biology. Areas of specialization include membranes, receptors, membrane transport, cell interactions, macromolecular structure, extracellular matrix, cytoskeleton, cell motility, regulation of gene expression, neuroscience, developmental mechanisms, human genetics, plant cell and molecular biology, genetic mechanisms, and genomics.

The program is interdisciplinary and involves faculty from several departments in the College of Biological Sciences, the Medical School, and the College of Food, Agricultural and Natural Resource Sciences. Institutes for human genetics, plant molecular genetics, biological process technology, Genome Engineering, Stem Cell research and a center for developmental biology provide opportunities for graduate study.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Other requirements to be completed before admission:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and must meet with the MCDB&G director of graduate studies regarding feasibility, requirements and approval.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Courses taken for the minor must be graded A-F. A minimum GPA of 3.0 for these courses is required.

Required Coursework (9 credits)
Take the following courses for 9 credits. Other courses may be selected with approval of the MCDB&G director of graduate studies.
GCD 8151 - Cellular Biochemistry and Cell Biology (2.0 - 4.0 cr)
GCD 8131 - Advanced Molecular Genetics and Genomics (3.0 cr)
GCD 8161 - Advanced Cell Biology and Development (2.0 cr)

Electives (3 credits)
Select at least one of the following courses in consultation with the MCDB&G director of graduate studies.
Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Masters

Doctoral

Email: mcdbg@umn.edu
Website: http://mcdbg.umn.edu

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 48 to 63
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

This program provides scientific training in the basic life sciences, with emphasis on the molecular basis of genetics, development, and cell biology. Areas of specialization include membranes, receptors, membrane transport, cell interactions, macromolecular structure, extracellular matrix, cytoskeleton, cell motility, regulation of gene expression, neuroscience, developmental mechanisms, human genetics, plant cell and molecular biology, genetic mechanisms, and genomics.

The program is interdisciplinary and involves faculty from several departments in the College of Biological Sciences, the Medical School, and the College of Food, Agricultural and Natural Resource Sciences. Institutes for human genetics, plant molecular genetics, biological process technology, genome engineering, stem cell research, and a center for developmental biology provide opportunities for graduate study.

PhD students are admitted to MCDB&G under the auspices of Molecular, Cellular and Structural Biology (MCSB), a first-year program administered by the MCDB&G and the Biochemistry, Molecular Biology and Biophysics (BMBB) graduate programs. After the first year, students select either MCDB&G or BMBB to complete their degree. MCDB&G does NOT have a freestanding master's program.

The MCDB&G PhD is also part of three joint degree programs: The Joint Degree Program in Law, Health, and Life Sciences, the MD/PhD program, and the MS Genetic Counseling/MCDBG PhD Program.

The Joint Degree Program in Law, Health, and Life Sciences is unique in the nation and enables students to combine a JD degree with a PhD or MS degree. Students entering this program must be admitted to both the MCDB&G program and the Law School. Admission qualifications for MS and PhD students are identical; only the student's career objectives distinguish the degree that they pursue.

The MD/PhD program emphasizes the integration of the two major components of training--medicine and research--to ensure excellence in both. The program features a special curriculum that facilitates the transition from Medical School to the first year of formal graduate training and the transition from graduate training back to Medical School.

The PhD/MS in genetic counseling program emphasizes the integration of clinical genetics and research--to ensure excellence in both. The program features a special curriculum that facilitates the transition from the first year of formal graduate training and the transition from graduate training in genetic counseling back to Medical School. Students need to apply to both programs and be accepted by both admission committees.

Program Delivery

This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission

The preferred undergraduate GPA for admittance to the program is 3.50.

Applications from students with an undergraduate or master's degree in the biological, chemical, or physical sciences are preferred.

Other requirements to be completed before admission:

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of November 07, 2022
Recommended academic preparation includes coursework in molecular biology, genetics, biology, and biochemistry. Successful applicants must have previous research experience in an academic or industrial setting in addition to any course-related laboratory experiences. It is important to demonstrate familiarity with and aptitude for basic science research prior to embarking on a graduate career in this program.

**Special Application Requirements:**
Applicants must submit three letters of recommendation from persons familiar with their academic and research capabilities. A statement of interests and goals, and a complete set of transcripts (copies are accepted) are required. GRE General and Subject scores are NOT required. The deadline for receipt of completed applications is December 1st. Graduate studies begin fall semester only.

Entry into the J.D./Ph.D. program requires separate admittance to both the Law School and the MCDB&G Graduate Program. Entry into the M.D./Ph.D. program requires separate admittance to both the Medical School and the MCDB&G Graduate Program. Entry into the MS Genetic Counseling/MCDB&G Ph.D. program requires separate admittance to both the Genetic Counseling Program and the MCDB&G Graduate Program.

International applicants must submit score(s) from one of the following tests:
- **TOEFL**
  - Internet Based - Total Score: 107
  - Internet Based - Writing Score: 25
  - Internet Based - Reading Score: 25
- **IELTS**
  - Total Score: 7

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

**Program Requirements**
24 to 39 credits are required in the major.
0 credits are required outside the major.
24 to 39 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.0 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

Additional requirements include:
Weekly attendance at MCDB&G student seminars.
Weekly attendance at GCD departmental seminars.
Presentation at an MCDB&G student seminar in the 2nd, 3rd, and 4th year of study for a total of 3 times.
Completion of a TA assignment in the 2nd and 3rd years of study for a total of 2 times.

**Required Coursework (15-18 credits)**
Take the following required courses for MCDBG.

**Core Courses (10-13 credits)**
- **GCD 8151** - Cellular Biochemistry and Cell Biology (2.0 - 4.0 cr)
- **GCD 8131** - Advanced Molecular Genetics and Genomics (3.0 cr)
- **GCD 8161** - Advanced Cell Biology and Development (2.0 cr)
- **GCD 8171** - Literature Analysis (1.0 - 2.0 cr)
- **MCDG 8920** - Special Topics (1.0 - 4.0 cr)

**Computer Programming/Computational Genomics (3 credits)**
Take at least one of the following courses.
- **GCD 5005** - Computer Programming for Biology (3.0 cr)
or **GCD 8141** - Computational Genomics (3.0 cr)

**Ethics (1 credit)**

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of November 07, 2022
Choose one of the following courses.

**GCD 8401 - Ethics, Public Policy & Careers in Molecular Cell Biology (1.0 cr)**

**or BIOC 8401 - Ethics, Public Policy, and Careers in Molecular and Cellular Biology (1.0 cr)**

**Student Seminar (1 credit)**

Choose one of the following courses.

MCDG 8900 can be taken for one credit up to four times (over four semesters).

**MCDG 8900 - Student Research Seminar (1.0 cr)**

**or BIOC 8084 - Research and Literature Reports (1.0 cr)**

**Electives**

Select electives from the following list in consultation with the advisor and the director of graduate studies to satisfy minimum coursework requirements.

**BIOC 5309 - Biocatalysis and Biodegradation (3.0 cr)**

**BIOC 5352 - Biotechnology and Bioengineering for Biochemists (3.0 cr)**

**BIOC 5361 - Microbial Genomics and Bioinformatics (3.0 cr)**

**BIOC 5444 - Muscle (3.0 cr)**

**BIOC 5528 - Spectroscopy and Kinetics (4.0 cr)**

**BIOC 5535 - Introduction to Modern Structural Biology -- Diffraction (2.0 cr)**

**BIOC 5536 - Introduction to Modern Structural Biology - Nuclear Magnetic Resonance (2.0 cr)**

**BIOC 8001 - Biochemistry: Structure, Catalysis, and Metabolism (3.0 cr)**

**BIOC 8002 - Molecular Biology and Regulation of Biological Processes (3.0 cr)**

**BIOC 8005 - Biochemistry: Structure and Catalysis (2.0 cr)**

**BIOC 8006 - Biochemistry: Metabolism and Control (2.0 cr)**

**BIOC 8007 - Molecular Biology of the Genome (2.0 cr)**

**BIOC 8008 - Molecular Biology of the Transcriptome (2.0 cr)**

**BIOC 8184 - Graduate Seminar (1.0 cr)**

**CSCI 5461 - Functional Genomics, Systems Biology, and Bioinformatics (3.0 cr)**

**CSCI 5465 - Introduction to Computing for Biologists (3.0 cr)**

**CSCI 5980 - Special Topics in Computer Science (1.0 - 3.0 cr)**

**CSCI 8900 - Student Research Seminar (1.0 - 2.0 cr)**

**GCD 8008 - Mammalian Gene Transfer and Genome Engineering (2.0 cr)**

**GCD 8073 - Genetics & Genomics in Human Health (2.0 cr)**

**GCD 8111 - Quantitative Fluorescence Microscopy (3.0 cr)**

**GCD 8900 - Seminar (1.0 - 2.0 cr)**

**GRAD 8101 - Teaching in Higher Education (3.0 cr)**

**GRAD 8200 - Teaching and Learning Topics in Higher Education (1.0 cr)**

**MATH 8250 - Topics in Mathematical Biology (1.0 - 3.0 cr)**

**MCDG 8950 - Teaching Practicum (1.0 cr)**

**MICA 8002 - Structure, Function, and Genetics of Bacteria and Viruses (4.0 cr)**

**MICA 8003 - Immunity and Immunopathology (4.0 cr)**

**MICA 8004 - Cellular and Cancer Biology (4.0 cr)**

**NSC 8211 - Developmental Neurobiology (4.0 cr)**

**OBIO 8012 - Basic Concepts in Skeletal Biology (2.0 cr)**

**PHCL 5111 - Pharmacogenomics (3.0 cr)**

**PUBH 6450 - Biostatistics I (4.0 cr)**

**SCB 8181 - Stem Cell Biology (3.0 cr)**

**STAT 5021 - Statistical Analysis (4.0 cr)**

**Thesis Credits**

Take at least 24 doctoral thesis credits.

**MCDG 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)**

**Joint- or Dual-degree Coursework:** Joint Degree Program in Law, Science and Technology (JD/PhD), Medical Scientist Training Program (MD/PhD), MS Genetic Counseling/MCDB&G PhD Joint Program. Student may take a total of 12 credits in common among the academic programs.

**Program Sub-plans**

A sub-plan is not required for this program.

Students may not complete the program with more than one sub-plan.

**Biology Education**

In addition to the required MCDB&G PhD coursework, students pursuing the Biology Education track must take Biology Education core and elective courses.

**Biology Education Core (9 credits)**
Students pursuing the Biology Education track must take the following core courses:

**CI 8134** - Foundations of Research in Curriculum and Instruction I (3.0 cr)
**CI 8135** - Foundations of Research in Curriculum and Instruction II (3.0 cr)
**EPSY 8251** - Statistical Methods in Education I (3.0 cr)

**Curriculum Instruction (3 credits)**
Take at least one of the following:

- **CI 8145** - Using Mixed Methods in Educational Research (3.0 cr)
- **CI 8147** - Critical Discourse Analysis in Educational Research (3.0 cr)
- **CI 8149** - Qualitative Research: Coding, Analysis, Interpretation, and Writing (3.0 cr)
- **CI 8571** - Equity, Policy, and Social Justice in Science Education (3.0 cr)
- **CI 8572** - Learning Theory and Classical Research in STEM Education (3.0 cr)

**Biology Education Electives (3 credits)**
Take at least one elective course, selected in consultation with the advisor and director of graduate studies.

- **EPSY 8226** - Item Response Models: Theory and Applications (3.0 cr)
- **EPSY 8252** - Statistical Methods in Education II (3.0 cr)
- **EPSY 8265** - Factor Analysis (3.0 cr)
- **EPSY 8266** - Statistical Analysis Using Structural Equation Methods (3.0 cr)
- **EPSY 8267** - Applied Multivariate Analysis (3.0 cr)
- **EPSY 8268** - Hierarchical Linear Modeling in Educational Research (3.0 cr)
- **EPSY 8282** - Statistical Analysis of Longitudinal Data (3.0 cr)
- **CI 8145** - Using Mixed Methods in Educational Research (3.0 cr)
- **CI 8147** - Critical Discourse Analysis in Educational Research (3.0 cr)
- **CI 8149** - Qualitative Research: Coding, Analysis, Interpretation, and Writing (3.0 cr)
- **CI 8571** - Equity, Policy, and Social Justice in Science Education (3.0 cr)
- **CI 8572** - Learning Theory and Classical Research in STEM Education (3.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30 to 32
- This program does not require summer semesters for timely completion.
- University of Minnesota, Duluth
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

This cross-campus interdisciplinary program provides comprehensive training in water resources science, with integration across scientific disciplines. A structured interdisciplinary graduate curriculum is offered. The program includes a set of core courses plus electives in the following areas of interest: aquatic biology, environmental chemistry, hydrologic science, limnology, water management technology, water policy, water quality, and watershed science and management. A Limnology and Oceanography track is also offered. Approximately 80 courses offered within 15 other graduate programs are available to students majoring in water resources science.

The goal of the program is to produce scientists with strong technical skills in disciplines relevant to water resources and a broad understanding of 1) the hydrologic cycle and associated ecosystems, 2) the interconnectedness of the sciences involved in managing aquatic resources, and 3) the interplay between the biophysical sciences and social sciences in developing and implementing public policies related to water.

Students in the program develop the breadth of scientific knowledge appropriate to understand the complicated aquatic ecosystems and watersheds on which they will work, as well as social dimensions of the topic, including the public policy and legal frameworks in which water resources are protected and managed.

The program involves faculty from the following departments on the Twin Cities campus: Applied Economics; Bioproducts and Biosystems Engineering; Civil Engineering; Earth Sciences; Ecology, Evolution, and Behavior; Entomology; Environmental and Occupational Health; Fisheries, Wildlife, and Conservation Biology; Forest Resources; Geography; Horticultural Science; Plant Biology; and Soil, Water, and Climate. It also involves faculty from the following departments on the Duluth campus: Biology; Chemical Engineering; Chemistry; Civil Engineering; Geography; Geological Sciences; and Physics; as well as the Large Lakes Observatory and the Natural Resources Research Institute in Duluth.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

The program is flexible enough to accommodate students from a variety of backgrounds. Normally students have a bachelor's degree in physical, biological, or environmental science or engineering.

Other requirements to be completed before admission:
Recommended academic preparation includes at least two courses each in calculus, chemistry, and physics, at least one course in the biological sciences, and some experience or background in statistics.

Availability of funding and willingness of a member of the graduate faculty to serve as an advisor are important criteria for admission to the program.

Special Application Requirements:
Applicants must submit three letters of recommendation via the University of Minnesota's online application system. These letters should be from professors qualified to estimate applicant's class rank and evaluate their ability to complete a program of graduate study, or from persons who can assess their professional or research potential.

Applicants must also submit a résumé of their academic history and professional experience and a statement of purpose, including the proposed area of emphasis. Applicants should submit results of the GRE General Test. Students may be admitted any semester but are strongly encouraged to submit their application by December 1 for fall semester admission. More specific application instructions can be found on the program website: https://wrs.umn.edu/prospective-students.

International applicants must submit score(s) from one of the following tests:

- **TOEFL**
  - Internet Based - Total Score: 79
- **IELTS**
  - Total Score: 6.5
- **MELAB**
  - Final score: 80

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

**Program Requirements**

**Plan A:** Plan A requires 22 major credits, 0 credits outside the major, and 10 thesis credits. The final exam is oral.

**Plan B:** Plan B requires 30 major credits and 0 credits outside the major. The final exam is oral. A capstone project is required.

**Capstone Project:** The Plan B project is defined by the faculty advisor. The Plan B option is well suited to students who have little undergraduate course work in water resources science and thus need more coursework to gain the combination of depth and breadth needed in this field. Plan B projects involve field, laboratory, or computer work and the analysis, synthesis, or interpretation of data.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.

Students with WRS-equivalent core courses taken as undergraduates may substitute other classes to meet program requirements, with adviser approval.

**Water Resources Seminar**

- WRS 8100 - Interdisciplinary Seminar in Water Resources (0.5 cr)

**Water Resources Ethics**

- WRS 8581 - Research and Professional Ethics in Water Resources and Environmental Science (0.5 cr)

**Hydrology Core**

- Take at least 3 credits from the following:
  - BBE 8513 - Hydrologic Modeling of Small Watersheds (3.0 cr)
  - or CEGE 4501 - Hydrologic Design (4.0 cr)
  - or ESCI 4702 - General Hydrogeology (4.0 cr)
  - or FNRM 5114 - Hydrology and Watershed Management (3.0 cr)
  - or FNRM 5153 - Forest Hydrology & Watershed Biogeochemistry (3.0 cr)

**Environmental/Water Chemistry Core**

- Take at least 3 credits from the following:
  - CEGE 5541 - Environmental Water Chemistry (3.0 cr)
  - or ESCI 4401 - Aqueous Environmental Geochemistry (3.0 cr)
  - or ESCI 8401 - Aqueous Environmental Geochemistry (3.0 cr)
  - or LAAS 5311 - Soil Chemistry and Mineralogy (3.0 cr)

</table>
Plan A Option:
Take 10 or more credit(s) from the following:

- WRS 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

Plan B Option
Select additional courses in consultation with your advisor to complete the Plan B option.

Program Sub-plans
A sub-plan is not required for this program. Students may not complete the program with more than one sub-plan.

Limnology and Oceanography
The science of inland waters, or "limnology," includes the study of streams, lakes, ponds, and wetlands. While Lake Superior falls into this category, the style of research, particularly the nature of sampling and the scale of the processes investigated, makes the study of Lake Superior and other Great Lakes more akin to oceanography than to classical limnology.

A program that focuses on the study of both limnology and oceanography strengthens understanding of both systems, through comparative studies and by fostering interaction between groups that focus more strongly on one or the other system. Limnology and oceanography are by necessity interdisciplinary fields, with major components contributed by biological, geological, physical and chemical sciences. Such interdisciplinary fields in the modern research university require mechanisms to ensure cross-fertilization of ideas, approaches, methods, techniques, and knowledge. The limnology and oceanography track in WRS provides just such a much-needed mechanism. The goal of the program is to produce scientists with strong technical skills in aquatic science and a broad understanding of limnology and oceanography.

Students with WRS-equivalent coursework taken as undergraduates may substitute other classes to meet minimum credit requirements.

The faculty advisor must be a member of the limnology and oceanography track faculty.

Water Resources Seminar
WRS 8100 - Interdisciplinary Seminar in Water Resources (0.5 cr)

Water Resources Ethics
WRS 8581 - Research and Professional Ethics in Water Resources and Environmental Science (0.5 cr)

Hydrology Core for Limnology/Oceanography Students
Take at least 3 credits from the following:
BBE 8513 - Hydrologic Modeling of Small Watersheds (3.0 cr)
or FNRM 5114 - Hydrology and Watershed Management (3.0 cr)

Environmental/Water Chemistry Core for Limnology/Oceanography Students
Take at least 3 credits from the following:
CEGE 5541 - Environmental Water Chemistry (3.0 cr)
or EEB 4611 - Biogeochemical Processes (3.0 cr)
or ESCI 4401 - Aqueous Environmental Geochemistry (3.0 cr)
or ESCI 8401 - Aqueous Environmental Geochemistry (3.0 cr)
or LAAS 5311 - Soil Chemistry and Mineralogy (3.0 cr)
or PUBH 6190 - Environmental Chemistry (3.0 cr)

Limnology Core
### EEB 5601 - Limnology (3.0 cr)
### Water Resources Policy Core
### WRS 5101 - Water Policy (3.0 cr)

#### WRS Electives
Plan A students select at least 9 credits, and Plan B students select at least 17 credits from the following list and in consultation with the L&O committee.

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 9
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.
- University of Minnesota Duluth

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

This cross-campus interdisciplinary program provides comprehensive training in water resources science, with integration across scientific disciplines. The minor benefits from a set of core courses plus electives in the following areas of interest: aquatic biology, environmental chemistry, hydrologic science, limnology, water management technology, water policy, water quality, and watershed science and management.

The goal of the WRS program is to produce scientists with strong technical skills in disciplines relevant to water resources and a broad understanding of 1) the hydrologic cycle and associated ecosystems, 2) the interconnectedness of the sciences involved in managing aquatic resources, and 3) the interplay between the biophysical sciences and social sciences in developing and implementing public policies related to water.

Students in the program develop the breadth of scientific knowledge appropriate to understand the complicated aquatic ecosystems and watersheds on which they will work, as well as social dimensions of the topic, including the public policy and legal frameworks in which water resources are protected and managed.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Required Course
WRS 5101 - Water Policy (3.0 cr)

Electives
- Master's students must take at least 6 credits, and doctoral students must take at least 9 credits from the following list of electives.
  - BBE 8513 - Hydrologic Modeling of Small Watersheds (3.0 cr)
  - CEGE 4501 - Hydrologic Design (4.0 cr)
  - CEGE 5541 - Environmental Water Chemistry (3.0 cr)
  - EEB 5601 - Limnology (3.0 cr)
  - ESCI 4401 - Aqueous Environmental Geochemistry (3.0 cr)
  - ESCI 4702 - General Hydrogeology (4.0 cr)
ESCI 8401 - Aqueous Environmental Geochemistry (3.0 cr)
FNRM 5114 - Hydrology and Watershed Management (3.0 cr)
FNRM 5153 - Forest Hydrology & Watershed Biogeochemistry (3.0 cr)
LAAS 5311 - Soil Chemistry and Mineralogy (3.0 cr)
PUBH 6190 - Environmental Chemistry (3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Twin Cities Campus

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 48
- This program does not require summer semesters for timely completion.
- The Water Resources Science PhD is an All-University program delivered on the Twin Cities and Duluth Campuses. The University of Minnesota Twin Cities is the degree granting authority for the Water Resources Science PhD program in Duluth.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

This cross-campus interdisciplinary program provides comprehensive training in water resources science, with integration across scientific disciplines. A structured interdisciplinary graduate curriculum is offered. The program includes a set of core courses plus electives in the following areas of interest: aquatic biology, environmental chemistry, hydrologic science, limnology, water management technology, water policy, water quality, and watershed science and management. A Limnology and Oceanography track is also offered. Approximately 80 courses offered within 15 other graduate programs are available to students majoring in water resources science.

The goal of the program is to produce scientists with strong technical skills in disciplines relevant to water resources and a broad understanding of 1) the hydrologic cycle and associated ecosystems, 2) the interconnectedness of the sciences involved in managing aquatic resources, and 3) the interplay between the biophysical sciences and social sciences in developing and implementing public policies related to water.

Students in the program develop the breadth of scientific knowledge appropriate to understand the complicated aquatic ecosystems and watersheds on which they will work, as well as social dimensions of the topic, including the public policy and legal frameworks in which water resources are protected and managed.

The program involves faculty from the following departments on the Twin Cities campus: Applied Economics; Bioproducts and Biosystems Engineering; Civil Engineering; Earth Sciences; Ecology, Evolution, and Behavior; Entomology; Environmental and Occupational Health; Fisheries, Wildlife, and Conservation Biology; Forest Resources; Geography; Horticultural Science; Plant Biology; and Soil, Water, and Climate. It also involves faculty from the following departments on the Duluth campus: Biology; Chemical Engineering; Chemistry; Civil Engineering; Geography; Geological Sciences; and Physics; as well as the Large Lakes Observatory and the Natural Resources Research Institute in Duluth.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

The program is flexible enough to accommodate students from a variety of backgrounds. Normally students have a master's degree in physical, biological, or environmental science or engineering.

Other requirements to be completed before admission:
Recommended academic preparation includes at least two courses each in calculus, chemistry, and physics, at least one course in the biological sciences, and some experience or background in statistics.

Availability of funding and willingness of a member of the graduate faculty to serve as an advisor are important criteria for admission to the PhD program.
Special Application Requirements:
Applicants must submit three letters of recommendation via the University of Minnesota's online application system. These letters should be from professors qualified to estimate applicant's class rank and evaluate their ability to complete a program of graduate study, or from persons who can assess their professional or research potential.

Applicants must also submit a résumé of their academic history and professional experience and a statement of purpose, including the proposed area of emphasis. Students may be admitted any semester but are strongly encouraged to submit their application by December 1 for fall semester admission. More specific application instructions can be found on the program website: https://wrs.umn.edu/prospective-students.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
- IELTS
  - Total Score: 6.5
- MELAB
  - Final score: 80

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
24 credits are required in the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

Water Resources Seminar
Students must take WRS 8100 for 0.5 credits.
- WRS 8100 - Interdisciplinary Seminar in Water Resources (0.5 cr)

Water Resources Ethics
- WRS 8581 - Research and Professional Ethics in Water Resources and Environmental Science (0.5 cr)

Hydrology Core
Take at least 3 credits from the following:
- BBE 8513 - Hydrologic Modeling of Small Watersheds (3.0 cr)
- CEGE 4501 - Hydrologic Design (4.0 cr)
- ESCI 4702 - General Hydrogeology (4.0 cr)
- FNRM 5114 - Hydrology and Watershed Management (3.0 cr)
- FNRM 5153 - Forest Hydrology & Watershed Biogeochemistry (3.0 cr)

Environmental/Water Chemistry Core
Take at least 3 credits from the following:
- CEGE 5541 - Environmental Water Chemistry (3.0 cr)
- ESCI 4401 - Aqueous Environmental Geochemistry (3.0 cr)
- ESCI 8401 - Aqueous Environmental Geochemistry (3.0 cr)
- LAAS 5311 - Soil Chemistry and Mineralogy (3.0 cr)
- PUBH 6190 - Environmental Chemistry (3.0 cr)

Limnology Core
- EEB 5601 - Limnology (3.0 cr)

Water Resources Policy Core
WRS 5101 - Water Policy (3.0 cr)

WRS Electives
Select electives from the following list to complete the 24 course credits required:

AGRO 5121 - Applied Experimental Design (4.0 cr)
BBE 5513 - Watershed Engineering (3.0 cr)
BBE 5523 - Ecological Engineering Design (3.0 cr)
BBE 5535 - Assessment and Diagnosis of Impaired Waters (3.0 cr)
BBE 8513 - Hydrologic Modeling of Small Watersheds (3.0 cr)
CEGE 4351 - Groundwater Mechanics (3.0 cr)
CEGE 4352 - Groundwater Modeling (3.0 cr)
CEGE 4501 - Hydrologic Design (4.0 cr)
CEGE 4502 - Water and Wastewater Treatment (3.0 cr)
CEGE 4511 - Hydraulic Structures (3.0 cr)
CEGE 4512 - Open Channel Hydraulics (4.0 cr)
CEGE 4562 - Environmental Remediation Technologies (3.0 cr)
CEGE 5541 - Environmental Water Chemistry (3.0 cr)
CEGE 5542 - Experimental Methods in Environmental Engineering (3.0 cr)
CEGE 5551 - Environmental Microbiology (3.0 cr)
CEGE 8504 - Theory of Unit Operations (4.0 cr)
CEGE 8505 - Biological Processes (3.0 cr)
CEGE 8506 - Stochastic Hydrology (4.0 cr)
CEGE 8507 - Advanced Methods in Hydrology (4.0 cr)
CEGE 8511 - Mechanics of Sediment Transport (3.0 cr)
CEGE 8542 - Chemistry of Organic Pollutants in Environmental Systems (3.0 cr)
CEGE 8572 - Computational Environmental Fluid Dynamics (4.0 cr)
CEGE 8601 - Introduction to Stream Restoration (3.0 cr)
CEGE 8602 - Stream Restoration Practice (2.0 cr)
CONS 8004 - Economic and Social Aspects of Conservation Biology (3.0 cr)
EEB 4611 - Biogeochemical Processes (3.0 cr)
EEB 5601 - Limnology (3.0 cr)
EEB 8601 - Introduction to Stream Restoration (3.0 cr)
EEB 8602 - Stream Restoration Practice (2.0 cr)
ENT 5121 - Applied Experimental Design (4.0 cr)
ESCI 4401 - Aqueous Environmental Geochemistry (3.0 cr)
ESCI 4402 - Biogeochemical Cycles in the Ocean (3.0 cr)
ESCI 4702 - General Hydrogeology (4.0 cr)
ESCI 5204 - Geostatistics and Inverse Theory (3.0 cr)
ESCI 5705 - Limnogeology and Paleoenvironment (3.0 cr)
ESCI 5971 - Field Hydrogeology (2.0 cr)
ESCI 8401 - Aqueous Environmental Geochemistry (3.0 cr)
ESCI 8511 - Mechanics of Sediment Transport (3.0 cr)
ESCI 8601 - Introduction to Stream Restoration (3.0 cr)
ESCI 8602 - Stream Restoration Practice (2.0 cr)
ESPM 4216 - Contaminant Hydrology (3.0 cr)
ESPM 5015 - Invasive Plants and Animals: Ecology and Management (3.0 cr)
ESPM 5061 - Water Quality and Natural Resources (3.0 cr)
ESPM 5111 - Hydrology and Water Quality Field Methods (3.0 cr)
ESPM 5211 - Survey, Measurement, and Modeling for Environmental Analysis (3.0 cr)
ESPM 5256 - Natural Resource Law and the Management of Public Lands and Waters (3.0 cr)
ESPM 5295 - GIS in Environmental Science and Management (4.0 cr)
ESPM 5402 - Biometeorology (3.0 cr)
ESPM 5555 - Wetland Soils (3.0 cr)
ESPM 5575 - Wetlands (3.0 cr)
FNRM 5114 - Hydrology and Watershed Management (3.0 cr)
FNRM 5131 - Geographical Information Systems (GIS) for Natural Resources (4.0 cr)
FNRM 5153 - Forest Hydrology & Watershed Biogeochemistry (3.0 cr)
FNRM 5262 - Remote Sensing and Geospatial Analysis of Natural Resources and Environment (3.0 cr)
FW 4136 - Ichthyology (4.0 cr)
FW 5459 - Stream and River Ecology (3.0 cr)
FW 8459 - Stream and River Ecology (3.0 cr)
FW 8465 - Fish Habitats and Restoration (3.0 cr)
GEOG 5426 - Climatic Variations (3.0 cr)
HORT 5071 - Ecological Restoration (4.0 cr)
LAAS 5311 - Soil Chemistry and Mineralogy (3.0 cr)
NR 5021 - Statistics for Agricultural and Natural Resource Professionals (3.0 cr)
Program Sub-plans
A sub-plan is not required for this program.

Students may not complete the program with more than one sub-plan.

Limnology and Oceanography
The science of inland waters, or "limnology," includes the study of streams, lakes, ponds, and wetlands. While Lake Superior falls into this category, the style of research, particularly the nature of sampling and the scale of the processes investigated, makes study of Lake Superior and other Great Lakes more akin to oceanography than to classical limnology. A program that focuses on the study of both limnology and oceanography strengthens understanding of both systems, through comparative studies and by fostering interaction between groups that focus more strongly on one or the other system. Limnology and oceanography are by necessity interdisciplinary fields, with major components contributed by biological, geological, physical, and chemical sciences.

This track within the cross-campus interdisciplinary WRS program provides comprehensive training in limnology and oceanography. As is the case for the WRS graduate program as a whole, the L&O program includes a set of core courses plus electives in the subfield of limnology and oceanography.

The goal of the program is to produce scientists with strong technical skills in aquatic science and a broad understanding of limnology and oceanography. Faculty on both Twin Cities and Duluth campuses participate in the limnology and oceanography track.

PhD students pursuing the limnology and oceanography track must have at least two members of the limnology and oceanography faculty on their committee, including the advisor.

Water Resources Seminar
Students must take WRS 8100 for 0.5 credits.

WRS 8100 - Interdisciplinary Seminar in Water Resources (0.5 cr)

Water Resources Ethics
WRS 8581 - Research and Professional Ethics in Water Resources and Environmental Science (0.5 cr)

Hydrology Core for Limnology/Oceanography Students
Take 3 or more credit(s) from the following:
• BBE 8513 - Hydrologic Modeling of Small Watersheds (3.0 cr)
• FNRM 5114 - Hydrology and Watershed Management (3.0 cr)

Environmental/Water Chemistry Core for Limnology/Oceanography Students
Take at least 3 credits from the following:
• CEGE 5541 - Environmental Water Chemistry (3.0 cr)
  or EEB 4611 - Biogeochemical Processes (3.0 cr)
  or ESCI 4401 - Aqueous Environmental Geochemistry (3.0 cr)
  or ESCI 8401 - Aqueous Environmental Geochemistry (3.0 cr)
  or LAAS 5311 - Soil Chemistry and Mineralogy (3.0 cr)
  or PUBH 6190 - Environmental Chemistry (3.0 cr)

Limnology Core
EEB 5601 - Limnology (3.0 cr)

Water Resources Policy Core
WRS 5101 - Water Policy (3.0 cr)

WRS Electives
Select electives from the following list, in consultation with the L&O committee, to complete the 24 course credits required:
• AGRO 5121 - Applied Experimental Design (4.0 cr)
• BBE 5513 - Watershed Engineering (3.0 cr)
• BBE 5523 - Ecological Engineering Design (3.0 cr)

- This program requires summer semesters for timely completion.
- Degree: Master of Development Practice

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Development Practice masters degree (MDP), jointly administered by the Humphrey School of Public Affairs and the Interdisciplinary Center for the Study of Global Change, prepares students for careers in sustainable development. The degree provides a rigorous, interdisciplinary education and equips students with the competencies, skills, and knowledge needed to work toward poverty alleviation and sustainable development in developing regions of the world.

The MDP provides training in policy analysis and management, health and education, natural sciences, social sciences, and interdisciplinary research methods.

The Minnesota MDP program and degree are part of a global association of MDP programs.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A four-year bachelor's degree from an accredited US university or foreign equivalent at time of enrollment.

Other requirements to be completed before admission:
A strong liberal education background, and sound quantitative and analytical skills are preferred.

Previous coursework in mathematics, statistics, and economics is recommended. Applicants needing to strengthen this part of their skill set prior to admission may wish to take introductory microeconomics, college algebra, and/or introductory statistics courses.

International professional experience and foreign language competency are strongly preferred.

Special Application Requirements:
A complete application will include a University of Minnesota application, personal statement, resume or C.V., transcripts, GRE scores, TOEFL scores, at least three letters of recommendation, and an optional diversity statement.

For M.D.P. applicants applying for the Fall 2023 cohort, GRE scores are not required. We request that applicants not submit them as they will not be weighed as part of the admissions process.

Applicants must submit their test score(s) from the following:
• GRE
International applicants must submit score(s) from one of the following tests:

- **TOEFL**
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- **IELTS**
  - Total Score: 7

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (GRE, TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

**Program Requirements**

**Plan C:** Plan C requires 50 major credits and up to null credits outside the major. The final exam is optional. A capstone project is required.

**Capstone Project:** A team project (MDP 5200), conducted in consultation with the workshop advisor and an NGO or public-sector client, is completed during the second year of study.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.80 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.

A team project (MDP 5004), conducted in consultation with a faculty advisor and an NGO or public-sector client, is completed during the summer following the first year of study. Projects are place-based, and typically occur in an international context over a 10-week period. Additional cost for the field experience project is the responsibility of the student.

All courses must be taken in consultation with the advisor.

**Core Courses (21 credits)**

Take the following courses. Courses offered on both the A-F and S/N grade basis must be taken A-F.

- **AGRO 5321** - Ecology of Agricultural Systems (3.0 cr)
- **MDP 5001** - Ways of Knowing for Sustainable Development (2.0 cr)
- **MDP 5002** - Program Development Workshop (3.0 cr)
- **MDP 5005** - Qualitative Methods for Development Practice (3.0 cr)
- **PA 5501** - Theories and Policies of Development (3.0 cr)
- **PA 5503** - Economics of Development (3.0 cr)
- **PA 5521** - Development Planning and Policy Analysis (4.0 cr)

**Statistics Course (4 credits)**

Select 1 of the following courses in consultation with the advisor. Courses offered on both the A-F and S/N grade basis must be taken A-F.

- **PA 5031** - Statistics for Public Affairs (4.0 cr)
- **PA 5045** - Statistics for Public Affairs, Accelerated (4.0 cr)

**Additional Methods Course (1 course)**

Select at least 1 course (variable credit requirement) from the following in consultation with the advisor. Courses offered on both the A-F and S/N grade basis must be taken A-F.

- **EPSY 5243** - Principles and Methods of Evaluation (3.0 cr)
- **OLPD 5501** - Principles and Methods of Evaluation (3.0 cr)
- **PA 5003** - Introduction to Financial Analysis and Management (1.5 cr)
- **PA 5032** - Applied Regression (2.0 cr)
- **PA 5044** - Applied Regression, Accelerated (2.0 cr)
- **PA 5311** - Program Evaluation (3.0 cr)

**International Education Course (3 credits)**

Select 1 of the following courses in consultation with the advisor. Courses offered on both the A-F and S/N grade basis must be taken A-F.

- **OLPD 5104** - Strategies for International Development of Education Systems (3.0 cr)
- **OLPD 5107** - Gender, Education, and International Development (3.0 cr)

**Environmental Science Course (3 credits)**

Select 1 of the following courses in consultation with the advisor. Courses offered on both the A-F and S/N grade basis must be taken A-F.
GCC 5008 - Policy and Science of Global Environmental Change [ENV] (3.0 cr)
GCC 5032 - Ecosystems Health: Leadership at the intersection of humans, animals and the environment [ENV] (3.0 cr)
GEOG 5401W - Geography of Environmental Systems and Global Change [ENV, WI] (3.0 cr)
PA 5751 - Addressing Climate and Energy Challenges at the Local Scale (3.0 cr)

**Leadership and Management Course (3 credits)**
Take the following course. Courses offered on both the A-F and S/N grade basis must be taken A-F.
PA 5151 - Organizational Perspectives on Global Development & Humanitarian Assistance (3.0 cr)

**Public Health Course (2 credits)**
Select 1 of the following courses in consultation with the advisor. Courses offered on both the A-F and S/N grade basis must be taken A-F.
PUBH 6108 - Foundations of Global Health (2.0 cr)
PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)

**Practicum Experiences (7 credits)**
Take the following courses. Courses offered on both the A-F and S/N grade basis must be taken A-F.
MDP 5004 - International Field Experience (3.0 cr)
MDP 5000 - Post-Field / Pre-Capstone Seminar (1.0 cr)
MDP 5200 - Capstone Workshop in Development Practice (3.0 cr)

**Electives**
Select elective credits, in consultation with the advisor, to meet the 50-credit minimum. Other courses, including courses from the above lists not being used to satisfy degree requirements, may be applied with advisor approval.
ANTH 8120 - Problems in Culture Change and Applied Anthropology (3.0 - 6.0 cr)
ESPM 5061 - Water Quality and Natural Resources (3.0 cr)
ESPM 5108 - Ecology of Managed Systems (4.0 cr)
ESPM 5202 - Environmental Conflict Management, Leadership, and Planning (3.0 cr)
ESPM 5251 - Natural Resources in Sustainable International Development (3.0 cr)
ESPM 5604 - Environmental Management Systems and Strategy (3.0 cr)
GEOG 5385 - Globalization and Development: Political Economy (4.0 cr)
GEOG 5561 - Principles of Geographic Information Science (4.0 cr)
HORT 5071 - Ecological Restoration (4.0 cr)
OLPD 5011 - Leading Organizational Change: Theory and Practice (3.0 cr)
OLPD 5048 - Cross-Cultural Perspectives on Leadership (3.0 cr)
OLPD 5104 - Strategies for International Development of Education Systems (3.0 cr)
OLPD 8101 - International Education and Development (3.0 cr)
PA 5101 - Management and Governance of Nonprofit Organizations (3.0 cr)
PA 5271 - Geographic Information Systems: Applications in Planning and Policy Analysis (3.0 cr)
PA 5301 - Population Methods & Issues for the United States & Global South (3.0 cr)
PA 5414 - [Inactive](3.0 cr)
PA 5522 - International Development Policy, Families, and Health (3.0 cr)
PA 5721 - Energy Systems and Policy (3.0 cr)
PA 5801 - Global Public Policy (3.0 cr)
PUBH 6102 - Issues in Environmental Health (2.0 cr)
PUBH 6845 - Using Demographic Data for Policy Analysis (3.0 cr)
PUBH 6933 - Nutrition and Chronic Diseases (2.0 cr)

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 8 to 9
- Length of program in credits (Doctorate): 12 to 13
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Development Practice minor offers three options for students interested in an international/sustainable development practice credential. The field experience option incorporates coursework and a summer field experience; the capstone option incorporates coursework and an experiential capstone component; and the coursework option concentrates on coursework that provides students with academic preparation in international/sustainable development practice.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Development Practice director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

The minimum cumulative GPA for minor field coursework is 3.00.

Required Course (2 credits)
All students take the following course:
MDP 5001 - Ways of Knowing for Sustainable Development (2.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Options
Students select the Field Experience, Capstone, or Coursework option, in consultation with the Development Practice director of
graduate studies, to complete the master's minor.

**Field Experience (6 credits)**
Take the following courses:
- MDP 5002 - Program Development Workshop (3.0 cr)
- MDP 5004 - International Field Experience (3.0 cr)

-OR-

**Capstone (7 credits)**
Take the following courses:
- MDP 5002 - Program Development Workshop (3.0 cr)
- MDP 5100 - Post-Field / Pre-Capstone Seminar (1.0 cr)
- MDP 5200 - Capstone Workshop in Development Practice (3.0 cr)

-OR-

**Coursework (6 credits)**
Select at least 6 credits from the following in consultation with the Development Practice director of graduate studies:

**Required Course (3 credits)**
Take the following course:
- PA 5501 - Theories and Policies of Development (3.0 cr)

**Electives (3 credits)**
Select at least 3 credits from the following in consultation with the Development Practice director of graduate studies:
- PA 5151 - Organizational Perspectives on Global Development & Humanitarian Assistance (3.0 cr)
- PA 5503 - Economics of Development (3.0 cr)
- PA 5504 - Transforming Development (3.0 cr)
- PA 5521 - Development Planning and Policy Analysis (4.0 cr)

**Doctoral Options**
Students select Field Experience, Capstone, or Coursework option, in consultation with the Development Practice director of graduate studies, to complete the doctoral minor.

**Field Experience (10 credits)**
**Required Courses (6 credits)**
Take the following courses:
- MDP 5002 - Program Development Workshop (3.0 cr)
- MDP 5004 - International Field Experience (3.0 cr)

**Electives (4 credits)**
Select at least 4 credits from the following in consultation with the Development Practice director of graduate studies.
- PA 5503 - Economics of Development (3.0 cr)
- PA 5504 - Transforming Development (3.0 cr)
- PA 5521 - Development Planning and Policy Analysis (4.0 cr)
- PA 8151 - Organizational Perspectives on Global Development & Humanitarian Assistance (3.0 cr)
- PA 8302 - Applied Policy Analysis (4.0 cr)

**Capstone (11 credits)**
**Required Courses (7 credits)**
Take the following courses:
- MDP 5002 - Program Development Workshop (3.0 cr)
- MDP 5100 - Post-Field / Pre-Capstone Seminar (1.0 cr)
- MDP 5200 - Capstone Workshop in Development Practice (3.0 cr)

**Electives (4 credits)**
Select at least 4 credits from the following, in consultation with the Development Practice director of graduate studies.
- PA 5503 - Economics of Development (3.0 cr)
- PA 5504 - Transforming Development (3.0 cr)
- PA 5521 - Development Planning and Policy Analysis (4.0 cr)
- PA 8151 - Organizational Perspectives on Global Development & Humanitarian Assistance (3.0 cr)
- PA 8302 - Applied Policy Analysis (4.0 cr)
- PA 8601 - Global Survey of Gender and Public Policy (3.0 cr)

**Coursework (10 credits)**
**Required Course (3 credits)**
Take the following course:
PA 5501 - Theories and Policies of Development (3.0 cr)

**Electives (7 credits)**
Select at least 7 credits from the following in consultation with the Development Practice director of graduate studies.
PA 5503 - Economics of Development (3.0 cr)
PA 5504 - Transforming Development (3.0 cr)
PA 5521 - Development Planning and Policy Analysis (4.0 cr)
PA 8151 - Organizational Perspectives on Global Development & Humanitarian Assistance (3.0 cr)
PA 8302 - Applied Policy Analysis (4.0 cr)
PA 8601 - Global Survey of Gender and Public Policy (3.0 cr)

• Program Type: Post-baccalaureate credit certificate/licensure/endorsement
• Requirements for this program are current for Fall 2022
• Length of program in credits: 12
• This program does not require summer semesters for timely completion.
• Degree: Early Childhood Policy PBacc Cert

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Early Childhood Policy post-baccalaureate certificate gives students expertise in applying research-based knowledge to public policies affecting young children and the adults who care for them. The certificate provides a vehicle for students to gain fundamental early childhood policy skills and knowledge and to foster connection between the University of Minnesota and the early childhood policy community. Students may have opportunities to participate in the work of the Institute of Child Development's Human Capital Research Collaborative.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Admission is available for fall or spring semester. A complete application will include a University of Minnesota application, personal statement, resume or C.V., and transcripts.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.8 is required for students to remain in good standing.

Required coursework offered on both the A-F and S/N grade basis must be taken A-F.

A maximum of 1/3 of the course credits may be S/N, excluding courses only offered on the S/N grade basis.

Early Childhood and Public Policy Course (1.5 to 3 credits)
Select the following course for 1.5 or 3 credits, in consultation with the advisor:
PA 5413 - Early Childhood and Public Policy (1.5 - 3.0 cr)

Electives (9 to 10.5 credits)
Topics courses, if selected, must cover early childhood. Advisor approval is required.
Policy Electives (1.5 to 3 credits)
Select credits from the following in consultation with the advisor. Other courses can be selected with advisor approval.
FSOS 8104 - Family Policy Seminar (3.0 cr)
PA 5415 - Effective Policies for Children in the First Decade (1.5 - 3.0 cr)
PA 5442 - Education Law and Policy (3.0 cr)
PREV 8001 - Prevention Science: Principles and Practices (3.0 cr)
SW 5101 - Historical Origins and Contemporary Policies in Social Welfare (3.0 cr)
SW 8804 - Child Welfare Policy (3.0 cr)

**Additional Electives**
Select credits from the following in consultation with the advisor to complete the 12-credit minimum. Other courses can be selected with advisor approval.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Admissions are being paused for the 2022-2023 academic year.

Human service professionals face extraordinary challenges that require innovative thinking and an interdisciplinary approach. The Human Services Leadership post-baccalaureate certificate, designed in collaboration with field leaders, is intended for working professionals involved in human service program development and delivery. The curriculum offers knowledge and skills in leadership, public policy and implementation, and public service redesign to enhance advancement potential for mid- to senior-level leadership positions in county, state, and nonprofit agencies.

Program Delivery
This program is available:
• partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A four-year bachelor's degree from an accredited US university or foreign equivalent at time of enrollment.

Special Application Requirements:
At least 8 years of post-baccalaureate professional work experience. Pre-baccalaureate experience may be considered for applicants with a significant gap between completion of high school and the bachelor's degree.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.8 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.

Required coursework offered on both the A-F and S/N grade basis must be taken A-F.

A maximum of 1/3 of the course credits may be S/N, excluding courses only offered on the S/N grade basis.

Required Coursework (6 credits)
Take the following courses:
PA 5161 - Redesigning Human Services (3.0 cr)
PA 5162 - Public Service Redesign Workshop (3.0 cr)
Elective Courses (6 credits)
Select 6 credits from the following in consultation with the advisor. If PA 5190 Topics is selected, the topic must be Leading Across Boundaries or Collaborative Governance. Other courses can be selected with approval of the advisor and director of graduate studies.

PA 5011 - Management of Organizations (3.0 cr)
PA 5103 - Leadership and Change (1.5 - 3.0 cr)
PA 5105 - Integrative Leadership: Leading Across Sectors to Address Grand Challenges (3.0 cr)
PA 5137 - Project Management in the Public Arena (1.5 cr)
PA 5145 - Civic Participation in Public Affairs (3.0 cr)
PA 5190 - Topics in Public and Nonprofit Leadership and Management (1.0 - 3.0 cr)
PA 5311 - Program Evaluation (3.0 cr)
PA 5405 - Public Policy Implementation (3.0 cr)
PA 5421 - Racial Inequality and Public Policy (3.0 cr)
PA 5927 - Effective Grantwriting for Nonprofit Organizations (1.5 cr)
OLPD 5011 - Leading Organizational Change: Theory and Practice (3.0 cr)

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 2.80 is required for students to remain in good standing.
Application of 4xxx-level coursework requires pre-approval of the advisor and director of graduate studies.

A maximum of 1/3 of the course credits may be S/N, excluding courses only offered on the S/N grade basis.

Required Core Courses (7.5 credits)
Take the following courses. All required core courses must be taken A-F.
PA 5003 - Introduction to Financial Analysis and Management (1.5 cr)
PA 5101 - Management and Governance of Nonprofit Organizations (3.0 cr)
PA 5251 - Strategic Planning and Management (3.0 cr)

Electives
Select courses, in consultation with the advisor, to meet the 13-credit minimum. Other courses can be applied as electives with advisor approval.
OLPD 5501 - Principles and Methods of Evaluation (3.0 cr)
OLPD 5607 - Organization Development (3.0 cr)
OLPD 8703 - Public Policy in Higher Education (3.0 cr)
PA 5103 - Leadership and Change (1.5 - 3.0 cr)
PA 5104 - Strategic Human Resource Management (3.0 cr)
PA 5108 - Board leadership development (1.0 cr)
PA 5114 - Budget Analysis in Public and Nonprofit Orgs (1.5 cr)
PA 5116 - Financing Public and Nonprofit Organizations (1.5 cr)
PA 5123 - Philanthropy in America: History, Practice, and Trends (1.5 - 3.0 cr)
PA 5135 - Managing Conflict: Negotiation (3.0 cr)
PA 5144 - Social Entrepreneurship (3.0 cr)
PA 5145 - Civic Participation in Public Affairs (3.0 cr)
PA 5151 - Organizational Perspectives on Global Development & Humanitarian Assistance (3.0 cr)
PA 5190 - Topics in Public and Nonprofit Leadership and Management (1.0 - 3.0 cr)
PA 5311 - Program Evaluation (3.0 cr)
PA 5405 - Public Policy Implementation (3.0 cr)
PA 5920 - Skills Workshop (0.5 - 4.0 cr)
PA 5927 - Effective Grantwriting for Nonprofit Organizations (1.5 cr)
PUBH 6557 - Health Finance I (3.0 cr)
PUBH 6727 - Health Leadership and Effecting Change (2.0 cr)
PUBH 6751 - Principles of Management in Health Services Organizations (2.0 cr)
SW 5562 - Global Social Work and Social Development (3.0 cr)
SW 5904 - Facilitation and Conflict Management: Humanistic Approach (2.0 cr)
SW 8551 - Advanced Community Practice: Assessment, Organizing, and Advocacy (3.0 cr)
SW 8552 - Advanced Community Practice: Leadership, Planning, and Program Development (3.0 cr)
SW 8563 - Advanced Policy Advocacy (3.0 cr)
SW 8804 - Child Welfare Policy (3.0 cr)
SW 8805 - Aging and Disability Policy (3.0 cr)
SW 8806 - Health and Mental Health Policy (3.0 cr)
SW 8807 - International and Comparative Social Welfare Policy (3.0 cr)

- Program Type: Post-baccalaureate credit certificate/licensure/endorsement
- Requirements for this program are current for Fall 2022
- Length of program in credits: 15
- This program does not require summer semesters for timely completion.
- Degree: Policy Issues on Work and Pay PBacc Cert

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Policy Issues in Work and Pay post-baccalaureate certificate provides an understanding of, and the ability to evaluate and develop, federal, state, and local policies that affect the employment relationship. Students learn about the role of government in the employment relationship, including statutes, and how employers, unions, and the government interpret and utilize policies.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Mathematics courses at least through algebra; a one-semester course in microeconomics.

Special Application Requirements:
A complete application will include a University of Minnesota application, personal statement, resume or C.V., transcripts, and a diversity statement.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.80 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.

Required coursework offered on both the A-F and S/N grade basis must be taken A-F.
A maximum of 1/3 of the course credits may be S/N, excluding courses only offered on the S/N grade basis.

**Required Courses (6 credits)**
- Public Policies on Work and Pay (3 credits)
  - Select 1 of the following courses in consultation with the advisor:
    - PA 5431 - Public Policies on Work and Pay (3.0 cr)
    - HRIR 5655 - Public Policies on Work and Pay (3.0 cr)

**Social Safety Nets/Social Insurance Programs (3 credits)**
- PA 5416 - Economics of U.S. Social Insurance Programs (3.0 cr)

**Electives (9 credits)**
Select 9 credits from the following in consultation with the advisor. Other courses may be chosen with director of graduate studies approval.
- APEC 5511 - Labor Economics (3.0 cr)
- HRIR 5222 - Creating and Managing Diversity and Inclusion (2.0 cr)
- HRIR 5252 - Employment and Labor Law for the HRIR Professional (2.0 cr)
- HRIR 5662 - Personnel Economics (2.0 cr)
- HRIR 6503 - Employer-Sponsored Employee Benefit Programs (2.0 cr)
- HRIR 6701 - Labor Relations and Collective Bargaining (4.0 cr)
- LAW 6203 - Labor Law (3.0 cr)
- LAW 6631 - Employment Discrimination (3.0 cr)
- LAW 6632 - Employment Law (3.0 cr)
- LAW 6833 - Alternative Dispute Resolution (3.0 cr)
- PA 5023 - Stratification Economics and Public Policy (2.0 cr)
- PA 5401 - Poverty, Inequality, and Public Policy (3.0 cr)
- PA 5512 - Workforce and Economic Development (3.0 cr)
- PA 8386 *(Inactive)* (2.0 cr)

- Program Type: Post-baccalaureate credit certificate/licensure/endorsement
- Requirements for this program are current for Fall 2022
- Length of program in credits: 12
- This program does not require summer semesters for timely completion.
- Degree: Public Affairs Leadership PBac Certificate

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Public Affairs Leadership post-baccalaureate certificate is a 9-month program that offers mid-career professionals the specific knowledge and skills in leadership, public policy, and program analysis, as well as qualitative and quantitative research methods to succeed in today's public affairs environment.

The curriculum comprises a combination of on-campus and online sessions for the convenience of working professionals both within and outside the Twin Cities metro area. The program includes a 1-day orientation in early August, a 3-day intensive foundations week in late August, and monthly Friday-Saturday meetings from September to May. Classes are in person. Students may choose to be remote on those occasions when they cannot attend in person.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A four-year bachelor's degree from an accredited U.S. university or foreign equivalent at time of enrollment is required.

Other requirements to be completed before admission:
At least 10 years of post-baccalaureate professional work experience is preferred and highly recommended. Pre-baccalaureate experience may be considered for applicants with a significant gap between completion of high school and the bachelor's degree.

A complete application will include a University of Minnesota application, personal statement, resume or C.V., transcripts, TOEFL scores (when applicable), at least three letters of recommendation, and a diversity statement.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Public Affairs

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Master of Public Affairs (MPA) degree prepares mid-career professionals for public leadership and policy and program analysis. The curriculum, designed for working professionals, can be completed in one calendar year of full-time enrollment, or two to three years when pursued part time. The program includes a 1-day orientation in early August, a 3-day intensive foundations week in late August, and monthly Friday-Saturday meetings from September to May. Classes are in person. Students may choose to be remote on those occasions when they cannot attend in person. In addition to core coursework, electives are chosen in consultation with the advisor to support each students individual academic and career goals.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A four-year bachelor's degree from an accredited US university or foreign equivalent at time of enrollment.

Special Application Requirements:
At least 10 years of post-baccalaureate professional work experience is preferred and highly recommended. Program Requirements
Plan C: Plan C requires 30 major credits and up to null credits outside the major. There is no final exam. A capstone project is required.
Capstone Project: The capstone project is designed to provide a learning opportunity for students to apply their knowledge through a client-based team project. The workshop includes a written report and oral presentation for the client that summarizes major findings of
the semester-long study.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.80 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.

Coursework offered on both the A-F and S/N grade basis must be taken A-F. Up to 6 of the 14 credits required for self-designed concentration may be taken S/N.

**Required Core Courses (12 credits)**

Take the following courses:

- **PA 5051** - Leadership Foundations (2.0 cr)
- **PA 5052** - Public Affairs Leadership (2.0 cr)
- **PA 5053** - Policy Analysis in Public Affairs (2.0 cr)
- **PA 5054** - Program Design and Implementation Analysis (2.0 cr)
- **PA 5055** - Qualitative Research Methods and Analysis (2.0 cr)
- **PA 5056** - Quantitative Research Methods and Analysis (2.0 cr)

**Capstone Project (4 credits)**

Take the following courses:

- **PA 5080** - Capstone Preparation Workshop (1.0 cr)
- **PA 8081** - Capstone Workshop (3.0 cr)

**Electives (14 credits)**

Select 14 elective credits, in consultation with the advisor, to complete a self-designed concentration. Some common courses are listed below. Other courses may be used with advisor approval.

- **CSPH 5212** - Peacebuilding Through Mindfulness: Transformative Dialogue in the Global Community (3.0 cr)
- **CSPH 5807** - Mindfulness in the Workplace: Pause, Practice, Perform (2.0 cr)
- **OLPD 5501** - Principles and Methods of Evaluation (3.0 cr)
- **OLPD 5607** - Organization Development (3.0 cr)
- **PA 5003** - Introduction to Financial Analysis and Management (1.5 cr)
- **PA 5004** - The Politics of Public Affairs (3.0 cr)
- **PA 5081** - Understanding Power and Teamwork in Public Affairs Education (0.5 cr)
- **PA 5101** - Management and Governance of Nonprofit Organizations (3.0 cr)
- **PA 5103** - Leadership and Change (1.5 - 3.0 cr)
- **PA 5104** - Strategic Human Resource Management (3.0 cr)
- **PA 5105** - Integrative Leadership: Leading Across Sectors to Address Grand Challenges (3.0 cr)
- **PA 5108** - Board leadership development (1.0 cr)
- **PA 5114** - Budget Analysis in Public and Nonprofit Orgs (1.5 cr)
- **PA 5135** - Managing Conflict: Negotiation (3.0 cr)
- **PA 5136** - Group Process Facilitation for Organizational and Public/Community Engagement (1.0 cr)
- **PA 5137** - Project Management in the Public Arena (1.5 cr)
- **PA 5144** - Social Entrepreneurship (3.0 cr)
- **PA 5145** - Civic Participation in Public Affairs (3.0 cr)
- **PA 5152** *(Inactive)* (1.5 cr)
- **PA 5161** - Redesigning Human Services (3.0 cr)
- **PA 5162** - Public Service Redesign Workshop (3.0 cr)
- **PA 5190** - Topics in Public and Nonprofit Leadership and Management (1.0 - 3.0 cr)
- **PA 5251** - Strategic Planning and Management (3.0 cr)
- **PA 5290** - Topics in Planning (0.5 - 4.0 cr)
- **PA 5311** - Program Evaluation (3.0 cr)
- **PA 5401** - Poverty, Inequality, and Public Policy (3.0 cr)
- **PA 5405** - Public Policy Implementation (3.0 cr)
- **PA 5421** - Racial Inequality and Public Policy (3.0 cr)
- **PA 5422** - Diversity and Public Policy (3.0 cr)
- **PA 5451** *(Inactive)* (3.0 cr)
- **PA 5490** - Topics in Social Policy (1.0 - 4.0 cr)
- **PA 5501** - Theories and Policies of Development (3.0 cr)
- **PA 5590** - Topics in Economic and Community Development (1.0 - 3.0 cr)
- **PA 5790** - Topics in Science, Technology, and Environmental Policy (1.0 - 3.0 cr)
- **PA 5801** - Global Public Policy (3.0 cr)
PA 5823 - Human Rights and Humanitarian Crises: Policy Challenges (3.0 cr)
PA 5880 - Exploring Global Cities (1.0 - 3.0 cr)
PA 5890 - Topics in Foreign Policy and International Affairs (0.5 - 5.0 cr)
PA 5920 - Skills Workshop (0.5 - 4.0 cr)
PA 5926 - Presentation Skills: How to Inspire Your Audience and Change the World (1.0 cr)
PA 5927 - Effective Grantwriting for Nonprofit Organizations (1.5 cr)
PA 5929 - Data Visualization: Telling Stories with Numbers (2.0 cr)
PA 5976 - Voter Participation (1.0 cr)
PA 5990 - Topics: Public Affairs - General Topics (0.0 - 3.0 cr)
PUBH 7200 - Topics: Public Health Practice (0.5 - 4.0 cr)

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 66
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Public Affairs PhD offers students opportunities for rigorous, advanced study in the areas of public affairs, policy analysis, and planning. The goal of the PhD program is to train researchers who will enter academia or join highly respected public or nonprofit institutions involved in cutting edge research in public affairs, policy, planning, and management. Students pursue one of the following tracks: public policy; urban planning; management and governance; or science, technology, and environmental policy.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.50.

Other requirements to be completed before admission:
Applicants are recommended to have completed undergraduate coursework in microeconomics and mathematics (calculus, statistics, or algebra).

Special Application Requirements:
A complete application will include a University of Minnesota application, a personal statement that includes motivation for pursuing doctoral studies and research interests, a resume or C.V., transcripts, GRE scores, a writing sample, TOEFL scores (if applicable), and at least three letters of recommendation.

For Public Affairs Ph.D. applicants applying for the Fall 2023 cohort, GRE scores are not required. We request that applicants not submit them as they will not be weighed as part of the admissions process.

Applicants must submit their test score(s) from the following:
• GRE

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
• IELTS
  - Total Score: 7

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (GRE, TOEFL, IELTS).
For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
42 credits are required in the major.
24 thesis credits are required.
This program may be completed with a minor.
Use of 4xxx courses towards program requirements is not permitted.
A minimum GPA of 3.0 is required for students to remain in good standing.
At least 1 semesters must be completed before filing a Degree Program Form.
Practical teaching experience: Doctoral students must complete training in pedagogy and a teaching experience as a course instructor or teaching assistant (TA) with instructional responsibilities. The pedagogical training may take place prior to or concurrent with the teaching experience. For international students, evidence of English-speaking proficiency is required prior to the teaching experience.

Core Coursework (12 credits)
Take the following courses. Take PA 8006 twice for a total of 3 credits.
PA 8003 - Integrative Doctoral Seminar in Public Affairs I (3.0 cr)
PA 8004 - Integrative Doctoral Seminar in Public Affairs II (3.0 cr)
PA 8005 - Doctoral Research Seminar in Public Affairs (3.0 cr)
PA 8006 - Current Research in Public Affairs: Topics, Approaches, and Cultures (1.5 cr)

Research Methods Coursework (12 credits)
Select 12 credits from the following in consultation with the advisor.

Other courses may be selected with approval of the advisor and director of graduate studies.

Qualitative Methods Courses (3 credits)
Select at least 3 credits from the following in consultation with the advisor.
EPSY 5247 - Qualitative Methods in Educational Psychology (3.0 cr)
NURS 8171 - Qualitative Research Design and Methods (3.0 - 4.0 cr)
OLPD 5056 - Case Studies for Policy Research (3.0 cr)
PA 5041 - Qualitative Methods for Policy Analysts (4.0 cr)
PUBH 6636 - Qualitative Research Methods in Public Health Practice (2.0 cr)
PUBH 7250 - Designing and Conducting Focus Group Interviews (1.0 cr)
SOC 8851 - Advanced Qualitative Research Methods: In-Depth Interviewing (3.0 cr)

Quantitative Methods Courses (3 credits)
Select at least 3 credits from the following in consultation with the advisor.
APEC 5031 - Methods of Economic Data Analysis (3.0 cr)
APEC 5032 - Economic Data Analysis for Managerial and Policy Decisions (3.0 cr)
APEC 8001 - Applied Microeconomic Analysis of Consumer Choice and Consumer Demand (2.0 cr)
APEC 8002 - Applied Microeconomic Analysis of Production and Choice Under Uncertainty (2.0 cr)
APEC 8003 - Applied Microeconomic Analysis of Game Theory and Information (2.0 cr)
APEC 8004 - Applied Microeconomic Analysis of Social Choice and Welfare (2.0 cr)
APEC 8206 - Dynamic Optimization: Applications in Economics and Management (3.0 cr)
APEC 8211 - Econometric Analysis I (2.0 cr)
APEC 8212 - Econometric Analysis II (2.0 cr)
APEC 8221 - Programming for Econometrics (2.0 cr)
APEC 8222 - Big Data Methods in Economics (2.0 cr)
EPSY 5244 - Survey Design, Sampling, and Implementation (3.0 cr)
EPSY 5261 - Introductory Statistical Methods (3.0 cr)
EPSY 5262 - Intermediate Statistical Methods (3.0 cr)
EPSY 8266 - Statistical Analysis Using Structural Equation Methods (3.0 cr)
EPSY 8268 - Hierarchical Linear Modeling in Educational Research (3.0 cr)
EPSY 8268 - Statistical Analysis of Longitudinal Data (3.0 cr)
GEOG 8299 - Seminar in GIS: Spatial Analysis and Modeling (3.0 cr)
HIST 8970 - Advanced Research in Quantitative History (3.0 cr)
OLPD 5521 - Cost and Economic Analysis in Educational Evaluation (3.0 cr)
PA 5021 - Microeconomics for Policy Analysis (3.0 cr)
PA 5022 - Applications of Economics for Policy Analysis (1.5 - 3.0 cr)
PA 5031 - Statistics for Public Affairs (4.0 cr)
PA 5032 - Applied Regression (2.0 cr)
PA 5033 - Multivariate Techniques (2.0 cr)
PA 5044 - Applied Regression, Accelerated (2.0 cr)
PA 8302 - Applied Policy Analysis (4.0 cr)
PA 8312 - Analysis of Discrimination (4.0 cr)
PA 8331 - Economic Demography (3.0 cr)
PA 8390 - Advanced Topics in Advanced Policy Analysis Methods (1.0 - 3.0 cr)
POL 8160 - Topics in Models and Methods (3.0 cr)
PUBH 6341 - Epidemiologic Methods I (3.0 cr)
PUBH 6450 - Biostatistics I (4.0 cr)
PUBH 6810 - Survey Research Methods (3.0 cr)
PUBH 7461 - Exploring and Visualizing Data in R (2.0 cr)
PUBH 7462 - Advanced Programming and Data Analysis in R (2.0 cr)
PUBH 7475 - Statistical Learning and Data Mining (3.0 cr)
PUBH 8401 - Linear Models (3.0 cr)
PUBH 8472 - Spatial Biostatistics (3.0 cr)
SOC 8811 - Advanced Social Statistics (4.0 cr)
STAT 5021 - Statistical Analysis (4.0 cr)
STAT 5201 - Analysis of Categorical Data (3.0 cr)
STAT 8101 - Theory of Statistics 1 (3.0 cr)
STAT 8102 - Theory of Statistics 2 (3.0 cr)

Other Methods Courses
Select credits from the following as needed, in consultation with the advisor, to complete the 12-credit Methods requirement:
HIST 8015 - Scope and Methods of Historical Studies (3.0 cr)
MGMT 8101 - PhD Seminar: Theory Building (2.0 cr)
PSY 8209 - Research Methods in Social Psychology (3.0 cr)
PUBH 6035 - Evaluation II: Applications (3.0 cr)
SOC 8801 - Sociological Research Methods (4.0 cr)
SOC 8890 - Advanced Topics in Research Methods (2.0 - 3.0 cr)
STAT 5303 - Designing Experiments (4.0 cr)

Thesis Credits
Take 24 doctoral thesis credits.
PA 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Public Policy
Coursework (18 credits)
Select credits from 5000 and 8000-level courses in consultation with the advisor and the consent of faculty in the sub-plan area.

Urban Planning
Coursework (18 credits)
Select 18 credits of 5000 and 8000-level courses in consultation with the assigned advisor or co-advisor from the Urban and Regional Planning area.

Management and Governance
Coursework (18 credits)
Select 18 credits of 5000 and 8000-level courses in consultation with the advisor and the consent of faculty in the sub-plan area.

Science, Technology, and Environmental Policy
Coursework (18 credits)
Select 18 credits of 5000 and 8000-level courses in consultation with the advisor and the consent of faculty in the sub-plan area.

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 45
- This program does not require summer semesters for timely completion.
- Degree: Master of Public Policy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Public Policy master's (MPP) curriculum is built upon a core of required theoretical and methodological courses. In remaining courses, students choose either to emphasize more advanced study of analysis or management, or to focus on a particular substantive area of public policy. Structured concentrations include advanced policy analysis methods; economic and community development; gender and public policy; global public policy; human rights; politics and governance; public and nonprofit leadership and management; science, technology, and environmental policy; and social policy.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
A four-year bachelor's degree from an accredited US university or foreign equivalent at time of enrollment.

Other requirements to be completed before admission:
Recommended: Strong liberal education background; quantitative and analytical skills; previous college-level coursework in mathematics, statistics, and economics.

Special Application Requirements:
A complete application will include a University of Minnesota application, personal statement, resume or C.V., transcripts, GRE scores, TOEFL scores (if applicable), at least three letters of recommendation, and an optional diversity statement.

FOR FALL 2023 APPLICANTS ONLY: For M.P.P. applicants applying for the Fall 2023 cohort, GRE scores are not required. We request that applicants not submit them as they will not be weighed as part of the admissions process.

Applicants must submit their test score(s) from the following:
- GRE

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7

Key to test abbreviations (GRE, TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements

Plan C: Plan C requires 45 major credits and 0 credits outside the major. There is no final exam.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.80 is required for students to remain in good standing.

At least 1 semester must be completed before filing a Degree Program Form.

A 200-hour professional internship, in addition to coursework, is required. Internship options, identified through consultation with the Humphrey Schools Career and Professional Development Office, are usually completed during the summer after the second semester of the MPP program.

Coursework offered on both the A-F and S/N grade basis must be taken A-F.

Core Coursework (12 credits)

Take the following courses:
- PA 5002 - Introduction to Policy Analysis (1.5 cr)
- PA 5003 - Introduction to Financial Analysis and Management (1.5 cr)
- PA 5011 - Management of Organizations (3.0 cr)
- PA 5012 - The Politics of Public Affairs (3.0 cr)
- PA 5021 - Microeconomics for Policy Analysis (3.0 cr)

Economics (3 credits)

Select 3 credits from the following in consultation with the advisor:
- APEC 5751 - Global Trade and Policy (3.0 cr)
- FINA 6341 - World Economy (4.0 cr)
- PA 5022 - Applications of Economics for Policy Analysis (1.5 - 3.0 cr)
- PA 5023 - Stratification Economics and Public Policy (2.0 cr)
- PA 5312 - Cost-Benefit Analysis for Program Evaluation (2.0 cr)
- PA 5416 - Economics of U.S. Social Insurance Programs (3.0 cr)
- PA 5431 - Public Policies on Work and Pay (3.0 cr)
- PA 5503 - Economics of Development (3.0 cr)
- PA 5521 - Development Planning and Policy Analysis (4.0 cr)
- PA 5722 - Economics of Environmental Policy (3.0 cr)
- PA 5805 - Global Economics (3.0 cr)

Foundational Methods Coursework

Statistics (4 credits)

Select 1 of the following courses in consultation with the advisor:
- PA 5031 - Statistics for Public Affairs (4.0 cr)
- PA 5045 - Statistics for Public Affairs, Accelerated (4.0 cr)

Methods (6 credits)

Select credits from the following in consultation with the advisor:
- PA 5032 - Applied Regression (2.0 cr)
- PA 5041 - Qualitative Methods for Policy Analysts (4.0 cr)
- PA 5044 - Applied Regression, Accelerated (2.0 cr)

Additional Methods (0-4 credits)

Select courses in consultation with the advisor as needed to complete the 6-credit Methods requirement.
- PA 5033 - Multivariate Techniques (2.0 cr)
- PA 5043 - Economic and Demographic Data Analysis (2.0 cr)
- PA 5271 - Geographic Information Systems: Applications in Planning and Policy Analysis (3.0 cr)
- PA 5311 - Program Evaluation (3.0 cr)
- PA 5521 - Development Planning and Policy Analysis (4.0 cr)
- PA 5528 - Data Management and Visualization with R (1.0 cr)
- PA 5929 - Data Visualization: Telling Stories with Numbers (2.0 cr)
- PA 5932 - Working with Data: Finding, Managing, and Using Data (1.5 cr)
- PA 5933 - Survey Methods: Designing Effective Questionnaires (2.0 cr)

Professional Paper (1-3 credits)

Select one of the following in consultation with the advisor. PA 8921, if selected, can be taken for 1-3 credits with approval of the
advisor.
PA 8081 - Capstone Workshop (3.0 cr)
PA 8082 - Professional Paper-Writing Seminar (3.0 cr)
PA 8921 - Master's: Professional Paper (Individual Option) (1.0 - 3.0 cr)

Electives
Select electives in consultation with the advisor to complete the 45-credit minimum.

Concentrations

Advanced Policy Analysis Methods (9 credits)
Select from the following in consultation with the advisor:
PA 5041 - Qualitative Methods for Policy Analysts (4.0 cr)
PA 5271 - Geographic Information Systems: Applications in Planning and Policy Analysis (3.0 cr)
PA 5301 - Population Methods & Issues for the United States & Global South (3.0 cr)
PA 5311 - Program Evaluation (3.0 cr)
PA 5421 - Racial Inequality and Public Policy (3.0 cr)
PA 5431 - Public Policies on Work and Pay (3.0 cr)
PA 8302 - Applied Policy Analysis (4.0 cr)
PA 8386 (Inactive) (2.0 cr)

-OR-

Gender and Public Policy (9 credits)

Required Course (3 Credits)
Take the following course:
PA 5601 - Global Survey of Gender and Public Policy (3.0 cr)

Additional Courses (6 credits)
Select courses from the following in consultation with the advisor. If PA 5890 Topics is selected, take Women's Human Rights in Practice. If POL 8360 Topics is selected, take Women, Sex, and Gender and American Politics. If BTHX 5000 is selected, take Gender and the Politics of Health.
BTHX 5000 - Topics in Bioethics (1.0 - 4.0 cr)
BTHX 8510 - Gender and the Politics of Health (3.0 cr)
GWSS 5104 - Transnational Feminist Theory (3.0 cr)
GWSS 5290 - Topics: Biology, Health, and Environmental Studies (3.0 cr)
LAW 6036 - Reproductive Rights (3.0 cr)
LAW 6046 - Human Trafficking (2.0 cr)
LAW 6645 - Gender Theory and the Law (2.0 cr)
LAW 6827 - Women's International Human Rights (2.0 cr)
LAW 6862 - Sexual Orientation, Gender Identity, and Human Rights (2.0 cr)
LAW 6896 - International Human Rights Law (3.0 cr)
OLPD 5107 - Gender, Education, and International Development (3.0 cr)
PA 5426 - Community-Engaged Research and Policy with Marginalized Groups (3.0 cr)
PA 5522 - International Development Policy, Families, and Health (3.0 cr)
PA 5561 - Gender and International Development (3.0 cr)
PA 5622 - GAINS: Gender and Intersectional Network Series, Leadership Workshop I (0.5 - 1.0 cr)
PA 5623 - GAINS: Gender and Intersectional Network Series, Leadership Workshop II (0.5 - 1.0 cr)
PA 5631 - LGBTQ Politics & Policy (1.5 cr)
PA 5683 - Gender, Race and Political Representation (3.0 cr)
PA 5690 - Topics in Women, Gender and Public Policy (0.5 - 3.0 cr)
PA 5890 - Topics in Foreign Policy and International Affairs (0.5 - 5.0 cr)
POL 8360 - Topics in American Politics (3.0 cr)
PUBH 6630 - Foundations of Maternal and Child Health Leadership (3.0 cr)
SOC 8221 - Sociology of Gender (3.0 cr)

-OR-

Global Public Policy (9 credits)
Select courses from the following in consultation with the advisor.
GLOSS 5403 - Human Rights Advocacy (3.0 cr)
LAW 6071 - International Law (3.0 cr)
LAW 6886 - International Human Rights Law (3.0 cr)
PA 5151 - Organizational Perspectives on Global Development & Humanitarian Assistance (3.0 cr)
PA 5301 - Population Methods & Issues for the United States & Global South (3.0 cr)
PA 5501 - Theories and Policies of Development (3.0 cr)
PA 5503 - Economics of Development (3.0 cr)
PA 5521 - Development Planning and Policy Analysis (4.0 cr)

Contact Information:
Student Services, Hubert H. Humphrey School of Public Affairs, University of Minnesota, 301 19th Avenue South, Minneapolis, MN 55455 (612-624-3800; fax: 612-626-0002)
Email: hhhadmit@umn.edu
Website: http://www.hhh.umn.edu

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 9
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The public policy curriculum is built upon a core of required theoretical and methodological courses. In coursework, students study policy analysis or management or focus on a substantive area of public policy. Substantive areas include advanced policy analysis methods; economic and community development; global public policy; human rights; politics and governance; public and nonprofit leadership and management; public finance and budgeting; science, technology, and environmental policy; social policy; and gender and public policy. Students have multiple opportunities to apply the concepts learned to real-life policy problems.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Public Policy director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Specific coursework for the minor is chosen in consultation with the student's minor advisor or the Public Policy director of graduate studies.

A minimum grade of B must be earned for courses taken on the A-F grading basis. Up to 3 credits may be taken S/N.

The minimum cumulative GPA for minor field coursework is 2.8.

Required Coursework (9 to 12 credits)
Masters students select 9 credits, and doctoral students select 12 credits from the following. Approval of the Public Policy director of graduate studies is required. Other courses can be selected with approval of the Public Policy director of graduate studies.

- PA 5002 - Introduction to Policy Analysis (1.5 cr)
- PA 5003 - Introduction to Financial Analysis and Management (1.5 cr)
- PA 5011 - Management of Organizations (3.0 cr)
- PA 5012 - The Politics of Public Affairs (3.0 cr)
- PA 5021 - Microeconomics for Policy Analysis (3.0 cr)
- PA 5405 - Public Policy Implementation (3.0 cr)
- PA 5413 - Early Childhood and Public Policy (1.5 - 3.0 cr)
PA 5601 - Global Survey of Gender and Public Policy (3.0 cr)
PA 5801 - Global Public Policy (3.0 cr)
PA 5813 - US Foreign Policy: Issues and Institutions (3.0 cr)
PA 5826 - National Security Policy (3.0 cr)
PA 8302 - Applied Policy Analysis (4.0 cr)
PA 8312 - Analysis of Discrimination (4.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Twin Cities Campus
Science, Technology, and Environmental Policy M.S.

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 36 to 39
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Master of Science in Science, Technology, and Environmental Policy (MSSTEP) at the Humphrey School is one of the few programs in the nation that prepares individuals with backgrounds in natural sciences, physical sciences, or engineering to become leaders and innovators who integrate science with policy and action to solve grand challenges.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A four-year bachelor's degree from an accredited US university or foreign equivalent at time of enrollment.

Other requirements to be completed before admission:
A strong liberal arts education background to include sound quantitative and analytical skills or advanced-level coursework in natural or engineering sciences preferred.

Special Application Requirements:
A complete application will include a University of Minnesota application, a personal statement, a diversity statement, an impact statement, a resume or C.V., transcripts, GRE scores, TOEFL scores (if applicable), and at least 3 letters of recommendation.

For M.S.-STEP applicants applying for the Fall 2023 cohort, GRE scores are not required. We request that applicants not submit them as they will not be weighed as part of the admissions process.

Applicants must submit their test score(s) from the following:
• GRE

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
• IELTS
  - Total Score: 7

Key to test abbreviations (GRE, TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements

Plan A: Plan A requires 29 major credits, 0 credits outside the major, and 10 thesis credits. The final exam is oral.

Plan C: Plan C requires 36 major credits and up to null credits outside the major. There is no final exam.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.80 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.

Required coursework offered on both the A-F and S/N grade basis must be taken A-F.

Science, Technology, and Environmental Policy Courses (4.5 credits)
Take the following courses:
- PA 5711 - Science, Technology & Environmental Policy (3.0 cr)
- PA 5715 - Deliberating Science, Technology, and Environmental Policy (1.5 cr)

Sustainability Systems Science Courses (7.5 credits)
Take the following courses:
- PA 5722 - Economics of Environmental Policy (3.0 cr)
- PA 5741 - Risk, Resilience and Decision Making (1.5 cr)

Select 1 of the following courses in consultation with the advisor:
- PA 5752 (Inactive) (3.0 cr)
- PA 5761 - Environmental Systems Analysis at the Food-Energy-Water Nexus (3.0 cr)

Social and Policy Processes Courses (4.5 credits)
Take the following courses:
- PA 5002 - Introduction to Policy Analysis (1.5 cr)
- PA 5012 - The Politics of Public Affairs (3.0 cr)

Foundational Methods
Statistics Course (4 credits)
Select 1 of the following courses in consultation with the advisor:
- PA 5031 - Statistics for Public Affairs (4.0 cr)
- PA 5045 - Statistics for Public Affairs, Accelerated (4.0 cr)

Methods Courses (6 credits)
Select at least one of the following courses in consultation with the advisor. PA 5041 can be taken with PA 5032 or PA 5044 with advisor approval.
- PA 5032 - Applied Regression (2.0 cr)
- PA 5041 - Qualitative Methods for Policy Analysts (4.0 cr)
- PA 5044 - Applied Regression, Accelerated (2.0 cr)

Select credits in consultation with the advisor to complete the 6-credit methods requirement:
- PA 5033 - Multivariate Techniques (2.0 cr)
- PA 5043 - Economic and Demographic Data Analysis (2.0 cr)
- PA 5271 - Geographic Information Systems: Applications in Planning and Policy Analysis (3.0 cr)
- PA 5311 - Program Evaluation (3.0 cr)
- PA 5521 - Development Planning and Policy Analysis (4.0 cr)
- PA 5928 - Data Management and Visualization with R (1.0 cr)
- PA 5929 - Data Visualization: Telling Stories with Numbers (2.0 cr)
- PA 5932 - Working with Data: Finding, Managing, and Using Data (1.5 cr)
- PA 5933 - Survey Methods: Designing Effective Questionnaires (2.0 cr)

Focus Area (3 credits)
Select 1 of the following courses in consultation with the advisor.
- PA 5245 - Environmental Justice in Urban Planning & Public Policy (3.0 cr)
- PA 5721 - Energy Systems and Policy (3.0 cr)
- PA 5723 - Water Policy (3.0 cr)
- PA 5724 - Climate Change Policy (3.0 cr)
- PA 5731 - Emerging Sciences and Technologies: Policy, Ethics and Law (3.0 cr)
- PA 5751 - Addressing Climate and Energy Challenges at the Local Scale (3.0 cr)
Electives
Select electives in consultation with the advisor to meet the minimum credit requirement.

Plan Options

Plan A
Thesis Credits
Take 10 master's thesis credits.
PA 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

-OR-

Plan C
Select 1 of the following in consultation with the advisor. PA 8921, if selected, must be for 3 credits. Students who choose PA 8081: Capstone Workshop will take PA 5080: Capstone Preparation Workshop in the preceding semester.
PA 8081 - Capstone Workshop (3.0 cr)
PA 8082 - Professional Paper-Writing Seminar (3.0 cr)
PA 8921 - Master's: Professional Paper (Individual Option) (1.0 - 3.0 cr)

Joint- or Dual-degree Coursework: MS-STEP/JD (Joint Degree Program in Law, Health, and the Life Sciences) Student may take a total of 24 credits in common among the academic programs.
Science, Technology, and Environmental Policy Minor
HHH Administration
Hubert H. Humphrey School of Public Affairs

Contact Information:
Student Services, Hubert H. Humphrey School of Public Affairs, University of Minnesota, 301 19th Avenue South, Minneapolis, MN 55455 (612-624-3800; fax: 612-626-0002)

Program Type: Graduate minor related to major
Requirements for this program are current for Fall 2022
Length of program in credits (Masters): 9
Length of program in credits (Doctorate): 12
This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The graduate minor in Science, Technology, and Environmental Policy (STEP) provides students with the skills and knowledge to study public issues arising at the intersection of science, technology, environment, and society that shape economic development, environmental sustainability, human health, and wellbeing. Students choose from the following focus areas: energy and environmental policy; water policy; climate change policy; emerging technologies and society; urban infrastructure systems; or urban agriculture and food systems policy.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the STEP director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Up to 3 credits may be taken S/N. All other courses must be completed with grades of B or better.

Minor field coursework is chosen in consultation with the STEP advisor/director of graduate studies.

Required Course (3 credits)
Take the following course on the A-F grading basis:
PA 5711 - Science, Technology & Environmental Policy (3.0 cr)

Environmental Systems Thinking (3 credits)
Select at least 3 credits from the following:
PA 5715 - Deliberating Science, Technology, and Environmental Policy (1.5 cr)
PA 5722 - Economics of Environmental Policy (3.0 cr)
PA 5741 - Risk, Resilience and Decision Making (1.5 cr)
PA 5752 [Inactive](3.0 cr)
or PA 5761 - Environmental Systems Analysis at the Food-Energy-Water Nexus (3.0 cr)
Focus Area (3 credits)
Select at least 3 credits from the following:
PA 5243 - Environmental Justice in Urban Planning & Public Policy (3.0 cr)
PA 5721 - Energy Systems and Policy (3.0 cr)
PA 5723 - Water Policy (3.0 cr)
PA 5724 - Climate Change Policy (3.0 cr)
PA 5731 - Emerging Sciences and Technologies: Policy, Ethics and Law (3.0 cr)
PA 5751 - Addressing Climate and Energy Challenges at the Local Scale (3.0 cr)
PA 5790 - Topics in Science, Technology, and Environmental Policy (1.0 - 3.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

Doctoral
**Twin Cities Campus**

**Urban and Regional Planning M.U.R.P.**

**HHH Administration**

**Hubert H. Humphrey School of Public Affairs**

Link to a list of faculty for this program.

**Contact Information:**

Student Services, Hubert H. Humphrey School of Public Affairs, University of Minnesota, 301 19th Avenue South, Minneapolis, MN 55455 (612-624-3800; fax 612-626-0002)

Email: hhhadmit@umn.edu

Website: [http://www.hhh.umn.edu](http://www.hhh.umn.edu)

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 48
- This program does not require summer semesters for timely completion.
- Degree: Master of Urban and Regional Planning

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Urban and Regional Planning masters degree (MURP) is an interdisciplinary program that prepares students to analyze, forecast, design, and implement plans for regions, communities, and neighborhoods. Students develop a comprehensive understanding of the built environment (land use, transportation, housing, regional economies) and the ability to mediate among competing interests. The degree prepares individuals for jobs in public, nonprofit, and private sectors.

**Program Delivery**

This program is available:
- via classroom (the majority of instruction is face-to-face)

**Prerequisites for Admission**

A four-year bachelor's degree from an accredited US university or foreign equivalent at time of enrollment.

Other requirements to be completed before admission:

A strong liberal education background, and sound quantitative and analytical skills are preferred.

Previous coursework in mathematics, statistics, and economics is recommended. Applicants needing to strengthen this part of their skill prior set prior to admission may wish to take introductory microeconomics, college algebra, and/or introductory statistics courses.

**Special Application Requirements:**

A complete application will include a University of Minnesota application, personal statement, resume or C.V., transcripts, GRE scores, TOEFL scores (if applicable), at least three letters of recommendation, and an optional diversity statement.

FOR FALL 2023 APPLICANTS ONLY: For M.U.R.P. applicants applying for the Fall 2023 cohort, GRE scores are not required. We request that applicants not submit them as they will not be weighed as part of the admissions process.

Applicants must submit their test score(s) from the following:
- GRE

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7

Key to test abbreviations (GRE, TOEFL, IELTS).
For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

**Plan A:** Plan A requires 38 major credits, 0 credits outside the major, and 10 thesis credits. The final exam is oral.

**Plan C:** Plan C requires 48 major credits and up to null credits outside the major. The final exam is oral.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.80 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.

A 200-hour professional internship, in addition to coursework, is required. Internship options, identified through consultation with the Humphrey Schools Career and Professional Development Office, are usually completed during the summer after the second semester of the MURP program.

Students must demonstrate proficiency in the use and application of GIS or take a graduate-level GIS course as part of the 48-credit requirement.

Required coursework offered on both the A-F and S/N grade basis must be taken A-F.

The program is designed for and primarily serves full-time students.

### Required Core Coursework (24.5 credits)

Take the following courses - PA 8081 can be only taken once for 3 credits:
- **PA 5004** - Introduction to Planning (3.0 cr)
- **PA 5013** - Law and Urban Land Use (1.5 cr)
- **PA 5042** - Urban and Regional Economics (2.0 cr)
- **PA 5043** - Economic and Demographic Data Analysis (2.0 cr)
- **PA 5145** - Civic Participation in Public Affairs (3.0 cr)
- **PA 5205** - Statistics for Planning (4.0 cr)
- **PA 5206** - The City of White Supremacy (3.0 cr)
- **PA 5211** - Land Use Planning (3.0 cr)
- **PA 8081** - Capstone Workshop (3.0 cr)

### Electives

Select from the following, in consultation with the advisor, to meet the minimum number of course credits required for the Plan A (38 credits) or the Plan C (48 credits):
- **AGRO 5321** - Ecology of Agricultural Systems (3.0 cr)
- **ARCH 8561** - Sustainable Design Theory and Practice (3.0 cr)
- **ARCH 8567** - Site and Water Issues in Sustainable Design (3.0 cr)
- **ESCI 5102** - Climate Change and Human History (3.0 cr)
- **ESPM 5014** - Tribal and Indigenous Natural Resource Management (3.0 cr)
- **ESPM 5061** - Water Quality and Natural Resources (3.0 cr)
- **ESPM 5108** - Ecology of Managed Systems (4.0 cr)
- **ESPM 5202** - Environmental Conflict Management, Leadership, and Planning (3.0 cr)
- **ESPM 5245** - Sustainable Land Use Planning and Policy (3.0 cr)
- **ESPM 5251** - Natural Resources in Sustainable International Development (3.0 cr)
- **ESPM 5295** - GIS in Environmental Science and Management (4.0 cr)
- **ESPM 5603** - Environmental Life Cycle Analysis (3.0 cr)
- **ESPM 5604** - Environmental Management Systems and Strategy (3.0 cr)
- **FNRM 5313** - Geographical Information Systems (GIS) for Natural Resources (4.0 cr)
- **FNRM 5294** - Landscape Ecology and Management (3.0 cr)
- **FNRM 5501** - Urban Forest Management: Managing Greenspaces for People (3.0 cr)
- **GCC 5008** - Policy and Science of Global Environmental Change [ENV] (3.0 cr)
- **GCC 5011** - Pathways to Renewable Energy [TS] (3.0 cr)
- **GCC 5013** - Making Sense of Climate Change - Science, Art, and Agency [CIV] (3.0 cr)
- **GCC 5017** - World Food Problems: Agronomics, Economics and Hunger [GP] (3.0 cr)
GCC 5027 - Power Systems Journey: Making the Invisible Visible and Actionable [TS] (3.0 cr)
GCC 5031 - The Global Climate Challenge: Creating an Empowered Movement for Change [CIV] (3.0 cr)
GCC 5032 - Ecosystems Health: Leadership at the intersection of humans, animals and the environment [ENV] (3.0 cr)
GEOG 5401W - Geography of Environmental Systems and Global Change [ENV, WI] (3.0 cr)
HSCT 5244 - Nature's History: Science, Humans, and the Environment (3.0 cr)
LA 5003 - Climate Change Adaptation (3.0 cr)
LA 5004 - Regional Environmental Landscape Planning (4.0 cr)
LA 5204 - Metropolitan Landscape Ecology (3.0 cr)
LAW 5062 - Energy Law (3.0 cr)
LAW 6215 - Environmental Law (3.0 cr)
LAW 6234 - Public Lands and Natural Resources (3.0 cr)
PA 5113 - State and Local Public Finance (3.0 cr)
PA 5212 - Managing Urban Growth and Change (3.0 cr)
PA 5213 - Introduction to Site Planning (3.0 cr)
PA 5221 - Private Sector Development (3.0 cr)
PA 5242 - Environmental Planning, Policy, and Decision Making (3.0 cr)
PA 5261 - Housing Policy (3.0 cr)
PA 5262 - Neighborhood Revitalization Theories and Strategies (3.0 cr)
PA 5271 - Geographic Information Systems: Applications in Planning and Policy Analysis (3.0 cr)
PA 5880 - Exploring Global Cities (1.0 - 3.0 cr)
PUBH 6116 - Environmental Law (1.0 cr)
PUBH 6132 - Air, Water, and Health (2.0 cr)
PUBH 6154 - Climate Change and Global Health (3.0 cr)

Plan A Thesis Credits
Plan A students take 10 master's thesis credits.
PA 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

Concentrations
All students select 1 of the following concentrations in consultation with the advisor. The concentration must comprise 6 course credits for Plan A students, or 12 course credits for Plan C students.

Environmental Planning (6 to 12 credits)
Required Course (3 credits)
Take the following course:
PA 5242 - Environmental Planning, Policy, and Decision Making (3.0 cr)

Additional Coursework (3 to 9 credits)
Plan A students select 3 credits, and Plan C students select 9 credits from the following in consultation with the advisor. Students may select other courses, subject to advisor approval.
AGRO 5321 - Ecology of Agricultural Systems (3.0 cr)
ARCH 8561 - Sustainable Design Theory and Practice (3.0 cr)
ARCH 8567 - Site and Water Issues in Sustainable Design (3.0 cr)
ESCI 5102 - Climate Change and Human History (3.0 cr)
ESPM 5014 - Tribal and Indigenous Natural Resource Management (3.0 cr)
ESPM 5061 - Water Quality and Natural Resources (3.0 cr)
ESPM 5108 - Ecology of Managed Systems (4.0 cr)
ESPM 5202 - Environmental Conflict Management, Leadership, and Planning (3.0 cr)
ESPM 5241 - Natural Resource and Environmental Policy (3.0 cr)
ESPM 5245 - Sustainable Land Use Planning and Policy (3.0 cr)
ESPM 5251 - Natural Resources in Sustainable International Development (3.0 cr)
ESPM 5295 - GIS in Environmental Science and Management (4.0 cr)
ESPM 5603 - Environmental Life Cycle Analysis (3.0 cr)
ESPM 5604 - Environmental Management Systems and Strategy (3.0 cr)
FNRM 5131 - Geographical Information Systems (GIS) for Natural Resources (4.0 cr)
FNRM 5204 - Landscape Ecology and Management (3.0 cr)
FNRM 5501 - Urban Forest Management: Managing Greenspaces for People (3.0 cr)
GCC 5008 - Policy and Science of Global Environmental Change [ENV] (3.0 cr)
GCC 5011 - Pathways to Renewable Energy [TS] (3.0 cr)
GCC 5013 - Making Sense of Climate Change - Science, Art, and Agency [CIV] (3.0 cr)
GCC 5017 - World Food Problems: Agronomics, Economics and Hunger [GP] (3.0 cr)
GCC 5027 - Power Systems Journey: Making the Invisible Visible and Actionable [TS] (3.0 cr)
GCC 5031 - The Global Climate Challenge: Creating an Empowered Movement for Change [CIV] (3.0 cr)

Planners bring together knowledge and expertise from many diverse disciplines to shape neighborhoods, cities, and regions. The Urban and Regional Planning minor helps students to think across those fields of expertise and act upon links among environmental systems, infrastructure development, and housing and community development. The minor teaches technical and analytical skills needed to think strategically about developing and implementing plans at the neighborhood, city, and regional level.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Urban and Regional Planning director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

No more than 3 credits may be taken S/N. All other courses must be completed with grades of B or higher.

The minimum cumulative GPA for minor field coursework is 3.00.

Core Course (3 credits)
Take the following course:
PA 5004 - Introduction to Planning (3.0 cr)

Additional Course (3 credits)
Select a course from the following in consultation with the Urban and Regional Planning director of graduate studies:
PA 5211 - Land Use Planning (3.0 cr)
PA 5234 - Urban Transportation Planning and Policy (3.0 cr)
PA 5242 - Environmental Planning, Policy, and Decision Making (3.0 cr)
PA 5261 - Housing Policy (3.0 cr)
PA 5262 - Neighborhood Revitalization Theories and Strategies (3.0 cr)

Electives (3 to 6 credits)

Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Twin Cities Campus
Juridical Science S.J.D.
Law School

Link to a list of faculty for this program.

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 48
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Juridical Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The SJD program at the University of Minnesota Law School is intended for those who wish to carry on advanced legal study and original research under faculty supervision. SJD students must present research which makes a significant, original contribution of long-term value to legal scholarship. The dissertation must be of publishable quality and provide lawyers, scholars, or governmental officials with a useful understanding, not previously available, of a particular area of the law.

Accreditation
This program is accredited by acquiescence of the American Bar Association.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Applicants must have completed the first degree in law AND must have completed (or are in the process of completing) a US LLM degree at the University of Minnesota or other ABA accredited institution.

Special Application Requirements:
1) Submission of a preliminary dissertation proposal demonstrating that the dissertation will constitute an original and substantial contribution, of publishable quality, to legal scholarship, in a research field in which the Law School has experienced faculty available for advising, and 2) Submission of an extensive, high quality writing sample written in English to demonstrate the ability to engage in advanced research and writing.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 80
- IELTS
  - Total Score: 65

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
24 credits are required in the major.
24 thesis credits are required.

This program may not be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.
At least 2 semesters must be completed before filing a Degree Program Form.

**Coursework Requirements**

**Legal Research**
- Take one of the following courses, or another research course approved by your faculty adviser or the director of graduate studies.
  - LAW 6851 - Practice-Ready Legal Research (2.0 cr)
  - or LAW 6867 - Practice-Ready International Legal Research (2.0 cr)

**Elective Courses**
- The remaining 22 credits are determined through consultation with your faculty advisor or the director of graduate studies.

**Thesis Credit Requirement**
- 24 Thesis Credits

Law Minor

Law School

Link to a list of faculty for this program.

Contact Information:
Law School, Walter F. Mondale Hall, 229 19th Avenue South, Minneapolis, MN 55406 (612-625-1000; fax: 612-625-2011)
Email: lawcurr@umn.edu
Website: https://law.umn.edu/academics/degree-programs/graduate-students

- Program Type: Graduate free-standing minor
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The law minor is available to both master's and doctoral students and is individually tailored to their academic interests.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Other requirements to be completed before admission:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Law director of graduate studies regarding feasibility and requirements. Requirements may include pre-approval to register for specific courses. Contact the Law Schools Curriculum Office at lawcurr@umn.edu for more information.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Masters
Required Courses (6 credits)
Select at least 6 credits from the following, in consultation with the law minor's director of graduate studies.
LAW 5xxx
LAW 6xxx

Doctoral
Required Courses (12 credits)
Select at least 12 credits from the following, in consultation with the law minor's director of graduate studies.
LAW 5xxx
LAW 6xxx
Master of Science Patent Law

Law School

Minneapolis, MN 55455
Email: patlaw@umn.edu
Website: https://www.law.umn.edu/academics/degree-programs/mspl-program

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30
- This program does not require summer semesters for timely completion.
- Degree: Master of Science Patent Law

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Master of Science in Patent Law is a professional master's degree for scientists and engineers interested in pursuing a career in the growing field of patent law. The program requirements may be completed in one year of full-time study or in two years (with an optional third year) on a part-time basis. This program is offered through the University of Minnesota Law School. Students in this program will learn practical patent drafting, patent research, portfolio management, and innovation skills. Many courses in this program will be taken jointly with JD students.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Applicants with a degree in Science or Engineering are preferred.

Other requirements to be completed before admission:
GRE and LSAT scores are accepted but not required.

Special Application Requirements:
Personal statement, resume, letters of recommendation, interview, patent bar eligibility assessment.

International applicants must submit score(s) from one of the following tests:
• TOEFL
• IELTS

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Plan C: Plan C requires 30 major credits and 0 credits outside the major. There is no final exam. A capstone project is required.
Capstone Project: Patent Law CAPSTONE: Innovation (3 credits): Students select a technology of interest with the cooperation of their adviser. Using their knowledge of innovation, patent law, patent prosecution, patent research and strategy they will identify, articulate and present opportunities for innovation in their chosen technology.

This program may not be completed with a minor.
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.8 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.

**Patent Law: Core Curriculum**

Take 20 credits of core coursework and the 3-credit capstone course for a total of 23 credits.

- LAW 5001 - Introduction to the American Legal System (2.0 cr)
- LAW 5002 - MSPL Legal Research and Writing (1.0 cr)
- LAW 5025 - Patent Law In Practice (1.0 cr)
- LAW 5026 - Intellectual Property In Practice (1.0 cr)
- LAW 5075 - Ethics for Patent Agents (1.0 cr)
- LAW 5244 - Patents (3.0 cr)
- LAW 5231 - Patent Prosecution Practice I (2.0 cr)
- LAW 5232 - Patent Prosecution Practice II (3.0 cr)
- LAW 5243 - Patent Research and Writing (2.0 cr)
- LAW 5250 - Patent Portfolio Management (2.0 cr)
- LAW 5707 - Intellectual Property Transactions (2.0 cr)

**Capstone Course**

Students are required to take the 3 credit capstone course.

- LAW 5290 - Patent Law Capstone: Innovation (3.0 cr)

**Electives (7 credits)**

Take at least 7 elective credits in consultation with the program director. Coursework can be from the following list or selected with approval from the program director.

- LAW 5062 - Energy Law (3.0 cr)
- LAW 5076 - Essentials of Business for Lawyers (3.0 cr)
- LAW 5103 - Data Privacy Law (3.0 cr)
- LAW 5127 - Patent Drafting and Oral Advocacy Competition Team (1.0 cr)
- LAW 5608 - Trademarks (3.0 cr)
- LAW 5613 - Copyright (3.0 cr)
- LAW 5629 - Patent Field Placement (1.0 - 3.0 cr)
- LAW 5836 - Trade Secret Law (2.0 cr)
- LAW 5908 - Independent Research and Writing (1.0 - 2.0 cr)
- LAW 5909 - Independent Field Placement (1.0 - 3.0 cr)
- LAW 6133 - Data Compliance Practicum (1.0 cr)
- LAW 6225 - Winning Patent Litigation (2.0 cr)
- LAW 6241 - Patent Remedies (1.0 cr)
- LAW 6402 - Food and Drug Law (3.0 cr)
- LAW 6605 - Health Law (3.0 cr)
- LAW 6609 - International Intellectual Property (3.0 cr)
- LAW 6610 - Unfair Competition (2.0 cr)
- LAW 6622 - International Business Operation and Negotiation (3.0 cr)
- LAW 6709 - Agriculture and the Environment (2.0 cr)
- LAW 6832 - Cybercrime and Cybersecurity (2.0 cr)
- LAW 6853 - Law, Biomedicine and Bioethics (3.0 cr)
- LAW 6876 - Digital Evidence (2.0 cr)
- LAW 6949 - Biotechnology & Patent Law (2.0 cr)

Integrative Biology and Physiology M.S.

Integrative Biology and Physiology
Medical School

Link to a list of faculty for this program.

Contact Information:
Department of Integrative Biology and Physiology, Jackson Hall 6-125, 321 Church Street S.E., Minneapolis, MN 55455 (612-625-5644)
Email: ibpdept@umn.edu

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30
- This program requires summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Note: The Integrative Biology and Physiology graduate program does not routinely accept applications directly to the MS; rather, the MS Plan A and Plan B are an additional or alternative credential for students admitted to the Integrative Biology and Physiology PhD program.

The Twin Cities graduate program has a cardiovascular emphasis, although other areas of specialization are represented.

The program includes faculty and corresponding research laboratories from the Department of Integrative Biology and Physiology and also the Departments of Medicine; Surgery; Neuroscience; Neurosurgery; Biochemistry, Molecular Biology, and Biophysics; Pharmacology; Physical Medicine and Rehabilitation; Kinesiology; and Animal Science.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A four-year degree in a basic science discipline is required for admission.

Other requirements to be completed before admission:
Admission to the IBP Masters program requires a four-year degree in a basic science discipline.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Internet Based - Listening Score: 25
  - Internet Based - Writing Score: 25
  - Internet Based - Reading Score: 25
  - Internet Based - Speaking Score: 25
- IELTS
  - Total Score: 7
  - Listening Score: 7
  - Reading Score: 7
  - Writing Score: 7
  - Speaking Score: 7

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements

Plan A: Plan A requires 20 major credits, 0 credits outside the major, and 10 thesis credits. The final exam is written and oral.

Plan B: Plan B requires 30 major credits and 0 credits outside the major. The final exam is written and oral. A capstone project is required.

Capstone Project: The Plan B project, completed under the direction of an IBP faculty member, focuses on an aspect of Physiology.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 2.80 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

Required Coursework (20 credits)
Plan A and Plan B students take section 002 of PHSL 5061. Take PHSL 8294 at least twice for 2 credits (total 4 credits) PHSL 8242 is offered every other summer. Take PHSL 5096 (seminar) 4 times.

- ANSC 5702 - Cell Physiology (4.0 cr)
- PHSL 5061 - Principles of Physiology for Biomedical Engineering (4.0 cr)
- PHSL 5096 - Integrative Biology and Physiology Research Advances (1.0 cr)
- PHSL 8232 - Critical Reading of Journal Articles in Physiology (2.0 cr)
- PHSL 8242 - Professional Skills Development for Biomedical Scientists (2.0 cr)
- PHSL 8294 - Research in Physiology (1.0 - 18.0 cr)

Plan Options

Plan A Thesis Credits
Take at least 10 master's thesis credits.

PHSL 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

-OR-

Plan B Coursework

Required Physiology Coursework (6 credits)
Plan B students need to take two of the four courses during Spring semester of year one. If PHSL 5197 is take, choose 3 credit option.

- PHSL 5197 - Stress Physiology (1.0 - 3.0 cr)
- PHSL 5211 - Physiology of Inflammation in Disease (3.0 cr)
- PHSL 5221 - Systems and Computational Physiology (3.0 cr)
- PHSL 5444 - Muscle (3.0 cr)

Biostatistics Requirement (4 credits)
Plan B students select 1 course from the following, in consultation with the director of graduate studies.

- PUBH 6450 - Biostatistics I (4.0 cr)
- or PUBH 6451 - Biostatistics II (4.0 cr)
- or STAT 5021 - Statistical Analysis (4.0 cr)
Twin Cities Campus

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 9
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Physiology may be defined as the application of mathematics, physics, and chemistry to the study of structure and function in living systems. As such, physiology is a "hybrid" field in which expertise from many other disciplines is ordinarily required and combined. The program emphasizes a quantitative approach to understanding the functions of cells, organs, and systems in living animals.

The graduate program in the Twin Cities has a cardiovascular emphasis, although many other areas of specialization are represented.

The program includes faculty and corresponding research laboratories from the Department of Integrative Biology and Physiology and also the Departments of Medicine; Surgery; Neuroscience; Neurosurgery; Biochemistry, Molecular Biology, and Biophysics; Pharmacology; Physical Medicine and Rehabilitation; Kinesiology; and Animal Science.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Other requirements to be completed before admission:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Integrative Biology and Physiology director of graduate studies regarding feasibility and requirements.

For the minor, a background in mathematics, physics, chemistry, and biology acceptable to the graduate faculty is required.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Students must complete the minor with a 3.00 GPA. All coursework must be taken A-F.

Coursework
Select coursework in consultation with the IBP director of graduate studies. Masters students must complete at least 9 credits; doctoral students complete at least 12 credits.
PHSL 4xxx
PHSL 5xxx
PHSL 8xxx
Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Masters

Doctoral
Twin Cities Campus

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 56
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Physiology may be defined as the application of mathematics, physics, and chemistry to the study of structure and function in living systems. As such, physiology is a “hybrid” field in which expertise from many other disciplines is ordinarily required and combined.

The program emphasizes a quantitative approach to understanding the functions of cells, organs, and systems in living animals. PhD students take a core concentration that provides a broad background in the physiology of membranes, cells, transport, and organ systems. Individualized programs are structured to build on the student's strengths and to fill in gaps that would otherwise be an impediment to specific problem solving. Teaching experience is also available to all students.

The graduate program in the Twin Cities has cardiovascular, hypertension and metabolism emphases, although many other areas of specialization are represented.

Students can enter the PhD program from the Twin Cities or Duluth campus. Highly qualified individuals with solid quantitative backgrounds are encouraged to apply. In the Twin Cities, prospective students also include people with previous medical training who are already at the University of Minnesota or are considering the University of Minnesota Medical School for residency or fellowship training.

Entering PhD students are expected to take a series of laboratory rotations to familiarize themselves with active areas of research within the degree program. The program includes faculty and corresponding research laboratories from the Department of Integrative Biology and Physiology and also the Departments of Medicine; Surgery; Neuroscience; Neurosurgery; Biochemistry, Molecular Biology, and Biophysics; Pharmacology; Physical Medicine and Rehabilitation; Kinesiology; and Animal Science.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Other requirements to be completed before admission:
An undergraduate degree with at least one year (three quarters or two semesters) of calculus, one year of physics, one year of biology, and two years of chemistry is required. For the minor, a background in mathematics, physics, chemistry and biology acceptable to the graduate faculty is required.

Special Application Requirements:
There are no minimum GPA or GRE score requirements. All applicants need three letters of recommendation. Admission to the program begins in the Fall semester.

International applicants must submit score(s) from one of the following tests:

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 100
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Paper Based - Total Score: 625
• IELTS
  - Total Score: 7

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
32 credits are required in the major.
0 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 3 semesters must be completed before filing a Degree Program Form.

During the first year, students rotate through three to four laboratories, attend weekly seminars, choose an advisor, and begin a research project.

All coursework must be taken A-F and with an earned grade of B or higher unless offered S/N only.

Required Coursework (19 credits)
Take the following courses in consultation with the advisor. 2 credits of PHSL 5701; and 2 credits of PHSL 8294, on an S/N grade basis, at least twice for 4 credits. Take PHSL 5061, section 002.

ANSC 5702 - Cell Physiology (4.0 cr)
BIOC 8401 - Ethics, Public Policy, and Careers in Molecular and Cellular Biology (1.0 cr)
PHSL 5061 - Principles of Physiology for Biomedical Engineering (4.0 cr)
PHSL 5701 - Physiology Laboratory (1.0 - 2.0 cr)
PHSL 8232 - Critical Reading of Journal Articles in Physiology (2.0 cr)
PHSL 8242 - Professional Skills Development for Biomedical Scientists (2.0 cr)
PHSL 8294 - Research in Physiology (1.0 - 18.0 cr)

PhD Seminar (4 credits)
Take PHSL 5096 at least 4 times for a total of 4 credits.
PHSL 5096 - Integrative Biology and Physiology Research Advances (1.0 cr)

Required Physiology Coursework (6 credits)
Students need take two of the four courses during Spring semester of year one. If PHSL 5197 is taken, choose 3 credits option.
Take 2 or more course(s) totaling 6 or more credit(s) from the following:
  •PHSL 5197 - Stress Physiology (1.0 - 3.0 cr)
  •PHSL 5211 - Physiology of Inflammation in Disease (3.0 cr)
  •PHSL 5221 - Systems and Computational Physiology (3.0 cr)
  •PHSL 5444 - Muscle (3.0 cr)

Biostatistics Coursework (3 credits)
Select at least 3 credits from the following, in consultation with the advisor.
PUBH 6414 - Biostatistical Literacy (3.0 cr)
PUBH 6450 - Biostatistics I (4.0 cr)
PUBH 6451 - Biostatistics II (4.0 cr)
STAT 5021 - Statistical Analysis (4.0 cr)

Thesis Credits (24 credits)
Take 24 credits of doctoral thesis credits.
PHSL 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)
Twin Cities Campus
Medical Physics M.S.
Radiation Oncology Administration, Radiology
Medical School

phone: 612-626-6505; fax: 612-626-7060)
Email: alaei001@umn.edu
Website: https://www.radiationoncology.umn.edu/medical-physics-graduate-program

• Program Type: Master's
• Requirements for this program are current for Fall 2022
• Length of program in credits: 30
• This program does not require summer semesters for timely completion.
• no
• Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The program is made up of faculty members with primary appointments in the departments of radiation oncology and radiology. Affiliate faculty have primary appointments in other departments. The goal of the program is to prepare students (1) for further education, teaching, and research in medical physics, (2) to qualify to enter a medical physics residency program in radiation therapy or imaging, and (3) to provide the mathematical and technical knowledge needed to succeed in the field of medical physics.

Accreditation
This program is accredited by Commission on Accreditation of Medical Physics Education Programs, Inc. (CAMPEP)

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A degree in physics or engineering or other physical science. Equivalent of an undergraduate physics minor—at least 2 semesters of calculus based physics and at least 3 upper level physics courses.

Other requirements to be completed before admission:
All students should have some familiarity with physical chemistry, intermediate physics, intermediate mathematics, biostatistics, computer programming, biology, physiology, and biochemistry. This may be demonstrated by coursework completed at the undergraduate level or as part of the graduate program; by reading or practical experience; or by informal competency examinations.

Special Application Requirements:
Three letters of recommendation and the general GRE test are required. If the GRE was taken more than two years prior to application, the applicant may need to retake the examination. We have no absolute GRE cutoff score, but the score is taken into consideration along with other factors in the evaluation of each application. Applicants with a graduate degree from a US institution are waived the GRE requirement. Applicants are considered for admission in fall semester only.

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
• IELTS
Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan B: Plan B requires 30 major credits and 0 credits outside the major. The final exam is oral.

This program may not be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 2.8 is required for students to remain in good standing.

Required Courses (25 Credits)

Take all of the following courses. Take MPHY 5138 for 1 credit.

MPHY 5138 - Research Seminar (1.0 - 5.0 cr)
MPHY 5160 - Advanced Radiation Physics and Dosimetry (3.0 cr)
MPHY 5170 - Radiation Therapy Physics I (3.0 cr)
MPHY 5171 - Medical and Health Physics of Imaging I (3.0 cr)
MPHY 5172 - Radiation Biology (3.0 cr)
MPHY 5173 - Radiation Therapy Physics II (3.0 cr)
MPHY 5174 - Medical and Health Physics of Imaging II (3.0 cr)
PHAR 5201 - Applied Medical Terminology (2.0 cr)
PHSL 5061 - Principles of Physiology for Biomedical Engineering (4.0 cr)

Electives (5 Credits)

Take at least 5 elective credits, in consultation with the advisor, to complete the 30-credit requirement. MPHY 5139, once available, may also be used as an elective.

MPHY 5139 - Seminar and Journal Club (1.0 cr)
MPHY 5177 - Radiation Therapy Physics Lab: Radiation Physics Basics (3.0 cr)
MPHY 5178 - Physical Principles of Magnetic Resonance Imaging (3.0 cr)
MPHY 8147 - Advanced Physics of Magnetic Resonance Imaging (MRI) (3.0 cr)
MPHY 8148 - Advanced Digital Imaging Science (3.0 cr)
MPHY 8149 - Advanced Topics in Radiation Therapy Physics (2.0 cr)

• Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Note: Students are not admitted directly into the master's program; it is available only by special arrangement with the program.

Students prepare for careers in biomedical research and teaching by completing broad training in molecular biology or biological sciences, and focused specialization in one of three concentrations (microbiology, immunology, or cancer biology). The program offers exceptional research opportunities for graduate training in autoimmunity, biotechnology, cancer biology and therapy, environmental microbiology, genetic engineering of microorganisms, lymphocyte activation and development, microbial pathogenesis, molecular genetics of disease, tumor immunology, vaccine development, and vascular biology and inflammation.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Applicants must have a bachelor's degree (BS preferred).

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 96
  - Paper Based - Total Score: 600
• IELTS
  - Total Score: 7
• MELAB
  - Final score: 85

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Plan A: Plan A requires 24 major credits, up to null credits outside the major, and 10 thesis credits. The final exam is written and oral.

This program may not be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.
During the first year of study, students will identify an advisor through completing laboratory rotations, select a focus area, and initiate thesis research. Students also must complete an ethics seminar and responsible conduct of research course their first year in the program.

All coursework must be taken for an A-F grade and completed with a minimum grade of C, unless the course is only offered for an S/N grade.

No more than one 4xxx-level elective course can be applied to this degree.

**Core Coursework (4 credits)**
Take one of the following 4-credit core courses in consultation with the advisor. Although only one of the 3 courses is required, taking all 3 is strongly encouraged. If students take more than one of these courses, the additional course(s) will count towards the elective coursework requirement.

- MICA 8002 - Structure, Function, and Genetics of Bacteria and Viruses (4.0 cr)
- MICA 8003 - Immunity and Immunopathology (4.0 cr)
- MICA 8004 - Cellular and Cancer Biology (4.0 cr)

**Required Coursework (4 credits)**
Take both of the following courses. Take MICA 8094 twice (fall and spring semester of the first year) for 2 credits.

- MICA 8012 - Writing and Reviewing a Research Proposal (2.0 cr)
- MICA 8094 - Research in Microbiology, Immunology, and Cancer Biology (1.0 cr)

**Practicum and Seminar Coursework**
Take all of the following courses. Take MICA 8910 4 times; and MICA 8920 4 times.

- MICA 5000 - Practicum: Teaching (0.0 cr)
- MICA 8910 - Seminar: Faculty Research Topics (0.0 cr)
- MICA 8920 - Seminar: Student Research Topics (0.0 cr)

**Elective Coursework**
Select electives, in consultation with the advisor, to complete the 24 course credits required. Use of 4xxx- and 5xxx-level courses is restricted to either two 5-level courses or one 4- and one 5-level course.

- BIOC 4331 - Biochemistry I: Structure, Catalysis, and Metabolism in Biological Systems (4.0 cr)
- BIOC 5351 - Protein Engineering (3.0 cr)
- BIOC 5352 - Biotechnology and Bioengineering for Biochemists (3.0 cr)
- BIOC 5361 - Microbial Genomics and Bioinformatics (3.0 cr)
- BIOC 5960 - Biophysical Spectroscopy (2.0 cr)
- BIOC 8001 - Biochemistry: Structure, Catalysis, and Metabolism (3.0 cr)
- BIOC 8002 - Molecular Biology and Regulation of Biological Processes (3.0 cr)
- BIOC 8007 - Molecular Biology of the Genome (2.0 cr)
- BIOC 8008 - Molecular Biology of the Transcriptome (2.0 cr)
- BIOC 8216 - Signal Transduction and Gene Expression (3.0 cr)
- BIOL 8100 - Improvisation for Scientists (1.0 cr)
- BTHX 5610 - Research & Publication Seminar (1.0 cr)
- CHEM 8412 - Chemical Biology of Enzymes (4.0 cr)
- CHEN 8754 - Systems Analysis of Biological Processes (3.0 cr)
- CHEM 8995 - Special Topics (1.0 - 4.0 cr)
- CMB 5571 - Pathogenomics and Molecular Epidemiology - Learning to Fly (3.0 cr)
- CMB 8571 - Pathogenomics and Molecular Epidemiology - Learning to Fly (3.0 cr)
- CSCI 5465 - Introduction to Computing for Biologists (3.0 cr)
- CSCI 5481 - Computational Techniques for Genomics (3.0 cr)
- CSCI 5980 - Special Topics in Computer Science (1.0 - 3.0 cr)
- ESCI 4801 - Geomicrobiology (3.0 cr)
- ESCI 8801 - Geomicrobiology (3.0 cr)
- GCD 5005 - Computer Programming for Biology (3.0 cr)
- GCD 6103 - Human Histology (3.0 - 8.0 cr)
- GCD 8008 - Mammalian Gene Transfer and Genome Engineering (2.0 cr)
- GCD 8073 - Genetics & Genomics in Human Health (2.0 cr)
- GCD 8131 - Advanced Molecular Genetics and Genomics (3.0 cr)
- GCD 8141 - Computational Genomics (3.0 cr)
- GCD 8151 - Cellular Biochemistry and Cell Biology (2.0 - 4.0 cr)
- GCD 8161 - Advanced Cell Biology and Development (2.0 cr)
- GCD 8401 - Ethics, Public Policy & Careers in Molecular Cell Biology (1.0 cr)
- GCD 8920 - Special Topics (1.0 - 4.0 cr)
- GEOG 8260 - Seminar: Physical Geography (2.0 cr)
- GRAD 5102 - Preparation for University Teaching for Nonnative English Speakers (2.0 cr)
GRAD 8101 - Teaching in Higher Education (3.0 cr)
GRAD 8200 - Teaching and Learning Topics in Higher Education (1.0 cr)
HINF 5440 - Foundations of Translational Bioinformatics (3.0 cr)
HINF 5502 - Python Programming Essentials for the Health Sciences (1.0 cr)
HINF 8440 - Foundations of Translational Bioinformatics Lab (2.0 cr)
LAAS 5311 - Soil Chemistry and Mineralogy (3.0 cr)
MEDC 8461 - Design of Cancer Therapeutics (3.0 cr)
MICA 8009 - Biochemical Aspects of Normal and Abnormal Cell Growth and Cell Death (2.0 cr)
MICA 8010 - Microbial Pathogenesis (3.0 cr)
MICA 8011 - Current Topics in Immunology (3.0 cr)
MICA 8013 - Translational Cancer Research (2.0 cr)
MICA 8014 - Small RNA Biology (2.0 cr)
MICE 5035 - Personal Microbiome Analysis (3.0 cr)
OBIO 5010 - Molecular Virology (1.0 cr)
OBIO 5020 - Virus Pathogenesis and Host Interactions (1.0 cr)
OBIO 8050 - Evolution of Emerging Viruses (2.0 cr)
PHCL 5111 - Pharmacogenomics (3.0 cr)
PHSL 8242 - Professional Skills Development for Biomedical Scientists (2.0 cr)
PMB 5111 - Microbial Physiology and Diversity (3.0 cr)
PUBH 6182 - Emerging Infectious Disease: Current Issues, Policies, and Controversies (3.0 cr)
PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)
PUBH 6341 - Epidemiologic Methods I (3.0 cr)
PUBH 6365 - Global Challenges in Infectious Disease Epidemiology (2.0 cr)
PUBH 6414 - Biostatistical Literacy (3.0 cr)
PUBH 6420 - Introduction to SAS Programming (1.0 cr)
PUBH 6450 - Biostatistics I (4.0 cr)
PUBH 6933 - Nutrition and Chronic Diseases (2.0 cr)
PUBH 7445 - Statistics for Human Genetics and Molecular Biology (3.0 cr)
PUBH 7462 - Advanced Programming and Data Analysis in R (2.0 cr)
SCB 8181 - Stem Cell Biology (3.0 cr)
VMED 5180 - Ecology of Infectious Disease (3.0 cr)

**Thesis Credits**
Take at least 10 master's thesis credits.
MICA 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)
Microbiology, Immunology, and Cancer Biology Minor

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 8
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.
- No

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Students prepare for careers in biomedical research and teaching by completing broad training in molecular biology or biological sciences, and focused specialization in one of three concentrations (microbiology, immunology, or cancer biology). The program offers exceptional research opportunities for graduate training in autoimmunity, biotechnology, cancer biology and therapy, environmental microbiology, genetic engineering of microorganisms, lymphocyte activation and development, microbial pathogenesis, molecular genetics of disease, tumor immunology, vaccine development, and vascular biology and inflammation.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Other requirements to be completed before admission:
Required courses include calculus, general chemistry, organic chemistry, and physics. A minimum of two upper-level biology courses, which may include biochemistry, genetics, cell biology, molecular biology, microbiology, or immunology, etc. are also required.

Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the MICaB director of graduate studies regarding feasibility and requirements.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 96

Key to test abbreviations (TOEFL).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

All courses must be taken A-F unless only offered S/N. A minimum grade of C is required for A-F coursework. The minimum cumulative GPA for the minor is 3.0.

Required Coursework (8 credits)
Masters and doctoral students must take 2 of the following courses, selected in consultation with the MICaB director of graduate studies, for a total of 8 credits:

- **MICA 8002** - Structure, Function, and Genetics of Bacteria and Viruses (4.0 cr)
- **MICA 8003** - Immunity and Immunopathology (4.0 cr)
- **MICA 8004** - Cellular and Cancer Biology (4.0 cr)

### Program Sub-plans

Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

#### Masters

**Master's Requirements**

See Program Requirements, above.

#### Doctoral

**Doctoral Requirements (4 credits)**

Select at least 4 credits of MICaB coursework, in consultation with the MICaB director of graduate studies, to complete the 12-credit minimum.

- **MICA 8005** - Topics in Microbiology, Immunology, and Cancer Biology (1.0 - 4.0 cr)
- **MICA 8006** - Protein Sequence Analysis (3.0 cr)
- **MICA 8007** - Cell Biology and Biochemistry of the Extracellular Matrix (3.0 cr)
- **MICA 8009** - Biochemical Aspects of Normal and Abnormal Cell Growth and Cell Death (2.0 cr)
- **MICA 8010** - Microbial Pathogenesis (3.0 cr)
- **MICA 8011** - Current Topics in Immunology (3.0 cr)
- **MICA 8013** - Translational Cancer Research (2.0 cr)
- **MICA 8014** - Small RNA Biology (2.0 cr)
- **MICA 8320** - Readings in Neurobiology (1.0 - 4.0 cr)

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 48
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Students prepare for careers in biomedical research and teaching by completing broad training in molecular biology or biological sciences, and focused specialization in one of three concentrations (microbiology, immunology, or cancer biology). The program offers exceptional research opportunities for graduate training in autoimmunity, biotechnology, cancer biology and therapy, environmental microbiology, genetic engineering of microorganisms, lymphocyte activation and development, microbial pathogenesis, molecular genetics of disease, tumor immunology, vaccine development, and vascular biology and inflammation.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Applicants must have a bachelor's degree (BS preferred).

Other requirements to be completed before admission:
Required courses include calculus, general chemistry, organic chemistry, and physics. A minimum of two upper-level biology courses, which may include biochemistry, genetics, cell biology, molecular biology, microbiology, or immunology, etc., are also required.

Research experience is required. Relevant undergraduate experience includes honors thesis work, paid or volunteer work in a research laboratory and summer internships. It does not include laboratory courses that accompany science courses such as biology. Postbaccalaureate research experience is preferred but not required.

Special Application Requirements:
The program evaluates applications based on four equally weighted criteria: academics, letters (3) of recommendation, a personal statement, and research experience. We do not accept or require GRE scores. Letters of recommendation from research advisers or mentors are preferred as these individuals can comment knowledgeably on the student's potential in biomedical research. Applicants' personal statements should describe their research in general and their specific contribution to it, their rationale for seeking a doctoral degree, and any information they wish to share regarding their backgrounds and interest in the MICaB Program. Finally, applicants should provide specific details of their research experiences (project titles, mentors, dates, locations, etc.), along with a list of relevant abstracts, publications, etc.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 96
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7
- MELAB
  - Final score: 85

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 9
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Pharmacology is the study of drugs, the mechanisms through which they affect living systems, and the ways in which drugs are acted upon by living systems. A drug is defined as any foreign entity that exerts an effect on a biological system, whereas a therapeutic is a drug that is intentionally administered in order to elicit a favorable outcome. Investigators in the program in Molecular Pharmacology and Therapeutics (MPaT) focus on developing greater insight into the molecular mechanisms that determine biological responses to therapeutic agents, and how underlying biological variation impacts these responses. In addition, MPaT program faculty strive to develop a greater understanding of basic mechanisms of molecular biology, and in particular how these processes are altered in disease states. The ultimate objective of these latter studies is to gain insight that can lead to the development of future novel therapeutic agents. The MPaT graduate minor is designed to prepare students academically and professionally in the field of pharmacological research to make them competent as scientists and competitive as job candidates. Students who have earned their minor from this program occupy a diverse array of high-level positions in the fields of scientific research, drug development and discovery, and medical outreach. The MPaT graduate program consists of 74 faculty trainers, each of whom is equipped to offer students training in highly diverse research areas. Minor students can expect individualized mentorship and training from their advisors. For their part, students are expected to perform at a high level in the lab and classroom, produce publishable scientific data, and to adhere to the standards established by their advisor, the MPaT graduate program, the Department of Pharmacology, and the University.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the MPaT director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Minor field courses offered on both the A/F and S/N grading basis must be taken A/F.

The minimum cumulative GPA for minor field coursework is 3.00.
Required Coursework (9 to 12 credits)
Masters students select 9 credits, and doctoral students select 12 credits from the following in consultation with the MPaT director of graduate studies. Other courses can be applied with MPaT director of graduate studies approval.

- PHCL 5109 - Introduction to Scientific Communication (1.0 - 18.0 cr)
- PHCL 5110 - Introduction to Pharmacology (3.0 cr)
- PHCL 5111 - Pharmacogenomics (3.0 cr)
- PHCL 5112 - Foundations of Biomedical Research (1.0 - 2.0 cr)
- PHCL 8026 - Neuro-Immune Interactions (3.0 cr)
- PHCL 8208 - Neuropsychopharmacology (3.0 cr)
- PHCL 8209 - Substance Abuse at the Bedside (1.0 cr)
- PHCL 8211 - Advanced Pharmacology (5.0 cr)
- PHCL 8220 - The Ethical Scientist (1.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Masters

Doctoral

The ultimate objective of these latter studies is to gain insight that can lead to the development of future novel therapeutic agents. The MPaT graduate program is designed to prepare students academically and professionally in the field of pharmacological research to make them competent as scientists and competitive as job candidates. Students who have earned their MS from this program occupy a diverse array of high-level positions in the fields of scientific research, drug development and discovery, and medical outreach. The MPaT graduate program consists of 74 faculty trainers, each of whom is equipped to offer students training in highly diverse research areas. MS students can expect individualized mentorship and training from their advisors. For their part, students are expected to perform at a high level in the lab and classroom, produce publishable scientific data, and to adhere to the standards established by their advisor, the MPaT graduate program, the Department of Pharmacology, and the University.
- Total Score: 7
- Listening Score: 7
- Reading Score: 7
- Writing Score: 7
- Speaking Score: 7

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan A: Plan A requires 25 major credits, up to null credits outside the major, and 10 thesis credits. The final exam is written and oral.

Plan B: Plan B requires 25 major credits and 5 credits outside the major. The final exam is written and oral. A capstone project is required.

Capstone Project: A research project the format of which is determined by the student's advisor and committee.

Plan C: Plan C requires 17 major credits and 13 credits outside the major. There is no final exam.

This program may not be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.8 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

Courses offered on both the A-F and S/N grading basis must be taken A-F, with a minimum grade of C earned for each.

Required Courses (17 to 25 credits)

All students take 4 credits of PHCL 5109. Plan A and Plan B students take PHCL 8100 twice for a total of 8 credits. Plan C students are exempt from the PHCL 8100 requirement.

- PHCL 5108 - Introduction to Laboratory Research (4.0 cr)
- PHCL 5109 - Introduction to Scientific Communication (1.0 - 18.0 cr)
- PHCL 5110 - Introduction to Pharmacology (3.0 cr)
- PHCL 8211 - Advanced Pharmacology (5.0 cr)
- PHCL 8220 - The Ethical Scientist (1.0 cr)

Electives

Plan B and Plan C students select electives in consultation with the advisor to meet the required 30-credit minimum.

- BIOC 8007 - Molecular Biology of the Genome (2.0 cr)
- CHEM 8322 - Advanced Organic Chemistry (4.0 cr)
- CMB 5340 - Structural Biology in Biomedical Research (2.0 cr)
- GERO 8021 - Application of Proteomics to Aging (1.0 cr)
- GERO 8022 - Fostering a Career in Aging Research (1.0 cr)
- MEDC 8753 - MOLECULAR TARGETS OF DRUG DISCOVERY (3.0 cr)
- MICA 8003 - Immunity and Immunopathology (4.0 cr)
- MICA 8004 - Cellular and Cancer Biology (4.0 cr)
- MICA 8013 - Translational Cancer Research (2.0 cr)
- MLSP 5011W - Professional Issues in the Health Care Community [WI] (2.0 cr)
- MLSP 5311 - Fundamental Biomedical Laboratory Techniques (4.0 cr)
- MLSP 5511 - Principles of Immunobiology (3.0 cr)
- NSC 5461 - Cellular and Molecular Neuroscience (3.0 cr)
- NSC 8026 - Neuro-Immune Interactions (3.0 cr)
- OBIO 5010 - Molecular Virology (1.0 cr)
- OBIO 5020 - Virus Pathogenesis and Host Interactions (1.0 cr)
- PHAR 6738 - Pharmacokinetics (3.7 cr)
- PHCL 5111 - Pharmacogenomics (3.0 cr)
- PHCL 8208 - Neuropsychopharmacology (3.0 cr)
- PHCL 8209 - Substance Abuse at the Bedside (1.0 cr)
- PHSL 5510 - Advanced Cardiac Physiology and Anatomy (2.0 - 3.0 cr)
- PUBH 6420 - Introduction to SAS Programming (1.0 cr)
PUBH 6450 - Biostatistics I (4.0 cr)

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 48
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Pharmacology is the study of drugs, the mechanisms through which they affect living systems, and the ways in which drugs are acted upon by living systems. A drug is defined as any foreign entity that exerts an effect on a biological system, whereas a therapeutic is a drug that is intentionally administered in order to elicit a favorable outcome. Investigators in the program in Molecular Pharmacology and Therapeutics (MPaT) focus on developing greater insight into the molecular mechanisms that determine biological responses to therapeutic agents, and how underlying biological variation impacts these responses. In addition, MPaT program faculty strive to develop a greater understanding of basic mechanisms of molecular biology, and in particular how these processes are altered in disease states. The ultimate objective of these latter studies is to gain insight that can lead to the development of future novel therapeutic agents. The MPaT graduate program is designed to prepare students academically and professionally in the field of pharmacological research to make them competent as scientists and competitive as job candidates. Students who have earned their PhD from this program occupy a diverse array of high-level positions in the fields of scientific research, drug development and discovery, and medical outreach. The MPaT graduate program consists of 74 faculty trainers, each of whom is equipped to offer students training in highly diverse research areas. PhD students can expect individualized mentorship and training from their advisors. For their part, students are expected to perform at a high level in the lab and classroom, produce publishable scientific data, and to adhere to the standards established by their advisor, the MPaT graduate program, the Department of Pharmacology, and the University.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.50.

A four-year degree in a basic sciences discipline is required for admission

Other requirements to be completed before admission:
Admission to the MPaT program requires a four-year degree (or its equivalent) in a basic sciences discipline, transcripts, three letters of recommendation, a diversity statement, and a statement of career objectives. Applicants whose first language is not English or who have not completed post-secondary education at an approved English-speaking institution are required to demonstrate English-language proficiency by submitting TOEFL or IELTS scores with their application.

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 100
  - Internet Based - Listening Score: 25
  - Internet Based - Writing Score: 25
  - Internet Based - Reading Score: 25
  - Internet Based - Speaking Score: 25
• IELTS
  - Total Score: 7
  - Listening Score: 7
  - Reading Score: 7
  - Writing Score: 7
  - Speaking Score: 7

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
24 credits are required in the major.
0 credits are required outside the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

At least 3 semesters must be completed before filing a Degree Program Form.

Students are required to maintain a GPA of 3.0. Students who fail to maintain this standard must petition the director of graduate studies for permission to remain in the program.

Required Courses (24 credits)
Take the following courses. Take PHCL 8100 twice for a total of 8 credits, 2 credits of PHCL 5112, 2 credits of PHCL 8200, and 3 credits of PHCL 8221. All courses, with the exception of PHCL 8100, must be taken A-F and be graded B or higher.

PHCL 5110 - Introduction to Pharmacology (3.0 cr)
PHCL 5112 - Foundations of Biomedical Research (1.0 - 2.0 cr)
PHCL 8100 - Laboratory Research in Pharmacology (4.0 cr)
PHCL 8200 - SciComm I: Critical Analysis & Publishing (1.0 - 2.0 cr)
PHCL 8211 - Advanced Pharmacology (5.0 cr)
PHCL 8220 - The Ethical Scientist (1.0 cr)
PHCL 8221 - SciComm II: Writing & Research Presentation (2.0 - 3.0 cr)

Thesis Credits
Take 24 doctoral thesis credits.

PHCL 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 32
- This program requires summer semesters for timely completion.
- NSCI 5551 Cell & Molecular Neurobiology Lab is held at the Itasca Biological Station in Shevlin, Minnesota the first semester the first semester of the program.

- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Note: Neuroscience does not admit students directly to the MS program.

Neuroscience is an interdisciplinary field of inquiry. The objects of this inquiry, the brain, and nervous system, are sufficiently complex and unique among biological systems to require experimental and analytical approaches that cross the traditional boundaries of molecular and cell biology, behavioral biology, biochemistry, genetics, pharmacology, physiology, and psychology. In some instances, neuroscientific inquiry may also encompass computer science, information processing, engineering, physics, and mathematics.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Neuroscience does not admit students directly to the MS program.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Plan A: Plan A requires 22 major credits, up to null credits outside the major, and 10 thesis credits. The final exam is oral.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

Summer - First Year (4 credits)
Take the following course or, with advisor approval, a substitute course:
NSC 5551 - Itasca Cell and Molecular Neurobiology Laboratory (4.0 cr)
**Fall - First Year (8.5 Credits)**
Take the following courses or, with advisor approval, substitute courses. Take 1-2 credit of NSC 8334.
- NSC 5461 - Cellular and Molecular Neuroscience (3.0 cr)
- NSC 5561 - Systems Neuroscience (4.0 cr)
- NSC 8321 - Career Skills and Understanding Responsibilities as a Neuroscientist (0.5 cr)
- NSC 8334 - Laboratory Neuroscience (1.0 - 3.0 cr)

**Spring - First Year (9.5 Credits)**
Take the following courses or, with advisor approval, substitute courses. Take 2-3 credit of NSC 8334.
- NSC 5661 - Behavioral Neuroscience (3.0 cr)
- NSC 8111 - Quantitative Neuroscience (3.0 cr)
- NSC 8211 - Developmental Neurobiology (4.0 cr)
- NSC 8321 - Career Skills and Understanding Responsibilities as a Neuroscientist (0.5 cr)
- NSC 8334 - Laboratory Neuroscience (1.0 - 3.0 cr)

**Spring - Second Year (0.5 credits)**
Take the following course or, with advisor approval, substitute course.
- NSC 8321 - Career Skills and Understanding Responsibilities as a Neuroscientist (0.5 cr)

**Thesis Credits**
Take 10 master's thesis credits.
- NSC 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)
Neuroscience Minor

- Program Type: Post-baccalaureate credit certificate/licensure/endorsement
- Requirements for this program are current for Fall 2022
- Length of program in credits: 14 to 28
- This program requires summer semesters for timely completion.
- Degree: Orthoptics PostBaccalaureate Certificate

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Orthoptics post-baccalaureate certificate program is a vital part of the ophthalmic health care profession. This is a specialized profession, the focus of which is the evaluation and treatment of disorders of vision, eye movements, and eye alignment in children and adults. The study of orthoptics follows a logical sequence of studies vital to the understanding of the visual system. The didactic education is integrated with practical clinical experience. Orthoptists work with ophthalmologists, eye physicians and surgeons, as part of the medical team. They are employed in a variety of settings, including university and teaching hospitals, children's hospitals, and solo or multi-specialty group medical practices. An orthoptist sees a variety of patients of all ages, although due to the nature of their visual disorders, the majority of the patients are young children; some individuals with multiple health concerns are also evaluated as they commonly have ocular/binocular problems.

Students who successfully complete the Orthoptics post-baccalaureate certificate are eligible to sit for the written and practical examinations, administered by the American Orthoptic Council, required for national certification.

Accreditation
This program is accredited by American Orthoptic Council

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 2.50.

Other requirements to be completed before admission:
All applicants must have an earned baccalaureate degree with a minimum GPA of 2.50.

Applicants to the accelerated certificate also must provide confirmation of:
ophthalmic tech program completion, and
COMT/COT certification.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.80 is required for students to remain in good standing.

Each course includes 35+ clinical hours/week under supervision of a staff orthoptist/pediatric ophthalmologist.

Required Coursework (28 credits)
Students admitted to the full 28-credit post-baccalaureate certificate program take OPH 5201, 5301, and 5401 during the first year of study, and OPH 5501, 5601, and 5701 the second year of study for a total of 28 credits.

OPH 5201 - Orthoptics I (4.0 cr)
OPH 5301 - Orthoptics II (5.0 cr)
OPH 5401 - Orthoptics III (5.0 cr)
OPH 5501 - Orthoptics IV (4.0 cr)
OPH 5601 - Orthoptics V (5.0 cr)
OPH 5701 - Orthoptics VI (5.0 cr)

Accelerated Program Required Coursework (14 credits)
Students admitted to the accelerated 14-credit certificate program take OPH 5501, 5601, and 5701 to meet their 14-credit requirement.

OPH 5501 - Orthoptics IV (4.0 cr)
OPH 5601 - Orthoptics V (5.0 cr)
OPH 5701 - Orthoptics VI (5.0 cr)
Twin Cities Campus
Otolaryngology Ph.D. Otol.
Otolaryngology
Medical School

Link to a list of faculty for this program.

Contact Information:
Department of Otolaryngology, MMC 396, 420 Delaware Street SE, Minneapolis, MN 55455 (612-625-7692; fax: 612-625-2101)
Website: http://www.ent.umn.edu

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 48
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy in Otolaryngology

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

This program prepares students in both clinical and experimental aspects of otolaryngology. The Ph.D.Otol. degree requires a publishable thesis. Rotations at University of Minnesota Medical Center-Fairview, Minneapolis Veterans Administration Medical Center, Regions Hospital, Minneapolis Children's Hospital, and Hennepin County Medical Center provide a wide range of opportunity for clinical education and surgical experience.

Opportunities for independent research are provided in the areas of audiology, auditory electrophysiology, auditory neurophysiology, basic sciences research, biochemistry, cancer biology, cell biology and genetics, chemical senses, clinical epidemiology, education research, electron microscopy, electrophysiology, histochemistry, laryngeal physiology, mandibular bone physiology, microvascular tissue transfer, morphometry, outcomes research, psychoacoustics, psychometrics, skin-flap physiology, temporal bone pathology, tumor immunology, and vestibular physiology. Graduates of the program have careers in teaching, research, and professional practice.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Requires an M.D. degree.

Other requirements to be completed before admission:
Doctorate will be completed in conjunction with otolaryngology residency.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
24 credits are required in the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

Coursework will vary depending on preparation and the research undertaken. An advisory committee, including the student, the advisor, and the director of graduate studies, determines coursework. Understanding and application of basic statistics and experimental methodology are expected. Statistics coursework is usually necessary. Choice of statistics courses is made with the guidance of the director of graduate studies.

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of November 07, 2022
All students are expected to publish a research paper in a peer-reviewed journal. Students are concurrently in otolaryngology residency and usually take five to six years to complete research, course, and dissertation requirements.

**Thesis Credits**
Take 24 doctoral thesis credits.
**OTOL 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)**

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 137
- This program requires summer semesters for timely completion.
- Courses for the DPT are taught on the Twin Cities East Bank Campus for the first seven semesters (including summers), with numerous off-site clinical education opportunities scheduled throughout. During the student's 3rd year, the student will complete four full-time clinical experiences, which occur off-campus in various physical therapy settings.
- Degree: Doctor of Physical Therapy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Division of Physical Therapy Program, a division within the Department of Rehabilitation Medicine, offers a professional doctoral degree in physical therapy (DPT). Physical therapy is a healthcare discipline involved with the study and rehabilitation of movement impairments, such as muscular weakness, impaired coordination, joint stiffness, and pain, which can lead to functional problems affecting self care, employment, ambulation, etc. Graduates are prepared to promote proper health care and quality of living by maximizing human movement following disease or injury or by preventing its loss. The program requires three years of year-round, full-time graduate study (9 semesters including summers). Academic coursework, clinical education, and research activity are completed during the first seven semesters. The final two semesters are devoted to clinical rotations.

Accreditation
This program is accredited by Commission on Accreditation in Physical Therapy Education (CAPTE)

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

The University of Minnesota Division of Physical Therapy has no required or preferred undergraduate major. Any baccalaureate degree or equivalent from an accredited institution is accepted.

Other requirements to be completed before admission:
To be eligible for admission, applicants must complete a baccalaureate degree, or its foreign equivalent, from an accredited institution by June 1 of the year of admission, including all required prerequisite courses or their program-approved equivalents.

Applicants must complete at least 40 observation hours (shadow/volunteer/work) in a clinical physical therapy setting. Exposure to multiple and varied areas of practice in physical therapy and additional health care exposure are considered important preparation for entry into the program.

TOEFL is required for international students.

Two letters of recommendation are also required. One letter must be from a practicing physical therapist with whom the applicant completed observation hours.

Special Application Requirements:
Below is a list of required prerequisite coursework applicants must complete to apply to the program. Courses must be taken for college credit and graded A-F with a received minimum letter grade of C. The exception is medical terminology, which will be accepted.
pass/fail. Courses may be taken at any accredited college or university. Up to two prerequisite courses may be listed as in progress - either currently being taken or planned to take and complete by June 1 of the year of admission. The program will also accept two AP scores of 4 or above or two IB scores of 6 or above to meet prerequisite requirements. It is recommended that these courses be taken within the previous five years.

- General Biology, with lab
- A second Biology, with lab
- General Chemistry, with lab
- A second Chemistry, with lab
- Human Anatomy, with lab
- Human Physiology, with lab
- General Physics I (covering mechanics and electricity), with lab
- General Physics II, with lab
- General Psychology
- Abnormal Psychology
- Statistics (ANOVA and regression analysis content strongly recommended)
- Math (college-level Algebra or higher)
- Medical Terminology

Distance learning courses are accepted; however, labs must be taken on-site unless prior approval is given by the Admissions Chair.

International applicants must submit score(s) from one of the following tests:

- **TOEFL**
  - Internet Based - Listening Score: 18
  - Internet Based - Writing Score: 24
  - Internet Based - Reading Score: 21
  - Internet Based - Speaking Score: 26

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (TOEFL).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

**Program Requirements**

137 credits are required in the major.

This program may not be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 2.8 is required for students to remain in good standing.

At least 6 semesters must be completed before filing a Degree Program Form.

**Year 1 Summer (7 credits)**

PT 6285 Neuroscience for Rehabilitation  
PT 8132 - Research Seminar (1.0 cr)

**Year 2 Summer (15 credits)**  
Take PT 8193 for 1 credit. PT 6250 changes to 3 credits in Summer 2023. Students will take PT 6217 for 1 credit beginning Summer 2023.  
PHAR 6800 - Rehabilitation Pharmacotherapy (2.0 cr)  
PT 6217 Integrated Clinical Education I  
PT 6241 - Movement and Pathokinesiology (3.0 cr)  
PT 6250 - Acute Care in Physical Therapy (2.0 cr)  
PT 6251 - Integument (2.0 cr)  
PT 6252 - Pathophysiology (3.0 cr)  
PT 8193 - Research Problems (1.0 - 6.0 cr)

**Year 2 Fall (15 credits)**  
Take PT 8193 for 2 credits.  
PT 6215 - Clerkship III: The Physical Therapist in Today's Society (1.0 cr)  
PT 6283 - Musculoskeletal Rehabilitation 1 (6.0 cr)  
PT 6286 - Neurehabilitation I (3.0 cr)  
PT 6293 - Essentials of Rehabilitation Research (3.0 cr)  
PT 8193 - Research Problems (1.0 - 6.0 cr)

**Year 2 Spring (16 credits)**  
Take PT 8193 for 2 credits.  
PT 6216 - Clerkship IV: Advocacy and Adjustment to Disability (1.0 cr)  
PT 6284 - Musculoskeletal Rehabilitation II (5.0 cr)  
PT 6287 - Neurehabilitation II (8.0 cr)  
PT 8193 - Research Problems (1.0 - 6.0 cr)

**Year 3 Summer (14 credits)**  
Students will also take PT 6218 for 1 credit beginning Summer 2024.  
PT 6285 Integrated Clinical Education II  
PT 6288 - Pediatric Rehabilitation (3.0 cr)  
PT 6290 - Contemporary Physical Therapist Practice (4.0 cr)  
PT 6294 - Clinical Integration (3.0 cr)  
Electives  
PT 6401 - Pediatric Rehabilitation Elective (3.0 cr)  
or PT 6402 - The Shoulder in Sports (3.0 cr)  
or PT 6403 - Topics in Aging (3.0 cr)  

**Year 3 Fall (18 credits)**  
PT 6295 - Clinical Internship I (9.0 cr)  
PT 6296 - Clinical Internship II (9.0 cr)

**Year 3 Spring (20 credits)**  
PT 6297 - Clinical Internship III (10.0 cr)  
PT 6298 - Clinical Internship IV (10.0 cr)

**Joint- or Dual-degree Coursework:** Doctorate in Physical Therapy / PhD in Rehabilitation Science  
Student may take a total of 18 credits in common among the academic programs.

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30 to 33
- This program does not require summer semesters for timely completion.
- No
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The mission of the graduate program in Rehabilitation Science is to discover and disseminate rehabilitation knowledge and improve the quality of life, participation, health, performance, and well-being of people in Minnesota and throughout the world. The mission further encompasses the cultivation of premier leaders and researchers in academia, industry, and clinical environments to transform the science and practice of rehabilitation. The program is interdisciplinary, with student and faculty backgrounds in physical therapy, occupational therapy, exercise physiology, biomedical engineering, and a variety of other biology and health care backgrounds. The programs philosophy is to provide students with a strong foundation in research methodology; a concentrated educational and research experience tailored toward a students specific area of interest in rehabilitation science; and a working knowledge of the importance of a collaborative and interdisciplinary approach to the scientific process.

Note: The Rehabilitation Science program does not normally admit students to the MS degree. The exception is for students who wish to pursue the integrated Biomedical Engineering BS /Rehabilitation Science MS program. For more information, contact the Rehabilitation Science graduate program office.

Accreditation
This program is accredited by Not applicable.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Bachelor's degree or US equivalent in a related discipline.

Not applicable.

Special Application Requirements:
In addition to the University's application (including personal statement and fee), applicants must submit the following materials: unofficial transcripts; three letters of recommendation; for international students, test of English language. Student must also have an agreed-upon faculty adviser at the time of applying. Compatibility of research interests is a major determinant in the student/adviser relationship.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 88
Program Requirements

Plan A: Plan A requires 20 major credits, 3 credits outside the major, and 10 thesis credits. The final exam is written and oral.

Plan B: Plan B requires 27 major credits and 3 credits outside the major. The final exam is written and oral. A capstone project is required.

Capstone Project: The Plan B project is determined in consultation with the advisor.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

Coursework (20 to 27 credits)

Plan A students select at least 20 credits, and Plan B students select at least 27 credits from the following list, in consultation with the advisor. For both Plan A and Plan B students, at least 14 of the credits must be from RSC courses.

RSC 5058 - Anatomy for Rehabilitation Science (1.0 - 6.0 cr)
RSC 5060 - Lower Extremity Anatomy Intensive (2.0 cr)
RSC 5065 - Upper Extremity Anatomy Intensive (2.0 cr)
RSC 5101 - Mathematical Tools for Research Applications in Health, Rehab, and Human Movement Sciences (1.0 cr)
RSC 5106 - Introduction to Rehabilitation Science (1.0 cr)
RSC 5135 - Advanced Biomechanics I: Kinematics (3.0 cr)
RSC 5231 - Clinical Biomechanics (2.0 - 5.0 cr)
RSC 5235 - Advanced Biomechanics II: Kinetics (3.0 cr)
RSC 5281 - Physiology for Physical Rehabilitation (2.0 - 4.0 cr)
RSC 5294 - Independent Study in Rehabilitation Science (1.0 - 3.0 cr)
RSC 5300 - Autonomic Nervous System (ANS) Function (2.0 cr)
RSC 5306 - Scientific and Professional Presentation (1.0 cr)
RSC 5310 - Cardiopulmonary Physiology and Rehabilitation (2.0 - 4.0 cr)
RSC 5402 - The Shoulder in Sports Rehabilitation Science (3.0 cr)
RSC 5404 - Applied Shoulder Anatomy and Biomechanics (1.0 cr)
RSC 5814 - Age, Exercise, and Rehabilitation (2.0 cr)
RSC 5841 - Applied Data Acquisition and Processing (3.0 cr)
RSC 5842 - Teaching and Learning in Rehabilitation Science (1.0 cr)
RSC 8106 - Critical Analysis of Scientific Literature (2.0 cr)
RSC 8130 - Current Literature Seminar (1.0 - 3.0 cr)
RSC 8135 - Human Kinematics (3.0 cr)
RSC 8170 - Special Topics in Rehabilitation Science (1.0 - 3.0 cr)
RSC 8185 - Problems in Rehabilitation Science (1.0 - 3.0 cr)
RSC 8188 - Teaching Practicum (1.0 - 5.0 cr)
RSC 8192 - Essentials in Rehab Research (3.0 cr)
RSC 8206 - Grant Writing (2.0 cr)
RSC 8235 - Human Kinetics (3.0 cr)
RSC 8282 - Problems in Human Movement (4.0 cr)
RSC 8306 - Peer Review and Publication (2.0 cr)
RSC 8332 - Quantitative Research in Rehab Science (2.0 cr)
RSC 8431 - Qualitative Inquiry in Occupational Therapy (2.0 cr)

Statistics Requirement (3 credits)
All master's students must take one of the two statistics courses below, or another statistics course approved by the advisor, for at least three credits.
EPSY 8251 - Statistical Methods in Education I (3.0 cr)
PUBH 6450 - Biostatistics I (4.0 cr)

Plan Options

Plan A
Take at least 10 master's thesis credits.
RSC 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

-OR-

Plan B

Program Sub-plans
A sub-plan is not required for this program.
Students may not complete the program with more than one sub-plan.

Integrated BS-Biomedical Engineering/MS-Rehabilitation Science
The Integrated BS Biomedical Engineering / MS Rehabilitation Science program offers students the opportunity to earn a bachelor's degree and a master's degree in a shortened amount of time. The integrated program offers several benefits, including streamlined admissions from the undergraduate to the graduate program, and flexibility in fulfilling required courses for both degrees during the senior year.

Students pursuing the integrated BS/MS may complete either the Plan A or Plan B option for the Rehabilitation Science master's degree. Both the BS and MS degrees must be completed in their entirety, with no courses shared between them. The graduate degree cannot be earned before the undergraduate requirements are satisfied. Admitted students who decide not to complete the MS degree may count credits originally planned for the graduate program toward their BS degree with approval of the Biomedical Engineering advisors.

For more information regarding the integrated BS/MS degree, including eligibility requirements, contact the Biomedical Engineering or Rehabilitation Science program office.

Accreditation
This program is accredited by Not applicable.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Bachelor's degree or US equivalent in a related discipline is minimal requirement.

Professional, graduate, or master's degree preferred but not required.

Other requirements to be completed before admission:
Applicants must hold a bachelor's or graduate degree, or accredited US equivalent, in a discipline related to rehabilitation; for example, biomedical engineering, kinesiology, medicine, occupational therapy, physical therapy, public health, or speech/audiology. Depending on the educational background of the applicant, admission may be contingent upon completion of selected prerequisite coursework.

Special Application Requirements:
In addition to completing and submitting the University's Graduate School application (which includes submission of a personal statement, diversity statement, and upload of CV/resume), applicants must submit the following materials: transcripts from all institutions attended; three letters of recommendation; and TOEFL and/or IELTS scores for international students. Student must also have an agreed-upon faculty adviser at the time of application. Compatibility of research interest is a major determinant in the student/adviser relationship.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 88
- Internet Based - Listening Score: 21
- Internet Based - Writing Score: 21
- Internet Based - Reading Score: 21
- Internet Based - Speaking Score: 23

IELTS
- Total Score: 6.5

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
36 credits are required in the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

Professional Development Coursework (8 credits)
The following Rehabilitation Science courses are required:
- RSC 5106 - Introduction to Rehabilitation Science (1.0 cr)
- RSC 5306 - Scientific and Professional Presentation (1.0 cr)
- RSC 8106 - Critical Analysis of Scientific Literature (2.0 cr)
- RSC 8206 - Grant Writing (2.0 cr)
- RSC 8306 - Peer Review and Publication (2.0 cr)

Statistics Coursework (6 to 8 credits)
Take the following Public Health or Educational Psychology series. Other statistics courses may be selected with advisor approval.

Public Health Statistics Series
- PUBH 6450 - Biostatistics I (4.0 cr)
- PUBH 6451 - Biostatistics II (4.0 cr)

or Educational Psychology Statistics Series
- EPSY 8251 - Statistical Methods in Education I (3.0 cr)
- EPSY 8252 - Statistical Methods in Education II (3.0 cr)

Electives
Take elective credits, at least 8 credits of which must be from RSC coursework, to complete the 36 course credits required for the degree. Coursework is selected in consultation with the advisor.

- RSC 5058 - Anatomy for Rehabilitation Science (1.0 - 6.0 cr)
- RSC 5060 - Lower Extremity Anatomy Intensive (2.0 cr)
- RSC 5065 - Upper Extremity Anatomy Intensive (2.0 cr)
- RSC 5101 - Mathematical Tools for Research Applications in Health, Rehab, and Human Movement Sciences (1.0 cr)
- RSC 5135 - Advanced Biomechanics I: Kinematics (3.0 cr)
- RSC 5231 - Clinical Biomechanics (2.0 - 5.0 cr)
- RSC 5235 - Advanced Biomechanics II: Kinetics (3.0 cr)
- RSC 5281 - Physiology for Physical Rehabilitation (2.0 - 4.0 cr)
- RSC 5294 - Independent Study in Rehabilitation Science (1.0 - 3.0 cr)
- RSC 5300 - Autonomic Nervous System (ANS) Function (2.0 cr)
- RSC 5310 - Cardiopulmonary Physiology and Rehabilitation (2.0 - 4.0 cr)
- RSC 5402 - The Shoulder in Sports Rehabilitation Science (3.0 cr)
- RSC 5404 - Applied Shoulder Anatomy and Biomechanics (1.0 cr)
- RSC 5814 - Age, Exercise, and Rehabilitation (2.0 cr)
- RSC 5841 - Applied Data Acquisition and Processing (3.0 cr)
- RSC 5842 - Teaching and Learning in Rehabilitation Science (1.0 cr)
- RSC 8130 - Current Literature Seminar (1.0 - 3.0 cr)
- RSC 8135 - Human Kinematics (3.0 cr)
- RSC 8170 - Special Topics in Rehabilitation Science (1.0 - 3.0 cr)
- RSC 8185 - Problems in Rehabilitation Science (1.0 - 3.0 cr)
RSC 8188 - Teaching Practicum (1.0 - 5.0 cr)
RSC 8192 - Essentials in Rehab Research (3.0 cr)
RSC 8235 - Human Kinetics (3.0 cr)
RSC 8282 - Problems in Human Movement (4.0 cr)
RSC 8332 - Quantitative Research in Rehab Science (2.0 cr)
RSC 8431 - Qualitative Inquiry in Occupational Therapy (2.0 cr)

Thesis Credits
Take at least 24 doctoral thesis credits.
RSC 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)

Joint- or Dual-degree Coursework: DPT/PhD Student may take a total of 18 credits in common among the academic programs.
Twin Cities Campus
Stem Cell Biology M.S.
Stem Cell Institute
Medical School

Link to a list of faculty for this program.

Contact Information:
Stem Cell Institute, 2001 6th Street S.E., Mail Code 2873, Minneapolis, MN 55455-3007
Email: scbgrad@umn.edu

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30
- This program requires summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The stem cell biology master's program is a multidisciplinary program that prepares graduates for a career in research, teaching, or industry within the field of stem cell biology. It offers training in stem cell biology, a rapidly growing interdisciplinary field that rests on foundations provided by molecular, cellular, and developmental biology. Students will take lecture, lab, and seminar courses in these various disciplines, in addition to stem cell biology. They will interact with members of the Stem Cell Institute through participation in research seminars and journal clubs.

Students who elect Plan A will spend a full calendar year, including summer, conducting research in the laboratory of a stem cell graduate program faculty member. This research will form the basis of the master's thesis.

Students who elect Plan B will conduct research of primary literature resulting in a written paper and seminar on a topic in Stem Cell Biology agreed upon in advance by the student and faculty advisor. Part-time students choosing Plan B are expected to complete the degree within 3 years by taking one to two courses per semester, excluding summers.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.20.

A bachelor's degree or foreign equivalent in biological science or a related field.

Special Application Requirements:
Applicants must upload to the University's on-line application website: 1) a personal statement (500 words or less) outlining research interests and long- and short-term goals (NOTE: students applying to Plan A should include information about previous research experience); 2) a curriculum vitae or resume; 3) the names of three individuals whom the student has asked to write letters of recommendation; and 4) unofficial transcripts.

Applicants must submit their test score(s) from the following:
- GRE

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 94
  - Internet Based - Listening Score: 22
  - Internet Based - Writing Score: 24
  - Internet Based - Reading Score: 22
  - Internet Based - Speaking Score: 26
  - Paper Based - Total Score: 580
- IELTS
  - Total Score: 7

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of November 07, 2022
Key to test abbreviations (GRE, TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

**Plan A:** Plan A requires 20 major credits, up to null credits outside the major, and 10 thesis credits. The final exam is oral.

**Plan B:** Plan B requires 30 major credits and up to null credits outside the major. The final exam is oral.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 2.80 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.

Students must demonstrate familiarity with the tools of research and scholarship in their major field, the ability to work independently, and the ability to present the results of their investigation effectively.

Plan Options

**Plan A Course and Thesis**

**Required Plan A Course (1 credit)**
- SCB 5051 - Stem Cell Biology Practical Training Module (1.0 cr)

**Thesis Credits**
- Take 10 master's thesis credits. Students are recommended to take five thesis credits in spring of the first year, and the remaining five in fall of the second year.
- SCB 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

-OR-

**Plan B Course**
- Take the following course:
- SCB 5900 - Master's Plan B Research Paper and Presentation (2.0 cr)

**Required Coursework (14 to 15 credits)**
- Plan A and Plan B students take the following courses. All required courses must be taken A-F.

**Core Courses (9 credits)**
- Take SCB 5054 three times for a total of 6 credits.
- SCB 5054 - Stem Cell Institute Research Seminar and Journal Club (2.0 cr)
- SCB 8181 - Stem Cell Biology (3.0 cr)

**Option 1: Molecular Biology Course (3 to 4 credits)**
- Students complete either Option 1 or Option 2.
- Select at least one of the following courses.
- GCD 4034 - Molecular Genetics and Genomics (3.0 cr)
- or GCD 8131 - Advanced Molecular Genetics and Genomics (3.0 cr)
- or Students complete either Option 1 or Option 2.
- Both of the following courses are required.
- BIOC 8007 - Molecular Biology of the Genome (2.0 cr)
- BIOC 8008 - Molecular Biology of the Transcriptome (2.0 cr)

**Other Courses**
- Take at least one of the following courses, or other 5000-level or 8000-level course approved prior to registration by the SCB program, for a minimum of two credits.
- GCD 8161 - Advanced Cell Biology and Development (2.0 cr)
Electives
Take elective credits from the following list, or other courses in consultation with the advisor, to complete the minimum credit requirement.

- BIOC 8401 - Ethics, Public Policy, and Careers in Molecular and Cellular Biology (1.0 cr)
- BIOL 4004 - Cell Biology (3.0 cr)
- BMEN 5041 - Tissue Engineering (3.0 cr)
- BMEN 5351 - Cell Engineering (3.0 cr)
- BMEN 5701 - Cancer Bioengineering (3.0 cr)
- BTHX 5110 - Ethical Issues in Pediatrics (2.0 cr)
- BTHX 5210 - Ethics of Human Subjects Research (3.0 cr)
- BTHX 5325 - Biomedical Ethics (3.0 cr)
- BTHX 5400 - Intro Ethics in Health Policy (3.0 cr)
- CMB 5910 - Grantwriting: What Makes a Winning Proposal? (2.0 cr)
- CMB 8012 - Basic Concepts in Skeletal Biology (2.0 cr)
- CSCI 5461 - Functional Genomics, Systems Biology, and Bioinformatics (3.0 cr)
- CSCI 5465 - Introduction to Computing for Biologists (3.0 cr)
- GCD 4161 - Developmental Biology (3.0 cr)
- GCD 5005 - Computer Programming for Biology (3.0 cr)
- GCD 5035 - Molecular Cell Biology (3.0 cr)
- GCD 8008 - Mammalian Gene Transfer and Genome Engineering (2.0 cr)
- GCD 8131 - Advanced Molecular Genetics and Genomics (3.0 cr)
- GCD 8141 - Computational Genomics (3.0 cr)
- GCD 8151 - Cellular Biochemistry and Cell Biology (2.0 - 4.0 cr)
- GCD 8161 - Advanced Cell Biology and Development (2.0 cr)
- MICA 8003 - Immunity and Immunopathology (4.0 cr)
- MICA 8004 - Cellular and Cancer Biology (4.0 cr)
- MICA 8014 - Small RNA Biology (2.0 cr)
- MILI 6235 - Pharmaceutical Industry: Business and Policy (2.0 cr)
- MILI 6269 - Medical Device Industry: Business and Public Policy (2.0 cr)
- MILI 6985 - The Health Care Marketplace (2.0 cr)
- MILI 6995 - Medical Industry Valuation Laboratory (2.0 cr)
- NSC 5461 - Cellular and Molecular Neuroscience (3.0 cr)
- NSC 8002 - Neuro-Immune Interactions (3.0 cr)
- NSC 8011 - Developmental Neurobiology (4.0 cr)
- NSCI 4101 - Development of the Nervous System: Cellular and Molecular Mechanisms (3.0 cr)
- NSCI 5101 - Neurobiology I: Molecules, Cells, and Systems (3.0 cr)
- NSCI 5501 - Neurodegenerative Diseases, Mechanisms to Therapies (3.0 cr)
- PHCL 5110 - Introduction to Pharmacology (3.0 cr)
- PHSL 5061 - Principles of Physiology for Biomedical Engineering (4.0 cr)
- PHSL 5197 - Stress Physiology (1.0 - 3.0 cr)
- PHSL 5221 - Systems and Computational Physiology (3.0 cr)
- PHSL 5211 - Physiology of Inflammation in Disease (3.0 cr)
- PHSL 5510 - Advanced Cardiac Physiology and Anatomy (2.0 - 3.0 cr)
- PSY 5063 - Professional Skills Development for Biomedical Scientists (2.0 cr)
- PUBH 6450 - Biostatistics I (4.0 cr)
- PUBH 6451 - Biostatistics II (4.0 cr)

• Program Type: Graduate minor related to major
• Requirements for this program are current for Fall 2022
• Length of program in credits (Doctorate): 12
• This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The stem cell biology minor is available to PhD students in relevant programs such as MCDB&G, MiCaB, pharmacology, microbiology, bio-engineering, or a medical or veterinary medicine school program, and who have an interest in stem cell biology. It offers training in stem cell biology, which is a rapidly growing interdisciplinary field that rests on foundations provided by molecular, cellular, and developmental biology. Students will take lecture and seminar courses, interact with members of the Stem Cell Institute through participation in research seminar and journal clubs, and conduct stem cell research in the laboratory of a stem cell biology graduate program faculty member.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
Special Application Requirements:
Applicants must be admitted to a Ph.D. program and obtain approval from the Stem Cell Biology director of graduate studies.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

In addition to course requirements, the student's research project must be done in the lab of a Stem Cell Biology faculty member; therefore, students must obtain approval from the Stem Cell Biology director of graduate studies prior to declaring the minor.

The minimum GPA for minor field coursework is 3.00.

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Doctoral
Required Courses (5 credits)
Take the following required courses on the A-F grade basis.
SCB 5054 - Stem Cell Institute Research Seminar and Journal Club (2.0 cr)
SCB 8181 - Stem Cell Biology (3.0 cr)
Electives (7 credits)
Select at least seven elective credits in consultation with the Stem Cell Biology director of graduate studies to complete the 12-credit minimum. Elective courses should be taken on the A-F grade basis. Courses required to meet the student's major field requirement
cannot be applied to the minor.

Take 7 or more credit(s) from the following:

- **BIOC 8007** - Molecular Biology of the Genome (2.0 cr)
- **BIOC 8008** - Molecular Biology of the Transcriptome (2.0 cr)
- **BIOC 8401** - Ethics, Public Policy, and Careers in Molecular and Cellular Biology (1.0 cr)
- **BMEN 5041** - Tissue Engineering (3.0 cr)
- **BMEN 5351** - Cell Engineering (3.0 cr)
- **BMEN 5701** - Cancer Bioengineering (3.0 cr)
- **BTHX 5000** - Topics in Bioethics (1.0 - 4.0 cr)
- **BTHX 5100** - Introduction to Clinical Ethics (3.0 cr)
- **BTHX 5110** - Ethical Issues in Pediatrics (2.0 cr)
- **BTHX 5210** - Ethics of Human Subjects Research (3.0 cr)
- **BTHX 5325** - Biomedical Ethics (3.0 cr)
- **BTHX 5400** - Intro Ethics in Hlth Policy (3.0 cr)
- **BTHX 8000** - Advanced Topics in Bioethics (1.0 - 4.0 cr)
- **CMB 5910** - Grantwriting: What Makes a Winning Proposal? (2.0 cr)
- **CSCI 5461** - Functional Genomics, Systems Biology, and Bioinformatics (3.0 cr)
- **CSCI 5465** - Introduction to Computing for Biologists (3.0 cr)
- **GCD 5005** - Computer Programming for Biology (3.0 cr)
- **GCD 5036** - Molecular Cell Biology (3.0 cr)
- **GCD 8008** - Mammalian Gene Transfer and Genome Engineering (2.0 cr)
- **GCD 8131** - Advanced Molecular Genetics and Genomics (3.0 cr)
- **GCD 8141** - Computational Genomics (3.0 cr)
- **GCD 8151** - Cellular Biochemistry and Cell Biology (2.0 - 4.0 cr)
- **GCD 8161** - Advanced Cell Biology and Development (2.0 cr)
- **MICA 8003** - Immunity and Immunopathology (4.0 cr)
- **MICA 8004** - Cellular and Cancer Biology (4.0 cr)
- **MICA 8014** - Small RNA Biology (2.0 cr)
- **MILI 6235** - Pharmaceutical Industry: Business and Policy (2.0 cr)
- **MILI 6726** - Medical Device Industry: Business and Public Policy (2.0 cr)
- **MILI 6985** - The Health Care Marketplace (2.0 cr)
- **MILI 6995** - Medical Industry Valuation Laboratory (2.0 cr)
- **NSC 5461** - Cellular and Molecular Neuroscience (3.0 cr)
- **NSC 8026** - Neuro-Immune Interactions (3.0 cr)
- **NSC 8211** - Developmental Neurobiology (4.0 cr)
- **NSCI 5101** - Neurobiology I: Molecules, Cells, and Systems (3.0 cr)
- **PHCL 5110** - Introduction to Pharmacology (3.0 cr)
- **PHCL 5112** - Foundations of Biomedical Research (1.0 - 2.0 cr)
- **PHSL 5061** - Principles of Physiology for Biomedical Engineering (4.0 cr)
- **PHSL 5197** - Stress Physiology (1.0 - 3.0 cr)
- **PHSL 5211** - Physiology of Inflammation in Disease (3.0 cr)
- **PHSL 5221** - Systems and Computational Physiology (3.0 cr)
- **PHSL 5510** - Advanced Cardiac Physiology and Anatomy (2.0 - 3.0 cr)
- **PHSL 8242** - Professional Skills Development for Biomedical Scientists (2.0 cr)
- **PSY 5063** - Introduction to Functional MRI (3.0 cr)
- **PUBH 6450** - Biostatistics I (4.0 cr)
- **PUBH 6451** - Biostatistics II (4.0 cr)

Website: http://www.surgery.umn.edu/

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 37
- This program requires summer semesters for timely completion.
- Degree: Master of Science in Surgery

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The general surgery residency program trains medical doctors for the practice of surgery and for academic positions. During residency, research trainees spend two to three years in either a basic science laboratory or in clinical translational surgery. The Department of Surgery offers supervised work in its experimental research laboratories, hospital, and outpatient departments.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
MD or graduate student in an applicable field.

Other requirements to be completed before admission:
Prospective students must be in the general surgery training program, with two to three clinical years of training completed; physicians interested in an advanced research degree; or individuals with relevant research education and experience. Non-physician applicants should confer with the director of graduate studies prior to applying to determine their potential for the MSSurg degree.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Plan A: Plan A requires 27 major credits, up to null credits outside the major, and 10 thesis credits. The final exam is oral.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

Core Coursework (18 credits)
Take the following courses, in consultation with the advisor, for 18 credits. Take 4 credits each of SURG 8990, 8992, and 8994.
Alternative course credits can be applied to the core requirement only with approval of the director of graduate studies. All courses must be taken A-F, with minimum earned grade of B.
- PUBH 6301 - Fundamentals of Clinical Research (3.0 cr)
- SURG 8202 - Surgical Research (3.0 cr)
- SURG 8990 - Topics in Pancreatology (1.0 - 4.0 cr)
- SURG 8994 - Directed Readings (1.0 - 4.0 cr)
- SURG 8992 - Directed Research (2.0 - 4.0 cr)

Biostatistics Requirement (8 credits)
Both courses must be taken A-F with a minimum earned grade of B.
- PUBH 6450 - Biostatistics I (4.0 cr)
- PUBH 6451 - Biostatistics II (4.0 cr)
Ethics Requirement (1 credit)
Course must be taken A-F with minimum earned grade of B.
PUBH 6742 - Ethics in Public Health: Research and Policy (1.0 cr)

Thesis Credits (10 credits)
Take at least 10 master's thesis credits.
SURG 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

- Program Type: Post-baccalaureate credit certificate/licensure/endorsement
- Requirements for this program are current for Fall 2022
- Length of program in credits: 21 to 34
- This program requires summer semesters for timely completion.
- Degree: Adult Hlth/Geron Clinical Nurse Spec Certificate

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The postgraduate certificate program in nursing offers students with a doctor of nursing practice (DNP) or other graduate degree in a clinical nursing specialty area the opportunity to complete an additional area of study. Completion of required coursework and practice hours provides eligibility to take certification examinations.

Accreditation
This program is accredited by Commission on Collegiate Nursing Education (CCNE).

Program Delivery
This program is available:
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A DNP degree and coursework in 3 of the 5 following subjects: physiology, pathophysiology, pharmacology, pharmacotherapeutics, advanced physical assessment.

Other requirements to be completed before admission:
All applicants must have a current registered nurse license.

Special Application Requirements:
Applicants are required to submit transcripts from all institutions where post-secondary credit was earned, reference materials containing an Admission Reference Form and personal letter of reference from two separate individuals, two essays, a current curriculum vita/resume, a current registered nurse license, and English language proficiency scores (if applicable). Application deadlines for this certificate are a priority deadline of November 1, with rolling admissions on a space-available basis until March 1.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 95
  - Paper Based - Total Score: 586
- MELAB
  - Final score: 85

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (TOEFL, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.

3.0 cumulative GPA is required. Please contact the School of Nursing for detailed information about the requirements for this certificate.

Specialty Courses (21 Credits)
Complete the following required specialty courses for the certificate. NURS 6408 must be taken for 1 credit. NURS 6502 must be taken for 3 credits. NURS 7505 must be taken for 2 credits.

- NURS 6405 - Advanced Practice CNS Roles Across the Lifespan (3.0 cr)
- NURS 6406 - Advanced Practice CNS Roles Across the Lifespan: Practicum (1.0 cr)
- NURS 6407 - Advanced Nursing Care of Older Adults (3.0 cr)
- NURS 6408 - Advanced Nursing Care of Older Adults Practicum (1.0 - 2.0 cr)
- NURS 6501 - Assessment and Management of Health for Advanced Practice Nurses, I (3.0 cr)
- NURS 6502 - Assessment and Management of Health for Advanced Practice Nurses, II (2.0 - 3.0 cr)
- NURS 7406 - Advanced Nursing Practicum in Adult-Gerontology Health (2.0 cr)
- NURS 7505 - Assessment and Management of Health for Advanced Practice Nurses Practicum II (1.0 - 2.0 cr)
- NURS 7705 - The Adult and Gerontological Clinical Nurse Specialist in Acute Care (2.0 cr)
- NURS 7706 - Implementing the Role of the Clinical Nurse Specialist in Acute Care (1.0 cr)

Advanced Practice Registered Nurse Core Courses (0 to 13 credits)
Completion of the following coursework is required for the post-graduate certificate program. Students who have not completed these courses or their equivalents prior to admission must do so to meet requirements. Consult with the Doctor of Nursing Practice Program Director to evaluate prior APRN coursework for equivalency. NURS 5229 must be taken for 4 credits.

- NURS 5200 - Advanced Holistic Health Assessment for the Advanced Practice Nurse (3.0 cr)
- NURS 5222 - Advanced Human Physiology (2.0 cr)
- NURS 5226 - Advanced Human Pathophysiology (2.0 cr)
- NURS 5228 - Pharmacology for Advanced Practice Nursing (2.0 cr)
- NURS 5229 - Clinical Pharmacotherapeutics (3.0 - 4.0 cr)

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 39 to 100
- This program requires summer semesters for timely completion.
- Degree: Doctor of Nursing Practice

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Doctor of Nursing Practice (DNP) Program is offered as the post-baccalaureate with specialty (12 specialties). The School of Nursing also offers a post-master's DNP program for students who have completed a master's degree in a nursing practice specialty.

The DNP program is an innovative, practice-focused program that prepares students to be leaders in health care, develop quality improvement, and systems problem solving. It prepares nurses to create and lead new models of care delivery for communities locally, across the nation, and around the world. Students work with faculty who are leaders in their fields and on the cutting edge of nursing research and practice. These experts become mentors and guide students through the program. The unique, interdisciplinary core curriculum is divided into the following four areas.

1. DNP core - Includes science of nursing intervention, moral and ethical positions, research, statistics, program evaluation, evidence-based practice, epidemiology, informatics, leadership, health economics, health policy, and teaching and learning.
2. DNP specialty core - Prepares students for advanced clinical practice; includes physiology, pharmacology, pharmacotherapeutics, and advanced health assessment.
3. DNP specialization - Prepares graduates for certification in their chosen specialty by a national certifying body and includes:
   a. Advanced clinical practice with specialty-specific courses for each of the areas of clinical specialization
   b. Other specialization in innovation and leadership, informatics, and integrative health and healing
4. DNP project - Completed by all students in a three-semester sequence during which the project is planned, implemented, evaluated, and disseminated

The School of Nursing and the School of Public Health offer a DNP/MPH-Public Health Practice dual degree program. This dual degree option provides students with a unique opportunity to provide advanced nursing care as leaders of inter-professional health care teams, emphasizing population-focused practice, and quality improvement to impact patient outcomes.

Accreditation
This program is accredited by Commission on Collegiate Nursing Education (CCNE).

Program Delivery
This program is available:
- primarily online (at least 80% of the instruction for the program is online with short, intensive periods of face-to-face coursework)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

The post-baccalaureate DNP specialty areas and post-master's DNP require an entry-level nursing degree (e.g. BSN, BAN, post-bacc certificate in nursing, or entry-level master of nursing).

A graduate degree is not required for admission to the post-baccalaureate DNP program.

Applicants for the post-master's DNP must hold a master's degree in a nursing practice specialty.
Other requirements to be completed before admission:
The required application process is available on the School of Nursing website at www.nursing.umn.edu. Interviews are by invitation
only and are not granted to all applicants. Application deadlines for the DNP program are available on the School of Nursing website.

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 95
  - Paper Based - Total Score: 586
• MELAB
  - Final score: 85

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (TOEFL, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the
catalog website.

Program Requirements
39 to 100 credits are required in the major.
This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

Students MUST complete coursework according to the program plan appropriate for their term of admission and year plan. Any
modifications to the program plan must be approved by the Specialty Coordinator/Faculty Advisor and Doctoral Programs Coordinator.

Core Coursework (31 credits)
All core courses with the exception of NURS 7110 must be completed with the A-F grade base.
NURS 5115 - Interprofessional Health Care Informatics (3.0 cr)
NURS 6200 - Science of Nursing Intervention (3.0 cr)
NURS 7000 - DNP Proseminar (1.0 cr)
NURS 7100 - Quality Improvement and Implementation Science in Health Care (3.0 cr)
NURS 7102 - Scholarly Dissemination and Advanced Professional Engagement (2.0 cr)
NURS 7200 - Economics of Health Care (3.0 cr)
NURS 7300 - Program Planning and Evaluation (3.0 cr)
NURS 7400 - Health Policy Leadership (3.0 cr)
NURS 7600 - Nursing Research and Evidence Based Practice (4.0 cr)
NURS 7610 - System Leadership and Innovation (3.0 cr)
NURS 7900 - Scholarly Teaching and Learning in Nursing (3.0 cr)
NURS 6110 - Epidemiology in Nursing (2.0 cr)
  or PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)
Take 3 or more credit(s) from the following:
NURS 7110 - NURS 7110 DNP Project Practicum (1.0 - 3.0 cr)

Statistics (3 credits)
EPSY 5261 - Introductory Statistical Methods (3.0 cr)
  or PUBH 6414 - Biostatistical Literacy (3.0 cr)

Joint- or Dual-degree Coursework: Doctor of Nursing Practice/Master of Public Health - Public Health Practice (D.N.P./M.P.H.-Public
Health Practice) Student may take a total of 14 credits in common among the academic programs.

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may complete the program with more than one sub-plan.

Adult Health/Gerontological Clinical Nurse Specialist
The DNP program with a specialty in adult health and gerontological nursing as a clinical nurse specialist (CNS) prepares clinical
experts to provide advanced nursing care to adults and older adults in a variety of settings as well as leadership role as advanced
practice nurses.
Graduates work as expert clinicians and consultants in acute care settings, nursing homes, transitional care, and specialty practices. The adult health and gerontological specialty offers leadership preparation for nurses desiring expertise in the management of complex health conditions, working with nurses and interdisciplinary teams and organizations to provide care and services for adults and older adults. Students ground their studies in the science of nursing interventions, moral/ethical issues, and nursing research. Practicum experiences are arranged to meet the individual needs of students while also meeting accreditation and certification requirements. In addition to completing core studies in the specialty, students also gain skills in evidence-based practice, program evaluation, informatics, teaching/learning, health economics, health care policy, and epidemiology.

**Required Specialty Coursework**
Complete the following courses for at least 39 credits. 4 credits of NURS 5229 is required; 3 credits of NURS 6502 is required; 2 credits of NURS 7505 is required; 1 credit of NURS 6408; 3 credits of NURS 6501 is required for this specialty.

- **CSPH 5101** - Introduction to Integrative Healing Practices (3.0 cr)
- **NURS 5200** - Advanced Holistic Health Assessment for the Advanced Practice Nurse (3.0 cr)
- **NURS 5222** - Advanced Human Physiology (2.0 cr)
- **NURS 5226** - Advanced Human Pathophysiology (2.0 cr)
- **NURS 5228** - Pharmacology for Advanced Practice Nursing (2.0 cr)
- **NURS 5229** - Clinical Pharmacotherapeutics (3.0 - 4.0 cr)
- **NURS 6405** - Advanced Practice CNS Roles Across the Lifespan (3.0 cr)
- **NURS 6406** - Advanced Practice CNS Roles Across the Lifespan: Practicum (1.0 cr)
- **NURS 6407** - Advanced Nursing Care of Older Adults (3.0 cr)
- **NURS 6408** - Advanced Nursing Care of Older Adults Practicum (1.0 - 2.0 cr)
- **NURS 6501** - Assessment and Management of Health for Advanced Practice Nurses, I (3.0 cr)
- **NURS 6502** - Assessment and Management of Health for Advanced Practice Nurses, II (2.0 - 3.0 cr)
- **NURS 7202** - Moral and Ethical Positions and Actions in Nursing (2.0 cr)
- **NURS 7406** - Advanced Nursing Practicum in Adult-Gerontology Health (2.0 cr)
- **NURS 7505** - Assessment and Management of Health for Advanced Practice Nurses Practicum II (1.0 - 2.0 cr)
- **NURS 7705** - The Adult and Gerontological Clinical Nurse Specialist in Acute Care (2.0 cr)
- **NURS 7706** - Implementing the Role of the Clinical Nurse Specialist in Acute Care (1.0 cr)

**Adult/Gerontological Primary Care Nurse Practitioner**
The DNP program with a specialty in adult health and gerontological nursing as a nurse practitioner prepares nurses for leadership as advanced practice nurses and clinical experts to provide advanced nursing care to adults and elders in a variety of settings. This DNP program is for students who already hold a baccalaureate degree in nursing, and involves both coursework and practicum experiences, as well as a final internship where the student has the opportunity to focus on a sub-specialty area (e.g., oncology, cardiology, palliative care), if desired. Graduates work in primary care/ambulatory care settings, hospitals, group practices of advanced practice gerontological nurses that manage care of adults and older adults in nursing homes, transitional care settings, assisted living, and specialty practices.

The adult health and gerontological specialty offers leadership preparation for nurses desiring expertise in advanced nursing assessment and management for health promotion and disease prevention, management of complex health conditions, and working with interdisciplinary teams to provide care and services for persons ranging from adolescents, adults, and older adults. Practicum experiences are arranged to meet the individual needs of students while also meeting accreditation and certification requirements.

**Required Specialty Coursework**
Complete the following courses for 39 credits. Specialty requirements for Variable credit course: NURS 5229 = 4 credits; NURS 6305 = 3 credits; NURS 7504 = 1 credit; NURS 7505 = 1 credit; NURS 6502 = 3 credits; NURS 6408 = 2 credits

- **CSPH 5101** - Introduction to Integrative Healing Practices (3.0 cr)
- **NURS 5222** - Advanced Human Physiology (2.0 cr)
- **NURS 5226** - Advanced Human Pathophysiology (2.0 cr)
- **NURS 5228** - Pharmacology for Advanced Practice Nursing (2.0 cr)
- **NURS 5229** - Clinical Pharmacotherapeutics (3.0 - 4.0 cr)
- **NURS 6305** - Reproductive and Sexual Health Care (3.0 cr)
- **NURS 6307** - Assessment and Management of Health for APNs Practicum III (1.0 cr)
- **NURS 6407** - Advanced Nursing Care of Older Adults (3.0 cr)
- **NURS 6408** - Advanced Nursing Care of Older Adults Practicum (1.0 - 2.0 cr)
- **NURS 6501** - Assessment and Management of Health for Advanced Practice Nurses, I (3.0 cr)
- **NURS 6502** - Assessment and Management of Health for Advanced Practice Nurses, II (2.0 - 3.0 cr)
- **NURS 7202** - Moral and Ethical Positions and Actions in Nursing (2.0 cr)
- **NURS 7406** - Advanced Nursing Practicum in Adult-Gerontology Health (2.0 cr)
- **NURS 7502** - Health Care of Older Adults for Adult-Gerontology Nurse Practitioner: Acute and Chronic Management (2.0 cr)
- **NURS 7504** - Assessment and Management of Health for Advanced Practice Nurses, Practicum I (1.0 - 2.0 cr)
- **NURS 7505** - Assessment and Management of Health for Advanced Practice Nurses Practicum II (1.0 - 2.0 cr)

**Women's Health/Gender-Related Nurse Practitioner**
The DNP program with a specialty in women's health prepares nurses for leadership as advanced practice nurses.
Clinical experience is offered in primary care, women's health, and specialty practice areas, such as oncology and reproductive endocrinology. Students ground their studies in the science of nursing intervention, moral/ethical issues, and nursing research. They then focus on courses that examine the basis of assessment and intervention for adolescent and adult populations with an emphasis on adolescent and adult women. Practicum experiences are arranged to meet the individual needs of students while also meeting accreditation and certification requirements. In addition to completing core studies in the specialty, students also gain skills in evidence-based practice, program evaluation, informatics, teaching/learning, health economics, health care policy, and epidemiology. A final project that is a systematic investigation of a practice problem is planned, implemented, and completed during the curriculum.

**Required Specialty Coursework**

Complete the following courses for at least 38 credits. Courses with Variable credit requirements for this specialty: NURS 5229 = 3 credits; NURS 6305 = 3 credits; NURS 6925 = 3 credits.

**Nurse Anesthesia**

This sub-plan is optional and does not fulfill the sub-plan requirement for this program.

The nurse anesthesia area of study prepares registered nurses to become Certified Registered Nurse Anesthetists (CRNAs) who are prepared for nurse anesthesia practice at the highest level. Graduates will possess expertise in general and regional anesthesia techniques and will be prepared to provide leadership in the practice setting. The nurse anesthesia area of study is fully accredited by the Council on Accreditation of Nurse Anesthesia Education Programs. The program was the first nurse anesthesia program in the US to be accredited to offer the entry-level DNP.

With the Minneapolis VA Medical Center serving as the primary clinical site for the program, the University of Minnesota nurse anesthesia students rotate to several urban and rural clinical sites, which offer a broad spectrum of practice experiences.

Nurse anesthesia students complete the requirements for the DNP degree, as well as the requirements to take the National Certification Exam for nurse anesthetists.

**Required Specialty Coursework**

Complete the following courses for at least 61 credits.

Family Nurse Practitioner

The DNP program with a specialty in the family nurse practitioner (FNP) area of study prepares advanced practice nurses for leadership in the provision of health care to individuals and families across the lifespan. The program is for students who already hold a baccalaureate degree in nursing, and involves both coursework and clinical practicums.

The FNP area of study offers an academic-practice program to develop nurse leaders for health promotion and clinical management of health conditions in individuals across the lifespan within the context of their families and environment. Students ground their studies in the science of nursing intervention, evidence-based practice, scientific knowledge, moral/ethical issues, and nursing research. They apply skills focused on evaluating the basis of assessment and intervention for families and individuals of all ages and backgrounds. Faculty and staff within the School of Nursing arrange clinical practicum experiences to provide practice opportunities with diverse populations and settings and to meet the individual needs of students while also meeting national accreditation and certification requirements. In addition to completing core studies in the specialty population, students also gain skills in program evaluation, informatics, teaching/learning, health economics, health care policy, and epidemiology. During the curriculum, students design, implement and complete a final project that is a systematic investigation of a practice.

Required Specialty Coursework

Completion of the courses for 41 credits is required for this specialty. Specialty Credit requirements for courses with variable credits:

NURS 5229 = 4 credits; NURS 6305 = 3 credits; NURS 6502 = 3 credits; NURS 7504 = 1 credit; NURS 7505 = 1 credit

CSPH 5101 - Introduction to Integrative Healing Practices (3.0 cr)
NURS 5200 - Advanced Holistic Health Assessment for the Advanced Practice Nurse (3.0 cr)
NURS 5222 - Advanced Human Physiology (2.0 cr)
NURS 5226 - Advanced Human Pathophysiology (2.0 cr)
NURS 5228 - Pharmacology for Advanced Practice Nursing (2.0 cr)
NURS 5229 - Clinical Pharmacotherapeutics (3.0 - 4.0 cr)
NURS 6102 - Family Health Theory (2.0 cr)
NURS 6305 - Reproductive and Sexual Health Care (3.0 cr)
NURS 6501 - Assessment and Management of Health for Advanced Practice Nurses, I (3.0 cr)
NURS 6502 - Assessment and Management of Health for Advanced Practice Nurses, II (2.0 - 3.0 cr)
NURS 7202 - Moral and Ethical Positions and Actions in Nursing (2.0 cr)
NURS 7501 - Health Care of Children for the Family Nurse Practitioner Practicum (1.0 cr)
NURS 7503 - Reproductive Health Care of Women Practicum for Family Nurse Practitioners (1.0 cr)
NURS 7504 - Assessment and Management of Health for Advanced Practice Nurses, Practicum I (1.0 - 2.0 cr)
NURS 7505 - Assessment and Management of Health for Advanced Practice Nurses Practicum II (1.0 - 2.0 cr)
NURS 7506 - Family Practice Practicum III: Assessment and Management of Health for the Family Nurse Practitioner (1.0 cr)
NURS 7507 - Assessment and Management of Health Practicum IV: Health Leadership for Family Nurse Practitioners (1.0 cr)
NURS 7508 - Health Care of the Elderly for the Family Nurse Practitioner Practicum (1.0 cr)
NURS 7509 - Assessment and Management of Health Practicum VI: Primary Care for the Family Nurse Practitioner (1.0 cr)
NURS 7515 - Health Care of Children for the Family Nurse Practitioner: Well Child Care (1.0 cr)
NURS 7516 - Health Care of Children for the Family Nurse Practitioner: Acute and Chronic Management (2.0 cr)
NURS 7518 - Health Care of the Elder Patient for the Family Nurse Practitioner (1.0 cr)

Health Innovation and Leadership

Health care is delivered today in diverse settings, by an expanding workforce and with extraordinary opportunities for nurses to lead, whether through formal leadership positions or through personal advocacy, in traditional settings, or in emerging sites. This requires an individual who can think broadly and embrace a global perspective; who embraces diversity in all its forms, including diversity of thought; who is curious and never satisfied with the status quo; who stimulates new ways of thinking and solutions which open up possibilities for action; who bases action on informed practice gained from multiple ways of knowing; who engages in critical thinking, and learns from other thought leaders; who inspires and creates needed change within a particular environment; who can work effectively with a variety of individuals and within disparate groups; and who can create healing environments within which others can do their best work.

The DNP, with a focus on health innovation and leadership, prepares nurses to function effectively as leaders in traditional and contemporary settings. The goal is to prepare a leader who can work well in the current environment while promoting change and improvement. Students in the program utilize a combination of learning strategies, readings, reflections, and independent learning experiences. Seminars will enable students and faculty to discuss relevant issues and share expertise.

Students must complete the required specialty courses for 34 credits and at least 5 credits of electives to achieve 39 graduate level credits to complete the specialty. Credit requirements for this specialty for courses with variable credits: NURS 6704 = 1 credit; NURS 6706 = 2 credits; NURS 7605 = 2 credits. Students choose 5 credits of elective graduate level coursework in consultation with their faculty advisor.

Required Coursework

Completion of the following courses for at least 39 credits.

CSPH 5711 - Optimal Healing Environments (3.0 cr)
HUMF 5874 - Human Centered Design to Improve Complex Systems (4.0 cr)
NURS 6600 - Health Systems and Care Models (3.0 cr)
NURS 6702 - Nursing Leadership Seminar: Introduction to Innovation and Leadership (3.0 cr)
NURS 6703 - Nursing Leadership Seminar: Organizational Culture and Leadership (2.0 cr)
NURS 6704 - Nursing Leadership Practicum: Organizational Culture and Leadership (1.0 - 2.0 cr)
NURS 6706 - Nursing Leadership Practicum: Quality and Change Management (1.0 - 2.0 cr)
NURS 6707 - Health Care Design and Innovation Practicum (2.0 cr)
NURS 7202 - Moral and Ethical Positions and Actions in Nursing (2.0 cr)
NURS 7604 - Executive Leadership Seminar: Boundary Spanning Leadership (2.0 cr)
NURS 7605 - Executive Leadership Practicum: Boundary Spanning Leadership (1.0 - 2.0 cr)
NURS 7606 - Relationship-Based Leadership and Management (3.0 cr)
NURS 7608 - Health Care Finance and Resource Management (3.0 cr)

Specialty Electives
Choose 5 credits of elective coursework in collaboration with faculty advisor. Additional selections permitted with approval from the faculty advisor.
Take 5 or more credit(s) from the following:
- CSPH 5118 - Whole Person, Whole Community: The Reciprocity of Wellbeing (3.0 cr)
- NURS 5812 - Global Health Through Study Abroad (1.0 - 2.0 cr)
- GCC 5031 - The Global Climate Challenge: Creating an Empowered Movement for Change [CIV] (3.0 cr)
- CSPH 5805 - Wellbeing in the Workplace (3.0 cr)
- CSPH 5806 - Wellbeing and Resiliency for Health Professionals (1.0 cr)
- CSPH 5807 - Mindfulness in the Workplace: Pause, Practice, Perform (2.0 cr)
- CSPH 5115 - Cultural Awareness, Knowledge and Health (3.0 cr)
- PUBH 6170 - Introduction to Occupational Health and Safety (3.0 cr)
- PUBH 6100 - Topics: Environmental Health (1.0 - 4.0 cr)

Nursing Informatics
The nursing informatics (NI) specialty area prepares graduates with knowledge and skills necessary for leadership roles in health and nursing informatics to address the issues for consumers, clinical providers, and public health for processing and managing information through the use of various technologies. A wide array of courses throughout the University of Minnesota accompany nursing offerings, which offers students the opportunity to strengthen their disciplinary and interdisciplinary expertise.

With increasing demand for computerizing health information, graduates of the nursing informatics specialty are well positioned to assume leadership roles in nursing and health informatics field. The NI area of study provides knowledge and scholarship complemented by clinical experiences in the following areas:

- Systems analysis and design
- Knowledge representation and interoperability
- Clinical decision support and evidence-based practice
- Human factors and usability
- Leadership and health informatics
- Consumer, clinical provider, and population health informatics
- Health policy leadership
- Development and project management of health informatics projects
- Program evaluation
- Organization and administration of health services
- Ethical foundations of nursing
- Applied research

Required Specialty Coursework
Complete the following courses and at least 28 credits:
- CSPH 5711 - Optimal Healing Environments (3.0 cr)
- NURS 5611 - Database Principles for Healthcare (2.0 cr)
- NURS 6105 - Systems Analysis and Design (3.0 cr)
- NURS 7051 - Data Science for Healthcare (2.0 cr)
- NURS 7052 - Data Science for Healthcare Practicum (1.0 cr)
- NURS 7105 - Knowledge Representation and Interoperability (2.0 cr)
- NURS 7106 - Knowledge Representation and Interoperability Practicum (2.0 cr)
- NURS 7108 - Population Health Informatics (2.0 cr)
- NURS 7109 - Population Health Informatics Practicum (2.0 cr)
- NURS 7113 - Clinical Decision Support: Theory (2.0 cr)
- NURS 7114 - Clinical Decision Support Practicum (2.0 cr)
- NURS 7118 - Human Factors and Human-Computer Interaction in Health Informatics (3.0 cr)
- NURS 7202 - Moral and Ethical Positions and Actions in Nursing (2.0 cr)
Integrative Health and Healing
The integrative health and healing specialty area prepares graduates with skills necessary for working with individuals, families, communities, and health systems in developing holistic approaches to health promotion, disease prevention, and chronic disease management, with a special emphasis on managing lifestyle changes and incorporating the use of complementary therapies. Graduates are prepared to work in diverse settings including hospitals, outpatient settings, health plans, corporate and community organizations, and in private practice. A wide array of courses are available which offer students the opportunity to strengthen their disciplinary and interdisciplinary expertise. Through a collaboration with the Center for Spirituality and Healing, students can opt to concurrently earn a graduate certificate in integrative therapies and healing practices, including a focus in health coaching.

The integrative health and healing area of study provides a foundation of knowledge and practical experiences in the following areas:
- Optimal healing environments
- Botanical medicine
- Clinical aromatherapy
- Mind/body healing
- Functional nutrition
- Energy healing
- Health coaching
- Self-care
- Advanced integrative health and healing skills and program planning
- Applied research

Students choosing to complete coursework part-time are well accommodated by the curriculum.

Completion of 40 graduate level credits is required for the specialty - 38 credits of required coursework and 2 credits of elective coursework.

Required Specialty Coursework
Complete the following courses for at least 39 credits.
- CSPH 5101 - Introduction to Integrative Healing Practices (3.0 cr)
- CSPH 5226 - Advanced Meditation: Body, Brain, Mind, and Universe (1.0 cr)
- CSPH 5313 - Acupressure (1.0 cr)
- CSPH 5423 - Botanical Medicines: Foundations and Practical Applications (1.0 cr)
- CSPH 5431 - Functional Nutrition: An Expanded View of Nutrition, Chronic Disease, and Optimal Health (2.0 cr)
- CSPH 5503 - Aromatherapy Fundamentals (1.0 cr)
- CSPH 5535 - Reiki Healing (1.0 cr)
- CSPH 5536 - Advanced Reiki Healing: Level II (1.0 cr)
- CSPH 5631 - Healing Imagery I (2.0 cr)
- CSPH 5701 - Fundamentals of Health Coaching I (4.0 cr)
- CSPH 5711 - Optimal Healing Environments (3.0 cr)
- NURS 5200 - Advanced Holistic Health Assessment for the Advanced Practice Nurse (3.0 cr)
- NURS 5222 - Advanced Human Physiology (2.0 cr)
- NURS 5226 - Advanced Human Pathophysiology (2.0 cr)
- NURS 5228 - Pharmacology for Advanced Practice Nursing (2.0 cr)
- NURS 7202 - Moral and Ethical Positions and Actions in Nursing (2.0 cr)
- NURS 7209 - Integrative Nursing I (1.0 cr)
- NURS 7210 - Integrative Nursing Practicum I (1.0 cr)
- NURS 7211 - Integrative Nursing Didactic II (1.0 cr)
- NURS 7212 - Integrative Nursing Practicum II (2.0 cr)
- NURS 7214 - Integrative Health and Healing III (1.0 cr)
- NURS 7215 - Integrative Health and Healing Practicum III (2.0 cr)

Complete one of the following course options
- CSPH 5102 - Art of Healing: Self as Healer (1.0 cr)
- or CSPH 5806 - Wellbeing and Resiliency for Health Professionals (1.0 cr)

Specialty Electives
Additional course may be available with faculty advisor approval.
Take 2 or more credit(s) from the following:
- CSPH 5000 - Explorations in Integrative Therapies and Healing Practices (1.0 - 4.0 cr)
- CSPH 5111 - Ways of Thinking about Health (2.0 cr)
- CSPH 5115 - Cultural Awareness, Knowledge and Health (3.0 cr)
- CSPH 5121 - Planetary Health & Global Climate Change: A Whole Systems Healing Approach (2.0 cr)
- CSPH 5201 - Spirituality and Resilience (2.0 cr)
- CSPH 5212 - Peacebuilding Through Mindfulness: Transformative Dialogue in the Global Community (3.0 cr)
- CSPH 5215 - Forgiveness and Healing: A Journey Toward Wholeness (3.0 cr)
- CSPH 5225 - Meditation: Integrating Body and Mind (2.0 cr)
- CSPH 5315 - Traditional Tibetan Medicine: Ethics, Spirituality, and Healing (2.0 cr)
- CSPH 5317 - Yoga: Ethics, Spirituality, and Healing (2.0 cr)
Students who pursue the pediatric clinical nurse specialist (PCNS) specialty area take core courses in nursing theory, moral/ethical issues, and research. They acquire skills in health assessment, intervention, and evaluation. They examine the care of children and families with special health care needs. They focus on planning and implementing programs to improve quality of care for children with chronic and complex illnesses. As the population of children with special health care needs continues to increase, there is likely to be a greater demand for clinical experts and leaders in pediatric nursing. The PCNS area of study is supported by the Center for Children with Special Health Care Needs.

**Required Specialty Coursework**

Complete the following courses for at least 42 credits.

- **NURS 5200** - Advanced Holistic Health Assessment for the Advanced Practice Nurse (3.0 cr)
- **NURS 5222** - Advanced Human Physiology (2.0 cr)
- **NURS 5226** - Advanced Human Pathophysiology (2.0 cr)
- **NURS 5228** - Pharmacology for Advanced Practice Nursing (2.0 cr)
- **NURS 5229** - Clinical Pharmacotherapeutics (3.0 - 4.0 cr)
- **NURS 6210** - Midwifery Care of the Childbearing Family (3.0 cr)
- **NURS 6211** - Midwifery Care of the Childbearing Family Practicum (2.0 cr)
- **NURS 6213** - Reproductive Healthcare for Patients with Complex Conditions (2.0 cr)
- **NURS 6214** - Reproductive Health Care for Patients with Complex Conditions Practicum (2.0 cr)
- **NURS 6302** - Racism and Health Disparity Prevention for Midwives (1.0 cr)
- **NURS 6305** - Reproductive and Sexual Health Care (3.0 cr)
- **NURS 6306** - Reproductive and Sexual Health Practicum (1.0 cr)
- **NURS 6308** - Women’s Primary Care Practicum (1.0 - 2.0 cr)
- **NURS 6501** - Assessment and Management of Health for Advanced Practice Nurses, I (3.0 cr)
- **NURS 6925** - Advanced Concepts in Reproductive and Sexual Health Care (2.0 - 3.0 cr)
- **NURS 7202** - Moral and Ethical Positions and Actions in Nursing (2.0 cr)
- **NURS 7213** - Midwifery Clinical and Professional Integration (3.0 cr)

**Labor and Delivery Experience**

Students are required to complete NURS 5505 if they do not have labor and delivery experience as Registered Nurse. NURS 5505 = 3 credits; NURS 6925 = 3 credits; NURS 6305 = 2 credits

© 2005 by the Regents of the University of Minnesota

The University of Minnesota is an equal opportunity educator and employer.

Information current as of November 07, 2022
PCNS coursework includes supervised clinical experiences. Efforts are made to provide students with clinical settings within their geographical area. Clinical courses are directed by certified faculty and supervised by clinical nurse specialist preceptors. The PCNS area of study can be completed in a two-year (full-time) or three-year (part-time) sequence.

PCNSs work in collaboration with health care teams in a variety of settings to facilitate quality care for children across the continuum of care settings. They function as clinical experts in the planning, implementation, and evaluation of patient care standards. They provide direct care, oversee staff, patient and family education, participate in clinical research, and develop programs specific to the needs of children.

Required Specialty Coursework
Completion of the courses for 40 credits. Specialty credit requirements for courses with variable credits: NURs 5229 = 3 credits; NURS 6921 = 1 credit

- CSPH 5101 - Introduction to Integrative Healing Practices (3.0 cr)
- NURS 5200 - Advanced Holistic Health Assessment for the Advanced Practice Nurse (3.0 cr)
- NURS 5222 - Advanced Human Physiology (2.0 cr)
- NURS 5226 - Advanced Human Pathophysiology (2.0 cr)
- NURS 5228 - Pharmacology for Advanced Practice Nursing (2.0 cr)
- NURS 5229 - Clinical Pharmacotherapeutics (3.0 - 4.0 cr)
- NURS 6102 - Family Health Theory (2.0 cr)
- NURS 6405 - Advanced Practice CNS Roles Across the Lifespan (3.0 cr)
- NURS 6406 - Advanced Practice CNS Roles Across the Lifespan: Practicum (1.0 cr)
- NURS 6519 - Advanced Pediatric Assessment (1.0 cr)
- NURS 6920 - Primary Care: Assessment of Health and Care of Well Children (3.0 cr)
- NURS 6921 - Assessment of Health and Care of Well Children: Primary Care Practicum (1.0 - 2.0 cr)
- NURS 6924 - Assessment and Interventions for Children and Youth With Special Health Care Needs (2.0 cr)
- NURS 6929 - Advanced Nursing Care of Children with Acute Illness: Practicum for PCNS (2.0 cr)
- NURS 7202 - Moral and Ethical Positions and Actions in Nursing (2.0 cr)
- NURS 7925 - Systems of Care for Children and Youth With Special Health Care Needs Practicum (2.0 cr)
- NURS 7926 - Advanced Assessment, Intervention in Families of Children and Youth With Special Health Care Needs (2.0 cr)
- NURS 7927 - [Inactive] (1.0 cr)
- OLPD 5356 - Disability Policy and Services (3.0 cr)

Pediatric Nurse Practitioner - Primary Care
The pediatric nurse practitioner (PNP) area of study incorporates theory and clinical courses to prepare students to provide comprehensive care to children and their families. Most students elect to complete the children with special health care needs (CSHCN) leadership track by taking additional courses which are supported by the Center for Children with Special Health Care Needs.

Coursework includes nursing theory, moral/ethical issues, research, child assessment, management of childhood illnesses, and health policy. Courses are taught by faculty from the School of Nursing, School of Public Health, the Institute of Child Development, Family Social Science, the Medical School, and the Institute of Community Integration in the College of Education.

Supervised clinical experience is incorporated in the program. Efforts are made to meet students’ individual goals and to provide experiences in their geographic area. Clinical experiences are available in interdisciplinary settings such as primary care, home care, schools, specialty clinics, community agencies, the legislature, and the Minnesota Department of Health.

At the completion of the program, students are eligible to take the Pediatric Nurse Practitioner certification examinations offered by the American Nurses Credentialing Center or the National Certification Board of Pediatric Nurse Practitioners and Nurses. Students in the CSHCN track are eligible for certification from the Institute on Community Integration.

Required Specialty Coursework
Completion of the following courses for at least 40 credits is required. Specialty credit requirements for variable credit courses: NURS 5229 = 3 credits; NURS 6921 = 2 credits

- CSPH 5101 - Introduction to Integrative Healing Practices (3.0 cr)
- NURS 5200 - Advanced Holistic Health Assessment for the Advanced Practice Nurse (3.0 cr)
- NURS 5222 - Advanced Human Physiology (2.0 cr)
- NURS 5226 - Advanced Human Pathophysiology (2.0 cr)
- NURS 5228 - Pharmacology for Advanced Practice Nursing (2.0 cr)
- NURS 5229 - Clinical Pharmacotherapeutics (3.0 - 4.0 cr)
- NURS 6102 - Family Health Theory (2.0 cr)
- NURS 6519 - Advanced Pediatric Assessment (1.0 cr)
- NURS 6920 - Primary Care: Assessment of Health and Care of Well Children (3.0 cr)
- NURS 6921 - Assessment of Health and Care of Well Children: Primary Care Practicum (1.0 - 2.0 cr)
- NURS 6922 - Primary Care: Assessment and Management of Common Conditions Affecting Children (3.0 cr)
- NURS 6923 - Primary Care Practicum: Assessment and Management of Common Conditions Affecting Children (2.0 cr)
- NURS 6924 - Assessment and Interventions for Children and Youth With Special Health Care Needs (2.0 cr)
Psychiatric-Mental Health Nurse Practitioner

Graduate studies in psychiatric-mental health nursing prepare nurses to assume clinical nurse specialist roles with an emphasis on providing direct patient care to persons with major mental disorders and their families. Coursework focuses on the development of advanced practice nursing knowledge and skills required to provide both psychotherapeutic and biological interventions for the management of acute and chronic psychiatric symptoms with a variety of patients in diverse settings. Coursework integrates extant theories and research in the study of advanced health assessment, psychopathology assessment, psychopharmacology, and individual family and group therapy within various community and institutional systems.

Clinical emphasis is on secondary and tertiary psychiatric interventions and outcomes within a managed care context. Students are clinically precepted by certified psychiatric-mental health clinical nurse specialists. Clinical experiences are available in outpatient clinics, community mental health centers, hospitals, schools, and home care agencies. Full-time or part-time students may enroll in the area of study. Current psychiatric nursing experience is strongly encouraged.

Graduates will be academically prepared to take the American Nurses Credentialing Center (ANCC) certification examination for certified specialists in psychiatric-mental health nursing, after obtaining additional required post-master's clinical hours and supervision.

Completion of 42 credits is required for the specialty - 39 credits of required specialty coursework and 3 credits of complementary alternative medicine elective coursework.

**Required Specialty Coursework**

Completion of the following courses for at least 39 credits. Specialty requirements for courses with variable credits: NURS 5229 = 3 credits

- CSPH 5101 - Introduction to Integrative Healing Practices (3.0 cr)
- NURS 5200 - Advanced Holistic Health Assessment for the Advanced Practice Nurse (3.0 cr)
- NURS 5222 - Advanced Human Physiology (2.0 cr)
- NURS 5225 - Psychopharmacology Advanced Practice Psychiatric/Mental Health Nursing (3.0 cr)
- NURS 5226 - Advanced Human Pathophysiology (2.0 cr)
- NURS 5228 - Pharmacology for Advanced Practice Nursing (2.0 cr)
- NURS 5229 - Clinical Pharmacotherapeutics (3.0 - 4.0 cr)
- NURS 6102 - Family Health Theory (2.0 cr)
- NURS 6504 - Assessing, Managing Psychiatric Disorders in Adv Practice Psychiatric-Mental Health Nursing (2.0 cr)
- NURS 6505 - PMH/APN Prac II:Assessing, Managing Psychiatric Disorders in Adv Prac Psychiatric-Mental Health Nurs (2.0 cr)

**Complimentary Alternative Medicine Electives**

Elective coursework is required and chosen in consultation with faculty advisors. Additional options may be permitted with faculty advisor approval.

Take 3 or more credit(s) from the following:

- CSPH 5102 - Art of Healing: Self as Healer (1.0 cr)
- CSPH 5111 - Ways of Thinking about Health (2.0 cr)
- CSPH 5115 - Cultural Awareness, Knowledge and Health (3.0 cr)
- CSPH 5315 - Traditional Tibetan Medicine: Ethics, Spirituality, and Healing (2.0 cr)
- CSPH 5317 - Yoga: Ethics, Spirituality, and Healing (2.0 cr)
- CSPH 5313 - Acupressure (1.0 cr)
- CSPH 5331 - Foundations of Shamanism and Shamanic Healing (2.0 cr)
- CSPH 5401 - People, Plants, and Drugs: Introduction to Ethnopharmacology (3.0 cr)
- CSPH 5421 - Botanical Medicines in Integrative Healthcare (3.0 cr)
- CSPH 5431 - Functional Nutrition: An Expanded View of Nutrition, Chronic Disease, and Optimal Health (2.0 cr)
- CSPH 5503 - Aromatherapy Fundamentals (1.0 cr)
- CSPH 5535 - Reiki Healing (1.0 cr)
- CSPH 5536 - Advanced Reiki Healing: Level II (1.0 cr)
- CSPH 5555 - Introduction to Body and Movement-based Therapies (2.0 cr)
- CSPH 5631 - Healing Imagery I (2.0 cr)
Post-Master's D.N.P.

The post-master's option is for individuals who already hold a master's degree in a nursing practice specialty and who have nursing specialty preparation. The DNP program prepares nurses for leadership as advanced practice nurses, clinical experts, health care executives, policy experts, and informaticians.

Post-master's DNP students complete the core DNP requirements and any additional coursework needed to achieve the 1000 hour practicum requirement. Consult with the DNP program for more information.

Preceptor Supervisor Practicum Hours

Students completing the Post-Master's DNP must complete 1000 supervised hours of practicum. Upon admission, the total hours completed through the master's degree is documented and a gap analysis identifies whether additional practicum hours are needed. The number of credits of appropriate systems-level practicum coursework necessary to meet the 1000-hour requirement, if any, will be determined in consultation with the faculty advisor.

Practicum Course Options

Courses are chosen in consultation with the faculty advisor. Additional options are permitted with advisor approval.

Take 0 or more credit(s) from the following:

- NURS 5117 - Consumer Health Informatics Practicum (2.0 cr)
- NURS 6704 - Nursing Leadership Practicum: Organizational Culture and Leadership (1.0 - 2.0 cr)
- NURS 6706 - Nursing Leadership Practicum: Quality and Change Management (1.0 - 2.0 cr)
- NURS 7106 - Knowledge Representation and Interoperability Practicum (2.0 cr)
- NURS 7109 - Population Health Informatics Practicum (2.0 cr)
- NURS 7401 - Health Policy Leadership Practicum (0.5 - 1.0 cr)
- NURS 7605 - Executive Leadership Practicum: Boundary Spanning Leadership (1.0 - 2.0 cr)
- NURS 7904 - Nursing Education Practicum (2.0 cr)
- NURS 7113 - Clinical Decision Support: Theory (2.0 cr)
- NURS 5812 - Global Health Through Study Abroad (1.0 - 2.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 38
- This program requires summer semesters for timely completion.
- Degree: Master of Arts

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Health coaching is an emerging method of partnering with clients to help them achieve their overall goals. Integrative health coaches practice from a holistic perspective that views the client as intrinsically healthy, whole, wise, and the ultimate expert in their own healing journey. Although health coaches do not diagnose or treat illness, they assist those with health conditions to enhance their healing and change their lifestyle patterns. While an individual may make some changes alone, many changes happen more easily within the structure and support of a partnership, which can be uniquely provided by a health coach. This assistance includes necessary connection to resources, and the assembly of an optimal, interprofessional healthcare team. The ability to perform this role requires that health coaches have a comfortable working knowledge in both conventional and integrative healthcare.

The Earl E. Bakken Center for Spirituality & Healing is a pioneer in the health coaching field, working to advance education, research, and care model innovation. The Master of Arts in Integrative Health and Wellbeing Coaching was the first masters level health coaching degree to be offered through an accredited university in the United States. Graduates of the program work in a multitude of practice settings, including hospitals, clinics, health educational facilities, community centers, senior living centers, fitness venues, corporations, schools, and private practice.

All required coursework is offered in a blended format that combines online curriculum with in person intensives. Students are required to be on campus two extended weekends per semester. The program requires a set of core coaching classes, with additional coursework in integrative nutrition, mind-body science, physical exercise, lifestyle medicine, coaching for chronic conditions, and group health coaching. Six credits of elective courses round out the degree, which gives students the opportunity to take other CSPH courses or to satisfy requirements for a minor in another department. Students finish the program with a 2-credit capstone project.

The Bakken Center for Spirituality & Healing's integrative health coaching programs are accredited by the National Board for Health and Wellness Coaching (NBHWC) (https://nbhwc.org). The Bakken Center has been a national leader in defining the scope of practice, developing educational competencies and standard of practice, and helping to lead the creation of a national certification process and exam in Health and Wellness coaching. Students in the Master of Arts program are eligible to take the national board certification exam after the required core courses are completed (CSPH 5701-5702-5703-5705-5706). In addition, nurses may complete a certification exam as Health and Wellness Nurse Coaches (http://www.ahncc.org/).

Although the instruction is based on research in the field, this Plan B degree is not intended to provide intensive research training and is understood to be a terminal degree.

Program Delivery
This program is available:
- primarily online (at least 80% of the instruction for the program is online with short, intensive periods of face-to-face coursework)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Bachelor's degree in a health-related field or a bachelor's degree in a non-health-related field with specific coursework in psychology, physiology, and statistics from an accredited institution.

Required prerequisites
Required Prerequisites Coursework

Previous coursework in basic psychology, human physiology, and statistics must have been completed. Statistics must be completed within 7 years prior to application. All prerequisites must be completed at an accredited institution for a grade equal to B (3.0) or better.

Other requirements to be completed before admission:
In addition to the University's online application, applicants submit a personal statement describing their goals for the program and their professional qualifications. This three to five page statement should focus on what led to the applicant's interest in health coaching as a professional activity, including a description of interest in, and experience with, holistic integrative health and healing. Three letters of recommendation, transcripts, and a current CV or resume are also required. All items are uploaded into the University's online application. Selected applicants will be invited for admissions interviews.

Special Application Requirements:
The degree is designed for individuals with a bachelor's degree in a health-related field, or for professionals without healthcare backgrounds who have extensive interest in working with individuals and groups to optimize wellbeing, assuming completion of required prerequisites. All applicants must have completed the prerequisite courses in Physiology, Statistics (within past 7 years), and Psychology before beginning core health coaching coursework the Fall semester of entrance. All prerequisite courses must be completed at an accredited institution with a grade equal to B (3.0) or better.

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
  - Paper Based - Total Score: 550
• IELTS
  - Total Score: 6.5
• MELAB
  - Final score: 80

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan B: Plan B requires 32 to 38 major credits and 0 to 6 credits outside the major. The final exam is written and oral. A capstone project is required.

Capstone Project: The capstone is the culminating course for the Master of Arts in Integrative Health and Wellbeing Coaching program. Students use coaching data collected during the Advanced Health Coaching Practicum, Health Coaching Professional Internship, or Group Health Coaching course to write and orally present a research-informed concept analysis and retrospective narrative case report. Prerequisites: Integrative Health and Wellbeing Coaching Master of Arts student, CSPH 5701, 5702, 5703, 5704, 5705, 5706, 5707, 5709* (*may be taken concurrently).

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.0 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.

Up to 3 credits of CSPH courses at the 4xxx-level may be used for elective credits.

Core Required Coursework (23 credits)
Core courses require a grade of B (3.0) or higher, except CSPH 5705 and 8701, which require a grade of S. Final skills assessments for CSPH 5702, 5703, 5705, and 5709 must earn scores of at least 80%. If a core course or skills assessment is not successfully completed, students may be required at instructors' discretion to repeat the course and/or take CSPH 5712 for 1 credit for remediation within one calendar year. CSPH 5712 taken for remediation cannot be counted as an elective.

CSPH 5701 - Fundamentals of Health Coaching I (4.0 cr)
CSPH 5702 - Fundamentals of Health Coaching II (4.0 cr)
CSPH 5703 - Advanced Health Coaching Practicum (3.0 cr)  
CSPH 5704 - Business of Health Coaching (2.0 cr)  
CSPH 5705 - Health Coaching Professional Internship (2.0 cr)  
CSPH 5706 - Lifestyle Medicine (2.0 cr)  
CSPH 5707 - Coaching People with Clinical Conditions (2.0 cr)  
CSPH 5708 - Health and Wellbeing Group Coaching (2.0 cr)  
CSPH 8701 - Integrative Health and Wellbeing Coaching MA Capstone Project (2.0 cr)  

**Additional Required Coursework (9 credits)**  
Each additional required course must be taken on an A-F grading basis and requires a grade of B- or higher. Failure to earn at least a B- may result in required remediation work at the discretion of the instructor, the program director, and the director of graduate studies. Remediation work may include repeating the course for an acceptable grade within one calendar year.  
CSPH 5101 - Introduction to Integrative Healing Practices (3.0 cr)  
CSPH 5431 - Functional Nutrition: An Expanded View of Nutrition, Chronic Disease, and Optimal Health (2.0 cr)  
CSPH 5708 - Mind-Body Science and the Art of Transformation (1.0 cr)  
KIN 5123 - Motivational Interventions in Physical Activity (3.0 cr)  

**Electives (6 credits)**  
Complete 6 CSPH credits. Up to 3 credits may be from 4xxx-level CSPH courses. Electives require a passing grade of C- or higher or S, provided an overall GPA of 3.0 is maintained.  
Take 6 or more credit(s) from the following:  
- CSPH 4311 - Foundations of Hatha Yoga: Alignment & Movement Principles (3.0 cr)  
- CSPH 4312 - Hatha Yoga Philosophy, Lifestyle, & Ethics (3.0 cr)  
- CSPH 4313 - Hatha Yoga Teaching Principles & Methodology (2.0 cr)  
- CSPH 5000 - Explorations in Integrative Therapies and Healing Practices (1.0 - 4.0 cr)  
- CSPH 5102 - Art of Healing: Self as Healer (1.0 cr)  
- CSPH 5111 - Ways of Thinking about Health (2.0 cr)  
- CSPH 5115 - Cultural Awareness, Knowledge and Health (3.0 cr)  
- CSPH 5118 - Whole Person, Whole Community: The Reciprocity of Wellbeing (3.0 cr)  
- CSPH 5121 - Planetary Health & Global Climate Change: A Whole Systems Healing Approach (2.0 cr)

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Integrative Therapies and Healing Practices director of graduate studies regarding feasibility and requirements.
Note that students may not use course credits to satisfy requirements for both a major and the minor.

**Required Course**
All students complete the Introduction to Integrative Therapies and Healing Practices course.
Take 1 or more course(s) totaling 3 or more credit(s) from the following:
- CSPA 5010 - Introduction to Integrative Healing Practices (3.0 cr)

**Elective Options**
AMaster's students complete at least 5 credits and doctoral students complete at least 9 credits to complete the minor.
- CSPA 5000 - Explorations in Integrative Therapies and Healing Practices (1.0 - 4.0 cr)
  or CSPA 5102 - Art of Healing: Self as Healer (1.0 cr)
  or CSPA 5111 - Ways of Thinking about Health (2.0 cr)
  or CSPA 5112 - Cultural Awareness, Knowledge and Health (3.0 cr)
  or CSPA 5118 - Whole Person, Whole Community: The Reciprocity of Wellbeing (3.0 cr)
  or CSPA 5211 - Planetary Health & Global Climate Change: A Whole Systems Healing Approach (2.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

MASTERS

DOCTORAL
Twin Cities Campus
Integrative Therapies & Healing Practices Postbaccalaureate Certificate

Spirituality & Healing, Center for
School of Nursing

Link to a list of faculty for this program.

Contact Information:
Earl E. Bakken Center for Spirituality & Healing, Mayo Memorial Building, Room CS91, MMC 505, 420 Delaware Street SE, Minneapolis, MN 55455 (612-624-9459; fax: 612-626-5280). Email: csh-academics@umn.edu
Website: https://www.csh.umn.edu/

- Program Type: Post-baccalaureate credit certificate/licensure/endorsement
- Requirements for this program are current for Fall 2022
- Length of program in credits: 12 to 20
- This program does not require summer semesters for timely completion.
- Degree: Integrative Therapies and Healing Prac PBacc Cert

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Postbaccalaureate Certificate in Integrative Therapies and Healing Practices is an innovative, interdisciplinary program designed to expose students to a global range of integrative, complementary, cross-cultural, and spiritual healing practices. The program enables students to acquire advanced knowledge and skills to enhance their professional careers, their own lives, and the lives of their patients. Courses augment the preparation of students in health sciences and related disciplines, by developing knowledge and skills in the emerging field of integrative healthcare. Specifically, the certificate provides students with a theoretical basis for applying integrative therapies and healing practices; prepares students to evaluate research in integrative therapies and healing practices; and prepares students to work collaboratively with other health professionals and patients in a multicultural, pluralistic healthcare system.

The curriculum for the 12-credit certificate includes a core introductory course that provides the theoretical foundation for the program and a course in self-care. Students choose additional courses in clinical applications, spirituality, or cross-cultural health and healing. Students are encouraged to choose these elective credits from courses consistent with their academic training and professional goals. A faculty advisor will work with the student in designing a program plan that accommodates each student’s unique learning objectives. The program draws upon the rich expertise of University and community-based faculty who encourage and challenge students to discover new ways of caregiving, and to cultivate diverse skills that will transform their life’s work, experiences, and relationships with others.

The certificate may be completed concurrently with another graduate program or completed independently.

Students have the option to pursue a 20-credit Health Coaching track within the certificate. See the Program Sub-Plan section that follows for more information.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- completely online (all program coursework can be completed online)
- primarily online (at least 80% of the instruction for the program is online with short, intensive periods of face-to-face coursework)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

The certificate requires applicants to have a bachelor’s or higher degree in a healthcare or related field; or board certified chaplains and other backgrounds with work experience in healthcare.

Eligible degrees include medicine, nursing, psychology, nutrition, Traditional Chinese Medicine, chiropractic medicine, naturopathic medicine, pharmacy, social work, and public health.

Other requirements to be completed before admission:
This field of study is designed for the healthcare professional, those currently enrolled in a graduate health professions program, board-
certified chaplains with at least three years in a healthcare setting, and those with a non-healthcare bachelor's degree with direct work experience in health related areas.

The certificate’s Health Coaching track requires an applicant interview prior to admission.

**Special Application Requirements:**
In addition to the University's online application, applicants submit a personal statement describing their goals for obtaining the certificate and their professional qualifications. The statement should address your interest in integrative therapies and short- and long-term professional goals after completing the program. Two letters of recommendation are required, preferably one from an academic source and one from an employer/supervisor. A current C.V. or resume is also required. All items are uploaded directly into the University's online application.

Applicants to the Health Coaching track are required to provide three letters of recommendation and a three-to-five page personal statement focusing on what led to the applicant's interest in Health Coaching as a professional activity, including a description of interest in and experience with holistic integrative health and healing. A current C.V. or resume is also required. All items are uploaded directly into the University's online application. Selected Health Coaching track applicants will be chosen for admissions interviews.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 79
  - Internet Based - Writing Score: 21
  - Internet Based - Reading Score: 19
- Paper Based - Total Score: 550
- IELTS
  - Total Score: 6.5
- MELAB
  - Final score: 80

The preferred English language test is Test of English as Foreign Language.

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

**Program Requirements**
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 2.8 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.

**Required Course (3 credits)**
Students pursuing either the general certificate or the certificate with health coaching track must complete this course.

*CSPH 5101 - Introduction to Integrative Healing Practices (3.0 cr)*

**Certificate Options**
General certificate students (non-Health Coaching track) are required to take CSPH 5102 or 5806, and 8 or more additional credits from the General Certificate list. A maximum of 3 credits of the CSPH 4311/4312/4313 level courses may be counted. Coursework for the certificate with the Health Coaching track is detailed in the sub-plan requirements.

**General Certificate (9 credits)**
Additional required and elective courses for students pursuing the general certificate (non-Health Coaching track).

General certificate students complete one of the two following courses for at least one credit:
- CSPH 5102 - Art of Healing: Self as Healer (1.0 cr)
- CSPH 5806 - Wellbeing and Resiliency for Health Professionals (1.0 cr)

or

**Electives (8 credits)**
Students are encouraged to choose electives, in consultation with their faculty advisor, from CSPH courses consistent with their academic training and professional goals. Up to 3 credits of CSPH courses at the 4xxx-level may be applied to the certificate.

Take 3 or more course(s) totaling 8 or more credit(s) from the following:

- **CSPH 4311** - Foundations of Hatha Yoga: Alignment & Movement Principles (3.0 cr)
- **CSPH 4312** - Hatha Yoga Philosophy, Lifestyle, & Ethics (3.0 cr)
- **CSPH 4313** - Hatha Yoga Teaching Principles & Methodology (2.0 cr)

Health Coaching track
Coursework for the certificate with the health coaching track is detailed in sub-plan requirements.

Program Sub-plans
A sub-plan is not required for this program.
Students may not complete the program with more than one sub-plan.

Integrative Health Coaching
Health coaching is an emerging method of partnering with clients to help them achieve their overall goals. Integrative health coaches practice from a holistic perspective that views the client as intrinsically healthy, whole, wise, and the ultimate expert in their own healing journey. Although health coaches do not diagnose or treat illness, they assist those with health conditions to enhance their healing and change their lifestyle patterns. This assistance includes necessary connection to resources, and the assembly of an optimal,
The Bakken Center for Spirituality & Healing is a pioneer in the health coaching field, working to advance education, research, and care model innovation. Their integrative health coaching programs are accredited by the National Board for Health and Wellness Coaching (NBHWC) (https://nbhwc.org). The Bakken Center has been a national leader in defining the scope of practice, developing educational competencies and standard of practice, and helping to lead the creation of a national certification process and exam in Health and Wellness coaching. Students in the Health Coaching track are eligible to take the national board certification exam after completing the required coursework. Nurses may also complete a certification as Health and Wellness Nurse Coaches (http://www.ahncc.org/).

In addition to the required CSPH 5101 introduction course, students complete the health coaching track course requirements for a minimum of 20 credits. Students are strongly encouraged to confer with their faculty advisor concerning the specific sequence in which the track coursework must be taken. Courses require a grade of B (3.00) or higher except for CSPH 5705, which is S/N only.

Coursework may be completed in a minimum of four semesters or may be spread over a variable amount of time up to a maximum of four years. The curriculum provides education in the coaching process, the therapeutic alliance, and successful interprofessional communication. Students finish the program with a professional internship experience.

**Health Coaching track requirements (17 credits)**

Final skills assessments for CSPH 5702, 5703, and 5705 must earn scores of at least 80%. If a core course or skills assessment is not successfully completed, students may be required at instructors’ discretion to repeat the course and/or take CSPH 5712 for 1 credit for remediation.

- CSPH 5701 - Fundamentals of Health Coaching I (4.0 cr)
- CSPH 5702 - Fundamentals of Health Coaching II (4.0 cr)
- CSPH 5703 - Advanced Health Coaching Practicum (3.0 cr)
- CSPH 5704 - Business of Health Coaching (2.0 cr)
- CSPH 5705 - Health Coaching Professional Internship (2.0 cr)
- CSPH 5706 - Lifestyle Medicine (2.0 cr)
Leadership in Health Information Technology for Health Professionals
Postbaccalaureate Certificate
School of Nursing
School of Nursing

Website: http://www.nursing.umn.edu

- Program Type: Post-baccalaureate credit certificate/licensure/endorsement
- Requirements for this program are current for Fall 2022
- Length of program in credits: 16
- This program requires summer semesters for timely completion.
- Degree: Ldrshp in Hlth Info Tec for Hlth Pro PBacc Cert

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

By combining formal clinical or public health advanced preparation with course work in health information technology (HIT), individuals who earn the postbaccalaureate certificate in leadership in health information technology for health professionals will be able to lead the successful deployment and use of HIT to achieve transformational improvement in the quality, safety, outcomes, and thus in the value of health services.

Program Delivery
This program is available:
- primarily online (at least 80% of the instruction for the program is online with short, intensive periods of face-to-face coursework)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Admittance to the program requires a baccalaureate degree from an accredited institution in a clinical or public health discipline. Example degrees would be a BS/BA in nursing or public health.

Preferred: Advanced degree in clinical or public health discipline from an accredited institution (nursing MS/DNP/PhD; public health MPH/MS/PhD; MS/PhD in other health-related field)

Other requirements to be completed before admission:
Applicants must have clinical or public health experience. A minimum of two years of management experience is required if the applicant does not hold an advanced degree.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 95
  - Paper Based - Total Score: 587
- MELAB
  - Final score: 85

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (TOEFL, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

**Required Coursework (16 credits)**

Take the following courses:
- **NURS 5115** - Interprofessional Health Care Informatics (3.0 cr)
- **NURS 5611** - Database Principles for Healthcare (2.0 cr)
- **NURS 6105** - Systems Analysis and Design (3.0 cr)
- **NURS 7051** - Data Science for Healthcare (2.0 cr)
- **NURS 7105** - Knowledge Representation and Interoperability (2.0 cr)
- **NURS 7108** - Population Health Informatics (2.0 cr)
- **NURS 7113** - Clinical Decision Support: Theory (2.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 51
- This program requires summer semesters for timely completion.
- Degree: Master of Nursing

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The master of nursing degree (MN) is an accelerated, entry level, full-time, 16-month, graduate-level program for students with a baccalaureate (or higher) degree in a non-nursing field. The program includes all the essentials of a bachelor of science in nursing (BSN) program, plus additional graduate work. Upon completion of the coursework, students are eligible to take the National Council Licensure Examination for Registered Nurses (NCLEX-RN) and are also eligible for Public Health Nursing (PHN) certification in Minnesota. Traditional classroom formats are complemented by interactive components such as simulation. Variable practicum hours and required throughout the program at partner practicum sites.

Accreditation
This program is accredited by Commission on Collegiate Nursing Education (CCNE).

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Completion of a baccalaureate degree from an accredited institution in a non-nursing area of study completed no later than June 1 prior to start of fall semester for year admitted.

Other requirements to be completed before admission:
There are nine prerequisite courses to complete before the start of the master of nursing (MN) program: General Chemistry, Human Anatomy, Human Physiology, Microbiology, Pathology, Human Nutrition, Lifespan Growth and Development, Abnormal Psychology, Inferential Statistics.

Five courses must be completed, with final grades sent to the School of Nursing, by the application deadline. Students are recommended to make three of the five courses their science courses.

Special Application Requirements:
Prior to matriculation to the program, students must complete a Minnesota background check, immunizations, submit provider-level CPR verification, and meet the School of Nursing published technical standards. Application to the Master of Nursing program is available on the School of Nursing website. After a preliminary review of submitted materials, selected applicants are invited to participate in an interview with representatives of the admissions committee.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 95
  - Paper Based - Total Score: 586
- IELTS
- Total Score: 7

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

**Program Requirements**

**Plan C:** Plan C requires 51 major credits and up to null credits outside the major. The is no final exam.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

Students must maintain the compliance requirements (Minnesota background check, immunizations, provider-level CPR verification, and School of Nursing published technical standards) throughout the program.

**Required Coursework**

- **NURS 5029** - Introduction to Nursing Interventions (3.0 cr)
- **NURS 5030** - Foundational Concepts of Professional Nursing (3.0 cr)
- **NURS 5031** - Human Response to Health and Illness: Adults and Elders (4.0 cr)
- **NURS 5032** - Human Response to Health and Illness: Children and Childbearing Families (5.0 cr)
- **NURS 5033** - Population-Focused Health in Public Health and Mental Health Nursing (5.0 cr)
- **NURS 5034** - Transition to Professional Nursing Practice (3.0 cr)
- **NURS 5035** - Practicum Nursing Care for Complex Health Conditions (4.0 cr)
- **NURS 5115** - Interprofessional Health Care Informatics (3.0 cr)
- **NURS 5190** - Essentials of Holistic Health Assessment and Foundational Clinical (3.0 cr)
- **NURS 5222** - Advanced Human Physiology (2.0 cr)
- **NURS 5226** - Advanced Human Pathophysiology (2.0 cr)
- **NURS 5241** - Nursing Leadership for Effective Practice (2.0 cr)
- **NURS 6200** - Science of Nursing Intervention (3.0 cr)
- **NURS 7202** - Moral and Ethical Positions and Actions in Nursing (2.0 cr)
- **NURS 7600** - Nursing Research and Evidence Based Practice (4.0 cr)

- This program requires summer semesters for timely completion.
- Degree: Nurse Midwifery Certificate

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The postgraduate certificate program in nurse midwifery offers students with a doctor of nursing practice (DNP) or other graduate degree in a clinical nursing specialty area the opportunity to complete an additional area of study. Completion of required coursework and practice hours provides eligibility to take certification examinations.

Accreditation
This program is accredited by American Midwifery Certification Board & Commission on Collegiate Nursing Education (CCNE).

Program Delivery
This program is available:
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

DNP with coursework in the 3 of the 5 following subject areas: adv. physiology, adv. pathophysiology, pharmacology, pharmacotherapeutics, adv.health assessment is required for admission to this program

Other requirements to be completed before admission:
All applicants must have a current registered nurse license.

Special Application Requirements:
Applicants are required to submit transcripts from all institutions where postsecondary credit was earned, reference materials containing an Admission Reference Form and personal letter of reference from two separate individuals, two essays, a current curriculum vitae/resume, a current registered nurse license, and English language proficiency scores (if applicable). Application deadlines for this certificate are a priority deadline of November 1, with rolling admissions on a space available basis until March 1.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 95
  - Paper Based - Total Score: 586
- MELAB
  - Final score: 85

The preferred English language test is Test of English as Foreign Language

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Information current as of November 07, 2022
Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.

Please contact the School of Nursing for detailed information about the requirements for this certificate. Each applicant's curriculum is unique and based on the applicant's previous DNP degree and coursework. Final coursework decisions are made by the faculty advisor. A 3.0 cumulative GPA is required.

Specialty Courses (24 Credits)
Complete the following required specialty courses for the certificate. Credit requirements for courses with variable credits: Take NURS 6305 for 3 credits; NURS 6308 for 2 credits; and NURS 6925 for 2 credits.

- NURS 6210 - Midwifery Care of the Childbearing Family (3.0 cr)
- NURS 6211 - Midwifery Care of the Childbearing Family Practicum (2.0 cr)
- NURS 6213 - Reproductive Healthcare for Patients with Complex Conditions (2.0 cr)
- NURS 6214 - Reproductive Health Care for Patients with Complex Conditions Practicum (2.0 cr)
- NURS 6302 - Racism and Health Disparity Prevention for Midwives (1.0 cr)
- NURS 6305 - Reproductive and Sexual Health Care (3.0 cr)
- NURS 6306 - Reproductive and Sexual Health Practicum (1.0 cr)
- NURS 6308 - Women's Primary Care Practicum (1.0 - 2.0 cr)
- NURS 6501 - Assessment and Management of Health for Advanced Practice Nurses, I (3.0 cr)
- NURS 6925 - Advanced Concepts in Reproductive and Sexual Health Care (2.0 - 3.0 cr)
- NURS 7213 - Midwifery Clinical and Professional Integration (3.0 cr)

Advanced Practice Registered Nurse Core Courses (0 to 12 Credits)
Completion of the following coursework is required for the post-graduate certificate program. Students who have not completed these courses or their equivalents prior to admission must do so to meet requirements. Consult with the Doctor of Nursing Practice Program Director to evaluate prior APRN coursework for equivalency. NURS 5229 must be taken for 3 credits.

- NURS 5200 - Advanced Holistic Health Assessment for the Advanced Practice Nurse (3.0 cr)
- NURS 5222 - Advanced Human Physiology (2.0 cr)
- NURS 5226 - Advanced Human Pathophysiology (2.0 cr)
- NURS 5228 - Pharmacology for Advanced Practice Nursing (2.0 cr)
- NURS 5229 - Clinical Pharmacotherapeutics (3.0 - 4.0 cr)

Labor and Delivery Competencies (2 Credits)
Students are required to complete NURS 5505 if they do not have labor and delivery experience as a registered nurse.

- NURS 5505 - Assessment and Support of Individuals in Labor (2.0 cr)

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 60 to 73
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The PhD program in nursing prepares scholars as scientists, leaders, innovators, and educators in nursing who:
- Discover new knowledge for nursing science practice through innovative, theory-based, ethical research;
- Integrate knowledge to influence health care delivery and policy through collaborative, interprofessional initiatives at organizational, local, state, regional, national, and global levels;
- Create and evaluate strategies to improve the health and well-being of individuals, families, communities, and populations; and
- Disseminate knowledge to those in nursing, other health sciences, policy makers, and the public through scholarly publication, formal teaching, and other creative venues.

The PhD in Nursing courses are delivered with blended instruction offering students the flexibility to attend class in person or connect in a synchronous remote format, both with some asynchronous activities. All students will come to campus for a for-credit 4-day immersive experience to engage with fellow students and PhD faculty. The intensives take place in late August for newly admitted students and annually in late May.

Accreditation
This program is accredited by Commission on Collegiate Nursing Education (CCNE).

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- primarily online (at least 80% of the instruction for the program is online with short, intensive periods of face-to-face coursework)

Program Requirements

36 to 49 credits are required in the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

Core Coursework (26 credits)
Take the following courses. Take 1 credit of NURS 8177.
- **NURS 8131** - Theory in Nursing Research (4.0 cr)
- **NURS 8132** - Qualitative Research for Nursing and Health Care (4.0 cr)
- **NURS 8141** - Designing Quantitative and Intervention Nursing Research (3.0 cr)
- **NURS 8142** - Quantitative Data Collection Methods and Measurement for Nursing Research (3.0 cr)
- **NURS 8152** - Advanced Ethics in Nursing Research and Scholarship (2.0 cr)
- **NURS 8153** - Developing Research Proposals in Nursing or Health Sciences (2.0 cr)
- **NURS 8177** - Advanced Nursing Research Practicum (1.0 - 2.0 cr)
- **NURS 8190** - Critical Review in Nursing and Health Research (2.0 cr)
- **NURS 8201** - Transition to Becoming a Scientist of Nursing (1.0 cr)
- **NURS 8202** - Developing a Foundation as a Scientist of Nursing (1.0 cr)
- **NURS 8203** - Expanding Leadership and Team Skills of the Scientist of Nursing (1.0 cr)
- **NURS 8204** - Transition to Post-PhD Roles and Scholarship (1.0 cr)
- **NURS 8255** - Dissertation Seminar (1.0 cr)

Statistics (6 credits)
Select at least 6 statistics credits from the following in consultation with the faculty advisor:
- **Biostatistics**
  - **PUBH 6450** - Biostatistics I (4.0 cr)
  - **PUBH 6451** - Biostatistics II (4.0 cr)
- **or EPSY 8251** - Statistical Methods in Education I (3.0 cr)
- **EPSY 8252** - Statistical Methods in Education II (3.0 cr)

Electives (4 credits)
Select at least 4 credits from the following in consultation with the advisor:
- **NURS 7051** - Data Science for Healthcare (2.0 cr)
- **NURS 8195** - Mixed Methods Research (2.0 cr)
- **NURS 8212** - Planetary Health: Cross-Cutting Principles for Nursing Research (2.0 cr)
- **NURS 8215** - Emerging Topics in Nursing Research and Health Sciences (2.0 cr)

Thesis Credits
Take at least 24 doctoral thesis credits.
- **NURS 8888** - Thesis Credit: Doctoral (1.0 - 24.0 cr)

Graduate Nursing Foundation Coursework
All students, with the exception of those with a completed Nursing MS degree, complete the following foundational coursework in consultation with the advisor.

Students New to Nursing (13 credits)
Students with a non-nursing baccalaureate or graduate degree take the following courses:
- **CSPH 5101** - Introduction to Integrative Healing Practices (3.0 cr)
- **NURS 5030** - Foundational Concepts of Professional Nursing (3.0 cr)
- **NURS 6200** - Science of Nursing Intervention (3.0 cr)
- **NURS 7000** - DNP Proseminar (1.0 cr)
- **NURS 7610** - System Leadership and Innovation (3.0 cr)

-OR-

Entry-level Nurses (10 credits)
Students with a baccalaureate or entry-level masters degree in nursing take the following courses:
- **CSPH 5101** - Introduction to Integrative Healing Practices (3.0 cr)
- **NURS 6200** - Science of Nursing Intervention (3.0 cr)
- **NURS 7000** - DNP Proseminar (1.0 cr)
- **NURS 7610** - System Leadership and Innovation (3.0 cr)

- Program Type: Post-baccalaureate credit certificate/licensure/endorsement
- Requirements for this program are current for Fall 2022
- Length of program in credits: 16 to 28
- This program requires summer semesters for timely completion.
- Degree: Pediatric Nurse Practitioner - Acute Care Cert

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The postgraduate certificate program in nursing offers students with a doctor of nursing practice (DNP) degree in a clinical nursing specialty area the opportunity to complete an additional area of study. Completion of required coursework and practice hours provides eligibility to take certification examination.

Accreditation
This program is accredited by Commission on Collegiate Nursing Education (CCNE).

Program Delivery
This program is available:
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

DNP with coursework in the 3 of the 5 following subject areas: adv. physiology, adv. pathophysiology, pharmacology, pharmacotherapeutics, adv. health assessment is required for admission to this program.

Other requirements to be completed before admission:
All applicants must have a current registered nurse license.

Special Application Requirements:
Applicants are required to submit transcripts from all institutions where post-secondary credit was earned, reference materials containing an Admission Reference Form and personal letter of reference from two separate individuals, two essays, a current curriculum vitae/resume, a current registered nurse license, and English language proficiency scores (if applicable).

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 95
  - Paper Based - Total Score: 586
- MELAB
  - Final score: 85

Key to test abbreviations (TOEFL, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

- Degree: Population Health Informatics & Tech PBacc Cert

Along with the program-specific requirements listed below, please read the [General Information](http://nursing.umn.edu) section of the catalog website for requirements that apply to all major fields.

The Population Health Informatics and Technology (PHIT) Post-Baccalaureate Certificate prepares trainees to harness the power of data for improving public and population health. Students will learn about various information systems in public health, electronic data exchanges and tools for consumer engagement along with the utility of data for health equity and better population health. The certificate courses are offered in a fully online format and includes a practicum that provides experience in public health and non-profit care settings. The PHIT certificate is funded in part by a grant from the Office of the National Coordinator for Health Information Technology for Public Health IT Workforce Development.

### Program Delivery

This program is available:
- completely online (all program coursework can be completed online)

### Prerequisites for Admission

The preferred undergraduate GPA for admittance to the program is 3.00.

Admittance to the program requires a baccalaureate degree from an accredited institution.

Other requirements to be completed before admission:
- A personal statement describing professional qualifications and goals after completing the certificate program must be uploaded to the online application.
- Applicants must submit a current curriculum vitae (preferred) or resume complete with professional accomplishments and activities.
- Applicants must submit two professional reference letters which attest to the applicants potential for program success (preparation, initiative, and aptitude) and commitment to the profession.

### Special Application Requirements:

International students who want to attend this program on a student visa should contact the University’s International Student and Scholar Services (ISSS) office at [https://isss.umn.edu/](https://isss.umn.edu/).

International applicants must submit score(s) from one of the following tests:
- **TOEFL**
  - Internet Based - Total Score: 95
  - Paper Based - Total Score: 586
- **MELAB**
  - Final score: 85

The preferred English language test is Test of English as Foreign Language

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

NOTE: Applications to the Advanced Management Training for Clinician Leaders Certificate program are not being accepted at this time. For more information, please contact sph-ask@umn.edu.

The Regents Certificate in Advanced Management Training for Clinician Leaders is intended for clinicians employed by integrated health systems who will take on critical and expanded roles as executives and managers. This one-year course of study will prepare clinician leaders for successful innovation in emerging forms of healthcare organizations, bring new healthcare leaders with clinical backgrounds into network relationships with other administrators, and consider new approaches to strategy and success in healthcare that are specific to integrated systems.

Program Delivery
This program is available:
- primarily online (at least 80% of the instruction for the program is online with short, intensive periods of face-to-face coursework)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Applicants must have at least two years experience in a US-based healthcare organization that either has developed or is considering integrated system relationships. International applications will be considered on a case-by-case basis with special attention paid to the nature and structure of their employing organizations.

Special Application Requirements:
NOTE: Applications to the Advanced Management Training for Clinician Leaders Certificate program are not being accepted at this time. For more information, please contact sph-ask@umn.edu.
Applicants must submit a letter of intent describing career interests and the relevance of the certificate to the applicant's personal development. One letter of recommendation from a person qualified to assess the applicant's academic work; clinical, public health or professional experience; or leadership potential in integrated health systems is required.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7

Key to test abbreviations (TOEFL, IELTS).
For an online application or for more information about graduate education admissions, see the [General Information](#) section of the catalog website.

**Program Requirements**

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

The certificate is build on a cohort model and comprises 13 credits: five 2-credit courses, one 1-credit face-to-face course and a 2-credit face-to-face practicum. Students will be required to attend on-campus sessions twice during the program. The first on-campus session will be four days in length, during which students will complete a 1-credit course, PUBH 7571. The second session will be held at the end of the program over three days, during which students will present their capstone projects.

**Requirements**

The certificate requires 13 total credits. PUBH 7571, PUBH 7572, along with four brand-new courses and a practicum/capstone project (each offered as topics courses via PUBH 6570) make up the requirements for the program. Students complete PUBH 7571 while on campus during for four days at the start of the program, and will complete five courses online during the remaining 12 months. Students will present their capstone projects completed for the practicum during their final three days on campus.

- **PUBH 7572** - Health Care Strategies in Competitive Markets (2.0 cr)
- **PUBH 6570** - Healthcare Administration (1.0 - 4.0 cr)

- Requirements for this program are current for Fall 2022
- Length of program in credits: 12
- This program does not require summer semesters for timely completion.
- Degree: Aging Studies PBacc Certificate

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

NOTE: Applications to the Aging Certificate program are not being accepted at this time. For more information, please contact sph-ask@umn.edu. The Certificate on Aging is a 12-credit graduate level program with some courses offerings available online, as well as in a face-to-face format. The certificate is designed to increase knowledge and understanding in the multifaceted field of human aging. This interdisciplinary program provides students with the background and confidence necessary to meet the challenges of serving the aging population. The courses are offered through the Center on Aging within the Division of Health Policy and Management.

Aging studies at the University of Minnesota involves an interdisciplinary approach to gerontology for those individuals who hold at least a bachelor's degree. The interdisciplinary nature of the program embraces different backgrounds and interests, and is suitable for graduates from any major.

The primary purpose of aging studies is to prepare professionals for work in programs, businesses, organizations, and agencies that address the needs of an aging population. Examples include the following: hospitals, long-term care facilities, education, clinics, home health care agencies, hospice and end-of-life care organizations, insurance groups, counseling and social services, physician groups, financial planning, architecture and design, public policy makers, and nursing.

Accreditation
This program is accredited by CEPH

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Special Application Requirements:
NOTE: Applications to the Aging Certificate program are not being accepted at this time. For more information, please contact sph-ask@umn.edu. Students who have completed 16-semester credits/24-quarter credits (within the past 24 months) in an academic program in a recognized institution of higher learning in the U.S. do not need to submit the TOEFL as part of the application process.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600

- **GERO 5125** - Gerontology Service Learning (1.0 - 3.0 cr)
- **SOC 8590** - Topics in Life Course Sociology (3.0 cr)
- **PUBH 6904** - Nutrition and Aging (2.0 cr)
American Indian Public Health and Wellness Minor

Contact Information:
School of Public Health, MMC 819, Room A395 Mayo Memorial Building, 420 Delaware Street SE, Minneapolis, MN 55455 (612-626-3500 or 1-800-774-8636)
Email: sph.ask@umn.edu
Website: http://www.sph.umn.edu

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

This minor is designed to help students understand how to work respectfully and effectively with federally recognized Tribes and American Indian communities, to understand the basis of health and wellness services, and the implications of specific tribal (local and federal) law to help improve the devastating health issues currently experienced by American Indians.

Students from all races, cultures, and experiences are welcome to declare the Minor. While the focus is on American Indians, there are advantages to learning accurate history, other populations' prevention health models, innovative humility and health in all services, and the importance of using a holistic approach of health and wellness for all populations.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)
• partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Students must be enrolled in a University master's or doctoral degree-granting program. Consult with the program advisor, then contact the American Indian Public Health and Wellness director of graduate studies regarding requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Required courses must be taken A-F, and a minimum grade of B- must be earned.
The overall minimum GPA for coursework applied to the minor is 3.0.

Required Coursework (6 credits)
Take the following courses:
PUBH 6241 - American Indian Public Health and Wellness, Health Policy, Law, Health Services Administration (2.0 cr)
PUBH 6242 - Cultural Humility with American Indian Populations (2.0 cr)
PUBH 6243 - American Indian Research, Evaluation and Collaborations (2.0 cr)

Program Sub-plans

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of November 07, 2022
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

**Masters**

**Doctoral Electives (6 credits)**
Select elective credits, in consultation with the advisor and the American Indian Public Health and Wellness director of graduate studies, to complete the 12-credit minimum.

- **AMIN 5107** - The Structure of Anishinaabemowin: The Ojibwe Language (3.0 cr)
- **AMIN 5141** - American Indian Language Planning (3.0 cr)
- **AMIN 5202** - Indigenous Peoples and Issues Before the United States Supreme Court (3.0 cr)
- **AMIN 5402** - American Indians and the Cinema [AH, DSJ] (3.0 cr)
- **AMIN 5412** - Comparative Indigenous Feminisms [GP] (3.0 cr)
- **AMIN 5890** - Readings in American Indian and Indigenous History (3.0 cr)
- **AMIN 8910** - Topics in American Indian and Indigenous Studies (1.0 - 3.0 cr)
- **CI 8645** - Indigenous Language Revitalization and Activist Research Methods (3.0 cr)
- **CSPH 5212** - Peacebuilding Through Mindfulness: Transformative Dialogue in the Global Community (3.0 cr)
- **DAKO 5126** - Advanced Dakota Language I (3.0 cr)
- **DAKO 5129** - Advanced Dakota Language II (3.0 cr)
- **LAW 6236** *(Inactive)*
- **OJIB 5106** - Advanced Ojibwe Language I (3.0 cr)
- **OJIB 5109** - Advanced Ojibwe Language II (3.0 cr)
- **OJIB 5202** - Ojibwe Mastery I (3.0 cr)
- **PUBH 6244** - American Indian Health & Wellness Equity (2.0 cr)
- **PUBH 6245** - American Indian Environmental Health Tribal Case Studies (2.0 cr)
- **PUBH 6246** - General History of American Indians Post Colonization and Review of Historical Trauma (2.0 cr)
American Indian Public Health and Wellness Post-Baccalaureate Certificate

School of Public Health

- Program Type: Post-baccalaureate credit certificate/licensure/endorsement
- Requirements for this program are current for Fall 2022
- Length of program in credits: 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The American Indian Public Health and Wellness certificate prepares students to understand how to work respectfully and effectively with Tribes and American Indian communities, to understand the basis of health services, and study the implication of specific local and federal laws to improve the health issues currently experienced by American Indians.

Students from all races, cultures, and experience are welcome to pursue the certificate. While the focus is on American Indians, there are advantages to learning accurate history, other health models, innovative health services, and the importance of using a holistic approach of health and wellness for all populations. Increasing the knowledge of health professionals (e.g., state, federal, educational institutions and private public health employees) and increasing a culturally prepared workforce is the aim of this certificate.

The School of Public Health is accredited by the Council on Education for Public Health (CEPH).

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

Required Coursework (6 credits)
Take the following courses. All required courses must be taken A-F.
- PUBH 6241 - American Indian Public Health and Wellness, Health Policy, Law, Health Services Administration (2.0 cr)
- PUBH 6242 - Cultural Humility with American Indian Populations (2.0 cr)
- PUBH 6243 - American Indian Research, Evaluation and Collaborations (2.0 cr)

Electives (6 credits)
Choose electives in consultation with the advisor to complete the 12-credit minimum.
- AMIN 5107 - The Structure of Anishinaabemowin: The Ojibwe Language (3.0 cr)
- AMIN 5141 - American Indian Language Planning (3.0 cr)
- AMIN 5202 - Indigenous Peoples and Issues Before the United States Supreme Court (3.0 cr)
- AMIN 5402 - American Indians and the Cinema [AH, DSJ] (3.0 cr)
- AMIN 5409 - American Indian Women: Ethnographic and Ethnohistorical Perspectives [HIS, DSJ] (3.0 cr)
AMIN 5412 - Comparative Indigenous Feminisms [GP] (3.0 cr)
AMIN 5890 - Readings in American Indian and Indigenous History (3.0 cr)
AMIN 8910 - Topics in American Indian and Indigenous Studies (1.0 - 3.0 cr)
ANTH 5601 - Archaeology and Native Americans [DSJ] (3.0 cr)
CI 8645 - Indigenous Language Revitalization and Activist Research Methods (3.0 cr)
CSPH 5212 - Peacebuilding Through Mindfulness: Transformative Dialogue in the Global Community (3.0 cr)
PUBH 6244 - American Indian Health & Wellness Equity (2.0 cr)
PUBH 6245 - American Indian Environmental Health Tribal Case Studies (2.0 cr)
PUBH 6246 - General History of American Indians Post Colonization and Review of Historical Trauma (2.0 cr)

• Program Type: Post-baccalaureate credit certificate/licensure/endorsement
• Requirements for this program are current for Fall 2022
• Length of program in credits: 15
• This program requires summer semesters for timely completion.
• Degree: Applied Biostatistics PBacc Cert

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

This primarily online certificate program is designed for working biostatisticians, such as data managers and analysts, who are not formally trained and want to improve their technical, mathematical, and computational skills.

The certificate focuses on key aspects of study design, implementation, and analysis for observational and clinical studies.

The School of Public Health is accredited by the Council on Education for Public Health (CEPH).

Accreditation
This program is accredited by Council on Education for Public Health (CEPH)

Program Delivery
This program is available:
• primarily online (at least 80% of the instruction for the program is online with short, intensive periods of face-to-face coursework)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Admission preferences and prerequisites:
- Bachelor's degree
- Strong GPA in math and science coursework
- Strong written skills
- Work experience

Special Application Requirements:
Applicants must submit to SOPHAS Express, a centralized online application service:
- Completed SOPHAS Express application and application fee, designating the University of Minnesota School of Public Health
- Personal statement describing the applicant's reason for applying, career goals, and how the certificate will help them achieve their goals
- One letter of recommendation
- Unofficial transcripts of record from each college/university where a degree was earned. (If admitted, official transcripts will need to be sent directly to the School of Public Health.)
- Resume or C.V.

For detailed application requirements and instructions visit www.sph.umn.edu.

International applicants must submit score(s) from one of the following tests:
• TOEFL
- Internet Based - Total Score: 100
- Paper Based - Total Score: 600
• IELTS
  - Total Score: 7

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

Courses must be taken A-F, unless offered only S/N. The minimum grade for each A-F graded course is B-.

**Required Coursework (15 credits)**
Select PUBH 6431 or PUBH 6432 in consultation with the advisor.
- PUBH 6450 - Biostatistics I (4.0 cr)
- PUBH 6451 - Biostatistics II (4.0 cr)
- PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)
- PUBH 7415 - Introduction to Clinical Trials (3.0 cr)
- PUBH 6431 - Topics in Hierarchical Bayesian Analysis (1.0 cr)
  or PUBH 6432 - Biostatistical Methods in Translational and Clinical Research (1.0 cr)
Twin Cities Campus

Website: http://www.sph.umn.edu

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 36
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The biostatistics master's degree programs teach and develop statistical skills to put numbers into context as part of public health research for solving human health-related problems. With an MS in biostatistics, students will have the skills to collaborate on the design of biomedical studies, analyze data, and communicate the results for researchers.

The School of Public Health is accredited by the Council on Education for Public Health (CEPH).

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.10.

Other requirements to be completed before admission:
The admissions committee reviews applicants according to their record of academic achievement, demonstrated academic potential, letters of recommendation, background and experience, and other factors. GPA and standardized test scores provide competitive points of preference for admission but are not alone decisive in the admissions review. At least three semesters of calculus (including multivariable calculus) and one semester of linear algebra, as well as a year (two semesters) of coursework in undergraduate-level probability and mathematical statistics are recommended. Experience with a programming language (e.g., R, Java, C, Python) and exposure to applied statistics is helpful, but not required.

Special Application Requirements:
Applications are accepted for fall semester admission only.

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
• IELTS
  - Total Score: 7
• MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Information current as of November 07, 2022
Program Requirements

Plan B: Plan B requires 36 major credits and up to null credits outside the major. The final exam is oral. A capstone project is required.

Capstone Project: PUBH 7494, Integrated Learning Experience, 1 credits

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

Courses offered on both the A-F and S/N grading basis must be taken A-F.

Biostatistics Plan B Requirements (36 credits)
In consultation with advisor, students complete 36 credits.

Biostatistics Core (18 credits)
- PUBH 7405 - Biostatistical Inference I (4.0 cr)
- PUBH 7406 - Biostatistical Inference II (3.0 cr)
- PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)
- PUBH 7450 - Survival Analysis (3.0 cr)
- PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
- PUBH 7465 - Biostatistics Consulting (2.0 cr)
- STAT 5101 - Theory of Statistics I (4.0 cr)
  or STAT 8101 - Theory of Statistics 1 (3.0 cr)
- STAT 5102 - Theory of Statistics II (4.0 cr)
  or STAT 8102 - Theory of Statistics 2 (3.0 cr)

Public Health Foundations (2 credits)
- PUBH 6250 - Foundations of Public Health (2.0 cr)

Biostatistics Electives (9 credits)
Students complete courses in consultation with advisor to meet the 36-credit minimum.

Computing and Machine Learning (3 credits)
Take 3 or more credit(s) from the following:
- PUBH 6420 - Introduction to SAS Programming (1.0 cr)
- PUBH 7460 - Advanced Statistical Computing (3.0 cr)
- PUBH 7461 - Exploring and Visualizing Data in R (2.0 cr)
- PUBH 7462 - Advanced Programming and Data Analysis in R (2.0 cr)
- PUBH 7475 - Statistical Learning and Data Mining (3.0 cr)

Additional Electives (6 credits)
Take 6 or more credit(s) from the following:
- PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
- PUBH 7445 - Statistics for Human Genetics and Molecular Biology (3.0 cr)
- PUBH 7470 - Study Designs in Biomedical Research (3.0 cr)
- PUBH 7485 - Methods for Causal Inference (3.0 cr)
- PUBH 8472 - Spatial Biostatistics (3.0 cr)

Plan B Project (1 credit)
- PUBH 7494 - Integrative Learning Experience: Biostatistics (1.0 - 3.0 cr)
Twin Cities Campus

Contact Information:
School of Public Health, MMC 819, A395 Mayo Memorial Building, 420 Delaware Street, Minneapolis, MN 55455 (612-626-3500 OR 1-800-774-8636)
Email: sph-ask@umn.edu
Website: http://www.sph.umn.edu

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12 to 14
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The minor in Biostatistics is designed to familiarize students with the statistical tools necessary to analyze health science data. By taking public health courses focused on the fundamentals of statistical methodologies and programming techniques, students will gain skills that enable them to be involved in the design and analysis of quantitative studies as part of their future professional career or graduate study in an applied field.

The School of Public Health is accredited by the Council on Education for Public Health (CEPH).

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Students interested in the minor are strongly encouraged to confer first with their major field advisor and director of graduate studies, and the Biostatistics director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Minor courses may require prerequisites.

PhD students must obtain pre-approval from the Biostatistics director of graduate studies for proposed minor field coursework.

No more than one course can be taken S/N. Approval by the Biostatistics director of graduate studies is required.

The minimum cumulative GPA for minor coursework is 3.00.

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters

**Required Courses (6 credits)**
Select 6 credits from the following in consultation with the Biostatistics director of graduate studies:

- PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
- PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
- PUBH 7445 - Statistics for Human Genetics and Molecular Biology (3.0 cr)
- PUBH 7450 - Survival Analysis (3.0 cr)
- PUBH 7470 - Study Designs in Biomedical Research (3.0 cr)
- PUBH 7475 - Statistical Learning and Data Mining (3.0 cr)
- PUBH 7485 - Methods for Causal Inference (3.0 cr)

Students may take 7415 or 7420 but not both.

- **PUBH 7415** - Introduction to Clinical Trials (3.0 cr)
- **or PUBH 7420** - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)

Doctoral

**Coursework Options**

**Coursework for Statistics PhD students (12 credits)**

**Required Courses (6 credits)**
Take the following courses:

- PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)
- PUBH 7450 - Survival Analysis (3.0 cr)

**Electives (6 credits)**
Select at least 6 credits, in consultation with the Biostatistics director of graduate studies, from the following list:

- PUBH 8442 - Bayesian Decision Theory and Data Analysis (3.0 cr)
- PUBH 8452 - Advanced Longitudinal Data Analysis (3.0 cr)
- PUBH 8462 - Advanced Survival Analysis (3.0 cr)
- PUBH 8472 - Spatial Biostatistics (3.0 cr)
- PUBH 8475 - Statistical Learning and Data Mining (3.0 cr)
- PUBH 8482 - Sequential and Adaptive Methods for Clinical Trials (3.0 cr)
- PUBH 8485 - Methods for Causal Inference (3.0 cr)

**or Coursework for non-Statistics PhD students (13 to 14 credits)**

**Required Course Sequence (7 to 8 credits)**
Select one of the following course sequences, in consultation with the Biostatistics director of graduate studies:

**Sequence 1**

- PUBH 7401 - Fundamentals of Biostatistical Inference (4.0 cr)
- PUBH 7402 - Biostatistics Modeling and Methods (4.0 cr)

**or Sequence 2**

- PUBH 7405 - Biostatistical Inference I (4.0 cr)
- PUBH 7406 - Biostatistical Inference II (3.0 cr)

**Electives (6 credits)**
Select at least 6 credits, in consultation with the Biostatistics director of graduate studies, from the following list:

- PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
- PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
- PUBH 7445 - Statistics for Human Genetics and Molecular Biology (3.0 cr)
- PUBH 7450 - Survival Analysis (3.0 cr)
- PUBH 7470 - Study Designs in Biomedical Research (3.0 cr)
- PUBH 7475 - Statistical Learning and Data Mining (3.0 cr)
- PUBH 7485 - Methods for Causal Inference (3.0 cr)

Students may take 7415 or 7420 but not both.

- **PUBH 7415** - Introduction to Clinical Trials (3.0 cr)
- **or PUBH 7420** - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)

- **Program Type:** Doctorate  
- **Requirements for this program are current for Fall 2022**  
- **Length of program in credits:** 53 to 67  
- **This program does not require summer semesters for timely completion.**  
- **Degree:** Doctor of Philosophy

Along with the program-specific requirements listed below, please read the [General Information](#) section of the catalog website for requirements that apply to all major fields.

The biostatistics PhD prepares graduates to conduct original research, collaborate and consult with biomedical researchers, implement and disseminate results of this research, and teach and mentor others in the field.

The School of Public Health is accredited by the Council on Education for Public Health (CEPH).

**Program Delivery**  
This program is available:  
- via classroom (the majority of instruction is face-to-face)

**Prerequisites for Admission**  
The preferred undergraduate GPA for admittance to the program is 3.70.

Other requirements to be completed before admission:  
At least three semesters of calculus (including multivariable) and one semester of linear algebra, and two semesters of undergraduate courses in probability and mathematical statistics are strongly recommended. Real analysis or an equivalent is recommended. Experience with programming language (e.g., R, Java, C) and exposure to applied statistics is helpful, but not required.

In addition to completing the SOPHAS application, applicants must submit the following directly to SOPHAS:  
- Statement of purpose and objectives (an essay describing past education, experience, and current professional career objectives)  
- Résumé or curriculum vitae  
- Official postsecondary transcripts from all institutions attended, including previous study at the University of Minnesota (have transcripts sent directly from the institutions to SOPHAS)  
- Three letters of recommendation from persons qualified to assess academic work; clinical, public health, or professional experience; and leadership potential

**Special Application Requirements:**  
Applications are accepted for fall semester admission only. All admitted international Ph.D. applicants are required to provide a World Education Services (WES) document verification report prior to beginning the program.

Proof of English Proficiency  
Applicants whose native language is not English, or whose academic study was done exclusively at non-English speaking institutions, must prove English proficiency by providing either official Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS) scores. Official report of the scores should be sent directly to SOPHAS using designation code 5688 for the TOEFL or designation code SOPHAS for the IELTS. Scores must be less than two years old. The preferred minimum English language test scores for admission to the School of Public Health are listed below.

The English Language test requirement may be waived if an applicant can provide proof of one of the following:  
- Completion of 16 semester credits/24 quarter credits (within the past 24 months) in an academic program at a recognized institution of higher learning in the U.S. or Canada.  
- An Educational Commission for Foreign Medical Graduates (ECFMG) certificate. Students should have an official or attested copy
sent directly to the University of Minnesota School of Public Health at the address listed above.

International applicants must submit score(s) from one of the following tests:

- **TOEFL**
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- **IELTS**
  - Total Score: 7
- **MELAB**
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

**Program Requirements**

29 to 43 credits are required in the major.

24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.3 is required for students to remain in good standing.

At least 3 semesters must be completed before filing a Degree Program Form.

Students entering the program without a statistics or biostatistics master's degree may need to complete additional preparatory coursework in their first year, selected in consultation with the advisor and Biostatistics director of graduate studies upon admission. Those who have taken a real analysis course may need to complete MATH 4603 Advanced Calculus. Those who have taken a real analysis course are strongly encouraged, but not required to, take MATH 5615H. Preparatory coursework cannot be applied toward degree requirements.

Courses must be taken A-F, unless offered only S/N.

**Biostatistics Core Requirements (19 credits)**

- PUBH 6250 - Foundations of Public Health (2.0 cr)
- PUBH 7450 - Survival Analysis (3.0 cr)
- PUBH 8401 - Linear Models (3.0 cr)
- PUBH 8403 - Research Skills in Biostatistics (1.0 cr)
- PUBH 8412 - Advanced Statistical Inference (3.0 cr)
- PUBH 8432 - Probability Models for Biostatistics (3.0 cr)
- PUBH 8442 - Bayesian Decision Theory and Data Analysis (3.0 cr)

**Biostatistics Electives (9 credits)**

Select at least 9 credits, in consultation with the advisor, from the following:

- PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)
- PUBH 7465 - Biostatistics Consulting (2.0 cr)
- PUBH 8445 - Statistics for Human Genetics and Molecular Biology (3.0 cr)
- PUBH 8446 - Advanced Statistical Genetics and Genomics (3.0 cr)
- PUBH 8452 - Advanced Longitudinal Data Analysis (3.0 cr)
- PUBH 8462 - Advanced Survival Analysis (3.0 cr)
- PUBH 8472 - Spatial Biostatistics (3.0 cr)
- PUBH 8475 - Statistical Learning and Data Mining (3.0 cr)
- PUBH 8482 - Sequential and Adaptive Methods for Clinical Trials (3.0 cr)
- PUBH 8485 - Methods for Causal Inference (3.0 cr)
- PUBH 8492 - Theories of Hierarchical and Other Richly Parametrized Linear Models (3.0 cr)

**Health Science Elective (1 credit)**

Take at least one credit offered by other School of Public Health divisions or Health Sciences programs. This course is chosen in
consultation with the advisor.
PUBH 6xxx
PUBH 7xxx
PUBH 8xxx

**Thesis Credits**
Take at least 24 doctoral thesis credits.
PUBH 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)

**Requirements for students entering the PhD without a master's in statistics or biostatistics**
Students entering the PhD without a master's in statistics or biostatistics must complete an additional 14 credits, selected in consultation with advisor.

**Additional Biostatistics Coursework (14 credits)**
Take the following courses:
- STAT 8101 - Theory of Statistics 1 (3.0 cr)
- STAT 8102 - Theory of Statistics 2 (3.0 cr)
- PUBH 7405 - Biostatistical Inference I (4.0 cr)
- PUBH 7406 - Biostatistical Inference II (3.0 cr)

- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 8
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The main goal of the climate change and health (CCH) minor is to train students in the science of climate change and in the development and application of mitigation and adaptation strategies with which public health professionals can respond. There is a pressing need to develop a public health workforce that can navigate and adapt to climate change threats. The minor will provide students with a foundational understanding of the science of climate change, population social and health vulnerabilities, and practical skills in climate change modeling, surveillance, and programmatic and policy interventions at various levels (i.e., local, regional, state, national, global). The public approach is two-fold, with its focus on entire populations and on vulnerable populations (e.g., socially disenfranchised individuals who bear disproportionate climate-related health burdens).

The School of Public Health is accredited by the Council on Education for Public Health (CEPH).

Program Delivery
This program is available:
- completely online (all program coursework can be completed online)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Special Application Requirements:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Climate Change and Health director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Required minor field courses must be taken on the A-F grading basis, with a minimum grade of B- earned for each. Electives may be taken A-F or S/N.

The minimum cumulative GPA required for the minor is 3.00.
Take the following courses:

**PUBH 6154** - Climate Change and Global Health (3.0 cr)
**PUBH 6194** - Climate Change and Public Health: The Science and Public Health Responses (2.0 cr)

**Electives (3 to 7 credits)**
Masters students select 3 credits, and doctoral students select 7 credits from the following in consultation with the Climate Change and Health director of graduate studies to meet minimum credit requirements:

- EEB 5609 - Ecosystem Ecology (3.0 cr)
- ESCI 5402 - Science and Politics of Global Warming (3.0 cr)
- ESPM 5241 - Natural Resource and Environmental Policy (3.0 cr)
- ESPM 5242 - Methods for Environmental and Natural Resource Policy Analysis (3.0 cr)
- ESPM 5245 - Sustainable Land Use Planning and Policy (3.0 cr)
- ESPM 5604 - Environmental Management Systems and Strategy (3.0 cr)
- GCC 5005 - Innovation for Changemakers: Design for a Disrupted World [GP] (3.0 cr)
- GCC 5008 - Policy and Science of Global Environmental Change [ENV] (3.0 cr)
- GCC 5027 - Power Systems Journey: Making the Invisible Visible and Actionable [TS] (3.0 cr)
- GCC 5031 - The Global Climate Challenge: Creating an Empowered Movement for Change [CIV] (3.0 cr)
- GCC 5032 - Ecosystems Health: Leadership at the intersection of humans, animals and the environment [ENV] (3.0 cr)
- GCC 5034 - [Inactive] (3.0 cr)
- GEOG 5401W - Geography of Environmental Systems and Global Change [ENV, WI] (3.0 cr)
- HSCI 5244 - Nature's History: Science, Humans, and the Environment (3.0 cr)
- LA 5003 - Climate Change Adaptation (3.0 cr)
- LAAS 5050 - Integrated Topics in Land & Atmospheric Science (3.0 cr)
- PA 5711 - Science, Technology & Environmental Policy (3.0 cr)
- PA 5722 - Economics of Environmental Policy (3.0 cr)
- PA 5724 - Climate Change Policy (3.0 cr)
- PUBH 6528 - Climate Change and Healthcare Delivery Organizations: Considerations for Healthcare Leaders and Prof (1.0 cr)
- VMED 5492 - Seminar: One Health and Infectious Diseases of Wildlife (2.0 cr)

**Program Sub-plans**
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

**Masters**

**Doctoral**

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 38
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The MS in clinical research is a graduate degree as well as a career development path for physician-scientists, clinical scholars, and biomedical researchers.

The clinical research MS program trains students to perform patient-oriented research, develop therapeutic interventions conduct clinical trials, write grants, and develop data analytic skills. The program offers maximum flexibility and it can be completed online and students have varied capstone project opportunities.

The School of Public Health is accredited by the Council on Education for Public Health (CEPH).

Program Delivery
This program is available:
- completely online (all program coursework can be completed online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

An advanced health professional degree (MD, DDS, DVM, DO, DNP, DC, PharmD, PhD, etc.) or other advanced doctoral degree in a clinical biomedical field from an accredited university.

Other requirements to be completed before admission:
Students must have completed or must be at an advanced stage of their clinical practice training. All applicants should have an identified mentor at the University of Minnesota who will provide them with a research project and guide their research prior to applying for admission. Applicants who are part of a University of Minnesota fellowship or residency program, should in addition, discuss their application with their fellowship or residency director. One of the three required recommendation letters must be from the mentor at the University of Minnesota willing to provide mentorship and access to a research project.

Special Application Requirements:
An official transcript verifying completion of an advanced health professional degree and training sufficient to be eligible for a license to practice. One of the three required recommendation letters and a completed School of Public Health Recommendation form from the clinical director of training supporting the applicant's potential as a clinical researcher.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7
- MELAB
  - Final score: 80
The preferred English language test is Test of English as Foreign Language.

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

**Plan B:** Plan B requires 38 major credits and 0 credits outside the major. The final exam is oral. A capstone project is required.

**Capstone Project:** Students can opt to complete a manuscript or a grant proposal for their capstone project. The topic and scope of the project must be approved by the advisor and director of graduate studies.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.

Students must complete both sessions of the University's Responsible Conduct of Research course, validated by ORTTA. Students also must complete the NIH's online training, Protection of Human Research Subjects, validated by electronic certificate upon successful completion.

A grade of at least B- must be earned for the core, epidemiology, and clinical trials courses taken on the A-F grade basis. If PUBH 6320 is taken, a grade of at least A- must be earned.

**Required Core Courses (16 credits)**

Take the following courses:

- PUBH 6250 - Foundations of Public Health (2.0 cr)
- PUBH 6301 - Fundamentals of Clinical Research (3.0 cr)
- PUBH 6310 - Clinical Epidemiology I (1.0 cr)
- PUBH 6311 - Clinical Epidemiology II (1.0 cr)
- PUBH 6450 - Biostatistics I (4.0 cr)
- PUBH 6451 - Biostatistics II (4.0 cr)
- PUBH 6742 - Ethics in Public Health: Research and Policy (1.0 cr)

**Epidemiology Course (3 credits)**

Select one of the following courses in consultation with the director of graduate studies.

- PUBH 6341 - Epidemiologic Methods I (3.0 cr)
- or PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)

**Clinical Trials Course (3 credits)**

Select one of the following courses in consultation with the director of graduate studies.

- PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)
- or PUBH 7415 - Introduction to Clinical Trials (3.0 cr)

**Capstone Project (6 to 10 credits)**

Take 6 to 10 credits of PUBH 8394, in consultation with the advisor and director of graduate studies.

- PUBH 8394 - Capstone Project: Clinical Research (1.0 - 10.0 cr)

**Electives**

Select electives in consultation with the director of graduate studies to meet the 38-credit requirement.

- DENT 8100 - Topics in Advanced Periodontology: Literature Review (2.0 cr)
- DENT 8120 - Advanced Principles and Techniques of Orofacial Pain Disorders (2.0 cr)
- DENT 8121 - Current Literature in TMD and Orofacial Pain (1.0 cr)
- ECP 5220 - Regulatory Issues in Drug Research (2.0 cr)
- ECP 5620 - Drug Metabolism and Disposition (3.0 cr)
- ECP 8100 - Seminar (1.0 cr)
- MICA 8013 - Translational Cancer Research (2.0 cr)
- NURS 6102 - Family Health Theory (2.0 cr)
- NURS 7202 - Moral and Ethical Positions and Actions in Nursing (2.0 cr)
- NURS 8152 - Advanced Ethics in Nursing Research and Scholarship (2.0 cr)
- NURS 8172 - Theory and Theory Development for Research (3.0 cr)
- NURS 8173 - Principles and Methods of Implementing Research (3.0 cr)
NURS 8175 - Quantitative Research Design and Methods (3.0 cr)
PHAR 6224 - Advanced Pharmacogenomics and Precision Medicine (2.0 cr)
PHCL 5111 - Pharmacogenomics (3.0 cr)
PUBH 6108 - Foundations of Global Health (2.0 cr)
PUBH 6181 - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
PUBH 6303 - Clinical Research Project Seminar (2.0 cr)
PUBH 6325 - Data Processing with PC-SAS (1.0 cr)
PUBH 6343 - Epidemiologic Methods III (4.0 cr)
PUBH 6348 - Writing Research Grants (2.0 cr)
PUBH 6381 - Genetics in Public Health in the Age of Precision Medicine (2.0 cr)
PUBH 6385 - Epidemiology and Control of Infectious Diseases (2.0 cr)
PUBH 6386 - Cardiovascular Disease Epidemiology and Prevention (2.0 cr)
PUBH 6387 - Cancer Epidemiology (2.0 cr)
PUBH 6389 - Nutritional Epidemiology (2.0 cr)
PUBH 6420 - Introduction to SAS Programming (1.0 cr)
PUBH 6717 - Decision Analysis for Health Care (2.0 cr)
PUBH 6803 - Conducting a Systematic Literature Review (3.0 cr)
PUBH 6863 - Understanding Health Care Quality (2.0 cr)
PUBH 6864 - Conducting Health Outcomes Research (3.0 cr)
PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
PUBH 7445 - Statistics for Human Genetics and Molecular Biology (3.0 cr)
PUBH 7450 - Survival Analysis (3.0 cr)
PUBH 7470 - Study Designs in Biomedical Research (3.0 cr)
TMDP 8441 - Seminar in Temporomandibular Disorders & Orofacial Pain (1.0 cr)
VMED 5080 - Problems in Veterinary Epidemiology and Public Health (1.0 - 3.0 cr)
VMED 5165 - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
VMED 8090 - Epidemiology of Zoonoses and Diseases Common to Animals and Humans (3.0 cr)

- Requirements for this program are current for Fall 2022
- Length of program in credits: 16
- This program does not require summer semesters for timely completion.
- Degree: Clinical Research PBacc Cert

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The certificate program in clinical research is designed for research coordinators, clinical research project managers, and other health professionals who want to learn how to implement and manage clinical research studies. Applicants must have a bachelor’s degree and at least two years of relevant clinical experience or research experience. Students can pursue the certificate on a part-time basis.

The School of Public Health is accredited by the Council on Education for Public Health (CEPH).

Accreditation
This program is accredited by Council on Education for Public Health (CEPH)

Program Delivery
This program is available:
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Certificate applicants must have a bachelors degree and have at least two years of relevant clinical experience or research experience. The certificate program also accepts students enrolled in other Masters programs such as MPH or in doctoral degrees.

Special Application Requirements:
Applicants must submit to SOPHAS Express, a centralized online application service:
- Completed SOPHAS Express application and application fee, designating the University of Minnesota School of Public Health
- Personal statement describing the applicant's reason for applying, career goals, and how the certificate will help them achieve their goals
- One letter of recommendation
- Unofficial transcripts of record from each college/university where a degree was earned. (If admitted, official transcripts will need to be sent directly to the School of Public Health.)
- Resume or C.V.

For detailed application requirements and instructions visit www.sph.umn.edu.

International applicants must submit score(s) from one of the following tests:
- TOEFL
- Internet Based - Total Score: 100
- Paper Based - Total Score: 600
- IELTS
  - Total Score: 7
- MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

Required courses must be taken for A-F grading basis and must achieve a grade of B- or above. Electives can be taken S/N or A-F. Electives taken A-F must achieve a B- or above.

Required Coursework (14 credits)
Take the following courses in consultation with the program director:
- PUBH 6301 - Fundamentals of Clinical Research (3.0 cr)
- PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)
- PUBH 6450 - Biostatistics I (4.0 cr)
- PUBH 6742 - Ethics in Public Health: Research and Policy (1.0 cr)

Select 1 of the following 2 courses:
- PUBH 7415 - Introduction to Clinical Trials (3.0 cr)
- or PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)

Electives (2 credits)
Select 2 elective credits from the following in consultation with the program director:
- DENT 8100 - Topics in Advanced Periodontology: Literature Review (2.0 cr)
- DENT 8120 - Advanced Principles and Techniques of Orofacial Pain Disorders (2.0 cr)
- DENT 8121 - Current Literature in TMD and Orofacial Pain (1.0 cr)
- ECP 5220 - Regulatory Issues in Drug Research (2.0 cr)
- ECP 5620 - Drug Metabolism and Disposition (3.0 cr)
- ECP 8100 - Seminar (1.0 cr)
- MICA 8013 - Translational Cancer Research (2.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 48
- This program requires summer semesters for timely completion.
- Degree: Master of Public Health

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Community Health Promotion (CHP) MPH program trains students to work with populations to improve health. The curriculum emphasizes the importance of using research and social science to assess population behavioral health patterns and psychosocial risk factors: students learn to design community wide prevention and intervention programs, how to influence health policies, and evaluate outcomes of behavioral health change.

The School of Public Health is accredited by the Council on Education for Public Health (CEPH).

Accreditation
This program is accredited by Council on Education for Public Health (CEPH).

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Baccalaureate degree or higher from an accredited college or university. College-level courses in the following areas: social and behavioral sciences (at least 3 courses) and introductory statistics (1 course).

Special Application Requirements:
Applicants must have one year of paid or volunteer experience in a public health, social service, or community setting.

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
• IELTS
  - Total Score: 7

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements

Plan C: Plan C requires 48 major credits and up to null credits outside the major. The is no final exam. A capstone project is required.

Capstone Project: Students complete an Integrated Learning Experience (ILE) in consultation with the advisor.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

All core courses, as well as PUBH 6050, 6051, 6034 (or 6852), and 6035 must be completed A/F and with a minimum grade of B-.

All Health Behavior and Policy Interventions coursework requires a B- grade.

Public Health Core Requirements (15 credits)
- PUBH 6050 - Community Health Promotion I: Integrating Theory, Evidence, and Context (3.0 cr)
- PUBH 6102 - Issues in Environmental Health (2.0 cr)
- PUBH 6450 - Biostatistics I (4.0 cr)
- PUBH 6741 - Ethics in Public Health: Professional Practice and Policy (1.0 cr)
- PUBH 6751 - Principles of Management in Health Services Organizations (2.0 cr)

Epidemiology
Select one of the following:
- PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)
- or PUBH 6341 - Epidemiologic Methods I (3.0 cr)

Community Health Promotion Requirements (8-9 credits)
All courses in this section require a minimum of a B-:
- PUBH 6034 - Evaluation I: Concepts (3.0 cr)
- or PUBH 6852 - Program Evaluation in Health and Mental Health Settings (2.0 cr)
- PUBH 6035 - Evaluation II: Applications (3.0 cr)
- PUBH 6051 - Community Health Promotion II: Developing, Implementing, and Justifying Interventions (3.0 cr)

Evaluation-related Methods
Select one of these courses in consultation with your advisor.
- PUBH 6107 - Excel Skills for Data Management in Public Health Settings (1.0 cr)
- PUBH 6243 - American Indian Research, Evaluation and Collaborations (2.0 cr)
- PUBH 6342 - Epidemiologic Methods II (3.0 cr)
- PUBH 6414 - Biostatistical Literacy (3.0 cr)
- PUBH 6451 - Biostatistics II (4.0 cr)
- PUBH 6636 - Qualitative Research Methods in Public Health Practice (2.0 cr)
- PUBH 6806 - Principles of Public Health Research (2.0 cr)
- PUBH 6810 - Survey Research Methods (3.0 cr)
- PUBH 6815 - Community-based Participatory Research (2.0 cr)

Health Behavior and Policy Interventions (8 credits)
All Health Behavior and Policy Interventions coursework requires a B- grade.
Take 6045 and/or 6078 and courses from the following list totaling at least 8 credits. Students must that at least one of 6045/6078 but may take both to count toward the eight credits.

Required Policy Course
- PUBH 6045 - Skills for Policy Development (1.0 cr)
- or PUBH 6078 - Public Health Policy as a Prevention Strategy (2.0 cr)

Other Health Behavior and Policy Interventions Courses
- PUBH 5231 - Emergency Preparedness: A Public Health Perspective (2.0 cr)
- PUBH 6011 - Public Health Approaches to HIV/AIDS (3.0 cr)
- PUBH 6049 - Legislative Advocacy Skills for Public Health (3.0 cr)
- PUBH 6055 - Social Inequalities in Health (2.0 cr)
- PUBH 6066 - Building Communities, Increasing Health: Preparing for Community Health Work (2.0 cr)
- PUBH 6074 - Mass Communication and Public Health (3.0 cr)
- PUBH 6081 - Sex, Sexuality, and Sexual Health (2.0 cr)
- PUBH 6094 - Interventions to Address Weight-Related Health and Eating Disorders (2.0 cr)
- PUBH 6120 - Injury Prevention in the Workplace, Community, and Home (2.0 cr)
- PUBH 6123 - Violence Prevention and Control: Theory, Research, and Application (2.0 cr)
- PUBH 6131 - Working in Global Health (2.0 cr)
- PUBH 6242 - Cultural Humility with American Indian Populations (2.0 cr)
- PUBH 6627 - Sexuality Education: Criteria, Curricula, and Controversy (1.0 cr)
### Applied Practice Experience (1 credits)
Take at least 1 credit, in consultation with the advisor:
- PUBH 7096 - Applied Practice Experience: Community Health Promotion (1.0 - 5.0 cr)

### Integrated Learning Experience (1 credit)
Take at least 1 credit, in consultation with the advisor:
- PUBH 7094 - Integrative Learning Experience: Community Health Promotion (1.0 - 6.0 cr)

### Electives
Select electives, in consultation with the advisor, to complete the 48-credit requirement.
- CSPH 5111 - Ways of Thinking about Health (2.0 cr)
- CSPH 5115 - Cultural Awareness, Knowledge and Health (3.0 cr)
- CSPH 5118 - Whole Person, Whole Community: The Reciprocity of Wellbeing (3.0 cr)
- CSPH 5215 - Forgiveness and Healing: A Journey Toward Wholeness (3.0 cr)
- CSPH 5303 - Pain Management and Evidence Based Complementary Health Approaches (3.0 cr)
- CSPH 5305 - Introduction to Integrative Mental Health (2.0 cr)
- CSPH 5701 - Fundamentals of Health Coaching I (4.0 cr)
- CSPH 5702 - Fundamentals of Health Coaching II (4.0 cr)
- CSPH 5703 - Advanced Health Coaching Practicum (3.0 cr)
- CSPH 5704 - Business of Health Coaching (2.0 cr)
- CSPH 5706 - Lifestyle Medicine (2.0 cr)
- CSPH 5707 - Coaching People with Clinical Conditions (2.0 cr)
- CSPH 5708 - Mind-Body Science and the Art of Transformation (1.0 cr)
- CSPH 5709 - Health and Wellbeing Group Coaching (2.0 cr)
- CSPH 5713 - Health Coaching for Health Professionals (2.0 cr)
- CSPH 5805 - Wellbeing in the Workplace (3.0 cr)
- CSPH 5806 - Wellbeing and Resiliency for Health Professionals (1.0 cr)
- CSPH 5807 - Mindfulness in the Workplace: Pause, Practice, Perform (2.0 cr)
- CSPH 5905 - Food Matters: Cook Like Your Life Depends On It (1.0 cr)
- EPSY 5114 - Psychology of Student Learning (3.0 cr)
- EPSY 5244 - Survey Design, Sampling, and Implementation (3.0 cr)
- EPSY 5247 - Qualitative Methods in Educational Psychology (3.0 cr)
- EPSY 5609 - Infants and Toddlers with Delays/Disabilities: Family-Centered Approaches to Early Intervention (3.0 cr)
- EPSY 8251 - Statistical Methods in Education I (3.0 cr)
- EPSY 8264 - Advanced Multiple Regression Analysis (3.0 cr)
- EPSY 8282 - Statistical Analysis of Longitudinal Data (3.0 cr)
- FSCN 4612W - Advanced Human Nutrition [WI] (4.0 cr)
- FSCN 4614W - Community Nutrition [SOCS, DSJ, WI] (3.0 cr)
- FSCN 4621 - Nutrition and Metabolism (4.0 cr)
- FSCN 4622 - Nutritional Toxicology, the basic science of diet-related toxicants (3.0 cr)
- FSCN 4665 - Medical Nutrition Therapy I (3.0 cr)
- FSCN 4666 - Medical Nutrition Therapy II (3.0 cr)
- FSCN 4732 - Food and Nutrition Management (3.0 cr)
- FSCN 5131 - Food Quality for Graduate Credit (3.0 cr)
- FSCN 5312 - Food Analysis (4.0 cr)
- FSCN 5501 - Management of Eating Disorders (3.0 cr)
- FSOS 5014 - Quantitative Family Research Methods I (3.0 cr)
- FSOS 5015 - Family Research Laboratory (1.0 cr)
- FSOS 5111 - Introduction to Family Therapy (3.0 cr)
- FSOS 5701 - Prevention Science: Principles and Practices (3.0 cr)
- FSOS 5937 - Parent-Child Interaction (3.0 cr)
- FSOS 5942 - Diverse Family Experiences (3.0 cr)

Website: http://www.sph.umn.edu

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 42 to 52
- This program does not require summer semesters for timely completion.
- Degree: Master of Public Health

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Environmental health is the study of how exposures to external hazards, including chemical, physical, and biological agents, affect human health. Environmental health researchers and professionals seek to understand how to evaluate exposures that create risk to human health, how those exposures elicit biological responses that lead to disease and injury, and how policy is developed and used to prevent adverse health effects. This program offers academic programs at the master's and doctoral levels, conducts research in diverse areas of environmental health, offers continuing education, and conducts outreach. The academic programs prepare students to be leaders in environmental health in academia, industry, consulting groups, and government agencies. The program's training and research emphasizes the importance of translating basic scientific knowledge into solutions for current societal problems and concerns.

The School of Public Health (SPH) and College of Biological Sciences (CBS) offer early-admission opportunities for eligible University CBS students interested in completing the MPH Environmental Health degree. Interested CBS students should contact their college office or the SPH for more information.

Accreditation
This program is accredited by Council on Education for Public Health

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- completely online (all program coursework can be completed online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Minimum qualifications include a baccalaureate degree with coursework in the basic sciences. Occupational health nursing/medicine applicants must have a relevant degree from an accredited school.

Other requirements to be completed before admission:
Applicants to the Industrial Hygiene sub-plan must meet the following additional criteria: a good undergraduate academic record in a relevant discipline (preferably science or engineering), with a minimum level of coursework in biology, chemistry (including organic), physics, and mathematics (including calculus). Students with undergraduate non-science fields, with appropriate additional coursework or work experience, may also apply, but must demonstrate strengths in physics, chemistry (including organic), biology, and mathematics (including calculus) and complementary non-science coursework (e.g. social sciences, languages). Strong letters of recommendation and a written statement that reflects a clear motivation toward occupational and environmental health. Success in prior industrial hygiene-related work is a strong factor for admission to this track. Applicants interested in the Environmental Infectious Diseases emphasis: microbiology background is preferred.

Applicants must submit their test score(s) from the following:
- MCAT
  - Verbal Reasoning score: 10
• Physical Science score: 10
• Biological Reasoning score: 10
• Writing Sample score: 10

• LSAT
  - Law School Admission Test (LSAT) score: 140

International applicants must submit score(s) from one of the following tests:
• TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
• IELTS
  - Total Score: 7
• MELAB
  - Final score: 80

Key to test abbreviations (MCAT, LSAT, TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan C: Plan C requires 42 to 52 major credits and up to null credits outside the major. There is no final exam. A capstone project is required.

Capstone Project: Students complete PUBH 7194 (Integrative Learning Experience) in consultation with the advisor.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with advisor approval.

A minimum GPA of 3.0 is required for students to remain in good standing.

Public Health Core Requirements (16 credits)
Take the following courses for a total of 9 credits. A minimum grade of B- is required for each course.
- PUBH 6020 - Fundamentals of Social and Behavioral Science (2.0 cr)
- PUBH 6102 - Issues in Environmental Health (2.0 cr)
- PUBH 6250 - Foundations of Public Health (2.0 cr)
- PUBH 6741 - Ethics in Public Health: Professional Practice and Policy (1.0 cr)
- PUBH 6751 - Principles of Management in Health Services Organizations (2.0 cr)

Epidemiology Requirement (3 credits)
Take one of the following courses. A minimum grade of B- is required.
- PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)
or
- PUBH 6341 - Epidemiologic Methods I (3.0 cr)

Biostatistics Requirement (4 credits)
Select PUBH 6450 or PUBH 6414 in consultation with the advisor. Students taking electives from the Industrial Hygiene track must take PUBH 6450. Students who take PUBH 6414 must take at least one additional credit from the biostatistical program course list to complete the 4-credit requirement. A minimum grade of B- is required.
- PUBH 6450 - Biostatistics I (4.0 cr)
  or
- PUBH 6414 - Biostatistical Literacy (3.0 cr)

Biostatistical Programming Options
- Students who take PUBH 6414 must select one of the following courses in consultation with the advisor to complete the biostatistics programming requirement. A minimum grade of B- is required.
  - PUBH 6107 - Excel Skills for Data Management in Public Health Settings (1.0 cr)
  - PUBH 6123 - Violence Prevention and Control: Theory, Research, and Application (2.0 cr)
  - PUBH 6325 - Data Processing with PC-SAS (1.0 cr)
  - PUBH 6420 - Introduction to SAS Programming (1.0 cr)
  - PUBH 6755 - Planning and Budgeting for Public Health (2.0 cr)
  - PUBH 6813 - Managing Electronic Health Information (2.0 cr)
  - PUBH 6845 - Using Demographic Data for Policy Analysis (3.0 cr)
  - PUBH 7461 - Exploring and Visualizing Data in R (2.0 cr)
  - PUBH 7264 - Data Visualization in R (1.0 cr)

Applied Practice Experience (1 to 3 credits)
Take the following course in consultation with the advisor. Students pursuing the Industrial Hygiene track must take PUBH 7196 for 3
credits. All other students take the course for 1 credit.
PUBH 7196 - Applied Practice Experience: Environmental Health (1.0 - 5.0 cr)

Integrative Learning Experience (1 to 3 credits)
Take the following course in consultation with the advisor. Students pursuing the Industrial Hygiene track must take PUBH 7194 for 3 credits. All other students take the course for 1 credit.
PUBH 7194 - Integrative Learning Experience: Environmental Health (1.0 - 5.0 cr)

Emphasis Areas

Generalist (24 credits)
Students pursue and develop their particular interests to complete the Generalist emphasis.

Coursework
Select credits from the following, in consultation with the advisor, to complete the 42-credit minimum. Other courses can be chosen with approval of the advisor and program director. A minimum grade of B- is required for each course.
PUBH 6385 - Epidemiology and Control of Infectious Diseases (2.0 cr)
PUBH 6601 - Born a Girl: Global Women's Health (1.0 cr)
PUBH 6852 - Program Evaluation in Health and Mental Health Settings (2.0 cr)
PUBH 6034 - Evaluation I: Concepts (3.0 cr)
PUBH 6045 - Skills for Policy Development (1.0 cr)
PUBH 6055 - Social Inequalities in Health (2.0 cr)
PUBH 6066 - Building Communities, Increasing Health: Preparing for Community Health Work (2.0 cr)
PUBH 6527 - Healthcare Leadership and Effecting Change (2.0 cr)
PA 5451 (Inactive)(3.0 cr)
PUBH 6906 - Global Nutrition (2.0 cr)
PUBH 6730 - International Comparative Health Systems (2.0 cr)
PUBH 6605 - Sexual, Reproductive, and Perinatal Public Health (2.0 cr)
PUBH 6130 - Occupational Medicine: Principles and Practice (2.0 cr)
PUBH 6140 - Occupational and Environmental Epidemiology (2.0 cr)
PUBH 6150 - Interdisciplinary Evaluation of Occupational Health and Safety Field Problems (3.0 cr)
PUBH 6160 - Principles of Toxicology II (3.0 cr)
PUBH 6170 - Introduction to Occupational Health and Safety (3.0 cr)
PUBH 6173 - Exposure to Physical Agents (2.0 cr)
PUBH 6011 - Public Health Approaches to HIV/AIDS (3.0 cr)
PUBH 5231 - Emergency Preparedness: A Public Health Perspective (2.0 cr)
PUBH 6386 - Cardiovascular Disease Epidemiology and Prevention (2.0 cr)
PUBH 6035 - Evaluation II: Applications (3.0 cr)
PUBH 6049 - Legislative Advocacy Skills for Public Health (3.0 cr)
PUBH 6350 - Motivational Interviewing: Strategies to Effect Behavior Change (1.0 cr)
PUBH 6074 - Mass Communication and Public Health (3.0 cr)
PUBH 6078 - Public Health Policy as a Prevention Strategy (2.0 cr)
PUBH 6094 - Interventions to Address Weight-Related Health and Eating Disorders (2.0 cr)
PUBH 6342 - Epidemiologic Methods II (3.0 cr)
PUBH 6343 - Epidemiologic Methods III (4.0 cr)
PUBH 6344 - Completing the Integrated Learning Experience: Secondary Data Analysis (2.0 cr)
PUBH 6389 - Nutritional Epidemiology (2.0 cr)
PUBH 6350 - Epidemiologic Methods III: Lab (1.0 cr)
PUBH 6355 - Pathophysiology of Human Disease (4.0 cr)
PUBH 6381 - Genetics in Public Health in the Age of Precision Medicine (2.0 cr)
PUBH 6420 - Introduction to SAS Programming (1.0 cr)
PUBH 6431 - Topics in Hierarchical Bayesian Analysis (1.0 cr)
PUBH 6541 - Statistics for Health Management Decision Making (3.0 cr)
PUBH 6542 - Management of Health Care Organizations (3.0 cr)
PUBH 6544 - Principles of Problem Solving in Health Services Organizations (3.0 cr)
PUBH 6547 - Health Care Human Resources Management (2.0 cr)
PUBH 6555 - Health Economics (2.0 cr)
PUBH 6556 - Health and Health Systems (3.0 cr)
PUBH 6560 - Operations Research and Quality in Health Care (3.0 cr)
PUBH 6562 - Information Technology in Health Care (2.0 cr)
PUBH 6563 - Integrated Delivery Systems (2.0 cr)
PUBH 6564 - Private Purchasers of Health Care: Roles of Employers and Health Plans in U.S. Health Care System (2.0 cr)
PUBH 6565 - Innovation of Healthcare Services (2.0 cr)
PUBH 6571 - Quality, Patient Safety, and Performance Improvement (2.0 cr)
PUBH 6589 - Medical Technology Evaluation and Market Research (2.0 cr)
PUBH 6596 - Legal Considerations in Health Services Organizations (2.0 cr)
PUBH 6627 - Sexuality Education: Criteria, Curricula, and Controversy (1.0 cr)
PUBH 6630 - Foundations of Maternal and Child Health Leadership (3.0 cr)
PUBH 6702 - Integrative Leadership Seminar (3.0 cr)
PUBH 6711 - Public Health Law (2.0 cr)
PUBH 6717 - Decision Analysis for Health Care (2.0 cr)
PUBH 6724 - The Health Care System and Public Health (3.0 cr)
PUBH 6727 - Health Leadership and Effecting Change (2.0 cr)
PUBH 6742 - Ethics in Public Health: Research and Policy (1.0 cr)
PUBH 6755 - Planning and Budgeting for Public Health (2.0 cr)
PUBH 6765 - Continuous Quality Improvement: Methods and Techniques (3.0 cr)
PUBH 6803 - Conducting a Systematic Literature Review (3.0 cr)
PUBH 6805 - Introduction to Project Management for Health Professionals (2.0 cr)
PUBH 6806 - Principles of Public Health Research (2.0 cr)
PUBH 6832 - Economics of the Health Care System (3.0 cr)
PUBH 6809 - Advanced Methods in Health Decision Science (3.0 cr)
PUBH 6810 - Survey Research Methods (3.0 cr)
PUBH 6813 - Managing Electronic Health Information (2.0 cr)
PUBH 6815 - Community-based Participatory Research (2.0 cr)
PUBH 7214 - Principles of Risk Communication (1.0 cr)
PUBH 6845 - Using Demographic Data for Policy Analysis (3.0 cr)
PUBH 7222 - Best Practices in Emergency Response (1.0 cr)
PUBH 6855 - Medical Sociology (3.0 cr)
PUBH 6862 - Cost-Effectiveness Analysis in Health Care (3.0 cr)
PUBH 6863 - Understanding Health Care Quality (2.0 cr)
PUBH 6801 - Foundations of Public Health Nutrition Leadership (2.0 cr)
PUBH 6820 - Foundations of Interprofessional Professional Communication and Collaboration (1.0 cr)
PUBH 7210 - Topics: Global Food Systems (0.5 cr)
PUBH 6730 - Statistical Methods for Correlated Data (3.0 cr)
PUBH 7250 - Designing and Conducting Focus Group Interviews (1.0 cr)
PUBH 7253 - Introduction to GIS (1.0 cr)
PUBH 7257 - Qualitative Data Analysis (1.0 cr)
PUBH 7475 - Statistical Learning and Data Mining (3.0 cr)
PUBH 7534 - Marketing for Health Care Professionals (1.0 cr)
PUBH 7541 - Statistics for Health Management Decision Making (3.0 cr)
PUBH 7558 - Health and Health Systems (2.0 cr)
PUBH 7562 - Information Technology in Health Care (2.0 cr)
PUBH 7564 - Private Purchasers of Health Care (2.0 cr)
PUBH 7565 - Innovation of Healthcare Services (2.0 cr)
PUBH 7568 - Interdisciplinary Teamwork in Health Care (2.0 cr)
PUBH 7569 - Health Care Policy (1.0 cr)
PUBH 6154 - Climate Change and Global Health (3.0 cr)
PUBH 6184 - Field and laboratory methods in public health entomology (2.0 cr)
PUBH 6110 - Foodborne Hazards (2.0 cr)

-OR-

Occupational and Environmental Health Nursing (24 credits)

Required Coursework (9 credits)
Take the following courses. A minimum grade of B- is required for each course.
PUBH 6130 - Occupational Medicine: Principles and Practice (2.0 cr)
PUBH 6150 - Interdisciplinary Evaluation of Occupational Health and Safety Field Problems (3.0 cr)
PUBH 6170 - Introduction to Occupational Health and Safety (3.0 cr)
PUBH 6151 - Occupational and Environmental Health Nursing Seminar (1.0 cr)

Electives
Select credits from the following, in consultation with the advisor, to complete the 42-credit minimum. Other courses can be chosen with approval of the advisor and program director. A minimum grade of B- is required for each course.
PA 5451 (Inactive) (3.0 cr)
PUBH 5231 - Emergency Preparedness: A Public Health Perspective (2.0 cr)
PUBH 6011 - Public Health Approaches to HIV/AIDS (3.0 cr)
PUBH 6034 - Evaluation I: Concepts (3.0 cr)
PUBH 6035 - Evaluation II: Applications (3.0 cr)
PUBH 6045 - Skills for Policy Development (1.0 cr)
PUBH 6049 - Legislative Advocacy Skills for Public Health (3.0 cr)
PUBH 6055 - Social Inequalities in Health (2.0 cr)

-OR-

Occupational and Environmental Medicine (24 credits)

Required Coursework (19 credits)

Take the following courses. A minimum grade of B- is required for each course.

PUBH 6120 - Injury Prevention in the Workplace, Community, and Home (2.0 cr)
PUBH 6130 - Occupational Medicine: Principles and Practice (2.0 cr)
PUBH 6140 - Occupational and Environmental Epidemiology (2.0 cr)
PUBH 6150 - Interdisciplinary Evaluation of Occupational Health and Safety Field Problems (3.0 cr)
PUBH 6159 - Principles of Toxicology I (2.0 cr)
PUBH 6170 - Introduction to Occupational Health and Safety (3.0 cr)
PUBH 6173 - Exposure to Physical Agents (2.0 cr)
PUBH 6387 - Cancer Epidemiology (2.0 cr)
PUBH 8120 - Occupational and Environmental Health Sciences Research Seminar (1.0 cr)

Electives

Select credits from the following, in consultation with the advisor, to complete the 42-credit minimum. Other courses can be chosen with approval of the advisor and program director. A minimum grade of B- is required for each course.

PA 5451 [Inactive] (3.0 cr)
PUBH 5231 - Emergency Preparedness: A Public Health Perspective (2.0 cr)
PUBH 6011 - Public Health Approaches to HIV/AIDS (3.0 cr)
PUBH 6034 - Evaluation I: Concepts (3.0 cr)
PUBH 6035 - Evaluation II: Applications (3.0 cr)
PUBH 6045 - Skills for Policy Development (1.0 cr)
PUBH 6049 - Legislative Advocacy Skills for Public Health (3.0 cr)

Joint- or Dual-degree Coursework: MPH-Environmental Health/JD
Student may take a total of 12 credits in common among the academic programs.

Program Sub-plans
A sub-plan is not required for this program.
Students may not complete the program with more than one sub-plan.

Industrial Hygiene
The Industrial Hygiene (IH) sub-plan, accredited by the Applied Science Accreditation Commission of ABET, focuses on the health and safety of people at work and the community at large. Specific concerns are with the recognition, evaluation and control of potential workplace hazards, including chemical, physical, and biological agents; and the potential health threats to the community and the environment. This sub-plan prepares well-qualified practitioners and researchers for an exciting career in industry, government organizations, and academic and research institutions.

Industrial Hygiene Requirements (23 credits)
Take the following courses. A minimum grade of B- is required for each course.
PUBH 6172 - Industrial Hygiene Applications (2.0 cr)
PUBH 6174 - Control of Workplace Exposure (3.0 cr)
PUBH 6173 - Exposure to Physical Agents (2.0 cr)
PUBH 6175 - Environmental Measurements Laboratory (2.0 cr)
PUBH 6192 - Measurement and Properties of Air Contaminants (2.0 cr)
PUBH 6193 - Advanced Topics in Human Exposure Science (2.0 cr)
PUBH 6130 - Occupational Medicine: Principles and Practice (2.0 cr)
PUBH 6150 - Interdisciplinary Evaluation of Occupational Health and Safety Field Problems (3.0 cr)
PUBH 6170 - Introduction to Occupational Health and Safety (3.0 cr)
PUBH 6159 - Principles of Toxicology I (2.0 cr)

Electives
Select credits from the following, in consultation with the advisor, to complete the 52-credit minimum. Other courses can be chosen with approval of the advisor and program director. A minimum grade of B- is required for each course.
PUBH 6131 - Working in Global Health (2.0 cr)
PUBH 6132 - Air, Water, and Health (2.0 cr)
PUBH 6140 - Occupational and Environmental Epidemiology (2.0 cr)
PUBH 6161 - Regulatory Toxicology (2.0 cr)
PUBH 6177 - Nanotechnology Health and Safety (3.0 cr)
PUBH 6182 - Emerging Infectious Disease: Current Issues, Policies, and Controversies (3.0 cr)
PUBH 6451 - Biostatistics II (4.0 cr)
CEGE 4561 - Solids and Hazardous Wastes (3.0 cr)
CEGE 5551 - Environmental Microbiology (3.0 cr)
IE 5511 - Human Factors and Work Analysis (4.0 cr)
IE 5513 - Engineering Safety (4.0 cr)
KIN 5001 - Foundations of Human Factors/Ergonomics (3.0 cr)
ME 5113 - Aerosol/Particle Engineering (4.0 cr)
PA 5721 - Energy Systems and Policy (3.0 cr)
PUBH 6112 - Environmental Health Risk Assessment: Application to Human Health Risks from Exposure to Chemicals (2.0 cr)
PUBH 6116 - Environmental Law (1.0 cr)
PUBH 6120 - Injury Prevention in the Workplace, Community, and Home (2.0 cr)
PUBH 6190 - Environmental Chemistry (3.0 cr)
CMGT 4031 - Construction Safety and Loss Control (3.0 cr)
PUBH 6115 - Worker Protection Law (1.0 cr)

Integrated BS-Biochemistry/MPH-Environmental Health
This sub-plan is limited to students completing the program under Plan C.

The School of Public Health (SPH) and the College of Biological Sciences (CBS) offer an early-admission opportunity for eligible Biochemistry BS students interested in pursuing the Environmental Health MPH degree. Students admitted to the Integrated BS-Biochemistry/MPH-Environmental Health sub-plan take 12 MPH credits during their senior (fourth) year, and complete the MPH by taking remaining credits as a full-time graduate student their fifth year and following summer. Graduate courses cannot be applied toward both BS and MPH credit and degree requirements. Admitted students must maintain timely degree progress to ensure that the BS degree is awarded no later than the end of the senior (fourth) year. The application deadline for the Integrated BS-Biochemistry/MPH-Environmental Health opportunity is the spring of the applicant's junior (third) year. Confer with the CBS advising office and the School of Public Health for application instructions.

Integrated BS-Biology/MPH-Environmental Health
This sub-plan is limited to students completing the program under Plan C.

The School of Public Health (SPH) and the College of Biological Sciences (CBS) offer an early-admission opportunity for eligible Biology BS students interested in pursuing the Environmental Health MPH degree. Students admitted to the Integrated BS-Biology/MPH Environmental Health sub-plan take 12 MPH credits during their senior (fourth) year, and complete the MPH by taking remaining credits as a full-time graduate student their fifth year and following summer. Graduate courses cannot be applied toward both BS and MPH credit and degree requirements. Admitted students must maintain timely degree progress to ensure that the BS degree is awarded no later than the end of the senior (fourth) year. The application deadline for the Integrated BS-Biology/MPH-Environmental Health opportunity is the spring of the applicant's junior (third) year. Confer with the CBS advising office and the School of Public Health for application instructions.

Integrated BS-Cellular and Organismal Physiology/MPH-Environmental Health
This sub-plan is limited to students completing the program under Plan C.

The School of Public Health (SPH) and the College of Biological Sciences (CBS) offer an early-admission opportunity for eligible Cellular and Organismal Physiology BS students interested in pursuing the Environmental Health MPH degree. Students admitted to the Integrated BS-Cellular and Organismal Physiology/MPH-Environmental Health sub-plan take 12 MPH credits during their senior (fourth) year, and complete the MPH by taking remaining credits as a full-time graduate student their fifth year and following summer. Graduate courses cannot be applied toward both BS and MPH credit and degree requirements. Admitted students must maintain timely
degree progress to ensure that the BS degree is awarded no later than the end of the senior (fourth) year. The application deadline for the Integrated BS-Cellular and Organismal Physiology/MPH-Environmental Health opportunity is the spring of the applicant's junior (third) year. Confer with the CBS advising office and the School of Public Health for application instructions.

Integrated BS-Ecology, Evolution and Behavior/MPH-Environmental Health
This sub-plan is limited to students completing the program under Plan C.

The School of Public Health (SPH) and the College of Biological Sciences (CBS) offer an early-admission opportunity for eligible Ecology, Evolution and Behavior BS students interested in pursuing the Environmental Health MPH degree. Students admitted to the Integrated BS-Ecology, Evolution and Behavior/MPH-Environmental Health sub-plan take 12 MPH credits during their senior (fourth) year, and complete the MPH by taking remaining credits as a full-time graduate student their fifth year and following summer. Graduate courses cannot be applied toward both BS and MPH credit and degree requirements. Admitted students must maintain timely degree progress to ensure that the BS degree is awarded no later than the end of the senior (fourth) year. The application deadline for the Integrated BS-Ecology, Evolution and Behavior/MPH-Environmental Health opportunity is the spring of the applicant's junior (third) year. Confer with the CBS advising office and the School of Public Health for application instructions.

Integrated BS-Genetics, Cell Biology and Development/MPH-Environmental Health
This sub-plan is limited to students completing the program under Plan C.

The School of Public Health (SPH) and the College of Biological Sciences (CBS) offer an early-admission opportunity for eligible Genetics, Cell Biology and Development BS students interested in pursuing the Environmental Health MPH degree. Students admitted to the Integrated BS-Genetics, Cell Biology and Development MPH-Environmental Health sub-plan take 12 MPH credits during their senior (fourth) year, and complete the MPH by taking remaining credits as a full-time graduate student their fifth year and following summer. Graduate courses cannot be applied toward both BS and MPH credit and degree requirements. Admitted students must maintain timely degree progress to ensure that the BS degree is awarded no later than the end of the senior (fourth) year. The application deadline for the Integrated BS-Genetics, Cell Biology and Development/MPH-Environmental Health opportunity is the spring of the applicant's junior (third) year. Confer with the CBS advising office and the School of Public Health for application instructions.

Integrated BS-Microbiology/MPH-Environmental Health
This sub-plan is limited to students completing the program under Plan C.

The School of Public Health (SPH) and the College of Biological Sciences (CBS) offer an early-admission opportunity for eligible Microbiology BS students interested in pursuing the Environmental Health MPH degree. Students admitted to the Integrated BS-Microbiology/MPH-Environmental Health sub-plan take 12 MPH credits during their senior (fourth) year, and complete the MPH by taking remaining credits as a full-time graduate student their fifth year and following summer. Graduate courses cannot be applied toward both BS and MPH credit and degree requirements. Admitted students must maintain timely degree progress to ensure that the BS degree is awarded no later than the end of the senior (fourth) year. The application deadline for the Integrated BS-Microbiology/MPH-Environmental Health opportunity is the spring of the applicant's junior (third) year. Confer with the CBS advising office and the School of Public Health for application instructions.

Integrated BS-Neuroscience/MPH-Environmental Health
This sub-plan is limited to students completing the program under Plan C.

The School of Public Health (SPH) and the College of Biological Sciences (CBS) offer an early-admission opportunity for eligible Neuroscience BS students interested in pursuing the Environmental Health MPH degree. Students admitted to the Integrated BS-Neuroscience/MPH-Environmental Health sub-plan take 12 MPH credits during their senior (fourth) year, and complete the MPH by taking remaining credits as a full-time graduate student their fifth year and following summer. Graduate courses cannot be applied toward both BS and MPH credit and degree requirements. Admitted students must maintain timely degree progress to ensure that the BS degree is awarded no later than the end of the senior (fourth) year. The application deadline for the Integrated BS-Neuroscience/MPH-Environmental Health opportunity is the spring of the applicant's junior (third) year. Confer with the CBS advising office and the School of Public Health for application instructions.

Integrated BS-Plant and Microbial Biology/MPH-Environmental Health
This sub-plan is limited to students completing the program under Plan C.

The School of Public Health (SPH) and the College of Biological Sciences (CBS) offer an early-admission opportunity for eligible Plant and Microbial Biology BS students interested in pursuing the Environmental Health MPH degree. Students admitted to the Integrated BS-Plant and Microbial Biology/MPH-Environmental Health sub-plan take 12 MPH credits during their senior (fourth) year, and complete the MPH by taking remaining credits as a full-time graduate student their fifth year and following summer. Graduate courses cannot be applied toward both BS and MPH credit and degree requirements. Admitted students must maintain timely degree progress to ensure that the BS degree is awarded no later than the end of the senior (fourth) year. The application deadline for the Integrated BS-Plant and Microbial Biology/MPH-Environmental Health opportunity is the spring of the applicant's junior (third) year. Confer with the CBS advising office and the School of Public Health for application instructions.
The School of Public Health (SPH) and the College of Biological Sciences (CBS) offer an early-admission opportunity for eligible Plant and Microbial Biology BS students interested in pursuing the Environmental Health MPH degree. Students admitted to the Integrated BS-Plant and Microbial Biology/MPH-Environmental Health sub-plan take 12 MPH credits during their senior (fourth) year, and complete the MPH by taking remaining credits as a full-time graduate student their fifth year and following summer. Graduate courses cannot be applied toward both BS and MPH credit and degree requirements. Admitted students must maintain timely degree progress to ensure that the BS degree is awarded no later than the end of the senior (fourth) year. The application deadline for the Integrated BS-Plant and Microbial Biology/MPH-Environmental Health opportunity is the spring of the applicant’s junior (third) year. Confer with the CBS advising office and the School of Public Health for application instructions.

Integrated BS-Health Science-UMR/MPH-Environmental Health
This sub-plan is limited to students completing the program under Plan C.

The School of Public Health (SPH) and the University of Minnesota - Rochester (UMR) offer an early-admission opportunity for eligible Health Science BS students interested in pursuing the Environmental Health MPH degree. Students admitted to the Integrated BS-UMR/MPH-Environmental Health sub-plan take 12 MPH credits during their senior (fourth) year, and complete the MPH by taking remaining credits as a full-time graduate student their fifth year and following summer. Graduate courses cannot be applied toward both BS and MPH credit and degree requirements. Admitted students must maintain timely degree progress to ensure that the BS degree is awarded no later than the end of the senior (fourth) year. The application deadline for the Integrated BS-UMR/MPH-Environmental Health opportunity is the spring of the applicant’s junior (third) year. Confer with the UMR advising office and the School of Public Health for application instructions.

Website: http://www.sph.umn.edu

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 30 to 52
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Environmental health is the study of how exposures to external hazards, including chemical, physical, and biological agents, affect human health. Environmental health researchers and professionals seek to understand how to evaluate exposures that create risk to human health, how those exposures elicit biological responses that lead to disease and injury, and how policy is developed and used to prevent adverse health effects. Environmental Health at the University of Minnesota offers master's and doctoral degrees, conducts research in diverse areas of environmental health, offers continuing education, and conducts outreach. Students are prepared to be leaders in environmental health in academia, industry, consulting groups, and government agencies. The program's training and research emphasizes the importance of translating basic scientific knowledge into solutions for current societal problems and concerns.

The MS program offers a generalist concentration, and environmental chemistry concentration, and a specialized track in industrial hygiene. The Industrial Hygiene track is accredited by ABET.

The School of Public Health is accredited by the Council on Education for Public Health (CEPH).

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Minimum requirements include a baccalaureate degree with coursework in the basic sciences.

Other requirements to be completed before admission:
The Industrial Hygiene track requires additional preparation. For more information, refer to https://www.sph.umn.edu/academics/divisions/enhs/degrees/hygiene/admissions/.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7
- MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).
Program Requirements

Plan A: Plan A requires 20 major credits, 0 credits outside the major, and 10 thesis credits. The final exam is written and oral.

Plan B: Plan B requires 30 to 52 major credits and 0 credits outside the major. The final exam is written and oral. A capstone project is required.

Capstone Project: The Plan B project is a master's capstone project selected in consultation with the advisor.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 4 semesters must be completed before filing a Degree Program Form.

Public Health Core Requirements (11-12 credits)
All Public Health Core coursework must be taken on the A-F grade basis, with a minimum grade of B- earned for each course.

Epidemiology (3 credits)
Students pursuing the Industrial Hygiene track must take PUBH 6320. All other students select one of the following courses in consultation with the advisor.

PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)
PUBH 6341 - Epidemiologic Methods I (3.0 cr)

Environmental Health (2 credits)
Take the following course:
PUBH 6102 - Issues in Environmental Health (2.0 cr)

Foundations of Public Health (2 credits)
Take the following course:
PUBH 6250 - Foundations of Public Health (2.0 cr)

Biostatistics (3-4 credits)
Industrial Hygiene track students must take PUBH 6450. All other students select one of the following courses in consultation with their advisor. Students pursuing the Environmental Chemistry emphasis are encouraged to take STAT 5021.

PUBH 6414 - Biostatistical Literacy (3.0 cr)
PUBH 6450 - Biostatistics I (4.0 cr)
STAT 5021 - Statistical Analysis (4.0 cr)

Ethics (1 credit)
Take the following course:
PUBH 6742 - Ethics in Public Health: Research and Policy (1.0 cr)

Plan Options

Plan A Thesis (10 credits)
Plan A students must take at least 10 master's thesis credits.
PUBH 8777 - Thesis Credits: Master's (1.0 - 18.0 cr)

or Plan B Project (3 credits)
Plan B students must take at least 3 Plan B Project credits in consultation with the advisor.
PUBH 7195 - MS in Environmental Health Sciences Plan B Project (1.0 - 5.0 cr)

Concentration Areas

Generalist Concentration
The Generalist concentration is restricted to Plan B only.

Electives
Select electives, in consultation with the advisor, from the following to satisfy the 30-credit minimum. Other courses may be substituted with approval of the advisor and director of graduate studies.
PA 5451 [Inactive] (3.0 cr)
PUBH 5231 - Emergency Preparedness: A Public Health Perspective (2.0 cr)
PUBH 6011 - Public Health Approaches to HIV/AIDS (3.0 cr)
PUBH 6034 - Evaluation I: Concepts (3.0 cr)
PUBH 6035 - Evaluation II: Applications (3.0 cr)
PUBH 6045 - Skills for Policy Development (1.0 cr)
PUBH 6049 - Legislative Advocacy Skills for Public Health (3.0 cr)
Environmental Chemistry Concentration

The Environmental Chemistry concentration offers Plan A and Plan B options.

Required Coursework (9 credits)

- Take the following courses.
  - CEGE 5541 - Environmental Water Chemistry (3.0 cr)
  - EEB 5601 - Limnology (3.0 cr)
  - PUBH 6190 - Environmental Chemistry (3.0 cr)

Electives (6 credits)

- Plan B students select 6 credits from the following, in consultation with the advisor, to complete the 30-credit minimum.
  - CEGE 4561 - Solids and Hazardous Wastes (3.0 cr)
  - CEGE 8503 - Environmental Mass Transport (4.0 cr)
  - CEGE 8542 - Chemistry of Organic Pollutants in Environmental Systems (3.0 cr)
  - CEGE 8561 - Analysis and Modeling of Aquatic Environments I (3.0 cr)

Program Sub-plans

A sub-plan is not required for this program. Students may not complete the program with more than one sub-plan.

Industrial Hygiene

The Environmental Health MS with the Industrial Hygiene (IH) track is a 52-credit program that focuses on the recognition, evaluation, and control of potential workplace hazards -- including chemical, physical, and biological agents -- and the potential health threats to the community and the environment.

The Industrial Hygiene track is restricted to Plan B only.
Industrial Hygiene Required Courses (23 credits)
Take the following courses:
PUBH 6130 - Occupational Medicine: Principles and Practice (2.0 cr)
PUBH 6150 - Interdisciplinary Evaluation of Occupational Health and Safety Field Problems (3.0 cr)
PUBH 6170 - Introduction to Occupational Health and Safety (3.0 cr)
PUBH 6172 - Industrial Hygiene Applications (2.0 cr)
PUBH 6173 - Exposure to Physical Agents (2.0 cr)
PUBH 6174 - Control of Workplace Exposure (3.0 cr)
PUBH 6175 - Environmental Measurements Laboratory (2.0 cr)
PUBH 6192 - Measurement and Properties of Air Contaminants (2.0 cr)
PUBH 6193 - Advanced Topics in Human Exposure Science (2.0 cr)
PUBH 6159 - Principles of Toxicology I (2.0 cr)

Applied Practice Experience (3 credits)
Take the following course in consultation with the advisor.
PUBH 7196 - Applied Practice Experience: Environmental Health (1.0 - 5.0 cr)

Electives
Select electives from the following list, in consultation with the advisor, to complete the 52-credit minimum. Other courses may be substituted with approval of the advisor and director of graduate studies.
PUBH 6020 - Fundamentals of Social and Behavioral Science (2.0 cr)
PUBH 6112 - Environmental Health Risk Assessment: Application to Human Health Risks from Exposure to Chemicals (2.0 cr)
PUBH 6116 - Environmental Law (1.0 cr)
PUBH 6120 - Injury Prevention in the Workplace, Community, and Home (2.0 cr)
PUBH 6131 - Working in Global Health (2.0 cr)
PUBH 6132 - Air, Water, and Health (2.0 cr)
PUBH 6140 - Occupational and Environmental Epidemiology (2.0 cr)
PUBH 6161 - Regulatory Toxicology (2.0 cr)
PUBH 6177 - Nanotechnology Health and Safety (3.0 cr)
PUBH 6182 - Emerging Infectious Disease: Current Issues, Policies, and Controversies (3.0 cr)
PUBH 6190 - Environmental Chemistry (3.0 cr)
PUBH 6451 - Biostatistics II (4.0 cr)
PUBH 6751 - Principles of Management in Health Services Organizations (2.0 cr)
CEGE 4561 - Solids and Hazardous Wastes (3.0 cr)
CEGE 5551 - Environmental Microbiology (3.0 cr)
IE 5511 - Human Factors and Work Analysis (4.0 cr)
IE 5513 - Engineering Safety (4.0 cr)
KIN 5001 - Foundations of Human Factors/Ergonomics (3.0 cr)
ME 5113 - Aerosol/Particle Engineering (4.0 cr)
PA 5721 - Energy Systems and Policy (3.0 cr)
CMGT 4031 - Construction Safety and Loss Control (3.0 cr)

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The environmental health minor is designed for students who wish to understand how our physical and social environment affects public health. Students will learn about exposure to physical and social stressors, such as chemicals, infectious agents, stress, and violence; how stressors affect health; and how decisions are made to protect health.

The School of Public Health is accredited by the Council on Education for Public Health (CEPH).

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Students enrolled in University master's or doctoral programs are eligible for the minor.

Other requirements to be completed before admission:
Prior consultation with the major field academic advisor regarding pursuit of the Environmental Health minor is expected. For more information regarding the Environmental Health minor, contact ehnsss@umn.edu.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

Courses offered on both the A-F and S/N grade basis must be taken A-F. A minimum grade of B- is required for all courses.

The minimum cumulative GPA for the minor is 3.00.

Coursework (6-12 credits)
Required Course (2 credits)
Take the following course.
PUBH 6102 - Issues in Environmental Health (2.0 cr)

Electives
Master's students must select 4 credits from the following list and doctoral students must select 10 credits, in consultation with the Environmental Health director of graduate studies.

PUBH 6112 - Environmental Health Risk Assessment: Application to Human Health Risks from Exposure to Chemicals (2.0 cr)
Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 49 to 80
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Environmental health is the study of how exposures to external hazards, including chemical, physical, and biological agents, affect human health. Environmental health researchers and professionals seek to understand how to evaluate exposures that create risk to human health, how those exposures elicit biological responses that lead to disease and injury, and how policy is developed and used to prevent adverse health effects. This program offers academic programs at the master's and doctoral levels, conducts research in diverse areas of environmental health, offers continuing education, and conducts outreach. The academic programs prepare students to be leaders in environmental health in academia, industry, consulting groups, and government agencies. The program's training and research emphasizes the importance of translating basic scientific knowledge into solutions for current societal problems and concerns.

The School of Public Health is accredited by the Council on Education for Public Health (CEPH).

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A baccalaureate degree with coursework in the basic sciences. Each specialty requires slightly different preparation.

Other requirements to be completed before admission:
Applicants to the Industrial Hygiene track must meet the following additional criteria:
For students with undergraduate degrees in a relevant discipline, good academic performance (preferably science or engineering, but other disciplines will be considered), and a minimum level of coursework in biology, chemistry (including organic), physics, and mathematics (including calculus) are required. Students with undergraduate degrees in non-science fields with appropriate additional coursework and work experience may also apply, but must demonstrate strengths in physics, chemistry (including organic), biology, and mathematics (including calculus); complementary courses in non-science disciplines (e.g., social sciences, languages) that reflect a well-rounded education; a clear motivation toward occupational and environmental health as articulated by the written statement, and strong letters of recommendation. Success in prior industrial hygiene-related work is preferred.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7
- MELAB
  - Final score: 80
Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
25 to 56 credits are required in the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 4 semesters must be completed before filing a Degree Program Form.

Core Coursework (4 credits)
Take the following courses on the A-F grading basis. A minimum grade of B- must be earned for each course.
- PUBH 6250 - Foundations of Public Health (2.0 cr)
- PUBH 6742 - Ethics in Public Health: Research and Policy (1.0 cr)
- PUBH 8120 - Occupational and Environmental Health Sciences Research Seminar (1.0 cr)

Thesis Credits (24 credits)
Take at least 24 doctoral thesis credits.
- PUBH 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)

Concentration Areas

Environmental Chemistry (22 credits)
Required Coursework (17 credits)
Take the following courses:
- CEGE 5541 - Environmental Water Chemistry (3.0 cr)
- CEGE 8542 - Chemistry of Organic Pollutants in Environmental Systems (3.0 cr)
- EEB 5601 - Limnology (3.0 cr)
- PUBH 6190 - Environmental Chemistry (3.0 cr)
- STAT 5021 - Statistical Analysis (4.0 cr)
- PUBH 8120 - Occupational and Environmental Health Sciences Research Seminar (1.0 cr)

Electives (5 credits)
Choose electives in consultation with the advisor.
- CEGE 4561 - Solids and Hazardous Wastes (3.0 cr)
- CEGE 8503 - Environmental Mass Transport (4.0 cr)
- EEB 4611 - Biogeochemical Processes (3.0 cr)
- EEB 5609 - Ecosystem Ecology (3.0 cr)

Environmental and Occupational Epidemiology (27 credits)
Required Coursework (16 credits)
Take the following courses. Take 4 credits of PUBH 8120.
- PUBH 6140 - Occupational and Environmental Epidemiology (2.0 cr)
- PUBH 8120 - Occupational and Environmental Health Sciences Research Seminar (1.0 cr)
- PUBH 8340 - Advanced Epidemiologic Methods: Concepts (3.0 cr)
- PUBH 8342 - Advanced Epidemiologic Methods: Applications (3.0 cr)
- PUBH 8343 - Synthesis and Application of Methods in Epidemiologic Research (3.0 cr)

Electives (11 credits)
Choose electives in consultation with the advisor.
- PUBH 6120 - Injury Prevention in the Workplace, Community, and Home (2.0 cr)
- PUBH 6130 - Occupational Medicine: Principles and Practice (2.0 cr)
- PUBH 6150 - Interdisciplinary Evaluation of Occupational Health and Safety Field Problems (3.0 cr)
- PUBH 6170 - Introduction to Occupational Health and Safety (3.0 cr)
- PUBH 6173 - Exposure to Physical Agents (2.0 cr)
- PUBH 6181 - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
PUBH 6343 - Epidemiologic Methods III (4.0 cr)
PUBH 6355 - Pathophysiology of Human Disease (4.0 cr)
PUBH 6381 - Genetics in Public Health in the Age of Precision Medicine (2.0 cr)
PUBH 6385 - Epidemiology and Control of Infectious Diseases (2.0 cr)
PUBH 6387 - Cancer Epidemiology (2.0 cr)
PUBH 6806 - Principles of Public Health Research (2.0 cr)
PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
PUBH 7460 - Advanced Statistical Computing (3.0 cr)
PUBH 6112 - Environmental Health Risk Assessment: Application to Human Health Risks from Exposure to Chemicals (2.0 cr)
PUBH 6182 - Emerging Infectious Disease: Current Issues, Policies, and Controversies (3.0 cr)
PUBH 6389 - Nutritional Epidemiology (2.0 cr)

-OR-

Environmental Infectious Diseases (30 credits)

Required Coursework
Take the following courses for a total of 12 credits:
PUBH 6181 - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
PUBH 6182 - Emerging Infectious Disease: Current Issues, Policies, and Controversies (3.0 cr)
PUBH 6385 - Epidemiology and Control of Infectious Diseases (2.0 cr)
VMED 5180 - Ecology of Infectious Disease (3.0 cr)
PUBH 6102 - Issues in Environmental Health (2.0 cr)

Epidemiology (10 credits)
Take the following courses:
PUBH 6341 - Epidemiologic Methods I (3.0 cr)
PUBH 6342 - Epidemiologic Methods II (3.0 cr)
PUBH 6343 - Epidemiologic Methods III (4.0 cr)

Biostatistics (8 credits)
Take the following courses:
PUBH 6450 - Biostatistics I (4.0 cr)
PUBH 6451 - Biostatistics II (4.0 cr)

-OR-

Occupational and Environmental Health Nursing (35 credits)

Required Coursework
Take the following courses. Take 2 credits of PUBH 8120.
PUBH 6140 - Occupational and Environmental Epidemiology (2.0 cr)
PUBH 6170 - Introduction to Occupational Health and Safety (3.0 cr)
PUBH 6451 - Biostatistics II (4.0 cr)
PUBH 8120 - Occupational and Environmental Health Sciences Research Seminar (1.0 cr)
PUBH 6342 - Epidemiologic Methods II (3.0 cr)
PUBH 6343 - Epidemiologic Methods III (4.0 cr)
GRAD 8101 - Teaching in Higher Education (3.0 cr)
PUBH 6102 - Issues in Environmental Health (2.0 cr)
PUBH 6341 - Epidemiologic Methods I (3.0 cr)
PUBH 6450 - Biostatistics I (4.0 cr)
PUBH 6150 - Interdisciplinary Evaluation of Occupational Health and Safety Field Problems (3.0 cr)
PUBH 6130 - Occupational Medicine: Principles and Practice (2.0 cr)

-OR-

Environmental Toxicology (21 credits)

Required Coursework (20 credits)
Take the following courses:
PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)
PUBH 6414 - Biostatistical Literacy (3.0 cr)
PUBH 6112 - Environmental Health Risk Assessment: Application to Human Health Risks from Exposure to Chemicals (2.0 cr)
PUBH 6159 - Principles of Toxicology I (2.0 cr)
PUBH 6160 - Principles of Toxicology II (3.0 cr)
PUBH 6161 - Regulatory Toxicology (2.0 cr)

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of November 07, 2022
PUBH 8160 - Advanced Toxicology (2.0 cr)
PUBH 8161 - Current Literature in Toxicology (1.0 cr)

Electives (1 credit)
Select one of the following courses, in consultation with the advisor, to complete the 21-credit minimum for this concentration.
ANSC 8344 - Mechanisms of Hormone Action (2.0 cr)
PHCL 5111 - Pharmacogenomics (3.0 cr)
BIOC 8216 - Signal Transduction and Gene Expression (3.0 cr)
CSCI 5980 - Special Topics in Computer Science (1.0 - 3.0 cr)
CSCI 5461 - Functional Genomics, Systems Biology, and Bioinformatics (3.0 cr)
BIOC 5361 - Microbial Genomics and Bioinformatics (3.0 cr)
GRAD 8101 - Teaching in Higher Education (3.0 cr)
GRAD 8102 - Practicum for Future Faculty (3.0 cr)

-OR-

Occupational Injury Prevention Research Training (52 credits)

Required Coursework
Take the following courses. Take 4 credits of PUBH 8120.

PUBH 6341 - Epidemiologic Methods I (3.0 cr)
PUBH 6342 - Epidemiologic Methods II (3.0 cr)
PUBH 8341 - Advanced Epidemiologic Methods: Concepts (3.0 cr)
PUBH 8342 - Advanced Epidemiologic Methods: Applications (3.0 cr)
PUBH 8343 - Synthesis and Application of Methods in Epidemiologic Research (3.0 cr)
PUBH 6450 - Biostatistics I (4.0 cr)
PUBH 6451 - Biostatistics II (4.0 cr)
PUBH 6102 - Issues in Environmental Health (2.0 cr)
PUBH 6120 - Injury Prevention in the Workplace, Community, and Home (2.0 cr)
PUBH 6123 - Violence Prevention and Control: Theory, Research, and Application (2.0 cr)
PUBH 6140 - Occupational and Environmental Epidemiology (2.0 cr)
PUBH 6150 - Interdisciplinary Evaluation of Occupational Health and Safety Field Problems (3.0 cr)
PUBH 6170 - Introduction to Occupational Health and Safety (3.0 cr)
PUBH 8120 - Occupational and Environmental Health Sciences Research Seminar (1.0 cr)
GRAD 8101 - Teaching in Higher Education (3.0 cr)
IE 5511 - Human Factors and Work Analysis (4.0 cr)
PUBH 6343 - Epidemiologic Methods III (4.0 cr)

-OR-

Food Safety (33 credits)
Take the following courses. Take PUBH 7210 twice for a total of 1 credit.
PUBH 6102 - Issues in Environmental Health (2.0 cr)
PUBH 6181 - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
PUBH 6183 - Theory and Practice in Foodborne Disease Outbreak Detection, Investigation and Control (1.0 cr)
PUBH 6182 - Emerging Infectious Disease: Current Issues, Policies, and Controversies (3.0 cr)
PUBH 6385 - Epidemiology and Control of Infectious Diseases (2.0 cr)
PUBH 7210 - Topics: Global Food Systems (0.5 cr)
FSCN 5131 - Food Quality for Graduate Credit (3.0 cr)
PUBH 8120 - Occupational and Environmental Health Sciences Research Seminar (1.0 cr)

Epidemiology (10 credits)
PUBH 6341 - Epidemiologic Methods I (3.0 cr)
PUBH 6342 - Epidemiologic Methods II (3.0 cr)
PUBH 6343 - Epidemiologic Methods III (4.0 cr)

Biostatistics (8 credits)
PUBH 6450 - Biostatistics I (4.0 cr)
PUBH 6451 - Biostatistics II (4.0 cr)

Program Sub-plans
A sub-plan is not required for this program.
Students may not complete the program with more than one sub-plan.

Industrial Hygiene
The Industrial Hygiene track focuses on the health and safety of people at work, the community at large, and the environment. Specific concerns are with the recognition, evaluation and control of potential workplace hazards, including chemical, physical, and biological agents.
Industrial Hygiene Requirements (23 credits)

Take the following courses. Students with an ABET-accredited masters can apply up to 6 credits from that degree, with advisor approval, toward the 23-credit requirement.

Take the following courses:
- PUBH 6130 - Occupational Medicine: Principles and Practice (2.0 cr)
- PUBH 6150 - Interdisciplinary Evaluation of Occupational Health and Safety Field Problems (3.0 cr)
- PUBH 6170 - Introduction to Occupational Health and Safety (3.0 cr)
- PUBH 6172 - Industrial Hygiene Applications (2.0 cr)
- PUBH 6173 - Exposure to Physical Agents (2.0 cr)
- PUBH 6174 - Control of Workplace Exposure (3.0 cr)
- PUBH 6175 - Environmental Measurements Laboratory (2.0 cr)
- PUBH 6192 - Measurement and Properties of Air Contaminants (2.0 cr)
- PUBH 6193 - Advanced Topics in Human Exposure Science (2.0 cr)
- PUBH 6159 - Principles of Toxicology I (2.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 42 to 48
- This program does not require summer semesters for timely completion.
- Degree: Master of Public Health

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The epidemiology (EPI) MPH program trains students to: analyze public health trends in the burden of disease, identify risk factors for disease, design and implement studies, and interpret results for disease prevention and control policies and programs.

Two tracks are available to students in the Epidemiology MPH program: Standard Program or Accelerated Program. Students in the Standard Program are required to complete a minimum of 48 credits. Students in the Accelerated Program complete a 42 credit minimum curriculum and is available to those who have a prior earned doctoral degree.

The School of Public Health is accredited by the Council on Education for Public Health (CEPH).

Accreditation
This program is accredited by Council on Education for Public Health (CEPH).

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

A baccalaureate degree, with coursework in the basic sciences, from an accredited institution.

Admission to the accelerated program requires an earned doctorate (e.g., MD, PhD, DVM, DC, DDS), in a related field, from an accredited institution.

Other requirements to be completed before admission:
For more information visit www.sph.umn.edu

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements

Plan C: Plan C requires 42 to 48 major credits and up to null credits outside the major. There is no final exam. A capstone project is required.

Capstone Project: The capstone project comprises an integrative learning experience. Students complete either PUBH 7394 or PUBH 6344, selected in consultation with the advisor, to meet this requirement.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

Public Health Core Requirements (14 credits)
A minimum grade of B- must be earned for each of the following PUBH core courses:
- PUBH 6020 - Fundamentals of Social and Behavioral Science (2.0 cr)
- PUBH 6102 - Issues in Environmental Health (2.0 cr)
- PUBH 6341 - Epidemiologic Methods I (3.0 cr)
- PUBH 6450 - Biostatistics I (4.0 cr)
- PUBH 6741 - Ethics in Public Health: Professional Practice and Policy (1.0 cr)
- PUBH 6751 - Principles of Management in Health Services Organizations (2.0 cr)

Epidemiology Core Requirements (11 credits)
Take the following courses. Select PUBH 6325 or PUBH 6420 in consultation with the advisor. All courses must be completed A-F, with a minimum grade of B-.
- PUBH 6342 - Epidemiologic Methods II (3.0 cr)
- PUBH 6343 - Epidemiologic Methods III (4.0 cr)
- PUBH 6350 - Epidemiologic Methods III: Lab (1.0 cr)
- PUBH 6365 - Global Challenges in Infectious Disease Epidemiology (2.0 cr)
- PUBH 6325 - Data Processing with PC-SAS (1.0 cr)
  or PUBH 6420 - Introduction to SAS Programming (1.0 cr)

Epidemiology Content Courses (2 credits)
Select at least 1 course from the following, in consultation with the advisor. All courses must be completed A-F with a minimum grade of B-.
- PUBH 6381 - Genetics in Public Health in the Age of Precision Medicine (2.0 cr)
- PUBH 6385 - Epidemiology and Control of Infectious Diseases (2.0 cr)
- PUBH 6386 - Cardiovascular Disease Epidemiology and Prevention (2.0 cr)
- PUBH 6387 - Cancer Epidemiology (2.0 cr)
- PUBH 6389 - Nutritional Epidemiology (2.0 cr)
- PUBH 6605 - Sexual, Reproductive, and Perinatal Public Health (2.0 cr)

Biostatistics (4 credits)
A minimum grade of B- must be earned for the following course:
- PUBH 6451 - Biostatistics II (4.0 cr)

Basic Science Requirement (4 credits)
PUBH 6355 is not required for students in the accelerated program, or for standard-program students who obtain prior approval from the program director and course instructor.
- PUBH 6355 - Pathophysiology of Human Disease (4.0 cr)

Applied Practice Experience (1-2 credits)
Take 1-2 credits of PUBH 7396, in consultation with the advisor.
- PUBH 7396 - Applied Practice Experience: Epidemiology (1.0 - 5.0 cr)

Integrated Learning Experience (2 credits)
Take 1 of the following courses, in consultation with the advisor. If PUBH 7394 is selected, take at least 2 credits.
- PUBH 7394 - Integrative Learning Experience: Epidemiology (1.0 - 6.0 cr)
  or PUBH 6444 - Completing the Integrated Learning Experience: Secondary Data Analysis (2.0 cr)

Electives (8-10 credits)
Students pursuing the standard program select at least 10 elective credits, and students pursuing the accelerated program select at least 8 elective credits in consultation with the advisor.
- CSPH 5111 - Ways of Thinking about Health (2.0 cr)
- CSPH 5115 - Cultural Awareness, Knowledge and Health (3.0 cr)
CSPH 5118 - Whole Person, Whole Community: The Reciprocity of Wellbeing (3.0 cr)
CSPH 5215 - Forgiveness and Healing: A Journey Toward Wholeness (3.0 cr)
CSPH 5303 - Pain Management and Evidence Based Complementary Health Approaches (3.0 cr)
CSPH 5305 - Introduction to Integrative Mental Health (2.0 cr)
CSPH 5701 - Fundamentals of Health Coaching I (4.0 cr)
CSPH 5702 - Fundamentals of Health Coaching II (4.0 cr)
CSPH 5703 - Advanced Health Coaching Practicum (3.0 cr)
CSPH 5704 - Business of Health Coaching (2.0 cr)
CSPH 5706 - Lifestyle Medicine (2.0 cr)
CSPH 5707 - Coaching People with Clinical Conditions (2.0 cr)
CSPH 5708 - Mind-Body Science and the Art of Transformation (1.0 cr)
CSPH 5709 - Health and Wellbeing Group Coaching (2.0 cr)
CSPH 5713 - Health Coaching for Health Professionals (2.0 cr)
CSPH 5805 - Wellbeing in the Workplace (3.0 cr)
CSPH 5806 - Wellbeing and Resiliency for Health Professionals (1.0 cr)
CSPH 5807 - Wellbeing in the Workplace: Pause, Practice, Perform (2.0 cr)
CSPH 5905 - Food Matters: Cook Like Your Life Depends On It (1.0 cr)
EPSY 5114 - Psychology of Student Learning (3.0 cr)
EPSY 5247 - Qualitative Methods in Educational Psychology (3.0 cr)
EPSY 5609 - Infants and Toddlers with Delays/Disabilities: Family-Centered Approaches to Early Intervention (3.0 cr)
EPSY 8251 - Statistical Methods in Education I (3.0 cr)
EPSY 8264 - Advanced Multiple Regression Analysis (3.0 cr)
EPSY 8282 - Statistical Analysis of Longitudinal Data (3.0 cr)
FSCN 4612W - Advanced Human Nutrition [WI] (4.0 cr)
FSCN 4614W - Community Nutrition [SOCS, DSJ, WI] (3.0 cr)
FSCN 6221 - Nutrition and Metabolism (4.0 cr)
FSCN 6222 - Nutritional Toxicology, the basic science of diet-related toxicants (3.0 cr)
FSCN 4665 - Medical Nutrition Therapy I (3.0 cr)
FSCN 4666 - Medical Nutrition Therapy II (3.0 cr)
FSCN 4732 - Food and Nutrition Management (3.0 cr)
FSCN 5312 - Food Analysis (4.0 cr)
FSCN 5601 - Management of Eating Disorders (3.0 cr)
FSOS 5014 - Quantitative Family Research Methods I (3.0 cr)
FSOS 5015 - Family Research Laboratory (1.0 cr)
FSOS 5111 - Introduction to Family Therapy (3.0 cr)
FSOS 5701 - Prevention Science: Principles and Practices (3.0 cr)
FSOS 5937 - Parent-Child Interaction (3.0 cr)
FSOS 5942 - Diverse Family Experiences (3.0 cr)
FSOS 5944 - Curricular Design in Parent Education (3.0 cr)
FSOS 5945 - Teaching and Learning in Parent Education (3.0 cr)
FSOS 5946 - Assessment and Evaluation in Parent Education (3.0 cr)
FSOS 8001 - Conceptual Frameworks in the Family (3.0 cr)
FSOS 8002 - Advanced Family Conceptual Frameworks (3.0 cr)
FSOS 8014 - Quantitative Family Research Methods II (3.0 cr)
FSOS 8030 - Couple/Marriage and Family Therapy Research (3.0 cr)
HINF 5502 - Python Programming Essentials for the Health Sciences (1.0 cr)
HINF 5510 - Applied Health Care Databases: Database Principles and Data Evaluation (3.0 cr)
HINF 5520 - Informatics Methods for Health Care Quality, Outcomes, and Patient Safety (2.0 cr)
HINF 5511 - Health Data Analytics and Data Science (3.0 cr)
HINF 5610 - Foundations of Biomedical Natural Language Processing (3.0 cr)
HINF 5620 - Data Visualization for the Health Sciences (3.0 cr)
HINF 5630 - Clinical Data Mining (3.0 cr)
HSEX 6001 - Foundations of Human Sexuality (3.0 cr)
HSEX 6011 - Policy in Human Sexuality: Cutting Edge Analyses (3.0 cr)
HSEX 6211 - Dimensions of Sexual Functioning (3.0 cr)
HSEX 6013 - Perspectives and Practices in Sexual Health Education (3.0 cr)
LAW 6036 - Reproductive Rights (3.0 cr)

PUBH 7590 - Gerontology for Healthcare Managers (1.0 cr)
PUBH 7591 - Independent Study: Health Care Administration (1.0 - 4.0 cr)
PUBH 7691 - Independent Study: Maternal and Child Health (1.0 - 4.0 cr)
PUBH 7720 - Data to Drive Public Health (2.0 cr)
PUBH 7791 - Independent Study: Public Health Administration and Policy (1.0 - 6.0 cr)
PUBH 8120 - Occupational and Environmental Health Sciences Research Seminar (1.0 cr)
PUBH 8160 - Advanced Toxicology (2.0 cr)
PUBH 8166 - Experiences in Toxicology Research (3.0 cr)
PUBH 8194 - Directed Research: Environmental Health (1.0 - 6.0 cr)
PUBH 8341 - Advanced Epidemiologic Methods: Concepts (3.0 cr)
PUBH 8342 - Advanced Epidemiologic Methods: Applications (3.0 cr)
PUBH 8344 - Advanced Epidemiologic Methods Workshop (1.0 cr)
PUBH 8393 - Directed Study: Clinical Research (1.0 - 4.0 cr)
PUBH 8401 - Linear Models (3.0 cr)
PUBH 8403 - Research Skills in Biostatistics (1.0 cr)
PUBH 8432 - Probability Models for Biostatistics (3.0 cr)
PUBH 8445 - Statistics for Human Genetics and Molecular Biology (3.0 cr)
PUBH 8446 - Advanced Statistical Genetics and Genomics (3.0 cr)
PUBH 8475 - Statistical Learning and Data Mining (3.0 cr)
PUBH 8482 - Sequential and Adaptive Methods for Clinical Trials (3.0 cr)
PUBH 8485 - Methods for Causal Inference (3.0 cr)
PUBH 8492 - Theories of Hierarchical and Other Richly Parametrized Linear Models (3.0 cr)
PUBH 8804 - Advanced Quantitative Methods Seminar (3.0 cr)
PUBH 8810 - Research Studies in Health Care (3.0 cr)
PUBH 8811 - Research Methods in Health Care (3.0 cr)
PUBH 8814 - Mixed Methods: Quantitative and Qualitative Strategies in Research (2.0 cr)
PUBH 8816 - Implementation Science (2.0 cr)
PUBH 8821 - Health Economics II (3.0 cr)
PUBH 8830 - Writing for Research (2.0 cr)
PUBH 8831 - Writing for Research (2.0 cr)
SW 5101 - Human Behavior and the Social Environment (2.0 cr)
SW 5102 - Historical Origins and Contemporary Policies in Social Welfare (3.0 cr)
SW 5562 - Global Social Work and Social Development (3.0 cr)
SW 5904 - Facilitation and Conflict Management: Humanistic Approach (2.0 cr)
SW 5912 - Grief and Loss in Social Work Practice (1.0 cr)
SW 8151 - Social Work Methods: Practice With Individuals and Systems (2.0 cr)
SW 8152 - Social Work Practice Methods: Families and Groups (2.0 cr)
SW 8153 - Social Work Practice Methods: Macro Practice and Organizations (2.0 cr)
SW 8251 - Social Work Practice in Health, Disabilities, and Aging (3.0 cr)
SW 8262 - Empowerment Practice With Persons With Disabilities (3.0 cr)
SW 8263 - Essential Skills and Perspectives for Working with Older Adults (3.0 cr)
SW 8351 - Assessment and Engagement with Families and Children (3.0 cr)
SW 8352 - Intervention Methods with Families (3.0 cr)
SW 8363 - Social Work in Child Welfare (3.0 cr)
SW 8461 - Advanced Clinical Social Work Practice with Adults (3.0 cr)
SW 8551 - Advanced Community Practice: Assessment, Organizing, and Advocacy (3.0 cr)
SW 8552 - Advanced Community Practice: Leadership, Planning, and Program Development (3.0 cr)
SW 8563 - Advanced Policy Advocacy (3.0 cr)
SW 8804 - Child Welfare Policy (3.0 cr)
SW 8806 - Health and Mental Health Policy (3.0 cr)
SW 8807 - International and Comparative Social Welfare Policy (3.0 cr)
SW 8821 - Social Work and Difference, Diversity and Privilege (2.0 cr)
SW 8841 - Social Work Research Methods (2.0 cr)
SW 8842 - Advanced Social Work Evaluation (1.0 - 3.0 cr)
SW 8843 - Social Work Program Evaluation (1.0 - 2.0 cr)
SW 8851 - Social Welfare History and Historical Research Methods (3.0 cr)
SW 8901 - Assessment and Treatment of Trauma (2.0 cr)
SW 8902 - Social Work Supervision, Consultation, and Leadership (2.0 cr)
VMED 5101 - Molecular and Cellular Basis of Nanoparticle Toxicity (3.0 cr)
VMED 5165 - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
VMED 5180 - Ecology of Infectious Disease (3.0 cr)
VMED 5181 - Spatial Analysis in Infectious Disease Epidemiology (3.0 cr)
VMED 5915 - Essential Statistics for Life Sciences (3.0 cr)
VMED 8090 - Epidemiology of Zoonoses and Diseases Common to Animals and Humans (3.0 cr)
VMED 8134 - Ethical Conduct of Animal Research (3.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 38
- This program does not require summer semesters for timely completion.
- Degree: Master of Science

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Note: Students are not admitted directly into the MS Epidemiology program; it is available only by special arrangement. Students interested in a master's degree in epidemiology should apply for the master of public health (MPH) degree through the School of Public Health.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Please visit www.sph.umn.edu for admission requirements.

Special Application Requirements:
Students are not admitted directly into the MS program.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7
- MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Plan B: Plan B requires 38 major credits and 0 credits outside the major. The final exam is oral. A capstone project is required.
Capstone Project: A master's project is required, which will be completed by taking two credits of PUBH 7394.

This program may be completed with a minor.
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 1 semesters must be completed before filing a Degree Program Form.

These requirements apply only to students admitted by special arrangement with the program; students are not admitted directly into the Epidemiology MS program. Courses must be taken A-F, unless offered only S/N. The minimum grade required for each A-F-graded course is B-.

Core Requirements (14-18 credits)

PUBH 6250 is only required for students who do not have an MPH or a bachelor's degree in Public Health.

PUBH 6250 - Foundations of Public Health (2.0 cr)
PUBH 6348 - Writing Research Grants (2.0 cr)
PUBH 7401 - Fundamentals of Biostatistical Inference (4.0 cr)
PUBH 8341 - Advanced Epidemiologic Methods: Concepts (3.0 cr)
PUBH 8342 - Advanced Epidemiologic Methods: Applications (3.0 cr)
PUBH 8345 - How To Be An Anti-Racist Epidemiologist (1.0 cr)

Teaching Skills

GRAD 8101 - Teaching in Higher Education (3.0 cr)
or GRAD 8200 - Teaching and Learning Topics in Higher Education (1.0 cr)

Methods, Statistics, and Content Areas (10 credits)

Take the following course:

PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)

Methods/Statistics List

Select a minimum of 3 credits from the following:

PUBH 6915 - Nutrition Assessment (2.0 cr)
PUBH 7402 - Biostatistics Modeling and Methods (4.0 cr)
PUBH 7405 - Biostatistical Inference I (4.0 cr)
PUBH 7406 - Biostatistical Inference II (3.0 cr)
PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
PUBH 7445 - Statistics for Human Genetics and Molecular Biology (3.0 cr)
PUBH 8141 - Doctoral Seminar in Observational Inference (2.0 cr)
PUBH 8343 - Synthesis and Application of Methods in Epidemiologic Research (3.0 cr)
PUBH 8344 - Advanced Epidemiologic Methods Workshop (1.0 cr)
PUBH 8804 - Advanced Quantitative Methods Seminar (3.0 cr)

Content Area Courses

Select a minimum of 4 credits from the following:

PUBH 6140 - Occupational and Environmental Epidemiology (2.0 cr)
PUBH 6333 - Principles of Human Behavior I (2.0 cr)
PUBH 6334 - Human Behavior II (2.0 cr)
PUBH 6381 - Genetics in Public Health in the Age of Precision Medicine (2.0 cr)
PUBH 6385 - Epidemiology and Control of Infectious Diseases (2.0 cr)
PUBH 6386 - Cardiovascular Disease Epidemiology and Prevention (2.0 cr)
PUBH 6387 - Cancer Epidemiology (2.0 cr)
PUBH 6389 - Nutritional Epidemiology (2.0 cr)

Electives (12 credits)

Select a minimum of 12 credits from the following:

PUBH 6074 - Mass Communication and Public Health (3.0 cr)
PUBH 6078 - Public Health Policy as a Prevention Strategy (2.0 cr)
PUBH 6094 - Interventions to Address Weight-Related Health and Eating Disorders (2.0 cr)
PUBH 6255 - Pathophysiology of Human Disease (4.0 cr)
PUBH 6370 - Social Epidemiology (2.0 cr)
PUBH 7391 - Independent Study: Epidemiology (1.0 - 4.0 cr)
PUBH 7392 - Readings in Epidemiology (1.0 - 4.0 cr)
PUBH 7405 - Biostatistical Inference I (4.0 cr)
PUBH 7406 - Biostatistical Inference II (3.0 cr)
PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
PUBH 7445 - Statistics for Human Genetics and Molecular Biology (3.0 cr)
PUBH 7450 - Survival Analysis (3.0 cr)
PUBH 8343 - Synthesis and Application of Methods in Epidemiologic Research (3.0 cr)
PUBH 8344 - Advanced Epidemiologic Methods Workshop (1.0 cr)
VMED 5180 - Ecology of Infectious Disease (3.0 cr)
VMED 8090 - Epidemiology of Zoonoses and Diseases Common to Animals and Humans (3.0 cr)
Capstone Project (2 credits)
Take 2 credits of PUBH 7394:
PUBH 7394 - Integrative Learning Experience: Epidemiology (1.0 - 6.0 cr)
**Twin Cities Campus**

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 8
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Epidemiologists investigate the determinants of health and disease, and use data to identify changes in the public health burden of disease. The Epidemiology minor trains students to analyze public health trends, design and implement studies, and interpret results for policy and program development.

The School of Public Health is accredited by the Council on Education for Public Health (CEPH).

**Program Delivery**

This program is available:
- via classroom (the majority of instruction is face-to-face)

**Prerequisites for Admission**

The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Epidemiology director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

**Program Requirements**

Use of 4xxx courses towards program requirements is not permitted.

All required minor field coursework must be taken A-F and achieve a grade of B- or above. Electives can be taken S/N or A-F. If electives are taken A-F students must achieve a B- or above. If electives are taken A-F students must achieve a grade of B- or above.
Graduate credits can be applied toward the major or the minor/other requirement, but not both.

**Program Sub-plans**

Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

**Masters**

**Coursework Requirements (8 credits)**

**Required Courses (6 credits)**

Students must complete PUBH 6342 plus PUBH 6341 or PUBH 6320. Students choosing PUBH 6320 must earn a minimum grade of A-.
PUBH 6342 - Epidemiologic Methods II (3.0 cr)
PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)
or PUBH 6341 - Epidemiologic Methods I (3.0 cr)

Electives (2 credits)
Select 2 credits from the following in consultation with the Epidemiology director of graduate studies.
PUBH 6381 - Genetics in Public Health in the Age of Precision Medicine (2.0 cr)
PUBH 6385 - Epidemiology and Control of Infectious Diseases (2.0 cr)
PUBH 6386 - Cardiovascular Disease Epidemiology and Prevention (2.0 cr)
PUBH 6387 - Cancer Epidemiology (2.0 cr)
PUBH 6389 - Nutritional Epidemiology (2.0 cr)
PUBH 6605 - Sexual, Reproductive, and Perinatal Public Health (2.0 cr)

Doctoral

Doctoral Minor Options
The doctoral minor can be completed in one of two ways: Option 1 is for students with the necessary background of epidemiology coursework, as determined by the Epidemiology director of graduate studies; Option 2 is for students without that necessary coursework.

Coursework Requirements (12 credits)
Required Courses: Option 1 (10 credits)
Students with the necessary epidemiology background take the following courses:
PUBH 7401 - Fundamentals of Biostatistical Inference (4.0 cr)
PUBH 8341 - Advanced Epidemiologic Methods: Concepts (3.0 cr)
PUBH 8342 - Advanced Epidemiologic Methods: Applications (3.0 cr)
or Required Courses: Option 2 (10 credits)
Students without the necessary epidemiology background take the following courses:
PUBH 6341 - Epidemiologic Methods I (3.0 cr)
PUBH 6342 - Epidemiologic Methods II (3.0 cr)
PUBH 6450 - Biostatistics I (4.0 cr)

Electives (2 credits)
Select 2 credits from the following, or other coursework, in consultation with the Epidemiology director of graduate studies.
PUBH 6365 - Global Challenges in Infectious Disease Epidemiology (2.0 cr)
PUBH 6381 - Genetics in Public Health in the Age of Precision Medicine (2.0 cr)
PUBH 6385 - Epidemiology and Control of Infectious Diseases (2.0 cr)
PUBH 6386 - Cardiovascular Disease Epidemiology and Prevention (2.0 cr)
PUBH 6387 - Cancer Epidemiology (2.0 cr)
PUBH 6389 - Nutritional Epidemiology (2.0 cr)
PUBH 7405 - Biostatistical Inference I (4.0 cr)
PUBH 7406 - Biostatistical Inference II (3.0 cr)
PUBH 7415 - Introduction to Clinical Trials (3.0 cr)
PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)
PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
PUBH 7445 - Statistics for Human Genetics and Molecular Biology (3.0 cr)
PUBH 7450 - Survival Analysis (3.0 cr)
PUBH 7470 - Study Designs in Biomedical Research (3.0 cr)
PUBH 7475 - Statistical Learning and Data Mining (3.0 cr)
PUBH 7485 - Methods for Causal Inference (3.0 cr)
**Twin Cities Campus**

**Epidemiology Ph.D.**

*School of Public Health - Adm*

School of Public Health

Link to a list of faculty for this program.

**Contact Information:**
School of Public Health, MMC 819, A395 Mayo Memorial Building, 420 Delaware Street, Minneapolis, MN 55455 (612-626-3500 OR 1-800-774-8636)

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 53 to 63
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Epidemiology PhD program trains students to examine public health trends, design and implement studies, interpret research results for policy and program development, and analyze significant public health problems. There are two tracks within the Epi PhD program: clinical/biological epidemiology (CBE) or social/behavioral epidemiology (SBE).

The School of Public Health is accredited by the Council on Education for Public Health (CEPH).

**Program Delivery**
This program is available:
- via classroom (the majority of instruction is face-to-face)

**Prerequisites for Admission**
The preferred undergraduate GPA for admittance to the program is 3.00.

Applicants must be in process, or have completed, a master's degree in a related field.

**Special Application Requirements:**
Strong quantitative aptitude, along with satisfactory grades in college-level quantitative courses. At least three recommendations (form and separate letter) from faculty and/or work supervisors with knowledge of the applicant's scholastic and professional capabilities and potential; statement of goals and objectives (letter of intent) for seeking a career in epidemiology.

In addition, applicants must submit a separate essay (statement of research interests) beyond what is required for the SOPHAS application process that provides evidence of their potential to conduct original research in a specific epidemiologic area and, if possible, indicates an interest in particular methodologies or study designs. Serious applicants are encouraged to contact the program coordinator at epichstu@umn.edu before applying. Students begin their studies in the fall semester. Applications must be completed by December 1 of the year prior to beginning the doctoral program.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7
- MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements

29 to 39 credits are required in the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.25 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

Courses offered on both the A-F and S/N grading basis must be taken A-F, with a minimum grade of B- earned for each course.

All Epidemiology PhD students must also complete the following components:

1. All Epidemiology PhD students, regardless of either SBE or CBE track, must attend 12 seminars.
2. All Epidemiology PhD students, regardless of either SBE or CBE track, with the exception of the MD/PhD students, must TA a course. (Students who are MD/PhD students do NOT need to TA a course).
3. All Epidemiology PhD students must give a minimum 50 minute lecture in an Epidemiology course.

Core Coursework (15 credits)

Take the following courses:

PUBH 6348 - Writing Research Grants (2.0 cr)
PUBH 7401 - Fundamentals of Biostatistical Inference (4.0 cr)
PUBH 8341 - Advanced Epidemiologic Methods: Concepts (3.0 cr)
PUBH 8342 - Advanced Epidemiologic Methods: Applications (3.0 cr)
PUBH 6250 - Foundations of Public Health (2.0 cr)
PUBH 8345 - How To Be An Anti-Racist Epidemiologist (1.0 cr)

Teaching Course (1-3 credits)

Select one of the following, in consultation with the advisor. Students choosing GRAD 8200 must complete it with the following topic, 'Teaching & Learning: An Online Course'.

GRAD 8101 - Teaching in Higher Education (3.0 cr)
or GRAD 8200 - Teaching and Learning Topics in Higher Education (1.0 cr)

Thesis Credits

Take at least 24 doctoral thesis credits.

PUBH 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)

Joint- or Dual-degree Coursework

MD/PhD-Epidemiology

Program Sub-plans

Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Clinical/Biological Epidemiology

Clinical/Biological Track (13-23 credits)

Biological Methods/Statistics Course (3 credits)

Take the following course:

PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)

Additional Biostatistics Course (3 credits)

Select at least 3 credits from the following in consultation with the advisor:

PUBH 6915 - Nutrition Assessment (2.0 cr)
PUBH 7402 - Biostatistics Modeling and Methods (4.0 cr)
PUBH 7405 - Biostatistical Inference I (4.0 cr)
PUBH 7406 - Biostatistical Inference II (3.0 cr)
PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
PUBH 7445 - Statistics for Human Genetics and Molecular Biology (3.0 cr)
PUBH 8343 - Synthesis and Application of Methods in Epidemiologic Research (3.0 cr)
PUBH 8344 - Advanced Epidemiologic Methods Workshop (1.0 cr)
PUBH 8804 - Advanced Quantitative Methods Seminar (3.0 cr)

**Content Area Courses (2-4 credits)**
Students pursuing the joint MD/PhD degree select at least 2 credits in consultation with the advisor. All other students complete at least 4 credits:
PUBH 6140 - Occupational and Environmental Epidemiology (2.0 cr)
PUBH 6381 - Genetics in Public Health in the Age of Precision Medicine (2.0 cr)
PUBH 6385 - Epidemiology and Control of Infectious Diseases (2.0 cr)
PUBH 6386 - Cardiovascular Disease Epidemiology and Prevention (2.0 cr)
PUBH 6387 - Cancer Epidemiology (2.0 cr)
PUBH 6389 - Nutritional Epidemiology (2.0 cr)

**Electives (5-13 credits)**
Students pursuing the joint MD/PhD degree select at least 5 elective credits in consultation with the advisor. All other students complete at least 13 elective credits:
PUBH 6355 - Pathophysiology of Human Disease (4.0 cr)
PUBH 7391 - Independent Study: Epidemiology (1.0 - 4.0 cr)
PUBH 7392 - Readings in Epidemiology (1.0 - 4.0 cr)
PUBH 7405 - Biostatistical Inference I (4.0 cr)
PUBH 7406 - Biostatistical Inference II (3.0 cr)
PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
PUBH 7445 - Statistics for Human Genetics and Molecular Biology (3.0 cr)
PUBH 7450 - Survival Analysis (3.0 cr)
PUBH 8343 - Synthesis and Application of Methods in Epidemiologic Research (3.0 cr)
PUBH 8344 - Advanced Epidemiologic Methods Workshop (1.0 cr)
VMED 5180 - Ecology of Infectious Disease (3.0 cr)
VMED 8090 - Epidemiology of Zoonoses and Diseases Common to Animals and Humans (3.0 cr)

**Social/Behavioral Epidemiology**

**Behavioral Methods/Statistics Course (3 credits)**
Take the following course:
PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)

**Additional Biostatistics Course (3 credits)**
Select at least 3 credits from the following in consultation with the advisor:
PUBH 6915 - Nutrition Assessment (2.0 cr)
PUBH 7402 - Biostatistics Modeling and Methods (4.0 cr)
PUBH 7405 - Biostatistical Inference I (4.0 cr)
PUBH 7406 - Biostatistical Inference II (3.0 cr)
PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
PUBH 8343 - Synthesis and Application of Methods in Epidemiologic Research (3.0 cr)
PUBH 8344 - Advanced Epidemiologic Methods Workshop (1.0 cr)
PUBH 8804 - Advanced Quantitative Methods Seminar (3.0 cr)

**Content Area Courses (4 credits)**
Take the following courses:
PUBH 6333 - Principles of Human Behavior I (2.0 cr)
PUBH 6334 - Human Behavior II (2.0 cr)

**Electives (3-13 credits)**
Students pursuing the joint MD/PhD degree select at least 3 elective credits in consultation with the advisor. All other students complete at least 13 elective credits:
PUBH 6074 - Mass Communication and Public Health (3.0 cr)
PUBH 6078 - Public Health Policy as a Prevention Strategy (2.0 cr)
PUBH 6094 - Interventions to Address Weight-Related Health and Eating Disorders (2.0 cr)
PUBH 6370 - Social Epidemiology (2.0 cr)
PUBH 6381 - Genetics in Public Health in the Age of Precision Medicine (2.0 cr)
PUBH 6385 - Epidemiology and Control of Infectious Diseases (2.0 cr)
PUBH 6386 - Cardiovascular Disease Epidemiology and Prevention (2.0 cr)
PUBH 6387 - Cancer Epidemiology (2.0 cr)
PUBH 7391 - Independent Study: Epidemiology (1.0 - 4.0 cr)
PUBH 7392 - Readings in Epidemiology (1.0 - 4.0 cr)
PUBH 7405 - Biostatistical Inference I (4.0 cr)
PUBH 7406 - Biostatistical Inference II (3.0 cr)
PUBH 8343 - Synthesis and Application of Methods in Epidemiologic Research (3.0 cr)
PUBH 8344 - Advanced Epidemiologic Methods Workshop (1.0 cr)

- Program Type: Graduate free-standing minor
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 8
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

As the population continues to age, the demand for graduates with knowledge of aging increases. The Gerontology minor provides an opportunity to enrich graduate studies with an interdisciplinary program focused on aging. Students enroll in a multidisciplinary foundation course and then select courses from core areas of psychosocial aging, geroscience/geriatrics, and policy.

The School of Public Health is accredited by the Council on Education for Public Health (CEPH).

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Students interested in the minor are strongly encouraged to confer first with their major field advisor and director of graduate studies, and the Gerontology director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Required courses must be taken A-F, and a minimum grade of B- must be earned for each course.

The minimum cumulative GPA for coursework applied to the minor is 3.00.

Required Course (2 credits)
Select 1 of the following in consultation with the Gerontology director of graduate studies:
GERO 5105 - Multidisciplinary Perspectives on Aging (2.0 cr)
or PUBH 6883 - Multidisciplinary Perspectives on Aging (2.0 cr)

Core Courses (6 credits)
Select 1 course from each of the 3 areas, in consultation with the Gerontology director of graduate studies, to meet the 6-credit...
Behavioral and Social Science Core
- GERO 5103 - Aging and Society (2.0 cr)
- GERO 5117 - Adult Development and Aging (2.0 cr)
- PUBH 6817 - Adult Development and Aging (2.0 cr)
- PUBH 6882 - Aging and Society (2.0 cr)

Geroscience and Geriatrics Core
- HSM 6584 - Long Term Care Health and Medical Needs (1.0 cr)
  or RSC 5814 - Age, Exercise, and Rehabilitation (2.0 cr)

Policy and Long-term Care Core
- SW 8805 - Aging and Disability Policy (3.0 cr)
- PUBH 6518 - Equity and Long-Term Care Quality (2.0 cr)
- GERO 5518 - Equity and Long-Term Care Quality (2.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Masters

Electives
Select credits, in consultation with the Gerontology director of graduate studies, to complete the 12-credit requirement.

- ANES 7185 - Anesthesiology Advanced Elective (4.0 cr)
- BIOC 8102 - Hot Topics in the Biology of Aging (1.0 cr)
- FMCH 7520 - Rural Rotation in Family Medicine (4.0 cr)
- GERI 7200 - Advanced Clinical Geriatric Dentistry (1.0 - 10.0 cr)
- GERI 7210 - Geriatric Hospital Dentistry (1.0 - 6.0 cr)
- GERO 5125 - Gerontology Service Learning (1.0 - 3.0 cr)
- GERO 8022 - Fostering a Career in Aging Research (1.0 cr)
- HSM 6582 - Practicum in Long Term Care (1.0 cr)
- HSM 6583 - Long Term Care Supports and Services (2.0 cr)
- HSM 6584 - Long Term Care Health and Medical Needs (1.0 cr)
- HSM 6585 - Long Term Care Organizational Management (1.0 cr)
- HSM 6586 - Management in Assisted Living and Senior Care Settings (3.0 cr)
- HSM 6587 - Long Term Care Regulatory Management (1.0 cr)
- HSM 6588 - Long Term Care Quality Management and Performance Improvement (2.0 cr)
- HSM 6592 - Long Term Care Health Care Law (1.0 cr)
- HSM 6593 - Gerontology for Health Care Managers (1.0 cr)
- KIN 5385 - Exercise for Healthy Aging & Disease Prevention and Management (3.0 cr)
- NURS 6903 - Nurse Anesthesia Care: Special Populations Across the Lifespan (2.0 cr)
- OLPD 5202 - Perspectives of Adult Learning and Development (3.0 cr)
- ORSU 7190 - Acting Intern General, Reconstructive, and Geriatric Orthopaedics (4.0 cr)
- OT 7223 - Occupational Therapy Process for Older Adults I (3.0 cr)
- PA 8461 - Global and U.S. Perspectives on Health and Mortality (3.0 cr)
- PHAR 6754 - Diabetes and Metabolic Syndrome (2.1 cr)
- PHAR 6758 - Pulmonary Pharmacotherapy (1.1 cr)
- PHAR 6971 - Geriatric Pharmacotherapy (2.0 cr)
- PT 7011 - Topics in Geriatric Rehabilitation II (2.0 cr)
- SLHS 5605 - Language and Cognitive Disorders in Adults (3.0 cr)
- SW 8262 - Empowerment Practice With Persons With Disabilities (3.0 cr)
- SW 8805 - Aging and Disability Policy (3.0 cr)

- Program Type: Post-baccalaureate credit certificate/licensure/endorsement
- Requirements for this program are current for Fall 2022
- Length of program in credits: 15
- This program does not require summer semesters for timely completion.
- Degree: Global Health PBacc Certificate

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Global Health Certificate is designed for students who have a strong interest in global health, who have a desire to understand cultures, and who may want to experience first-hand a global applied practice experience which could prepare them for work in a global setting. Many students may want to complete the Certificate to complement their graduate degree.

It is increasingly recognized that issues that affect health transcend national boundaries, and that development and implementation of solutions to such health problems requires global cooperation. Global health represents an interdisciplinary approach that embraces both disease prevention in populations and clinical care of individuals, with a strong emphasis on health equity and health as a public good.

The School of Public Health is accredited by the Council on Education for Public Health (CEPH).

**Accreditation**

This program is accredited by Council on Education for Public Health (CEPH)

**Program Delivery**

This program is available:
- partially online (between 50% to 80% of instruction is online)

**Prerequisites for Admission**

The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:

- Applicants must hold a baccalaureate degree.

**Special Application Requirements:**

Applicants must submit to SOPHAS Express, a centralized online application service:
- Completed SOPHAS Express application and application fee, designating the University of Minnesota School of Public Health
- Personal statement describing the applicant's reason for applying, career goals, and how the certificate will help them achieve their goals
- One letter of recommendation
- Unofficial transcripts of record from each college/university where a degree was earned. (If admitted, official transcripts will need to be sent directly to the School of Public Health.)
- Resume or C.V.

For detailed application instructions and requirements visit www.sph.umn.edu.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
- Paper Based - Total Score: 600
  • IELTS
    - Total Score: 7

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

Students must take the required courses for A-F and achieve a grade of B- or above. Electives can be taken either A-F or S/N. Students must achieve a B- or above in elective courses taken A-F.

Coursework (15 credits)

Required Courses (5 credits)
Take the following courses:
- PUBH 6004 - Global Health Capstone (1.0 cr)
- PUBH 6108 - Foundations of Global Health (2.0 cr)
- PUBH 6131 - Working in Global Health (2.0 cr)

Electives (10 credits)
Select at least 10 elective credits, in consultation with the director of graduate studies.
- GCC 5003 - Seeking Solutions to Global Health Issues [GP] (3.0 cr)
- GHSR 6713 - Global Health In Local Contexts (3.0 cr)
- PUBH 6011 - Public Health Approaches to HIV/AIDS (3.0 cr)
- PUBH 6055 - Social Inequalities in Health (2.0 cr)
- PUBH 6132 - Air, Water, and Health (2.0 cr)
- PUBH 6154 - Climate Change and Global Health (3.0 cr)
- PUBH 6194 - Climate Change and Public Health: The Science and Public Health Responses (2.0 cr)
- PUBH 6365 - Global Challenges in Infectious Disease Epidemiology (2.0 cr)
- PUBH 6385 - Epidemiology and Control of Infectious Diseases (2.0 cr)
- PUBH 6396 - Applied Practice Experience Global Health (0.5 - 8.0 cr)
- PUBH 6602 - Global Maternal and Child Health (2.0 cr)
- PUBH 6605 - Sexual, Reproductive, and Perinatal Public Health (2.0 cr)
- PUBH 6715 - India: Global Health, Globalization, & Leadership (3.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 42 to 60
- This program requires summer semesters for timely completion.
- Degree: Master of Healthcare Administration

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Master of Healthcare Administration (MHA) offers both a residential program and an executive track. The residential program, delivered in a learning cohort model, is a competency-based curriculum that emphasizes deep understanding of healthcare delivery and financing institutions, problem-solving, innovation, strategic thinking, and leadership development. The executive track is delivered in a dynamic learning cohort model through online coursework with synchronous in-person and/or online kick-off sessions each semester.

Accreditation
This program is accredited by Commission on Accreditation of Healthcare Management Education (CAHME)

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Applicants to the residential program should have:
- a strong commitment to managing people and resources to create and sustain outstanding healthcare services and organizations;
- strong quantitative and communication skills;
- completed coursework in statistics, accounting, microeconomics, and Excel/spreadsheets (recommended); and
- prior experience in healthcare (recommended).

Applicants to the executive track must have
- at least three years of management or clinical leadership experience in a healthcare organization.

Visit SPH for detailed application requirements at www.sph.umn.edu

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7
- MELAB
  - Final score: 80
Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan C: Plan C requires 42 to 60 major credits and up to null credits outside the major. The is no final exam. A capstone project is required.

Capstone Project: Advanced Problem Solving in Healthcare Administration, PUBH 6577, 2 credits.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

At least 3 semesters must be completed before filing a Degree Program Form.

Residential MHA

The residential MHA program requires 60 credits.

Required Courses (48-51 credits)

Full-time students take the following 51 credits, and dual-degree students select 48 credits from the following in consultation with the advisor:

- PUBH 6525 - Introduction to Population Health: A Health System (2.0 cr)
- PUBH 6535 - Managerial Accounting for Health Services (3.0 cr)
- PUBH 6541 - Statistics for Health Management Decision Making (3.0 cr)
- PUBH 6542 - Management of Health Care Organizations (3.0 cr)
- PUBH 6544 - Principles of Problem Solving in Health Services Organizations (3.0 cr)
- PUBH 6547 - Health Care Human Resources Management (2.0 cr)
- PUBH 6554 - Healthcare Strategy and Marketing (2.0 cr)
- PUBH 6555 - Health Economics (2.0 cr)
- PUBH 6556 - Health and Health Systems (3.0 cr)
- PUBH 6557 - Health Finance I (3.0 cr)
- PUBH 6558 - Health Finance II (3.0 cr)
- PUBH 6560 - Operations Research and Quality in Health Care (3.0 cr)
- PUBH 6562 - Information Technology in Health Care (2.0 cr)
- PUBH 6564 - Private Purchasers of Health Care: Roles of Employers and Health Plans in U.S. Health Care System (2.0 cr)
- PUBH 6565 - Innovation of Healthcare Services (2.0 cr)
- PUBH 6571 - Quality, Patient Safety, and Performance Improvement (2.0 cr)
- PUBH 6577 - Advanced Problem Solving in Health Services Administration (2.0 cr)
- PUBH 7596 - Clerkship in Health Care Administration (2.0 cr)
- PUBH 6527 - Healthcare Leadership and Effecting Change (2.0 cr)
- PUBH 6524 - The Twin Cities Learning Laboratory (1.0 cr)
- PUBH 6526 - Professional Development for Emerging Healthcare Leaders (1.0 cr)
- PUBH 6597 - Legal & Ethical Considerations in Health Services Organizations (3.0 cr)

Electives (9 credits)

Select coursework from the following in consultation with the advisor:

- ANTH 5009 - Human Behavioral Biology (3.0 cr)
- CSPH 5000 - Explorations in Integrative Therapies and Healing Practices (1.0 - 4.0 cr)
- CSPH 5101 - Introduction to Integrative Healing Practices (3.0 cr)
- CSPH 5115 - Cultural Awareness, Knowledge and Health (3.0 cr)
- CSPH 5711 - Optimal Healing Environments (3.0 cr)
- CSPH 5806 - Wellbeing and Resiliency for Health Professionals (1.0 cr)

Dual Degree MBA/MHA Electives

Dual Degree MBA/MHA Electives
Dual degree students may choose from the following list of electives.
Electives (12 credits)
Select coursework from the following in consultation with the advisor:
ANTH 5009 - Human Behavioral Biology (3.0 cr)
CSPH 5000 - Explorations in Integrative Therapies and Healing Practices (1.0 - 4.0 cr)
CSPH 5101 - Introduction to Integrative Healing Practices (3.0 cr)
CSPH 5115 - Cultural Awareness, Knowledge and Health (3.0 cr)
CSPH 5711 - Optimal Healing Environments (3.0 cr)
Joint- or Dual-degree Coursework:
MBA/MHA-Healthcare Administration
Student may take a total of 12 credits in common among the academic programs.

Program Sub-plans
A sub-plan is not required for this program.
Students may not complete the program with more than one sub-plan.

Executive MHA Program
Executive MHA (42 credits)
Take the following courses:

- PUBH 7525 - Introduction to Population Health: A Health System Perspective (2.0 cr)
- PUBH 7533 - Leading with Impact in Healthcare (1.0 cr)
- PUBH 7537 - Healthcare Finance (3.0 cr)
- PUBH 7538 - Health Financial Principles (4.0 cr)
- PUBH 7541 - Statistics for Health Management Decision Making (3.0 cr)
- PUBH 7542 - Quality Improvement and Patient Safety (2.0 cr)
- PUBH 7547 - Health Care Human Resource Management (2.0 cr)
- PUBH 7551 - Principles of Management in Health Services Organizations (2.0 cr)
- PUBH 7553 - Health Care Management Ethics (1.0 cr)
- PUBH 7554 - Health Care Strategy and Marketing (3.0 cr)
- PUBH 7555 - Health Economics (2.0 cr)
- PUBH 7556 - Health and Health Systems (2.0 cr)
- PUBH 7560 - Operations Research and Quality in Health Care (3.0 cr)

• Program Type: Graduate free-standing minor
• Requirements for this program are current for Fall 2022
• Length of program in credits (Masters): 7
• Length of program in credits (Doctorate): 12
• This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The health equity minor promotes understanding of the root causes of health inequalities and explores practice and policy solutions to eliminate health inequalities. Understanding structural factors that lead to health inequalities prepare students to develop strategies to promote health equity.

The School of Public Health is accredited by the Council on Education for Public Health (CEPH).

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Admission to the health equity minor is contingent upon enrollment in a University master's or doctoral degree-granting program.

Students should consult with their program advisor, prior to then contact the Health Equity director of graduate studies regarding requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

All required minor coursework must be taken on the A-F grade basis and an overall GPA of 3.0 maintained. The courses taken as electives can be taken A-F or S/N. Required courses and electives taken A-F must obtain a grade of B- or better.

Minor Coursework

Required Course (1 credit)
PUBH 6772 - Health Disparities Capstone Seminar (1.0 cr)

Select at least one course from list below:
CSPH 5115 - Cultural Awareness, Knowledge and Health (3.0 cr)
PUBH 6055 - Social Inequalities in Health (2.0 cr)
PUBH 6066 - Building Communities, Increasing Health: Preparing for Community Health Work (2.0 cr)
PUBH 6855 - Medical Sociology (3.0 cr)

Electives
Choose coursework to complete 7 credits for the masters minor, and 12 total credits for the doctoral minor. Electives coursework can be taken A-F or S/N.
Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Good math skills are essential. Previous coursework in algebra, statistics, or other quantitative coursework is recommended.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7
- MELAB
  - Final Score: 80

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Plan B: Plan B requires 34 major credits and 0 credits outside the major. The final exam is oral. A capstone project is required.
Capstone Project: The Plan B project comprises either an industry-specific project involving student collaboration with a local organization, or independent research conducted on a relevant topic of interest. The project is selected in consultation with and guided by the advisor.
This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

Required Coursework (21-22 credits)
In consultation with the advisor, select at least 21 credits from the following list. Students must receive a B- or better for PUBH 6450 and 6451. The majority of courses must be taken A-F.

PUBH 6250 - Foundations of Public Health (2.0 cr)
PUBH 6450 - Biostatistics I (4.0 cr)
PUBH 6451 - Biostatistics II (4.0 cr)
PUBH 6724 - The Health Care System and Public Health (3.0 cr)
PUBH 6742 - Ethics in Public Health: Research and Policy (1.0 cr)
PUBH 6806 - Principles of Public Health Research (2.0 cr)

Plan B Project (2 credits)
Take 2 Plan B Project credits in consultation with the advisor.

PUBH 7894 - MS in Health Services Research, Policy, and Administration Plan B Project (1.0 - 5.0 cr)

Using and Managing Data (4-5 credits)
Take 2 or more course(s) from the following:

- PUBH 6748 - Analyzing Administrative Data for Healthcare Operations and Research (2.0 cr)
- PUBH 6813 - Managing Electronic Health Information (2.0 cr)
- PUBH 6845 - Using Demographic Data for Policy Analysis (3.0 cr)

Electives (12-13 credits)
Select remaining coursework from the recommended electives, or courses from any specialization, in consultation with the advisor to meet the 34-credit minimum.

Programming and Analytic Methods (6 credits)
CSCI 5511 - Artificial Intelligence I (3.0 cr)
CSCI 5521 - Machine Learning Fundamentals (3.0 cr)
CSCI 5523 - Introduction to Data Mining (3.0 cr)
CSCI 5525 - Machine Learning: Analysis and Methods (3.0 cr)
HINF 5502 - Python Programming Essentials for the Health Sciences (1.0 cr)
HINF 5531 - Health Data Analytics and Data Science (3.0 cr)
MILI 6963 - Healthcare Analytics (2.0 cr)
PA 5929 - Data Visualization: Telling Stories with Numbers (2.0 cr)
PUBH 6107 - Excel Skills for Data Management in Public Health Settings (1.0 cr)
PUBH 6325 - Data Processing with PC-SAS (1.0 cr)
PUBH 6420 - Introduction to SAS Programming (1.0 cr)
PUBH 6717 - Decision Analysis for Health Care (2.0 cr)
PUBH 6739 - Data Dashboards and Visualization with Tableau (1.0 cr)
PUBH 6819 - Qualitative Research Theory and Methods for Health and Health Services Research (2.0 cr)
PUBH 7264 - Data Visualization in R (1.0 cr)
PUBH 7461 - Exploring and Visualizing Data in R (2.0 cr)

Relevant public health/health services courses (6-7 credits)
Relevant Summer Public Health Institute courses, which vary from year to year, may also be included per advisor approval. Students may take PUBH 6320 or 6341 but not both.

PUBH 6735 - Principles of Health Policy (3.0 cr)
PUBH 6803 - Conducting a Systematic Literature Review (3.0 cr)
PUBH 6810 - Survey Research Methods (3.0 cr)
PUBH 6832 - Economics of the Health Care System (3.0 cr)
PUBH 6855 - Medical Sociology (3.0 cr)
PUBH 6862 - Cost-Effectiveness Analysis in Health Care (3.0 cr)
PUBH 6864 - Conducting Health Outcomes Research (3.0 cr)
PUBH 8804 - Advanced Quantitative Methods Seminar (3.0 cr)
PUBH 8814 - Mixed Methods: Quantitative and Qualitative Strategies in Research (2.0 cr)
PUBH 8816 - Implementation Science (2.0 cr)

Epidemiology
PVUBH 6320 - Fundamentals of Epidemiology (3.0 cr)
or PUBH 6341 - Epidemiologic Methods I (3.0 cr)

Joint- or Dual-degree Coursework: JD/MS-HSRP&A Students may take a total of 8 credits in common among the academic programs. Student may take a total of 8 credits in common among the academic programs.

- Program Type: Graduate minor related to major
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 6
- Length of program in credits (Doctorate): 12
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The health services research, policy, and administration minor is available to students who are interested in the social, political, and economic forces that affect the operations, financing, and delivery of health care. The minor offers a high degree of flexibility in course selection, tailored to students' individual interests and goals.

The School of Public Health is accredited by the Council on Education for Public Health (CEPH).

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Students interested in the minor are strongly encouraged to confer first with their major field advisor and director of graduate studies, and the HSRP&A director of graduate studies regarding feasibility and requirements.

Approval of the HSRP&A director of graduate studies to pursue the minor is required.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

Coursework offered on both the A-F and S/N grading basis must be taken A-F, with a minimum grade of B- earned for each course.

The minimum cumulative GPA for minor field coursework is 3.00.

Program Sub-plans
Students are required to complete one of the following sub-plans.
Students may not complete the program with more than one sub-plan.

Masters
Required Coursework (3 credits)
Select one of the following in consultation with the HSRP&A director of graduate studies:
PUBH 6556 - Health and Health Systems (3.0 cr)
*or* PUBH 6724 - The Health Care System and Public Health (3.0 cr)

**Electives (3 credits)**
Select 3 credits from the following in consultation with the HSRP&A director of graduate studies:
- PUBH 6560 - Operations Research and Quality in Health Care (3.0 cr)
- PUBH 6717 - Decision Analysis for Health Care (2.0 cr)
- PUBH 6727 - Health Leadership and Effecting Change (2.0 cr)
- PUBH 6730 - International Comparative Health Systems (2.0 cr)
- PUBH 6735 - Principles of Health Policy (3.0 cr)
- PUBH 6737 - Structural Racism and Health (2.0 cr)
- PUBH 6744 - State Health Policy and Politics (2.0 cr)
- PUBH 6745 - Rural Health (2.0 cr)
- PUBH 6765 - Continuous Quality Improvement: Methods and Techniques (3.0 cr)
- PUBH 6803 - Conducting a Systematic Literature Review (3.0 cr)
- PUBH 6804 - Mental Health Policy (2.0 cr)
- PUBH 6805 - Introduction to Project Management for Health Professionals (2.0 cr)
- PUBH 6806 - Principles of Public Health Research (2.0 cr)
- PUBH 6809 - Advanced Methods in Health Decision Science (3.0 cr)
- PUBH 6810 - Survey Research Methods (3.0 cr)
- PUBH 6813 - Managing Electronic Health Information (2.0 cr)
- PUBH 6815 - Community-based Participatory Research (2.0 cr)
- PUBH 6819 - Qualitative Research Theory and Methods for Health and Health Services Research (2.0 cr)
- PUBH 6832 - Economics of the Health Care System (3.0 cr)
- PUBH 6845 - Using Demographic Data for Policy Analysis (3.0 cr)
- PUBH 6852 - Program Evaluation in Health and Mental Health Settings (2.0 cr)
- PUBH 6855 - Medical Sociology (3.0 cr)
- PUBH 6862 - Cost-Effectiveness Analysis in Health Care (3.0 cr)
- PUBH 6863 - Understanding Health Care Quality (2.0 cr)
- PUBH 6864 - Conducting Health Outcomes Research (3.0 cr)

**Doctoral Required Coursework (12 credits)**
Students choose, in consultation with the HSRP&A director of graduate studies, the standard or health economics curriculum option.

**Option 1 Standard Curriculum**

**Required Coursework (5 to 6 credits)**
Select at least 5 credits from the following in consultation with the HSRP&A director of graduate studies. Students have the option to take PUBH 6735 and PUBH 8801 which must be taken together. Students can choose between PUBH 6556 and PUBH 6724 but credit will not be granted for both.
- PUBH 6556 - Health and Health Systems (3.0 cr)
- PUBH 6724 - The Health Care System and Public Health (3.0 cr)
- PUBH 6735 - Principles of Health Policy (3.0 cr)
- PUBH 8801 - Health Services Policy Analysis: Theory (1.0 cr)
- PUBH 8802 - Health Services Policy Analysis: Applications (2.0 cr)

**Electives (6 to 7 credits)**
Select credits from the following, in consultation with the HSRP&A director of graduate studies, to complete the 12-credit minimum:
- PUBH 6717 - Decision Analysis for Health Care (2.0 cr)
- PUBH 6737 - Structural Racism and Health (2.0 cr)
- PUBH 6744 - State Health Policy and Politics (2.0 cr)
- PUBH 6803 - Conducting a Systematic Literature Review (3.0 cr)
- PUBH 6804 - Mental Health Policy (2.0 cr)
- PUBH 6809 - Advanced Methods in Health Decision Science (3.0 cr)
- PUBH 6810 - Survey Research Methods (3.0 cr)
- PUBH 6815 - Community-based Participatory Research (2.0 cr)
- PUBH 6832 - Economics of the Health Care System (3.0 cr)
- PUBH 6845 - Using Demographic Data for Policy Analysis (3.0 cr)
- PUBH 6855 - Medical Sociology (3.0 cr)
- PUBH 6862 - Cost-Effectiveness Analysis in Health Care (3.0 cr)
- PUBH 6863 - Understanding Health Care Quality (2.0 cr)
- PUBH 6864 - Conducting Health Outcomes Research (3.0 cr)
- PUBH 6865 - Continuous Quality Improvement: Methods and Techniques (3.0 cr)
- PUBH 6866 - Conducting Health Outcomes Research (3.0 cr)
- PUBH 8804 - Advanced Quantitative Methods Seminar (3.0 cr)
- PUBH 8805 - Sociological Theory in Health Services Research (3.0 cr)
- PUBH 8810 - Research Studies in Health Care (3.0 cr)
- PUBH 8811 - Research Methods in Health Care (3.0 cr)
- PUBH 8821 - Health Economics II (3.0 cr)
- PUBH 6813 - Managing Electronic Health Information (2.0 cr)
- PUBH 8813 - Measurement of Health-Related Social Factors (3.0 cr)
PUBH 8816 - Implementation Science (2.0 cr)
or Option 2  Health Economics Curriculum

**Required Coursework (6 credits)**
Take the following courses:
- PUBH 6832 - Economics of the Health Care System (3.0 cr)
- PUBH 8821 - Health Economics II (3.0 cr)

**Electives (6 credits)**
Select credits from the following, in consultation with the HSRP&A director of graduate studies, to complete the 12-credit minimum. Students selecting PUBH 6735 must also take PUBH 8801.
- PUBH 6862 - Cost-Effectiveness Analysis in Health Care (3.0 cr)
- PUBH 8811 - Research Methods in Health Care (3.0 cr)
- PUBH 6735 - Principles of Health Policy (3.0 cr)
- PUBH 8801 - Health Services Policy Analysis: Theory (1.0 cr)

- Program Type: Doctorate
- Requirements for this program are current for Fall 2022
- Length of program in credits: 72 to 81
- This program does not require summer semesters for timely completion.
- Degree: Doctor of Philosophy

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The health services research, policy, and administration doctoral program offers a multidisciplinary examination of the social, political, and economic forces that affect the organization, financing, and delivery of health care. Graduates will be in a position to apply learned research skills to influence policy and positively impact health care systems in various sectors, including universities, government agencies, think tanks, health insurance providers, managed care organizations, and consulting firms.

The School of Public Health is accredited by the Council on Education for Public Health (CEPH).

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
The PhD program requires prerequisites in calculus and statistics. Applicants who have not completed the prerequisites, but are otherwise qualified for admission, are required to take relevant courses at the University or another accredited institution before beginning the program.

Special Application Requirements:
Students who wish to pursue the Health Policy and Analysis concentration area must complete PubH 6724 or PubH 6556 either before enrollment by the end of the first year of the doctoral program.

See www.sph.umn.edu for additional admission requirements.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7
- MELAB
  - Final score: 80

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements
48 to 57 credits are required in the major.
24 thesis credits are required.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

At least 4 semesters must be completed before filing a Degree Program Form.

All coursework must be completed A-F.

Core Coursework (33-34 credits)
Courses must be completed with a minimum B- grade.
Take all of the following core courses. Students must take PUBH 6735 & PUBH 8801 during the same semester.
PUBH 6250 - Foundations of Public Health (2.0 cr)
PUBH 6735 - Principles of Health Policy (3.0 cr)
PUBH 6742 - Ethics in Public Health: Research and Policy (1.0 cr)
PUBH 6832 - Economics of the Health Care System (3.0 cr)
PUBH 6855 - Medical Sociology (3.0 cr)
PUBH 8341 - Advanced Epidemiologic Methods: Concepts (3.0 cr)
PUBH 8801 - Health Services Policy Analysis: Theory (1.0 cr)
PUBH 8810 - Research Studies in Health Care (3.0 cr)
PUBH 8811 - Research Methods in Health Care (3.0 cr)
PUBH 8830 - Writing for Research (2.0 cr)
PUBH 8831 - Writing for Research (2.0 cr)

Econometrics and Biostatistics Requirement (7 credits minimum)
Select APEC 8211, 8212, 8213, and 8214, or PUBH 7401 and 7402, or PUBH 7402 and PUBH 8342 (Clinical Research Outcomes students only), in consultation with the advisor.

Econometrics
Only available to Health Economic students only. Recommended but not required.
APEC 8211 - Econometric Analysis I (2.0 cr)
APEC 8212 - Econometric Analysis II (2.0 cr)
APEC 8213 - Econometric Analysis III (2.0 cr)
APEC 8214 - Econometric Analysis IV (2.0 cr)

or Biostatistics
Clinical Outcomes Research students must select PUBH 7401 and PUBH 8342.
PUBH 7401 - Fundamentals of Biostatistical Inference (4.0 cr)
PUBH 7402 - Biostatistics Modeling and Methods (4.0 cr)
PUBH 8342 - Advanced Epidemiologic Methods: Applications (3.0 cr)

Thesis Credits (24 credits)
Take at least 24 doctoral thesis credits.
PUBH 8888 - Thesis Credit: Doctoral (1.0 - 24.0 cr)

Concentration Areas

Multidisciplinary Social Sciences (20-22 credits)
The Multidisciplinary Social Science concentration area is designed for doctoral students who want a broad introduction to analytic perspectives from economics, sociology, and political science, along with statistics and econometrics.

Required Coursework (6 credits)
Take the following courses:
APEC 5151 - Applied Microeconomics: Firm and Household (3.0 cr)
PUBH 8805 - Sociological Theory in Health Services Research (3.0 cr)

Required Theory Coursework (2-4 credits)
Select one of the following courses in consultation with the advisor:
APEC 8203 - Applied Welfare Economics and Public Policy (3.0 cr)
PUBH 6717 - Decision Analysis for Health Care (2.0 cr)
PUBH 6809 - Advanced Methods in Health Decision Science (3.0 cr)
PUBH 6862 - Cost-Effectiveness Analysis in Health Care (3.0 cr)
PUBH 8804 - Advanced Quantitative Methods Seminar (3.0 cr)
PUBH 8821 - Health Economics II (3.0 cr)
SOC 8701 - Sociological Theory (4.0 cr)
SOC 8721 - Social Psychology: Micro-Sociological Approaches to Inequalities and Identities (3.0 cr)

**Electives (12 credits)**
Select electives from the following list in consultation with the advisor:
- APEC 8202 - Mathematical Optimization in Applied Economics (3.0 cr)
- APEC 8206 - Dynamic Optimization: Applications in Economics and Management (3.0 cr)
- ECON 8181 - Advanced Topics in Microeconomics (2.0 cr)
- ECON 8182 - Advanced Topics in Microeconomics (2.0 cr)
- ECON 8205 - Applied Econometrics (2.0 cr)
- ECON 8206 - Applied Econometrics (2.0 cr)
- ECON 8207 - Applied Econometrics (2.0 cr)
- ECON 8208 - Applied Econometrics (2.0 cr)
- IDSC 8511 - Conceptual Topics and Research Methods in Information and Decision Sciences (3.0 cr)
- IDSC 8721 - Behavioral Decision Theory (3.0 cr)
- MGMT 8302 - Seminar in Organizational Theory (4.0 cr)
- PA 8302 - Applied Policy Analysis (4.0 cr)
- PUBH 6803 - Conducting a Systematic Literature Review (3.0 cr)
- PUBH 6810 - Survey Research Methods (3.0 cr)
- PUBH 6845 - Using Demographic Data for Policy Analysis (3.0 cr)
- PUBH 6863 - Understanding Health Care Quality (2.0 cr)
- PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)
- PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
- PUBH 7450 - Survival Analysis (3.0 cr)
- PUBH 8802 - Health Services Policy Analysis: Applications (2.0 cr)
- PUBH 8813 - Measurement of Health-Related Social Factors (3.0 cr)
- PUBH 8805 - Sociological Theory in Health Services Research (3.0 cr)
- SOC 8211 - The Sociology of Race & Racialization (3.0 cr)
- SOC 8290 - Topics in Race, Class, Gender and other forms of Durable Inequality (3.0 cr)
- SOC 8311 - Political Sociology (3.0 cr)
- SOC 8390 - Topics in Political Sociology (3.0 cr)
- SOC 8412 - Social Network Analysis: Theory and Methods (3.0 cr)
- SOC 8501 - Sociology of the Family (3.0 cr)
- SOC 8551 - Life Course Inequality & Health (3.0 cr)
- SOC 8731 - Sociology of Knowledge (3.0 cr)
- SOC 8735 - Sociology of Culture (3.0 cr)

**Sociology of Health and Illness (18 credits)**
The Sociology of Health and Illness concentration area emphasizes fundamental issues in medical sociology, such as social stratification, the social construction of health and illness, population dynamics, and demographic forces.

**Required Coursework (6 credits)**
Select at least 6 credits from the following list in consultation with the advisor:
- MGMT 8302 - Seminar in Organizational Theory (4.0 cr)
- PUBH 8805 - Sociological Theory in Health Services Research (3.0 cr)
- SOC 8211 - The Sociology of Race & Racialization (3.0 cr)
- SOC 8701 - Sociological Theory (4.0 cr)
- SOC 8731 - Sociology of Knowledge (3.0 cr)

**Electives (12 credits)**
Select at least 9 credits from the following list in consultation with the advisor:
- IDSC 8721 - Behavioral Decision Theory (3.0 cr)
- SOC 8101 - Sociology of Law (3.0 cr)
- SOC 8290 - Topics in Race, Class, Gender and other forms of Durable Inequality (3.0 cr)
- SOC 8311 - Political Sociology (3.0 cr)
- SOC 8390 - Topics in Political Sociology (3.0 cr)
- SOC 8412 - Social Network Analysis: Theory and Methods (3.0 cr)
- SOC 8501 - Sociology of the Family (3.0 cr)
- SOC 8551 - Life Course Inequality & Health (3.0 cr)
- SOC 8735 - Sociology of Culture (3.0 cr)
- APEC 8202 - Mathematical Optimization in Applied Economics (3.0 cr)

**Advanced Methodology Coursework (3 credits)**
Select at least 3 credits from the following list in consultation with the advisor:
- EPSY 5247 - Qualitative Methods in Educational Psychology (3.0 cr)
- POL 8126 - Qualitative Methods (3.0 cr)
- PSY 8881 - Seminar: Quantitative and Psychometric Methods (3.0 cr)
PUBH 6845 - Using Demographic Data for Policy Analysis (3.0 cr)
PUBH 8804 - Advanced Quantitative Methods Seminar (3.0 cr)
PUBH 8813 - Measurement of Health-Related Social Factors (3.0 cr)

-OR-

Health Decision Science (23 credits)
The Health Decision Science concentration area consists of a collection of quantitative methods used to evaluate decision making under uncertainty. There are many areas relevant to medical decision-making including decision analysis, cost-effectiveness analysis, disease simulation modeling, infectious disease modeling, quality-of-life assessment, utility elicitation, health outcomes assessment, and pharmacoeconomics.

Required Coursework (11 credits)
Take the following courses:
PUBH 6717 - Decision Analysis for Health Care (2.0 cr)
PUBH 6809 - Advanced Methods in Health Decision Science (3.0 cr)
PUBH 6862 - Cost-Effectiveness Analysis in Health Care (3.0 cr)
Select one of the following courses in consultation with the advisor:
  IDSC 8511 - Conceptual Topics and Research Methods in Information and Decision Sciences (3.0 cr)
  or
  IDSC 8721 - Behavioral Decision Theory (3.0 cr)

Electives (12 credits)
Select electives from the following list in consultation with the advisor. If PUBH 7401, 7402, 6809, or 6862 are completed as part of the required coursework, students will need to choose different course credits for electives.

IE 5080 - Topics in Industrial Engineering (1.0 - 4.0 cr)
IE 5111 - Systems Engineering I (2.0 cr)
IE 5113 - Systems Engineering II (4.0 cr)
IE 5441 - Financial Decision Making (4.0 cr)
IE 5511 - Human Factors and Work Analysis (4.0 cr)
IE 5522 - Quality Engineering and Reliability (4.0 cr)
IE 5524 - Process Transformation through Lean Tools (2.0 cr)
IE 5531 - Engineering Optimization I (4.0 cr)
IE 5532 - Stochastic Models (4.0 cr)
IE 5541 - Project Management (4.0 cr)
IE 5545 - Decision Analysis (4.0 cr)
IE 5551 - Production and Inventory Systems (4.0 cr)
IE 5553 - Simulation (4.0 cr)
IE 5561 - Analytics and Data-Driven Decision Making (4.0 cr)
IE 5773 - Practice-focused Seminar (1.0 cr)
PUBH 6803 - Conducting a Systematic Literature Review (3.0 cr)
PUBH 6804 - Mental Health Policy (2.0 cr)
PUBH 6805 - Introduction to Project Management for Health Professionals (2.0 cr)
PUBH 6806 - Principles of Public Health Research (2.0 cr)
PUBH 6810 - Survey Research Methods (3.0 cr)
PUBH 6813 - Managing Electronic Health Information (2.0 cr)
PUBH 6815 - Community-based Participatory Research (2.0 cr)
PUBH 6845 - Using Demographic Data for Policy Analysis (3.0 cr)
PUBH 6852 - Program Evaluation in Health and Mental Health Settings (2.0 cr)
PUBH 6863 - Understanding Health Care Quality (2.0 cr)
PUBH 6864 - Conducting Health Outcomes Research (3.0 cr)
PUBH 7401 - Fundamentals of Biostatistical Inference (4.0 cr)
PUBH 7402 - Biostatistics Modeling and Methods (4.0 cr)
PUBH 7405 - Biostatistical Inference I (4.0 cr)
PUBH 7406 - Biostatistical Inference II (3.0 cr)
PUBH 7415 - Introduction to Clinical Trials (3.0 cr)
PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)
PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
PUBH 7440 - Introduction to Bayesian Analysis (3.0 cr)
PUBH 7445 - Statistics for Human Genetics and Molecular Biology (3.0 cr)
PUBH 7450 - Survival Analysis (3.0 cr)
PUBH 7461 - Exploring and Visualizing Data in R (2.0 cr)
PUBH 7462 - Advanced Programming and Data Analysis in R (2.0 cr)
PUBH 7465 - Biostatistics Consulting (2.0 cr)
PUBH 7470 - Study Designs in Biomedical Research (3.0 cr)
PUBH 7475 - Statistical Learning and Data Mining (3.0 cr)
PUBH 7485 - Methods for Causal Inference (3.0 cr)

-OR-

Clinical Outcomes Research (15 credits)

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of November 07, 2022
The Clinical Outcomes Research concentration area is designed to train health services researchers who wish to study clinical care, costs and outcomes. Their research may be conducted using observational (quasi-experimental) studies, randomized clinical trials, or analyses of secondary data sets, including administrative data.

**Required Coursework (9 credits)**
Take the following courses:
- PUBH 6864 - Conducting Health Outcomes Research (3.0 cr)
- PUBH 8343 - Synthesis and Application of Methods in Epidemiologic Research (3.0 cr)
Select one of the following:
- PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
- or PUBH 7450 - Survival Analysis (3.0 cr)

**Electives (6 credits)**
Select at least 6 credits from the following list in consultation with the advisor:
- PUBH 6803 - Conducting a Systematic Literature Review (3.0 cr)
- PUBH 6810 - Survey Research Methods (3.0 cr)
- PUBH 6819 - Qualitative Research Theory and Methods for Health and Health Services Research (2.0 cr)
- PUBH 6863 - Understanding Health Care Quality (2.0 cr)
- PUBH 8814 - Mixed Methods: Quantitative and Qualitative Strategies in Research (2.0 cr)
- PUBH 8816 - Implementation Science (2.0 cr)
One of the following courses may be selected as an elective, if not taken as a required course.
- PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
- or PUBH 7450 - Survival Analysis (3.0 cr)

-OR-

**Health Policy and Analysis (14 credits)**
The Health Policy concentration area prepares students for careers in research, teaching, and public service in academic, governmental and public policy settings. The focus of this area includes multi-disciplinary training in the social sciences; application of quantitative research methods; rigorous writing and communication skill-based training.

**Required Coursework (2 credits)**
Take the following course:
- PUBH 8802 - Health Services Policy Analysis: Applications (2.0 cr)

**Electives (12 credits)**
Select at least 12 credits from the following list in consultation with the advisor.
- PUBH 6717 - Decision Analysis for Health Care (2.0 cr)
- PUBH 6810 - Survey Research Methods (3.0 cr)
- PUBH 6845 - Using Demographic Data for Policy Analysis (3.0 cr)
- PUBH 6862 - Cost-Effectiveness Analysis in Health Care (3.0 cr)
- PUBH 8804 - Advanced Quantitative Methods Seminar (3.0 cr)
- PUBH 8813 - Measurement of Health-Related Social Factors (3.0 cr)

-OR-

**Health Economics (23 credits)**
Health Economics trains health economists who will rival PhDs from the top economics departments in competing for jobs in universities and research institutions. The curriculum includes a broad menu of health economics courses in addition to the multidisciplinary core courses.

**Required Course (3 credits)**
Take the following course:
- PUBH 8821 - Health Economics II (3.0 cr)

**Required Microeconomics Series (8 credits)**
Select four courses from one of the following series, in consultation with the advisor, for a total of 8 credits:
- **Applied Microeconomics**
  - APEC 8001 - Applied Microeconomic Analysis of Consumer Choice and Consumer Demand (2.0 cr)
  - APEC 8002 - Applied Microeconomic Analysis of Production and Choice Under Uncertainty (2.0 cr)
  - APEC 8003 - Applied Microeconomic Analysis of Game Theory and Information (2.0 cr)
  - APEC 8004 - Applied Microeconomic Analysis of Social Choice and Welfare (2.0 cr)
- **Required Microeconomic Theory Series**
  - ECON 8101 - Microeconomic Theory (2.0 cr)
  - ECON 8102 - Microeconomic Theory (2.0 cr)
  - ECON 8103 - Microeconomic Theory (2.0 cr)
  - ECON 8104 - Microeconomic Theory (2.0 cr)

**Electives (12 credits)**
In consultation with academic advisor, students select minimum 12 total credits from the following list.
- APEC 8202 - Mathematical Optimization in Applied Economics (3.0 cr)
- APEC 8206 - Dynamic Optimization: Applications in Economics and Management (3.0 cr)
- PUBH 8804 - Advanced Quantitative Methods Seminar (3.0 cr)

**Econometric Analysis**
- APEC 8211 - Econometric Analysis I (2.0 cr)
APEC 8212 - Econometric Analysis II (2.0 cr)

Applied Economics
- ECON 8205 - Applied Econometrics (2.0 cr)
- ECON 8206 - Applied Econometrics (2.0 cr)
- ECON 8207 - Applied Econometrics (2.0 cr)
- ECON 8208 - Applied Econometrics (2.0 cr)

Fundamentals of Biostatistical Inference
- PUBH 7401 - Fundamentals of Biostatistical Inference (4.0 cr)
- PUBH 7402 - Biostatistics Modeling and Methods (4.0 cr)

Other Electives
Select courses from the following list in consultation with the advisor, to complete the credit minimum:
- APEC 8341 - Applied Public Finance (3.0 cr)
- APEC 8501 - Labor Economics I (2.0 cr)
- APEC 8502 - Labor Economics II (2.0 cr)
- APEC 8602 - Economics of the Environment (3.0 cr)
- APEC 8701 - Trade and Development I (2.0 cr)
- APEC 8703 - Trade and Development III (2.0 cr)
- APEC 8803 - Marketing Economics (3.0 cr)
- ECON 8103 - Microeconomic Theory (2.0 cr)
- ECON 8104 - Microeconomic Theory (2.0 cr)
- ECON 8107 - Macroeconomic Theory (2.0 cr)
- ECON 8108 - Macroeconomic Theory (2.0 cr)
- ECON 8117 - Noncooperative Game Theory (2.0 cr)
- ECON 8118 - Noncooperative Game Theory (2.0 cr)
- ECON 8182 - Advanced Topics in Microeconomics (2.0 cr)
- ECON 8186 - Advanced Topics in Macroeconomics (2.0 cr)
- ECON 8192 - Workshop in Mathematical Economics (1.0 cr)
- ECON 8312 - Economic Growth and Development (2.0 cr)
- ECON 8391 - Workshop in Economic Growth and Development (1.0 cr)
- ECON 8392 - Workshop in Economic Growth and Development (1.0 cr)
- ECON 8401 - International Trade and Payments Theory (2.0 cr)
- ECON 8402 - International Trade and Payments Theory (2.0 cr)
- ECON 8403 - International Trade and Payments Theory (2.0 cr)
- ECON 8491 - Workshop in Trade and Development (1.0 cr)
- ECON 8492 - Workshop in Trade and Development (1.0 - 3.0 cr)
- ECON 8501 - Wages and Employment (2.0 cr)
- ECON 8502 - Wages and Employment (2.0 cr)
- ECON 8503 - Wages and Employment (2.0 cr)
- ECON 8581 - Advanced Topics in Labor Economics (2.0 cr)
- ECON 8582 - Advanced Topics in Labor Economics (2.0 cr)
- ECON 8601 - Industrial Organization and Government Regulation (2.0 cr)
- ECON 8602 - Industrial Organization and Government Regulation (2.0 cr)
- ECON 8603 - Industrial Organization and Government Regulation (2.0 cr)
- ECON 8691 - Workshop in Applied Microeconomics (1.0 cr)
- ECON 8692 - Workshop in Applied Microeconomics (1.0 cr)
- ECON 8702 - Monetary Economics (2.0 cr)
- ECON 8703 - Monetary Economics (2.0 cr)
- ECON 8704 - Financial Economics (2.0 cr)
- ECON 8705 - Financial Economics (2.0 cr)
- ECON 8791 - Workshop in Macroeconomics (1.0 cr)
- ECON 8792 - Workshop in Macroeconomics (1.0 cr)
- ECON 8801 - Public Economics (2.0 cr)
- ECON 8802 - Public Economics (2.0 cr)
- ECON 8803 - Public Economics (2.0 cr)
- PUBH 6862 - Cost-Effectiveness Analysis in Health Care (3.0 cr)

Joint- or Dual-degree Coursework: JD/PhD-Health Services Research Policy & Administration
Student may take a total of 12 credits in common among the academic programs.
Twin Cities Campus

Healthcare Management Postbaccalaureate Certificate

School of Public Health - Adm
School of Public Health

Link to a list of faculty for this program.

Contact Information:
School of Public Health, MMC 819, A395 Mayo Memorial Building, 420 Delaware Street, Minneapolis, MN 55455 (612-626-3500 OR 1-800-774-8636)
Email: sph-ask@umn.edu
Website: http://www.sph.umn.edu

- Program Type: Post-baccalaureate credit certificate/licensure/endorsement
- Requirements for this program are current for Fall 2022
- Length of program in credits: 12
- This program requires summer semesters for timely completion.
- Degree: Healthcare Management PBacc Certificate

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Healthcare Management Certificate is designed for employed healthcare business and clinical professionals seeking to advance their management and leadership competencies. It provides students with practical knowledge and skills that can be applied immediately within their organizations. The certificate curriculum includes a focus on management in healthcare organizations and systems and is instructed by a combination of active practitioners and research active faculty. The coursework is designed to fit the lives of busy professionals: most of the coursework is online and asynchronous. Students in the certificate who decide to pursue the Master of Healthcare Administration degree can apply to the executive track and, if admitted, complete the degree by finishing the remaining required coursework.

Accreditation
This program is accredited by Commission on the Accreditation of Healthcare Management Education

Program Delivery
This program is available:
- primarily online (at least 80% of the instruction for the program is online with short, intensive periods of face-to-face coursework)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Special Application Requirements:
Admission to the certificate is decided by the MHA faculty with the advice and counsel of an admissions committee. Admission to the certificate requires the following:
- a bachelor’s degree from an accredited college or university
- at least two years of experience in the healthcare industry
- a letter of intent describing career interests and the relevance of the certificate to the applicant's personal development.

Note: Students are expected to bring a personal computer to the on-campus sessions.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7
- MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).

For an online application or for more information about graduate education admissions, see the General Information section of the
Program Requirements
Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

At least 2 semesters must be completed before filing a Degree Program Form.

All courses must be taken for an A-F grade.

Required Coursework (8 credits)
Take the following courses:
- PUBH 7538 - Health Financial Principles (4.0 cr)
- PUBH 7551 - Principles of Management in Health Services Organizations (2.0 cr)
- PUBH 7556 - Health and Health Systems (2.0 cr)

Electives (4 credits)
Select one of the following 4-credit options, in consultation with the advisor, to complete the 12-credit minimum:

Standard (4 credits)
Take the following courses:
- PUBH 7555 - Health Economics (2.0 cr)
- PUBH 7565 - Innovation of Healthcare Services (2.0 cr)

or Behavioral Health (4 credits)
Take the following courses:
- PUBH 6580 - Behavioral Health Services Delivery (2.0 cr)
- PUBH 7547 - Health Care Human Resource Management (2.0 cr)

or Custom (4 credits)
Select at least 4 credits from the following in consultation with the advisor:
- PUBH 7525 - Introduction to Population Health: A Health System Perspective (2.0 cr)
- PUBH 7537 - Healthcare Finance (3.0 cr)
- PUBH 7541 - Statistics for Health Management Decision Making (3.0 cr)
- PUBH 7542 - Quality Improvement and Patient Safety (2.0 cr)
- PUBH 7553 - Health Care Management Ethics (1.0 cr)
- PUBH 7554 - Health Care Strategy and Marketing (3.0 cr)
- PUBH 7555 - Health Economics (2.0 cr)
- PUBH 7560 - Operations Research and Quality in Health Care (3.0 cr)
- PUBH 7562 - Information Technology in Health Care (2.0 cr)
- PUBH 7564 - Private Purchasers of Health Care (2.0 cr)
- PUBH 7565 - Innovation of Healthcare Services (2.0 cr)
- PUBH 7569 - Health Care Policy (1.0 cr)
- PUBH 7570 - Topics: Healthcare Administration (1.0 cr)
- PUBH 7576 - Legal Considerations in Health Services Organizations (2.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 42 to 48
- This program requires summer semesters for timely completion.
- Degree: Master of Public Health

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The maternal and child health MPH program focuses on public health skills development and maternal and child health content. There are two options: the standard program is for students who have limited professional experience and the advanced standing program is for students who either have an advanced degree (e.g., MD, MS, MSW, MED) or at least three years of professional experience related to maternal and child health or public health. Students must complete a minimum of 48 credits for the standard track and a minimum of 42 credits for the advanced standing track.

The School of Public Health is accredited by the Council on Education for Public Health (CEPH).

Accreditation
This program is accredited by Council on Education for Public Health (CEPH).

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- completely online (all program coursework can be completed online)
- primarily online (at least 80% of the instruction for the program is online with short, intensive periods of face-to-face coursework)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
At least one year of work or volunteer experience in a clinical, community-based, public health or managed-care agency/program that focuses on women, children, adolescents, and/or families.

Basic understanding of physiological and/or psychological human development as demonstrated by coursework, experience, and/or referenced readings.

Special Application Requirements:
Applicants to the advanced standing option must hold either an advanced degree (e.g., MS, MD, MSW) or have 3-5 years of experience directly related to maternal and child health.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
• IELTS
  - Total Score: 7

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan C: Plan C requires 42 to 48 major credits and up to null credits outside the major. The is no final exam. A capstone project is required.

Capstone Project: Students complete an Integrated Learning Experience (ILE) in consultation with the advisor.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.0 is required for students to remain in good standing.

Courses offered both A-F and S/N must be taken A-F, with a minimum grade of B- earned.

Public Health Core Requirements (16 credits)

- PUBH 6020 - Fundamentals of Social and Behavioral Science (2.0 cr)
- PUBH 6102 - Issues in Environmental Health (2.0 cr)
- PUBH 6250 - Foundations of Public Health (2.0 cr)
- PUBH 6741 - Ethics in Public Health: Professional Practice and Policy (1.0 cr)
- PUBH 6751 - Principles of Management in Health Services Organizations (2.0 cr)

Epidemiology (3 credits)

Select one of the following courses in consultation with the advisor:

- PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)
- or PUBH 6341 - Epidemiologic Methods I (3.0 cr)

Biostatistics (4 credits)

Select PUBH 6450 (4 credits) or PUBH 6414 (3 credits) plus one biostatistics programming course, in consultation with the advisor.

- PUBH 6450 - Biostatistics I (4.0 cr)
- or PUBH 6414 - Biostatistical Literacy (3.0 cr)

Students who take PUBH 6414 must select an additional course for at least 1 credit, in consultation with the advisor, from the following list:

- PA 5929 - Data Visualization: Telling Stories with Numbers (2.0 cr)
- PUBH 6107 - Excel Skills for Data Management in Public Health Settings (1.0 cr)
- PUBH 6123 - Violence Prevention and Control: Theory, Research, and Application (2.0 cr)
- PUBH 6325 - Data Processing with PC-SAS (1.0 cr)
- PUBH 6420 - Introduction to SAS Programming (1.0 cr)

MCH Core (6 credits)

- PUBH 6630 - Foundations of Maternal and Child Health Leadership (3.0 cr)
- PUBH 6673 - Grant Writing for Public Health (1.0 cr)
- PUBH 6034 - Evaluation I: Concepts (3.0 cr)
- or PUBH 6852 - Program Evaluation in Health and Mental Health Settings (2.0 cr)

Maternal and Child Health (6-8 credits)

Students completing the standard program select 8 credits from the following list and advanced-standing students select 6 credits. Courses are selected in consultation with the advisor.

Take 6 - 8 credit(s) from the following:

- PUBH 6602 - Global Maternal and Child Health (2.0 cr)
- PUBH 6605 - Sexual, Reproductive, and Perinatal Public Health (2.0 cr)
- PUBH 6606 - Children's Health: Life Course and Equity Perspectives (2.0 cr)
- PUBH 6607 - Adolescent Health: Issues, Programs, and Policies (2.0 cr)
- PUBH 6613 - Children and Youth With Special Health Care Needs (2.0 cr)
- PUBH 6675 - Women's Health (2.0 cr)
- PUBH 6907 - Maternal, Infant, Child and Adolescent Nutrition (3.0 cr)

Methods and Analysis (3-5 credits)

Students completing the standard program select 5 credits, and advanced-standing students select at least 3 credits from the following list. PUBH 6107, PUBH 6325, and PUBH 6420 may not be appropriate for students taking PUBH 6414 to complete the biostatistics
programming requirement. Courses are selected in consultation with the advisor. Students may choose to take courses either S/N or A-F; if A-F, students must achieve a grade of B- or above.

Take 3 - 5 credit(s) from the following:
• PA 5929 - Data Visualization: Telling Stories with Numbers (2.0 cr)
• PUBH 6035 - Evaluation II: Applications (3.0 cr)
• PUBH 6107 - Excel Skills for Data Management in Public Health Settings (1.0 cr)
• PUBH 6123 - Violence Prevention and Control: Theory, Research, and Application (2.0 cr)
• PUBH 6310 - Clinical Epidemiology 1 (1.0 cr)
• PUBH 6311 - Clinical Epidemiology II (1.0 cr)
• PUBH 6325 - Data Processing with PC-SAS (1.0 cr)
• PUBH 6342 - Epidemiologic Methods II (3.0 cr)
• PUBH 6389 - Nutritional Epidemiology (2.0 cr)
• PUBH 6414 - Biostatistical Literacy (3.0 cr)
• PUBH 6420 - Introduction to SAS Programming (1.0 cr)
• PUBH 6450 - Biostatistics I (4.0 cr)
• PUBH 6451 - Biostatistics II (4.0 cr)
• PUBH 6636 - Qualitative Research Methods in Public Health Practice (2.0 cr)
• PUBH 6765 - Continuous Quality Improvement: Methods and Techniques (3.0 cr)
• PUBH 6803 - Conducting a Systematic Literature Review (3.0 cr)
• PUBH 6806 - Principles of Public Health Research (2.0 cr)
• PUBH 7250 - Designing and Conducting Focus Group Interviews (1.0 cr)

Management, Communication, Policy and Advocacy Skills (3-5 credits)
Students in the standard track should select a minimum of 5 credits from the following list. Students in the advanced-standing track should select a minimum of 3 credits from the following list.

Take 3 - 5 credit(s) from the following:
• PUBH 6045 - Skills for Policy Development (1.0 cr)
• PUBH 6049 - Legislative Advocacy Skills for Public Health (3.0 cr)
• PUBH 6055 - Social Inequalities in Health (2.0 cr)
• PUBH 6066 - Building Communities, Increasing Health: Preparing for Community Health Work (2.0 cr)
• PUBH 6074 - Mass Communication and Public Health (3.0 cr)
• PUBH 6078 - Public Health Policy as a Prevention Strategy (2.0 cr)
• PUBH 6627 - Sexuality Education: Criteria, Curricula, and Controversy (1.0 cr)
• PUBH 6711 - Public Health Law (2.0 cr)
• PUBH 6727 - Health Leadership and Effecting Change (2.0 cr)
• PUBH 6735 - Principles of Health Policy (3.0 cr)
• PUBH 6737 - Structural Racism and Health (2.0 cr)
• PUBH 6755 - Planning and Budgeting for Public Health (2.0 cr)
• PUBH 6914 - Community Nutrition Intervention (3.0 cr)
• PUBH 6954 - Personal, Social and Environmental Influences on the Weight-Related Health of Pediatric Populations (2.0 cr)
• PUBH 6955 - Using Policy to Address the Weight-Related Health of Child and Adolescent Populations (1.0 cr)
• PUBH 7691 - Independent Study: Maternal and Child Health (1.0 - 4.0 cr)

Applied Practice (AP) Experience (1 credit)
Take at least one AP credit in consultation with the advisor.

PUBH 7696 - Applied Practice Experience: Maternal and Child Health (1.0 - 5.0 cr)

Integrated Learning Experience (ILE) (1 credit)
Take at least one ILE credit in consultation with the advisor.

PUBH 7694 - Integrative Learning Experience: Maternal and Child Health (1.0 - 4.7 cr)

Electives
Select electives in consultation with the advisor to complete 48-credit minimum for the standard program or the 42-credit minimum for the advanced-standing program.

CSPH 5111 - Ways of Thinking about Health (2.0 cr)
CSPH 5115 - Cultural Awareness, Knowledge and Health (3.0 cr)
CSPH 5118 - Whole Person, Whole Community: The Reciprocity of Wellbeing (3.0 cr)
CSPH 5215 - Forgiveness and Healing: A Journey Toward Wholeness (3.0 cr)
CSPH 5303 - Pain Management and Evidence Based Complementary Health Approaches (3.0 cr)
CSPH 5305 - Introduction to Integrative Mental Health (2.0 cr)
CSPH 5701 - Fundamentals of Health Coaching I (4.0 cr)
CSPH 5702 - Fundamentals of Health Coaching II (4.0 cr)
CSPH 5703 - Advanced Health Coaching Practicum (3.0 cr)
CSPH 5704 - Business of Health Coaching (2.0 cr)
CSPH 5706 - Lifestyle Medicine (2.0 cr)
CSPH 5707 - Coaching People with Clinical Conditions (2.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 42 to 44
- This program requires summer semesters for timely completion.
- Degree: Master of Public Health

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Public Health Administration and Policy (PHAP) MPH program emphasizes the skills needed to become a leader and innovator in population health management analyses and policy. This MPH offers three routes to completion: the traditional, primarily residential 44-credit option; the fully online 44-credit option; and the executive, 42-credits option for working professionals.

Accreditation
This program is accredited by Council on Education for Public Health (CEPH).

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- completely online (all program coursework can be completed online)
- primarily online (at least 80% of the instruction for the program is online with short, intensive periods of face-to-face coursework)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Special Application Requirements:
Additional Executive PHAP requirements:
- at least 3 years removed from the completion of the undergraduate degree
- a minimum 3.00 undergraduate GPA
- employment or volunteer work in a field related to public health

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7
- MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).
Program Requirements

Plan C: Plan C requires 42 to 44 major credits and up to null credits outside the major. There is no final exam. A capstone project is required.

Capstone Project: Students complete an Integrated Learning Experience (ILE) in consultation with the advisor.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.0 is required for students to remain in good standing.

Courses must be taken A-F unless offered only S/N. Minimum grade of B- must be earned for required courses.

Public Health Core Requirements (17 credits)

Required Coursework (9 credits)

A minimum grade of B- is required.

- PUBH 6020 - Fundamentals of Social and Behavioral Science (2.0 cr)
- PUBH 6250 - Foundations of Public Health (2.0 cr)
- PUBH 6741 - Ethics in Public Health: Professional Practice and Policy (1.0 cr)
- PUBH 6751 - Principles of Management in Health Services Organizations (2.0 cr)
- PUBH 6102 - Issues in Environmental Health (2.0 cr)

Biostatistics Requirement

Take a biostatistics course and the biostatistics programming course. A minimum grade of B- is required.

Biostatistics Course (3 - 4 credits)

- PUBH 6450 - Biostatistics I (4.0 cr)
- or PUBH 6414 - Biostatistical Literacy (3.0 cr)

Biostatistics Programming Course (2 credits)

- PUBH 6755 - Planning and Budgeting for Public Health (2.0 cr)

Epidemiology (3 credits)

Take 1 of the following courses. A minimum grade of B- is required.

- PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)
- or PUBH 6341 - Epidemiologic Methods I (3.0 cr)

Applied Practice Experience (2 credits)

Take the following course in consultation with the advisor:

- PUBH 7796 - Applied Practice Experience: Public Health Administration and Policy (2.0 cr)

Integrative Learning Experience (2 credits)

Take 2 ILE credits in consultation with the advisor.

- PUBH 7794 - Integrative Learning Experience: Public Health Administration and Policy (2.0 cr)

PHAP Core Requirements (12 credits)

A minimum grade of B- is required for the following courses:

- PUBH 6724 - The Health Care System and Public Health (3.0 cr)
- PUBH 6727 - Health Leadership and Effecting Change (2.0 cr)
- PUBH 6735 - Principles of Health Policy (3.0 cr)

Seminar (2 credits)

Students take this course twice for a total of two credits.

- PUBH 7784 - Master's Project Seminar: PHAP and HSRP&A (1.0 cr)

Electives (10 to 11 credits)

Take courses from the list below, or other coursework in consultation with the advisor.

- JOUR 5542 - Theory-based Health Message Design (3.0 cr)
- LAW 6036 - Reproductive Rights (3.0 cr)
- MILI 6421 - Healthcare Law: Strategic and Business Implications (2.0 cr)
- MILI 6992 - Healthcare Delivery Innovations: Optimizing Cost and Quality (2.0 cr)
- MILI 6995 - Medical Industry Valuation Laboratory (2.0 cr)
- PA 5271 - Geographic Information Systems: Applications in Planning and Policy Analysis (3.0 cr)
- PUBH 6049 - Legislative Advocacy Skills for Public Health (3.0 cr)
- PUBH 6074 - Mass Communication and Public Health (3.0 cr)
- PUBH 6078 - Public Health Policy as a Prevention Strategy (2.0 cr)
Program Sub-plans

A sub-plan is not required for this program. Students may not complete the program with more than one sub-plan.

Executive Public Health Administration and Policy
This sub-plan is limited to students completing the program under Plan C.

The Executive Public Health Administration & Policy (E-PHAP) MPH program is tailored to working public and population health professionals currently in or seeking leadership roles in government agencies, nonprofits, health systems, and other organizations that aim to improve the health of populations.

The program is designed for early and mid-career professionals who have at least three years of professional experience and who are committed to managing organizations that improve public and population health.

The E-PHAP degree is a 42-credit program designed to be completed in 25 months. Students enrolled in the program will spend 17 days on campus where they will complete four intensive (7 credits total) in-person courses that include an online component. The remainder of the program is delivered in an online environment.

Public Health Core Requirements (17 to 18 credits)
Take the following courses. A minimum grade of B- must be earned for each course.

**Required Coursework (12 credits)**
- PUBH 6020 - Fundamentals of Social and Behavioral Science (2.0 cr)
- PUBH 6102 - Issues in Environmental Health (2.0 cr)
- PUBH 6250 - Foundations of Public Health (2.0 cr)
- PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)
- PUBH 6741 - Ethics in Public Health: Professional Practice and Policy (1.0 cr)
- PUBH 6751 - Principles of Management in Health Services Organizations (2.0 cr)
Biostatistics Requirement
Take a biostatistics course and the biostatistics programming course. A minimum grade of B- is required.

**Biostatistics Course (3 - 4 credits)**
- PUBH 6450 - Biostatistics I (4.0 cr)
  or PUBH 6414 - Biostatistical Literacy (3.0 cr)

**Biostatistics Programming Course (2 credits)**
- PUBH 6755 - Planning and Budgeting for Public Health (2.0 cr)

Integrated Learning Experience (2 credits)
Take 2 ILE credits in consultation with the advisor.
- PUBH 7794 - Integrative Learning Experience: Public Health Administration and Policy (2.0 cr)

E-PHAP Core Courses (16 credits)
Take the following courses. A minimum grade of B- must be earned for each course.
- PUBH 6724 - The Health Care System and Public Health (3.0 cr)
- PUBH 6735 - Principles of Health Policy (3.0 cr)
- PUBH 6765 - Continuous Quality Improvement: Methods and Techniques (3.0 cr)
- PUBH 6770 - Setting Priorities and Framing Public Health Issues (2.0 cr)
- PUBH 7720 - Data to Drive Public Health (2.0 cr)
- PUBH 7730 - Public Health Laws, Rules, and Regulations (1.0 cr)
- PUBH 7740 - Leadership and Leading Change (2.0 cr)

Applied Practice Experience (2 credits)
Take 2 credits in consultation with the advisor.
- PUBH 7796 - Applied Practice Experience: Public Health Administration and Policy (2.0 cr)

Electives
Select electives in consultation with the advisor as needed to complete the 42-credit requirement.
- LAW 6036 - Reproductive Rights (3.0 cr)
- MILI 6421 - Healthcare Law: Strategic and Business Implications (2.0 cr)
- MILI 6992 - Healthcare Delivery Innovations: Optimizing Cost and Quality (2.0 cr)
- MILI 6995 - Medical Industry Valuation Laboratory (2.0 cr)
- PUBH 6060 - Motivational Interviewing: Strategies to Effect Behavior Change (1.0 cr)
- PUBH 6074 - Mass Communication and Public Health (3.0 cr)
- PUBH 6078 - Public Health Policy as a Prevention Strategy (2.0 cr)
- PUBH 6108 - Foundations of Global Health (2.0 cr)
- PUBH 6131 - Working in Global Health (2.0 cr)
- PUBH 6135 - Job Search Strategies and Career Professional Development (1.0 cr)
- PUBH 6365 - Global Challenges in Infectious Disease Epidemiology (2.0 cr)
- PUBH 6381 - Genetics in Public Health in the Age of Precision Medicine (2.0 cr)
- PUBH 6387 - Cancer Epidemiology (2.0 cr)
- PUBH 6576 - Understanding Clinical Quality Using Administrative Data (2.0 cr)
- PUBH 6606 - Children's Health: Life Course and Equity Perspectives (2.0 cr)
- PUBH 6627 - Sexuality Education: Criteria, Curricula, and Controversy (1.0 cr)
- PUBH 6702 - Integrative Leadership Seminar (3.0 cr)
- PUBH 6711 - Public Health Law (2.0 cr)
- PUBH 6730 - International Comparative Health Systems (2.0 cr)
- PUBH 6815 - Community-based Participatory Research (2.0 cr)
- PUBH 6855 - Medical Sociology (3.0 cr)
- PUBH 6863 - Understanding Health Care Quality (2.0 cr)
- PUBH 7214 - Principles of Risk Communication (1.0 cr)
- PUBH 7227 - Incident Management Systems: The Public Health Role (1.0 cr)
- PUBH 7235 - Surveillance of Zoonotic Pathogens in Animals (1.0 cr)
- PUBH 7242 - War and Public Health (1.0 cr)
- PUBH 7250 - Designing and Conducting Focus Group Interviews (1.0 cr)
- PUBH 7253 - Introduction to GIS (1.0 cr)
- PUBH 7257 - Qualitative Data Analysis (1.0 cr)
- PUBH 7262 - Globalization and Health (1.0 cr)
- PUBH 7415 - Introduction to Clinical Trials (3.0 cr)
- PUBH 7764 - Master's Project Seminar: PHAP and HSRP&A (1.0 cr)
- PUBH 8802 - Health Services Policy Analysis: Applications (2.0 cr)

- This program does not require summer semesters for timely completion.
- Degree: Public Health Core Concepts PBacc Certificate

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Public Health Core Concepts Certificate program is designed for working health or human services professionals, and includes the core content from our Master of Public Health degree programs. The certificate provides training that prepares public health workers and others to respond to emerging public health issues.

The School of Public Health is accredited by the Council on Education for Public Health (CEPH).

Accreditation
This program is accredited by Council on Education for Public Health (CEPH)

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- completely online (all program coursework can be completed online)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Completed baccalaureate degree required. Strong writing skills, strong math and science grades, and related work experience preferred.

Special Application Requirements:
Applicants must submit to SOPHAS Express, a centralized online application service:
- Completed SOPHAS Express application and application fee, designating the University of Minnesota School of Public Health
- Personal statement describing the applicant's reason for applying, career goals, and how the certificate will help them achieve their goals
- One letter of recommendation
- Official transcripts will need to be sent directly to the School of Public Health.
- Resume or C.V.

For detailed application requirements and instructions visit www.sph.umn.edu.

International students who want to attend this program on a student visa should contact the University's International Student and Scholar Services (ISSS) office at https://isss.umn.edu/.

International applicants must submit score(s) from one of the following tests:

- Degree: Master of Public Health

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The Biostatistics (BIO) MPH in Public Health Data Science is intended for individuals with a strong interest in advancing public health via the application of methods from data science. The program equips students with the data management, computational manipulation, statistical analysis, and scientific communication skills that will allow them to contribute to designing, understanding, and implementing public health efforts in the future. Students in this program take coursework covering core topics in public health, including epidemiology, biostatistics, health policy, and environmental health. Additional coursework and internship opportunities provide training in the computational, biostatistical, and epidemiologic methods needed to analyze large, complex datasets relevant to public health.

The School of Public Health is accredited by the Council on Education for Public Health (CEPH).

Accreditation
This program is accredited by CEPH (Council on Education for Public Health)

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
To be considered for admission, prospective students must have completed the equivalent of college algebra. Prior coursework in or exposure to statistics, programming, and calculus/linear algebra may be helpful but is not required.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7
- MELAB
  - Final score: 80

Program Requirements

Plan C: Plan C requires 43 major credits and up to null credits outside the major. The final exam is oral. A capstone project is required.

Capstone Project: Students complete 1 credit of PUBH 7494 (Integrative Learning Experience)

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

Public Health Core Requirements (12 credits)
Take the following courses for a total of 12 credits. A minimum grade of B- is required for each course.

- PUBH 6020 - Fundamentals of Social and Behavioral Science (2.0 cr)
- PUBH 6102 - Issues in Environmental Health (2.0 cr)
- PUBH 6250 - Foundations of Public Health (2.0 cr)
- PUBH 6741 - Ethics in Public Health: Professional Practice and Policy (1.0 cr)
- PUBH 6751 - Principles of Management in Health Services Organizations (2.0 cr)

Epidemiology Requirement
- PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)
  or PUBH 6341 - Epidemiologic Methods I (3.0 cr)

Public Health Data Science Core Requirements (17 credits)
Take the following courses:

- PUBH 6450 - Biostatistics I (4.0 cr)
- PUBH 6451 - Biostatistics II (4.0 cr)
- PUBH 7461 - Exploring and Visualizing Data in R (2.0 cr)
- PUBH 7462 - Advanced Programming and Data Analysis in R (2.0 cr)
- PUBH 7463 - Fundamentals of Prediction and Machine Learning for Public Health (3.0 cr)
- PUBH 7465 - Biostatistics Consulting (2.0 cr)

Electives (12 credits)
Select 6 credits from each of the following 2 groups:

Methods and Study Design (6 credits)
Select 6 credits from the following list. Other 7xxx or 8xxx courses, or other methods courses at the 6xxx level or above, can be chosen with program director approval.

- PUBH 6342 - Epidemiologic Methods II (3.0 cr)
- PUBH 6809 - Advanced Methods in Health Decision Science (3.0 cr)
- PUBH 7401 - Fundamentals of Biostatistical Inference (4.0 cr)
- PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
- PUBH 7445 - Statistics for Human Genetics and Molecular Biology (3.0 cr)
- PUBH 7470 - Study Designs in Biomedical Research (3.0 cr)

Clinical Trial Options
- PUBH 7415 - Introduction to Clinical Trials (3.0 cr)
  or PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)

Programming, Databases and Visualization (6 credits)
Select 6 credits from the following list. Other courses can be chosen with program director approval.

- CSCI 5707 - Principles of Database Systems (3.0 cr)
- GEOG 5561 - Principles of Geographic Information Science (4.0 cr)
- HINF 5430 - Foundations of Health Informatics I (3.0 cr)
- HINF 5440 - Foundations of Translational Bioinformatics (3.0 cr)
- HINF 5450 - Foundations of Precision Medicine Informatics (3.0 cr)
- HINF 5502 - Python Programming Essentials for the Health Sciences (1.0 cr)
- HINF 5510 - Applied Health Care Databases: Database Principles and Data Evaluation (3.0 cr)
- HINF 5531 - Health Data Analytics and Data Science (3.0 cr)
- HINF 5610 - Foundations of Biomedical Natural Language Processing (3.0 cr)
- HINF 5630 - Clinical Data Mining (3.0 cr)
- MSBA 6331 - Big Data Analytics (3.0 cr)
- PUBH 6141 - GIS & Spatial Analysis for Public Health (3.0 cr)
- PUBH 6325 - Data Processing with PC-SAS (1.0 cr)
- PUBH 6420 - Introduction to SAS Programming (1.0 cr)
- PUBH 6739 - Data Dashboards and Visualization with Tableau (1.0 cr)
- PUBH 7253 - Introduction to GIS (1.0 cr)

Applied Practice Experience (1 credit)
Take the following course in consultation with the advisor.
**PUBH 7496 - Applied Practice Experience: Biostatistics (1.0 cr)**

**Integrative Learning Experience (1 credit)**
Take the following in consultation with the advisor.
**PUBH 7494 - Integrative Learning Experience: Biostatistics (1.0 - 3.0 cr)**

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

NOTE: Applications are not being accepted at this time.

The Public Health Food Protection certificate is designed for professionals working in health or human services. It prepares public health workers and others to respond to incidents of bioterrorism, infectious disease outbreaks, and other emerging public health issues. Many students use the knowledge and skills gained to enhance opportunities in their current work or career path.

The curriculum can be completed by attending at least two sessions of the Public Health Institute, held in May and June every year.

Accreditation
This program is accredited by Council on Education for Public Health (CEPH)

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission

A minimum GPA of 3.00 is required for students to remain in good standing.

Suggested Coursework (9 credits)
Select at least 9 credits of coursework in consultation with the advisor and director of graduate studies.
PUBH 7210 - Topics: Global Food Systems (0.5 cr)
PUBH 7214 - Principles of Risk Communication (1.0 cr)
PUBH 7215 - Food Safety: Risk Assessment and Risk Management (1.0 cr)
PUBH 7233 - Food System Defense: Vulnerabilities in the Food System (1.5 cr)
PUBH 6181 - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
PUBH 7231 - Surveillance of Foodborne Diseases in Humans (1.0 cr)
PUBH 7200 - Topics: Public Health Practice (0.5 - 4.0 cr)
PUBH 6711 - Public Health Law (2.0 cr)
PUBH 6182 - Emerging Infectious Disease: Current Issues, Policies, and Controversies (3.0 cr)

Elective Courses (5 credits)
Select at least 5 credits in consultation with the academic advisor.

The pre-approved Topics courses are:
PUBH 7200 The Politics of Policy, Turning Good Ideas into Better Health (1 cr)
PUBH 7200 Food Labeling and Nutrition and Law (1 cr)
PUBH 7200 Epidemiology and Ecology of Mycobacterial Diseases (1 cr)
PUBH 7200 Global Studies in Infectious Disease (1 cr)
PUBH 7200 Understanding the Emergence of Zoonotic Diseases (1 cr)
PUBH 7217 - Advances in Molecular Epidemiological Analysis (1.0 cr)
or PUBH 7230 - Topics in Infectious Disease (0.5 - 4.0 cr)
or PUBH 7231 - Surveillance of Foodborne Diseases in Humans (1.0 cr)
or PUBH 7200 - Topics: Public Health Practice (0.5 - 4.0 cr)

**Contact Information:**
School of Public Health, MMC 819, A395 Mayo Memorial Building, 420 Delaware Street, Minneapolis, MN 55455 (612-626-3500 OR 1-800-774-8636)
Email: sph-ask@umn.edu
Website: [http://www.sph.umn.edu](http://www.sph.umn.edu)

- Program Type: Graduate free-standing minor
- Requirements for this program are current for Fall 2022
- Length of program in credits (Masters): 8
- Length of program in credits (Doctorate): 14
- This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the [General Information](#) section of the catalog website for requirements that apply to all major fields.

The graduate minor in public health is designed to prepare professionals in health and other fields (e.g., law, business, architecture, urban planning, teaching and engineering, including dual-degree students) to understand how their professional activities impact the health of communities, and to work together across disciplines, organizations, and sectors on innovative strategies to improve population health.

**Accreditation**
This program is accredited by Council on Education for Public Health (CEPH)

**Program Delivery**
This program is available:
- via classroom (the majority of instruction is face-to-face)
- completely online (all program coursework can be completed online)

**Prerequisites for Admission**
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Admission to the public health graduate minor is contingent upon enrollment in a master's or doctoral degree-granting program at the University of Minnesota. Students enrolled in graduate programs within the School of Public Health are not eligible for this minor.

Consult with your advisor and the public health director of graduate studies regarding the option of a minor in public health.

For an online application or for more information about graduate education admissions, see the [General Information](#) section of the catalog website.

**Program Requirements**
Use of 4xxx courses towards program requirements is not permitted.

Required courses must be taken A-F, and a minimum grade of B- must be earned.
The overall minimum GPA for coursework applied to the minor is 3.0.

**Required Coursework (8 credits)**

**Required Course**
Take the following course:
PUBH 6250 - Foundations of Public Health (2.0 cr)
Take one of the following courses:
PUBH 6414 - Biostatistical Literacy (3.0 cr)
or PUBH 6450 - Biostatistics I (4.0 cr)

**Epidemiology Course**

Take one of the following courses:
- PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)
- or PUBH 6341 - Epidemiologic Methods I (3.0 cr)

**Program Sub-plans**

Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

**Masters**

**Doctoral Electives (6 credits)**

Select 6 credits, in consultation with the Public Health director of graduate studies, to complete the 14-credit requirement.

- PUBH 6034 - Evaluation I: Concepts (3.0 cr)
- PUBH 6055 - Social Inequalities in Health (2.0 cr)
- PUBH 6066 - Building Communities, Increasing Health: Preparing for Community Health Work (2.0 cr)
- PUBH 6074 - Mass Communication and Public Health (3.0 cr)
- PUBH 6076 - Public Health Policy as a Prevention Strategy (2.0 cr)
- PUBH 6108 - Foundations of Global Health (2.0 cr)
- PUBH 6112 - Environmental Health Risk Assessment: Application to Human Health Risks from Exposure to Chemicals (2.0 cr)
- PUBH 6120 - Injury Prevention in the Workplace, Community, and Home (2.0 cr)
- PUBH 6123 - Violence Prevention and Control: Theory, Research, and Application (2.0 cr)
- PUBH 6131 - Working in Global Health (2.0 cr)
- PUBH 6132 - Air, Water, and Health (2.0 cr)
- PUBH 6134 - Sustainable Development and Global Public Health (2.0 cr)
- PUBH 6140 - Occupational and Environmental Epidemiology (2.0 cr)
- PUBH 6159 - Principles of Toxicology I (2.0 cr)
- PUBH 6160 - Principles of Toxicology II (3.0 cr)
- PUBH 6161 - Regulatory Toxicology (2.0 cr)
- PUBH 6170 - Introduction to Occupational Health and Safety (3.0 cr)
- PUBH 6173 - Exposure to Physical Agents (2.0 cr)
- PUBH 6181 - Surveillance of Foodborne Diseases and Food Safety Hazards (2.0 cr)
- PUBH 6182 - Emerging Infectious Disease: Current Issues, Policies, and Controversies (3.0 cr)
- PUBH 6190 - Environmental Chemistry (3.0 cr)
- PUBH 6333 - Principles of Human Behavior I (2.0 cr)
- PUBH 6334 - Human Behavior II (2.0 cr)
- PUBH 6342 - Epidemiologic Methods II (3.0 cr)
- PUBH 6348 - Writing Research Grants (2.0 cr)
- PUBH 6355 - Pathophysiology of Human Disease (4.0 cr)
- PUBH 6370 - Social Epidemiology (2.0 cr)
- PUBH 6381 - Genetics in Public Health in the Age of Precision Medicine (2.0 cr)
- PUBH 6385 - Epidemiology and Control of Infectious Diseases (2.0 cr)
- PUBH 6386 - Cardiovascular Disease Epidemiology and Prevention (2.0 cr)
- PUBH 6387 - Cancer Epidemiology (2.0 cr)
- PUBH 6389 - Nutritional Epidemiology (2.0 cr)
- PUBH 6451 - Biostatistics II (4.0 cr)
- PUBH 6556 - Health and Health Systems (3.0 cr)
- PUBH 6605 - Sexual, Reproductive, and Perinatal Public Health (2.0 cr)
- PUBH 6636 - Qualitative Research Methods in Public Health Practice (2.0 cr)
- PUBH 6675 - Women's Health (2.0 cr)
- PUBH 6717 - Decision Analysis for Health Care (2.0 cr)
- PUBH 6724 - The Health Care System and Public Health (3.0 cr)
- PUBH 6727 - Health Leadership and Effecting Change (2.0 cr)
- PUBH 6735 - Principles of Health Policy (3.0 cr)
- PUBH 6744 - State Health Policy and Politics (2.0 cr)
- PUBH 6751 - Principles of Management in Health Services Organizations (2.0 cr)
- PUBH 6803 - Conducting a Systematic Literature Review (3.0 cr)
- PUBH 6804 - Mental Health Policy (2.0 cr)
- PUBH 6806 - Principles of Public Health Research (2.0 cr)
- PUBH 6809 - Advanced Methods in Health Decision Science (3.0 cr)
- PUBH 6810 - Survey Research Methods (3.0 cr)
- PUBH 6815 - Community-based Participatory Research (2.0 cr)
PUBH 6832 - Economics of the Health Care System (3.0 cr)
PUBH 6845 - Using Demographic Data for Policy Analysis (3.0 cr)
PUBH 6852 - Program Evaluation in Health and Mental Health Settings (2.0 cr)
PUBH 6862 - Cost-Effectiveness Analysis in Health Care (3.0 cr)
PUBH 6863 - Understanding Health Care Quality (2.0 cr)
PUBH 6864 - Conducting Health Outcomes Research (3.0 cr)
PUBH 7250 - Designing and Conducting Focus Group Interviews (1.0 cr)
PUBH 7401 - Fundamentals of Biostatistical Inference (4.0 cr)
PUBH 7402 - Biostatistics Modeling and Methods (4.0 cr)
PUBH 7405 - Biostatistical Inference I (4.0 cr)
PUBH 7406 - Biostatistical Inference II (3.0 cr)
PUBH 7420 - Clinical Trials: Design, Implementation, and Analysis (3.0 cr)
PUBH 7430 - Statistical Methods for Correlated Data (3.0 cr)
PUBH 7445 - Statistics for Human Genetics and Molecular Biology (3.0 cr)
PUBH 7450 - Survival Analysis (3.0 cr)
PUBH 8160 - Advanced Toxicology (2.0 cr)
PUBH 8341 - Advanced Epidemiologic Methods: Concepts (3.0 cr)
PUBH 8342 - Advanced Epidemiologic Methods: Applications (3.0 cr)
PUBH 8801 - Health Services Policy Analysis: Theory (1.0 cr)
PUBH 8802 - Health Services Policy Analysis: Applications (2.0 cr)
PUBH 8811 - Research Methods in Health Care (3.0 cr)
PUBH 8821 - Health Economics II (3.0 cr)
PUBH 6102 - Issues in Environmental Health (2.0 cr)

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 42 to 58
- This program requires summer semesters for timely completion.
- Degree: Master of Public Health

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The public health nutrition (PHN) MPH program is designed for students who are committed to health promotion and disease prevention through healthy eating. The curriculum emphasizes food access, nutrition policy, community nutrition interventions and programs, health disparities, nutrition assessment, and healthy eating throughout the life course. Students must complete a minimum of 42 credits.

The public health nutrition coordinated masters program (CMP) provides both an MPH in public health nutrition and the required coursework and internship hours to be eligible to take the RD exam. This is a highly competitive program. Students with a nutrition/dietetics undergraduate degree must complete a minimum of 52 credits, and students without a nutrition/dietetics undergraduate degree must complete a minimum of 59 credits.

The School of Public Health is accredited by the Council on Education for Public Health (CEPH).

Accreditation
This program is accredited by Council on Education for Public Health (CEPH) & Commission on Accreditation for Dietetics Education.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
All applicants must have completed the following:
- one general biology course with lab;
- two general chemistry classes with labs;
- one organic chemistry course;
- one biochemistry course;
- one human nutrition course; and
- one social science course.

The application deadline is July 1 for fall admission. All courses must be completed before starting the program. Applicants with outstanding prerequisites must include how those courses will be completed prior to the program.

Special Application Requirements:
CMP applicants must also complete:
- one physiology course;
- one microbiology course with lab;

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of November 07, 2022
one intro to nutrition course;
one intro to food science course; and
one food systems/service management course.

The application deadline for the CMP track is December 1. All courses must be completed before starting the program. Applicants with outstanding prerequisites must include how those courses will be completed prior to the program.

CMP applicants, upon admission to the MPH, undergo an additional email and phone interview process. Students admitted to the MPH but not the CMP track are not eligible to pursue the track at a later date.

International applicants must submit score(s) from one of the following tests:

- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements

Plan C: Plan C requires 42 to 58 major credits and up to null credits outside the major. There is no final exam. A capstone project is required.

Capstone Project: Students complete an Integrated Learning Experience (ILE) in consultation with the advisor.

This program may be completed with a minor.

Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

A minimum GPA of 3.00 is required for students to remain in good standing.

Courses must be taken A-F unless offered only S/N. A minimum grade of B- must be earned for required courses.

4xxx-level coursework not accepted toward the degree, with the exception of courses required for students admitted to the MPH with non-nutrition/dietetics undergraduate degrees.

Public Health Core Requirements (7 credits)

PUBH 6102 - Issues in Environmental Health (2.0 cr)
PUBH 6741 - Ethics in Public Health: Professional Practice and Policy (1.0 cr)
PUBH 6751 - Principles of Management in Health Services Organizations (2.0 cr)
PUBH 6901 - Foundations of Public Health Nutrition Leadership (2.0 cr)

Epidemiology (3 credits)

PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)
or PUBH 6341 - Epidemiologic Methods I (3.0 cr)

Biostatistics (4 credits)

Select PUBH 6450 (4 credits) or PUBH 6414 (3 credits) plus one biostatistics programming course, in consultation with the advisor, to meet the 4-credit biostatistics requirement.
PUBH 6450 - Biostatistics I (4.0 cr)
or PUBH 6414 - Biostatistical Literacy (3.0 cr)

Students who take PUBH 6414 must select an additional course for at least one credit, in consultation with the advisor, from the following list:

- PA 5929 - Data Visualization: Telling Stories with Numbers (2.0 cr)
- PUBH 6107 - Excel Skills for Data Management in Public Health Settings (1.0 cr)
- PUBH 6123 - Violence Prevention and Control: Theory, Research, and Application (2.0 cr)
- PUBH 6325 - Data Processing with PC-SAS (1.0 cr)
- PUBH 6420 - Introduction to SAS Programming (1.0 cr)

Public Health Nutrition Core (7 credits)
PUBH 6914 - Community Nutrition Intervention (3.0 cr)
PUBH 6915 - Nutrition Assessment (2.0 cr)
PUBH 6933 - Nutrition and Chronic Diseases (2.0 cr)

**Lifespan Nutrition (4-5 credits)**
Select two courses from the following list in consultation with the advisor. CMP-track students with non-nutrition/dietetics undergraduate degrees must take PUBH 6904 and PUBH 6907.
Take 2 or more course(s) from the following:
- PUBH 6904 - Nutrition and Aging (2.0 cr)
- PUBH 6906 - Global Nutrition (2.0 cr)
- PUBH 6907 - Maternal, Infant, Child and Adolescent Nutrition (3.0 cr)

**Research Methods (3-4 credits)**
Select 3-4 credits from the following list, in consultation with the advisor:
- NURS 8171 - Qualitative Research Design and Methods (3.0 - 4.0 cr)
- PA 5929 - Data Visualization: Telling Stories with Numbers (2.0 cr)
- PUBH 6034 - Evaluation I: Concepts (3.0 cr)
- PUBH 6035 - Evaluation II: Applications (3.0 cr)
- PUBH 6107 - Excel Skills for Data Management in Public Health Settings (1.0 cr)
- PUBH 6123 - Violence Prevention and Control: Theory, Research, and Application (2.0 cr)
- PUBH 6325 - Data Processing with PC-SAS (1.0 cr)
- PUBH 6342 - Epidemiologic Methods II (3.0 cr)
- PUBH 6389 - Nutritional Epidemiology (2.0 cr)
- PUBH 6420 - Introduction to SAS Programming (1.0 cr)
- PUBH 6451 - Biostatistics II (4.0 cr)
- PUBH 6636 - Qualitative Research Methods in Public Health Practice (2.0 cr)
- PUBH 6803 - Conducting a Systematic Literature Review (3.0 cr)
- PUBH 6906 - Principles of Public Health Research (2.0 cr)
- PUBH 6852 - Program Evaluation in Health and Mental Health Settings (2.0 cr)
- PUBH 7250 - Designing and Conducting Focus Group Interviews (1.0 cr)

**Integrated Learning Experience (1-2 credits)**
Take 1-2 credits in consultation with the advisor.
- PUBH 7994 - Integrated Learning Experience: Public Health Nutrition (1.0 - 6.0 cr)

**Electives**
Select electives, in consultation with the advisor, as needed to meet minimum credit requirements. Electives courses may be taken with a C- grade.
- CSPH 5101 - Introduction to Integrative Healing Practices (3.0 cr)
- CSPH 5102 - Art of Healing: Self as Healer (1.0 cr)
- CSPH 5111 - Ways of Thinking about Health (2.0 cr)
- CSPH 5115 - Cultural Awareness, Knowledge and Health (3.0 cr)
- CSPH 5118 - Whole Person, Whole Community: The Reciprocity of Wellbeing (3.0 cr)
- CSPH 5215 - Forgiveness and Healing: A Journey Toward Wholeness (3.0 cr)
- CSPH 5303 - Pain Management and Evidence Based Complementary Health Approaches (3.0 cr)
- CSPH 5305 - Introduction to Integrative Mental Health (2.0 cr)
- CSPH 5431 - Functional Nutrition: An Expanded View of Nutrition, Chronic Disease, and Optimal Health (2.0 cr)
- CSPH 5701 - Fundamentals of Health Coaching I (4.0 cr)
- CSPH 5702 - Fundamentals of Health Coaching II (4.0 cr)
- CSPH 5703 - Advanced Health Coaching Practicum (3.0 cr)
- CSPH 5704 - Business of Health Coaching (2.0 cr)
- CSPH 5706 - Lifestyle Medicine (2.0 cr)
- CSPH 5707 - Coaching People with Clinical Conditions (2.0 cr)
- CSPH 5708 - Mind-Body Science and the Art of Transformation (1.0 cr)
- CSPH 5709 - Health and Wellbeing Group Coaching (2.0 cr)
- CSPH 5713 - Health Coaching for Health Professionals (2.0 cr)
- CSPH 5805 - Wellbeing in the Workplace (3.0 cr)
- CSPH 5806 - Wellbeing and Resiliency for Health Professionals (1.0 cr)
- CSPH 5807 - Mindfulness in the Workplace: Pause, Practice, Perform (2.0 cr)
- CSPH 5905 - Food Matters: Cook Like Your Life Depends On It (1.0 cr)
- EPSY 5114 - Psychology of Student Learning (3.0 cr)
- EPSY 5247 - Qualitative Methods in Educational Psychology (3.0 cr)
- EPSY 5609 - Infants and Toddlers with Delays/Disabilities: Family-Centered Approaches to Early Intervention (3.0 cr)
- EPSY 8251 - Statistical Methods in Education I (3.0 cr)
- EPSY 8264 - Advanced Multiple Regression Analysis (3.0 cr)
- EPSY 8282 - Statistical Analysis of Longitudinal Data (3.0 cr)
- FSCN 4612W - Advanced Human Nutrition [WI] (4.0 cr)

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of November 07, 2022
FSCN 4614W - Community Nutrition [SOCS, DSJ, WI] (3.0 cr)
FSCN 4621 - Nutrition and Metabolism (4.0 cr)
FSCN 4622 - Nutritional Toxicology, the basic science of diet-related toxicants (3.0 cr)
FSCN 4665 - Medical Nutrition Therapy I (3.0 cr)
FSCN 4666 - Medical Nutrition Therapy II (3.0 cr)
FSCN 4732 - Food and Nutrition Management (3.0 cr)
FSCN 5131 - Food Quality for Graduate Credit (3.0 cr)
FSCN 5312 - Food Analysis (4.0 cr)
FSCN 5601 - Management of Eating Disorders (3.0 cr)
FSOS 5014 - Quantitative Family Research Methods I (3.0 cr)
FSOS 5015 - Family Research Laboratory (1.0 cr)
FSOS 5111 - Introduction to Family Therapy (3.0 cr)
FSOS 5701 - Prevention Science: Principles and Practices (3.0 cr)
FSOS 5937 - Parent-Child Interaction (3.0 cr)
FSOS 5942 - Diverse Family Experiences (3.0 cr)
FSOS 5944 - Curricular Design in Parent Education (3.0 cr)
FSOS 5945 - Teaching and Learning in Parent Education (3.0 cr)
FSOS 5946 - Assessment and Evaluation in Parent Education (3.0 cr)
FSOS 8001 - Conceptual Frameworks in the Family (3.0 cr)
FSOS 8002 - Advanced Family Conceptual Frameworks (3.0 cr)
FSOS 8014 - Quantitative Family Research Methods II (3.0 cr)
FSOS 8036 - Couple/Marriage and Family Therapy Research (3.0 cr)
FSOS 8101 - Family Stress, Coping, and Adaptation (3.0 cr)
HINF 5430 - Foundations of Health Informatics I (3.0 cr)
HINF 5431 - Foundations of Health Informatics II (3.0 cr)
HINF 5440 - Foundations of Translational Bioinformatics (3.0 cr)
HINF 5450 - Foundations of Precision Medicine Informatics (3.0 cr)
HINF 5502 - Python Programming Essentials for the Health Sciences (1.0 cr)
HINF 5510 - Applied Health Care Databases: Database Principles and Data Evaluation (3.0 cr)
HINF 5520 - Informatics Methods for Health Care Quality, Outcomes, and Patient Safety (2.0 cr)
HINF 5531 - Health Data Analytics and Data Science (3.0 cr)
HINF 5610 - Foundations of Biomedical Natural Language Processing (3.0 cr)
HINF 5620 - Data Visualization for the Health Sciences (3.0 cr)
HINF 5630 - Clinical Data Mining (3.0 cr)
HSEX 6001 - Foundations of Human Sexuality (3.0 cr)

Program Sub-plans

Students are required to complete one of the following sub-plans. Students may not complete the program with more than one sub-plan.

Standard Track
Courses must be taken A-F unless offered only S/N. Minimum grade of B- must be earned for required courses.

Applied Practice Experience (1-2 credits)
Take 1-2 credits in consultation with the advisor.

PUBH 7996 - Applied Practice Experience: Public Health Nutrition (1.0 - 5.0 cr)

Standard-track students with non-nutrition/dietetics degrees

Required Courses (8 credits)
Standard-track students must also complete the following 8-credit requirement if not taken previously in an undergraduate program:

FSCN 4621 - Nutrition and Metabolism (4.0 cr)
PUBH 6355 - Pathophysiology of Human Disease (4.0 cr)

Coordinated Masters Program
This sub-plan is optional and does not fulfill the sub-plan requirement for this program.

The Public Health Nutritions Coordinated Masters Program (CMP) track is a 24-month program that provides additional didactic coursework and supervised practice components for registration eligibility and entry into dietetics practice. Students complete 1,200 hours of supervised practice, utilizing sites within and outside Minnesota, throughout the program. CMP students must provide their own transportation during the course of the program as many sites are not accessible via public transportation. MPH/CMP-track graduates will be provided with an eligibility verification statement for the national registration examination for dietitians.

Courses must be taken A-F unless offered only S/N. Minimum grade of B- must be earned for required courses.
Applied Practice Experience (22 credits)
Take the following courses, in consultation with the advisor. PUBH 7991 and PUBH 7996 each must be taken for 4 credits.
PUBH 6995 - Community Nutrition Practicum (7.0 cr)
PUBH 6996 - Clinical Nutrition Practicum (7.0 cr)
PUBH 7991 - Independent Study: Public Health Nutrition (1.0 - 4.0 cr)
PUBH 7996 - Applied Practice Experience: Public Health Nutrition (1.0 - 5.0 cr)

CMP-track students with non-nutrition/dietetics degrees

Required Courses (6 credits)
CMP-track students with non-nutrition/dietetics undergraduate degrees must also complete the following 6-credit requirement:
FSCN 4665 - Medical Nutrition Therapy I (3.0 cr)
FSCN 4666 - Medical Nutrition Therapy II (3.0 cr)

- Program Type: Post-baccalaureate credit certificate/licensure/endorsement
- Requirements for this program are current for Fall 2022
- Length of program in credits: 12
- This program requires summer semesters for timely completion.
- Degree: Performance Improvement PBacc Cert

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

NOTE: Applications to the Performance Improvement Certificate program are not being accepted at this time. For more information, please contact sph-ask@umn.edu.

The public health certificate in performance improvement trains students to understand and apply quality improvement methods at both the systems and organizational level. The program will provide the tools needed in order to achieve and maintain high process performance.

The certificate provides participants with hands-on knowledge about how to improve processes in their respective organizations. By so doing, best practices will be diffused, and process performance will improve public health services.

This certificate addresses concerns voiced by the National Board of Public Health Examiners, the Public Health Accreditation Board, and the Council on Education for Public Health to provide more educational opportunities in performance improvement to working public health professionals.

Accreditation
This program is accredited by Council on Education for Public Health (CEPH)

Program Delivery
This program is available:
- completely online (all program coursework can be completed online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
NOTE: Applications to the Performance Improvement Certificate program are not being accepted at this time. For more information, please contact sph-ask@umn.edu.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7
- MELAB
  - Final score: 80

Key to test abbreviations (TOEFL, IELTS, MELAB).
For an online application or for more information about graduate education admissions, see the [General Information](#) section of the catalog website.

**Program Requirements**

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

**Required Coursework**

- PUBH 6765 - Continuous Quality Improvement: Methods and Techniques (3.0 cr)
- PUBH 6780 - Advanced Performance Improvement Methods in Public Health (2 cr)
- PUBH 6780 - Public Health Process Improvement Project - Practicum (3 cr)
- PUBH 6780 - Performance Management and Transformational Change (2 cr)

Students choose 2 elective credits with their advisor.

- Program Type: Master's
- Requirements for this program are current for Fall 2022
- Length of program in credits: 42
- This program requires summer semesters for timely completion.
- Degree: Master of Public Health

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The public health practice MPH brings together the science and the art of public health, addressing public health as a broad social enterprise that seeks to extend the benefits of current knowledge in ways that will have the maximum impact on the health status of populations.

Accreditation
This program is accredited by Council on Education for Public Health (CEPH)

Program Delivery
This program is available:
- primarily online (at least 80% of the instruction for the program is online with short, intensive periods of face-to-face coursework)
- partially online (between 50% to 80% of instruction is online)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
To be eligible for an MPH in public health practice, applicants are required to have one of the following: 1) an advanced degree, or 2) completed the Public Health Core Concepts Certificate Program, or 3) admission/enrollment in a dual degree DDS, DNP, DVM, MHR, JD, MD, MPP, MURP, PharmD program at an accredited US College or University. Please note specific program accreditation is required for these programs if applicable.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7

The preferred English language test is Test of English as Foreign Language

Key to test abbreviations (TOEFL, IELTS).

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.
Program Requirements

Plan C: Plan C requires 42 major credits and up to null credits outside the major. There is no final exam. A capstone project is required.

Capstone Project: Students complete at least 1 Integrated Learning Experience credit in consultation with the advisor.

This program may be completed with a minor.

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.0 is required for students to remain in good standing.

Courses must be taken A-F unless offered only S/N. Minimum grade of B- must be earned for required courses.

Public Health Core Requirements (12 credits)
Courses must be taken A-F, unless offered only S/N. A minimum grade of B- is required.

- PUBH 6020 - Fundamentals of Social and Behavioral Science (2.0 cr)
- PUBH 6102 - Issues in Environmental Health (2.0 cr)
- PUBH 6250 - Foundations of Public Health (2.0 cr)
- PUBH 6320 - Fundamentals of Epidemiology (3.0 cr)
- PUBH 6741 - Ethics in Public Health: Professional Practice and Policy (1.0 cr)
- PUBH 6751 - Principles of Management in Health Services Organizations (2.0 cr)

Biostatistics Requirement (4 credits)
Students select either PUBH 6450 Biostatistics I or PUBH 6414 Biostatistical Literacy plus a biostatistics programming course.

Biostatistics (4 credits)
Courses must be taken A-F, unless offered only S/N. A minimum grade of B- is required.

- PUBH 6450 - Biostatistics I (4.0 cr)
- or PUBH 6414 - Biostatistical Literacy (3.0 cr)

Biostatistics Programming Course Options
- PUBH 6107 - Excel Skills for Data Management in Public Health Settings (1.0 cr)
- PUBH 6325 - Data Processing with PC-SAS (1.0 cr)
- PUBH 6420 - Introduction to SAS Programming (1.0 cr)
- PUBH 6813 - Managing Electronic Health Information (2.0 cr)
- PUBH 6845 - Using Demographic Data for Policy Analysis (3.0 cr)
- PUBH 7461 - Exploring and Visualizing Data in R (2.0 cr)
- PA 5929 - Data Visualization: Telling Stories with Numbers (2.0 cr)
- PUBH 6123 - Violence Prevention and Control: Theory, Research, and Application (2.0 cr)
- PUBH 7264 - Data Visualization in R (1.0 cr)

Applied Practice Experience (1 credit)
Take at least one credit of the following in consultation with the advisor.

- PUBH 7296 - Applied Practice Experience: Public Health Practice (0.5 - 8.0 cr)

Integrated Learning Experience (1 credit)
Take at least one credit of the following in consultation with the advisor.

- PUBH 7294 - Integrative Learning Experience: Public Health Practice (0.5 - 4.0 cr)

Electives (24 credits)
Select elective courses in consultation with the advisor to complete the 42 credit minimum.

- PUBH 5231 - Emergency Preparedness: A Public Health Perspective (2.0 cr)
- PUBH 6011 - Public Health Approaches to HIV/AIDS (3.0 cr)
- PUBH 6034 - Evaluation I: Concepts (3.0 cr)
- PUBH 6035 - Evaluation II: Applications (3.0 cr)
- PUBH 6049 - Legislative Advocacy Skills for Public Health (3.0 cr)
- PUBH 6055 - Social Inequalities in Health (2.0 cr)
- PUBH 6060 - Motivational Interviewing: Strategies to Effect Behavior Change (1.0 cr)
- PUBH 6066 - Building Communities, Increasing Health: Preparing for Community Health Work (2.0 cr)
- PUBH 6074 - Mass Communication and Public Health (3.0 cr)
- PUBH 6078 - Public Health Policy as a Prevention Strategy (2.0 cr)
- PUBH 6081 - Sex, Sexuality, and Sexual Health (2.0 cr)
- PUBH 6094 - Interventions to Address Weight-Related Health and Eating Disorders (2.0 cr)
- PUBH 6106 - Foundations of Global Health (2.0 cr)
- PUBH 6123 - Violence Prevention and Control: Theory, Research, and Application (2.0 cr)
- PUBH 6130 - Occupational Medicine: Principles and Practice (2.0 cr)
- PUBH 6131 - Working in Global Health (2.0 cr)
- PUBH 6132 - Air, Water, and Health (2.0 cr)
- PUBH 6134 - Sustainable Development and Global Public Health (2.0 cr)

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

Part of the Public Health Practice major, this certificate program helps to prepare public health workers and others to respond to incidents of bioterrorism, infectious disease outbreaks, and other emerging public health issues.

Accreditation
This program is accredited by Council on Education for Public Health (CEPH)

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Applicants must hold a baccalaureate degree.

Special Application Requirements:
Applicants must submit to SOPHAS Express, a centralized online application service:
- Completed SOPHAS Express application and application fee, designating the University of Minnesota School of Public Health
- Personal statement describing the applicant's reason for applying, career goals, and how the certificate will help them achieve their goals
- One letter of recommendation
- Unofficial transcripts of record from each college/university where a degree was earned. (If admitted, official transcripts will need to be sent directly to the School of Public Health.)
- Resume or C.V.

For detailed application requirements and instructions visit www.sph.umn.edu.

International applicants must submit score(s) from one of the following tests:
- TOEFL
  - Internet Based - Total Score: 100
  - Paper Based - Total Score: 600
- IELTS
  - Total Score: 7
- MELAB
Key to test abbreviations (TOEFL, IELTS, MELAB).

Program Requirements

Use of 4xxx courses towards program requirements is not permitted.

A minimum GPA of 3.00 is required for students to remain in good standing.

Required Coursework

Take at least one course in each group below. Courses at the Public Health Institute are topical and will change from year to year. PUBH 7200 can meet the requirements of each group, depending on the topic. Please consult the program staff for appropriate courses.

Policy Development/Program Planning

Take 1 or more course(s) from the following:
• PUBH 5231 - Emergency Preparedness: A Public Health Perspective (2.0 cr)
• PUBH 7200 - Topics: Public Health Practice (0.5 - 4.0 cr)

Analytical/Assessment Skills

Take 1 or more course(s) from the following:
• PUBH 7230 - Topics in Infectious Disease (0.5 - 4.0 cr)
• PUBH 7231 - Surveillance of Foodborne Diseases in Humans (1.0 cr)
• PUBH 7235 - Surveillance of Zoonotic Pathogens in Animals (1.0 cr)

Communications Skills

Take 1 or more course(s) from the following:
• PUBH 7200 - Topics: Public Health Practice (0.5 - 4.0 cr)
• PUBH 7214 - Principles of Risk Communication (1.0 cr)

Cultural Competency Skills

Take 1 or more course(s) from the following:
• PUBH 7200 - Topics: Public Health Practice (0.5 - 4.0 cr)

Community Dimensions of Practice Skills

Take 1 or more course(s) from the following:
• PUBH 7200 - Topics: Public Health Practice (0.5 - 4.0 cr)
• PUBH 7227 - Incident Management Systems: The Public Health Role (1.0 cr)

Leadership and Systems Thinking, Financial Planning and Management Skills

Take 1 or more course(s) from the following:
• PUBH 6711 - Public Health Law (2.0 cr)
• PUBH 7200 - Topics: Public Health Practice (0.5 - 4.0 cr)
• PUBH 7221 - Planning for Urgent Threats (1.0 cr)

Electives

Students select remaining credits from an approved list to complete the certificate's 12-credit minimum. Courses at the Public Health Institute are topical and will change from year to year. Please consult the program staff for appropriate courses.

Take 1 or more course(s) from the following:
• PUBH 7200 - Topics: Public Health Practice (0.5 - 4.0 cr)
• PUBH 7210 - Topics: Global Food Systems (0.5 cr)
• PUBH 7237 - Using Risk Analysis Tools: Estimating Food Safety on the Farm to Table Continuum (1.0 cr)
• PUBH 7253 - Introduction to GIS (1.0 cr)

Contact Information:
School of Public Health, MMC 819, A395 Mayo Memorial Building, 420 Delaware St SE, Minneapolis, MN 55455 (612-626-3500 OR 1-800-774-8636).
Email: sph-ask@umn.edu
Website: http://www.sph.umn.edu

• Program Type: Graduate free-standing minor
• Requirements for this program are current for Fall 2022
• Length of program in credits (Masters): 6
• Length of program in credits (Doctorate): 12
• This program does not require summer semesters for timely completion.

Along with the program-specific requirements listed below, please read the General Information section of the catalog website for requirements that apply to all major fields.

The sexual health minor is designed for students who want to specialize in sex, sexuality, reproductive health, and sexual health. By taking public health courses tailored specifically to address sexual health, students are better able to enter the professional world with the confidence and skills needed to handle complex questions and issues related to sexual and reproductive health.

The School of Public Health is accredited by the Council on Education for Public Health (CEPH).

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Prerequisites for Admission
The preferred undergraduate GPA for admittance to the program is 3.00.

Other requirements to be completed before admission:
Students interested in the minor are strongly encouraged to confer with their major field advisor and director of graduate studies, and the Sexual Health director of graduate studies regarding feasibility and requirements.

For an online application or for more information about graduate education admissions, see the General Information section of the catalog website.

Program Requirements
Use of 4xxx courses toward program requirements is permitted under certain conditions with adviser approval.

All required minor coursework must be taken A-F and achieve a grade of B- or above. Elective coursework can be taken A-F or S/N. If electives are taken A-F students must achieve a B- or above. Graduate credits can be applied toward either the major or the minor/other requirement, but not both.

Required Course
Take the following course:
  PUBH 6081 - Sex, Sexuality, and Sexual Health (2.0 cr)

Additional Coursework
Required Coursework
Select at least one course from the following list:
  PUBH 6011 - Public Health Approaches to HIV/AIDS (3.0 cr)
